16.22.20.8 CONDITIONAL PRESCRIPTION CERTIFICATE OR PRESCRIPTION CERTIFICATE HEALTH CARE PRACTITIONER COLLABORATION GUIDELINES:

A. A conditional prescribing or prescribing psychologist shall obtain a release of information from the patient or the patient's legal guardian authorizing the psychologist to contact the patient's primary treating health care practitioner, as required by law.

B. If a patient or the patient's legal guardian refuses to sign a release of information for the patient's primary treating health care practitioner, the conditional prescribing or prescribing psychologist shall inform the patient or the patient's legal guardian that the psychologist cannot treat the patient pharmacologically without an ongoing collaborative relationship with the primary treating health care practitioner. The psychologist shall refer the patient to another mental health care provider who is not required to maintain an ongoing collaborative relationship with a health care practitioner.

C. A conditional prescribing or prescribing psychologist must provide written notice to the primary treating health care practitioner within 24 hours of issuance of a prescription to the patient. If a conditional prescribing psychologist or prescribing psychologist is working in a declared emergency/disaster area, the on-site medical staff can serve as the evaluating primary care physician.

D. If a patient does not have a primary treating health care practitioner, the conditional prescribing or prescribing psychologist shall refer the patient to a health care practitioner prior to psychopharmacological treatment. The psychologist must receive the results of the health care practitioner's assessment and shall contact the health care practitioner as required herein prior to prescribing.

E. Once the collaborative relationship is established with the primary treating health care practitioner, the conditional prescribing or prescribing psychologist shall maintain and document the collaborative relationship to ensure that relevant information is exchanged accurately and in a timely manner. The ongoing collaborative relationship shall be maintained pursuant to the following guidelines.

(1) A conditional prescribing or prescribing psychologist shall notify the primary treating health care practitioner if and when the patient experiences adverse effects from medications prescribed by the psychologist that may be related to the patient's medical condition for which he or she is being treated by a health care practitioner.

(2) A conditional prescribing or prescribing psychologist shall notify the primary treating health care practitioner regarding results of laboratory tests related to the medical care of the patient that have been ordered by the psychologist in conjunction with psychopharmacological treatment.

(3) A conditional prescribing or prescribing psychologist shall notify a treating health care practitioner as soon as possible of any change in the patient's psychological condition that may affect the medical treatment being provided by the health care practitioner.

16.22.21.8 LIMITS OF PRACTICE:

A. A conditional prescribing or prescribing psychologist shall limit practice and supervision to the areas of competence in which proficiency has been gained through education, training or experience.

B. A conditional prescribing or prescribing psychologist shall only prescribe drugs and treatments that are consistent with the standards of practice of clinical psychopharmacology.

C. Prescriptions transmitted electronically shall comply with state and federal regulation.

D. A conditional prescribing or prescribing psychologist may order and review laboratory tests, including imaging, that are consistent with the standards of practice of clinical psychopharmacology.

E. Unless in a rural area where an alternative prescriber is not available, a conditional prescribing or prescribing psychologist shall not prescribe medication to any person who is a member of the psychologist's family or household, or with whom the psychologist has an undue conflict of interest, including a prohibited dual relationship,

as defined in 16.22.1 NMAC, of these regulations and the code of conduct adopted by the board. The conditional prescribing or prescribing psychologist will transition such a patient to another provider without a prohibited dual relationship as soon as is feasible.

F. A conditional prescribing or prescribing psychologist is subject to provisions of the Professional Psychologist Act and board regulations. A psychologist who violates the Professional Psychologist Act or board regulations is subject to disciplinary action by the board, which may include denial, suspension, or revocation of a conditional prescription certificate or prescription certificate or suspension or revocation of a license to practice psychology.

G. A conditional prescribing or prescribing psychologist must comply with all other state and federal laws regulating the administering and prescribing of controlled substances.

H. Pursuant to Subsection E of Section 61-9-17.2 NMSA 1978, a conditional prescribing or prescribing psychologist deeming it necessary to prescribe drugs for the management of or protection from side effects that are the result of psychotropic treatment shall have 20 business days from the implementation of treatment for the management of side effects to notify and discuss the management of side effects with the health care practitioner who is overseeing the patient's general medical care. If after 20 business days the conditional prescribing or prescribing psychologist had been unable to reach the health care provider for the purpose of discussion of the side effect treatment, the conditional prescribing or prescribing psychologist shall discontinue the side effect treatment by tapering in a fashion consistent with the standard of care.

**16.22.23.8 QUALIFICATIONS AND EDUCATION REQUIREMENTS FOR
CONDITIONAL PRESCRIPTIVE CERTIFICATE:**

A. Qualifications of applicant. The board shall issue a conditional prescription certificate pursuant to 16.22.24.8 NMAC, of these regulations to each applicant who submits evidence satisfactory to the board that the applicant:

(1) has completed a doctoral program in psychology from an accredited institution of higher education or professional school or, if the program was not accredited at the time of the applicant graduation, that the program meets professional standards determined acceptable by the board;

(2) holds an active unrestricted license to practice psychology in New Mexico;

(3) has successfully completed psychopharmacological training that meets the standards set forth in Subsection B below from either:

(a) an institution of higher education that has a postdoctoral program of psychopharmacology education for psychologists and that is accredited by a regional body recognized by the U.S. department of education or the council for higher education accreditation; or

(b) a continuing education provider approved by the American psychological association that offers a program of psychopharmacology education for psychologists; or

(c) a continuing education program of professional development in psychopharmacology for psychologists that is administered in collaboration with a school and that is a formal and organized program of study leading to a credential in psychopharmacology from that school; or

(d) a continuing education program of professional development in psychopharmacology for psychologists that is administered in collaboration with a school if the applicant successfully completed the 450 classroom hours of didactic study referred to in 16.22.23.8 NMAC, of these regulations below prior to January 1, 2004.

B. RxP training program. The psychopharmacology training program referred in Subparagraph (c) above, shall meet the following criteria.

- (1) The program shall be an integrated and organized program of study.
- (2) The program shall have an identifiable body of students at different levels of matriculation.
- (3) The program shall be clearly identified and labeled as a psychopharmacology program and shall specify in pertinent institutional catalogues and brochures its intent to educate and train psychologists to prescribe psychotropic medication.
- (4) The program shall have a formally designated training director who is a psychiatrist or a doctoral psychologist, trained in the area of psychopharmacology, and licensed to practice in the jurisdiction in which the program resides.
- (5) The training director shall be primarily responsible for directing the training program and shall have administrative authority commensurate with those responsibilities.
- (6) The training director's credentials and expertise shall be consistent with the program's mission and goals to train psychologists to prescribe psychotropic medication.
- (7) The program shall provide information regarding the minimal level of achievement required for postdoctoral trainees to satisfactorily progress through and complete the psychopharmacological training program, as well as evidence that it adheres to the minimum levels of achievement.
- (8) The program shall have formally designated instructors and supervisors in sufficient number to accomplish the program's education and training.

(9) Supervisors shall hold an active, unrestricted license in their field of practice in the jurisdiction in which the program resides or where the supervision is being provided.

(10) The program instructors and supervisors shall have sufficient expertise, competence, and credentials in the areas in which they teach or supervise.

(11) The program instructors and supervisors shall participate actively in the program's planning, implementation and evaluation.

(12) The program, with appropriate involvement from its training supervisors, instructors, and trainees, shall engage in a self-study process that addresses:

(a) expectations for the quality and quantity of the trainees' preparation and performance in the program;

(b) training goals and objectives for the trainees and the trainees' views regarding the quality of the training experiences and the program;

(c) procedures to maintain current achievements or to make changes as necessary; and

(d) goals, objectives, and outcomes in relation to local, regional, and national changes in the knowledge base of psychopharmacology training.

(13) The program shall follow the guidelines for psychopharmacology training of post-doctoral psychologists established by the American psychological association.

(14) As part of the admission and training process, the training program shall evaluate and assure that every student completes necessary prerequisite training in basic science (e.g. physiology, chemistry, and biochemistry), the biological bases of behavior, and psychopharmacology.

(15) When students are not in residence, the program provides on-line access to a library of sufficient diversity and level to support the advanced study of the psychopharmacological treatment of mental disorders from wherever the student resides. This access shall remain available throughout all didactic and clinical phases of the training program. Frequent face-to-face evaluation and discussions shall be included in the didactic training.

(16) The program provides formal, written measurement of the mastery of course content.

(17) The program demonstrates in its written materials or course syllabi that it integrates into the training the following areas; socio-cultural issues in psychopharmacological treatment, ethno-pharmacology, use of translators, the cultural

context of compliance and noncompliance with prescribed medication, creating a culturally appropriate environment to meet patient care treatment and language needs, and working collaboratively with traditional healers.

C. Didactic instruction.

(1) Within the five years immediately preceding the date of application for a conditional prescription certificate, the applicant shall have successfully completed didactic instruction of no fewer than 450 classroom hours in at least the following core areas of instruction:

- (a) neuroscience;
- (b) pharmacology;
- (c) psychopharmacology;
- (d) physiology;
- (e) pathophysiology;
- (f) appropriate and relevant physical and laboratory assessment;
- (g) clinical pharmaco-therapeutics; and
- (h) cultural competence.

(2) At least three-fourths of the 450 classroom hours of didactic instruction shall be awarded by one certification or degree-granting institution or continuing education program.

D. Eighty hour practicum in clinical assessment and pathophysiology.

(1) The 80 hour practicum shall be part of the psychopharmacology training program from which the applicant obtains the certification or degree.

(2) The 80 hour practicum shall provide the opportunity for the applicant to observe and demonstrate competence in physical and health assessment techniques within a medical setting under the supervision of a physician.

(3) The 80 hour practicum shall be completed in a timeframe of full-time over two weeks to 30 weeks.

(4) If the applicant cannot complete the 80 hour practicum within the time frame designated in Paragraph (3) of Subsection D of 16.22.20.8 NMAC, because of illness or other extenuating circumstances, the applicant may request an extension from

the board explaining in writing the extenuating circumstances and the additional time requested.

(5) The supervising physician and the training director of the psychopharmacology training program shall certify in writing that the applicant:

- (a)** assessed a diverse and significantly medically ill patient population;
- (b)** observed the progression of illness and continuity of care of individual patients;
- (c)** adequately assessed vital signs;
- (d)** demonstrated competent laboratory assessment; and
- (e)** successfully completed the 80-hour practicum.

E. Four-hundred hour practicum. Requirements for the general 400 hour practicum treating a minimum of 100 patients with mental disorders include:

(1) The 400 hour practicum shall be part of the psychopharmacology training program from which the applicant obtains the certification, degree or certification of completion.

(2) One-hundred patients shall mean 100 separate patients.

(3) The four-hundred hours shall refer to 400 face-to-face hours. The 400 face-to-face hours shall include only time spent with patients to provide evaluation and treatment for medical psychopharmacotherapy of patients and time spent in collaboration with the patient's treating health care practitioner(s).

(4) The applicant must have supervised experience in the evaluation and treatment of 100 patients, representing as diverse a patient population as possible, including diversity in the patients:

- (a)** gender;
- (b)** different ages throughout the life cycle, including adults, children/adolescents, and geriatrics; as possible and appropriate;
- (c)** range of disorders listed in the most recent diagnostic and statistical manual of mental disorders published by the American psychiatric association and acute and chronic disorders;
- (d)** ethnicity;

(e) socio-cultural background; and

(f) economic background.

(5) The applicant and the training program shall maintain a log on patient seen, which shall include: a coded identification number for the patient, patient's age, gender, diagnosis, date and time seen, amount of time seen for psychopharmacotherapy. The log shall be available to the RxP application committee or the board upon request. The log shall contain the name and signature of the supervisor.

(6) The applicant and the training program shall keep records of the time spent during this practicum. The records shall be available to the psychopharmacology application committee or the board upon request. The records shall not contain patient identifying information.

(7) A psychiatrist or other appropriately trained physician, licensed in good standing in the jurisdiction in which the psychiatrist or other physician rendered supervision shall be the primary supervising physician of the practicum. The primary supervising physician shall be responsible for the overall supervision of the applicant; however, training may be assigned to other licensed physicians, i.e., secondary supervisors, as designated by the primary supervising physician and the training director of the program.

(8) One to one supervision will be provided either face to face or by video conference. The applicant shall consult with the primary or secondary supervising physician, before a decision is made regarding the psychopharmacological treatment of the patient.

(9) The primary or secondary supervising physician shall review the charts and records of any patient seen by the applicant during the practicum while under the supervision of the primary or secondary supervising physician.

(10) The practicum shall be completed in a period of time of not less than six months and not more than three years.

(11) If the applicant cannot complete the 400 hour practicum within the timeframe designated in Subsection E of 16.22.23.8 because of illness or other extenuating circumstances, the applicant may request an extension from the board explaining in writing the extenuating circumstances and the additional time requested. The applicant shall receive a minimum of one hour of supervision for every eight hours of patient time. The applicant is responsible to keep a log of the dates and time of supervision. The supervisor may meet with the applicant for additional education at his or her discretion.

(12) The practicum shall be completed within the five years immediately preceding the date of application for a conditional prescription certificate.

(13) Upon request of the RxP application committee or the board, the primary supervising physician shall provide an affidavit stating that:

(a) the supervisor does not have conflict of interest and is not a member of the applicant's family or household as defined in 16.22.26 NMAC, of these regulations;

(b) the supervisor or a designated secondary supervisor reviewed and discussed with the applicant the charts and records of patients seen by the applicant during the practicum;

(c) the practicum included a diverse group of patients, as defined in these regulations; and

(d) the applicant did not write any prescriptions without the primary or secondary supervisor's supervision and signature or authorization.

(14) The primary supervising physician shall conduct a formal, written evaluation on at least two occasions, at the midpoint and at the end of the practicum. The evaluation shall assess the applicant's progress and competencies and shall describe any deficiencies or areas where competency has not been achieved. The primary supervisor shall submit copies of the evaluations to the applicant and the training director.

(15) In the event of documented deficiencies the training director of the psychopharmacology program shall specify in writing:

(a) the areas in need of remediation;

(b) the process and procedures by which these areas are to be re-mediated;
and

(c) the method by which the training director and supervisor shall determine that the applicant has achieved the competencies necessary to successfully complete the practicum.

(16) The psychologist in practicum training or the conditional prescribing psychologist is responsible for informing the patient or the patient's legal guardian, when appropriate, or explain to the patient through the recommendation system at an institution if the institution itself generally handles such informed consent. The name and role of the supervisor and sufficient information of the expectation and requirements of the practicum shall be provided to the patient or the patient's legal guardian at the initial contact necessary to obtain informed consent and appropriate releases. The

applicant shall provide additional information requested by the patient or the patient's legal guardian concerning the applicant's education, training and experience.

(17) The primary supervising physician and the training director of the psychopharmacology program from which the applicant obtained a certification of successful completion or a degree in psychopharmacology shall certify to the board in writing that the applicant has successfully completed the practicum.

F. National examination. To qualify for a conditional prescription or prescription certificate, the applicant must demonstrate competency by passing a national examination.

(1) Applicant must pass the Psychopharmacology Examination for Psychologists (PEP), administered and maintained by the Association of State and Provincial Psychology Boards (ASPPB).

(2) Applicant must be eligible to take the PEP after the applicant successfully completes the didactic portion of the postdoctoral program of education in psychopharmacology.

(3) The passing score shall be the passing score recommended by the association of state and provincial psychology boards (ASPPB).

(4) If the applicant fails the examination, the applicant may take the examination a second time after a mandatory 90-day waiting period.

(5) If the applicant fails the examination on the second attempt, the applicant will be required to wait one year before repeating the examination.

(6) If the applicant fails the examination on the third attempt, the applicant is required to take the remedial didactic program recommended by the psychopharmacology application committee and approved by the board before the applicant is allowed to repeat the examination.

G. An applicant who has successfully completed a psychopharmacology educational program, an 80 hour practicum in clinical assessment and pathophysiology, a 400 hour/100 patient practicum treating patients with mental disorders or the national certification examination prior to the effective date of these regulations may include the completed portion(s) of the training in the application for a conditional prescription certificate. The applicant who has completed the 400 hour practicum shall include certification in writing from the primary supervising physician that the applicant has successfully completed the practicum and is trained to competently treat a diverse patient population as defined in these regulations. The board shall approve the prior training program(s) that satisfy the requirements as listed in 16.22.23 NMAC, of these regulations.

[16.22.24.8 NMAC - Rp, 16.22.24.8 NMAC, 10/8/2024]

16.22.24.9 CONDITIONS OF PRACTICE; MALPRACTICE INSURANCE:

A. The conditional prescribing psychologist shall maintain malpractice insurance covering claims for personal injury arising out of the psychologist's performance of professional services and claims arising out of the psychologist's act, errors or omissions in providing professional services, including prescribing psychotropic medication. Such malpractice insurance coverage shall be no less than one million dollars per occurrence with an aggregate limit of three million dollars.

B. The conditional prescribing psychologist shall submit to the board the declaration page of the psychologist's malpractice insurance policy, when instituted, and thereafter on the policy renewal date, as proof of this required insurance upon making application for the conditional prescription certificate, and proof that the policy covers the prescribing of psychotropic drugs.

[16.22.24.9 NMAC - Rp, 16.22.24.9 NMAC, 10/8/2024]

16.22.24.10 TWO YEAR SUPERVISED PRACTICE:

A. The conditional prescribing psychologist shall be supervised by a supervising clinician knowledgeable of the administration of psychotropic medication. If more than one supervisor is selected, one supervisor shall be designated the primary supervising clinician.

B. The board shall approve the supervisory plan before the conditional prescription certificate is issued. The proposed supervisory plan shall include the information contained in 16.22.24 NMAC, and shall be signed by the primary supervising clinician.

C. After the board approves the supervisory plan, the conditional prescribing psychologist shall within 30 days submit to the New Mexico medical board the name, address and phone number of the conditional prescribing psychologist and the name(s), address(s) and phone number(s) of the primary supervising clinician and secondary supervising clinician, if any. During the period of supervised practice, the conditional prescribing psychologist shall provide to the New Mexico medical board the name(s), address(s) and phone number(s) of any supervising clinician serving as a substitute or replacement for primary or secondary supervisor(s).

D. Each supervisor shall have clinical expertise or training with the patient population that the psychologist with a conditional prescription certificate is evaluating and treating.

E. During the initial contact between the patient or the patient's legal guardian, if any, and the conditional prescribing psychologist, the patient or the patient's legal guardian shall be informed that the conditional prescribing psychologist has received specialized training in the prescription of psychotropic medication, that the conditional prescribing psychologist is transitioning to independent psychopharmacological practice, and that the conditional prescribing psychologist is practicing under supervision with respect to the prescribing of psychotropic medication. The name and role of the supervisor shall be provided to the patient or the patient's legal guardian and informed consent and appropriate releases shall be obtained. The conditional prescribing psychologist shall provide additional information requested by the patient or the patient's legal guardian concerning the psychologist's education, training, and experience.

F. Supervision by the primary supervising clinician shall be provided on a one-to-one basis for at least four hours a month and should total at least 46 hours of one-to-one supervision per year, unless altered, in accordance with Subsection K of 16.22.24.10 NMAC of these regulations.

G. Each supervising clinician is responsible to review only the cases the clinician is supervising. The supervising clinician at all times shall have access to and shall review records relating to the treatment of patients under the clinician's supervision. The supervising clinician may require face-to-face consultation(s) with the conditional prescribing psychologist.

H. If there is more than one supervisor, each supervisor shall inform the other supervisors of any concerns about a conditional prescribing psychologist whom the supervisor is supervising.

I. The primary supervising clinician shall contact any secondary supervisor(s) at least every six months to obtain written or verbal progress reports concerning how the conditional prescribing psychologist is performing.

J. One-to-one supervision must be provided either face-to-face, telephonically, or by tele-video live communication.

K. At any time during the two-year conditional prescribing period the supervising clinician, after consultation with the conditional prescribing psychologist, may amend the supervisory plan, to increase or decrease the hours of supervision. The board shall approve amendments to the supervisory plan set forth in Subsection M below.

L. At any time during the two-year conditional prescribing period a primary supervising clinician shall not supervise more than three conditional prescribing psychologists.

M. The supervisory plan described in Paragraph (5) of Subsection B of 16.22.24.8 NMAC shall include the following information and shall be signed by the primary supervising clinician:

- (1) name of the applicant;
- (2) name, address, license number, and area of specialization of the primary supervising clinician and the secondary supervisor(s), if any;
- (3) beginning and ending dates of the two-year supervised practice covered by the plan;
- (4) number of one-on-one supervisory hours per month and by whom;
- (5) setting(s) where supervision will occur and with whom;
- (6) duties and clinical responsibilities of the conditional prescribing psychologist;
- (7) location(s) where supervision will occur and with whom;
- (8) areas in which the primary and secondary supervisor(s), if any, have specialized skills to render competent supervision;
- (9) number of psychologists with conditional prescription certificates that the primary supervising clinician will supervise during this time period;
- (10) the manner in which the conditional prescribing psychologist will be represented to the public including, all written communications and public announcements;
- (11) any direct or indirect financial agreements between or among the conditional prescribing psychologist and the primary and secondary supervisor(s), if any;
- (12) other information necessary to clarify the nature and scope of supervision;
and
- (13) a statement specifying the manner in which supervision and clinical and professional responsibility will be provided during the supervisor's absence (during vacations or unexpected events that require the supervisor to be absent for any period of time).

N. The board or its designee shall notify the applicant in writing within 60 days of application date, whether the application and the proposed supervisory plan are accepted or rejected. The board or its designee shall notify a conditional prescribing

psychologist within 30 days whether a proposed amendment to an approved supervisory plan is accepted or rejected. If rejected, the notice shall state the reasons for rejection.

O. Each supervising clinician shall attest to the contents of a supervision log maintained by the conditional prescribing psychologist.

P. The primary supervising clinician shall also maintain a log of the contacts with the secondary supervisor(s) that includes the dates of contact, and a brief description of the outcome of this contact, including a statement stating whether the conditional prescribing psychologist is progressing satisfactorily.

Q. The supervisor shall review the results of laboratory tests as appropriate and shall be skilled and experienced in such interpretation.

R. The supervising clinician(s) shall hold an active unrestricted license in good standing and appropriate drug enforcement administration certificate and shall be experienced and skilled in the prescription of psychopharmacological drugs.

S. The conditional prescribing psychologist shall see a minimum of 50 separate patients within the two-year period who are seen for the purpose of evaluation and treatment with psychotropic medication. The duration of the two-year supervisory period shall not be accelerated or reduced.

T. At the end of the two-year period, the primary supervising clinician shall provide an affidavit on a form provided by the board certifying that:

(1) the supervising clinician has not received any financial payments from the applicant except appropriate fees for supervisory services, the supervising clinician is not a member of the applicant's family or household, the supervising clinician is not in a prohibited dual relationship with the applicant and that the supervising clinician has not had an interest that conflicts with the supervising clinician's duties as supervisor;

(2) each supervising clinician discussed with the psychologist the charts and records of patients seen by the psychologist under that supervising clinician's supervision during the two-year period or any extension; and

(3) the conditional prescribing psychologist has successfully completed two years of evaluating for or prescribing psychotropic medication to at least 50 unique patients.

U. The primary supervising clinician in consultation with any secondary supervisor shall evaluate and describe any deficiencies at the end of the two-year period. In the event of documented deficiencies, the primary supervising clinician(s) shall specify in writing the areas in need of remediation and the process and procedures by which these areas are to be remediated.

V. The supervisory period and the conditional prescriptive certificate may be extended with approval of the board if the conditional prescribing psychologist does not successfully complete the two-year conditional period of supervision. A supervisory plan shall be submitted to the board for the proposed extended period of practice under supervision. The conditional prescribing psychologist shall continue to maintain malpractice insurance.

W. At the end of the extended two-year period, the primary supervising clinician shall provide to the board an affidavit on a form provided by the board certifying: the method by which the supervisor(s) determined that the conditional prescribing psychologist obtained the competencies necessary to prescribe psychotropic medication, supported by a written evaluation addressing areas of remediation.

[16.22.24.10 NMAC - Rp, 16.22.24.10 NMAC, 10/8/2024]

16.22.24.11 EXPIRED PRACTICE OR CERTIFICATE:

A. The conditional prescribing psychologist shall notify the board in writing if the primary supervising clinician fails to meet any of the supervisory requirements as set forth in this section and the supervisory plan approved by the board. The notification shall include a clear and detailed description of the supervisor's failure(s) to perform.

B. The conditional prescribing psychologist shall notify the board within 14 days of discovery of any event or circumstance that requires the psychologist to interrupt or cease prescribing practices for any period of time that exceeds 60 days. In no event shall the conditional prescribing psychologist continue prescribing psychotropic medications without an active, responsible primary supervising clinician and valid malpractice insurance.

C. The conditional prescribing certificate shall expire two years after issuance, unless extended in writing as provided in 16.22.24.8 NMAC. A psychologist shall not administer or prescribe drugs or medicines unless the psychologist holds a valid conditional prescription certificate or prescription certificate issued by the board. The board may extend the conditional prescribing certificate up to 60 days pending peer review if the board has received at the board office a complete application for a prescription certificate no later than 10 days before the expiration of the conditional prescription certificate.

D. The psychologist shall not administer or prescribe drugs or medicines after the expiration of the conditional prescription certificate. The psychologist shall notify the board in writing if the psychologist decides not to immediately apply for a prescription certificate upon expiration of the conditional prescription certificate. A psychologist who successfully completes all of the requirements of conditional prescription certificate may apply for a prescription certificate after the expiration of the conditional prescription certificate, so long as the psychologist satisfies all the education, training, and supervision criteria within the time limits established by Section 61-9-17.1 NMSA 1978

and 16.22.23.8 NMAC, of these regulations. The psychologist is solely responsible to obtain patient records for peer review and all other evidence of satisfactory completion of practice under supervision, including the primary supervising clinician affidavit(s).

16.22.25.9 PEER REVIEW:

A. Panel membership. The applicant for a prescription certificate shall successfully complete a process of independent peer review that meets the requirements set forth below before the board shall issue a prescription certificate.

(1) One or more peer review panel(s) shall be appointed by the chair of the board. Peer review panels shall consist of three (3) members from at least two (2) of the following professions and categories:

(a) conditional prescribing psychologists, prescribing psychologists or licensed psychologists with specialized training and experience in psychopharmacology;

(b) licensed, board-certified psychiatrists, other physicians, nurse practitioners or physician assistants with specialized training and experience in psychopharmacology;

(c) doctoral level licensed pharmacists or pharmacist clinicians with specialized training and experience in psychopharmacology.

(2) A panel member shall not be a member of the applicant's family or household, shall not be in a prohibited dual relationship with the applicant or a member of the applicant's family or household, shall not have supervised the applicant, and shall not have a conflict of interest as defined in 16.22.1 NMAC, of these regulations.

(3) No panel member may be a psychologist enrolled in a psychopharmacology training program.

B. Review process.

(1) A panel shall examine at least ten (10) randomly selected charts of patients treated by the conditional prescribing psychologist during the two-year supervised period and any approved extensions. The applicant shall be solely responsible for obtaining the patient charts for peer review. The charts shall be reviewed to determine whether the following information is timely, accurately, and properly recorded:

(a) a full medical history and family history;

(b) a mental status examination and complete differential diagnosis of the patient by the conditional prescribing psychologist;

(c) risk factors for the diagnostic condition were identified, including absence of drug, alcohol, suicide and homicide;

(d) drug and food allergies;

(e) patient medications;

(f) patient education on prescription, including evidence of informed consent to treatment;

(g) appropriate laboratory tests ordered and reviewed;

(h) the patient's diagnosis;

(i) adequate dosing requirements for prescription;

(j) treatment, including psychopharmacotherapy and psychotherapy, adverse affects from prescriptions, documentation of outcome measures for prescriptions;

(k) progress notes;

(l) a follow-up plan, including a discharge plan, and

(m) documentation of collaboration with the patient's treating health care practitioner as required pursuant to 16.22.20 NMAC, of these regulations;

(2) The peer review panel shall complete an evaluation form approved by the psychopharmacology application committee, which shall certify whether the charts reviewed are in compliance and are satisfactory, and shall forward the evaluation form to the board.

[16.22.25.9 NMAC - Rp, 16.22.25.8 NMAC, 11/15/06]

16.22.25.10 EVALUATION OUTCOME:

A. Board action. Within sixty (60) days, the board shall issue an unrestricted prescription certificate to the applicant or inform the applicant of deficiencies.

B. Remedial period. If the peer review panel documents deficiencies in the patient charts or the applicant otherwise does not demonstrate competency to prescribe independently, the panel shall specify in writing:

(1) the areas in need of remediation;

(2) the process and procedures by which these areas are to be remediated;
and

(3) the time period, not to exceed six (6) months, allowed for remediation of deficiencies or demonstration of competency before the applicant can undergo another peer review.

C. Additional peer review(s).

(1) Another peer review shall be conducted at the end of the remedial period. The applicant may have a total of three (3) peer reviews, after which the applicant shall re-enroll in psychopharmacology program meeting all criteria in 16.22.23.8 NMAC, and apply for another conditional prescription certificate prior to applying for a prescription certificate.

(2) The evaluation or results of any deficient peer review shall be forwarded to the board and the New Mexico medical board. The board, in consultation with the medical board or its designee, shall have the discretion to extend a conditional prescription certificate pursuant to Subsection V of 16.22.24.10 NMAC, pending the outcome of the second or subsequent peer review process.

[16.22.25.10 NMAC - Rp, 16.22.25.8 NMAC, 11/15/06]

16.22.25.11 APPLICATION FOR CONDITIONAL PRESCRIPTION CERTIFICATE BY APPLICANTS LICENSED TO PRESCRIBE IN OTHER AREAS:

A person who has been licensed or certified as a prescribing psychologist by another state, territorial possession of the United States, District of Columbia, or another country, for a minimum of 2 years, may apply for a conditional prescription certificate and shall meet these requirements:

A. Psychology licensure. Applicant shall hold an active, unrestricted New Mexico license as a psychologist.

B. Psychopharmacology education. The applicant shall demonstrate completion of the required academic coursework to the satisfaction of the board.

C. New Mexico jurisprudence examination. The applicant shall demonstrate evidence of completion of a 3-hour training in New Mexico rules and laws applicable to prescribing psychologists, as offered by the state psychologist association of New Mexico (SPA), or the New Mexico psychological association (NMPA).

D. Additional supervision training. The RxP application committee shall make recommendations to the board concerning additional supervision and training that may be required. The board shall review the committee recommendations and determine the additional supervision and training required of the applicant in order to qualify for a conditional prescription certificate.

E. Supervision plan. The period of conditional supervised practice shall be determined by the board based on the applicant's education, training, and experience and shall not be less than three months or more than two years. The applicant shall submit to the psychopharmacology application committee a supervisory plan as outlined in Subsection H of 16.22.24.10 NMAC, of these regulations. The same requirements set forth in 16.22.24.10 NMAC, shall apply to the supervisory period.

F. Issuance of prescription certificate. The RxP application committee shall recommend to the board issuance of a conditional prescription certificate to the applicant who qualifies in accordance with these regulations.

**16.22.26.8 GRADUATES OF THE DEPARTMENT OF DEFENSE
PSYCHOPHARMACOLOGY DEMONSTRATION PROJECT - REQUIREMENTS:**

A. Conditional prescription certificate. Graduates of the department of defense psychopharmacology demonstration project who have been actively engaged in prescribing psychotropic medication for at least two of the last five years immediately preceding the date of application may apply for a conditional prescription certificate and shall meet these requirements:

(1) Additional supervision training. The RxP application committee shall make recommendations to the board concerning additional supervision and training that may be required. The board shall review the committee recommendations and determine the additional supervision and training required of the applicant in order to qualify for a prescription certificate.

(2) Supervision plan. The period of supervised practice shall be determined by the board based on the applicant's education, training, and experience and shall not be less than three months or more than two years. The applicant shall submit to the psychopharmacology application committee a supervisory plan as outlined in Subsection H of 16.22.24.10 NMAC, of these regulations. The same requirements set forth in 16.22.24.10 NMAC, shall apply to the supervisory period.

(3) Evidence of completion of a 3-hour training in New Mexico rules and laws applicable to prescribing psychologists, as offered by the State Psychologist Association of New Mexico (SPA), or the New Mexico Psychological Association (NMPA).

(4) Issuance of prescription certificate. The RxP application committee shall recommend to the board issuance of a prescription certificate to a graduate of the department of defense psychopharmacology demonstration project who qualifies in accordance with these regulations.

B. Prescription certificate. Graduates of the department of defense psychopharmacology demonstration project shall be issued a prescription certificate if they hold an active unrestricted New Mexico license as a psychologist and present to the board evidence that they hold a valid certificate as a department of defense prescribing psychologist.

16.22.30.8 PRESCRIPTION MONITORING PROGRAM (PMP) REQUIREMENTS:

A. Any conditional prescribing or prescribing psychologist who holds a federal drug enforcement administration registration and a New Mexico controlled substance registration shall become a participant in the state's prescription monitoring program. Such participation requires registering with the board of pharmacy.

B. A conditional prescribing or prescribing psychologist may authorize non-licensed individuals under the psychologist's supervision to access the prescription monitoring report consistent with board of pharmacy regulation 16.19.29 NMAC. Individuals so authorized may obtain a report from the state's prescription monitoring program, with the requirement that the conditional prescribing or prescribing psychologist is solely responsible for reviewing the prescription monitoring report, and for documenting the receipt and review of such report in the patient's medical record.

C. A conditional prescribing or prescribing psychologist shall obtain a prescription monitoring report, before prescribing a controlled substance for the first time or when the patient has been prescribed an opiate by the patient's physician. If there is a gap in prescribing the controlled substance for 30 days or more, the conditional prescribing or prescribing psychologist shall review a prescription monitoring report for the patient for the preceding 12 months. When made available, the conditional prescribing or prescribing psychologist shall review similar reports from other states. The conditional prescribing or prescribing psychologist shall document the receipt and review of such reports in the patient's medical record.

D. A prescription monitoring report shall be reviewed a minimum of once every three months during a patient's continuous use of a controlled substance. The conditional prescribing or prescribing psychologist shall document the review of these reports in the

patient's medical record. Nothing in this section shall be construed as preventing a conditional prescribing or prescribing psychologist from reviewing prescription monitoring reports with greater frequency than that required by this section.

E. A conditional prescribing or prescribing psychologist does not have to obtain and review a prescription monitoring report before prescribing,

- (1) for a patient in a nursing facility;
- (2) for a patient in hospice care;
- (3) for a patient in a licensed treatment facility; or
- (4) for a patient under 14 years of age.

F. Upon review of a prescription monitoring report for a patient, the conditional prescribing or prescribing psychologist shall identify, document, and attempt to remain current with regard to all prescriptions for any a patient known to be:

- (1) receiving opioids from multiple prescribers;
- (2) receiving opioids and benzodiazepines concurrently;
- (3) receiving more than one controlled substance analgesic;
- (4) receiving opioids totaling more than 90 morphine milligram equivalents per day; or

(5) exhibiting potential for abuse or misuse of opioids and other controlled substances, such as:

- (a) over-utilization;
- (b) requests to fill early;
- (c) requests for specific opioids;
- (d) requests to pay cash when insurance is available; or
- (e) receives opioids from multiple pharmacies.

G. Upon recognizing any of the above conditions described in Subsection F, the conditional prescribing or prescribing psychologist, using professional judgment based on prevailing standards of practice, shall take action as appropriate to prevent, mitigate, or resolve any potential problems or risks that may result in opioid misuse, abuse, or overdose. These steps may involve consultation with the primary prescribing physician,

and utilization of the prescription monitoring program. The conditional prescribing or prescribing psychologist shall document actions taken to prevent, mitigate, or resolve the potential problems or risks.

H. The board will review over-prescription of schedule drugs by licensees, through review of the PMP, reference to currently accepted standards of care, and using the standard of patient protection.

16.23.1.16 INACTIVE STATUS REQUIREMENTS:

Currently licensed practitioners who are not currently practicing in New Mexico under the terms and provisions authorized by the Respiratory Care Act, or who are working for the federal government, may place their licenses on inactive status at the time of renewal rather than let their licenses expire.

A practitioner's license will be placed on inactive status by the department after the licensee has provided the following:

A. A practitioner's license will be placed on inactive status by the department after the licensee has provided the following:

(1) a completed renewal application signed by the applicant under penalty of perjury, on which the "inactive status requested" box has been checked;

(2) documentation verifying that the continuing education requirements were met as set forth 16.23.12 NMAC; and

(3) the applicable fee for inactive status set forth in 16.23.2.8 NMAC.

B. the practitioner must submit the completed renewal application marked for inactive status on or before September 30 in order to be processed for inactive status.

C. Upon approval of the inactive status application request, the department will send the licensee notice that the license has been placed on inactive status.

D. Until the inactive status license has been reactivated, the respiratory care practitioner may not practice respiratory care in New Mexico unless employed by the federal government.

E. Inactive status reactivation: The individual who has placed his or her license on inactive status may reactivate the license before September 30 of the next odd-numbered year by completing the following procedure.

(1) complete, sign, and submit the reactivation application; and

(2) payment of any applicable fee for reactivation from inactive status set forth in 16.23.2.8 NMAC.

F. Upon approval of the reactivation application, the department will issue a reactivated license to the licensee. The license number will remain the same.

G. Continuing education requirements for reactivation: For the next renewal cycle, the number of continuing education hours that will be required will depend upon the reactivation date as follows:

(1) **Twenty clock hours per renewal cycle.** If the completed reactivation application is received by the department on or before September 30 of the even-numbered year, the number of continuing education hours due at the next renewal (September 30 of the next odd-numbered year) will be 20 hours.

(2) **Ten clock hours per renewal cycle.** If the completed reactivation application is received by the department on or after October 1 of the even-numbered year through May 31 of the odd-numbered year, the number of continuing education hours due at the next renewal (September 30 of the same year) will be 10 hours.

(3) **Zero clock hours.** If the completed reactivation application is approved by the department on or after June 1 of the odd-numbered (renewal) year through July 31 of the same year, the number of continuing education hours due at the next renewal (September 30 of the same year) will be zero hours.

[16.23.6.7 NMAC - Rp, 16.23.6.7 NMAC, 4/21/2022]

16.23.6.8 APPLICATION REQUIREMENTS FOR STUDENTS:

Persons enrolled in an approved respiratory care training program who are performing respiratory care services in a supervisory facility as part of the training, but receiving no remuneration for those services, are not required to have a temporary permit issued by the department.

[16.23.6.8 NMAC - Rp, 16.23.6.8 NMAC, 4/21/2022]

16.23.6.9 APPLICATION REQUIREMENTS FOR STUDENT EXTERNS:

The department, in consultation with the board, will issue temporary permits to respiratory care student externs enrolled in a traditional or non-traditional respiratory

care training program approved as set forth in Paragraph (4) of Subsection A and Paragraph (5) of Subsection R of 16.23.1 NMAC, or by the board and who provide satisfactory evidence of the following:

A. Verification of current respiratory care program enrollment sent directly by the educational institution to the department.

B. A notarized statement or letter sent by the applicant's direct supervisor confirming the location and status of the applicant's employment.

C. An agreement signed by the proposed training supervisor made under penalty of perjury, which certifies that the supervisor will provide training and direct supervision which meets the requirements of these regulations.

D. A temporary permit application approved and provided by the department, completed by the applicant, and signed by the applicant attesting that the information on the application is complete under penalty of perjury.

E. Payment to the board in the amount set forth in Subsection A of 16.23.2.8 NMAC.

[16.23.6.9 NMAC - Rp, 16.23.6.9 NMAC, 4/21/2022; A, 12/10/2024]

16.23.6.10 APPLICATION REQUIREMENTS FOR GRADUATES:

The department, in consultation with the board, will issue non-renewable temporary permits to non-licensed graduates from an approved respiratory care training and education program (see Subsections E and GG of 16.23.6.1 NMAC), and who provide the following:

A. the required items listed in of Subsections B, C, D and E of 16.23.6.9 NMAC;

[16.23.8.9 NMAC - Rp, 16.23.8.9 NMAC, 7/15/2017]

16.23.8.9 NOTIFICATION:

No less than 45 days prior to the license expiration date, notices and renewal applications will be mailed to the licensee at the last official address on file with the department.

A. Failure to receive the renewal application notice will not relieve the licensee of the responsibility of renewing the license by the expiration date.

B. It is the licensee's responsibility to request a renewal application if one has not been received at least thirty days prior to the license expiration date.

[16.23.8.9 NMAC - Rp, 16.23.8.9 NMAC, 7/15/2017]

16.23.8.10 APPLICATION REQUIRED:

Practitioner licenses shall be renewed by the department, in consultation with the board, only upon receipt of the following:

A. a completed renewal application;

B. certification that the continuing education requirements were met as set forth in 16.23.12 NMAC; and

C. proof of current national board of respiratory care (NBRC) credential;

D. payment in the amount of the required fee as provided in 16.23.2.8 NMAC.

[16.23.8.10 NMAC - Rp, 16.23.8.10 NMAC, 7/15/2017]

16.23.8.11 RENEWAL DEADLINE:

The deadline for renewal of current respiratory care practitioner licenses is September 30th of the odd-numbered year, except as provided in 16.23.8.12 NMAC.

A. September 30 postmark requirement. Completed renewal applications must be postmarked or completed on-line on or before September 30 of the renewal year.

B. Application rejected. Incomplete renewal applications will be rejected by the board.

C. Late renewal. Any renewal application, corrected or otherwise returned to the department postmarked after September 30, of the odd-numbered year, is expired and must be accompanied by the penalty fee required for reactivation (see 16.23.2.8 NMAC).

[16.23.8.11 NMAC - Rp, 16.23.8.11 NMAC, 7/15/2017]

16.23.9.5 EFFECTIVE DATE:

July 15, 2017 unless a later date is cited at the end of the section.

[16.23.9.5 NMAC - Rp, 16.23.9.5 NMAC, 7/15/2017]

16.23.9.6 OBJECTIVE:

The objective of Part 9 of Chapter 23 is to set forth requirements and procedures for placing a current practitioners license on inactive status.

[16.23.9.6 NMAC - Rp, 16.23.9.6 NMAC, 7/15/2017]

16.23.9.7 DEFINITIONS:

[RESERVED]

16.23.9.8 INACTIVE STATUS:

Currently licensed practitioners who are not currently practicing in New Mexico under the terms and provisions authorized by the Respiratory Care Act, or who are working for the federal government, may place their licenses on inactive status at the time of renewal rather than let their licenses expire.

[16.23.9.8 NMAC - Rp, 16.23.9.8 NMAC, 7/15/2017]

16.23.9.9 INACTIVE STATUS REQUIREMENTS:

A practitioners license will be placed on inactive status by the department after the licensee has provided the following:

A. a completed, signed, and notarized renewal application on which the "inactive status requested" box has been checked;

B. documentation verifying that the continuing education requirements were met as set forth 16.23.12 NMAC; and

C. the applicable fee for inactive status set forth in 16.23.2.8 NMAC.

[16.23.9.9 NMAC - Rp, 16.23.9.9 NMAC, 7/15/2017]

16.23.9.10 SEPTEMBER 30 POSTMARK REQUIREMENT:

The practitioner must submit the completed renewal application form marked for inactive status with a postmark dated on or before September 30 in order to be processed for inactive status.

[16.23.9.10 NMAC - Rp, 16.23.9.10 NMAC, 7/15/2017]

16.23.9.11 INCOMPLETE APPLICATION:

Unsigned, incorrect, or otherwise incomplete applications will be rejected and returned to the licensee for correction or completion.

[16.23.9.11 NMAC - Rp, 16.23.9.11 NMAC, 7/15/2017]

16.23.9.12 APPLICATION REJECTED:

Any inactive status application, corrected or otherwise returned to the department, postmarked *after* September 30, of the odd-numbered (renewal) year, will *not* be processed for inactive status. The rejected application will be returned to the applicant, and the status of the license will be expired and invalid and the late penalty fee will apply if reactivation is sought within the time limitations set forth in 16.23.11 NMAC.

[16.23.9.12 NMAC - Rp, 16.23.9.12 NMAC, 7/15/2017]

16.23.9.13 WRITTEN APPROVAL NOTIFICATION OF INACTIVE STATUS:

Upon approval of the inactive status application request, the department will send the licensee notice that the license has been placed on inactive status.

[16.23.9.13 NMAC - Rp, 16.23.9.13 NMAC, 7/15/2017]

16.23.9.14 TIME LIMITATION ON INACTIVE STATUS LICENSE:

A license on inactive status must be reactivated before September 30 of the *next* odd-numbered year, or the license shall lapse and become null and void (see 16.23.11.11 NMAC).

[16.23.9.14 NMAC - Rp, 16.23.9.14 NMAC, 7/15/2017]

16.23.9.15 PRACTICE PROHIBITED:

Until the inactive status license has been reactivated, the respiratory care practitioner may not practice respiratory care in New Mexico unless employed by the federal government.

[16.23.9.15 NMAC - Rp, 16.23.9.15 NMAC, 7/15/2017]

16.23.9.16 INACTIVE STATUS REACTIVATION:

The individual who has placed his or her license on inactive status may reactivate the license before September 30 of the next odd-numbered year by completing the following procedure.

A. Request a reactivation application form from the department or download it from the board's website.

B. Complete, sign, and return the reactivation application form with a postmark dated on or before September 30 of the odd-numbered year and within the time limitation set forth in 16.23.9.14 NMAC.

C. Remit the applicable fee for reactivation from inactive status set forth in 16.23.2.8 NMAC.

[16.23.9.16 NMAC - Rp, 16.23.9.16 NMAC, 7/15/2017]

16.23.9.17 REACTIVATION APPROVED:

Upon review and approval of the reactivation application, the department will issue a reactivated license to the licensee. The license number will remain the same.

[16.23.9.17 NMAC - Rp, 16.23.9.17 NMAC, 7/15/2017]

16.23.9.18 RESUMPTION OF PRACTICE ALLOWED:

Upon receipt of the reactivated license, the licensee may resume the practice of respiratory care in New Mexico.

[16.23.9.18 NMAC - Rp, 16.23.9.18 NMAC, 7/15/2017]

16.23.9.19 CONTINUING EDUCATION REQUIREMENTS FOR REACTIVATION:

For the next renewal cycle, the number of continuing education hours that will be required will depend upon the reactivation date as follows:

A. Twenty hours. If the completed reactivation application is received by the department postmarked *on or before* September 30 of the *even*-numbered year, the number of continuing education hours due at the next renewal (September 30 of the next odd-numbered year) will be 20.

B. Ten hours. If the completed reactivation application is received by the department postmarked *on or after* October 1 of the *even*-numbered year through May 31 of the odd-numbered year, the number of continuing education hours due at the next renewal (September 30 of the same year) will be 10.

C. Zero hours. If the completed reactivation application is approved by the department postmarked *on or after* June 1 of the *odd*-numbered (renewal) year through July 31 of the same year, the number of continuing education hours due at the next renewal (September 30 of the same year) will be zero.

16.23.12.8 CONTINUING EDUCATION REQUIREMENTS:

The completion of 20 clock hours of continuing education is a requirement for biennial license renewal or license reactivation.

A. Continuing education hours must be directly related to respiratory therapy, pulmonary function technology, or related inter-disciplinary areas of health care.

B. All licensees must complete at least one hour of ethics related continuing education in the license renewal cycle.

C. Effective October 25, 2025, all licensees must complete at least one hour of human trafficking related continuing education in the license renewal cycle.

D. The department may consult with the board to resolve questions as to appropriate continuing education hours.

(1) The department shall be the final authority on acceptance of any educational activity submitted by a licensee or a sponsor for approval.

(2) Each respiratory care practitioner must participate in at least 20 clock hours of continuing education activities every renewal cycle, or as provided by 16.23.12.12 NMAC and 16.23.12.13 NMAC.

E. A minimum of 12 clock hours of the 20 clock hours of continuing education must be consistent with American Medical Association Category I, which includes any of the following types of educational offerings:

(1) **lecture** - a discourse given for instruction before an audience or through teleconference;

(2) **panel** - a presentation of a number of views by several professionals on a given subject with none of the views considered a final solution;

(3) **workshop** - a series of meetings for intensive, hands on, study or discussion, in a specific area of interest;

(4) **seminar** - a directed advanced study or discussion in a specific field of interest;

(5) **symposium** - conference of more than a single session organized for the purpose of discussion of a specific subject from various viewpoints and by various presenters;

(6) **distance education** - includes such enduring materials as text, internet or CD, provided the provider has included an independently scored test as part of the learning package; and

(7) **NBRC**-awarded continuing education credit for successful completion of re-credentialing examination(s) for renewal of credential as a CRT (if the CRT was issued prior to January 1, 2018) or RRT.

[16.23.12.8 NMAC - Rp, 16.23.12.8 NMAC, 4/21/2022; A, 12/10/2024]

16.23.12.9 APPROVED CONTINUING EDUCATION PROGRAMS:

A. The department will approve, on a clock hour basis, continuing education activities which meet the criteria in Subsection A of 16.23.12.8 NMAC, and which are sponsored or approved for respiratory care practitioners. Below is the list of approved continuing education providers:

- (1) AAP, American academy of pediatrics;
- (2) ACCP, American college of chest physicians;
- (3) ATS, American thoracic society;
- (4) AOA, American osteopathic association;
- (5) AMA, American medical association;
- (6) ASA, American society of anesthesiologists;
- (7) ABIM, American board of internal medicine;
- (8) ALA, American lung association;

- (9) ACC. American college of cardiologists;
- (10) AAST American association of sleep technologists;
- (11) NMSRC New Mexico society for respiratory care;
- (12) AARC American association for respiratory care;
- (13) any AARC state affiliate; and
- (14) AASM, American academy of sleep medicine.

B. The department will approve, on a clock hour basis, a maximum of eight clock hours per renewal cycle of the following type of educational activities listed within Subsection B of 16.23.12.9 NMAC for licensees:

- (1) any hospital or healthcare organization respiratory care-related continuing education in-service;
- (2) respiratory care-related science courses taken in an academic setting and received toward RRT credentialing;
- (3) infection control certification or re-certification courses;
- (4) hazardous materials certification or re-certification courses;
- (5) advanced life support courses. This includes training offered by the American heart Association, American safety and health institute, American Academy of Pediatrics, Sugar/Safe Care, Temperature, Airway, Blood Pressure, Lab & Emotional Support (STABLE) program, Neonatal Resuscitation program (NRP), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), or other courses as deemed acceptable by the board; and
- (6) Any non-Category 1 CRCE credits granted by the American Association for Respiratory Care or continuing education units granted by the New Mexico Society for Respiratory Care.

C. The department will approve respiratory care-related education taken in an academic setting. One semester hour or its equivalent converts to 15 clock hours.

D. The department will automatically approve for licensed respiratory care practitioners a maximum of six clock hours of continuing education credit for each renewal period for teaching approved respiratory care-related continuing education offerings as provided in 16.23.12 NMAC. Credits will be granted one time only for each course taught no matter how many times or how many years the course is repeated.

[16.23.12.9 NMAC - Rp, 16.23.12.9 NMAC, 4/21/2022]

16.23.12.10 DOCUMENTATION:

Licensees shall be responsible for maintaining documentation of their continuing education activities and shall be required to submit copies of proofs of attendance at the time of license renewal if requested by the department.

A. Proofs of attendance. Proofs of attendance, including those for in-services, must clearly state the following:

- (1) name, address, and phone number of the sponsor or in-service provider;
- (2) date the educational offering or in-service was completed;
- (3) location where the educational offering was presented;
- (4) complete name of the seminar, course, or in-service (acronyms are not sufficient);
- (5) number of clock hours credited;
- (6) name of the attendee receiving credit for the continuing education offering or in-service;
- (7) signature of the person authorized by the sponsoring agency to verify licensee attendance; and
- (8) name of the instructor.

B. Academic credit courses. A copy of the transcript of completed, approved academic credit hour courses as provided in Subsection C of 16.23.12.9 NMAC, must be submitted with the renewal documentation.

C. Teaching activities. A licensed respiratory care practitioner seeking credit for teaching respiratory care related courses must submit documentation of the teaching activity which clearly states the following:

- (1) name, address, and phone number of the sponsor or in-service provider;
- (2) complete name of the seminar, course, or in-service (acronyms are not sufficient);
- (3) date the educational offering or in-service was presented;
- (4) location where the educational offering was presented;

- (5) name of the licensee instructor;
- (6) number of clock hours credited; and
- (7) signature of the person authorized by the sponsoring agency to verify the licensee's teaching activity.

[16.23.12.10 NMAC - Rp, 16.23.12.10 NMAC, 4/21/2022]

16.23.12.11 OTHER EDUCATIONAL OFFERINGS:

The department, in consultation with the board, has an informal arrangement with the New Mexico Society for Respiratory Care (NMSRC) in which the NMSRC will review for approval other continuing education offerings, for individual licensees or continuing education sponsors.

A. Any continuing education activity that is not covered by 16.23.12.8 NMAC through 16.23.12.10 NMAC must be submitted to the NMSRC for review and approval.

(1) Approval must be granted by the NMSRC before the CE may be considered applicable toward meeting the continuing education renewal requirement for respiratory care practitioners licensed in New Mexico. Any deadlines for submission of these requests to the NMSRC will be established by the NMSRC as needed.

(2) Approval must be granted by the NMSRC before the continuing education can be submitted to the department and the board to meet the licensee's continuing education renewal requirement.

B. The request for approval of an educational seminar or course must include the following, at a minimum. The NMSRC may require additional information to process the request.

- (1) Name of the seminar or course.
- (2) Sponsoring party.
- (3) Objective of the seminar.
- (4) Format and subjects of seminar or course.
- (5) Number of clock hours credited for the offering.
- (6) Sample "proof of attendance" certificate.
- (7) Name and qualifications of the instructor.

(8) Evaluation mechanism to be used.

C. Any processing fee established by the NMSRC for the continuing education review service must be payable to the NMSRC and must accompany the request to the NMSRC for approval of an educational offering.

D. The NMSRC will give written notification to the sponsor or licensee of the approval or denial of the educational program or seminar.

[16.23.12.13 NMAC - Rp, 16.23.12.13 NMAC, 4/21/2022]

16.23.12.14 CONTINUING EDUCATION AUDIT:

The department, in consultation with the board, may elect to use an audit system for verifying continuing educational activities at the time of renewal.

A. In this case, the department will randomly select a minimum of ten percent of the currently licensed respiratory care practitioners to provide, with their renewal applications, hard-copy proof of having met the continuing education requirement.

B. Audit requests will be included in the renewal notice.

C. Licensees not selected for audit will be required only to list the continuing education activities completed on their renewal applications. The department shall still have the option to audit these individuals' continuing education records at any time before the next scheduled license renewal.

16.23.12.17 EXTENUATING CIRCUMSTANCES - DEFERRAL OR WAIVER OF CONTINUING EDUCATION REQUIREMENT:

A. Licensees generally have 24 months to complete the continuing education requirement for renewal, which is sufficient time to meet the continuing education requirement.

B. In the event a licensee experiences an extenuating circumstance such as a prolonged debilitating personal illness; or a prolonged debilitating illness of an immediate family member; or being mobilized to active duty by the national guard or other branch of service in the United States armed forces, which makes it impossible to meet the continuing education requirement for license renewal, the individual may request an emergency deferral or a waiver of the continuing education requirement by submitting one of the following items to the board before the license expiration date.

(1) A written request for deferral or waiver explaining the circumstances that made it impossible for the licensee to meet the requirement in the 24 months prior to the expiration date of the license.

(2) Documentation accompanying the request for deferral or waiver that verifies the extenuating circumstances, such as a signed affidavit from a physician or medical provider, or a copy of the mobilization orders from the branch of government calling the person to active duty; etc.

C. A licensee mobilized for active military duty, but who is still in training when the license renewal comes due, is required to renew his/her license and meet the continuing education requirements, but the license renewal fee will not be assessed.

D. A licensee mobilized into active military duty, and who is in military action at the time the license renewal comes due, is not required to renew his/her license or meet the continuing education requirements. However, upon return to civilian status, the licensee shall renew the license without having to pay the renewal or late penalty fee.

E. The license of a respiratory therapist who does not earn the required continuing education for renewal due to his/her call to active military duty will not lapse for failure to earn continuing education hours provided the licensee submits a copy of the mobilization orders to the department prior to the expiration of the license.

F. The license renewal extension authorized by this regulation shall end one month after deployment is concluded.

G. Upon return to civilian status, the licensee shall resume earning continuing education prorated as follows after the deployment ends.

(1) If the deployment ends in October of the odd-numbered year through March of the even-numbered year, the licensee will accrue 20 hours of continuing education for the next renewal cycle.

(2) If the deployment ends in April of the even-numbered year through September of the even-numbered year, the licensee will accrue 15 hours of continuing education for the next renewal cycle.

(3) If the deployment ends in October of the even-numbered year through March of the odd-numbered year, the licensee will accrue 10 hours of continuing education for the next renewal cycle.

(4) If the deployment ends in April of the odd-numbered year through July of the odd-numbered year, the licensee will accrue zero hours of continuing education for the year's renewal cycle.

[11-29-97; 16.23.16.5 NMAC - Rn, 16 NMAC 23.16.5, 01-30-2003; A, 07-10-03]

16.23.16.6 OBJECTIVE:

The objective of PART 16 of Chapter 23 is to set forth the policies and procedures for processing complaints submitted to the department and/or the board against temporary permittees and respiratory care practitioner licensees, and for instituting disciplinary actions against temporary permittees, licensees, or applicants for either.

[11-29-97; 16.23.16.6 NMAC - Rn, 16 NMAC 23.16.6, 01-30-2003]

16.23.16.7 DEFINITIONS:

For the purposes of this rule and for 16.23.17 NMAC:

A. "Complaint" means a complaint, which has been filed with the department and/or the board, against a temporary permittee, respiratory care practitioner licensee, or applicant for either permit or license.

B. "Complainant" means the party who files a complaint against a temporary permittee, a respiratory care practitioner licensee, or an applicant for either a permit or a license governed by the Respiratory Care Act.

C. "Respondent" means the permit or license applicant or the temporary permittee or licensed practitioner who is the subject of the complaint.

D. "Notice of contemplated action" or "NCA" means the administrative action provided for by the Uniform Licensing Act, whereby the respondent is given notice of a pending disciplinary action against his or her application, permit or license, based upon violations of the department's rules and regulations governing the practice of respiratory

care or the Respiratory Care Act, which have been alleged in a complaint filed with the department and/or the board. The respondent is afforded an opportunity for a formal hearing before the department, in consultation with the board.

E. "Formal hearing" means a formal hearing setting before a hearing officer, or a presiding officer and the board, whereby a respondent has the opportunity to be heard and to present evidence under the Uniform Licensing Act repudiating the allegations in the subject complaint. An administrative prosecutor also presents to the department, in consultation with the board, evidence of the alleged violations. The department, in consultation with the board, has the authority to take any action, which would have the effect of denying, revoking, or suspending a license or an application for licensure in accordance with the Uniform Licensing Act.

F. "Hearing officer" or "presiding officer" means the person appointed by the department, in consultation with the board, to conduct hearings under the Uniform Licensing Act.

G. "Redacted" means the act or process of editing or revising the complaint so that the parties, which are the subject of the complaint, are unknown to the board.

[11-29-97; 16.23.16.7 NMAC - Rn, 16 NMAC 23.16.7, 01-30-2003]

16.23.16.8 DISCIPLINARY PROCEEDINGS:

An investigation may be instituted by the department, in consultation with the board, upon the receipt of a written, notarized complaint filed by any person, including any member of the board.

A. A complaint filed, with the department, will be received by the board administrator who will process the complaint and will determine how the complaint will be handled.

B. In cases where it is clearly evident that the complaint does not fall within the board's statutory authority or jurisdiction, the board administrator will not process the complaint and will inform the complainant of the reasons.

C. If the complaint appears to contain violations of the board's statute or its rules and regulations (16.23 NMAC), the board administrator will process the complaint.

D. If the complaint is not lengthy, the board administrator may elect to present the processed complaint to the entire board in a redacted form.

E. If the complaint is lengthy or complicated, the board administrator shall refer it to the board's standards of practice committee for review, consideration, and possible investigation.

F. The department may provide the respondent with a copy of the complaint and allow a reasonable time for a response to the allegations in the complaint.

G. The foregoing notwithstanding, the department will not be required to provide the respondent with a notice of the complaint filing, or a copy of the complaint, or any related investigatory evidence prior to the notice of contemplated action if it determines that disclosure may impair, impede, or compromise the efficacy or integrity of an investigation into the matter.

[11-29-97; 16.23.16.8 NMAC - Rn, 16 NMAC 23.16.8, 01-30-2003]

16.23.16.9 STANDARDS OF PRACTICE COMMITTEE:

On an annual basis, the board chair shall appoint a member or members of the board to a standards of practice committee. The board may also appoint the board administrator and/or a complaint manager to the standards of practice committee.

A. The standards of practice committee will review all documentation provided to it in reference to the subject complaint.

B. The standards of practice committee may be authorized by the board to employ, without prior board approval, the services of an investigator or other persons determined by the committee to be necessary in order to expedite the investigation of a complaint. In such cases, the board administrator will contract for any such required services once budgetary availability is determined.

C. Upon completion of its investigation, the standards of practice committee shall present a summary of the complaint to the board, in a redacted form, for the purpose of enabling the board to act upon the standards of practice committee's recommendations concerning the disposition of the subject complaint.

D. The standards of practice committee may be authorized by the board to discuss a settlement agreement or mediation agreement with the respondent as a means of resolving the complaint.

(1) The settlement or mediation agreement shall be presented to the board for consideration and approval.

(2) Depending on the board's decision and action on any settlement or mediation agreement presented, the Board may make recommendation for further action to the department superintendent.

[11-29-97; 16.23.16.9 NMAC - Rn, 16 NMAC 23.16.9, 01-30-2003; A, 07-10-03]

16.23.16.10 STANDARDS OF PRACTICE COMMITTEE RECUSED:

Members of the standards of practice committee who participate in the preparation of recommendations on complaints shall not participate further in any actions initiated by the department or the board against the permittee, licensee, or applicant who is the subject of the complaint.

[11-29-97; 16.23.16.10 NMAC - Rn, 16 NMAC 23.16.10, 01-30-2003]

16.23.16.11 BOARD ACTION CONCERNING COMPLAINT DISPOSITION:

After consideration, the board shall vote upon the proposed recommendations and either uphold, reverse, or modify the standards of practice committee's recommendations.

A. If the board determines that the department lacks jurisdiction, or that there is insufficient evidence or cause to issue a notice of contemplated action, the board may vote to recommend to the department that the complaint be dismissed and closed.

B. If the board determines that there is sufficient evidence or cause for the department to issue a notice of contemplated action, it may vote to recommend to the department that the complaint be referred to the attorney general's office for possible prosecution in accordance with the provisions contained within the Uniform Licensing Act.

C. The board may recommend that the department take any other action with regard to a complaint which is within the department's authority and which is within the law, including referring the complaint to the attorney general for injunctive proceedings; or referring it to the attorney general and/or the district attorney for prosecution of persons alleged to be practicing without a valid license.

[11-29-97; 16.23.16.11 NMAC - Rn, 16 NMAC 23.16.11, 01-30-2003]

16.23.16.12 PREHEARING MOTIONS:

The board may appoint a hearing officer to decide non-dispositive motions filed prior to a hearing.

[11-29-97; 16.23.16.12 NMAC - Rn, 16 NMAC 23.16.12, 01-30-2003]

16.23.16.13 DISCIPLINARY ACTION:

In accordance with those provisions contained in the Uniform Licensing Act, the department, in consultation with the board, may refuse to issue, suspend, or revoke any license upon finding, after a hearing, that the licensee or applicant for licensure has violated those provisions set forth in Section 61-12B-12 of the Respiratory Care Act or those provisions found to constitute grounds for disciplinary action in Part 17 of the boards regulations (16.23 NMAC). The Uniform Licensing Act allows discipline in many

forms in addition to suspension or revocation, including but not limited to, fines, letters of reprimand, or corrective action plans.

A. Formal letters of reprimand. The department, in consultation with the board, shall have discretionary authority to issue formal letters of reprimand or warning instead of license revocation or suspension. Issuance of formal letters of reprimand shall be subject to the provisions of the Uniform Licensing Act and shall be a matter of public record.

B. Settlement agreements. Following the issuance of a notice of contemplated action, the department, in consultation with the board, may enter into a settlement agreement with the respondent as a means of resolving a complaint.

[11-29-97; 16.23.16.13 NMAC - Rn, 16 NMAC 23.16.13, 01-30-2003]

16.23.16.14 LICENSE/PERMIT RETURNED TO THE DEPARTMENT:

Any temporary permit, wall license and renewal license issued by the department must be returned to the department subsequent to revocation or suspension. The permit or license(s) must be returned in person or by registered mail no later than twenty (20) days after the suspension or revocation order by the department.

[11-29-97; 16.23.16.14 NMAC - Rn, 16 NMAC 23.16.14, 01-30-2003]

16.23.16.15 COSTS OF DISCIPLINARY PROCEEDINGS:

The respondent shall bear all costs of disciplinary proceedings unless the respondent is excused by the department from paying all or part of the fees, or if the respondent prevails at the hearing and an action specified in § 61-1-3 of the Uniform Licensing Act is not taken by the department.

[11-29-97; 16.23.16.15 NMAC - Rn, 16 NMAC 23.16.15, 01-30-2003]

16.23.16.16 PRIVATE CAUSE OF ACTION:

Neither the action nor inaction of the department or board on any complaint shall preclude the initiation of any private cause of action by the complainant.

[11-29-97; 16.23.16.16 NMAC - Rn, 16 NMAC 23.16.16, 01-30-2003]

16.23.16.17 FEDERAL FRAUD AND ABUSE DATA BANK:

A. In accordance with federal requirements imposed by the enactment of the Health Insurance Portability and Accountability Act (HIPAC) of 1996, also known as the Kassebaum-Kennedy bill, the department, in consultation with the board, shall report any final adverse actions taken against a licensee or applicant, which contain an

admission or finding of guilt or liability, to the federal fraud and abuse data bank established under HIPAC.

B. The department, in consultation with the board, has the discretion not to report any final adverse action taken against a licensee or applicant, which does not contain an admission or finding of guilt or liability, to the federal fraud and abuse databank established under HIPAC.

[11-29-97; 16.23.16.17 NMAC - Rn, 16 NMAC 23.16.17, 01-30-2003; A, 07-10-03]

16.23.16.18 NATIONAL RESPIRATORY CARE DISCIPLINARY DATABASE:

All final adverse actions shall also be reported by the department, in consultation with the board, to the national respiratory care disciplinary database established by the national board for respiratory care, inc. (NBRC) and the American association for respiratory care, inc. (AARC) in accordance with the provisions contained in 16.23.16.18 NMAC.

[11-29-97; 16.23.16.18 NMAC - Rn, 16 NMAC 23.16.18, 01-30-2003; A, 07-10-03]

16.23.16.19 UNLICENSED PRACTICE OF RESPIRATORY CARE - DISCIPLINARY GUIDELINES:

In accordance with the provisions contained within the Uniform Licensing Act, the department may take disciplinary action as provided in Section 61-1-3.2, NMSA 1978, (2003 Repl. Pamp.) if the department, in consultation with the board, determines that the respondent has violated the Respiratory Care Act or the department's rules and regulations governing respiratory care (16.23 NMAC) by practicing respiratory care in New Mexico without a valid New Mexico license.

A. The department, in consultation with the board, may impose a civil penalty in an amount not to exceed one thousand dollars (\$1,000) against a person who, without a license, engages in the practice of respiratory care.

B. The department, in consultation with the board, may impose a civil penalty in an amount not to exceed one thousand dollars (\$1,000) against a company or other business entity that requires an unlicensed person to engage in the practice of respiratory care without a license. The penalty shall be imposed in the amount of one thousand dollars (\$1,000) for each individual that the company or business entity employs and who is performing respiratory care scope of practice procedures and/or protocols without benefit of a valid New Mexico respiratory care license or permit.

C. In addition, the department, in consultation with the board may assess the person, company, or other business entity for administrative costs, including investigative costs and the cost of conducting a hearing.

16.23.17.8 DISCIPLINARY GUIDELINES:

In accordance with the provisions contained within the Uniform Licensing Act, the Department may take disciplinary action as provided in Section 61-1-3, if the Department, in consultation with the Board, determines that a respiratory care licensee or temporary permittee has violated the Respiratory Care Act or the Department's Rules and Regulations governing respiratory care 16.23 NMAC. The Superintendent of the Department may refuse to issue or may suspend or revoke any permit or license for any cause listed below:

A. Making fraudulent representations to any respiratory care licensing board in any jurisdiction in the procurement of an initial or a renewal temporary permit or practitioner's license.

B. Having had a temporary permit or practitioner's license denied, suspended or revoked by a respiratory care board in another licensing jurisdiction for any cause listed in 16.23.17 NMAC (this rule). However, the disciplinary action imposed by the Department shall not exceed the length of time or severity of the action imposed by the other licensing jurisdiction.

C. Having been convicted of a crime, which substantially relates to the qualifications, functions or duties of a respiratory care practitioner. The record of conviction or the certified copy of the record of conviction shall be conclusive evidence of the conviction.

D. Engaging in the habitual or excessive use of alcohol or controlled substances.

E. Using or being under the influence of alcohol, controlled substances, or drugs that impair judgment, while on duty in any facility of employment.

F. Obtaining, possessing, administering, or using any narcotic or controlled substance in violation of any Federal or State criminal law.

G. Being responsible for gross negligence in the performance and delivery of health care while engaged in the practice of respiratory care.

H. Violating any provision of the Respiratory Care Act or the rules and regulations governing respiratory care adopted by the Department, or aiding or abetting any other person in violating these laws.

I. Engaging in acts of unprofessional conduct such as, but not limited to, the following:

(1) Failing to maintain minimum acceptable and prevailing standards of respiratory care practice;

(2) Performing procedures and functions beyond which the respondent is individually competent to perform or which are outside the scope of accepted and responsible practice of respiratory care;

(3) Failing to respect and protect the legal and personal rights of the patient, including the right to informed consent and refusal of treatment;

(4) Intentionally or negligently causing physical or emotional injury to a patient;

(5) Assaulting or committing battery on a patient;

(6) Abandoning or neglecting a patient requiring immediate respiratory care without making reasonable arrangements for continuation of such care;

(7) Failing to maintain for each patient a record which accurately reflects the respiratory care treatment of the patient;

(8) Failing to take appropriate action to safeguard the patient's welfare or to follow policies and procedures established by the respiratory care practitioner's employer;

(9) Divulging confidential information regarding any patient or family unless disclosure is required for responsible performance of duty, or as required by law;

(10) Failing or refusing to provide health care to a patient for reasons of discrimination;

(11) Failing to protect the health, safety, and welfare of the patient by abiding by and practicing established policies of disease prevention;

(12) Failing to take appropriate action in the health care setting to protect a patient whose safety or welfare is at risk from incompetent health care practice including, but not limited to, reporting such practice to employment and licensing authorities;

(13) As a supervisor, failing to supervise persons under one's direction or assigning the performance of functions governed by the Respiratory Care Act to persons who are untrained and unqualified to perform those functions;

(14) Removing narcotics, drugs, supplies, or equipment from any health care facility or other work place location without authorization;

J. Committing any fraudulent, dishonest, or unscrupulous act which substantially relates to the qualifications, functions, or duties of a respiratory care practitioner. Such acts shall include, but not be limited to:

(1) Engaging in fraud, misrepresentation, or deceit in writing the national licensing exam.

(2) Impersonating an examination candidate in order to write a certification or licensing examination for him or her.

(3) Impersonating another licensed practitioner.

(4) Practicing respiratory care without a current license.

(5) Permitting or allowing another person to use his or her license for any purpose.

16.23.17.9 GROSS NEGLIGENCE:

In performing respiratory care functions, a temporary permittee or licensed practitioner is under the legal duty to possess and to apply the knowledge, skill, and care that is ordinarily possessed and exercised by other temporary permittees and licensed practitioners and required by the generally accepted standards of the profession. The failure to possess or to apply to a substantial degree such knowledge, skill, and care constitutes gross negligence.

A. Charges of gross negligence may be based upon a single act of gross negligence or upon a course of conduct or series of acts or omissions which extend over a period of time and which, taken as a whole, demonstrate gross negligence.

B. It shall not be necessary to show that actual harm resulted from the act or omission or series of acts or omissions so long as the conduct is of such a character

that harm could have resulted to the patient or to the public from the act or omission or series of acts or omissions.

C. Proof of intent will not be necessary to establish gross negligence.

D. The following shall be deemed prime examples of activities which demonstrate that the temporary permittee or licensed practitioner has engaged in an act or acts of gross negligence. The Department, in consultation with the Board, shall not be limited to this list in determining whether an act or acts constitute gross negligence.

(1) Acting in a manner inconsistent with the care for the welfare, health, or safety of patients set forth by the facility in which the temporary permittee or licensed practitioner is employed.

(2) Performance or conduct that substantially departs from, or fails to conform to, the minimal reasonable standards of acceptable and prevailing practice of respiratory care.

(3) Failure to adhere to the facility's quality assurance standards and risk management recommendations.]

(4) Failure to maintain an appropriate standard of care.

(5) Failure to follow established policies and procedures.

(6) Performing procedures beyond the scope of one's training and education.

(7) Attempting to treat too many patients simultaneously, resulting in harm to one or more patients.

In accordance with the provisions in the Impaired Health Care Provider Act, the examining committee shall order and conduct an examination and may require a physical examination or drug test of the permittee or licensee, to determine fitness to practice respiratory care with reasonable skill or safety to patients, either on a restricted or unrestricted basis.

[16.23.18.10 NMAC - Rp, 16.23.18.10 NMAC, 4/21/2022]

16.23.18.11 PHYSICAL EXAM OR DRUG TEST ORDERED:

The physical examination and drug test ordered by the examination committee shall be performed by a licensed professional designated by the department. The cost of said examination or test shall be borne by the temporary permittee or licensed practitioner.

[16.23.18.11 NMAC - Rp, 16.23.18.11 NMAC, 4/21/2022]

16.23.18.12 EXAMINING COMMITTEE REPORT:

A. The examining committee shall report its findings on the examination and make recommendation to the board and the department.

B. Recommendations made to the board and the department by the examining committee shall be advisory only and shall not be binding on the board or the department.

[16.23.18.12 NMAC - Rp, 16.23.18.12 NMAC, 4/21/2022]

16.23.18.13 RESULTS ADMISSIBLE:

The results of the examining committee's findings and the physical exam and drug test shall be admissible in any subsequent review by the board or hearing before the department, notwithstanding any claim of privilege under a contrary rule or law or statute.

[16.23.18.13 NMAC - Rp, 16.23.18.13 NMAC, 4/21/2022]

16.23.18.14 [RESERVED]

16.23.18.15 FAILURE OR REFUSAL TO SUBMIT TO EXAMINATION:

Failure or refusal by the temporary permittee or licensed practitioner to comply with an examining committee order to appear before it for examination, or to submit to a physical examination or drug test pursuant to the Impaired Health Care Provider Act, shall be grounds for immediate and summary suspension of the temporary permit or license by the department until further order by the department.

[16.23.18.15 NMAC - Rp, 16.23.18.15 NMAC, 4/21/2022]

16.23.18.16 ACTION ON EXAMINATION COMMITTEE REPORT:

The department, in consultation with the board, may accept or reject any finding, determination, or recommendation made by the examining committee to the board regarding the temporary permittee's or licensee's ability to continue to practice with or without restriction on the temporary permit or the license, or it may refer the matter back to the board or the examination committee for further examination and report, or it may decide that formal disciplinary action is immediately warranted.

[16.23.18.16 NMAC - Rp, 16.23.18.16 NMAC, 4/21/2022]

16.23.18.17 [RESERVED]

16.23.18.18 ENTITLEMENT TO HEARING:

Before the department, in consultation with the board, can take action to restrict, suspend, or revoke the temporary permittee's permit or practitioner's license on the evidence reported by the examining committee, the temporary permittee or licensed practitioner shall be entitled to a hearing under, and in accordance with, the procedures contained in the Impaired Health Care Provider Act and the Uniform Licensing Act.

[16.23.18.18 NMAC - Rp, 16.23.18.18 NMAC, 4/21/2022]

16.23.18.19 [RESERVED]

16.23.18.20 REQUEST FOR VOLUNTARY RESTRICTION OF THE PERMIT OR LICENSE:

In lieu of a formal hearing, the temporary permittee or licensed practitioner may voluntarily request, in writing to the department, a restriction of the temporary permit or the license to practice respiratory care.

A. The department, in consultation with the board, may grant the request for restriction and shall have authority, if it deems appropriate, to attach conditions to the temporary permit or practitioner's license to practice within specified limitations.

B. Upon imposition of voluntary restrictions on the temporary permit or the practitioner's license, the department, in consultation with the board, shall have the authority, if it deems appropriate, to waive the commencement of any further disciplinary proceedings conducted in accordance with the Uniform Licensing Act.

[16.23.18.20 NMAC - Rp, 16.23.18.20 NMAC, 4/21/2022]

16.23.18.21 PETITION FOR REMOVAL OF VOLUNTARY RESTRICTION:

The temporary permittee or licensed practitioner shall have a right, at reasonable intervals after a year, to petition the department in writing, for the removal of the voluntary restriction and to demonstrate that he or she is capable of resuming the competent practice of respiratory care with reasonable skill and safety to patients.

A. The department, in consultation with the board, shall act on the petition by referring it to the examining committee, who shall conduct the necessary examination of the temporary permittee or the licensed practitioner, and make written recommendation to the board.

B. Upon consideration of the examining committee's recommendation, the department, in consultation with the board may, in its discretion, remove the voluntary restriction on the temporary permit or practitioner's license.

[16.23.18.21 NMAC - Rp, 16.23.18.21 NMAC, 4/21/2022]

16.23.18.22 ABSENCE OF A VOLUNTARY REQUEST FOR RESTRICTION:

In the absence of a request by the temporary permittee or licensed practitioner for voluntary restriction of their temporary permit or practitioner's license as provided in 16.23.18.20 NMAC (this rule), the department may, in its discretion, initiate proceedings for the restriction, suspension, or revocation of the temporary permit or practitioner's license in accordance with the Impaired Health Care Provider Act and the Uniform Licensing Act.

[16.23.18.22 NMAC - Rp, 16.23.18.22 NMAC, 4/21/2022]

16.23.18.23 TEMPORARY SUSPENSION:

The department may temporarily suspend the temporary permit or license without a hearing, simultaneously with the institution of proceedings under the Impaired Health Care Provider Act or the Uniform Licensing Act, if it finds that the evidence in support of the examining committee's determination is clear and convincing and that the respondent's continuation in practice would constitute an imminent danger to the health and safety of the public. The respondent shall be entitled to a hearing to set aside the suspension no later than sixty days after the license is suspended.

[16.23.18.23 NMAC - Rp, 16.23.8.23 NMAC, 4/21/2022]

16.23.18.24 PETITION FOR REINSTATEMENT, RESTORATION, OR MODIFICATION OF DISCIPLINARY ORDER:

Subsequent to formal proceedings under the Impaired Health Care Provider Act and the Uniform Licensing Act, any temporary permittee or licensed practitioner who is prohibited from practicing respiratory care may, after a year from the date of suspension or revocation of the temporary permit or practitioner's license, petition the department for reinstatement or restoration of his or her temporary permit or license to practice, or for modification of the final disciplinary orders.

A. The application for reinstatement or restoration of the temporary permit or practitioner's license, or for the modification of the disciplinary orders shall be made in writing to the department by the temporary permittee or licensed practitioner.

B. The temporary permittee or licensed practitioner shall be afforded an opportunity to demonstrate that he or she can resume the practice of respiratory care with reasonable skill, competence, and safety to patients and shall be required to provide verifiable proof of compliance with any stipulations in the disciplinary order.

(1) The department may require an examination by the examining committee for such reinstatement, restoration, or modification of the temporary permit or practitioner's license.

(2) The department may require verification that the temporary permittee or licensed practitioner has completed a treatment program for alcohol or chemical dependency.

(3) The department may require verifiable proof that the temporary permittee or licensed practitioner has remained abstinent from alcohol or chemical dependence, except for drugs prescribed by a licensed physician for a legitimate medical condition, for a minimum of at least one year.

(4) The department may require verifiable proof that the temporary permittee or licensed practitioner has maintained active and uninterrupted participation in a program of aftercare which provides for periodic monitoring and supervision by appropriately trained personnel, and which includes random and unannounced drug and alcohol screening of urine or blood.

(5) The department shall have the discretion to accept or reject the petition for reinstatement or restoration of the temporary permit or practitioner's license, or for modification of the disciplinary orders.

[16.24.2.3 NMAC - N, 7/1/18]

16.24.2.4 DURATION:

Permanent.

[16.24.2.4 NMAC - N, 7/1/18]

16.24.2.5 EFFECTIVE DATE:

July 1, 2018 unless a later date is cited at the end of a section.

[16.24.2.5 NMAC - N, 7/1/18]

16.24.2.6 OBJECTIVE:

To provide for the most humane restraint, in-facility capture, and death possible for animals when euthanasia is required.

[16.24.2.6 NMAC - N, 7/1/18]

16.24.2.7 DEFINITIONS:

[RESERVED]

16.24.2.8 PRACTICING WITHOUT A LICENSE OR CERTIFICATE:

A. It is a violation of the act for a person, other than a veterinarian licensed to practice in New Mexico, to perform euthanasia for a euthanasia agency in this state unless the individual is licensed by the board pursuant to Subsection B of Section 77-1-6 NMSA 1978.

B. It is a violation of the act for an entity other than a veterinary facility to perform euthanasia unless the agency is licensed by the board pursuant to Subsection B of Section 77-1-8 NMSA 1978.

[16.24.2.8 NMAC - N, 7/1/18]

16.24.2.9 LICENSURE OR CERTIFICATION EXEMPTIONS:

A. The act does not apply to veterinarians licensed in New Mexico.

B. The act does not apply to wildlife rehabilitators working under the auspices of the department of game and fish.

C. A for profit veterinary facility serving as a euthanasia agency pursuant to a contract with a local government is exempt from the provisions of the act; provided that the veterinary facility is subject to licensure and rules adopted pursuant to the Veterinary Practice Act, Section 61-14-1 et. seq. NMSA 1978.

D. A municipal facility that is a zoological park is exempt from the provisions of the act.

E. A commissioned law enforcement officer is exempt from the act when conducting emergency field euthanasia or in situations where the public's health or safety is at risk or the animal is irremediably suffering.

F. The board may exempt a euthanasia instructor from the required euthanasia technician testing based upon review of the applicant's credentials and practical experience in shelter euthanasia. The applicant shall be required to obtain a euthanasia instructor certificate and is subject to the required certified euthanasia instructor duties.

[16.24.2.9 NMAC - N, 7/1/18]

16.24.2.10 CUSTODY AND ALTERATION OF LICENSE OR CERTIFICATE:

A. Licenses and certificates issued by the board are at all times the property of the board, and may remain in the custody of the licensee or certificate holder only as long as the licensee or certificate holder complies with the act and board rules.

B. Licenses and certificates shall not be altered or duplicated in any way.

C. Inspectors or board designees shall retrieve any license or certificate that is suspended, revoked, expired, or left by a licensee or certificate holder who is no longer employed at an establishment.

[16.24.2.10 NMAC - N, 7/1/18]

16.24.2.11 LICENSE OR CERTIFICATE NOT TRANSFERABLE:

A license or certificate issued by the board pursuant to the act shall not be transferred or assigned.

[16.24.2.11 NMAC - N, 7/1/18]

16.24.2.12 DISPLAY OF LICENSE OR CERTIFICATE AND NOTIFICATION OF CHANGES:

A. A euthanasia technician license or a euthanasia agency license shall at all times be posted in the euthanasia room of the euthanasia agency, unless the euthanasia technician is working at a location other than the euthanasia agency. If the euthanasia technician is performing euthanasia offsite, the licensee shall have the license in his or her possession. Euthanasia instructor certificate holders shall have the certificate in his or her possession when teaching any board approved euthanasia technician training course.

B. Licensees and certificate holders shall notify the board of any change of address, phone or other contact information within 30 days. If a euthanasia agency has a change of address, its current license will be invalidated on the date the change in address is effective and the agency shall reapply to the board for a valid license in order to perform euthanasia.

[16.24.2.12 NMAC - N, 7/1/18]

16.24.2.13 APPLICATION FOR LICENSURE AS A EUTHANASIA TECHNICIAN:

A. In order to obtain a license as a licensed euthanasia technician, the applicant shall submit the following documentation and a completed application on a form provided by the board which may available online, accompanied by the required fees:

- (1)** proof of age indicating the applicant is at least 18 years of age, such as a copy of a driver's license or a copy of a state issued identification card (do not submit a copy of a birth certificate);
- (2)** two, two inch by two inch original photographs taken within the past six months;
- (3)** a notarized authorization for release of information form;
- (4)** state criminal history background check as specified in 16.24.2.17 NMAC;
- (5)** verification that the applicant holds a high school diploma or its equivalent;
- (6)** verification that the applicant holds a certificate of completion, or similar document, of a board approved euthanasia technician training course within three years preceding the date the application for licensure is submitted, which course shall be approved as described in 16.24.2.18 NMAC;
- (7)** verification of passing a board approved examination administered by a certified euthanasia instructor at a board approved euthanasia training course with a grade of at least eighty percent;
- (8)** passing an examination, administered by the board, with a grade of at least eighty percent;
- (9)** any other information or verifications the board may request.

B. Sixty-day temporary euthanasia technician license.

(1) A temporary license may be issued at the discretion of the board. The temporary license is intended to assist a licensed euthanasia agency to hire trained personnel in the event the agency's only licensed euthanasia technician leaves the agency or is no longer able to perform euthanasia for any reason. The temporary license is valid for a period of no more than 60 calendar days. The temporary license cannot be renewed by the euthanasia technician. No more than one temporary license may be granted to an individual unless approved by the board in consideration of extenuating circumstances.

(2) To qualify for a temporary license, an applicant shall submit all items required in Paragraphs (1) through (6) of Subsection A of 16.25.11.12 NMAC.

[16.24.2.13 NMAC - N, 7/1/18]

16.24.2.14 APPLICATION FOR CERTIFICATION AS A EUTHANASIA INSTRUCTOR:

A. In order to obtain a certificate as a certified euthanasia instructor the applicant shall submit the following documentation and a completed application on a form provided by the board, which may be available online, accompanied by the required fees:

- (1) proof of age indicating the applicant is at least 21 years of age such as a copy of a driver's license or a copy of a state issued identification card (do not submit a copy of a birth certificate);
- (2) two, two inch by two inch original photographs taken within the past six months;
- (3) a notarized authorization for release of information form;
- (4) state criminal history background check as specified in 16.24.2.17 NMAC;
- (5) verification that the applicant holds a high school diploma or its equivalent;
- (6) verification that the applicant holds a certificate of completion of a board approved euthanasia technician training course, completed within one year preceding the date the application for certification is submitted;
- (7) verification of passing a board approved examination for a board approved euthanasia technician training course with a grade of at least ninety percent;
- (8) verification of at least one year of practical experience in the euthanasia of shelter animals preceding the date of application;
- (9) any other information or verifications the board may request.

B. The board may exempt a euthanasia instructor from taking a required board approved euthanasia technician training course and test based upon review of the applicant's credentials and practical experience in shelter euthanasia. The applicant shall be required to obtain a euthanasia instructor certificate and is subject to the required certified instructor duties.

[16.24.2.14 NMAC - N, 7/1/18]

16.24.2.15 APPLICATION FOR LICENSURE AS A EUTHANASIA AGENCY:

All agencies that will provide euthanasia services on or after January 1, 2010, shall be licensed by the board by January 1, 2010, or before performing euthanasia services if the agency does not begin performing euthanasia services until a later date. In order to obtain a license as a euthanasia agency, the applicant shall submit the following documentation and a completed application on a form provided by the board, which may be online, accompanied by the required fee:

- A.** the agency shall have at least one licensed euthanasia technician on staff who shall at all times be assisted by a trained assistant;
- B.** the agency shall provide the names of their current licensed euthanasia technicians at the time of application or renewal for licensure and shall notify the board when there is a change in licensed euthanasia technicians at the agency within 30 days;
- C.** the agency shall have a written contingency plan for providing euthanasia in the event the agency is without a licensed euthanasia technician;
- D.** the agency shall notify the board in the event it no longer has a licensed euthanasia technician on staff within 72 hours;
- E.** the agency shall keep accurate controlled substance and dangerous drug logs, in compliance with applicable state controlled substances laws, which shall be inspected quarterly according to the guidelines of the New Mexico pharmacy board and shall be made available to the board approved euthanasia agency inspector;
- F.** the agency shall identify and describe any contracts with a supervising veterinarian, a consulting pharmacist and any holder of DEA licenses;
- G.** the agency shall comply with board inspections;
- H.** the agency shall pay the license fee established by the board; and
- I.** the agency shall provide any other information or verifications the board may request.

[16.24.2.15 NMAC - N, 7/1/18]

16.24.2.16 APPLICATION FOR LICENSE OR CERTIFICATE RENEWALS:

A. Licenses and certificates shall be valid for one year from the date the license or certificate is issued. Each licensee or certificate holder shall, on or before the expiration date of the license or certificate submit a renewal form provided by the board and pay a renewal fee as established by the board. Holders of a license or certificate who fail to renew on or before the expiration date may not practice past the expiration date and may be considered to be practicing without a license. Any person may reinstate an expired license or certificate within three years of its expiration by making application to

the board for renewal and paying the current renewal fee along with all delinquent renewal fees and late fees. After three years have elapsed since the date of expiration, a license or certificate may not be renewed and the holder shall apply for a new license or certificate and take the required examination. The board may assess a late fee on the applicant as established by the board. License or certificate holders shall also comply with Subsections B through D to renew a license or certificate, as applicable.

B. For each renewal, a euthanasia technician shall also:

(1) provide proof of having taken four hours of board-approved continuing education courses or in-service training during the prior year, which may include, but are not limited to, animal handling, euthanasia, recording and handling of controlled substances and dangerous drugs, shelter operations and teacher training courses. Credit for non-contact forms of instruction including online training is accepted. A maximum of four credit hours may be accrued as excess and carried forward to the subsequent licensing year.

(2) complete any continuing education course specifically required by the board within the preceding twelve months;

(3) be responsible for proving the validity of the reported continuing education hours by submitting photocopies of seminar registrations or completion certificates, or similar documentation; and

(4) submit a request for course approval including a course description with course outline, the number of course hours, and agency teaching the course, in writing to the board if there is a question about whether a particular course, class, or seminar will be approved for credit.

C. For each renewal, a euthanasia instructor shall also:

(1) provide proof of having taken eight hours of board approved continuing education courses during the prior 12 months, which may include, but are not limited to, animal handling, euthanasia, recording and handling of controlled substances and dangerous drugs, shelter operations and teacher training courses. Credit for non-contact forms of instruction including online training is accepted. A maximum of eight credit hours may be accrued as excess and carried forward to the subsequent licensing year.

(2) complete any continuing education course specifically required by the board within the preceding twelve months;

(3) be responsible for proving the validity of the reported continuing education hours by submitting photocopies of seminar registrations or completion certificates, or similar documentation; and

(4) submit a request for course approval including a course description with course outline, the number of course hours, and agency teaching the course, in writing to the board if there is a question about whether a particular course, class, or seminar will be approved for credit.

D. For each renewal, a euthanasia agency shall also:

(1) submit to an inspection every other calendar year and correct any deficiencies found during its inspection;

(2) submit a current list of its licensed euthanasia technicians.

[16.24.2.16 NMAC - N, 7/1/18]

16.24.2.17 APPLICANT BACKGROUND CHECK PROCEDURE:

A. Pursuant to Subsection B of Section 77-1-5(N) NMSA 1978 all applicants for initial issuance or reinstatement of a license or certificate in New Mexico shall be required to establish positive identification for a state criminal history background check, except commissioned law enforcement officers.

B. Department of public safety authorization for release of information form shall be submitted to the department of public safety with a money order or cashier's check made out to the department of public safety, for the prescribed fee for the amount established by the department of public safety for the processing of state criminal history background checks.

[16.24.2.17 NMAC - N, 7/1/18]

16.24.2.18 CURRICULUM FOR BOARD APPROVED EUTHANASIA TECHNICIAN TRAINING COURSES:

In order to receive board approval for a euthanasia technician training course that will be taught on or after July 1, 2009, the euthanasia instructor shall submit a written request for approval to the board along with 12 copies of the instructor's manual, the course curriculum and a description of the test administered by the instructor. Courses will be approved until such time as the board revokes the approval. Approved courses will subject to annual review. The curriculum shall include the following.

A. animal anatomy and physiology as related to euthanasia;

B. euthanasia: the history, current standards, stages of euthanasia, best practices;

C. euthanasia by injection: acceptable sites (advantages, disadvantages, criteria for selecting which site), restraint for each type of injection, injection techniques and mechanics of each technique, acceptable euthanasia drugs, best practices;

D. pre-euthanasia anesthesia: uses, stages of anesthesia, criteria for judging depth of anesthesia, drugs for this use, administration sites and methods, best practices;

E. verification of death: proper and accurate methods of verification of death;

F. pharmaceuticals: controlled and non-controlled substances (types, method of actions, uses), dosage calculations, security and storage of both types of drugs, record keeping, drug logs, controlled substance logs, labeling of drug mixtures, material safety data sheets (MSDS sheets), inventory management;

G. proper disposal techniques: euthanized animals, drug waste, expired drugs, sharps, biohazardous or infectious waste;

H. euthanasia by non-injection method: criteria for choosing case for non-injection method;

I. emergency field euthanasia: methods and best practices for emergency field euthanasia;

J. animal handling: humane handling techniques, techniques to reduce animal stress, restraint of wild or unsocialized animals, humane capture techniques for in-facility escapes;

K. species other than dogs and cats: restraint techniques, acceptable and best euthanasia techniques for each species, public health concerns, rabies (description of disease, signs, submission procedures);

L. euthanasia room: equipment and supplies (use and location), backup equipment, setup, lighting, safety measures; and

M. staff health and safety concerns: zoonotic disease, emergency equipment (use, location), sharps handling and disposal, work place safety, safety equipment and apparel, eye wash station; compassion fatigue and euthanasia-related stress (recognition, reduction techniques, professional services).

PART 3: DUTIES OF LICENSEES AND CERTIFICATE HOLDERS

16.24.3.1 ISSUING AGENCY:

New Mexico Board of Veterinary Medicine.

[16.24.3.1 NMAC - N, 7/1/18]

16.24.3.2 SCOPE:

This part applies to applicants, licensees, certificate holders and persons or agencies within the jurisdiction of the board.

[16.24.3.2 NMAC - N, 7/1/18]

16.24.3.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Veterinary Practice Act, Subsections B of Sections 77-1-5, 77-1-6, 77-1-7 NMSA 1978.

[16.24.3.3 NMAC - N, 7/1/18]

16.24.3.4 DURATION:

Permanent.

[16.24.3.4 NMAC - N, 7/1/18]

16.24.3.5 EFFECTIVE DATE:

July 1, 2018 unless a later date is cited at the end of a section.

[16.24.3.5 NMAC - N, 7/1/18]

16.24.3.6 OBJECTIVE:

To establish board approved procedures for humane euthanasia of common shelter animals in New Mexico that include duties of euthanasia agencies, euthanasia technicians, and euthanasia instructors in order to ensure approved humane restraint and euthanasia techniques are consistently practiced.

[16.24.3.6 NMAC - N, 7/1/18]

16.24.3.7 DEFINITIONS:

[RESERVED]

16.24.3.8 GENERAL REQUIREMENTS FOR LICENSED EUTHANASIA TECHNICIANS AND AGENCIES:

A. Euthanasia shall be performed by a licensed euthanasia technician employed or under contract with a licensed euthanasia agency, by a licensed veterinarian, or in the case of emergency field euthanasia, may be performed by a commissioned law enforcement officer by means of gunshot.

B. Euthanasia technicians shall scan all companion animals for a microchip and look for a license or other identification tag directly prior to performing euthanasia. Every microchip, license or identification tag located shall be recorded. If a microchip, license or identification tag is found at the time of euthanasia, the licensed euthanasia technician shall verify that all reasonable attempts to contact the owner have been made and only after verification may the euthanasia proceed. If the verification is not possible, then the euthanasia shall be postponed until verification is completed, except in situations in which the animal is in severe, acute distress or is irremediably suffering.

C. Euthanasia technicians shall euthanize dogs and cats only by the use of an FDA approved sodium pentobarbital euthanasia solution, or any other board approved euthanasia solutions, with the exception of emergency field euthanasia as provided for in 16.24.3.15 NMAC.

D. Euthanasia agencies using controlled substances shall have under contract a consulting pharmacist as defined in the New Mexico Pharmacy Act.

E. Euthanasia agencies shall be inspected at least every other calendar year.

F. Euthanasia technicians shall euthanize all other non-livestock animals in accordance with Section 61-11-1 Pharmacy Act. et. seq. NMSA 1978 and the applicable methods, recommendations and procedures set forth in 16.24.3.9 NMAC and 16.24.3.12 through 16.24.3.15 NMAC.

G. Euthanasia technicians and euthanasia agencies shall maintain storage, security, recordkeeping and disposal methods of controlled substances used for euthanasia as set forth in the board approved euthanasia technician training courses in accordance with the New Mexico pharmacy board and DEA regulations. Euthanasia technicians and euthanasia agencies shall adhere to all existing state and federal laws and protocols.

H. Euthanasia agencies shall display material safety data sheets for all drugs used in the euthanasia process in the euthanasia area or shall make such material available and accessible to all employees on the premises.

I. Euthanasia technicians may use a sedative or anesthetic as set forth in the board approved euthanasia technician training courses.

J. Euthanasia technicians and their assistants shall handle animals humanely as detailed in board approved euthanasia instruction from the commencement of and throughout the euthanasia process. Remains shall be disposed of promptly in compliance with local ordinance.

K. A euthanasia agency shall handle, treat and dispose of infectious waste, including but not limited to remains, anatomical body parts, excretions, blood soiled articles and bedding, that are generated from an animal that the agency knows or has

reason to suspect has a disease that is capable of being transmitted to humans as follows.

(1) All infectious waste will be sterilized or disinfected by heat, steam, chemical disinfection, radiation, or desiccation.

(2) Infectious waste held for disposal shall be collected in sanitary leak resistant bags clearly labeled for biohazard disposal. The bag shall contain the gloves worn while collecting the waste and those used in treatment and post mortem examinations of suspect animals.

(3) All sharps shall be disposed of in labeled sharps containers. Such containers shall be rigid-sided, solidly sealed containers that are highly resistant to puncture. These containers shall be incinerated or disposed of in an environmentally safe manner by a duly licensed disposer or an approved medical sharps incineration facility or shall be disposed of in such a way as to render the sharps harmless. This disposal shall not apply to infectious waste sharps, which, contained in a puncture resistant container, should be disposed of as described in infectious waste disposal. Due to the small volume of sharps generated in a euthanasia agency, transportation of the filled, sealed containers shall not be mandated by nor limited to commercial haulers.

L. A euthanasia agency shall dispose of drugs as follows.

(1) The removal and disposal of outdated or unwanted dangerous drugs shall be the responsibility of the consultant pharmacist.

(2) Outdated or unwanted controlled substances shall be disposed of through a DEA-registered reverse distributor or pursuant to the requirements of Title 21, Code of Federal Regulations, Part 1307.

(3) The transfer of any dangerous drug inventory to another registrant shall be pursuant to the rules of the board of pharmacy and be the responsibility of the consultant pharmacist in compliance with state and federal laws and regulations for the transfer of such drugs.

M. A euthanasia agency shall handle waste materials that are generated from an animal that does not have a disease transmissible to humans and is not suspected of being contaminated with an agent capable of infecting humans as provided under this section.

(1) Animal remains.

(a) A euthanasia technician shall dispose of an animal's remains promptly by release to owner, burial, cremation, incineration, commercial rendering or, if permitted by local ordinance, placement in a public landfill.

(b) If prompt disposal of an animal's remains is not possible, the euthanasia technician shall contain the animal's remains in a freezer or store them in a sanitary, non-offensive manner until such time as they can be disposed of as provided above.

(2) A euthanasia technician shall dispose of tissues, specimens, bedding, animal waste and extraneous materials, not suspected of harboring pathogens infectious to humans, by approved municipality or county disposal methods.

N. In the event of the occurrence of a suspect foreign animal disease or disease of potential concern to state or national security, the euthanasia agency will immediately contact the state veterinarian, the U. S. department of agriculture, and other applicable departments. The euthanasia technician and euthanasia agency shall handle all tissues, laboratory samples, and biomedical waste associated with such cases in accordance with the recommendations made by the state veterinarian, and other departments and agencies, which are deemed necessary and appropriate in such cases.

O. It shall be a violation of the act for euthanasia technicians and euthanasia agencies to end an animal's life using the following methods:

- (1)** decompression;
- (2)** nitrous oxide;
- (3)** drowning;
- (4)** decapitation;
- (5)** cervical dislocation;
- (6)** pithing;
- (7)** exsanguination;
- (8)** electrocution;
- (9)** gunshot, excluding properly performed field euthanasia in an emergency situation as defined in 16.24.3.13 NMAC below;
- (10)** air embolism;
- (11)** nitrogen flushing;
- (12)** strychnine;
- (13)** acetone or any other industrial solvent;

- (14) any other chemical agent;
- (15) intrahepatic injection (IH); and
- (16) any method not specifically approved by the board.

[16.24.3.8 NMAC - N, 7/1/18]

16.24.3.9 DUTIES OF A LICENSED EUTHANASIA TECHNICIAN:

The duties of a euthanasia technician shall include but are not limited to:

- A.** performing euthanasia on a sufficient number and variety of animals under the direct supervision of a veterinarian or a skilled, knowledgeable licensed euthanasia technician to demonstrate proficiency in the performance of humane euthanasia before performing euthanasia without supervision, and, verifying in writing to the board (for example, by a letter written by the supervising veterinarian or euthanasia technician) within 60 days that the technician has demonstrated proficiency and maintains that documentation at the euthanasia agency, provided that this requirement does not apply to euthanasia technicians who have performed euthanasia for a period of at least six months;
- B.** preparing animals for euthanasia, including scanning for the presence of a microchip in companion animals;
- C.** carefully and accurately recording the dosage and drug waste for each euthanasia performed pursuant to the rules of the New Mexico board of pharmacy;
- D.** maintaining the security of all controlled substances and dangerous drugs, including records relating to controlled substances and dangerous drugs, at the euthanasia agency in accordance with applicable state and federal laws;
- E.** reporting to the board and the department of health any infraction of the act or rules adopted pursuant to the act, or any misuse of drugs;
- F.** humanely capturing, restraining, and euthanizing animals as taught in board approved euthanasia technician training courses;
- G.** disposing of remains in accordance with law;
- H.** maintaining license in an active status;
- I.** reporting any change of name, address, telephone or other contact information to the board within 30 days;

J. providing to the board or authorized board representative a reply to a request for information allowed under the act or these rules within ten working days;

K. a euthanasia technician shall prepare a report of any euthanasia performed that deviates from board approved rules, and the euthanasia agency shall keep these records on file for four years.

[16.24.3.9 NMAC - N, 7/1/18]

16.24.3.10 DUTIES OF A CERTIFIED EUTHANASIA INSTRUCTOR:

The duties of a certified euthanasia instructor shall include but are not limited to:

A. reporting any change of name, address, phone or other contact information to the board within 30 days;

B. maintaining current knowledge of New Mexico board of pharmacy rules and the New Mexico board of veterinary medicine rules, as they apply to euthanasia and controlled substances used in the practice of euthanasia;

C. providing reports on a form provided to the board within 30 days of the completion of the courses;

D. providing to the board or authorized board representative, a reply to a request for additional information allowed under the act or these rules within ten working days.

[16.24.3.10 NMAC - N, 7/1/18]

16.24.3.11 DUTIES OF A LICENSED EUTHANASIA AGENCY:

The duties of a licensed euthanasia agency include, but are not limited to:

A. keeping records for a period of four years showing:

(1) those individuals who are authorized in writing, in accordance with these rules, by the euthanasia agency to administer an FDA approved sodium pentobarbital euthanasia solution or other board approved euthanasia solution;

(2) logs with respect to controlled substances used to carry out humane euthanasia in accordance with the New Mexico pharmacy board rules;

B. having at least one licensed euthanasia technician on staff or having a contract with a veterinary facility for the purposes of performing euthanasia; in the event the agency falls below this minimum requirement, the agency shall immediately apply to the board to license additional individual(s) or forfeit its license;

C. accurately reporting no later than January 31 annually on board provided forms, impound, disposition and reason for euthanasia of all animals for the prior year; the board may suspend or revoke the agency's license in the event the agency fails to report to the board by February 28 of each year;

D. expediting the euthanasia procedure for any animal accepted by a euthanasia agency that is critically ill or severely injured and that in the determination of the euthanasia agency requires euthanasia; in these cases, the euthanasia agency shall place the animal in a quiet environment and give the animal treatment to reduce pain and suffering until a euthanasia technician or veterinarian is able to euthanize the animal;

E. having a current euthanasia policy and procedures manual; the manual shall include but is not limited to the following:

- (1)** a copy of the act;
- (2)** a copy of the euthanasia training manuals provided by the board approved euthanasia technician training courses attended by the euthanasia technicians working at the euthanasia agency;
- (3)** a list of methods of euthanasia allowed at the euthanasia agency and the policy and procedures for each method;
- (4)** a list of licensed euthanasia technicians, the methods they have been trained in, the date of training and the date of expiration of their license;
- (5)** the name, address and contact information for the veterinarian or euthanasia technician responsible for the euthanasia agency facility license;
- (6)** the name, address and contact information for the veterinarian responsible for veterinary medical care of the animals; the contact information shall include telephone numbers for working hours, weekends, nights and holidays;
- (7)** a protocol for euthanasia procedures to use in emergencies, after hours, holidays and weekends;
- (8)** procedures to follow if no licensed euthanasia technician is present and euthanasia of an animal is necessary;
- (9)** a list of methods of verifying death of an animal after a euthanasia process is performed;
- (10)** the name and contact information of the manufacturer and supplier of all materials used in euthanasia procedures at the euthanasia agency, including such materials as:

- (a) bottled gas (if applicable);
 - (b) the chamber used to euthanize animals by inhalant gas (if applicable);
 - (c) injectable FDA approved sodium pentobarbital euthanasia solution or other board approved euthanasia solution; and,
 - (d) sedative or anesthetic solution;
- (11) a copy of the original DEA certification permitting the use of controlled substances;
- (12) a material safety data sheet for any chemical or gas used for euthanasia in that agency;
- (13) a material safety data sheet for any anesthetic or tranquilizer used in that agency;
- (14) notice of the signs and symptoms associated with human exposure to the agents used for euthanasia at that agency;
- F.** providing for the observation or inspection of the euthanasia process and euthanasia agency as requested by the board; observations or inspections may be done by any means including through a board approved instructor, inspector, or appointed designee;
- G.** a euthanasia technician shall prepare a report of any euthanasia performed that deviates from board approved rules, and the euthanasia agency shall keep these records on file for four years;
- H.** the agency shall ensure that any assistants to the euthanasia technician have received, at a minimum, documented in-service training as to the proper handling and restraint of animals for the purposes of euthanasia; this training can be provided by the agency's own licensed euthanasia technician.

[16.24.3.11 NMAC - N, 7/1/18]

16.24.3.12 EUTHANASIA BY INJECTION OF FDA APPROVED SODIUM PENTOBARBITAL EUTHANASIA SOLUTION OR BOARD APPROVED EUTHANASIA SOLUTIONS:

A. The approved routes of injections of an FDA approved sodium pentobarbital euthanasia solution or board approved euthanasia solutions, listed in order of preference, are:

(1) intravenous injection as taught in board approved euthanasia technician training courses;

(2) intraperitoneal injection, but only if used as taught in a board approved euthanasia technician training course and as set forth below; or

(3) intracardiac injection, but only if used in accordance with Section 30-18-15 NMSA 1978 and as set forth below; it is unlawful for a euthanasia technician to use intracardiac injections to administer euthanasia to a conscious animal.

B. Intracardiac injection shall be acceptable only when performed on anesthetized or comatose animals. If a euthanasia technician uses intracardiac injection, the euthanasia technician shall administer the appropriate pre-euthanasia drugs as set forth in the board approved euthanasia technician training courses and shall ascertain that the animal is not conscious before administering the intracardiac injection.

C. Only veterinarians or euthanasia technicians shall administer the injections set forth in the board approved euthanasia technician training.

D. The euthanasia agency shall equip the designated area used for injection to ensure accuracy in the procedure and safety for the euthanasia technician, which should include but is not limited to sufficient lighting, useable animal restraint devices, and an eye wash station.

E. Euthanasia technicians shall administer injectable euthanasia agents to animals with at least the minimum dosage, as set forth in the board approved euthanasia technician training courses.

F. Euthanasia technicians shall place animals given an FDA approved sodium pentobarbital euthanasia solution or board approved euthanasia solutions by intraperitoneal injection in a quiet area, separated from physical contact with other animals during the dying process except that newborns and infants may be held.

G. Euthanasia technicians shall monitor the animals from the time euthanasia is performed until verification of the death of each animal.

H. Euthanasia technicians shall verify death by a combination of ascertaining the absence of ocular reflexes as well as the cessation of heartbeat or by observing the onset of rigor mortis, or other methods established by the board approved euthanasia technician training courses prior to remains storage and disposal.

[16.24.3.12 NMAC - N, 7/1/18]

16.24.3.13 EUTHANASIA BY CARBON MONOXIDE GAS:

A. Carbon monoxide is illegal for the euthanasia of dogs and cats.

B. Carbon monoxide may be used for the euthanasia of animals (excluding dogs or cats) that may present a zoonotic hazard.

C. Operations shall be in compliance with all applicable state and federal regulations under the occupational safety and health administration (OSHA) and an annual inspection of such equipment and operations shall be required. The following guidelines shall be observed:

(1) a euthanasia agency shall not operate a carbon monoxide chamber unless a euthanasia technician or New Mexico licensed veterinarian and one other adult are present at the time of operation;

(2) acceptable gas is limited to commercially compressed carbon monoxide gas and never gas piped from a motor;

(3) the ambient temperature inside the chamber shall not exceed 85 degrees fahrenheit (29.4 degrees celsius) when it contains live animals;

(4) if the chamber is commercially manufactured to euthanize only one animal at a time, no more than one animal at a time may be euthanized;

(5) if the chamber is commercially designed to euthanize more than one animal at a time, there shall be independent sections or cages to separate individual animals; if separation partitions are not used under specific circumstances, the specific circumstances shall be noted on the animal's disposition card; only animals of the same species shall be placed in the chamber simultaneously, with no more than the maximum number recommended by the manufacturer placed in the chamber;

(6) no live animal shall be placed in the chamber with a dead animal;

(7) prior to storage and disposal of remains, the euthanasia technician shall verify death by a combination of ascertaining the absence of ocular reflexes as well as the cessation of heartbeat or by observing the onset of rigor mortis or other methods established by the board approved euthanasia technician training courses prior to remains storage and disposal;

(8) euthanasia of this type shall be performed in a commercially manufactured carbon monoxide chamber and the manufacturer's operating and servicing instructions shall be strictly followed;

(9) the chamber shall be located outdoors or in a properly ventilated room, though if it is located indoors it shall not be located in the same room as kennels housing other animals;

(10) to avoid risk of death or injury to personnel operating the chamber, as well as personnel working in the vicinity of the chamber, the chamber shall be airtight and equipped with the following in working order:

(a) an exhaust fan that is capable of evacuating all gas from the chamber prior to the chamber being opened, is connected by a gas-type duct to the outdoors, and the chamber shall be thoroughly vented prior to removing any remains to avoid risk of death to the euthanasia technician or other personnel in the vicinity of the chamber;

(b) a gas flow regulator and flow meter for the canister;

(c) a gas concentration gauge to indicate that gas concentrations are at proper levels and that the gas concentration process shall achieve at least a six percent carbon monoxide gas concentration, but not to exceed ten percent, within 5 minutes after the introduction of carbon monoxide into the chamber is initiated;

(d) an accurate temperature gauge for monitoring the interior of the chamber;

(e) a carbon monoxide monitor, which if located on the exterior of the chamber shall be connected to an audible alarm system that will sound in the room containing the chamber;

(f) explosion-proof electrical equipment, if equipment is exposed to carbon monoxide; and

(g) a view-port with either internal lighting or external lighting sufficient to allow visual surveillance of all animals within the chamber;

(11) all chamber equipment shall be in proper working order and used according to manufacturer's specifications during the operation of the chamber;

(12) the chamber shall be thoroughly cleaned after the completion of each cycle; chamber surfaces shall be constructed and maintained so they are impervious to moisture and can be readily sanitized; and,

(13) the euthanasia agency shall prominently display the operation, maintenance, and safety instructions in the area containing the chamber.

[16.24.3.13 NMAC - N, 7/1/18]

16.24.3.14 EUTHANASIA BY CARBON DIOXIDE GAS:

A. Euthanasia by carbon dioxide gas is illegal for use on dogs and cats.

B. Carbon dioxide may be used for the euthanasia of animals, excluding dogs and cats, that may present a zoonotic hazard.

C. Operations and equipment shall be in compliance with any applicable state and federal regulations and may be inspected annually or as required by the board. Inspections must be performed by board trained inspectors.

D. Acceptable gas is limited to commercially compressed carbon dioxide gas.

E. If the chamber is manufactured to euthanize only one animal at a time, no more than one animal at a time may be euthanized in that chamber.

F. If the chamber is designed to euthanize more than one animal at a time there shall be independent sections or cages to separate individual animals. If separation partitions are not used under specific circumstances approved by the board, the specific circumstances shall be noted on the animal's disposition card. Only animals of the same species shall be placed in the chamber simultaneously with no more than the maximum recommended by the manufacturer.

G. Carbon dioxide should enter the chamber at a rate that displaces twenty percent of the oxygen each minute.

H. The optimal carbon dioxide flow for the chamber must be calculated.

I. No live animal shall be placed in the chamber with a dead animal.

J. Euthanasia of this type shall be performed in a commercially manufactured carbon dioxide chamber or one manufactured to commercial standards and the manufacturer's operating and services instructions shall be strictly followed.

K. The chamber shall be located outdoors or in a well-ventilated room to minimize exposure to the carbon dioxide.

L. The chamber must not be airtight. Air must be able to escape to leave room for the carbon dioxide. A vent hole near the top of the chamber or a loosely-fitted lid will let out the air but not the carbon dioxide. The vent hole will also prevent pressure buildup.

M. The carbon dioxide chamber shall have a view-port to allow visual surveillance of the animals within the chamber.

N. All chamber equipment shall be in proper working order and used according to the manufacturer's specifications during the operation of the chamber.

O. The chamber shall be thoroughly cleaned and aired out between uses. Chamber surfaces shall be constructed and maintained so they are impervious to moisture and can be readily sanitized.

P. The euthanasia agency shall prominently display the operation, maintenance, and safety instructions for the carbon dioxide chamber in the area containing the chamber.

Q. Euthanasia technicians shall verify death by a combination of ascertaining the absence of ocular reflexes as well as the cessation of heartbeat or by observing the onset of rigor mortis or other methods established by the board approved euthanasia technician training courses, prior to remains storage and disposal.

[16.24.3.14 NMAC - N, 7/1/18]

16.24.3.15 EMERGENCY FIELD EUTHANASIA:

A. From time to time, there will be cases when emergency field euthanasia will be required. Cases shall be limited to:

(1) situations in which the animal is in severe, acute distress or is irremediably suffering in which delay or movement of the animal will cause severe pain and suffering;

(2) situations in which movement of the animal poses immediate and significant risk to the animal, human, or public health or safety.

B. If possible or practical, euthanasia by injection is the preferred method of field euthanasia. If practical, pre-euthanasia drugs shall be given to the animal prior to the euthanasia drugs.

C. If gunshot is used, it shall be performed by a euthanasia technician only if the euthanasia technician is properly certified in the use of firearms permitted by the employing agency of the euthanasia technician, or by a commissioned law enforcement officer. The gunshot shall be placed according to species as taught in board approved euthanasia technician training courses, whenever possible.

D. All instances of emergency field euthanasia shall be documented and shall include the following:

(1) a description of the incident that resulted in the need to conduct emergency field euthanasia;

(2) the date of the incident;

(3) the time of the incident;

(4) a description of the animal including species, gender, estimated age;

(5) the name and contact information of the euthanasia technician or law enforcement officer;

(6) the technique used; and,

(7) the reason why the animal could not be transported to a shelter or euthanasia agency.

E. Emergency field euthanasia incidents shall be reported to the board within 30 days. All documentation and records relating to the incident shall be kept on file by the euthanasia agency for four years and be available for review by the board.

F. The euthanasia technician or commissioned law enforcement officer shall verify death by pupil dilation and cessation of respiration or other methods established by the board approved euthanasia technician training courses prior to remains storage and disposal.

To establish minimum standards for animal sheltering providers.

[16.24.7.6 NMAC - N, 5/25/2021]

16.24.7.7 DEFINITIONS:

A. Words starting with the letter A:

(1) "Act" means the Veterinary Practice Act, Section 77-1-1 through 77-1-12 NMSA 1978.

(2) "Animal" means any animal, except humans, not defined as "livestock" in Subsection L of this section.

(3) "Animal shelter" means:

(a) a county or municipal facility that provides shelter to animals on a regular basis; and

(b) a private humane society or a private animal shelter that temporarily houses stray, unwanted or injured animals through administrative or contractual arrangements with a local government agency; and

(c) does not include a municipal zoological park.

B. Words starting with the letter B: "**Board**" means the board of veterinary medicine.

C. Words starting with the letter C:

(1) "**Capacity for Care**" means the overall ability of an animal shelter to provide humane care of animals.

(2) "**Colony housing**" means housing two or more animals in the same primary enclosure or playgroups.

(3) "**Companion animal**" means any vertebrates commonly kept as domestic pets, excluding man, and those under the jurisdiction of the New Mexico department of game and fish and those under the jurisdiction of the New Mexico livestock board.

(4) "**Consulting pharmacist**" means a pharmacist whose services are engaged on a routine basis by a euthanasia agency and who is responsible for the distribution, receipt and storage of drugs according to the state and federal regulations.

D. Words starting with the letter D:

(1) "**Dangerous drug**" means a drug, other than a controlled substance enumerated in Schedule I of the Controlled Substances Act, that because of a potentiality for harmful effect or the method of its use or the collateral measures necessary to its use is not safe, except under the supervision of a practitioner licensed by law to direct the use of such drug and hence for which adequate directions for use cannot be prepared. "Adequate directions for use" means directions under which the layperson can use a drug or device safely and for the purposes for which it is intended.

(2) "**DEA**" means United States drug enforcement administration.

(3) "**Disposition**" means the adoption of an animal; return of an animal to the owner; return to field; release of an animal to a rescue organization; release of an animal to another animal shelter or to a rehabilitator licensed by the department of game and fish or the United States fish and wildlife service; or euthanasia of an animal.

E. Words starting with E:

(1) **"Emergency field euthanasia"** means the process defined by rule of the board to cause the death of an animal in an emergency situation when the safe and humane transport of the animal is not possible.

(2) **"Enrichment"** means improving the environment and behavioral care for confined animals.

(3) **"Euthanasia"** means to produce the humane death of an animal by standards deemed acceptable to the board as set forth in its rules.

(4) **"Euthanasia agency"** means a facility licensed by the board that provides shelter to animals on a regular basis, including a humane society or a public or private shelter facility that temporarily houses stray, unwanted or injured animals, and that performs euthanasia.

(5) **"Euthanasia drugs"** means non-narcotic schedule II or schedule III substances and chemicals as set forth in the Controlled Substances Act, Section 30-31-1 NMSA 1978, that are used for the purposes of euthanasia and pre-euthanasia of animals.

(6) **"Euthanasia instructor"** means a euthanasia technician or a veterinarian certified by the board to instruct other individuals in euthanasia techniques.

(7) **"Euthanasia technician"** means a person licensed by the board to euthanize animals for a euthanasia agency.

(8) **"Exotic"** means any vertebrate animals, excluding man, wild animals, livestock and companion animals.

F. Words starting with F: "FDA" means United States food and drug administration.

G. Words starting with G: "Group Housing" means housing two or more animals in the same primary enclosure or playgroups.

H. Words starting with H: "Humanely" means actions marked by compassion, sympathy or consideration, especially for the prevention of the suffering of the animal.

I. Words starting with I: "Isolation" means to separate apart from others.

J. Words starting with J: [Reserved]

K. Words starting with K: [Reserved]

L. Words starting with L: "Livestock" means all domestic or domesticated animals that are used or raised on a farm or ranch and exotic animals in captivity and

includes horses, asses, mules, cattle, sheep, goats, swine, bison, poultry, ostriches, emus, rheas, camelids and farmed cervidae but does not include canine or feline animals.

M. Words starting with M: "**May**" means permissive and a possible means to best practices.

N. Words starting with N: "**Non-livestock**" means any animal not covered under the definition of livestock in Subsection L of Section 77-1B-2 NMSA 1978.

O. Words starting with O: [Reserved]

P. Words starting with P:

(1) "**Personal protective equipment**" means items such as gloves, eye protection, gowns, and boots that protect a person from exposure to chemical or biological agents.

(2) "**Population management**" means a proactive process of planning, ongoing daily evaluations and responses to changing conditions as an organization cares for multiple animals, based on that organization's capacity for care and statistical data.

(3) "**Potable water**" means clean, fresh water that is suitable for drinking.

(4) "**Primary enclosure**" means an animal enclosure in which the animal normally eats, eliminates, rests, and sleeps.

Q. Words starting with Q: "**Quarantine**" means restriction of activity, enforced isolation. As defined by Subsection Q of Section 7.4.2.7 NMAC quarantine means the strict containment of all animals specified in the order of the district health officer upon the private premises of the owner, or under restraint by leash, or within a closed cage or paddock and shall include other measures ordered by the district health officer to control the spread of rabies.

R. Words starting with R: "**Rescue organization**" means an organization that rescues animals and is not involved in the breeding of animals.

S. Words starting with S:

(1) "**Sharps**" means any discarded article that may cause punctures or cuts. Such wastes may include, but are not limited to needles, scalpel blades, glass slides, glassware, suture needles and trocars.

(2) "**Spot-cleaning**" means using cleaning solution and a paper towel or rag to remove any smudges or contaminants in lieu of total disinfection.

(3) "Supervising veterinarian" means a person who is a New Mexico-licensed veterinarian, who holds both a valid New Mexico controlled substance license and a valid federal drug enforcement agency license and who approves the drug protocols and the procurement and administration of all pharmaceuticals at a euthanasia agency.

T. Words starting with T: [Reserved]

U. Words starting with U: [Reserved]

V. Words starting with V:

(1) "Ventilation" means the circulation of air; a system or means of providing fresh air.

(2) "Veterinarian" means a person who is licensed as a doctor of veterinary medicine by the board of veterinary medicine pursuant to the Veterinary Practice Act, Section 61-14-1 et. seq. NMSA 1978.

(3) "Veterinary facility" means any building, mobile unit, vehicle or other location where services included within the practice of veterinary medicine are provided.

W. Words starting with W: "Wild animal" means any vertebrate animals under the jurisdiction of the New Mexico game and fish department.

X. Words starting with X: [Reserved]

Y. Words starting with Y: [Reserved]

Z. Words starting with Z: [Reserved]

[16.24.7.7 NMAC - N, 5/25/2021; A, 11/1/2021]

16.24.7.8 SHELTERING CAPACITY STANDARDS:

A. The delivery of sheltering services shall be provided in a competent and humane matter.

B. Sheltering services shall be performed in a manner ensuring the health and well-being of animals while in the care of sheltering providers. The recommended standard of care is 15 minutes per animal per day.

C. Sheltering providers shall practice active population management within the balance of decisions and practices that support the overall population of the shelter.

[16.24.7.8 NMAC - N, 5/25/2021; A, 11/1/2021]

16.24.7.9 PREMISES - STRUCTURAL:

All exterior structures and fencing may:

- A.** be constructed of building materials that will ensure a sound physical structure;
- B.** be maintained in good repair;
- C.** protect animals from injury and ensure containment within shelter;
- D.** prevent the entry of outside animals and unauthorized persons;
- E.** include four solid walls for animal weather protection
- F.** include fencing sufficiently constructed to prevent animals from jumping, climbing or digging to escape.

[16.24.7.9 NMAC - N, 5/25/2021]

16.24.7.10 FACILITY STANDARDS:

- A.** Animal housing areas may be physically apart from areas where food and drink for human consumption are prepared, served or stored.
- B.** Interior building surfaces may be constructed and maintained to be water resistant to moisture and easily cleaned.
- C.** Animal food storage and equipment cleaning areas may be physically apart from animal housing.
- D.** Reliable, adequate electric power or gas may be provided for lighting, air circulation, heating, and cooling.
- E.** Reliable and adequate potable water shall be provided. Back flow preventers may be installed on any threaded faucets with attached hoses for the purpose of cleaning the facility, or on the main water line serving the facility.
- F.** Noise control may be considered for the well being of animals as well as visitors, volunteers and staff. Noise mitigation may include:

- (1)** Housing cats away from the sound of dogs.
- (2)** Facility modifications to minimize or contain barking.
- (3)** Training staff to minimize slamming doors.

(4) Using music to reduce animal stress.

G. Readily accessible washrooms or sinks may be provided to maintain personal hygiene of animal caretakers.

(1) A two-compartment sink in good repair may be provided for washing and sanitizing equipment used for animal care and feeding.

(2) A tub or low-pressure hose may be available to wash any animal that becomes soiled to avoid the use of high-pressure hoses for cleaning animals.

H. Indoor housing for animals shall be sufficiently heated or cooled to protect animals from extreme temperatures. The ambient temperature shall be consistent with the requirements of the specific species.

I. Indoor housing for animals may be adequately ventilated with fresh air to minimize odors and moisture and to provide for the health of the animals.

J. Water supply may allow for hose hook up to readily reach all parts of animal housing. Water pressure shall be adequate for cleaning of animal housing areas.

K. A suitable method to rapidly eliminate excess water from animal housing areas may be provided. Drains shall be properly constructed and maintained in good repair. If closed drainage systems are used, wastewater shall be disposed of by connection to a sanitary sewer or approved sewage disposal system.

[16.24.7.10 NMAC - N, 5/25/2021]

16.24.7.11 ANIMAL ENCLOSURE AND HOUSING STANDARDS:

A. General indoor enclosures.

(1) Primary enclosures shall provide sufficient space to allow each animal to make normal postural adjustments to:

(a) Turn freely.

(b) Easily stand.

(c) Sit.

(d) Stretch.

(e) Move their head without touching the top or sides of the enclosure.

(f) Lie in a comfortable position with limbs extended.

(g) Move about and assume a comfortable posture for feeding, drinking, urinating, and defecating.

(h) Dogs and cats shall be able to hold their tails erect when in a normal standing position.

(2) Primary enclosures may allow animals to be able to see out while avoiding visual contact with other animals.

(3) Animals housed shall be confined to a primary enclosure at all times unless under the direct supervision of shelter personnel or a designee.

(4) Primary enclosures shall be structurally sound and maintained in good repair and sanitary condition to protect the animals from injury and disease.

(a) Primary enclosures shall be constructed and maintained to enable the animals to remain dry and clean and to provide convenient access to food and clean water.

(b) Latches shall be secure and in good working order so that animals cannot escape.

(5) Floors of primary enclosures shall be constructed to prevent injury to animals, ensure adequate draining and prevent pooling of fluids. Wire mesh or slatted floors in cages shall not be used.

(6) Guillotine or doors separating two enclosure section shall be in working order.

(7) Animals shall not be able to escape from their primary enclosure.

(8) When housing aggressive, under quarantine or protective custody animals, condition of all enclosures shall be monitored daily with various types of locks considered.

(9) Primary enclosures may house one animal; if compatible, two altered animals per enclosure with the exceptions of litters housed with their dams or colony housing. Animals shall not be randomly housed in groups. Animals that fight shall not be grouped with other animals.

(10) Isolation areas shall be provided for animals with infectious diseases. Ten percent of the total housing may be designated for this purpose. The isolation housing may be double-sided to facilitate cleaning without removing the animal. Handwashing stations may be available at all isolation areas. Isolation areas may have separate cleaning tools and personal protective equipment.

(11) Dogs shall not be tethered except in the short term to facilitate cleaning primary enclosure or in the event of a fire or flood emergency. In emergency situations, short term tethering of dogs shall be used only until transport to another facility can be made. The safety of the dog shall be ensured while tethered. Cats shall not be tethered.

(12) Animals placed in crates or carriers, even for a short time, shall have ample space to stand up, turn around and lie down. Crates and carriers shall be disinfected and dried after each use and before another animal is placed in the crate or carrier. Crates and carriers may not be used as primary enclosures.

B. Outdoor primary enclosures. It is not recommended that primary enclosures be exclusively outdoors and not for very young, old, sick, or injured animals.

(1) Structurally sound, weatherproof enclosures may be made accessible to animals housed exclusively outdoors. Water resistant and windproof structure of suitable size shall be provided so animals stay warm and dry during cold weather; shaded and cool during hot weather. The structure may have a water-resistant door covering or offset doorway to minimize drafts, provide proper ventilation and made of durable materials with the floor raised off the ground to prevent water entry.

(2) A shaded area may be provided to all animals housed in an outdoor primary enclosure. An animal shall be able to rest in the shade, outside of the interior structure, but within the fencing or run.

(3) Sufficient clean, absorbent bedding material in addition to other means of protection from weather may be provided for the health and safety of the animals and may prevent strong [odors] from forming if replaced regularly.

(4) Floors of outdoor enclosures may be constructed of gravel, sand or soil; a solid material such as concrete is preferable. It is not possible to sanitize or disinfect gravel, sand or soil.

C. Enclosure Requirements for Cats

(1) Cats shall be able to assume normal postures in primary enclosures. Space may be large enough to accommodate bedding, food and water dishes and a litter box. When there is more than one cat occupying a cage, additional floor and vertical space may be provided.

(2) Primary enclosures may be made of stainless steel, fiberglass, or other impervious material that is water-resistant and can be cleaned and sanitized. Chicken wire, barbed wire and wood shall not be used.

(3) Feral cat boxes, which allow for hiding places within the cage, reduce stress for all cats.

(4) Cats may be housed in a separate building or in a separate room far removed from rooms containing dog runs.

D. Enclosure requirements for dogs. Dogs shall be able to assume normal postures and engage in normal behaviors playing and moving freely without encountering another dog. Space may be large enough to accommodate bedding, food and water bowls.

(1) Enclosure height may be a minimum of one and one-half times the height of the dog at the shoulder.

(2) Floors in dog runs may slope to drain liquid out of runs to prevent pooling or puddling in runs or walkways. Slope may be one-quarter to one-half inch per linear foot.

(3) To prevent water and waste material from flowing from run to run, there may be solid walls between dog runs. Height of walls may be sufficient to prevent nose-to-nose contact of dogs between runs.

(4) Fencing or other materials that allow for airflow may be used, horizontally and vertically, above the solid walls providing a protective barrier at least six feet high between runs to prevent dogs from jumping over.

(5) All solid surfaces of dog runs may be constructed of water-resistant concrete, stone, cement block, brick, metal, or non-porous synthetic material which can be cleaned and sanitized. Sealed floors can be cleaned and disinfected most effectively. Fencing materials may be water resistant which can be easily cleaned and sanitized. Fencing materials shall be gauged and spaced to avoid escape by or injury to dogs. Chicken wire, barbed wire and wood shall not be used.

(6) If more than one dog occupies the same primary enclosure, additional floor and vertical space may be provided.

E. Enclosure requirements for other species. Species other than dogs and cats shall have special requirements for housing and care.

(1) Stray livestock. The New Mexico livestock board shall be contacted to help facilitate the identification and ownership.

(2) Exotic animals. A veterinarian or someone with expertise in handling and caring for the species may be contacted for guidance.

(3) Wild animals. The appropriate agency shall be contacted to take possession of the animal.

(a) Wild birds. The U.S. fish and wildlife service shall be contacted.

(b) For any other wild animals, N.M. department of game and fish shall be contacted.

F. Foster housing standards.

(1) Potential foster homes may go through an application process with background checks and home inspections.

(2) Guidelines addressing the following may be established:

(a) Vaccination and altered status of foster home animals.

(b) Maximum number of animals allowed.

(c) Housing and care standards.

(d) Maximum length of foster stay.

(3) Foster parents may be trained or educated on standards of care and potential health and wellness issues; emergency contact information may be provided.

(4) Care capacity within foster home may be considered before sending animals into the homes.

(5) Foster animals may be altered and have current vaccinations unless under the care of a veterinarian.

(6) Tag or microchip identification for foster animals may be provided to foster homes.

G. Colony/group housing standards - Dogs. Dogs housed in the same primary enclosure may be maintained in compatible groups with the following restrictions:

(1) Primary enclosures may house one, or two, altered compatible dogs per enclosure. Litters may be housed with their dams.

(2) A female dog in season shall not be housed in the same primary enclosure with a male dog.

(3) An unaltered male dog shall not be housed in the same primary enclosure with an unaltered female other than under breeding age litter mates.

(4) An aggressive dog shall be housed individually in a primary enclosure; for protection of shelter personnel the enclosure shall be marked accordingly.

(5) Nursing mothers and their puppies may be removed from other animals. Removal will allow privacy, protection from unwanted intrusion and noise, alleviates fear/aggression, and to promote general well-being.

(6) Dogs shall not be housed in the same primary enclosure as cats.

(7) Dogs shall not be housed in the same primary enclosure with any other species of animals.

H. Colony/group housing standards – Cats. When housing cats in colony rooms, the following guidelines may be followed:

(1) Cats may have at least 18 square feet of floor space per cat to maintain a distance of three to ten feet between cats; non-inclusive of perches or walkways. In temperate climates, can include outdoor access with 24-hour access to indoors.

(2) Cats with unknown vaccination history may be evaluated for health and behavior, vaccinated, isolated, and observed for at least 24 hours before being placed in cat colony rooms.

(3) Unsterilized males shall be separated from females. A female in season shall not be housed in the same primary enclosure as a male.

(4) Nursing mothers and their kittens may not be housed with other cats.

(5) One 12 inch by eight inch cat litter pan for every three cats or five kittens may be provided.

(6) Water and dry food may be available at all times.

(7) Colony rooms may be equipped with shelves, resting boxes and hiding boxes.

(8) Stainless steel, fiberglass or other materials that are water resistant and can be cleaned and sanitized may be used. Wood shall not be used.

(9) Any cat exhibiting aggressive behavior shall be housed individually in its primary enclosure; for the protection of shelter personnel the enclosure shall be marked accordingly.

[16.24.7.11 NMAC - N, 5/25/2021; A, 11/1/2021]

16.24.7.12 SANITATION STANDARDS:

A. Written sanitation protocols shall be developed to provide consistent and thorough sanitation of the facilities. Protocols may be reviewed periodically in

consultation with a veterinarian. Protocols may be updated for best practices. During an outbreak, sanitation protocols may be revised as needed to address specific pathogens.

B. Animal housing units or kennels shall be cleaned once daily at minimum and shall be thoroughly cleaned and disinfected once an animal no longer occupies the unit or kennel.

C. Animal waste shall be removed from primary enclosures daily or more often to prevent contamination of animals and to reduce disease hazards and odors. Waste shall be disposed of in accordance with local ordinance.

D. Cages, kennels, containers, equipment, and other items shall be cleaned at least once daily to maintain sanitary conditions.

E. Kennels and cages shall not be hosed down while animals are inside the kennels and cages.

F. To minimize stress for an animal remaining in an enclosure, spot cleaning may be used as appropriate. The enclosure shall be thoroughly cleaned and disinfected once an animal leaves an enclosure.

G. Cleaning may be carried out in the following order: from first to last to minimize the spread of disease.

- (1)** Healthy puppies and kittens; healthy, nursing bitches and queens.
- (2)** Healthy adult or quarantined animals.
- (3)** Unhealthy isolated animals.

H. To minimize the spread of disease, water and food containers and all other utensils shall be cleaned and sanitized using generally accepted methods such as the use of heat and chemical sanitizing solution. Containers shall be cleaned and sanitized as often as necessary to maintain sanitary conditions; food pans and bowls shall be cleaned between each use. If sinks are the method for cleaning, water and food pans or bowls shall be soaked and washed separately from litter pans with water and disinfectant changed between water and food pans or bowls and litter pans.

I. Product manufacturer instructions shall be followed precisely when cleaning, sanitizing and disinfecting. Chemicals shall not be mixed. Pine products and fumes are extremely toxic to cats and birds and shall not be used near them or to clean cat enclosures, pans, bowls etc.

J. Mopping may be avoided to reduce the spread of pathogens. If hosing is not possible and mopping must be used, disinfectant solution shall not be used from one housing area to another.

K. Water and food pans or bowls may be made of metal or be disposable. Plastic should not be used because it may be chewed and ingested and may retain contaminants.

L. Litter boxes shall be provided for cats in their primary enclosures with soiled litter disposed of on an as needed basis, a minimum of once a day. Litter boxes may be disposable or reusable if they are cleaned daily and sanitized before use by another cat. The use of plastic litter boxes is not recommended because they cannot be sufficiently disinfected and may be a source of disease.

M. Animal and food waste, soiled bedding, debris, and other organic waste may be stored in closed containers and disposed of on an as needed basis to avoid vermin infestation, odors, disease, and nuisances. Waste may be removed at least weekly from the facility. All reusable trash containers may be regularly sanitized and disinfected. All clothing and bedding shall be laundered and thoroughly dried before reuse.

N. To maintain sanitary conditions, pens and runs with absorbent or loose flooring i.e., sand, gravel or soil soiled with urine and/or fecal matter shall have such materials replaced as necessary. These types of organic materials cannot be sanitized or disinfected when the surface is muddy, water puddled or when odors and vermin are present.

O. Buildings and grounds shall be kept clean, in good repair and free of trash.

P. Weeds may be mowed or cut down where animals are kept or exercised.

Q. An effective program shall be maintained for the control of insects, fleas, avian, and mammalian pests.

R. Opened food supplies may be stored separately in closed waterproof containers. Unopened supplies of food may be stored off of the floor and adequately protected against contamination or infestation by vermin.

S. Animal bedding may be stored off of the floor and adequately protected against contamination or infestation.

T. Dead animals shall be stored and disposed of in strict compliance with state laws and local ordinances to avoid disease hazard or nuisance.

[16.24.7.12 NMAC - N, 5/25/2021]

16.24.7.13 ANIMAL CARE AND HANDLING STANDARDS:

A. Food and water

(1) Animals may be fed twice daily except in cases of veterinary treatment or malnutrition. The food shall be free of contamination, palatable and of sufficient quality and nutritive value to meet normal daily requirements for the condition, size and age of the animal. Refrigeration may be provided for perishable food.

(2) Uneaten food shall be discarded after 24 hours. Food offered to an animal remaining uneaten shall not be fed to other animals.

(3) Care shall be taken not to underfeed or overfeed animals.

(4) Special consideration regarding types of food and frequency of feeding shall be given to puppies, kittens, older animals, and nursing dams.

(5) Malnourished or emaciated animals may need an increased food intake; introduction of food shall be regulated and increased gradually preferably with veterinary guidance.

(6) Animals shall be provided potable water at all times.

(7) Food and water containers shall be accessible and located to minimize contamination by excrement or other material. Food and water containers shall be cleaned daily; disposable food containers may be used only if discarded after each use.

(8) Food and water containers may be of a size to ensure accessibility based on the size of the animal.

(9) Spoiled, moldy food or food contaminated with feces, droppings or insects shall never be used. Food left in food bowls from the previous day shall be disposed of, disposable bowls discarded and non-disposable bowls cleaned.

B. Enrichment

(1) Enrichment means improving the environment and behavioral care for confined animals. Enrichment reduces stress and improves well-being by providing physical and mental stimulation and encouraging species-typical behaviors. Enrichment shall not be considered optional.

(2) If the recommended space requirements for dogs cannot be met due to shelter configuration, dogs may be exercised twice daily. For dogs requiring an opportunity to exercise, a written plan may be on file with each exercise session noted.

(3) Behavioral health and care of each animal as well as the conditions experienced by the entire population shall be a consideration of the shelter.

C. Quarantine and isolation

(1) Animals that have bitten a human shall be quarantined pursuant to New Mexico state law, local municipal or county ordinances.

(2) A veterinarian may be consulted.

(3) Animals under quarantine for observation of rabies symptoms after a bite incident shall be physically separated from all other animals and shall never be housed with animals under treatment for a communicable disease.

(4) Quarantine areas may have a separate ventilation system and may only be accessible to shelter personnel or owners accompanied by shelter personnel.

(5) Animals diagnosed and/or under treatment for a communicable disease may be isolated from healthy animals to minimize spread of disease. If isolation is impossible or inadequate to control the spread of pathogens, the shelter shall weigh consequences of exposure to general population and the alternatives of euthanasia or transfer to an appropriate separate facility.

D. Other care considerations

(1) Shelter animals shall always be handled safely and humanely to prevent injury, distress and spread of disease both to animals and personnel.

(2) Adequate animal handling equipment such as transfer cages, nets, catch poles, syringe poles shall be available, kept clean and in good repair to ensure the safety of personnel and animals.

(3) Shelter personnel may be trained in current humane and sanitary animal handling techniques.

(4) Long term confinement, including feral and aggressive animals, who cannot be provided with basic care, daily enrichment and exercise without inducing stress shall be euthanized or transferred to a separate facility.

(5) The minimal amount of physical restraint needed without injury to people or animals shall be used.

(6) The use of catch poles for routine restraint of cats, including carrying or lifting, is inhumane and poses significant risk of injury to the animal and shall not be used. Humane traps, boxes or nets designed for restraint shall be used for handling fractious cats or cats who appear to be unaccustomed to handling.

(7) When cats are moved from one location to another, it is recommended to cover the carrier with a towel or sheet to reduce stress and susceptibility to disease.

(8) Cats may be provided with clean bedding in each cage. Bedding shall be replaced when soiled or wet and when a new animal is introduced to the enclosure.

(9) Bedding or platforms may be provided to dogs on an as needed basis. Clean bedding may be provided to old, young, ill, or injured dogs. Bedding shall be replaced when soiled or wet and when a new animal is introduced to the enclosure. Only single layer bedding may be used for puppies and kittens to prevent accidental suffocation. Bedding may be withheld if it poses a danger to the animal.

(10) Nursing dams may be provided with a whelping box. If a shelter is unable to provide a whelping box, the shelter shall ensure nursing dams have adequate bedding, warmth and cleanliness. Bedding shall be provided in the whelping box and replaced when soiled or wet.

(11) Nursing mothers and their babies may be removed from other animals to allow for privacy, protect them from unwanted intrusion and noise, to alleviate fear/aggression, and to promote their general well-being.

(12) Animals may be cleaned and groomed on an as needed basis.

(13) Medical issues may be treated; matted coats can cause pain, skin or eye irritation, or trap fecal matter. Bathing may be necessary to prevent or treat parasites and/or insects.

(14) No animal shall be allowed to suffer while in the care of the shelter.

(15) Care shall be taken to ensure that animals are not squirted or hosed with water, not put in contact with chemicals and not placed back in a wet or damp enclosures.

[16.24.7.13 NMAC - N, 5/25/2021]

16.24.7.14 DISEASE CONTROL, HEALTH AND VETERINARY CARE STANDARDS:

A. No animal shall be allowed to suffer due to lack of veterinary care.

B. Shelters shall not fail to provide treatment for pain.

C. Shelters shall ensure compliance with all federal, state and local laws concerning reportable diseases.

D. Animals may be examined for injury and signs of disease at the time of impound under the guidance of a veterinarian, if possible, and treated immediately if animal is in pain or distress. If injured or sick animals cannot be provided veterinary care in a timely manner to stop their pain and suffering, the animal shall be humanely euthanized or immediately transferred to another facility where veterinary care can be timely provided.

E. Common signs of illness, injury or parasitic infestation in dogs and cats that warrant veterinary care:

- (1) Eyes are watery, appear swollen or show discharge.
- (2) Ears are red or inflamed, show discharge or have a foul odor.
- (3) Nose shows mucous, blood or pus discharge, or is crusty, congested or blocked.
- (4) Gums are swollen or inflamed, teeth are loose or brown, or mouth has a foul odor.
- (5) Animal is sneezing, coughing or wheezing.
- (6) Animal has fleas or ticks, skin shows swelling or lesions.
- (7) Animal limps or does not place weight on a limb.
- (8) Animal is thin or obese.
- (9) Animal has wounds, abscesses, cuts, or abrasions.
- (10) Body temperature is abnormal.
- (11) Animal is vomiting or has diarrhea.

F. Shelter may have a trained and experienced staff member, a veterinary technician or a veterinarian available to check animals and to provide care. Symptoms of possible illness shall be noted, recorded and brought to a supervisor's attention immediately.

G. Animals may be observed daily for signs of disease or distress. An animal suspected of having an infectious disease may be physically separated from other susceptible animals until the animal is determined to be non-infectious.

H. A system may be in place to care for injured and sick animals brought to the shelter after normal working hours. Shelters may enter into a written contract with a local veterinarian to be available on call for treatment after hours.

I. Animals with obvious signs of serious disease, injury or distress that cannot be addressed shall be humanely euthanized or be immediately transferred to another facility where veterinary care can be timely provided shall be humanely euthanized.

J. For humane reasons, it may be necessary to euthanize an animal despite the holding time requirements not having been met. An animal shall not be allowed to suffer while in the shelter's care.

K. Dogs and cats may be dipped or sprayed, top spotted or given oral treatment for fleas, ticks or internal parasites, as necessary. Methods shall be used according to the season, region of state and according to manufacturer's instructions concerning treatment strengths depending on size, age or health of animal.

[16.24.7.14 NMAC - N, 5/25/2021; A, 11/1/2021]

16.24.7.15 VACCINATIONS STANDARDS:

A. All dogs and cats may be vaccinated upon initial impound. A veterinarian or trained staff member may administer the following core vaccines:

(1) Dogs:

(a) DA2PP or DHPP vaccine to provide protection against distemper, adenovirus-2, parvovirus, parainfluenza. Adult dogs may be vaccinated upon intake. Puppies may be vaccinated starting at 4-6 weeks of age and re-vaccinated every 2-4 weeks until 16-18 weeks of age.

(b) Bordetella bronchiseptica vaccine to protect against kennel cough for puppies and adult dogs.

(2) Cats: FVRCP vaccine to provide protection against feline herpesvirus, feline viral rhinotracheitis, feline calicivirus, and feline panleukopenia. Adult cats may be vaccinated once upon intake. Kittens may be vaccinated starting at 4-6 weeks of age and re-vaccinated every 2-4 weeks until 18 weeks of age. A modified live vaccine is recommended.

B. All animals shall be considered unvaccinated unless a documented medical record exists. Special consideration shall be given to animals with medical conditions, pregnant animals and animals less than 4 weeks old.

C. Core vaccines may be administered at the time of intake for optimum disease control.

D. Rabies vaccinations may be given at the time of adoption or by the adopter's veterinarian depending on local municipal or county ordinance.

E. Rabies vaccinations shall be administered pursuant to Section 77-1-3 NMSA 1978.

[16.24.7.15 NMAC - N, 5/25/2021]

16.24.7.16 RECORD KEEPING STANDARDS:

A. Records shall be kept for each animal impounded, for each animal accepted as an owner-surrender, for each animal brought to the shelter by a member of the public as a stray, and for each animal that is otherwise acquired.

B. Records shall include:

(1) Date of acquisition and manner of acquisition: animal control officer, public intake, owner surrender etc.

(2) Description and identifying characteristics including: species, breed, color, age, weight, gender, and any background information.

(3) Tag and/or microchip information.

(4) Reason for impoundment or relinquishment.

(5) Veterinary care.

(6) Disposition of the animal.

(7) Date of redemption of adoption, transfer of ownership or euthanasia.

(8) Name, address and telephone number of receiving person or entity.

C. Statistics may include monthly intake and outcomes by type for each species.

D. Collars, tags or other potential identification may be kept on the animal or in the animal's file during the impound time.

E. Each animal shall be identifiable by use of cage/run cards and/or identifying collars.

F. Photographs may be taken of each animal, maintained with the animal's records and posted on its cage to minimize the possibility of a mistaken euthanasia.

G. Shelters shall maintain records for a minimum of two years from the date of an animal's final disposition.

[16.24.7.16 NMAC - N, 5/25/2021]

16.24.7.17 COMMUNITY ACCESS AND SERVICE STANDARDS:

A. Shelters may be accessible to the public seeking to reclaim their animal or adopt an animal.

(1) Hours open to the public shall be clearly marked on the facility.

(2) The shelter's telephone number and address shall be listed in local telephone directories.

(3) The shelter may have internet presence with all pertinent information as well as listings of lost or found animals and animals available for adoption.

(4) Shelters may be open to the public at least one weekend day or two days until 6:00 p.m.

B. Shelters may have provisions for animals dropped off after hours. Care shall be taken so that animals are protected from injury, theft and the elements. Unattended drop boxes are not recommended. Provisions may be made for after hours entry, impoundment and treatment procedures for animal control officers to follow. Sick or injured animals shall be attended to by trained personnel immediately due to potential for unalleviated suffering of the animal as well as liability to the shelter.

C. When an animal has visible identification or a microchip upon impound, shelter personnel shall make every attempt to contact the owner. Each animal shall be scanned for a microchip and the number entered into the animal's record. If the owner surrenders a microchipped animal, the shelter shall determine if the surrendering owner matches the name on the microchip to ensure the animal is not stolen. In the case of stray animals, the shelter shall promptly attempt to contact the owner to whom the microchip is registered by telephone. In the event no contact can be made via telephone, then the shelter may send a letter to the address listed on the microchip registration. Attempts to trace microchip information and contact attempts with the registered owner shall be documented.

D. In addition to being scanned at intake, animals shall be re-scanned prior to final disposition. If the final disposition is by euthanasia, scanning shall be done pursuant to board of veterinary medicine rule Subsection B of Section 16.24.3.8 NMAC, Duties of Licensee and Certificate Holders.

E. Shelters shall refer to local, municipal or county ordinance which address the minimum stray holding time. Stray animals without identification should be held long enough to give owner sufficient time to reclaim the animal. Stray animals with identification i.e. tag, tattoo, and/or microchip may be held long enough to allow the shelter sufficient time for notification and owner reclaim.

F. Animals in law enforcement protective custody shall be in locked areas with appropriate signage that meet standards and are inaccessible to the public. Depending on the case type, owner may be allowed to visit the animal or animals.

[16.24.7.17 NMAC - N, 5/25/2021]

16.24.7.18 SHELTER PERSONNEL STANDARDS:

A. The shelter shall maintain compliance with federal and state occupational safety regulations for chemical, biological and physical hazards in the workplace.

B. All shelter personnel may be trained in all aspects of their responsibilities. Training topics may be, at minimum:

- (1) Animal health and disease control.
- (2) Humane care and treatment of animals.
- (3) Control of animals in an animal shelter.
- (4) Transportation of animals.
- (5) Disease recognition.
- (6) Animal breed identification and behavior.
- (7) Pre-adoption evaluation and temperament testing.
- (8) Adoption policies and procedures.
- (9) Handling, capture and restraint techniques.
- (10) Personnel safety and use of equipment.
- (11) Euthanasia.
- (12) Compassion fatigue and self-care.

C. A shelter shall create and maintain a comprehensive procedures manual (SOP). Shelter personnel may be provided with a comprehensive standard operating procedures (SOP) manual. The SOP may outline all shelter policies and procedures and the duties for each position.

D. Shelter personnel shall adhere to New Mexico's anti-cruelty law at all times. See Section 30-18-1 *et seq.* NMSA 1978.

E. Personal protective equipment and appropriate animal handling equipment shall be readily available to personnel.

F. Shelter personnel may wash their hands frequently to protect themselves and the animals. Hand sanitizers, first aid kits and eye wash stations may be made available to all employees, volunteers and visitors.

[16.24.7.18 NMAC - N, 5/25/2021]

16.24.7.19 ADOPTION STANDARDS:

A. Shelters may establish adoption fees. An adoption program may be developed and implemented. If the shelter waives specific adoption fees, the shelter guidelines shall not be waived.

B. Shelters may develop criteria for potential adopters and unsuitable adopters. Adopters may sign a contract under which they agree to provide a specified level of care.

C. Shelters may learn temperament testing procedures to ensure that animals are fit for adoption and to facilitate the best possible match between adopters and animals.

D. An adoption screening program may include discussion of a suitable match between an adopter and animal.

E. When adopting out a known sick animal or animal that is receiving medical treatment, full disclosure shall be made to the person or organization receiving the animal.

F. In the event shelters offer animals for adoption that have not been sterilized, the shelter shall comply with Subsection A through F of Section 77-1-20 NMSA 1978.

G. Policies may be developed to avoid adopting out or releasing unaltered animals.

H. Shelters may consider a program to microchip all adopted animals.

I. Reasonable care shall be taken to adopt out or transfer only those animals free of disease and untreatable injury.

J. Animals believed to be dangerous, potentially dangerous in accordance with Section 77-1A-1 NMSA 1978 or have caused a serious injury resulting in same species or human death shall not be re-homed.

K. Shelters, in their due diligence, shall make every effort to place animals with recognized rescue organizations and responsible sanctuaries. Shelters may thoroughly

research rescue organizations and sanctuaries prior to placement to avoid possible hoarding situations.

[16.24.7.19 NMAC - N, 5/25/2021]

16.24.7.20 SHELTER TRANSPORT STANDARD:

A. Transport vehicles and equipment shall be cleaned and sanitized prior to transport.

B. Animals shall not to be transported unrestrained in open beds of trucks.

C. Temperature extremes, below 45 degrees and above 80 degrees, during transport shall be avoided.

D. Compliance with state and local laws shall be followed for source and destination shelters.

E. Health certificates shall accompany animals crossing state lines as required.

F. Unfamiliar animals shall not be transported together in same enclosure.

G. Animals may be vaccinated and treated for internal and external parasites prior to transport.

H. Transport space may be adequate to allow the animal to turn around and lie down.

I. Transports anticipated longer than eight hours in duration may accommodate safe animal exercise and relief.

PART 2: EXAMINATION AND LICENSURE - VETERINARIANS

16.25.2.1 ISSUING AGENCY:

New Mexico Board of Veterinary Medicine.

[16.25.2.1 NMAC - Rp, 16.25.2.1 NMAC, 1/14/2025]

16.25.2.2 SCOPE:

Applies to all veterinarians licensed to practice in the state of New Mexico and individuals applying for a license to practice veterinary medicine in the state of New Mexico.

[16.25.2.2 NMAC - Rp, 16.25.2.2 NMAC, 1/14/2025]

16.25.2.3 STATUTORY AUTHORITY:

Section 61-14-4; Section 61-14-5; Section 61-14-8; Section 61-14-9; Section 61-14-10; Section 61-14-12; Section 61-14-13; Section 61-14-14 and Section 61-14-15 NMSA 1978.

[16.25.2.3 NMAC - Rp, 16.25.2.3 NMAC, 1/14/2025]

16.25.2.4 DURATION:

Permanent.

[16.25.2.4 NMAC - Rp, 16.25.2.4 NMAC, 1/14/2025]

16.25.2.5 EFFECTIVE DATE:

January 14, 2025, unless a later date is cited at the end of a section.

[16.25.2.5 NMAC - Rp, 16.25.2.5 NMAC, 1/14/2025]

16.25.2.6 OBJECTIVE:

To set out the requirements for obtaining a license to practice veterinary medicine in the state of New Mexico as defined in Subsection B of Section 61-14-2 NMSA 1978.

[16.25.2.6 NMAC - Rp, 16.25.2.6 NMAC, 1/14/2025]

16.25.2.7 DEFINITIONS:

[RESERVED]

[16.25.2.7 NMAC - Rp, 16.25.2.7 NMAC, 1/14/2025]

16.25.2.8 GENERAL ELIGIBILITY FOR LICENSURE:

A license to practice veterinary medicine in the state of New Mexico is granted only to an applicant who fulfills all of the requirements specified in this part. The mere filing of an application shall not entitle the applicant to a license to practice veterinary medicine. Each applicant shall have the burden of demonstrating, to the satisfaction of the board of veterinary medicine, that he:

- A.** has reached the age of majority as recognized by the state of New Mexico;
- B.** is a person of good moral character, physically and mentally fit to practice veterinary medicine;
- C.** is in good standing in any other state(s) in which he is, or has been, licensed to practice veterinary medicine. If the applicant has had disciplinary proceedings instituted against him which have resulted in suspension or revocation of a license on any grounds other than nonpayment of a licensee fee, or he has voluntarily surrendered a license to practice veterinary medicine, the board will review the prior action(s) on a case by case basis prior to licensure;
- D.** is professionally qualified for a license to practice veterinary medicine in the state of New Mexico by taking and passing the written examinations as defined in these rules, except as provided in Section 61-14-10 NMSA 1978;
- E.** is a graduate veterinarian as defined by Subsection B of Section 61-14-2 NMSA 1978;
- F.** has not had a United States drug enforcement administration (DEA) license, a state level controlled substances registration, or federal accreditation privileges through the United States department of agriculture (USDA) animal and plant health inspection service (APHIS) restricted or revoked, or surrendered such license or privilege while under investigation or in connection with any disciplinary action or pending disciplinary

action. If applicant has had any of these actions taken against him, the board will review such actions on a case by case basis prior to licensure; and

G. understands with regard to any of the above provisions, the final authority to grant a license rests with the board. Determinations will be made on a case by case basis.

[16.25.2.8 NMAC - Rp, 16.25.2.8 NMAC, 1/14/2025]

16.25.2.9 REQUIREMENT THAT A PRACTICING VETERINARIAN BE LICENSED:

A. With only those exemptions specified in Section 61-14-14 NMSA 1978, a graduate veterinarian must be licensed by the board to lawfully practice veterinary medicine in New Mexico as defined in Subsection B of Section 61-14-2 NMSA 1978.

B. Only veterinarians licensed by the state of New Mexico may practice veterinary medicine in New Mexico; working under the supervision of a licensed veterinarian does not waive the requirement to hold a license.

C. The requirement for direct supervision of non-veterinarians who treat animals is described in 16.25.9.20 NMAC.

[16.25.2.9 NMAC - Rp, 16.25.2.9 NMAC, 1/14/2025]

16.25.2.10 BASIC LICENSURE REQUIREMENTS:

Except as noted, an applicant for a regular license to practice veterinary medicine in New Mexico must:

A. Submit a completed, signed, and notarized *application for licensure-DVM*. The application must:

(1) be submitted 30 days before the applicant's selected date to take the state examination;

(2) include the application/examination fee; and

(3) have attached a color passport-type head and shoulders photograph of the applicant.

B. Take and pass with a minimum score of seventy-five percent, the New Mexico veterinary licensing examination. Exceptions for endorsement applicants are set out in 16.25.2.10 NMAC.

C. Submit all of the following documents within 12 months after passing the state examination. An applicant who fails to provide required documents within 12 months must reapply for licensure.

(1) notarized copy of the applicant's diploma from a veterinary school accredited by the American veterinary medical association (AVMA). Exception for new graduates is set out in 16.25.2.12 NMAC;

(2) official veterinary school transcript bearing the seal of the institution;

(3) verifications of licensure from any and all state(s) in which the applicant is or has been licensed to practice veterinary medicine;

(4) one personal and one professional recommendation; and

(5) the applicant's scores on the national licensing examination for veterinarians.

(a) New Mexico's national examination score requirements are set out in 16.25.2.16 NMAC.

(b) Exceptions for endorsement applicants are set out in Subsection B of 16.25.2.11 NMAC.

(c) Applicants for a temporary permit shall comply with requirements of Subsection A of 16.25.2.10 NMAC only.

[16.25.2.10 NMAC - Rp, 16.25.2.10 NMAC, 1/14/2025]

16.25.2.11 LICENSURE BY ENDORSEMENT:

A veterinarian who has been licensed in another state and has performed at least five years of clinical veterinary practice with at least 6,000 hours immediately preceding application for a New Mexico license, may qualify for licensure by endorsement. A qualified endorsement applicant:

A. Does not need to provide his score from the national licensing examination.

B. May take the jurisprudence examination for the standard endorsement fee at a special time, arranged through the executive director, rather than at one of the board set regularly scheduled examination times.

C. Applicant must report criminal convictions and disciplinary actions taken in all jurisdictions.

[16.25.2.11 NMAC – Rp, 16.25.2.11 NMAC, 1/14/2025]

16.25.2.12 SENIOR STUDENTS AND NEW GRADUATES:

If a senior student or new graduate's veterinary school has not yet provided the diploma by the applicant's examination date, a properly authenticated document such as a letter from the veterinary school dean evidencing graduation or impending graduation may temporarily substitute for the diploma. This provision is only for the purpose of taking the examination; the notarized diploma must be provided the soonest time it becomes available. The applicant cannot become licensed until all required documents, including the notarized copy of the diploma and the official transcript are received by the board.

[16.25.2.12 NMAC - Rp, 16.25.2.12 NMAC, 1/14/2025]

16.25.2.13 GRADUATES OF NON-AVMA ACCREDITED VETERINARY SCHOOLS:

A graduate of a veterinary school not accredited by the American veterinary medical association (AVMA) must furnish certification of completion of the educational commission for foreign veterinary graduates (ECFVG) program. This certification is in addition to all other licensing requirements as specified in 16.25.2.10 NMAC. Requirements for graduates of non-AVMA accredited schools are also set out in 16.25.5 NMAC.

[16.25.2.13 NMAC - Rp, 16.25.2.13 NMAC, 1/14/2025]

16.25.2.14 60-DAY TEMPORARY PERMIT:

A. Purpose. The temporary permit, good for a period of no more than 60-calendar days, is intended for experienced, licensed veterinarians who wish to practice in New Mexico for a brief period. The temporary permit is not granted to a new graduate or experienced veterinarian who has not yet taken the state licensing examination or met all other licensing requirements.

B. To qualify for a temporary permit, an applicant must:

- (1) be currently licensed in and currently practice in another state, territory, or district of the United States;
- (2) be in good standing in all jurisdictions in which he is or has been licensed;
- (3) submit the completed, signed, and notarized *application for licensure-DVM* form along with a color passport-type, head and shoulders photograph and the temporary permit fee; and
- (4) provide a verification of licensure from the state where the applicant currently practices veterinary medicine and holds licensure.

C. An applicant for a temporary permit does not need to take the state examination or provide national examination scores.

D. A temporary permit may not be renewed within a 12 month period from issuance without approval from the board.

[16.25.2.14 NMAC - Rp, 16.25.2.14 NMAC, 1/14/2025]

16.25.2.15 STATE EXAMINATION:

A. The board sets the state licensing examination for veterinarians on a regularly scheduled basis twice annually at a reduced fee. Applicants who wish to obtain their licenses sooner than the board set examination dates can take the examination at the higher fee of \$625. The examination is administered at the board office; arrangements for this type of examination are made with the executive director.

B. The state examination may be taken by senior year veterinary school students as well as graduate veterinarians.

C. The state examination is graded by individuals selected by the board of veterinary medicine. The minimum passing grade for the state examination is seventy-five percent.

D. Applicants will be notified by mail within two weeks after the examination of the results. Grades will be provided to applicants upon request.

E. An applicant who fails the examination can review the examination and his answer sheet at the board office 20 days from receipt of notification of examination results. Prior arrangement will be made with the executive director to designate a time for the review. Only the applicant and a member of the board or executive director may be present. Copying or removing examination questions or answers will result in license denial.

F. An applicant who has failed the state examination must retake it within 30 days. Applicant must pay an additional examination fee of \$625 to retake the examination.

G. Limitations. Once the application/examination fee has been submitted to the board it cannot be refunded. The state examination must be taken within one year from date of application submittal.

(1) If an applicant has applied to take the examination on a board set date and is unable to do so, the examination may be rescheduled on one of the subsequent board set dates within one year without reapplication or the payment of an additional fee.

(2) If an applicant has applied to take the examination on a specific date and is unable to do so, the examination may be rescheduled within one year without reapplication or payment of an additional fee.

[16.25.2.15 NMAC - Rp, 16.25.2.15 NMAC, 1/14/2025]

16.25.2.16 NATIONAL EXAMINATION SCORES:

The board accepts, as sufficient to meet state requirements, the minimum passing grade for the national examination for veterinarians. This applies whether the applicant has taken the national board examination (NBE) or the North American veterinary licensing examination (NAVLE). In accordance with the national board of veterinary medical examiners (NBVME), candidates shall not be approved to take the North American veterinary licensing examination (NAVLE) more than five times and shall not be allowed to sit for the examination at a date that is later than five years after the initial attempt. Each of the final two attempts must be at least one year from the previous attempt.

[16.25.2.16 NMAC - Rp, 16.25.2.16 NMAC, 1/14/2025]

16.25.2.17 LICENSE RENEWAL:

A. A veterinarian's license expires and is due for renewal each year on the last day of his birth month.

B. A license is lapsed if the license renewal is not postal postmarked on or before the expiration date. Practicing veterinary medicine with a lapsed license is the same as practicing without a license. Anyone practicing veterinary medicine in New Mexico on a lapsed license is subject to penalties and disciplinary action as provided in Section 61-14-18 NMSA 1978.

C. Licensee shall display at the business location in full view of the public, his original license certificate signed by the board and the current year renewal license. If licensee is providing veterinary services in a relief capacity, current year license renewal must be easily accessible.

[16.25.2.17 NMAC - Rp, 16.25.2.17 NMAC, 1/14/2025]

16.25.3.7 DEFINITIONS:

[RESERVED]

[16.25.3.7 NMAC - Rp, 16.25.3.7 NMAC, 01-17-2014]

16.25.3.8 CONDUCT:

All professionals licensed by the board of veterinary medicine are subject to the Veterinary Practice Act and rules promulgated by the board.

A. Violations of the Veterinary Practice Act or rules promulgated by the board are subject to the complaint process as governed by the Uniform Licensing Act. Failure to comply with a board request for records or information pertinent to a complaint investigation will be considered a violation of this rule.

B. Complaints are reviewed by the board on a case by case basis to determine if disciplinary action is necessary. Unprofessional conduct by a licensee in a complaint determined by the board includes but is not limited to noncompliance with terms of a settlement agreement entered into with the board by a licensee to resolve a complaint.

C. A licensee shall not represent conflicting interests except by express consent of all concerned subsequent to a full disclosure of the facts.

D. It is the right of any licensee, without fear or favor, to give proper advice to those seeking relief against unfaithful or neglectful services.

E. A licensee shall expose, without fear or favor, before the proper tribunal or the New Mexico board of veterinary medicine, corrupt or dishonest conduct in the profession.

F. A veterinarian must decide what professional employment will be accepted and what course of treatment will be followed once employed. The responsibility for advising questionable or unusual treatment rests upon the veterinarian. If a licensee is asked to perform a treatment that is questionable or unusual, the licensee must use his own professional judgment about whether he will perform this treatment.

G. No licensee shall render any service or advice contrary to the law. A veterinarian must also observe and advise clients to observe applicable laws and regulations.

H. A licensee shall not render any service or advice directed toward the corruption of any person or persons exercising a public office or private trust; or the deception or betrayal of the public.

I. In the formation of partnerships, professional associations or any other association for the practice of veterinary medicine, no person shall be held out as a

practitioner of veterinary medicine or as a veterinary technician unless licensed to practice in this state. In selection and use of a firm name, no false or misleading name shall be used.

J. The professional services of a veterinarian shall not be controlled or exploited by any lay, personal or corporate agency which intervenes between the client and the veterinarian. A veterinarian's responsibilities and qualifications are individual. A veterinarian's responsibilities for medical judgments shall be directly to the client or authorized agent.

K. Each veterinarian shall display at the business location, in full view of the public, his original license certificate signed by the board along with the current year renewal license. If licensee is providing veterinary services in a relief capacity, the current year renewal license must be easily accessible.

L. Veterinarians shall exercise the same degree of care, skill and diligence in treating patients as are ordinarily used in the same or similar circumstances by reasonably prudent members of the veterinary medical profession in good standing in the state of New Mexico.

M. A licensed veterinarian shall not use or display any unearned certificate, college degree, or title.

N. A licensed veterinarian shall not promote, aid, or abet any illegal or unethical act on the part of any veterinarian or in the practice of veterinary medicine by an unlicensed person except as permitted by the Veterinary Practice Act.

O. A licensed veterinarian in this state shall not issue a certificate of health for an animal unless aware by way of actual inspection and appropriate tests, that said animal meets the requirements for the issuance of such certificate.

P. A licensed veterinarian shall not guarantee a cure. A licensed veterinarian must avoid bold and confident assurances to clients especially where employment may depend upon such assurances.

Q. A licensed veterinarian shall treat all animals entrusted by clients in keeping with the professional standard of humane treatment and care.

R. A licensed veterinarian shall conduct the practice of veterinary medicine on the highest plane of honesty, integrity and fair dealing with clients in time and services rendered, and in the amount charged for service, facilities, appliances and drugs.

S. A licensed veterinarian shall not violate the confidential relationship with his client.

T. The reporting of cruelty or illegal action is not a violation of confidentiality.

U. A licensed veterinarian or veterinary technician shall not use or participate in the use of any form of representation, advertising or solicitation which contains false, deceptive or misleading statement(s) or claim(s). False, deceptive or misleading statements or claims are those which:

(1) advertise or represent that a service or product is free, or similar language, coupled with any required service or product for which a fee is charged;

(2) contains a prediction of future success or guarantee that satisfaction or cure will result from the performance of a professional service;

(3) refer to secret methods of treatment or special services;

(4) concern illegal transactions;

(5) imply that a licensed veterinarian is a specialist unless the veterinarian is a diplomate of an AVMA board certified specialty.

(6) imply that a licensed veterinarian is certified unless he is certified in a nationally recognized specialty whose certification process has been evaluated and approved by the board. The following complementary, alternative or integrative therapies may be considered, but are not limited to:

(a) acupuncture;

(b) acutheraPy;

(c) acupressure;

(d) homeopathy;

(e) manual or manipulative therapy i.e, therapies based on techniques practiced in osteopathy, chiropractic medicine, or physical medicine and therapy;

(f) massage;

(g) naturopathy;

(h) physical rehabilitation;

(i) nutraceutical therapy;

(j) phytotherapy.

(7) are intended or are likely to create an inflated or unjustified expectation;

- (8) contains an expressed or implied material misrepresentation of the fact;
- (9) fail to state any material fact necessary to make the statement or claim not misleading in the circumstances under which it is made;
- (10) would result in the violation of any law or regulation or a contractual or other obligation of any person with whom the licensed veterinarian seeks to communicate;
- (11) contain a representation or implication that is likely to cause an ordinary prudent layperson to misunderstand or be deceived, or fail to contain reasonable warnings or disclaimers necessary to make a representation or implication not deceptive;
- (12) relate to professional fees other than:
 - (a) the fixed fee charged for a specific professional service provided that the description of such service would not be deceptive and that the statement indicates whether additional fees may be required in individual cases; or
 - (b) the range of fees for specifically described professional services provided there is reasonable disclosure of all relevant and variable considerations affecting the fees, so that the statement would not be misunderstood or be deceptive including without limitation, an indication whether additional fees may be incurred for related professional services which may be required in individual cases.

V. A licensed veterinarian or veterinary technician shall not use or display any college degree, certificate or title granted by any institution not approved by the New Mexico board of veterinary medicine.

W. A licensed veterinarian shall not use present or past position(s) or office(s) of trust deliberately to create any individual professional advantage, or to coerce or deceive the public.

X. All licensed professionals are subject to the Veterinary Practice Act and rules promulgated by the board.

Y. Violations of the Veterinary Practice Act or rules promulgated by the board are subject to the complaint process as governed by the Uniform Licensing Act.

Z. The licensee is required to abide by all statutes and rules of any board, commission, and agency including county or city ordinances governing any aspect of the practice of veterinary medicine.

AA. Dishonesty in the practice of veterinary medicine is prohibited.

BB. Habitual or excessive use of intoxicants or drugs is prohibited.

CC. The use of any controlled or legend drug or substance on any animal for the purpose of illegally influencing the outcome of a competitive event is prohibited.

DD. Failure to maintain required radiological records 20.3.1.108 NMAC or controlled substance logs and medical records is prohibited.

EE. Failure to report as required by law or making a false report of any contagious or infectious disease is prohibited.

FF. Unfair or deceptive practices in the conduct of the profession are prohibited.

GG. Violation of the Veterinary Practice Act or of any rule adopted by the board is prohibited. See Uniform Licensing Act.

HH. Failure of a licensed veterinarian or facility to refer a client, upon the client's request, to another licensed veterinarian is prohibited.

16.25.4.8 GENERAL REQUIREMENTS:

A. Each veterinarian licensed to practice in New Mexico must obtain, each year of licensure, a total of 15 instructional hours derived from seminars, short courses, or scientific programs approved by the registry of approved CE (RACE), AVMA, or by the board; or sponsored by a veterinary medical association, organization, or university.

(1) In general, CE must be in the form of contact hours. Credit for non-contact forms of instruction, including online training or articles in printed professional periodicals, is accepted. Non-contact hours may comprise no more than half of the annual requirement of 15 CE hours.

(2) Instruction in aspects of facility management, records management or the complaint process may count for credit. These hours may comprise no more than five CE credit hours per year.

(3) Instruction in alternative, non-western medicine must be specifically applicable to veterinary medicine and approved by RACE, AVMA, or sponsored by a veterinary organization or university, or by the board. CE credit cannot exceed 75% or 11.25 of the 15.00 instructional hours required annually.

B. There are no exceptions for age, retirees or other non-practicing veterinarians who want to maintain their New Mexico license. Pursuant to NMSA 1978, Section 61-14-12(E) the board may provide a waiver of the CE requirement to a licensed veterinarian during any period when he is on active duty with any branch of the armed services of the United States or for the duration of a national emergency.

C. CE hours are accumulated on an annual basis for the 12 months preceding individual veterinarian's license expiration date.

D. A new licensee must comply with the continuing education requirement beginning the next full licensing year after the licensee receives his initial New Mexico license.

E. A maximum of 15 credit hours may be accrued as excess and carried forward to the next licensing year.

F. The month before a veterinarian's annual license renewal is due, a license renewal form will be provided on which the veterinarian must record the CE taken during the previous licensing year.

G. The burden of proving the validity of the reported CE hours lies solely with the licensed veterinarian reporting. The board may conduct audits on CE reporting; photocopies of seminar registrations or completion certificates shall be submitted by the licensee upon request.

H. Beginning with the effective date of this part, each licensee should retain proof of his CE completion for a minimum of four years.

[16.25.4.8 NMAC - Rp, 16.25.4.8 NMAC, 01-17-2014]

16.25.4.9 CONTINUING EDUCATION REQUESTS:

A licensee in doubt about whether a particular course, class, or seminar will be approved for credit may submit to the board, in writing, a course description with course outline and the number of contact hours. The *approval request* form is available at the board's web site or by calling the board office. The board will make a determination at its next meeting.

[16.25.4.9 NMAC - Rp, 16.25.4.9 NMAC, 01-17-2014]

16.25.4.10 CONTINUING EDUCATION EXTENSIONS:

A. The board may grant an extension of time to complete the annual CE requirement for a given licensing year upon licensee's written request.

(1) A licensee who is granted a CE extension must obtain the CE hours lacking within six months following the licensee's birth month to avoid being placed on suspended status. During the suspension period, the licensee may not lawfully practice veterinary medicine in New Mexico.

(2) A licensee may be granted only two consecutive CE extensions i.e. for two separate licensing years and a maximum of four extensions during his entire career practicing veterinary medicine in New Mexico.

B. The board does not automatically grant requests for CE extensions.

(1) The licensee's request must be in the form of a letter stating the reason the required CE cannot be completed for the year.

(2) A licensee's first request for a CE extension may be approved administratively by the executive director, assuming the licensee is in good standing with the board.

(3) All CE extension requests are presented at the next board meeting for the board's determination. CE extension requests approved by the executive director, as described in (2) above, are presented for board confirmation at the next board meeting.

(4) Should a licensee fail to meet the CE requirement when applying for license renewal and does not request an extension, his name shall be presented at the next board meeting for the board's determination of possible disciplinary action.

C. In cases of extreme hardship involving physical health or family crisis concerns, special consideration for CE may be granted by the board on the merits of the individual case.

16.25.6.8 RULES GOVERNING REGISTERED VETERINARY TECHNICIANS:

A. To perform the duties of a registered veterinary technician in New Mexico and receive a license issued by the board of veterinary medicine, an applicant must meet all the requirements set forth in these rules. The following documents are required:

- (1) a completed, signed and notarized *application for licensure-RVT* form;
- (2) the examination fee; and
- (3) a color passport-type head and shoulders photograph of the applicant.

B. Prior to the applicant taking the required examinations, the application will be reviewed to determine if the applicant has satisfactorily met the board's requirements.

(1) The applicant's file must be complete before a license will be issued. If the required documents and information are not provided within one year of board examination, the applicant must reapply for licensure. In addition to (1), (2) and (3) above, the following documents are required:

- (a) notarized copy of diploma;
- (b) final transcripts from an accredited veterinary technician program; and
- (c) verifications of licensure from another state(s) or country(ies) in which applicant is or has been licensed;

- (2) pass all examinations required by the board;
- (3) meet one of the following requirements:

(a) the applicant is a graduate veterinary technician or a senior student of a two year or longer program accredited by the American veterinary medical association;
or

(b) the applicant has a current valid permit or license from another state(s) or country(ies) with similar requirements to New Mexico, as approved by the board.

[16.25.6.8 NMAC - Rp, 16.25.6.8 NMAC, 01-17-2014]

16.25.6.9 EXAMINATIONS:

A. Examinations shall be held as specified by the board of veterinary medicine.

(1) Applicants must pass the American association of state veterinary boards (AAVSB) veterinary technician national examination (VTNE) administered by the professional examination service (PES) with the passing grade established by PES.

(2) Prior to taking the VTNE, applicant must apply for sponsorship by the board. The list of all fees relating to examinations is set out at Subsection C of 16.25.6.9 NMAC and is posted at the board's web site at www.nmbvm.org. In addition, the applicant must take and pass with a minimum score of seventy five percent, the New Mexico veterinary technician licensing examination.

B. No application shall be acted upon until the examination fee is received by the executive director of the board of veterinary medicine. If the board deems an applicant ineligible for examination, fees will not be refunded.

C. The list of fees relating to examinations is as follows and is posted at the board's web site: www.nmbvm.org.

(1) state jurisprudence examination:

(a) board set dates, January and May – \$75 or

(b) date selected by applicant – \$100

(2) VTNE: board sponsorship – \$65.

D. Limitations:

(1) Once the fees have been submitted to the board, the fees cannot be refunded.

(2) An applicant has a one year time limit within which to take the state examination.

E. Any applicant requesting an examination or re-examination by the board, other than board-set examinations, shall submit the application for review by the board. If the board determines that there is sufficient justification for administering a special examination, the expense of such special examination shall be borne by the applicant requesting the examination.

F. An applicant failing the examination may retake the entire examination at a scheduled time and will be charged the full examination fee.

G. The executive director will notify candidates of the examination results within 30 days of the date of the examination.

[16.25.6.9 NMAC - Rp, 16.25.6.9 NMAC, 01-17-2014]

16.25.6.10 RENEWAL OF LICENSE:

A list of all fees relating to renewal of a registered veterinary technician license is listed at Subsection D of 16.25.6.10 NMAC and at the board's web site: www.nmbvm.org.

A. A veterinary technician's license expires and is due for renewal each year on the last day of December. If a registered veterinary technician's license lapses and is not renewed within five years, they must reapply, retake and pass the examination before they can obtain licensure, Section 61-14-12, NMSA 1978.

B. A registered veterinary technician license is lapsed if the license renewal is not postal postmarked on or before the December 31 expiration date.

C. Registered veterinary technicians shall display at the business location, in full view of the public, the current year license renewal certificate.

D. License fees:

(1) initial license fee is prorated from date of license issue to last day of December;

(2) annual renewal fee – \$75;

(3) inactive status – \$47. Annual continuing education requirement must be fulfilled and reported;

(4) license reactivation – 65 along with completed application for reactivation and verification of required annual 8.00 continuing education hours while license in inactive status; and

(5) late renewal penalties:

(a) postal postmarked no later than 30 days after December 31 expiration date – \$32; or

(b) postal postmarked more than 30 days after December 31 expiration date – \$32 plus \$6.25 per day not to exceed \$375.

E. Continuing education.

(1) Each registered veterinary technician licensed to practice in New Mexico must certify that he has completed at least eight hours of approved continuing education during the preceding year. The hours will be derived from seminars, short courses, or scientific programs approved by RACE, AVMA, NAVTA, or sponsored by a veterinary medical association, veterinary organization, university, or by the board. There will be no exemptions for age or retirement.

(2) A waiver of delinquent hours may be granted by the board if a request is made in writing. The hours must be made up in the next calendar year and is in addition to the current year annual CE requirement.

(3) Continuing education hours will be accumulated on an annual basis from January through December.

(4) A maximum of eight credit hours may be accrued as excess and carried forward to the subsequent licensing year.

(5) A form to be completed by the registered veterinary technician at the time of annual renewal will be provided by the board of veterinary medicine.

(6) The burden of proving the validity of the reported hours lies solely with the registered veterinary technician.

(7) A new licensee must comply with the continuing education requirement beginning the next full licensure year after graduation.

(8) In general, CE must be in the form of contact hours. Credit for non-contact forms of instruction including online training or articles in printed periodicals is accepted, if the instruction:

(a) is designed for veterinary technicians; and

(b) non-contact hours do not comprise more than half of the annual requirement of eight CE hours.

16.25.7.8 FACILITY LICENSE REQUIREMENTS:

A. General Requirements. Every facility in New Mexico where the practice of veterinary medicine as defined in Section 61-14-2 NMSA 1978, regularly occurs must possess a facility license issued by the board of veterinary medicine.

(1) Failure to comply with this section may result in disciplinary action by the board.

(2) All facility licenses expire, and renewals are due, September 30 of each year.

(3) A facility license cannot be issued without a physical facility.

(4) Licensee manager must maintain New Mexico board of veterinary medicine minimum standards.

(5) A consulting veterinarian who provides consulting services only, (with no hands on practice whatsoever) does not need a facility license.

(6) A licensed veterinarian practicing in New Mexico under a 60-day temporary permit issued by the board does not need a facility license.

(7) A veterinarian working under the jurisdiction of another DVM or licensee manager is not required to hold a facility license.

B. One facility license independent of type of facility must be maintained for medical records and drug storage.

C. Licensee manager or responsible DVM. Each application for a facility license shall name the facility, facility owner, and licensee manager or responsible DVM and shall include the licensee manager's original signature.

(1) A facility owned by anyone other than a veterinarian currently licensed to practice in New Mexico must have a New Mexico licensed veterinarian as the licensee manager or responsible DVM who will take full responsibility for maintaining minimum standards as stated in board promulgated rules. The responsibility shall include record keeping, controlled substances, and quality of care at the facility.

(2) The licensee manager or responsible DVM is the official holder of the facility's license.

(3) A facility's licensee manager or responsible DVM must be:

(a) the individual who oversees veterinary services at a facility currently in operation; and

(b) present at the facility often enough to have knowledge of and control over the facility's methods for complying with minimum standards and the degree to which the minimum standards are being met.

D. When it is determined that the owner, licensee manager or responsible DVM, or facility has violated any provisions of the Veterinary Practice Act or is in violation of the rules promulgated by the board, the board may take disciplinary action as provided by the Veterinary Practice Act.

16.25.7.9 LICENSE FEES:

A current list of fees relating to licensure of facilities is also posted at the board's web site: www.bvm.nm.gov

A. Fees shall include but may not be limited to the following:

- (1) initial facility license - \$155;
- (2) annual license renewal - \$155; and
- (3) late renewal penalties:
 - (a) postal postmarked after September 30 but no later than October 30 - \$65;
 - (b) postal postmarked after October 30 - \$155; and
 - (c) administrative penalties as may be determined by the board.

B. The names of facilities with license renewals more than 30 days overdue are presented to the board at the next regular board meeting for possible disciplinary action by the board.

[16.25.7.9 NMAC - Rp, 16.25.7.9 NMAC, 1/14/2025]

16.25.7.10 FACILITY INSPECTIONS:

A. Regular facility inspections. Each licensed veterinary facility is inspected by the facility inspector every other calendar year or at a frequency determined by the board. The board conducts regular facility inspections to:

- (1) ensure that every licensed veterinary facility in New Mexico is operating according to the minimum standards promulgated by the board of veterinary medicine;
- (2) assist facilities in achieving and maintaining minimum standards and to encourage the continuous improvement of quality of services;

B. Corrective actions.

(1) Plan of correction. When the facility inspector determines that a licensed facility must make corrections to comply with minimum standards, the facility inspector has authority from the board to:

- (a) request the facility's licensee manager or responsible DVM submit a written plan of correction to facility inspector within a specified time frame; and

(b) follow up to ensure that an appropriate plan of correction is submitted and that minimum standards are maintained.

(c) the board will begin the procedures set out in the Uniform Licensing Act to issue a notice of contemplated action if a facility remains non-compliant after two notifications from the facility inspector. Such board action may result in revocation or suspension of licensure to practice in the state.

(2) Re-inspections and consultation. For very serious and chronic violations of the minimum standards, the facility inspector shall present those facilities to the board to determine a formal plan of action which may require mandatory re-inspections.

(a) For each mandatory re-inspection, the board may charge an administrative fee of \$500.

(b) For mandatory, individualized training other than initial training provided at the time of the inspection when violations are found, the board may charge the facility a consulting fee of \$62.50 per hour for additional consultation not to exceed \$625. On a case by case basis, the board may grant credit hours toward the regular annual continuing education (CE) requirement to the licensee manager and any other licensed associates for these types of consultations.

(3) The board mandates re-inspections and individualized training, with corresponding fees, only in cases of very serious or continued violations not for new facilities undergoing their initial inspections.

C. Voluntary consultation.

(1) Upon request, the facility inspector provides an initial professional courtesy inspection to assist a new facility or new licensee manager in setting up a clinic.

(2) A facility's licensee manager may arrange for longer term, more intensive training, consultation, or assistance by the facility inspector relating to specific areas of clinic operations, record keeping or handling of controlled substances, etc., for a fee of \$62.50 per hour not to exceed \$625. Arrangements shall be approved by the board and coordinated through the board's executive director; and

(3) On a case by case basis, the board may grant credit hours toward the regular annual CE requirement to the clinic's licensee manager and any other licensed associates for voluntary consultations.

16.25.8.8 PERMIT REQUIREMENT:

Any person who provides bovine artificial insemination (AI) and bovine pregnancy diagnosis (PD) services for compensation must possess a permit from the board for each type of service.

A. Bovine AI and bovine PD permits are separate. An applicant may obtain a bovine AI permit, a bovine PD permit, or both.

B. The bovine AI and PD permit year is January 1 through December 31 and renewals are issued annually expiring on December 31 of each year.

[16.25.8.8 NMAC - Rp, 16.25.8.8 NMAC, 01-17-2014]

16.25.8.9 INSTRUCTION, EXAMINATIONS, AND LICENSING:

A. To obtain a bovine AI and bovine PD permit, an applicant must:

(1) Complete bovine AI and bovine PD instruction given by the bovine AI and PD examiner or through another institution approved by the board. To request board approval for a particular bovine AI and PD course of instruction, an applicant must provide to the board a course outline or description, including number of instructional contact hours and sponsoring group or organization. At its next meeting, the board will make its determination whether the instruction or course is adequate and if approval will be granted.

(2) Pass bovine AI and PD written and proficiency examinations prepared and administered by the board or its appointed agent(s). The purpose of the examination(s) is to determine the knowledge and proficiency of each applicant.

(3) Be recommended by the board appointed examiner as qualified for the bovine AI and PD permit(s).

B. Upon the examiner's recommendation, the board may issue a bovine AI and bovine PD permit.

C. Each bovine AI and PD permit applicant has one year in which to apply to the board for a permit after passing the proficiency examination(s). If the applicant does not apply for a permit within one year, applicant must retake the appropriate examination(s).

D. Fees:

(1) Fees for instruction are paid directly to the instructor or institution that provides the instruction.

(2) Fees for the proficiency examinations are paid directly to the board appointed examiner.

(3) Fees for initial bovine AI and PD permits and annual renewals are paid to the board. A current list of fees relating to bovine artificial insemination and bovine pregnancy diagnosis permits is also posted at the board's web site: www.bvm.nm.gov

(a) Initial permit: each permit, bovine AI or bovine PD – \$95.

(b) Annual permit renewal: each permit, bovine AI or bovine PD – \$95.

(c) Late-renewal penalty fees:

(i) postal postmarked after December 31 but no later than January 31 – \$65; or

(ii) postal postmarked after January 31 – \$95.

16.25.8.10 PERMIT RENEWAL:

A. To renew a Bovine AI and PD permit, a technician must submit letters of recommendation from two clients who have used the applicant's services within the last 12 months. The letters of recommendation shall attest to applicant's proficiency and endorse applicant's application for renewal. If two client endorsements are not available, taking and passing the board administered proficiency examination will be sufficient.

B. Bovine AI and PD technicians are not required to accrue continuing education hours.

C. Before the December 31 renewal date, the board office provides bovine AI and PD technicians a renewal form to be completed and returned with the renewal fee.

D. If a bovine AI and PD technician permit lapses and is not renewed within one year, the applicant must re-take and pass the examination(s) before the technician can obtain a new permit.

16.25.9.8 GENERAL STANDARDS:

A. The delivery of veterinary care shall be provided in a competent and humane manner.

B. Veterinary medicine shall be performed in a manner compatible with current veterinary medical practice.

C. A valid veterinarian-client-patient relationship (VCPR) must be established when delivering veterinary care. See VCPR as defined by the New Mexico Veterinary Practice Act 61-14-2-J (1), (2), (3), and (4).

(1) A VCPR cannot be established by telephonic, computer, internet or other electronic communications; however, a New Mexico-licensed veterinarian may provide or arrange for consulting services for their clients using the described electronic communication methods.

(2) The veterinarian writing a veterinary food directive (VFD) order for premises in New Mexico must be a New Mexico-licensed veterinarian and present on the premises within the six (6) months preceding the issuance of the order. All elements of the federal rules to issue a VFD order must be met and the issuing veterinarian must provide supporting documentation of the visit to the premises including medical records within fourteen (14) days of a request from the board to provide such documentation.

D. The board of veterinary medicine shall require periodic inspections of all veterinary facilities to monitor compliance with these standards.

(1) Standards depend upon the nature, scope, and limitations of the practice as defined by the practice manager and approved by the board. However, in no case shall standards of cleanliness, hygiene, and sanitation be violated.

(2) Inspections shall be conducted by the facility inspector designated by the board.

(3) Facilities are subject to inspection at any time during the facility's normal hours of business.

(2) Clean surgery means the performance of a surgical operation for the treatment of a condition and under circumstances which, consistent with the standards of good veterinary medicine, do not warrant the use of aseptic surgical procedures.

B. The surgeon is responsible for the surgical case until it is completed and there is adequate recovery of the patient from anesthesia.

C. Surgery room.

(1) A room shall be designated for aseptic procedures only, in which no other uses are permitted;

(2) The room shall be well lighted and have available an operational viewing device for reviewing radiographs;

(3) The floors, tabletops, and countertops of the surgery room shall be of a material suitable for disinfection and cleaning and shall be cleaned and disinfected regularly;

(4) Storage in the surgery room is limited to surgically related items only; and

(5) Nothing in this section shall preclude the performance of emergency aseptic surgical procedures in another room when the room designated for that purpose is occupied.

D. Instruments and equipment.

(1) Instruments and equipment shall be:

(a) adequate for the type of surgical service provided; and

(b) sterilized by a method acceptable for the type of surgery for which they shall be used.

(2) In any sterile surgical procedure, a separate sterile pack and gloves shall be used for each animal;

(3) All instruments, packs and equipment that have been sterilized shall have an indicator that reacts to and verifies sterilization within one year; and

(4) Suture material shall not be used beyond the manufacturer's expiration date.

E. Surgical attire.

(1) Each member of the surgical team shall wear an appropriate sanitary cap and sanitary mask which covers his hair, mouth, nose and any facial hair, except for eyebrows and eyelashes;

(2) All members of the surgical team who will be handling sterile instruments or touching the surgical site shall wear sterilized surgical gowns with long sleeves and sterilized gloves;

(3) Ancillary personnel in the surgery room shall wear clean clothing;

(4) Ancillary personnel in immediate proximity to the sterile field shall wear sanitary cap and mask; and

(5) When performing "clean surgery", the instruments used to perform such surgery shall have been properly sterilized or disinfected and the surgeon and ancillary personnel shall wear clean clothing as appropriate.

F. Anesthesia.

(1) General anesthesia is a condition caused by the administration of a drug or combination of drugs sufficient to produce a state of unconsciousness or dissociation and blocked response to a given pain or alarming stimulus.

(2) Administration of appropriate and humane methods of anesthesia, analgesia and sedation to minimize pain and distress during any procedures and shall comply with the following standards:

(a) with the exception of feral or dangerous animals, every animal shall be given a physical examination within two weeks prior to the administration of an anesthetic;

(b) the animal under general anesthesia shall be under continuous observation until, at minimum, the swallowing reflex has returned and shall not be released to the client until the animal demonstrates a righting reflex. This shall not preclude direct transfer of an animal under anesthesia to a suitable facility for referred observation;

(c) provide a method of respiratory monitoring that may include observation of the animal's chest movement or observing the rebreathing bag or respirometer;

(d) provide a method of cardiac monitoring that may include the use of stethoscope or electrocardiographic monitor;

(e) clean endotracheal tubes of assorted sizes shall be readily available;

(f) oxygen equipment shall be available at all times;

(g) anesthetic equipment will be maintained in proper working condition; and

(h) effective means shall be provided for exhausting waste gasses from hospital areas in which inhalation anesthesia is used.

16.25.9.20 DIRECT SUPERVISION OF NON-VETERINARIANS:

Non-licensed individuals are prohibited from practicing veterinary medicine which includes but is not limited to chiropractic, physical therapy, acupuncture, acupressure, homeopathy, therapeutic massage, dentistry, embryo transfer or any other related services on animals as defined in NMSA 1978, Section 61-14-2(B)(1), except under the direct supervision of a New Mexico-licensed veterinarian. Direct supervision includes the following:

A. the licensed veterinarian must have established a valid veterinarian-client-patient relationship;

B. the treatment must be performed on the order of a licensed veterinarian;

C. the licensed veterinarian must be on the premises and readily available;

D. the licensed veterinarian must assume liability for the quality of any treatment performed; and

E. the fee for services rendered shall be paid to the licensed veterinarian or licensed facility.

[16.25.9.20 NMAC - Rp 16.25.9.20 NMAC, 01-17-2014]

16.25.9.21 RECORD KEEPING:

A. Every veterinarian involved in a veterinarian-client-patient relationship performing any service requiring a license to work on any animal or group of animals in his custody or in the custody of a veterinary facility, shall prepare a legible individual or group animal and client record concerning the animal(s) which shall contain the following information:

- (1) name, address, and phone number of the animal's owner or agent; and
- (2) name or identity of animal(s), including species, breed, age, sex, weight, and color where appropriate
- (3) The medical record shall contain:
 - (a) a history of pertinent information as it pertains to the animal's medical status;
 - (b) notation of the physical examination findings;
 - (c) treatment or intended treatment plans or both, including medications, medication strengths and amounts administered, dispensed or prescribed and frequency of use as well as method of administration including those medications used for sedation, induction and maintenance of anesthesia;
 - (d) data and interpretation(s) of diagnostic procedures including but not limited to radiographs, laboratory, ultrasound and ECG;
 - (e) a diagnosis or tentative diagnosis;
 - (f) when pertinent, a prognosis;
 - (g) progress notes and disposition of the case;
 - (h) beginning and ending dates of custody of the animal with daily notations;
 - (i) in the case of vaccination clinics, a certificate including the information required by Subsections (1) and (2) above may serve as the medical record;
 - (j) name or initials of the veterinarian responsible for entries; and

(k) name or initials of all ancillary and authorized individuals responsible for entries.

(4) Group records are acceptable for herds, flocks or litters of animals that lack individual identification by name or that include a number of individuals to which the same medical record applies. Records for surgical procedures that include a description of the procedure, surgical findings when pertinent and response to or recovery from anesthesia shall contain the requirements listed in Subsection (3) above.

B. Record storage.

(1) All records shall be the property of the veterinary facility or practice that created such records and shall be kept where easily accessible for a minimum of four years after the animal's last visit.

(2) Upon closure of a facility or practice, notice must be published twice in the local newspaper announcing where records can be obtained for 90 days.

(3) Copies of records and radiographs or a summary of records will be made available within 10 working days upon the client's written request.

C. Controlled substances.

(1) A separate log shall be maintained on each controlled substance and shall contain the following information:

(a) date and time of administering or date of dispensing;

(b) name of owner or agent;

(c) name or identification of animal;

(d) amount dispensed or administered;

(e) balance remaining; and

(f) authorizing veterinarian and identification of authorized individual dispensing or administering the controlled substance.

(2) For each controlled substance, there shall be an annual inventory that includes:

(a) the date of inventory, May 1 annually, unless prior written notice is submitted to the appropriate agency by the licensee manager;

(b) a physical count identifying the quantity of each controlled substance on hand on the date of inventory;

(c) the "balance remaining" from the individual controlled substance log;

(d) the discrepancy between (b) and (c); and

(e) the percent the annual use (d) represents.

(3) All New Mexico board of pharmacy, New Mexico Controlled Substances Act, federal drug enforcement administration (DEA) and federal food and drug administration requirements shall be complied with, including but not limited to the following:

(a) controlled substances must be kept securely locked in a closet, safe or fixed cabinet;

(b) access to the controlled substance storage area should be restricted to the absolute minimum number of employees;

(c) the recommendation that controlled substances stock is kept to a minimum. Should it be necessary to have a substantial quantity of controlled substances stored in the office or facility, the DEA encourages having security which exceeds the minimum requirements such as a safe and alarm system;

(d) the reporting of lost or stolen controlled substances to the appropriate agency;

(e) the disposal of controlled substances through a DEA licensed disposer; and

(f) the DEA and NMCS licenses shall be kept where easily accessible in the pharmacy area but not in public view.

D. Computer records.

(1) There shall be reasonable security of a facility's computer(s) with access limited to authorized individuals only.

(2) A daily and cumulative monthly back-up on a separate disk, magnetic tape or other acceptable device or method shall be made.

[16.25.9.21 NMAC - Rp 16.25.9.21 NMAC, 01-17-2014]

16.25.9.22 MANAGEMENT OF WASTE:

A. A licensed veterinarian shall oversee the handling, treatment and disposition of infectious waste including but not limited to carcasses, anatomical body parts, excretions, blood soiled articles or bedding that are generated from an animal that the licensed veterinarian knows or has reason to suspect has a disease that is capable of being transmitted to humans as provided under this section:

(1) all infectious waste will be sterilized or disinfected by heat, steam, chemical disinfection, radiation or desiccation; and

(2) infectious waste held for disposal shall be collected in sanitary leak resistant bags clearly labeled for biohazard disposal. The bag shall contain the gloves worn while collecting the waste and those used in treatment and post-mortem examinations of suspect animals.

B. All sharps shall be disposed of in appropriately labeled sharps containers. Such containers shall be rigid sided, solidly sealed containers that are highly resistant to puncture. These containers shall be incinerated or disposed of in an environmentally safe manner by a duly licensed disposer, an approved medical sharps incineration facility or shall be disposed of in such a way as to render the sharps harmless. This disposal shall not apply to infectious waste sharps contained in a puncture resistant container which should be disposed of as described in infectious waste disposal. Due to the small volume of sharps generated in a veterinary clinic, transportation of the filled, sealed containers shall not be mandated by nor limited to commercial haulers.

C. Drug disposal.

(1) When feasible, unused or outdated drugs shall be returned to the manufacturer for disposal in accordance with the policies and procedures of the manufacturer.

(2) All scheduled controlled substances which cannot be returned to the manufacturer shall be disposed of at one of the approved controlled drug disposers as approved by the board of pharmacy. A list of these disposers will be provided by the board of pharmacy.

(3) Drugs which do not pose a problem for environmental hazard or are not controlled drugs may be disposed of in a sanitary, non-offensive manner by means of regular solid waste disposal methods.

D. A licensed veterinarian shall oversee the handling of waste materials that are generated from an animal that does not have a disease transmissible to humans or suspected of being contaminated with an agent capable of infecting humans as provided under this section:

(1) Animal carcasses.

(a) An animal carcass shall be disposed of promptly by release to owner, burial, cremation, incineration, commercial rendering or if permitted by local ordinance, placed in a public landfill.

(b) If prompt disposal of an animal carcass is not possible, it shall be contained in a freezer or stored in a sanitary, non-offensive manner until such time as it can be disposed of as provided in (1)(a) above.

(c) All remains stored at a veterinary clinic shall be duly identified with the case number or the owner's name and the name of the animal to prevent improper final disposal.

(2) Tissues, specimens, bedding, animal waste and extraneous materials, not suspected of harboring pathogens infectious to humans shall be disposed of by approved city or county disposal methods.

E. In the event of the occurrence of a suspected foreign animal disease or disease of potential concern to state or national security, the licensed veterinarian will immediately contact the state department of agriculture, the U. S. department of agriculture and other departments that have jurisdiction over such an occurrence. The licensed veterinarian shall oversee the handling of all tissues, laboratory samples and biomedical waste associated with such cases in accordance with the recommendations made by the department of agriculture and other departments and agencies which are deemed necessary and appropriate in such cases.

16.25.11.9 DISCIPLINARY ACTION:

If an applicant or licensee is not in compliance with a judgment and order for support, the board:

A. shall deny an application for a license;

B. shall deny the renewal of a license; and

C. has grounds for suspension or revocation of the license.

[16.25.11.9 NMAC - Rp, 16.25.11.9 NMAC, 01-17-2014]

16.25.11.10 CERTIFIED LIST:

Upon receipt of HSD's certified list of obligors not in compliance with a judgment and order for support, the board shall match the certified list against the current list of board licensees and applicants. Upon the subsequent receipt of an application for licensure or renewal, the board shall match the applicant against the current certified list. By the end of the month in which the certified list is received, the board shall report to HSD the names of board applicants and licensees who are on the certified list and the action the board has taken in connection with such applicants and licensees.

[16.25.11.10 NMAC - Rp, 16.25.11.10 NMAC, 01-17-2014]

16.25.11.11 INITIAL ACTION:

Upon determination that an applicant or licensee appears on the certified list, the board shall:

A. commence a formal proceeding under 16.25.11.9 NMAC to take the appropriate action under 16.25.11.12 NMAC;

B. for current licensees only: informally notify the licensee that the licensee's name is on the certified list, and that the licensee must provide the board with a subsequent statement of compliance from HSD by the earlier of:

- (1) the application for license renewal; or
- (2) specified date not to exceed 30 days.

If the licensee fails to provide this statement, the board shall commence a formal proceeding under 16.25.11.14 NMAC.

(c) in the event that an applicant cannot provide the documentation required in Subparagraphs (a) or (b) of Paragraph (2) of Subsection B of 16.26.2.19 NMAC, the board may consider other evidence of proficiency and experience on a case-by-case basis.

C. Eligibility of currently licensed New Mexico speech-language pathology applicants: A New Mexico licensed speech-language pathologist who applies for a bilingual-multicultural endorsement must submit the following documentation:

(1) proof that the applicant has a New Mexico license to practice as a speech-language pathologist that is in good standing, or licensed by another state or country as a SLP or bilingual SLP that is in good standing; and

(2) proof that the applicant is proficient in the specified language(s) as evidenced by:

(a) having passed a board-approved language proficiency assessment; or

(b) a letter of verification from a university, tribe or other recognized official entity documenting successful completion of a language proficiency rubric with a minimum of seventy percent in all domains/areas that apply to the specified language; or

(c) in the event that an applicant cannot provide the documentation required in Subparagraphs (a) or (b) of Paragraph (2) of Subsection C of 16.26.2.19 NMAC, the board may consider other evidence of proficiency on a case-by-case basis; and

(3) proof that the applicant has a minimum of five years practicing with clients who utilize a language other than English as evidenced by a sworn and notarized affidavit from the applicant.

D. Eligibility of licensees from other jurisdictions: A speech-language pathologist licensed by another jurisdiction who applies for a bilingual-multicultural endorsement must submit the following:

(1) proof that the applicant has a license to practice as a speech-language pathologist in good standing in another jurisdiction;

(2) a copy of a board-approved application for a license to practice as a New Mexico speech language pathologist;

(3) proof that the applicant is proficient in the specified language(s) as evidenced by:

(a) the applicant has a minimum of five years practicing with clients who utilize a language other than English as evidenced by a sworn and notarized affidavit from the applicant; or

(b) having passed a board-approved language proficiency assessment; or

(c) a letter of verification from a university, tribe or other recognized official entity documenting successful completion of a language proficiency rubric with a minimum of seventy percent in all domains/areas that apply to the specified language; or

(d) in the event that an applicant cannot provide the documentation required in Subparagraphs (a), (b) or (c) of Paragraph (4) of Subsection D of 16.26.2.19 NMAC, the board may consider other evidence of proficiency on a case-by-case basis.

16.26.2.20 REQUIREMENTS FOR ALL APPLICANTS WHO PRACTICE TELEHEALTH:

A. An audiologist, speech-language pathologist or hearing aid dispenser licensed in New Mexico may use telecommunication technology to deliver services to a person residing in New Mexico who is physically present at a different location from the provider at the time services are received, so long as the services delivered through use of telecommunication technology meet or exceed the quality of services delivered face-to-face.

B. An audiologist, speech-language pathologist or hearing aid dispenser who resides outside the boundaries of the state of New Mexico and delivers services or products to residents of New Mexico shall be licensed by the board.

C. An audiologist, speech-language pathologist or hearing aid dispenser using telecommunication technology to deliver services shall have necessary knowledge and skills, obtained through education, training and experience to use such technology competently.

D. Telecommunication technology used to deliver services must be equivalent to that provided in person.

E. A licensed audiologist, speech-language pathologist or hearing aid dispenser must be physically present at all times at the hub site while interactive telecommunication technology is used to deliver services to a client physically present at a remote site.

F. A licensed audiologist, speech-language pathologist or hearing aid dispenser using telecommunication technology to deliver services to a client shall:

(1) assess the client's ability to participate meaningfully in the services delivered through telecommunications, including but not limited to the client's physical, cognitive and behavioral abilities;

(2) calibrate properly the clinical instruments used for delivery of services in accordance with standard operating procedures and manufacturer specifications;

(3) train properly the facilitator at the client-patient site if used;

(4) comply with all laws and rules governing maintenance of client records, including but not limited to client confidentiality requirements; and

(5) comply with all professional standards governing delivery of services including the applicable Code of Ethics

G. A licensed audiologist, speech-language pathologist or hearing aid dispenser using telecommunication technology to deliver services to a client shall provide notice to the client, guardian, caregiver and multi-disciplinary team as appropriate, including but not limited to the right to refuse telehealth services, options for service delivery and instruction on filing and resolving complaints.

H. An audiologist, speech-language pathologist or hearing aid dispenser shall not deliver services to a client solely through the use of regular mail, facsimile or electronic mail, although these methods of communication may be used to supplement the face-to-face delivery of services or through the use of telecommunication technology.

16.26.4.7 DEFINITIONS:

[RESERVED]

16.26.4.8 RENEWAL OF LICENSES:

A. All licensees except clinical fellows and apprentices shall apply for license renewal biennially on or before January 30 of the renewal year, on the renewal forms supplied by the board office. The renewal requirements for clinical fellows and apprentices are set forth in Sections 9 and 10 of Part 4.

B. Licensees shall assume the total responsibility for:

- (1)** filing a current mailing address and electronic mail (email) with the board office;
- (2)** completing the renewal form and ensuring its delivery to the board office on or before January 30 of the renewal year;
- (3)** enclosing the appropriate fee; and

(a) initial licenses issued prior to the month of renewal will be granted a license term of the balance of the remainder of the current license year, plus one license year;

(b) no license shall be issued for longer than 24 months;

(4) enclosing documentation of meeting continuing education requirements.

C. To assist in the renewal process, the board office will:

(1) send renewal notices and the appropriate forms to the licensee's email address of record on or before December 15 prior to the expiration of the current license; and

(2) mail renewed and reinstated licenses no later than 30 days from day of receipt of application, fees and appropriate documentation.

D. Expiration: All speech-language pathology, audiology and hearing aid dispensing licenses expire on January 30 of the renewal year and renewal forms must be complete and postmarked, if submitted by mail no later than the expiration date or a late fee will be assessed without exception.

E. Grace period: There is a grace period permitting renewal of expired licenses which ends March 31 of the intended licensure year. However the license shall be considered expired during the grace period and the licensee must refrain from practicing.

F. Renewal of license during the grace period ending March 31 of the intended license year will require payment of a late fee.

G. If a licensee fails to renew within the grace period, the licensee must reapply as a new applicant, meet all applicable requirements, meet CEU requirements and pay the application fee and renewal fee.

H. Licensees shall be notified by the board office of all license expirations 10 days after the close of the grace period.

I. Timely renewal of license(s) is the full and complete responsibility of the licensee, Pursuant to Subsection C of 16.26.4.8 NMAC of these regulations. Non-receipt of the renewal notification by the licensee will not exempt licensure expiration or late penalty fees.

[12/21/1971; 2/5/1980; 4/5/1983; 11/9/1996; 11/7/1998; 11/27/1999; 16.26.4.8 NMAC - Rn & A, 16 NMAC 26.4.8, 2/3/2006; A, 11/29/2008; A, 6/7/2010; A, 1/29/2015; A, 11/28/2017; A, 1/10/2020]

16.26.4.9 RENEWAL OF CLINICAL FELLOW LICENSE:

The CFY must be completed within a maximum period of 36 consecutive months. Prior to or during the first 12 months of clinical fellow licensure, the clinical fellow must take and pass a nationally recognized examination in the clinical fellow's field. Proof of passing this exam is required for renewing the CFY license.

A. The clinical fellowship license shall be renewed annually on a form supplied by the board office and shall expire annually one year after the date of initial licensure. The renewal must be postmarked no later than the expiration date.

B. A late penalty fee will be assessed if the license is not renewed by the expiration date.

C. If a licensee fails to renew within 60 days of expiration of the license, the licensee must reapply, meet all applicable requirements, meet CEU requirements and pay the application fee.

16.26.4.10 RENEWAL OF TEMPORARY PARAPROFESSIONAL LICENSE (APPRENTICE IN SPEECH-LANGUAGE PATHOLOGY):

A. All temporary paraprofessional licensees shall apply for license renewal annually on or before August 30th and are required to provide the following documentation to the board each year:

- (1)** a completed renewal form;
- (2)** the required license renewal fee; and
- (3)** a completed board approved verification of employment form verifying:
 - (a)** licensee's employment;
 - (b)** performance responsibilities of the apprentice in speech-language;
 - (c)** imitations on employment practices of the apprentice in speech-language license holder (apprentice in speech-language);
 - (d)** provision for supervision by an SLP licensed according to this act;
- (4)** a completed board approved verification of education form verifying:

(a) course work completed in communication disorders or other courses as outlined in the degree plan with a minimum GPA of 3.0;

(b) current degree plan once the licensee is admitted to a master's degree program; and

(c) copy of transcripts from college or university.

B. Expiration: All temporary paraprofessional licenses expire on August 30th of each year and renewal of licenses must be postmarked no later than the expiration date of the license or a late fee will be assessed without exception.

C. A temporary paraprofessional license may not be renewed if the licensee has not been accepted into a master's degree program within two years of initial licensure.

D. If a licensee fails to renew within 60 days of expiration of the license, the licensee must reapply, meet all applicable requirements, meet CEU requirements and pay the application fee and renewal fee.

E. Temporary paraprofessional license as an apprentice in speech-language is a terminal license and as such may be renewed no more than four times total.

16.26.5.7 DEFINITIONS:

[RESERVED]

16.26.5.8 CONTINUING EDUCATION PHILOSOPHY:

Continuing education is one of the most important responsibilities of the speech-language pathologist, audiologist, and hearing aid dispenser. It is also a life-long process. A diversity of information related to speech-language pathology, audiology, and hearing aid dispensing regarding changing requirements, laws, and trends in the field is recommended to enhance the professional skills and development the speech-language pathologist, audiologist, and hearing aid dispenser. The responsibility of continuing education rests solely with the speech-language pathologist, audiologist, or hearing aid dispenser.

[11/9/1996; 16.26.5.8 NMAC - Rn & A, 16 NMAC 26.5.8, 2/3/2006]

16.26.5.9 CONTINUING EDUCATION REQUIREMENTS OF LICENSEES:

A. The board requires 20 hours of continuing education every two years. These may be distributed over the two year period, or they may all be obtained in one year. These

continuing education hours must be in the field of licensure, or in a related field if justified to the board office. The board office will consult with the board to resolve questions as to appropriate continuing education hours. Renewal of a license shall be contingent upon the fulfillment of the continuing education standards and the supplying of evidence thereof by the licensee. The board shall be the final authority on acceptance of any educational activity submitted by a licensee to meet the continuing education requirement.

B. The number of continuing education hours required for renewal of a license may be prorated by the board office.

(1) A licensed individual whose next renewal date occurs less than 12 months after the license is issued will be required to earn continuing education hours equivalent to one hour per month each month the license is issued or reinstated to the last day of the renewal month up to a maximum of 10 clock hours.

(2) Any approved continuing education hours accrued prior to receiving a license during the year the license is issued can be applied toward the continuing education requirements.

C. Any person licensed as both a speech-language pathologist and an audiologist or hearing aid dispenser must fulfill the requirements of 20 clock hours of continuing education every two years in each field in which the licensee is licensed.

[2/5/1980; 8/4/1981; 11/9/1996; 16.26.5.9 NMAC - Rn & A, 16 NMAC 26.5.9, 2/3/2006; A, 11/29/2008; A, 11/28/2017]

16.26.5.10 CRITERIA APPLYING TO OFFER CONTINUING EDUCATION OPPORTUNITY:

A. The board or board office will approve professional education activities sponsored or approved by a national or state professional association of speech-language pathologists, audiologists and hearing aid dispensers.

B. All other proposed educational programs or seminars must be submitted to the board office prior to approval.

C. Requests must be submitted in writing with appropriate fees to the board office at least 60 days prior to the program. The board office shall give written notice of the approval or disapproval of the educational program or seminar within 30 days of receiving the application.

D. The individual/organization requesting approval of an educational seminar or course must provide the board office with the following material:

(1) name of the seminar or course;

- (2) sponsor;
 - (3) objective of the seminar or course;
 - (4) format and subjects of seminar or course;
 - (5) number of clock hours of study or continuing education units;
 - (6) method of verification of attendance or completion of self study program;
- and
- (7) name and qualifications of faculty or institution material.

16.26.5.11 CONTINUING EDUCATION VERIFICATION:

The board shall audit a percentage of renewal applications each year to verify the continuing education requirement. The licensee should maintain a file that includes the continuing education course documentation up to two years.

A. If a NOTICE OF AUDIT letter is received with the annual renewal form, evidence of continuing education hours earned during the last two years must be submitted to the board as requested by this rule.

B. If the licensee is NOT AUDITED, the licensee will have to sign an affidavit attesting to the completion of the required hours of continuing education and all documentation of attendance and agendas should be retained by the licensee for a minimum of two years immediately preceding the current renewal.

C. The board reserves the right to audit continuing education attendance certificates whenever there is reasonable doubt the courses submitted, dates, or hours may be incorrect.

D. Beginning January 30, 2009 the board will no longer allow carry over hours.

16.26.7.6 OBJECTIVE:

The objective of Part 7 is to set forth the grounds for disciplinary action which may subject an applicant or licensee to disciplinary action by the board.

[11/7/1998; 16.26.7.6 NMAC - Rn, 16 NMAC 26.7.6, 2/3/2006]

16.26.7.7 DEFINITIONS:

"Disqualifying criminal conviction" has the same meaning as defined in Subsection E of Section 61-1-36 NMSA 1978.

[16.26.7.7 – N, 2/10/2022]

16.26.7.8 DISCIPLINARY GROUNDS AND DENIAL OF LICENSURE:

In accordance with the provisions of the Uniform Licensing Act, the board may take disciplinary action if the board determines that the applicant or licensee has violated the Speech-Language Pathology, Audiology and Hearing Aid Dispensing Practices Act or the board's rules. The following may subject the applicant or licensee to disciplinary action by the board.

A. Engaging in unprofessional conduct: Unprofessional conduct includes, but is not limited to, the following:

(1) violations of the principles of ethics or the ethical proscriptions as set forth in board regulations concerning its Code of Ethics (16.26.9 NMAC);

(2) for an audiologist or dispensing otorhinolaryngologist to accept a case referred from a hearing aid dispenser and not return the case to the referring professional unless the person seeking the hearing aid refuses to return to the referring professional or if the professional determines, using his best professional judgement, the return of the case would not be in the person's best medical or audiological interest.

B. Engaging in acts that constitute incompetence: Incompetence includes, but is not limited to, the following:

(1) failure to possess the knowledge, apply the skill or provide the care required by generally accepted standards of the professions of speech-language pathology, audiology or hearing aid dispensing; or

(2) violation of the principles of ethics II or the ethical proscriptions thereunder as set forth in board regulations relating to professional competence (Subsections D and E of 16.26.9.8 NMAC);

(3) a finding of incompetence may be based upon a single act or omission of competence or upon a course of conduct or series of acts or omissions which extend over a period of time and which, taken as a whole, demonstrate incompetence.

C. Aiding or abetting the practice by a person not licensed by the board. Aiding or abetting the practice of speech language pathology by a person not licensed by the board includes, but is not limited to, the following:

(1) A licensee shall not authorize or otherwise permit a speech language paraprofessional or assistant working under his or her supervision to diagnose, conduct diagnostic testing, interpret diagnostic testing, develop a plan of care or deviate from a plan of care.

(2) A licensee shall ensure that a speech language paraprofessional or assistant working under his or her supervision follows the plan of care.

(3) A licensee shall not authorize or otherwise permit an apprentice in speech-language pathology working under his or her supervision to conduct any of the duties set forth in Subsection E of 16.26.2.18 NMAC of the boards rules and shall ensure that the apprentice only engages in those duties authorized in Subsection D of 16.26.2.18 NMAC of the boards rules.

D. Failing to deliver to any person supplied with a hearing aid a receipt which contains the following information:

- (1)** licensee's license number and signature;
- (2)** the sponsor's/supervisor's signature approving of the fitting if the seller is a clinical fellow, graduate student or trainee;
- (3)** address of the licensee's regular place of business;
- (4)** make and model of the hearing aid;
- (5)** full financial terms of the sale;
- (6)** statement as to whether the hearing aid is new, used or reconditioned;
- (7)** statement that the purchaser was advised that the licensee was not a licensed physician and that the examination and recommendation was made as a hearing aid dispenser, audiologist, clinical fellow, trainee or graduate student and not as a medical diagnosis or prescription;
- (8)** terms of guarantee, if any.
- (9)** hearing aid options that can provide a direct connection between the hearing aid and assistive listening systems.

E. Convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

- (1)** homicide or manslaughter;
- (2)** trafficking, or trafficking in controlled substances;
- (3)** human trafficking, kidnapping, false imprisonment, use of force or threats of force against school employees or healthcare workers, arson, aggravated assault or aggravated battery;
- (4)** rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, failure to register as a sex offender, or other related felony sexual offenses;
- (5)** crimes involving adult abuse, neglect or financial exploitation;
- (6)** crimes involving child abuse or neglect;

(7) crimes involving robbery, larceny, extortion, burglary, bribery, fraud, tax fraud or evasion, forgery, embezzlement, credit card fraud, misuse of public funds or benefits, making false statements, offering or soliciting an illegal kickback or government action, tampering with public records, perjury;

(8) escape from a custody or possession of deadly weapons in custody;

(9) practicing healthcare without a license;

(10) an attempt, solicitation, or conspiracy involving any of the felonies in this subsection.

F. The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection E of this rule.

G. The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

H. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Speech-Language Pathology, Audiology, and Hearing Aid Dispensing Practices Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

I. In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

(1) an arrest not followed by a valid conviction;

(2) a conviction that has been sealed, dismissed, expunged or pardoned;

(3) a juvenile adjudication; or

(4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

November 7, 1998, unless a later date is cited at the end of a section.

[11/7/1998; 16.26.8.5 NMAC - Rn & A, 16 NMAC 26.8.5, 2/3/2006]

16.26.8.6 OBJECTIVE:

The objective of Part 8 is to set forth procedures for filing complaints against applicants and licensees and the procedures for the board to follow in processing complaints.

[11/7/1998; 16.26.8.6 NMAC - Rn, 16 NMAC 26.8.6, 2/3/2006]

16.26.8.7 DEFINITIONS:

A. "Complaint" means a complaint filed with the board against an applicant for licensure or against a licensee.

B. "Complainant" means the party who files a complaint against a licensee or an applicant for licensure.

C. "Respondent" means the applicant for licensure or the licensee who is the subject of the complaint filed with the board.

D. "Hearing" means the formal process whereby the respondent is afforded the opportunity to be heard by the board, or its designated hearing officer, before the board takes action which might result in the disciplinary action against the respondent's application for licensure or license to practice speech-language pathology, audiology or hearing aid dispensing.

E. "Violation" means a violation of the Speech-Language Pathology, Audiology and Hearing Aid Dispensing Practices Act or the rules and regulations duly adopted by the board.

F. "Notice of contemplated action" or "NCA" means the administrative process provided for by the Uniform Licensing Act whereby the respondent is notified of the boards intent to take action based upon the alleged violations of practice and whereby the respondent is afforded the opportunity for a hearing before the board.

G. "License revocation" means to prohibit the conduct authorized by the license.

H. "License suspension" means to prohibit, for a stated period of time, the conduct authorized by the license.

I. "License restricted subject to conditions" means to allow the conduct authorized by the license for a stated period of time, subject to conditions that are reasonably related to the grounds for disciplinary action.

[11/7/1998; 16.26.8.7 NMAC - Rn, 16 NMAC 26.8.7, 2/3/2006; A, 11/28/2017]

16.26.8.8 COMPLAINTS:

The disciplinary process may be instituted by a complaint on a board approved form by any person, including board members and board staff.

[11/7/1998; 16.26.8.8 NMAC - Rn, 16 NMAC 26.8.8, 2/3/2006]

16.26.8.9 INVESTIGATION:

Upon receipt of the complaint, the board will cause an investigation to be made into the subject complaint by the board's disciplinary committee.

[11/7/1998; 16.26.8.9 NMAC - Rn, 16 NMAC 26.8.9, 2/3/2006; A, 11/28/2017]

16.26.8.10 DISCIPLINARY COMMITTEE:

The disciplinary committee is formed for the purpose of investigating disciplinary matters referred to it by the board. The board chairperson shall appoint a member or members of the board to the disciplinary committee.

A. The disciplinary committee shall review all documentation provided to it in reference to the subject complaint.

B. The disciplinary committee may provide the respondent with a copy of the complaint and allow a reasonable time for the respondent to respond to the allegations in the complaint.

C. The foregoing notwithstanding, the disciplinary committee will not be required to provide the respondent with notice of the complaint filing, or a copy of the complaint, or any related investigatory evidence prior to the notice of contemplated action, if the committee determines that disclosure may impair, impede, or compromise the efficacy or integrity of the investigation.

D. The disciplinary committee may employ an investigator or other persons determined to be necessary in order to assist in the processing and investigation of the complaint.

E. Upon completion of its investigation, the disciplinary committee shall submit to the board its proposed recommendations concerning the proper disposition of the subject complaint.

F. Upon review the board shall vote upon the proposed recommendations and either uphold, reverse, or modify the disciplinary committee recommendations.

G. Disciplinary committee members who participate in the preparation of recommendations to the remaining board members shall not participate further in any actions initiated by the board against the licensee or applicant who is the subject of the complaint.

H. If the board determines that it lacks jurisdiction, or that there is insufficient evidence or cause to issue a notice of contemplated action, the board may vote to dismiss or close the complaint.

I. If the board determines that there is sufficient evidence or cause to issue a notice of contemplated action, it may vote to refer the complaint to the attorney general's office for possible prosecution in accordance with the provisions contained in the Uniform Licensing Act.

J. The board may take any other action with regard to the complaint which is within its authority and which is within the law, including referring the complaint to the attorney

general and/or the district attorney for prosecution of persons alleged to be practicing without a valid license.

[11/7/1998; 16.26.8.10 NMAC - Rn, 16 NMAC 26.8.10, 2/3/2006; A, 1/29/2015; A, 11/28/2017]

16.26.8.11 PRIVATE CAUSE OF ACTION:

Neither the action nor inaction by the board on any complaint shall preclude the initiation of any private cause of action by the complainant.

[11/7/1998; 16.26.8.11 NMAC - Rn, 16 NMAC 26.8.11, 2/3/2006]

16.26.8.12 DISCIPLINARY ACTION:

In accordance with the Uniform Licensing Act, the board has authority to impose penalties in disciplinary matters and may deny, revoke, suspend or impose conditions on a license. The Uniform Licensing Act allows discipline in many forms including but not limited to fines, letters of reprimand, corrective action plans, suspension, and revocation of license.

A. Formal letter of reprimand: The board shall have discretionary authority to issue formal letters of reprimand or warning instead of revocation or suspension. Issuance of formal letters of reprimand shall be subject to the provisions of the Uniform Licensing Act and shall be matters of public record.

B. Notice of Contemplated Action: The board may issue a notice of contemplated action (NCA) when appropriate.

C. Prehearing motions: The board may appoint a hearing officer to decide non-dispositive motions filed prior to a hearing. Until such time as the board appoints a hearing officer, the chair of the board shall serve as hearing officer.

D. Settlement agreements: Following the issuance of a notice of contemplated action, the board may enter into a settlement agreement with the respondent as a means of resolving a complaint.

E. Costs of disciplinary proceedings: Licensees or applicants shall bear all costs of disciplinary proceedings unless they are excused by the board from paying all or part of the fees, or if they prevail at the hearing and an action in Section 61-1-3 NMSA 1978 of the Uniform Licensing Act is not taken by the board.

F. Uniform licensing provisions: In accordance with Subsection G of Section 61-1-7 NMSA 1978 of the Uniform Licensing Act, a licensee who directly or through an agent intimidates, threatens, injures or takes any adverse action against a person for providing information to the board shall be subject to disciplinary action.

G. License returned to the board: Any license, renewal license or temporary permit issued by the board must be returned to the board subsequent to revocation or suspension. Unless otherwise ordered by the board, a licensee or permit holder whose license has been suspended or revoked must return the license or permit to the board no later than 30 days from receipt of a final order of suspension or revocation.

H. Federal fraud and abuse data bank: As required by federal law, final adverse disciplinary actions taken by the board against applicants or licensees will be reported to the federal health care integrity and protection data bank (or its successor data bank), which was established by the enactment of the Federal Health Insurance Portability and Accountability Act of 1996.

16.26.9.7 DEFINITIONS:

[RESERVED]

16.26.9.8 CODE OF ETHICS:

A. The purpose of the Code of Ethics is to preserve high standards of integrity and ethical principles in the discharge of obligations to the public by the professions of speech-language pathologists, audiologists and hearing aid dispensers. Every individual who practices as a licensed speech-language pathologist, audiologist or hearing aid dispenser shall abide by the Code of Ethics. Any action that violates the Code of Ethics is to be considered unethical and subject to disciplinary action by the board. Failure of the code to specify any particular responsibility or practice is not to be construed as a denial of the existence of a responsibility or practice in that area. The rules of ethics are specific statements of minimally acceptable professional conduct or of prohibitions and are applicable to all licensed individuals. The fundamental rules of ethical conduct as they relate to responsibility to the public are described in three categories, principles of ethics, ethical proscriptions and matters of professional propriety.

(1) Principles of ethics: Six principles serve as a basis for the ethical evaluation of professional conduct and form the underlying moral basis for the Code of Ethics. Licensed individuals subscribing to this code shall observe these principles as affirmative obligations under all conditions of professional activity.

(2) Ethical proscriptions: Ethical proscriptions are formal statements of prohibitions that are derived from the principles of ethics.

(3) Matters of professional propriety: Matters of professional propriety represent guidelines of conduct designed to promote the public interest and thereby better inform the public and particularly the persons in need of service by the speech-language pathologist, audiologist and hearing aid dispenser as to the availability and the rules governing the delivery of these services.

B. Principles of ethics 1: Individuals shall honor their responsibility to hold paramount the welfare of the persons they serve professionally.

(1) Licensed individuals shall use every resource including referral to other specialists as needed, to ensure that high quality service is provided.

(2) Licensed individuals shall fully inform the persons they serve of the nature and possible effects of the services rendered and products dispensed.

(3) Licensed individuals shall fully inform subjects participating in research or teaching activities of the nature and possible effects of these activities.

(4) Licensed individuals shall evaluate the effectiveness of services rendered and of products dispensed and shall provide services or dispense products only when benefit can reasonably be expected.

(5) Licensed individuals shall maintain adequate records of professional services rendered and products dispensed and shall provide access to those records when appropriately authorized.

(6) Licensed individuals shall use persons in research or as subjects of teaching demonstrations only with their fully informed consent.

(7) Licensed individuals' fees shall be commensurate with services rendered.

(8) Licensed individuals shall take all reasonable precautions to avoid injury to persons in the delivery of professional services.

(9) Licensed individuals whose services are adversely affected by substance abuse or other health-related conditions shall seek professional assistance and, where appropriate, withdraw from the affected area of practice.

C. Ethical proscriptions:

(1) Licensed individuals shall not discriminate in the delivery of professional services on the basis of race or ethnicity, gender, age, religion, national origin, sexual orientation, or disability.

(2) Licensed individuals shall not guarantee the results of any treatment, procedure, or product, directly or by implication; however, they may make a reasonable statement of prognosis. Caution must be exercised not to mislead any person served professionally to expect results that cannot be predicted from sound evidence.

(3) Licensed individuals must not evaluate, treat, or dispense except in a professional relationship.

(4) Licensed individuals shall not evaluate, treat, or dispense solely by correspondence. This does not preclude follow-up correspondence with persons previously served, nor providing them with general information of an educational nature.

(5) Licensed individuals shall not reveal, without proper authorization any professional or personal information about the person served professionally, unless required to do so, or unless doing so is necessary to protect the welfare of the person or of the community.

(6) Licensed individuals must not charge for services not rendered.

(7) Licensed individuals must not exploit any person in the delivery of professional services, including accepting persons for treatment when benefit cannot reasonably be expected or continuing treatment when it is no longer necessary.

D. Principles of ethics II: Licensed individuals shall maintain high standards of professional competence.

(1) Licensed individuals shall engage in those aspects of the professions that are within the scope of their licensed professional competence.

(2) Licensed individuals shall identify competent, dependable referral sources for persons served professionally.

(3) Licensed individuals shall insure that all equipment used in the provision of services is in proper working order and is properly calibrated.

(4) Licensed individuals shall continue their professional development.

(5) Licensed individuals shall possess appropriate qualifications for services provided.

E. Ethical proscriptions:

(1) Licensed individuals must not provide services by prescriptions from anyone who is not licensed pursuant to these regulations.

(2) Licensed individuals shall prohibit any of their staff from providing services that they are not licensed or qualified to perform.

(3) Licensed individuals must not require or delegate any service requiring professional competence and licensure of/to anyone who is not competent and licensed to engage in any practice that is a violation of the Code of Ethics.

(4) Licensed individuals must not offer clinical services by supportive personnel for whom they do not provide appropriate supervision and assume full responsibility.

(5) Licensed individuals shall not provide professional services without exercising independent professional judgement, regardless of referral source or prescription.

F. Principles of ethics III:

(1) Licensed individuals shall honor their responsibility to the public by providing accurate information in all communications involving any aspect of professional service rendered.

(2) Licensed individuals' statements to the public - advertising, announcing, and marketing their professional services and products - shall adhere to prevailing and acceptable professional standards.

(3) Licensed individuals' statements to the public shall provide accurate information about the nature and management of communication disorders, the products dispensed thereof, about the professions and about professional services.

G. Ethical proscriptions:

(1) Licensed individuals shall not misrepresent their credentials, competence, education, training, title, or experience.

(2) Licensed individuals shall not misrepresent diagnostic information, services rendered, or products dispensed, or artifice to defraud in connection with obtaining payment or reimbursement for such services or products.

(3) Licensed individuals must not make public statements regarding professional services and products that contain representations or claims that are false, deceptive or misleading.

(4) Licensed individuals must not use professional or commercial affiliations in any way that would mislead or limit services to persons served professionally.

H. Matters of professional propriety: Licensed individuals should announce services in a manner consistent with highest professional standards in the community.

I. Principles of ethics IV:

(1) Licensed individuals shall maintain objectivity in all matters concerning the welfare of persons served professionally. Licensees who dispense products to the public shall observe the following standards.

(a) Products associated with professional practice must be dispensed as a part of a program of comprehensive habilitative care.

(b) Fees established for professional services must be independent of whether a product is dispensed.

(c) Persons served shall be provided freedom of choice for the source of services and products.

(d) Price information about professional services rendered and products dispensed must be disclosed by providing or posting a complete schedule of fees and charges in advance of rendering services, which differentiates between fees for professional services and charges for products dispensed.

(e) Products dispensed to the person served must be evaluated to determine effectiveness.

(2) Any person who practices the sale or fitting of hearing aids shall deliver to any person supplied with a hearing aid, a receipt that shall contain:

(a) the licensee's signature, address of the regular place of business and license number; it shall also show the make and model of the hearing aid furnished along with the full terms of the sale clearly stated; if the hearing aid is not new, the receipt must clearly show whether the hearing aid is used or reconditioned, whichever is applicable in terms of any guarantee; the receipt shall also show that the purchaser was advised that the licensee was not a licensed physician and that the examination and recommendation was made as a hearing aid dispenser or fitter and not as a medical diagnosis or prescription; the receipt shall also include language stating that each prospective purchaser was informed at the time of the initial examination for possible sale and fitting of a hearing aid about hearing aid options that can provide a direct connection between the hearing aid and assistive listening systems in accordance with the latest standards for accessible design adopted by the United States department of justice in accordance with the federal Americans with Disabilities Act of 1990, as amended. Each licensee and purchaser must initial acknowledging that counseling for the above-mentioned options took place and that the purchaser was informed concerning these options, and whether the hearing aid(s) contain(s) a tele-coil or t-switch;

(b) the information regarding the trial period which shall be a minimum of 45 consecutive days; if the 45th day falls on a holiday, weekend, or a day the business is not open, the effective date shall be the first day the business reopens; full disclosure of the conditions of any offer of a trial period with a money back guarantee or partial refund; a trial period shall not include any time that the hearing aid is in the possession of the dispenser or the manufacturer; any extension of the 45-day refund period must be in writing and submitted to the client;

(c) shall also include the name, address, and telephone number of the speech language pathology, audiology and hearing aid dispensing practices board in the event a complaint needs to be filed.

(3) Any purchaser of a hearing instrument shall be entitled to a refund of the purchase price advanced by purchaser for the hearing instrument, less the agreed-upon amount associated with the trial period, upon return of the instrument to the licensee in good working order within the trial period. Should the order be canceled by purchaser prior to the delivery of the instrument, the licensee may retain the agreed-upon charges and fees as specified in the written contract. The purchaser shall receive the refund due no later than the 30th day after the date on which the purchaser cancels the order or returns the hearing instrument to the licensee.

J. Ethical proscriptions:

(1) Licensed individuals must not participate in activities that constitute a conflict of interest.

(2) Licensed individuals must not directly or indirectly give or offer to give money or anything of value to any person who advises another person in a professional capacity as an inducement to influence them or have them influence others to purchase or contract to purchase products sold or offered for sale by the licensee, or to refrain from dealing in the products of competitors.

K. Matters of professional propriety:

(1) Licensed individuals should not accept compensation for supervision or sponsorship from a supervised or sponsored individual.

(2) Individuals should present products they have developed to their colleagues in a manner consonant with highest professional standards.

L. Principles of ethics V: Licensed individuals shall honor their responsibilities to the professions and their relationships with members of allied professions.

M. Matters of professional propriety:

(1) Licensed individuals should seek to provide and expand services to persons with speech, language and hearing handicaps as well as assist in establishing high professional standards for such programs.

(2) Licensed individuals should educate the public about speech, language and hearing processes and handicaps, and matters related to professional competence.

(3) Licensed individuals should strive to increase knowledge within the professions and share research with colleagues.

(4) Licensed individuals should establish harmonious relations with colleagues and members of other professions and endeavor to inform members of the related professions of services provided by speech-language pathologists, audiologists and hearing aid dispensers.

(5) Licensed individuals should assign credit to those who have contributed to a publication in proportion to their contribution.

N. Principles of ethics VI:

(1) Licensed individuals shall uphold the dignity of the professions and freely accept the professional self imposed standards.

(2) Licensed individuals who have reason to believe that the Code of Ethics has been violated shall inform the board.

(3) Licensed individuals shall cooperate fully with the board in any investigation and adjudication of matters of professional conduct related to this Code of Ethics.

O. Principles of Ethics VII: Licensed audiologists and hearing aid dispensers shall, at the time of the initial examination for possible sale and fitting of a hearing aid if a hearing loss is determined, inform each prospective purchaser about hearing aid options that can provide a direct connection between the hearing aid and assistive listening systems in accordance with the latest standards for accessible design adopted by the United States department of justice in accordance with the federal Americans with Disabilities Act of 1990, as amended.

16.27.19.8 SUPERVISEE'S WELFARE AND RIGHTS:

A. Supervisors shall instruct supervisees to notify clients that they are being supervised and that observation or recordings of the session may be reviewed by the supervisor.

B. Supervisors who are licensed counselors and therapists and are conducting supervision to aid a supervisee to become licensed shall instruct the supervisee not to communicate or in anyway convey to the supervisee's clients or to other parties that the supervisee is licensed as independent practitioners.

C. Supervisors shall instruct supervisees of clients' rights, including protecting clients' right to privacy and confidentiality in the counseling and therapy relationship and

the information resulting from it, and to notify clients that their right to privacy and confidentiality will not be violated by the supervisory relationship.

D. Records of the counseling and therapy relationship, including interview notes, test data, correspondence, the electronic storage of these documents, and audio and videotape recordings are considered to be confidential professional information. Supervisors shall assure that these materials are used in counseling/therapy, research, and training and supervision of counselors and therapists with the full knowledge of the client and that permission to use these materials is granted by the applied counseling setting offering service to the client. This professional information is to be used for the full protection of the client.

E. Written consent from the client (or legal guardian, if a minor) shall be secured prior to the use of such information for instructional, supervisory, or research purposes. Policies of the applied counseling setting regarding client records also shall be followed.

F. Supervisors shall adhere to current professional and legal guidelines when conducting research with human participants.

G. Supervisors are responsible for making every effort to monitor both the professional actions, and failures to take action, of their supervisees.

H. Supervised clinical client contact hours shall not exceed 40 hours per week.

[16.27.19.8 NMAC- Rp, 16.27.19.8 NMAC, 11/30/2021]

16.27.19.9 SUPERVISORY ROLE:

A. The primary obligation of supervisors is to train counselors and therapists so that they respect the integrity and promote the welfare of the client. Inherent and integral to the role of supervisor are responsibilities for:

- (1)** monitoring client welfare;
- (2)** encouraging compliance with relevant legal, ethical, and professional standards for clinical practice;
- (3)** monitoring clinical performance, qualifications and professional development of supervisees;
- (4)** evaluating and certifying current performance and potential of supervisees for academic, screening, selection, placement, employment, and credentialing purposes;
- (5)** tracking supervisee's professionalism and ethical conduct; and

(6) documentation to include a supervisory agreement and a supervision log to include notes

B. Supervisors shall obtain and maintain the supervisor designation issued by the board prior to initiating their role as supervisors.

C. Supervisors shall inform their supervisees of professional and ethical standards and legal responsibilities of the counseling and therapy profession.

D. Supervisors of postgraduate counselors and therapists who are seeking state licensure should encourage these counselors and therapists to adhere to the standards for practice established by the state licensure board of the state in which they practice.

E. Procedures for contacting the supervisor, or an alternative supervisor, to assist in handling crisis situations shall be established and communicated to supervisees.

F. Actual work samples via session process notes, audio or video tape or live observation in addition to case notes shall be reviewed by the supervisor as a regular part of the ongoing supervisory process.

G. Supervisors shall meet regularly in face-to-face or virtual sessions with their supervisees.

H. Supervisors shall provide supervisees with ongoing feedback on their performance. This feedback should take a variety of forms, both formal and informal, and should include verbal and written evaluations. It should be formative during the supervisory experience and summative at the conclusion of the experience.

I. Supervisors who have multiple roles (e.g., teacher, clinical supervisor, administrative supervisor, etc.) with supervisees shall minimize potential conflicts. Where possible, the roles should be divided among several and it should be conveyed to the supervisee as to the expectations and responsibilities associated with each supervisory role.

J. Supervisors shall not participate in any form of sexual contact with supervisees. Dual relationships with supervisees that might impair the supervisor's objectivity and professional judgment should be avoided and the supervisory relationship terminated.

K. Supervisors shall not establish a psychotherapeutic relationship as a substitute for supervision. Personal issues should be addressed in supervision only in terms of the impact of these issues on clients and on professional functioning.

L. Supervisors, through ongoing supervisee assessment and evaluation, should be aware of any personal or professional limitations of supervisees which are likely to impede future professional performance. Supervisors have the responsibility of recommending remedial assistance to the supervisee and of screening from the training

program, applied counseling setting, or state licensure those supervisees who are unable to provide competent professional services. These recommendations should be clearly and professionally explained in writing to the supervisees who are so evaluated.

M. Supervisors shall not endorse a supervisee for certification, licensure, completion of an academic training program, or continued employment if the supervisor believes the supervisee is impaired in any way that would interfere with the performance of counseling and therapy duties. The presence of any such impairment should begin a process of feedback and remediation wherever possible so that the supervisee understands the nature of the impairment and has the opportunity to remedy the problem and continue with their professional development.

N. Supervisors shall supervise clinical work only in areas where they are fully competent, and experienced.

O. Supervisors shall inform supervisees of the goals, policies, theoretical orientations toward counseling/therapy, training, and supervision model or approach on which the supervision is based.

P. Supervisors shall use the following prioritized sequence in resolving conflicts among the needs of the client, the needs of the supervisee, and the needs of the program or agency. Insofar as the client must be protected, it shall be understood that client welfare is usually subsumed in federal and state laws such that these statutes should be the first point of reference. Where laws and ethical standards are not present or are unclear, the good judgment of the supervisor shall be guided by the following list:

- (1) relevant legal and ethical standards (e.g. duty to warn, state child abuse laws, etc.);
- (2) client welfare;
- (3) supervisee welfare;
- (4) supervisor welfare; and
- (5) program or agency service and administrative needs.

Q. Supervised contact hours shall not exceed 40 hours per week.

(b) six continuing education unit hours pertaining to ethics in supervision in addition to the ethics continuing education unit hours required for license renewal; or

(c) evidence of holding a current supervision credential through the applicable national professional association;

(5) a copy of a current New Mexico license as one of the following credentials:

(a) licensed professional clinical counselor;

(b) licensed marriage and family therapist;

(c) licensed professional art therapist;

(d) licensed alcohol and drug abuse counselor;

(e) licensed clinical social worker;

(f) licensed independent social worker;

(g) licensed psychiatrist; or

(h) licensed psychologist

B. Supervisor certification will be valid for a period not to exceed 24 months. All certifications shall expire on September 30 of the renewal year. CEUs submitted for initial supervisor designation certification will qualify toward the renewal requirements for the applicant's individual professional license. Initial certifications may be issued for a period of less than 24 months in order to establish the certification in a renewal cycle.

C. Renewal of supervision certification must be completed by September 30 of the renewal year by submitting the following documentation to the board office:

(1) a complete renewal application available for download on the board's website or by completing the renewal online; and

(2) evidence of completing at least three continuing education unit hours specific to counseling and therapy supervision and six continuing education unit hours specific to ethics in supervision in addition to the ethics continuing education unit hours required for license renewal obtained during the current licensing period.

[16.27.20.7 NMAC - Rp 16 NMAC 27.17.7, 6-15-01]

16.27.20.8 PARENTAL RESPONSIBILITY ACT; DELEGATION OF AUTHORITY:

The authority of the New Mexico counseling and therapy practice board to issue a notice of contemplated action, to refer cases in which a notice of contemplated action has been issued for administrative prosecution, to hold hearings and issue decision and orders to any licensee or applicant for licensure whose name appears on the certified list issued by the New Mexico department of human services, as provided in Section 40-5A-1 NMSA 1978 et seq., may be delegated to the New Mexico regulation and licensing department. This section shall not be construed to deprive the board of its authority to issue a notice of contemplated action for any violation of the Parental Responsibility Act, to refer a case for administrative prosecution, hold a hearing or issue a decision and order for any violation of the Parental Responsibility Act.

[16.27.20.8 NMAC - N, 11/30/2021]

16.27.20.9 DISCIPLINARY ACTION:

If an applicant or licensee is not in compliance with a judgment and order for support, the board:

- A. shall deny an application for a license;
- B. shall deny the renewal of a license; and
- C. has grounds for suspension or revocation of the license.

[16.27.20.9 NMAC - Rn 16.27.17.8 NMAC, 11/30/2021]

16.27.20.10 CERTIFIED LIST:

Upon receipt of HSD's certified list of obligors not in compliance with a judgment and order for support, the board shall match the certified list against the current list of board licensees and applicants. Upon the later receipt of an application for license or renewal, the board shall match the applicant against the current certified list. By the end of the month in which the certified list is received, the board shall report to HSD the names of board applicants and licensees who are on the certified list and the action the board has taken in connection with such applicants and licensees.

[16.27.20.10 NMAC - Rn 16.27.17.9, 11/30/2021]

16.27.20.11 INITIAL ACTION:

Upon determination that an applicant or licensee appears on the certified list, the board shall:

A. commence a formal proceeding pursuant to 16.27.20.12 NMAC to take the appropriate action; or

B. For current licensees only, informally notify the licensee that the licensee's name is on the certified list, and that the licensee must provide the board with a subsequent statement of compliance from HSD by the earlier of the application for license renewal or a specified date not to exceed 30 or 60 days. If the licensee fails to provide this statement, the board shall commence a formal proceeding pursuant to Section 12 of 16.27.20 NMAC.

[16.27.20.11 NMAC - Rn & A, 16.27.17.10, 11/30/2021]

16.27.20.12 NOTICE OF CONTEMPLATED ACTION:

Prior to taking any action specified in Part 20, the board shall serve upon the applicant or licensee a written notice stating that:

A. The board has grounds to take such action, and that the board shall take such action unless the licensee or applicant:

(1) mails a letter (certified mail return receipt requested) within 20 days after service of the notice requesting a hearing; or

(2) provides the board, within 30 days of the date of the notice, with a statement of compliance from HSD;

B. If the applicant or licensee disagrees with the determination of non-compliance, or wishes to come into compliance, the applicant or licensee should contact the HSD child support enforcement division.

[16.27.20.12 NMAC - Rn 16.27.17.11, 11/30/2021]

16.27.20.13 EVIDENCE AND PROOF:

In any hearing under this Part 20, relevant evidence is limited to the following:

A. A statement of non-compliance is conclusive evidence that requires the board to take the appropriate action under 16.27.20 NMAC, unless:

B. The applicant or licensee provides the board with a subsequent statement of compliance, which shall preclude the board from taking any action based solely on the prior statement of non-compliance.

16.27.21.7 DEFINITIONS:

[RESERVED]

16.27.21.8 PROVISIONS FOR EMERGENCY LICENSURE:

A. An applicant affected in a federal disaster currently licensed as a counselor or therapist in another jurisdiction and is in good standing and otherwise meets the requirements for New Mexico licensure may be licensed in New Mexico during the four months following the declared federal disaster at no cost upon satisfying the following requirements:

- (1) be at least 21 years of age; and
- (2) applicant must sign a statement provided in the application indicating the applicant has read the code of ethics and agrees to be bound and governed by the code of ethics;
- (3) a completed application;
- (4) proof of identity, which may include a copy of a driver's license, passport or other photo identification issued by a governmental entity;
- (5) sworn affidavit statement that because of circumstance arising out of a declared area the applicant is unable to obtain proof documentation otherwise required by rules by the board;
- (6) refer to 16.27.4 NMAC, requirements for licensure as a professional clinical mental health counselor (LPCC);
- (7) refer to 16.27.6 NMAC, requirements for licensure as a marriage and family therapist (LMFT);
- (8) refer to 16.27.7 NMAC, requirements for licensure as a professional art therapist (LPAT);
- (9) refer to 16.27.8 NMAC, requirements for licensure as a professional mental health counselor (LPC);
- (10) refer to 16.27.10 NMAC, requirements for licensure as an alcohol and drug abuse counselor (LADAC); and
- (11) verification of current licensure or certification (no access to national database, board staff will verify).

B. The board may waive submission of the specific forms only if the applicant is unable to obtain the required document from an affected federally declared disaster area:

- (1) verification of supervised hours (attachment B);
- (2) official university transcripts;
- (3) attachment E (mental health clinical core curriculum), attachment D (marriage and family core curriculum), attachment F (art therapy core curriculum), attachment D (alcohol and drug education and training hours), and letters of reference for alcohol and drug abuse counselors.

C. Nothing in this section shall constitute a waiver of the requirements for licensure contained in 16.27.4 NMAC, 16.27.6 NMAC, 16.27.7 NMAC, 16.27.8 NMAC, and 16.27.10 NMAC.

D. Emergency licensure shall expire on September 30, unless renewed by the board. Application for renewal shall consist of the following:

- (1) completed application;
- (2) a 2"x 2" photograph of the applicant;
- (3) an application fee of \$75.00;
- (4) other documentation required in all parts of these rules, also to include but not limited to, documents regarding supervision, any additional training or coursework, work experience, and client contact hours;
- (5) official transcripts in a sealed envelope from each institution contributing to the applicant's master or doctoral degree; the transcript must be submitted with the application;
- (6) a statement from each supervisor in a sealed envelope on form attachment B, verifying the applicant's supervised experience and setting forth the nature and extend of such supervision must be submitted with the application;
- (7) completion of a core curriculum worksheet;
- (8) completion of training and education hours for alcohol and drug abuse counselors; and
- (9) letters of reference.

E. Examination: an applicant who has completed the educational and supervision requirements for licensure as a professional clinical mental health counselor (LPCC), professional marriage and family therapist (LMFT), professional art therapist (LPAT), professional mental health counselor (LPC), and alcohol and drug abuse counselor (LADAC), shall be required to pass the board approved examination(s).

[16.27.21.8 NMAC - N, 2/10/2006; A, 11/30/2021]

16.27.21.9 EMERGENCY LICENSE TERMINATION:

In accordance with the procedures established by the Uniform Licensing Act, 61-1-1 to 61-11-31 NMSA 1978, the board may deny, suspend or revoke a license held or applied for under the Counseling and Therapy Practice Act, and may fine or reprimand a

licensee or take any other action provided for in the Uniform Licensing Act, upon grounds that the licensee:

A. is guilty of fraud, deceit, or misrepresentation in procuring or attempting to procure any license provided for the counseling and therapy practice board;

B. failure to apply or renew for permanent licensure;

C. termination of an emergency license shall not preclude applicant from permanent licensure.

[16.27.22.5 NMAC - N, 2-10-06]

16.27.22.6 OBJECTIVE:

The objective of Part 10 is to state the minimum requirements for licensure by examination as an associate marriage and family therapist and list the documentation required for application.

[16.27.22.6 NMAC - N, 2/10/2006; A, 1/18/2023]

16.27.22.7 DEFINITIONS:

[RESERVED]

16.27.22.8 SUPERVISION:

A. Supervision must be provided by a licensed professional clinical mental health counselor (LPCC), licensed marriage and family therapist (LMFT), licensed professional art therapist (LPAT), licensed psychologist, licensed psychiatrist, licensed clinical social worker (LCSW), or licensed independent social worker (LISW) who holds a supervision designation issued by the Counseling and Therapy Practice Board.

B. It is the responsibility of the individual seeking supervision to assure the supervision is acceptable for the level of licensure. The relationship between the supervisor and the applicant must promote the development of skill and responsibility in the delivery of counseling or therapy services.

C. Client contact and supervision hours prior to being licensed will not be accepted for licensure.

D. Supervised contact hours will become invalid if obtained more than five years prior to submission for independent LPCC licensure. This requirement does not apply to license holders who have continuously maintained a license in good standing.

[16.27.22.8 NMAC - N, 2/10/2006; A, 11/30/2021]

16.27.22.9 LICENSED ASSOCIATE MARRIAGE AND FAMILY THERAPIST (LAMFT):

A. LAMFT is intended as a transition between the required degree and the completion of supervised training required for licensure as a marriage and family therapist. Work must be under appropriate clinical supervision. Applicants must assure that their education and experience are appropriate for the level of licensure. There is no time limit as a licensed associate marriage and family therapist, but all work at this level must be done under clinical supervision.

B. Qualifications for entry-level licensure by examination. An applicant for licensure by examination as an entry-level licensed associate marriage and family therapist (LAMFT) must possess the following qualifications:

- (1) be at least 21 years of age; and
- (2) applicant must sign a statement provided in the application indicating the applicant has read the code of ethics and agrees to be bound and governed by the code of ethics; and
- (3) hold a masters or doctoral degree in a counseling related field from an accredited institution; and
- (4) have arranged for appropriate clinical supervision, including a postgraduate experience plan, which includes one hour of face-to-face supervision for every five hours of client contact; and
- (5) meet the marriage and family clinical core curriculum.

[16.27.22.9 NMAC - N, 2/10/2006; A, 1/18/2023]

16.27.22.10 DOCUMENTATION REQUIRED:

A. a completed application as specified in 16.27.3.8 NMAC; and

B. the applicant is required to submit an official transcript in a sealed envelope from each institution contributing to the applicant's master or doctoral degree; the transcript may be submitted electronically directly by the issuing institution to the board's e-mail address, in their original and sealed envelope with the application, or mailed directly to the board office by the issuing institution. Applicants who have just graduated with an appropriate degree field, and whose degrees have not yet been conferred by their university, may submit the following documentation in while awaiting official transcripts to become available:

- (a)** A verification letter from a university official verifying
 - (i)** their degree program;
 - (ii)** that all courses have been completed and they have earned passing grades;
 - (iii)** their degrees will be conferred by the university; and
- (b)** a receipt verifying that they have ordered their transcripts to be sent to the board office once their degree is conferred; and

C. a statement from each supervisor in a sealed envelope on a form provided by the board (attachment C) verifying the applicant has arranged for appropriate clinical supervision, supervised experience and setting forth the nature and extent of such supervision must be submitted with the application; and

D. applicant must complete and meet the marriage and family core curriculum (form D); and

E. application fee of \$75.00 as provided for in Part 17.

[16.27.22.10 NMAC - N, 2/10/2006; A, 11/30/2021]

16.27.22.11 EXAMINATION:

Applicants must demonstrate professional competency by passing the American marital and family therapy regulatory board (AMFTRB) examination. Should the applicant fail the required examination three times, the board shall not issue another temporary license for that application for license. No prior clinical supervision or clinical hours shall be applied toward the reapplication for license. Upon passing the requisite examination, the applicant holding the temporary LAMFT shall be issued the LAMFT license so that the applicant may continue to practice under supervision and acquire the requisite clinical hours and supervision for the independent LMFT license.

16.28.1.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Signed Language Interpreting Practices Act, Section 61-34-1 through 61-34-17

[16.28.1.3 NMAC - N, 07/21/09]

16.28.1.4 DURATION:

Permanent.

[16.28.1.4 NMAC - N, 07/21/09]

16.28.1.5 EFFECTIVE DATE:

July 21, 2009 unless a later date is cited at the end of this section.

[16.28.1.5 NMAC - N, 07/21/09]

16.28.1.6 OBJECTIVE:

The objective of Part 1 is to set forth the provisions, which apply to all of Chapter 28, and to all persons affected or regulated by Chapter 28 of Title 16.

[16.28.1.6 NMAC - N, 7/21/09]

16.28.1.7 DEFINITIONS:

As used in these regulations, the following words and phrases have the following meanings, unless the context or intent clearly indicates a different meaning:

A. Definitions beginning with "A":

(1) **"Accredited"** means approved by the:

- (a) New England association of schools and colleges;
- (b) middle states association of colleges and secondary schools;
- (c) north central association of colleges and schools;
- (d) northwest association of schools and colleges;
- (e) southern association of colleges and schools; or
- (f) western association of schools and colleges.

(2) **"ACET"** refers to the associate continuing education tracking system within registry of interpreters for the deaf (RID).

(3) **"Act"** means the Signed Language Interpreting Practices Act, Section 61-34-1 through 61-34-17 NMSA 1978.

(4) **"Administrator"** or "board administrator" means the staff person assigned certain express or implied executive and administrative functions of the board as defined by board regulations or as required to carry out the provisions of the Signed Language Interpreting Practices Act.

16.28.3.17 LICENSE RENEWAL:

A. A licensee may renew a community signed language interpreter license or an educational signed language interpreter license every two years by:

(1) submitting a completed renewal application provided by the board that is accompanied by the required fees; and

(2) submitting the continuing education requirements as specified in 16.28.2.9 NMAC.

B. A licensee must complete the mandatory annual compliance review for a provisional interpreter license four consecutive times by:

(1) submitting a completed compliance review application provided by the board that is accompanied by the required fees; and

(2) submitting the continuing education requirements as specified in 16.28.2.9 NMAC.

C. If a community or educational license is not renewed by the expiration date, the license shall be considered expired, and the licensee shall refrain from practicing. The licensee may renew within a sixty-day grace period, which begins the first day the license expires, by submitting payment of the renewal fee and late fee and complying

with all renewal requirements. Upon renewal of the license, the licensee may resume practice.

D. If a provisional license does not complete the annual compliance review by the due date, the license shall be considered expired, and the licensee shall refrain from practicing. The licensee may complete the review within a 60-day grace period, which begins the first day the license expires, by submitting payment of the compliance review fee and late fee and complying with all compliance review requirements. Upon passing the compliance review, the licensee may resume practice.

E. Any person whose license has lapsed may apply to the board for reinstatement of the license.

(1) In making application for reinstatement of a provisional license, the applicant must state why the license should be reinstated and should specifically set forth an explanation of why the license lapsed and how changed circumstances would justify reinstatement. Documentation must be provided.

(2) Any licensed interpreter applying for reinstatement of a provisional license must submit an application fee as set forth in 16.28.6.8 NMAC and provide proof of attendance of continuing education hours as set forth in 16.28.2.9 NMAC for each year of lapse.

(3) Provisionally licensed interpreters will still be limited to a total of five years from the time the initial license was granted.

(4) Any licensed interpreters applying for reinstatement of a community or educational license who moved away from the state of New Mexico and maintained certification during the lapse shall be granted a license. Those who remained in the state of New Mexico must state why the license should be reinstates and should specifically set forth an explanation of why the license lapsed and how changed circumstances would justify reinstatement. Documentation must be provided.

(5) If the board approves the reinstatement application, the original license number will be issued to the applicant.

16.28.3.18 INACTIVE STATUS FOR PROVISIONAL LICENSEES:

A. A provisional licensee whose license is in good standing with the board may request their license to be placed on inactive status for the purpose of pursuing education or training that will assist the licensee in obtaining licensure as a community signed language interpreter or an educational signed language interpreter by meeting the following requirements.

(1) Complete, sign, and return the inactive status application form provided by the board, specifying the intent to be placed on inactive status.

(2) Submit verifications for the required number of continuing education hours.

(3) Return the application postmarked on or before the license expiration date.

B. Inactive status notification: Upon receipt of a duly and properly made application for inactive status, the board or its designee will review and approve the application and send the licensee written verification that the license has been placed on inactive status.

C. During the period of inactive status, the licensee is prohibited from practicing signed language interpreting in the state of New Mexico and must be actively working toward obtaining licensure as a community signed language interpreter or an educational signed language interpreter.

D. Reporting requirement: any licensee who has placed their license on inactive status must submit transcripts to the board by June 30 of every year as verification of the licensee's pursuit of education or training to obtain licensure.

E. Notification of intent to reactivate license: Any licensee who has placed their license on inactive status may, within five years from the official date their license was placed on inactive status, notify the board in writing of their desire to practice in New Mexico. The applicant shall provide the following information:

- (1) a New Mexico license number;
- (2) the applicants full name;
- (3) the applicants home address and phone number;
- (4) the date the applicant's license was originally issued;
- (5) the date the applicant's license was placed on inactive status;

F. Reactivation process: Upon receipt of the written request, the board shall place the licensee on active status once the licensee submits approved continuing education hours required for activation of their license.

[16.28.3.18 NMAC - N, 07/21/09; A, 6/18/2017]

16.28.3.19 EXEMPTIONS:

A. The Signed Language Interpreting Practices Act does not apply to:

(1) nonresident interpreters working in New Mexico less than thirty calendar days per year;

(2) interpreting in religious or spiritual settings;

(3) interpreting in informal settings for friends, families or guests;

(4) interpreting in emergency situations where the deaf, hard of hearing or deaf-blind person or that person's legal representative decides that the delay necessary to obtain a licensed interpreter is likely to cause injury or loss to the consumer;

(5) the activities or services of a supervised interpreter intern or student in training who is enrolled in an interpreter education program, interpreter preparation program, or a program of study in signed language interpreting at an accredited institution of higher learning approved by the board;

(6) multilingual interpreting in order to accommodate the personal choice of the consumer.

B. Nonresident interpreters must contact the board administrator via email prior to providing interpreting services in New Mexico, regardless of the number of hours of service they provide each time.

(1) Interpreters must provide the following for the purpose of tracking the number of days services are provided in New Mexico:

(a) Name.

(b) Address.

(c) Email Address.

(d) Credentials (a copy of their current RID card or other credential).

(e) Date(s) and city or cities in which services will be provided.

(2) This exemption is for interpreters living outside of New Mexico and providing occasional services within the state. It is not for use by interpreters in the process of moving to New Mexico temporarily or permanently.

C. Interpreter interns must contact the board administrator via email at the beginning of their internship period and provide the following:

(1) Name.

(2) Address.

- (3) Email address.
- (4) Institution at which they are enrolled.
- (5) Name of program internship coordinator.
- (6) Anticipated date of graduation.

16.28.3.20 LICENSE DENIAL, SUSPENSION, OR REVOCATION:

A. In accordance with procedures contained in the Uniform Licensing Act, Section 61-1-1 NMSA 1978, the board may deny, revoke or suspend a license held or applied for under the Signed Language Interpreting Practices Act, upon grounds that the licensee or applicant:

- (1) is guilty of fraud or deceit in procuring or attempting to procure a license;
- (2) is guilty of gross incompetence;
- (3) is guilty of unprofessional or unethical conduct as defined by rule of the board;
- (4) uses untruthful or misleading advertising;
- (5) is habitually or excessively using controlled substances or alcohol to such a degree the licensee or applicant is rendered unfit to practice as a signed language interpreter pursuant to the Signed Language Interpreting Practices Act;
- (6) has violated the Signed Language Interpreting Practices Act;
- (7) is guilty of aiding and abetting a person not licensed to practice signed language interpreting pursuant to the Signed Language Interpreting Practices Act; or
- (8) as evidenced by a certified copy of the record of jurisdiction, has had a license, certificate or registration to practice signed language interpreting revoked, suspended or denied in any state or territory of the United States for actions pursuant to this section.

B. Disciplinary proceedings may be initiated by a complaint of a person, including members of the board, and shall conform with the provisions of the Uniform Licensing Act.

C. A person filing a complaint shall be immune from liability arising out of civil action if the complaint is filed in good faith and without actual malice.

D. In the event that a community or educational license is issued in error and if the interpreter is qualified for a provisional license the permitted five years for the provisional license shall began at the time of the issuance of the improperly issued license.

E. In the event that an interpreter fails to maintain the certification qualifying them for the license they hold, they must inform the board immediately. Their license will automatically be revoked and must be relinquished until certification is restored.

F. An interpreter whose community of educational license has lapsed or has been revoked is not eligible for a provisional license.

[16.28.4.7 NMAC - N, 08/18/11; A, 3/27/2021]

16.28.4.8 COMPLAINTS:

The disciplinary process may be instituted by a complaint on a board approved form by any person, including board members and board staff.

[16.28.4.8 NMAC - N, 07/21/09; 16.28.4.8 NMAC - N, 08/18/11]

16.28.4.9 COMPLAINT PROCEDURES:

Inquiries regarding filing of complaints.

A. Inquiries made to the board or to a board member regarding a potential complaint will be referred to the board administrator for a response.

B. Upon receipt of an inquiry, the board administrator shall forward to the potential complainant a statement regarding the board's jurisdiction, the conduct or grounds for possible action by the board against a licensee or applicant, and a complaint form with instructions on how to file the complaint. Complaints should be submitted in writing on the prescribed form, signed and notarized, and state the facts upon which the complaint is based, however, oral complaints may be received and investigated. An oral complaint submitted to the board administrator shall be in an audio, visual or audiovisual format. After the complaint committee reviews the complaint facts and determines there is cause for further investigation, the board will have the complaint translated into written English and entered onto the form provided by the board, then present the transcription to the complainant for clarification and approval. Once approved, the complainant shall resubmit the signed, notarized complaint to the board administrator. Anonymous complaints will not be investigated, unless the board determines an exception is valid due to unusual circumstances.

C. Once a complaint is made, it will come under the provisions of this section and cannot be withdrawn.

[16.28.4.9 NMAC - N, 07/21/09; 16.28.4.9 NMAC - Rn & A, 16.28.4.8 NMAC, 08/18/11]

16.28.4.10 INVESTIGATION:

Upon receipt of the complaint, the board will cause an investigation to be made into the subject complaint by the board's standards of practice committee.

[16.28.4.10 NMAC - N, 7/21/2009; Repealed, 8/18/2011; 16.28.4.10 NMAC - N, 8/18/2011; A, 2/27/2022]

16.28.4.11 STANDARDS OF PRACTICE COMMITTEE:

The standards of practice committee is formed for the purpose of investigating disciplinary matters referred to it by the board. The board chairperson shall appoint a member or members of the board to the standards of practice committee.

A. The standards of practice committee shall review all documentation provided to it in reference to the subject complaint.

B. The standards of practice committee may provide the respondent with a copy of the complaint and allow a reasonable time for the respondent to respond to the allegations in the complaint.

C. The foregoing notwithstanding, the standards of practice committee will not be required to provide the respondent with notice of the complaint filing, or a copy of the complaint, or any related investigatory evidence prior to the notice of contemplated action, if the committee determines that disclosure may impair, impede, or compromise the efficacy or integrity of the investigation.

D. The standards of practice committee may employ an investigator or other persons determined to be necessary in order to assist in the processing and investigation of the complaint.

E. The standards of practice committee will have independent authority to direct the board administrator to contract for the services of such persons without prior approval of the board after the board administrator has determined budgetary availability for such services.

F. Upon completion of its investigation, the standards of practice committee shall submit to the board its proposed recommendations concerning the proper disposition of the subject complaint.

G. Upon review the board shall vote upon the proposed recommendations and either uphold, reverse, or modify the standards of practice committee recommendations.

H. Standards of practice committee members who participate in the preparation of recommendations to the remaining board members shall not participate further in any actions initiated by the board against the licensee or applicant who is the subject of the complaint.

I. If the board determines that it lacks jurisdiction, or that there is insufficient evidence or cause to issue a notice of contemplated action, the board may vote to dismiss or close the complaint.

J. If the board determines that there is sufficient evidence or cause to issue a notice of contemplated action, it may vote to refer the complaint to the attorney general's office for possible prosecution in accordance with the provisions contained in the Uniform Licensing Act.

K. The board may take any other action with regard to the complaint which is within its authority and which is within the law, including referring the complaint to the attorney general and the district attorney for prosecution of persons alleged to be practicing without a valid license.

[16.28.4.11 NMAC - N, 07/21/09; Repealed, 08/18/11; 16.28.4.11 NMAC - N, 08/18/11; A, 3/27/2021]

16.28.4.12 PRIVATE CAUSE OF ACTION:

Neither the action nor inaction by the board on any complaint shall preclude the initiation of any private cause of action by the complainant.

[16.28.4.12 NMAC - N, 08/18/11]

16.28.4.13 DISCIPLINARY ACTION:

In accordance with the ULA, the board has authority to impose penalties in disciplinary matters. The ULA allows discipline in many forms including but not limited to fines, letters of reprimand, corrective action plans, suspension, and revocation of license.

A. Formal letter of reprimand: The board shall have discretionary authority to issue formal letters of reprimand or warning instead of revocation or suspension. Issuance of formal letters of reprimand shall be subject to the provisions of the ULA and shall be matters of public record.

B. Prehearing motions: The board may appoint a hearing officer to decide non-dispositive motions filed prior to a hearing. Until such time as the board appoints a hearing officer, the chair of the board shall serve as hearing officer.

C. Settlement agreements: Following the issuance of a notice of contemplated action, the board may enter into a settlement agreement with the respondent as a means of resolving a complaint.

D. Costs of disciplinary proceedings: Licensees or applicants shall bear all costs of disciplinary proceedings unless they are excused by the board from paying all or part of the fees, or if they prevail at the hearing held pursuant to Section 61-1-3 NMSA 1978 of the ULA.

E. Uniform licensing provisions: In accordance with Subsection G of Section 61-1-7 NMSA 1978 of the ULA, a licensee who directly or through an agent intimidates, threatens, injures or takes any adverse action against a person for providing information to the board shall be subject to disciplinary action.

F. License returned to the board: Any license issued by the board must be returned to the board subsequent to revocation or suspension. The item(s) listed must be

returned in person or by certified mail no later than 30 days after the suspension or revocation order to the board.

G. DISQUALIFYING CRIMINAL CONVICTIONS: Convictions for any of the following offense, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving a retaining a license or certificate by the board.

E. "Consulting associate architect" means an architect who is acting in an advisory capacity to a registered architect, and whose present position is subordinate to the registered architect as described in Paragraph (1) of Subsection A of Section 61-15-8 NMSA 1978.

F. "Felony conviction" means conviction of a felony with a copy of the record of conviction, certified by the clerk of the court entering the conviction, serving as conclusive evidence.

G. "Gross negligence" means:

(1) being habitually guilty of neglect toward professional responsibilities in the practice of architecture as determined by the board; or

(2) being found extremely careless and lacking in ordinary care and concern in the practice of architecture; should the board not discipline an architect for a single act of gross negligence, the board does not waive the right to invoke sanctions against the architect for repeated acts of gross negligence.

H. "Incidental practice of architecture and engineering" means:

(1) architectural work incidental to engineering shall be that architectural work provided on projects with a building construction value not greater than six hundred thousand dollars (\$600,000) and having a total occupant load not greater than 50;

(2) engineering work incidental to architecture shall be that engineering work provided on projects with a building construction value not greater than six hundred thousand dollars (\$600,000) and having a total occupant load not greater than 50;

(3) all buildings and related structures within the regulatory provisions of the New Mexico Building Codes General, Title 14, Chapter 7 NMAC will require the proper authentication of the building construction documents by all participating disciplines in accordance with their respective governing acts on projects with a building construction value greater than six hundred thousand dollars (\$600,000) or having a total occupant load greater than 50, with the exception of:

(a) single-family dwellings not more than two stories in height;

(b) multiple dwellings not more than two stories in height containing not more than four dwelling units of wood-frame construction; provided this paragraph shall not be construed to allow a person who is not registered under the Architectural Act to design multiple clusters of up to four dwelling units each to form apartment or condominium complexes where the total exceeds four dwelling units on any lawfully divided lot;

(c) garages or other structures not more than two stories in height which are appurtenant to buildings described in Subparagraphs (a) and (b) above; or

(d) nonresidential buildings, as defined in the New Mexico Building Codes General, Title 14, Chapter 7 NMAC or additions having a total occupant load of 10 or less and not having more than two stories in height, which shall not include E-3 day care, H (hazardous) or I (institutional) occupancies;

(e) alterations to buildings or structures which present no unusual conditions, hazards or change of occupancy.

(4) the owner, user or using agency shall select the prime design professional (architect or engineer) for any project based on the requirements and nature of the project.

(5) occupant load shall be defined and determined by the method set forth in the current, adopted code.

I. "Incompetency" means:

(1) being adjudicated mentally incompetent by a court; or

(2) engaging in conduct which evidences a lack of knowledge, ability or fitness to discharge the duty and responsibility owed by the architect to a client and to the public in order to safeguard life, health and property and to promote public welfare.

J. "Intern architect" is a person who is actively pursuing completion of the requirements for diversified training in accordance with rules of the board.

K. "Misconduct" means:

(1) knowingly preparing or stamping construction documents in violation of applicable codes, laws or regulations;

(2) stamping and signing construction documents, specifications, reports or other professional work not prepared under the architect-of-record's responsible charge, as defined herein;

(3) engaging in any conduct involving fraud or deceit related to the business or practice of architecture;

(4) making any false statement or giving any false information in connection with an application for registration or for renewal of registration;

(5) being convicted of a crime related to the practice of architecture with a copy of the record of the conviction, certified by the clerk of the court entering the conviction, serving as conclusive evidence;

(6) violating federal or state statute or rule that directly relates to the practice of architecture;

(7) being unable to practice architecture with reasonable skill and safety to clients by reason of use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition;

(8) making any substantial misrepresentation in the course of practice including, but not limited to, false, misleading or deceptive advertising or fraudulent or misleading claims;

(9) using or altering material prepared by another person without the knowledge and consent of that person;

(10) using the professional seal of another person without the knowledge and consent of that person;

(11) engaging in conduct in conflict with the Code of Conduct for Architects (16.30.4 NMAC);

(12) engaging in conduct that the architect knows or should know through professional knowledge or experience is not within the acceptable standard for professional conduct that is ordinarily applied by architects of good standing practicing in the state of New Mexico or that is set forth in the board's Minimum Standards for the Practice of Architecture in New Mexico, (16.30.6 NMAC);

(13) violating the Architectural Act, Sections 61-15-1 through 13 NMSA 1978, the rules and regulations of the board, or the architectural laws of any other state or jurisdiction;

(14) incurring a prior disciplinary action in another state or jurisdiction based upon acts or conduct by the registrant which if committed in this state would subject the registrant to disciplinary action by the board; certified copies of the record of disciplinary action shall be conclusive evidence thereof; and

(15) failing to report to the board any adverse action taken against the registrant by the licensing board of another jurisdiction or the national council of architectural registration boards (NCARB) for acts or conduct that would constitute grounds for disciplinary action by the board.

(16) Knowingly allowing an unauthorized person to use the architect's seal.

L. "NCARB" means the national council of architectural registration boards.

M. "Practice of architecture" as defined in Section 61-15-2 NMSA 1978, means rendering or offering to render architectural services. "Offering to render" is defined as soliciting or executing architectural services as defined in Section 61-15-2 NMSA 1978.

N. "Project" means the building or a group of buildings and the space within the site surrounding the buildings as defined in the construction documents (Subsection H of Section 61-15-2 NMSA 1978). Architectural and engineering stamps are required for any subsequent and physically linked construction to a project which, when seen

together with the original construction, would have required architectural and engineering seals.

O. "Responsible charge" means that all architectural services have been or will be performed under the direction, guidance and restraining power of a registered architect who has exercised professional judgment with respect thereto. An architect's placing of the architect registration seal and signature on a document certifies that the architect has exercised direction, guidance and judgment on all issues pertaining to the health, safety and general welfare of the public, and accepts all legal responsibility for all architectural matters embodied within the document which shall meet the acceptable standards of architectural practice in the state of New Mexico as put forth by the board (Subsection I of Section 61-15-2 NMSA 1978).

P. "Signature" shall mean handwritten or electronic as follows:

(1) a handwritten identification that represents the act of putting one's name on a document to attest to its validity; the handwritten identification must be:

- (a) original and written by hand;
- (b) permanently affixed to the original document(s) being certified;
- (c) applied to the document by the identified registrant; or

(2) an electronic identification that is attached to or logically associated with an electronic document; the electronic identification must be:

- (a) unique to the person using it;
- (b) under the sole control of the registrant using it;
- (c) linked to a document in such a manner that the electronic identification is invalidated if any data in the document is changed.

16.30.2.13 BOARD RESPONSIBILITIES:

A. The board is responsible for providing oversight for all board functions.

B. The board shall appoint the director.

C. Publications:

(1) Roster: A roster showing the number and addresses of all registered architects shall be prepared by the board and made available or sold to the public in accordance with the Architectural Act, Subsection E of Section 61-15-5 NMSA 1978.

(2) Annual report: The chair shall submit an annual report to the governor and shall make that report available to all registrants and the public, through the board office, pursuant to Section 61-15-5 NMSA 1978.

(3) Architectural Act, rules and regulations: The board shall maintain current editions of the act that will be published as often as the board deems necessary. These shall be made available to all architects registered in the state of New Mexico and to all applicants applying for registration. In addition, notice shall be made to all registered architects when changes occur in the statutes or rules and regulations.

D. Upon the recommendation of the architectural education board member, the board may appoint a student observer to a one-year term to observe board meetings and act as a liaison to the student observer's college of architecture and other educational institutions. The student observer must be a full-time student in good standing who is studying architecture at an accredited college of architecture in New Mexico.

16.30.3.8 GENERAL QUALIFICATIONS:

A. The examination and reciprocity committee shall make its recommendations to the board regarding the qualifications of applicants for registration. A majority vote of the board shall be required in determining those applicants qualified for registration.

B. The applicant shall be of good character and repute. Factors that the board may consider under this qualification are:

(1) misstatement or misrepresentation of fact by the applicant in connection with his or her application;

(2) violation of any of the standards of conduct required by registration holders and set forth in the statutes or rules and regulations; or

(3) practicing architecture without a valid and current registration in the jurisdiction in which the practice took place; or

(4) Convictions for any of the following felony offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

(a) homicide or manslaughter;

(b) trafficking, or trafficking in controlled substances;

(c) kidnapping, false imprisonment, aggravated assault or aggravated battery;

(d) rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, or other related felony sexual offenses;

(e) crimes involving adult abuse, neglect or financial exploitation;

(f) crimes involving child abuse or neglect;

(g) crimes involving robbery, larceny, extortion, burglary, bribery, fraud, forgery, embezzlement, credit card fraud, misuse of public funds, violation of the procurement code, offering or soliciting an illegal kickback, tampering with public records, perjury, identity theft, or receiving stolen property;

(h) human trafficking;

(i) driving under the influence or driving while intoxicated;

(j) using a forged architectural registration seal pursuant to Subsection A of Sections 61-15-10, et. seq. NMSA 1978; or

(k) an attempt, solicitation, or conspiracy involving any of the felonies in this subsection.

(5) The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

(6) The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

(7) Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Architecture Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

(8) In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

(a) an arrest not followed by a valid conviction;

(b) a conviction that has been sealed, dismissed, expunged or pardoned;

(c) a juvenile adjudication; or

(d) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

C. Rules and procedures set out herein for obtaining registration in New Mexico apply equally to residents of the state and non-residents.

D. An oral interview before the board may be required of any applicant for New Mexico registration.

E. All applicants must pass the New Mexico architectural jurisprudence exam administered by the board. Failure to answer all questions may result in a failing grade. An applicant who has failed two successive architectural jurisprudence exams shall not be eligible to apply for architectural registration for a period of one year from the date of the last jurisprudence exam failed.

F. All registration and application fees are non-refundable.

[16.30.3.8 NMAC - Rp, 16.30.3.8 NMAC, 9/26/2023]

16.30.3.9 REGISTRATION THROUGH EDUCATION, TRAINING AND EXAMINATION:

A. Registration standards shall be in accordance with the standards of NCARB as described in the latest editions of the NCARB Certification Guidelines and the NCARB Education Guidelines.

B. Training requirements shall satisfy the NCARB standards of training. The applicant shall provide a NCARB architectural experience program AXP record number showing enrollment in AXP. The education standard shall be in accord with the NCARB guidelines as set forth in the latest edition of the NCARB certification guidelines, the NCARB education standard and AXP guidelines. Copies of the latest editions of the NCARB certification guidelines, the NCARB education standard and the AXP guidelines are available from the board office or NCARB.

C. Application for examination:

(1) Individuals applying for registration by examination shall request application forms from the board. The application, together with the application fee, shall be sent to the board office.

(2) Applications will be accepted at any time, for review and approval by the board. Approved examination candidates will schedule examinations with NCARB. The board may require applicants for examination to appear before it for a personal interview.

(3) To pass the architect registration examination (A.R.E.), an applicant must achieve a passing grade on each division as determined by NCARB. A passing grade for any division of the A.R.E., version 4.0 or later, shall remain valid pursuant to NCARB's score validity policy in effect at the time of application. Divisions of the examination, version 4.0 or later, that were considered expired prior to the adoption of NCARB's score validity policy shall be reinstated pursuant to NCARB's score validity policy in effect at the time of application. NCARB, in its discretion, may allow a reasonable extension of such period in circumstances where completion of all divisions is prevented by a medical condition, by active duty in military service or by other like causes.

(4) In case an applicant does not qualify for examination, for reason other than failure to submit a valid application, he or she shall be informed of the cause and apprised of his or her rights under the Uniform Licensing Act, Sections 61-1-1 through 31 NMSA 1978. Should the applicant subsequently meet the requirements for examination, he or she may resubmit the application.

D. Examination materials and results shall not be considered public records pursuant to Section 61-15-5 NMSA 1978. Nothing therein shall prevent the board from reporting an applicant's scores to the architectural registration boards in other jurisdictions or to the national council of registration boards (NCARB). The board shall give written notification to an applicant no later than 30 days after the board receives the results from NCARB.

E. Special provisions for examinees with disabilities:

(1) Any examinee requiring special examination provisions to accommodate a qualifying temporary or permanent disability as defined by the Americans with Disabilities Act, including any modification of the Architect Registration Examination administration process, must submit a written request for such provisions at least 90 days prior to the exam, including documentation justifying such request.

(2) The board shall have the right to solicit additional information within 30 days of such request. The examinee shall provide such additional information within 10 days following receipt of the board's request.

F. Upon receipt of a complete application and fee, board staff are authorized to approve and issue a registration to an applicant for whom no licensing issues are apparent from the application. Board staff shall consult with the enforcement subcommittee if disciplinary issues are present before issuing a registration. The board shall vote to ratify the issuance of all registrations issued by staff at the next regularly scheduled board meeting. In the event the board votes not to ratify a registration issued by board staff, the board shall pursue disciplinary action as required by the Uniform Licensing Act, and Section 61-15-12 NMAC 1978.

16.30.3.10 REGISTRATION THROUGH RECIPROCITY:

A. An individual who holds a current NCARB certificate and is seeking registration through reciprocity shall return a completed application and all fees to the board for processing. The application shall be valid for one year from the time the board receives it.

B. An individual currently registered as an architect in another jurisdiction who does not hold a current NCARB certificate may apply for a New Mexico architect license upon receiving an NCARB certification acquired through the alternative path to licensure for experienced professionals.

C. An individual who does not hold a current NCARB certificate and is seeking registration through reciprocity as a broadly experienced architect must hold a current and valid registration issued by the licensing authority of another jurisdiction and either: (1) hold a degree accredited by the national architectural accrediting board, pass the necessary examination, and successfully complete the architectural experience program (AXP) offered by NCARB; or (2) hold a position of responsibility for at least the previous five years in the jurisdiction(s) of licensure with no disciplinary action during that five-year period. The term "position of responsibility" shall mean a person in responsible charge as defined in Subsection N of 16.30.1.7 NMAC. The broadly experienced category applicant shall return to the board a completed application, on a form prescribed by the board, along with other pertinent documents and application fee. Each applicant shall provide the board evidence of academic training and work experience directly related to architecture and demonstrating minimum competence as described in 16.30.6 NMAC including but not limited to, evidence of training or experience in the following areas:

- (1) design and construction documents;
- (2) construction administration;
- (3) project management; and
- (4) architectural related activities.

D. Each applicant must attest on an affidavit that the applicant:

(1) has not performed or offered to perform, and will not perform or offer to perform, architectural services in the state of New Mexico until such time as the applicant becomes a New Mexico registered architect;

(2) is in good standing and has disclosed all requested information on disciplinary proceedings in any other jurisdiction; and

(3) has secured a copy and has read the Architectural Act, and the New Mexico board of examiners for architects rules and regulations, and agrees to comply with the same.

E. All applicants must pass a New Mexico architectural jurisprudence exam administered by the board. An applicant who has failed two successive architectural jurisprudence exams shall not be eligible to apply for architectural registration for a period of one year from the date of the last jurisprudence exam failed.

F. Applicants for registration through reciprocity shall present a certificate of good standing from a jurisdiction in which a current and valid registration is held.

G. Comprehensive design requirements: Applicants for registration through reciprocity shall present evidence satisfactory to the board of their qualification in comprehensive design.

H. The board may require an applicant for registration through reciprocity to appear before the board for a personal interview and to complete a written or oral examination.

I. The board shall review all applications on a case-by-case basis.

J. Upon receipt of a complete reciprocity application and fee, board staff are authorized to approve and issue a registration to an applicant for whom no licensing issues are apparent from the application. As necessary, board staff shall consult with the enforcement subcommittee prior to review by the examination and reciprocity committee if licensing issues are present before issuing a registration. When an application has apparent issues, or a denial is recommended, the application should be presented to the board prior to any staff approving and issuing a registration. The board shall vote to ratify the issuance of all registrations issue by staff at the next regularly scheduled board meeting. In the event the board votes not to ratify a reciprocity registration issued by board staff, the board shall pursue disciplinary action as required by the Uniform Licensing Act, Section 61-15-12 NMSA 1978.

[16.30.3.11 NMAC - Rp, 16.30.3.11 NMAC, 9/26/2023]

16.30.3.12 CONTINUING EDUCATION:

Architects registered in New Mexico will be required to show compliance with mandatory education requirements as a condition for renewing registration:

A. Purpose and scope:

(1) These rules provide for a continuing education program to insure that all architects remain informed of these technical subjects necessary to safeguard life, health, property, and promote the public welfare.

(2) Continuing education is post licensure learning that enables a registered architect to increase or update knowledge of and competence in technical and professional subjects related to the practice of architecture to safeguard the public's health, safety and welfare.

(3) These rules apply to all architects registered in New Mexico.

B. Definitions:

(1) "Continuing education hour" is one continuous instructional hour (minimum 50 minutes) spent in structured educational activities intended to increase or update the architect's knowledge and competence in health, safety and welfare subjects. If the provider of the structured educational activities prescribes a customary time for completion of such an activity, then such prescribed time shall, unless the board finds the prescribed time to be unreasonable, be accepted as the architect's time for continuing education hour purposes irrespective of actual time spent on the activity.

(2) "Health, safety and welfare in architecture" is anything that relates to the structure or soundness of a building or site or its role in promoting the health, safety or well-being of its occupants.

(3) "Health, safety and welfare subjects" are technical and professional subjects in continuing education that the board deems appropriate to protect the public and that are within the following enumerated areas necessary for the proper evaluation, design, construction and utilization of buildings and the built environment.

(a) Building systems: structural, mechanical, electrical, plumbing, communications, security, fire protection.

(b) Construction contract administration: contracts, bidding, contract negotiations.

(c) Construction documents: drawings, specifications, delivery methods.

(d) Design: urban planning, master planning, building designs, site design, interiors, safety and security measures.

(e) Environmental: energy efficiency, sustainability, natural resources, natural hazards, hazardous materials, weatherproofing, insulation.

(f) Legal: laws, codes, zoning, regulations, standards, life safety, accessibility, ethics, insurance to protect owners and public.

(g) Materials and methods: construction systems, products, finishes, furnishings, equipment.

(h) Pre-design: land use analysis, programming, site selection, site and soils analysis, surveying.

(i) Preservation: historic, reuse, adaptation.

(4) "Structured educational activities" are educational activities in which at least seventy-five percent of an activity's content and instruction time must be devoted to health, safety and welfare subjects related to the practice of architecture, including courses of study or other activities under the areas identified as health, safety and welfare subjects and provided by qualified individuals or organizations, whether delivered by direct contact or distance learning methods.

C. Requirements:

(1) In addition to all other requirements for registration renewal, an architect must complete a minimum of 12 continuing education hours each calendar year or be exempt from these continuing education requirements as provided below. Failure to complete these requirements may result in non-renewal of the architect's registration or other disciplinary action by the board. Architects shall be assessed an administrative fee of \$100.00 for each continuing education hour they fail to complete. In addition to the fee, the architect shall be required to make up the deficient health safety welfare continuing education hours within 60 days. A first violation of this provision shall not be reported as disciplinary action to NCARB. Two or more violations of this provision shall be reported as disciplinary action to NCARB. Special circumstances will be reviewed by the subcommittee at its discretion.

(2) Continuing education hours must be completed in health, safety and welfare subjects acquired in structured education activities. Continuing education hours may be acquired at any location, whether delivered by direct contact or distant learning methods. Excess continuing education hours may not be credited to a future renewal.

D. Activities: The following list shall be used by all registrants in determining the types of activities that would fulfill continuing education requirements:

- (1) continuing education hours in attendance at short courses or seminars dealing with architectural subjects and sponsored by academic institutions;
- (2) continuing education hours in attendance at technical presentations on architectural subjects which are held in conjunction with conventions or at seminars related to materials use and functions; such presentations as those sponsored by the American institute of architects, construction specifications institute, construction products manufacturers council or similar organizations devoted to architectural education may qualify;
- (3) continuing education hours in attendance at short courses or seminars related to new technology and offered by colleges, universities, professional organizations or system suppliers;
- (4) continuing education hours spent in self-study courses such as those sponsored by the national council of architectural registration boards, American institute of architects or similar organizations;
- (5) up to three preparation hours may be credited for each class hour spent teaching architectural courses or seminars; college or university faculty may not claim credit for teaching regular curriculum courses;
- (6) up to three continuing education hours spent in architectural research that is published or formally presented to the profession or public;
- (7) college or university credit courses dealing with architectural subjects; each semester hour shall equal 15 continuing education hours; a quarter hour shall equal 10 continuing education hours;
- (8) up to four continuing education hours in service to the public that is directly related to the practice of architecture in the area of health, safety and welfare.

E. Records and record-keeping:

- (1) A registered architect shall complete and submit forms prescribed or accepted by the board certifying to the architect's having obtained the required continuing education hours. Documentation of reported continuing education hours shall be maintained by the architect for three years from the date of award.
- (2) One continuing education hour shall represent a minimum of actual course time. No credit will be allowed for introductory remarks, meals, breaks or administrative matters related to courses of study.

(3) Failure to fulfill the continuing education requirements may result in non-renewal of an architect's certificate of registration and will result in the administrative or disciplinary actions set forth in Subsection C of this section. Certification of fulfillment of continuing education requirements without completion of the continuing education may result in disciplinary action.

(4) Any untrue or false statements or the use thereof with respect to course attendance or any other aspect of continuing education activity is fraud or misrepresentation and may subject the registrant to additional disciplinary action.

F. Initial registration by examination: An architect whose initial examination registration (not reciprocity) occurs less than 12 months from December 31st shall not be required to report continuing education hours for that calendar year. An architect whose initial examination registration occurs more than 12 months prior to December 31st shall be required to complete 12 continuing education hours within the final calendar year prior to renewal.

G. Reinstatement: Pursuant to Section 61-15-7 NMSA 1978, a former registrant may only apply for reinstatement and renewal of an expired certificate under 16.30.3.13 NMAC if delinquent continuing education hours are earned as required by Subparagraph (a) of Paragraph (3) of Subsection B of 16.30.3.11 NMAC, i.e. 12 continuing education hours each calendar year while registration is expired or be exempt from these continuing education requirements as provided below.

H. Exemptions: A registrant shall be deemed to have complied with the foregoing continuing education requirements if the architect attests in the required affidavit that for not less than 21 months of the preceding two-year-period of registration, the architect:

(1) has served honorably on active duty in the military service (exceeding 90 consecutive days); or

(2) is a government employee working as an architect and assigned to duty outside the United States, or outside the jurisdiction established by the national council for architectural registration boards.

I. The board may consider a hardship case under extenuating circumstances to modify the requirements established by these rules.

J. Audit: A number of registrants shall be selected at random to submit substantiating information to support their continuing education claim. If any credits are disallowed by the board, then the registrant shall have 60 calendar days after notification to substantiate the original claim or obtain other continuing education hours to meet the minimum requirements. Such continuing education hours shall not be used again in the next renewal cycle. Any registrant found to be non-compliant with the minimum continuing education hours requirement will result in the administrative or

disciplinary actions set forth in Subsection C of this section. Additional audits may be conducted at the board's discretion.

K. Non-compliance: Failure to comply with the requirements of this section shall result in non-renewal of registration and forfeit of the renewal fee.

16.30.3.14 RENEWAL OF AN EXPIRED CERTIFICATE:

A. A registrant whose license has expired for no more than one month shall be required to pay the registration fee and a late fee of fifty dollars (\$50).

B. A reinstatement applicant whose license has been expired for more than one month shall be required to:

(1) pay a registration fee and a penalty equal to one year's registration fee for each year expired but in no case shall the penalty exceed three times the annual registration fee;

(2) submit a signed and notarized reinstatement affidavit as provided by the board; and

(3) complete continuing education requirements as required by these rules; at the board's discretion, the former registrant may be required to present evidence to the board of continued proficiency, complete additional requirements, and appear personally before the board in order that the board may determine whether to renew the lapsed certificate.

C. Reinstatement of a certificate that has been lapsed for more than three years requires submittal of an NCARB certificate and required application forms as a new applicant.

[16.30.3.14 NMAC - Rp, 16.30.3.14 NMAC, 9/26/2023]

16.30.3.15 ARCHITECT EMERITUS:

Upon written request to the board, any architect registered in New Mexico may renew his or her registration as an architect emeritus for a biennial fee of twenty dollars (\$20.00) if the following requirements are met.

A. The registrant shall be 60 years of age or older and retired from the practice of architecture on the date of his or her registration renewal. Retired means that the architect no longer practices architecture in New Mexico and no longer stamps and certifies construction documents with his or her seal for projects located in New Mexico that are subject to the jurisdiction of the board.

B. The registrant shall have 10 years of continuous registration as an architect, five years as a registered architect in New Mexico, unless practicing under a specific exemption authorized by law.

C. In the event an architect emeritus wishes to reinstate a registration to practice architecture, the board may require proof of proficiency and the fulfillment of additional requirements deemed necessary, such as providing proof of continuous architectural registration elsewhere with the registration in good standing. Reinstatement of the license following the request to terminate an architect emeritus status shall include completion of continuing education requirements per Subsection B of 16.30.3.12 NMAC.

[16.30.3.15 NMAC - Rp, 16.30.3.15 NMAC, 9/26/2023]

16.30.3.16 DUPLICATE WALL CERTIFICATES:

The board may, after consideration of a written request from a registrant outlining the circumstances supporting the request, authorize the issuance of a duplicate wall certificate of registration. The fee for supplying such a certificate shall be thirty-five dollars (\$35).

[16.30.3.16 NMAC - Rp, 16.30.3.16 NMAC, 9/26/2023]

16.30.3.17 DISPLAY OF A CERTIFICATE OF REGISTRATION:

The board requires that each registrant shall display his or her certificate of registration in a conspicuous location in his or her primary place of business.

[16.30.3.17 NMAC - Rp, 16.30.3.17 NMAC, 9/26/2023]

16.30.3.18 INDIVIDUAL SEAL AND DOCUMENT IDENTIFICATION:

A. Registration seal specifications: Each architect registered in the state of New Mexico shall secure a registration seal of the following design: The seal shall have two concentric circles with the outer circle measuring one and three-quarter inches in diameter and the inner circle being one and one-quarter inches in diameter. The upper

portion of the annular space between the two circles shall bear the words "STATE OF NEW MEXICO" and the lower portion shall bear the words "REGISTERED ARCHITECT". The space enclosed by the inner circle shall bear the name of the architect and his or her registration number. In no event shall the seal contain more than one name of an architect. By placement of a seal and signature on a drawing, an architect verifies that his or her registration is valid and that he or she is practicing in accordance with the Architectural Act, Sections 61-15-1 through 13 NMSA 1978 and these rules and regulations.

B. Use of registration seal:

(1) Each original sheet of construction drawings and each cover sheet of specifications, submitted for permitting, and reports, prepared by or under the responsible charge of an individual architect, must bear the imprint of the seal with the signature of that architect and the date of the signature closely aligned to the seal. The name and address of the architect must also appear on the sealed page. A registrant may apply a seal, signature and date of signature by hand. A registrant may affix an electronically-generated seal, signature, and date of signature. An electronic signature may be utilized provided the registrant utilizes a secure method of affixation; the registrant does not authorize any other person to so affix; and the registrant and client have agreed to conduct transactions by electronic means. Drawings, reports or documents that are signed using an electronic signature shall employ an authentication procedure to ensure the validity of the electronic signature. Signature must satisfy requirements defined in 16.30.1.7 NMAC.

(2) As provided in the Architectural Act, Subsection A of Section 61-15-7 NMSA 1978, all plans, specifications, plats and reports prepared by an architect or under the architect's responsible charge shall be signed and sealed by that architect, including all plans and specifications prepared by the architect or under the architect's responsible charge on work described in project exemptions, under Section 61-15-9 NMSA 1978.

(3) Placing of multiple architectural seals on plans, specifications or reports shall not be permitted. The architect-of-record must seal, sign and date all construction drawings, specifications, and reports prepared by or under the supervision of that architect. In doing so, the architect-of-record assumes full responsibility for these documents.

(4) Reviewing, or reviewing and correcting, technical submissions after they have been prepared by others does not constitute the exercise of responsible charge because the reviewer has neither control over nor detailed knowledge of the content of such submissions throughout their preparation. Any registered architect signing or sealing technical submissions not prepared by that architect but prepared under the architect's responsible charge by persons not employed in the office where the architect is resident, shall maintain and make available to the board upon request for at least five years following such signing and sealing, adequate and complete records

demonstrating the nature and extent of the architect's control over and detailed knowledge of such technical submissions throughout their preparation. An exception is made for:

(a) architects who review, adapt, and seal prototypical projects provided that the project qualifies as a prototypical project meaning the original plans were designed by other architects, engineers or architects and engineers with the intent of being used in several diverse locations with local adaptations;

(b) a kit-of-parts that is a manufactured item and the New Mexico registered architect is not responsible for the components.

(5) Architectural and engineering seals are required for any subsequent and physically linked construction to a project which, when seen together with the original construction, would have required both seals.

(6) A legally applied seal and signature is a permanent part of construction documents and may not be removed for non-payment of fees or other civil action.

C. Assumption of projects:

(1) Sealed work: Prior to sealing, signing and dating work, a successor registered architect shall be required to notify the original architect, his successors, or assign, by certified letter to the last known address of the original registered architect, of the successor's intention to use or reuse the original registered architect's work. A successor registered architect must use his or her own title block, seal and signature and must remove the title block, seal and signature of the original architect before sealing, signing and dating any sealed construction drawings and specifications. The successor registered architect shall take full responsibility for the drawings as though they were the successor's original product.

(2) Unsealed work: When an architect assumes responsibility of an incomplete project, the following evaluation must occur before the architect can be said to have exhibited responsible charge over the project:

(a) Program: the architect shall meet with the client to assure that the client's needs are met.

(b) Codes: the architect shall assure that the project is in compliance with all federal, state, and local regulations.

(c) Coordination: the architect shall assure coordination with the other professionals in a project.

(d) Analysis: the architect shall assure the project meets all technical, aesthetic, and quality requirements and that site and environmental issues have been addressed.

(e) The architect of record who assumes the incomplete project shall be charged with keeping records of the project for five years.

D. Plan checking: Any authorized person checking documents for compliance with any applicable statutes, codes, ordinances, rules or regulations such as building codes, fire codes or zoning ordinances may "red-line" and list changes to meet such applicable statutes, codes, ordinances, rules and regulations, as this is not the practice of the profession. However, a person may not modify a professional document submitted for review unless that modification is supported by reference to an applicable code or standard. A non-registrant shall not modify, in any manner, a document embodying the discretion or judgment of a registrant without the express permission of the architect who is in responsible charge.

[16.30.4.5 NMAC - Rp, 16 NMAC 30.4.5, 9/6/2001]

16.30.4.6 OBJECTIVE:

The objective of this rule is to clearly outline the standards of conduct expected to be upheld by an individual registered as a New Mexico architect.

[16.30.4.6 NMAC - Rp, 16 NMAC 30.4.6, 9/6/2001]

16.30.4.7 DEFINITIONS:

[RESERVED]

[16.30.4.7 NMAC - Rp, 16 NMAC 30.4.7, 9/6/2001]

16.30.4.8 COMPETENCE:

A. In practicing architecture, an architect shall act with reasonable care and competence, and shall apply the technical knowledge and skill which is ordinarily applied by architects of good standing practicing in New Mexico.

B. In designing a project, an architect shall take into account all applicable state and municipal building laws, codes and regulations. While an architect may rely on the advice of other professionals, such as attorneys, engineers, and other qualified persons, as to the intent and meaning of such regulations, once having obtained such advice, an architect shall not knowingly design a project in violation of such laws, codes and regulations.

C. An architect shall undertake to perform professional services only when he or she, together with those whom the architect may engage as consultants, are qualified by education, training and experience in the specific technical areas involved.

D. No person shall be permitted to practice architecture if, in the board's judgment, such person's professional competence is substantially impaired by physical or mental disabilities.

[16.30.4.8 NMAC - Rp, 16 NMAC 30.4.8.1, 9/6/2001]

16.30.4.9 CONFLICT OF INTEREST:

A. An architect shall not accept compensation for services from more than one (1) party on a project unless the circumstances are fully disclosed to all interested parties in writing and agreed to in writing by all interested parties.

B. If an architect has any business association or direct or indirect financial interest which is substantial enough to influence his or her judgment in connection with the performance of professional services, the architect shall fully disclose in writing to his or her client or employer the nature of the business association or financial interest, and if the client or employer objects to such association or financial interest, the architect will either terminate such association or interest or offer to give up the commission or employment.

C. An architect shall not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing their products without full disclosure to the client.

D. When acting as the interpreter of building contract documents and the judge of contract performance, an architect shall render decisions impartially, favoring neither party to the contract.

E. An architect shall not pay or receive a finder's fee, commission or compensation for the referral of a client to another professional, including but not limited to, an engineer, surveyor, builder, realtor or another architect, unless the circumstances are fully disclosed to all interested parties in writing and agreed to in writing by all interested parties.

[16.30.4.9 NMAC - Rp, 16 NMAC 30.4.8.2, 9/6/2001]

16.30.4.10 FULL DISCLOSURE:

A. An architect, making public statements on architectural questions, shall disclose whether the architect is being compensated for making such a statement.

B. An architect shall accurately represent to a prospective or existing client or employer the architect's qualifications and the scope of the architect's responsibility in connection with work for which he or she is claiming credit.

C. If, in the course of an architect's work on a project, the architect becomes aware of a decision taken by the architect's employer or client, against the architect's advice, which violates applicable state or municipal building laws, codes and regulations and which will, in the architect's judgment, materially affect adversely the safety to the public of the finished project, the architect shall:

- (1)** notify the employer or client in writing;
- (2)** report the decision to the local building inspector or other public official charged with the enforcement of the applicable state or municipal building laws, codes and regulations;
- (3)** refuse to consent to the decision; or
- (4)** in circumstances where the architect reasonably believes that such decisions will be taken notwithstanding the architect's objection, terminate the architect's services with reference to the project and have no liability to the architect's client or employer on account of the termination.

D. An architect shall not deliberately make a materially false statement or fail deliberately to disclose a material fact requested in connection with the architect's application for registration or renewal.

E. An architect shall not assist the application for registration of a person known by the architect to be unqualified in respect to education, training, experience or character.

F. An architect possessing knowledge of a violation of these rules by another architect or an applicant for registration shall report such knowledge to the board.

[16.30.4.10 NMAC - Rp, 16 NMAC 30.4.8.3, 9/6/2001; A, 9/15/2016]

16.30.4.11 COMPLIANCE WITH LAWS:

A. An architect, in the conduct of his or her architectural practice, shall not be convicted of any crime listed in Paragraph (4) of Subsection B of 16.30.3.8 NMAC.

B. An architect shall neither offer nor make any payment or gift to a government official, whether elected or appointed, with the intent of influencing the official's judgment in connection with a prospective or existing project in which the architect is interested.

C. An architect shall comply with the registration laws and regulations governing his or her professional practice in any jurisdiction.

[16.30.4.11 NMAC - Rp, 16 NMAC 30.4.8.4, 9/6/2001; A, 01/11/2022]

16.30.4.12 PROFESSIONAL CONDUCT:

A. Each office maintained for the preparation of architectural drawings, specifications, reports or other professional work shall have an architect regularly employed having direct knowledge and supervisory control of such work.

B. In providing architectural services, an architect shall confer with the client to assure that the client's program needs are met.

C. An architect shall not sign or seal drawings, specifications, reports or other professional work which was not prepared by the architect or under his or her responsible charge as defined in Subsection N of 16.30.1.7 NMAC. Responsible charge may be exercised through a third party who is not a registered architect, but the architect must maintain and make available to the board upon request for at least five years following sealing or signing, adequate and complete records demonstrating the extent of the architect's control over and detailed knowledge of such technical submissions throughout their preparation.

D. An architect shall neither offer nor make any gifts, other than gifts of nominal value, which may include reasonable entertainment and hospitality, with the intent of influencing the judgment of an existing or prospective client in connection with a project in which the architect is interested.

E. An architect shall not engage in conduct involving fraud or wanton disregard of the rights of others.

F. A registered architect shall not associate in a business venture offering architectural services with a person or firm where there is reason to believe that person or firm is engaging in activity of a fraudulent or dishonest nature or is violating board rules and regulations or statutes. A registered architect with such knowledge shall report such occasions to the board, and shall cooperate with any resulting investigations.

[16.30.4.12 NMAC - Rp, 16 NMAC 30.4.8.5, 9/6/2001; A, 9/16/2004; A, 6/10/2018]

16.30.4.13 MISREPRESENTATION OF PRIOR EXPERIENCE:

Registered architects shall accurately represent to a prospective or existing client or employer their qualifications and the scope of their responsibility in connection with work for which they are claiming credit.

A. In presenting qualifications to prospective clients, both public and private, it shall be the responsibility of each registered architect to clearly and appropriately state prior professional experience of the architect and the firm the architect is representing. If an architect uses visual representations of prior projects or experience, the architect whose seal appears must be clearly identified.

B. An architect who has been an employee of another architectural practice may not claim unconditional credit for projects contracted for in the name of the previous employer. The architect shall indicate, next to the listing for each project, that the individual experience gained in connection with the project was acquired as an employee, and identify the previous architectural firm. The architect shall also describe the nature and extent of the architect's participation in the project.

C. An architect who was formerly a principal in a firm may legitimately make additional claims provided the architect discloses the nature of ownership in the previous architectural firm (example: stockholder or junior partner) and identifies with specificity the architect's responsibilities for the project.

D. An architect who presents a project that has received awards recognition must comply with the requirements of this rule with regard to project presentation to the public and prospective clients.

E. Projects which remain unconstructed and which are listed as credits should be listed as "unbuilt" or some similar designation.

[16.30.5.5 NMAC - Rp, 16 NMAC 30.5.5, 9/6/2001]

16.30.5.6 OBJECTIVE:

The objective of this rule is to clearly describe violations and the complaint process.

[16.30.5.6 NMAC - Rp, 16 NMAC 30.5.6, 9/6/2001]

16.30.5.7 DEFINITIONS:

All terms defined in this section shall have the same meaning as terms defined in the Parental Responsibility Act, Sections 40-5A-1 through 13 NMSA 1978.

A. "HSD" means the New Mexico human services department.

B. "Statement of compliance" means a certified statement from HSD stating that an applicant or registrant is in compliance with a judgment and order for support.

C. "Statement of non-compliance" means a certified statement from HSD stating that an applicant or registrant is not in compliance with a judgment and an order for support.

[16.30.5.7 NMAC - Rp, 16 NMAC 30.5.7, 9/6/2001; A, 01/11/2022]

16.30.5.8 COMPLAINTS:

A. Disciplinary proceedings against a registered New Mexico architect, applicant, or unlicensed individual may be initiated by a complaint of any person, including members of the board, that is signed under penalty of perjury. Complaint forms shall be obtained from the board office or the board's website and shall be reviewed by the enforcement subcommittee of the rules and regulations committee.

B. Complaint forms shall be confidential pursuant to Subsection D of Section 61-15-5 NMSA 1978. Complaints admitted as evidence during a formal disciplinary hearing are no longer confidential pursuant to Subsection D of Section 61-15.5 [61-15-5] NMSA 1978, and may be subject to public inspection.

C. The enforcement subcommittee shall have the authority to initiate investigations and determine whether sufficient evidence exists to support the recommendation for the issuance of a notice of contemplated action to the full board for a vote. If the

enforcement subcommittee deems the alleged action did not amount to a violation or was a minor violation, it may close the matter with an advisory letter.

D. a report of all complaints filed shall be provided to the board at each regular board meeting.

16.30.5.10 NATIONAL COUNCIL OF ARCHITECTURAL REGISTRATION BOARDS ("NCARB") CERTIFICATE REVOCATION:

The board shall have the right to review and to suspend or revoke a New Mexico registration granted on the basis of NCARB certification should the certification be revoked by NCARB as a result of a disciplinary action. The individual shall have the right to apply for reinstatement of New Mexico registration of and when the NCARB certification has been restored.

[16.30.5.10 NMAC - Rp, 16 NMAC 30.3.10.13, 9/6/2001]

16.30.5.11 VIOLATIONS:

A person using any designation tending to imply to the public that the individual is registered under the Architectural Act to practice architecture; such as architect, architectural services, or words to that effect, is in violation of Section 61-15-10 NMSA 1978.

[16.30.5.11 NMAC - Rp 16 NMAC 30.5.9, 9/6/2001; A, 9/15/2016]

16.30.5.12 PARENTAL RESPONSIBILITY ACT:

A. Disciplinary action: If an applicant or registrant is not in compliance with a judgment and order for support, the board:

- (1) shall deny an application for registration;
- (2) shall deny the renewal of a registration; and
- (3) has grounds for suspension or revocation of the registration.

B. Certified list: Upon receipt of HSD's certified list of obligors not in compliance with a judgment and order for support, the board shall match the certified list against the current list of board registrants and applicants. Upon the later receipt of an application for registration or renewal, the board shall match the applicant against the current certified list. By the end of the month in which the certified list is received, the board shall report to HSD the names of board applicants and registrants who are on the certified list and the action the board has taken in connection with such applicants and registrants.

C. Initial action: Upon determination that an applicant or registrant appears on the certified list, the board shall:

(1) commence a formal proceeding under Subsection D of 16.30.5.12 NMAC to take appropriate action under Subsection A of 16.30.5.12 NMAC; or

(2) for current registrants only, informally notify the registrant that the registrant's name is on the certified list and that the registrant must provide the board with a subsequent statement of compliance from HSD by the earlier of the date of application for registration renewal or a specified date not to exceed 60 days; if the registrant fails to provide this statement, the board shall commence formal proceedings under Subsection D of 16.30.5.12 NMAC.

D. Notice of contemplated action: Prior to taking any action specified in Subsection A of 16.30.5.12 NMAC, the board shall serve upon the applicant or registrant a written notice stating that:

(1) the board has grounds to take such action, and that the board shall take such action unless the registrant or applicant mails a letter (certified mail, return receipt requested) within 20 days after service of the notice requesting a hearing; or provides the board within 30 days of the date of the notice, with a statement of compliance from HSD.

(2) if the applicant or registrant disagrees with the determination of non-compliance, or wishes to come into compliance, the applicant or registrant should contact the HSD child support enforcement division.

E. Evidence and proof: In any hearing under 16.30.5.12 NMAC, relevant evidence is limited to the following:

(1) statement of non-compliance is conclusive evidence that requires the board to take action under Subsection A of 16.30.5.12 NMAC, unless:

(2) the applicant or registrant provides the board with a subsequent statement of compliance which shall preclude the board from taking action under this rule.

F. Order: When a disciplinary action is taken under this rule solely because the applicant or registrant is not in compliance with a judgment and order for support, the order shall state the application or registration shall be reinstated upon presentation of a subsequent statement of compliance. The board may also include any other conditions necessary to comply with board requirements for re-applications or reinstatement of lapsed registrations.

G. Procedures: Procedures under 16.30.5.12 NMAC shall be governed by the Uniform Licensing Act, Sections 61-1-1 through -33 NMSA 1978.

16.34.2.11 PROVISIONS FOR EMERGENCY LICENSURE:

A. Barbers, cosmetologists, hairstylist, manicurists/pedicurists, estheticians, electrologists, and instructors currently licensed and in good standing, or otherwise meeting the requirements for New Mexico licensure in a state in which a federal disaster has been declared, may be licensed in New Mexico during the four months following the declared disaster upon satisfying the following requirements:

(1) receipt by the board of a completed application which has been signed and notarized and which is accompanied by proof of identity, which may include a copy of a driver's license, passport or other photo identification issued by a governmental entity;

(2) refer to 16.34.2.8 NMAC, general licensing procedures; 16.34.5.8 NMAC, general licensure requirements; and 16.34.6.8 NMAC, reciprocity;

(3) other required verification will be that the board office will contact the applicant's prior licensing board by email, mail, or telephone for confirmation of what is provided by the applicant.

B. The board may waive the following requirements for licensure:

(1) application fees;

(2) specific forms or documentation required, on an individual case by case basis, under 16.34.2.8, 16.34.5.8, and 16.34.6.8 NMAC if the applicant is unable to obtain documentation from the federal declared disaster areas.

C. Nothing in this section shall constitute a waiver of the requirements for licensure contained in 16.34.2.8, 16.34.5.8, and 16.34.6.8 NMAC.

D. Licenses issued under (the emergency provision) shall be issued for a period of one year or less following the date of issuance, unless the board or an agent of the board approves a renewal application. Application for renewal shall be made on or before one year following the date of issue to avoid late renewal fees. The board reserves the right to request additional documentation, including but not limited to, recommendation forms and work experience verification forms prior to approving license renewal.

[16.34.2.11 NMAC - N/E, 11/10/2005; A, 07/14/2018]

16.34.2.12 EMERGENCY LICENSE TERMINATION:

A. The emergency license shall terminate upon the following circumstances:

(1) the issuance of a permanent license under section 16.34.2.8, 16.37.5.8, and 16.34.6.8 NMAC; or

(2) proof that the emergency license holder has engaged in fraud deceit, misrepresentation in procuring or attempting to procure a license under this section.

B. Termination of an emergency license shall not preclude application for permanent licensure.

16.34.2.15 CRIMINAL CONVICTIONS:

A. Felony convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

- (1) homicide or manslaughter;
- (2) kidnapping, false imprisonment, aggravated assault or aggravated battery;
- (3) rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, or other related felony sexual offenses;
- (4) crimes involving child abuse or neglect;
- (5) crimes involving fraud, forgery, embezzlement, credit card fraud, or receiving stolen property; or
- (6) an attempt, solicitation, or conspiracy involving any of the felonies in this subsection.

B. The board shall not consider the fact of a felony criminal conviction as part of an application for licensure unless the felony conviction in question is one of the disqualifying felony criminal convictions listed in Subsection A of this rule.

C. The board shall not deny, suspend or revoke a license on the sole basis of a felony criminal conviction unless the felony conviction in question is one of the disqualifying felony criminal convictions listed in Subsection A of this rule.

D. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Barbers and Cosmetologists Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying felony criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

- (1) an arrest not followed by a valid conviction;
- (2) a conviction that has been sealed, dismissed, expunged or pardoned;
- (3) a juvenile adjudication; or
- (4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

16.34.4.14 STUDENT PERMIT:

A. Upon receipt of a complete student registration form and applicable fee, which shall be received in the board office within 15 days of date of registration, the board will issue a student permit and permit number. The student permit authorizes the holder to practice course related skills in an approved school and perform services on the public only after fifteen percent of the required hours for graduation from the course of study are accrued.

B. Student permit are valid for 90 days following completion of graduation requirements. The student permit will be issued to the student upon graduation of course of study by a school official and can be used to enter a licensed establishment and provide all services in the applicable course of study under the constant supervision of a licensee of the board, in the applicable course of study. The student permit holder may not assume supervisory or managerial responsibilities of a licensed establishment at any time. The student permit is valid for 90 days while waiting to test. Once the 90 days has expired the student permit must be turned into the state board office and the student must terminate working at the licensed establishment. It is the responsibility of the licensed establishment to monitor the expiration of the student permit. The student permit must be turned into the board with initial licensure application as part of the application process. No extensions will be given after the 90 days has terminated.

C. Student permits are the property of the board and must be returned to the board office with the notice of termination or official transcript of credit by the school.

Additional requirements applicable to student permits are found in Paragraph 7 of Subsection A of 16.34.8.13 NMAC of these rules.

D. Student permits cannot be used outside a school environment without board approval.

E. Student permits are not to be used as a student externship permit as defined in 16.34.8.17 NMAC.

16.34.7.7 DEFINITIONS:

The following definitions are recommended infection control standards used for cleaning (sanitizing), disinfecting, and sterilization:

A. "clean or cleansing" means washing with liquid soap and water, detergent, antiseptics, or other adequate methods to removal all visible debris or residue. Cleansing is not disinfection.

B. "disinfect or disinfection" means the use of chemical agents (after cleaning) to destroy potentially dangerous pathogens on non-porous items;

C. "disinfectant" means an EPA-registered bactericidal, fungicidal and virucidal chemical effective against pathogens of concern when used as directed on the manufacturer's label. For purposes of this rule alcohol and UV light boxes are not approved for disinfection.

D. "proper use of EPA-registered bactericidal, fungicidal and virucidal disinfectants" means disinfecting using the following:

(1) implements and surfaces shall first be thoroughly cleaned of all visible debris prior to disinfection. EPA-registered bactericidal, fungicidal and virucidal disinfectants become inactivated and ineffective when visibly contaminated with debris, hair, dirt and particulates;

(2) some disinfectants may be sprayed on instruments, tools, or equipment to be disinfected;

(3) disinfectants in which implements are to be immersed shall be prepared fresh daily or more often if solution becomes diluted or soiled; and

(4) these chemicals are harsh and may affect the long term use of scissors and other sharp objects. Leaving items in solution in accordance with manufacturers' recommendation for effective disinfection is recommended.

E. "multi-use" means non-porous instruments, items, equipment, implements or tools that must be cleaned and disinfected. The items must be disinfected by a complete immersion in an EPA-registered, bactericidal, fungicidal and virucidal (formulated for hospitals) disinfectant that is mixed and used according to the manufacturer's directions. Non-porous items are the only items that can be disinfected;

F. "laundering" means to wash in washing machine with detergent, dried and hot to the touch, kept in enclosed container or cabinet;

G. "sanitation" means the maintenance of sanitary conditions to promote hygiene and the prevention of disease through the use of chemical agents or products;

H. "single use items" means tools or supplies that come in contact with the public and are porous (made of anything other than plastic, metal or glass) cannot be disinfected (including, but not limited to: disposable razors, pedi-pads, emery boards, sponges, cotton pads, buffing blocks, toe separators, chamois, sandpaper drill bits, waxing strip, wood sticks, cotton balls, nail wipes, disposable towels, pumice stones, flip flops, and porous files, etc.) shall be disposed of immediately after use;

I. "sterilize or sterilization" means to eliminate all forms of bacteria or other microorganisms.

16.34.7.8 APPLICATION AND REQUIREMENTS FOR ENTERPRISE OR ESTABLISHMENT LICENSE:

A. A completed official application for an enterprise or establishment license must be filed with the board at least fifteen days prior to the expected opening of the enterprise or establishment: Applications must include the required fee in the form of a money order, cashier's check, business check or credit card for on-line transactions, (no personal checks will be accepted). Applications must include:

- (1)** a copy of the owner's business license must accompany initial application;
- (2)** a list of all booth renters working in the establishment (if applicable);
- (3)** all fees are non-refundable;
- (4)** incomplete applications will be returned; and
- (5)** electronic signatures will be acceptable for applications submitted pursuant to 16.34.1 NMAC through 16.34.16 NMAC.

B. The application, if complete, may be administratively approved. A formal inspection of the enterprise, outreach enterprise unit or establishment shall take place after the issuance of the license.

C. When an enterprise or establishment relocates within the state of New Mexico, the owner must complete a new application and obtain approval, including inspection from the board to operate the business at the new location, and pay the administrative fee.

D. If any portion of the establishment is completely segregated from the primary area, a duplicate establishment license must be acquired and posted in the separate area. A duplicate license fee will be assessed.

E. All enterprise and establishment licenses must be renewed each year on the last day of the month of original issue date.

F. Official enterprise or establishment license must be displayed where visible to the public upon entry to the establishment;

G. The most recent inspection report shall be printed and posted in each establishment where visible to the public within 72 hours of the inspection. It is the responsibility of the licensee that signed the inspection report and the owner to ensure this requirement is met.

H. The following information shall be kept on file on the premises of an enterprise or establishment and available for inspection by the board:

(1) the full names of all employees in the enterprise or establishment and their exact duties;

(2) the name and address of enterprise or establishment owner;

(3) a complete description of all services performed;

(4) implementation of proper program of identification of products during use and in storage to avoid confusion as to products or their ingredients; such program shall include efforts to ensure that ingredient information provided by manufacturers or distributors remains available with the product for use by licensed professionals and clients.

(5) safety data sheet (SDS) must be current. A file containing pertinent information regarding products. Hard copies **MUST** be available. Computer based storage or access may only be used when all employees have access at all hours;

(6) a copy or access to the New Mexico board of barbers and cosmetologists statutes and rules;

(7) a site specific OSHA exposure control plan;

(8) if a pedicure tub is maintained on the premises, a log is maintained by the salon showing the legible signature, license number of the person disinfecting pedicure tub as defined in 16.34.7.9 NMAC. The time and date of the disinfection process and the name of the disinfectant used. Log entries must be maintained on the salon premises for 12 months; and

(9) as defined in 16.34.7.9 NMAC a log of each autoclave use must be maintained showing all testing samples and results, and a maintenance log of all maintenance performed according to the manufacturer's directions. The salon must retain the most recent twelve months of the log at the salon for review by the board;

I. Each establishment licensed by the board shall post a sign at the main entrance, which indicates the type of business being performed.

J. Proper signage must indicate the type of services offered.

K. If establishment is attached to a residence, it shall have a separate entrance. Permission from the county or city is required prior to submittal of application.

L. Each mobile outreach unit shall post a sign indicating the type of business being performed. The outreach enterprise license will be maintained at its business address. Each mobile outreach unit shall carry and have posted a duplicate enterprise license assigned to that unit.

M. Any establishment or mobile outreach enterprise unit licensed by the board may not be used for living or sleeping quarters or in any way for residential purposes. If an establishment is located in a private residence, a segregated area must be provided for the licensed activity and maintenance of proper water supply and toilet standards to ensure proper infection control and safety standards. Reasonable access to a restroom must be provided by the establishment or mobile outreach enterprise unit.

N. Except as provided in these rules, no services authorized under this act may be provided away from a licensed establishment. Services authorized under this act may be provided in mobile outreach units only as specified in these rules.

O. Any licensee performing services in a mobile outreach unit must carry a current duplicate license at all times. The licensee must show the client the license upon request.

P. Each outreach enterprise mobile unit will be equipped with or have available a cellular phone or other communication capability necessary for immediate access or prompt response.

Q. Each outreach enterprise mobile unit must have signage on at least two sides for identification information in letters no smaller than five inches.

R. Outreach enterprise mobile units shall be used for the sole purpose stated in 16.34.1 NMAC of these rules.

[16.34.7.8 NMAC - Rp 16 NMAC 34.7.8, 06/16/2001; A, 12/17/2015; A, 07/14/2018]

16.34.7.9 INFECTION CONTROL & SAFETY STANDARDS FOR ESTABLISHMENTS AND ENTERPRISES:

A. All licensees who operate enterprise or establishments, including outreach mobile units must comply with the following minimum infection control and safety standards. Failure to comply with these requirements may result in an administrative

fine as provided in 16.34.15 NMAC of these rules and other disciplinary action by the board.

(1) maintenance of adequate ventilation to ensure that occupants are not improperly exposed to hazardous products or chemicals;

(2) maintenance of smoking restriction to ensure that products or chemicals used are not inadvertently ignited;

(3) maintenance of spill standards to ensure that occupants are not improperly exposed to any product or chemical;

(4) maintenance of hot and cold running water available in an operable manner to perform professional services in a safe and sanitary manner while serving the public;

(5) all establishments shall be completely separated by solid partitions, or by walls where food is prepared should be enclosed and away from public areas;

(6) rest rooms of establishments must be in working order and have ceiling high partitions from the rest of the establishment or common area;

(7) hours of operation shall be posted where clearly visible to the public at all times;

(8) each establishment must have signs stating;

(a) only "disinfected tools or new disposable supplies" may be used on clients; and

(b) "single use" instruments, items and supplies must be discarded after each use.

(9) most recent inspection report shall be posted where clearly visible to the public upon entry to the establishment;

(10) each establishment owner/manager must print the inspection report within 72 hours of inspection and post the inspection in a conspicuous place;

(11) maintenance of all equipment in safe working condition;

(12) compliance with local licensing, fire, building, health, ventilation, heating and safety requirements;

(13) floors, walls, and other fixtures must be kept reasonably clean at all times;

(14) floors shall be thoroughly cleaned each day;

(15) hair cuttings must be swept up and deposited in a closed receptacle after each haircut;

(16) trash containers must be emptied daily and kept clean by washing or using plastic liners;

(17) it is the responsibility of all licensees, including the salon owner and the designated licensed salon manager to ensure that all infection control requirements are followed;

(18) implementation of proper component mixing practices to reduce the risk of undesired reactions;

(19) maintenance of safety data sheets containing pertinent facts regarding products;

(20) implementation of proper storage practices to ensure that products are maintained in the manner that prevents any risk of fire or of undesired reactions;

(21) implementation of proper disinfection practices of working tools and implements; all

non-porous (multi-use) items must be cleaned and then disinfected per procedure listed in Subsection B. of 16.34.7.9 NMAC;

(22) sharps ready for disposal shall be disposed of in approved sharps containers. Contaminated waste which does not release liquid blood or body fluids when compressed or does not release dried blood or body fluids when handled may be placed in a covered receptacle and disposed of through normal, approved disposal methods. Storage of filled contaminated waste containers on-site shall not exceed 90 days; containers shall be stored as far away as possible from autoclave/clean instruments. Establishment shall maintain records of waste removal;

(23) use of an autoclave requires monthly spore tests. Autoclaves and autoclave packaging of tools are prohibited unless regular (at least once per month but not more than 30 days between tests) spore tests are performed by a contracted laboratory. If a positive spore test is received, the autoclave may not be used until a negative spore result is received;

(24) each establishment must maintain a log of each autoclave use, all testing samples and results, and a maintenance log of all maintenance performed according to the manufacturer's directions. The salon must retain the most recent twelve months of the log at the salon for review by the board;

(25) there shall be adequate disinfectants in your place of business to perform all scheduled services for two business days;

(26) adherence to the product manufacturer's directions for safe use that appear on the product labeling; including proper mixing, replacement of solution, contact time and disposal;

(27) disinfectant solutions must be made daily, and disposed of at the end of the day or immediately if visible debris is present;

(28) if concentrated disinfectants must be diluted with water, measuring devices must be readily available and used to ensure an effective solution is made;

(29) all products and chemicals not in the original container must be kept in closed and legibly labeled container with name of product, product description (disinfectant) and manufacturer's name;

(30) disinfected implements must be stored in a disinfected, dry, covered container and be isolated from contaminants. At no time can these items come into contact with used/dirty items;

(31) all multi-use implements must be kept in covered, marked, separate containers (dirty or disinfected);

(32) maintain disinfected combs, brushes and implements in enclosed containers marked as "ready for use";

(34) towel warmers must be disinfected daily. Salons using hot steamed towels in services must meet the following requirements:

(a) all towels, linens, sheets, robes and other linens must be laundered after each use, dried and hot to the touch, and be kept in enclosed container or cabinet;

(b) towels must be washed with detergent, (properly diluted), and dried on "hot";

(c) practitioners preparing towels for the warmers must first wash their hands or wear gloves;

(d) wet towels used in services must be prepared fresh each day. At the end of the day, unused steamed towels must be removed and laundered;

(e) clean towels, sheets, robes and other linens must be used for each client;

(f) the use of paper or disposable towels, linens, etc. shall be disposed of after each use; and

(g) a new, disposable neck strip must be used for each client or a freshly laundered unused towel be placed between chair cloth/shampoo cape and person's skin. The chair cloth and shampoo cape must not have direct contact with client's skin.

(35) filters and drains of pedicure basins must be cleaned and disinfected after each use with an EPA hospital grade disinfectant. Immediately after each service, the practitioner must follow steps listed below:

(a) dirty water is drained, and any visible debris is removed;

(b) all removable filter screens, inlet jets, footplates, impeller assemblies, and other parts are removed and debris eliminated before scrubbing with a disinfected brush and detergent and water;

(c) the tub basin is scrubbed with detergent and water, and rinsed with water, and drained;

(d) removable parts are replaced;

(e) the basin or tub is filled with clean water and an EPA-registered hospital level disinfectant is added following the manufacturer's directions;

(f) if the pedicure tub is electrical, the fan or pump must be turned on and the unit operated for the entire contact time; and

(g) after the contact time is complete, the disinfectant must be drained, and the tub rinsed with clean water.

(36) pedicure tub liners are single use items and must be disposed of immediately after use;

(37) pedicure basins shall be disinfected between clients, at the end of the day, and deep disinfection once weekly; and

(38) a log is maintained by the salon showing the legible signature, license number of the person disinfecting the tub, the time and date of the disinfection process and the name of the disinfectant used. Log entries must be maintained on the salon premises for 12 months.

(39) Eyebrow thread is a single use item and must be disposed of immediately after use.

B. Cleaning and disinfection:

(1) all single-use instruments, items, tools or supplies that come in contact with the public and are porous (made of anything other than plastic, metal or glass) cannot be disinfected (including, but not limited to: eyebrow thread, disposable razors, pedi-pads, emery boards, sponges, cotton pads, buffing blocks, toe separators, chamois, sandpaper drill bits, waxing strip, wood sticks, cotton balls, nail wipes, disposable towels, pumice stones, flip flops, toe separators, porous files and porous buffers, etc.) shall be disposed of immediately after use;

(2) prior to use on any client, all multi-use (non-porous) instruments, items, equipment, implements or tools must be cleaned and disinfected. Items must be cleaned with soap and warm water or a chemical cleaner. The items must then be disinfected by a complete immersion in an EPA-registered, bactericidal, fungicidal and virucidal (formulated for hospitals) disinfectant that is mixed and used according to the manufacturer's directions. Non-porous items are the only items that can be disinfected;

(3) before disinfecting any surface or item, any visible debris and disposable parts must be removed. After cleaning, all surfaces of non-porous, multi-use tool or implement, including handles, must be disinfected by fully submerging the item in disinfectant in a covered container for the full amount of contact time listed on the manufacturer's label;

(4) implements and surfaces shall first be thoroughly cleaned of all visible debris prior to disinfection. EPA-registered bactericidal, fungicidal and virucidal disinfectants become inactivated and ineffective when visibly contaminated with debris, hair, dirt and particulates;

(5) EPA-registered bactericidal, fungicidal and virucidal disinfectants shall be used as follows:

(a) some disinfectants may be sprayed on the instruments, tools, or equipment to be disinfected;

(b) disinfectants in which implements are to be immersed shall be prepared fresh daily or more often if solution becomes diluted or soiled; and

(c) these chemicals are harsh and may affect the long term use of scissors and other sharp objects. Leaving items in solution in accordance with manufacturers' recommendation for effective disinfection is recommended.

(6) head rests, hand rests, pedicure basins, foot rests, manicure tables and other fixtures that come in contact with licensees and the public shall be cleaned and disinfected prior to use for each client;

(7) cups, bowls, basins, and jars must be cleaned and disinfected prior to use on each client;

(8) after each client, the implements shall be wiped with a clean paper or fabric towel and sprayed with either an EPA-registered bactericidal, fungicidal and virucidal disinfectant. Equipment, implements, tools, and materials to be cleaned and disinfected include, but are not limited to: combs and picks, haircutting shears, thinning shears/texturizers, edgers, guards, perm rods;

(9) items MUST stay immersed or visibly moist with disinfectant for the entire contact time listed on the manufacturer's label to be effective;

(10) whether or not disposable, the following must be replaced with clean or new (including, but not limited to) towels, hair caps, headbands, brushes, gowns, makeup brushes, spatulas);

(11) items that may not be immersed can be sprayed or wiped with disinfectant sprays and wipes that are bactericidal, fungicidal and virucidal (EPA-registered disinfectants) and must remain visibly moist for contact time indicate on the product label:

(a) metal guards, clipper blades, drill bits, high frequency wands, and other removable parts must be removed. All product residue, hair skin debris, nail dust, other visible debris must be brushed or wiped off, and the removable part must be disinfected with an EPA-registered, hospital level disinfectant spray or wiped after each use. The surfaces must remain wet with the spray or wipe disinfectant for the contact time listed on the disinfectant label; and

(b) electric clippers, nail drills, flat irons, blow dryers, glass or metal electrodes, esthetic machines, steamers, or other electric or electronic tools must be cleaned and disinfected after each use, including the body and handle.

(12) clipper wash designed as cleaner, not as disinfectant, unless specified as disinfectant on label;

(13) all disinfectant solution must be changed per the manufacturer's label or sooner if contaminated;

(14) all products must be wiped clean and the exterior disinfected with a disinfectant wipe at the end of the day;

(15) all fluids, semi-fluids, creams, waxes, and powders must be kept in clean covered containers with a solid cover, and must be dispensed in a manner which prevents contamination of the unused supply;

(16) products in tubs must be removed with disposable or disinfected spatulas, and fingers may never be used;

(17) products removed from container must not be returned to the container and must be used or discarded;

(18) containers must be wiped cleaned and the exterior disinfected with a disinfectant wipe at the end of the day;

(19) wax pots must be kept covered and the exterior cleaned daily;

(a) if debris is found in the wax pot, or if the wax has been contaminated by contact with skin;

(b) unclean applicators, or double dipping, the wax pot must be emptied, the wax discarded, and the pot must be disinfected;

(c) disposable spatulas and wooden sticks may be dipped into the wax only once and then discarded without using the other end;

(d) applicators may be dipped only once into the wax unless the wax is a single-service item and unused wax is discarded after each service; and

(e) any surface touched by a used wax stick must be disinfected immediately after the service.

(20) paraffin warmers must be kept covered, the exterior cleaned daily, and the wax must be debris free. Cannot go back into paraffin tub;

(21) a new waxing stick must be used for each wax application; no double-dipping;

(22) all licensees must provide a suitable place equipped to give adequate service, as advertised to clients, subject to inspection by the board;

(23) practitioners shall wash their hands with liquid soap, or use a liquid hand sanitizer, prior to performing any services on a client. Thoroughly wash hands and the exposed portion of arms with soap and water before providing services to each client after smoking, drinking, eating and using the restroom; and

(24) proper use of protective devices when so indicated by the product manufacturer's direction for safe use or when the nature of the product indicates such protection is necessary.

C. Blood exposure procedure:

(1) If a blood exposure should occur, the following steps must be followed:

(a) when possible injured party should go to a sink and rinse injury with running water and "milk" the injury if possible to remove any bacteria that may have entered the wound;

(b) supply injured party with antiseptic or single use packet of antibacterial ointment and the appropriate dressing to cover the injury; and

(c) bag all blood-soiled (contaminated) porous articles and dispose of in trash. Immediately wash and disinfect all non-porous items (do not continue service with these items). This is the responsibility of the licensee.

(2) If the client is injured, the following steps must be followed:

(a) stop service;

(b) protection - put on gloves;

(c) clean injured area;

(d) apply antiseptic;

(e) cover the injury with the appropriate dressing to prevent further blood exposure;

(f) bag and dispose of all contaminated single use items;

(g) clean and disinfect any implements or surfaces contaminated;

(h) clean hands; and

(i) return to service.

(3) disinfect all non-porous items (do not continue service with these items).

(4) do not allow containers, brushes, nozzles or liquid styptic container to touch the skin or contact the wound. Use a disposable applicator (never use styptic pencil unless specified for single use).

D. Prohibitions:

(1) licensees shall not use any product in providing a service authorized under the Act that is banned or deemed to be poisonous or unsafe by the United States food and drug administration (FDA) or other local, state, or federal governmental agencies responsible for making such determination;

(2) possession or storage on licensed premises of any item banned or deemed to be poisonous or unsafe by the FDA or governmental agency shall be considered *prima facie* evidence of its use;

(3) for the purpose of performing services under the Act, no licensee shall buy, sell, or use, or apply to any person liquid monomeric methyl methacrylate (MMA);

(4) the use, storage or dispensing of such beauty service products containing methyl methacrylate (MMA) or other chemicals determined to be hazardous to the health of licensees or consumers by the board of any federal, state or local health agency, shall be prohibited:

16.34.8.13 REGULATIONS CONCERNING STUDENTS:

A. Student registration:

(1) When a school receives an application from a prospective student, it shall promptly notify the student of the registration requirements of the board.

(2) It shall constitute a violation of the rules, within the meaning of the act, for a school to engage in failure to transmit student registration documents and fees in a timely fashion to the board pursuant to Subsection G of 16.34.15.8 NMAC, wherein fines will be imposed.

(3) It shall be the responsibility of the prospective student to comply with the registration requirements by the first day the student attends class for credit. Failure to do so may result in loss of hours earned prior to proper registration.

(4) No school shall allow a student to attend class for credit until the student has complied with the registration requirements:

(a) Applicants for the barber, cosmetology, hairstylist, manicure/pedicure, esthetician, electrologist, and manicure/esthetician courses must be at least 16 years of age.

(b) Applicants for the instructor course for barbers must be at least 17 years of age and have successfully completed four years of high school or the equivalent.

(5) Acceptable proof of age and education requirements as follows:

(a) Proof of age includes a copy of a birth certificate, a driver's license or a state issued identification card, or a baptismal certificate.

(b) Proof of two years of secondary education includes a high school diploma, a G.E.D. certificate or transcript of G.E.D. test scores, a sealed letter from the high school attended, a copy of the high school transcript showing all required grades have been passed, a letter from the G.E.D. testing facility stating that the G.E.D. test has been passed, or any other test approved by the United States department of education for the purpose of determining an applicant's ability to benefit, providing that documentation of grade equivalency is established by the test publisher and the required grade level for the course of study has been achieved.

(c) The board, or its executive director, may accept as proof of secondary education the applicant's notarized statement that the applicant has completed the required secondary education, but has been unable to obtain documentary proof of that from a foreign nation. A notarized statement will not be accepted for students who have completed the secondary education in the United States.

(6) Evidence of compliance with the foregoing requirements shall accompany the application for registration form provided by the board.

(7) Upon receipt of a complete student registration form and applicable fee, which shall be received in the board office within 15 days of the date of registration, the board office will then issue a student permit and a permit number. The student permit authorizes the holder to practice course related skills in an approved school on the public only after successful completion of fifteen percent of the program. In addition, the student permit also authorizes the student to participate in the student externship program pursuant to 16.34.8.17 NMAC of these rules. A photograph of the student (front view, head only, at least one and one-half inches by one and one-half inches) shall be attached to the permit. The permit shall be displayed in a binder in the school in which the student is enrolled and open to review by the state inspector or other board designee. Student permits are the property of the board and must be returned to the board by the school upon termination of the student's enrollment.

(8) If inspection of the student permits and school records determines that students are attending class without being properly registered with the board, the student may be denied the hours previously accrued and the school will be reported to the board for disciplinary action.

B. Student transfers/re-entries:

(1) Any previously registered student desiring to transfer to another school, or re-enter the previous school shall submit a new registration form and required fees to the board. Students transferring schools as a result of a school closure shall submit a new registration form but are not required to pay a re-registration fee. Students attending a school, which undergoes a change of ownership, are not required to re-register with the board.

(2) Any student desiring to re-enter school must submit proof of the successfully completed previous training in order to receive credit for it.

(3) A student enrolled in any course may withdraw and transfer hours or equivalent credit acquired to another course not to exceed the amount of hours or equivalent credit of each subject within the new course curriculum requirements. Appropriate termination notices and course registration documents must be submitted to the board office when a student transfers to another course.

(4) Students enrolled in the cosmetology curriculum may take the examination for one of the specialty courses at which time the school certifies that the student has completed the requirements for the course in which the student seeks licensure. All other requirements for examination must also be met. The student may continue to attend classes in the cosmetology course. However, if licensure is obtained in any specialty course and the student continues attending classes in the cosmetology course, students cannot perform any services on the public in the school for which the individual is now licensed.

C. Records of student academic progress:

(1) Schools shall keep records of academic progress for each student and these records shall be open for inspection by members of the board or its designees.

(2) Schools will designate in the enrollment contract and other consumer information, all requirements for withdrawal or graduation. When all requirements have been met, the school must return the student's permit to the board, and submit a sealed official transcript of training to the board and to the student showing that course requirements for graduation have been met. The board recognizes for transfer, hours or equivalent credits reported on the official transcript of training. Circumstances regarding transfer of or approval of student hours may be brought to the board on an individual basis for special consideration by the board. The board may, in its discretion, recognize hours or equivalent credit or partial hours or partial credit for transfer when an official transcript of training has not been submitted by the school.

(3) If a student terminates their enrollment status without meeting all withdrawal or graduation requirements, the school in which the student was enrolled shall notify the board of termination in writing within 30 days of the student's formal termination date using the format prescribed by the board, and return the student's permit.

(4) Schools offering clock hour training shall define its attendance requirements to include one hundred percent attendance for the course length for licensure or may allow excused absences for no more than ten percent of the course length for satisfactory course completion.

(a) student attendance policies are applied uniformly and fairly;

(b) attendance policies give appropriate credit for all hours attended;

(c) schools shall not adjust attendance hours of students whether hours are added, as a reward, or deducted, as a penalty;

(d) the school shall report actual hours attended by the student or shall round the hours to the nearest half hour (i.e. if a student attended 44 minutes past the hour, the school would report the previous half hour; if a student attended 45 minutes past the hour, the school would report the next hour);

(e) the school must maintain attendance records for each student to verify that the minimum attendance standard set forth by the board is being met; and

(f) in cases where schools are authorized to offer training via distance learning methods, the school establish standards for converting competencies achieved to clock or credit hours.

(5) To be considered a graduate, a student must have completed the course scheduled for completion and met the minimum attendance standard (or ninety percent) of the established course of study and all other academic and evaluation factors established by the school. Therefore, in addition to completion of the required hours, the student must have satisfactorily completed the practical and theoretical curriculum requirements set forth by the school. Those requirements must include documentation that the student has satisfactorily completed each unit of study prescribed by the board in the applicable course of study. The excused absences do not allow a student to accelerate in their course of study. Even though they may limit excused absences, they will not be allowed to sit for the state licensing examination until the number of hours, prescribed by the board for the applicable course of study, have elapsed.

(6) If a student is required OR allowed by the school to train more than the scheduled hours in a class day, students must be given credit for the additional time in the appropriate subject. Schools have full discretion in setting forth class schedules for each course offered as long as minimum requirements for graduation meet the board standards.

(7) Students may not be called from a scheduled theory class to perform services on the public.

(8) Schools expressing academic measurement in terms of credit hours shall set forth requirements for each unit of study within a course or program which ensures that required levels of competency or skills ability have been met. Such schools must award appropriate credit for each unit of study completed satisfactorily. Records of the students' academic progress within the course of study must be maintained for all students.

(9) The school shall provide a catalog to prospective students containing enough information to permit an informed choice among training opportunities and institutions. Catalogs which comply with the school's accrediting agency will be deemed to comply with this rule.

(10) Schools must comply with the Family Education Right to Privacy Act and must guarantee the rights of students to have access to their cumulative records and provide for proper supervision and interpretation of student records when reviewed.

(11) Schools and students shall enter into a signed written agreement which fully and accurately reflects the contractual rights and obligations of the parties, particularly with regard to suspension, expulsion, refunds, tuition and fees, withdrawal and graduation requirements. Contracts which comply with the school's accrediting agency will be deemed in compliance with this rule.

D. Records regarding state board examinations: Each school shall disclose to prospective students its annual statistics regarding the school's state examination pass rate. The board or its designee will send a letter to each school after each examination containing the result information on each student, which will serve as the source documentation for calculating the disclosed statistics.

16.34.8.14 STUDENT SCHOOL GRIEVANCES:

Each school licensed by the board must have an internal grievance process for students to seek solutions to any student complaint or concern that is not frivolous or without merit. Evidence of final resolution of such complaints will be retained in the school's file in order to determine the frequency, nature, and patterns of complaints for the institution. Verification that the procedure is in place and being followed will occur during routine inspections of schools. Formal complaints can be filed with the board pursuant to 16.34.13 NMAC of these rules. Schools may not retaliate against students who file complaints with the board.

16.34.8.15 CURRICULUM:

A. The following minimum curriculum requirements are established for all schools licensed under the act. Schools offering training in clock hours must meet the following minimum hours in each unit of study. Schools offering training in credit hours must offer an equivalent training program as prescribed by the schools accrediting agency clock hour/credit hour conversion formula. In absence of such a formula the state board will prescribe the credit hour/clock hour conversion formula. Schools may offer all or part of the courses set forth herein provided appropriate facility requirements are met and Instructors have appropriate practitioner training to teach the subjects offered. This does not preclude schools from offering non-related courses or advanced courses, which are not prescribed in these rules. Courses are automatically approved if the course units are between one hundred percent and one hundred twenty percent of the minimum. Schools desiring to offer instruction that exceeds one hundred twenty percent of the minimum requirements (i.e. a course that is over twenty five percent of the board's published minimum requirements) must submit to the board the following:

- (1) a course outline indicating all course hours or credits offered;
- (2) a class schedule for the entire course indicating how and when each unit of instruction is offered;
- (3) justification of why the course should be approved at the extended length.

16.34.8.17 STUDENT EXTERNSHIPS:

A. Students enrolled in any course licensed by this act may, at the school's option, participate in an externship program upon completion of seventy-five percent of the contracted course of study. The externship program would allow students to train in a licensed establishment for one day or up to eight hours per week until graduation. The training would be supervised by a designated salon licensee and would include any activity that is routine in a salon except offering complete services on the public. The student would be allowed, for example, to perform receptionist duties, ASSIST stylists with salon services; perform inventory or dispensary activities, sanitation duties, etc. Students will NOT be allowed to take appointments for complete services or apply

chemicals (specifically hair color or bleach, perm solution, chemical relaxers, or acrylic nail products) to any client. This program will allow students who are nearing graduation to begin a professional relationship with a salon and increase the graduate's opportunities for successful employment after graduation. In addition, it will allow the salon to perform very valuable "on-the-job" training while the student is still in training. In order to qualify for the externship program, the following requirements must be met:

(1) the student must have successfully completed seventy-five percent of the contracted course of study;

(2) the student must have taken and passed an interim FINAL written and practical examination establishing the individual's qualifications to assist in the establishment;

(3) the establishment must agree to and complete a certification of attendance and training completed during the externship. The training must relate to curriculum requirements;

(4) the student must apply for and post a student externship permit in the establishment while training in the establishment;

(5) the student must meet any other eligibility requirement established by the school;

(6) the establishment must notify and obtain permission from each individual client to allow the student to assist in any manner in providing services to the client.

(7) the school must accept the training certified by the establishment and include it on the official transcript of training for state board;

(8) a school official must make periodic visits to establishments to observe and verify the program is being followed according to requirements.

B. Establishments are not required to participate in this program. However, if they elect to participate, they must agree to comply with the requirements of the program.

16.34.8.18 REFRESHER COURSES:

A. Schools may offer a customized refresher course for individuals who have been out of school for 12 months or longer and not yet obtained licensure and to licensees who wish to re-enter school and update their professional skills. The following requirements must be met for those students enrolled in a refresher course who are not already licensed.

(1) The student must be re-registered with the board and all other matriculation requirements met as required for regular students;

(2) The earned hours or equivalent credit will be added to the student's existing transcript even though the requirements for licensure may have already been met.

(a) Successfully completed training must be reported on the official transcript of training accompanied by the student permit must be sent to the board office upon completion.

(b) A notice of termination and student permit must be sent to the board office upon termination from enrollment for unsuccessful completion of training.

B. Individuals who are already licensed who enroll in a refresher course must meet the following requirements.

C. The student file must contain a copy of the individual's current license, which may be reviewed by the inspector.

16.34.8.19 SCHOOL REGISTRATION:

SCHOOL TUITION REFUND AND SETTLEMENT POLICY:

A. In cases where students are regulated by federal or special program refund policies that policy prevails. The school must publish in its enrollment agreement or registration contract a refund policy that contains the following minimum guidelines:

(1) If a student cancels the enrollment more than three business days after signing the contract but prior to starting classes, a refund of all monies paid to the school less the applicable registration (administration fee not to exceed two hundred dollars (\$200) or fifteen percent of the tuition and fees, whichever is less) will be made.

(2) For students who enroll and begin classes but withdraw prior to course completion (after three business days of signing the contract), the school must apply a refund calculation schedule at least as liberal as the following: The percent of scheduled time enrolled to total course and total tuition school shall receive or retain is as follows:

(a) 0.01% to 04.9%	20%
(b) 5% to 09.9%	30%
(c) 10% to 14.9%	40%
(d) 15% to 24.9%	45%
(e) 25% to 49.9%	70%
(f) 50% and over	100%

B. If permanently closed or no longer offering instruction after a student has enrolled, the school will provide a pro rata refund of tuition to the student.

C. If the course is canceled subsequent to a student's enrollment, the school will either provide a full refund of all monies paid or completion of the course at a later time.

D. Students who withdraw or terminate prior to course completion may be charged a separate cancellation fee not to exceed one hundred fifty dollars.

E. All extra costs, such as books, equipment, graduation fees, etc., which are not included in the tuition price must be stated in the contract and any non-refundable items will be identified. Such costs may be deducted from the contracted program cost prior to applying the tuition adjustment calculation.

F. If promissory notes or contracts for tuition are sold or discounted to third parties, the institution and/or third party must comply with this cancellation and settlement policy.

16.34.8.20 SPECIAL EVENTS PERMIT:

A school desiring to sponsor a special event such as a fund-raiser, garage sale, telethon, etc. that will not be conducted at the licensed establishments, must first obtain approval from the board office. The purpose of prior approval is to ensure professional integrity and that sanitation and safety requirements are met. An application on the form provided by the board office must be submitted at least ten days prior to the event. Applications for special events may be approved administratively. Special events for charities shall submit an application, no fees are required, as long as the money collected is donated to the charity specified on the application.

16.34.8.21 STUDENT TRAINING - HIGH SCHOOL PROGRAMS:

A. Students enrolled in the career enrichment courses (CEC) or any other associate high school program must meet the following requirements before enrolling for any course as follows:

(1) proof of completion of the second year of high school or its equivalent (i.e. only juniors and seniors can participate);

(2) proof that student is at least sixteen years of age;

(3) submission of a complete student registration form and required fees through the associate school licensed under this act.

B. In order for students to receive credit for attendance in high school related programs, such as CEC or EXCEL or others, the high school must certify the training provided and send that documentation to the licensed school that has registered the student. The licensed school will report the hours or equivalent credit to the state board and identify the type of student on a separate form designated by the board upon completion of the high school training program. The following restrictions apply:

(1) Students participating in high school programs cannot earn more than fifteen percent of the program in the high school facility.

(2) The licensed school must provide the student with an OFFICIAL TRANSCRIPT OF TRAINING for all hours or equivalent credit earned under the high school program because the board office retains those records for only one year.

16.34.8.22 DISTANCE EDUCATION:

It is recognized that delivery of relevant course content can be achieved in a variety of methods including online learning and distance education. Programs such as Instructor training may be completely accomplished via distance learning. Practitioner programs are limited to no more than twenty-five percent of the program content online. The following standards should apply when schools choose to use distance learning methods.

A. The school must notify the board and obtain approval before offering any distance learning courses.

B. The school must determine if the student has the requisite skills and competencies to succeed in a distance learning environment prior to enrollment.

C. The school must make available to students the necessary textbooks, supplementary educational materials and equipment needed to fulfill the program requirements.

D. The school must establish measurable and achievable performance outcomes that shall be compared to similar subject matter and objectives whether offered through traditional or distance methods.

E. The school must specify the expected knowledge, skills, and competency levels that students will achieve in a distance learning course.

F. The school shall effectively oversee the distance learning course and ensure it meets the objectives and mission of the school.

G. The school is responsible for the quality of courses of study offered through distance learning and the achievement of expected acceptable outcomes for each student irrespective of any contractual arrangements, partnerships, or consortia entered into with third parties for provision of components of a distance learning course.

16.34.8.23 ADVANCED TRAINING:

Educational programs provided for the purpose of continuing education or advanced education in a specific field of licensure that are more than 150 hours in length must be conducted in a licensed school and supervised by a licensed instructor whether or not the program leads to licensure. Programs for advanced or continuing education of 150 hours or less will be considered seminars or workshops. They may or may not be conducted in a licensed establishment but must be supervised by a New Mexico licensee. Advanced training must be specific to the field of licensure.

16.36.3.7 DEFINITIONS:

[RESERVED]

16.36.3.8 REQUIREMENTS FOR ESTABLISHMENT:

A. All walls and floors of a body art establishment shall be washable and in good repair. Walls and floors shall be maintained in a clean condition. All surfaces, including client chairs and benches shall be of such construction as to be easily cleaned and sanitized after each client procedure. All body art establishments shall be completely separated from any other business or non-business using floor-to-ceiling walls and doors. Rooms where body art procedures occur shall be free from debris or any safety hazards and shall not be used for storage.

B. Establishments located within or at a private residence must meet zoning requirements. An establishment located in or at a private residence shall meet establishment requirements as stated in 16.36.3.8 NMAC.

C. There shall be a minimum of 40 square feet of floor space for each procedure room. Each body art establishment shall have an area that may be screened from public view for clients requesting privacy. Multiple procedure rooms shall be separated by clean, non-porous and washable dividers, curtains or partitions, which shall be maintained with an EPA registered disinfectant.

D. The body art establishment shall be well-ventilated and provided adequate artificial light.

E. No animals of any kind shall be allowed in an establishment, except service animals used by persons with limitations as defined in the Americans with Disabilities Act. Aquariums are allowed, but not within a procedure room.

F. A separate, readily accessible, hand sink with hot and cold running water, under pressure, preferably equipped with wrist or foot operated controls and supplied with liquid soap and disposable paper towels shall be readily accessible within the body art establishment. One hand sink shall serve no more than three operators. In addition, there shall be a minimum of one lavatory, excluding any service sinks, and one toilet in a body art establishment.

G. At least one covered waste receptacle shall be provided in each operator area and each toilet room. Receptacles in the operator area shall be emptied daily and solid waste shall be removed from the premises at least weekly. Receptacles in the operator

area shall either have a foot operated lid or a lid that can and shall remain open during body art procedures to prevent hand contact with the receptacle during a procedure. All refuse containers shall be cleanable and kept clean.

H. All instruments and supplies shall be stored in clean dry covered containers.

I. If reusable cloth items, including but not limited to lap-cloths, are used, they shall be mechanically washed after each client procedure. Reusable cloth items shall be mechanically washed with detergent and dried. The cloth items shall be stored in a clean dry environment.

J. The following information shall be kept on file on the premises of a body art establishment and available for inspection by the board:

- (1) the full names of all employees in the establishment and their exact duties;
- (2) the board-issued license with identification photograph;
- (3) the body art establishment name and hours of operation;
- (4) the name and address of the body art establishment owner;
- (5) a complete description of all body art performed;
- (6) maintenance of a safety data sheet (SDS) file containing pertinent information regarding products; and
- (7) a copy of the Body Art Safe Practices Act and current rules.

K. An operator shall notify the board in writing not less than 30 days before changing the location of a body art establishment. The notice shall include the street address of the new location.

16.36.4.6 OBJECTIVE:

To inform licensees of the complaint procedures, enforcement and disciplinary actions.

[16.36.4.6 NMAC - Rp, 16.36.4.6 NMAC, 02/04/2016]

16.36.4.7 DEFINITIONS:

[RESERVED]

16.36.4.8 ENFORCEMENT, COMPLAINTS AND DISCIPLINARY ACTION:

A. A member of the board, its employees or agents may enter and inspect a school, enterprise or establishment at any time during regular business hours for the purpose of determining compliance with the Body Art Safe Practices Act.

B. It shall be unlawful for any artist to perform body piercing or tattoo procedures outside of a licensed body piercing or tattooing establishment.

C. It shall constitute a violation of the Body Art Safe Practices Act when a licensee:

(1) attempts by means of any threat, force, intimidation or violence to deter, interfere with or prevent any inspector or board designee from performing any official duty of the department or board;

(2) willfully resists, delays or obstructs an inspector or board designee in the performance of his/her official duty;

(3) fails to comply with the lawful command of an inspector or board designee in the discharge of his/her official duty; or

(4) fails to cooperate in investigations, proceedings, and requirements of this code.

D. The board, or its designee, will consider a formal complaint filed against a licensee or an establishment provided the complaint is on the proper form, signed under penalty of perjury.

E. When a complaint is received on the proper form, the board, or its designee, will write to the licensee the complaint is against and request a response within 15 days of receipt of such request.

F. The response will be reviewed by a committee designated by the board chairman.

G. If the committee's recommendation is that the complaint be taken before the board, the complaint will be reviewed at the next regularly scheduled board meeting. The board shall:

- (1)** take no further action; or
- (2)** issue a notice of contemplated action (NCA) under the Uniform Licensing Act; or
- (3)** assess an administrative penalty subject to appropriate procedural requirements and safeguards.

H. Any hearing held pursuant to the complaint shall conform with the provisions of the Uniform Licensing Act and the Body Art Safe Practices Act.

I. The board may fine, deny, revoke, suspend, stipulate, or otherwise limit a license if the board determines the licensee is guilty of violating any of the provisions of the act, the Uniform Licensing Act, or these rules.

J. Subject to legally required procedural safeguards, any person who violates any provisions of the act or any rule adopted by the board may incur, in addition to any other penalty provided by law, a civil penalty in an amount of less than one hundred fifty dollars (\$150) for each violation. The board will serve on the licensee official notice of any such fine that the board proposes to assess. Failure to pay a fine, once properly assessed, may result in an additional fine and revocation of license or other disciplinary action. The penalties to be assessed are as follows:

- (1)** Failure to comply with operator requirements:
 - (a)** first offense: one hundred dollars (\$100);
 - (b)** second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act.

(2) Failure to comply with sanitation and safety requirements:

(a) first offense: one hundred dollars (\$100);

(b) second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act.

(3) Failure to post required licenses:

(a) first offense: fifty dollars (\$50);

(b) second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act.

(4) Working on an expired or invalid license:

(a) first offense: fifty dollars (\$50);

(b) second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act

(5) Performing services for compensation in an unlicensed establishment:

(a) first offense: one hundred dollars (\$100);

(b) second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act.

(6) Any violation of the Body Art Safe Practices Act or rules:

(a) first offense: one hundred dollars (\$100);

(b) second offense: one hundred fifty dollars (\$150);

(c) third and subsequent offenses: the board shall take steps to impose a further fine up to the limit of one hundred fifty dollars (\$150) or to take other disciplinary action as permitted by the act or the New Mexico Uniform Licensing Act.

K. The board may suspend a license immediately without prior notice to the holder of the license if it determines, after inspection, that conditions within a body art establishment present a substantial danger of illness, serious physical harm or death to customers who might patronize a body art establishment. A suspension action taken pursuant to this section is effective when communicated to the operator or body artist. Suspension action taken pursuant to this section shall not continue beyond the time that the conditions causing the suspension cease to exist, as determined by a board inspection at the request of the operator or body artist. A license holder may request an administrative hearing, as provided by Section 61-17B-5 NMSA 1978 of the Body Art Safe Practices Act, if the board does not lift an immediate suspension within 10 days.

[16.36.4.8 NMAC - Rp, 16.36.4.8 NMAC, 2/4/2016, A, 2/3/2022]

16.36.4.9 DISQUALIFYING CRIMINAL CONVICTIONS:

A. Convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

- (1) murder;
- (2) aggravated assault;
- (3) assault with intent to commit a violent felony;
- (4) aggravated battery inflicting great bodily harm or with a deadly weapon;
- (5) kidnapping;
- (6) abandonment of a child resulting in death or great bodily harm;
- (7) abuse of child;
- (8) negligent abuse of a child resulting in death;
- (9) intentional abuse of a child 12 to 18 years old resulting in death;
- (10) sexual exploitation of children;

- (11)** sexual exploitation of children by prostitution;
- (12)** criminal sexual penetration;
- (13)** criminal sexual contact;
- (14)** criminal sexual contact of a minor;
- (15)** aggravated indecent exposure;
- (16)** criminal sexual communication with a child;
- (17)** human trafficking;
- (18)** willfully or knowingly failing to comply with the registration or verification requirements of the Sex Offender Registration and Notification Act;
- (19)** willfully or knowingly providing false information when complying with the registration or verification requirements of the Sex Offender Registration and Notification Act;
- (20)** sex offender who fails to comply with SORNA re moving to another state;
- (21)** failure to comply with proclamation of the governor;
- (22)** practicing medicine without a license;
- (23)** forgery;
- (24)** fraud;
- (25)** aggravated escape from the custody of the children, youth and families department;
- (26)** bringing contraband into a juvenile detention facility or juvenile correctional facility;
- (27)** tampering with public records;
- (28)** delivering drug paraphernalia to a person under eighteen years of age and who is at least three years the person's junior;
- (29)** intentionally selling an imitation controlled substance to a person under the age of eighteen years; and

(30) selling or giving alcoholic beverages to minors, and possession of alcoholic beverages by minors.

B. The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

D. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Body Art Safe Practice Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

- (1)** an arrest not followed by a valid conviction;
- (2)** a conviction that has been sealed, dismissed, expunged or pardoned;
- (3)** a juvenile adjudication; or

(4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

[16.36.5.5 NMAC - Rp, 16.36.5.5 NMAC, 02/04/2016]

16.36.5.6 OBJECTIVE:

To provide minimum licensure with minimum practice of standards.

[16.36.5.6 NMAC - Rp, 16.36.5.6 NMAC, 02/04/2016]

16.36.5.7 DEFINITIONS:

[RESERVED]

16.36.5.8 STANDARDS OF PRACTICE AND PROFESSIONAL STANDARDS:

Practitioners are required to comply with the following minimum standards.

A. A practitioner shall perform all body art procedures in accordance with universal precautions set forth by occupational health and safety administration (OSHA) and the United States centers for disease control.

B. Smoking, eating, or drinking by anyone is prohibited in the procedure room while body art preparation, procedure and clean-up is being performed.

C. A practitioner shall refuse service to any person who, in the opinion of a reasonable objective observer, may be under the influence of alcohol or drugs.

D. A practitioner shall maintain the highest degree of personal cleanliness, conform to best standard hygienic practices, and wear clean clothes when performing body art procedures. Before performing body art, the licensee must thoroughly wash their hands

in hot running water with liquid antimicrobial soap, then rinse hands and dry with disposable paper towels. This shall be done as often as necessary to remove contaminants.

E. The skin of the licensee shall be free of rash or infection. No licensee affected with boils, infected wounds, open sores, abrasions, weeping dermatological lesions or acute respiratory infection shall work in any area of a body art establishment in any capacity in which there is a likelihood that that person could contaminate body art equipment, supplies, or working surfaces with body substances or pathogenic organisms.

F. In performing body art procedures, a practitioner shall wear disposable single-use gloves. The gloves shall be discarded, at a minimum, after the completion of each procedure on an individual client, and hands shall be washed in accordance with Subsection D before the next set of gloves is put on. Under no circumstances shall a single pair of gloves be used on more than one person. The use of disposable single-use gloves does not preclude or substitute for hand washing procedures as part of a good personal hygiene program.

G. If, while performing body art, the licensee's glove is pierced, torn, or otherwise contaminated by contact with any unclean surfaces or objects or by contact with a third person, the procedures in Subsections D and E above shall be repeated immediately. Any item or instrument used for body art which is contaminated during the procedure shall be discarded and replaced immediately with new sanitary items or instrument before the procedure resumes.

H. Contaminated waste, which may release liquid blood or body fluids when compressed or may release dried blood or body fluids when handled must be placed in an approved "red" bag which is marked with the international "biohazard" symbol. It must then be disposed of by an approved medical waste facility pursuant to federal and state regulations including but not limited to 29 CFR 1910.1030 and New Mexico solid waste management regulations promulgated by the New Mexico environment department. Sharps ready for disposal shall be disposed of in approved sharps containers. Contaminated waste which does not release liquid blood or body fluids when compressed or does not release dried blood or body fluids when handled may be placed in a covered receptacle and disposed of through normal, approved disposal methods. Storage of contaminated waste on-site shall not exceed 90 days. Establishment shall maintain records of waste removal.

I. Petroleum jellies, soaps, and other products used in the application of stencils shall be dispensed and applied on the area to receive a body art procedure with sterile gauze or other sterile applicator to prevent contamination of the original container and its content. The applicator or gauze shall be used once and then discarded.

J. It is the responsibility of the operator of the body art establishment to be in possession of the most current regulations and aftercare instructions.

K. Jewelry inserted into a newly pierced area must be the appropriate length and diameter for the unique anatomy and placement of the piercing. Materials appropriate to wear in a fresh body piercing must be able to withstand the heat and pressure of an autoclave sterilization and compatible with the body to prevent irritation, allergy, or infection. Materials must be to the specific grade of metal designated by code through the American Society for Testing and Materials Standards (ASTM), the International Organization for Standardization (ISO) or to the standards listed below:

- (1) surgical steel should meet on or more of the following criteria:
 - (a) ASTM F-138
 - (b) ISO 5832-1
 - (c) ISO 10993-6
 - (d) ISO 10993-10
 - (e) ISO 10993-11; or
 - (f) EEC Nickel Directive compliant.
- (2) titanium;
 - (a) ASTM F-136;
 - (b) ASTM F-1295;
 - (c) ISO 5832-3; or
 - (d) commercially pure titanium that is ASTM F-67 compliant.
- (3) niobium:
- (4) gold that is 14k to 18k, nickel-free, cadmium-free and alloyed for biocompatibility. Gold plated, gold-filled, or fold overlay/vermeil jewelry is not acceptable for fresh piercing.
- (5) platinum;
- (6) biocompatible polymers;
- (7) glass:
 - (a) fused quartz glass;

(b) lead-free borosilicate; or

(c) lead free soda-lime glass.

[16.36.5.8 NMAC - Rp, 16.36.5.8 NMAC, 2/4/2016; A, 7/12/2022]

16.36.5.9 STERILE PROCEDURES AND SANITATION:

A. All non-disposable instruments used for body art shall be cleaned thoroughly after each use by scrubbing with a liquid soap solution and hot water or an appropriate disinfectant to remove blood and tissue residue and placed in an ultrasonic unit which shall remain on the premises of the body art establishment and which will be operated in accordance with the manufacturer's instructions.

B. All facilities that reprocess reusable instruments shall have an equipment cleaning room that is physically separated from the work stations. Facilities that use all disposable equipment shall be exempt from this requirement.

C. After cleaning, all non-disposable instruments used for body art shall be packed individually in paper peel-packs and sterilized. All paper peel-packs shall contain either a sterilizer indicator or internal temperature indicator. Properly packaged, sterilized and stored equipment can be stored no more than one year. Paper peel-packs must be dated with an expiration date not to exceed one year. Sterile equipment may not be used after the expiration date without first repackaging and resterilizing.

D. All non-disposable instruments used for body art shall be sterilized in an autoclave at the body art establishment. Off-site sterilization is prohibited. The sterilizer shall be used, cleaned, and maintained according to manufacturer's instructions. A copy of the manufacturer's recommended procedures for the operation of the sterilization unit must be available for inspection by the board.

E. Each holder of a license to operate a body art establishment shall demonstrate that the sterilizer used is capable of attaining sterilization by monthly spore destruction tests. These tests shall be verified through an independent laboratory. These test records shall be retained by the operator for a period of three years and provided to the board upon request.

F. After sterilization, the instrument used for body art, tattooing or body piercing shall be stored in a dry, clean cabinet or other tightly covered container reserved for the storage of such instruments.

G. All instruments used for body art, tattooing or body piercing shall remain stored in sterile packages until just prior to performing a body art procedure. When assembling instruments used for performing body art, the operator shall wear disposable medical gloves and use techniques to ensure that the instruments and gloves are not contaminated.

H. All inks, dyes, pigments and sharps shall be specifically manufactured for performing body art procedures and shall not be adulterated. Immediately before applying a tattoo, the quantity of the dye to be used for the tattoo shall be transferred from the bottle and placed into sterile, single use paper cups or plastic caps. Upon completion of the tattoo, these single cups or caps and their contents shall be discarded.

I. For body piercing and tattooing establishments primarily utilizing a Statim autoclave, reusable items shall be sterilized in an autoclave in a bulk load without sterilization pouches, previous to sterilization in the Statim autoclave, for the body piercing or tattoo procedure. Reusable instruments and single use items sterilized in a Statim autoclave cassette must be used immediately after opening the Statim autoclave cassette. The items contained in the Statim autoclave cassette shall be used for one client only and shall include use of an integrater strip.

[16.36.5.9 NMAC - Rp, 16.36.5.9 NMAC, 2/4/2016; A, 7/12/2022]

16.36.5.10 REQUIREMENTS FOR SINGLE USE ITEMS:

A. All sharps shall be sterilized prior to use and stored in paper peel-packs.

B. Single use items shall not be used on more than one client for any reason. After use, all single use needles, razors and other sharps shall be immediately disposed of in approved sharps containers. Piercing needles are strictly single use.

C. All body art stencils shall be single use and disposable. Petroleum jellies, soaps and other products used in the application of stencils shall be dispensed and applied on the area to be tattooed with sterile gauze or in a manner which prevents contamination of the original container and its contents. The gauze shall be used only once and then discarded.

[16.36.5.10 NMAC - Rp, 16.36.5.10 NMAC, 02/04/2016]

16.36.5.11 CLIENT CARE AND RECORDS REQUIREMENTS:

A. Prior to performing a body art procedure on a client, the practitioner shall:

(1) inform the client, verbally and in writing that the following health conditions may increase health risks associated with receiving a body art procedure:

(a) history of diabetes;

(b) history of hemophilia (bleeding);

(c) history of skin disease, skin lesions, or skin sensitivities to soaps, disinfectants etc.;

(d) history of allergies or adverse reactions to pigment, dyes, or other sensitivities;

(e) history of epilepsy, seizures, fainting, or narcolepsy;

(f) use of medications such as anticoagulants, which thin the blood or interfere with blood clotting; and

(g) any other conditions such as hepatitis or HIV.

(2) require that the client sign a form confirming that the above information was provided, that the client does not have a condition that prevents them from receiving body art, that the client consents to the performance of the body art procedure and that the client has been given the aftercare instructions as required by Subsection J of 16.36.5.8 NMAC.

B. Preparation and care of a client's skin area must comply with the following:

(1) Any skin area or mucosa surface to receive a body art procedure shall be free of rash or any visible infection.

(2) Before a body art procedure is performed, the immediate skin area and the areas of the skin surrounding where body art procedure is to be placed shall be washed with soap and water or an approved surgical skin preparation. If shaving is necessary, single-use disposable razors or safety razors with single-use blades shall be used. Blades shall be discarded after each use, and reusable holders shall be cleaned and autoclaved after each use. Following shaving, the skin and surrounding area shall be washed with soap and water. To outline the application process, for body art related special events, mobile body art, and guests.

[16.36.7.6 NMAC – N, 2/3/2022]

16.36.7.7 DEFINITIONS:

[RESERVED]

16.36.7.8 SPECIAL EVENT, MOBILE BODY ART AND GUEST LICENSE REQUIREMENTS:

A. Any licensee desiring to sponsor a special event must first obtain approval from the board office staff. The purpose of prior approval is to ensure professional integrity and that sanitation and safety requirements are met. An application on the form provided by the board must be submitted at least 10 days prior to the event. Approval for the special events may be made administratively.

(1) The sponsor(s) and the establishment where the sponsor(s) is practicing must have a current license.

(2) The sponsor shall apply for the license at least 30 days prior to the event.

B. All provisions of these regulations shall apply with the following exceptions.

(1) Hand wash facilities shall be easily accessible to each procedure area and designated for use by artists only. Hand wash facilities or temporary hand wash facilities shall consist of antibacterial liquid soap, single-use paper towels, and adequate supply of potable water dispensed through a continuous flow spout. Wastewater shall be collected and disposed of in a sanitary manner.

(2) Body artist practitioners may bring pre-sterilized instruments or instruments that have been sterilized at another location with documentation showing a negative spore test result within the previous 30 days. On site sterilization units may be used and shall comply with 16.36.5 NMAC of these rules.

(3) After the last procedure is completed, all procedure areas shall be cleaned and disinfected.

C. A guest licensee is a body artist practitioner who is licensed in another jurisdiction or meets the requirements of licensure in New Mexico and shall practice 30 days or less in New Mexico. Registration is required before any person may act as a guest licensee. An applicant for registration as a guest licensee must:

(1) hold current licensure as a body artist practitioner in another jurisdiction or have the education or experience relating to the applicable type of New Mexico license requested; and

(2) be under the sponsorship of a New Mexico licensed body artist practitioner.

D. To be registered as a guest licensee the following must be submitted to the board:

(1) verification of sponsorship by a licensed body artist practitioner;

(2) a complete application;

(3) registration fee;

(4) proof of age indicating applicant is at least 18 years old (government-issued identification with a photo);

(5) copy of current CPR, first aid and blood borne pathogen training as defined within 16.36.7.9 NMAC.

(6) verification of licensure in another jurisdiction.

E. Applicants not licensed in another jurisdiction must provide documentation of education and experience relating to the applicable type of New Mexico license requested.

F. Guest body art registration will expire 30 days from the date of issuance. A guest license shall not extend beyond 30 days unless the licensee petitions the board and provides documentation that licensee has not worked 30 days in New Mexico. A guest license shall not be granted more than three times within a 12 month period.

[16.36.7.8 NMAC – N, 2/3/2022]

16.36.7.9 PROOF OF COMPLETION OF TRAINING PROGRAM:

Proof shall be provided with the original application that the applicant has, at a minimum, completed the following training prior to making application for a license as a permanent cosmetic practitioner or body art operator. Such training must include:

A. A board approved blood borne pathogens training course that meets OSHA (occupational safety and health administration) standards and CDC (center for disease control) recommendations. The training course shall include an examination as a condition of the training completion. The training must be completed within 12 months prior to application and annually thereafter. The training may be obtained through any of the following:

(1) nationally accredited organization;

- (2) local government sponsored;
- (3) hospital sponsored;
- (4) college sponsored;
- (5) OSHA sponsored;
- (6) red cross; or
- (7) board approved.

B. Current certification in first aid and cardiopulmonary resuscitation (CPR). The training shall be obtained through any of the following:

- (1) nationally accredited organization;
- (2) local government sponsored;
- (3) hospital sponsored;
- (4) college sponsored;
- (5) OSHA (occupational safety and health administration) sponsored;
- (6) red cross; or
- (7) board approved;

C. An applicant for a permanent cosmetics apprenticeship shall file an apprentice agreement notarized by all parties that applicant shall complete the board required training requirements.

16.39.1.17 STATUS OF LICENSURE:

A. Intern Certification - a licensee's intern certification will automatically be superseded by the professional license and will not show as "active" on the roster.

B. Retired status - a licensee shall become eligible for retired status with a waiver of renewal fees after meeting all the following qualifications:

- (1) retired from active practice;
- (2) at least 60 years of age;
- (3) have been a licensee for a continuous period of 20 years, at least 10 of which must have been in New Mexico;
- (4) the licensee has filed an application prescribed by the board for retired status prior to the expiration of the license;
- (5) the licensee does not have any pending complaints;
- (6) the licensee does not have any pending litigation; and
- (7) the licensee has completed any imposed disciplinary actions.

C. Licensees shall request retired status by letter. In the event the licensee on retired status desires to return to practice, the licensee shall apply to the board, comply with the continuing professional development requirements; and if approved shall pay the appropriate fee.

D. Professional engineers and professional surveyors on "retired status" with the board may use the titles "engineer", "surveyor", "professional engineer", "professional surveyor", PE or PS after their names and shall add "(Ret.)" or "(Retired)" after such title.

E. Inactive status - a licensee shall become eligible for inactive status with a waiver of renewal fees and professional development requirements after meeting all the following qualifications:

- (1) the licensee is not engaged in the respective professions (engineering or surveying) which requires licensure in this jurisdiction;

(2) the licensee has been a licensed professional engineer or surveyor in this jurisdiction for 10 consecutive years;

(3) the licensee has filed an application prescribed by the board for inactive status prior to the expiration of the license;

(4) the licensee does not have any pending complaints;

(5) the licensee does not have any pending litigation; and

(6) the licensee has completed any imposed disciplinary actions.

F. In the event a licensee on inactive status desires to return to practice within six years of acquiring inactive status, the licensee shall make proper application to the board, comply with the continuing professional development requirements (a minimum of 30 PDHs) and if approved shall pay the appropriate fee.

G. An inactive licensee who has maintained inactive status in excess of six consecutive years may be readmitted to active practice of the profession only upon making proper application and completion of the requirements as prescribed by the board for reinstatement of a license.

16.39.2.6 OBJECTIVE:

The objective of Part 2 of Chapter 39 is to clearly define requirements of a professional development program for the renewal of professional engineer and surveyor licenses.

[16.39.2.6 NMAC - Rp, 16 NMAC 39.2.6, 12/01/2001]

16.39.2.7 DEFINITIONS:

A. Professional development hour (PDH) - a contact hour (nominal) of instruction or presentation.-The PDH is the common denominator for other units of credit.

B. Continuing education unit (CEU) - unit of credit customarily used for continuing education courses. One continuing education unit equals 10 contact hours in approved continuing education course.

C. College/unit semester/quarter hour - credit for course in ABET approved programs or other related college course approved in accordance with Subsection E of 16.39.2.8 NMAC.

D. Course/activity - any qualifying course or activity with a clear purpose and objective that will maintain, improve, or expand the skills and knowledge relevant to the licensee's field of practice. Regular duties are not considered qualified activities.

E. Dual licensee - a person who is licensed as both a professional engineer and a professional surveyor.

F. Ethics/business-related course or activity - any qualifying course or activity with content areas related to:

- (1) the awareness of ethical concerns and conflicts;
- (2) an enhanced familiarity with the codes of conduct;
- (3) an understanding of standards of practice or care; or
- (4) project management and risk-assessment management.

16.39.2.8 CONTINUING PROFESSIONAL DEVELOPMENT - REQUIREMENTS:

The purpose of the continuing professional development requirement is to enhance the continuing level of professional development of professional engineers and professional surveyors.

A. Introduction - Every licensee shall meet the continuing professional development requirements of these regulations for professional development as a condition for license renewal.

B. Failure to meet requirements - Submission of professional development hours (PDHs) shall be made concurrently with license renewal. Failure to meet the PDH requirements will result in the rejection of renewal.

C. Requirements - each licensee is required to obtain 30 professional development hours (PDH) units during a biennium at least two of which shall be in ethics/business-related. If a licensee exceeds the biennial requirement in any biennial cycle, a maximum of 15 PDH units may be carried forward into the subsequent biennium in accordance with what has been previously reported to the board. PDH units may be earned from participation in qualifying activities as follows:

- (1) successful completion of college courses relevant to engineering and surveying;
- (2) successful completion of short courses, tutorials, webinar or distance-education courses offered for self-study, independent study or group study through synchronous or asynchronous delivery method such as live, correspondence, archival or the internet;

(3) presenting or attending qualifying seminars, in-house courses, workshops, or professional or technical presentations made at meetings, conventions, conferences, or educational institutions;

(4) teaching or instructing in Paragraphs (1) through (3) of Subsection D of 16.39.2.8 NMAC;

(5) authoring published papers, articles, books, or accepted licensing examination items;

(6) active participation in professional or technical societies;

(7) patents;

(8) active participation in educational outreach activities, pertaining to professional licensure or the surveying/engineering professions, as a speaker, instructor, presenter or panelist.

D. Units - the conversion of other units of credit to PDH units is as follows:

(1)	One college or unit semester.....	45 PDH;
(2)	One college or unit quarter hour.....	30 PDH;
(3)	One continuing education unit.....	10 PDH;
(4)	One hour of professional development in coursework, seminars, or professional or technical presentations made at meetings, conventions, or conferences.....	1 PDH;
(5)	for teaching, apply multiple of two(teaching credit is valid for teaching a course or seminar for the first time only; teaching credit does not apply to full-time faculty);	
(6)	Publications:	
	(a) each published peer-reviewed paper or book in the licensee's area of professional practice.....	10 PDH;
	(b) each published paper or article other than Subparagraph (a) of Paragraph (6) of Subsection E of 16.39.2.8 NMAC in the licensee's area of professional practice.....	5 PDH;
(7)	active participation in professional and technical societies (each organization).....	2 PDH;
(8)	each patent.....	10 PDH;
(9)	One hour of outreach activity.....	1 PDH (max 6 PDH/biennium).

E. Determination of credit - the board has final authority with respect to approval of courses, credit, PDH value for courses, and other methods of earning credit:

(1) credit for college or community college approved courses will be based upon course credit established by the college;

(2) credit for qualifying seminars, workshops, professional conventions, and courses/activities may be recommended by the professional societies;

(3) additional criteria for credit determination shall be included in the board policy.

F. Record keeping - each licensee is responsible for maintaining records that support credits claimed is the responsibility of the licensee. Records required include but are not limited to:

(1) a log showing the type of activity claimed, sponsoring organization, location, duration, instructor's or speaker's name, and PDH credits earned;

(2) attendance verification records in the form of completion certificates, paid receipts or other documents supporting evidence of attendance;

(3) proof of membership in a technical organization issuing a publication as a part of its membership fee;

(4) a log indicating the medium used for a technical review, the subject of the review, the author or sponsoring organization, the date the review was conducted, a brief written summary of the contents of the reviewed material and the time spent on the review;

(5) the organization sponsoring a civic or community activity, the date and location of the activity, the subject of the activity and the licensee's involvement in the activity. These records must be maintained for a period of three years and copies may be requested by the board for audit verification purposes.

G. Exemptions - a licensee may be exempt from the professional development educational requirements for One of the following reasons:

(1) new licensees by way of examination or comity/endorsement shall be exempt for the first year directly following the issuance of their license; PDH requirements will be prorated for any remaining portion of the licensing period beyond One year from the date of initial licensure;

(2) a licensee serving on temporary active duty in the armed forces of the United States for a period of time exceeding 120 consecutive days in a calendar year may be exempt from obtaining the professional development hours required during that year; supporting documentation shall be furnished to the board;

(3) licensees experiencing physical disability, illness, or other extenuating circumstances as reviewed and approved by the board may be exempt; supporting documentation must be furnished to the board;

(4) licensees who have been approved for "retired status" by the board shall be exempt from the professional development hours required; in the event such a person elects to return to active practice of professional engineering or professional surveying, professional development hours must be earned before returning to active practice for the preceding biennial cycle.

H. Reinstatement - a licensee may bring a lapsed license to active status by obtaining all delinquent PDH units outstanding from the last biennium and complying with all other reinstatement requirements in the Engineering and Surveying Practice Act and the board's rules and regulations; however, if the total number required to become current exceeds 30, then 30 shall be the maximum number required.

I. Comity/out-of-jurisdiction resident - licensees who are residents of other jurisdictions shall meet the continuing professional development requirements of this board. These requirements may be deemed satisfied when a non-resident licensee provides evidence of having met requirements for another state engineering/surveying licensing board that are equal to or exceed the requirements of this board.

J. Dual licensees - the number of PDH units required shall remain the same for persons who hold a dual license as a professional engineer and professional surveyor; for persons who hold a dual license, half of the PDH units shall be in each profession.

K. Forms - all renewal applications will require the number of earned PDH units. The licensee must sign the renewal application, and submit with the appropriate fee.

C. Other disciplines may be considered as reviewed and approved by the board.

D. A licensee may be listed in no more than three disciplines of engineering. Subsequent to initial licensure, a licensee may apply for licensure in another discipline of engineering. The licensee shall demonstrate competence in that discipline and may be required to appear before the board. Demonstration of competence may be accomplished by presenting evidence as follows:

(1) the licensee shall file a separate application for the additional discipline requested and pay an application fee for the additional application; and

(2) complete the application forms to indicate clearly the education, experience, and three acceptable personal references which will substantiate proficiency in the discipline for which the licensee is applying; experience and personal references must be stated;

(3) an applicant for licensure by endorsement may initially apply for up to three disciplines, provided substantial evidence is presented to the board to demonstrate competence for each requested discipline.

E. Structural discipline - except for an applicant with a B.S. degree with a structural option and a minimum of four years of post-baccalaureate structural engineering experience, listing as a structural engineer may be obtained by having gained an acceptable engineering degree which included a minimum of six hours of structural design; having licensure as a professional engineer; and having four years of structural experience gained after licensure and acceptable to the board.

(1) Passing the NCEES structural tests part I & II may be substituted for two years of the required experience.

(2) A master's degree in structures may be substituted for one year of the required experience.

(3) An applicant for licensure as a structural engineer by endorsement shall meet the requirements of Paragraphs (1) and (2) of Subsection D of 16.39.3.8 NMAC.

F. Specialty sub-disciplines - The professional engineering committee of the board may determine that the special practice of engineering within one or more of the engineering disciplines in Subsection B of 16.39.3.8 NMAC requires unique training/education and experience to adequately protect the public safety and health, and the professional engineering committee of the board shall declare this special practice of engineering to be a specialty sub-discipline. The declaration of a specialty sub-discipline shall be based on a need identified by the state or any of its political subdivisions, availability of appropriate and timely training/education within the state of New Mexico, and the ability of the identification of a specialty sub-discipline to inform the public of the needed special practice of engineering. If the professional engineering committee of the board declares a specialty sub-discipline, after a rules hearing, the requirements for the special practice of engineering shall be included in Title 16, Chapter 39 of the New Mexico administrative code for engineering and surveying:

(1) the specialty sub-discipline rules shall specify the training/education and experience requirements to obtain certification for the special engineering practice, including provisions for equivalent training when a particular course of training/education is specified; in anticipation that more than one discipline identified in Subsection B of 16.39.3.8 NMAC will qualify for the specialty sub-discipline, the rules shall identify which engineering disciplines in Subsection B of 16.39.3.8 NMAC, are most likely to qualify for the specialty sub-discipline;

(2) the board shall maintain a list of engineers who have been certified as meeting the requirements for the specialty sub-discipline; the list shall be available to the public upon request and pursuant to the inspection of public records; the professional engineering committee of the board shall establish a form for the application to obtain a certification for the specialty sub-discipline; upon approval by the professional engineering committee of the board, the qualified licensee's name shall be added to the list of licensees having the specialty sub-discipline;

(3) a licensee's name may be removed from the list of persons certified for the specialty sub-discipline, upon determination by the professional engineering committee of the board that the licensee no longer qualifies for the certification specialty sub-discipline; such removal shall be only after the appropriate process/hearing by the professional engineering committee of the board;

(4) the failure to obtain certification for the specialty sub-discipline shall not limit the practice of engineering within any of the engineering disciplines identified in Subsection B of 16.39.3.8 NMAC, and the failure to obtain certification in the specialty sub-discipline shall not constitute practice outside the licensee's area of competence; however, the failure to obtain certification for a specialty sub-discipline and a determination by the professional engineering committee of the board of inappropriate practice of engineering within the engineering specialty may be cause for determination that the engineering practice is not within the licensee's authorized discipline, and that appropriate disciplinary action can be taken;

(5) the certification of a specialty sub-discipline shall be for a period established by the professional engineering committee of the board, but not less than two years or more than six years; renewal of the specialty sub-discipline shall be concurrent with license renewal;

(6) the professional engineering committee of the board may remove the specialty sub-discipline from the rules for engineering and surveying, after a rules hearing, upon the finding that the training/education is no longer available or that the designation of the specialty sub-discipline is no longer needed to protect the public safety and health.

16.39.3.9 APPLICATION - ENGINEERING INTERN AND PROFESSIONAL ENGINEER:

A. Types of applications- licensure as a professional engineer or certification as an engineer intern require that an applicant present his or her qualifications on forms prescribed by the board.

B. Any application, to be complete, must include acceptable replies from references, official transcripts provided directly from the colleges or universities attended; and if applicable, verification of prior examinations taken in other states.

C. Board members shall not be used as references.

D. Applications for engineering intern certification will be accepted after applicant has passed the fundamentals of engineering exam and graduated from a board-approved, four - year engineering curriculum; or graduated from a four - year

engineering technology program that is accredited by the technical accreditation commission of the ABET, augmented by at least two years of board-approved, post graduate engineering experience. Applications to take the fundamentals of engineering exam administered by the NCEES will not be required from the state board. Successful passing of the fundamentals of engineering exam does not ensure certification as an engineer intern.

E. Applicants for the principles and practices of engineering examination must have certification as an engineer intern and have successfully completed an ABET accredited engineering curriculum of four years or more from a program that fulfills the required content of the engineering education standard as defined by NCEES and shall have a minimum of two years of post-baccalaureate experience acceptable to the professional engineering committee at the date of application and shall have passed the fundamentals of engineering examination. Applicants with an ABET accredited engineering technology degree shall have a minimum of four years of post-baccalaureate experience acceptable to the board at the date of application and shall have passed the fundamentals of engineering examination.

F. No applicant will be eligible to take the professional engineering examination whose application for eligibility has not been completed, reviewed and approved by the board, as set forth in 16.39.3.9 NMAC.

G. Applicants for the professional engineering license will be accepted after applicant has passed the professional engineering exam and has fulfilled the education and experience requirements. Successful passing of the professional engineering exam does not ensure licensure as a professional engineer. To satisfy the statutory requirement for board-approved engineering experience prior to licensure, a candidate with an ABET accredited engineering curriculum of four years or more or a program that fulfills the required content of the engineering education standard as defined by NCEES and shall have four years of post-baccalaureate experience acceptable to the professional engineering committee, and a candidate with an ABET accredited engineering technology degree shall have six years of post-baccalaureate experience acceptable to the professional engineering committee. After successfully completing the professional engineering examination, an applicant, if necessary to meet the licensing requirements in the New Mexico Engineering and Surveying Practice Act, shall update the application as provided by Subsection H of 16.39.3.9 NMAC.

H. To update a professional engineer (PE) application file in relation to experience, the applicant must complete the appropriate portions of the application form and provide references acceptable to the professional engineering committee to verify each additional experience record.

I. Applications for licensure or certification by examination or comity/endorsement which have been approved by the professional engineering committee shall remain valid for two years from the date of approval.

J. An applicant with foreign credentials requesting licensure by examination or endorsement shall provide to the professional engineering committee's satisfaction, evidence that the applicants' qualifications are equal to, or exceed those in New Mexico, including review and fulfillment of the required content of the engineering standard as defined by NCEES.

K. All applicants for PE licensure shall also show proficiency in the English language and shall have a minimum of four years experience working in the United States or for a United States corporation under the direction of a professional engineer who will attest to the applicant's ability and knowledge as a competent engineer.

16.39.3.10 EXAMINATIONS--ENGINEERING INTERN AND PROFESSIONAL ENGINEER:

A. Regularly scheduled examinations shall be held in accordance with NCEES examination schedules.

B. Any applicant that fails an examination will be notified by NCEES.

C. An applicant that has not achieved a passing score on the principles and practice of engineering examination after three unsuccessful attempts, shall only be eligible to take the next scheduled examination after waiting a period of twelve months. The applicant shall provide documentation to the board of further study in preparation of the exam. If an applicant has not achieved a passing score on the principles and practice of engineering examination within the two year application period, the applicant shall only be eligible to take the next scheduled examination after re-submitting a new application and providing detailed documentation to the board of further study in preparation of the exam.

D. The type of examination will be disclosed to the examinee at a time to be set by the NCEES. The examination type will be one of the following:

(1) an "open book" examination shall be an examination during which the examinee may use reference material as specified by the national council of examiners for engineering and surveying;

(2) a "closed book" examination shall mean that absolutely no reference material of any shape or form may be used by the examinee except as provided by the board during the examination; or

(3) a "computer based" examination.

E. Only calculators specified by the NCEES shall be admitted in the examination room during the administration of the licensing examinations.

F. Questions regarding the completed fundamentals of engineering examination or the principles and practice of engineering examination shall be directed to NCEES.

[16.39.3.10 NMAC - Rp, 16 NMAC 39.3.10, 1/01/2002; A, 7/01/2006; A, 7/1/2015; A, 12/28/2017]

16.39.3.11 PRACTICE OF ENGINEERING:

A. Neither a person nor a business entity shall advertise, accept work or offer to practice engineering work in a discipline of engineering unless the person or a member of the organization has been approved by the professional engineering committee in the appropriate discipline and who is legally able to bind that business entity by contract.

B. Neither persons nor business entities shall circumvent these rules. Licensees or business entities may advertise for work only in those disciplines of engineering in which they are approved by the professional engineering committee to practice. Nothing in this section is intended to prevent the existence of an association of professionals in different disciplines.

C. In the event a question arises as to the competence of a licensee in a specific technical field which cannot be otherwise resolved to the board's satisfaction, the board shall, either upon request of the licensee or of its own volition, require the licensee to pass an appropriate examination.

D. The professional engineering committee will consider the use of the terms, "engineer," "engineering," or any modification or derivative of such terms, in the title of a firm or business entity to constitute the offering of engineering. The board will also consider the use of these terms or any modification or derivative of such terms in a corporation's name or its articles of incorporation or in a foreign corporation's certificate of authority as published by the New Mexico secretary of state to constitute the offering of engineering services.

E. In the case of practice through a business entity offering or providing services or work involving the practice of engineering, an authorized company officer and the professional engineer who is employed by the business entity and in responsible charge shall place on file with the board within 30 days a signed affidavit, as prescribed by board rule. The affidavit shall be kept current, and, if there is any change in the professional engineer or authorized company officer, the affidavit shall be revised within 30 days and resubmitted to the board.

F. The board shall recognize that there may be occasions when engineers need to obtain supplemental survey information for the planning and design of an engineering project. An engineer may densify, augment and enhance previously performed survey

work by a surveyor for a project as defined in Subsection U of Section 61-23-3 NMSA 1978 of the Engineering and Surveying Practice Act.

G. In the case of an employee of a business entity who performs only the engineering services involved in the operation of the business entity's business, the extent to which the engineering services can be provided without licensure is limited to only the legal boundaries of the property owned or leased by that business. Practice beyond this extent or within off-premises easements is considered within public space and is subject to the Engineering and Surveying Practice Act.

16.39.3.12 SEAL OF LICENSEE:

A. Each licensed professional engineer shall obtain a seal/stamp, which shall appear on all final engineering design drawings, the certification page of all specifications and engineering reports prepared by the licensee in responsible charge. Adjacent to the seal/stamp shall appear the original signature of the licensee along with the date the signature was applied. Rubber stamps signatures are not acceptable. Electronic signatures as provided by law and board's policy shall be acceptable.

B. The seal/stamp shall be the impression type seal, the rubber type, or a computer-generated facsimile. Computer generated seals shall be bona fide copies of the actual seal/stamp specific to the work being presented.

C. The design of the seal/stamp shall consist of either:

(1) three concentric circles, the outermost circle being one and one-half inches in diameter, the middle circle being one inch in diameter, and the innermost circle being one-half inch in diameter. The outer ring shall contain the words, "*professional engineer*" and the licensee's name. The inner ring shall contain the words "*New Mexico*". The center circle shall contain the license number issued by the board. Any border pattern used by the manufacturer is acceptable; or

(2) a design approved by the board which contains the words "*professional engineer*", the licensee's name, "*New Mexico*", and the license number issued by the board each in text no less than 0.1 inches in height.

D. Professional engineers who were licensed prior to the enactment of these current rules and who have maintained that license without lapse, may retain and use the seals, stamps, and wall certificates previously approved.

E. For the purposes of the Engineering and Surveying Practice Act, a licensee of this board has "responsible charge of the work" as defined in Subsection O of Section 61-23-3 NMSA 1978 and may sign, date and seal/stamp plans, specifications, drawings

or reports which the licensee did not personally prepare when plans, specifications, drawings or reports have been sealed only by another licensed engineer, and the licensee or persons directly under his personal supervision have reviewed the plans, specifications, drawings or reports and have made tests, calculations or changes in the work as necessary to determine that the work has been completed in a proper and professional manner.

F. The seal and signature shall be placed on work only when it is under the licensee's responsible charge. The licensee shall sign and seal only work within the licensee's area of discipline.

G. When the document contains more than one sheet, the first or title page shall be sealed and signed by the licensee who was in responsible charge. Two or more licensees may affix their signatures and seals provided it is designated by a note under the seal specific subject matter for which each is responsible. In addition, each sheet shall be sealed and signed by the licensee or licensees responsible for that sheet. When a firm performs the work, each sheet shall be sealed and signed by the licensee or licensees who were in responsible charge of that sheet and, in the case of multiple licensees, explicitly identify the portion of work attributable to each licensee.

H. An electronic signature, as an option to a permanently legible signature, is acceptable for professional documents. The licensee shall provide adequate security regarding the use of the seal and signature. If the document contains more than one licensee and is electronically transmitted as specified under the preceding paragraph, each signature must contain an independent electronic signature.

16.39.3.13 ENDORSEMENTS:

For the purpose of New Mexico licensees by endorsement from other states, or possessions, the professional engineering committee will only recognize licensure granted by those authorities when the professional engineering committee has determined that the applicant possesses qualifications which "do not conflict with the provisions of the Engineering and Surveying Practice Act and are of standard not lower than that specified in Sections 61-23-14 and 61-23-14.1, NMSA 1978". Conditions establishing eligibility for licensure by endorsement shall have been met at the time of initial licensure. Additionally, the applicant must have a current license in another state, the district of Columbia, a territory or a possession of the United States, or in a foreign country. Conditions for endorsement for licensure as a professional engineer shall be as follows:

A. has been actively licensed for the contiguous 10 years immediately preceding application to New Mexico, and has not received any form of disciplinary action related to the practice of engineering or professional conduct from any jurisdiction within the

five years preceding application to New Mexico, and has not had the applicant's professional license suspended or revoked at any time from any jurisdiction; (2019 law);

B. graduation from an approved engineering curriculum that fulfills the required content of the engineering education standard as defined by NCEES, four years of experience satisfactory to the professional engineering committee, and passing of the eight - hour fundamentals and eight - hour professional examinations; (2017 law);

C. graduation from an ABET accredited engineering technology program, six years of experience satisfactory to the professional engineering committee, and passing of the eight - hour fundamentals examination and eight - hour professional examination (1993 law);

D. graduation from an approved engineering curriculum, four years of experience satisfactory to the professional engineering committee, and passing of the eight hour fundamentals and eight - hour professional examinations; (1979 law and 1987 law);

E. licensure prior to July 1, 2002, graduation from an ABET accredited engineering technology program or from an engineering or related science curriculum approved by the committee, six years of experience satisfactory to the professional engineering committee, and passing of the eight -hour fundamentals and eight -hour professional examination (1993 law);

F. licensure prior to July 1, 1993, by graduation from an engineering or related science curriculum other than the ones approved by the committee, eight years of experience satisfactory to the professional engineering committee, and passing of the eight -hour fundamentals and eight -hour professional examination (1979 law and 1987 law);

G. licensure prior to July 1, 1993, by graduation from an engineering or related science curriculum, 20-years experience satisfactory to the professional engineering committee, and passing the eight -hour professional examination (1979 law and 1987 law);

H. licensure prior to July 1, 1940, by 12 years of experience satisfactory to the professional engineering committee (1934 law);

I. licensure prior to July 1, 1957, by graduation from an approved curriculum, and four years or more of experience satisfactory to the professional engineering committee (1935 law);

J. licensure prior to July 1, 1957, by passing a written and oral examination designed to show knowledge and skill approximating that attained through graduation from an approved curriculum, and four years or more of experience satisfactory to the professional engineering committee (1952 law);

K. licensure prior to July 1, 1967, by 24 years of experience satisfactory to the professional engineering committee, and by passing an oral examination (1957 law);

L. licensure prior to July 1, 1967, by graduation from an approved curriculum prior to July 1, 1957, and passing the eight - hour professional examination (1957 law);

M. licensure prior to July 1, 1979, by eight years of experience satisfactory to the professional engineering committee, and by having passed the eight - hour fundamentals and eight - hour professional examinations (1969 law);

N. licensure prior to July 1, 1979, by 30 years of experience, the last 12 years of which must have been of outstanding nature and by having been nationally eminent among his peers (1967 law);

O. for the purposes of endorsement, an approved engineering curriculum shall be an ABET accredited engineering curriculum of four years or more or equivalent as determined by the board.

16.39.4.8 INCIDENTAL PRACTICE OF ARCHITECTURE AND ENGINEERING:

As defined in Subsection A of Section 61-23-22 NMSA 1978 means:

A. architectural work incidental to engineering shall be that architectural work provided on projects with a building construction value not greater than six hundred thousand dollars (\$600,000) and having a total occupant load not greater than 50;

B. engineering work incidental to architecture shall be that engineering work provided on projects with a building construction value not greater than six hundred thousand dollars (\$600,000) and having a total occupant load not greater than 50;

C. all buildings and related structures within the regulatory provisions of the New Mexico Uniform Building Code (NMUBC) will require the proper authentication of the building construction documents by all participating disciplines in accordance with their respective governing acts on projects with a building construction value greater than six hundred thousand dollars (\$600,000) or having a total occupant load greater than 50, with the exception of:

(1) single-family dwellings not more than two stories in height;

(2) multiple dwellings not more than two stories in height containing not more than four dwelling units of wood-frame construction; provided this paragraph shall not be construed to allow a person who is not registered under the Architectural Act to design multiple clusters of up to four dwelling units each to form apartment or condominium complexes where the total exceeds four dwelling units on any lawfully divided lot;

(3) garages or other structures not more than two stories in height which are appurtenant to buildings described in Paragraph (1) and (2) of Subsection C of 16.39.4.8 NMAC; or

(4) nonresidential buildings, as defined in the uniform building code, or additions having a total occupant load of 10 or less and not more than two stories in height, which shall not include E-3 (Day Care), H (Hazardous), or I (Institutional) occupancies;

(5) alterations to buildings or structures which present no unusual conditions, hazards or change of occupancy.

D. the owner, user or using agency shall select the prime design professional (architect or engineer) for any project based on the requirements and nature of the project;

16.39.5.7 DEFINITIONS:

A. "ABET" is defined as the accreditation board for engineering and technology.

B. "Augment", as it relates to curriculum in this part, shall refer to classes taken as a part of or in addition to a formal degree program.

C. "Authoritative location" is defined as an accurately and precisely established location of a feature, object or boundary sufficient for use in establishing property rights, legal proceedings, or to protect the welfare and safety of the public.

D. "Board-approved, four year curriculum in surveying" is defined as:

(1) surveying curriculum of four years that has been accredited by ABET within at least three years of the applicant's graduation with a bachelor's degree in surveying;

(2) curriculum not accredited by ABET but with a minimum number of surveying credits required for accreditation by ABET;

E. "Board-approved related science degree" is defined as:

(1) A four year bachelor of arts or science degree that is augmented by a minimum of 18 core curriculum hours in surveying, 12 hours of higher mathematics and six hours of basic science.

(2) Core surveying classes shall include a minimum of a three hour semester course in each of the following areas:

(a) boundary law/ legal principles of land surveying;

(b) public land surveying system (PLSS);

(c) plane surveying;

(d) geodesy or photogrammetry.

(3) The remainder of the 18 core curriculum hours in surveying may include classes in route surveying, geographic information systems, land development, global

positioning systems, photogrammetry or geodesy, remote sensing, mapping, or professional ethics .

(4) 12 hours of higher mathematics may include college algebra, trigonometry, analytical geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistic and advanced calculus.

(5) Six hours of basic science may include physics, chemistry, geology, physical geography, biology, and astronomy.

F. "Four year", as it relates to a minimum course of academic study in this part, means a program of study normally associated with a university, college or other accredited academic course of study that includes a minimum 120 semester hours.

G. "Geomatics", as it relates to curriculum as discussed in these rules, will be considered synonymous with surveying.

H. "NCEES" refers to the national council of examiners for engineering and surveying.

16.39.5.8 APPLICATION - SURVEYOR INTERN AND PROFESSIONAL SURVEYOR:

A. Types of application - licensure as a professional surveyor or certification as a survey intern require that an applicant present his or her qualifications on forms prescribed by this board.

B. Any application, to be complete, must include acceptable replies from references, official transcript(s) provided directly from the university; and if applicable, verification(s) of prior examinations taken in other state(s).

C. Board members shall not be used as references.

D. Applications for surveying intern certification will be accepted after an applicant has passed the fundamentals of surveying exam and has graduated from a board-approved, four year surveying curriculum, or if a graduate of an approved four year curriculum in a related science as defined by Subsection E of Section 16.39.5.7 NMAC and augmented with the required two-year combined office and field board approved surveying experience obtained under the direction of a licensed professional surveyor. Class time will not be counted in the required years of experience, but work prior to or while attending school may be counted toward the required experience at the discretion of the board.

E. Applicants for the principles and practices of surveying examination having graduated with a board-approved four year surveying curriculum of four years or more, or with a related-science degree, as determined by the board shall have a minimum of four years of experience acceptable to the professional surveying committee at the date of application and shall have passed the fundamentals of surveying examination.

F. No applicant will be eligible to take the professional surveying examination whose application for eligibility has not been completed, reviewed and approved by the board, as set forth in 16.39.5.8 NMAC.

G. Applicants for the professional surveying license will be accepted after applicant has passed the professional surveying exam, the New Mexico state specific surveying exam, and has fulfilled the education and experience requirements. Successful passing of the professional surveying exam does not ensure licensure as a professional surveyor. To satisfy the statutory requirement for board-approved surveying experience prior to licensure, a candidate with a board-approved surveying curriculum of four years or more as determined by the board shall have four years of experience acceptable to the professional surveying committee. This experience may be acquired before or after certification as a surveying intern. A candidate with a related science degree shall have four years of surveying experience acceptable to the professional surveying committee pursuant to the Engineering and Surveying Practice Act, Subsection A of Section 61-23-27.4 NMSA 1978. After successfully completing the professional surveying examination, an applicant, if necessary to meet the licensing requirements in the New Mexico Engineering and Surveying Practice Act, shall update the application as provided by Subsection H of 16.39.5.8 NMAC.

H. To update a professional survey (PS) application file in relation to experience, the applicant must complete an application update form and provide references acceptable to the professional surveying committee to verify each additional experience record.

I. Applications for licensure or certification by examination, comity or endorsement which have been approved by the professional surveying committee shall remain valid for two years from the date of approval.

J. An applicant with foreign credentials requesting licensure by examination or endorsement shall provide to the professional surveying committee's satisfaction, evidence that the applicant's qualifications are equal to or exceed the qualifications for licensure in effect in New Mexico at the time of application.

K. All applicants for professional surveyor license shall show proficiency in the English language and shall have a minimum of four years of experience if a graduate of a board approved, four year surveying curriculum or eight years if a graduate of a board approved related science curriculum, working in the United States, or for a United States corporation, under the direction of a licensed professional surveyor who can attest to the applicant's ability and knowledge as a competent surveyor.

L. When considering surveying applicants who are graduates of educational programs from a school, college or university outside of the United States and its jurisdictions, or considering applicants from related science programs, the board will evaluate and approve the degrees on an individual basis. The board may require an independent evaluation of the education and such evaluation shall be done through an organization approved by the board and at the expense of the applicant.

16.39.5.9 EXAMINATIONS--SURVEYOR INTERN AND PROFESSIONAL SURVEYOR:

A. Regularly scheduled examinations shall be held in accordance with NCEES examination schedules. Other examinations may be held at times and places as determined by the professional surveying committee.

B. An applicant that fails the New Mexico state specific surveying examination will be notified of the next available examination sessions. A written request to retake the examination and payment of the examination fee shall be on or before the specified date set by the board. Any applicant that fails a NCEES examination will be notified by NCEES.

C. An applicant that has not achieved a passing score on the principles and practice of surveying examination after three unsuccessful attempts, shall only be eligible to take the next scheduled examination after waiting a period of 12 months. The applicant shall provide documentation to the board of further study in preparation of the exam. If an applicant has not achieved a passing score on the principles and practice of surveying examination within the two year application period shall only be eligible to take the next scheduled examination after re-submitting a new application and providing detailed documentation to the board of further study in preparation of the exam.

D. The type of examination will be disclosed to the examinee at a time to be set by the NCEES. The examination type will be one of the following:

(1) an "**open book**" examination shall be an examination during which the examinee may use reference material as specified by the national council of examiners for engineering and surveying;

(2) a "**closed book**" examination shall mean that absolutely no reference material of any shape or form may be used by the examinee except as provided by the board during the examination; or

(3) a "**computer based**" examination.

E. Only calculators specified by the NCEES shall be admitted in the examination room during the administration of the licensing examinations.

F. An applicant who has a question regarding the New Mexico state specific surveying examination shall put the question in writing to the professional surveying committee. The question will be considered at the next professional surveying committee meeting. The committee's answer to the examinee shall be in writing. Questions regarding the completed fundamental of surveying examination or the principles and practice surveying examination shall be directed to NCEES.

16.39.5.10 PRACTICE OF SURVEYING:

A. A person or any business entity shall not advertise or offer to practice surveying work or accept such work unless that person or a member of the business entity is licensed by the board and is legally able to bind that business entity by contract.

B. Neither persons nor business entities shall circumvent these rules.

C. Nothing in this section is intended to prevent the existence of an association of professionals in different disciplines.

D. The board will consider the use of the terms, "surveyor", "surveying" or any modification or derivative of such terms, in the title of a firm or business entity to constitute the offering of surveying services. The board also considers the use of these terms or any modification or derivative of such terms in a domestic corporation's articles of incorporation or in a foreign corporation's certificate of authority as published by the New Mexico's secretary of state to constitute the offering of surveying services.

E. In the case of practice through a business entity offering or providing services or work involving the practice of surveying, an authorized company officer and the professional surveyor who is employed by the business entity and in responsible charge shall place on file with the board a signed affidavit within 30 days, as prescribed by board rule. The affidavit shall be kept current, and, if there is any change in the professional surveyor or authorized company officer, the affidavit shall be revised within 30 days and resubmitted to the board.

F. Inclusions and exclusions to the practice of surveying.

Land surveying does not encompass work products which represent only a generalized location of a feature, object, or boundary upon which the public would not reasonably rely as the precise location of that feature, object, or boundary.

(1) Activities included within the practice of surveying activities that must be accomplished by or under the responsible charge of a professional surveyor (unless specifically exempted in Subsection B of this Section) include, but are not limited to, the following:

(a) The creation of maps and georeferenced databases representing authoritative locations for boundaries, the location of fixed works, or topography. This includes maps and georeferenced databases prepared by any person or government agency where that data is provided to the public as a survey product.

(b) Original data acquisition, or the resolution of conflicts between multiple data sources, when used for the authoritative location of features within the following data themes: geodetic control, orthoimagery, elevation and hydrographic, fixed works, private and public boundaries, and cadastral information.

(c) Certification of positional accuracy of maps or measured survey data.

(d) Adjustment or authoritative interpretation of raw survey data.

(e) Geographic information system (GIS)-based parcel or cadastral mapping used for authoritative boundary definition purposes wherein land title or development rights for individual parcels are, or may be, affected.

(f) Authoritative interpretation of maps, deeds, and other land title documents to resolve conflicting data elements.

(g) Acquisition of field data required to authoritatively position fixed works or cadastral data relative to geodetic control.

(h) Analysis, adjustment or transformation of cadastral data of the parcel layers with respect to the geodetic control layer within a geographic information system (GIS) resulting in the affirmation of positional accuracy.

(2) Activities excluded from the practice of surveying. A distinction must be made in the use of electronic systems between making or documenting original measurements in the creation of survey products, versus the copying, interpretation, or representation of those measurements in such systems. Further, a distinction must be made according to the intent, use, or purpose of measurement products in electronic systems to determine a definitive location versus the use of those products as a locational reference for planning, infrastructure management, and general information. The following items are not to be included as activities within the definition of the practice of surveying:

(a) The creation of general maps:

(i) Prepared by private firms or government agencies for use as guides to motorists, boaters, aviators, or pedestrians.

(ii) Prepared for publication in a gazetteer or atlas as an educational tool or reference publication.

(iii) Prepared for or by education institutions for use in the curriculum of any course of study.

(iv) Produced by any electronic or print media firm as an illustrative guide to the geographic location of any event.

(v) Prepared by laypersons for conversational or illustrative purposes. This includes advertising material and user guides.

(b) The transcription of previously georeferenced data into a geographic information system (GIS) or land information systems (LIS) by manual or electronic means, and the maintenance thereof, provided the data are clearly not intended to indicate the authoritative location of property boundaries, the precise definition of the shape or contour of the earth, and/or the precise location of fixed works of humans.

(c) The transcription of public record data, without modification except for graphical purposes, into a GIS- or LIS-based cadastre (tax maps and associated records) by manual or electronic means, and the maintenance of that cadastre, provided the data are clearly not intended to authoritatively represent property boundaries. This includes tax maps and zoning maps.

(d) The preparation of any document by any federal government agency that does not define real property boundaries. This includes civilian and military versions of quadrangle topographic maps, military maps, satellite imagery, and other such documents.

(e) The incorporation or use of documents or databases prepared by any federal agency into a Geographic information system (GIS)/ land information systems (LIS), including but not limited to federal census and demographic data, quadrangle topographic maps, and military maps.

(f) Inventory maps and databases created by any organization, in either hard-copy or electronic form, of physical features, facilities, or infrastructure that are wholly contained within properties to which they have rights or for which they have management responsibility. The distribution of these maps and/or databases outside the organization must contain appropriate metadata describing, at a minimum, the accuracy, method of compilation, data sources and dates, and disclaimers of use clearly indicating that the data are not intended to be used as a survey product.

(g) Maps and databases depicting the distribution of natural resources or phenomena prepared by foresters, geologists, soil scientists, geophysicists, biologists, archeologists, historians, or other persons qualified to document such data.

(h) Maps and georeferenced databases depicting physical features and events prepared by any government agency where the access to that data is restricted by statute. This includes georeferenced data generated by law enforcement agencies involving crime statistics and criminal activities.

G. In the case of an employee of a business entity who performs only the surveying services involved in the operation of the business entity's business, the extent to which the surveying services can be provided without licensure is limited to only the legal boundaries of the property owned or leased by that business. Practice beyond this extent or within off-premises easements is considered within public space and is subject to the Engineering and Surveying Practice Act.

16.39.5.11 SEAL OF LICENSEE:

A. Each licensed professional surveyor shall obtain a seal/stamp which must be impressed on all plats, reports, etc., prepared by the licensee in responsible charge. Adjacent to the seal/stamp shall appear the original signature of the licensee along with the date the signature was applied. Rubber stamps and all facsimiles of signatures are not acceptable. Electronic signature as provided by law and board's policy shall be acceptable.

B. The seal/stamp shall be either the impression type seal, the rubber type, or a computer-generated facsimile. Computer-generated seals shall be bona fide copies of the actual seal/stamp specific to the work being presented.

C. The design of the seal/stamp shall consist of either:

(1) three concentric circles, the outermost circle being one and one-half inches in diameter, the middle circle being one inch in diameter, and the innermost circle being one-half inch in diameter. The outer ring shall contain the words, "professional surveyor" and the licensee's name. The inner ring shall contain the words "New Mexico". The center circle shall contain the license number issued by the board. Any border pattern used by the manufacturer is acceptable; or

(2) a design approved by the board which contains the words "professional surveyor", the licensee's name, "New Mexico", and the license number issued by the board each in text no less than 0.1 inches in height.

D. Professional surveyors who were licensed prior to the enactment of these current rules and who have maintained that license without lapse, may retain and use the seals, stamps, and wall certificates previously approved.

E. The seal and signature shall be placed on work only when it was under the licensee's responsible charge. The licensee shall sign and seal only work within the licensee's area of discipline.

F. When the document contains more than one sheet, the first or title page shall be sealed and signed by the licensee who was in responsible charge. Two or more licensees may affix their signatures and seals provided it is designated by a note under the seal the specific subject matter for which each is responsible. In addition, each sheet shall be sealed and signed by the licensee or licensees responsible for that sheet. When a firm performs the work, each sheet shall be sealed and signed by the licensee or licensees who were in responsible charge of that sheet and, in the case of multiple licensees, explicitly identify the portion of work attributable to each licensee.

G. An electronic signature, as an option to a permanently legible signature, is acceptable for professional documents. The licensee shall provide adequate security regarding the use of the seal and signature. If the document contains more than one licensee and is electronically transmitted as specified under the preceding paragraph, each signature must contain an independent electronic signature.

16.39.5.12 ENDORSEMENTS:

For the purpose of New Mexico licensees by endorsement from other states, or possessions, the professional surveying committee will only recognize licensure granted by those authorities when the professional surveying committee has determined that the applicant possesses qualifications which "do not conflict with the provisions of the Engineer and Surveying Practice Act and are of standard not lower than that specified in Sections 61-23-27.3 and 61-23-27.4 NMSA 1978". Conditions establishing eligibility for licensure by endorsement shall have been met at the time of initial licensure. Additionally, the applicant must have a current license in another state, the District of Columbia, a territory or a possession of the United States, or in a foreign country. Conditions for endorsement for licensure as a professional surveyor shall be as follows:

A. Graduation from a four year board-approved surveying curriculum, four years of experience satisfactory to the professional surveying committee, and passing of the fundamentals of surveying and professional surveying examinations (1995 law).

B. Graduation from an engineering or related science curriculum that are approved by the committee and augmented with 18 semester hours of surveying, eight years of

experience satisfactory to the professional surveying committee, and passing of the eight hour fundamentals and eight hour professional examinations (1995 law).

C. Licensure prior to July 1, 1995, by graduation from a two year board-approved surveying or associated curriculum, eight years of experience satisfactory to the professional surveying committee and passing of the eight hour fundamentals and eight hour professional examination.

D. Licensure prior to July 1, 1995, by graduation from a board- approved surveying or associated curriculum of at least 45 semester hours, eight years of experience satisfactory to the professional surveying committee, and passing of the eight hour fundamentals and eight hour professional examination;

E. Licensure prior to July 1, 1979, eight years of experience satisfactory to the professional surveying committee and passing of the eight hour fundamentals and eight hour professional examinations.

16.39.7.9 VIOLATIONS:

A. For business entities using the words "engineering" or "surveying" in their titles or offering engineering or surveying services, the board's executive director shall write the business entity, enclosing an affidavit to be completed which identifies the member of the business entity who is licensed to practice in the state of New Mexico and who is an employee of and legally able to bind the business entity by contract. If no response to this request is received within 30 days, a second letter shall be sent by certified mail, return receipt requested. If the second letter does not result in a response 30 days from the receipt of a refusal, the matter may be turned over to the attorney general's office for action.

B. It shall be considered "a violation" under Paragraph (1) of Subsection A of Section 61-23-24 NMSA 1978 and Paragraph (1) of Subsection A of Section 61-23-27.11 NMSA 1978 of the Engineering and Surveying Practice Act for any engineer or surveyor to practice or offer to practice outside their field(s) of demonstrated competence or in contravention of any of the provisions of these rules. It shall also be considered "a violation" under Subsection A of Section 61-23-23.1 NMSA 1978 and Subsection A of Section 61-23-27.15 NMSA 1978 of the Engineering and Surveying Practice Act for any person to act in the capacity of a professional engineer or a professional surveyor without being licensed by the board.

C. The practice or offer to practice engineering by a licensee of the board in any state, territory or country where the licensee has been determined to be in violation of that jurisdiction's licensing requirement shall be considered to be professional misconduct which may be actionable by the board. The practice or offer to practice surveying by a licensee of the board in any state, territory, or country where the licensee has been determined to be in violation of that jurisdiction's licensing requirement shall be considered to be professional misconduct which may be actionable by the board.

D. Each applicant or licensee shall notify the board, in writing, within 90 days, of the imposition of any disciplinary action by any other applicable licensing board or any conviction of or entry of plea of nolo contendere to any crime under the laws of the United States, or any state, territory or county thereof, which is a felony, whether related to practice or not; any conviction of or entry of plea of nolo contendere to any crime, which is a felony directly related to the practice of engineering or surveying as listed in Subsection F of 16.39.7.9 NMAC.

E. The board shall comply with the provisions of the Parental Responsibility Act as they relate to the denial, suspension or revocation of certificates of licensure for non-payment of child support.

F. Criminal Convictions:

(1) Felony convictions for any of the following offenses, or their equivalents in any other jurisdiction, that may disqualify an applicant from receiving licensure, or disciplinary action including but not limited to suspension or revocation:

- (a) crimes involving homicide, murder, manslaughter, or resulting in death;
- (b) crimes involving human trafficking, or trafficking in controlled substances;
- (c) kidnapping, false imprisonment, assault, aggravated assault, battery, aggravated battery;
- (d) rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, prostitution, or other sexual crimes;

(e) crimes involving great bodily harm, adult abuse, child abuse, neglect, abandonment, stalking, aggravated stalking, injury to pregnant woman, custodial interference, property damage, or financial exploitation;

(f) crimes involving ransom, robbery, larceny, extortion, burglary, sabotage, fraud, forgery, embezzlement, identity theft, credit card fraud, unauthorized use of a credit card; receiving stolen property, money laundering, burglary tools, or stolen vehicles;

[16.39.8.5 NMAC - Rp, 16 NMAC 39.8.5, 1/01/2002]

16.39.8.6 OBJECTIVE:

The objective of part 8 is to establish and maintain rules of professional conduct for professional engineers and professional surveyors.

[16.39.8.6 NMAC - Rp, 16 NMAC 39.8.6; 1/01/2002; A, 7/01/2006]

16.39.8.7 DEFINITIONS:

In these Rules of Professional Conduct, the word "licensee" shall mean any person holding a current license or certification issued by the Board.

[16.39.8.7 NMAC - Rp, 16 NMAC 39.8.7, 1/01/2002]

16.39.8.8 PREAMBLE:

A. In order to safeguard life, health and property, to promote the public welfare, and to establish and maintain a high standard of integrity and practice, the following Rules of Professional Conduct shall apply to every person holding a certificate of licensure to perform engineering or surveying services in the State of New Mexico.

B. The Rules of Professional Conduct as promulgated herein are an exercise of the regulatory power vested in the Board by virtue of the acts of the legislature. These rules are in addition to but are not intended to supersede, the provisions of the New Mexico Engineering and Surveying Practice Act.

C. All persons licensed under the New Mexico Engineering and Surveying Practice Act are charged with having knowledge of the existence of these Rules of Professional Conduct and shall be deemed to be familiar with the provisions of these rules and to understand them. Such knowledge shall encompass understanding these rules of Professional Conduct and failure to follow these rules may be considered misconduct by the Board.

[16.39.8.8 NMAC - Rp, 16 NMAC 39.8.8, 1/01/2002]

16.39.8.9 RULES OF PROFESSIONAL CONDUCT:

A. The protection of the public safety, health, welfare and property in the performance of professional duties.

(1) Perform those duties in conformance with accepted engineering and surveying practices.

(2) Notify their employer or client and such other authority as may be appropriate of any instance in which their professional judgment is overruled under circumstances endangering the public safety, health, welfare or property.

(3) Approve and seal only those engineering and surveying documents which conform to applicable engineering and surveying standards.

(4) Shall not reveal privileged or confidential facts, data or information without prior consent of the client or employer except as authorized or required by law or this code.

(5) Refuse to associate in a business venture with any person or firm whom they may have reason to believe is engaging in fraudulent or dishonest business or professional practices as an engineer or surveyor and refuse to use or permit the use of their name or firm in connection with any such business venture.

(6) Inform the board of any violation of this code. Cooperate with the board in furnishing information or assistance as may be requested by the board in matters concerning violations.

(7) Shall not assist or participate in the unlawful practice of engineering and surveying by a person or firm.

B. Specialization and the performance of services only in specific areas of competence.

(1) Licensees shall undertake assignments only when qualified by education, experience or examination in the specific technical fields of engineering or surveying involved.

(2) Licensees shall not affix their signatures or seals to any plans or documents dealing with subject matter in which they lack competency, nor to any such plan or documents not prepared under their responsible charge.

(3) Licensees may accept an assignment when the total work involves technical fields beyond those in which they are qualified, providing their services are limited to those phases in which they are qualified and that the phases in which they are not qualified are performed by licensees who are properly qualified. In this instance, each qualified licensee will sign and seal the documents for their phase of the assignment.

C. The issuance of public statements.

(1) Licensees shall be objective and truthful in professional reports, statements or testimony. A professional report or professional opinion issued by or under the responsible charge of a licensee shall not contain any intentionally false, misleading or deceitful statements or testimony. Any report, statement or testimony by a licensee shall contain all relevant and pertinent information as required by accepted engineering or surveying principles.

(2) If a licensee issues statements on technical matters in his or her capacity as a professional engineer or professional surveyor on behalf of an interested party, the licensee must expressly preface his or her remarks by identifying said interested party and by revealing the existence and nature of any interest the licensee may have in the matter.

(3) A licensee who is competent in the subject matter may express publicly technical opinions that are found upon knowledge of the facts.

D. Professional relationships with employer or client.

(1) Licensees shall act in professional matters for each employer or client to avoid conflicts of interest. Licensees shall disclose all known or potential conflicts of interest to their employers or clients by promptly informing them of any business association, interest or other circumstances which could reasonably be expected to influence their judgment or the quality of their services.

(2) Licensees shall not accept compensation, financial or otherwise, from more than one party for services on the same project, unless the circumstances are fully disclosed to, and agreed to, by all interested parties.

(3) Licensees shall not solicit or accept any gratuity, material favor, or any valuable consideration, directly or indirectly, from contractors, their agents, servants or employees or from any other party dealing with his client or employer in connection with any project for which he is performing or has contracted to perform engineering or surveying services. (The phrase "valuable consideration" is defined to mean any act, article, money or other material possession which is of such value or proportion that its acceptance creates a clandestine obligation on the part of the receiver or otherwise compromises his ability to exercise his own judgment.)

(4) Licensees in public service as a member or employee of a governmental body, agency or department shall not participate, directly or indirectly in deliberations or actions which would constitute a conflict of interest with respect to services offered or provided by him, his associates, or the licensee's business entity to such governmental body, agency or department.

(5) Licensees shall not solicit or accept a professional contract from a governmental body on which a principal or officer of their business entity serves as a member, except upon public disclosure of all pertinent facts and circumstances and consent of appropriate public authority.

(6) Licensees shall not reveal privileged or confidential facts, data or information obtained in a professional capacity without prior consent of the client or employer except:

(a) As provided in Paragraphs (2) and (6) of Subsection A of 16.39.8.9 NMAC.

(b) As authorized or required by law.

(c) Any document that is a matter of public record by virtue of it being on file with a public agency.

(d) Any fact, data or information which is clearly the property of the engineer or surveyor.

E. Solicitation of professional employment.

(1) Licensees shall not falsify or permit misrepresentation of their, or their associates' academic or professional qualifications. They shall not misrepresent or exaggerate their degree of responsibility in or for the subject matter of prior assignments. Brochures or other representations incident to the solicitation of employment shall not misrepresent pertinent facts concerning employers, employees,

associates, joint ventures or past accomplishments with the intent and purpose of enhancing their qualifications and their work.

(2) Licensees shall not offer, give, solicit or receive, either directly or indirectly, any commission, gift, or other valuable consideration in order to secure or influence the award of work and shall not make any political contribution in an amount intended to influence the award of a contract by public authority, and which may be reasonably construed by the public as having the effect or intent to influence the award of a contract.

F. Avoiding conduct or practice that deceives the public.

(1) Licensees shall avoid the use of a statement containing a material misrepresentation of a fact or omitting a material fact.

(2) Consistent with the foregoing, licensees may prepare articles for the lay or technical press, but such articles shall not imply credit to the author for work performed by others.

G. Interaction with other licensees.

(1) Licensees shall not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation, prospects, practice or employment of other licensees.

(2) Licensees in private practice shall not review the work of another licensee for the same client, except with the knowledge of such licensees, or unless the connection of such licensee with the work has been terminated.

(3) Licensees in governmental, industrial, or educational employment are entitled to review and evaluate the work of other licensees when so required by their employment duties.

16.42.1.12 ADVERTISING:

A. Each licensed interior designer (LID), shall include their name, state and license number in any newspaper, telephone directory, or any other advertising medium used by the LID. A sole proprietorship, corporation, limited liability company or partnership advertising interior design services is required to display the name, state and license number of at least one LID employed by or working within that business entity.

B. Definition:

(1) When using the words "licensed interior designer" or "licensed interior design" in any advertising medium, LIDs shall include their position, job description, or title and include the state and license number. A license number is not required unless the individual is a LID and using the terms "licensed interior design" or "licensed interior designer".

(2) The term "newspaper, telephone directory, or other advertising medium" as used in Subsection A, shall mean any of the following when paid for or produced by or for a licensed interior designer (LID) (telephone business directory listings are deemed to be produced for a LID notwithstanding whether the listings are paid for):

- (a) telephone directory listings;
- (b) construction site signs;
- (c) airwave transmissions;
- (d) handbills;
- (e) all billboards, on or off site;
- (f) shopping and service guides;
- (g) magazine advertisements (including trade association publications);
- (h) classified advertisements;
- (i) signs on vehicles;
- (j) promotional materials such as video tapes, flyers, brochures;

(k) business stationery: when using business stationery as an advertising medium, the LID shall include name or signature, position, job description or title of the individual and shall include the state and license number;

- (l) business cards;
- (m) television advertisement;
- (n) internet advertisement;
- (o) compact disc (CD) or digital video disk (DVD).

(3) The term shall not apply to the following:

(a) on-site signage used for identification, i.e., on facade, front door, or location of business;

(b) information identifying a charitable donation to any organization exempt from federal income tax;

(c) telephone directory listings for professional interior design organizations.

C. Seal:

(1) The official seal shall be as follows: an embossed circular seal two inches in diameter consisting of two concentric circles; the annular space between the two circles shall contain the seal of the state of New Mexico.

(2) The department authorizes a seal or stamp for use by licensed interior designers. The seal shall attest that the documents were prepared and reviewed by the licensed interior designer (LID). When an LID signs, stamps or seals a document containing the work of others, the LID represents that the entire document has been prepared by them under their responsible control, unless they include a written statement adjacent to their signature, stamp or seal identifying the portion of the document that was prepared by them or prepared under their responsible control. A LID who signs, stamps or seals a document which was not prepared by them but was prepared under their responsible control is subject to disciplinary proceedings as if they prepared it themselves.

(3) The seal/stamp will bear the LID's name and license number and the legend "Licensed Interior Designer State of New Mexico." All plans, specifications and reports issued by a LID shall have the LID's signature placed across the seal/stamp.

16.42.2.7 DEFINITIONS:

[RESERVED]

16.42.2.8 CODE OF PROFESSIONAL CONDUCT:

A. Responsibility to the public:

(1) Licensed interior designers (LIDs) shall comply with all existing applicable laws, regulations, and codes governing business practices and procedures and the practice of interior design as established by federal, state, and local jurisdictions in which they practice.

(2) LIDs shall act with reasonable care and competence, and shall apply the technical knowledge and skill which are ordinarily applied by LIDs of good standing, practicing in the same locality.

(3) LIDs shall not engage in any form of false or misleading advertising [or] promotional activities and shall not imply through advertising or other means that persons associated with them or their business entity are licensed interior designers unless licensed by the state of New Mexico.

(4) LIDs shall neither offer nor make any payment or gift to a local, state, or federal official, appointed or elected, with the intent of influencing the official's judgment in connection with an existing or prospective project in which the LID is interested.

(5) LIDs serving in a public capacity shall not accept payments or gifts which are intended to influence their judgment. A person serving in a "public capacity" is defined as anyone working for or on behalf of any government entity.

(6) LIDs shall not engage in conduct involving fraud or flagrant disregard of the rights of others.

(7) LIDs shall not assist, abet, or counsel others to commit fraudulent, negligent, or illegal conduct in connection with a project.

(8) LIDs shall not discriminate in their professional activities on the basis of race, religion gender, national origin, age, sexual orientation, or non-disqualifying disability.

B. Responsibilities to the client:

(1) Interior design contract documents prepared under the direction of a LID shall contain the following statement: "This document is not an architectural or engineering study, drawing, specification, or design and is not to be used as the basis for construction of any load-bearing framing, wall, or structure construction." This shall not apply to LIDs who are licensed professionals in such field. "Contract documents" shall be interpreted to mean final contracts, drawings and specifications for and interior design project.

(2) The contract between a LID and a client shall clearly set forth the scope and nature of the project, general description of materials involved, the services to be performed, and the method of compensation for those services. LIDs shall not materially alter the scope or objectives of a project without the client's consent.

(3) LIDs shall fully disclose to the client all methods of compensation which the LID shall receive in connection with the project and shall not accept any form, of undisclosed compensation from any person or firm with whom the LID deals in connection with the project.

(4) LIDs shall not accept compensation for their services from more than one party on a project unless the circumstances are fully disclosed and agreed to in writing by all interested parties.

(5) If LIDs have any business association, direct or indirect financial interest, or other interest which could be substantial enough to influence their judgment in connection with their performance of professional services, the LID shall fully disclose in writing to their clients or employers the nature of interest. If the clients or employers

object to such association, financial interest, or other interest, the LID will either terminate such association or interest or decline the commission or employment.

(6) LIDs shall not intentionally or recklessly mislead existing or prospective clients about the results that can be achieved through the use of the LIDs service, nor shall the members state that they can achieve results by means that violate applicable laws or this code.

(7) LIDs shall not divulge any confidential information about the client or the client's project, or utilize photographs of the project without the express written permission of the client. LID's shall disclose in writing to the client the specifications or drawings over which the LID retains proprietary rights, and which do not require client permission prior to use.

(8) LIDs when rendering interior design services shall disclose in writing to the client whether or not they have professional insurance. If they have professional insurance, LIDs shall fully disclose in writing to the client the nature and extent of all insurance coverage, including workman's compensation and bonds, covering subcontractors employed by the LID.

16.42.3.12 EXPEDITED LICENSURE:

A. The department shall issue in no later than 30 days a license by reciprocity to an applicant from another state who holds a current license in good standing, provided the requirements for licensure in the state where the applicant is licensed meet or exceed the requirements for licensure in the state of New Mexico.

B. An expedited license is a one year provisional license that confers the same rights, privileges, and responsibilities as regular licenses issued by the department, provided that the department may allow for the initial term of an expedited license to be

greater than one year by rule or may extend an expedited license upon a showing of extenuating circumstances.

C. Before the end of the expedited license term and upon application, the department shall issue a regular license through the license renewal process.

[16.42.3.12 NMAC - N/E, 12/12/2005; A, 7/18/2023]

16.42.3.13 LICENSE RENEWAL:

A. All licenses issued by the department shall expire four years after the date issued and shall be renewed by submitting a completed renewal application, accompanied by the required fees, on the application form prescribed by the department.

B. Each licensed interior designer must have completed no less than 20 continuing education hours of educational instruction or training in interior design subjects or courses of study, within each renewal period, as defined in 16.42.6.8 NMAC. The department may make exceptions from this continuing education requirement in cases that the licensee provides evidence of emergency or hardship.

[16.42.3.13 NMAC - N, 11/14/2009; A, 7/18/2023]

16.42.3.14 EXPIRED LICENSE:

The holder of a license that has expired through failure to renew may renew the license, upon approval of the department.

16.42.3.15 INACTIVE STATUS:

A. A license in good standing may be transferred to inactive status upon written request to the department. Such request shall be made prior to the expiration of the license.

(1) The licensee shall submit their license to the department along with a written request to be placed on inactive status. The licensee is deemed inactive status at the time of the request and license are stamped and received at the department. In the event the license is lost or otherwise unavailable for delivery, inactivation of the license will take place at the time the department receives and marks them at the department.

(2) After three years of inactive status a licensee is required to re-apply for licensure.

(3) No licensee will automatically be placed on inactive status by failure of the licensee to renew their license or to pay the annual inactive status fee.

(4) No licensee shall be placed on inactive status if the licensee is under investigation or if disciplinary proceedings have been initiated.

(5) The voluntary inactivation of a license will not prevent the commission from taking disciplinary action against the licensee.

B. An annual inactive status fee must be submitted to the department by October 1st of each year. Failure to pay the inactive fee will result in the license being deemed expired.

C. Any person who desires to reinstate his license must notify the [board] department of his desire to reinstate the inactive license. Upon receipt of such notice, the board office will send the inactive licensee an application for reinstatement.

D. The inactive licensee shall submit the application for reinstatement together with the applicable fee(s) and proof of no less than 20 continuing education hours for each four year period of inactive status, as defined in 16.42.6 NMAC.

(5) "Veteran" has the same meaning as defined in Paragraph (3) of Subsection E of Section 61-1-34 NMSA 1978.

B. A candidate seeking licensure under Section 61-1-34 NMSA 1978 must submit to the department a complete applicant containing the following:

- (1) Completed and signed application form.
- (2) Proof of a current license in good standing in another jurisdiction, including a branch of the United States armed forces;
- (3) submission of the following documentation:
 - (a) for a military service member; a copy of military orders;
 - (b) for a spouse of military service member; copy of military service member's military orders and a copy of marriage license;
 - (c) for a spouse of deceased military service members; a copy of decedent's DD form 214 and a copy of marriage license;
 - (d) for dependent children of military service members; a copy of military service member's orders listing dependent child, or a copy of military orders and one of the following: a copy of birth certificate, military service member's federal income tax return or other governmental or judicial documentation establishing dependency; or
 - (e) for veterans (retired or separated); proof of honorable discharge such as a copy of DD Form 214, DD Form 215, DD Form 256, DD Form 257, NGB Form 22, military ID card, a driver's license or state ID card with a veteran's designation, or other documentation verifying honorable discharge.

C. Electronic signatures are acceptable for application submitted pursuant to Section 14-16-1 through Sections 14-16-19, NMSA 1978.

D. Fees:

- (1) The initial licensing fee is waived for the first four years of licensure.
- (2) The renewal fee is \$250.00 as defined in 16.42.5 NMAC.

E. Renewal requirements:

- (1) A licensee pursuant to this section shall not be renewed unless the licensee meets requirements for licensure and for the renewal of a license pursuant to Section 61-24C-10, NMSA 1978.
- (2) Original and renewal licensing shall be valid for a period of four years.
- (3) Prior to the expiration of the license; licensee shall apply for renewal and pay the renewal fee as set forth in 16.42.3.13 NMAC.

16.42.6.6 OBJECTIVE:

The objective of Part 6 is to establish criteria for continuing education for interior designers licensed in New Mexico.

[11/10/97; 16.42.6.6 NMAC - Rn, 16 NMAC 42.6.6, 10/26/2002]

16.42.6.7 DEFINITIONS:

A. "Continuing Education Unit (CEU)" means a point awarded to a professional person by a professional organization for having attended an educational program relevant to the goals of the organization. A value is established for the course and that number of points is given.

B. "Continuing Education (CE)" means educational opportunities for professionals.

[16.42.6.7 NMAC - Rn, 16 NMAC 42.6.7, 10/26/2002; A, 08/15/2014]

16.42.6.8 CONTINUING EDUCATION:

Interior designers in New Mexico shall be required to develop their professional knowledge and competency in conformity with this rule by completion of continuing education approved by the department.

A. Prior to renewal, every interior designer is required to complete 20 hours of continuing education in interior design subjects or courses of study approved by the department or interior design continuing education council (IDCEC).

B. Organization and administration: The department shall:

(1) evaluate and approve either prospectively, or retrospectively, specific courses, programs of education, and training as formal programs of learning which

contribute directly to the professional competency of an interior designer, and shall determine the appropriate number of CEU hours to be granted for each course offering submitted;

(2) audit the continuing education professional education records of licensees as deemed necessary; and

(3) approve courses that have received IDCEC approval.

C. Minimum requirements of approved courses: Formal programs of learning which build upon the basic knowledge of interior design shall meet the following criteria:

(1) enhance the quality of technical knowledge;

(2) enhance overall comprehensive professional education;

(3) provide knowledge in new technical areas; or

(4) provide practical applications on issues which impact the public health, safety and welfare.

D. Approved subject areas:

(1) Unless otherwise approved by the department, subjects or courses of study accepted for the purposes of this rule shall be limited to the following:

(a) Design:

(i) computer aided drafting and design (CAD);

(ii) space planning and programming;

(iii) product performance;

(iv) document and specs;

(v) advancement in specialized field;

(vi) interior detailing; and

(vii) historic preservation.

(b) Health and safety planning:

(i) life safety requirements;

- (ii) barrier free requirements;
- (iii) codes and ordinances; and
- (iv) interior products and finishes.

(c) Mechanical, plumbing, and electrical systems:

- (i) principles and design;
- (ii) new equipment and control systems; and
- (iii) energy conservation.

(d) Building systems:

- (i) acoustics;
- (ii) basic building systems; and
- (iii) lighting.

(e) Business:

- (i) contracts and agreements;
- (ii) accounting;
- (iii) business law; and
- (iv) project management.

(f) Ethics.

(2) Additional methods for meeting CEU requirements:

(a) Unless otherwise approved by the department and subject to the formalities and further requirements of this rule, alternative methods for earning CEUs shall be limited to the following:

- (i) service as an instructor at a college or university level course of an interior design related course;
- (ii) authoring or co-authoring a published professional interior design related paper, article, book or presentation.

(b) It is the responsibility of the licensee to provide sufficient documentation and proof of the specific service or activity to the department to prove that the alternative method of obtaining CE credit meets the criteria in 6.42.6.8(E) NMAC; it is also the responsibility of the attendee to provide proof of attendance.

(c) Pre-approval of alternative methods of obtaining CE credit is not mandatory but, is highly recommended.

E. In order for a licensee to receive credit for programs of learning, as defined above, the following formalities and further requirements must be met:

(1) Higher education credit courses shall be credited for continuing education purposes at the rate of fifteen (15) hours for each semester or credit hour. A copy of a transcript documenting course completion must be submitted as proof of compliance.

(2) Higher education non-credit courses shall be credited for continuing education purposes equivalent to the actual number of classroom hours. A copy of transcript documenting course completion must be submitted as proof of compliance.

(3) Continuing professional education credit for teaching a higher education course shall be credited with twice the number of credits awarded for attending the course for the first presentation of the course or program, the same number of credits granted a participant for the second presentation of the course, and none thereafter. A letter from education institution must be submitted as proof of completion.

F. Criteria for approval of providers of continuing education:

(1) The department sets forth the following criteria to be used in approving course providers:

(a) Proof of competence and expertise of the instructors is required.

(b) A provider shall not advertise course as department approved unless department approval has been obtained.

(2) General requirements for course approval shall include:

(a) Course meets topic area guidelines as set forth in Paragraph (1) of Subsection D of 16.42.6.8 NMAC.

(b) Length of course must be a minimum of one (1.0 CEU) instructional hours. Each instructional hour shall include at least fifty minutes of continuous actual instruction.

(c) For course approval, providers must complete the department-approved continuing education program review form which may be obtained from the department or department website.

(d) Provider must submit course materials to the department on the review form, form can be obtained from department or department website.

(e) Previously approved courses shall be re-reviewed by the committee and the department if any of the following circumstances occur:

(i) course instructor changed;

(ii) course content changed;

(iii) course received evaluation results from attendees, indicating that the course did not meet the approval criteria outlined in Paragraph (3) of Subsection B of 16.42.6.8 NMAC, Subparagraph (a) of Paragraph (1) of Subsection D of 16.42.6.8 NMAC and Subparagraph (b) of Paragraph (2) of Subsection D of 16.42.6.8 NMAC;

(iv) course documentation not submitted by the provider as required by Subparagraph (a) of Paragraph (4) of Subsection D of 16.42.6.8 NMAC;

(v) changes in the number of CEUs;

(vi) course documentation incomplete or irregularities exist;

(vii) course is advertised as department approved when no such approval has been granted; and

(viii) if any of these conditions exist, a previously approved course shall not be considered approved by the [board] department. The provider is responsible for resubmitting previously approved courses for re-approval if required by the above criteria.

(f) Pay application fees.

(g) Proof of attendance certificate: At the completion of the course, the provider must furnish proof of attendance certificates to all who satisfactorily complete the course. A copy of the attendance certification shall be maintained by the instructor for a two-year period. Said certificate shall contain the following items of information:

(i) name of the provider;

(ii) name of the attendee and license number;

(iii) name of the instructor;

- (iv) title of course and number of CEU credits;
- (v) New Mexico interior design approval number;
- (vi) date and location of presentation;
- (vii) length of course, excluding breaks (e.g. time); and
- (viii) provider's signature as verification of attendee satisfactory completion of the course.

(h) the attendee shall submit a copy of the proof of attendance with other documentation.

(3) Proof of attendance list:

(a) Within 30 calendar days after the completion of the course, the provider must furnish a proof of attendance list to the department. The proof of attendance list shall include the following information:

[16.43.1.7 NMAC - Rp, 16.43.2.7 NMAC, 03/31/15]

16.43.1.8 PARENTAL RESPONSIBILITY ACT COMPLIANCE:

A. Compliance required: Any applicant or licensee must be in compliance with the Parental Responsibility Act, (Sections 40-5A-1 to -13 NMSA 1978)

B. Denial, suspension or revocation: Upon receipt from HSD of a certified list of persons not in compliance with a judgment and order for child support, the department shall match the certified list against licensees and applicants. The department shall initiate proceedings under the ULA to deny an initial application or renewal application, or to suspend or revoke an Active license for noncompliance with a judgement or order for child support. If a license is suspended or revoked for noncompliance with the Parental Responsibility Act, the final order shall state that the license may be reinstated at any time by providing the department with a certified statement of compliance from HSD.

C. Proof of compliance: Applicants and licensees may prove compliance with the Parental Responsibility Act as follows:

(1) An applicant for initial licensure or renewal that provides a certified statement of compliance from HSD within thirty (30) days from the date of notice that their application is subject to denial for noncompliance with the Parental Responsibility Act shall have their application reinstated for consideration.

(2) A licensee that has received notice that their license is subject to suspension or revocation may provide a certified statement of compliance to the department at anytime and the department will dismiss the proceedings.

(3) A licensee that has had their license suspended or revoked shall have their license reinstated upon providing the department with a certified statement of compliance.

[16.43.1.8 NMAC - Rp, 16.43.2.18 NMAC, 03/31/15]

16.43.1.9 DISCIPLINE:

Every licensee or applicant shall be afforded notice and the opportunity to be heard in accordance with the ULA before the superintendent may deny an application, place probationary limitations on a license, suspend or revoke a license or assess an administrative penalty against a licensee. Hearings will be held by a hearing officer, which may be a member of the council or a department employee designated by the council, or by the full membership of the council. The council shall review hearing officer reports and make disciplinary recommendations to the superintendent.

A. In addition to any violation of the act, the following may be grounds for disciplinary action:

- (1) refusal of a licensee to comply with a stop work order issued by the department;
- (2) making a material misstatement or misrepresentation in an application for initial licensure or renewal;
- (3) intentionally making a material misstatement to the department during an official investigation;
- (4) aiding or abetting another in violating provisions of the act or a rule adopted pursuant to the act;
- (5) altering or falsifying a license issued by the department;
- (6) failing or refusing to furnish the department, its investigators or its representatives information requested in the course of an official investigation by the department; or
- (7) operating hoisting equipment in a negligent or reckless manner as determined by the department.

B. Stipulated agreement: In lieu of a hearing, the department and the licensee may enter into a stipulated agreement to resolve any alleged violations.

C. Surrender of license after suspension or revocation: Upon suspension or revocation of a license, or as soon thereafter as practicable, the licensee shall surrender possession of their license to the department and the department will place the license in the licensee's file.

D. Appeal: A licensee or applicant may appeal a final order in accordance with the ULA pursuant to

(Sections 60-15-11 and 60-15-12 NMSA 1978).

[16.43.1.9 NMAC - N, 03/31/15]

16.43.1.10 FINES:

In accordance with Section 60-15-11(F) NMSA 1978, the superintendent may issue a citation and a fine to an individual or business that violates the act, or any regulation adopted pursuant to the act, as long as the fine does not exceed limitations set pursuant to Section 60-15-13 NMSA 1978. Unlicensed hoisting operator: If a fine is assessed against an unlicensed operator, the superintendent may provide the unlicensed operator the option to respond to the order assessing the fine and enter into a stipulated agreement to resolve the violation by paying a lesser fine under the condition that the unlicensed operator admits guilt and agrees to become licensed.

[16.43.1.9 NMAC - Rp, 16.43.2.19 NMAC, 03/31/15]

16.43.1.11 REPORT OF INCIDENT:

D. Meetings: The council shall meet no less than quarterly. A meeting shall be convened at the request of the department, call of the chair, or upon written request addressed to the chair of two (2) council members. Meetings shall be held in compliance with the requirements of the Open Meetings Act (10-15-1 to -4 NMSA 1978). A quorum shall consist of at least half of the duly appointed commissioners at the time of a meeting.

E. Telephone attendance: If it is difficult or impossible for a member of the council to attend a meeting in person, the member may participate through a telephone conference. Each council member participating by telephone conference must be identified when speaking, all participants must be able to hear each other at the same time, and members of the public attending the meeting must be able to hear any member of the council who speaks during the meeting.

F. Public records: The council and department shall comply with the Inspection of Public Records Act, (Sections 14-2-1 to -12 NMSA 1978). The council's administrator shall be the custodian of the council's records.

G. Duties: In addition to obligations under Section 60-15-14(B), duties of the council shall include:

- (1) holding hearings in accordance with the provisions of ULA;

(2) examining proposed in-house training course providers and refresher course providers to determine whether they meet the requirements of the act and these rules, and publishing and updating lists of approved training providers;

(3) making recommendations to the department concerning any aspect of licensing under the act or these rules, including recommending new council members to the superintendent;

[16.43.1.13 NMAC - Rp, 16.43.2.23 NMAC, 03/31/15]

16.43.1.14 FEES:

A. Fee payments:

(1) All checks to the department from applicants and licensees shall be made payable to "The New Mexico Hoisting Program."

(2) All payments shall be delivered to the department's office.

(3) All fees and payments shall be refundable in whole or in part.

B. Application fee: The application fee for a license in any classification or for a change in classification shall be fifty dollars(\$50). The application and initial fees must be submitted with the completed application.

C. Initial license fee:

(1) An applicant accepted for licensure as a class I hoisting operator shall pay an initial fee of seventy five dollars (\$75) for a two (2) year license.

(2) An applicant accepted for licensure as a class II hoisting operator shall pay an initial fee of seventy five dollars (\$75) for a two (2) year license.

(3) An applicant accepted for licensure as a class III hoisting operator shall pay an initial fee of twenty-five dollars (\$25) for a two (2) year license.

D. Renewal license fee:

(1) The fee for renewal of a class I hoisting operator license is seventy-five dollars (\$75). The renewed license shall be valid for two (2) years from the expiration date of the previous license.

(2) The fee for renewal of a class II hoisting operator license is seventy-five dollars (\$75). The renewed license shall be valid for two (2) years from the expiration date of the previous license.

(3) The fee for renewal of a class III hoisting operator license is twenty-five dollars (\$25). The renewed license shall be valid for two (2) years from the expiration date of the previous license.

E. Late fee: Unless a renewal application is filed on or before the expiration date, a late fee of five dollars (\$5) may be charged in addition to a renewed license fee for each month that the renewal application is past due.

F. Reinstatement fee: A license that is not renewed within six (6) months of its expiration may be reinstated if a renewal application is submitted. The reinstatement fee is one hundred dollars (\$100) and is assessed in addition to any renewal or late fee.

16.43.2.8 IN-HOUSE TRAINING:

A. A person who has successfully completed an in-house training course approved by the council may operate hoisting equipment without the written examination required by Section 60-15-7 NMSA 1978 for a period of two (2) years. Prior to the expiration of two (2) years, and with at least five hundred (500) hours of seat time, the person shall apply for a license pursuant to 16.43.2.10 through 16.43.2.12 NMAC, as applicable.

B. Employer responsibility: An employer choosing to exempt its employees from the licensing requirements of the act for two (2) years by offering an in-house training course for its employees shall be responsible for the qualifications, capability, experience, physical condition, and actions of its hoisting operators.

C. Standards for approval of training course: The council shall determine whether training programs meet the requirements of the federal occupational safety and health administration, United States department of labor or occupational health and safety bureau of the United States department of environment.

D. Approval of training course:

(1) Any employer, person or organization wishing to offer an in-house training course to hoisting operators in this state shall first obtain written approval of the course from the council. The request must be submitted on a council approved form containing a complete description of the program's curriculum, content, examination coverage and instructor(s) qualifications. An application fee, as required under 16.43.1.14 NMAC, shall be included with a completed application.

(2) After review of the application submitted, the council shall indicate in writing its approval or disapproval, and if disapproved, the council shall provide a reason for the disapproval. The council shall notify the employer, person or organization in writing of the approval or disapproval of the proposal within ninety (90) days of receipt of

the completed form. Upon approval, the employer, person or organization shall submit to the council a non-refundable certification fee as required under 16.43.1.14 NMAC.

(3) The certification shall be for a period of two (2) years.

[16.43.2.8 NMAC - Rp, 16.43.2.9 NMAC, 03/31/15]

16.43.2.9 LICENSE:

A. Licensure required: No person shall operate hoisting equipment in construction, demolition or excavation work when the hoisting equipment is used to hoist or lower individuals or material unless the person is licensed under the act, holds an in-house hoisting operator card or is exempt pursuant to Section 60-15-3(M) NMSA 1978.

B. Description of license: The license issued by the department shall include, at a minimum: license number; expiration date of license; license classification and endorsement(s); licensee's name, address, and signature; and authorized signature of the designated representative of the department.

C. Initial license period: An initial license shall be valid for two (2) years from the date of issuance.

D. Examination requirements: All applicants must take the written general examination and the law and safety examination as approved by the council. A class I and II hoisting operator must also take a practical examination or complete a council approved in-house training course.

E. Validity: A license issued under the act and these rules is valid throughout the state of New Mexico. A license is valid only for the classification and endorsement(s) for which it is issued.

F. Possession: The licensee must have their license in their possession and on their person at all times while engaged in the operation of hoisting equipment or any other activity subject to the act.

G. Proof of license: If a hoisting operator is asked for proof of licensure by a state inspector, or a state investigator as designated by the department or council, the operator shall produce their hoisting operator's license accompanied by a current motor vehicle driver's license or other form of photo identification.

H. Non-assignable and non-transferable: A license may be used legally only by the person to whom it is issued; it may not be transferred, shared, or otherwise assigned.

I. Lost license: If a license is lost, destroyed or mutilated, the licensee shall immediately deliver to the department a written statement setting forth the

circumstances surrounding the loss, destruction or mutilation of the license, and any applicable fee for the issuance of a duplicate license.

[16.43.2.9 NMAC - Rp, 16.43.2.8 NMAC, 03/31/15]

16.43.2.10 APPLICATION PROCEDURE:

A. Application for licensure:

(1) Each applicant for licensure must submit to the department the appropriate documentation as specified in these rules.

(2) The filing date of the application shall be the date the application is date-stamped by the department upon its receipt.

B. Period of validity: If for any reason all requirements for licensure are not completed by the applicant within six (6) months after the date of filing an application, the application shall be deemed withdrawn. The applicant shall then be required to re-apply for licensure and pay a new application fee.

C. Licensure in lesser classification: The department will forward to the council scanned license applications for approval. If the program administrator receives confirmation from the council that the applicant qualifies for a lesser type of license, the administrator will offer the applicant the opportunity of licensure in a lesser classification. If the applicant wishes to obtain licensure in the lesser classification, the applicant must notify the department in writing within thirty (30) days after receipt of the department's offer. Once approved by the superintendent, the administrator will issue a license of lesser classification.

16.44.1.8 BOARD MEMBERSHIP:

A. Board members: The board of landscape architects consists of five members appointed by the governor who are residents of New Mexico and serve for three-year staggered terms. The landscape architect members shall have been registered as landscape architects for at least five years.

B. The members shall be appointed as follows:

(1) Three shall be professional members who are registered under the Landscape Architects Act as landscape architects. The governor shall appoint the professional members from a list of names nominated by the New Mexico chapter of the American society of landscape architects (ASLA).

(2) Two members shall be public members who are laymen and have no significant financial interest, direct or indirect, in the practice of landscape architecture.

C. Expiration dates: Each member shall hold office until the expiration of his or her appointed term or until a successor is duly appointed. When the term of each member ends, the governor shall appoint the member's successor for a term of three years. Any vacancy occurring in the board membership other than by expiration of term shall be filled by the governor by appointment for the un-expired term of the member. The governor may remove any board member for misconduct, incompetence, or neglect of duty.

[16.44.1.8 NMAC - Rp, 16.44.1.8 NMAC, 9-30-16]

16.44.1.9 BOARD OPERATIONS:

A. Elections. At its annual meeting in July, the board shall elect a chair, vice chair, and secretary-treasurer.

B. All board officers shall exercise authority subject to the act, board regulations, and specific directions of the board. Duties of the board chair, vice chair, and secretary-treasurer are as follows:

(1) The board chair shall preside at board meetings and adjudicatory hearings unless another presiding officer is named by the board.

(2) At the direction of the board, the board chair shall respond to inquiries and correspondence, execute orders of the board in any pending adjudicatory proceeding unless a hearing officer is appointed, sign decisions of the board unless the board designates another member to sign, appoint board members to formal committees, and provide direction to the board administrator on routine matters to facilitate the efficient operation of board functions between meetings.

(3) The vice chair shall preside at board meetings and adjudicatory hearings in the absence of the chair. If the office of chair becomes vacant, the vice chair shall serve as chair until a new chair is elected.

(4) The secretary-treasurer shall preside at board meetings and adjudicatory proceedings in the absence of the chair and vice chair.

C. Vacancy. If the office of board chair becomes vacant, the board shall elect a chair at the next meeting or any subsequent meeting. If the office of vice chair or secretary-treasurer becomes vacant, the board may hold elections as it deems necessary and advisable.

D. Duties of the board administrator. The board administrator shall at all times perform assigned duties subject to the act, the Uniform Licensing Act, Sections 61-1-1 through 61-1-34 NMSA 1978, board rules and regulations, and the specific direction of the board. The board administrator shall perform duties as specified in these rules and regulations, shall supervise other personnel, and shall ensure the responsiveness and efficiency of the functions of the board.

E. Board office. The board office is located in Santa Fe, New Mexico.

F. Board meetings. The board shall conduct meetings in accordance with New Mexico Open Meetings Act, Sections 10-15-1 through 10-15-4 NMSA 1978.

(1) The board shall hold an annual meeting in July and shall hold other meetings as it deems necessary and advisable.

(2) The board shall conduct its meetings in an orderly fashion, with due regard for each board member and the public. The board may refer to Robert's Rules of Order, revised, when necessary and advisable. The board administrator shall prepare the meeting agenda in accordance with the New Mexico Open Meetings Act and board resolution. The board may change the order of agenda items during its meeting. The board shall transact official business only at a legally constituted meeting with a quorum present. The board is not bound in any way by any opinion, statement, or action of any board member(s), the board administrator, or other staff except when the action is pursuant to a lawful instruction or direction of the board. Except for proceedings to adopt, amend, or repeal regulations governed by Section 61-1-29 NMSA 1978, the board, in its sole discretion, may provide a reasonable opportunity for persons attending an open meeting to address the board on an agenda item. The request to speak shall

be timely made and shall not cause delay or disruption of the board's meeting. Except for conferences for the purpose of settlement or simplification of the issues, no person shall be permitted to address the board on any pending or concluded application, complaint, investigation, adjudicatory proceeding, or matter in litigation. Any public comment to the board shall be brief, concise, and relevant to the agenda item. The board may limit the total time allotted for comments and the time allotted to any person. Pursuant to Subsection C of Section 10-15-1 NMSA 1978, a board member may participate in a meeting of the board by means of a conference telephone or other similar communications equipment when it is otherwise difficult or impossible for the member to attend the meeting in person.

(3) Any board member who cannot be impartial in the determination of any matter before the board and cannot judge a particular matter or controversy fairly on the basis of its own merits shall not participate in any board deliberation or vote on the matter. Any board member with a personal, social, family, financial, business, or pecuniary interest in a matter shall voluntarily recuse himself or herself and shall not participate in a hearing, consideration, deliberation, or vote on the matter, except as provided by law. Board members shall not disclose to any non-member the content of any executive session discussion or deliberation, or any other confidential matters that may be the subject of an executive session or attorney client privileged communications except as ordered by a court of competent jurisdiction or where the board knowingly and intentionally permits disclosure. Nothing herein shall preclude the board from including in executive session discussions or confidential committee meetings the board administrator or other persons the board deems necessary to assist the board in carrying out the functions of the board.

(4) License and certificate roster. The board will maintain a current roster of persons holding licenses and certificates in the state of New Mexico. Copies may be made available at a charge determined by the board.

[16.44.1.9 NMAC - Rp, 16.44.1.9 NMAC, 9-30-16]

16.44.1.10 BOARD RECORDS:

A. Public records shall be available for inspection in accordance with the provisions of the Inspection of Public Records Act, Sections 14-2-1 through 14-2-12 NMSA 1978.

B. The custodian shall charge for copying 8 ½" by 11" paper (16.44.8.8 NMAC). The custodian may charge an additional fee for copying undersize or oversize documents or papers. The board shall not be required to create any document or compile data for an individual or private entity. Consistent with the Inspection of Public Records Act and taking into account the available staff, space, and the needs of other legitimate public business, the custodian may determine the reasonable time, place, and conditions for access to public records. Public records shall not be removed from the board office except by board members, board staff, or agents of the board for official public business.

- (6) each published professionally related paper, article, or book: 10 hours per biennium;
- (7) each professional presentation when presented at a national, state, regional or municipal program for the first time only: three hours per biennium;
- (8) serving on federal, state or municipal boards and commissions as a design professional where one is elected or appointed: one hour per month of service not to exceed 24 hours per biennium;
- (9) active participation in professional and technical societies and their committees: four hours per biennium;
- (10) committee chair or elected official of a professional technical society: eight hours per biennium;
- (11) active participation in a public board specifically related to the practice of landscape architecture; licensee must not receive a salary and is only paid pursuant to the Per Diem and Mileage Act: eight hours per biennium;
- (12) business related courses: 10 hours per biennium;
- (13) self-improvement courses: 6 hours per biennium

(14) short subjects for design professionals, i.e. CLARB, NCARB etc.: as established by sponsor.

B. Determination of credit: The board has final authority with respect to approval of courses, credit, CPE value for courses, and other methods of earning credit.

(1) Credit for college or community college approved courses will be based upon course credit established by the college.

(2) Credit for seminars, workshops, professional conventions and course/activities may be as recommended by the professional societies.

(3) Educational travel/independent study credit allowed shall not exceed eight hours of occurrence with a maximum of 16 hours per biennium.

C. Exemptions: A registered landscape architect may be exempt, upon board review and approval, from CPE requirements in any of the following situations:

(1) the new landscape architect's first renewal period is less than one year from the original date of licensure;

(2) a landscape architect is called to active duty in the armed forces for a period of time exceeding 120 consecutive days in a calendar year; this individual may be exempt from obtaining one-half of the required CPE during the current biennium;

(3) a landscape architect experiences physical disability or illness that prevents the landscape architect from practicing landscape architecture; the landscape architect shall provide supporting documentation for the board's review and approval; if the landscape architect elects to return to practice, the landscape architect shall complete all CPE hours required during the current biennium.

D. Audit: Upon request, each registered landscape architect shall provide proof of satisfying the CPE requirements. If the landscape architect fails to furnish the information to the board or if the information is not sufficient to satisfy the requirements, the licensee shall not be renewed.

E. Disallowance: If the board disallows one or more CPE activities claimed, the board may, at its discretion, allow the registered landscape architect up to 120 days after notification to substantiate the original claim or to complete other CPE activities sufficient to meet the minimum requirements.

F. Noncompliance: A registrant who does not satisfy the CPE requirement for registration renewal will be placed on probationary status and so notified by the board following the renewal date. The registrant must comply within six months following the renewal date or the registration may be classified as suspended. The contact hours needed to fulfill the prior biennial period requirement shall not be included in the

subsequent renewal period. Failure of a registrant to satisfy the CPE requirements for registration renewal may be cause for the board to deny license renewal for the licensee.

16.44.7.6 OBJECTIVE:

This part establishes the standards against which the required professional conduct of a registered landscape architect or a landscape architect in training is measured. Each licensee, certificate holder and applicant will be governed by this part whenever providing landscape architectural services. A violation of this part is sufficient reason for disciplinary action pursuant to the Landscape Architects Act.

[16.44.7.6 NMAC - Rp, 16.44.7.6 NMAC, 9-30-16]

16.44.7.7 DEFINITIONS:

(Refer to Part 1)

16.44.7.8 CODE OF PROFESSIONAL CONDUCT:

A. This code expresses in general terms the level of professional conduct expected of licensees in the state of New Mexico. Such a code is no guarantee of moral actions on the part of the licensees but depends upon the integrity of each registrant or certificate holder to conduct himself or herself in a responsible and straightforward manner both in dealings with clients and other professionals.

B. Licensees should be more than a group of individuals offering a service to the public. They should comprise an entity with a bond between licensees based on mutual respect and a dedication to improving the quality of life for all persons.

C. The licensee shall:

(1) exert every effort towards the preservation and protection of our natural resources and toward understanding the interaction of the economic and social systems with these resources;

(2) further the welfare and advancement of the profession by constantly striving to provide the highest level of professional services, avoiding even the appearance of improper professional conduct;

(3) serve the client or employer with integrity, understanding, knowledge, and creative ability and respond morally to social, political, economic, and technological influences;

(4) make full disclosure to the client or employer of any financial interest, that even remotely bears upon the services or project;

(5) truthfully and clearly inform the client or employer of his or her qualification and capabilities to perform services;

(6) not make exaggerated, misleading, deceptive or false statements or claims to the public about his or her professional qualifications, experience or performance;

(7) regard as confidential any information obtained by him or her as to the business affairs and technical methods or processes of a client or employer;

(8) not give, lend, or promise anything of value to any public official in order to influence or attempt to influence the official's judgment or action in the letting of contracts;

(9) refrain from lending his or her name or stamp/seal for plans or other documents for the preparation of which he or she was not directly responsible;

(10) refrain from using the advantages of a salaried position to influence the letting of contracts;

(11) not knowingly make false statements about the professional work of others; and

(12) refrain from engaging in any discriminatory practices prohibited by law in the employment of his or her professional and non-professional personnel and in the conduct of his or her business.

16.44.9.5 EFFECTIVE DATE:

September 30, 2016, unless a later date is cited at the end of a section.

[16.44.9.5 NMAC - Rp 16 44.9.5 NMAC, 9-30-16]

16.44.9.6 OBJECTIVE:

The objective of 16.44.9 NMAC is to establish the procedures for filing complaints against a licensee, the authority of the board regarding grounds for denial, suspension, or revocation of a license.

[16.44.9.6 NMAC – Rp, 16 44.9.6 NMAC, 9-30-16]

16.44.9.7 DEFINITIONS:

(Refer to Part 1)

16.44.9.8 COMPLAINT PROCEDURES:

A. Inquiries regarding filing of complaints.

(1) Inquiries made to the board or to a board member regarding a potential complaint will be referred to the board administrator for a response.

(2) Upon receipt of an inquiry, the board administrator shall forward to the potential complainant a statement regarding the board's jurisdiction, the conduct or grounds for possible action by the board against a licensee or applicant, and a complaint form with instructions on how to file the complaint. Complaints shall be submitted in writing on the prescribed form, signed and notarized, and state the facts upon which the complaint is based.

B. Procedures for processing complaints. The board administrator shall:

(1) log in the date of receipt of the complaint;

(2) determine that the subject of the complaint is a registered landscape architect, a certified landscape architect in training or an applicant or person otherwise within the jurisdiction of the board;

(3) assign a complaint number and set up an individual file; complaint numbering shall begin in January of each year;

(4) forward the complaint to the chair of the complaint committee and the complaint manager or a designee;

(5) send a letter to the complainant confirming receipt of the complaint.

C. Review by the complaint committee.

(1) The chairperson of the board shall appoint a board member to chair the complaint committee. The complaint committee shall consist of at least one member of the board.

(2) The complaint manager, if assigned, or designee will review the complaint and meet with the administrative prosecutor and complaint committee chair as needed.

(3) If the allegations in the complaint would, if substantiated, constitute grounds for disciplinary action, the complaint committee will recommend a course of action regarding investigation of the complaint.

(4) The complaint committee shall oversee the investigation of the complaint. A case summary including the alleged violations of the code of conduct or other parts of the regulations or act will be presented to the full board along with recommendation(s) for disposition of the complaint. The identity of the licensee or applicant and the complainant will not be disclosed to the full board by the complaint committee.

(5) Unless the complaint committee determines that it will impede an investigation or interfere with the acquisition of documents or relevant papers or the development of the case, the complaint committee shall inform the licensee or applicant of the complaint and request a response to the allegations. Disclosure of data, communications, and information relating to actual or potential disciplinary action shall be made in accordance with Section 61-1-11 NMSA 1978 or superseding statute.

(6) The complaint committee may employ experts, consultants, or private investigators to assist in investigations of complaints.

(7) The complaint committee, on behalf of the board, may issue investigative subpoenas, pursuant to Subsection A of Section 61-1-4 NMSA 1978.

D. Review by the full board.

(1) Any board member or any member of the complaint committee who is partial or who believes he or she is not capable of judging a particular controversy fairly on the basis of its own circumstances shall not participate in the decision whether to issue a notice of contemplated action and shall not participate in the hearing, deliberation, or decision of the board.

(2) The board shall review the case summary presented by the complaint committee, relevant documents, witness statements, and other pertinent information regarding the complaint. If the board has sufficient evidence that a violation may have occurred, the board shall forward the evidence to the administrative prosecutor for issuance of a notice of contemplated action.

(3) Following the issuance of a notice of contemplated action, the board may at its option authorize a board member, the hearing officer, or the administrative prosecutor to confer with the applicant or the licensee for the purpose of settlement of the complaint. Such settlement must be approved by the board, must be with the consent of the applicant or licensee, and shall include a knowing and intentional waiver by the applicant or the licensee of his or her rights to hearing under the Uniform Licensing Act.

(4) The board may refer a complaint to the attorney general for injunctive proceedings or to the district attorney for criminal prosecution.

[16.44.9.8 NMAC – Rp, 16 44.9.8 NMAC, 9-30-16]

16.44.9.9 ADJUDICATORY PROCEEDINGS:

A. General provisions and pre-hearing and preliminary matters.

(1) All hearings shall be conducted either by the board or, at the election of the board, by a hearing officer.

(2) If the board appoints a hearing officer, the hearing officer shall have authority to decide pre-hearing matters, preside over the hearing, and direct post-hearing matters in accordance with the requirements of the case in a manner that ensures an efficient and orderly hearing and expedites the final resolution of the case. Except as otherwise limited in this part, the hearing officer shall have the authority to rule on all non-dispositive motions. If the board does not appoint a hearing officer or if the hearing officer is unavailable or unable to proceed, the board chair or other board member designated by the board shall have the authority to decide pre-hearing or preliminary matters on behalf of the board. This authority shall be in accordance with the requirements of the case in a manner that ensures an efficient and orderly hearing and expedites the final resolution of the case, including, without limitation:

(a) unopposed or stipulated motions to change venue;

(b) motions for continuance of a hearing date; a motion to vacate the hearing must contain a statement that the licensee or applicant waives his or her right to a hearing held not more than 60 days from the date of service of the notice of hearing;

(c) the granting of one notice of peremptory excusal to each party if the notice is timely and if the peremptory excusal does not result in a loss of a quorum of the board; and

(d) motions regarding discovery.

(3) The original of any papers and pleadings shall be filed with the board. Copies shall be sent to the hearing officer and attorneys or parties of record.

(4) The hearing officer or designated board member shall issue appropriate orders to control the course of the proceedings.

(5) Consistent with provisions of the Uniform Licensing Act and to the extent practicable, the rules of civil procedure for the district courts shall apply unless the hearing officer or designated board member orders otherwise.

(6) A request for an order shall be made by motion filed with the board. Except for motions made during the course of the hearing, a motion shall be in writing. A motion shall state with particularity the grounds for the motion and shall set forth the relief and order sought.

(7) A motion shall be accompanied by a memorandum brief in support of the motion. The brief shall state with particularity the grounds for the motion and shall contain citation to authorities, statutes, and references to the pleadings on file. If matters outside of the pleadings are considered, a copy of the referenced material shall be attached to the brief.

(8) The hearing officer or the designated board member may order the filing of briefs or other documents and may set oral argument on any matter.

(9) No more than two continuances of the hearing date will be granted without the approval of the board for good cause shown.

(10) All dispositive motions shall be decided by the board.

(11) No proposed settlement, consent agreement, voluntary surrender of a license in lieu of prosecution, or other proposal for the resolution of a pending disciplinary case shall be effective unless approved by the board and executed by the board and the licensee or applicant. The board or hearing officer may seek information from the administrative prosecutor and the licensee or applicant concerning circumstances of the case relevant to a consideration of the proposed settlement or clarification of the proposed terms and conditions. No board member is presumed to be

biased and shall not be excused based solely on the reason that the member considered a proposed settlement, consent agreement, or other proposal for the resolution of a pending disciplinary case. The board may submit a counterproposal for the settlement or resolution of the case.

(12) Any proposed settlement, consent agreement, voluntary surrender of a license in lieu of prosecution, or other proposal for the resolution of a pending disciplinary case shall contain at least the following:

(a) an admission of all jurisdictional facts; an acknowledgment of the rights contained in the Uniform Licensing Act and an express waiver of those rights and of all rights to hearing and judicial review or any other opportunity to contest the validity of the board order in any other proceeding or forum;

(b) a provision that the proposal resolves only the violations alleged in the specific notice of contemplated action and a statement that the board reserves the right to initiate other proceedings for any other violations of the act or board regulations;

(c) a description of the facts underlying each alleged violation;

(d) if appropriate, a list of the acts or practices from which the licensee or applicant will refrain in the future;

(e) a statement of the type, terms, and conditions of the proposed disciplinary action of the board;

(f) a statement that the licensee will be responsible for all costs of disciplinary proceedings or a statement setting forth the reason why the licensee should be excused from paying costs; the affidavit of the board administrator concerning the costs incurred to date shall accompany the proposal;

(g) a statement that the decision and order of the board shall be a public record and shall be reported as required by law; and

(h) other provisions necessary to ensure the complete and final resolution of the proceedings.

(13) A proposal to settle a matter shall not stay the proceedings or vacate the hearing date unless otherwise ordered by the hearing officer or presiding officer upon the filing of a timely motion.

B. Duties of the board administrator. The board administrator shall:

(1) after consultation with the board or hearing officer, issue a notice of hearing stating the date, time, and place of the hearing;

(2) execute on behalf of the hearing officer or board notices, scheduling orders, subpoenas, and subpoenas duces tecum, and other routine procedural documents that facilitate the efficient conduct of adjudicatory proceedings;

(3) maintain the official record of all papers and pleadings filed with the board in any matter;

(4) prepare an affidavit as to costs of any disciplinary proceeding at the conclusion of any hearing or upon request by a party submitting a proposed settlement, consent agreement, or voluntary surrender of a license in lieu of prosecution;

(5) prepare, certify, and file with the district court the record of the case on appeal or review;

(6) unless the board orders otherwise, have the authority to sign the decision of the board to grant or refuse a request to reopen the case.

C. Conduct of hearings.

(1) The hearing officer, or presiding officer if the case is heard by the board, shall ensure the fair, efficient, and orderly conduct of the hearing in accordance with the Uniform Licensing Act.

(2) Unless the board orders otherwise, a board member hearing officer, the board chair, or presiding officer shall have the authority to sign the written decision of the board.

(3) The board administrator shall serve the decision of the board on the licensee or applicant in accordance with law.

(4) A motion for an order staying the operation of a board decision shall be decided by the board.

[16.44.9.9 NMAC – Rp, 16 44.9.9 NMAC, 9-30-16]

16.44.9.10 SURRENDER OF LICENSE:

A. If a license is suspended or revoked by the board for any reason specified in the rules and regulations of the board or in the act, the licensee shall immediately surrender his or her license in person or by registered mail to the board.

B. If the licensee's scope of practice is restricted or limited or otherwise subject to conditions, the license may reflect the restriction, limitations, or condition.

(3) License applicants shall be required to furnish to the commission a set(s) of fingerprints and a recent photograph. Any license applicant that is under the age of 18 years of age is exempt from the requirement to submit fingerprint cards.

(a) All license applicants shall be required to be re-fingerprinted every six years and re-photographed periodically as determined by the commission.

(b) Requirements for fingerprints may be fulfilled by:

- (i) submission of fingerprints; or
- (ii) verification that fingerprints were submitted for processing;
- (iii) submission of a fingerprint reciprocity affidavit; or
- (iv) provide proof of licensure from another jurisdiction to which fingerprints were submitted within the last six years.

(4) License applicants for groom, watchman, exercise and pony persons must submit to a drug (controlled substances) and alcohol-screening test when making application for license.

(5) As a participant of the national racing compact licensing program and as an alternative to the licensure requirements set forth in Paragraphs (2) through (4) of Subsection A of 16.47.1.8 NMAC, the commission may authorize applicants to utilize the national racing compact licensing program to obtain a New Mexico racing license subject to the applicable licensure fees set forth in Paragraph (2) of Subsection A of 16.47.1.8 NMAC.

B. Multi-state licensing information: Applicants may be permitted to submit an association of racing commissioners international, incorporated multi-state license information form and association of racing commissioners international, incorporated fingerprint card and thereby obtain a criminal record check that can be used in other jurisdictions.

C. Age requirement:

(1) Applicants for licensing, except owners, must be a minimum of 14 years of age, but no one under the age of 16 may be licensed as a pony person or exercise person and no one under the age of 18 may be licensed as an authorized agent or jockey agent.

(2) A licensee must be a minimum of 14 years of age to handle a horse in the paddock.

D. Consent to investigation: The filing of an application for license shall authorize the commission and the board to investigate criminal and employment records, to engage in interviews to determine applicant's character and qualifications, and to verify information provided by the applicant.

E. Consent to search and seizure: By acceptance of a license, a licensee consents to search and inspection by the commission or its agents and to the seizure of any prohibited medication, drugs, paraphernalia or devices in accordance with state and federal law.

F. Approval or recommendations by stewards: The commission may designate categories of licenses, which shall require stewards' prior approval or recommendation. Prior approval will include exercise riders, pony riders, and apprentice jockeys.

G. Employer responsibility:

(1) The employment of any unlicensed person under the jurisdiction of the commission is prohibited.

(2) Every employer shall report the discharge of any licensed employee in writing to the stewards, including the person's name and occupation.

H. Employer endorsement of license applications: The license application of an employee must be signed by the employer.

I. Financial responsibility:

(1) All persons engaged in racing shall maintain financial responsibility in matters pertaining to racing and the Parental Responsibility Act.

(2) Any person licensed by the commission may file a financial responsibility complaint against another licensee. Any financial responsibility complaint against a licensee shall be in writing, signed by the complainant, and accompanied by documentation of the services, supplies or fees alleged to be due in connection with his/her operations as a licensee. A judgment from a civil court, which has been issued within one year of the date of the complaint, may be honored by the stewards as long as at least the defendant is a licensee.

J. License refusal: The commission may refuse to issue a license and give the applicant the option of withdrawal of an application without prejudice. If an applicant is refused, the applicant may reapply for a license.

K. License denial:

(1) The commission may formally deny an application in accordance with these rules.

(2) An application denied, if requested by the applicant, shall be reported in writing to the applicant denied stating the reasons for denial, and the date when a reapplication may be submitted.

(3) An application denied may be reported to the association of racing commissioners international, incorporated and North American pari-mutuel regulators association whereby other racing jurisdictions shall be advised.

L. Grounds for disciplinary measures for a licensee, and refusal, denial, suspension, or revocation of a license:

(1) The commission may refuse to issue a license to an applicant, or may suspend or revoke a license issued, or order disciplinary measures, if the applicant:

(a) has been convicted of a felony;

(b) has been convicted of violating any law regarding gambling or a controlled dangerous substance;

(c) who is unqualified, by experience or otherwise, to perform the activities for which a license is required, or who fails to pass an examination prescribed by the commission;

(d) has failed to disclose or falsely states any information required in the application;

(e) has been found in violation of rules governing racing in New Mexico and of other racing commissions or of any recognized regulatory organization;

(f) has been found to have made false or misleading statements to the commission, stewards, or any racing official;

(g) has been or is currently excluded from association grounds by any racing commission, racetrack management or a recognized regulatory organization;

(h) has had privileges or a license denied, suspended, or revoked by any racing commission or a recognized regulatory organization;

(i) is a person whose conduct or reputation may adversely reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of a race meeting; interfering with the orderly conduct of a race meeting shall include, but is not limited to, disruptive or intemperate behavior or behavior which exposes others to

danger anywhere on the racetrack grounds; the fact that the race meet was not actually interrupted is not a defense to the imposition of discipline under this rule;

(j) demonstrates a lack of financial responsibility by accumulating unpaid obligations, defaulting on obligations or issuing drafts or checks that are dishonored, or payment refused; for the purpose of this sub-section, non-compliance with the Parental Responsibility Act shall be considered grounds for refusal, denial, suspension, or revocation of a license; the application, or license as applicable, shall be reinstated if within 30 days of the date of the notice, the applicant provides the commission with a certified statement from the department that they are in compliance with a judgment and order for support;

(k) is ineligible for employment pursuant to federal or state law concerning age or citizenship;

(l) is disrespectful or intimidates any official, commissioner, or commission staff or any other licensee;

(m) attempts to influence any racing official or commission staff member;

(n) has knowingly filed a false complaint against another licensee or a racing official where the racing commission or the stewards determine that the complaint was made without reasonable or probable cause and for the purpose of the harassment or abuse of the complaint process;

(o) has engaged in conduct becoming or detrimental to the best interests of racing;

(p) in case of a notice from the state of New Mexico human services department that a licensee is in non-compliance with the Parental Responsibility Act, the licensee shall be notified by the board of stewards. Thereafter, the licensee shall have 30 days to provide documentation of compliance to the board of stewards and failure to do so will result in the suspension or revocation of all licenses issued by the New Mexico racing commission to said licensee.

(2) A license suspension or revocation shall be reported in writing to the applicant and the association of racing commissioners international, incorporated, whereby other racing jurisdictions shall be advised.

(3) Any license denied, suspended or revoked by the commission pursuant to these rules shall state the time period for the effect of its ruling. When the action is taken for a misdemeanor or felony conviction, the time period shall be the period of the licensee's or applicant's imprisonment; or if not imprisoned, the period of probation, deferral, unless the person can satisfy the commission of sufficient rehabilitation. This rule shall also apply to licensees who voluntarily turn in their license because of, or in anticipation of, a conviction.

(4) If a license is suspended or revoked by the commission or stewards pursuant to these rules the commission or stewards may probate all or any portion of the suspension.

(a) The order or ruling entered placing a licensee on probation shall state the specific probationary period and the terms and conditions of the probation.

(b) The terms and conditions of the probation must have a reasonable relationship to the violation and may include:

(i) passing a prescribed examination in a specific area;

(ii) periodic reporting to the commission, stewards or other designated person on any matter that is the basis of the probation;

(iii) a medical evaluation and completion of a prescribed treatment program; and

(iv) other terms and condition as specified in the order or ruling that are reasonable and appropriate.

(c) If the commission or stewards determine the licensee has failed to comply with the terms of the probation, the probation may be revoked on three days' notice to the licensee and the licensee may be required to appear before the New Mexico racing commission. Failure to comply with the terms of the probation may subject the licensee to additional disciplinary action.

M. Duration of license:

(1) All annual licenses, with the exception of the authorized agent, issued by the commission expire one year from the last day of the month issued. All triennial licenses expire three years from the last day of the month issued.

(2) A license is valid only under the condition that the licensee remains eligible to hold such license.

N. Changes in application information:

(1) During the period for which a license has been issued, the licensee shall report to the commission changes in information provided on the license applications as to current legal name, marital status, permanent address, telephone number, email address, criminal convictions, license suspension of 10 days or more and license revocations in other jurisdictions

(2) A child or spouse pass, or a change in current legal name requires a completed application on forms furnished by the commission and payment of a photo badge fee.

(3) A licensee requesting a first time badge replacement shall submit a completed application on forms furnished by the commission and payment of a photo badge fee. Any subsequent badge replacements require the licensee to submit a completed application on forms furnished by the commission and payment of the original license fee.

O. Temporary licenses:

(1) The commission may establish provisions for temporary licenses, or may permit applicants to participate in racing pending action on an application. No person may engage in horse racing or be employed on the licensee's premises unless he has been licensed by the commission with the exception of casino employees and also food concession employees who work in non-restricted areas.

(2) The commission may grant an association, who is not conducting a live horse race meeting, a grace period of 30 days to obtain the required licenses for its simulcast employees. An association shall provide to the commission each month, an employment roster for all simulcast employees.

P. More than one license: More than one license to participate in horse racing may be granted except when prohibited by these rules due to a potential conflict of interest. An applicant for a license shall be subject to obtaining a license for each category for which an applicant will be participating, subject to the approval of the board of stewards.

(1) The commission may refuse, deny, suspend or revoke the license of a person whose spouse holds a license and which the commission or stewards find to be a conflict of interest.

(2) A racing official who is an owner of either the sire or dam of a horse entered to race shall not act as an official with respect to that race.

(3) A person who is licensed as an owner or trainer in a horse registered for racing at a race meeting in this jurisdiction shall not be employed or licensed as a jockey, apprentice jockey; jockey agent; racing official; assistant starter; track maintenance supervisor; jockey room custodian; valet; outrider; racing chemist, testing laboratory employee, or security personnel.

R. License presentation:

(1) A person must present an appropriate license or other authorization issued by the commission to enter a restricted area. The commission may issue

authorization to the spouse or child of a licensed owner, trainer or jockey to enter a restricted area.

(2) The stewards may require visible display of a license while the licensee is engaged in the duty for which he/she is licensed and on the association grounds unless the licensee is mounted on a horse.

(3) A license may only be used by the person to whom it is issued.

S. Temporary access authority: Track security may authorize unlicensed persons temporary access to restricted areas. Such person shall be identified and their purpose and credentials verified and approved in writing by track security. Such authorization or credential may only be used by the person to whom it is issued.

T. Knowledge of rules: A licensee shall be knowledgeable of the rules of the commission; and by acceptance of the license, agrees to abide by the rules.

U. Protection of horses:

(1) Each person licensed by the commission shall do all that is reasonable and within their power and scope of duty to guard against and prevent the administration of any drug, medication or other substance, including permissible medication in excess of the maximum allowable level, to any horse entered or to be entered in an official workout or race, as prohibited by these rules.

(2) No licensee or other person under the jurisdiction of the commission shall subject or permit any animal under their control, custody or supervision to be subjected to or to incur any form of cruelty, mistreatment, neglect or abuse or abandon, injure, maim or kill or administer any noxious substance to or deprive any animal of necessary care or sustenance, shelter or veterinary care.

V. Restrictions:

(1) Cellular telephone use is prohibited:

(a) on the race track surface beginning one half hour before first post through the last race becoming official; and

(b) behind the starting gate during racing hours.

(2) The association shall be responsible for posting notices of the cellular telephone prohibition in these restricted areas.

16.47.1.9 OWNERS:

A. Licensing requirements for owners:

(1) Each person who has a five percent or more ownership or beneficial interest in a horse is required to be licensed.

(2) If younger than 18 years of age, an applicant for an owner's license must submit a notarized affidavit from his/her parent or legal guardian stating that the parent or legal guardian assumes responsibility for the applicant's financial, contractual, and other obligations relating to the applicant's participation in racing.

(3) If submitting an owner's application by facsimile, the application shall be notarized. The notarized facsimile shall be treated as the original document.

(4) If the commission has reason to doubt the financial responsibility of an applicant for an owner's license, the applicant may be required to complete a verified financial statement.

(5) Licensed owners are responsible for disclosure of the true and entire ownership of each of their horses registered with the racing secretary. Any change in ownership or trainer of a horse registered with the racing secretary must be approved by the stewards. A new owner must comply with all licensing requirements.

(6) The commission may refuse, deny, suspend, or revoke an owner's license for the spouse or member of the immediate family or household of a person ineligible to be licensed as an owner, unless there is a showing on the part of the applicant or licensed owner, and the commission determines that participation in racing will not permit a person to serve as a substitute for an ineligible person. The transfer of a horse to circumvent a commission rule or ruling is prohibited.

B. Licensing requirements for multiple owners:

(1) If the legal owner of any horse is a partnership, corporation, limited liability company, syndicate or other association or entity, each shareholder, member or partner shall be licensed as required in 16.47.1.8 NMAC.

(2) Each partnership, corporation, limited liability company, syndicate or other association or entity shall disclose to the commission all owners holding a five percent or greater beneficial interest, unless otherwise required by the commission.

(3) Each partnership, corporation, limited liability company, syndicate or other association or entity which includes an owner with less than a five percent ownership or

beneficial interest shall file with the commission an affidavit which attests that, to the best of their knowledge, every owner, regardless of their ownership or beneficial interest, is not presently ineligible for licensing or suspended in any racing jurisdiction.

(4) To obtain an owner's license, an owner with less than a five percent ownership or beneficial interest in a horse must establish a bona fide need for the license and the issuance of such license must be approved by the stewards.

(5) Application for joint ownership shall include a designation of a managing owner and a business address. Receipt of any correspondence, notice, or order at such address shall constitute official notice to all persons involved in the ownership of such horse.

(6) The written appointment of a managing owner or authorized agent shall be filed with the commission.

C. Lease agreements: A horse may be raced under lease provided a completed breed registry or other lease form acceptable to the commission is attached to the certificate of registration and on file with the racing secretary. The lessor and lessee must be licensed as horse owners.

D. Stable name registration:

(1) Licensed owners and lessees may adopt a stable name subject to the approval of the commission.

(2) The applicant must identify all persons using the stable name. Changes must be reported immediately to the commission.

(3) A person who has registered a stable name may cancel it upon written notice to the commission.

(4) A stable name may be changed by registering a new stable name.

(5) A stable name, which has been registered by any other person, will not be approved by the commission.

(6) A stable name shall be clearly distinguishable from other registered stable names.

(7) The stable name and the name of the owner shall be published in the program. If the stable name consists of more than one person, the program shall list the name of the managing owner along with the phrase "et al".

(8) All persons using a stable name must comply with all rules regarding licensing of owners.

E. Racing colors:

(1) Owners or trainers must provide racing colors, which are subject to the approval of the commission.

(2) Racing colors must be registered with the racing secretary no later than the close of entries for that day of racing. If colors are registered they shall be used unless permission to substitute colors is received from the stewards.

(3) Standard track colors will be furnished by the association for owners or trainers who do not provide their own colors. The stewards may authorize a temporary substitution of racing colors when necessary.

(4) The racing colors to be worn by each jockey in a race shall be described in the program, and any change shall be announced to the public prior to the commencement of the race.

F. Private barns/stables: An owner or lessee of a private barn/stable adjacent to or within a reasonable distance of a New Mexico racing facility governed by the commission may by consent have direct access to that racetrack provided they consent to the jurisdiction of the commission and agree, in writing to comply with all rules and regulations of the commission. Direct access simply means they may enter the licensed racetrack without having to go through the general public gate or the horsemen's gate, but they may do so only after consenting in writing to jurisdiction of and complying with the commission and its rules and regulations.

16.47.1.10 TRAINERS:

A. Eligibility:

(1) An applicant for a license as trainer or assistant trainer must be at least 18 years of age.

(2) The board of stewards may first determine whether an applicant for a license as a trainer or assistant trainer has taken an examination in another pari-mutuel jurisdiction prior to applying for a license in New Mexico. The board of stewards shall have sole discretion in which jurisdiction to reciprocate licensing.

(3) Applicants not previously licensed as a trainer or assistant trainer in New Mexico or applying for a renewal license as a trainer shall be qualified, as determined by the stewards or other commission designee, by reason of:

(a) At least five years experience as a licensed groom, jockey, exercise rider, or pony person.

(b) Shall be required to pass the New Mexico racing commission's sanctioned written trainers examination, with a minimum score of eighty percent in each category, an oral interview with the board of stewards and pass a demonstration of practical skills.

(c) Must submit two written statements from trainers currently licensed in New Mexico as to the character and qualifications of the applicant and one written statement from a currently licensed owner stating intent to place one or more horses with the applicant, when licensed.

(d) Applicants failing the first written/oral examination must wait 90 days before retaking the trainer's test.

(e) Applicants failing the second written/oral examination must wait 180 days before retaking the trainer's test.

(f) Applicants failing the third written/oral examination must wait one year before retaking the trainer's test.

(4) Any trainer who has been the subject of a medication violation or investigation in any jurisdiction is subject to an oral examination conducted by the stewards; a demonstration of practical skills; or a New Mexico racing commission's sanctioned written trainers examination and must pass with a minimum score of eighty percent in each category.

(5) Upon timely request to the steward's or commission designee due to disability or other factors affecting the applicant's ability to effectively complete the trainer's test (such as illiteracy or language barriers), reasonable accommodations shall be made for the applicant including, but not limited to, oral administration of the examination, use of a pre-approved translator, and aid from pre-approved assistant where deemed appropriate by the stewards or commission designee administering the examination.

(6) Failure to start a minimum of one horse every six months while holding a trainer's license shall require licensee to retest or interview before the board of stewards.

(7) Any trainer who has obtained a trainer's license in another jurisdiction but has failed to start a minimum of five horses in a jurisdiction that conducts pari-mutuel wagering, will be required to pass an oral examination before the New Mexico board of stewards, a demonstration of practical skills administered by a New Mexico racing commission designee; and take the New Mexico commission sanctioned written trainers examination and must pass with a minimum score of eighty percent in each category.

(8) Any potential trainer or assistant trainer who has started the licensing process in the state of New Mexico and obtains a trainer's or assistant trainer's license in another jurisdiction will be required to pass an oral examination before the New Mexico board of stewards, a demonstration of practical skills administered by a New Mexico racing commission designee, and take the New Mexico racing commission sanctioned written trainers examination and must pass with a minimum score of eighty percent in each category.

(9) Any trainer or assistant trainer who has passed the HISA written examination will also be required to pass an oral examination before the New Mexico board of stewards, a demonstration of practical skills administered by a New Mexico racing commission designee and take a New Mexico racing commission sanctioned written trainers examination and must pass with a minimum score of eighty percent in each category.

B. Absolute insurer:

(1) The trainer is the absolute insurer of the condition of horses entered in an official workout or race and is responsible for the presence of any prohibited drug or medication, or other prohibited substance in such horses. A positive test for a prohibited drug or medication or other prohibited substance or the presence of permitted medication in excess of maximum allowable levels as reported by a commission-approved laboratory is prima facie evidence of a violation of this rule. The trainer is absolutely responsible regardless of the acts of third parties.

(2) A trainer must prevent the administration of any drug or medication or other prohibited substance that may cause a violation of these rules.

(3) A trainer whose horse has been claimed remains the absolute insurer for the race in which the horse is claimed.

C. Other responsibility: A trainer is responsible for:

(1) the condition and contents of stalls, tack rooms, feed rooms, sleeping rooms and other areas which have been assigned by the association;

(2) maintaining the assigned stable area in a clean, neat, and sanitary condition at all times;

(3) ensuring that fire prevention rules are strictly observed in the assigned stable area;

(4) providing a list to the chief of security of the trainer's employees on association grounds and any other area under the jurisdiction of the commission; the list shall include each employee's name, occupation, social security number, and

occupational license number; the chief of security shall be notified by the trainer, in writing, within 24 hours of any change;

(5) the proper identity, custody, care, health, condition, and safety of horses in their charge;

(6) disclosure of the true and entire ownership of each horse in their care, custody or control; any change in ownership must be reported immediately to, and approved by, the stewards and recorded by the racing secretary;

(7) training all horses owned wholly or in part by them which are participating at the race meeting; registering with the racing secretary each horse in their charge within 24 hours of the horse's arrival on association grounds;

(8) immediately notify the stewards and commission veterinarian of all out-of-state certified horses on furosemide;

(9) having each horse in their care that is racing, or is stabled on association grounds, tested for equine infectious anemia (EIA) and for filing evidence of such negative test results with the racing secretary as required by the commission;

(10) using the services of those veterinarians licensed by the commission to attend horses that are on association grounds;

(11) immediately reporting the alteration in the sex of a horse in their care to the horse identifier and the racing secretary, whose office shall note such alteration on the certificate of registration;

(12) promptly reporting to the racing secretary and the official veterinarian any horse on which a posterior digital neurectomy (heel nerving) is performed and ensuring that such fact is designated on its certificate of registration;

(13) promptly notifying the official veterinarian of any reportable disease and any unusual incidence of a communicable illness in any horse in their charge;

(14) promptly reporting the death of any horse in their care on association grounds to the stewards and the official veterinarian and compliance with the rules in Subsection C of 15.2.6.12 NMAC governing post-mortem examinations;

(15) maintaining a knowledge of the medication record and status of all horses in their care;

(16) immediately reporting to the stewards and the official veterinarian if they know, or has cause to believe, that a horse in their custody, care or control has received any prohibited drugs or medication;

(17) representing an owner in making entries and scratches and in all other matters pertaining to racing; horses entered as to eligibility and weight or other allowances claimed;

(18) horses entered as to eligibility and weight or other allowances claimed;

(19) ensuring the fitness of a horse to perform creditably at the distance entered;

(20) ensuring that their horses are properly shod, bandaged, and equipped; toe grabs with a height greater than two millimeters worn on the front shoes of thoroughbred horses while racing are prohibited; the horse shall be scratched and the trainer may be subject to fine;

(21) ensuring that horses are properly bandaged, and equipped; and no jockey, apprentice jockey, exercise person or any person mounted on a horse shall ride, breeze, exercise, gallop or workout a horse on the grounds of a facility under the jurisdiction of the commission unless the horse is equipped with a nylon rein or a safety rein; a safety rein is a rein with a wire or nylon cord stitched into the traditional leather rein during the manufacturing process and the safety cord is attached to the bit with a metal clasp;

(22) presenting horse in the paddock at least 20 minutes before post time or at a time otherwise appointed before the race in which the horse is entered;

(23) personally attending to their horses in the paddock and supervising the saddling.

(24) Any licensed trainer that is listed on the race day's official program and does not receive approval from the stewards to have an assistant trainer or substitute trainer to saddle the absent trainer's horses in the paddock will be fined \$1,500.00 for the first offense and \$3,000.00 for the second and each subsequent offenses.

(25) Any licensed trainer that continues to be non-compliant by not receiving stewards' prior approval to have an assistant or substitute trainer to act in the place of the listed trainer on the official program, the stewards may summarily suspend the non-compliant trainer and their horses may be placed on the stewards' list pending a disciplinary hearing.

(26) instructing the jockey to give their best effort during a race and that each horse shall be ridden to win;

(27) attending the collection of urine or blood sample from the horse in their charge or delegating a licensed employee or the owner of the horse to do so; and

(28) notifying horse owners upon the revocation or suspension of their trainer's license; upon application by the owner, the stewards may approve the transfer of such horses to the care of another licensed trainer, and upon such approved transfer, such horses may be entered to race.

D. Assistant trainers:

(1) A trainer may employ an assistant trainer, who shall be equally responsible with the employing trainer for the condition of the horses in their care. The name of the assistant trainer shall be shown on the official program along with that of the employing trainer.

(2) Qualifications for obtaining an assistant trainer's license shall be prescribed by the stewards and the commission may include those requirements prescribed in Paragraph (1) of Subsection A of 16.47.1.10 NMAC.

(3) An assistant trainer must be licensed for a minimum of two years as an assistant trainer before being eligible to obtain a trainer's license.

(4) If an assistant trainer passed the written examination with a minimum score of 80 percent in each category within the previous 48 months, the licensee is not required to retake the test in order to obtain their trainer's license.

(5) An assistant trainer shall assume the same duties and responsibilities as imposed on the licensed trainer.

(6) The trainer shall be jointly responsible for the assistant trainer's compliance with the rules governing racing.

(7) A trainer that is involved in, or notified of, or under suspension for 30 days or more of a drug or rule violation, shall not transfer their horses to his or her assistant trainer or an employee of the trainer.

E. Substitute trainers:

(1) If any licensed trainer is prevented from performing their duties or is absent from the track where they are participating, the absent trainer shall immediately notify the stewards. The absent trainer, substitute trainer or assistant trainer, if approved, shall thoroughly fill out the "substitute trainer form" provided by the stewards.

(2) If the stewards do not excuse the absent trainer from their duties for the day, their horses may be scratched, at the stewards' discretion.

(3) A substitute trainer must accept responsibility for the horses in writing and be approved by the stewards.

(4) A substitute trainer and the absent trainer shall be jointly responsible as absolute insurers of the condition of their horses entered in an official workout or race pursuant to Paragraphs (1), (2) and (3) of Subsection B of 16.47.1.10 NMAC.

(5) Any unauthorized person found to be acting as a substitute trainer in the paddock without thoroughly filling out the "substitute trainer form" and being approved by the stewards, will be sanctioned with a fine no less than \$500.00.

F. Program trainers:

(1) A program trainer, as defined in 15.2.1 NMAC, is a licensed trainer who, solely for the purposes of the official race program, is identified as the trainer of a horse that is actually under the control of, and trained by another person who may or may not hold a current trainer's license in any jurisdiction. Any trainer shall be deemed a program trainer if they:

(a) enter into an agreement on behalf of an unlicensed, ineligible or suspended trainer for the sole purpose of completing an entry form for a race;

(b) pay an entry, nomination or starter fee on behalf of an unlicensed, ineligible or suspended trainer;

(c) receive a financial or beneficial interest from an unlicensed, ineligible or suspended trainer for the sole purpose of being listed as the trainer on the official race program; or

(d) obtain official works within New Mexico's jurisdiction on behalf of an unlicensed, ineligible or suspended trainer; or

(e) solicit or accepts a loan of anything of value from the unlicensed, ineligible or suspended trainer; or

(f) use the firm or individual name of the unlicensed, ineligible or suspended trainer when billing customers; or

(g) pay any compensation to the unlicensed, ineligible, or suspended trainer.

(2) A licensed trainer who violates Paragraph (1) of this subsection will be subject to the following penalties:

(a) First offense – six-month suspension and a \$5,000 fine.

(b) Second offense - one year suspension and a \$10,000 fine.

(c) Third offense - license revocation with a three-year ban on re-application and \$20,000 fine.

(d) A fourth or subsequent offense shall carry the same penalty as that imposed for a third offense, and the penalties will run consecutively.

(3) On request by the commission or any of its agents, a person who assumes the care, custody or control of the horses of the unlicensed, ineligible or suspended trainer, shall permit the commission or its agents to examine all financial or business records to ensure compliance with this section.

16.47.1.11 OWNER'S AUTHORIZED AGENTS:

A. Licenses required:

(1) A written authorized agent appointment, acknowledged before a notary public must be approved by the board of stewards.

(2) A written appointment must be filed with the commission office for each owner represented and is not transferable to any other partnership, stable name, or owner-principal.

(3) A written instrument signed by the owner shall clearly set forth the delegated powers of the authorized agent. The owner's signature on the written instrument must be acknowledged before a notary public.

(4) If the written instrument is a power of attorney it shall be filed with the commission office and attached to the regular application form.

(5) Any changes must be made in writing, notarized and filed as provided in Paragraph (3) of Subsection A of 16.47.1.11 NMAC above.

(6) All authorized agent appointments shall expire December 31st each year or when terminated by the owner in writing, acknowledged before a notary public, and filed with the commission office whereupon the agency appointment shall not be valid.

(7) An authorized agent shall be licensed by the commission as such and must be a minimum of 18 years old.

B. Powers and duties:

(1) An authorized agent may perform on behalf of the licensed owner-principal all acts related to racing, as specified in the agency appointment that could be performed by the owner-principal if such principal were present.

(2) In executing any document on behalf of the principal, the authorized agent must clearly identify the authorized agent and the owner-principal.

(3) When an authorized agent enters a claim for the account of an owner-principal, the name of the licensed owner for whom the claim is being made and the name of the authorized agent shall appear on the claim slip or card.

(4) Authorized agents are responsible for disclosure of the true and entire ownership of each horse for which they have authority. Any change in ownership must be reported immediately to, and approved by, the stewards and recorded by the racing secretary.

16.47.1.12 JOCKEYS:

A. Eligibility:

(1) A jockey must pass a physical examination given within the previous 12 months by a licensed physician affirming fitness to participate as a jockey. The stewards may require that any jockey be reexamined and may refuse to allow any jockey to ride pending completion of such examination.

(2) Prior to obtaining a license an applicant for a first time jockey or an apprentice jockey license must demonstrate their riding ability by participating in five races and must receive prior approval from the stewards, the starter, the head outrider, and the designated representatives of the jockeys and the horsemen at the track. The demonstration of riding competence and ability is defined as a minimum of:

(a) breaking a horse in company from the starting gate;

(b) working a horse in company from the starting gate;

(c) switching the whip from one hand to the other while maintaining control of the horse in a stretch drive; and

(d) causing the horse to switch leads coming out of a turn.

(3) Failure to demonstrate the required ability shall result in the withdrawal of the license.

(4) The stewards may authorize a temporary license to ascertain the applicant's riding competence and ability.

(5) A jockey shall not be an owner or trainer of any horse competing at the race meeting where the jockey is riding.

(6) An applicant whose weight exceeds 130 pounds at the time of application shall not be issued a jockey's license.

B. Apprentice jockeys:

(1) An apprentice jockey must be 16 years of age and if less than the age of 18, a parent or guardian must sign the license application assuming full financial responsibility for the applicant.

(2) An applicant for an apprentice jockey license shall provide a certified copy of the applicant's birth certificate or other satisfactory evidence of date of birth.

(3) An apprentice jockey license does not apply to quarter horse racing.

(4) An applicant with an approved apprentice certificate may be licensed as an apprentice jockey.

(5) An apprentice certificate may be obtained from the stewards on a form provided by the commission.

(6) An apprentice jockey shall ride with a five pound weight allowance beginning with their first mount and for one full year from the date of their fifth winning mount. If after riding one year from the date of their fifth winning mount, the apprentice jockey has failed to ride a total of 40 winners, they shall continue to ride with a five pound weight allowance for one more year from the date of their fifth winning mount or until they have ridden 40 winners, whichever comes first. In no event may a weight allowance be claimed for more than two years from the date of the fifth winning mount unless an apprentice jockey is unable to ride for a period of seven consecutive days or more after the date of their fifth winning mount because of service in national armed forces, enrollment in high school or an institution of secondary education, or because of physical disablement, or restriction on racing or other valid reasons, the commission may extend the time during which such apprentice weight allowance may be claimed for a period not to exceed the period such apprentice jockey was unable to ride. The stewards or commission may issue apprentice extensions with proper documentation.

(7) An apprentice jockey must meet the conditions set forth in Subsection A of 16.47.1.12 NMAC.

C. Foreign jockeys: Whenever a jockey from a foreign country rides in this jurisdiction, the jockey must declare that they are a holder of a valid license in their country and currently not under suspension. To facilitate this process, the jockey shall present a declaration sheet in a language recognized in this jurisdiction to the

commission. The jockey must complete a license application and be fingerprinted to be maintained in the files of the commission.

D. Jockeys responsibility:

(1) A jockey shall not have a valet-attendant except one provided and compensated by the association.

(2) No person other than the licensed contract employer, or a licensed jockey agent, may make riding engagements for a rider, except that a jockey not represented by a jockey agent may make his own riding engagements.

(3) A jockey shall have no more than one jockey agent.

(4) No revocation of a jockey agent's authority is effective until the jockey notifies the stewards in writing of the revocation of the jockey agent's authority.

(5) A jockey who has a medical condition which makes it necessary to possess or use a prescribed, prohibited, or controlled substance pursuant to Paragraph (3) of Subsection B of 15.2.6.8 NMAC, that jockey shall provide to the stewards a letter signed by a licensed physician, physician assistant, or nurse practitioner certifying that the consumption of the prohibited, prescribed, or controlled substances will not adversely affect the divided attention, psychophysical abilities of a jockey, to include but not limited to reaction time and the jockey's ability to accurately judge time and distance. The letter must certify that the prohibited, prescribed, or controlled substance will not affect a jockey's ability to carry out their responsibilities properly and safely while in the performance of their duties which includes being in actual physical control of a large equine animal while in close physical competition on a racetrack surface and will not jeopardize the health, safety and welfare of the other individuals participating.

E. Colors, numbers, advertising:

(1) A jockey shall be properly attired for riding in a race, wearing the colors of the owner of the horse he or she is riding, and exhibiting a number on the saddlecloth that corresponds to the number of the horse on the program.

(2) Advertising or promotional material may be worn by a jockey upon approval from the board of stewards and racetrack management. Approval is discretionary and may be denied for just cause.

(3) Jockeys shall submit a commission approved form, including a description of the advertisement or promotional material to be worn with the name of the brands and sponsors.

(4) The form must be submitted to the board of stewards at the time of entry before the applicable race.

(5) Advertising, including logos, labels or product endorsements shall be permitted on jockey attire from the point of weighing out for a race to weighing in after its conclusion.

(6) Advertisement on jockey clothing is limited to.

(a) A maximum of 32 square inches on each thigh of the pants on the outer sides between the hip and knee and 10 square inches on the rear at the base of the spine.

(b) A maximum of 24 square inches on boots and leggings on the outside of each, nearest the top of the boot.

(c) A maximum of six square inches on the front center in the neck area.

(7) A sponsorship shall not be permitted by a person or entity whose message, business reputation, or ongoing business activity may be considered as obscene or indecent to a reasonable person.

(8) Advertising or promotional material displayed on jockey clothing shall not compete with, conflict with, or infringe upon sponsorship agreements applicable to the racing association race or to the race meet in progress.

(9) A jockey may wear the following advertising or promotional materials within the parameters outlined in the size restrictions above without obtaining prior approval.

(a) Materials advertising or promotion the jockey's guild in the form of the picture of a jockey's boot or the picture of a wheelchair, with no additional picture of logo.

(b) The permanently disabled jockey's fund (PDJF) in the form of the pictures of its logo, with no additional picture or log.

F. Jockey betting: No jockey shall be allowed to bet before or during any live racing program.

G. Jockey Suspensions and Designated Races:

(1) Prior to the commencement of a race meeting, a listing of designated races by the stewards shall be submitted to the executive director. A copy of such races shall be posted in the jockeys' room and any other such place deemed appropriate by the stewards. The stewards may elevate a race to designated race status after the commencement of the race meet and shall submit it to the executive director and update the listing as above.

(2) A jockey suspended for 10 days or less for a riding violation, unless otherwise specified in the ruling, may continue to exercise horses during the training hours and may fulfill riding engagements in designated races, as designated by the stewards at the beginning of the race meet.

(3) The official ruling where designated races are permitted shall state: "The term of this suspension shall not prohibit participation in designated race days."

(4) A jockey who is serving a suspension of 10 race days or less may ride in designated races during the suspension under the following conditions:

(a) The race has been specified as a designated race by the stewards officiating at the race meet; and

(b) the jockey is named no later than the time set for the close of entries for the designated race.

(5) When a jockey rides in a designated race (s)

(a) The jockey agrees that if they participate in only one designated race in New Mexico, the day will be recognized as a suspension day; or

(b) the jockey agrees that if they participate in more than one designated race in New Mexico, the day will still not be recognized as a suspension day and they will serve an additional race day of suspension in place of the race day on which the jockey rides in a designated race, to be served on the next race day; or

(c) the jockey agrees that if they participate in one or more designated races in any other jurisdiction while under suspension in New Mexico, the day will still not be recognized as a suspension day and the jockey will serve an additional race day of suspension in place of the race day on which the jockey rides in a designated race, to be served on the next race day.

(6) A jockey may ride all races for the day they are riding a designated race, however, the jockey is to continue to take the next available day until his suspension is completed.

16.47.1.17 HUMAN DRUG OR CONTROLLED SUBSTANCE AND ALCOHOL TESTING:

A. If a licensee has a medical condition which makes it necessary to possess or use a prohibited substance, or prescribed or controlled substance pursuant to Paragraph B of 15.2.6.8 NMAC, the licensee shall provide to the stewards a letter signed by a licensed physician, physician assistant, or nurse practitioner certifying that the consumption of the prohibited, or prescribed, or controlled substances will not adversely affect the divided attention, psychophysical abilities of the licensee, to include but not limited to reaction time and the ability to judge time and distance. The letter must certify that the prohibited, or prescribed, or controlled substance will not affect a licensee's ability to carry out their responsibilities properly and safely while in the performance of their duties which includes being in actual physical control of a large equine animal or operating mechanical equipment on the grounds of the association and will not jeopardize the health, safety and welfare of the other individuals participating.

B. Restricted activities: All licensees may be subject to testing for controlled substances, drugs and alcohol. It shall be a violation for a licensee to utilize their commission issued license if the licensee:

- (1) is engaged in illegal sale or distribution of alcohol or a controlled substance;
- (2) possesses, without a valid prescription, a controlled substance;
- (3) is intoxicated or under the influence of alcohol;
- (4) is addicted, having been determined to be so by a professional evaluation, to alcohol or other drugs and not engaged in an abstinence-based program of recovery acceptable to the commission;
- (5) has in their possession within the association grounds, any equipment, products or materials of any kind which are used or intended for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling or otherwise introducing into the human body a controlled dangerous substance;

(6) refuses to submit to drug or controlled substances or alcohol testing, or both;

(7) presently has drugs or controlled substances or alcohol in their body.

C. With regard to alcohol, the results of a breath test showing a reading of more than .08 BAC in the sample provided by a licensee in a non-safety sensitive position shall be the criterion for a finding of alcohol present in the body. Such results shall operate as prima facie evidence of the presence of alcohol in a prohibitive amount in a licensee.

D. Licensees in safety positions, as determined by the stewards are in violation of this rule if they have any measurable level of alcohol, as determined by a breathalyzer test. Such results shall operate as prima facie evidence of the presence of alcohol in a prohibitive amount in the licensee.

E. There is zero tolerance for trainers and assistant trainers to be under the influence of controlled substances or alcohol or both while saddling horses in the paddock.

16.47.1.18 TESTING PROCEDURES:

A. Controlled Substance and Drug Testing:

(1) At its discretion, the commission may conduct random or episodic random drug testing, as well as testing based on reasonable suspicion, in order to ensure safety on the association grounds.

(2) All licensees may be subject to testing for controlled substances and drugs.

(3) No advance notice need be given.

(4) Refusing to test, failing to appear for a test, leaving before the test is over or otherwise failing to cooperate shall be considered a positive test. If this occurs during a race meet, the licensee is subject to and may be ejected from association grounds.

(5) For licensees who are testing under the provisions in this chapter, and whose urine testing shows the presence of drugs or controlled substances shall be confirmed by a laboratory acceptable to the commission.

(6) An association shall provide a drug or controlled substance screening test for all applicants for grooms, exercise riders, jockey valets, starters, assistant starters,

ambulance personnel, and pony persons when making application for license. The cost for the drug-screening test will be borne by the applicant payable to the association at a reasonable cost approved by the commission.

(7) The licensee being tested may request a confirmation test when the sample quantity permits. Such request shall be made in writing immediately after a positive result of the test and be directed to the commission agent involved in the testing. The licensee requesting a confirmation test, or their agent, shall be present during the preparation and packing of the sample for delivery to the commission's testing laboratory. The licensee and the commission shall both be notified of the confirmation testing results.

(8) Chain of custody: The commission shall provide for a secure chain of custody for the confirmation sample. The commission shall retain ownership of all samples.

(9) Financial responsibility: All costs for the transportation and confirmation testing for the sample portion shall be the financial responsibility of the commission, unless otherwise noted in a stewards' ruling.

B. Alcohol Testing:

(1) At its discretion, the commission may conduct random or episodic breath alcohol testing as well as testing based on reasonable suspicion, in order to ensure safety on the association grounds.

(2) All licensees may be subject to breath alcohol testing.

(3) No advance notice need be given as to random breath alcohol testing.

(4) Refusing to test, failing to appear for a test, leaving before the test is over or otherwise failing to cooperate shall be considered a positive test. If this occurs during a race meet, the licensee is subject to and may be ejected from association grounds.

(5) If the breath testing results for non-safety position licensees show a reading of more than .08 BAC in the sample, such licensees shall be relieved of their duties for that day.

(6) For a licensee's second breath testing violation in any jurisdiction, the licensee shall be referred to the board of stewards and shall be fined no less than two hundred dollars and shall be suspended for a period of not more than sixty days.

(7) For a licensee's third breath testing violation in any jurisdiction, the licensee shall be fined two hundred dollars, suspended for a minimum of sixty days, and referred to the commission's board of stewards for further action.

16.47.1.19 ASSESSMENT/TREATMENT REQUIREMENTS:

A. General: A licensee penalized or restricted pursuant to this chapter shall retain rights of due process with respect to any determination of alleged violations which may adversely affect the right to hold a license. If there has been an offense, under 16.47.1.17 NMAC, above, the procedures in Subsections B, C and D of 16.47.1.18 NMAC will be followed.

B. First-time offenders:

(1) The board of stewards or the commission may, at its discretion, order the licensee to obtain a professional assessment to determine whether there is a substantial probability that the licensee is dependent on, or abuses, alcohol or other drugs or the board of stewards or the commission may act on the information at hand.

(2) Actions in the case of first offenders may include revocation of the license, suspension of the license for up to six months, placing the offender on probation for up to 90 days or ordering formal assessment and treatment.

(3) Treatment or assessment, if ordered, must meet the conditions given in Subsection C of 16.47.1.18 NMAC.

C. Second-time offenders:

(1) The license of the person may be revoked or suspended for a period of up to one year or a professional assessment of the person may be ordered by the commission.

(2) If a professional assessment indicates presence of a problem or alcohol or other drug abuse that is not treatable within the reasonably foreseeable future (360 days) the license may be suspended for a period of up to one year.

(3) If a professional assessment indicates presence of a treatable problem of alcohol or other drug abuse or dependence, the board of stewards or the commission may order the licensee to undergo treatment as a condition of continuing licensure. Such treatment will be through a program or by a practitioner, acceptable to the licensee and the board of stewards or the commission. Required features of any program or practitioner acceptable to the board of stewards or the commission will be: accreditation or licensure by an appropriate government agency, if required by state statute; a minimum of one year follow-up treatment; and, a formal contract indicating the elements of the treatment and follow-up program that will be completed by the licensee and, upon completion, certified to the board of stewards or the commission as

completed. To affect the contract, the licensee will authorize release of information by the treating agency, hospital or individual.

D. Third-time offenders: For third-time offenders, the offender's license may be revoked and the offender may be deemed ineligible for licensure for up to five years.

16.47.1.20 RELAPSE OF LICENSEE IN RECOVERY PROGRAM GENERAL:

Although relapse (failure to maintain abstinence) is not inevitable, it is common for relapse to occur in recovery from alcoholism or other substance dependence. Therefore, a licensee who is engaged in a formal program of recovery, and is compliant with all provisions other than abstinence, will not be regarded automatically as having committed a new offense.

[16.47.1.20 NMAC - Rp, 16 NMAC 47.1.16, 03/15/2001; Rp, 16.47.1.19 NMAC, 07/01/2017]

16.47.21 POST-RELAPSE PROCEDURES:

A. When a licensee is determined to have failed in maintaining abstinence, the licensee shall furnish to the board of stewards or the commission an assessment by the treating agency, hospital or individual practitioner indicating whether the licensee was compliant with the agreed upon program of recovery, and an opinion as to whether a "new offense" occurred.

B. The board of stewards or the commission will determine whether a new offense has occurred in each instance. If a new offense has occurred, the board of stewards or the commission will proceed under Subsections B or C of 16.47.1.18 NMAC. Otherwise, the licensee shall continue in the agreed upon program of recovery.

16.48.1.8 CODE OF ETHICS AND CREED OF CONDUCT:

A. Code of ethics for private security management. As managers of private security functions and employees, we pledge:

(1) to recognize that our principal responsibilities are, in the services of our organizations and clients, to protect life and property as well as to prevent and reduce crime against our business, industry, or other organizations and institutions; and in the public interest, to uphold the law and to respect the constitutional rights of all persons;

(2) to be guided by a sense of integrity, honor, justice and morality in the conduct of business; in all personnel matters; in relationships with government agencies, client and employers; and in responsibilities to general public;

(3) to strive faithfully to render security services of the highest quality and to work continuously to improve our knowledge and skills and thereby improve the overall effectiveness of private security;

(4) to uphold the trust of our employers, our clients, and the public by performing our function within the law, nor ordering or condoning violations of law, and ensuring that our security personnel conduct their assigned duties lawfully and with proper regard for the rights of others;

(5) to respect the reputation and practice of others in the private security field, but to expose to the proper authorities any conduct that is unethical or unlawful;

(6) to apply uniform and equitable standards of employment in recruiting and selecting personnel regardless of race, creed, color, sex or age and in providing salaries commensurate with job responsibilities and with training, education and experience;

(7) to cooperate with recognized and responsible law enforcement and other criminal justice agencies; to comply with security licensing and registration laws and other statutory requirements that pertain to our business;

(8) to respect and protect the confidential and privileged information of employers and clients beyond the terms of our employment, except where their interests are contrary to law or to this code of ethics;

(9) to maintain a professional posture in all business relationships with employers, and clients, with others in the private security field, and with members of other professions; and to insist that our personnel adhere to the highest standard of professional conduct;

(10) to encourage the professional advancement of our personnel by assisting them to acquire appropriate security knowledge, education and training;

B. Code of ethics for private security employees. In recognition of the significant contribution of private security to crime prevention and reduction, as a private security guard, I pledge:

(1) to accept the responsibilities and fulfill the obligations of my role: protecting life and property; preventing and reducing crimes against my employer's business, or other organizations and institutions to which I am assigned; upholding the law; and respecting the constitutional rights of all persons;

(2) to conduct myself with honesty and integrity and to adhere to the highest moral principles in the performance of my security duties;

(3) to be faithful, diligent and dependable in discharging my duties, and to uphold at all times the laws, policies, and procedures that protect the rights of others;

(4) to observe the precepts of truth, accuracy, and prudence without allowing personal feelings, prejudices, animosities or friendships to influence my judgments;

(5) to report to my superiors, without hesitation, any violation of the law or of my employer's or client's regulation;

(6) to respect and protect the confidential and privileged information of my employer or client beyond the term of my employment, except where their interests are contrary to law or to this code of ethics;

(7) to cooperated with all recognized and responsible law enforcement and government agencies in matters within their jurisdiction;

(8) to accept no compensation, commission, gratuity or other advantage without the knowledge and consent of my employer;

(9) to conduct myself professionally at all times, and to perform my duties in a manner that reflects positively upon myself, my employer, and private security;

(10) to strive to continually to improve my performance by seeking training and educational opportunities that will better prepare me for my private security duties.

C. Code of ethics for polygraph examiners.

(1) I shall at all times conduct myself in a manner reflecting credit to the polygraph profession.

(2) I shall deal fairly and impartially with all individuals, regardless of social, political, racial, religious, ethnic, economic or fraternal status.

(3) I shall keep all decisions free of personal or any other extraneous influence and render unbiased opinion in all decisions.

(4) I shall not publish misleading advertisements or claims concerning the polygraph profession. I shall advise each client or examinee of the infeasibility of conducting an examination where I encounter conditions or circumstances that so warrant.

(5) I shall not conduct a polygraph examination of any person I have reason to believe may be mentally or physically unfit, without first seeking an opinion of medical, psychological or psychiatric authority, as appropriate, prior to testing.

(6) I shall not include an opinion in any decision or report relating to medical, psychological, psychiatric, legal, or any other field in which I am not qualified unless it relates to polygraph.

(7) I shall refrain from criticizing or maligning other polygraph examiners except as required by legal proceedings.

(8) I shall not testify concerning polygraph charts of another examiner until I have satisfied the requirements of NM Rule of Evidence 11-707, NMRA 2004.

(9) I shall support the professional goals of the polygraph profession at every opportunity.

(10) I shall consider the integrity and goals of the polygraph profession above my personal desires and ambitions.

D. Polygraphy creed of conduct: To encourage uniformity of procedures, enhance the image of polygraphy, promote the welfare of the public, establish standards and promote an understanding among all polygraphers operating in the state of New Mexico, the following standards of principle are endorsed.

(1) The primary goal of a polygraph examination is to assess reactions pertaining to chart evaluations, respecting all rights of the examinee and using proper polygraph techniques and procedures accepted profession wide.

(2) No examinee will be compelled to take a polygraph examination except in compliance with existing law or terms of probation or parole. No force, threats, duress, coercion or promises will be made by a licensee in an effort to complete a polygraph examination.

(3) A minimum of three charts is required to reach a conclusive diagnostic opinion in any polygraph examination conducted by a licensee.

(4) Inquiries into the personal life, sexual habits, political or religious principles, or any other aspects of one's life that are not connected to, or necessary for, addressing the issue concerned will not be made.

(5) Examinations addressing secondary aspects of an unresolved direct issue will not be made merely to avoid or circumvent addressing a primary issue or to satisfy the personal desires of the examinee or client.

(6) Information concerning polygraph examinations will not be released to unauthorized persons. This does not preclude consultation with other examiners, or testimony before legal proceeding or other duly constituted authority, or information requested by the department.

(7) It is the responsibility of each examiner to promote proper polygraph procedures. Knowledge of deliberate violations of the law governing polygraphy should be brought to the attention of the department. Any relevant issue shall be presented to national professional association for consideration and action, if appropriate.

(8) Any polygraph examiner conducting a registered business in the state of New Mexico must show proof of full time residency in the state while conducting business in the state. Any exception shall be heard or proved by the department.

(9) Anyone conducting a polygraph exam in the state of New Mexico must be licensed by the state.

F. Authorized Targets and Scoring Process

(1) Instructors will only use a "TQ-19" style target, which depicts an average adult human-sized silhouette comprised of torso, neck, and head zones. There shall be clearly designated body/neck and head zones as scoring areas outlined by a colored perimeter line for each zone. Only body-designated rounds impacting within the outlined body and neck area will be scored as "hits". Only headshot-designated rounds impacting within the outlined head area will be scored as "hits". All other rounds that impact outside of the outlined strike areas will be scored as "misses". For clarification, an actual round impact which breaks the perimeter line of the designated target zone will scored as a "hit", paper tears around the perimeter of a round impact that break the perimeter line are not sufficient to be scored as a "hit".

(2) Alibis will only be considered for firearm malfunctions that the shooter immediately and properly employs an action drill to correct.

(3) Ammunition management is the shooter's responsibility.

G. All shooters must adhere to the safety rules and directions of the attending range and the approved firearm instructor(s) providing the training.

[16.48.9.7 NMAC – N, 12/28/2021; A, 7/18/2023]

16.48.9.8 GENERAL PROVISIONS:

A. A complaint may be initiated in writing by any person on a complaint form provided by the department. A complaint must be legible, signed by the complainant under penalty of perjury, and must include the following information:

(1) full name, mailing address, electronic mail address, and phone number of the complainant;

(2) clearly stated factual allegations including the date, time, and location of the incident that is the subject matter of the complaint constituting the alleged violations of any provisions of the Private Investigations Act or Code of Ethics and Creed of Conduct, 16.48.1 NMAC;

(3) a list of any other people that have information about the subject matter in the complaint, if any, and their full name, mailing addresses, and phone numbers, including electronic mail addresses if available; and

(4) any documentation available to support the allegations in the complaint, any photographs submitted must be in color.

B. Only complaints written on the official complaint form will be formally addressed by the department. The form required for an official complaint may be obtained from the

department's website under the "file a complaint" tab, then select "boards and commissions complaint form".

C. Private cause of action: Neither the action nor inaction of the department on any complaint shall preclude the initiation of any private cause of action by the complainant.

[16.48.9.8 NMAC – N, 12/28/2021]

16.48.9.9 PROCEDURES FOR RECEIPT OF A COMPLAINT:

A. The department's assigned compliance staff will maintain a written log of all complaints received which records at a minimum, the date the complaint was received; name, electronic mail and physical mailing address(es) of the complainant(s) and respondent(s); and the name, electronic mail and physical address(es) of all possible witnesses listed on the complaint.

B. Upon receipt of a complaint the department's compliance staff will:

- (1)** log in the date the complaint was received;
- (2)** determine whether the respondent is licensed, registered or is an applicant for licensure or registration with the department;
- (3)** assign a complaint number and create an individual file. Complaint numbering shall begin with 01 each calendar year;
- (4)** after a legal review, send complainant written acknowledgment of receipt of the complaint and any follow up questions needed to clarify the complaint; and
- (5)** send a copy of the complaint to the respondent(s) via electronic mail or certified U.S. mail to the address of record in the respondent's file, unless the department reasonably determines that disclosure of the information in the complaint at that time, will substantially and materially impair the integrity or efficacy of the investigation.

[16.48.9.9 NMAC – N, 12/28/2021]

16.48.9.10 RESPONDING TO COMPLAINT:

A. The respondent must submit a written response to the department within 20 business days of receipt the complaint, and shall provide all necessary documents and exhibits in support of the response.

B. A failure to submit a written response to the department within the time frame specified may result in disciplinary action up to and including revocation of the license or registration at the discretion of the department.

[16.48.9.10 NMAC – N, 12/28/2021]

16.48.9.11 DEPARTMENT REVIEW AND INVESTIGATION OF COMPLAINTS:

A. The department will review and investigate all written, signed complaints against a respondent unless it is determined that there is insufficient evidence, cause, or jurisdiction to proceed.

B. If the department determines that further information is needed, the department may utilize an investigator or subject matter expert to review complaints as part of its investigation. The purpose of an investigation is to gather information regarding the complaint and to verify facts in the complaint.

C. Investigative Subpoenas: The department is authorized to issue investigative subpoenas prior to the issuance of a notice of contemplated action and to employ experts with regard to pending investigations.

D. Upon completion of the investigation, the compliance staff or investigator will prepare a report which includes its factual findings and conclusions on any violations of the Private Investigations Act and rules, all relevant exhibits, and a recommendation to the superintendent as to a course of action regarding the complaint.

[16.48.9.11 NMAC – N, 12/28/2021]

16.48.9.12 DEPARTMENT ACTION ON A COMPLAINT:

A. If the department determines after investigation, that there is not sufficient evidence or cause to issue a notice of contemplated action, or other disciplinary action, the case shall be closed and the department's assigned compliance staff shall send a letter of the decision to both the complainant and respondent. The letter will state the department's decision and that the decision is final unless new evidence is presented.

B. If the department determines that there is sufficient evidence or cause to issue a notice of contemplated action, the department may send a referral to the office of the attorney general by forwarding a complete copy of the investigation file, including exhibits, for assignment of an administrator prosecutor.

C. The department may take any other action with regard to a complaint which is within its authority, including referring the complaint to the attorney general for injunctive proceedings; or referring the complaint to the attorney general or a district attorney for criminal prosecution of persons alleged to be engaging in business regulated by the Private Investigations Act who fraudulently makes a representation as being a licensee or registrant, represents employment by a licensee, or violates a mandatory requirement set forth in statute or rule subject to criminal penalties.

D. At the discretion of the superintendent, the complaint may be referred to a subject matter expert or to the advisory board for review.

(1) Any appointed subject matter expert or advisory board member who believes that they are not capable of judging a particular complaint fairly on the basis of the member's own circumstances shall not participate in the decision to consider the facts and circumstances of the complaint or to issue a notice of contemplated action and must not participate in the final recommendation to the superintendent.

(2) Where the appearance of impropriety or any violation of the government conduct act may occur, an advisory board member shall recuse from any consideration of the complaint, the hearing, deliberation or recommendation to the decision of the department.

E. Before the issuance of a notice of contemplated action, the superintendent may authorize department staff to confer with the respondent for the purpose of seeking a pre-NCA settlement agreement. Any proposed pre-NCA settlement agreement must be approved by the superintendent and must be negotiated with the consent of the respondent, and shall include a knowing and intentional waiver by the respondent of the right to a hearing under the Uniform Licensing Act. The respondent's attorney should sign the pre-NCA settlement agreement or the respondent must acknowledge that the respondent has been advised to seek the advice of an attorney and has waived the right to do so.

F. After issuance of a notice of contemplated action, the administrative prosecutor may negotiate a settlement agreement with the respondent. Any proposed settlement agreement must be approved by the superintendent and must be negotiated with the consent of the respondent, and shall include a knowing and intentional waiver by the respondent of the right to a hearing under the Uniform Licensing Act. The respondent's attorney should sign the settlement agreement or the respondent must acknowledge that the respondent has been advised to seek the advice of an attorney and has waived the right to do so.

G. All disciplinary hearings shall be conducted in accordance with the Uniform Licensing Act. The superintendent will appoint a hearing officer to conduct the hearing.

(1) The hearing officer will be fully authorized to make all necessary procedural and evidentiary decisions on behalf of the department, including, but not limited to, matters related to discovery, continuances, time extensions, amendment, pre-hearing conferences, and proposed findings of fact and conclusions of law.

(2) The hearing officer may make such orders the hearing officer determines may be necessary to including but not limited to discovery schedules, pleading schedules, and briefing schedules.

(3) No party will engage in ex-parte communications with the hearing officer or any member of the advisory board or department staff in any matter in which a notice of contemplated action has been issued.

(4) Respondents who have been found culpable and sanctioned by the department may be assessed a fine for each violation, not to exceed \$1,000 unless a greater amount is provided by law, pursuant to Subsection L of Section 61-1-3 NMSA 1978.

H. Pursuant to the Private Investigations Act and the Uniform Licensing Act, the department, in its sole and sound discretion, may impose any of the following penalties against a respondent upon a finding of a violation of the Private Investigations Act, the rules promulgated under the Private Investigations Act, or the Code of Ethics and Creed of Conduct adopted by the department, including for those acts of "unprofessional conduct" defined in 16.48.1.8 NMAC:

- (1) denial of application for licensure;
- (2) refusal to renew licensure;
- (3) written reprimand;
- (4) written censure;
- (5) imposition of probationary conditions on a license for a specified time period;

(6) the requirement that the licensee or applicant complete a program of remedial education;

(7) corrective action as specified by the superintendent;

(8) suspension of a license;

(9) revocation of a license; and

(10) in addition to or in lieu of any of the foregoing, the department may assess a fine for unlicensed activity, not to exceed \$10,000 for each violation of the Private Investigations Act by a person to have engaged in practice regulated by the department without appropriate license or registration.

I. A respondent whose license has been revoked may reapply for licensure one year from the effective date of the revocation.

(1) The department shall have discretion to approve or to reject any application for reinstatement of the license following the one year period of revocation.

(2) If the department determines that rejection of the application for reinstatement of the license will be considered, it shall do so only in accordance with the notice and hearing provisions of the Uniform Licensing Act.

(3) No application for reinstatement shall be granted unless all fines and costs assessments related to the license revocation proceeding shall have been paid in full.

[16.48.9.12 NMAC – N, 12/28/2021; A, 7/18/2023]

16.48.9.13 DEPARTMENT REVIEW AND ACTION UPON APPLICANT BACKGROUND CHECK RESULTS:

A. The department will review each application received pursuant to 16.48.2 NMAC.

B. If the department determines that additional documentation is required because the application is not complete, or if the department has any questions about the application, the department may request that the applicant provide a written clarifying statement or additional documentation including any additional documents or written clarifying statements related to federal or department of public safety background check results.

C. The department will refer to the office of the attorney general for notice of contemplated action, any applications that produce evidence of a violation of the Private Investigations Act.

[16.48.9.13 NMAC – N, 12/28/2021]

16.48.9.14 CRIMINAL CONVICTIONS:

A. Convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an individual from receiving or retaining a license or registration issued by the department, for:

(1) private investigations company, and private patrol company, includes individuals or all owners, officers or directors or members of the entity: a felony offense including an offense involving dishonesty or involving an intentional violent act or illegal use or possession of a deadly weapon;

(2) private investigator, and private investigations manager: a felony offense including an offense involving dishonesty or an intentional violent act or illegal use or possession of a deadly weapon;

(3) polygraph examiner: a felony involving an intentional violent act or the illegal use or possession of a deadly weapon;

(4) private patrol operator or private patrol operations manager: a felony offense including an offense involving dishonesty or intentional violent act or illegal use or possession of a deadly weapon;

(5) private investigations employee: a felony involving an intentional violent act or illegal use or possession of a deadly weapon; and

(6) security guard level one, level two, and level three: a felony offense, including an offense involving dishonesty or involving an intentional violent act or illegal use or possession of a deadly weapon.

B. The department shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. Nothing in this rule prevents the department from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violates the Private Investigations Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

D. In connection with an application for licensure, the department shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

(1) an arrest not followed by a valid conviction;

(2) a conviction that has been sealed, dismissed, expunged or pardoned;

(3) a juvenile adjudication; or

(4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

[16.48.9.14 NMAC – N, 12/28/2021]

16.48.9.15 DISCIPLINARY ACTIONS ARE PUBLIC RECORD:

Any disciplinary action including complaints, witness statements, supporting documents, pre-NCA settlement agreements, or post-NCA settlement agreements, are public record unless expressly exempt under the Inspection of Public Records Act. Final pre-NCA settlement agreements and final orders issued by the superintendent may be posted on the department's website.

[16.48.9.15 NMAC – N, 12/28/2021]

16.48.9.16 UNIFORM LICENSING ACT PROTECTION FROM LIABILITY FOR COMPLAINANT:

Pursuant to Subsection G of Section 61-1-7 NMSA 1978, There shall be no liability on the part of, and no action for damages against, a person who provides information to the department in good faith and without malice in the reasonable belief that such information is accurate. An applicant, a licensee or registrant, who directly or through an agent intimidates, threatens, injures or takes any adverse action against a person for providing information to the department shall be subject to disciplinary action.

A. The board may contract as its agent CPA examination services (CPAES), the national association of state boards of accountancy (NASBA), or the American institute of certified public accountants (AICPA) or other entities it deems appropriate to undertake any aspects of examination development, delivery, administration, qualification, or application that the board considers necessary and appropriate in its oversight and administration of the uniform CPA examination.

B. Applicants for the CPA examination shall meet the requirements of Section 8 of the act and the provisions set forth in this rule.

C. An application will not be considered filed until all application/qualification fees and examination fees required by these rules and all required supporting documents have been received, including photographs, official transcripts, and proof that the applicant has completed the education requirement.

D. An applicant who fails to appear for the examination shall forfeit all fees charged for both the application and the examination.

E. Prospective applicants for the CPA examination shall demonstrate to the board's satisfaction that all education requirements are met.

F. The board or its designee shall forward notification of eligibility to NASBA's national candidate database.

G. Upon registering for any section of the examination, an applicant must sit for that section of the examination within six months from the date on which he is deemed eligible to sit for that section.

16.60.2.9 EDUCATION REQUIREMENTS:

A. After July 1, 2008, Section 8C of the act requires an applicant for the uniform CPA examination to hold a baccalaureate degree or its equivalent conferred by a college or university acceptable to the board, with 30 semester hours in accounting or the equivalent as determined by the board.

B. After July 1, 2008, Section 8C of the act requires an applicant for a certificate to have at least 150 semester hours of college education or its equivalent earned at a

college or university acceptable to the board. Any course for which credit has been awarded by the institution will be accepted toward meeting the 150-semester hour requirement.

C. The board will accept not fewer than 30 semester hours of accounting or audit related courses (3 semester hours may be in business law), without repeat, from a board-recognized educational institution. The recognized educational institution must have accepted them for the purposes of obtaining a baccalaureate degree or equivalent, and they must be shown on an official transcript.

D. A prospective CPA examination or CPA certificate candidate is considered as graduating from an accredited college or university acceptable to the board if, at the time the educational institution grants the applicant's degree, it is accredited at the appropriate level as outlined in these rules. As used in these rules, "accreditation" refers to the process of quality control of the education process. There are 3 different levels of accreditation referred to in these rules, and the degree to which the board relies on accreditation differs according to the level at which the degree granting institution is accredited. In reviewing and evaluating a candidate's educational credentials, the board may rely on accreditation by an accrediting agency at 3 different levels.

E. Level 1 accreditation is associated with the four-year, degree-granting college or university itself. The institution must be accredited by 1 or more of the following board-recognized regional accrediting agencies (or successor agencies):

- (1) middle states association of colleges and secondary schools;
- (2) New England association of schools and colleges;
- (3) north central association of colleges and secondary schools;
- (4) northwest association of schools and colleges;
- (5) southern association of colleges and schools;
- (6) western states association of schools and colleges; and
- (7) accrediting council for independent colleges and schools.

F. Level 2 accreditation is associated with a business school or college of business. The unit must be accredited by a national accreditation agency recognized by the board, such as the American assembly of collegiate schools of business (AACSB), following a specific and comprehensive review of its faculty, resources, and curricula. In evaluating a candidate's credentials, the board may choose to rely on this accreditation as evidence that the institution's business school has met minimum overall standards of quality for such schools.

G. Level 3 accreditation is associated with an accounting program or department. The program or department must be accredited by a national accreditation agency recognized by the board such as the AACSB. Accounting programs or departments accredited in this manner have met standards substantially higher and much more specific than those required for level 1 or level 2 accreditation. For level 3 accreditation, the accounting program or department must meet a stringent set of standards that addresses faculty credentials, student quality, physical facilities, and curricula. Graduates who submit transcripts from accredited accounting programs may be deemed to have met the board's specific accounting and business course requirements.

H. If an educational institution was not accredited at the time an applicant's degree was received but is so accredited at the time the application is filed with the board, the institution will be deemed to be accredited for the purposes of this rule provided that it:

(1) certifies that the applicant's total educational program would qualify the applicant for graduation with a baccalaureate degree during the time the institution has been accredited; and

(2) furnishes the board satisfactory proof, including college catalogue course numbers and descriptions, that the pre-accrediting courses used to qualify the applicant as an accounting major are substantially equivalent to post-accrediting courses.

I. If an applicant's degree was received at an accredited educational institution as defined in this rule, but the educational program which was used to qualify the applicant as an accounting major included courses taken at non-accredited institutions, either before or after graduation, such courses will be deemed to have been taken at the accredited institution from which applicant's degree was received, provided the accredited institution either:

(1) has accepted such courses by including them in its official transcript; or

(2) certifies to the board that it will accept such courses for credit toward graduation.

J. A graduate of a four-year, degree-granting institution not accredited at the time the applicant's degree was received or at the time the application was filed will be deemed to be a graduate of a four-year accredited educational institution if:

(1) either the NASBA international evaluation service or a credentials evaluation service that is a member of the national association of credential evaluation services certifies that the applicant's degree is equivalent to a degree from an accredited educational institution defined in this rule; or if

(2) an accredited educational institution as defined in this rule accepts the applicant's non-accredited baccalaureate degree for admission to a graduate business degree program; the applicant satisfactorily completes at least 15 semester hours or the

equivalent in post-baccalaureate education at the accredited educational institution, of which at least 9 semester hours, or the equivalent, shall be in accounting; and the accredited educational institution certifies that the applicant is in good standing for continuation in the graduate program or has maintained a grade point average in these courses that is necessary for graduation.

K. Advanced subjects completed to qualify under the above section may not be used to satisfy education requirements.

L. The board may provide a mechanism to recognize educational institutions that are not accredited at the institutional, business school, accounting program, or department level.

M. The accounting education concentration or equivalent contemplated by the act shall consist of semester hours of credit earned as in a conventional college semester. Quarter hours will be converted by multiplying the quarter hours earned by two-thirds to determine semester hours earned. No more than 30 semester hours will be recognized for internships or life experience.

16.60.2.10 EXAMINATION ADMINISTRATION:

A. Time and place of examination: Eligible applicants shall independently contact a test center operator identified by the board to schedule the time and place for the examination at an approved test site. Candidates may retake a test section once their score for any previous attempt of that same test section has been released.

B. Examination subjects: The examination required by the act shall test the knowledge and skills required for performance as an entry-level certified public accountant and shall include the subject areas of accounting and auditing and such related subjects as the board may require.

C. Provisional scores shall be released to the candidate following each test. All examination scores shall be considered provisional until approved by the board's administrative staff. Scores must be approved by the board's administrative staff prior to the issuance of certificates requiring such scores.

D. Pursuant to paragraph 1 of subsection D of 1.18.420.431 NMAC, once provisional scores have been approved by the board, they shall remain on file for 10 years beyond the date on which the final section of the examination was passed. If the candidate does not apply for an initial license within five years of passing the final section of the examination, the scores will be presented to the Board to determine validity.

16.60.2.12 CPA EXAMINATION CHEATING:

Cheating by an applicant in applying for or taking the examination will be deemed to invalidate any grade otherwise earned by a candidate on any part of the examination and may warrant summary expulsion from the examination and disqualification from taking the examination for a specified number of subsequent sittings.

A. For purposes of this rule, the following actions, among others, may be considered cheating:

(1) falsifying or misrepresenting educational credentials or other information required for admission to the examination;

(2) communication between candidates inside or outside the examination room while the examination is in progress;

(3) communication with others outside the examination room while the examination is in progress;

(4) substitution of another person to sit in the examination room in the stead of a candidate and write one or more of the examination papers;

(5) possession of or reference to crib sheets, textbooks, electronic devices or other material inside or outside the examination room while the examination is in progress;

(6) copying or attempting to copy another candidate's answers;

(7) failure to cooperate with testing officials;

(8) any conduct that violates the standards of test administration or violates the verbal or written instructions given by examination administrators; or

(9) bringing prohibited items into the examination site.

B. In any case where it appears to a member of the board or its representative, while the examination is in progress, that cheating has or is occurring, the board may summarily expel the candidate involved from the examination.

C. In any case where the board believes that it has evidence that a candidate has cheated on the examination, and in every case where a candidate has been expelled from the examination, the board shall conduct a hearing expeditiously following the examination session for the purpose of determining whether or not there was cheating, and, if so, what remedy should be applied. In such hearings, the board shall decide:

- (1) whether the candidate shall be given credit for the section of the examination completed in that testing session;
- (2) whether the candidate shall be allowed to take additional sections of the examination in that same testing window; and
- (3) whether the candidate shall be barred from taking the examination in future testing windows, and if so, for how many testing windows.

D. In any case where the board permits a candidate to continue taking the examination, it may, depending on the circumstances:

- (1) admonish the candidate; and
- (2) notify the national candidate database, the AICPA, and the test center of the circumstances so that the candidate may be more closely monitored in future examinations.

E. In any case where a candidate is refused credit for parts of the examination taken or is expelled from the examination or disqualified from taking other parts, the board shall give the candidate a statement containing its findings, the evidence upon which the findings are based, and a notice of the right of the candidate to a formal rehearing by the board, with right of appeal, pursuant to the procedures provided in the Uniform Licensing Act, Sections 61-1-1 to 61-1-31 NMSA 1978, and Section 8B of the act.

F. In any case where a candidate is refused credit for any part of an examination taken, disqualified from taking any part of the examination, or barred from taking the examination in future sittings, the board will provide information as to its findings and actions taken to the board of accountancy of any other state to which the candidate may apply for the examination.

[16.60.3.8 NMAC - Rp. 16 NMAC 60.4.8.1, 2/14/2002; A, 10/1/2020]

16.60.3.9 INITIAL CERTIFICATE/LICENSE REQUIREMENTS:

A. An applicant for initial certification/licensure shall demonstrate to the board's satisfaction that he:

- (1)** lacks a history of dishonest or felonious acts;
- (2)** meets the education, experience and examination requirements of the board; and
- (3)** passes the American institute of certified public accountants ethics examination with a score of ninety percent or higher.

B. Integrity requirement: The board may assess integrity based upon applicant-provided references and background checks to determine an applicant's history of dishonest or felonious acts. The board may request the presence at a board meeting of an applicant for whom it has unanswered questions.

C. Criminal history background check: Pursuant to Section 61-28B-8.1 of the act, all applicants for initial issuance or reinstatement of a certificate and license in New Mexico shall be required to be fingerprinted to establish positive identification for a state and federal criminal history background check. Applicants can submit fingerprints through the board approved live scan location prescribed by the New Mexico Department of Public Safety (DPS).

- (1)** The applicant will register online, through the approved live scan website, with the board's Originating Agency Identification (ORI) number and make payment with

registration. After the process is complete, the applicant will receive a registration confirmation.

(2) The applicant shall take their registration confirmation to an approved live scan facility and conduct the electronic fingerprinting process.

(3) Results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

(4) Out-of-State applicants, who are unable to visit an approved live scan fingerprinting facility, may follow the same registration process and submit a hardcopy fingerprint card to the approved live scan facility. The results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

D. Education and examination requirements: Education and examination requirements are specified in Section 8 of the act and are further delineated in Part 2 of board rules. An applicant who has passed the uniform CPA examination prior to July 1, 2004, is exempt from the 150-semester-hour requirement.

E. Experience required: Applicants documenting their required experience for issuance of an initial certificate pursuant to Subsection H of Section 7 of the act, and after July 1, 2004 Subsection H of Section 8 of the act shall:

(1) provide documentation of experience in providing any type of services or advice using accounting, attest, management advisory, financial advisory, tax or consulting skills; acceptable experience shall include experience gained through employment in industry, government, academia or public practice;

(2) have their experience verified by an active, licensed CPA as defined in the act or by an active, licensed CPA from another state; the board shall consider and evaluate factors such as complexity and diversity of the work in determining acceptability of experience submitted:

(a) one year of experience or it's 2,000 hour equivalent shall consist of full or part-time employment that extends over a period of no more than three years and includes no fewer than 2,000 hours of performance of services described above;

(b) the CPA verifying an applicant's experience must be employed by, or a consultant to, or provide professional services to, the same organization as the applicant;

(c) experience documented in support of an initial application must be obtained within the seven years immediately preceding passing of the examination or within seven years of having passed the examination upon which the application is

based; this does not apply to applicants who qualified and sat for the examination during or prior to the November 2001 administration;

(d) any licensee requested by an applicant to submit evidence of the applicant's experience and who has refused to do so shall, upon request of the board, explain in writing or in person the basis for such refusal; the board may require any licensee who has furnished evidence of an applicant's experience to substantiate the information;

(e) the board may inspect documentation relating to an applicant's claimed experience; any applicant may be required to appear before the board or its representative to supplement or verify evidence of experience.

F. Certificate and license issuance: upon receipt of a complete application packet and successful completion of a fingerprint background check, board staff are authorized to approve and issue a certificate and license to an applicant for whom no licensing issues are present. Pursuant to Section I of 16.60.2.13 NMAC, uniform CPA examination scores must be approved by the board's administrative staff prior to the issuance of a certificate and license to an applicant who sat for the uniform CPA examination as a New Mexico candidate.

G. Swearing in ceremony: Every new licensee must participate in a swearing in ceremony before the board within one year from the date of the issuance of the initial license. Swearing in ceremonies may be held two times per year in locations to be determined by the board or the board's administrative staff. Upon good cause presented in writing prior to the expiration of the one-year period of initial licensure, the board may extend the period for being sworn in or arrange an alternate method for the licensee to be sworn in. If an extension for good cause is granted, the licensee shall arrange with the board's administrative staff to present him or herself for swearing in before the board within the time prescribed by the board. Failure to appear at a swearing in ceremony before the board may result in the imposition of a fine or other disciplinary action, as deemed appropriate by the board.

H. Replacement wall certificates and licenses to practice: Replacement wall certificates and licenses to practice may be issued by the board in appropriate cases and upon payment by the CPA or RPA of the fee as set by the board. A certificate/license holder is specifically prohibited from possessing more than one wall certificate and more than one license to practice as a CPA or RPA. When a replacement wall certificate or license to practice is requested, the certificate/license holder must return the original certificate/license or submit a statement describing the occurrence that necessitated the replacement certificate or license.

I. Renewal requirements: Certificates/licenses for individuals will have staggered expiration dates based on the individual's birth month. Deadline for receipt of certificate/license renewal applications and supporting continuing professional education affidavits or reports is no later than the last day of the CPA or RPA

certificate/license holder's birth month or the next business day if the deadline date falls on a weekend or holiday.

(1) The board may accept a sworn affidavit as evidence of certificate/license holder compliance with CPE requirements in support of renewal applications.

(2) Renewal applications and CPE reports received after prescribed deadlines shall include prescribed delinquency fees.

(3) Applications will not be considered complete without satisfactory evidence to the board that the applicant has complied with the continuing professional education requirements of Subsection E of Sections 9 and Subsection A of Section 12 of the act and of these rules.

(4) The board shall send renewal application notices no less than 30 days prior to the renewal deadline.

J. The purpose of this part is to expedite licensure for military service members, their spouses, their dependent children and for veterans pursuant to Section 61-1-34 NMSA 1978.

(1) Applications for registration shall be completed on a form provided by the board.

(2) The applicant shall provide a complete application that includes the following information:

- (a)** applicant's full name;
- (b)** current mailing address;
- (c)** current electronic mail address, if any;
- (d)** date of birth;
- (e)** background check, if required; and
- (f)** proof as described in subsection (3) below.

(3) The applicant shall provide the following satisfactory evidence as follows:

(a) applicant is currently licensed and in good standing in another jurisdiction, including a branch of the United States armed forces;

(b) applicant has met the minimal licensing requirements in that jurisdiction and the minimal licensing requirements in that jurisdiction are substantially equivalent to the licensing requirements for New Mexico; and

(c) the following documentation:

(i) for military service member: copy of military orders;

(ii) for spouse of military service members: copy of military service member's military orders, and copy of marriage license;

(iii) for spouses of deceased military service members: copy of decedent's DD 214 and copy of marriage license;

(iv) for dependent children of military service members: copy of military service member's orders listing dependent child, or a copy of military orders and one of the following: copy of birth certificate, military service member's federal tax return or other governmental or judicial documentation establishing dependency;

(v) for veterans (retired or separated): copy of DD 214 showing proof of honorable discharge.

(4) The license or registration shall be issued by the board as soon as practicable but no later than thirty days after a qualified military service member, spouse, dependent child, or veteran files a complete application and provides a background check if required for a license, and any required fees.

(5) Military service members and veterans shall not pay and the board shall not charge a licensing fee for the first three years for a license issued pursuant to this rule.

(6) A license issued pursuant to this section shall be valid for the time period that is specified in the Act.

(7) A license issued pursuant to this section shall not be renewed automatically, and shall be renewed only if the licensee satisfies all requirements for the issuance and renewal of a license pursuant to the 1999 Public Accountancy Act, including Section 61-28B-9 NMSA 1978 and Subsection I of 16.60.3.9 NMAC.

(8) As a courtesy, the board, will send via electronic mail license renewal notifications to licensees or registrants before the license expiration date to the last known email address on file with the board. Failure to receive the renewal notification shall not relieve the licensee or registrant of the responsibility of timely renewal on or before the expiration date.

16.60.3.10 BOARD ACCEPTANCE OF GRADE TRANSFER CERTIFICATE APPLICANTS:

A. The board will only accept grade transfers from applicants passing the uniform CPA examination in other jurisdictions/states for an initial CPA certificate application under the following situations:

(1) temporary change in residence to the state/jurisdiction where the applicant passed the uniform CPA examination while the grade transfer applicant was a student;

(2) temporary change in residence to the state/jurisdiction where the applicant passed the uniform CPA examination while the grade transfer applicant was on military duty;

(3) temporary change in residence to the state/jurisdiction where the applicant passed the uniform CPA examination while the candidate was on a temporary work assignment;

(4) presentation of documented evidence demonstrating current resident status in the state of New Mexico; or

(5) presentation of documented evidence demonstrating anticipated employment and residency in the state of New Mexico within 6 months of the application's date.

B. An applicant who resides in New Mexico and was issued a certificate in another state based upon passage of the examination but never received a license to practice will be considered for licensure by grade transfer.

C. The board may waive the above requirements due to hardship exceptions presented by a grade transfer certificate applicant.

16.60.3.11 RELINQUISHING A CERTIFICATE/LICENSE:

A. Any individual certificate/license holder may at any time and for any reason, subject to the approval of the board, relinquish that certificate/license to the board. An individual relinquishing his certificate/license during the course of a disciplinary investigation or proceeding may not apply for reinstatement but may apply for the issuance of a new certificate/license upon completion of all requirements for the

issuance of such certificate, including meeting all education, examination, experience, and ethics examination requirements of the act and board rules in effect at the time of the new application. This includes sitting for and passing the uniform CPA examination, meeting current experience requirements, and passing a current ethics examination.

B. This rule does not apply to a licensee who relinquished their license while in good standing and was not the subject of a board investigation or disciplinary proceeding at the time they relinquished their license. If an individual relinquishes their certificate/license during the course of a board disciplinary investigation or proceeding, this fact shall be disclosed in any later application for a new certificate and shall be considered before the issuance of a new certificate.

[16.60.3.11 NMAC - N, 2/14/2002]

16.60.3.12 REINSTATEMENT REQUIREMENTS:

A. Requests to reinstate a certificate/license that lapsed or expired as a result of non-renewal shall meet all board prescribed requirements for reinstatement including the current year's renewal fee and continuing professional education. An individual whose certificate/license has been subject to board disciplinary action pursuant to the Uniform Licensing Act, Sections 61-1-1 to 61-1-31 NMSA 1978, may, upon application in writing and for good cause, request reinstatement of the certificate/license after completion of all requirements contained in the board's original order or agreement.

B. A reinstatement application pursuant to Section 21 of the act and this rule will be processed by the board upon the basis of the materials submitted in support thereof and supplemented by such additional inquiries as the board may require. Upon receipt of a complete reinstatement application packet and successful completion of a fingerprint background check, board staff are authorized to reinstate a certificate and license to an applicant for whom no licensing issues are present. If the individual has not held an active license in any jurisdiction within the five years preceding the date of application for reinstatement, the approval of the board will be required. For reinstatement of a certificate/license, a hearing may be held, and the board may, at its discretion, impose terms and conditions on an application following procedures the board may find suitable for the particular case.

C. The reinstatement request shall set out in writing the reasons constituting good cause for the relief sought and shall be accompanied by at least two supporting recommendations, under oath, from practitioners who have personal knowledge of the activities of the applicant since board disciplinary action was imposed. In considering a reinstatement application, the board may consider all activities of the applicant since the disciplinary action from which relief is sought was imposed; the offense for which the applicant was disciplined; the applicant's activities during the time the certificate/license was in good standing; the applicant's rehabilitative efforts; restitution to damaged parties in the matter for which the penalty was imposed; and the applicant's general reputation for trust and professional probity.

D. No application for reinstatement will be considered while the applicant is under sentence for any criminal offense, including any period during which the applicant is on court-imposed probation or parole.

16.60.3.13 RECIPROCITY REQUIREMENTS:

A. Interstate reciprocity: The board may issue a certificate/license to the holder of a certificate issued by a state other than New Mexico as defined under Sections 3O, 11B and D, and 26A of the act provided that the license from the other state is valid and in good standing and that the applicant:

(1) provides proof from a board-approved national qualifications service that their CPA qualifications are substantially equivalent to the CPA requirements of the act; or

(2) successfully completed the CPA examination in accordance with the rules of the other state at the time it granted the applicant's initial certificate; and

(3) meets the experience requirements under the act and these rules for issuance of the initial certificate; and

(4) has met the CPE requirement of the state in which he is currently licensed pursuant to the act and board rules.

B. All applicants for licensure by reciprocity shall have passed either the American institute of certified public accountants ethics examination with a score of 90 percent or higher or an ethics examination of another state board of accountancy with a score of 90 percent or higher.

C. An applicant who holds a certificate from another state based upon passage of the examination but who does not hold a license to practice shall not be eligible for licensure by reciprocity.

D. The board may rely on the national association of state boards of accountancy (NASBA), the American institute of certified public accountants (AICPA), or other professional bodies deemed acceptable to the board for evaluation of other state's CPA qualification requirements in making substantial equivalency determinations.

E. International reciprocity: The board may designate a professional accounting credential issued in a foreign country as substantially equivalent to a New Mexico CPA certificate and may issue a certificate/license to the holder of a professional accounting credential issued in a foreign country.

(1) The board may rely on NASBA, AICPA, or other professional bodies deemed acceptable to the board for evaluation of foreign credentials in making equivalency determinations.

(2) The board may satisfy itself through qualifying examination(s) that the holder of a foreign country credential deemed by the board to be substantially equivalent to a CPA certificate possesses adequate knowledge of U.S. practice standards and the board's rules. The board will specify the qualifying examination(s) and may rely on NASBA, AICPA, or other professional bodies to develop, administer, and grade such qualifying examination(s).

(3) The board recognizes the existence of the international qualifications appraisal board (IQAB), a joint body of NASBA and AICPA, which is charged with:

(a) evaluating the professional credentialing process of certified public accountants, or their equivalents, from countries other than the United States; and

(b) negotiating principles of reciprocity agreements with the appropriate professional and governmental bodies of other countries seeking recognition as having requirements substantially equivalent to the requirements for the certificate of a certified public accountant in the United States.

(4) The board shall honor the terms of all principles of reciprocity agreements issued by IQAB.

(5) The board recognizes the international uniform CPA qualification examination (IQEX), written and graded by AICPA, as a measure of professional competency satisfactory to obtain a New Mexico certificate by reciprocity.

(6) The board may accept a foreign country accounting credential in partial satisfaction of its certificate/license requirements if:

(a) the holder of the foreign country accounting credential meets the issuing body's education requirement and has passed the issuing body's examination used to qualify its own domestic candidates; and

(b) the foreign country credential is valid and in good standing at the time of application for a certificate/license.

(7) The board shall accept the following foreign credentials in partial satisfaction of its certificate/license requirements:

(a) Canadian chartered accountant;

(b) Australian chartered accountant;

- (c) Hong Kong institute of CPAs;
- (d) Mexican contador publicos certificado;
- (e) chartered accountants in Ireland;
- (f) New Zealand chartered accountant.

F. An applicant for renewal of a CPA certificate/license originally issued in reliance on a foreign country accounting credential shall:

- (1) meet all board prescribed certificate/license renewal requirements; and
- (2) present documentation from the foreign country accounting credential issuing body that the applicant's foreign country credential has not been suspended or revoked and is not the subject of a current investigation; and
- (3) report any investigations undertaken or sanctions imposed by a foreign country credential body against the CPA's foreign country credential.

G. If the foreign country credential has lapsed, expired, or been cancelled, the applicant must present proof from the foreign country credentialing body that the certificate holder/licensee was not the subject of any disciplinary proceedings or investigations at the time the foreign country credential lapsed.

H. Suspension or revocation of, or refusal to renew, the CPA's foreign accounting credential by the foreign credentialing body shall be considered evidence of conduct reflecting adversely upon the CPA's fitness to retain the certificate and may be a basis for board action.

I. Conviction of a felony or any crime involving dishonesty or fraud under the laws of a foreign country is evidence of conduct reflecting adversely on the CPA's fitness to retain a certificate/license and is a basis for board action.

J. The board shall notify the appropriate foreign country credentialing authorities of any sanctions imposed against a CPA. The board may participate in joint investigations with foreign country credentialing bodies and may rely on evidence supplied by such bodies in disciplinary hearings.

16.60.3.14 SUBSTANTIAL EQUIVALENCY/INTENT TO PRACTICE REQUIREMENTS:

A. Effective July 1, 2008, a person whose principal place of business is not New Mexico and who has a valid certificate/license as a certified public accountant from another state shall be presumed to have qualifications substantially equivalent to New Mexico's requirements if the person meets the requirements of Subsection A of Section 26 of the act.

B. The board may rely on NASBA, AICPA, or other professional bodies approved as acceptable to the board to provide qualification appraisal in determining whether an applicant's qualifications are substantially equivalent to New Mexico's requirements.

C. A person exercising the practice privilege afforded by Section 26 of the act shall be deemed to have:

(1) submitted to the personal and subject matter jurisdiction and disciplinary authority of the board;

(2) agreed to full compliance with the act and related board rules; and

(3) consented to appointment of the state board that issued the license as agent upon whom process may be served in an action or proceeding by the New Mexico public accountancy board against the licensee.

D. A person exercising the practice privilege afforded by Section 26 of the act shall cease offering or rendering professional attest services in New Mexico in the event the license from the state of the person's principal place of business is no longer valid.

E. An individual who qualifies for practice privileges pursuant to Section 26 of the act may offer or render professional services whether in person or by mail, telephone, or electronic means without the need to notify the board or remit a fee.

F. Pursuant to the Uniform Accountancy Act, an individual entering into an engagement to provide professional services via a web site pursuant to Section 23 shall disclose, via any such web site, the individual's principal state of licensure, license number, and an address as a means for regulators and the public to contact the individual regarding complaints, questions, or regulatory compliance.

G. Reporting integrity violations.

(1) Any individual using practice privileges in New Mexico shall notify the board within 30 days of any occurrence described in board rule Subsection B of 16.60.5.11 NMAC.

(2) Any licensee of New Mexico using practice privileges in another state shall notify the New Mexico board and the state board of any other state in which said licensee uses practice privileges within 30 days of any occurrence described in board

rule Subsection B of 16.60.5.11 NMAC, which includes Subsection A of 16.60.5.14 NMAC.

16.60.3.15 CONTINUING PROFESSIONAL EDUCATION (CPE) REQUIRED TO OBTAIN OR MAINTAIN AN "ACTIVE" CPA LICENSE:

A. The following requirements of continuing professional education apply to certificate/license renewals and reinstatements pursuant to Subsection E of Sections 9 and Subsection A of Section 12 of the act. An applicant for certificate/license renewal shall show completion of no less than 120 clock hours of CPE, complying with these rules during the 36-month period ending on the last day of the certificate/license holder's birth month.

(1) Any applicant seeking a license/certificate or renewal of an existing license shall demonstrate participation in a program of learning meeting the standards set forth in the statement on standards for continuing professional education (CPE) programs jointly approved by NASBA and AICPA or standards deemed comparable by the board. An initial license is the first license issued to an individual. CPE reporting will begin on the first day following the licensee's initial expiration date (birth month) for license renewal. No CPE will be required for the period between issue date and first expiration date (birth month).

(2) Each person holding an active CPA certificate/license issued by the board shall show completion of no less than 120 hours of continuing professional education complying with these rules during the preceding 36-month period ending on the last day of the certificate/license holder's birth month, with a minimum of 20 hours completed in each reporting year. For any CPE reporting period which begins on or after January 1, 2010, continuing professional education must include a minimum of four hours of ethics education during the 36-month period after January 1, 2010. Licensees shall report CPE completion on board prescribed forms including a signed statement indicating they have met the requirements for participation in the CPE program set forth in board rules.

(3) The board may, at its discretion, accept a sworn affidavit as evidence of certificate/license holder compliance with CPE requirements in support of renewal applications in lieu of documented evidence of such. Reciprocity and reinstatement applications shall require documented evidence of compliance with CPE provisions.

(4) Deadline for receipt of license renewal applications and supporting CPE reports or affidavits is no later than the last day of the certificate/license holder's birth month. Renewal applications and supporting CPE affidavits or reports shall be postmarked or hand-delivered no later than the renewal deadline date or the next business day if the deadline date falls on a weekend or holiday.

(5) In the event that renewal applicants have not completed the requisite CPE by the renewal deadline, he may provide a written explanation for failure to complete CPE and may submit a written request for an extension for completion of the required CPE prior to license expiration date.

(a) The approval of an extension request is not automatic. The board has the discretion to grant or deny a request.

(b) The request for extension shall include documentation of the extenuating circumstances that prevented him from completing the CPE. A written plan of action to remediate the deficiency must accompany the renewal application and extension request.

(c) If a request for extension is received in the board office after the expiration date of the license, the license shall be renewed, and the file shall be referred to the board for possible disciplinary action.

(d) An extension up to 60 days beyond the expiration date of the license may be granted by board staff; extenuating circumstances beyond the control of the licensee necessitating an extension beyond 60 days requires the approval of the board.

(e) The board may waive a fine for good cause or require community service acceptable to the board.

(f) If all CPE requirements are not met by the expiration date of the license or granted extension date, the license shall be subject to disciplinary action.

(6) Renewal applications and CPE reports received after prescribed deadlines shall include prescribed delinquency fees.

(7) Applications will not be considered complete without satisfactory evidence to the board that the applicant has complied with the CPE requirements of Subsection E of Sections 9 and Subsection A of Section 12 of the act and of these rules.

(8) Reinstatement applicants whose certificates/licenses have lapsed shall provide documented evidence of completion of 40 hours of CPE for each year the certificate/license was expired, not to exceed 200 hours. If the license was expired for longer than 36 months, at least 120 of the hours must have been earned within the preceding 36 months. For any post-2009 year for which the certificate/license was expired, the continuing professional education must include a minimum of four hours of ethics education during the 36 months preceding reinstatement.

(a) The length of expiration shall be calculated from the date the license expired to the date the application for reinstatement was received by the board office.

(b) If the license was expired for less than one year, documented evidence of 40 hours of CPE earned within the 12 months immediately preceding the date of application for reinstatement must be provided.

(c) If the license was expired for longer than one year, for the purpose of determining the number of CPE hours required, the length of expiration shall be rounded down to the last full year if the partial year was less than six months and rounded up to the next full year if the partial year was more than six months.

B. Exemption from CPE requirements through change of certificate/license status between inactive/retired and active status.

(1) Licensees granted an exception by the board must place the word "inactive" adjacent to their CPA title on any business card letterhead, or any other document or device, with the exception of their CPA certificate, on which their CPA title appears. Licensees granted the exception who are at least 55 years of age may replace "inactive" with "retired". Any of these terms must not be applied in such a manner that could likely confuse the public as to the current status of the licensee.

(2) Licensees granted the use of "inactive" or "retired" may volunteer their time to nonprofit or governmental organizations, to the extent provided in the statute. Licensees may not be compensated for such volunteer work other than through reimbursement of actual expenses.

(3) Licensees have the responsibility to maintain professional competence relative to the volunteer services they provide even though exempt from specific CPE requirements of 16.60.3.15 NMAC.

C. Persons requesting to change from "inactive" or "retired" to "active" certificate/license status shall:

(1) complete board-prescribed change-of-status forms and remit related fees; and

(2) provide documented evidence of 40 hours of CPE for each year the certificate/license was inactive, not to exceed 200 hours; if the license was inactive for longer than 36 months, at least 120 of the hours must have been earned within the preceding 36 months. For any post-2009 year for which the certificate/license was inactive, the continuing professional education must include a minimum of four hours of ethics education during the 36 months preceding application for change of status to "active".

(3) If an individual has not held an active license within five years preceding the date of the application for "change of status", the approval of the board will be required.

D. Hardship exceptions: The board may make exceptions to CPE requirements for reason of individual hardship including health, military service, foreign country residence, or other good cause. Requests for such exceptions shall be subject to board approval and presented in writing to the board. Requests shall include such supporting information and documentation as the board deems necessary to substantiate and evaluate the basis of the exception request.

E. Programs qualifying for CPE credit: A program qualifies as acceptable CPE for purposes of Subsection E of Sections 9 and Subsection A of Section 12 of the act and these rules if it is a learning program contributing to growth in professional knowledge and competence of a licensee. The program must meet the minimum standards of quality of development, presentation, measurement, and reporting of credits set forth in the statement on standards for continuing professional education programs jointly approved by NASBA and AICPA, by accounting societies recognized by the board, or such other standards deemed acceptable to the board.

(1) The following standards will be used to measure the hours of credit to be given for acceptable CPE programs completed by individual applicants:

(a) an hour is considered to be a 50-minute period of instruction;

(b) a full one day program will be considered to equal eight hours;

(c) only class hours or the equivalent (and not student hours devoted to preparation) will be counted;

(d) one-half credit increments are permitted after the first credit has been earned in a given learning activity;

(e) Nano-learning – The credit to be earned for a single nano-learning program is one fifth-credit. Only a total of eight CPE credit hours can be reported in a three year reporting cycle using nano-learning credits;

(f) for blended learning programs included in rule 16.60.3.15, the CPE credit must equal the sum of the CPE credit determination for the various completed components of the program;

(g) for reporting periods on or after January 1, 2010, acceptable ethics topics may include, but are not limited to, instruction focusing on the AICPA code of professional conduct, the New Mexico occupational and professional licensing code of professional conduct applicable to certified public accountants, Treasury Circular 230, malpractice avoidance, organization ethics, integrity, and the duties of the CPA to the public, clients, and colleagues; ethics hours may be earned as part of any professional development program otherwise qualifying under this rule, provided the ethics content and the time devoted to such content are separately identifiable on the program agenda.

(2) Service as a lecturer, discussion leader, or speaker at continuing education programs or as a university professor/instructor (graduate or undergraduate levels) will be counted to the extent that it contributes to the applicant's professional competence in accountancy.

(3) Credit as a lecturer, discussion leader, speaker, or university professor/instructor may be allowed for any meeting or session provided that the session would meet the continuing education requirements of those attending.

(4) Credit allowed as a lecturer, discussion leader, speaker or university professor/instructor will be on the basis of one hour of preparation and one hour for each hour of presentation. Credit for subject preparation may only be claimed once for the same presentation.

(5) Authors of published articles, books and other publications may receive credit for their research and writing time to the extent it maintains or improves their accountancy professional competence. For the author to receive CPE credit the article, book or CPE program must be formally reviewed by an independent subject matter expert or reviewed and approved by the board. Not more than fifty percent of the total CPE credits required for the CPE reporting period can be claimed for author CPE credit. The board will determine the amount of credit awarded.

(6) Credit allowed under provisions for a lecturer, discussion leader, speaker at continuing education programs, or university professor/instructor or credit for published articles and books may not exceed one half of an individual's CPE requirement for a three year reporting period (shall not exceed 60 hours of CPE credit during a 3-year reporting period).

(7) For a continuing education program to qualify under this rule, the following standards must be met:

(a) an outline of the program is prepared in advance and preserved;

(b) the program is at least one hour in length;

(c) a qualified instructor conducts the program; and

(d) a record of registration or attendance is maintained.

(8) The following programs are deemed to qualify, provided the above are met:

(a) professional development programs of recognized national and state accounting organizations;

(b) technical sessions at meetings of recognized national and state accounting organizations and their chapters; and

(c) no more than four hours CPE annually may be earned for board meeting attendance.

(9) University or college graduate-level courses taken for academic credit are accepted. Excluded are those courses used to qualify for taking the CPA exam. Each semester hour of credit shall equal 15 hours toward the requirement. A quarter hour credit shall equal 10 hours.

(10) Non-credit short courses - each class hour shall equal one hour toward the requirement and may include the following:

(a) formal, organized in-firm educational programs;

(b) programs of other accounting, industrial, and professional organizations recognized by the board in subject areas acceptable to the board;

(c) formal correspondence or other individual study programs which require registration and provide evidence of satisfactory completion will qualify with the amount of credit to be determined by the board.

(11) The board may look to recognized state or national accounting organizations for assistance in interpreting the acceptability of the credit to be allowed for individual courses. The board will accept programs meeting the standards set forth in the NASBA CPE registry, AICPA guidelines, NASBA quality assurance service, or such other programs deemed acceptable to the board.

(12) For each three year reporting period, at least 96 of the hours reported shall be courses, programs or seminars whose content is in technical fields of study. Technical fields of study are technical subjects that contribute to the maintenance and improvement of the competence of a CPA in the profession of accountancy and that directly relate to the CPA's field of business. Definitions of technical fields of study and non-technical fields of study can be found in section 16.60.1.17 NMAC.

(13) Effective for CPE reporting periods ending on or after July 31, 2007, for each three year reporting period, at least 24 of the hours reported shall not include CPE sponsored by the licensee's firm, agency, company, or organization but may include all methods of CPE delivery, provided that each hour meets the standards specified in paragraphs (1) through (10) of this Subsection.

(14) For each three year reporting period, credit will be allowed once for any single course, program or seminar unless the individual can demonstrate that the content of such course, program or seminar was subject to substantive technical changes during the reporting period.

F. Programs not qualifying for CPE:

- (1)** CPA examination review or "cram" courses;
- (2)** industrial development, community enhancement, political study groups or similar courses, programs or seminars;
- (3)** courses, programs or seminars that are generally for the purpose of learning a foreign language;
- (4)** partner, shareholder or member meetings, business meetings, committee service, and social functions unless they are structured as formal programs of learning adhering to the standards prescribed in this rule.

G. Continuing professional education records requirements: When applications to the board require evidence of CPE, the applicants shall maintain such records necessary to demonstrate evidence of compliance with requirements of this rule.

(1) Reinstatement and reciprocity applicants shall file with their applications a signed report form and statement of the CPE credit claimed. For each course claimed, the report shall show the sponsoring organization, location of program, title of program or description of content, the dates attended, and the hours claimed.

(2) Responsibility for documenting program acceptability and validity of credits rests with the licensee and CPE sponsor. Such documentation should be retained for a period of five years after program completion and at minimum shall consist of the following:

(a) copy of the outline prepared by the course sponsor along with the information required for a program to qualify as acceptable CPE as specified in this rule; or

(b) for courses taken for scholastic credit in accredited universities and colleges, a transcript reflecting completion of the course. For non-credit courses taken, a statement of the hours of attendance, signed by the instructor, is required.

(3) Institutional documentation of completion is required for formal, individual self-study/correspondence programs.

(4) The board may verify CPE reporting information from applicants at its discretion. Certificate holders/licensees or prospective certificate holders/licensees are required to provide supporting documentation or access to such records and documentation as necessary to substantiate validity of CPE hours claimed. Certificate holders/licensees are required to maintain documentation to support CPE hours claimed for a period of five years after course completion/CPE reporting. Should the board exercise its discretion to accept an affidavit in lieu of a CPE report, the board shall audit

certificate/license holder CPE rules compliance of no less than 10 percent of active CPA/RPA licensees annually.

(5) In cases where the board determines requirements have not been met, the board may grant an additional period of time in which CPE compliance deficiencies may be removed. Fraudulent reporting is a basis for disciplinary action.

(6) An individual who has submitted records of completion, or a sworn affidavit on their renewal application as evidence of compliance with CPE requirements and is found, as the result of a random audit, not to be in compliance will be subject to a minimum \$250.00 fine and any other penalties deemed appropriate by the board as permitted by Subsection B of Section 20 of the act.

(7) The sponsor of a continuing education program is required to maintain an outline of the program and attendance/registration records for a period of five years after program completion.

(8) Licensees reporting of CPE must document their participation and retain evidence for a period of five years after course completion. Documentation and/or evidence must include, at minimum:

- (a)** sponsor name and identification number;
- (b)** title and description of content;
- (c)** date(s) of completion;
- (d)** location;
- (e)** number of credit hours; and
- (f)** name of the registered licensee who completed the course.

(9) The board may, at its discretion, examine certificate holder/licensee or CPE sponsor documentation to evaluate program compliance with board rules. Non-compliance with established standards may result in denial of CPE credit for non-compliant programs and may be a basis for disciplinary action by the board for fraudulent documentation and representation by a CPE sponsor or certificate holder/licensee of a knowingly non-compliant CPE program.

16.60.4.8 FIRM PERMIT APPLICATION, RENEWAL, REINSTATEMENT AND NOTIFICATION REQUIREMENTS:

A. Pursuant to Subsection B of Section 12 and Subsections A, B, E, F and L of Section 13 of the act, any CPA or RPA acting as the sole proprietor, partner, shareholder or member of a legal business entity who performs or offers to perform accountancy for a client or potential client by holding themselves out to the public must obtain a firm permit to be granted authority to practice public accountancy as a CPA or RPA firm. Pursuant to Subsection I of Section 13 of the act, each office of the firm within New Mexico must obtain a firm permit. All firm permit applications for initial issue, renewal, or reinstatement shall be made on board-prescribed forms and meet all information and fee requirements to be considered complete and filed with the board.

B. Renewal requirements: Deadline for receipt of firm permit renewal applications is no later than prior to the expiration date printed on the firm permit. The board shall send firm permit renewal notices to firm permit holders no less than 30 days prior to the renewal deadline date.

C. Reinstatement requirements:

(1) Reinstatement due to non-renewal/expiration: Requests to reinstate a firm permit that lapsed or expired as a result of non-renewal shall be made on board-prescribed forms and meet all board-prescribed requirements for reinstatement including the current year's renewal fee and peer review program requirements. This rule shall not apply to firms whose permits lapsed or expired for a period of three years or more.

(2) Reinstatement applications for relief from disciplinary penalties: A firm whose permit to practice has been subject to board disciplinary action may apply to the board for modification of the board action after completion of all requirements contained in the board's original order:

(a) the application shall be in writing and substantiate the reasons constituting good cause for the relief sought; and

(b) shall be accompanied by at least two supporting recommendations, under oath, from practitioners who have personal knowledge of the activities of the applicant since the board action was imposed.

D. Action by the board: An application pursuant to Section 21 of the act will be processed by the board upon the basis of the application materials submitted, supplemented by such additional inquiries the board may require. At the board's discretion, a hearing may be held on an application following procedures the board may find suitable for the particular case.

(1) The board may impose appropriate terms and conditions for firm permit reinstatement or modification of board disciplinary action.

(2) In considering a reinstatement application, the board may consider:

(a) all activities of the applicant since the disciplinary penalty from which relief is sought was imposed;

(b) the offense for which the applicant was disciplined;

(c) the applicant's activities during the time the firm permit was in good standing;

(d) the applicant's rehabilitative efforts;

(e) restitution to damaged parties in the matter for which the penalty was imposed; and

(f) the applicant's general reputation for trust and professional probity.

(3) No application for reinstatement will be considered while the applicant is under sentence for any criminal offense, including any period during which the applicant is on court imposed probation or parole.

E. Notification requirements: A firm registered pursuant to Section 13 of the act shall file written notification with the board of any of the following events concerning the practice of public accountancy within this state within 30 days of occurrence:

(1) formation of a new firm;

(2) change in legal form or name of a firm;

(3) firm termination;

(4) establishment of a new branch office, (register by obtaining a new firm permit for the new branch office, pursuant to Subsection I of Section 61-28B-13, NMSA 1978) or the closing or change of address of a branch office in this state; or

(5) the occurrence of any event or events which would cause such firm not to be in conformity with the provisions of the act or these rules.

F. Unregistered firm compliance with applicable compliance assurance requirements: Any firm not required to register in this state, but which provides attest services as permitted under section Subsection C and D of Section 13 of the Act, shall maintain records as prescribed by 16.60.4.10 NMAC regarding its participation in a comparable compliance assurance program for any period in which the firm provided

attest services in this state and shall provide copies of such records upon this board's written request; provided, however, the board shall not make such a request except upon probable cause and in accordance with the firm mobility regulations.

G. Electronic signature will be acceptable for applications submitted pursuant to 16.60.1 NMAC through 16.60.5 NMAC.

16.60.4.9 FIRM BUSINESS NAMES PROHIBITIONS:

A. Misleading firm names: A firm name or trade name is misleading pursuant to Section 19 of the act if, among other things, the firm name or trade name:

- (1) is not the lawful and registered name of the firm;
- (2) implies the existence of a corporation when the firm is not a corporation such as through the use of the words "corporation", "incorporated", "Ltd.", "professional corporation", or an abbreviation thereof as part of the firm name if the firm is not incorporated or is not a professional corporation;
- (3) implies the existence of a partnership when there is not a partnership such as by use of the term "partnership", "limited liability partnership", the abbreviation "LLP", "limited liability company", or the abbreviation "LLC" if the firm is not such an entity;
- (4) includes the name of an individual who is not a CPA if the title "CPAs" is included in the firm name or trade name, except as provided for in Subsection B of 16.60.4.9 NMAC;
- (5) includes information about or indicates an association with persons who are not members of the firm, except as permitted pursuant to Section 14(i) of the Uniform Accountancy Act;
- (6) includes the terms "& company", "& associate", or "group", but the firm does not include, in addition to the named partner, shareholder, owner, or member, at least one other licensee;
- (7) contains any representation that would be likely to cause a reasonable person to have a false or unjustified expectation of favorable results or capabilities, through the use of a false or unjustified statement of fact as to any material matter;
- (8) claims or implies the ability to influence a regulatory body or official;
- (9) includes the name of an owner whose certified public accountant license has been revoked for disciplinary reasons by the board, whereby the licensee has been

prohibited from practicing public accountancy or prohibited from using the title CPA or holding himself out as a certified public accountant for more than 90 days after revocation of the license.

B. Permissible firm names: The following types of CPA firm names are not in and of themselves misleading and are permissible:

(1) a firm name or trade name that includes the names of one or more former or present owners;

(2) a firm name or trade name that excludes the names of one or more former or present owners;

(3) a firm name or trade name that uses the "CPA" title as part of the firm name when all named individuals are owners of the firm who hold such title or are former owners who held such title at the time they ceased to be owners of the firm;

(4) a firm name or trade name that includes the name of a non-CPA owner if the "CPA" title is not a part of the firm name.

C. Name of firm formed as a single member limited liability company (LLC): A firm which is organized as a single member LLC under the Limited Liability Company Act, Sections 53-19-1 to 53-19-74 NMSA 1978, or similar acts of other states may be required by the applicable LLC act to include the word "company" or "Co." in its name. For purposes of compliance with the act, the firm name shall not include more than one person's name and shall not include "and", "&" or a similar term with respect to "company" or "Co." in a manner which would imply that there was more than 1 owner of the firm.

D. Network firms: A network firm as defined in the AICPA code of professional conduct in effect July 1, 2011 may use a common brand name, or share common initials, as part of the firm name. Such a firm may use the network name as the firm's name, provided it also shares one or more of the following characteristics with other firms in the network:

(1) common control, as defined by generally accepted accounting principles in the United States, among the firms through ownership, management, or other means;

(2) profits or costs, excluding costs of operating the association, costs of developing audit methodologies, manuals and training course, and other costs that are immaterial to the firm;

(3) common business strategy that involves ongoing collaboration among the firms whereby the firms are responsible for implementing the association's strategy and are held accountable for performance pursuant to that strategy;

(4) significant part of professional resources;

(5) common quality control policies and procedures that participating firms are required to implement and that are monitored, as defined by peer review standards, by the association.

[16.60.4.9 NMAC - Rp 16 NMAC 60.4.10, 2/14/2002; A, 6/30/2008; A, 1/17/2013]

16.60.4.10 PEER REVIEW REQUIREMENTS:

A. Participation: A firm seeking to obtain or renew a firm permit to provide accounting and auditing services in New Mexico must be enrolled in a peer review program and undergo a peer review pursuant to Section 6.60.4.10 B of the 1999 Public Accountancy Act [61-28B-1 NMSA 1978], Peer review program objectives are established pursuant to Section 13L of the act to monitor compliance with applicable accounting and auditing standards adopted by generally recognized standard-setting bodies. Emphasis is on education, including appropriate education programs or remedial procedures that may be recommended or required where reporting does not comply with appropriate professional standards.

(1) Firms contracting to perform audits of state agencies as defined in the audit act must also comply with peer review standards applicable to those audits.

(2) Participation is required of each firm registered with the board who provides accounting or auditing services pursuant to Subsection 13L of the act.

B. Timing of peer reviews:

(1) Each holder of a board-issued firm permit shall enroll in a board approved peer review program and arrange, schedule, complete and allow time for the sponsoring organization to consider their peer reviews for acceptance prior to the June 30 renewal period.

(a) Firms need to ensure that their peer review year ends and corresponding due dates allow for compliance with Subsection 13E of the act.

(b) Firms may need to consider changing their current peer review year ends and the timing of when their peer reviews are performed in order to comply.

(2) When a firm performs its first engagement requiring its initial peer review, the firm shall be enrolled in a board approved peer review program by the report date of the first engagement, and the due date ordinarily will be 18 months from the report date of that engagement.

(a) The initial peer review must report on the firm's practice for a full year.

(b) The requirements of Subsection 13L of the act regarding permit renewal are initially applicable to the firm the first June 30 renewal period after the 18 month due date.

(c) Hardship Exceptions: The board may make exceptions to the requirements set out in this section for hardships. All hardship requests must be in writing, setting forth detailed reasons for the request, and must be submitted no later than six months prior to expected completion date of the peer review.

(4) The board may grant extensions up to 180 days from the original due date in order for the firm to comply with the peer review requirements in Subsection 13E and 13L of the act. All requests for extensions shall be submitted to the board in writing by the firm no later than 30 days prior to renewal date and should include any extensions approved by the sponsoring organization. The board may recognize extensions granted by the sponsoring organization. The board has the authority at its sole discretion to grant any reasonable extensions that it deems necessary and extensions are ordinarily granted for the following reasons:

(a) health;

(b) military service; or

(c) other good cause clearly outside the control of the firm.

C. Hardship Exceptions: The board may make exceptions to the requirements set out in this section for hardships. All hardship requests must be in writing, setting forth detailed reasons for the request, and must be submitted no later than six months prior to expected completion date of the peer review.

D. Exemptions: A firm which does not perform accounting or auditing engagements, including but not limited to audits, reviews, compilations, attestations, forecasts, or projections is exempt from the peer review program and shall re-certify annually to the board as to this exempt status as part of the firm permit renewal process. A previously exempt firm which begins providing the above described services must initiate and complete a review within 18 months of the date the services were first provided.

E. Reporting to the board: Firms are required to submit a copy of the following documents related to its most recently accepted peer review to the board:

(1) peer review report which has been accepted by the sponsoring organization;

(2) the firm's letter of response (accepted by the sponsoring organization), if applicable;

(3) the acceptance letter from the sponsoring organization;

(4) letter(s) signed by the firm acknowledging that the firm agrees to take any actions required by the sponsoring organization, if applicable;

(5) the completion letter signed by the sponsoring organization notifying the firm that required actions have been appropriately completed, if applicable.

(6) Upon request of the board, any correspondence from the sponsoring organization regarding the scheduling or completion of a peer review.

F. Submission of documents: the above documents shall be submitted by the firm to the board via mail, or electronically or digitally as follows:

(1) The documents in Paragraph (1) through (3) of Subsection E of 16.60.4.10 NMAC shall be submitted within 30 days of the sponsoring organization's acceptance.

(2) The documents in Paragraph (4) of Subsection E of 16.60.4.10 NMAC within 30 days from the date the letter is signed by the firm, or with submission of firm renewal application, whichever occurs first.

(3) The documents in Paragraph (5) of Subsection E of 16.60.4.10 NMAC shall be submitted to the board within 30 days of the date of the letter.

(4) The documents in Paragraph (6) of Subsection E of 16.60.4.10 NMAC shall be submitted to the board within 30 days of receiving the documents by the firm or upon request by the board.

(5) If the firm cannot submit the documents in Paragraphs (1) through (5) of Subsection E of 16.60.4.10 NMAC within the stated timeframe or, at the maximum, 180 days after the scheduled due date of the peer review, the firm must submit a letter to the board via mail, electronically or digitally explaining its failure to comply. The board may take disciplinary action for failure to comply.

(6) Firms may also satisfy this document submission requirement by having the sponsoring organization make the documents described in Paragraphs (1) through (5) of Subsection E of 16.60.4.10 NMAC available to the board within the stated time frames via the AICPA facilitated state board access (FSBA) secure website process.

G. Additional information to be provided by firms or the sponsoring organization, upon request by the board, shall provide written permission for the sponsoring organization to provide information to the board. Permission may be granted annually on the firm renewal form. Such information may include the following (or similar) types of objective information about a firm's review, if known:

(1) the date the review is or was scheduled to take place;

(2) the name of the reviewing firm, team captain or review captain;

- (3) if the field work on the peer review has commenced;
- (4) the date the exit conference was expected to or did occur;
- (5) a copy of any extension approval letters;
- (6) whether the peer review working papers have been received by the sponsoring organization;
- (7) whether a must select engagement was included in the scope of engagements reviewed;
- (8) if a technical review is in progress;
- (9) whether the review has been presented to a report acceptance body (RAB);
- (10) the date the review is expected to be presented to the report acceptance body;
- (11) if the firm is going through fair procedures to determine whether it is cooperating with the peer review.

H. Approved peer review sponsoring organizations, programs and peer review standards:

- (1) The board shall approve sponsoring organizations, peer review program(s) and standards.
- (2) The board adopts the American institute of certified public accountants (AICPA) as an approved sponsoring organization and its peer review program and the New Mexico society of CPAs (NMSCPA) or its successor and other peer review programs administered by entities fully involved in the administration of the AICPA peer review program. These organizations are not required to submit a plan of administration to the board for approval. The board may approve other sponsoring organizations and peer review programs.
- (3) Any board approved peer review program and any peer reviewer performing a peer review under this section shall utilize standards for performing and reporting on peer reviews by a recognized national accountancy organization whose standards are generally accepted by other regulatory authorities in the United States, including but not limited to the AICPA *Standards for Performing and Reporting on Peer Review*.
- (4) The board may terminate its approval of a sponsoring organization for cause following notice and opportunity for hearing. For purposes of this paragraph,

"cause" includes but is not limited to failure to maintain an ongoing compliance with the requirements.

(5) For an organization, not specifically identified in these rules as board-approved, to receive board approval for its peer review program and standards, the organization must submit evidence to the satisfaction of the board. At a minimum, the evidence shall include the standards, procedures, guidelines, oversight process, training materials and related documents used to administer, perform, and accept peer reviews. The board has the authority to request any other documents/ information from an organization about its peer review program in determining whether to grant approval.

(6) For firms required to be registered with an inspected by the public company accounting oversight board (PCAOB), the board approves the PCAOB's inspection process for reviewing practices subject to its authority (which are not included in the scope of peer review programs). Firms receiving inspections under the PAOB are also required to meet the peer review requirements under a board-approved peer review program that covers the portion of the firm's practice not subject to the PCAOB inspection process, should the firm have such a practice.

I. Authority and function of peer review oversight committee:

(1) The board may appoint up to five individuals licensed in this or another state to a peer review oversight committee to monitor programs administered by the sponsoring organization and report periodically to the board. Peer review oversight committee members shall not be current members of the board or perform any enforcement related work for regulator or governmental bodies, professional organizations (including but not limited to an AICPA ethics committee, AICPA joint trial board or state professional ethics committee) or similar groups or subgroups, including consultants and other similar arrangements for the board; and may be removed or replaced by the board at its discretion.

(2) Each committee member shall annually sign a confidentiality statement indicating they will not divulge any information to the board or any other person or entity that would identify any firm, licensee, or peer reviewer/reviewing firm.

(3) The peer review oversight committee may conduct oversight of approved sponsoring organization to provide reasonable assurance that the program it is administering is complying with the minimum standards for performing and reporting on peer reviews. The committee shall report to the board any modifications to the sponsoring organization and shall make the recommendations regarding their continued approval.

(a) Oversight procedures to be performed by the peer review oversight committee may consist of, but are not limited to, the following activities:

- (i) visit the sponsoring organization for the approved peer review program;
- (ii) review the sponsoring organization's procedures for administering the program;
- (iii) meet with the sponsoring organization's RAB during consideration of peer review documents;
- (iv) review the sponsoring organization's compliance with their programs.

(b) The peer review oversight committee shall verify that firms comply with peer review requirements as follows:

- (i) verification may include review of the peer review report, the firm's response to the matters discussed in the peer review report, and the acceptance letter outlining any additional corrective or monitoring procedures, and the letter(s) signed by the sponsoring organization notifying the firm that required actions have been appropriately completed;
- (ii) any other actions deemed necessary by the peer review oversight committee to assure compliance with peer review standards.

J. Disciplinary action:

(1) The board shall take disciplinary action against a firm for failure to comply with peer review requirements. Actions may include, but are not limited to, remedial and corrective procedures, fines, and denial of firm registration.

(2) In the event a firm is unwilling or unable to comply with established standards, or a firm's professional work is so egregious as to warrant disciplinary action, the board shall take appropriate action to protect the public interest.

(3) Peer review documents must be submitted to the board office in accordance with Subsection F of 16.60.4.10 NMAC.

(a) For each day the firm is delinquent in submitting the documents, the board may assess a fine of \$10 per day not to exceed \$1,000.

(b) If peer review documents are submitted more than 100 days late, a notice of contemplated action may be issued against all licensees listed on the most recent firm permit renewal application as owners of the firm.

(4) Requests for extensions must be submitted no later than 30 days prior to renewal date as required by Paragraph (4) of Subsection B of 16.60.4.10 NMAC.

K. Privileged information: A report, statement, memorandum, transcript, funding record, or working paper prepared for and an opinion formulated in connection with any positive enforcement or peer review is privileged information held by the sponsoring organization and may not be subject to discovery, subpoena, or other means of legal compulsion for release to any person and is not admissible as evidence in any judicial or administrative proceeding except for a board hearing.

L. In the event a firm is merged, otherwise combined, dissolved, or separated, the sponsoring organization shall determine which firm is considered to be the succeeding firm, if any. The succeeding firm shall retain its peer review status and the review due date.

16.60.5.9 BOARD DISCIPLINARY ACTION:

A. Any licensee whose certificate or firm permit issued by the board is subsequently suspended or revoked shall promptly return such certificate/license to the board.

B. Decisions by the board following hearings under the Uniform Licensing Act and the Public Accountancy Act will, if a charge is sustained, be made public.

(1) Decisions that do not sustain a charge or are subject to agreement in lieu of a hearing may be made public at the board's discretion.

(2) A list of all individuals whose licenses have been suspended or revoked will be published on quarterly basis in a newspaper of general circulation as well as in the newspaper of circulation closest to the individual's place of business.

[16.60.5.9 NMAC - N, 2/14/2002; A, 1/15/2004]

16.60.5.10 BOARD AUTHORITY TO REVIEW DOCUMENTS:

The board may solicit and receive publicly available reports and related financial statements from clients, public agencies, banks, and other users of financial statements of certificate holders/licensees and firm-permit holders and individuals with privileges under the act on a general and random basis without regard to whether an application for renewal of the particular licensee is then pending or whether there is any formal complaint or suspicion of impropriety on the part of any particular licensee or individual. The board may review such reports and otherwise proceed with respect to the results of any such review under provisions, authorities, and remedies of the act.

[16.60.5.10 NMAC - N, 2/14/2002]

16.60.5.11 RULES OF CONDUCT:

In addition to abiding by the AICPA code of professional conduct, New Mexico CPA/RPA certificate/license holders shall abide by the following board rules:

A. Responses to board communications. The individual applicant, certificate holder, or registration holder of a certificate/license or firm permit shall, when requested by the board, substantively and honestly respond in writing to all communication from the board within thirty days of receipt of board communications. Board communications may be sent by regular mail, registered or certified mail, hand delivered or by

commercial courier, to the last known address on record with the board. Board communications may also come by email to the last known email address on record with the board. The individual may respond to the board by regular mail, registered or certified mail, hand delivery, by commercial courier. Email is only a valid response to the board if the original communications from the board was delivered by email.

(1) Failure to respond substantively and honestly to written board communications or failure to furnish requested documentation or working papers constitutes conduct indicating lack of fitness to serve the public as a professional accountant and shall be grounds for disciplinary action.

(2) Each applicant, certificate or firm permit holder and each person required to be registered with the board under the act shall notify the board, in writing, of any and all changes in such person's mailing address and the effective date thereof within 30 days before or after such effective date.

B. Reportable events. A licensee shall report in writing to the board the occurrence of any of the following events within 30 days of the date the licensee had knowledge of these events:

(1) Receipt of a final peer review report indicating "pass with deficiencies" or "fail" or a public company accounting oversight board (PCAOB) firm inspection report containing deficiencies or identifying potential defects in the quality control systems. For the purposes of Subsection B of 16.60.5.11 NMAC, "deficiency reports" are reports indicating either "pass with deficiencies" or "fail" as defined in the AICPA peer review standards.

(2) Receipt of a second consecutive deficiency peer review report.

(3) Imposition upon the license of discipline, including, but not limited to, censure, reprimand, sanction, probation, civil penalty, fine, consent decree or order, suspension, revocation, or modification of a license, certificate, permit, or practice rights by:

(a) the securities and exchange commission (SEC), the PCAOB, or the internal revenue service (IRS); or

(b) another state board of accountancy for any cause other than failure to pay a professional license fee by the due date or failure to meet the continuing professional education requirements of another state board of accountancy; or

(c) any other federal or state agency regarding the licensee's conduct while rendering professional services; or

(d) any foreign authority or credentialing body that regulates the practice of accountancy.

(4) The occurrence of any matter reportable that must be reported by the licensee to the PCAOB pursuant to Sarbanes Oxley Action Section 102(b)(2)(f) and PCAOB Rules and forms adopted pursuant thereto.

(5) Notice of disciplinary charges filed by the SEC, the PCAOB, the IRS, or another state board of accountancy, or a federal or state taxing, insurance or securities regulatory authority, or a foreign authority or credentialing body that regulates the practice of accountancy.

(6) Unless prohibited by the terms of the agreement, any judgment, award or settlement of a civil action or arbitration proceeding of \$150,000 or more in which the licensee was a party if the matter included allegations of gross negligence, violation of specific standards of practice, fraud, or misappropriation of funds in the practice of accounting; provided, however, licensed firms shall only notify the board regarding civil judgments, settlements, or arbitration awards directly involving the firm's practice of public accounting in this state.

(7) Conviction or plea of no contest to which the licensee is a defendant if the crime is: a criminal conviction listed in Subsection A of 16.60.5.14 NMAC.

C. Frivolous complaints. An individual certificate/license or firm permit holder who, in writing to the board, accuses another certificate/license or firm permit holder of violating the act or board rules shall assist the board in any investigation or prosecution resulting from the written accusation. Failure to do so, such as not appearing to testify at a hearing or to produce requested documents necessary to the investigation or prosecution, without good cause, is a violation of this rule.

D. Compliance with the Parental Responsibility Act. If an applicant for a certificate/license or a CPA or RPA certificate/license or firm permit holder is identified by the state of New Mexico human services department (HSD) as not in compliance with a judgment and order for support, the board or its legally authorized designee shall: deny an application for a license; deny the renewal of a license; have grounds for suspension or revocation of a license; and shall initiate a notice of contemplated action under provisions of the Uniform Licensing Act.

(1) If an applicant or licensee disagrees with the determination of non-compliance, or wishes to come into compliance, the applicant or licensee should contact the HSD child support enforcement division. An applicant or licensee can provide the board with a subsequent statement of compliance, which shall preclude the board from taking any action based solely on the prior statement of non-compliance from HSD.

(2) When a disciplinary action is taken under this section solely because the applicant or licensee is not in compliance with a judgment and order for support, the order shall state that the application or license shall be reinstated upon presentation of a subsequent statement of compliance. The board may also include any other conditions

necessary to comply with board requirements for reapplications or reinstatement of lapsed licenses.

E. Specialty designations. A CPA/RPA certificate/license holder may only represent a claim of special expertise through the use of "specialty designations" in conjunction with the CPA/RPA designation if the specialty designation is:

(1) consistent with designations prescribed by national or regional accreditation bodies offering the designations pursuant to a prescribed course of study, experience, or examination, and

(2) cannot be construed by the public or clients of the CPA/RPA practitioner to be a false fraudulent, misleading, or deceptive claim unsubstantiated by fact.

F. A CPA firm permit holder shall display the firm permit in a clearly visible place to the public in the office or space for which the permit is issued. The license(s) of the qualifying CPA and any licensed CPA employee or CPA associated with the firm shall be displayed in a clearly visible place to the public in the office or space for which the firm permit is issued/registered. Any licensed CPA or firm permit holder shall provide a copy of their license or firm permit upon request.

16.60.5.12 CONFLICT OF INTEREST PROVISIONS:

A. A licensee shall not perform services for a client if the performance of such services will be directly or substantially adverse to another client unless:

(1) the licensee reasonably believes the performance of such services for one client will not adversely affect the relationship with the other client; and

(2) after consultation, each client consents in writing to allow the licensee to provide services to the other client.

B. Divorce proceedings, business dissolutions, and similar transactions are deemed to be directly or substantially adverse to a client.

C. A licensee shall not perform services for a client if the licensee's ability to perform such services may be materially limited by his responsibilities to another client or a third person or by his own interests unless:

(1) the licensee reasonably believes the performance of services will not adversely affect the relationship with the client;

- (2) the relationship is disclosed to the client; and
- (3) the client consents in writing after consultation.

D. A licensee shall not enter into a business transaction with a client for services other than public accountancy or knowingly acquire an ownership, security or other pecuniary interest adverse to a client unless:

- (1) the transaction and terms on which the licensee acquires the interest are fair and reasonable to the client;
- (2) the terms are fully disclosed and transmitted in writing to the client in a manner that can be reasonably understood by the client;
- (3) the client is given a reasonable opportunity to seek the advice of independent counsel in the transaction; and
- (4) the client consents in writing thereto.

E. A licensee shall not use information relating to the performance of services for a client to the disadvantage of the client.

F. A licensee who performs services for two or more clients involved in a dispute shall not participate in making an aggregate settlement of the claims of or against the clients unless each client consents in writing after consultation. Consultation shall include disclosure of the existence and nature of all the claims or pleas involved and of the participation of each party involved in the settlement.

16.60.5.13 UNAUTHORIZED USE OF THE CPA TITLE:

A. Pursuant to Section 61-28B-26 and 61-28B-13 NMSA 1978, a person whose principal place of business is not in New Mexico can use the term CPA while serving clients in New Mexico as long as the CPA is actively licensed in good standing in his principal place of business and is eligible for practice privileges in New Mexico.

B. A person licensed as a CPA in another jurisdiction who moves to New Mexico with the intention of using the CPA title (whether in public practice, industry, government, or education) must obtain a certificate of from the board prior to using the CPA title in any way in this state. Oral or written statements such as "I am a licensed CPA in another jurisdiction" when used in connection with the individual's name on all reports, letters of transmittal, or advice, and on all stationery and documents used in connection with the individual's services as an accountant do not exempt the individual from obtaining a certificate of qualification from the board. Non-resident CPAs who wish

to practice in New Mexico may do so only in accordance with Section 61-28B-26 NMSA 1978.

[16.61.1.6 NMAC - Rp, 16.61.1.6 NMAC, 1-1-2012]

16.61.1.7 DEFINITIONS:

A. "Acceptable financial institution": is a federally insured bank, savings and loan or title company authorized to do business in the state of New Mexico.

B. "Agency": the fiduciary relationship created solely by the express written agency agreement between a person and a brokerage, authorizing the brokerage to act as agent for the person according to the scope of authority granted in that express written agreement for real estate services subject to the jurisdiction of the commission.

C. "Agent": the brokerage authorized solely, by means of an express written agreement, to act as a fiduciary for a person and to provide real estate services that are subject to the jurisdiction of the commission; in the case of an associate broker, "agent" means the person who has been authorized to act by that associate broker's qualifying broker. In the case of residential property management, the property manager is an agent of the owner(s) of the property for the purpose of performing the obligations of the owner(s) under the property management agreement. In the case of commercial property management, the property manager is an agent of the owner(s) of the property for the purpose of performing the obligations of the owner(s) pursuant to a property management agreement if the property management agreement specifically creates an agency relationship.

D. "Associate broker": a person holding a New Mexico associate broker's license who is affiliated with a New Mexico qualifying broker.

E. "Broker": any person holding a current New Mexico associate broker's or qualifying broker's real estate license.

F. "Brokerage": a person, corporation, partnership or association qualified by a New Mexico licensed qualifying broker to conduct real estate brokerage activity in New Mexico.

G. "Brokerage relationship": the relationship between a customer or client and a brokerage for the provision of services in connection with a real estate transaction.

H. "Brokerage trust account": an account at an acceptable financial institution established by the qualifying broker for the purpose of holding money belonging to others received during a real estate sales transaction.

I. "Broker duties": certain duties owed by brokers to prospective buyers, sellers, owners and tenants, and broker obligation to other brokers as set forth in Part 16.61.19.8 NMAC.

J. "Broker in charge": a New Mexico licensed real estate broker qualified to be a qualifying broker who has been designated in writing by the qualifying broker to assume responsibility for the brokerage during a period of time when supervision by the qualifying broker is not possible.

K. "Client": a person who has entered into an express written agreement with a brokerage for real estate services subject to the jurisdiction of the commission.

L. "Commercial real estate": real estate that is zoned for business or commercial use by a city or county; or designated by a city or county to allow five or more multi-family units; provided that all units are located on a single parcel of land with a single legal description.

M. "Core course": the four-hour commission-approved continuing education course that all brokers are required to complete annually as a condition of license renewal.

N. "Core elective course": commission-approved advanced continuing education course in residential transactions, commercial transactions, property management transactions, or vacant land/ranch transactions required once during each three-year cycle, core elective courses advance the broker's practice of real estate by one or more of the following:

(1) improve broker transactional expertise focusing on, but not limited to, contractual and disclosure forms used in the practice of real estate, real estate title issues, contracts, and real estate transactional negotiating skills;

(2) improves broker business practices and professionalism focusing on, but not limited to, broker responsibilities and duties;

(3) improves broker awareness of issues that impact the public and real estate transactions focusing on, but not limited to, land development, jurisdictional taxation issues; or

(4) increases the broker knowledge of third party services within a transaction. The number of core elective hours required for both associate brokers and qualifying brokers is further defined at 16.61.13.8 NMAC.

O. "Credit hours(s)": credits toward education requirements as assigned by the real estate commission for each commission-approved course.

P. "Custodial account": an account at an acceptable financial institution established by the qualifying broker for the purpose of holding money of an owner. The account shall be established in the owner's name under the qualifying broker's control. This account may be interest bearing.

Q. "Customer": a person who uses real estate services without entering into an express written agreement with a brokerage subject to the jurisdiction of the commission.

R. "Designated agent": a broker who is designated in writing by their qualifying broker to represent a client of the brokerage as their exclusive agent in a real estate transaction.

S. "Designated agency": a policy chosen by the qualifying broker of a brokerage that discloses to a client of the brokerage that the broker representing them as an agent by means of an express written agency agreement is their only representative in the brokerage. The designated agency disclosure is made at the time that the client and the brokerage enter into an express written agency agreement, or at such time that the qualifying broker of a brokerage determines the need to designate one broker of the brokerage as agent of the buyer and another as agent of the seller in the same transaction.

T. "Distance education": distance learning is education and training that takes place outside of the traditional classroom setting and in which other instructional media are used because the instructor, teaching materials, and student are separated by either distance or time.

U. "Dual agency": an express written agreement that modifies existing exclusive agency agreements to provide that the brokerage agrees to act as a facilitator in a real estate transaction rather than as an exclusive agent for either party to the transaction.

V. "Dual agent": the brokerage in a dual agency relationship working as a facilitator in a single transaction for both a buyer client and a seller client who have modified existing exclusive agency agreements with the brokerage.

W. "Elective Course": a commission approved elective course not considered as intensive in focus as a core elective course in a broad array of topics directly and indirectly related to the practice of real estate or the skills necessary to practice real estate including: real estate law and practice; real estate financing, mortgages and other financing techniques; material specific to the regulatory, technical and ethical practice of real estate; and all state and federal laws including but not limited to fair housing, the Americans with Disabilities Act (ADA), and lead-based paint disclosure. This broad category of courses also includes courses associated with various national and state designations and certifications not already categorized as core electives; courses in personal and property protection for the broker and clients; broker skills-related offerings in using the computer, the internet, business calculators, and other technologies to enhance the broker's service to the public; other skills offerings related to broker professional development, broker customer relations skills, broker sales promotion including salesmanship, negotiation, marketing techniques, servicing the client, or similar courses.

X. "Employee": for the purposes of Paragraph (1) of Subsection C of Section 61-29-2 NMSA 1978 of the real estate license law, a person employed by an owner of real property, or a person employed by the brokerage acting on behalf of the owner of real

property. In determining whether a person is an employee, as opposed to an independent contractor, the commission shall consider the following:

- (1) does the employer withhold income tax from the person's wages, salary, or commission;
- (2) does the employer pay a portion of the person's FICA tax;
- (3) is the person covered by workers' compensation insurance;
- (4) does the employer make unemployment insurance contributions on behalf of the person.

Y. "Errors and omissions insurance": a type of professional liability insurance that provides insurance coverage to holders of active New Mexico real estate brokers licenses for errors and omissions made during the course of real estate transactions, subject to the coverage's, limitations, and exclusions of the specific insurance policy or policies in place.

Z. "Exclusive agency": an express written agreement between a person and a brokerage wherein the brokerage agrees to exclusively represent as an agent the interests of the person in a real estate transaction. Such agreements include buyer agency, seller agency, designated agency, subagency, residential property management, and may include commercial property management.

AA. "Expired license": an associate broker's or qualifying broker's license that has not been renewed as of the last day of the month following the broker's birth month at the end of the broker's three-year licensing cycle.

BB. "Express written agreement": any written agreement signed by all parties pertaining to a real estate transaction or the provision of real estate services.

CC. "Facilitator": the role of a brokerage in either a dual agency relationship or a transaction brokerage relationship in which the exclusive relationships between a seller or landlord client or buyer or tenant client are modified so that the brokerage impartially facilitates the transaction.

DD. "Foreign broker": a real estate broker who does not hold a real estate license issued by the New Mexico real estate commission, but who holds a current and valid real estate broker's license issued by another state in the United States, a province of Canada, or any other sovereign nation.

EE. "Honesty and reasonable care and ethical and professional conduct": conduct that a reasonable person would understand to meet standards of professionalism and ethical conduct within a profession, including but not limited to good faith, competence, trustworthiness, diligence, and lawful behavior.

FF. "Inactive broker": a New Mexico licensed real estate broker not currently affiliated with a New Mexico real estate brokerage and therefore ineligible to participate in any brokerage activity or collect fees or commissions in connection with such activity except as provided in Subsection C of 16.61.9.8 NMAC.

GG. "In house transaction": a transaction in which both sides of the transaction occur under the supervision of one qualifying broker in the same brokerage.

HH. "Land title trust account": a pooled interest-bearing account subject to the land title trust fund act.

II. "Military service member": a person, the spouse of a person, or the dependent children of a person, who is serving in the armed forces of the United States or in an active reserve component of the armed forces of the United States, including the national guard. For purposes of this definition, any dependent child must be a dependent for federal income tax purposes.

JJ. "Owner or property owner": a person who is recognized and held responsible by law as the owner of real property, including real property held by any legally recognized entity in which the owner has an interest of ten percent or more.

16.61.3.8 TYPES OF LICENSES:

The New Mexico real estate commission issues two types of real estate broker's licenses; an associate broker's license and a qualifying broker's license. Both types of licenses are issued only to individuals. The requirements for obtaining both types of licenses are described below.

[16.61.3.8 NMAC – Rp. 16.61.3.8, 1-15-2018]

16.61.3.9 EXAMINATION AND LICENSING REQUIREMENTS:

A. Associate broker's license: prior to applying for an associate broker's license, an applicant must pass both a national broker examination prescribed by the commission, and the New Mexico real estate broker's examination prescribed by the commission.

B. Examination application.

(1) Applications to take the prescribed broker's examination(s) are made directly to the commission's examination contractor on a form prescribed by the commission and provided by the contractor in a candidate information bulletin. Along with the application form, an applicant must submit certificates of completion of commission-approved 30-hour pre-licensing courses in real estate principles and practice, real estate law, and broker basics. These pre-licensing courses must have been completed within the three years prior to application to take the examinations. Exam candidates who are licensed as associate brokers and are taking the broker's examination to upgrade to qualifying broker are exempt from the three-year time limit and must only provide documentation of course completion.

(2) Exam candidates originally licensed as real estate salespersons or brokers or licensees in other states or jurisdictions may apply for waivers from completing the real estate principles and practice and real estate law courses in New Mexico and from taking the national portion of the broker's examination if they can provide a certified license history from their resident licensing jurisdiction documenting that they have completed these courses or their equivalent. A New Mexico associate broker upgrading to qualifying broker will be exempt from taking the national portion of the broker's exam.

(3) Except in a case of a license applicant from a state or jurisdiction with which the New Mexico real estate commission has a written license recognition agreement, an exam applicant cannot be exempted from completing the commission-approved 30-hour broker basics course.

(4) License applicants currently licensed by state or jurisdiction with which the commission has a written license recognition agreement are not required to take any of the prescribed pre-licensing courses or take either portion of the broker's examination to be eligible to apply for a New Mexico broker's license.

(5) Exam applicants exempted from taking the real estate principles and practice and real estate law courses by virtue of having a current real estate broker's license in another state shall attach to their examination application a letter of pre-licensing education waiver from the commission and a certificate of completion of the 30-hour broker basics course.

(6) All other applicants for the examination shall attach to their license examination application certificates documenting completion of one 30-hour pre-

licensing course each in real estate principles and practice, real estate law, and broker basics.

(7) At the time of making application to take the examination, applicants shall pay to the commission's examination contractor a non-refundable fee not to exceed \$95.

(8) Applicants are required to pass both the state and national portions of the examination with a minimum score of 75 no later than 90 calendar days after the first time they took the examination. Applicants failing to pass both portions of the examination within this time frame will be required to re-take and pass both portions of the examination before being eligible to apply for a broker's license.

C. Associate Broker License application.

(1) Upon passing both portions of the New Mexico real estate broker's examination, an individual has six months to apply for an associate broker's license on the application prescribed by the commission.

(2) An individual who fails to apply for an associate broker's license within six months of having passed both portions of the broker's examination shall be required to re-take both portions of the examinations six month deadline.

(3) An applicant for an associate broker's license shall be a legal resident of the United States and have reached the age of majority in New Mexico or in the state in which the applicant resides.

(4) Along with the license application form prescribed by the commission, the applicant must submit a written score report provided by the examination contractor documenting that the applicant has passed both portions of the examination with a minimum score of 75, documentation of having been fingerprinted for purposes of matching with state and national arrest record databases, a certificate of insurance documenting that the applicant has a current errors and omissions insurance policy that meets the requirements for such insurance as described in 16.61.5 NMAC of the commission rules, and a non-refundable license application fee not to exceed \$270. Recent veteran applicants and military service members, their spouses and dependent children, are exempt from the license application fee for the first period of licensure.

D. Qualifying broker's license examination: there is no separate qualifying broker's examination.

E. Expedited licensure for military service members, spouses, children, and veterans.

(1) Applicants for licensure shall meet the following requirements:

(a) complete an application on a form provided by the real estate commission.

(b) include on the application the applicant's full name, current mailing address, and email address if any, date of birth, and proof of a criminal background check obtained through fingerprinting.

(2) The applicant shall also provide documentation that they are licensed and in good standing in another jurisdiction, including a branch of the United States armed forces, and have met the minimum licensing requirements in a jurisdiction with requirements that are substantially equivalent to New Mexico licensing requirements.

(3) The applicant shall provide documentation as follows:

(a) for a military service member, a copy of military orders;

(b) for a spouse of military service member, a copy of military service member's military orders, and a copy of the marriage license;

(c) for spouses of deceased military service members, a copy of decedent's form DD 214 and a copy of the marriage license;

(d) for dependent children of military service members, a copy of military service member's orders listing dependent children, or a copy of birth certificate, military service member's federal tax return or other governmental or judicial documentation establishing dependency;

(e) for veterans (retired or separated): a copy of form DD 214 showing proof of honorable discharge.

(4) The license shall be issued by the real estate commission as soon as practicable but no later than thirty days after a qualified military service member, spouse, dependent child, or veteran files a complete application, and provides proof a criminal background check obtained by fingerprinting.

(5) Military service members and veterans shall not pay and the real estate commission shall not charge a licensing fee for the first three years for a license issued pursuant to this rule.

(6) A license issued pursuant to this section shall be valid for a period of three years from the date of issuance to the last day of the month following the licensee's birth month.

F. License renewal requirements.

(1) A license issued pursuant to this section shall not be renewed unless the license holder satisfies the requirements for renewal set forth in 16.61.11.8 NMAC pursuant to Chapter 61, Article 61-29-11 D NMSA 1978.

(2) As a courtesy, the real estate commission will send via electronic mail license renewal notifications to licensees before the license expiration date to the last known email address on file with the board. Failure to receive the renewal notification shall not relieve the licensee of the responsibility of timely renewal on or before the expiration date.

16.61.3.10 QUALIFYING BROKER LICENSING REQUIREMENTS:

To be eligible to apply for a New Mexico qualifying broker's license, an applicant must furnish the commission satisfactory evidence of completing the following:

A. Passage of the broker's examination pursuant to Subsection D of 16.61.3.9 NMAC.

B. At least four years active experience as a licensed associate broker during the 60-month period, immediately preceding the filing of the application.

C. In the case of a qualifying broker who will not be supervising or managing other brokers, at least two years of active experience as a licensed associate broker during the 60-month period immediately preceding the filing of the application.

D. Qualifying brokers who have qualified for qualifying broker status under the exception provided in subsection C, must document at least four years of active experience as an associate broker and qualifying broker before being eligible to supervise other brokers.

E. If licensed in another state, not less than four years' experience as the equivalent of an associate broker during the 60-month period immediately preceding the filing of the application with verification in writing by the applicant's qualifying broker(s) or the state's applicable equivalent to a qualifying broker. A candidate for a qualifying broker license from another state will, in all circumstances, be required to fulfill all the remaining requirements, including experience, education and acknowledgement of responsibilities.

F. Documented qualifying transactional experience totaling 100 points, with at least one transaction accomplished during each of the four years prior to filing of the application. These transactions are to be verified in writing by the applicant's qualifying broker. Transactions involving property owned by the applicant do not count toward the required total. Points are awarded as follows and can be accumulated through any combination of the following activities:

(1) Each sale or lease transaction is deemed to have two sides; one side working with the buyer/tenant and the other side working with the seller/owner. Both transaction sides receive points.

(2) In the event of transactions handled by teams comprised of more than one associate broker the qualifying broker shall monitor the transactions to determine which associate broker is deserving of earning the points allowed, or the division of the allowable points among team members.

(3) Real estate and property management transactions; total points available per transaction side:

- | | |
|--|--------------|
| (a) Residential sales transactions: | five points |
| (b) Residential lot sale transactions: | three points |
| (c) Residential lease transactions: | four points |
| (d) Commercial improved property sale transactions: | eight points |
| (e) Commercial unimproved lot sale transactions: | six points |
| (f) Commercial lease transactions: | six points |

(g) Property management points are accumulated as follows: Points are awarded for each location for which the broker has direct responsibility. Direct responsibility means acting as an agent for the owner and is not just collecting rent. Property management points are accumulated as follows:

(i) Residential property management: Each property receives three points, plus one point for each additional unit in that property to a maximum of 25 points per property per year. A unit is defined as a separate residence with its own postal address.

(ii) Commercial property management: Each property receives four points, plus one point for each individual tenant space in that property to a maximum of 25 points per property per year. A space is defined as a commercial location that has its own postal address.

(h) Farm and ranch/vacant land - For the purposes of this paragraph a farm or a ranch is defined as a property which is used for commercial agricultural purposes. Farm and ranch points are awarded as follows:

- (i)** Less than 100 acres, eight points.
- (ii)** 100 acres or more, 10 points.

(i) Limited waiver: A waiver may be granted by the commission to an associate broker who can demonstrate that their particular circumstance, i.e. size of market, lack of property types, health issues, force majeure, make it very difficult to obtain 100 points. The commission may waive up to 30 points and the transaction per year requirement. Written documentation and statements of proof shall be submitted with the application for waiver.

16.61.3.11 QUALIFYING BROKER CANDIDATE EDUCATION REQUIREMENTS FOR APPLICATION:

An associate broker or salesperson licensed in another state who is applying for a qualifying broker license shall furnish the commission satisfactory evidence of:

A. Completion of the commission approved 30-hour brokerage office administration course, with an in-course instructor-created exam administered by the instructor at the end of the course.

B. Completion of the eight-hour understanding and using RANM forms course or at least eight hours of other commission-approved contract course(s).

C. Completion of a minimum of eight hours of core elective courses.

D. Attendance at one New Mexico real estate commission meeting, rule hearing, or disciplinary hearing for at least three hours, or until the commission meeting goes into executive session, or the hearing/meeting ends, whichever comes first. Attendance may be by live meeting/hearing or by live or recorded distance broadcast; but must be documented by signing into and out of the meeting/hearing. In the event of broker hardship, approved by the commission, the real estate commission may authorize an equivalent to attendance at a commission meeting by an online download, attendance at any approved equivalent, or by other approved participation.

[16.61.3.9 NMAC – Rp. 16.61.3.11, 1-15-2018; A, 1-1-2019]

16.61.3.12 QUALIFYING BROKER APPLICATION REQUIREMENTS:

An associate broker or salesperson licensed in another state who is applying for a qualifying broker license shall furnish the commission satisfactory evidence of the following:

A. A notarized affidavit of the applicant's acknowledgement of the responsibilities of a qualifying broker, including the direct supervision of all brokers affiliated with the qualifying broker. Supervision shall be defined in the affidavit as follows:

(1) Review and maintain all records and documents required for real estate related matters processed by personnel supervised by the qualifying broker.

(2) Provide or promote appropriate training of all brokers and staff affiliated with the qualifying broker for compliance with the real estate license law and commission rules.

(3) Supervise advertising of real estate or real estate services conducted on behalf of others by anyone affiliated with the qualifying broker.

(4) Execute and maintain current written employment agreements or independent contractor agreements with associate brokers affiliated with the qualifying broker.

B. A broker applying to be licensed as a qualifying broker supervised by another qualifying broker is not required to submit this affidavit.

C. A supervisory plan which will outline the qualifying broker's schedule of training and education provided or promoted. The supervisory plan will be applicable to the broker applying to be a qualifying broker and to all other brokers affiliated with them, if any. A broker applying to be licensed as a qualifying broker supervised by another qualifying broker is not required to submit a supervisory plan.

D. Applicants with current licenses who can document that they were New Mexico qualifying brokers on or before December 31, 2005, are not subject to those requirements and may regain qualifying broker status by filling a trade name registration form and paying the trade name registration fee to the commission.

E. Brokers who were salespersons on January 1, 2006 when the license law was amended to eliminate the salesperson category and were converted to associate broker status, shall in addition to meeting the requirements in the preceding section, document that they have met the requirements for and passed the broker's examination prior to being issued a qualifying broker's license.

F. An application for a New Mexico qualifying broker's license shall be made on the form prescribed by the commission and shall be accompanied with documentation of having been fingerprinted for purposes of matching with state and national arrest record databases, a certificate documenting that the applicant has a current errors and omissions insurance policy that meets the requirements for such insurance as described in 16.61.5 NMAC of the commission rules, and a non-refundable license application fee not to exceed \$270.

G. Military service members and recent veterans:

(1) The commission shall, as soon as practicable after a military service member, the spouse of a military service member or a recent veteran files an

application for an associate broker's or qualifying broker's license, process the application and issue a license to a qualified applicant who submits satisfactory documentation that the applicant holds a real estate license issued by another licensing jurisdiction, including a branch of the armed forces of the United States, that is current and in good standing, and that has licensing requirements that are substantially equivalent to New Mexico requirements.

(2) A license issued pursuant to this part is not a provisional license and confers the same rights, privileges, and responsibilities as any other license issued by the commission.

(3) The commission shall, process the application and issue a license to the spouse of a military service member, a dependent child of a military service member, or a recent veteran that meet all the requirements for licensure as a real estate broker in New Mexico.

(4) A license issued pursuant to this part is not a provisional license and confers the same rights, privileges, and responsibilities as any other license issued by the commission.

(5) A license issued pursuant to this part shall not be renewed unless the licensee satisfies the commission's requirements for license renewal.

(6) Military service members and recent veteran applicants, their spouses and dependent children, are exempt from the license application fee for the first period of licensure.

[16.61.3.9 NMAC - Rp. 16.61.3.12, 1/15/2018; A, 1/1/2019; A, 1/3/2021]

16.61.3.13 QUALIFYING BROKER LICENSE RENEWAL REQUIREMENTS:

A qualifying broker applying for renewal of their license shall furnish the commission satisfactory evidence of successful completion of:

A. The qualifying broker refresher course.

B. A minimum of 42 hours of commission-approved courses, including

- (1) The four-hour core course in each year of the broker's licensing cycle
- (2) Eight hours of core elective courses.
- (3) The qualifying broker refresher course (6 hours)
- (4) Four hours of ethics.

C. Attendance at one commission meeting, rule hearing, or disciplinary hearing for at least three hours, or until the commission goes into executive session, or the hearing/meeting ends, whichever comes first. Attendance may be by live meeting/hearing or by live or recorded distance broadcast, but must be documented by signing into and out of the meeting/hearing. In the event of broker hardship, approved by the commission, the real estate commission may authorize an equivalent to the attendance of a commission meeting either by an online download, attendance at any approved equivalent, or by other approved participation.

D. An application for renewal of a qualifying broker's license shall include a notarized affidavit of the applicant's acknowledgement of the responsibilities of a qualifying broker, including the direct supervision of all brokers affiliated with the brokerage, including but not limited to:

(1) Review and maintain all records and documents required for real estate related matters processed by the brokerage.

(2) Provide or promote appropriate training of all brokers and staff affiliated with the qualifying broker to ensure compliance with the Real Estate License Law and commission rules.

(3) Supervise advertising of real estate or real estate services conducted on behalf of others by anyone affiliated with the qualifying broker.

(4) Execute and maintain current written employment agreements or independent contractor agreements with associate brokers affiliated with the qualifying broker.

E. A qualifying broker applying for license renewal who will be supervised by another qualifying broker will not be required to submit this affidavit.

F. An application for renewal of a qualifying broker's license shall include a statement affirming that the qualifying broker substantially fulfilled the supervisory plan filed with the initial application, and a plan outlining the schedule of training and education to be provided or promoted and the policies for supervision in the next licensing cycle. The supervisory plan will be applicable to the applicant for renewal of the qualifying broker's license and all affiliated brokers, if any. A qualifying broker who is supervised by another qualifying broker is not required to submit a supervisory plan.

16.61.3.14 PROPERTY MANAGEMENT EDUCATIONAL REQUIREMENTS:

Qualifying brokers or associate brokers intending to offer property management services for others, shall as a condition of offering property management services complete the following education requirements:

A. Completion of the commission approved course, Uniform Owner-Resident Relations Act, or a commission approved equivalent property management related course, prior to offering property management services, and during every subsequent three-year licensing cycle.

B. As a condition of offering property management services, in addition to the course requirement in paragraph A above, associate brokers shall complete a minimum of six hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue during each three-year licensing cycle.

C. Qualifying brokers who offer or intend to offer property management services for others, shall as a condition of offering such services, in addition to the course requirement in Section A above, complete a minimum of 12 hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue, during each three-year licensing cycle.

D. While qualifying brokers are already subject to the meeting attendance renewal requirements listed in Section 13 C of 16.61.3 NMAC, associate brokers who offer or intend to offer property management services shall also be subject to the same meeting attendance requirements in Section 13 C of 16.61.3 NMAC, namely, the attendance at one commission meeting, rule hearing, or disciplinary hearing for at least three hours, or until the commission goes into executive session, or the hearing/meeting ends, whichever comes first. Attendance may be live meeting/hearing or by live or recorded distance broadcast, but must be documented by signing into and out of the meeting/hearing. In the event of broker hardship, approved by the commission, the real estate commission may authorize an equivalent to the attendance of a commission meeting either by an online download, attendance at any approved equivalent, or by other approved participation.

[N, 1-01-2019]

16.61.3.15 FELONY CRIMINAL CONVICTIONS:

A. Felony convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying felony criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the real estate commission. This includes a felony conviction of an offense which if committed in this state, would be deemed a felony under either state or federal law, without regard to its designation elsewhere. The term "conviction" shall include a finding or verdict of guilt, a plea of guilty, or a plea of nolo contendere in a criminal proceeding, regardless of whether the adjudication of guilt or sentence is withheld or not entered thereon, or an appeal of the conviction has been sought. These felony convictions include:

- (1)** homicide, voluntary or involuntary manslaughter;

- (2)** trafficking in controlled substances, manufacturing of controlled substances or distribution of controlled substances;
- (3)** human trafficking, kidnapping, false imprisonment, aggravated assault or aggravated battery;
- (4)** rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, or other related felony sexual offenses;
- (5)** crimes involving adult abuse, neglect, or financial exploitation;
- (6)** crimes involving child abuse or neglect;
- (7)** crimes involving robbery, larceny, extortion, burglary, possession of burglary tools, destruction of property, criminal damage to property, unlawful or dangerous uses of explosives, breaking and entering, arson, making a bomb scare, tampering with evidence or receiving stolen property; and,
- (8)** financial crimes involving fraud, forgery, embezzlement, and credit card fraud.

B. The real estate commission shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. The real estate commission shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule, and without a hearing as provided in the uniform licensing act.

D. Nothing in this rule prevents the real estate commission from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the real estate license law, regardless of whether the individual was convicted of a felony crime for such conduct or whether the felony crime for which the individual was convicted is listed as one of the disqualifying felony criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the real estate commission shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

- (1)** an arrest not followed by a valid conviction;
- (2)** a conviction that has been sealed, dismissed, expunged or pardoned;
- (3)** a juvenile adjudication; or

(4) a conviction for any crime other than the disqualifying felony criminal convictions listed in Subsection A of this rule.

The commission shall enter into a contract with a qualified insurance carrier or its agent or broker to make available to all New Mexico real estate brokers and broker applicants a group policy of insurance under the following terms and conditions:

- A.** the insurance carrier is licensed and authorized by the New Mexico department of insurance to write policies of errors and omissions insurance in New Mexico;
- B.** the insurance carrier maintains an A.M. Best rating of "B" or better;
- C.** the insurance carrier will collect premiums, maintain records and report names of those insured and a record of claims to the commission on a timely basis and at no expense to the state;
- D.** the insurance carrier has been selected through a competitive bidding process;
- E.** the contract and policy are in conformance with Part 5 and all relevant New Mexico statutory requirements.

[16.61.5.8 NMAC - N, 1-1-2002; A, 1-1-2006]

16.61.5.9 TERMS OF COVERAGE:

The group policy shall provide, at a minimum, the following terms of coverage:

- A.** coverage of all acts for which a real estate license is required, except those illegal, fraudulent or other acts which are normally excluded from such coverage;
- B.** an annual premium not to exceed the amount set by statute 61-29-4.2B NMSA 1978;

C. that the coverage cannot be cancelled by the insurance carrier except for non-payment of the premium or in the event a broker becomes inactive or has their license revoked or an applicant is denied a license;

D. pro-ration of premiums for coverage which is purchased during the course of the calendar year but with no provision for refunds of unused premiums;

E. not less than \$100,000 coverage for each licensed individual and entity per covered claim regardless of the number of brokers or entities to which a settlement or claim may apply;

F. an aggregate limit of \$500,000 per licensed individual or entity;

G. a deductible amount for each claim of not more than \$1,000 per claim and no deductible for legal expenses and defense;

H. payment of claims by the provider shall be on a first dollar basis and the provider shall look to the insured for payment of any deductible;

I. the obligation of the insurance carrier to defend all covered claims with payment of defense costs outside of policy limits;

J. coverage of a broker's use of lock boxes which may include a sublimit of not less than \$5,000 per claim for property damage or loss of use of property arising from a lock box claim;

K. the ability of a broker, upon payment of an additional premium, to obtain higher or excess coverage or to purchase additional coverage from the insurance provider as may be determined by the provider;

L. that coverage is individual and license specific and will cover the associate broker regardless of changes in qualifying broker;

M. an extended reporting period of not less than 365 days;

N. a conformity endorsement allowing a New Mexico resident broker to meet errors and omissions insurance requirements for an active license in another group mandated state without the need to purchase separate coverage in that state.

[16.61.5.9 NMAC - N, 1-1-2002; A, 1-1-2006; A, 12-31-2008; A, 1-1-2017]

16.61.5.10 EQUIVALENT ERRORS AND OMISSIONS INSURANCE POLICIES:

New Mexico real estate associate broker or qualifying broker applicants may obtain errors and omissions coverage equivalent to the group plan from any insurance carrier subject to the following terms and conditions.

A. The insurance carrier is licensed and authorized by the New Mexico department of insurance to write policies of errors and omissions insurance in this state and is in conformance with all New Mexico statutes.

B. The insurance provider maintains an A.M. Best rating of "B" or better.

C. The policy, at a minimum, complies with all relevant conditions set forth in this rule and the insurance carrier so certifies in a certificate issued to the insured real estate broker or broker applicant in a form acceptable to the commission and agrees to immediately notify the commission of any cancellation or lapse in coverage. The commission will make no independent determination of whether equivalent policies meet the requirements of Part 5.

D. Coverage includes all acts for which a real estate license is required, except those illegal, fraudulent or other acts which are normally excluded from such coverage.

E. Coverage cannot be cancelled by the insurance provider except for nonpayment of premium or in the event a broker becomes inactive or the license is revoked, or in the event an applicant is denied a license.

F. Coverage is for not less than \$100,000 for each licensed individual and entity per covered claim and not less than a \$500,000 aggregate limit per licensed individual or entity.

G. A deductible amount for each claim of not more than \$1,000.

H. Payment of claims by the provider shall be on a first dollar basis and the provider shall look to the insured for payment of any deductible.

I. The obligation of the insurance carrier to defend all covered claims with defense costs outside of policy limits.

J. Coverage of a broker's use of lock boxes which may include a sublimit of not less than \$5,000 per claim for property damage or loss of use of property arising from a lock box claim.

K. Real estate brokers or broker applicants who obtain equivalent coverage and wish to be on active status must present to the commission the certificate referred to in 16.61.5.10 NMAC:

- (1) when renewing an active license, no later than at the time of renewal; or
- (2) upon any request for reinstatement or activation of a license; or
- (3) upon application for an active license.

L. An automatic 90-day extended reporting period with the ability of the broker, upon payment of an additional premium, to obtain an optional extended reporting period of one, two, or three years.

[16.61.5.10 NMAC - N, 1-1-2002; A, 1-1-2017]

16.61.5.11 BROKER COMPLIANCE:

Applicants for licensure, transfer, and renewal shall certify compliance with this rule by submitting along with the license, transfer, or renewal application a copy of a certificate from their insurance company certifying current coverage. The commission will not issue an active license to a first time applicant who fails to provide proof of current coverage, and the license of any active New Mexico broker who fails to provide a certificate certifying current errors and omissions coverage will not be renewed or transferred until such certificate is received in the commission office

[16.61.5.11 NMAC - N, 1-1-2002; A, 1-1-2006]

16.61.5.12 INSURANCE REQUIREMENTS SUSPENDED:

The requirements of 16.61.5 NMAC shall be suspended if the commission through a competitive bidding and contract award process is not able to enter into a contract with a qualified insurance carrier to make available to all applicants for or holders of active New Mexico real estate broker's licenses a group policy of insurance under the terms and conditions described in Part 5.

[16.61.5.12 NMAC - N, 1-1-2002; A, 1-1-2006]

16.61.5.13 PENALTIES FOR VIOLATION:

Brokers who fail to obtain and maintain an errors and omissions insurance policy as specified herein are guilty of violating NMSA 1978 Section 61-29-4.2 of the Real Estate License Law and are subject to license suspension and revocation as provided in Section 61-29-12 A (10).

16.61.7.8 REQUIREMENTS:

A. All persons applying for a New Mexico real estate broker's license or upgrading an associate broker's license to a qualifying broker's license must be fingerprinted as a condition of licensure.

B. Applicant fingerprints and processing fees are submitted electronically to the New Mexico department of public safety from approved live scan vendor sites for the purpose of matching applicant fingerprints with fingerprints in state and national arrest record databases. Applicants must register on the vendor web site prior to being fingerprinted. The vendor web site address and a list of approved live scan sites are available on the real estate commission web site at www.rld.state.nm.us.

C. To verify compliance with the fingerprinting requirement, applicants for licensure shall submit to the commission along with their license application a copy of the commission-approved fingerprint certification form completed by the vendor. To ensure that the commission is receiving the most current information available, fingerprinting shall be done no earlier than 21 days prior to submitting documents to apply for a license. The commission cannot accept fingerprints that are older than 21 days.

D. Background checks: The commission will conduct a background check on all applications including renewal applications and may use that information in determining the applicant's eligibility for licensure or renewal.

16.61.9.8 REQUIREMENTS:

A. When a broker requests that their license be placed on inactive status, the qualifying broker or broker in charge shall within 48 hours return the license to the commission. The license shall be inactivated and all real estate activity on the part of the broker shall cease.

B. When a qualifying broker returns their license to the commission for inactivation, they shall within 48 hours either mail or deliver to the commission all licenses issued under that license. If the brokerage is to continue operation, an application for a new qualifying broker, along with transfer applications and appropriate fees for each license, shall also be included.

C. Inactivation of a license shall take place at the time a license is received and stamped at the commission office. In the event that a license is lost, or otherwise unavailable for delivery by the qualifying broker to the commission office, inactivation of the license will take place at the time the commission receives and stamps a written notification from the qualifying broker that the associate broker is no longer affiliated with the brokerage. The qualifying broker may pay a commission to an associate broker whose license is on inactive status if the transaction was under contract while the broker

was on active status. Payment of the commission is subject to the terms and conditions of the independent contractor agreement between the associate broker and the qualifying broker.

D. The voluntary inactivation of a license will not prevent the commission from taking disciplinary action against that license as provided in Section 61-29-1 through 61-29-29, NMSA, 1978.

E. Brokers whose licenses are inactive are required to fulfill the following requirements of licensure.

- (1) The payment of triennial renewal fees.
- (2) Documentation of having been fingerprinted for purposes of matching with state and national arrest record databases.
- (3) Completion of continuing education requirements.
- (4) During the course of advertising personally owned property for sale, lease, or auction, disclosure that they are a licensed broker.

F. Brokers whose licenses are on inactive status are not required to have an errors and omissions insurance policy in effect while on inactive status. Inactive brokers are required to produce a certificate of current errors and omissions insurance as a condition of license activation.

G. If a license has been placed in inactive status and is not renewed at the time of next renewal, that license shall expire.

[1-1-2000; 16.61.11.7 NMAC - Rn, 16 NMAC 61.11.7, 1-1-2002]

16.61.11.8 REQUIREMENTS:

A. Renewal period: Every real estate license expires every three years on the last day of the month following the broker's birth month unless it is renewed on or before that date. Renewal of a license is the sole responsibility of each broker.

B. Late renewal fee penalty: A broker whose license has expired may reinstate their license without reexamination up to one year after expiration by paying a renewal/reinstatement fee three times the regular \$270 license renewal fee.

C. Exemption from late fee penalty for documentable medical or military reasons: Pursuant to Section 61-29-8 NMSA 1978, a broker may be excused from

paying a late license renewal/reinstatement fee of three times the normal \$270 renewal fee if the broker by reason of (1) active duty military service; or (2) due to impairment by illness or injury, cannot complete renewal requirements. In these cases the broker may make application for a license renewal/reinstatement if the application is submitted within the one-year period after license expiration. A broker may apply for an exemption from the late fee under the following conditions and procedures:

(1) Active military/reserve duty: The broker or their spouse must have been placed on active military/reserve duty, and can document military orders.

(2) Medically related impairment or incapacitation: The broker, spouse or a member of the broker's immediate family is placed under a doctor's care, suffering from an illness or injury of such severity that the broker is physically or mentally incapable or otherwise deterred of completing renewal requirements on time, and deterred from submitting an application for license renewal prior to license expiration. This exemption includes brokers who are temporarily deterred from completing renewal requirements due to parental or immediate family caregiving as documentable by sufficient medical affidavit.

(3) Documentation: The broker's late renewal/reinstatement application must contain documentable medical evidence, or in the case of military service, a document that shows the effective date of return from active military duty. Nevertheless, in all cases, the license will be considered expired and the broker may not practice real estate until the broker, within the one year from expiration, renews/reinstates his/her license. In all cases, brokers renewing/reinstating late must meet all continuing education requirements due during the expired cycle in question.

(4) Procedure: Brokers seeking the late fee exemption under the above conditions must first contact commission staff prior to submittal of the late renewal application, and must submit a letter of explanation along with the pertinent documentation supporting late fee exemption request. Following commission staff review of the documentation, commission staff will determine the validity of the documentation. If a late fee exemption is granted, the commission staff will notify the broker to submit the late renewal application. If an exemption from the late fee is not granted, the broker may still submit the late renewal, but be subject to the late fee penalty at the time of submission.

D. Forfeiture of license renewal/reinstatement: After the time period of one year from the date of license expiration, the broker will not be able to renew or reinstate their license, and the broker would have to undergo all precicensure requirements to become licensed in the future.

E. Multiple license circumvention of late fees disallowed: A qualifying broker with multiple licenses cannot avoid paying the late fee on an expired license by allowing the license to expire and subsequently applying for an additional license. An application for an additional license within one year of the broker's license expiration date will only

be accepted if the qualifying broker brings all other licenses current with respect to fees, continuing education, and other renewal requirements. In addition to paying a license renewal/reinstatement fee, the broker will be required, as a condition of license renewal/reinstatement, to provide documentation of the completion of the necessary 42 hours of continuing education required for a qualifying broker.

F. On-line renewal forms: The commission shall email online license renewal forms and all related web links to brokers at the broker's email of record on file at the commission, and if possible, in the case of active associate brokers, send a copy of said email renewal notice to the applicable qualifying broker.

G. Phone number of record and email of record address changes: Brokers are responsible for providing the commission with a current email address, and phone number; and, for notifying the commission within 10 days of a change of email address. Brokers must also maintain a current residential address with the commission and notify the commission within 10 days of a residential address change.

H. Payment of commissions to brokers with expired license: The qualifying broker may pay a commission to a broker whose license is expired or to the estate of a deceased broker only if the transaction was under contract while the broker's license was current.

I. Background checks: The commission will conduct a background check on all renewal applicants and may use that information in determining their eligibility for renewal.

16.61.13.6 OBJECTIVE:

The objective of Part 13 of Chapter 61 is to set forth continuing education requirements for New Mexico real estate brokers.

[1-1-2000; 16.61.13.6 NMAC - Rn, 16 NMAC 61.13.6, 1-1-2002; A, 1-1-2006]

[1-1-2000; 16.61.13.7 NMAC - Rn, 16 NMAC 61.13.7, 1-1-2002]

16.61.13.8 REQUIREMENTS:

Except for brokers who are exempt from continuing education by virtue of having attained 65 years of age and a minimum of 20 years of continuous licensure prior to July 1, 2011, the following requirements apply:

A. All active and inactive associate brokers shall successfully complete a minimum of 36 credit hours of continuing education in courses approved by the commission during each licensing cycle. All active and inactive qualifying brokers shall successfully complete a minimum of 42 credit hours of continuing education in courses approved by the commission during each licensing cycle, which includes the qualifying broker refresher course.

B. For each three-year licensing cycle, required courses include: the four-hour New Mexico real estate commission (NMREC) core course to be completed annually; four hours of commission-approved core elective course(s) to be completed during each three-year licensing for associate brokers; eight hours of commission-approved core elective course(s) to be completed during each three-year licensing cycle for qualifying brokers; and for all brokers, four hours of commission-approved ethics courses to be completed during each three-year licensing cycle. Property managers have additional continuing education requirements as specified in Subsection M of this section.

C. All remaining credit hours may be earned toward the cumulative continuing education renewal requirement from commission-approved elective category courses, additional core elective category courses or additional ethics category courses.

D. Each annual iteration of the NMREC core course title will contain the calendar year in which it is to be presented. The commission shall ensure that the content of each annual iteration is unique for each year's course to ensure that brokers are not receiving identical information in more than one course.

E. Pursuant to 16.61.11.8 NMAC, the broker's license will expire and can only be renewed within one year of expiration by payment of a late fee, notwithstanding any exemptions by law or rule, and successful completion of all renewal requirements; including all applicable annual core course requirements. If a broker fails to meet the core course requirements at the time of renewal, and is not exempt under 16.61.13.8 NMAC, the following policy will be in effect:

(1) If a broker failed to complete the core course required for, the third calendar year of their license renewal cycle, the broker must complete that core course with a core course instructor, in a regular core course class setting, or another format that has been approved by the commission within one year of expiration.

(2) If a broker failed to complete an annual core course required for the first or second years of their three-year license renewal cycle, and is unable to complete a make-up of the missed course(s) with an approved core course instructor prior to license expiration, the broker will be required to successfully complete the 30-hour broker basics course prior to expiration or as a condition of expired license renewal/reinstatement. The broker will be given credit for renewal purposes, but will not be given any continuing education credit.

(3) If a broker failed to complete any one of the three annual core course requirements within the context of their three-year cycle due to medical reasons and can present documentation to the commission of such medical reasons or active military deployment, the commission may authorize the broker to take the missed core course iteration by repeating, preferably under different instructors, the most recent core course iteration the number of annual core courses they missed prior to license expiration. Such medical reasons may include documentation (i.e., doctor's affidavit/ letter) indicating the necessity of the broker to serve as a parental or immediate family caregiver.

F. Commission-approved pre-licensing courses may count for up to 10 credit hours toward continuing education credit for license renewal. The commission approved 30-hour post-licensing course may also count for up to 10 credit hours toward continuing education.

G. No individual commission-approved continuing education course will be granted more than 10 credit hours of continuing education credit.

H. Continuing education credit hours generally cannot be carried forward to the next licensing cycle except for new calendar year iterations of the annual core courses in excess of 12 core course hours normally sufficient for the cycle. If the broker renews

their license early within their on-line renewal two-month window, and they meet the 36-hour minimum for that renewal for an associate broker and the 42-hour minimum for that renewal for a qualifying broker, and the broker takes a core course between the date of the renewed license, and the end of the cycle's date of expiration, they may carry a fourth four-hour core course credit forward to the next cycle.

I. The same continuing education course may not be repeated for credit in the same three-year renewal cycle.

J. Brokers may receive up to a maximum of four approved elective course credit hours during each licensing cycle for attending commission meetings, rule hearings, disciplinary hearings, or meetings of the education advisory committee (EAC). Brokers are prohibited from receiving credit for attending a disciplinary hearing in which they are a respondent.

K. Approved instructors may use up to 28 credit hours during each three-year licensing cycle toward fulfillment of their own continuing education requirements for teaching commission approved courses. Teaching documentation must be provided by the course sponsor. Instructors may not use the same course for credit during any three-year licensing cycle.

L. Classes required by the commission for disciplinary reasons cannot be counted towards the continuing education requirements for license renewal.

M. Pursuant to 16.61.3.14 NMAC, all brokers who intend to offer property management services for others, shall as a condition of offering property management services complete the education requirements as listed below:

(1) Completion of the commission approved course, Uniform Owner-Resident Relations Act, or a commission approved equivalent property management related course, prior to offering property management services and every subsequent three-year licensing cycle.

(2) As a condition of offering property management services, in addition to the course requirement in subsection A above, associate brokers shall complete a minimum of six hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue during each three-year licensing cycle.

(3) Qualifying brokers who offer or intend to offer property management services for others, shall as a condition of offering such services, in addition to the course requirement in subsection A above, complete a minimum of 12 hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue, each three-year licensing cycle.

(4) While qualifying brokers are already subject to the meeting attendance requirements for license renewal under Subsection C of 16.61.3.13 NMAC, associate brokers who offer or intend to offer property management services shall also be subject to the same meeting attendance requirements namely, the attendance at one commission meeting, rule hearing, or disciplinary hearing for at least three hours, or until the commission goes into executive session, or the hearing/meeting ends, whichever comes first. Attendance may be live meeting/hearing or by live or recorded distance broadcast, but must be documented by signing into and out of the meeting/hearing. In the event of broker hardship, approved by the commission, the real estate commission may authorize an equivalent to the attendance of a commission meeting either by an online download, attendance at any approved equivalent, or by other approved participation.

N. In recognition of the volunteer service to the real estate commission and subject to Subsection J of 16.61.13.8 NMAC, the following is in effect:

(1) Effective with the appointment of new commissioners after January 1, 2021, a broker currently serving their appointed term as a real estate commissioner may receive up to a maximum of 16 elective credit hours during each three-year licensing cycle for which they serve.

(2) A broker currently serving their appointed term as an education advisory committee member may receive up to a maximum of 16 elective credit hours during each three-year licensing cycle for which they serve upon written request to the commission at least two months prior to the date of license expiration.

(3) A broker currently serving their appointed term as a member of any other real estate commission task force or ad-hoc committee may receive up to a maximum of 16 elective credit hours during each three-year licensing cycle for which they serve upon written request to the commission at least two months prior to the date of license expiration.

(4) All those seeking volunteer service credit must submit a summary of such service to commission staff.

[16.61.14.5 NMAC - N, 01/01/07]

16.61.14.6 OBJECTIVE:

The objective of Part 14 of Chapter 61 is to set forth to all affected persons the manner in which the education and training fund will be administered by the commission.

[16.61.14.6 NMAC - N, 01/01/07]

16.61.14.7 DEFINITIONS:

Refer to 16.61.1.7 NMAC.

[16.61.14.7 NMAC - N, 01/01/07]

16.61.14.8 PROVIDERS:

The New Mexico real estate commission may enter into contracts with public or private institutions or individuals to establish, continue, or expand educational programs or research programs which will benefit real estate brokers and the public in its potential dealings with real estate brokers. Priority will be given to those programs that enhance educational opportunities for New Mexico-licensed real estate associate brokers and qualifying brokers, and further the real estate commission's mission of protecting the public and increasing the professional competence of real estate brokers.

[16.61.14.8 NMAC - N, 01/01/07]

16.61.14.9 AMOUNTS AND TERMS OF CONTRACTS FOR EDUCATION OR RESEARCH:

The amount to be paid and the duration of any contract shall be as provided for in each contract. Any amendment to a contract to increase the payment or extend the time of performance shall be at the discretion of the commission. No provision of any contract shall be construed as obligating the commission to make any payment beyond the fiscal year in which the commission enters into the contract, unless otherwise provided for in the contract.

[16.61.14.9 NMAC - N, 01/01/07]

16.61.14.10 PROPOSALS:

Proposals to enter into contracts for education or research with the commission will be required to contain the following:

- A. a statement of the educational objective of the proposed program or research;
- B. a statement of how the program will benefit associate brokers or qualifying brokers or the public who may deal with them;
- C. if applicable, a detailed course outline, the number of educational hours in the program, length of course, schedule of instruction, location, and anticipated number of participants;
- D. if applicable, the purpose, scope, length, and place of research work;
- E. a detailed cost analysis of the entire course or project including, but not limited to such items as source(s) of other funding for the program, cost of advertising,

administration, instructors, materials, and physical facilities, and fees proposed to be charged to participants;

F. if applicable, a list of instructors who may be used and their credentials;

G. any academic, real estate, or other professional credit proposed to be awarded, subject to the approval of the commission;

H. such other information as the commission may require at the time of submission of the proposal or after reviewing the proposal.

[16.61.14.10 NMAC - N, 01/01/07]

16.61.14.11 COMMISSION ACTION ON PROPOSALS:

A. The commission shall act on all proposals within sixty (60) days of receipt of a written original or amended proposal and shall notify the applicant in writing of:

- (1) the terms of acceptance of the proposal;
- (2) the reason or reasons for rejection of the proposal;
- (3) any further information needed to accept or reject the proposal;

B. Decisions of acceptance and rejection by the commission shall be final.

[16.61.14.11 NMAC - N, 01/01/07]

16.61.14.12 REPORTS:

Within thirty (30) days of the end of the term of the contract or at such other time as the commission may require, the provider under contract shall provide to the commission a report of the expenditure of funds under the contract, and a written report explaining how the program benefited New Mexico real estate brokers and consumers. Whenever a contract for education or research requires that the provider conduct courses, seminars, or other educational venues, the provider shall issue to each participant who successfully completes the program a certificate of course completion that includes the participant's name, the course name, the number of approved credit hours, and whether the course is in the education or training category of approved commission courses. Within fourteen (14) days of the end of the program, the provider shall send to the commission a list of all real estate brokers who successfully completed the program. The commission may direct its employees or representatives to monitor any contracted program at any time and the providers shall be required to supply to such representatives requested reasonable data upon reasonable notice.

[16.61.14.12 NMAC - N, 01/01/07]

16.61.14.13 USE OF COMMISSION NAME:

Any advertising of a program or project funded by the education and training fund must indicate that the New Mexico real estate commission underwrites a portion or all of the cost of the program. Any publication or any other educational materials produced as a result of a contract must include indication that the New Mexico real estate commission underwrites a portion or all of the cost of producing the material. All participants in any program underwritten totally or in part by the New Mexico real estate commission must be clearly and affirmatively made aware of the participation of the New Mexico real estate commission and how they may forward comments on the program to the commission. No other use of the name of the commission shall be permitted without the commission's prior approval.

[16.61.14.13 NMAC - N, 01/01/07]

16.61.14.14 PRODUCT OF SERVICE - COPYRIGHT:

All materials developed or acquired by a Contractor providing educational and research services funded in whole or in part by the Education and Training Fund shall become the property of the New Mexico real estate commission and shall be delivered to the Commission no later than the termination date of the contract. Nothing produced, in whole or in part, by the Contractor shall be the subject of an application for copyright other claim of ownership by or on behalf of the Contractor.

[16.61.14.14 NMAC - N, 01/01/07]

16.61.14.15 CHANGES:

No substantive changes, including schedule of programs, may be made in a program under a contract for education and research without the prior approval of the commission. The commission at a regularly scheduled meeting may make emergency changes on a temporary basis with the prior approval of the administrator of the commission subject to review and final approval. All requests for changes and authorizations of changes must be made in writing before they may be implemented.

[16.61.14.15 NMAC - N, 01/01/07]

16.61.14.16 PARTICIPANTS:

Any courses offered to New Mexico licensed associate brokers and qualifying brokers which the commission has underwritten in part or in total must be made available to all persons regardless of race, color, religion, sex, handicap, familial status, national origin, age, or membership in any organization.

[16.61.14.16 NMAC - N, 01/01/07]

16.61.14.17 EXPENDITURES:

Any funds not expended in the implementation of a contract for education or research shall be returned to the commission within thirty (30) days of the termination date of the contract or at such other time as the commission approves.

[16.61.14.17 NMAC - N, 01/01/07; A, 12-31-2008]

16.61.14.18 REVENUES:

The Real Estate Education and Training Fund shall consist of an initial transfer of the balance in the Real Estate Recovery Fund in excess of the \$150,000 statutory minimum balance; legislative appropriations to the fund; fees charged by the commission for approval of real estate education sponsors, courses, and instructors; gifts, grants, donations, and bequests to the fund; and income from investment of the fund. Money in the fund shall not revert to any other fund at the end of a fiscal year.

[16.61.14.18 NMAC - N, 01/01/07; A, 1-1-2014]

16.61.14.19 VIOLATIONS:

Any violation of the provisions of this part, any falsification or misrepresentation in a proposal for a contract for education and research, or violation of any written agreement entered into with the commission under this part may result in a termination of the contract and the requirement that all funds paid by the commission be returned. Any provider under a contract for education and research found to have not properly accounted for or improperly expended all funds shall repay said funds plus interest at 6 percent per annum to the commission and said recipient shall be ineligible to enter into any contract for education and research with the commission until said recipient first repays the fund plus interest. Should the commission allege any violation under this rule, it shall provide the respondent with a formal hearing under the provisions of the Uniform Licensing Act.

The commission shall appoint an education advisory committee (EAC), hereinafter referred to as the committee, with the goal of upgrading and improving the real estate education program in order to carry out the commission's mission of protecting the

public and increasing the professional competence of real estate brokers. The committee shall advise the commission on all matters related to broker education.

A. The committee shall meet monthly or as required for the purpose of evaluating applications for real estate course sponsors, courses, and instructors and shall make recommendations to the commission as to its findings.

(1) The committee shall use specific criteria to evaluate a course, an instructor or course sponsor for approval. These specific criteria shall consider both the instructor's depth of knowledge of the subject and the instructor's ability to convey that knowledge.

(2) The committee shall clearly state in writing to the applicant the reasons for which a course, an instructor or course sponsor are not approved.

(3) A sponsor or instructor applicant not recommended for approval by the committee may ask the commission to review the committee's unfavorable recommendation.

B. The committee shall consist of up to nine non-instructor members and no fewer than three instructor members. A committee chair and a vice chair shall be elected by the committee. All members shall be appointed to three-year terms.

C. Members shall serve a maximum of two consecutive terms, but may reapply for membership on year after the expiration of their second term. The commission shall appoint members to fill vacancies until the end of the term of the vacant position.

16.61.15.9 APPROVAL OF EDUCATION PROGRAMS:

A. Courses offered for New Mexico real estate commission approved credit must be offered by sponsors approved by the New Mexico real estate commission and be taught by instructors approved by the commission.

B. Applications for sponsor, instructor and course approvals must be filled in completely and accompanied with the necessary supporting documentation (i.e. timed outlines, power point slides electronic links, course review access information, etc.). Any fees as specified in 16.61.2.8 NMAC will be due to the commission following final approval. Course applications must request one of the following course categories: Core elective, or elective. If a core elective category designation is requested, the application must clearly state the reason the course meets the requirements for the core elective category designation. The course category definitions are as follows:

(1) A core elective category course shall consist of an advanced course offered by a commission approved sponsor in residential transactions, commercial

transactions, property management transactions, or vacant land/ranch transactions required once during each three-year cycle, and which advance the broker's practice of real estate by one or more of the following: improve broker transactional expertise focusing on, but not limited to, contractual and disclosure forms used in the practice of real estate, real estate title issues, contracts, and real estate transactional negotiating skills; improves broker business practices and professionalism focusing on, but not limited to, broker responsibilities and duties; improves broker awareness of issues that impact the public and real estate transactions focusing on, but not limited to, land development, jurisdictional taxation issues; or increases the broker knowledge of third party services within a transaction. The number of core elective hours required for both associate brokers and qualifying brokers is further defined at 16.61.13.8 NMAC.

(2) An elective category course shall consist of a course offered by a commission approved sponsor in real estate law and practice; real estate financing including mortgages and other financing techniques; material specific to the regulatory, and ethical practice of real estate; and real estate related local, state and federal laws including but not limited to fair housing, the Americans with Disabilities Act (ADA), and lead-based paint disclosure. This broad category of courses also includes some national designation and certifications offerings not already categorized as core electives; courses in personal and property protection for the broker and clients; broker skills-related offerings in using the computer, the internet, business calculators, and other technologies to enhance the broker's service to the public; other skills offerings related to broker professional development, broker customer relations skills, broker sales promotion including salesmanship, negotiation, marketing techniques, servicing the client, or similar courses.

(3) With the exception of courses taken in states with which New Mexico has a written license recognition agreement, non-acceptable continuing education classes shall include courses taken in fulfillment of another state's continuing education requirements. Other non-acceptable courses include mechanical office and business skills such as typing; speed reading; memory improvement; language report writing; offerings concerning physical well-being or personal development such as personal motivation; stress management; time management; dress-for-success; or similar courses.

C. The committee shall review instructor candidates:

- (1)** to determine the candidate's knowledge of the subject matter;
- (2)** to determine the candidate's ability to communicate his/her knowledge to students;
- (3)** to determine if the candidate uses appropriate teaching delivery skills;
- (4)** to determine if the candidate is honest, truthful, reputable, professional, and competent.

16.61.15.11 APPROVAL OF COURSES:

A. Any pre-licensing or continuing education course must have been approved by the commission before the course being offered for credit. Courses must incorporate New Mexico law and rules when relevant. A course application form must be completed and submitted to the commission before consideration of a course for approval by the committee.

(1) Before course approval, the instructor teaching the course shall make a presentation before the committee according to presentation criteria established by the committee.

(2) The committee shall assign the number of credit hours to each course and determine whether the course is in the core elective, elective, or ethics categories.

(3) Commission approved pre-licensing courses may count for up to ten credit hours toward continuing education requirements for license renewal.

B. The committee may waive a course presentation appearance by a nationally recognized professional real estate organization that provides professional designations if the organization can document to the committee's satisfaction that the course instructor received training in the course subject matter in addition to attending a train the trainer class.

C. The commission must approve any continuing education course offered for one-time credit before the course being offered.

(1) A commission approved application form for one-time credit approval must be completed and submitted to the committee before consideration of the course for credit. Applications must contain all the necessary supporting materials regarding the instructors and the venue and date(s) the course will be offered.

(2) Approved sponsors are limited to 10 course submittals for one-time credit during each calendar year.

(3) The sponsor, or its representative, requesting one-time course credit, shall make a presentation before the committee according to presentation criteria established by the committee.

D. All courses shall conform to the generally accepted principles of education as prescribed by the real estate educators association (REEA) and shall comply with commission approved course content requirements. The minimum length of a course shall be one hour.

E. The commission will maintain a list of courses that have been approved for credit.

F. If the course represents an update to a previously approved course, and new material becomes available, the instructor shall be responsible for updating the course and presenting the most current information. Significant changes to course outlines should be provided by the instructor to the commission's education administrator as they occur. If a course outline has not been updated within the last three years the committee may, at its discretion, recommend to the commission that the course be removed from the list of approved courses.

G. Distance education: For purposes of this part, distance learning is approved course activity that takes place outside of the traditional classroom setting and in which non-traditional instructional media are used because the teacher and student are separated by distance or time. Distance education sponsors seeking continuing education credit for their courses will be required to designate a New Mexico approved

instructor to make a presentation to the committee and shall submit for committee review and approval:

- (1) course syllabus which clearly states the course objectives and the specific learning objectives for desired student competencies;
- (2) instructions for accessing, using and testing the online materials for committee auditing purposes including everything necessary for evaluating course content materials, duration, accuracy and timeliness;
- (3) reference materials appropriate to the course;
- (4) when a series of courses is offered in a curriculum, evidence of sequential development and logical progression;
- (5) description of the method, such as examination and quizzes, by which student progress and mastery of the subject matter are measured, and for determining what is required for a student to successfully complete the course;
- (6) description of the method by which student identity is verified, such as user name and password;
- (7) the names, telephone numbers and email addresses of individuals, web-sites or other resources that students can contact for technical assistance;

[16.61.19.7 NMAC - Rp, 16.61.19.7 NMAC, 1-1-2004]

16.61.19.8 BROKER DUTIES; DISCLOSURE:

Brokers owe specific broker duties to prospective buyers, sellers, landlords (owners), tenants as set forth herein, 16.61.19.8 NMAC. Brokers shall disclose the applicable set of broker duties owed to buyers, sellers, landlords (owners) of rental property and tenants as set forth herein, 16.61.19.8 NMAC, prior to the time the broker generates or presents any written document to that party that has the potential to become an express written agreement and obtain from that applicable party written acknowledgement that the broker has made such disclosures. Brokers shall perform all duties established for brokers by the commission. In the case of prospective buyers, sellers, landlord (owners) and tenants to whom the broker is not directly providing real estate services, such disclosure and acknowledgment of receipt shall be made through the broker who is directly providing real estate services to that buyer, seller, landlord (owner) or tenant.

A. Brokers owe the following duties to prospective buyers, sellers, landlords (owners) and tenants:

- (1)** Honesty and reasonable care and ethical and professional conduct.
- (2)** Compliance with local, state, and federal fair housing and anti-discrimination laws, the New Mexico real estate license law and the real estate commission rules, the New Mexico Uniform Owner Resident Relations Act, and other applicable local, state, and federal laws and regulations.

(3) Performance of any and all written agreements made with the prospective buyer, seller, landlord (owner) or tenant.

(4) Written disclosure of any potential conflict of interest that the broker has in the transaction including but not limited to:

(a) Any written brokerage relationship the broker has with any other parties to the transaction,

(b) Any material interest or relationship of a business, personal, or family nature that the broker has in the transaction, or;

(c) Any written agreement the broker has with a transaction coordinator who will be providing brokerage services related to the transaction.

(5) Written disclosure of any adverse material facts actually known by the associate broker or qualifying broker about the property or the transaction, or about the financial ability of the parties to the transaction to complete the transaction; adverse material facts requiring disclosure do not include any information covered by federal fair housing laws or the New Mexico Human Rights Act.

B. In addition to the broker duties owed to prospective buyers, sellers, landlords (owners) and tenants as set forth in this Subsection A of 16.61.19.8 NMAC, Brokers owe the following broker duties to the buyers, sellers, landlord (owners) and tenants to whom the broker is directly providing real estate services, regardless of the scope and nature of those services; brokers working as property managers for a landlord (owner) are directly providing real estate services to the landlord (owner), not to the tenant:

(1) Assistance to the party in completing the transaction, unless otherwise agreed to in writing by the party to whom the broker is directly providing real estate services, including:

(a) Timely presentation of and response to all written offers or counter-offers;
and

(b) Active participation in assisting in complying with the terms and conditions of the contract and with the finalization of the transaction;

If the broker in the transaction is not providing the service, advice or assistance described in Paragraphs (a) and (b) of this Subsection B of 16.61.19.8 NMAC, the party must agree in writing that the broker is not expected to provide such service, advice or assistance. The broker shall disclose the existence of such agreement in writing to the other brokers involved in the transaction.

(2) Acknowledgement by the broker that there may be matters related to the transaction that are outside the broker's knowledge or expertise and that the broker will suggest that the party seek expert advice on these matters.

(3) Advice to consult with an attorney regarding the effectiveness, validity or consequences of any written document generated by the brokerage or presented to the party and that has the potential to become an express written agreement.

(4) Prompt accounting for all money or property received by the broker;

(5) Maintenance of any confidential information learned in the course of any prior agency relationship unless the disclosure is with the former principal's written consent or is required by law;

(6) Written disclosure of brokerage relationship options available in New Mexico;

(7) Unless otherwise authorized in writing, a broker who is directly providing real estate services to a seller/owner shall not disclose the following to the buyer/tenant in a transaction:

(a) That the seller/owner has previously indicated they will accept a sales/lease price less than the asking or listed price of a property;

(b) That the seller/owner will agree to financing terms other than those offered;

(c) The seller/owner's motivations for selling/leasing; or

(d) Any other information the seller/owner has requested in writing remain confidential, unless disclosure is required by law.

(8) Unless otherwise authorized in writing, a broker who is directly providing real estate services to a buyer/tenant shall not disclose the following to the seller/owner in the transaction:

(a) That the buyer/tenant has previously indicated they will pay a price greater than the price submitted in a written offer;

(b) The buyer/tenant's motivation for buying/leasing; or

(c) Any other information the buyer has requested in writing remain confidential, unless disclosure is required by law.

(9) In the event the broker is working for the landlord (owner) as a residential property manager, the broker additionally owes to the landlord (owner) all duties owed under the law of agency.

C. In addition to the broker duties owed to prospective buyers, sellers, landlords (owners) and tenants as set forth in this Subsection A of 16.61.19.8 NMAC, brokers working as property managers for a landlord (owner) owe the following duties to tenants:

(1) Prompt accounting for all money or property received by the broker from the tenant, including issuance of a receipt for cash received;

(2) If a residential property manager, written disclosure that the broker is the agent of the owner of the property and not of the tenant; in the commercial property management context, written disclosure of the broker's relationship with the landlord (owner).

D. Broker obligations to other brokers. Brokers owe the following professional obligations to other brokers; however, brokers are not required to provide to one another a list of these broker obligations.

(1) Honesty, reasonable care, and ethical and professional conduct;

(2) Timely presentation of all written offers or counter-offers and responses thereto, unless otherwise agreed to in writing by the party to whom the broker is directly providing real estate services;

(3) Active participation in assisting the party to whom the broker is directly providing real estate services in complying with the terms and conditions of the contract and with the closing of the transaction, unless otherwise agreed to in writing by the party to whom the broker is directly providing real estate services;

(4) Compliance with local, state, and federal fair housing and anti-discrimination laws, the New Mexico real estate license law and the real estate commission rules; the New Mexico Uniform Owner-Resident Relations Act, and other applicable local, state, and federal laws and regulations;

(5) Written disclosure of any adverse material facts actually known by the broker about the property or the transaction, or about the financial ability of the parties to the transaction to complete the transaction; adverse material facts requiring disclosure do not include any information covered by federal fair housing laws or the New Mexico Human Rights Act;

(6) Written disclosure of any potential conflict of interest that the broker has in the transaction, including but not limited to, any material interest the broker has in the

transaction or any relationship of a business, personal, or family nature that the broker has with a party to the transaction;

(7) Non-interference with a purchase agreement or any express written agreement that another broker has with a buyer, seller, landlord (owner) or tenant.

16.61.19.9 BROKERAGE RELATIONSHIPS:

Brokerages working with consumers either as customers or clients may do so through a variety of brokerage relationships. These relationships include but are not limited to a transaction broker relationship, an exclusive agency relationship or a dual agency relationship. For all regulated real estate transactions, a customer or client may enter into an express written agreement to become a client of a brokerage without creating an agency relationship, and no agency duties will be imposed.

A. Transaction broker: a qualifying broker, associate broker or brokerage that provides real estate services without entering into an agency relationship. The transaction broker relationship is a non-fiduciary relationship.

B. Exclusive agency: an express written agreement between a person and a brokerage wherein the brokerage agrees to exclusively represent as an agent the interests of the person in a real estate transaction. Such agreements include buyer agency, seller agency, designated agency, and subagency agreements.

C. Dual agency: an express written agreement that modifies existing exclusive agency agreements to provide that the brokerage agrees to act as a facilitator in a real estate transaction rather than as an exclusive agent for either party to the transaction.

[16.61.19.9 NMAC - Rp, 16.61.19.9 NMAC, 1-1-2004; A, 12-31-2008; A. 1-1-2012]

16.61.19.10 DUAL AGENCY RELATIONSHIP:

A. Dual agency occurs when:

(1) an associate broker or qualifying broker is agent for both a seller client and a buyer client in the same transaction;

(2) an associate broker is agent for either a seller client or a buyer client, and the agent's qualifying broker is agent for the other client in the transaction; and,

(3) in a transaction where a buyer client and a seller client are each served by different associate brokers in an agency relationship supervised by the same qualifying

broker, and the qualifying broker does not choose the designated agency option, both the associate brokers and the qualifying broker are dual agents in the transaction.

B. In all situations, a dual agent shall act in the capacity of a facilitator rather than as an exclusive agent of either party to the transaction.

C. Prior to writing or presenting offers, a dual agent shall obtain written authority from the buyer client and the seller client in the form of a separate dual agency agreement.

D. Information obtained by an associate broker or qualifying broker prior to the time that written authority for dual agency was granted shall not be disclosed to the other party unless required by law or rules or permitted by the client who originally disclosed the confidential information.

16.61.20.8 REQUIREMENTS.

A. Any transaction coordinators involved in real estate transactions in New Mexico including transaction coordinators from other states must have a New Mexico broker's license.

B. A transaction coordinator performing activities for a brokerage under one ownership is not required to have a qualifying broker's license provided that the transaction coordinator is under the direct supervision of a qualifying broker of that same brokerage.

C. Any transaction coordinator providing services for multiple brokerages other than the transaction coordinator's own brokerage must hold a current New Mexico qualifying broker's license.

D. Any transaction coordinator providing services for a brokerage other than the transaction coordinator's own brokerage must have a written agreement with the qualifying broker of the brokerage for which those transaction coordinator services are being provided that details the services being provided by the transaction coordinator and any compensation being paid to the transaction coordinator for those services.

E. A broker who engages the services of a transaction coordinator whether within the broker's brokerage or outside the broker's brokerage, shall be responsible for disclosing the name(s) of the transaction coordinator, in writing, to the buyer, seller and brokers in the transaction.

F. A broker who hires a transaction coordinator must have a written agreement with that broker's qualifying broker detailing the services being provided by the transaction coordinator and any compensation being paid to the transaction coordinator for those

services, including written authorization that the transaction coordinator may be paid by the associate broker who has hired him or her.

G. A broker who hires a transaction coordinator remains responsible for the transaction; the hiring of a transaction coordinator in no way eliminates or mitigates the broker's responsibilities or obligations to the broker's customer or client or to other brokers and parties to the transaction.

H. A transaction coordinator owes broker duties as delineated in 16.61.19.8 NMAC.

(1) The broker shall maintain any confidential information learned in the course of any prior agency relationship unless the disclosure is with the former principal's written consent or is required by law;

(2) Unless otherwise authorized in writing, a broker who is directly providing real estate services to a seller/owner shall not disclose the following to the buyer/occupant in a transaction:

(a) That the seller/owner has previously indicated they will accept a sales/lease price less than the asking or listed price of a property;

(b) That the seller/owner will agree to financing terms other than those offered;

(c) The seller/owner's motivations for selling/leasing; or

(d) Any other information the seller/owner has requested in writing remain confidential, unless disclosure is required by law;

(3) Unless otherwise authorized in writing, a broker who is directly providing real estate services to a buyer/tenant shall not disclose the following to the seller/owner in the transaction:

(a) That the buyer/tenant has previously indicated they will pay a price greater than the price submitted in a written offer;

(b) The buyer/tenant's motivation for buying/leasing.

16.61.23.8 DESCRIPTION, DESIGNATION AND RECONCILIATION:

A. Funds of others. A qualifying broker who receives money belonging to others related to a real estate transaction shall deposit same only in a trust account in an acceptable financial institution, title company or with a qualifying broker also involved in the transaction.

B. Designation. All trust accounts shall be designated on the institution's records as "trust account" and include the trade name of the brokerage as registered with the commission.

C. Electronic transactions. Online payments, direct deposits and other electronic transactions are permitted as long as each transaction can be tracked on the bank statement and on the property ledger.

D. Reconciliation. As defined in Subsection VV of 16.61.1 NMAC Section 1 of the commission rules, trust account reconciliation must be performed monthly and verified by the qualifying broker.

E. Property ledgers. Each trust account transaction shall be assigned to and properly accounted for in relation to the managed property to which it belongs (e.g. single family home, apartment complex or commercial property).

F. Number of trust accounts. A brokerage may have more than one trust account.

[16.61.23.8 NMAC - Rp, 16.61.23.8 NMAC, 1/1/2012; A, 1/1/2017; A, 1/3/2021]

16.61.23.9 TYPES OF TRUST ACCOUNTS:

A qualifying broker shall have only the following types of accounts and they shall be used only for the purposes stated.

A. Brokerage trust account. This account shall be used for money belonging to others related to a real estate sales transaction. Property management funds may not be placed in this trust account. In lieu of a brokerage trust account, a broker may deposit funds with a title company authorized to do business in the state of New Mexico. If a title company is used in lieu of a brokerage trust account, then receipt and deposit records shall be kept as outlined in this section.

B. Property management trust account. This account shall be used for money belonging to others received by a qualifying broker related to managing properties for others. All management commissions and fees may be deposited, withdrawn and tracked through the property management trust account as long as those commissions and fees are specified in the agreement between the property owner and brokerage.

C. Special trust account. In the event the principals to a sale transaction agree in writing that an interest bearing special trust account is to be established, a written agreement shall be prepared stating as a minimum the following:

- (1) the qualifying broker shall be named as sole trustee;
- (2) name of the acceptable financial institution wherein the funds are to be deposited;
- (3) the amount of interest to be paid on the funds and to whom the interest shall accrue;
- (4) the final disposition of principal and interest upon closing, termination or default by either party to the transaction; and
- (5) the signatures of all parties to the transaction and the qualifying broker as trustee.

D. Custodial account. Funds designated to be deposited in a custodial account shall first be placed in a brokerage trust account or a property management trust account of the qualifying broker and then may be transferred to the custodial account of the owner. Custodial accounts shall not contain any funds other than those belonging to the owner of the custodial account. Custodial accounts may be interest bearing; however, the interest shall be paid only to the owner or his designee. The qualifying broker shall have on file a written agreement signed by all principals as to the establishment and operational details of each custodial account.

[16.61.23.9 NMAC - Rp, 16.61.23.8 & 9 NMAC, 1/1/2012; A, 1/3/2021]

16.61.23.10 RECORD ACCESSIBILITY, RETENTION AND INSPECTION:

Every qualifying broker shall keep bank and office records of all funds related to all trust and custodial accounts under the qualifying broker's control, as set forth below.

A. Accessibility. Records shall be maintained at or accessible from the brokerage office as registered with the commission.

B. Retention. All trust and custodial account records shall be retained for six years after the completion of a transaction.

C. Property management. All trust and custodial account records shall be retained for the full term of any agreement. At the termination of a management agreement, records shall be retained for six years from the date of termination.

D. Inspection. All financial documents shall be subject to inspection by the commission or its duly authorized representative at the designated location of such records or at the offices of the commission. The records shall include, at a minimum, clear indication of all funds received and disbursed on behalf of others in all real estate transactions wherein the qualifying broker is involved.

E. The qualifying broker is responsible for the maintenance and safekeeping of all trust and custodial account records.

[16.61.23.10 NMAC - Rp, 16.61.23.9 NMAC, 1/1/2012; A, 1/3/2021]

16.61.23.11 DEPOSITS, DISBURSEMENTS AND COMMINGLING:

A. Deposits. All trust account deposits shall conform to the following requirements.

(1) Timeliness. All funds of others pertaining to a real estate transaction shall be deposited into the proper trust or custodial account per written agreement of the parties to the transaction.

(2) Receipt records. A detailed record of all funds received shall be maintained by the qualifying broker and shall clearly indicate the following:

(a) date received;

(b) date deposited;

(c) from whom received;

(d) amount of deposit;

(e) property address or legal description including unit number (if unit number is applicable); and

(f) category or purpose of receipt (e.g., earnest money, rent, security deposit, funds from owner, etc.).

(3) Wrongful deposits. The following actions involving any trust account shall be improper and shall constitute commingling:

(a) depositing a broker's own funds into a trust or custodial account without disclosure to the owner of a managed property and the real estate commission;

(b) depositing funds in a trust or custodial account that are not directly related to a real estate transaction or a managed property except as allowed by law; and

(c) depositing funds of others in an account that is not a properly designated trust account.

B. Disbursements. All trust account disbursements shall conform to the following requirements.

(1) Timeliness. All funds of others pertaining to a real estate transaction shall be disbursed as soon as reasonably possible after receipt of the funds.

(2) Disbursement records. A detailed record of all funds disbursed shall be maintained by the qualifying broker and shall clearly indicate the following:

(a) check number or unique transaction identification number;

(b) date of disbursement;

(c) payee;

(d) category or purpose of disbursement;

(e) amount of disbursement;

(f) property address or legal description including unit number (if unit number is applicable).

(3) Fees due broker. Fees as determined by written agreement may be disbursed as soon as the basis for calculation can be determined and funds are available.

(4) Wrongful disbursements. The following actions involving any trust or custodial account shall be improper and shall constitute commingling:

(a) disbursing trust funds or custodial funds for personal use of the qualifying broker, an associate broker or the broker's designee;

(b) disbursing commission or commission splits from any trust or custodial account to any entity other than the qualifying broker.

(c) disbursing New Mexico gross receipts tax or other non-property related business expenses directly from a trust or custodial account;

(d) disbursing funds before the completion of the related transaction, except upon court order; this provision does not prevent a broker from transferring funds from one properly designated trust or custodial account to another properly designated trust or custodial account within the same brokerage;

(e) disbursing funds in excess of the trust or custodial account balance or in excess of a specific property or client ledger balance; and

(f) trust or custodial account overages can only be disbursed in accordance with the Unclaimed Property Act with written notification to the commission.

C. Commingling. Commingling of trust or custodial account funds is not permitted. Commingling shall include, but is not limited to, the following actions:

- (1)** wrongful deposits as described in this section;
- (2)** wrongful disbursements as described in this section;
- (3)** allowing a property or client ledger within a trust or custodial account to be in deficit;
- (4)** placing funds derived from the management of the qualifying broker's personally owned properties, or properties owned by any legally recognized entity in which the qualifying broker has any interest in a trust account containing funds of others;
- (5)** failing to withdraw from the trust or custodial account within a reasonable time, funds to which the qualifying broker is entitled;
- (6)** allowing money designated to one property or transaction to be used for the benefit of another property or transaction.

D. Exceptions to commingling.

(1) Non-trust funds may be placed in a trust or custodial account in an amount not to exceed the required minimum balance requirements of a financial institution necessary to maintain the account and avoid charges.

(2) Non-trust funds may be placed in a trust or custodial account in order to pay fees for credit card transactions and bank fees.

(3) Depositing a broker's own funds in a trust or custodial account with full disclosure to the owner of a managed property and with specific, prior written approval of the commission followed immediately by written documentation to the owner and to the commission of the deposit transaction.

(4) If a written sharing agreement specifies, funds of one property may be used for the benefit of another property owned by the same person or entity.

(5) Funds received from an owner for the benefit of all their managed properties may be credited to an owner's ledger.

16.61.23.12 TRUST ACCOUNT DECLARATION AND RECORD KEEPING:

Qualifying brokers who offer property management services for others shall:

A. Execute and submit to the commission, on a form provided by the commission, a declaration of intent to offer such services. Such declaration will acknowledge the qualifying broker's responsibility for all property management services provided by the brokerage including maintenance of the records described below.

B. Maintain records of such services as provided in 16.61.23 NMAC and 16.61.24 NMAC, including:

(1) A list of all property management trust and custodial accounts maintained by the brokerage;

(2) The name of the bank(s) at which such trust or custodial accounts are maintained;

(3) Monthly trust or custodial account reconciliation(s) demonstrating a three-way reconciliation between the trust or custodial account, the bank statement, and the property ledger;

(4) Trust or custodial account year-end balances.

C. Qualifying brokers who offer property management services for others shall review 16.61.23 NMAC and 16.61.24 NMAC of the commission rules with licensed and unlicensed personnel performing property management services at the brokerage.

D. Qualifying brokers offering property management services for others shall make the records and information delineated in this part available to the commission upon request.

E. Failure of a qualifying broker to comply with the provisions of 16.61.23.12 NMAC, shall subject the qualifying broker to disciplinary action.

[16.61.24.8 NMAC - N, 1-1-2012]

16.61.24.9 DECLARATION OF INTENT:

At any time that a qualifying broker or associate broker offers or intends to offer property management services for others, the broker shall declare that intent on a form approved by the commission, and shall be subject to education and meeting attendance requirements pursuant to 16.61.3.14 NMAC, and delineated as follows:

A. Qualifying brokers and associate brokers who offer or intend to offer property management services for others, shall as a condition of offering property management services, first complete the commission approved course, Uniform Owner-Resident Relations Act, or a commission approved equivalent property management related course, prior to offering such services, and in every subsequent three-year licensing cycle.

B. Associate brokers who offer or intend to offer property management services for others, shall do so only with the knowledge, written permission and under the supervision of their qualifying broker. As a condition of offering property management services, in addition to the course requirement in Subsection A above, the broker shall complete a minimum of six hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue during each three-year licensing cycle.

C. Qualifying brokers who offer or intend to offer property management services for others, shall as a condition of offering such services, in addition to the course requirement in Subsection A above, complete a minimum of 12 hours of approved continuing education courses in property management selected from the commission's most current approved course catalogue, each three-year licensing cycle.

D. Qualifying brokers and associate brokers offering property management services shall attend at least one New Mexico real estate commission meeting, rule hearing, or disciplinary hearing for at least three hours, or until the commission goes into executive session, or the hearing/meeting ends, whichever comes first, in each three-year

licensing cycle. Attendance may be at a live meeting/hearing or by live or recorded distance broadcast; but must be documented by signing into and out of the meeting/hearing.

16.61.24.11 PROPERTY MANAGEMENT TRUST AND CUSTODIAL ACCOUNTS:

In addition to the rules set forth in 16.61.23 NMAC, the following also apply to property management trust and custodial accounts.

A. A property management trust account shall only contain funds derived from the management of property for others and shall be clearly identified with the banking institution as well as the public as a property management trust account.

B. A custodial account utilized for property management shall contain funds derived from the management of property for only one property owner and the account will be in the name of that property owner and will be under the care and direction of the qualifying broker. The property owner may have signatory or viewing rights to this account.

C. All funds received by the qualifying broker which are received in association with managed properties, shall be deposited into the property management trust account, excepting funds which are received for the management of property which in whole or part belongs to the qualifying broker, prior to any disbursements. Once deposited, the qualifying broker may then disburse funds as specified in the management agreement.

D. Unless the tenant occupies a property owned by the qualifying broker, deposits shall be placed in a property management trust account. Deposits may be held in a property management trust account, or may be disbursed to the owner as specified in the property management agreement and agreed to by the tenant.

E. Commingling of funds is not permitted. No funds may be deposited in a property management trust account that are not received in connection with a managed property except as provided for in 16.61.23 NMAC Exceptions to commingling.

F. Property ledgers. When the property management trust account contains funds from the rental or lease of more than one property, separate accounting records shall be maintained on each property.

[16.61.24.11 NMAC - Rp, 16.61.24.8 NMAC, 1/1/2012; A, 1/1/2014; A, 1/1/2019; A, 1/3/2021]

16.61.24.12 REPORTS AND DOCUMENTS TO OWNERS:

A. Owner statements. The qualifying broker shall provide the owner with a report of receipts and disbursements monthly or as required by the management agreement, showing the following:

- (1)** previous balance;
- (2)** funds deposited by category;
- (3)** funds disbursed by category; and
- (4)** ending balance.

B. Additional reports may be provided as set forth in the property management agreement.

C. Documents. Fully executed copies of the management agreement shall be provided to the owner after obtaining all signatures. Signed leases or other documents related to the management agreement shall be provided to the owner upon request, except for documents that the property manager is prohibited by law or contract from disclosing, which may include but are not limited to criminal background checks and credit reports.

D. Final statement after termination. Final accounting of trust account or custodial account funds shall be provided to the owner within 60 days of the effective date of termination of a management agreement.

16.61.24.13 MANAGEMENT AGREEMENTS:

A. There shall be a signed written management agreement between the brokerage and the owner for each property managed. The agreement shall be executed prior to acting on behalf of the owner and shall specify the brokerage relationship.

B. The agreement shall define the duties and responsibilities of the brokerage and the owner including, but not limited to, the following:

- (1) duties to be provided by the brokerage;
- (2) disclosure of all fees to be charged to owner;
- (3) disclosure of all fees to be charged to tenant that are retained by the brokerage; and
- (4) a question asking the owner to disclose the status of any foreclosure or other financial situation that could affect the tenant's occupancy.

C. If the property manager is prohibited by law or contract from providing the owner with a given document, such as a tenant's criminal background check or credit report, the property management agreement shall include the following:

- (1) a written disclosure to the owners that the property manager is prohibited by law or contract from providing such documents to the owner; or
- (2) the owner's written consent that such documents will not be provided.

D. The qualifying broker shall include with every written residential management agreement a copy, either in hard copy form or electronically, of the New Mexico Uniform Owner-Resident Relations Act. The qualifying broker shall obtain separate written confirmation from each client that the client has received such a copy of the act. The qualifying broker shall make this confirmation available to the New Mexico real estate commission if requested.

E. Before the brokerage transfers any management agreement to another brokerage, both the qualifying broker assigning the contract and the qualifying broker receiving the contract shall execute an assignment of contract. Because the management agreement is a personal services contract, the qualifying broker must have the property owner's written consent to assign the contract to another brokerage. If there is no assignment of contract, the qualifying broker receiving the contract must execute a new management agreement.

[16.61.24.13 NMAC - Rp, 16.61.24.13 NMAC, 1-1-2012; A, 1-1-2017; A, 1-1-2019]

16.61.24.14 RESIDENTIAL TENANCY AGREEMENTS:

There shall be a signed written tenancy agreement for each property or rental unit.

A. Tenancy agreements shall include, but not be limited to, the following:

- (1) name of tenant;
- (2) property address or legal description including unit number (if unit number is applicable);
- (3) rent amount;
- (4) security deposit and other deposit amounts;
- (5) when and where rent is to be paid;
- (6) date property possession began;
- (7) date property possession ends;
- (8) all fees charged to the tenant; and
- (9) how payments are to be applied to outstanding expenses/charges.

B. The qualifying broker shall include a copy, either in hard copy form or electronically, of the New Mexico Uniform Owner-Resident Relations Act, with every written residential tenancy agreement. The qualifying broker shall obtain separate written or electronic confirmation from each tenant that the tenant has received such copy of the act. The qualifying broker shall make this confirmation available to the commission if requested.

C. If the property manager's name is on a lease as the agent of the property owner, and a new property manager takes over management of the property, the lease shall be assigned to the new property manager. The owner of the property must give written consent for assignment of the lease and the assignment must be acknowledged in writing by the qualifying broker.

16.61.24.15 RECORD ACCESSIBILITY, RETENTION AND INSPECTION:

The property management brokerage shall maintain office records of all properties managed for others.

A. Accessibility. Records shall be maintained at or accessible from the brokerage office at the location as registered with the commission.

B. Retention. All property management records shall be retained for the duration of the contract and six years during a management agreement. At the termination of a management agreement, records shall be retained for six years from the date of termination.

C. Inspection. All records are subject to inspection by the commission or its duly appointed representative at or accessible from the brokerage office or at the offices of the commission.

D. The qualifying broker is responsible for the maintenance and safe-keeping of all property management records.

16.61.24.16 VACATION RENTALS:

In addition to the provisions set forth above, the following special provisions apply only with respect to the management of vacation rentals.

A. If gross receipts taxes and/or lodgers' taxes are due, the management agreement shall specify who or what entity is responsible for collection, reporting and/or remitting of such taxes. If the taxes are to be collected from the tenant by the broker or a third party, the management agreement shall authorize the broker or third party entity to collect and remit the applicable taxes from the renter.

B. Management agreements shall disclose if the broker is using a third party advertising or reservation service (such as AirBnB, VRBO, etc.)

C. Compensation retained by or paid to third parties who engage in advertising and/or taking reservations for vacation rental properties shall not be considered to be in violation of Subsection (3) of Section 61-29-12 A NMSA 197 of the New Mexico real estate license law which prohibits real estate brokers from paying or receiving rebate, profit, compensation or commission to or from any unlicensed person.

D. If a broker uses an online travel agent or third party advertising entity which prohibits disclosure of the brokerage name and/or telephone number as registered with the commission, such displays are exempt from the disclosure requirement in Subsection B of 16.61.32.8 NMAC. In this event, the broker shall ensure that the renter receives this disclosure promptly upon completing a rental reservation.

E. The broker shall not be required to deliver a copy of the Uniform Owner-Resident Relations Act to a renter of a vacation rental.

F. A rental agreement shall also include the following:

- (1) arrival and departure dates;

- (2) check-in and check-out times;
- (3) nightly rental rate;
- (4) rental deposit;
- (5) security deposit;
- (6) disclosure of all fees charged to [~~tenant~~] the renter (e.g. cleaning, hot tub, phone, cable internet, resort, etc.);
- (7) accommodation rules (e.g. occupancy, parking, smoking, pets, noise, etc.); and
- (8) cancellation policy.

G. Reports to owners. In the monthly statement to the owner, qualifying broker shall also list rental income, credit card fees, maintenance charges and amount paid in commission to the brokerage office.

H. Renter security deposits. Funds collected as a tenant security deposit shall be deposited into the property management trust account.

I. Rental deposits. Funds collected as a rental deposit shall be deposited into the property management trust account to secure a reservation.

J. Employees of the brokerage handling short term or vacation rentals or third parties who engage only in taking reservations for short term or vacation rentals shall not be required to be licensed.

[16.61.24.16 NMAC - Rp, 16.61.24.16 NMAC, 1-1-2012; A, 1-1-2019]

16.61.24.17 VENDORS:

All property managers hiring vendors or employees to perform maintenance, repair or renovation activities on behalf of property owners which may require a permit issued by the Construction Industries Division or an equivalent local or municipal permitting agency shall only use vendors and employees who are:

- A.** certified or licensed as required by local, state or federal law; and,
- B.** insured or bonded.

16.61.25.7 DEFINITIONS:

A. "Commission" means the New Mexico real estate commission.

B. "Developer" means any person creating or engaged in the business of selling ten or more of its own time shares and includes any person who controls, is controlled by or is in common control with the developer and who is engaged in creating or selling time shares for the developer;

C. "Exchange company" means any person operating an exchange program;

D. "Purchaser" means any person, other than a developer or lender, who owns or acquires an interest or proposes to acquire an interest in a time share;

E. "Time share salesperson" means a person, other than a person who has at least a fifteen (15) percent interest in the developer, who sells or offers to sell on behalf of a developer a time share to a purchaser; and

[8-15-97, A, 2-14-2000; 16.61.25.7 NMAC - Rn & A, 16 NMAC 61.25.7, 1-1-2002]

[Refer to 16.61.1.7 NMAC]

16.61.25.8 APPLICATION FOR REGISTRATION:

Every application for time share project registration shall be filed at the commission office upon form TS-1 (questionnaire and application for registration of time share project) and shall contain all information requested by form TS-1 applicable to the time share project.

A. Registration fee: Every application for time share project registration must be accompanied by a certified check made payable to the New Mexico real estate commission in the amount of twenty dollars (\$20.00) per time share interest to be sold, to a maximum of one thousand five hundred dollars (\$1,500.00). Applications for registration not accompanied by the appropriate fee shall not be considered by the commission. In the event a properly completed application filed with the commission is denied for any reason, the amount of two hundred fifty dollars (\$250.00) shall be retained by the commission from the application fee and the balance refunded to the applicant developer.

B. A developer shall obtain a separate certificate of registration for each time share program. Noncontiguous time share projects created by the same developer may be treated for registration purposes as one time share program only if such projects are (1) marketed and otherwise held out to the public as one program, and (2) offered for sale by a single staff of time share salespersons.

C. A developer shall file an amendment to the time share project registration with the commission within a reasonable time after the occurrence of any event or change in plans which materially affects the operation or status of the time share project, including but not limited to the following:

- (1) a material change in ownership of the developer;
- (2) an increase or decrease in the number of time shares to be offered;
- (3) any material alteration of the physical plant and amenities, or of plans for development thereof;
- (4) any material change in the exchange rights offered to purchasers;
- (5) the appearance of new hazards or other unusual conditions near the time share project;
- (6) any material amendment to the documents governing rights and restrictions of time share ownership
- (7) the recording of any new lien or encumbrance against the time share project;
- (8) any change in management of the time share project;
- (9) any material change in the developer's arrangement for the escrow of purchaser's funds; and,
- (10) any other change requiring a material amendment to the disclosure statement for the project.

D. Amendments to the time share project registration shall be made in writing to the commission. Every amendment shall identify the section of the project registration to be amended and shall contain a summary of the amendment and a brief statement of the reasons for the amendment. The amendment shall include either the text of the project registration section to be substituted or a copy of the document to be modified.

E. The commission may, in its discretion, require the developer to file a new time share project registration application in the place of an amendment form. Such refiling shall be without a fee.

F. If a developer files an amendment to increase the number of time shares to be offered for sale, a registration fee of twenty dollars (\$20.00) per additional time share interest, subject to the overall maximum of one thousand five hundred dollars (\$1,500.00), shall accompany the amendment.

16.61.25.9 DISCLOSURE STATEMENTS:

A. In addition to the disclosures required by Section 5 of the act, each developer shall fully and conspicuously disclose to each purchaser in the disclosure statement the following information:

- (1) if any part of the project is not completely constructed at the time of sale, what financial arrangements have been made to secure the completion of each portion.
- (2) if the unit sold to the purchaser is not completely constructed and furnished at the time of sale, the projected date the unit will be ready for occupancy; any limitations upon the purchaser's exchange rights until the unit is ready for occupancy; any limitations upon the effectiveness of title insurance obtained by the purchaser prior to the time the unit is ready for occupancy;
- (3) a complete description of the project, including: the total number of time shares sold and to be sold in the project; the number and types of units available; the types of facilities and amenities available;
- (4) a description of all terms and conditions of each charter membership, owner referral, rental, resale, in-house exchange or other program offered to time share owners; provided, however, if no reference to the program will be made to the purchaser prior to the expiration of the purchaser's 7-day right of rescission, the developer may provide such description, by separate letter to the purchaser, after the expiration of such period; and
- (5) any other information contained in the questionnaire and application for registration of time share project which the commission may require to be disclosed.

B. Every disclosure statement shall contain an introductory summary prescribed by the commission and completed by the developer entitled "summary of disclosures." The "summary of disclosures" shall appear on the cover, or immediately following the cover of the disclosure statement, and shall be on the form prescribed by the commission. "Summary of disclosures" forms are available upon request at the commission office.

C. Information contained in a disclosure statement shall be accurate on the date it is supplied to a purchaser.

16.61.25.13 DEVELOPERS:

Every developer of a time share project registered in this state shall, in addition to any other requirements by law:

A. Maintain a full and complete record of all transactions wherein that developer or any real estate associate broker or qualifying broker representing said developer are engaged. All records shall contain, but are not limited to:

- (1) record of all purchases, sales, leases or exchanges of time share interests in the registered time share project;
- (2) the name or names of the buyer and seller, or in the case of exchanges, the names of the parties thereto;
- (3) the date or dates of such transactions;
- (4) the amount, if any, of the commission earned in such transaction; and,
- (5) the amount, if any, of the commission or commissions paid by the qualifying broker or the developer to an associate broker and the amount, if any, of the commission or commissions retained by the qualifying broker or developer.

B. All sales of time share interests by associate brokers must be through the qualifying broker of the time share project, and all commissions to such associate

brokers must be disbursed by the qualifying broker. If a qualifying broker transfers his license from a time share project and all commissions earned by associate brokers have not been disbursed, those commissions must be accounted for and remitted within a reasonable time by the time share developer.

C. The records required to be maintained by these regulations will be available to the commission or its duly authorized representative at the location of the registered time share project in New Mexico, at the location of the time share sales office in New Mexico, or at the commission offices.

16.61.25.14 TRUST ACCOUNTS:

Records to be maintained. Every developer of a time share project registered in New Mexico shall, within a reasonable time, account for and remit any money coming into his possession which belongs to others during the sale of a time share interest. Such developer shall keep such funds of others in an escrow or trust account maintained by him in a bank or savings and loan institution or title company authorized to do business in this state. Such developer shall not commingle funds of others with his own. Every developer of a time share project registered in this state shall maintain full and complete records of all funds deposited in his trust account. Such records shall clearly indicate the date and from whom the money was received, date deposited, date of withdrawal, and any other pertinent information concerning the transaction. The records shall clearly show for whose account the money is deposited and to whom the money belongs. All such records and funds shall be subject to inspection by the commission or its duly authorized representative at the location in New Mexico of the registered time share project, the location in New Mexico of the time share sales office, or at the commission offices.

[16.61.27.5 NMAC - N, 1-1-2017]

16.61.27.6 OBJECTIVE:

The purpose of Part 27 of Chapter 61 is to set forth the conditions under which real estate brokers licensed by licensing jurisdictions other than the state of New Mexico can engage in certain commercial real estate transactions in the state.

[16.61.27.6 NMAC - N, 1-1-2017]

16.61.27.7 DEFINITIONS:

Refer to 16.61.1.7 NMAC.

[16.61.27.7 NMAC - N, 1-1-2017]

16.61.27.8 FOREIGN BROKERS:

A foreign broker may act in the capacity of a qualifying or associate broker with respect to commercial real estate located in New Mexico; provided that prior to performing any of the real estate activities of a qualifying or associate broker, the foreign broker enters into a transaction-specific written agreement with a New Mexico qualifying broker that includes, at a minimum:

A. a description of the parties, the commercial real estate and any additional information necessary to identify the specific transaction governed by the agreement;

B. the terms of compensation between the foreign broker and the New Mexico qualifying broker;

C. the effective date and definitive termination date of the agreement; and

D. a statement that the foreign broker agrees to:

(1) Cooperate fully with the New Mexico qualifying broker and all associate brokers designated by the New Mexico qualifying broker;

(2) Except for the foreign broker's interaction with the foreign broker's client, conduct all contact with parties, including the general public and other brokers, in association with the New Mexico qualifying broker or associate broker designated by the New Mexico qualifying broker;

(3) Conduct all marketing and solicitations for business in the name of the New Mexico qualifying broker;

(4) Timely furnish to the New Mexico qualifying broker, copies of all documents related to the transaction that are required by the laws of New Mexico to be retained by its licensees, including without limitation, agency disclosure, offers, counteroffers, purchase and sale contracts, leases and closing statements; and

(5) Comply with and be bound by and subject to New Mexico law and the regulations of the commission.

[16.61.27.7 NMAC - N, 1-1-2017]

16.61.27.9 CONSENT TO SERVICE AND REFERRAL FEES:

Foreign brokers agree to submit to the jurisdiction of the courts of New Mexico with respect to the transaction and any and all claims related thereto by service of process upon the secretary of state of New Mexico and upon the appropriate official of the state, province or nation of the foreign broker's real estate licensure. When a New Mexico associate broker or qualifying broker makes a referral to or receives a referral from a foreign broker for the purpose of receiving a fee, commission or any other consideration, the qualifying broker of the New Mexico brokerage and the foreign broker shall execute a written, transaction-specific referral agreement at the time of the referral.

16.61.32.8 ADVERTISEMENTS:

A. All real estate advertising shall be a true and factual representation of the property and real estate services being advertised and the brokerage providing the services and shall not be presented in such a manner that will confuse or mislead the public.

B. Every qualifying broker advertising real property for others for sale, purchase, lease, exchange or rent, including short-term or vacation rentals, or advertising real estate services, shall at a minimum, use in such advertising the trade name and current brokerage office telephone number as registered with the commission. Directional signs are exempt from these requirements. Additional telephone numbers may be used in such advertising.

C. Associate brokers, when advertising real property for others for sale, purchase, lease, exchange or rent, or when advertising real estate services, shall include in the advertisement the trade name and the current telephone number as registered with the commission of the brokerage with which they are affiliated. Effective January 1, 2017, the brokerage trade name and telephone number shall be prominently displayed in a

type size not less than thirty-three percent of the type size of the associate broker's name, or in the case of a team of associate brokers, the team name.

D. A broker advertising to buy, sell, lease, rent, or exchange real property which the broker owns, partially owns, will own or will partially own shall indicate within such advertising, including signs, that the broker owns or will own the real property. Disclosure of such ownership must also be made in the listing contract, purchase agreement, rental agreements, lease agreements, or exchange agreements. If an owner-broker engages a third party broker to list the owner-broker's property, the third party broker is not required to make an owner-broker disclosure in advertising and signs, but such disclosure is required in the listing contract, purchase agreement, rental agreement, lease agreement, or exchange agreement.

E. When advertising real property owned by a broker and the telephone number of the brokerage is used in the advertisement, the advertisement must also include the trade name of the brokerage as registered with the commission.

F. All advertising must be in compliance with all local, state and federal laws and regulations.

G. These requirements apply to all forms of advertising, including but not limited to print, audio and video recordings, computer presentations, online and electronic media. In the event that disclosure of the brokerage name and telephone number as registered with the commission is not practical in electronic displays of limited information, such as thumbnails, text messages, links and tweets of 200 characters or less, such displays are exempt from the disclosure requirement provided such displays are linked to a display that includes all of the required disclosures.

[16.61.36.7 NMAC - Rp, 16 NMAC 61.36.7, 1-1-2002]

16.61.36.8 COMPLAINTS:

The commission may file a complaint against any person who engages in the business or acts in the capacity of a real estate broker, real estate commission approved education sponsor or instructor, in this state with or without a New Mexico real estate license based on information indicating that there may have been a violation of the Real Estate License Law or the commission rules. The commission may also act on a

complaint made by a member of the commission, a member of the public, or another real estate broker. Upon receipt of a complaint the commission will determine if the complaint is within its jurisdiction. If the commission determines the complaint is within its jurisdiction, the complaint will be assigned for investigation.

[16.61.36.8 NMAC - Rp, 16 NMAC 61.36.8, 1-1-2002; A, 1-1-2006; A, 12-31-2008]

16.61.36.9 INVESTIGATIONS:

In conducting an investigation, the commission shall give the person under investigation the opportunity to answer the complaint made against them in writing and to produce relevant documentary evidence, in accordance with the Uniform Licensing Act. If the person under investigation fails to respond within 10 working days of having been provided with a copy of the complaint and having been informed by the commission in writing that a complaint has been filed against him or her, the investigation may proceed without benefit of that person's response.

A. If the investigation reveals that the complaint does not involve a violation of the Real Estate License Law or the commission rules, the complaint will be dismissed by the commission, and the parties to the complaint will be so advised.

B. If the investigation reveals that the complaint does involve a violation of the Real Estate License Law or the commission rules, the commission may refer the complaint to the attorney general's office and request that a notice of contemplated action (NCA) be issued to the respondent, or offer the respondent a pre-NCA settlement with the understanding that if the respondent does not accept the settlement offer, the complaint will be referred to the attorney general's office for the issuance of an NCA.

C. Withdrawal of a complaint by a member of the commission, a member of the public, or another broker does not bind the commission to dismiss the complaint.

This part provides definitions used in the regulations, adopts FIRREA and the uniform standards professional appraisal practice (USPAP), provides for inspection of board records and telephonic attendance at meetings by board members.

[1/14/00; 16.62.1.6 NMAC - Rn & A, 16 NMAC 62.1.6, 9/13/2004]

16.62.1.7 DEFINITIONS:

The following rules and regulations are for the purpose of implementing the provisions of the New Mexico Real Estate Appraisers Act.

A. Terms starting with the letter 'A' are defined as follows:

(1) **"Acceptable"** appraisal experience includes, but is not limited to the following: fee and staff appraisal, ad valorem tax appraisal, review appraisal, market analysis, real estate counseling/consulting, highest and best use analysis and feasibility analysis. All experience claimed must be obtained after January 30, 1989, and must be in conformance with applicable national uniform standards of professional appraisal

practice (USPAP). Appraisal experience acceptable toward licensing or certification can be from any state but must have been gained under the supervision of an appraiser who is certified at a level equal to or greater than the license or certificate the applicant is seeking. Experience claimed from previous periods when an applicant was a trainee, licensed, or certified will be acceptable, provided the experience claimed was completed and in compliance with the applicable rules pertaining to acceptable experience in effect at the time the experience was gained.

(2) **"Appraisers act"** or **"act"** means the New Mexico Real Estate Appraisers Act as defined in Section 61-30-1 NMSA 1978.

(3) **"Appraisal management company (AMC)"** means:

(a) any external third party that oversees a network or panel of more than 15 certified or licensed appraisers in a state or 25 or more nationally within a given year to:

- (i) recruit, select and retain appraisers;
- (ii) contract with appraisers to perform appraisal assignments;
- (iii) manage the process of having an appraisal performed; or
- (iv) review and verify the work of appraisers; or

(b) any external third party that contracts with a qualifying licensed real estate broker or associate broker as defined in Chapter 61, Article 29 NMSA 1978 to provide broker price opinions.

(4) **"Appraisal management services"** means:

- (a) to recruit, select, and retain appraisers;
- (b) to contract with licensed and certified appraisers to perform appraisal assignments;
- (c) to manage the process of having an appraisal performed, including providing administrative duties such as receiving appraisal orders and appraisal reports, submitting completed appraisal reports to creditors and underwriters, collecting fees from creditors and underwriters for services provided, and reimbursing appraisers for services performed; or
- (d) to review and verify the work of appraisers.

(5) **"Appraisal review"** is the act or process of developing and communicating an opinion about the quality of another appraiser's work that was performed as part of an appraisal, or an appraisal review assignment. The appraisal

reviewer must have certification that corresponds with or is higher than the level of licensure required to perform the initial appraisal.

(6) **"Assignment"** means one or more real estate appraisals and written appraisal report(s) covered by a single contractual agreement for a specified number of properties.

(7) **"Appraiser"** means one who is expected to perform valuation services competently and in a manner that is independent, impartial, and objective.

B. Terms starting with the letter 'B' are defined as follows: **"Broker price opinion"** means: an opinion by a qualifying or associate broker of the price of real estate for the purpose of marketing, selling, purchasing, leasing or exchanging the real estate or any interest therein or for the purposes of providing a financial institution with a collateral assessment of any real estate in which the financial institution has an existing or potential security interest; provided that the opinion of the price shall not be referred to or construed as an appraisal or appraisal report and shall not be used as the primary basis to determine the value of real estate for the purpose of loan origination.

C. Terms starting with the letter 'C' are defined as follows:

(1) **"Complaint committee"** shall be appointed by the board. The chairperson of the committee shall be an appraiser board member. The board appointed complaint committee is for the purpose of review of complaints and shall make recommendations to the board as to its findings. No real estate appraiser organization shall have a majority membership on the committee.

(2) **"Complex"** means a one to four family residential property appraisal in which the property to be appraised, the form of ownership, or the market conditions are atypical.

(3) **"Content approval for distance education"** non-academic credit college courses provided by a college shall be approved by the appraiser qualifications board (AQB) and the New Mexico real estate appraisers board.

D. Terms starting with the letter 'D' are defined as follows: **"Duly made application"** means an application to the New Mexico real estate appraisers board including Subparagraphs (a) through (g) set out below, in addition to any other requirements of the board:

(1) a completed application on the form provided by the board; the form must be signed by the applicant attesting to the truthfulness of the information provided in the application; electronic signatures shall be acceptable;

(2) transcripts or certificates or statements showing successful completion of the required appraisal courses;

(3) a check or money order or online payment for the fees set out in 16.62.12.8 NMAC;

(4) an appraiser experience log recorded on the forms approved by the board or on another approved form, if required.

E. Terms starting with the letter 'E' are defined as follows:

(1) **"Education advisory committee"** shall be appointed by the board for the purpose of review of applications for course approval and sponsorship approval of appraiser educational offerings and shall make recommendations to the board as to its findings. Membership in a professional organization or association shall not be a prerequisite to serve on the committee. No real estate appraiser organization shall have a majority membership on the committee.

(2) **"Ethics rule"** An appraiser must promote and preserve the public trust inherent in appraisal practice by observing the highest standards of professional ethics. An appraiser must comply with USPAP when obligated by law or regulation, or by agreement with the client or intended users. In addition to these requirements, an individual should comply any time that individual represents that he or she is performing the service as an appraiser.

(3) **"Experience"** is defined as verifiable time spent in performing tasks in accordance with the definition of "appraisal" and "appraisal assignment", as stated in the act, Section 61-30-3, NMSA 1978. Such tasks include inspecting and analyzing properties; assembling and analyzing relevant market data; forming objective opinions as to the value, quality or utility of such properties; and preparing reports or file memoranda showing data, reasoning and conclusions. Professional responsibility for the valuation function is essential for experience credit.

(4) **"Experience"** will be submitted to the board in the form of a log, which indicates assignment information and type, compensation status, time spent on the assignment and whether the applicant signed the report. Experience credit claimed on the log must be attested to by the supervising appraiser. Experience logs are subject to review and request for supporting documentation. As an alternative method of obtaining all required experience credits necessary for licensure as a licensed appraiser, the board will accept experience obtained from an appraisal qualification board-approved provider through a Practical Applications of Real Estate Appraisal (PAREA) program.

(5) **"Experience review process"** is the method by which appraiser experience is approved for credit toward licensure or certification. The process includes the review of the experience log submitted by the applicant; selection of three or more entries for review of the reports and any additional file memoranda; and approval of experience hours claimed and conformance of reports with applicable national uniform standards of professional appraisal practice (USPAP) standards.

16.62.2.9 SUPERVISING APPRAISER/TRAINEE:

A. Supervision of trainees: An appraiser may engage a declared trainee to assist in the performance of real estate appraisals and related activities, provided the supervising real estate appraiser:

(1) has been state certified and in good standing for a period of at least three years, whether in New Mexico or another domestic jurisdiction of comparable real estate appraisal laws and regulations, prior to being eligible to become a supervising

appraiser. A supervising appraiser does not need to have been state-certified and in good standing in New Mexico for any specific minimum period of time;

(2) shall not have been subject to any disciplinary action in any jurisdiction within the last three years that affected the supervising appraiser's legal eligibility to engage in appraisal practice. A supervisory appraiser subject to a disciplinary action shall be considered to have been in good standing three years after the successful completion or termination of any and all sanctions imposed against the appraiser;

(3) has no more than three trainees working under his/her supervision at one time;

(4) actively supervises the trainee by either being physically present or by a form of electronic communication; and

(5) is competent pursuant to USPAP in all appraisals supervised.

B. Prior to the date any trainee begins performing real estate appraisal and related activities under his/her supervision, the supervisor must:

(1) inform the board of the name of the trainee on the declaration form prescribed by the board; the supervisor must also inform the board within 10 days when a trainee is no longer working under his/her supervision; and

(2) complete a supervisor/trainee education program, either in person or via distance education consistent with the AQB and approved by the board, regarding the role of a supervisor provided further that:

(a) if continuously supervising trainees, supervisors must complete the class at least every four years;

(b) successful completion of the examination is not required; and

(3) this class may be used as part of the continuing education requirements for the biennial renewal cycle.

C. When training for residential license or residential certification the supervisor must accompany the trainee on complete interior inspections of the subject property on the first 25 assignments; after that point, the trainee may perform the inspections without the presence of the supervisor provided the trainee is competent to perform those inspections in accordance with the competency rule of USPAP for the property type.

D. When training for general certification the supervisor must accompany the trainee on inspections of the subject property on the first 25 non-residential assignments; after that point, the trainee may perform the inspections without the presence of the

supervisor provided the trainee is competent to perform those inspections in accordance with the competency rule of USPAP for the property type and market area.

E. The supervising appraiser shall:

- (1) review all appraisal reports and supporting data used in connection with appraisals in which the services of a trainee are utilized;
- (2) certify that the report is in compliance with USPAP;
- (3) maintain an experience log jointly with the appraiser trainee to ensure the experience log is accurate, current and complies with the requirements of the trainee appraiser's credentialing jurisdiction;
- (4) sign the appraisal experience log at least every 30 days and use the title "supervising appraiser" when signing;
- (5) review the hours claimed on the log and address any discrepancies.

F. Appraisal experience logs shall include:

- (1) type of property;
 - (2) date of report;
 - (3) address of appraised property;
 - (4) description of work performed by the trainee appraiser and the scope of the review and supervision of the supervisory appraiser;
 - (5) number of actual work hours by the trainee appraiser on the assignment;
- and
- (6) the signature and state certification number of the supervising appraiser.

G. Separate appraisal logs shall be maintained for each supervising appraiser, if applicable.

H. The supervising appraiser shall not be employed by a trainee or by a company, firm or partnership in which the trainee has a controlling interest.

I. Trainees: All trainees shall perform all real estate appraisal and related activities under the immediate, active, and personal supervision of a certified real estate appraiser through their declared supervisor or through the Appraiser Qualifications Boards approved Practical Applications of Real Estate Appraisal (PAREA) program.

(1) All appraisal reports must be signed by the trainee's declared supervisor. By signing the appraisal report, the certified appraiser accepts responsibility with the trainee for the content of and conclusions of the report.

(2) A trainee may assist in the performance of real estate appraisals and claim full credit for the actual hours worked on an appraisal, provided the trainee maintains a log on a form prescribed by the board.

(a) The log must detail all appraisals and related activities performed by the trainee. The hours claimed on the log must be verifiable by either signature on the report or by other written documentation in the work file.

(b) The log must be updated and signed by the supervisor at least every 30 days.

(c) The log must contain a statement affirming that both the supervising appraiser and trainee have competence as defined by USPAP.

(d) An experience log submitted from a jurisdiction located outside of New Mexico will be accepted, provided all of the following criteria are satisfied:

(i) the experience where the appraisal experience occurred fully complied with all requirements of that jurisdiction;

(ii) the experience log meets the requirements of the jurisdiction where the appraisal experience occurred; and

(iii) both the trainee and supervisor attest to the accuracy and validity of the experience log.

(3) Trainees must complete a supervisor/trainee education program, either in person or via distance education, approved by the appraisal board before supervision begins. The trainee shall not receive appraisal experience credit for appraisals performed until the class is completed.

(4) Trainees shall assure that the supervisor has properly completed and sent the declaration form to the appraisal board on or before the day the trainee begins assisting the supervising appraiser.

(5) Trainees shall not receive appraisal experience credit for appraisal and related activities performed in violation of this section.

J. Notification of disciplinary complaint: A supervising appraiser shall notify all declared trainees within 10 days of receiving written notification by the board that a complaint has been filed against the supervising appraiser.

16.62.3.7 DEFINITIONS:

[RESERVED]

16.62.3.8 LICENSED RESIDENTIAL:

Licensed Residential real estate appraisers may appraise complex residential or nonresidential real estate provided such appraisals are not described or referred to as meeting the requirements of FIRREA. Licensed Residential real estate appraisers may not assume or use any title, designation or abbreviation likely to create the impression of certification.

A. For federally related transactions, the licensed residential real estate appraiser classification applies to the appraisal of non-complex one to four residential units having a transaction value less than \$1,000,000 and complex one to four residential units having a transaction value less than \$400,000.

B. Complex one-to four-family residential property appraisal means one in which the property to be appraised, the form of ownership, or the market conditions are atypical. For non-federally related transaction appraisals, transaction value shall mean market value.

C. All licensed residential real estate appraisers must comply with the competency rule of the national uniform standards of professional appraisal practice (USPAP)

D. Applicants for licensed residential in the state of New Mexico must.

(1) Criminal history background check: All applicants for initial issuance or reinstatement of a certificate and license in New Mexico shall be required to be fingerprinted to establish positive identification for a state and federal criminal history background check.

(a) The applicant will register online, through the approved Department of Public Safety website, with the board's Originating Agency Identification (ORI) number and make payment with registration. After the process is complete, the applicant will receive a registration confirmation.

(b) Results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

(c) Out-of-State applicants, who are unable to visit an approved live scan fingerprinting facility, may follow the same registration process and submit a hardcopy fingerprint card to the approved live scan fingerprinting facility. The results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

(2) have reached the age of majority;

(3) prove successful completion of real estate appraisal education of at least 150 board-approved creditable class hours of qualifying education as outlined in the required core curriculum of the appraiser qualifications board (AQB); real estate appraisal education programs completed for credit toward this requirement shall include coverage of the following modules:

(a) basic appraisal principles	30 hours
(b) basic appraisal procedures	30 hours
(c) the 15 hour national USPAP course and examination	15 hours
(d) residential market analysis and highest and best use	15 hours
(e) residential appraiser site valuation and cost approach	15 hours
(f) residential sales comparison and income approaches	30 hours
(g) residential report writing and case studies	15 hours

(4) successfully complete the appraiser qualifications board (AQB) approved licensed residential real estate appraiser examination; there is no alternative to successful completion of the examination; successful completion of the examination is valid for a period of 24 months, and the applicant must meet the requisite experience requirement within 24 months;

(5) courses taken in satisfying the qualifying education requirements shall not be repetitive in nature; each course credited toward the required number of qualifying education hours shall represent a progression in which the appraiser's knowledge is increased;

(6) successfully complete a written examination on the New Mexico Real Estate Appraisers Act, administered by the board;

(7) pay the fee set out in 16.62.12.8 NMAC;

(8) meet the minimum criteria for state licensure issued by the appraisers qualifications board of the appraisal foundation;

(9) submit a duly made application to the board office;

E. Appraisers holding a valid trainee appraiser credential may satisfy the educational requirements of 75 board-approved hours for the licensed residential real property appraiser credential by completing the following additional educational hours:

(1) residential market analysis and highest and best use	15 hours
(2) residential appraiser site valuation and cost approach	15 hours

16.62.4.8 RESIDENTIAL CERTIFICATION:

A holder of a residential certificate is eligible to prepare appraisals of all residential real estate for federally related transactions or other uses. He/she may appraise nonresidential real estate provided such appraisals are not described or referred to as meeting the requirements of FIRREA. The holder of a residential certificate may not assume or use any title, designation or abbreviation likely to create the impression of general certification.

A. The certified residential real estate appraiser classification qualifies the appraiser to appraise one to four residential units without regard to value or complexity. The classification includes the appraisal of vacant or unimproved land that is utilized for one to four family purposes or for which the highest and best use is for one to four family purposes. The classification does not include the appraisal of subdivisions for which a development analysis/appraisal is necessary.

B. All certified residential real estate appraisers must comply with the competency rule of the national uniform standards of professional appraisal practice (USPAP).

C. Applicants for certification in residential appraisal in the state of New Mexico must:

(1) Criminal history background check: All applicants for initial issuance or reinstatement of a certificate and license in New Mexico shall be required to be fingerprinted to establish positive identification for a state and federal criminal history background check.

(a) The applicant will register online, through the approved department of public safety website, with the board's Originating Agency Identification (ORI) number and make payment with registration. After the process is complete, the applicant will receive a registration confirmation.

(b) Results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

16.62.7.10 RENEWAL PROCESS:

A. A completed renewal application, accompanied by the required fee as defined in 16.62.12.8 NMAC and completion of 28 hours of continuing education, is required. Renewal applications may be submitted online or by mail, and must be completed, post-marked or delivered to the board office on or before April 30 of the renewal year.

B. Deferrals may not be granted to credential holders, except in the case of individuals returning from active military duty. Licensees returning from active military duty may be placed in active status for a period of up to 90 days pending completion of all continuing education requirements.

C. The board shall audit a percentage of renewal applications each renewal period to verify the continuing education requirement has been met. The licensee must maintain proof in the form of certificates issued by the education providers (transcripts not acceptable) of continuing education courses taken for the past four years. The board reserves the right to audit a licensee's continuing education records as it deems necessary.

D. As part of the renewal process, applicants are required to attest that they have reviewed and are familiar with Real Estate Appraisers rules 16.62.1 NMAC through 16.62.18 NMAC.

[10/1/97; 16.62.7.10 NMAC - Rn & A, 16 NMAC 62.7.10, 09/13/2004; A, 11/25/2006; A, 06/13/2008; A, 01/16/2011; A, 01/15/2017; A, 02/03/2019]

16.62.7.11 LICENSEE RESPONSIBILITY:

A. The board assumes no responsibility for renewal applications not received by the licensee for any reason. It is the licensee's responsibility to make a timely request for the renewal form if one has not been received thirty days prior to license expiration.

B. It is the sole responsibility of the licensee to maintain records of the qualifying education they have completed.

[10/1/97; 16.62.7.11 NMAC - Rn & A, 16 NMAC 62.7.11, 09/13/2004; A, 11/25/06]

16.62.7.12 REQUIRED CONTINUING EDUCATION:

A. Twenty-eight hours as defined in 16.62.8.7 NMAC of continuing education in courses approved by the board, which must include the appraisal qualification board (AQB) approved seven-hour national uniform standards of professional appraisal practice (USPAP) update course, are required in each two-year renewal period.

B. For continuing education cycle periods of 185 days to 365 days, 14 hours of continuing education is required. For continuing education cycle periods of less than 185 days, no hours of continuing education are required.

C. Effective with the first biennial renewal period and each subsequent renewal, a seven hour class in the national uniform standards of professional appraisal practice update course is required as part of the continuing education requirement. Successful completion includes passing an exam, if required, by the appraiser qualifications board (AQB).

D. Educational offerings taken by an individual in order to fulfill the class hour requirement for a different classification than his/her current classification may be simultaneously counted towards the continuing education requirement of his/her current classification.

E. Credit towards the continuing education hour requirements for each appraiser classification may be granted only where the length of the educational offering is at least two hours.

16.62.7.14 REINSTATEMENT OF EXPIRED LICENSE:

An expired license may be reinstated within 30 days after expiration upon:

A. submission of an application,

B. payment of the required biennial renewal fee,

C. proof of completion of all required continuing education hours that would have been required if the credential holder were in an active status. The required hours must also include the most recent edition of the seven-hour national USPAP update course (or its AQB-approved equivalent),

D. payment of the administrative reinstatement fee,

E. Criminal history background check: All applicants for initial issuance or reinstatement of a certificate and license in New Mexico shall be required to be fingerprinted to establish positive identification for a state and federal criminal history background check.

(1) The applicant will register online, through the approved department of public safety website, with the board's Originating Agency Identification (ORI) number and make payment with registration. After the process is complete, the applicant will receive a registration confirmation.

(2) Results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

(3) Out-of-State applicants, who are unable to visit an approved live scan fingerprinting facility, may follow the same registration process and submit a hardcopy fingerprint card to the approved live scan fingerprinting facility. The results will be sent to the board electronically. The board shall not issue a certificate or license until the applicant's background check has been successfully completed.

F. The board may, in its discretion, treat the former trainee, license or certificate holder as a new applicant and further require that the applicant be reexamined as a condition to reissue a license or certificate.

[3/14/00; 16.62.8.5 NMAC - Rn & A, 16 NMAC 62.8.5, 09/13/2004]

16.62.8.6 OBJECTIVE:

This part provides requirements for approval of educational courses for pre-trainee, pre-licensing, and pre-certification and continuing education credit. It establishes

requirements for continuing education courses and sponsors. It establishes an education advisory committee to approve courses and sponsors.

[3/14/00; 16.62.8.6 NMAC - Rn, 16 NMAC 62.8.6, 09/13/2004; A, 11/25/06; A, 01/01/2015]

16.62.8.7 DEFINITIONS:

"Class Hours" for the purpose of fulfilling continuing education requirements includes approved courses offered over the internet or other distance learning modalities.

[3/14/00; 16.62.8.7 NMAC - Rn, 16 NMAC 62.8.7, 09/13/2004; A, 02/03/2019]

16.62.8.8 ACCEPTABLE COURSEWORK:

A. All coursework for original trainee registration, licensing and certification shall be given in 15-hour segments and have an examination administered at the end of the course.

B. Successful completion of the examination is a requirement to submit the course for original trainee registration, licensure or certification credit.

C. Courses taken in satisfying the qualifying education requirements shall not be repetitive in nature. Each course credited toward the required number of qualifying education hours shall represent a progression in which the appraiser's knowledge is increased.

[3/14/00; 16.62.8.8 NMAC - Rn, 16 NMAC 62.8.8, 09/13/2004; A, 11/25/06; A, 01/01/2015; A, 9/26/2023]

16.62.8.9 RELEVANCE OF COURSEWORK:

All coursework for original trainee, licensing or certification shall be in courses closely related to real estate appraisal. The board will not accept an applicant's completion of a course of a kind, which is designed to prepare students for examination, commonly known as a "cram course". All real estate appraisal coursework credited toward original trainee, shall have been completed no more than five years prior to the date of the application filed with the board.

16.62.8.13 EDUCATION ADVISORY COMMITTEE:

The board will appoint an education advisory committee for the purpose of reviewing courses and sponsors of education.

A. A committee approval shall go into effect immediately upon the committee's decision.

B. The board maintains the ability to review all approvals or disapprovals made by the committee.

[3/14/00; 16.62.8.13 NMAC - Rn, 16 NMAC 62.8.13, 09/13/2004; A, 08/21/2010; A, 01/01/2015]

16.62.8.14 APPROVAL OF SPONSORS:

The board may approve individuals or organizations as course sponsors. Colleges and universities offering credit courses in real estate appraisal are also considered approved sponsors.

A. Requests for approval must be made on board approved forms and include an outline and a code of conduct for instructors.

B. The instructor selection and retention policy will include, at a minimum, the following requirements:

(1) instructors of qualifying education courses must be licensed by exam or certified at the same or a higher category than the level of classes they are engaged to teach.

(2) instructors engaged to teach the national uniform standards of professional appraisal practice (USPAP) course must qualify under the instructor evaluation policy for instructor selection for the national USPAP course developed by the appraisal foundation;

(3) instructors must teach only the appraisal foundation-approved national uniform standards of professional appraisal practice (USPAP) course;

(4) student critiques must be requested and maintained for each class given;

(5) a summary of the critiques and the pass rate of the class must be submitted to the board within 30 days after the course is completed;

(6) the sponsor shall provide a procedure for periodic monitoring of instructors in the classroom setting along with the sponsor application.

C. Approved sponsors shall comply with the following requirements to maintain approved status; the school must be conducted in accordance with these rules:

(1) to permit the board or its representative access to the school or classes being conducted and to make available to the board, upon request, all information pertaining to the activities of the school required for the administration of the rules and regulations, including its financial condition;

(2) to advertise the school at all times in a form and manner free from misrepresentation, deception or fraud;

(3) assure that all representations made by anyone authorized by the school to act as its agent or solicitor for prospective students are free from misrepresentation, deception or fraud;

(4) to maintain current, complete, and accurate student records and instructor critiques or summaries which shall be accessible at all times to the board or its authorized representative; these records shall include, in addition to other information, a record of payments made, a record of attendance, and a record of units of work completed;

(5) to conduct all courses in accordance with outlines submitted to and approved by the board;

(6) to only certify course completion for students who have successfully taken and passed the course; credit cannot be given for students who pass a course by challenging the course;

(7) sponsors will be subject to renewal of approval every three years or on a renewal period as determined by the AQB expiration date; the board assumes no

responsibility for renewal courses not received from the sponsor for any reason; it is the sponsor's responsibility to make timely request(s) for the renewal of course(s) for board approval;

(8) sponsors must assure that all instructors:

(a) conduct all classes in accordance with board rules;

(b) ensure that all instruction is free from misrepresentation;

(c) instruct only from board-approved outlines;

(d) allow access to any class being instructed to any duly appointed representative of the board; and

(e) certify to his/her sponsor a true and correct record of students' attendance in his/her classes;

(9) failure to comply with this rule may result in the loss of approval of the sponsor; and

(10) the board reserves the right to disapprove an instructor.

D. Sponsors may also be approved for seminars, conferences and one-time courses. Approval is limited to the dates of the course and may not be renewed.

16.62.8.15 APPROVAL OF COURSES:

A. All real estate appraisal courses except the appraisal qualifications board (AQB) approved 15-hour and seven-hour national USPAP courses, must have prior approval by the board if they are to be approved for credit towards continuing education or qualifying education. Beginning January 1, 2008, all qualifying education courses for pre-trainee, pre-licensing and pre-certification must have been approved through the AQB course approval program. The AQB approved 15-hour national USPAP course and the seven hour national USPAP update course do not require prior approval by the board with proof that the course was taught by an AQB certified national USPAP instructor who is also a residential or general certified appraiser. The course sponsor may certify in the form of a certificate provided to the student that the instructor meets the above board criteria.

B. All board approved real estate courses except the AQB approved 15-hour national USPAP course and the seven-hour national USPAP update course, as defined in Subsection A of this section, accepted for pre-trainee, pre-licensing and pre-

certification credit must: be a minimum length of at least 15 hours and include successful completion of an approved closed-book examination pertinent to that educational offering.

C. Application for course approval must be made to the board. No classes for credit may commence prior to board approval. The education advisory committee will review the application in accordance with 16.62.8.13 NMAC.

D. All course outlines approved by the board for pre-trainee, pre-licensing, pre-certification and continuing education credit shall become the property of the board and the outlines shall be available to all those board approved sponsors wishing to teach said courses.

E. All existing courses are subject to periodic review by the board. The board may at any time change the approval status of any course.

This part provides that the board will issue temporary practice permits to out of state licensed or certified appraiser who present evidence of qualification.

[3/15/00; 16.62.10.6 NMAC - Rn, 16 NMAC 62.10.6, 09/13/2004]

16.62.10.7 DEFINITIONS:

"Assignment" means one or more real estate appraisals and written appraisal report(s) covered by a single contractual agreement for a specified number of properties.

[16.62.10.79 NMAC - N, 01/01/2015]

16.62.10.8 TEMPORARY PRACTICE PERMITS:

A. All persons who engage in the business of, act in the capacity of, advertise or display in any manner or otherwise assume to engage in the business of, or act as, a state real estate appraiser must have a board license or permit.

B. A temporary permit may be issued to non-resident appraiser licensed and certified appraiser for the purpose of performing an appraisal or an appraisal review.

C. Temporary practice for an appraisal review of a New Mexico real property:

(1) The reviewing appraiser must have a New Mexico residential certification or general certification.

(2) The temporary permit holder must have an active license residential, residential certification or general certification from another issuing agency that corresponds with or is higher than the level of licensure required to perform the appraisal.

(3) In the case of a review appraiser with an opinion of value, the review appraiser must have national USPAP compliance with competency in the report.

D. Temporary practice for an appraisal assignment of a New Mexico real property:

- (1)** Pursuant to Title XI, the board shall recognize, on a temporary basis, the certification or license of a real estate appraiser issued by another state.
- (2)** The temporary permit may only be issued on an assignment basis. A single assignment may include one or more properties under a single contract with a single client.
- (3)** The out of state appraiser must comply with the national USPAP and with the board's statutes and rules.
- (4)** The out of state appraiser is subject to the board's jurisdiction.

E. Applicants shall submit a form approved by the board to include the following:

- (1)** verification of license history and good standing as obtained from the national registry of real estate appraisers; the board may obtain verification and certification from the ASC website;
- (2)** the classification of the license or certification they hold;
- (3)** whether they are subject to disciplinary action in the state in which they are licensed or certified; if subject to disciplinary action, submittal of a final order and letter of closer should also be submitted;
- (4)** a statement certifying that the applicant's business in New Mexico is temporary and will not exceed 180 days;
- (5)** a statement and accompanying contract identifying the specific assignment to which the temporary permit will apply;
- (6)** an irrevocable statement consenting that suits and actions may be commenced against him/her in the proper court of any county of New Mexico arising from the applicant's actions as a state licensed or certified appraiser;
- (7)** the fee specified in 16.62.12 NMAC.

F. A temporary permit extension may be obtained upon the written request submitted to the board office by the temporary permit holder; a one-time 30-day extension will be granted to complete the specified assignment.

16.62.10.9 PROVISIONS FOR EMERGENCY LICENSURE:

A. Licensed or certified real estate appraisers currently licensed and in good standing, or otherwise meeting the requirements for New Mexico licensure in a state in which a federal disaster has been declared, may be licensed or certified in New Mexico during the four months following the declared disaster with the same level of licensure they currently hold at no cost upon satisfying the following requirements:

(1) receipt by the board of a completed application which has been signed and notarized and which is accompanied by proof of identity, which may include a copy of a driver's license, passport or other photo identification issued by a governmental entity;

(2) refer to 16.62.2.8 NMAC, trainee; 16.62.3.8 NMAC, licensed; 16.62.4.8 NMAC, residential; and 16.62.5.8 NMAC, general;

(3) other required verification will be to contact the applicant's prior licensing board by email, mail or telephone.

B. The board may waive the following requirements for licensure:

(1) application fees;

(2) taking and passing the NM state exam; the applicant will be required to take and pass the NM state exam within 60 days from the date the emergency license is issued.

C. The board may waive the specific forms required under 16.62.2.8, 16.62.3.8, 16.62.4.8 and 16.62.5.8 NMAC if the applicant is unable to obtain documentation from the federal declared disaster areas.

D. Nothing in this section shall constitute a waiver of the requirements for licensure contained in 16.62.2.8, 16.62.3.8, 16.62.4.8 and 16.62.5.8 NMAC.

E. Licenses issued under (the emergency provision) shall expire on April 30 following the date of issue, unless the board or an agent of the board approves a renewal application. Application for renewal shall be made on or before April 30 following the date of issue to avoid late renewal fees. The board reserves the right to request additional documentation, including but not limited to, recommendation forms and work experience verification forms prior to approving license renewal.

16.62.13.8 FILING COMPLAINT:

Upon receipt of a sworn complaint against any person who is a trainee, licensed or certified under the Real Estate Appraisers Act, the board may administratively evaluate the complaint to determine whether sufficient information of a potential violation of board statute or rules, or the national uniform standards of professional appraisal practice (USPAP) exists to pursue investigation and possible formal disciplinary action. Upon receipt of a complaint, the board may:

A. evaluate or investigate the alleged violations;

B. refer the matter to the complaint committee; or

C. dispose of a complaint if it determines that there is insufficient information, lack of probable cause, lack of jurisdiction or if the complaint is determined to be frivolous.

[10/1/1997; 16.62.13.8 NMAC - Rn & A, 16 NMAC 62.13.8, 9/13/2004; A, 1/1/2015; A, 10/30/2021]

16.62.13.9 REVIEW OF COMPLAINT:

The chairman of the board shall appoint at least one appraiser member of the board to evaluate each complaint filed with the board.

A. The board member appointee/evaluator shall also be chairperson of the complaint committee. The evaluation of complaints shall be completed by this person.

B. If the board member appointee or evaluator determines that there is insufficient information, lack of probable cause, lack of jurisdiction or if the complaint is determined to be frivolous, an investigation shall not be initiated and the complaint shall be referred to the board with a recommendation that the case be closed. If the chair of the complaint committee determines that the complaint merits further investigation, the complaint will be assigned to the complaint committee.

C. The complaint committee may perform a regulatory review of an appraisal that is the subject of a complaint. Complaint committee members shall be competent to perform a regulatory review of an appraisal.

D. The complaint committee may refer the appraisal that is the subject of a complaint to a peer committee to perform a Standard 3 review of the appraisal.

E. Upon completion and review of the investigation initiated pursuant to this regulation, the board member appointee/evaluator along with the complaint committee shall recommend to the board either action in lieu of disciplinary action, formal disciplinary action, or that the case be closed.

16.62.13.11 INVESTIGATIONS OF DISCIPLINARY COMPLAINTS:

To the maximum extent permitted by law, the board may conduct investigations of disciplinary complaints.

A. Should the board choose to employ one, the board may utilize the services of an investigator. The investigator may operate pursuant to a contract with the board, as the board's employee, or as the employee of a department to which the board is administratively attached, at the discretion of the board.

B. The board may issue investigative subpoenas as part of its review and investigation of disciplinary complaints. Each of the following individuals, acting independently, may approve and sign an investigative subpoena: the chairperson of the complaint committee, the board administrator, and, if utilized, the board investigator.

C. The board's staff, the members of the board's complaint committee, and, if utilized, the board investigator may carry out investigations on to disciplinary complaints. No board member other than the chairperson of the complaint committee shall carry out investigations into disciplinary complaints.

16.62.13.12 REPRIMAND PUBLIC RECORD:

The fact that a trainee appraiser, license or certificate holder has received a letter of reprimand is a matter of public record.

[10/1/97; 16.62.13.12 NMAC - Rn & A, 16 NMAC 62.13.12, 09/13/2004; A, 01/01/2015]

16.62.13.13 PRIVATE REMEDY:

Action or non-action by the board on any complaint does not preclude any private remedy taken by the complainant.

[10/1/97; 16.62.13.13 NMAC - Rn, 16 NMAC 62.13.13, 09/13/2004]

16.62.13.14 REFUSAL, SUSPENSION OR REVOCATION:

A. Disciplinary proceedings may be instituted by the sworn complaint of any person, including members of the board, filed with the board.

B. In accordance with the procedures contained in the Uniform Licensing Act, the board may deny, revoke or suspend any trainee, license or certificate held or applied for upon finding, after a hearing, that the trainee appraiser, licensee, certificate holder or applicant has violated any provision of the Real Estate Appraisers Act (Section 61-30-1 et seq., NMSA 1978) or regulations or continually or repeatedly or persistently or willfully violated any of the prohibitions found hereinafter:

(1) obtaining or attempting to obtain any fee through fraud, misrepresentation, or other dishonesty;

(2) impersonating another person trainee, licensed or certified to practice real estate appraisal or permitting or allowing any person to use his/her registration, license or certificate;

(3) aiding or abetting the practice of real estate appraisal by a person not a trainee, licensed or certified by the board;

(4) the suspension or revocation by another state of a trainee registration, license or certificate to practice real estate appraisal based upon acts by the trainee appraiser, certificate holder or licensee similar to acts described in the section;

(5) the solicitation of any person either by a trainee appraiser, licensee or certificate holder or by one in his/her employ or under his/her control under circumstances suggesting that the appraiser or other person was taking advantage of the person being solicited from making a rational independent decision as to whether or not to obtain the services of an appraiser, or any particular appraiser;

(6) falsifying of real estate appraisal records, whether or not for personal gain;

(7) practicing beyond the scope of the trainee, license or certificate as defined by state law and/or regulations;

(8) advertising in any manner that violates the board's regulation on advertising, as provided in 16.62.16 NMAC; or

(9) making false statements in any application for trainee, licensure or certification.

C. Constitutional due process principles require a board to conduct an administrative hearing at the timely request of a respondent who has been served with an NCA. The respondent is entitled to:

- (1) a statement of the charge(s);
- (2) notice of the time and place of the hearing;
- (3) a hearing before an impartial decision maker;
- (4) the right to cross-examine witnesses who testify against him/her;
- (5) the right to present his or her own witnesses, and
- (6) the right to be represented by an attorney or a licensed member of the profession or both.

[10/1/1997; 16.62.13.14 NMAC - Rn & A, 16 NMAC 62.13.14, 9/13/2004; A, 11/25/2006; A, 1/1/2015; A, 10/30/2021]

16.62.13.15 HEARINGS AND DISCIPLINARY PROCEEDINGS:

A. All disciplinary proceedings conducted by the board shall fully conform to the provisions of the Uniform Licensing Act, Sections 61-1-11 to 34 NMSA 1978 (1957, as amended through 2019).

B. If the board so votes, board staff will send a request for an NCA to the litigation division of the attorney general's office. The NCA request must include a description of the licensee's allegedly improper conduct, all supporting documentation and evidence, a written summary of the provisions in statute or rule that the conduct allegedly violated, and any other documentation that may be required by the litigation division. If the respondent is an applicant, the NCA request must also include an explanation as to why the board is contemplating denying licensure. After reviewing the file, the board's administrative prosecutor may draft an NCA, return the file to the board for additional investigation, get information, propose a settlement agreement or other resolution to the case, or decline in writing to prosecute the case on behalf of the board. The administrative prosecutor is not required to be an investigator and shall not be requested to perform investigative work on behalf of the board.

C. If a respondent requests an evidentiary hearing in response to an NCA, the board administrator or compliance liaison may designate a hearing officer to preside over the hearing. Alternatively, at the discretion of the board chair or upon vote of the board, the entire board may preside over the hearing.

D. Upon the issuance of a notice of hearing, no motion for continuance, motion to vacate, or proposed settlement agreement may be filed with the board less than 10 days prior to the hearing except under extraordinary, unforeseen circumstances beyond the control of the movant. In the absence of such circumstances, a hearing officer may not continue or vacate a hearing in response to a motion submitted to the board later than 10 days prior to the hearing. Lack of knowledge or familiarity with this rule may not be considered extraordinary or unforeseen circumstances.

E. Parties to a disciplinary case may raise issues in the form of dispositive motions. Any such dispositive motion, when made at a hearing presided over by a hearing officer, shall be taken under consideration by the hearing officer and presented to the board along with the final hearing officer report.

[16.62.13.15 NMAC – N, 1/16/2021; A, 10/30/2021]

16.62.13.16 SETTLEMENT AGREEMENTS:

As a means of resolving disciplinary complaints against licensees, applicants, and unlicensed practitioners without the time and expense of formal hearings, settlement agreements are encouraged throughout the disciplinary process.

A. Prior to the board voting on a disciplinary complaint or the matter being referred to the office of the attorney general for administrative prosecution, the board staff may negotiate a settlement agreement with the respondent. However, the board itself must vote to approve the settlement agreement at an open meeting, and no settlement agreement may take effect under any circumstances until the board so votes.

B. Prior to or after the Board has issued a notice of contemplated action to the respondent, the board's administrative prosecutor may negotiate a settlement agreement with the respondent. However, the board itself must vote to approve the settlement agreement at an open meeting, and no settlement agreement is valid under any circumstances until the board so votes.

C. Upon the issuance of a notice of hearing, settlement agreements may only be considered by the board if submitted to the board in written form and signed by the respondent. In the absence of extraordinary unforeseen circumstances beyond the control of both the administrative prosecutor and respondent, a hearing officer may not continue or vacate a hearing on the basis of a proposed settlement agreement if the proposed agreement is submitted to the board later than 10 days prior to the hearing.

D. No board member may be presumed to be biased or excused for cause based solely on the basis that the member considered, approved, or rejected a proposed settlement, consent agreement, or other proposal for the resolution of a pending disciplinary case.

[16.62.13.16 NMAC – N, 10/30/2021]

16.62.13.17 DELEGATION OF AUTHORITY:

The authority of the real estate appraisers board to issue a notice of contemplated action against any licensee/registrant or applicant for licensure/registration whose name appears on the certified list issued by the New Mexico department of human services, as provided in 40-5A-1 NMSA 1978, et seq, and to refer cases in which notices of contemplated action have been issued for administrative prosecution, is delegated to the administrator of the board. This section shall not be construed to deprive the board of its authority and power to issue a notice of contemplated action for any apparent violation of the Parental Responsibility Act, and to refer any such case for administrative prosecution.

[16.62.13.17 NMAC - N, 10/30/2021]

16.62.13.18 CRIMINAL CONVICTIONS:

A. Convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

- (1)** homicide;
- (2)** aggravated assault, aggravated battery, kidnapping, false imprisonment, human trafficking, or other crimes of violence against persons;
- (3)** robbery, larceny, burglary, extortion, receiving stolen property, possession of burglary tools, unlawful taking of a motor vehicle, or other crimes involving theft or appropriation of personal property or funds;
- (4)** breaking and entering, criminal damage to property, arson, or other related crimes of violence against property;
- (5)** rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, child solicitation, or other crimes constituting sexual offenses;
- (6)** battery on a peace officer, assault on a peace officer, or other crimes against law enforcement;
- (7)** trafficking controlled substances;
- (8)** crimes involving child abuse or neglect;
- (9)** fraud, forgery, money laundering, embezzlement, credit card fraud, counterfeiting, financial exploitation, or other crimes of altering any instrument affecting the rights or obligations of another;

- (10) making a false statement under oath or in any official document;
- (11) evasion of a lawful debt or obligation, including but not limited to tax obligations; or
- (12) an attempt, solicitation or conspiracy involving any of the felonies in this subsection.

B. The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions in Subsection A of this rule.

D. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Real Estate Appraisers Act or Appraisal Management Company Registration Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

- (1) an arrest not followed by a valid conviction;
- (2) a conviction that has been sealed, dismissed, expunged or pardoned;
- (3) a juvenile adjudication; or
- (4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

16.62.15.9 REINSTATEMENT:

Any appraiser who has retired as provided in 16.62.15.8 NMAC, may, within two years from the date the active trainee, license or certificate expired, apply to the board for reinstatement of license or certificate.

[3/15/00; 16.62.15.9 NMAC - Rn & A, 16 NMAC 62.15.9, 09/13/2004; A, 01/01/2015]

16.62.15.10 APPLICATION FOR REINSTATEMENT FROM RETIREMENT STATUS:

A. The application for the reinstatement of a license or certificate shall provide space for the applicant to provide the board the following information:

- (1) the license number of the former trainee, license or certificate;
- (2) the full name of the applicant;
- (3) the date of the original issue; and
- (4) the date of the applicant's retirement.

B. The application must be completed and returned to the board with a check or money order or online payment in an amount equivalent to all lapsed renewal fees. In addition, the applicant for reinstatement of trainee, license or certificate must offer proof sufficient to satisfy the board that he or she has taken in the calendar year immediately preceding the application for reinstatement, a minimum of 14 hours per year missed in refresher courses in addition to all required continuing education hours that would have been required if the credential holder was in an active status. Prior to reinstatement, the applicant must show proof that he or she is current with all continuing education hours required for each year in retirement status.

C. The application must be completed within two years from the date the active trainee, license or certificate expired. The application will be reviewed by the board at its

next regularly scheduled meeting. If the board finds the application in order and is satisfied that the applicant for reinstatement has fulfilled the requirements as specified, the board shall issue the applicant a registration, license or certificate.

D. No appraiser who has retired shall reactivate his/her practice until a new trainee registration, license or certificate is received. The appraiser shall not prepare an appraisal while in retirement status.

[3/15/00; 16.62.15.10 NMAC - Rn & A, 16 NMAC 62.15.10, 09/13/2004; A, 06/13/2008; A, 01/01/2015; A, 01/15/2017; A, 02/03/2019; A, 9/26/2023]

16.62.15.11 INACTIVE STATUS:

A. The following criteria must be met for inactive status eligibility:

- (1)** the licensee must be in good standing; and
- (2)** the license must be current.

B. A licensee who fails to renew a license by April 30th of any year, shall renew the license in accordance with the Appraisal Act before the licensee can be considered for inactive status.

C. A licensee who wishes to be placed on inactive status shall notify the board office in writing prior to the expiration of the license or certificate. The notice will be recorded in the minutes of the board.

D. A licensee on inactive status shall not engage in any activity for which registration is required.

E. Rendering or offering to render in appraisal services or engaging in the any appraisal activity while on inactive status shall be considered sufficient grounds for disciplinary action by the board.

F. When an appraiser holds an inactive license and represents himself/herself in public statements that include but are not limited to, paid or unpaid advertising, brochures, printed matter, directory listings, personal resumes or curricula vitae, interviews or comments for use in media, statements in legal proceedings, lectures, and public oral presentations, must disclose that with an inactive license, and shall not provide appraisal consulting.

G. Licensees on inactive status will be reported to the national registry.

[16.62.15.11 NMAC - N, 01/01/2015; A, 01/15/2017]

16.62.15.12 REINSTATEMENT FROM INACTIVE STATUS:

A. The inactive licensee may apply for reinstatement to active status within three years after trainee, license or certificate has been placed on inactive status. The applicant shall complete an application for reinstatement to include the following:

- (1) the license number of the former apprentice/trainee, license or certificate;
- (2) the full name of the applicant;
- (3) the date of the original issue;
- (4) the date of the applicant's inactive status.

B. The application must be completed and returned to the board with a check or money order or online payment for the required biennial renewal fee and administrative reinstatement fee. In addition, the applicant for reinstatement of trainee, license or certificate must provide satisfactory proof of completion of the continuing education requirements that would have been required had the credential always been active described in 16.62.8 NMAC.

C. The application will be reviewed by the board at its next regularly scheduled meeting. If the board finds the application is in order and is satisfied that the applicant for reinstatement has fulfilled the requirements as specified, the board shall issue the applicant a registration, license or certificate.

D. No appraiser who has an inactive status shall reactivate his/her practice until a new trainee registration, license or certificate is received.

E. No application for inactive status will be accepted if the appraiser is under investigation or facing disciplinary proceedings.

F. If the inactive licensee applies for reinstatement to active status more than three years after trainee, license or certificate has been placed on inactive status, the applicant shall:

- (1) complete an application for reinstatement to include the following:
 - (a) the license number of the former trainee, license or certificate;
 - (b) the full name of the applicant;
 - (c) the date of the original issue;
 - (d) the date of the applicant's inactive status; and
- (2) take and pass the state examination.

G. The application must be completed and returned to the board with a check or money order or online payment in an amount described in 16.62.12 NMAC. In addition, the applicant for reinstatement of traineeship, license or certificate must provide satisfactory proof of completion of the continuing education requirements described in 16.62.8 NMAC in addition to classroom hours:

[9/8/96; 16.63.1.6 NMAC - Rn, 16 NMAC 63.1.6, 06/19/02]

16.63.1.7 DEFINITIONS:

A. Appropriate supervision:

(1) Supervision shall be provided by an individual qualified by the board of social work examiners. Applicants and supervisors will engage in the process of supervision in accordance with the guidelines established by the board.

(2) Supervision for licensed masters level social workers aspiring to achieve licensure at an independent clinical level shall be provided by an independent social worker licensed at the LISW or LCSW level who is engaged in direct clinical practice or by a licensed clinical professional approved by the board.

(3) Supervision for master level social workers practicing clinical social work, not aspiring to achieve licensure at the clinical independent level, shall be provided by an independent social worker licensed at the LISW or LCSW level who is engaged in direct clinical practice, or other supervision approved by the board.

(4) The relationship between the supervisor and supervisee must be designed to promote the development of professional social work skills for the delivery of social work services. These skills include the integration of theory and practice, the development and application of intervention techniques, the development and constant improvement of social work standards and ethics, and the continued acquisition of professional knowledge. Within the limits set forth by the board, teleconferencing and group supervision will be accepted.

(5) Supervisors shall evaluate and oversee the manner in which the above skills development is reflected in the supervisee's practice. The supervisor's responsibility insures that the supervisee acquires the necessary skills required for advanced and professional social work practice. Supervisors shall immediately notify the board if there is a problem in the supervisory process or if the supervisor sees the applicant as unsuitable for this highest level of licensure.

(6) Supervisors who are overseeing supervision of individuals licensed as masters social workers (LMSW) after May 1, 2015 and aspiring to achieve licensure at the independent clinical level must comply with the board's supervisory requirements as follows:

(a) Complete a three (3) hour administrative course on supervision that may be used as continuing education;

(b) Submit an application that includes a curriculum vitae (resume) to the board for approval, prior to commencing supervision of the applicant; and

(c) Submit a plan for supervision to the board to include the frequency of supervision and the type of supervision i.e., individual, group, teleconferencing that will be employed throughout the supervisory period.

(7) Direct supervision: means face to face supervision, which may include video-teleconferencing. At least 70 of the 90 required hours must be obtained through direct supervision.

(8) Group Supervision: means supervision rendered to no more than six (6) individuals per group at a time. No more than 20 hours of the 90 required hours may be obtained through group supervision.

(9) Interdisciplinary Supervision: upon a written request and a showing of extraordinary circumstances, the board may accept supervision by other licensed clinical professionals to include, clinical psychologists, psychiatrists and professional clinical counselors. The supervising individual must be in good standing with their own professional licensing board. Board approval must be received prior to the commencement of supervision and no more than 30 hours of the required 90 hours may be obtained through non LISW/LCSW supervision.

(10) When a LCSW applicant seeks board approval for supervision from either an LCSW at the place of employment or from an outside supervisor who is not employed at the same agency as the LMSW seeking licensure, a signed agreement must be made between all parties. The agreement must include a statement that all client information is to be confidential and recognize that the decisions regarding clinical care rests with the agency/organization. The employing agency shall be kept informed of any changes in the supervisory process.

B. Licensed Clinical Social Worker: an independent social worker with a clinical specialty is equivalent to an independent clinical social worker (LCSW). The LCSW title captures the intent of being able to practice "independently" in providing clinical services.

C. Qualified applicants:

(1) Means graduates from those programs having received accreditation by CSWE and those programs having candidacy status, conditional status, or under review status with CSWE.

(2) For those applicants who graduated from an institution of higher education before CSWE began to accredit programs (prior to 1974), the New Mexico board of social work examiners will require:

(a) a letter from the university's registrar's office stating that the applicant's course of study culminated in a degree which was the equivalent of an emphasis or major in social work;

(b) demonstrated social work experience;

(c) documentation of social work licensure in a previous state; and

(d) concurrence among the majority of professional members of the board that the transcripts reflect sufficient coursework in social work.

D. CSWE (council on social work education) accreditation: means those programs having received accreditation by CSWE and those programs having candidacy status or under review status with CSWE.

16.63.1.9 INSPECTION OF PUBLIC RECORDS:

Any citizen of the state may examine all public records in the board's custody. People requesting inspection of public records shall provide reasonable notice to the board's administrator. When the records requested are in active use, the requestor must notify the administrator five (5) days in advance. The board may provide copies of public records upon request and upon payment of a reasonable copying fee. No person shall remove board documents from the board office. The board maintains files for all applicants. Information in the applicant's file is a matter of public record except for the following:

A. letters of reference;

B. medical reports and/or records of chemical dependency, physical or mental examinations or treatment as outlined in the Social Work Practice Act 61-31-19d.

16.63.1.11 LICENSE DISPLAY:

The valid license must be displayed and must be visible to the public in the primary place of social work employment or business. A licensee must practice social work under the name inscribed on the license.

[1/1/90, 9/13/90, 5/15/91, 6/22/92, 1/5/95; 16.63.1.11 NMAC - Rn, 16 NMAC 63.1.11, 06/19/02]

16.63.1.12 BOARD GOVERNANCE:

A. There is created the board of social work examiners.

B. The board shall be administratively attached to the regulation and licensing department.

C. The board shall consist of seven members who are representative of the geographic and ethnic groups within New Mexico, who are United States citizens and who have been New Mexico residents for at least five years prior to their appointment. Of the seven members:

(1) four shall have been engaged in social work practice for at least five years; at least two of the four shall hold a master's degree in social work; and at least two shall hold a bachelor's degree in social work from schools of social work that are accredited by the council on social work education; at least one of these members shall be engaged primarily in clinical social work practice; one member shall be engaged primarily in education; one member shall be engaged primarily in administration or research in social work practice; and at least one member shall be engaged primarily in community organization, planning and development; these members shall hold a current New Mexico social work license and shall not hold office in any professional organization of social workers during their tenure on the board; and

(2) three members shall represent the public; the public members shall not have been licensed or have practiced as social workers; public member shall not have any significant financial interest, whether direct or indirect, in social work practice.

D. Members of the board shall be appointed by the governor for staggered terms of three years. Each member shall hold office until his successor is appointed. Vacancies shall be filled for the unexpired term in the same manner as original appointments.

E. Except for the representatives of the public on the board, the governor shall appoint board members from a list of nominees submitted by social work organizations and individual social work professionals.

F. Members of the board shall be reimbursed as provided in the Per Diem and Mileage Act and shall receive no other compensation, perquisite or allowance.

G. The board shall elect a chairman and other officers as deemed necessary to administer its duties.

H. A simple majority of the board members currently serving shall constitute a quorum of the board. A board member may participate in a board meeting by means of conference call or other similar communications equipment when it is otherwise difficult or impossible for the member to attend the meeting in person, provided that the member participating by conference call can be identified when speaking, all participants are able to hear each other at the same time and members of the public attending the

meeting are able to hear any member of the public body who speaks during the meeting.

I. The board shall meet at least once a year and at such other times as it deems necessary. Other meetings may be called by the chairman upon the written request of a quorum of the board.

J. The governor may remove any member from the board for the neglect of any duty required by law, for incompetence, for improper or unprofessional conduct as defined by board regulation or for any reason that would justify the suspension or revocation of his license to practice social work.

K. No board member shall serve more than two consecutive terms, and any member failing to attend, after proper notice, three consecutive meetings shall automatically be removed as a board member, unless excused for reasons set forth in board regulation.

L. In the event of a vacancy for any reason, the board secretary shall immediately notify the governor and the board of the vacancy and the reason for its occurrence to expedite the appointment of a new board member within a six-month period.

M. Board members may be excused from attending board meetings for any of the reasons set forth below:

- (1) illness;
- (2) death in the immediate family;
- (3) military service;
- (4) inclement weather;
- (5) any other reason deemed appropriate by the chairperson of the board.

[16.63.5.6 NMAC - N/E, 11/9/05]

16.63.5.7 DEFINITIONS:

[RESERVED]

16.63.5.8 PROVISIONS FOR EMERGENCY LICENSURE:

A. Licensed social workers currently licensed and in good standing, or otherwise meeting the requirements for New Mexico licensure may be licensed in New Mexico during the six months following the declared disaster at no cost upon satisfying the following requirements:

(1) receipt by the board of a completed application which has been signed and notarized and which is accompanied by proof of identity, which may include a copy of a drivers license, passport or other photo identification issued by a governmental entity;

(2) refer to 16.63.9.8, 16.63.10.8, and 16.63.11.8 NMAC, Qualification of Licensure for licensure requirements;

(3) verification of licensure from the state in which the federal disaster has been declared; the verification of licensure must include the following information:

(a) copy of transcripts verifying a bachelors or masters degree from a program of social work accredited by the council on social work education;

(b) copy of supervision records;

(c) verification the applicant has passed the association of social work board (ASWB) exam at the appropriate level for which the applicant is applying; and

(d) verification that the license is in good standing with no pending disciplinary action.

(4) sworn affidavit that the applicant was personally or professionally effected by the disaster.

B. The board may waive the following requirements for licensure:

(1) application fees;

(2) taking and passing the NM cultural awareness exam prior to licensure; the applicant will be required to take and pass the NM cultural awareness exam within three months from the date the emergency license is issued; the emergency license will automatically expire if the applicant fails to take or fails to pass the NM cultural awareness exam within three months; and

(3) fee for the cultural awareness examination.

C. The board may waive the specific forms required under 16.63.9.8, 16.63.10.8, and 16.63.11.8 NMAC if the applicant is unable to obtain documentation from the federal declared disaster areas.

(1) If the applicant is unable to obtain official transcripts, from a school located in a declared disaster area, the applicant may submit a sworn affidavit from the applicant verifying he has a bachelors or masters degree in social work.

(2) For LISW applicants who are unable to obtain verification of supervision from a supervisor located in a declared disaster area the applicant may submit a sworn affidavit from the applicant verifying he has 3600 hours of experience and a minimum of 90 hours of supervision.

D. Nothing in this section shall constitute a waiver of the requirements for licensure contained in 16.63.9.8, 16.63.10.8, and 16.63.11.8 NMAC.

E. Licenses issued under (the emergency provision) shall expire on July 1, following the date of issue, unless the board or an agent of the board approves a renewal application. Application for renewal shall be made on or before July 1, following the date of issue to avoid late renewal fees. The board reserves the right to request additional documentation, including but not limited to, recommendation forms and work experience verification forms prior to approving license renewal.

[16.63.5.8 NMAC - N/E, 11/9/05]

A. This is the entry licensing level. The baccalaureate social worker ("LBSW") is prepared to assume the beginning level professional role in public and private social service agencies.

B. LBSWs are prepared through beginning professional knowledge in human behavior in the social environment, generalist social work practice, knowledge of the history of social policy, knowledge of how to utilize social research findings in their practice and having had supervised field practicum experience. Baccalaureate social work is basic generalist practice that includes assessment planning, intervention, evaluation, case management, information and referral, counseling, supervision, consultation, education, advocacy, community organization, and the development, implementation, of policies, programs and activities. LBSWs may work with individuals, families, communities, groups and organizations at a beginning level.

C. The LBSW utilizes the basic problem-solving process of gathering information, assessing that information at a beginning professional level, developing an intervention plan, implementing the plan and conducts follow-up. This process at the LBSW level requires the application of social work theory, knowledge, methods, ethics and the professional use of self to restore or enhance social, psychosocial, or biopsychosocial functioning.

D. The LBSW must not practice independently as a private practitioner.

16.63.10.9 PARAMETERS OF PRACTICE:

A. The licensed master social worker ("LMSW") provides a wide range of services. The LMSW has preparation as a generalist social worker, as found in the LBSW level in addition to specialization in either direct or indirect services such as work in a field of practice or with a specific population.

B. The LMSW may provide diagnostic, preventive and treatment services. The practice of master's social work means the application of social work theory, knowledge, methods and ethics and the professional use of self to restore or enhance social, psychosocial, or biopsychosocial functioning of individuals, couples, families, groups, organizations and communities. Master's social work practice requires the application of specialized knowledge and advanced practice skills in the areas of assessment, treatment planning, implementation and evaluation, case management, information and referral, counseling, supervision, consultation, education, research, advocacy, community organization and the development, implementation and administration of policies, programs and activities. The practice of master's social work may include the practice of clinical social work under appropriate clinical social work supervision. The LMSW is able to explain and interpret the results of psychosocial evaluations in the problem-solving process. The LMSW is able to supervise LBSWs and practice in the areas of social work administration, community organization and policy analysis.

C. The LMSW may not practice independently as a private practitioner.

[16.63.13.7 NMAC – Rp, 16.63.13.7 NMAC, 3/13/2022]

16.63.13.8 PROCEDURES:

Upon receipt of a complaint against any person licensed under the Social Work Practice Act, Sections 61-31-1 to 61-31-24 NMSA 1978 the board may refer the complaint to the complaint committee.

A. The complaint committee shall review and investigate or cause to be investigated all complaints received by the board. Complaints shall remain confidential while investigations are pending and shall not be a matter of public record until the board takes disciplinary action pursuant to N.M. State. Ann. Section 61-31-17 NMSA 1978, as amended, and this part.

B. Upon completion of the investigation initiated pursuant to this part, the complaint committee or the board shall submit to the board those matters it feels justify further disciplinary action.

C. The board may offer the licensee an informal type of discipline such as a letter of reprimand in lieu of initiating formal proceedings. The board shall notify the licensee:

- (1) that a letter of reprimand has been officially proposed;
- (2) that the respondent must accept or reject the offer in writing;
- (3) that if accepted, a copy of the reprimand will remain in the private files of the board; and
- (4) that if rejected, formal disciplinary action pursuant to the Uniform Licensing Act Sections 61-1-1 to 61-1-31 NMSA 1978 will be initiated.

D. If accepted, the letter of reprimand shall be personally issued to the licensee by the chairperson of the board at the next scheduled board meeting and served on the licensee by certified mail. Copies of the reprimand will be furnished to members of the board and to the board's attorney.

E. If a licensed social worker voluntarily surrenders their license or allows their license to expire in anticipation of, or during the course of an investigation, the complaint committee will complete its investigation and report the findings to the national database. Any publication or notification of action taken by the board of social work examiners will include the fact that the licensee voluntarily surrendered or allowed their license to expire during the investigation.

16.63.13.9. DISQUALIFYING CRIMINAL CONVICTIONS:

A. Felony convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board:

- (1) homicide, manslaughter, great bodily harm, wounding, or maiming;
- (2) trafficking, trafficking in, unlawful distribution of, or possession of controlled substances;
- (3) human trafficking, stalking, kidnapping, false imprisonment, assault, aggravated assault, battery, or aggravated battery;

- (4) rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, sexual exploitation, or other related felony sexual offenses;
- (5) crimes involving adult abuse, neglect or financial exploitation;
- (6) crimes involving child abuse, neglect, abandonment or solicitation;
- (7) crimes involving robbery, larceny, theft, extortion, burglary, bribery, fraud, forgery, embezzlement, breaking and entering, damage to property, identity theft, arson, perjury, false pretenses, credit card fraud, or receiving stolen property;
- (8) practicing medicine without a license;
- (9) failure to comply with a proclamation of the governor;
- (10) crimes involving the unlawful possession, use, discharge, or sale of a firearm, weapon, or explosives;
- (11) furnishing or bringing contraband or drugs into a prison, jail, or juvenile detention facility;
- (12) driving under the influence of intoxicating liquor, substances or drugs;
- (13) an attempt, solicitation, or conspiracy involving any of the felonies in this subsection.

B. The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

D. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Social Work Practice Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the board shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

- (1) an arrest not followed by a valid conviction;

- (2) a conviction that has been sealed, dismissed, expunged or pardoned;
- (3) a juvenile adjudication; or
- (4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

16.63.14.7 DEFINITIONS:

[RESERVED]

16.63.14.8 PROCEDURE:

A. Any person licensed under the Social Work Practice Act (NMSA 1978 Sections 61-31-1 to 61-31-24) who wishes to assume inactive status in the practice of social work shall notify the board's administrator in writing postmarked on or before July 1st of the year the license expires. As part of the written request for inactive status, the licensee must show proof of having completed the required continuing education hours defined in Part 12 of these rules. If the licensee has not met the continuing education requirements, inactive status may be granted but the licensee will be subject to all rules related to continuing education if reinstatement of license is requested.

B. Upon approval by the board, the licensee shall assume inactive status. Any license in inactive status will be subject to an annual fee of fifteen dollars (\$15.00) for LBSW, twenty dollars (\$20.00) for LMSW and twenty-five dollars (\$25.00) for LISW.

C. The practice of social work in New Mexico under an inactive license is strictly prohibited.

D. Any person licensed under the Social Work Practice Act who has assumed inactive status as provided in this section, may notify the board, in writing, of his desire to resume active practice.

E. Upon receipt of the notice required in Subsection D of 16.63.14.8 NMAC, the administrator shall send to the licensee an application for reinstatement of license.

F. The fee for reinstatement of a license shall be in accordance with 16.63.8 NMAC, Sections 8, 9, 10 & 11.

G. The applicant must, in addition, provide satisfactory proof of:

(1) completion of no less than ten (10) hours of continuing education for each year of inactive status; such continuing education to be accumulated in accordance with Part 12.

(2) completion of all continuing education requirements determined to have been unmet at the time inactive status was granted.

H. If the board finds the application in order and is satisfied that the applicant has fulfilled his continuing education requirements as outlined in Subsection G of 16.63.14.8 NMAC, the board shall reinstate the applicant's license.

I. No person licensed under the Social Work Practice Act who has assumed inactive status shall reactivate his practice until he receives notification from the board that his license is active.

J. The board will not accept applications for inactive status from licensees who are under investigation for violations of the Social Work Practice Act or who have an active complaint pending with the board.

K. The board will accept applications under this section from any social worker who is impaired as further defined in this section and who is participating in a rehabilitation plan approved by the board.

(1) For purposes of this section, impaired means inability to practice social work with reasonable skill or safety to clients by reason of one or more of the following:

(2) mental illness;

(3) habitual or excessive use or abuse of drugs, as defined in the Controlled Substances Act (NMSA Sections 30-31-1 to 30-31-40) or alcohol.

L. The board may, in its discretion, require that an applicant for reinstatement take and pass a written or oral examination as prescribed by the board.

[RESERVED]

16.63.15.8 PROCEDURE:

A. Any person licensed under the Social Work Practice Act (NMSA 1978 Sections 61-31-1 to 61-31-24) who wishes to retire from practice shall notify the board's administrator in writing prior to the July 1 expiration of his current license. As part of the written request for retirement status, the licensee must show proof of having completed the required continuing education hours defined in Part 12 of these rules. If the licensee has not met the continuing education requirements, retirement status may be granted but the licensee will be subject to all rules related to continuing education if reinstatement of license is requested. The administrator shall acknowledge receipt of the request.

B. Upon approval by the board of the request, the licensee shall assume retirement status and shall be exempt from payment of the yearly renewal fees during the period of retirement.

C. The practice of social work in New Mexico under a retired license is strictly prohibited. Any person licensed under the Social Work Practice Act who has retired as provided in this section, may notify the board, in writing, of his desire to resume active practice.

D. Upon receipt of the notice required in Subsection C of 16.63.15.8 NMAC, the administrator shall send to the retired licensee an application for reinstatement of license.

E. The application must be completed and returned to the board's administrator with the appropriate fee as required in sections 8, 9, 10 and 11 of 16.63.8 NMAC.

F. The applicant must, in addition provide satisfactory proof of:

(1) completion of no less than ten (10) hours of continuing education for each year of retirement; such continuing education to be accumulated in accordance with Part 12;

(2) completion of all continuing education requirements determined to have been unmet at the time retirement status was granted.

G. The board may, in its discretion, require that an applicant for reinstatement take and pass a written examination as prescribed by the board.

H. If the board finds the application in order and is satisfied that the applicant has fulfilled his continuing education requirements as outlined in Subsection F of 16.63.15.8 NMAC, the board shall issue the applicant a new license.

I. No person licensed under the Social Work Practice Act who has retired shall reactivate his practice until he receives his new license certificate.

J. The board will not accept applications for retirement from licensees who are under investigation for violations of the Social Work Practice Act or who have an active complaint pending with the board.

K. The board will accept applications under this section from any social worker who is impaired as further defined in this section and who is participating in a rehabilitation plan approved by the board. For purposes of this section, impaired means inability to practice social work with reasonable skill or safety to clients by reason of one or more of the following:

(1) mental illness;

(2) habitual or excessive use or abuse of drugs, as defined in the Controlled Substances Act (NMSA Sections 30-31-1 to 30-31-40) or alcohol.

16.63.16.7 DEFINITIONS:

[RESERVED]

16.63.16.8 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES TO CLIENTS:

A. Commitment to clients. Social workers' primary responsibility is to promote the well being of clients. In general, clients' interests are primary. However, social workers' responsibility to the larger society or specific legal obligations may on limited occasions supersede the loyalty owed clients, and clients shall be so advised. (Examples include when a social worker is required by law to report that a client has abused a child or has threatened to harm self or others.)

B. Self-determination. Social workers respect and promote the right of clients to self-determination and assist clients in their efforts to identify and clarify their goals. Social workers may limit clients' right to self-determination when, in the social workers' professional judgment, clients' actions or potential actions pose a serious, foreseeable, and imminent risk to themselves or others.

C. Professional disclosure statement. A social worker shall effectively communicate through handout or other means as appropriate for all clients and may display at the social worker's primary place of practice a statement that the client has the right to the following:

- (1)** to expect that the social worker has met the minimal qualifications of education, training, and experience required by the law;
- (2)** to examine public records maintained by the board which contain the social worker's qualifications and credentials;
- (3)** to be given a copy of the standards of practice upon request;
- (4)** to report a complaint about the social worker's practice to the board;
- (5)** to be informed of the cost of professional services before receiving the services;
- (6)** to privacy as allowed by law, and to be informed of the limits of confidentiality;
- (7)** limited access to client information; a social worker shall make reasonable efforts to limit access to client information in a social worker's agency to appropriate agency staff whose duties require access;
- (8)** supervision or consultation; a social worker receiving supervision shall inform the client that the social worker may be reviewing the client's case with the social worker's supervisor or consultant; upon request, the social worker shall provide the name of the supervisor and the supervisor's contact information;

(9) to be free from being the object of discrimination while receiving social work services; and

(10) to have access to records as allowed by law including retention and notification requirements in Paragraphs (4) and (5) of Subsection D of 16.63.16.10 NMAC.

D. Informed consent.

(1) Social workers shall provide services to clients only in the context of a professional relationship based, when appropriate, on valid informed consent. Social workers should use clear and understandable language to inform clients of the purpose of the services, risks related to the services, limits to services because of the requirements of a third-party payer, relevant costs, reasonable alternatives, clients' right to refuse or withdraw consent, and the time frame covered by the consent. Social workers should provide clients with an opportunity to ask questions.

(2) In instances when clients are not literate or have difficulty understanding the primary language used in the practice setting, social workers shall take steps to ensure clients' comprehension. This may include providing clients with a detailed verbal explanation or arranging for a qualified interpreter or translator whenever possible.

(3) In instances when clients lack the capacity to provide informed consent, social workers shall protect clients' interests by seeking consent from an appropriate third party, informing clients consistent with the clients' level of understanding. Social workers should take reasonable steps to enhance such clients' ability to give informed consent.

(4) In instances when clients are receiving services involuntarily, social workers shall provide information about the nature and extent of services and about the extent of clients' right to refuse service.

(5) Social workers who provide services via electronic media (such as computer, telephone, radio, and television) shall inform recipients of the limitations and risks associated with such services.

(6) Social workers shall obtain clients' informed consent before audiotaping or videotaping clients or permitting observation of services to clients by a third party. The written informed consent shall explain to the client the purpose of the taping or recording and how the taping or recording will be used, how it will be stored and when it will be destroyed.

(7) If the client, the legal guardian, or other authorized representative does not consent, the social worker shall discuss with the client that a referral to other resources may be in the client's best interest.

E. Competence.

(1) Social workers shall provide services and represent themselves as competent only within the boundaries of their education, training, license, certification, consultation received, supervised experience, or other relevant professional experience.

(2) Social workers shall provide services in substantive areas or use intervention techniques or approaches that are new to them only after engaging in appropriate study, training, consultation, or supervision from people who are competent in those interventions or techniques.

(3) When generally recognized standards do not exist with respect to an emerging area of practice, social workers shall exercise careful judgment and take responsible steps (including appropriate education, research, training, consultation, and supervision) to ensure the competence of their work and to protect clients from harm.

F. Cultural competence and social diversity.

(1) Social workers shall understand culture and its function in human behavior and society, recognizing the strengths that exist in all cultures.

(2) Social workers shall have a knowledge base of their clients' cultures and be able to demonstrate competence in the provision of services that are sensitive to clients' cultures and to differences among people and cultural groups.

(3) Social workers shall obtain education about and seek to understand the nature of social diversity and oppression with respect to race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, and mental or physical disability.

G. Conflicts of interest.

(1) Social workers shall be alert to and avoid conflicts of interest that interfere with the exercise of professional discretion and impartial judgment. Social workers shall inform clients when a real or potential conflict of interest arises and take reasonable steps to resolve the issue in a manner that makes the clients' interests primary and protects clients' interests to the greatest extent possible. In some cases, protecting clients' interests may require termination of the professional relationship with proper referral of the client.

(2) Social workers shall not take unfair advantage of any professional relationship or exploit others to further their personal, religious, political, or business interests.

(3) Social workers shall not engage in dual or multiple relationships with clients or former clients in which there is a risk of exploitation or potential harm to the

client. In instances when dual or multiple relationships are unavoidable, social workers shall take steps to protect clients and are responsible for setting clear, appropriate, and culturally sensitive boundaries. (Dual or multiple relationships occur when social workers relate to clients in more than one relationship, whether professional, social, or business. Dual or multiple relationships can occur simultaneously or consecutively.)

(4) When social workers provide services to two or more people who have a relationship with each other (for example, couples, family members), social workers shall clarify with all parties which individuals will be considered clients and the nature of social workers' professional obligations to the various individuals who are receiving services. Social workers who anticipate a conflict of interest among the individuals receiving services or who anticipate having to perform in potentially conflicting roles (for example, when a social worker is asked to testify in a child custody dispute or divorce proceedings involving clients) shall clarify their role with the parties involved and take appropriate action to minimize any conflict of interest.

H. Privacy and confidentiality.

(1) Social workers shall respect clients' right to privacy. Social workers shall not solicit private information from clients unless it is essential to providing services or conducting social work evaluation or research. Once private information is shared, standards of confidentiality apply.

(2) Social workers may disclose confidential information when appropriate with valid consent from a client or a person legally authorized to consent on behalf of a client.

(3) Social workers shall protect the confidentiality of all information obtained in the course of professional service, except for compelling professional reasons. The general expectation that social workers will keep information confidential does not apply when disclosure is necessary to prevent serious, foreseeable, and imminent harm to a client or other identifiable person. In all instances, social workers shall disclose the least amount of confidential information necessary to achieve the desired purpose; only information that is directly relevant to the purpose for which the disclosure is made shall be revealed.

(4) Social workers shall inform clients, to the extent possible, about the disclosure of confidential information and the potential consequences, when feasible before the disclosure is made. This applies whether social workers disclose confidential information on the basis of a legal requirement or client consent.

(5) Social workers shall discuss with clients and other interested parties the nature of confidentiality and limitations of clients' right to confidentiality. Social workers shall review with clients circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. This

discussion shall occur as soon as possible in the social worker-client relationship and as needed throughout the course of the relationship.

(6) When social workers provide counseling services to families, couples, or groups, social workers shall seek agreement among the parties involved concerning each individual's right to confidentiality and obligation to preserve the confidentiality of information shared by others. Social workers shall inform participants in family, couples, or group counseling that social workers cannot guarantee that all participants will honor such agreements.

(7) Social workers shall inform clients involved in family, couples, marital, or group counseling of the social worker's, employer's, and agency's policy concerning the social worker's disclosure of confidential information among the parties involved in the counseling.

(8) Social workers shall not disclose confidential information to third-party payers unless clients have authorized such disclosure.

(9) Social workers shall not discuss confidential information in any setting unless privacy can be ensured. Social workers shall not discuss confidential information in public or semipublic areas such as hallways, waiting rooms, elevators, and restaurants.

(10) Social workers shall protect the confidentiality of clients during legal proceedings to the extent permitted by law. When a court of law or other legally authorized body orders social workers to disclose confidential or privileged information without a client's consent and such disclosure could cause harm to the client, social workers shall request that the court withdraw the order or limit the order as narrowly as possible or maintain the records under seal, unavailable for public inspection.

(11) Social workers shall protect the confidentiality of clients when responding to requests from members of the media.

(12) Social workers shall protect the confidentiality of clients' written and electronic records and other sensitive information. Social workers shall take reasonable steps to ensure that clients' records are stored in a secure location and that clients' records are not available to others who are not authorized to have access.

(13) Social workers shall take precautions to ensure and maintain the confidentiality of information transmitted to other parties through the use of computers, electronic mail, facsimile machines, telephones and telephone answering machines, and other electronic or computer technology. Disclosure of identifying information shall be avoided whenever possible.

(14) Social workers shall transfer or dispose of clients' records in a manner that protects clients' confidentiality and is consistent with state statutes governing records and social work licensure.

(15) Social workers shall take reasonable precautions to protect client confidentiality in the event of the social worker's termination of practice, incapacitation, or death.

(16) Social workers shall not disclose identifying information when discussing clients for teaching or training purposes unless the client has consented to disclosure of confidential information.

(17) Social workers shall not disclose identifying information when discussing clients with consultants unless the client has consented to disclosure of confidential information or there is a compelling need for such disclosure.

(18) Social workers shall protect the confidentiality of deceased clients consistent with the preceding standards.

I. Access to records.

(1) Social workers shall provide clients with reasonable access to records concerning the clients. Social workers who are concerned that clients' access to their records could cause serious misunderstanding or harm to the client shall provide assistance in interpreting the records and consultation with the client regarding the records. Social workers shall limit clients' access to their records, or portions of their records, only in exceptional circumstances when there is compelling evidence that such access would cause serious harm to the client. Both clients' requests and the rationale for withholding some or all of the record shall be documented in clients' files.

(2) When providing clients with access to their records, social workers shall take steps to protect the confidentiality of other individuals identified or discussed in such records.

J. Sexual relationships.

(1) Social workers shall under no circumstances engage in sexual activities or sexual contact with current clients, whether such contact is consensual or forced.

(2) Social workers shall not engage in sexual activities or sexual contact with clients' relatives or other individuals with whom clients maintain a close personal relationship when there is a risk of exploitation or potential harm to the client. Sexual activity or sexual contact with clients' relatives or other individuals with whom clients maintain a personal relationship has the potential to be harmful to the client and may make it difficult for the social worker and client to maintain appropriate professional boundaries. Social workers--not their clients, their clients' relatives, or other individuals

with whom the client maintains a personal relationship--assume the full burden for setting clear, appropriate, and culturally sensitive boundaries.

(3) Social workers shall not engage in sexual activities or sexual contact with former clients because of the potential for harm to the client. If social workers engage in conduct contrary to this prohibition or claim that an exception to this prohibition is warranted because of extraordinary circumstances, it is social workers--not their clients--who assume the full burden of demonstrating that the former client has not been exploited, coerced, or manipulated, intentionally or unintentionally.

(4) Social workers shall not provide clinical services to individuals with whom they have had a prior sexual relationship. Providing clinical services to a former sexual partner has the potential to be harmful to the individual and is likely to make it difficult for the social worker and individual to maintain appropriate professional boundaries.

K. Physical contact. Social workers shall not engage in physical contact with clients when there is a possibility of psychological harm to the client as a result of the contact (such as cradling or caressing clients). Social workers who engage in appropriate physical contact with clients are responsible for setting clear, appropriate, and culturally sensitive boundaries that govern such physical contact.

L. Sexual harassment. Social workers shall not sexually harass clients. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

M. Derogatory language. Social workers shall not use derogatory language in their written or verbal communications to or about clients. Social workers shall use accurate and respectful language in all communications to and about clients.

N. Payment for services.

(1) A social worker who provides a service for fee shall inform a client of the fee at the initial session or meeting with the client. Payment must be arranged at the beginning of the professional relationship, and the payment arrangement must be provided to a client in writing. A social worker shall provide, upon request from a client, a client's legal guardian, or other authorized representative, a written explanation of the charges for any services rendered.

(2) When setting fees, social workers shall ensure that the fees are fair, reasonable, and commensurate with the services performed. Consideration should be given to clients' ability to pay.

(3) Social workers shall avoid accepting goods or services from clients as payment for professional services. Bartering arrangements, particularly involving services, create the potential for conflicts of interest, exploitation, and inappropriate boundaries in social workers' relationships with clients. Social workers shall explore and

may participate in bartering only in very limited circumstances when it can be demonstrated that such arrangements are an accepted practice among professionals in the local community, considered to be essential for the provision of services, negotiated without coercion, and entered into at the client's initiative and with the client's informed consent. Social workers who accept goods or services from clients as payment for professional services assume the full burden of demonstrating that this arrangement will not be detrimental to the client or the professional relationship.

(4) Social workers shall not solicit a private fee or other remuneration for providing services to clients who are entitled to such available services through the social workers' employer or agency.

O. Clients who lack decision-making capacity. When social workers act on behalf of clients who lack the capacity to make informed decisions, social workers shall take reasonable steps to safeguard the interests and rights of those clients.

P. Interruption of services. Social workers shall make reasonable efforts to ensure continuity of services in the event that services are interrupted by factors such as unavailability, relocation, illness, disability, or death.

Q. Termination of services.

(1) Social workers shall terminate services to clients and professional relationships with them when such services and relationships are no longer required or no longer serve the clients' needs or interests.

(2) Social workers shall take reasonable steps to avoid abandoning clients who are still in need of services. Social workers should withdraw services precipitously only under unusual circumstances, giving careful consideration to all factors in the situation and taking care to minimize possible adverse effects. Social workers should assist in making appropriate arrangements for continuation of services when necessary.

(3) Social workers in fee-for-service settings may terminate services to clients who are not paying an overdue balance if the financial contractual arrangements have been made clear to the client, if the client does not pose an imminent danger to self or others, and if the clinical and other consequences of the current nonpayment have been addressed and discussed with the client.

(4) Social workers shall not terminate services to pursue a social, financial, or sexual relationship with a client.

(5) Social workers who anticipate the termination or interruption of services to clients shall notify clients promptly and seek the transfer, referral, or continuation of services in relation to the clients' needs and preferences.

(6) Social workers who are leaving an employment setting shall inform clients of appropriate options for the continuation of services and of the benefits and risks of the options.

16.63.16.9 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES TO COLLEAGUES:

A. Respect.

(1) Social workers should treat colleagues with respect and should represent accurately and fairly the qualifications, views, and obligations of colleagues.

(2) Social workers should avoid unwarranted negative criticism of colleagues in communications with clients or with other professionals. Unwarranted negative criticism may include demeaning comments that refer to colleagues' level of competence or to individuals' attributes such as race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, and mental or physical disability.

(3) Social workers shall cooperate with social work colleagues and with colleagues of other professions when such cooperation serves the well-being of clients.

B. Confidentiality. Social workers shall respect confidential information shared by colleagues in the course of their professional relationships and transactions. Social workers should ensure that such colleagues understand social workers' obligation to respect confidentiality and any exceptions related to it.

C. Interdisciplinary collaboration.

(1) Social workers who are members of an interdisciplinary team shall participate in and contribute to decisions that affect the well-being of clients by drawing on the perspectives, values, and experiences of the social work profession. Professional and ethical obligations of the interdisciplinary team as a whole and of its individual members shall be clearly established.

(2) Social workers for whom a team decision raises ethical concerns should attempt to resolve the disagreement through appropriate channels. If the disagreement cannot be resolved, social workers shall pursue other avenues to address their concerns consistent with client well being.

D. Disputes involving colleagues.

(1) Social workers shall not take advantage of a dispute between a colleague and an employer to obtain a position or otherwise advance the social workers' own interests.

(2) Social workers shall not exploit clients in disputes with colleagues or engage clients in any inappropriate discussion of conflicts between social workers and their colleagues.

E. Consultation.

(1) Social workers should seek the advice and counsel of colleagues whenever such consultation is in the best interests of clients.

(2) Social workers should keep themselves informed about colleagues' areas of expertise and competencies. Social workers should seek consultation only from colleagues who have demonstrated knowledge, expertise, and competence related to the subject of the consultation.

(3) When consulting with colleagues about clients, social workers should disclose the least amount of information necessary to achieve the purposes of the consultation.

F. Referral for services.

(1) Social workers shall refer clients to other professionals when the other professionals' specialized knowledge or expertise is needed to serve clients fully or when social workers believe that they are not being effective or making reasonable progress with clients and that additional service is required.

(2) Social workers who refer clients to other professionals shall take appropriate steps to facilitate an orderly transfer of responsibility. Social workers who refer clients to other professionals shall disclose, with clients' consent, all pertinent information to the new service providers.

(3) Social workers are prohibited from giving or receiving payment for a referral when no professional service is provided by the referring social worker.

G. Sexual relationships.

(1) Social workers who function as supervisors or educators shall not engage in sexual activities or contact with supervisees, students, trainees, or other colleagues over whom they exercise professional authority.

(2) Social workers shall avoid engaging in sexual relationships with colleagues when there is potential for a conflict of interest. Social workers who become involved in, or anticipate becoming involved in, a sexual relationship with a colleague

have a duty to transfer professional responsibilities, when necessary, to avoid a conflict of interest.

H. Sexual harassment. Social workers shall not sexually harass supervisees, students, trainees, or colleagues. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

I. Impairment of colleagues.

(1) Social workers who have direct knowledge of a social work colleague's impairment that is due to personal problems, psychosocial distress, substance abuse, or mental health difficulties and that interferes with practice effectiveness shall consult with that colleague when feasible and assist the colleague in taking remedial action.

(2) Social workers who believe that a social work colleague's impairment interferes with practice effectiveness and that the colleague has not taken adequate steps to address the impairment shall take action through appropriate channels established by employers, agencies, licensing and regulatory bodies, and other professional organizations.

J. Incompetence of colleagues.

(1) Social workers who have direct knowledge of a social work colleague's incompetence shall consult with that colleague when feasible and assist the colleague in taking remedial action.

(2) Social workers who believe that a social work colleague is incompetent and has not taken adequate steps to address the incompetence shall take action through appropriate channels established by employers, agencies, NASW, licensing and regulatory bodies, and other professional organizations.

K. Unethical conduct of colleagues.

(1) Social workers shall take adequate measures to discourage, prevent, expose, and correct the unethical conduct of colleagues.

(2) Social workers shall be knowledgeable about established policies and procedures for handling concerns about colleagues' unethical behavior. Social workers shall be familiar with national, state, and local procedures for handling ethics complaints. These include policies and procedures created by licensing and regulatory bodies, employers, agencies, and other professional organizations.

(3) Social workers who believe that a colleague has acted unethically shall seek resolution by discussing their concerns with the colleague when feasible and when such discussion is likely to be productive.

(4) Social workers who believe that a colleague has acted unethically shall take action through appropriate formal channels established by employers, agencies, licensing and regulatory bodies, and other professional organizations.

(5) Social workers should defend and assist colleagues who are unjustly charged with unethical conduct.

[16.63.16.9 NMAC - Rp, 16.63.16.10 NMAC, 4/24/06; A, 06/01/09]

16.63.16.10 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES IN PRACTICE SETTINGS:

A. Supervision and consultation.

(1) Social workers who provide supervision or consultation shall have the necessary knowledge and skill to supervise or consult appropriately and shall do so only within their areas of knowledge and competence.

(2) Social workers who provide supervision or consultation are responsible for setting clear, appropriate, and culturally sensitive boundaries.

(3) Social workers shall not engage in any dual or multiple relationships with supervisees in which there is a risk of exploitation of or potential harm to the supervisee. In instances where dual or multiple relationships are unavoidable social workers should take steps to protect supervisees and are responsible for setting clear, appropriate, and culturally sensitive boundaries.

(4) Social workers who provide supervision shall evaluate supervisees' performance in a manner that is fair and respectful.

B. Education and training.

(1) Social workers who function as educators, field instructors for students, or trainers shall provide instruction only within their areas of knowledge and competence and shall provide instruction based on the most current information and knowledge available in the profession.

(2) Social workers who function as educators or field instructors for students shall evaluate students' performance in a manner that is fair and respectful.

(3) Social workers who function as educators or field instructors for students shall take reasonable steps to ensure that clients are routinely informed when services are being provided by students.

(4) Social workers who function as educators or field instructors for students shall not engage in any dual or multiple relationships with students in which there is a

risk of exploitation or potential harm to the student. In instances where dual or multiple relationships are unavoidable social work educators and field instructors are responsible for setting clear, appropriate, and culturally sensitive boundaries.

C. Performance evaluation. Social workers who have responsibility for evaluating the performance of others shall fulfill such responsibility in a fair and considerate manner and on the basis of clearly stated criteria.

D. Client records.

(1) Social workers shall take reasonable steps to ensure that documentation in records is accurate and reflects the services provided.

(2) Social workers shall include sufficient and timely documentation in records to facilitate the delivery of services and to ensure continuity of services provided to clients in the future.

(3) Social workers' documentation shall protect clients' privacy to the extent that is possible and appropriate and shall include only information that is directly relevant to the delivery of services.

(4) Social workers shall store records following the termination of services to ensure reasonable future access. These records shall be maintained by the licensee or agency employing the licensee at least for a period of seven years after the last date of service, or for the time period required by federal or state law if longer.

(5) Prior to the destruction of a client record for any reason including when a social worker or social work practice anticipates to cease or ceases operations as a result of a suspension, retirement or death of the owner, sale or other cause, including insolvency, the licensee or other individual responsible for supervising the disposition of the practice, should make reasonable effort to notify the clients of their right to retrieve current records for a period of six months. Should any client fail to retrieve the records within the six month period and unless otherwise required by law, the responsible party shall arrange the destruction of such documents in a manner to ensure confidentiality.

E. Billing. Social workers shall establish and maintain billing practices that accurately reflect the nature and extent of services provided and that identify who provided the service in the practice setting.

F. Client transfer.

(1) When an individual who is receiving services from another agency or colleague contacts a social worker for services, the social worker shall carefully consider the client's needs before agreeing to provide services. To minimize possible confusion and conflict, social workers shall discuss with potential clients the nature of the clients' current relationship with other service providers and the implications,

including possible benefits or risks, of entering into a relationship with a new service provider.

(2) If a new client has been served by another agency or colleague, social workers shall discuss with the client whether consultation with the previous service provider is in the client's best interest.

G. Administration.

(1) Social work administrators shall advocate within and outside their agencies for adequate resources to meet clients' needs.

(2) Social workers shall advocate for resource allocation procedures that are open and fair. When not all clients' needs can be met, an allocation procedure shall be developed that is nondiscriminatory and based on appropriate and consistently applied principles.

(3) Social workers who are administrators shall take reasonable steps to ensure that adequate agency or organizational resources are available to provide appropriate staff supervision.

(4) Social work administrators shall take reasonable steps to ensure that the working environment for which they are responsible is consistent with and encourages compliance with the code of conduct. Social work administrators should take reasonable steps to eliminate any conditions in their organizations that violate, interfere with, or discourage compliance with the code.

H. Continuing education and staff development. Social work administrators and supervisors should take reasonable steps to provide or arrange for continuing education and staff development for all staff for whom they are responsible. Continuing education and staff development shall address current knowledge and emerging developments related to social work practice and ethics.

I. Commitments to employers.

(1) Social workers generally should adhere to commitments made to employers and employing organizations.

(2) Social workers should work to improve employing agencies' policies and procedures and the efficiency and effectiveness of their services.

(3) Social workers should take reasonable steps to ensure that employers are aware of social workers' ethical obligations as set forth in the code of conduct and of the implications of those obligations for social work practice.

(4) Social workers shall not allow an employing organization's policies, procedures, regulations, or administrative orders to interfere with their ethical practice of social work. Social workers should take reasonable steps to ensure that their employing organizations' practices are consistent with the code of conduct.

(5) Social workers shall act to prevent and eliminate discrimination in the employing organization's work assignments and in its employment policies and practices.

(6) Social workers should accept employment or arrange student field placements only in organizations that exercise fair personnel practices.

(7) Social workers should be diligent stewards of the resources of their employing organizations, wisely conserving funds where appropriate and never misappropriating funds or using them for unintended purposes.

J. Labor-management disputes.

(1) Social workers may engage in organized action, including the formation of and participation in labor unions, to improve services to clients and working conditions.

(2) The actions of social workers who are involved in labor-management disputes, job actions, or labor strikes should be guided by the profession's values, ethical principles, and ethical standards. Reasonable differences of opinion exist among social workers concerning their primary obligation as professionals during an actual or threatened labor strike or job action. Social workers should carefully examine relevant issues and their possible impact on clients before deciding on a course of action.

[16.63.16.10 NMAC - N, 4/24/06; A, 06/01/09]

16.63.16.11 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES AS PROFESSIONALS:

A. Competence.

(1) Social workers shall accept responsibility or employment only on the basis of existing competence or the intention to acquire the necessary competence.

(2) Social workers shall strive to become and remain proficient in professional practice and the performance of professional functions. Social workers should critically examine and keep current with emerging knowledge relevant to social work. Social workers should routinely review the professional literature and participate in continuing education relevant to social work practice and social work ethics.

(3) Social workers shall base practice on recognized knowledge, including empirically based knowledge, relevant to social work and social work ethics.

B. Nondiscrimination. A social worker shall not discriminate against a client, student or supervisee on the basis of age, gender, sexual orientation, race, color, national origin, religion, diagnosis, disability, political affiliation, or social or economic status. If the social worker is unable to offer services because of a concern about potential discrimination against a client, student or supervisee, the social worker shall make an appropriate and timely referral. When a referral is not possible the social worker shall obtain supervision or consultation to address the concerns.

C. Private conduct. Social workers shall not permit their private conduct to interfere with their ability to fulfill their professional responsibilities.

D. Dishonesty, fraud, and deception. Social workers shall not participate in, condone, or be associated with dishonesty, fraud, or deception.

E. Impairment.

(1) Social workers shall not allow their own personal problems, psychosocial distress, legal problems, substance abuse, or mental health difficulties to interfere with their professional judgment and performance or to jeopardize the best interests of people for whom they have a professional responsibility.

(2) Social workers whose personal problems, psychosocial distress, legal problems, substance abuse, or mental health difficulties interfere with their professional judgment and performance shall immediately seek consultation and take appropriate remedial action by seeking professional help, making adjustments in workload, terminating practice, or taking any other steps necessary to protect clients and others.

F. Misrepresentation.

(1) Social workers shall make clear distinctions between statements made and actions engaged in as a private individual and as a representative of the social work profession, a professional social work organization, or the social worker's employing agency.

(2) Social workers who speak on behalf of professional social work organizations should accurately represent the official and authorized positions of the organizations.

(3) Social workers shall ensure that their representations to clients, agencies, and the public of professional qualifications, credentials, education, competence, affiliations, services provided, or results to be achieved are accurate. Social workers should claim only those relevant professional credentials they actually possess and take steps to correct any inaccuracies or misrepresentations of their credentials by others.

G. Solicitations.

(1) Social workers shall not engage in uninvited solicitation of potential clients who, because of their circumstances, are vulnerable to undue influence, manipulation, or coercion.

(2) Social workers shall not engage in solicitation of testimonial endorsements (including solicitation of consent to use a client's prior statement as a testimonial endorsement) from current clients or from other people who, because of their particular circumstances, are vulnerable to undue influence.

H. Acknowledging credit.

(1) Social workers shall take responsibility and credit, including authorship credit, only for work they have actually performed and to which they have contributed.

(2) Social workers shall honestly acknowledge the work of and the contributions made by others.

[16.63.16.11 NMAC - N, 4/24/06; A, 06/01/09]

16.63.16.12 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES TO THE SOCIAL WORK PROFESSION:

A. Integrity of the profession.

(1) Social workers shall work toward the maintenance and promotion of high standards of practice.

(2) Social workers shall uphold and advance the values, ethics, knowledge, and mission of the profession. Social workers shall protect, enhance, and improve the integrity of the profession through appropriate study and research, active discussion, and responsible criticism of the profession.

(3) Social workers should contribute time and professional expertise to activities that promote respect for the value, integrity, and competence of the social work profession. These activities may include teaching, research, consultation, service, legislative testimony, presentations in the community, and participation in their professional organizations.

(4) Social workers should contribute to the knowledge base of social work and share with colleagues their knowledge related to practice, research, and ethics. Social workers should seek to contribute to the profession's literature and to share their knowledge at professional meetings and conferences.

(5) Social workers should act to prevent the unauthorized and unqualified practice of social work.

B. Evaluation and research.

(1) Social workers should monitor and evaluate policies, the implementation of programs, and practice interventions.

(2) Social workers should promote and facilitate evaluation and research to contribute to the development of knowledge.

(3) Social workers should critically examine and keep current with emerging knowledge relevant to social work and fully use evaluation and research evidence in their professional practice.

(4) Social workers engaged in evaluation or research shall carefully consider possible consequences and shall follow guidelines developed for the protection of evaluation and research participants. Appropriate institutional review boards shall be consulted.

(5) Social workers engaged in evaluation or research shall obtain voluntary and written informed consent from participants, when appropriate, without any implied or actual deprivation or penalty for refusal to participate; without undue inducement to participate; and with due regard for participants' well-being, privacy, and dignity. Informed consent shall include information about the nature, extent, and duration of the participation requested and disclosure of the risks and benefits of participation in the research.

(6) When evaluation or research participants are incapable of giving informed consent, social workers shall provide an appropriate explanation to the participants, obtain the participants' assent to the extent they are able, and obtain written consent from an appropriate proxy.

(7) Social workers shall never design or conduct evaluation or research that does not use consent procedures, such as certain forms of naturalistic observation and archival research, unless rigorous and responsible review of the research has found it to be justified because of its prospective scientific, educational, or applied value and unless equally effective alternative procedures that do not involve waiver of consent are not feasible.

(8) Social workers shall inform participants of their right to withdraw from evaluation and research at any time without penalty.

(9) Social workers shall take appropriate steps to ensure that participants in evaluation and research have access to appropriate supportive services.

(10) Social workers engaged in evaluation or research shall protect participants from unwarranted physical or mental distress, harm, danger, or deprivation.

(11) Social workers engaged in the evaluation of services shall discuss collected information only for professional purposes and only with people professionally concerned with this information.

(12) Social workers engaged in evaluation or research shall ensure the anonymity or confidentiality of participants and of the data obtained from them. Social workers shall inform participants of any limits of confidentiality, the measures that will be taken to ensure confidentiality, and when any records containing research data will be destroyed.

(13) Social workers who report evaluation and research results shall protect participants' confidentiality by omitting identifying information unless proper consent has been obtained authorizing disclosure.

(14) Social workers shall report evaluation and research findings accurately. They shall not fabricate or falsify results and shall take steps to correct any errors later found in published data using standard publication methods.

(15) Social workers engaged in evaluation or research shall be alert to and avoid conflicts of interest and dual relationships with participants, shall inform participants when a real or potential conflict of interest arises, and shall take steps to resolve the issue in a manner that makes participants' interests primary.

(16) Social workers shall educate themselves, their students, and their colleagues about responsible research practices.

16.63.16.13 SOCIAL WORKERS' ETHICAL RESPONSIBILITIES TO THE BROADER SOCIETY:

A. Social welfare. Social workers should promote the general welfare of society, from local to global levels, and the development of people, their communities, and their environments. Social workers should advocate for living conditions conducive to the fulfillment of basic human needs and should promote social, economic, political, and cultural values and institutions that are compatible with the realization of social justice.

B. Public participation. Social workers should facilitate informed participation by the public in shaping social policies and institutions.

C. Public emergencies. Social workers should provide appropriate professional services in public emergencies to the greatest extent possible.

D. Social and political action.

(1) Social workers should engage in social and political action that seeks to ensure that all people have equal access to the resources, employment, services, and opportunities they require to meet their basic human needs and to develop fully. Social workers should be aware of the impact of the political arena on practice and should advocate for changes in policy and legislation to improve social conditions in order to meet basic human needs and promote social justice.

(2) Social workers should act to expand choice and opportunity for all people, with special regard for vulnerable, disadvantaged, oppressed, and exploited people and groups.

(3) Social workers should promote conditions that encourage respect for cultural and social diversity within the United States and globally. Social workers should promote policies and practices that demonstrate respect for difference, support the expansion of cultural knowledge and resources, advocate for programs and institutions that demonstrate cultural competence, and promote policies that safeguard the rights of and confirm equity and social justice for all people.

(4) Social workers should act to prevent and eliminate domination of, exploitation of, and discrimination against any person, group, or class on the basis of race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, or mental or physical disability.

16.63.19.8 DETERMINATION OF IMPAIRMENT:

A. Complaints will be reviewed in accordance with policies and procedures established by the Board.

If the complaint committee or the Board has reasonable cause to believe that a licensed social worker is unable to practice with reasonable skill and safety because of a mental disorder or habitual or excessive use of a controlled substance or alcohol, the committee or the Board shall report those findings and the Board shall cause an examination of the social worker to be made.

B. The Board shall appoint one or more people to evaluate the social worker in accordance with NMSA 1978 Section 61-31-19.

- (1) The social worker shall bear all costs of the evaluation.
- (2) The social worker shall sign all necessary releases and authorizations for release of medical or psychological records for the evaluator(s) to report to the Board.
- (3) The evaluator(s) shall order the social worker to appear before the evaluator(s) for hearing or evaluation and shall give the social worker ten (10) days notice of the time and place of the evaluation/hearing.
- (4) If the evaluator(s) determine a mental or physical examination is necessary, the evaluator(s) shall order the social worker to submit to such an examination.
- (5) Any social worker who submits to diagnostic mental or physical examinations as ordered by the evaluator(s) shall have a right to designate another evaluator to be present at any examination and to make an independent report to the Board.

(6) Failure of the social worker to comply with any requests of the evaluator(s) including appearing for hearing or submitting to medical or physical evaluations shall be reported directly to the Board and shall be grounds for immediate and summary suspension of the social worker's license by the Board followed by proceedings initiated under the Uniform Licensing Act.

(7) The evaluator(s) shall report findings and recommendations to the Board.

C. The Board shall review the findings and recommendations of the evaluator(s). The Board may accept or reject the recommendations of the evaluation or may refer the matter back to the evaluator(s) for further examination and report.

D. Upon receipt of an evaluation indicating impairment of the social worker, the Board shall appoint an advisory committee. The advisory committee will review the evaluator(s) report and other relevant information and will develop and submit to the Board recommendation regarding the social worker's amenability to treatment and rehabilitation which will include a written treatment plan. The advisory committee will also consider any voluntarily submitted treatment plan and report it to the Board. In its report the advisory committee shall state its reasons for participation in the approved treatment plan and shall state any conditions for continued treatment or release from the program.

E. Upon receipt of the advisory committee's report and recommendations, the Board may place conditions and stipulations on the social worker's license reflecting the advisory committee's recommendations or any other conditions the Board deems appropriate. The conditions and/or stipulations will be provided in written format.

F. Any social worker who does not agree to the conditions and/or stipulations set forth pursuant to subsection E of 16.63.19.8 NMAC above, shall be entitled to a hearing before the Board in accordance with the Uniform Licensing Act.

G. Any social worker participating in a treatment program shall enter into a contract with the Board as a condition of participation in the Impaired Social Worker Program.

H. The advisory committee shall receive reports from the various treatment providers and shall submit a report to the Board on at least a quarterly basis.

I. The advisory committee shall report all violations of the treatment program rules, regulations and policies to the Board within five (5) days.

J. The advisory committee shall report statistical information to the Board including but not limited to:

- (1) names of social workers in treatment;
- (2) a description of the treatment program;

- (3) progress reports;
- (4) social worker's compliance with financial obligations;
- (5) attendance reports (of Alcoholics Anonymous, counseling sessions, etc.);
- (6) lab reports; and
- (7) any other reports requested by the Board.

16.63.19.9 SELF REPORTING:

A social worker may request in writing to the Board a restriction of the social worker's license. The Board may grant such requests for restriction and shall have authority if deemed appropriate to attach conditions to the license of the social worker within specified limitations. The Board may waive commencement of any proceedings under this Part.

[6/22/92; 16.63.19.9 NMAC - Rn, 16 NMAC 63.19.9, 06/19/02]

16.63.19.10 REINSTATEMENT:

A social worker whose license has been restricted under this Part, voluntarily or by action of the Board shall have the right, at reasonable intervals, to petition for reinstatement of the license and to demonstrate that the social worker can resume the competent practice of social work with reasonable skill and safety to clients. Such petitions shall be in writing to the Board.

A. Action by the Board on such petitions shall be initiated by referral to an evaluator(s) in accordance with subsection B of 16.63.19.8 NMAC.

B. The Board may, upon written recommendation of the advisory committee, request final evaluation of the social worker. Upon receipt of a positive report by the evaluator(s) and agreement of the advisory committee, the social worker may be discharged from the Impaired Social Worker Program.

16.63.20.5 EFFECTIVE DATE:

November 2, 1995, unless a different date is cited at the end of a section.

[9/11/96; 16.63.20.5 NMAC – Rn & A, 16 NMAC 63.20.5, 06/19/02]

16.63.20.6 OBJECTIVE:

This part establishes the requirements and possible penalties for non-compliance of the Parental Responsibility Act.

[11/2/95; 16.63.20.6 NMAC - Rn, 16 NMAC 63.20.6, 06/19/02]

16.63.20.7 DEFINITIONS:

All terms defined in the Parental Responsibility Act shall have the same meanings in this Section. As used in this Section:

A. "HSD" means the New Mexico Human Services Department;

B. "Statement of compliance" means a certified statement from HSD stating that an applicant or licensee is in compliance with a judgment and order for support; and

C. "Statement of non-compliance" means a certified statement from HSD stating that an applicant or licensee is not in compliance with a judgment and an order for support.

[11/2/95; 16.63.20.7 NMAC - Rn, 16 NMAC 63.20.7, 06/19/02]

16.63.20.8 AUTHORITY:

The board adopts this Section pursuant to the Parental Responsibility Act (Ch.. 25, Laws of 1995).

[11/2/95; 16.63.20.8 NMAC - Rn, 16 NMAC 63.20.8, 06/19/02]

16.63.20.9 DISCIPLINARY ACTION:

If an applicant or licensee is not in compliance with a judgment and order for support, the board:

- A. shall deny an application for a license;
- B. shall deny the renewal of a license; and
- C. has grounds for suspension or revocation of the license.

[11/2/95; 16.63.20.9 NMAC - Rn, 16 NMAC 63.20.9, 06/19/02]

16.63.20.10 CERTIFIED LIST:

Upon receipt of HSD's certified list of obligors not in compliance with a judgment and order for support, the board shall match the certified list against the current list of board licensees and applicants. Upon the later receipt of an application for license or renewal, the board shall match the applicant against the current certified list. By the end of the month in which the certified list is received, the board shall report to HSD the names of board applicants and licensees who are on the certified list and the action the board has taken in connection with such applicants and licensees.

[11/2/95; 16.63.20.10 NMAC - Rn, 16 NMAC 63.20.10, 06/19/02]

16.63.20.11 INITIAL ACTION:

Upon determination that an applicant or licensee appears on the certified list, the Board shall:

- A. commence a formal proceeding under 16.63.20.9 NMAC to take the appropriate action under subsection A or B of 16.63.20.9 NMAC

B. for current licensees only, informally notify the licensee that the licensee's name is on the certified list, and that the licensee must provide the board with a subsequent statement of compliance from HSD by the earlier of the application for license renewal or a specified date not to exceed thirty (30) days. If the licensee fails to provide this statement, the board shall commence a formal proceeding under subsection C of 16.63.20.9 NMAC.

[11/2/95; 16.63.20.11 NMAC - Rn, 16 NMAC 63.20.11, 06/19/02]

16.63.20.12 NOTICE OF CONTEMPLATED ACTION:

Prior to taking any action specified in 16.63.20.9 NMAC, the board shall serve upon the applicant or licensee a written notice stating that:

A. the board has grounds to take such action, and that the board shall take such action unless the licensee or applicant:

(1) mails a letter (certified mail return receipt requested) within twenty (20) days after service of the notice requesting a hearing; or

(2) provides the board, within thirty (30) days of the date of the notice, with a Statement of Compliance from HSD;

B. if the applicant or licensee disagrees with the determination of non-compliance, or wishes to come into compliance, the applicant or licensee should contact the HSD Child Support Enforcement Division.

[11/2/95; 16.63.20.12 NMAC - Rn, 16 NMAC 63.20.12, 06/19/02]

16.63.20.13 EVIDENCE OF PROOF:

In any hearing under this Section, relevant evidence is limited to the following:

A. A statement of non-compliance is conclusive evidence that requires the board to take the appropriate action under 16.63.20.9 NMAC of this section, unless:

B. The applicant or licensee provides the board with a subsequent statement of compliance which shall preclude the board from taking any action under this Section.

[11/2/95; 16.63.20.13 NMAC - Rn, 16 NMAC 63.20.13, 06/19/02]

16.63.20.14 ORDER:

When a disciplinary action is taken under this Section solely because the applicant or licensee is not in compliance with a judgment and order for support, the order shall state that the application or license shall be reinstated upon presentation of a subsequent

statement of compliance. The board may also include any other conditions necessary to comply with board requirements for reapplications or reinstatement of lapsed licensees.

[11/2/95; 16.63.20.14 NMAC - Rn, 16 NMAC 63.20.14, 06/19/02]

16.63.20.15 PROCEDURES:

Proceedings under this Section shall be governed by the Uniform Licensing Act, Section 61-1-1 et seq.

16.64.3.10 PROVISIONS FOR EMERGENCY LICENSURE:

A. Funeral service practitioners currently licensed and in good standing, or otherwise meeting the requirements for New Mexico licensure in a state in which a federal disaster has been declared, may be licensed in New Mexico during the four months following the declared disaster at no cost upon satisfying the following requirements:

(1) receipt by the board of funeral services a completed application which has been signed and notarized and which is accompanied by proof of identity, which may include a copy of a drivers license, passport or other photo identification issued by a governmental entity;

(2) requirements have been met as set forth in 16.64.3.8 NMAC, 16.64.3.9 NMAC, 16.64.5.9 NMAC, 16.64.6.8 NMAC, 16.64.6.9 NMAC and 16.64.6.10 NMAC.

(3) applicant shall provide a sworn affidavit that provides the name, address, years of employment and supervisors name;

(4) sworn affidavit that the applicant was personally and professionally affected by the disaster;

(5) verification of previous employment will be accepted from co-worker when it is impossible to obtain it from the employer;

(6) nothing in this section shall constitute a waiver of qualifications of the requirements for licensure contained in 16.64.3 NMAC.

B. The board may waive the application fee of \$50.00, licensure fee of \$150.00 only, but not the \$50.00 examination fee.

C. The board may waive the specific forms required under Subsection A of 16.64.3.8 NMAC only if the applicant is unable to obtain documentation from the federal declared disaster areas.

D. Emergency provisional license shall expire four months from date of issue. Application for initial license shall be made on or before June 30, 2007 following the date of issue of the emergency provisional license.

E. The board reserves the right to request additional documentation, including but not limited to, recommendation forms and work experience verification forms prior to approving the initial license.

[16.64.3.10 NMAC - N/E, 11/10/2005; A, 8/8/2012]

16.64.3.11 TERMINATION OF EMERGENCY LICENSE:

A. The emergency license shall terminate upon the following circumstances:

(1) the issuance of an initial license under section 16.64.3 NMAC; or

(2) proof that the emergency license holder has engaged in fraud, deceit or misrepresentation in procuring or attempting to procure a license under this section.

B. Termination of an emergency license shall not preclude application for permanent licensure.

[RESERVED]

[6/15/1996; 16.64.4.7 NMAC - Rn, 16 NMAC 64.4.7, 9/15/2001]

16.64.4.8 GENERAL PROVISIONS:

The following requirements pertain to all establishments and crematories:

A. The building in which an establishment or crematory is located shall be in conformity with the requirements of the applicable federal, state and local statutes, rules, ordinances and zoning provisions, of good appearance and devoted primarily to the purpose for which it is licensed; provided, however, that a crematory may be located at any establishment if allowed by local ordinances and zoning provisions.

B. The site and any rooms or areas within the structure thereon, and the use thereof, shall conform to all applicable state and local statutes, rules, ordinances and zoning provisions, and shall be in clean condition and good repair at all times.

C. There shall be some identification visible from the street identifying the name of the establishment as licensed by the board; provided, however, that crematories shall not be required to have visible identification.

D. Within this state there may be presently licensed establishments which were lawful before 16.64 NMAC was effective in its original form on September 14, 1988, but which would not conform to the provisions of 16.64.4 NMAC, or future amendment. It is the intent of 16.64 NMAC to permit these physical structure nonconformities in accordance with the Funeral Services Act. To effectuate this intent, the application of 16.64 NMAC shall be prospective only from and after its effective date in its original form on September 14, 1988 and any existing physical structure nonconformity in a presently licensed establishment shall not be deemed grounds for revocation, suspension, denial or non-renewal of an establishment license for facilities existing and approved under the statutes and 16.64 NMAC in force at the date of the adoption hereof. Any such establishment whose license is revoked or not renewed, or any establishment which has any change in ownership as outlined in 16.64.4.11 NMAC shall be subject to the requirements of the board at the time such establishment applies to again become licensed. The provisions of 16.64.4 NMAC shall be deemed severable.

[2/7/1976...6/15/1996; 16.64.4.8 NMAC - Rn & A, 16 NMAC 64.4.8, 9/15/2001; A, 8/8/2012; A, 11/1/2019]

16.64.4.9 MINIMUM REQUIREMENTS OF ESTABLISHMENTS:

A. To be licensed by the board, each funeral services establishment shall have and maintain the following minimum requirements:

(1) a chapel/room specifically used for gatherings, rituals and ceremonies, which shall be at least 600 square feet (inside-wall-to-inside-wall) in size, and shall:

(a) have the capacity for seating not less than 60 persons and for the proper display of a casket containing the deceased;

(b) have good ventilation;

(c) be entirely and completely separated from both the preparation room and the casket display room, except for entrances and exits having doors; and

(2) a casket display room which shall be not less than 450 square feet (inside-wall-to-inside-wall) in size and shall:

(a) contain burial caskets or a range of models and prices with not less than 12 different adult burial caskets or models normally displayed, and if models are displayed then the burial caskets shall be available and warehoused within 50 miles of the establishment; and

(b) be adequately illuminated; and

(c) any rental casket considered for internment or cremation services shall have written disclosure as previously used merchandise; consent form shall be provided and signed by the surviving spouse or next of kin; and

(3) a preparation room which shall be not less than 150 square feet (inside-wall-to-inside-wall) in size and shall:

(a) be equipped with a sanitary flooring of tile or other suitable hard, impervious surface;

(b) be equipped with necessary drainage, lighting and ventilation;

(c) be equipped with the equipment and supplies necessary to embalm and otherwise prepare the human dead for final disposition and transportation including running hot and cold water, embalming table, head/arm/foot block, embalming machine, aspirator, arterial tubes, trocar with hose, cavity fluid injector, metal drain tubes or spring forceps, aneurysm needles/hooks, scissors, vascular clamps/locking forceps, hypo treatment needle, nasal aspirator, scalpel with sufficient blades, suture needles and suture thread, cotton, sufficient trocar buttons with applicator, razor, cosmetics, sealing powder, hardening compound, arterial and cavity fluid; and

(d) be entirely enclosed by flooring, walls and ceiling, except for proper ventilation and entrances and exits having doors.

B. To be licensed by the board, each commercial establishment shall have and maintain the following minimum requirements:

(1) a preparation room as outlined in Paragraph (3) of Subsection A of 16.64.4.9 NMAC; and

(2) an office which is entirely enclosed by flooring, walls and ceiling, except for proper ventilation and entrances and exits having doors, and which is totally separate from the preparation room except for entrances and exits having doors; and

(3) commercial establishments shall be exempt from the requirements of Paragraphs (1) and (2) of Subsection A of 16.64.4.9 NMAC, provided the licensee in charge certifies to the board that the commercial establishment will not exceed the provisions allowed for commercial establishments in the Funeral Services Act.

C. To be licensed by the board, each direct disposition establishment shall have and maintain the following minimum requirements:

(1) a room for sheltering dead human bodies which shall:

(a) be equipped with a sanitary flooring of tile or other suitable hard, impervious surface;

(b) be equipped with necessary drainage, lighting and ventilation;

(c) have a refrigeration unit thermostatically controlled with a minimum storage area of 12 and one-half cubic feet per body;

(d) be entirely enclosed by flooring, walls and ceiling, except for proper ventilation and entrances and exits having doors;

(2) an office which is entirely enclosed by flooring, walls and ceiling, except for proper ventilation and for entrances and exits having doors, and which is totally separate from the room where bodies are sheltered except for entrances and exits having doors; and

(3) if the establishment contains burial caskets or a range of models the establishment shall comply with the requirements of Paragraph (2) of Subsection A of 16.64.4.9 NMAC.

D. To be licensed by the board, each funeral establishment shall: entirely complete a body tracking sheet which shall be kept in the deceased file; and obtain and maintain

body transport record log at the time of which the deceased is transported to the establishment which shall be kept in the deceased file; the log shall include:

- (1) name of deceased;
- (2) date of death;
- (3) time of death;
- (4) date and time placed in refrigeration;
- (5) date and time removed from refrigeration;
- (6) condition of body prior to transport;
- (7) condition of body at the time of delivery; and
- (8) weather conditions during time of transport.

16.64.4.10 LICENSEE IN CHARGE AND SEPARATE ESTABLISHMENTS:

A. Each establishment shall have in charge, full-time therein, a funeral service practitioner.

(1) The licensed funeral service practitioner for a funeral establishment shall live within 90 minutes by legal road travel of the establishment.

(2) The licensed funeral service practitioner of a commercial establishment shall live within 90 minutes by legal road travel of the establishment.

(3) The licensee in charge of a direct disposition establishment shall be a licensed direct disposer, and shall live 90 minutes by legal road travel of the establishment.

B. A licensee in charge may be licensee in charge of more than one establishment provided that the requirements outlined in Subsection A of 16.64.4.10 NMAC have been met, and:

- (1) the establishments are within 50 miles by legal road travel of each other;
- (2) the licensee in charge lives within 90 minutes by legal road travel of each establishment; and

(3) application is made in accordance with the requirements outlined in 16.64.4.11 NMAC for a change in the licensee in charge.

[2/7/1976...9/26/1993; 16.64.4.10 NMAC - Rn & A, 16 NMAC 64.4.10, 9/15/2001; A, 10/6/2012]

16.64.4.11 CHANGES OF ESTABLISHMENT AND CREMATORY LICENSES:

A. An establishment or crematory license is an authority granted to the person, firm partnership, corporation, association, joint venture, or other organization, or any combination thereof, and is not transferable. A change in business designation of an establishment or crematory or of a licensee in charge of an establishment may have the legal effect of attempting to transfer the license and of operating without a license. Therefore, all such changes shall be filed with the board on an application form prescribed by the board, accompanied by the required fees, within 30 days following any such change.

(1) Incorporation creates a new legal entity which requires a new license even though one or more stockholders, officers or directors have been previously issued a license. A license to practice funeral service or direct disposition held by a stockholder, officer or director is not authority to the corporation to operate as a funeral or direct disposition establishment.

(2) The organization of a partnership or joint venture creates a new legal entity which requires a new license, even though one or more of the partners have previously been issued a license.

(3) The dissolution of a corporation or partnership which has been issued a license, operates to terminate the license and no individual or firm may operate under such a terminated license.

(4) The change of members of a general partnership, or in the general partner membership of a limited partnership, either the addition or withdrawal of a partner or partners, establishes a new legal entity which requires a new license and such partnership cannot operate on a license of the former partnership.

(5) The change of ownership of fifty percent or more of the stock in a corporation or shares in a partnership operates to terminate the license and a new license is required, even if the licensee in charge does not change.

(6) A change in the licensee in charge operates to terminate the establishment license and the establishment can continue to operate only under a new license granted by the board and designating the new licensee in charge. The revocation, suspension, lapse or other loss of the license of the licensee in charge shall likewise cause a termination of the existing establishment license.

(7) A change in location of an establishment or crematory shall require a new establishment or crematory license.

(8) A change in the name of an establishment or crematory shall require a new establishment or crematory license.

(a) Any change in name shall not be announced, used, or in any way conveyed to the public until the new license is issued by the board.

(b) All advertising, signs, listings, newspaper notices, as well as all stationery, business cards, etc., as well as those on the internet, of an establishment or crematory licensed by the board shall include the name, license number and address of the establishment or crematory, exactly as licensed by the board, and all references to the new name shall be changed within 30 days following the board meeting at which the new license was issued.

B. Prior to the issuance of a new license under Subsection A of 16.64.4.11 NMAC the board may require an inspection of the establishment or crematory, however an inspection of the establishment or crematory shall be required for a change under Paragraph (7) of Subsection A of 16.64.4.11 NMAC prior to the issuance of a new license.

C. Failure to file for a change of an establishment or crematory license within the 30 day period shall be grounds for termination of licenses of the establishment and the licensee in charge, or of the crematory license.

D. Upon filing for any change, the establishment or crematory shall continue to operate under its current license until the next board meeting, provided all other provisions of the Funeral Services Act are followed.

E. Re-inspections.

(1) The requirement for a re-inspection is based on the following:

(a) the inspector has attempted on two occasions to inspect the establishment or crematory to no avail, and would include the situation where the establishment or crematory is closed during normal business hours and that the licensee in charge is not available within one hour of contact made or attempted by the inspector; or

(b) the establishment or crematory is found to be in non-compliance with the board's inspection requirements.

(2) A re-inspection and penalty fee will be imposed on any establishment or crematory if a re-inspection is required. The licensee in charge of an establishment or a crematory authority will be informed that a re-inspection and penalty fee is being assessed and the reason for the re-inspection.

(3) If the board has good reason to believe that the Funeral Services Act or 16.64 NMAC, governing the inspection requirements have been violated, a re-inspection and penalty fee will be assessed only if a violation exists.

[6/15/1996; 16.64.6.5 NMAC - Rn & A, 16 NMAC 64.6.5, 9/15/2001]

16.64.6.6 OBJECTIVE:

16.64.6 NMAC is to establish the continuing education requirements and procedures, to ensure that licensees provide the highest quality professional service. Therefore licensees should engage in education activities that foster this objective.

[6/15/1996; 16.64.6.6 NMAC - Rn, 16 NMAC 64.6.6, 9/15/2001]

16.64.6.7 DEFINITIONS:

A. "Continuing education" means that education which is obtained by a licensee to develop, maintain, improve or expand skills and knowledge. This education may be obtained through formal or informal education processes, school study, research and participation in professional, technical and occupational societies and by other similar means as authorized by the board.

B. "Approved provider" means any provider approved by the board or its designee.

C. "Renewal period" means July 1st through June 30th.

[9/14/1988...9/26/1993; 16.64.6.7 NMAC - Rn & A, 16 NMAC 64.6.7, 9/15/2001]

16.64.6.8 GENERAL PROVISIONS:

A. Requests for approval of continuing education activities shall be submitted to the board on a form prescribed by the board. No license renewal shall be issued without board action if there exists any question by the board administrator as to the acceptance of a particular continuing education activity. The burden shall be on the licensee to ascertain from the board if a continuing education activity is acceptable, and to provide proof of completion of the continuing education activity for the renewal period.

B. 10 hours of continuing education, including 2 hours of ethics, shall equal one continuing education unit (CEU).

C. Regardless of what part of the year a person becomes licensed, there shall be no reduction or pro-rating of continuing education hours required for the next renewal period; provided however, that any person who was first licensed during the same renewal period as he or she graduated from an accredited school of funeral service education shall not be required to earn continuing education for the next renewal.

D. Any person who holds more than one license issued by the board may use the same continuing education hours for renewal of both licenses without having to earn separate continuing education hours for each license renewal.

16.64.6.9 CONTINUING EDUCATION:

The board may, subject to Subsection A of 16.64.6.10 NMAC, recognize continuing education in the following areas related to funeral services.

A. Academic activities:

- (1) completion of courses offered by accredited institutions of higher education; and
- (2) completion of home study courses offered by approved sponsors of such courses.

B. Professional activities:

- (1) attendance at workshops, conferences, seminars and institutions of approved funeral service educational opportunities;
- (2) service on a board of directors of a funeral service organization, including the New Mexico board of funeral services; and
- (3) published literary contributions.

C. Public education and service:

- (1) conducting or participating as an instructor in school presentations and other related workshops, conferences, seminars and institutions;
- (2) speeches on funeral service before religious or civic organizations; and
- (3) attendance at meetings of the board.

[9/14/1988...9/26/1993; 16.64.6.9 NMAC - Rn & A, 16 NMAC 64.6.9, 9/15/2001; A, 8/8/2012]

16.64.6.10 LIMITATIONS:

A. The amount of continuing education credit the board will recognize for any activity will be at the sole discretion of the board, provided however, that the board will grant credit for activities offered by any approved provider of continuing education subject to the limitation imposed in Subsection B of 16.64.6.10 NMAC.

B. No more than four hours {.4 CEU} of continuing education credit shall be granted in any renewal period for activities as outlined in Subsection C of 16.64.6.9 NMAC.

C. Upon application for renewal of a license, the applicant shall furnish evidence of having completed continuing education hours to the following extent.

(1) Funeral service practitioners shall be required to complete 10 hours, 2 of which must be in ethics for a total of {1.0 CEU}.

(2) Funeral service interns who are allowed to practice under the general supervision of a funeral service practitioner in any category shall be required to complete 10 hours, 2 of which must be in ethics for a total of {1.0 CEU}.

(3) Direct disposers shall be required to complete 10 hours, 2 of which must be in ethics for a total of {1.0 CEU}.

16.64.7.8 GENERAL PROVISIONS:

All licenses issued by the board expire June 30 of each year and shall be renewed by submitting a completed renewal application, accompanied by the required fees, on a form prescribed by the board.

[2-7-76...9-26-93; 16.64.7.8 NMAC - Rn, 16 NMAC 64.7.8, 09-15-01]

16.64.7.9 INACTIVE STATUS:

A. Any licensee, excluding funeral service intern licensees, who wishes to place his or her license on inactive status shall notify the board in writing, on a form prescribed by the board, prior to the expiration of his or her current license.

B. A license placed on inactive status by the board may be renewed within a period not to exceed five years following the date the board granted the inactive status.

C. Upon approval by the board of an inactive request, the licensee shall be exempt from the payment of the annual renewal fee during the period of inactive status.

D. No license will automatically be placed on inactive status by failure of the licensee to renew his or her license.

E. No license shall be placed on inactive status if the licensee is under investigation or if disciplinary proceedings have been initiated.

F. Disciplinary proceedings may be initiated or continued against a licensee who has been granted inactive status.

G. Any licensee who has placed his or her license on inactive status shall notify the board of his or her desire to reinstate the inactive license. Upon receipt of such notice, the board administrator shall send to the inactive licensee an application for reinstatement.

H. A licensee may reactivate the license upon submission of the following:

- (1)** a reinstatement application;
- (2)** payment of the renewal and reinstatement fee listed in 16.64.2 NMAC;
- (3)** proof of continuing education units listed in 16.64.6 NMAC; and
- (4)** successful completion of the written jurisprudence examination listed in Subsection B of 16.64.7 NMAC.

I. Any person who, after five years of inactive status, desires to reinstate his or her license, must make application to the board and comply with the same requirements as any previously unlicensed applicant.

J. If a request for reinstatement of an inactive license occurs in the same renewal period, as defined in Subsection C of 16.64.6.7 NMAC, that the inactive status was granted, the applicant shall not be required to complete additional continuing education requirements or the jurisprudence exam in order for the inactive license to be reinstated.

16.64.7.10 LICENSE RENEWAL:

A. All licensees shall renew their license on or before June 30th of each year.

B. Application for renewal shall be completed on a form provided by the board.

C. A license may be renewed upon submission of the following:

- (1)** a completed renewal application;
- (2)** payment of the renewal and reinstatement fee outlined in 16.64.2 NMSA;
- (3)** proof of continuing education units outlined in 16.64.6 NMAC.

D. A licensee who is age 65 or above and who has been licensed by the board for at least 20 consecutive years shall not be required to meet continuing education requirements.

E. Failure to submit the required documents and fees by June 30th shall cause the license to expire and the license holder must refrain from practicing.

F. The licensee may renew within a sixty-day grace period, by submitting payment of the renewal fee and late fee outlined in 16.64.2 NMAC and compliance with all renewal requirements.

G. A license that has not renewed within the 60-day grace period shall be expired and invalid. A holder of an expired license shall be required to reapply as a new applicant.

H. The board will send by electronic mail, license renewal notifications to licensees or registrants before the license expiration date to the last known email address on file with the board. Failure to receive the renewal notification shall not relieve the licensee or registrant of the responsibility of timely renewal on or before the expiration date.

[RESERVED]

[6/15/1996; 16.64.8.7 NMAC - Rn, 16 NMAC 64.8.7, 9/15/2001]

16.64.8.8 GENERAL PROVISIONS:

A. Each funeral service intern shall inform the board, on quarterly reports prescribed by the board, of the work completed by the funeral service intern, and the name(s) of the funeral service practitioner(s) who supervised each activity, and shall be for the periods as follows, until such time as the minimum requirements are met, as determined by the board:

- (1) July 1 thru September 30, inclusive;
- (2) October 1 thru December 31, inclusive;
- (3) January 1 thru March 31, inclusive;
- (4) April 1 thru June 30, inclusive.

B. Original quarterly reports shall be due at the office of the board within 30 days of the close of the quarter (faxed reports will not be accepted). Any quarter for which a report is not received by the date due shall not count as time toward the internship.

C. A funeral service intern may be employed by, or receive training at, more than one funeral or commercial establishment concurrently provided that:

- (1) the establishments are part of the same company;
- (2) the establishments are within 50 miles by road travel of each other; and

(3) application is made, together with the application fee for each license held, 30 days prior to employment or training.

D. A funeral service intern shall make it known that he or she is a funeral service intern under the supervision of a funeral service practitioner, and that he or she is not licensed as a funeral service practitioner nor the licensee in charge.

E. A funeral service intern shall not use the title funeral director and shall use the title funeral service intern. The titles funeral practitioner, funeral director or mortician are reserved for fully licensed practitioners and licensed arrangers in order to prevent the general public from misunderstanding the terms.

F. A funeral service intern shall practice funeral service only under the supervision of a funeral service practitioner, provided:

(1) when a funeral service intern has made arrangements for 50 funerals under direct supervision, he or she may request approval from the board to make arrangements under general supervision; the request shall be made on an application form prescribed by the board, accompanied by the required fees, provided that if the fees were previously paid for a request in accordance with Paragraph (3) of Subsection F of 16.64.8.8 NMAC, the fees shall not be required; and

(2) when a funeral service intern has assisted in embalming of 50 bodies under direct supervision, he or she may request approval from the board to embalm under general supervision; the request shall be made on an application form prescribed by the board, accompanied by the required fees; and

(3) when a funeral service intern has assisted in the directing of 50 funerals, committal services, grave side services or memorial services under direct supervision, he or she may request approval from the board to direct such services under general supervision; the request shall be made on an application form prescribed by the board, accompanied by the required fees, provided that if the fees were previously paid for a request in accordance with Paragraph (1) of Subsection F of 16.64.8.8 NMAC, the fees shall not be required.

G. A funeral service intern shall not practice funeral service in any category under general supervision until application is made, together with the required fees, and approval has been granted by the board.

H. A funeral service intern shall be required to make arrangements during his or her internship in order to qualify for a license as a funeral service practitioner.

I. A funeral service intern shall not be required to practice funeral service under general supervision in any category regardless of the amount of time served or work completed as a funeral service intern.

J. A funeral service intern who is practicing funeral service under general supervision in any category shall be subject to the continuing education requirements of 16.64.6 NMAC.

K. A funeral service intern may receive training under more than one licensed funeral service practitioner, provided the board is notified, in writing, of any changes within 30 days following a change.

L. Any time served, and properly reported to the board, as a resident trainee under prior law will be considered the same as time served as a funeral service intern.

M. A funeral service intern who is practicing funeral service under direct supervision in any category is required to have the licensed funeral service practitioner review and co-sign all contracts prepared by the funeral service intern.

N. A funeral service intern who has a change of employment shall:

(1) return the old license; and

(2) make application for each license held, together with the application fee for each license held as outlined in Subsection D or E of 16.64.2.8 NMAC, within 30 days of the change.

16.64.9.8 DIRECT DISPOSITION PRACTICES:

A. Every direct disposer in this state shall give or cause to be given to the person or persons arranging for a direct disposition, prior to the time of direct disposition, in addition to any other disclosure required by any statute or regulations, a written statement disclosing:

(1) that prior to interment, entombment, or final disposition of a dead human body or cremated remains, the direct disposer cannot participate in any rites or ceremonies in connection with the final disposition of the remains;

(2) that prior to interment, entombment, or final disposition of a dead human body or cremated remains, the direct disposer cannot provide facilities for rites or ceremonies in connection with the final disposition of the remains;

(3) that a body cannot be embalmed unless embalming is required by the place of disposition, and then only by a person licensed to embalm;

(4) that there can be no viewing of the body except for the purpose of identification;

(5) that the purchase of any funeral merchandise, and the price thereof, from the direct disposer, does not include any rites or ceremonies or other use of facilities not inherent to the direct disposition; and

(6) that a direct disposer may transport, or cause transportation of, a body to a place where services will be conducted with the body present, provided the direct disposer or his agent obtains a signed release from the person accepting the body, which person shall be the person having the right to control the disposition of the body, that person's agent, and the direct disposer or his agent cannot thereafter transport, or cause transportation of, the body to any place; such signed release shall be kept on file at the direct disposition establishment for a period of not less than five years.

B. A direct disposer or direct disposition establishment shall not be listed in any listing, advertisement or newspaper notice which may give the impression to the public that the direct disposer or direct disposition establishment is, in any way, engaged in the practice of funeral service.

C. No direct disposer shall allow or cause his or her name or the name of the direct disposition establishment to be used in any obituary or death notice in which a ceremony or rite for the deceased is announced, unless such obituary or death notice makes it specifically clear that the direct disposer and direct disposition establishment are not connected in any way to the ceremony or rite.

16.64.10.6 OBJECTIVE:

16.64.10 NMAC is to establish the scope of practice for crematories, cremation requirements and requirement of crematories and establishments for maintaining records and disposing of cremated remains.

[6/15/1996; 16.64.10.6 NMAC - Rn & A, 16 NMAC 64.10.6, 9/15/2001; A, 11/1/2019]

16.64.10.7 DEFINITIONS:

A. "Cremation" and **"calcination"** are considered synonymous, and means the final disposition of the dead human body to a residue of cremated remains.

B. "Authorizing agent(s)" means the person(s) legally entitled to order the cremation.

C. "Cremated remains container" means any container in which cremated remains may be enclosed which will avoid leakage and prevent the entrance of foreign substances.

D. "Cremation container" means an enclosure in which a dead human body is placed for delivery to a crematory and subsequently cremated with the body.

E. "Crematory authority" means an authorized representative of a crematory.

F. "Urn" means a cremated remains container considered to be decorative, that varies in size, styling and composition.

[11/21/1986...9/26/1993; 16.64.10.7 NMAC - Rn & A, 16 NMAC 64.10.7, 9/15/2001; A, 11/1/2019]

16.64.10.8 CREMATION PRACTICES:

A. No cremation shall take place until all necessary documentation is obtained or a court order has been issued authorizing the cremation; such documentation shall include:

- (1)** signed authorization by the authorizing agent(s);
- (2)** signed permit from the office of the medical investigator of the state, or its equivalent if the death occurred outside this state; provided no such permit shall be required for the cremation of fetal deaths; and
- (3)** any other form(s) which may be required by the crematory in order for the cremation to take place.

B. For acceptance by the crematory, a dead human body must be enclosed in an acceptable cremation container and identification of the dead body must be noted on the outside of the cremation container.

(1) A cremation container is considered acceptable if it meets or exceeds the following minimum standards:

- (a)** is composed of a suitable combustible material;
- (b)** is rigid and secure for handling with ease, which includes a rigid bottom and full dome enclosure;
- (c)** provides for complete covering of the enclosed dead human body; and

(2) A cremation container is considered unacceptable if it is composed of any explosive material or such other material as fiberglass, plastic resin compound, or other synthetic material not suitable for combustion in a cremation retort.

(3) Any crematory may make its own requirements as to the acceptability of a cremation container, provided they are not less than outlined in 16.64.10 NMAC, and are not otherwise in any way in violation of any statute, ordinance or rule.

C. The crematory authority may require that all pacemakers, radium implants and all explosive devices implanted in the body, or attached thereto, be removed, at the expense of the authorizing agent(s), prior to the cremation.

D. The unauthorized simultaneous cremation of more than one dead human body within the same cremation retort is specifically prohibited.

E. A crematory may simultaneously cremate more than one dead human body in the same cremation retort upon receipt of written authorization to do so from the authorizing agent(s) of each dead human body. Such written authorization shall also exempt the crematory authority from all liability in commingling the cremated remains of simultaneous cremation.

F. No crematory authority shall be required to simultaneously cremate more than one dead human body even if authorized by the authorizing agent(s).

G. Immediately prior to placing a dead human body into the cremation retort, the identification of the cremation container shall be verified and identification of the body shall be placed on the cremation retort panel, where it shall remain in place until the cremation is completed.

H. To the extent that is reasonably practical, all residue of each cremation shall be removed from the cremation retort, and shall not be commingled with any other cremated remains unless directed by the authorizing agent(s) and agreed to by the crematory authority.

I. All body prosthetics, dental work or similar items separated from any cremated remains shall be disposed of by the crematory authority, unless otherwise ordered by the authorizing agent(s) at the time the cremation authorization is executed.

J. Properly identified cremated remains shall be placed in a cremated remains container as directed by the authorizing agent(s) or crematory authority. The crematory authority is required to provide cremated remains of adequate size to accommodate all the cremated remains from each cremation unless a cremated remains container is furnished by the authorizing agent(s). In either case, the crematory authority shall have a written agreement with the authorizing agent(s) if the cremated remains container is not of sufficient size to enclose the cremated remains.

K. Cremated remains may be disposed in any lawful manner by any establishment, crematory authority, cemetery or person having the right to control the disposition of the cremated remains, or that person's agent.

L. Establishments and crematories shall keep an accurate record of all cremations performed, and the place of disposition of the cremated remains, for a period of not less than seven years.

M. Any legal forms for cremation authorization shall contain wording that will hold harmless a crematory authority, or establishment from disposing of unclaimed cremated remains in any lawful manner after a period of one year.

16.64.11.6 OBJECTIVE:

16.64.11 NMAC establishes the procedures for filing and processing complaints, and for taking disciplinary action against licensees and applicants for licensure, for violations of provisions in the Funeral Services Act or any rule or regulation issued pursuant to the Act.

[2/21/1997; 16.64.11.6 NMAC - Rn, 16 NMAC 64.11.6, 9/15/2001; A, 8/8/2012; A, 12/28/2021]

16.64.11.7 DEFINITIONS:

A. "Complaint" means a complaint filed with the board.

B. "Complainant" means the complaining party of a complaint filed against a licensee(s), or applicant for licensure, who is/are governed under the Funeral Services Act.

C. "disqualifying criminal conviction" has the same meaning as defined in Subsection E of Section 61-1-36 NMSA 1978.

D. "Respondent" means an applicant for licensure, a licensee or other person subject to the provisions of the Funeral Services Act, and who is the subject of a complaint for claimed violations of the Act or any rule or regulation issued pursuant to the Act.

E. "Notice of contemplated action" means the administrative process used by the board for a licensee or applicant for licensure to be afforded notice and an opportunity to be heard in a formal hearing setting before the board has authority to take any action which would have the effect of denying, revoking, or suspending a license or application for licensure governed by the Uniform Licensing Act.

16.64.11.8 GENERAL PROVISIONS:

A. Any person, including any member of the board or board staff, may initiate a complaint in writing. Complaints should be submitted on a form prescribed by the board.

B. Complaints shall contain factual allegations constituting violations of any provisions of the Funeral Services Act or any rule or regulation issued pursuant to the Act.

[2/21/1997; 16.64.11.8 NMAC - Rn & A, 16 NMAC 64.11.8, 9/15/2001; A, 8/8/2012; A, 12/28/2021]

16.64.11.9 PROCEDURES FOR RECEIPT OF A COMPLAINT:

A. The board's designee will maintain a written log of all complaints received which records at a minimum, the date the complaint was received, and name, addresses of the complainant and respondent.

B. Upon receipt of a complaint the board's designee will:

- (1) log in the date the complaint was received;

(2) determine whether the respondent is licensed, or an applicant for licensure with the board;

(3) send the complainant written acknowledgment of receipt of the complaint; and

(4) immediately forward the complaint to the complaint committee; the complaint committee chair will be responsible for convening the complaint committee to review the complaint(s).

[2-21-97, 1-22-99; 16.64.11.9 NMAC - Rn, 16 NMAC 64.11.9, 09-15-01; A, 04-02-10]

16.64.11.10 COMPLAINT COMMITTEE:

A. The board chair will appoint a complaint committee consisting of at least one person, who will be a professional member on the board. The board chair may also appoint to the complaint committee the board administrator or a complaint manager.

B. The complaint committee will handle complaints in a confidential manner as required by law.

C. The complaint committee will review all complaints received by the board, conduct whatever action it deems necessary in the course of gathering information, and make recommendations for disposition of the complaint to the full board in executive session to maintain the confidentiality of the complaint.

D. No complaint committee meeting will be held without the presence of the professional board member.

E. A complaint committee member who is partial or who believes he or she is not capable of judging a particular controversy fairly on the basis of its own circumstances will not participate and another member will be appointed by the chair to serve on the committee if required.

F. For any complaint which the complaint committee reasonably anticipates may be referred to the board for consideration of the issuance of a notice of contemplated action, the respondent will be provided a copy of the complaint and will be allowed a reasonable time in which to respond to the allegations in the complaint. The foregoing notwithstanding, the complaint committee will not be required to provide the respondent with a copy of the complaint, or with notice of the filing of a complaint or any related investigation, prior to the issuance of a notice of contemplated action if the committee determines that disclosure may impair, impede or compromise the efficacy or integrity of the investigation.

G. If the complaint committee determines that further information is needed, it may issue investigative subpoenas, pursuant to the Uniform Licensing Act; employ an

investigator, or experts, or other persons whose services are determined to be necessary, in order to assist in the processing and investigation of the complaint. The complaint committee will have independent authority to employ such persons, without prior approval of the board. The board administrator will determine budgetary availability, and will contract for investigative services.

H. Upon completion of its review or investigation of a complaint, the complaint committee will present a summary of the case to the board for the purpose of enabling the board to decide whether to proceed with the case or to dismiss the case. The summary will be identified by complaint number without identifying the complainant(s) or respondent(s) by name.

[2/21/1997, 1/22/1999; 16.64.11.10 NMAC - Rn & A, 16 NMAC 64.11.10, 9/15/2001; A, 12/28/2021]

16.64.11.11 BOARD ACTION:

A. If the board determines that it lacks jurisdiction or that there is not sufficient evidence or cause to issue a notice of contemplated action, the case will be closed. The board's designee will send a letter of the board's decision to both the complainant and respondent. The letter will state the board's actions and the reasons for its decision.

B. If the board determines that there is sufficient evidence or cause to issue a notice of contemplated action, the board may vote to issue a notice of contemplated action. The board's designee will forward a complete copy of the complaint file, including exhibits to the attorney general's office for assignment of an administrative prosecutor.

C. The board may take any other action with regard to a complaint which is within its authority and which is within the law, including referring the complaint to the attorney general for injunctive proceedings, or referrals to the attorney general and/or district attorney for prosecution of persons alleged to be practicing without a proper license.

D. Any board member who is partial or who believes he or she is not capable of judging a particular controversy fairly on the basis of its own circumstances will not participate in the decision whether to issue a notice of contemplated action and will not participate in the hearing, deliberation, or decision of the board.

E. Members of the complaint committee will not participate in the decision whether to issue a notice of contemplated action, other than making a recommendation to the board whether to issue a notice of contemplated action, and will not participate in the hearing, deliberation, or decision of the board.

[2-21-97, 1-22-99; 16.64.11.11 NMAC - Rn, 16 NMAC 64.11.11, 09-15-01]

16.64.11.12 SETTLEMENT AGREEMENT:

The board may enter into a settlement agreement with the respondent as a means of resolving the complaint. Any proposed settlement agreement must be approved by the board, and must be approved further by the respondent, upon a knowing and intentional waiver by the respondent of his or her right to a hearing as provided by the Uniform Licensing Act. The settlement agreement must be signed by the respondent and respondent's attorney, if represented by an attorney. If the respondent is not represented by an attorney then the respondent must acknowledge that he/she has been advised to seek the advice of an attorney.

16.64.11.13 NOTICE OF CONTEMPLATED ACTION:

A. All disciplinary proceedings will be conducted in accordance with the Uniform Licensing Act.

B. The chair of the board, or its designee, will serve as hearing officer for disciplinary proceedings for the purpose of administering pre-hearing procedural matters. The hearing officer will be fully authorized to make all necessary procedure decisions on behalf of the board, including, but not limited to, matters related to discovery, continuances, time extensions, amendments, pre-hearing conferences, and proposed findings of fact and conclusions of law.

C. The hearing officer may make such orders as deemed necessary to implement the authority conferred by Subsection B of 16.64.11.13 NMAC, including, but not limited to, discovery schedules, pleading schedules, and briefing schedules.

D. No party will engage in ex-parte communications with the hearing officer or any member of the board in any matter in which a notice of contemplated action has been issued.

E. Licensees and applicants for licensure who have been found culpable and sanctioned by the board will be responsible for the payment of all costs of the disciplinary proceedings.

F. Any license, including a wall certificate, issued by the board and subsequently suspended or revoked, will be promptly returned to the board office, in person or by registered mail, no later than 30 days of receipt of the board's order suspending or revoking the license.

[2/21/1997; 1/22/1999; 16.64.11.13 NMAC - Rn & A, 16 NMAC 64.11.13, 9/15/2001, A, 12/28/2021]

16.64.11.14 DISQUALIFYING CRIMINAL CONVICTIONS:

[16.66.1.2 NMAC – N, 1/15/2021]

16.66.1.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.1.3 NMAC – N, 1/15/2021]

16.66.1.4 DURATION:

Permanent.

[16.66.1.4 NMAC – N, 1/15/2021]

16.66.1.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.1.5 NMAC – N, 1/15/2021]

16.66.1.6 OBJECTIVE:

The objective of Part 1 of Chapter 66 is to set forth the provisions which apply to all of Chapter 66 of Title 16 and to define the terms and terminology related to home inspectors used through Chapter 66 of Title 16.

[16.66.1.6 NMAC – N, 1/15/2021]

16.66.1.7 DEFINITIONS:

These rules adopt, as if stated herein, all of the definitions contained in Section 61-24D-2 NMSA 1978.

A. Definitions beginning with the letter "A":

(1) **"Access panel"** means a panel provided for homeowner inspection and maintenance that has removable or operable fasteners or latch devices in order to be lifted off, swung open, or otherwise removed by one person. Its edges and fasteners are not painted in place. Access panels are limited to those panels within normal reach at human height or from a stepladder, and those which are not blocked by stored items, furniture, or building components.

(2) **"Adverse condition"** means a condition which is producing, or which has the potential to produce, a detrimental effect on a system or component that either impairs the system or component's normally intended function or operation or which is inconsistent with generally established practice(s) regarding the historically or conventionally applied and acknowledged methods of installation, assembly, and operation or use.

(3) **"Alarm"** means a warning device that is either permanently installed or freestanding, including but not limited to smoke detectors and alarms, carbon-monoxide detectors, flue gas and other spillage detectors, security equipment, ejector pumps, and smoke alarms.

(4) **"Ancillary services"** means a service or inspection provided by a licensee or other provider but beyond the scope of the Standards of Practice for Home Inspection provided in 16.66.7 NMAC including but not limited to Mold Inspection, Lead Paint Assessment, Commercial Building Inspection, Pool and Spa Inspection, Termite Inspection, and other Ancillary Services.

(5) **"Appliance"** means a permanently installed household device powered by electricity or gas, but not including central heating, central cooling, or plumbing components.

(6) **"Architectural service"** means any practice involving the art and science of building design for construction of any structure or grouping of structures, and the use of space within and surrounding the structures or the design, design development, preparation of construction contract documents, and administration of the construction contract.

(7) **"Automatic safety controls"** means devices designed and installed to protect systems and components.

B. Definitions beginning with the letter "B":

(1) **"Board"** means the New Mexico home inspectors board.

(2) **"Board approved examination"** means an examination that has been third-party accredited as complying with the prevailing standards of the Standards for Educational and Psychological Testing as published in 2014 by the American educational research association et. al.

(3) **"Business relationship"** means a former, current or prospective relationship between a person or a person's licensed agent, a home inspection company and its clients, a home inspection company and the company providing ancillary services, and between a client and a company providing ancillary services. The business relationship is based upon a financial contract between a person and a consumer which is in force including those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. A former relationship if it occurred within a 12-month time period of the contract, a current or prospective relationship shall be disclosed in writing to the client and the client must acknowledge in writing receipt and acceptance of the disclosure. The receipt and acceptance of the disclosure may be by electronic signature.

C. Definitions beginning with the letter "C":

(1) **"Component"** means a constituent element or part of a system.

(2) **"Concealed, latent, or intermittent condition"** means any condition affecting any system or component which occurs after the inspection or is intermittent or otherwise not reasonably detectable by a competent and professional home inspector for any reason during the inspection.

(3) **"Condition"** means the visible and conspicuous state of being of an object regarding its appearance, quality, or working order.

(4) **"Cooling and air conditioning"** means:

(a) designed to be permanently installed for central cooling and or heating (ducted) or modular (non-ducted) systems. Systems may include evaporator coil(s), condenser unit(s), heat pump(s), air handler(s) and furnace(s) or

(b) permanently installed evaporative cooling ducted systems. This definition does not include cooling units or appliances that are designed and intended to be portable, non-permanent and are designed for installation at windows.

(5) **"Cosmetic imperfection"** means an irregularity or imperfection which does not affect a component's normally intended function or operation, and which could but is not required to be repaired.

(6) **"Crawlspace"** or **"underfloor crawlspace"** means the area within the confines of the foundation and between the ground and the underside of the lowest floor's structural components.

D. Definitions beginning with the letter "D":

(1) **"Describe"** means to document in writing.

(2) **"Dismantle"** means the act of taking apart or removing any component, device, or piece of equipment that is bolted, screwed, or fastened by other means and which would not otherwise be taken apart or removed by a homeowner in the course of normal household maintenance.

E. Definitions beginning with the letter "E":

(1) **"Electronic signature"** means an electronic sound, signal, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

(2) **"Engineering"** means the application of scientific knowledge for the design, control, or use of building structures, equipment, or apparatus.

(3) **"Engineering service"** means any professional service or creative work requiring engineering education, training and experience, and the application of special knowledge of the mathematical, physical and engineering sciences to such professional service or creative work as consultation, investigation, evaluation, planning, design and supervision of construction for the purpose of assuring compliance with the specifications and design, in conjunction with structures, buildings, machines, equipment, works or processes.

F. Definitions beginning with the letter "F":

(1) **"Foundation"** means the base upon which a structure or wall rests, typically constituted by masonry, concrete, or stone, and typically located at least partially underground.

(2) **"Fuel burning appliance"** means any natural gas, LP gas, wood, coal, or other similar organic fuel burning device or appliance, including but not limited to fireplaces, whether masonry or factory built; fireplace inserts and stoves, woodstoves (room heaters), central furnaces, and combinations of said devices or appliances.

(3) **"Function"** means the action for which an item, component, or system is specially fitted or used, or for which an item, component, or system exists.

(4) **"Functional"** means the ability of an item, component, or system to perform its function.

(5) **"Functional drainage"** means the act or ability of a drain to empty in a reasonable amount of time without overflowing when another fixture is drained simultaneously.

(6) **"Functional flow"** means a reasonable flow at the highest fixture in a dwelling when another fixture is operated simultaneously.

(7) **"Further evaluation"** means examination and analysis by a qualified professional, tradesman, or service technician beyond that provided by a home inspection. Further evaluation may provide additional clarification, provide needed repairs, or discover additional adverse conditions that need modifications or repairs for the component or system to perform its normally intended function or operation provided by an appropriately licensed or qualified individual.

G. Definitions beginning with the letter "G": "Generally established practice" means a practice of or pertaining to one or more of the following: the historically or conventionally applied and acknowledged methods of installation, assembly, and operation or use of residential systems and their related materials and components. Generally established practices may vary based on whether they were applicable at the time of construction or whether modifications to the property were made after the original construction.

H. Definitions beginning with the letter "H":

(1) **"Home inspection"**, as defined by Subsection F of Section 61-24D-2 NMSA 1978, means a noninvasive, nondestructive examination by a person of the interior and exterior components of a residential real property, including the property's structural components, foundation and roof, for the purposes of providing a professional written opinion regarding the site aspects and condition of the property and its attached

or detached carports, garages and reasonably accessible installed components. "Home inspection" includes the examination of the property's heating, cooling, plumbing and electrical systems, including the operational condition of the systems' controls that are normally operated by a property owner.

(2) "Home inspector", as defined by Subsection G of Section 61-24D-2 NMSA 1978, means a person who performs home inspections for compensation.

I. Definitions beginning with the letter "I":

(1) "Identify" means to describe a specific system or component by its type and to distinguish it by characteristics such as general or specific materials, energy sources, etc., which differentiate that system of components from other similar systems and components.

(2) "Inspected property" means the readily accessible areas of the buildings, site, items, components and systems included in the Home Inspection.

J. Definitions beginning with the letter "J": [RESERVED]

K. Definitions beginning with the letter "K": [RESERVED]

L. Definitions beginning with the letter "L":

(1) "Licensure by credentials" means the process by which an individual applicant applies for a license as a home inspector in New Mexico on the basis of the applicant's pre-existing license in another jurisdiction.

(2) "Licensure by training and examination" means the process by which an individual applicant applies for a license in New Mexico as a home inspector on the basis of the applicant's education, training, and passage of a board approved examination.

(3) "Licensure by experience and examination" means the process by which an individual applicant applies for a license in New Mexico as a home inspector on the basis of the applicant's previous work in New Mexico as a home inspector in each of the 24 months immediately preceding January 1, 2020, the applicant's performance of at least 100 home inspections for compensation in the 24 months immediately preceding January 1, 2020, and the applicant's passage of a board approved examination.

M. Definitions beginning with the letter "M": [RESERVED]

N. Definitions beginning with the letter "N":

(1) **"Normal operating controls"** means thermostats, switches, valves, and other devices intended by design and manufacture to be used by homeowners or occupants in the normal and regular day-to-day operation of systems or components.

(2) **"Normally intended function or operation"** means the customary or conventional purpose or use for which a system or component is installed and for which it is designed or intended by its manufacturer.

O. Definitions beginning with the letter "O":

(1) **"On-site water supply quality"** means water quality based on the bacterial, chemical, mineral, and solids content of the water.

(2) **"On-site water supply quantity"** means the rate of flow of water.

P. Definitions beginning with the letter "P":

(1) **"Permanently installed"** means an item, system, or component designed or intended to remain where originally placed, not easily moved, and which is attached, connected, or set in place for use so as to render moving or removing the item, system, or component impossible without the use of tools or equipment.

(2) **"Pre-inspection agreement"** means a signed agreement between the home inspector and their client executed prior to the commencement of the inspection detailing the services that the home inspector will provide.

(3) **"Proctored examination"** means a test taken under the supervision of testing staff. The proctor's function is to ensure procedural integrity and security of the examination in a secure environment. Examination passage must be in writing and written by the organization or entity that administered the examination.

(4) **"Professional liability insurance"** means errors and omissions insurance.

Q. Definitions beginning with the letter "Q": **"Qualified"** means having the training, skills, knowledge, expertise, competence and any special tools or equipment necessary to address adverse conditions and routine maintenance conditions and, where applicable, holding all required licenses and meeting all applicable industry standards and all governmental and statutory requirements.

R. Definitions beginning with the letter "R":

(1) **"Reactivation"** means the process and board act of reactivating an inactive or expired license, thereby permitting the licensee to engage in the practice of home inspection.

(2) **"Readily accessible"** means visually observable and able to be examined without requiring destructive measures; without risk to the inspector or others; without risk of damage to any item of personal or real property; without requiring the inspector to move, remove, damage, or disturb any wall, floor, ceiling, or window coverings; or any interior or exterior claddings or finish treatments; to move, remove, damage, disturb, climb upon, climb over, or straddle any item of personal property; to move, remove, damage, or disturb any landscape elements; or to interrupt the business of occupants, and not requiring disassembly or the use of any special protective clothing or special tools or equipment.

(3) **"Readily openable access panel"** means a panel located within normal reach or from a four-foot stepladder, and which is not blocked by stored items, furniture, or building components, provided for homeowner inspection and maintenance that has removable or operable fasteners or latch devices in order to be lifted off, swung open, or otherwise removed by one person, and its edges and fasteners are not painted in place, but not including electrical panel board enclosure dead front covers.

(4) **"Residential recreational facilities"** means residential spas, saunas, steam baths, swimming pools, exercise, entertainment, athletic, playground and other similar equipment, and associated accessories that are installed at the inspected property.

(5) **"Reinstatement"** means the process and board act of reinstating a suspended or revoked license, thereby permitting the licensee to engage in the practice of home inspection either with or without future conditions.

(6) **"Representative number"** means all readily accessible identical components such as windows, electric switches and electric receptacles that serve as a typical or characteristic example of the items or components inspected. When one or a number of components or systems has identified "adverse conditions," the report should indicate further evaluation of all identical components by qualified personnel.

(7) **"Roof drainage systems"** means gutters, downspouts, leaders, splash blocks, and similar components used to carry water off a roof and away from a building.

(8) **"Routine maintenance"** means typical, regular, ongoing, and expected maintenance that is part of an ongoing and prudent overall property and building systems upkeep program.

[16.66.1.12 NMAC – N, 1/15/2021]

16.66.1.13 RULE IMPLEMENTATION PERIOD:

A. Any individual engaged in the practice of home inspection in New Mexico shall be required to obtain a license issued by the board as a condition of engaging in the future practice of home inspection in New Mexico. Effective January 15, 2021, any individual engaged in the unlicensed practice of home inspection in New Mexico shall be subject to disciplinary action by the board. The board may also, as it deems appropriate, request the attorney general or district attorney of the judicial district in which the person resides or in which the violation is occurring or has occurred to maintain an action in the name of the state to prosecute the unlicensed practitioner or to enjoin the act or practice.

B. Nothing in this rule permits any person engaged in the practice of home inspection, whether licensed or unlicensed, to violate the code of ethics or standards of conduct as adopted by the board, nor does it permit such a person to violate the Home Inspector Licensing Act. Any action in violation of these rules or the Home Inspector Licensing Act may be considered by the board as part of an individual's application for licensure.

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.3.7 NMAC – N, 1/15/2021]

16.66.3.8 APPLICATION FOR LICENSURE BY TRAINING AND EXAMINATION:

A. The board shall issue a license to an applicant for licensure by training and examination if the applicant fulfills the following requirements and provides the following information and evidence:

- (1) Completion of the board-issued application form;
- (2) Payment of the non-refundable application fee in full as provided in Part 2;
- (3) Provision to the board of the applicant's fingerprints and all information necessary for the board to complete a state and national criminal background check;
- (4) Provision to the board of sufficient documentation to establish that the applicant is at least 18 years of age;
- (5) Completion of at least 80 hours of classroom training:

(a) The cumulative total of 80 hours of classroom training must include all of the following subjects:

- (i) Site characteristics and exterior;
- (ii) Structural components;
- (iii) Roofing;
- (iv) Plumbing;
- (v) Electrical;
- (vi) Heating, cooling, and air conditioning;
- (vii) Interiors, appliances, and garages;

- (viii) Insulation and ventilation;
- (ix) Fireplaces and fuel burning appliances;
- (x) New Mexico standards of practice and code of ethics;
- (xi) Business practices, including New Mexico rules and regulations, pre-inspection agreements, and report writing.

(b) All 80 hours of classroom training must be obtained through an educational course that satisfies one of the following criteria:

- (i) The course is approved or accepted by another governmental state home inspector licensing authority;
- (ii) The course is approved by the United States Department of Education or the New Mexico Department of Education; or
- (iii) The course is designated as pre-licensing education and is certified or approved by any society, institute, council, or association of home inspectors;

(c) All 80 hours of classroom training may be completed online;

(6) Passage of a board approved examination.

(7) Completion of a total of at least 80 hours of field training spent conducting a minimum of 30 parallel home inspections, evidenced by documents including, but not necessarily limited to, a completed board-issued inspection log, pre-inspection agreements, notarized affidavits, and other similarly-reliable evidence;

(8) Satisfactory evidence that the applicant has errors and omissions insurance coverage meeting the minimum terms and conditions required by 16.66.9.9 NMAC; and

(9) Satisfactory evidence that the applicant has professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9.10 NMAC.

B. For the purposes of this rule, parallel home inspections mean inspections that are either:

- (1) Conducted in New Mexico prior to the effective date of this rule; or
- (2) Those home inspections at which the applicant, for observational, experiential, and educational purposes, accompanied another home inspector who:

(a) Is legally engaged in the practice and profession of home inspection in the jurisdiction in which the home inspection is conducted;

(b) Has at least two years of experience in the profession of home inspection;
and

(c) Has previously completed at least 100 home inspections for compensation.

[16.66.3.8 NMAC – N, 1/15/2021; A, 1/14/2022; A, 4/23/2024]

16.66.3.9 APPLICATION FOR LICENSURE BY EXPERIENCE AND EXAMINATION:

A. An individual is eligible for licensure by experience and examination if the individual satisfies both of the following criteria:

(1) The applicant worked as a home inspector in each of the 24 months immediately preceding January 1, 2020; and

(2) The applicant performed at least 100 home inspections for compensation in the 24 months immediately preceding January 1, 2020.

B. The board shall issue a home inspector license to applicant for licensure by experience and examination if the applicant fulfills the following requirements and provides the following information and evidence:

(1) Completion of the board-issued application form;

(2) Payment of the non-refundable application fee in full as provided in Part 2;

(3) Provision to the board of the applicant's fingerprints and all information necessary for the board to complete a state and national criminal background check;

(4) Provision to the board of sufficient documentation to establish that the applicant is at least 18 years of age and a legal resident of the United States;

(5) Passage of a board approved examination, subject to the following limitations:

(a) Evidence of the applicant's examination passage must be in writing and written by the organization or entity that administered the examination; and

(b) The examination must have been proctored and the applicant must provide evidence as to this requirement.

(6) Satisfactory evidence that the applicant has errors and omissions insurance coverage and professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9 NMAC; and

(7) Provision to the board of sufficient documentation and evidence to establish the applicant's home inspector activities in the 24 months immediately preceding January 1, 2020. Such documentation may include, but is not limited to, tax records, notarized affidavits from persons other than the applicant, pre-inspection agreements, and other similarly reliable evidence of the applicant's home inspection activities in the 24 months immediately preceding January 1, 2020.

C. For the purposes of this rule, the phrase "worked as a home inspector in each of the 24 months immediately preceding January 1, 2020" means having personally conducted any business activity directly associated with the profession of home inspection but is not limited to having conducted an actual home inspection. To qualify for licensure by experience and examination, an individual does not need to have personally conducted a home inspection in each of the 24 months immediately preceding January 1, 2020, if that individual conducted another business activity directly associated with the profession of home inspection during each of the 24 months.

[16.66.3.9 NMAC – N, 1/15/2021; A, 1/14/2022; A, 4/23/2024]

16.66.3.10 APPLICATION FOR LICENSURE BY CREDENTIALS:

A. An applicant who holds a license in good standing to practice as a home inspector in another state may be granted a license by virtue of the applicant's credentials if the applicant's resident state license requirements are the same as or similar to the requirements set forth in the Home Inspector Licensing Act as determined by the board.

B. An applicant applying for licensure on the basis of the applicant's credentials as described in subsection A of this rule shall be required to provide to the board:

- (1) Completion of the board-issued application form;
- (2) Payment of the non-refundable application fee in full as provided in Part 2;
- (3) Provision to the board of the applicant's fingerprints and all information necessary for the board to complete a state and national criminal background check;
- (4) Provision to the board of sufficient documentation to establish that the applicant is at least 18 years of age;
- (5) A certificate, letter, or other documentation from the licensing authority in the applicant's resident state attesting to the fact that the applicant holds a license in good standing to practice as a home inspector in that state;

(6) Satisfactory evidence that the applicant has errors and omissions insurance coverage meeting the minimum terms and conditions required by 16.66.9.9 NMAC; and

(7) Satisfactory evidence that the applicant has professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9.10 NMAC.

C. Pursuant to the Home Inspector Licensing Act, the board may negotiate agreements with other states or licensing jurisdictions to allow for reciprocity regarding licensure. A license granted pursuant to a reciprocity agreement shall be issued upon:

- (1) Completion of the board-issued application form;
- (2) Payment of the non-refundable application fee in full as provided in Part 2;
- (3) Provision to the board of the applicant's fingerprints and all information necessary for the board to complete a state and national criminal background check;
- (4) Provision to the board of sufficient documentation to establish that the applicant is at least 18 years of age;
- (5) The applicant's provision to the board of a certificate, letter, or other documentation from the licensing authority in the applicant's resident state attesting to the fact that the applicant holds a license in good standing to practice as a home inspector in that state.

(6) Satisfactory evidence that the applicant has errors and omissions insurance coverage meeting the minimum terms and conditions required by 16.66.9.9 NMAC; and

(7) Satisfactory evidence that the applicant has professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9.10 NMAC.

[16.66.3.10 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.3.11 EXAMINATIONS:

A. Licensure by training and examination: All applicants for licensure by training and examination must pass a board approved examination prior to the date of the applicant's application for licensure.

B. Licensure by experience and examination: All applicants for licensure by experience and examination must pass a board approved examination, subject to the following limitations:

(1) Evidence of the applicant's examination passage must be in writing and written by the organization or entity that administered the examination; and

(2) The examination must have been proctored and the applicant must provide evidence as to this requirement.

C. Licensure by credentials: Applicants for licensure by credentials are not required to provide the board with evidence as to prior examination passage. However, the board will consider whether the applicant's prior licensing jurisdiction requires the passage of a national examination in determining whether the prior licensing jurisdiction's standards are substantially equivalent to those in New Mexico.

D. It is the applicant's responsibility to make all arrangements to take a board approved examination.

E. The applicant shall send the applicant's examination score to the board, provided that the examination score must be in a document originally written by the organization or entity that administered the examination.

16.66.3.12 EXPEDITED LICENSURE FOR MILITARY SERVICE MEMBERS, SPOUSES, CHILDREN, AND VETERANS:

A. Application requirements:

(1) Applications for licensure shall be completed on a form provided by the Home Inspectors Board.

(2) The applicant shall provide a complete application that includes the following information:

(a) applicant's full name;

(b) current mailing address;

(c) current electronic mail address, if any;

(d) date of birth;

(e) background check, if required; and

(f) proof as described in subsection C below.

(3) The applicant shall provide the following satisfactory evidence as follows:

(a) applicant is currently licensed and in good standing in another jurisdiction, including a branch of the United States armed forces;

(b) applicant has met the minimal licensing requirements in that jurisdiction and the minimal licensing requirements in that jurisdiction are substantially equivalent to the licensing requirements for New Mexico; and

(c) the following documentation:

(i) for military service member: a copy of military orders;

(ii) for spouse of military service members: copy of military service member's military orders, and copy of marriage license;

(iii) for spouses of deceased military service members: copy of decedent's DD 214 and copy of marriage license;

(iv) for dependent children of military service members: a copy of military service member's orders listing dependent child, or a copy of military orders and one of the following: a copy of birth certificate, military service member's federal tax return or other governmental or judicial documentation establishing dependency;

(v) for veterans (retired or separated): a copy of DD 214 showing proof of honorable discharge.

(4) The license shall be issued by the board as soon as practicable but no later than thirty days after a qualified military service member, spouse, dependent child, or veteran files a complete application and provides a background check if required for a license, and any required fees.

(5) Military service members and veterans as defined in Subsection E of Section 61-1-34 NMSA 1978 shall not pay and the board shall not charge a licensing fee for the first three years for a license issued pursuant to this rule.

(6) A license issued pursuant to this section shall be valid for the time period that is specified in the Home Inspectors Licensing Act.

B. Renewal requirements:

(1) A license issued pursuant to this section shall not be renewed unless the license holder satisfies the requirements for renewal set forth in 16.66.4.8 NMAC pursuant to 61-24D-8 NMSA 1978.

(2) As a courtesy, the board will send via electronic mail license renewal notifications to licensees before the license expiration date to the last known email address on file with the board. Failure to receive the renewal notification shall not

relieve the licensee of the responsibility of timely renewal on or before the expiration date.

16.66.3.13 [RESERVED]

[16.66.3.13 NMAC – N, 1/15/2021; Repealed 1/14/2022]

16.66.3.14 LICENSURE PROCEDURE:

A. Upon receipt of a completed application, including all required documentation and fees, the Board's application committee, should the Board choose in its discretion to utilize such a committee, may provide a non-binding and purely advisory recommendation as to whether the Board should grant or deny the application.

B. No license may be issued until the applicant has paid the non-refundable initial license fee in full.

[16.66.3.14 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.3.15 POTENTIALLY DISQUALIFYING CRIMINAL CONVICTIONS:

A. Convictions for any of the following offenses, or their equivalents in any other jurisdiction, are disqualifying criminal convictions that may disqualify an applicant from receiving or retaining a license issued by the board. This includes conviction of an offense which if committed in this state, would be deemed a felony under either state or federal law, without regard to its designation elsewhere. The term "conviction" shall include a finding or verdict of guilt, a plea of guilty, or a plea of nolo contendere in a criminal proceeding, regardless of whether the adjudication of guilt or sentence is withheld or not entered thereon or an appeal of the conviction has been sought.

- (1) homicide, voluntary or involuntary manslaughter;
- (2) trafficking in controlled substances, manufacturing of controlled substances or distribution of controlled substances;
- (3) human trafficking, kidnapping, false imprisonment, aggravated assault or aggravated battery;
- (4) rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, or other related felony sexual offenses;
- (5) crimes involving adult abuse, neglect, or financial exploitation;
- (6) crimes involving child abuse or neglect;

(7) crimes involving robbery, larceny, extortion, burglary, possession of burglary tools, destruction of property, criminal damage to property, unlawful or dangerous uses of explosives, breaking and entering, arson, making a bomb scare, tampering with evidence or receiving stolen property;

(8) financial crimes involving fraud, forgery, embezzlement, credit card fraud,

B. The board shall not consider the fact of a criminal conviction as part of an application for licensure unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

C. The board shall not deny, suspend or revoke a license on the sole basis of a criminal conviction unless the conviction in question is one of the disqualifying criminal convictions listed in Subsection A of this rule.

D. Nothing in this rule prevents the board from denying an application or disciplining a licensee on the basis of an individual's conduct to the extent that such conduct violated the Home Inspector Licensing Act, regardless of whether the individual was convicted of a crime for such conduct or whether the crime for which the individual was convicted is listed as one of the disqualifying criminal convictions listed in Subsection A of this rule.

E. In connection with an application for licensure, the board/commission shall not use, distribute, disseminate, or admit into evidence at an adjudicatory proceeding criminal records of any of the following:

(1) an arrest not followed by a valid conviction;

(2) a conviction that has been sealed, dismissed, expunged or pardoned;

(3) a juvenile adjudication; or

(4) a conviction for any crime other than the disqualifying criminal convictions listed in Subsection A of this rule.

PART 4: LICENSE RENEWALS AND REACTIVATIONS

16.66.4.1 ISSUING AGENCY:

New Mexico home inspectors board.

[16.66.4.1 NMAC – N, 1/15/2021]

16.66.4.2 SCOPE:

All licensed home inspectors, license applicants, other agencies, professional associations, and any member of the general public affected by or interested in home inspectors.

[16.66.4.2 NMAC – N, 1/15/2021]

16.66.4.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.4.3 NMAC – N, 1/15/2021]

16.66.4.4 DURATION:

Permanent.

[16.66.4.4 NMAC – N, 1/15/2021]

16.66.4.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.4.5 NMAC – N, 1/15/2021]

16.66.4.6 OBJECTIVE:

The objective of Part 4 of Chapter 66 is to set forth provisions governing renewals of home inspector licenses and reactivation of expired and inactive licenses.

[16.66.4.6 NMAC – N, 1/15/2021]

16.66.4.7 DEFINITIONS:

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.4.7 NMAC – N, 1/15/2021]

16.66.4.8 LICENSE RENEWAL:

A. An initial home inspector license shall be valid for three years. Once renewed, all licenses shall be for a duration of three years.

B. Renewal Date: A licensee may apply for renewal of the licensee's license no later than the date specified as the expiration date on the applicant's license.

C. A licensee seeking the renewal of the license shall provide to the board in accordance with the deadlines specified in this rule:

- (1) A completed renewal application;
- (2) Payment of the non-refundable renewal fee in full as provided in Part 2;
- (3) Proof of completion of required continuing education as provided in Part 5;
- (4) Satisfactory evidence that the licensee has errors and omissions insurance coverage and professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9 NMAC.

D. The board office will send, either through electronic means or through postal mail, a renewal notice to each licensee no later than 45 days prior to the expiration of the license at the licensee's address on record. Timely renewal of a license is the full and complete responsibility of the licensee. If the licensee does not receive a renewal notification from the board, it is the responsibility of the licensee to contact the board office.

E. The licensee's failure to receive the board's renewal notification will not exempt the licensee from licensure expiration or late penalty fees.

F. Each licensee is responsible for submitting the required renewal fee by the expiration date irrespective of whether a renewal notice is received by the licensee, and licensees shall not practice on expired licenses under any circumstances.

[16.66.4.8 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.4.9 INACTIVE STATUS:

A. A license in good standing may, upon written request to the board by the licensee, be placed on inactive status prior to its expiration.

B. A licensee possessing an inactive license may not engage in the practice of home inspection in the State of New Mexico.

C. A license may remain on inactive status indefinitely.

D. A licensee must renew an inactive license no later than the expiration date specified on the license. A licensee seeking to renew an inactive license must complete all continuing education as would a full licensee as provided in Part 5 of these rules.

[16.66.4.9 NMAC – N, 1/15/2021]

16.66.4.10 EXPIRED LICENSES:

A. Former licensees may reactivate an expired license within 90 days of expiration. A licensee who fails to reactivate an expired license within 90 days of expiration must, to obtain licensure, reapply as a new applicant for licensure.

B. For the purposes of this rule, expired licenses include those that have expired after being placed on inactive status by the former licensee.

[16.66.4.10 NMAC – N, 1/15/2021]

16.66.4.11 REACTIVATION OF EXPIRED OR INACTIVE LICENSES:

Former licensees may reactivate an expired or inactive license within the deadlines provided in these rules. A former licensee seeking the reactivation of an expired or inactive license shall provide to the board in accordance with the deadlines specified in these rules:

A. A completed renewal application;

B. Payment of the non-refundable renewal fee in full as provided in Part 2;

C. Payment of the expired license reactivation fee in full as provided in Part 2;

D. Proof of completion of all required continuing education;

E. Satisfactory evidence that the licensee has errors and omissions insurance coverage and professional liability insurance coverage meeting the minimum terms and conditions required by 16.66.9 NMAC.

[16.66.4.11 NMAC – N, 1/15/2021; A, 4/23/2024]

PART 5: CONTINUING EDUCATION

16.66.5.1 ISSUING AGENCY:

New Mexico home inspectors board.

[16.66.5.1 NMAC – N, 1/15/2021]

16.66.5.2 SCOPE:

All licensed home inspectors, license applicants, other agencies, professional associations, and any member of the general public affected by or interested in home inspectors.

[16.66.5.2 NMAC – N, 1/15/2021]

16.66.5.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.5.3 NMAC – N, 1/15/2021]

16.66.5.4 DURATION:

Permanent.

[16.66.5.4 NMAC – N, 1/15/2021]

16.66.5.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.5.5 NMAC – N, 1/15/2021]

16.66.5.6 OBJECTIVE:

The objective of Part 5 of Chapter 66 is to set forth provisions governing continuing education requirements.

[16.66.5.6 NMAC – N, 1/15/2021]

16.66.5.7 DEFINITIONS:

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.5.7 NMAC – N, 1/15/2021]

16.66.5.8 CONTINUING EDUCATION:

As provided by the Home Inspector Licensing Act, all home inspectors shall be required to satisfy continuing education requirements in the interest of ensuring the highest quality professional services.

A. As a condition of license renewal, a home inspector licensee shall complete at least 60 hours of board-approved continuing education instruction that is related to the practice of home inspection during each three-year license period as outlined in 16.66.4.8 NMAC. This includes licensees holding initial licenses.

B. At least six hours of continuing education instruction during each three-year license period must be in ethics.

C. A licensee may take continuing education instruction online.

D. Initial licenses of a duration of less than three years: Those licensees possessing initial licenses of a duration of one or two years shall complete a pro-rated amount of continuing education as follows:

(1) For licensees possessing an initial one year license, 20 hours of board-approved continuing education instruction that is related to the practice of home inspection, including at least two hours of ethics;

(2) For licensees possessing an initial two year license, 40 hours of board-approved continuing education instruction that is related to the practice of home inspection, including at least four hours of ethics.

E. Attendance at one New Mexico home inspector board meeting, rule hearing, or disciplinary hearing for at least three hours, or until the board meeting goes into closed session, or the hearing/meeting ends, whichever comes first. Attendance may be by live meeting/hearing or by live or recorded distance broadcast; but must be documented by signing into and out of the meeting/hearing. In the event of home inspector hardship, approved by the board, the home inspector board may authorize an equivalent to attendance at a board meeting by an online download, attendance at any approved equivalent, or by other approved participation.

[16.66.5.8 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.5.9 APPROVAL OF CONTINUING EDUCATION HOURS:

A. The Board shall automatically accept any educational course towards a licensee's continuing education requirements if the course satisfies one of the following criteria:

(1) The course is approved or accepted by another governmental state home inspector licensing authority;

(2) The course is approved by the United States Department of Education or the New Mexico Department of Education; or

(3) The course is certified or approved by any society, institute, council, or association of home inspectors.

B. A course that does not satisfy the criteria set forth in subsection A of this section may still be accepted by the board through the following process:

(1) A continuing education course may be submitted to the board for approval, by either the course instructor or the licensee, along with the following documentation:

(a) Course description, objectives, and goals;

(b) Course syllabus, including the number of educational hours, detailed timeline, provisions for make-up work, required text, and reading resources, instructional materials and handouts, requirements for successful completion and method of evaluation; and

(c) Documentation as to the course instructor's qualifications, background, and expertise.

(2) Any continuing education course submitted to the board for approval shall be reviewed, along with its supporting documentation, by the board's continuing education committee, which will make a non-binding recommendation to the board as to whether to approve or disapprove the course. The board shall vote on approval of the course, either as part of its consent agenda or otherwise, at its next regularly-scheduled meeting. In the event that the continuing education committee recommends the disapproval of a course, this information shall be conveyed to the course instructor, who may request in writing the opportunity to be heard at the next regularly-scheduled board meeting. Where the instructor has made a request to be heard and the board votes to deny the application, the board will issue a final written decision no later than 15 business days following the board's meeting.

(3) The board, and its application committee, shall consider the following criteria in determining whether to approve a continuing education course:

(a) Whether the content of the course is related to the practice of home inspection;

(b) Whether the instructor is qualified to teach the course; and

(c) Whether the instructor has violated the Home Inspector Licensing Act, the board's rules, or any criminal laws that are substantially related to the practice of home inspection or a failure to pay child support.

[16.66.5.9 NMAC – N, 1/15/2021]

16.66.5.10 CONTINUING EDUCATION AUDITS:

The board shall audit ten percent of renewal applications each year, selected anonymously and at random, to verify completion of continuing education.

A. If a notice of audit is received, the licensee must submit evidence of continuing education hours earned during the current renewal cycle to the board as required in the Home Inspector Licensing Act and the board's rules.

B. All licensees as a condition of renewal, attest to the completion of the required hours of continuing education. The licensee shall, throughout the period of each license, retain all documentation of continuing education attendance for the previous cycle of licensure.

C. The board may audit any licensee's continuing education attendance upon notification to the licensee.

D. Failure to comply with a notice of audit or submit evidence of continuing education hours earned during the current renewal cycle may result in disciplinary action by the board.

[16.66.5.10 NMAC – N, 1/15/2021; A, 04/23/2024]

PART 6: CODE OF ETHICS

16.66.6.1 ISSUING AGENCY:

New Mexico home inspectors board.

[16.66.6.1 NMAC – N, 1/15/2021]

16.66.6.2 SCOPE:

All licensed home inspectors, license applicants, other agencies, professional associations, and any member of the general public affected by or interested in home inspectors.

[16.66.6.2 NMAC – N, 1/15/2021]

16.66.6.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.6.3 NMAC – N, 1/15/2021]

16.66.6.4 DURATION:

Permanent.

[16.66.6.4 NMAC – N, 1/15/2021]

16.66.6.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.6.5 NMAC – N, 1/15/2021]

16.66.6.6 OBJECTIVE:

The objective of Part 6 of Chapter 66 is to set forth a code of ethics governing the professional obligations of all home inspector licensees.

[16.66.6.6 NMAC – N, 1/15/2021]

16.66.6.7 DEFINITIONS:

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.6.7 NMAC – N, 1/15/2021]

16.66.6.8 CODE OF ETHICS:

All licensed home inspectors in New Mexico shall abide at all times by the Code of Ethics contained in this part.

A. This Code of Ethics rests on the fundamental principles of integrity, honesty, and objectivity. All provisions contained herein shall be interpreted at all times in the light of these principles which govern the New Mexico home inspection industry.

B. All licensees shall comply with this Code of Ethics, shall avoid association with any enterprise whose practices violate this Code of Ethics, and shall strive to uphold, maintain, and improve the integrity, reputation, and practice of home inspection.

[16.66.6.8 NMAC – N, 1/15/2021]

16.66.6.9 CONFLICTS OF INTEREST:

A licensee shall avoid conflicts of interest or activities that compromise, or appear to compromise, professional independence, objectivity, or inspection integrity. To that end, a licensee shall not:

A. Inspect a property for compensation in which the licensee has, or expects to have, a financial interest;

B. Inspect a property under a contingent arrangement whereby any compensation or future referral is dependent on reported findings or on the sale of the property;

C. Directly or indirectly compensate realty agents, or other parties having a financial interest in closing or settlement of real estate transactions, for the referral of inspections or for inclusion on a list of recommended inspectors, preferred providers, or similar arrangements;

D. Receive compensation for an inspection from more than one party unless the client consents in writing to the compensation arrangement;

E. Accept compensation, directly or indirectly, for recommending contractors, services, or products to clients or other parties having an interest in an inspected property; or

F. Perform, or offer to perform, for an additional fee any repair to a structure on which the home inspector or the home inspector's company has prepared a report at any time during the twelve months immediately prior to the repair or offer to repair.

[16.66.6.9 NMAC – N, 1/15/2021]

16.66.6.10 GOOD FAITH:

A licensee shall act in good faith toward each client and other interested parties.

A. A licensee shall perform services and express opinions based on genuine conviction and only within the licensee's areas of education, training, or experience.

B. A licensee shall be objective in reporting and not knowingly understating or overstating the significance of reported adverse conditions.

C. A licensee shall not release any information about an inspection or a client to a third party unless doing so is necessary to protect the safety of others, to comply with a law or statute, or unless the client has provided intelligent, informed, and written consent to the home inspector for the release of the information.

D. A licensee shall be honest in all business dealings and professional conduct.

[16.66.6.10 NMAC – N, 1/15/2021]

16.66.6.11 CONFIDENCE IN THE PROFESSION:

A licensee shall avoid activities that may harm the public, bring disrepute upon the licensee, or reduce public confidence in the profession of home inspection.

A. A licensee shall comply with all applicable federal, state, and local laws and regulations, including but not limited to the Home Inspector Licensing Act.

B. Advertising, marketing, and promotion of a licensee's services or qualifications shall not be fraudulent, false, deceptive, or misleading.

C. A licensee shall report a violation of this Code of Ethics to the Board.

[16.66.6.11 NMAC – N, 1/15/2021]

PART 7: STANDARDS OF PRACTICE

16.66.7.1 ISSUING AGENCY:

New Mexico home inspectors board.

[16.66.7.1 NMAC – N, 1/15/2021]

16.66.7.2 SCOPE:

All licensed home inspectors, license applicants, other agencies, professional associations, and any member of the general public affected by or interested in home inspectors.

[16.66.7.2 NMAC – N, 1/15/2021]

16.66.7.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.7.3 NMAC – N, 1/15/2021]

16.66.7.4 DURATION:

Permanent.

[16.66.7.4 NMAC – N, 1/15/2021]

16.66.7.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.7.5 NMAC – N, 1/15/2021]

16.66.7.6 OBJECTIVE:

The objective of Part 7 of Chapter 66 is to set forth minimum and uniform standards of practice governing all home inspector licensees.

[16.66.7.6 NMAC – N, 1/15/2021]

16.66.7.7 DEFINITIONS:

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.7.7 NMAC – N, 1/15/2021]

16.66.7.8 STANDARDS OF PRACTICE:

This Part sets forth the minimum and uniform standards of practice applicable to all New Mexico home inspector licensees.

[16.66.7.8 NMAC – N, 1/15/2021]

16.66.7.9 HOME INSPECTIONS DO NOT DETERMINE CONFORMITY WITH STATE AND LOCAL BUILDING CODE REQUIREMENTS:

A licensee shall not, as part of a home inspection, determine whether the home or components and/or systems of the home that have been inspected conform to local or state building code requirements. A home inspection report shall not contain a determination of whether the home or components and/or systems of the home that have been inspected conform to local or state building code requirements.

[16.66.7.9 NMAC – N, 1/15/2021]

16.66.7.10 PRE-INSPECTION AGREEMENTS:

Prior to the commencement of any home inspection, a licensee shall enter into a pre-inspection agreement with the client. Any pre-inspection agreement must contain, at a minimum, all of the following:

- A.** The date and time of the inspection;
- B.** The name and license number of the licensee home inspector who will be conducting the home inspection;
- C.** The compensation fee and terms of payment for services;
- D.** A statement that the inspection shall be performed in accordance with the Board's rules and standards of practice;
- E.** A statement summarizing the scope of work to be performed by the licensee, provided that this scope of work may be modified by subsequent written agreement executed by the licensee and client prior to commencement of the home inspection;
- F.** The date upon which the licensee shall deliver the home inspection report to the client;
- G.** The following statement, in its entirety and in all capital letters: "THE HOME INSPECTOR WILL NOT DETERMINE AND THE REPORT PROVIDED UPON COMPLETION OF THE HOME INSPECTION WILL NOT CONTAIN A

DETERMINATION OF WHETHER THE HOME OR COMPONENTS AND/OR SYSTEMS OF THE HOME THAT HAVE BEEN INSPECTED CONFORM TO LOCAL OR STATE BUILDING CODE REQUIREMENTS."

[16.66.7.10 NMAC – N, 1/15/2021]

16.66.7.11 HOME INSPECTIONS:

The licensee shall, as part of any home inspection, inspect all of the readily accessible and permanently installed systems and components listed in 16.66.7.12 NMAC, 16.66.7.13 NMAC, 16.66.7.14 NMAC, 16.66.7.15 NMAC, 16.66.7.16 NMAC, 16.66.7.17 NMAC, 16.66.7.18 NMAC, 16.66.7.19 NMAC, 16.66.7.20 NMAC, 16.66.7.21 NMAC, 16.66.7.22 NMAC, and 16.66.7.23 NMAC.

A. Home inspections must be conducted by a licensee. A trainee may conduct parallel inspections and write portions of a home inspection report alongside and under the supervision of a licensee, provided that the licensee shall be responsible for compliance with these rules and regulations in all circumstances. Only a licensee may sign a home inspection report. Office staff may conduct scheduling and bookkeeping functions without a license.

B. Recommendations: Any decision to seek repair, further evaluation, or cost estimates for repair of any reported adverse condition observed and described in a home inspection report is reserved to the parties to the contract for sale and purchase of the home. All such repairs, evaluations, and cost estimates must be provided by a qualified and, if required, licensed contractor and may include tests, measurements, and adjustments outside of the scope of a normal home inspection and may lead to the discovery of additional adverse conditions which may have additional repair costs that may not have been obvious to the home inspector. Any individual engaged in construction or a trade related to contracting or making code determinations in New Mexico must be licensed by the appropriate state agency, if required.

[16.66.7.11 NMAC – N, 1/15/2021]

16.66.7.12 SITE CHARACTERISTICS AND EXTERIOR:

A. The licensee shall inspect:

- (1)** Wall cladding materials, flashing, and trim;
- (2)** eaves, soffits, and fascia where accessible and observable from the ground level;
- (3)** exterior doors and windows;

(4) attached and adjacent decks, balconies, stairs, steps, stoops, stairways, and porches and the associated railings, guards, and handrails;

(5) vegetation, grading, surface drainage, and retaining structures that, as determined by the licensee, adversely affect the building;

(6) attached and adjacent walkways and exterior stoops, landings, and patios;

(7) adjacent driveways and other paved, masonry, or hardscape areas;

(8) attached portals and ramadas;

(9) garages and carports.

B. In the home inspection report, the licensee shall describe at least the wall cladding.

C. The licensee is not required to inspect:

(1) Storm windows, storm doors, screening, shutters, awnings, and similar seasonal accessories;

(2) items that are not visible or readily accessible from the ground, including window and door flashing;

(3) fencing, privacy walls, and retaining walls, unless as determined by the licensee to adversely affect the subject building.

(4) erosion control and other earth stabilization measures;

(5) soil or geological conditions, site engineering, property boundaries, encroachments, or easements;

(6) adequacy of retaining walls, sea walls, waterfront bulkhead, docks, and piers;

(7) ponds, fountains, or decorative water features;

(8) safety glazing;

(9) integrity of multiple-pane window glazing or thermal window seals;

(10) recreational facilities;

(11) Additional structures other than attached garages and carports; and one detached garage or carport utilized as the primary vehicle structure in proximity to the subject home;

(12) swimming pools and spas.

[16.66.7.12 NMAC – N, 1/15/2021; A, 1/14/2022]

16.66.7.13 STRUCTURAL COMPONENTS:

A. The licensee shall inspect all structural components, including but not limited to foundation and framing.

B. In the home inspection report, the licensee shall describe at least the following:

- (1) Methods used to inspect basements, underfloor crawlspaces and attics;
- (2) foundation;
- (3) floor structures;
- (4) wall structures;
- (5) ceiling structures; and
- (6) roof structures.

C. The licensee is not required to:

- (1) Provide engineering or architectural services or analysis;
- (2) offer an opinion about the adequacy of structural systems and components;
- (3) enter underfloor crawlspace areas that have less than 24 inches of vertical clearance between components and the ground or that have an access opening smaller than 16 inches by 24 inches;
- (4) enter attics or crawlspaces when access is obstructed or when entry could damage the property;
- (5) traverse attic load-bearing components that are concealed by insulation or by other materials;
- (6) move insulation.

[16.66.7.13 NMAC – N, 1/15/2021; A, 1/14/2022]

16.66.7.14 ROOFING:

A. The licensee shall inspect:

- (1) Roofing covering materials;
- (2) roof drainage systems;
- (3) flashing;
- (4) skylights, chimneys, and roof penetrations.

B. In the home inspection report, the licensee shall describe at least the following:

- (1) roof materials; and
- (2) methods used to examine the roof as well as any general area of the roof that was not examined and the reason the area was not examined.

C. The licensee is not required to:

- (1) Perform a water test;
- (2) warrant or certify the roof or predict the service life expectancy;
- (3) remove snow, ice, debris, or other conditions that prohibit the observation of the roof surfaces;
- (4) inspect antennae, satellite dishes, lightning arresters, de-icing equipment, or similar attachments;
- (5) confirm proper fastening or installation of any roof-covering material.

[16.66.7.14 NMAC – N, 1/15/2021; A, 1/14/2022]

16.66.7.15 PLUMBING:

A. The licensee shall inspect:

- (1) Interior water supply and distribution systems, including fixtures and fixture trim components (faucets, valves, drain stops, shower arms and showerheads, flush handles, etc.);
- (2) interior drain, waste, and venting systems, including fixtures;

(3) domestic potable water heating equipment and hot water distribution systems;

(4) vent systems, flues, and chimneys;

(5) fuel storage and fuel distribution systems;

(6) sewage ejectors, sump pumps, and related piping; and

(7) functional flow at each fixture group.

B. In the home inspection report, the licensee shall describe at least the following:

(1) Interior water supply, drain, waste, and vent piping materials;

(2) water heating equipment, including energy sources;

(3) location of main water supply shut-off valve; and

(4) location of main fuel supply shut-off valve.

C. The licensee is not required to inspect:

(1) Interiors of vent systems, flues, and chimneys that are not readily accessible;

(2) sewage drain waste systems;

(3) on-site (septic) waste disposal systems;

(4) wells, well pumps, and water storage related equipment;

(5) on-site (well) water supply quantity and quality;

(6) water conditioning systems;

(7) solar, geothermal, and other renewable energy water heating systems;

(8) manual and automatic fire extinguishing and sprinkler systems;

(9) landscape irrigation systems;

(10) clothes-washing machine connections;

(11) refrigerator or ice maker water connections.

D. The licensee is not required to:

- (1) Light or ignite pilot flames;
- (2) operate any shut-off or manual stop valves, except water closet flush valves and fixture valves;
- (3) test shower pans, tub, and shower surrounds or enclosures for leakage or functional overflow protection;
- (4) operate automatic safety controls;
- (5) inspect or test for gas or fuel leaks or indications thereof.

E. The licensee is not required to determine:

- (1) capacity, temperature, life expectancy, or adequacy of the water heater;
- (2) adequacy of combustion air components;
- (3) whether water supply and waste disposal systems are public or private;
- (4) water supply with respect to flow rate, volume, pressure, temperature, quantity, and quality;
- (5) effectiveness of anti-siphon devices.

[16.66.7.15 NMAC – N, 1/15/2021; A, 1/14/2022]

16.66.7.16 ELECTRICAL:

A. The licensee shall inspect:

- (1) Service drop (overhead) or the readily accessible components of the service lateral (underground);
- (2) service entrance conductors and cables;
- (3) service equipment and main disconnects;
- (4) service and system grounding;
- (5) interior Components of service distribution panelboards and secondary panelboards by removing the panelboards dead front cover.

(a) When, as determined by the licensee, primary electrical distribution panelboards or secondary panelboards and their related dead front covers and fasteners are readily accessible, the inspector will remove the dead front covers of such panelboards in order to examine readily accessible components installed on their interiors.

(b) Use of tools to remove dead front covers is specifically excluded when dead front covers or their fasteners are painted or otherwise sealed into place or when they cannot be removed with a standard, non-power-assisted slot head or Phillips head screwdriver or hex head nut driver.

(c) Exception for home inspector safety: The home inspector is not required to remove the covers of the service and distribution panels when hazardous conditions are present. The home inspector should use caution whenever removing the covers of service and distribution panels. Before touching the fasteners and cover, the home inspector should use available voltage test tools to verify if the panel assembly, panel dead front, and fasteners have live voltage conditions. Example tools include voltage sniffers, neon bulb testers, three light testers or voltmeters.

- (6)** Conductors (wiring methods);
- (7)** overcurrent protection devices;
- (8)** presence of labeling of overcurrent protection devices;
- (9)** ground fault circuit interrupter ("GFCI ") protection devices;
- (10)** arc fault circuit interrupter ("AFCI ") protection devices;
- (11)** a representative number of installed lighting fixtures, switches, and receptacles; and
- (12)** the polarity and grounding of all readily accessible receptacles within six feet of interior plumbing fixtures, in the attached garage or carport, and on the exterior of inspected structures.

B. In the home inspection report, the licensee shall describe at least the following:

- (1)** Service location type: overhead service drop or underground service lateral;
- (2)** amperage and voltage rating of the service;
- (3)** service and system grounding and bonding (i.e. concrete encased, ground rod, equipotential cold-water metal pipe);

- (4) location of main service entry and distribution panelboards and the associated disconnects;
- (5) predominant branch circuit wiring methods;
- (6) presence or absence of smoke detectors and alarms;
- (7) presence or absence of carbon monoxide detectors and alarms;
- (8) presence or absence of ground fault circuit interrupter ("GFCI ") protection devices;
- (9) presence or absence of arc fault circuit interrupter ("AFCI ") protection devices;
- (10) any unused circuit-breaker panel opening that was not filled;
- (11) the presence of solid conductor aluminum branch-circuit wiring;
- (12) any tested receptacle in which power was not present, polarity was incorrect, the cover was not in place, the GFCI devices were not properly installed or did not operate properly, there was evidence of arcing or excessive heat, or where the receptacle was not grounded or was not secured to the wall;
- (13) wiring methods which are not consistent with generally established practices such as terminations, multiple tapping of hot and neutral conductors, insulation, improper color-coding of conductor insulation, over-stripping, securing and protection of conductors, and bonding of components;
- (14) condition of visible conductors and insulation (damaged, scorched, burned, or melted insulation; nicked conductors; cut off strands of multiple strand conductors, anti-oxidant compound on aluminum conductors, etc.);
- (15) corrosion on components; and
- (16) the presence a utility interactive system (i.e. solar, wind turbine, and electric vehicle charging systems).

C. The licensee is not required to inspect:

- (1) Remote control devices;
- (2) Low voltage wiring systems and components;
- (3) Ancillary wiring systems and components not a part of the primary electrical power distribution system;

- (4) Private or emergency electrical supply systems;
- (5) Surge protection devices or lightning arrestors.

D. The licensee is not required to:

- (1) Operate electrical systems that are shut down;
- (2) test or operate overcurrent protection devices except ground fault and arc fault circuit interrupters;
- (3) test or operate any overcurrent device or safety device in the electrical service panel or elsewhere that may adversely affect the personal property or activity of the resident;
- (4) determine the accuracy of the labeling of all overcurrent protection devices;
- (5) calculate or measure amperage, voltage, and impedance;
- (6) determine (present or future) service capacity amperage, voltage, or the capacity, when not readily accessible, of the electrical system or main service equipment;
- (7) determine the age and type of smoke alarms and carbon monoxide alarms;
- (8) test or determine the interconnectivity or effectiveness of smoke alarms and carbon monoxide alarms;
- (9) verify that smoke or carbon monoxide alarms are interconnected or suitable for the hearing-impaired;
- (10) insert any tool, probe, or testing device inside panels or dismantle any electrical device or control other than to remove the primary electrical distribution panelboards or secondary panelboards and their related dead front covers and fasteners when no hazard conditions exist and when readily accessible;
- (11) remove the covers of junction, fixture, receptacle, or switch boxes unless specifically required by this standard; and
- (12) the home inspector is not required to remove electrical device covers when removal would damage or mar any painted surface or covering materials.

[16.66.7.16 NMAC – N, 1/15/2021; A, 1/14/2022]

16.66.7.17 HEATING:

A. The licensee shall open readily openable access panels provided by the manufacturer or installer for routine homeowner maintenance.

B. The licensee shall inspect:

(1) Permanently installed heating equipment and distribution systems, using normal operating controls; and

(2) Vent systems, flues, and chimneys.

C. In the home inspection report, the licensee shall describe at least the following:

(1) Energy sources; and

(2) Heating systems.

D. The licensee is not required to inspect:

(1) Interior of vent systems, flues, and chimneys that are not readily accessible;

(2) Heat exchangers;

(3) Humidifiers and dehumidifiers;

(4) Electric air cleaning and sanitizing devices;

(5) Portable heating equipment;

(6) Heating systems using ground-source, water-source, solar, and renewable energy technologies;

(7) Heat-recovery and similar whole-house mechanical ventilation systems;

(8) Fuel tanks or underground or concealed fuel supply systems.

E. The licensee is not required to:

(1) Light or ignite pilot flames and burners;

(2) Operate automatic safety controls.

F. The licensee is not required to determine:

(1) Uniformity, temperature, flow, balance, distribution, size, capacity, British thermal unit ("BTU"), or supply adequacy of the heating system;

(2) Adequacy of combustion air components.

[16.66.7.17 NMAC – N, 1/15/2021]

16.66.7.18 COOLING AND AIR CONDITIONING:

A. The licensee shall open readily openable access panels provided by the manufacturer or installer for routine homeowner maintenance.

B. The licensee shall inspect central and permanently installed cooling equipment and distribution systems, using normal operating controls.

C. In the home inspection report, the licensee shall describe at least the following:

(1) Energy sources; and

(2) Cooling systems.

D. The licensee is not required to:

(1) Operate cooling systems when weather conditions or other circumstances may cause equipment damage;

(2) Operate automatic safety controls;

(3) Inspect electric air cleaning and sanitizing devices;

(4) Inspect cooling units that are not permanently installed or that are installed in windows;

(5) Inspect cooling systems using ground-source, water-source, solar, and renewable energy technologies;

(6) Determine the uniformity, temperature, flow, balance, distribution, size, capacity, BTU, or supply adequacy of the cooling system.

[16.66.7.18 NMAC – N, 1/15/2021]

16.66.7.19 INTERIORS:

A. The licensee shall inspect:

(1) Walls, ceilings, and floors;

(2) Steps, stairways, balconies, and the associated railings, guards, and handrails;

(3) Countertops and a representative number of permanently installed cabinets; and

(4) A representative number of doors and windows.

B. In the home inspection report, the licensee shall describe at least the following:

(1) Absence of performing emergency escape and rescue openings in all sleeping rooms;

(2) Observed indications of active water penetration on building components; and

(3) Observed indications of active or abnormal condensation on building components.

C. The licensee is not required to inspect:

(1) Safety glazing;

(2) Coatings on and the hermetic seals between panes of window glass;

(3) Security bar release and opening mechanisms;

(4) Paint, wallpaper and other finish treatments on the interior walls, ceilings, and floors;

(5) Floor coverings or carpeting;

(6) Draperies, blinds, or other window treatments; and

(7) Recreational equipment or facilities.

D. The licensee is not required to move personal items, furniture, equipment, or plant life that obstructs access or visibility.

[16.66.7.19 NMAC – N, 1/15/2021]

16.66.7.20 GARAGES:

A. The licensee shall inspect:

(1) Walls and ceilings adjoining living space;

- (2) Doors entering living space from the garage;
- (3) Presence of burners, burner ignition devices, or heating elements permanently installed in the garage;
- (4) Presence of vehicle barrier when heating or water heating units are in the path of the vehicle;
- (5) Scuttle access to attics, including pull-down stairs inside the garage;
- (6) Garage vehicle door;
- (7) Vehicle door automatic operator and safety features present.

B. In the home inspection report, the licensee shall describe at least the following:

- (1) Damage, unsealed penetrations, and openings to walls and ceilings adjoining living spaces;
- (2) Presence of heating or cooling supply or return ductwork inside the garage space;
- (3) Burners, burner ignition devices, and other heating elements, switches, and thermostats that may generate a glow, spark, or flame capable of igniting flammable vapors that are installed less than 18 inches above the floor above the garage floor, unless the unit is listed for garage floor installation; and
- (4) Vehicle door operation.

C. The licensee is not required to:

- (1) Verify or certify automatic operator remote control operation;
- (2) Verify or certify the proper operation of any pressure-activated auto-reverse or related safety feature of a garage door;
- (3) Inspect or operate equipment housed in the garage, except as otherwise noted;
- (4) Move personal items, furniture, or equipment which obstructs access or visibility; and
- (5) Burners, burner ignition devices, or heating elements, switches, and thermostats that are not a minimum of eighteen (18) inches above the lowest garage floor elevation, unless the unit is listed for garage floor installation.

[16.66.7.20 NMAC – N, 1/15/2021]

16.66.7.21 INSULATION AND VENTILATION:

A. The licensee shall inspect:

- (1) Insulation and vapor retarders in unfinished spaces;
- (2) Ventilation of unfinished spaces, including attics, enclosed rafter spaces, crawlspaces, and foundation areas; and
- (3) Kitchen, bathroom, laundry, and similar exhaust systems.

B. In the home inspection report, the licensee shall describe at least the following:

- (1) Insulation and vapor retarder in unfinished spaces;
- (2) Ventilation of unfinished spaces; and
- (3) Absence of insulation in unfinished spaces at conditioned surfaces.

C. The licensee is not required to:

- (1) Disturb insulation;
- (2) Determine the adequacy of ventilation;
- (3) Report on concealed insulation, vapor retarders, or venting equipment which is integral with household appliances.

[16.66.7.21 NMAC – N, 1/15/2021]

16.66.7.22 FIREPLACES AND FUEL BURNING APPLIANCES:

A. The licensee shall inspect:

- (1) Fuel-burning fireplaces, stoves, and fireplace inserts;
- (2) Fuel-burning accessories installed in fireplaces; and
- (3) Chimneys and vent systems.

B. In the home inspection report, the licensee shall describe at least the following:

- (1) Fuel-burning fireplaces, stoves, and fireplace inserts;

(2) Fuel-burning accessories installed in fireplaces;

(3) Presence or lack of a smoke detector in same room of fuel-burning fireplaces, stoves, or fireplace inserts; and

(4) Presence or lack of a carbon monoxide detector in same room of fuel-burning fireplaces, stoves, and fireplace inserts.

C. The licensee is not required to inspect:

(1) Interiors of vent systems, flues, and chimneys that are not readily accessible;

(2) Fire screens and doors;

(3) Seals and gaskets;

(4) Mantles and fireplace surrounds;

(5) Combustion air components;

(6) Heat distribution assists (gravity feeds and fan assisted);

(7) Automatic fuel feed devices;

(8) Fuel-burning fireplaces and appliances located outside the inspected structures.

D. The licensee is not required to:

(1) Ignite pilot flames;

(2) Ignite or extinguish fires;

(3) Determine the adequacy of drafts or draft characteristics;

(4) Move fireplace inserts, stoves, or firebox contents.

[16.66.7.22 NMAC – N, 1/15/2021]

16.66.7.23 BUILT-IN APPLIANCES:

A. The licensee shall inspect:

(1) Kitchen, using normal operating controls:

- (a) Dishwashers through a cycle of the licensee's choosing;
 - (b) Ovens, ranges, and surface cooking appliances;
 - (c) Trash compactors;
 - (d) Food waste grinders;
 - (e) Permanently installed kitchen ventilation equipment; and
 - (f) Permanently installed microwave oven.
- (2) Laundry:
 - (a) Dryer hookup energy sources; and
 - (b) Dryer ventilation or exhaust system.

B. In the home inspection report, the licensee shall describe at least the permanently installed appliances that the licensee did not operate and the reason why the appliance was not operated.

C. The licensee is not required to inspect:

- (1) Installed and free-standing kitchen and laundry appliances that are not listed in subsection (A) of this rule;
- (2) Appliances in use or appliances on which personal items are located;
- (3) Appliance thermostats, including their calibration, adequacy of heating elements, self-cleaning oven cycles, indicator lights, door seals, timers, clocks, timed features, and other specialized features of the appliance;
- (4) Microwave oven heating function or microwave leakage;
- (5) Refrigerators, ice makers, or freezers;
- (6) Laundry washers with respect to operation or performance;
- (7) Laundry dryers with respect to operation or performance;
- (8) Central vacuum systems;
- (9) Clocks, timers, self-cleaning oven functions, or thermostats for calibration or automatic characteristics of operation;

(10) Any system, component, or appliance that does not respond to normal user controls;

(11) Any system, component, or appliance that requires use of special codes, keys, combinations, or devices;

(12) Elevators or stairlifts.

D. The licensee is not required to:

(1) Remove personal items in or on the appliance;

(2) Operate or confirm the operation of every control and feature of an inspected appliance.

[16.66.7.23 NMAC – N, 1/15/2021]

16.66.7.24 LIMITATIONS AND EXCLUSIONS:

A. General limitations:

(1) The requirements, obligations, and standards in this Part apply to residential buildings with four or fewer dwelling units and their attached and detached garages and carports.

(2) As part of a particular home inspection, licensees are not required to perform actions or make determinations or recommendations beyond those identified in this Part.

(3) Home inspections performed by licensees are not expected to be technically exhaustive.

(4) Home inspections performed by licensees are not required to identify or report on concealed, latent, or intermittent conditions.

B. In general, the licensee is not required to inspect:

(1) Underground items including, but not limited to, lawn irrigation systems or underground storage tanks and other underground indications of their presence, whether abandoned or active;

(2) Items that are not permanently installed;

(3) Permanently installed decorative items;

(4) Items in areas that the licensee does not enter, as provided in this Part;

- (5)** Detached structures other than garages and carports;
- (6)** Common elements and common areas in multi-unit housing, such as condominium properties and cooperative housing;
- (7)** All occurrence of multiple similar components, provided that the licensee may be required to inspect one such component;
- (8)** Outdoor cooking appliances.

C. In general, the licensee is not required to:

- (1)** Ignite or extinguish fires, pilot lights, burners, and other open flames that require manual ignition;
- (2)** Dismantle systems and components, except as required by this Part;
- (3)** Operate any system or component which is shut down or otherwise inoperable;
- (4)** Operate any system or component which does not respond to normal operating controls;
- (5)** Operate shut-off valves and manual stop valves;
- (6)** Reset, reprogram, or otherwise adjust devices, systems, and components affected by the home inspection required by this Part;
- (7)** Probe surfaces that would be damaged or where no deterioration is visible or presumed to exist;
- (8)** Use specialized tools;
- (9)** Disturb insulation, move personal items, furniture, equipment, plant life, soil, snow, ice, or debris which obstructs access or visibility;
- (10)** Enter areas that will, as determined by the licensee, likely be dangerous to the licensee or to other persons or likely to damage the property or its systems and components;
- (11)** Enter any area or perform any procedure which may damage the property or its components or be dangerous to the licensee or other persons;
- (12)** Enter under-floor crawlspaces and attics that are not readily accessible;

(13) Identify and report cosmetic imperfections that do not affect a component's normally intended function or operation;

(14) Describe or report on systems or components that are not included in this Part and that were not inspected;

(15) Offer warranties or guarantees of any kind;

(16) Offer or perform any engineering services;

(17) Offer or perform any trade or professional service other than home inspection.

D. In general, the licensee is not required to determine:

(1) Compliance with local codes, ordinances or regulations, the legality of property and its present use, conditions of title, boundaries and easements, and location in earthquake, flood, mining, or any other hazard zones;

(2) Whether any permits were required or obtained for any work performed on the subject property;

(3) Whether grandfathering applies to any condition in a system or component;

(4) Condition of systems and components not readily accessible;

(5) Strength, adequacy, effectiveness, and efficiency of systems and components;

(6) Causes of adverse conditions observed and reported;

(7) Methods, materials, and costs of corrections;

(8) Future conditions, including but not limited to failure of systems and components;

(9) The age of installation of any system, structure, or component of a building;

(10) The remaining life expectancy of systems and components;

(11) Whether items, materials, conditions, and components are subject to recall, controversy, litigation, product liability, and other adverse claims and conditions;

(12) Operating costs of systems and components;

(13) Acoustical properties of systems and components;

(14) Presence of plants, animals, and other life forms and substances that may be hazardous or harmful to humans including, but not limited to, wood destroying organisms, molds, and mold-like substances;

(15) Presence of environmental hazards including, but not limited to, allergens, toxins, carcinogens, electromagnetic radiation, noise, radioactive substances, and contaminants in building materials, soil, water, and air;

(16) Effectiveness of permanently installed systems and methods used to control or remove suspected hazardous plants, animals, and environmental hazards;

(17) Soil conditions relating to geotechnical or hydrologic specialties;

(18) Advisability of purchasing of the property being inspected;

(19) Insurability of the property;

(20) Marketability or market value of the property;

(21) Suitability of the property for specialized uses.

[16.66.7.24 NMAC – N, 1/15/2021]

16.66.7.25 INSPECTION REPORTS:

Following any home inspection, the licensee shall provide the client with a written inspection report.

A. Inspection reports must state, at a minimum, the following:

(1) The systems and components of the home that, as determined by the licensee, are not performing their normally intended function or operation or are not consistent with generally established practices regarding the historically or conventionally applied and acknowledged methods of installation, assembly, operation or use;

(2) Recommendations as to the need to correct, observe, or check for further correction the adverse conditions reported pursuant to subsection (A) of this rule or any other items requiring further evaluation;

(3) Such reasoning and explanation as necessary to identify and clarify the nature of the adverse conditions reported pursuant to subsection (A) of this rule;

(4) The systems and components of the home designated for inspection under the Board's rules which were present at the time of the home inspection but not inspected, along with the reasons for the lack of inspection;

(5) The following statement, in its entirety and in all capital letters: "THE HOME INSPECTOR DID NOT DETERMINE AND THIS REPORT DOES NOT CONTAIN A DETERMINATION OF WHETHER THE HOME OR COMPONENTS AND/OR SYSTEMS OF THE HOME THAT HAVE BEEN INSPECTED CONFORM TO LOCAL OR STATE BUILDING CODE REQUIREMENTS."

B. Although all pre-inspection agreements must state the date upon which the licensee shall deliver the home inspection report to the client, if the pre-inspection agreement does not set forth such a date, the home inspector shall provide the report to the client no later than five days after the home inspection was performed.

[16.66.7.25 NMAC – N, 1/15/2021]

PART 8: DISCIPLINARY PROCEEDINGS

16.66.8.1 ISSUING AGENCY:

New Mexico home inspectors board.

[16.66.8.1 NMAC – N, 1/15/2021]

16.66.8.2 SCOPE:

All licensed home inspectors, license applicants, other agencies, professional associations, and any member of the general public affected by or interested in home inspectors.

[16.66.8.2 NMAC – N, 1/15/2021]

16.66.8.3 STATUTORY AUTHORITY:

These rules are promulgated pursuant to the Home Inspector Licensing Act, Sections 61-24D-1 through 16 NMSA 1978 (2019).

[16.66.8.3 NMAC – N, 1/15/2021]

16.66.8.4 DURATION:

Permanent.

[16.66.8.4 NMAC – N, 1/15/2021]

16.66.8.5 EFFECTIVE DATE:

January 15, 2021, unless a later date is cited at the end of a section.

[16.66.8.5 NMAC – N, 1/15/2021]

16.66.8.6 OBJECTIVE:

The objective of Part 8 of Chapter 66 is to establish the procedures for denying applications for licensure, processing complaints against licensees and applicants, reinstatement of suspended or revoked licenses, and taking disciplinary action against licensees.

[16.66.8.6 NMAC – N, 1/15/2021]

16.66.8.7 DEFINITIONS:

Refer to Definitions, 16.66.1.7 NMAC.

[16.66.8.7 NMAC – N, 1/15/2021]

16.66.8.8 GROUNDS FOR DISCIPLINARY ACTION:

The following are grounds for taking disciplinary action against licensees and unlicensed practitioners, and for denying licenses to applicants:

- A.** Substantial misrepresentation;
- B.** Violations of the Home Inspector Licensing Act or any rule of the board, including but not limited to the code of ethics and standards of practice as outlined in Parts 5 and 6 of these rules;
- C.** Offered or delivered compensation, inducement, or reward to the owner of an inspected property or to the broker or the agent for the referral of any business to the home inspector or the home inspector's company;
- D.** A license to perform home inspections revoked, suspended, denied, stipulated or otherwise limited in any state, jurisdiction, territory or possession of the United States or another country for actions of the licensee similar to acts proscribed in Section 61-24D-11 of the Home Inspector Licensing Act;
- E.** Failure to furnish the board, its investigators or its representatives with information requested by the board in the course of an official investigation;
- F.** Performance or offer to perform for an additional fee any repair to a structure on which the home inspector or the home inspector's company has prepared a report at

any time during the twelve months immediately prior to the repair or offer to repair, except that a home inspection company that is affiliated with or that retains a home inspector does not violate this paragraph if the home inspection company performs repairs pursuant to a claim made pursuant to the terms of a home inspection contract; or

G. Failure to maintain errors and omissions insurance and professional liability insurance as required by the Home Inspector Licensing Act and the rules of the board.

H. Failure to comply with a notice of audit or submit evidence of continuing education hours earned during the current renewal cycle may result in disciplinary action by the board.

[16.66.8.8 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.8.9 COMPLAINTS AND RESPONSES:

A. A complaint against a licensee or applicant may be filed with the board by any person, office, or organization. The complaint must also contain specific factual allegations of violations of either the Home Inspector Licensing Act, board's rules, or code of ethics.

B. Upon receipt of any complaint alleging that a licensee has violated the Home Inspector Licensing Act, board's rules, or code of ethics, board staff shall forward the complaint to the respective licensee and request a response. The licensee ("respondent") must provide a response to the board within ten business days of receipt. A respondent's failure to respond to the complaint within this specified time frame shall be grounds for disciplinary action, up to and including revocation of the license at the discretion of the board.

C. The board administrator may authorize the issuance of an investigative subpoena to obtain documents or other evidence relevant to a disciplinary complaint.

D. Subject to applicable exceptions to confidentiality established by law, all complaints, responses, and other disciplinary and investigatory records are public records available for inspection and copying, pursuant to state law, irrespective of the final disposition of the underlying disciplinary complaint.

[16.66.8.9 NMAC – N, 1/15/2021; A, 04/23/2024]

16.66.8.10 REVIEW OF COMPLAINT:

All complaints may be reviewed by the board's complaint committee.

A. Should the board, in its discretion, choose to utilize a complaint committee, the complaint committee shall be responsible for reviewing disciplinary complaints against

licensees and applicants and making informal, non-binding recommendations to the board as to their disposition. The complaint committee shall not have any policymaking authority of any kind.

B. The board's complaint committee shall consist of no more than two board members and no more than two other volunteer members who are not members of the board, for a total of no more than four members at any given time.

C. After completing its review of a complaint, the complaint committee shall either recommend that the board take disciplinary action or that it close the case. As part of any recommendation of disciplinary action, the complaint committee may also make recommendations as to the proper amount of discipline (i.e., letter of reprimand, fine, suspension, revocation, etc.), including discipline that might be obtained through a negotiated settlement agreement with the licensee, applicant, or unlicensed practitioner.

[16.66.8.10 NMAC – N, 1/15/2021; A, 4/23/2024]

16.66.8.11 HEARINGS AND DISCIPLINARY PROCEEDINGS:

A. All disciplinary proceedings conducted by the board shall fully conform to the provisions of the Uniform Licensing Act, NMSA 1978, Sections 61-1-1 to -34 (1957, as amended through 2019).

B. In the event that the board seeks to proceed with formal disciplinary action and issue a notice of contemplated action pursuant to the Uniform Licensing Act, the board shall send a request to the litigation division of the New Mexico Office of the Attorney General, which shall, if it elects to do so, serve as the administrative prosecutor on behalf of the board.

C. If a respondent requests an evidentiary hearing in response to a notice of contemplated action, the board chair shall designate a hearing officer to preside over the hearing. Alternatively, at the discretion of the board chair or upon vote of the board, the entire board may preside over the hearing.

D. Any continuance of an evidentiary hearing requested or stipulated by a respondent shall only be considered by the hearing officer, or board chair if the hearing is conducted by the full board, if the respondent has knowingly, voluntarily, and intelligently signed a waiver of the applicable time limits set forth by the Uniform Licensing Act.

[16.66.8.11 NMAC – N, 1/15/2021]

16.66.8.12 SETTLEMENT AGREEMENTS:

As a means of resolving disciplinary complaints against licensees, applicants, and unlicensed practitioners without the time and expense of formal hearings, settlement

agreements are encouraged at any stage in the disciplinary process prior to the adjournment of the evidentiary hearing.

A. Prior to the board voting on a disciplinary complaint or the matter being referred to the Office of the Attorney General for administrative prosecution, the board staff may negotiate a settlement agreement with the respondent. However, the board itself must vote to approve the settlement agreement at an open meeting, and no settlement agreement is valid under any circumstances until the board so votes.

B. Prior to the issuance of a notice of contemplated action or the adjournment of an evidentiary hearing, the board's administrative prosecutor may negotiate a settlement agreement with the respondent. However, the board itself must vote to approve the settlement agreement at an open meeting, and no settlement agreement is valid under any circumstances until the board so votes.

C. Following the conclusion of an evidentiary hearing, no settlement agreement shall be considered by the board.

[16.66.8.12 NMAC – N, 1/15/2021]

16.66.8.13 REINSTATEMENT OF SUSPENDED OR REVOKED LICENSES:

A. Reinstatement of Suspended Licenses: Licensees whose licenses have been suspended by the board may apply to reinstate those licenses in accordance with the terms of the suspension. Any licensee seeking reinstatement of a suspended license shall be required to provide to the board:

- (1) A completed board-issued application form;
- (2) Payment of the non-refundable renewal fee in full as provided in Part 2;
- (3) Payment of the non-refundable reinstatement fee in full as provided in Part 2;
- (4) Any evidence necessary to demonstrate that the licensee has satisfactorily completed any terms of the licensee's suspension.

B. Reinstatement of Revoked Licenses: Former licensees whose licenses were revoked by the board may apply to reinstate those licenses no sooner than five years following the date of the order of revocation, unless the former licensee's license was revoked pursuant to the Parental Responsibility Act, in which case the former licensee may apply for reinstatement immediately upon the name of the former licensee's removal from the certified list issued by the New Mexico department of human services. Any former licensee seeking reinstatement of a revoked license shall, pursuant to the terms of the Uniform Licensing Act, carry the burden of demonstrating to the board the

former licensee's qualifications for licensure. The former licensee shall be required to provide to the board:

- (1) A completed board-issued application form;
- (2) Payment of the non-refundable renewal fee in full as provided in Part 2;
- (3) Payment of the non-refundable reinstatement fee in full as provided in Part 2;
- (4) A letter, affidavit, or other evidence necessary to demonstrate that the former licensee will, in the future, comply with all of the provisions of the Home Inspector Licensing Act and the board's rules.

[16.66.8.13 NMAC – N, 1/15/2021]

16.66.8.14 PARENTAL RESPONSIBILITY ACT:

The authority of the board to issue a notice of contemplated action against any licensee or applicant for licensure whose name appears on the certified list issued by the New Mexico department of human services, as provided in NMSA 1978, 40-5A-1, et seq, as deficient in child support payments, and to refer cases in which notices of contemplated action have been issued for administrative prosecution, is delegated to the administrator of the board. This section shall not be construed to deprive the board of its authority and power to issue a notice of contemplated action for any apparent violation of the Parental Responsibility Act, and to refer any such case for administrative prosecution.

[16.66.8.14 NMAC – N, 1/15/2021]

PART 9: INSURANCE

16.66.9.1 ISSUING AGENCY:
