24-1-2. Definitions.

As used in the Public Health Act:

A. "crisis triage center" means a health facility that:

- (1) is licensed by the department of health;
- (2) is not physically part of an inpatient hospital or included in a hospital's license; and
- (3) provides stabilization of behavioral health crises, including short-term residential stabilization;

B. "department" or "division" means the children, youth and families department as to child care centers, residential treatment centers that serve persons up to twenty-one years of age, community mental health centers that serve only persons up to twenty-one years of age, day treatment centers that serve persons up to twenty-one years of

age, shelter care homes and those outpatient facilities that are also community-based behavioral health facilities serving only persons up to twenty-one years of age and the department of health as to all other health facilities, unless otherwise designated;

C. "director" means the secretary;

D. "health facility" means a public hospital, profit or nonprofit private hospital, general or special hospital, outpatient facility, crisis triage center, maternity home or shelter, freestanding birth center, adult daycare facility, nursing home, intermediate care facility, boarding home not under the control of an institution of higher learning, child care center, shelter care home, diagnostic and treatment center, rehabilitation center, infirmary, community mental health center that serves both children and adults or adults only, residential treatment center that serves persons up to twenty-one years of age, community mental health center that serves only persons up to twenty-one years of age and day treatment center that serves persons up to twenty-one years of age or a health service organization operating as a freestanding hospice or a home health agency. The designation of these entities as health facilities is only for the purposes of definition in the Public Health Act and does not imply that a freestanding hospice or a home health agency is considered a health facility for the purposes of other provisions of state or federal laws. "Health facility" also includes those facilities that, by federal regulation, must be licensed by the state to obtain or maintain full or partial, permanent or temporary federal funding. It does not include the offices and treatment rooms of licensed private practitioners;

E. "person", when used without further qualification, means an individual or any other form of entity recognized by law; and

F. "secretary" means the secretary of children, youth and families as to child care centers, residential treatment centers that serve persons up to twenty-one years of age, community mental health centers that serve only persons up to twenty-one years of age, day treatment centers that serve persons up to twenty-one years of age, shelter care homes and those outpatient facilities that are also community-based behavioral health facilities serving only persons up to twenty-one years of age and the secretary of health as to all other health facilities.

2015 Multiple Amendments. — Laws 2015, ch. 61, § 1 and Laws 2015, ch. 153, § 1 enacted different amendments to this section that can be reconciled. Pursuant to 12-1-8 NMSA 1978, Laws 2015, ch. 153, § 1, as the last act signed by the governor, is set out above and incorporates both amendments. The amendments enacted by Laws 2015, ch. 61, § 1 and Laws 2015, ch. 153, § 1 are described below. To view the session laws in their entirety, see the 2015 session laws on *NMONESOURCE.COM*.

The nature of the difference between the amendments is that Laws 2015, ch. 61, § 1 added the definition of "crisis triage center" and Laws 2015, ch. 153, § 1 amended the definition of "health facility" to include a freestanding birth center.

Laws 2015, ch. 153, 1, effective June 19, 2015, in Subsection D, after "home or shelter", added "freestanding birth center".

Laws 2015, ch. 61, § 1, effective June 19, 2015, added a new Subsection A and redesignated former Subsections A and B as Subsections B and C, respectively; deleted former Subsection C; in Subsection D, after "outpatient facility", added "crisis triage center", and after "licensed private practitioners" added "and"; and added new Subsection E and redesignated the succeeding subsection accordingly.

Temporary provisions. — Laws 2015, ch. 61, § 3 provided that by July 1, 2016, the department of health shall adopt and promulgate rules relating to the licensure of crisis triage centers pursuant to Laws 2015, ch. 61, § 1.

The 2007 amendment, effective June 15, 2007, added to the definition of "department" shelter care homes and outpatient facilities that are also community-based behavioral health facilities serving only persons up to twenty-one years of age and defined "secretary" to mean the secretary of children, youth and families as to residential treatment centers, community mental health centers, day treatment centers, and outpatient facilities that are also community-based behavioral health facilities that serve persons up to twenty-one years of age and shelter care homes.

The 2003 amendment, effective June 20, 2003, substituted "residential treatment centers that serve persons up to twenty-one years of age, community mental health centers that serve only persons up to twenty-one years of age and day treatment centers that serve persons up to twenty-one years of age" for "and facilities" following "child care centers" in Subsection A; in Subsection D, inserted "that serves both children and adults or adults only, residential treatment center that serves persons up to twenty-one years of age, community mental health center that serves only persons up to twenty-one years of age and day treatment center that serves persons up to twenty-one years of age" following "mental health center", and substituted "that" for "which" following "includes those facilities".

The 1999 amendment, effective June 18, 1999, inserted "community mental health center" following "infirmary" in Subsection D.

The 1996 amendment, effective May 15, 1996, rewrote Subsections A and B; in Subsection D, deleted "sanitarium" preceding "maternity" and "asylum" preceding "nursing" in the first sentence and substituted "entities as health facilities" for "services as a health facility" in the second sentence; and added Subsection E.

Liberal construction of statute. — The health and social services department's (now department of health's) licensing power as delegated by the legislature in this article should be liberally construed to allow the department to prescribe, maintain and enforce necessary or desirable regulations to promote the psychological and physical well-being of children attending licensed child care centers. Included within the scope of the department's authority is the prescription, maintenance and enforcement of minimum standards for the care given children in licensed child care centers, provided such standards bear a reasonable relation to the public health and are reasonably adapted to prevent some existing or anticipated menace. 1976 Op. Att'y Gen. No. 76-37.

Isolation of person afflicted with contagious disease. — Under a general delegation of the power to take measures necessary to prevent the spread of contagious disease, health officers have the power to provide for the isolation of persons afflicted with such a disease. 1959-60 Op. 24-1-5. Licensure of health facilities; hearings; appeals.

A. A health facility shall not be operated without a license issued by the department. If a health facility is found to be operating without a license, in order to protect human health or safety, the secretary may issue a cease-and-desist order. The health facility may request a hearing that shall be held in the manner provided in this section. The department may also proceed pursuant to the Health Facility Receivership Act [Chapter 24, Article 1E NMSA 1978].

B. The department is authorized to make inspections and investigations and to prescribe rules it deems necessary or desirable to promote the health, safety and welfare of persons using health facilities.

C. Except as provided in Subsection F of this section, upon receipt of an application for a license to operate a health facility, the department shall promptly inspect the health facility to determine if it is in compliance with all rules of the department. Applications for hospital licenses shall include evidence that the bylaws or rules of the hospital apply equally to osteopathic and medical physicians. The department shall consolidate the applications and inspections for a hospital that also operates as a hospital-based primary care clinic.

D. Upon inspection of a health facility, if the department finds a violation of its rules, the department may deny the application for a license, whether initial or renewal, or it may issue a temporary license. A temporary license shall not be issued for a period exceeding one hundred twenty days, nor shall more than two consecutive temporary licenses be issued.

E. A one-year nontransferable license shall be issued to any health facility complying with all rules of the department. The license shall be renewable for successive one-year periods, upon filing of a renewal application, if the department is satisfied that the health facility is in compliance with all rules of the department or, if not in compliance with a rule, has been granted a waiver or variance of that rule by the department pursuant to procedures, conditions and guidelines adopted by rule of the department. Licenses shall be posted in a conspicuous place on the licensed premises, except that child care centers that receive no state or federal funds may apply for and receive from the department a waiver from the requirement that a license be posted or kept on the licensed premises.

F. A health facility that has been inspected and licensed by the department, that has received certification for participation in federal reimbursement programs and that has

been fully accredited by a national accrediting organization approved by the federal centers for medicare and medicaid services or the department shall be granted a license renewal based on that accreditation. A freestanding birth center that has been inspected and licensed by the department and is accredited by the commission for accreditation of birth centers or its successor accreditation body shall be granted a license renewal based on that accreditation. Health facilities receiving less than full accreditation by an approved accrediting body may be granted a license renewal based on that accreditation. License renewals shall be issued upon application submitted by the health facility upon forms prescribed by the department. This subsection does not limit in any way the department's various duties and responsibilities under other provisions of the Public Health Act or under any other subsection of this section, including any of the department's responsibilities for the health and safety of the public.

G. The department may charge a reasonable fee not to exceed twelve dollars (\$12.00) per bed for an inpatient health facility or three hundred dollars (\$300) for any other health facility for each license application, whether initial or renewal, of an annual license or the second consecutive issuance of a temporary license. Fees collected shall not be refundable. All fees collected pursuant to licensure applications shall be deposited with the state treasurer for credit in a designated department recurring account for use in health facility licensure and certification operations.

H. The department may revoke or suspend the license of a health facility or may impose on a health facility an intermediate sanction and a civil monetary penalty provided in Section 24-1-5.2 NMSA 1978 after notice and an opportunity for a hearing before a hearing officer designated by the department to hear the matter and, except for child care centers and facilities, may proceed pursuant to the Health Facility Receivership Act upon a determination that the health facility is not in compliance with any rule of the department. If immediate action is required to protect human health and safety, the secretary may suspend a license or impose an intermediate sanction pending a hearing, provided the hearing is held within five working days of the suspension or imposition of the sanction, unless waived by the licensee, and, except for child care centers and facilities, may proceed ex parte pursuant to the Health Facility Receivership Act.

I. The department shall schedule a hearing pursuant to Subsection H of this section if the department receives a request for a hearing from a licensee:

(1) within ten working days after receipt by the licensee of notice of suspension, revocation, imposition of an intermediate sanction or civil monetary penalty or denial of an initial or renewal application;

(2) within four working days after receipt by the licensee of an emergency suspension order or emergency intermediate sanction imposition and notice of hearing if the licensee wishes to waive the early hearing scheduled and request a hearing at a later date; or

- (3) within five working days after receipt of a cease-and-desist order.

The department shall also provide timely notice to the licensee of the date, time and place of the hearing, identity of the hearing officer, subject matter of the hearing and alleged violations.

J. A hearing held pursuant to provisions of this section shall be conducted in accordance with adjudicatory hearing rules and procedures adopted by rule of the department. The licensee has the right to be represented by counsel, to present all relevant evidence by means of witnesses and books, papers, documents, records, files and other evidence and to examine all opposing witnesses who appear on any matter relevant to the issues. The hearing officer has the power to administer oaths on request of any party and issue subpoenas and subpoenas duces tecum prior to or after the commencement of the hearing to compel discovery and the attendance of witnesses and the production of relevant books, papers, documents, records, files and other evidence. Documents or records pertaining to abuse, neglect or exploitation of a resident, client or patient of a health facility or other documents, records or files in the custody of the human services department or the office of the state long-term care ombudsman at the aging and long-term services department that are relevant to the alleged violations are discoverable and admissible as evidence in any hearing.

K. Any party may appeal the final decision of the department pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

L. A complaint about a health facility received by the department pursuant to this section shall be promptly investigated and appropriate action shall be taken if substantiated. The department shall develop a health facilities protocol in conjunction with the human services department, the protective services division of the children, youth and families department, the office of the state long-term care ombudsman and other appropriate agencies to ensure the health, safety and rights of individuals in health facilities. The health facilities protocol shall require:

- (1) cross-reference among agencies pursuant to this subsection of an allegation of abuse, neglect or exploitation;

- (2) an investigation, within the strict priority time frames established by each protocol member's rules, of an allegation or referral of abuse, neglect or exploitation after the department has made a good cause determination that abuse, neglect or exploitation occurred;

- (3) an agency to share its investigative information and findings with other agencies, unless otherwise prohibited by law; and

- (4) require the receiving agency to accept the information provided pursuant to Paragraph (3) of this subsection as potential evidence to initiate and conduct investigations.

M. A complaint received by the department pursuant to this section shall not be disclosed publicly in a manner as to identify any individuals or health facilities if upon investigation the complaint is unsubstantiated.

N. Notwithstanding any other provision of this section, when there are reasonable grounds to believe that a child is in imminent danger of abuse or neglect while in the care of a child care facility, whether or not licensed, or upon the receipt of a report pursuant to Section 32A-4-3 NMSA 1978, the department shall consult with the owner or operator of the child care facility. Upon a finding of probable cause, the department shall give the owner or operator notice of its intent to suspend operation of the child care facility and provide an opportunity for a hearing to be held within three working days, unless waived by the owner or operator. Within seven working days from the day of notice, the secretary shall make a decision, and, if it is determined that any child is in imminent danger of abuse or neglect in the child care facility, the secretary may suspend operation of the child care facility for a period not in excess of fifteen days. Prior to the date of the hearing, the department shall make a reasonable effort to notify the parents of children in the child care facility of the notice and opportunity for hearing given to the owner or operator.

O. Nothing contained in this section or in the Public Health Act shall authorize either the secretary or the department to make any inspection or investigation or to prescribe any rules concerning group homes as defined in Section 9-8-13 NMSA 1978 except as are reasonably necessary or desirable to promote the health and safety of persons using group homes.

24-1-5.2. Health facilities; intermediate sanctions; civil penalty.

A. Upon a determination that a health facility is not in compliance with any licensing requirement of the department, the department, subject to the provisions of this section and Section 24-1-5 NMSA 1978, may:

(1) impose any intermediate sanction established by rule, including but not limited to:

(c) denial of payment for new medicaid admissions to the facility;

(d) temporary management or receivership; and

(e) restricted admissions;

(2) assess a civil monetary penalty, with interest, for each day the facility is or was out of compliance. Civil monetary penalties shall not exceed a total of five thousand dollars (\$5,000) per day. Penalties and interest amounts assessed under this paragraph and recovered on behalf of the state shall be remitted to the department in a recurring account in the state treasury for the sole purpose of funding the nonreimbursed cost of facility monitors, temporary management and health facility receiverships. The civil monetary penalties contained in this paragraph are cumulative and may be imposed in addition to any other fines or penalties provided by law; and

(3) with respect to health facilities other than childcare centers or facilities, proceed pursuant to the Health Facility Receivership Act [Chapter 24, Article 1E NMSA 1978].

B. The secretary shall adopt and promulgate rules specifying the criteria for imposition of any intermediate sanction and civil monetary penalty. The criteria shall provide for more severe sanctions for a violation that results in any abuse, neglect or exploitation of residents, clients or patients as defined in the rules or that places one or more residents, clients or patients of a health facility at substantial risk of serious physical or mental harm.

C. The provisions of this section for intermediate sanctions and civil monetary penalties shall apply to certified nursing facilities except when a federal agency has imposed the same remedies, sanctions or penalties for the same or similar violations.

D. Rules adopted by the department shall permit sanctions pursuant to Paragraphs (1) and (2) of Subsection A of this section for a specific violation in a certified nursing facility if:

(1) the state statute or rule is not duplicated by a federal certification rule; or

(2) the department determines intermediate sanctions are necessary if sanctions permitted pursuant to Paragraphs (1) and (2) of Subsection A of this section do not duplicate a sanction imposed under the authority of 42 U.S.C. 1395 or 1396 for a particular deficiency.

E. A health facility is liable for the reasonable costs of a directed plan of correction, facility monitors, temporary management or receivership imposed pursuant to this section and Section 24-1-5 NMSA 1978. The department may take all necessary and appropriate legal action to recover these costs from a health facility. All money recovered from a health facility pursuant to this subsection shall be paid into the general fund.

Accordingly, these hospitals encounter significant financial losses when treating uninsured or underinsured patients.

B. As used in this section:

(1) "limited service hospital" means a hospital that limits admissions according to medical or surgical specialty, type of disease or medical condition, or a hospital that limits its inpatient hospital services to surgical services or invasive diagnostic and treatment procedures; provided, however, that a "limited service hospital" does not include:

(2) participate in the medicaid, medicare and county indigent care programs;

(3) require a physician owner to disclose a financial interest in the hospital before referring a patient to the hospital;

(4) comply with the same quality standards applied to other hospitals;

(5) provide emergency services and general health care to nonpaying patients and low-income reimbursed patients in the same proportion as the patients are treated in acute-care general hospitals in the local community, as determined by the department in consultation with a statewide hospital organization, the government of the county in which the facilities are located and the affected hospitals; provided that:

(a) a hospital may appeal the determination of the department pursuant to Section 39-3-1.1 NMSA 1978; and

(b) the annual cost of the care required to be provided pursuant to this paragraph shall not exceed an amount equal to five percent of the hospital's annual revenue; and

A hospital, a long-term care facility or a primary care clinic shall provide information sufficient for the secretary to make a reasonable assessment based on clear and convincing evidence of its financial viability, sustainability and potential impact on health care access. Information provided to the secretary pursuant to this section shall remain confidential, is exempt from the Inspection of Public Records Act [Chapter 14, Article 3 NMSA 1978], unless disclosure or use is mandated by the state or federal law, and shall not be used as a basis for suspension, revocation or issuance of a license. The hospital, long-term care facility or primary care clinic shall provide this information to the secretary at least sixty days before the anticipated effective date of a proposed licensure, closure, disposition or acquisition of the hospital, the long-term care facility or the primary care clinic or its essential services.

24-1-15. Reporting of contagious diseases.

A. When a physician or other person knows that a person is infected with a threatening communicable disease, he shall promptly notify a public health official or his authorized agent.

B. A public health official who has knowledge that a person is infected with a threatening communicable disease and has refused voluntary treatment, detention or observation shall petition the court for an order to detain the person who is infected with the threatening communicable disease until the person is no longer a contagious threat to the public or the person voluntarily complies with the appropriate treatment and contagion precautions.

C. The petition shall be made under oath or shall be accompanied by a sworn affidavit setting out specific facts showing that the person is infected with a threatening communicable disease.

D. The petition shall state that the person to be detained:

(1) is actively infectious with a threatening communicable disease or presents a substantial likelihood of having a threatening communicable disease based on credible medical evidence;

(2) poses a substantial likelihood of transmission of the threatening communicable disease to others because of inadequate separation from others; and

(3) after being advised of his condition and the risks posed thereby, has refused voluntary treatment.

E. Upon the filing of a petition the court shall:

(1) immediately grant ex parte a temporary order of protection to isolate the person infected with the threatening communicable disease if there is probable cause from the specific facts shown by the affidavit or by the petition to give the judge reason to believe that the person infected with a threatening communicable disease poses a substantial threat to the public health and safety;

(2) cause the temporary order of protection, notice of hearing and an advisement of the terms of the temporary protective order, including his right to representation and re-petition for termination of any protective order that removes and detains the infected person, to be immediately served on the allegedly infected person; and

(3) within five days after the granting of the temporary order of protection, hold an evidentiary hearing to determine if the court shall continue the order.

F. A person held pursuant to a temporary protective order as set forth in Subsection E of this section shall be:

(1) entitled to representation by counsel at the evidentiary hearing and at all hearings thereafter for the duration of the period of removal and detention; and

(2) permitted to communicate on any matter, including his removal and detention, with persons by telephone, or other reasonably available means, that do not expose other persons to the risk of infection for the duration of the period of removal and detention.

G. Counsel may be retained by the person held or shall be appointed by the court if the court determines that the person held cannot afford legal representation or if the court determines that appointment of counsel is required in the interest of justice.

H. At the evidentiary hearing the court shall review the circumstances surrounding the temporary order and, if the petitioner can show by clear and convincing evidence

that the person being held has not voluntarily complied or will not voluntarily comply with appropriate treatment and contagion precautions, the court may continue the detention of the person infected with a threatening communicable disease. The court shall order regular review of the order to detain by providing the person being held with a subsequent hearing within ninety days of the temporary order's issuance and every ninety days thereafter. The detention order shall be terminated and the person shall be released if:

(1) the person being held is certified by a public health official to pose no further risk of infecting others;

(2) at a hearing, the petitioner, whose burden of proof continues under a clear and convincing standard, can no longer show that the person being held is infected with a threatening communicable disease and that he will not comply with appropriate treatment and contagion precautions voluntarily; or

(3) exceptional circumstances exist warranting the termination of the temporary protective order.

I. The provisions of this section do not permit the forcible administration of medications.

J. The proceedings shall be recorded stenographically, electronically, mechanically or by other appropriate means. The proceedings shall be closed to the general public and the records shall be sealed from public inspection.

K. A person who in good faith reports another person infected with a threatening communicable disease shall not be held liable for civil damages as a result of the report; provided that the person reported as being infected with a threatening communicable disease shall have the right to sue for damages sustained as a result of negligent or intentional reporting of inaccurate information or the disclosure of information to an unauthorized person.

History: 1953 Comp., § 12-34-15, enacted by Laws 1973, ch. 359, § 15; 1999, ch. 159, § 1; 2002, ch. 74, § 1.

ANNOTATIONS

The 2002 amendment, effective May 15, 2002, substituted "infected with a threatening communicable disease" for "sick with any disease dangerous to the public health" in Subsection A; deleted "and treat" following "detain" in Subsection B, and deleted similar references to treatment throughout the section; added new Subsections G, J, and K, and redesignated former Subsections G, H and I as Subsections H, I and L, respectively; and rewrote present Subsection H, shifting the burden of proof to the petitioner rather than the detainee.

The 1999 amendment, effective June 18, 1999, substituted "a public health official" for "the district health officer" in Subsection A and rewrote Subsection B which read: "Any health authority receiving notice that any person is infected with disease dangerous to the public health shall secure his voluntary isolation or, if such person refuses to submit to isolation, he shall file a complaint with any magistrate or district court judge having jurisdiction over the infected person. The complaint shall state the facts as related, under oath, by the health authority or the facts according to his information and belief. Any magistrate or district court judge having jurisdiction may, upon proper complaint, issue a warrant directed to an officer authorized to serve arrest warrants requiring such officer, under the direction of the complaining health authority, to isolate the person".

B. Upon receiving notification that a person has an infectious form of tuberculosis, the department shall prescribe the person a treatment plan meeting the department's therapeutic specifications for the infectious form of tuberculosis. The treatment plan shall include a notice to the person that failure to comply with the treatment plan will result in immediate initiation of court action to ensure compliance, as set forth in this section.

C. When the department has knowledge that a person who has an infectious form of tuberculosis has failed to comply with the department's treatment plan as described in Subsection B of this section, the department shall petition the court for an order of protection for the person who has an infectious form of tuberculosis to comply with whichever of the following courses of action the department deems appropriate:

- (1) a program of directly observed therapy;

- (2) after being advised of the condition and the risks posed thereby, has failed to comply with the department's treatment plan; and
- (3) poses a substantial likelihood of transmission of tuberculosis to others because the person is actively infectious or poses a risk of relapse or development of a therapy-resistant strain of tuberculosis.

F. Upon the filing of a petition for an order of protection, the court shall:

- (1) in cases where there is probable cause established by the petition to give the judge reason to believe that the person who has been alleged to have an infectious form of tuberculosis poses a substantial threat to the public health and safety because the person is actively infectious, or poses a risk of relapse or development of a therapy-resistant strain of tuberculosis because of a history of noncompliance, immediately grant ex parte a temporary order of protection to:

- (a) administer a program of directly observed therapy;

(b) isolate the person and administer a program of directly observed therapy;
or

(c) isolate the person, if the person refuses a program of directly observed therapy;

H. Counsel may be retained by the person under the temporary order of protection or shall be appointed by the court if the court determines that the person held cannot afford legal representation or if the court determines that appointment of counsel is required in the interest of justice.

I. At the evidentiary hearing, the court shall review the circumstances surrounding the temporary order, and, if the petitioner can show by clear and convincing evidence that the person being held has not complied or will not comply with appropriate treatment and contagion precautions as the department deems necessary, the court shall continue the order of protection for the person who has an infectious form of tuberculosis until completion of therapy, as deemed by the department. The court shall order regular review of the order by providing the person under an order of protection with a subsequent hearing within ninety days of the temporary order's issuance and every ninety days thereafter. The order of protection shall be terminated and the person shall be released if:

(1) at a hearing, the petitioner has not met its burden of showing by clear and convincing proof that the person under an order of protection has not completed therapy; or

(2) exceptional circumstances exist warranting the termination of the temporary order of protection.

J. The provisions of this section do not permit the forcible administration of medications.

K. The proceedings of any hearing held pursuant to the section shall be recorded stenographically, electronically or mechanically or by other appropriate means. The proceedings shall be closed to the general public and the records shall be sealed from public inspection.

ANNOTATIONS

Cross references. — For provisions authorizing the performance of a blood-alcohol test, see 66-8-103, 66-8-104 and 66-8-109 NMSA 1978.

The 2003 amendment, effective July 1, 2003, in Subsection A, substituted "department of health" for "department of health and environment"; and inserted "or a motorboat" following "motor vehicle"; and in Subsection C, inserted "and the Boating While Intoxicated Act" following "Implied Consent Act".

Failure to observe defendant for twenty minutes. — A breath alcohol test taken after the defendant was continuously observed for only fifteen minutes was not admissible in her criminal case for driving while intoxicated, because it did not comply with a department of health regulation requiring breath samples to be collected only after the subject has been under continuous observation for at least 20 minutes prior to collection of the first breath sample. *State v. Gardner*, 1998-NMCA-160, 126 N.M. 125, 967 P.2d 465, cert. denied, 126 N.M. 107, 967 P.2d 447.

Duty to make an accurate record. — The statutory duty of the state laboratory division to monitor and certify all blood-alcohol testing and to establish quality control measures by regulation imposes a duty on the state laboratory to make an accurate record of blood-alcohol test results that qualifies as a reliable business record. *State v. Christian*, 1995-NMCA-027, 119 N.M. 776, 895 P.2d 676, cert. denied, 119 N.M. 514, 892 P.2d 961.

Breath alcohol instruments treated differently than equipment for purposes of foundational requirements. — The legislature has delegated full authority to the scientific laboratory division (SLD) over the testing of persons believed to be DUI, including the establishment of criteria and specifications for equipment, quality control, testing methodology and standards, and the certification of breath alcohol instruments, operators, and instructors. SLD regulations impose extensive and explicit certification requirements on instruments, including that each individual instrument have a current certificate evidencing compliance with SLD regulations. In contrast, the only requirements for equipment stated in the regulations are that SLD approve and maintain a list of approved manufacturer's equipment. The regulations contain no requirement that SLD or certified instrument operators must confirm that each individual component of the breath alcohol instrument are SLD-approved before a breath alcohol test (BAT) is administered, and the regulations contain no indication that such individual confirmation is necessary to ensure the accuracy of the BAT result. *State v. Hobbs*, 2016-NMCA-022, cert. denied, 2016-NMCERT-002.

Legislature did not intend to create a statutory right when it enacted this section, or to make compliance with regulations promulgated under this section mandatory. *State v. Watkins*, 1986-NMCA-080, 104 N.M. 561, 724 P.2d 769, writ dismissed, 104 N.M. 522, 724 P.2d 231.

A. Each hospital in New Mexico, with the concurrence of its medical staff, shall develop by July 1, 2000 a protocol for identifying potential donors. The protocol shall be developed in collaboration with a procurement organization. The protocol shall provide that at or near the time of a patient's death and prior to the removal of life support, the hospital shall contact a procurement organization to determine the suitability of the patient as a donor. The person designated by the hospital to contact the procurement organization shall have the following information available prior to making the contact:

- (1) the patient's identifier number;
- (2) the patient's age;
- (3) the cause of death; and
- (4) any past medical history available.

B. The procurement organization shall determine the suitability for donation. If the procurement organization determines that donation is not appropriate based on

established medical criteria, that determination shall be noted by hospital personnel on the patient's record and no further action is necessary.

C. If the procurement organization determines that the patient is a suitable candidate for donation, the procurement organization shall initiate donor proceedings by making a reasonable search for a document of gift or other information identifying the patient as a donor or as a person who has refused to make an anatomical gift.

D. The hospital must have and implement written protocols that:

(1) incorporate an agreement with a procurement organization under which the hospital must notify, in a timely manner, the procurement organization or a third party designated by the procurement organization of patients whose deaths are imminent and prior to the removal of life support from a patient who has died in the hospital;

(2) ensure that the retrieval, processing, preservation, storage and distribution of tissues and eyes does not interfere with vascular organ procurement;

(3) ensure that the family of each potential donor is informed of its options to donate organs, tissues or eyes or to decline to donate. The person designated by the hospital to initiate the request to the family must be a procurement organization employee or a designated requester;

(4) encourage discretion and sensitivity with respect to the circumstances, views and beliefs of the families of potential donors; and

(5) ensure that the hospital works cooperatively with the procurement organization in educating hospital staff on donation issues, reviewing death records to improve identification of potential donors and maintaining potential donors while necessary testing and placement of anatomical gifts take place.

E. Every hospital in the state shall establish a committee to develop and implement its organ and tissue donation policy and procedure to assist its staff in identifying and evaluating terminal patients who may be suitable organ or tissue donors. The committee shall include members of the administrative, medical and nursing staffs and shall appoint a member to act as a liaison between the hospital and the state procurement organization.

When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the motor vehicle division of the taxation and revenue department and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

A. Upon request of a procurement organization, the office of the state medical investigator shall release to the procurement organization the name, contact information and available medical and social history of a decedent whose body is under the jurisdiction of the office of the state medical investigator. If the decedent's body or part is medically suitable for transplantation, therapy, research or education, the office of the state medical investigator shall release post-mortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the post-mortem examination results or other information received from the office of the state medical investigator only if relevant to transplantation or therapy.

B. The office of the state medical investigator may conduct a medico-legal investigation by reviewing all medical records, laboratory test results, x-rays, other diagnostic results and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the office of the state medical investigator that the office of the state medical investigator determines may be relevant to the investigation.

C. A person that has any information requested by the office of the state medical investigator pursuant to Subsection B of this section shall provide that information as expeditiously as possible to allow the office of the state medical investigator to conduct the medico-legal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research or education.

D. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the office of the state medical investigator and a post-mortem examination is not required, or the office of the state medical investigator determines that a post-mortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the office of the state medical investigator and the procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research or education.

E. If an anatomical gift of a part from the decedent under the jurisdiction of the office of the state medical investigator has been or might be made, but the office of the state medical investigator initially believes that the recovery of the part could interfere with the post-mortem investigation into the decedent's cause or manner of death, the office of the state medical investigator shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed

recovery. After consultation, the office of the state medical investigator may allow the recovery.

F. During the removal procedure, the office of the state medical investigator or its designee may allow recovery by the procurement organization to proceed, or, if the office of the state medical investigator or its designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death, may deny recovery by the procurement organization.

G. If the office of the state medical investigator or its designee denies recovery pursuant to Subsection F of this section, the office of the state medical investigator or its designee shall:

- (1) explain in a record the specific reasons for not allowing recovery of the part;
- (2) include the specific reasons in the records of the office of the state medical investigator; and
- (3) provide a record with the specific reasons to the procurement organization.

H. If the office of the state medical investigator or its designee allows recovery of a part pursuant to Subsection D, E or F of this section, the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the office of the state medical investigator with a record describing the condition of the part, a biopsy, a photograph and any other information and observations that would assist in the post-mortem examination.

I. If the office of the state medical investigator or its designee is required to be present at a removal procedure pursuant to Subsection F of this section, upon request the procurement organization requesting the recovery of the part shall reimburse the office of the state medical investigator or its designee for the additional costs incurred in complying with the provisions of Subsection F of this section.

24-7A-2. Advance health-care directives.

A. An adult or emancipated minor, while having capacity, has the right to make his or her own health-care decisions and may give an individual instruction. The instruction may be oral or written; if oral, it must be made by personally informing a health-care provider. The instruction may be limited to take effect only if a specified condition arises.

B. An adult or emancipated minor, while having capacity, may execute a power of attorney for health care, which may authorize the agent to make any health-care decision the principal could have made while having capacity. The power must be in writing and signed by the principal. The power remains in effect notwithstanding the principal's later incapacity under the Uniform Health-Care Decisions Act or Article 5 of the Uniform Probate Code [Chapter 45, Article 5 NMSA 1978]. The power may include individual instructions. Unless related to the principal by blood, marriage or adoption, an agent may not be an owner, operator or employee of a health-care institution at which the principal is receiving care.

C. Unless otherwise specified in a power of attorney for health care, the authority of an agent becomes effective only upon a determination that the principal lacks capacity, and ceases to be effective upon a determination that the principal has recovered capacity.

D. Unless otherwise specified in a written advance health-care directive, a determination that an individual lacks or has recovered capacity or that another condition exists that affects an individual instruction or the authority of an agent, shall be

made according to the provisions of Section 11 [24-7A-11 NMSA 1978] of the Uniform Health-Care Decisions Act.

E. An agent shall make a health-care decision in accordance with the principal's individual instructions, if any, and other wishes to the extent known to the agent. Otherwise, the agent shall make the decision in accordance with the agent's determination of the principal's best interest. In determining the principal's best interest, the agent shall consider the principal's personal values to the extent known to the agent.

F. A health-care decision made by an agent for a principal is effective without judicial approval.

G. A written advance health-care directive may include the individual's nomination of a guardian of the person.

History: Laws 1995, ch. 182, § 2.

24-7A-2.1. Prohibited practice.

A. No insurer or other provider of benefits regulated by the New Mexico Insurance Code [Chapter 59A NMSA 1978, except for Articles 30A and 42A] or a state agency shall require a person to execute or revoke an advance health-care directive as a condition for membership in, being insured for or receiving coverage or benefits under an insurance contract or plan.

B. No insurer may condition the sale, procurement or issuance of a policy, plan, contract, certificate or other evidence of coverage, or entry into a pension, profit-sharing, retirement, employment or similar benefit plan, upon the execution or revocation of an advance health-care directive; nor shall the existence of an advance health-care directive modify the terms of an existing policy, plan, contract, certificate or other evidence of coverage of insurance.

C. The provisions of this section shall be enforced by the superintendent of insurance under the New Mexico Insurance Code.

History: Laws 1997, ch. 168, § 14.

24-7A-3. Revocation of advance health-care directive.

A. An individual, while having capacity, may revoke the designation of an agent either by a signed writing or by personally informing the supervising health-care provider. If the individual cannot sign, a written revocation must be signed for the individual and be witnessed by two witnesses, each of whom has signed at the direction and in the presence of the individual and of each other.

B. An individual, while having capacity, may revoke all or part of an advance health-care directive, other than the designation of an agent, at any time and in any manner that communicates an intent to revoke.

C. A health-care provider, agent, guardian or surrogate who is informed of a revocation shall promptly communicate the fact of the revocation to the supervising health-care provider and to any health-care institution at which the patient is receiving care.

D. The filing of a petition for or a decree of annulment, divorce, dissolution of marriage or legal separation revokes a previous designation of a spouse as agent unless otherwise specified in the decree or in a power of attorney for health care. A designation revoked solely by this subsection is revived by the individual's remarriage to the former spouse, by a nullification of the divorce, annulment or legal separation or by the dismissal or withdrawal, with the individual's consent, of a petition seeking annulment, divorce, dissolution of marriage or legal separation.

E. An advance health-care directive that conflicts with an earlier advance health-care directive revokes the earlier directive to the extent of the conflict.

History: Laws 1995, ch. 182, § 3; 1997, ch. 168, § 2.

ANNOTATIONS

The 1997 amendment, effective July 1, 1997, in Subsection A, substituted "either" for "only" in the first sentence and added the second sentence.

24-7A-4. Optional form.

The following form may, but need not, be used to create an advance health-care directive. The other sections of the Uniform Health-Care Decisions Act govern the effect of this or any other writing used to create an advance health-care directive. An individual may complete or modify all or any part of the following form:

"OPTIONAL ADVANCE HEALTH-CARE DIRECTIVE

Explanation

You have the right to give instructions about your own health care. You also have the right to name someone else to make health-care decisions for you. This form lets you do either or both of these things. It also lets you express your wishes regarding the designation of your primary care practitioner.

THIS FORM IS OPTIONAL. Each paragraph and word of this form is also optional. If you use this form, you may cross out, complete or modify all or any part of it. You are free to use a different form. If you use this form, be sure to sign it and date it.

PART 1 of this form is a power of attorney for health care. PART 1 lets you name another individual as agent to make health-care decisions for you if you become incapable of making your own decisions or if you want someone else to make those decisions for you now even though you are still capable. You may also name an alternate agent to act for you if your first choice is not willing, able or reasonably available to make decisions for you. Unless related to you, your agent may not be an owner, operator or employee of a health-care institution at which you are receiving care.

Unless the form you sign limits the authority of your agent, your agent may make all health-care decisions for you. This form has a place for you to limit the authority of your agent. You need not limit the authority of your agent if you wish to rely on your agent for all health-care decisions that may have to be made. If you choose not to limit the authority of your agent, your agent will have the right to:

- (a) consent or refuse consent to any care, treatment, service or procedure to maintain, diagnose or otherwise affect a physical or mental condition;
- (b) select or discharge health-care practitioners and institutions;
- (c) approve or disapprove diagnostic tests, surgical procedures, programs of medication and orders not to resuscitate; and
- (d) direct the provision, withholding or withdrawal of artificial nutrition and hydration and all other forms of health care.

PART 2 of this form lets you give specific instructions about any aspect of your health care. Choices are provided for you to express your wishes regarding life-sustaining treatment, including the provision of artificial nutrition and hydration, as well as the provision of pain relief. In addition, you may express your wishes regarding whether you want to make an anatomical gift of some or all of your organs and tissue. Space is also provided for you to add to the choices you have made or for you to write out any additional wishes.

PART 3 of this form lets you designate a primary care practitioner to have primary responsibility for your health care.

After completing this form, sign and date the form at the end. It is recommended but not required that you request two other individuals to sign as witnesses. Give a copy of the signed and completed form to your physician, to any other health-care practitioners you may have, to any health-care institution at which you are receiving care and to any health-care agents you have named. You should talk to the person you have named as agent to make sure that he or she understands your wishes and is willing to take the responsibility.

You have the right to revoke this advance health-care directive or replace this form at any time.

PART 1

In determining my best interest, my agent shall consider my personal values to the extent known to my agent.

(8) RELIEF FROM PAIN: Regardless of the choices I have made in this form and except as I state in the following space, I direct that the best medical care possible to keep me clean, comfortable and free of pain or discomfort be provided at all times so that my dignity is maintained, even if this care hastens my death:

(9) ANATOMICAL GIFT DESIGNATION: Upon my death I specify as marked below whether I choose to make an anatomical gift of all or some of my organs or tissue:

I CHOOSE to make an anatomical gift of all of my organs or tissue to be determined by medical suitability at the time of death, and artificial support may be maintained long enough for organs to be removed.

I CHOOSE to make a partial anatomical gift of some of my organs and tissue as specified below, and artificial support may be maintained long enough for organs to be removed.

I REFUSE to make an anatomical gift of any of my organs or tissue.

I CHOOSE to let my agent decide.

24-7A-5. Decisions by surrogate.

A. A surrogate may make a health-care decision for a patient who is an adult or emancipated minor if the patient has been determined according to the provisions of Section 24-7A-11 NMSA 1978 to lack capacity and no agent or guardian has been appointed or the agent or guardian is not reasonably available.

B. An adult or emancipated minor, while having capacity, may designate any individual to act as surrogate by personally informing the supervising health-care provider. In the absence of a designation or if the designee is not reasonably available, any member of the following classes of the patient's family who is reasonably available, in descending order of priority, may act as surrogate:

(1) the spouse, unless legally separated or unless there is a pending petition for annulment, divorce, dissolution of marriage or legal separation;

(2) an individual in a long-term relationship of indefinite duration with the patient in which the individual has demonstrated an actual commitment to the patient similar to the commitment of a spouse and in which the individual and the patient consider themselves to be responsible for each other's well-being;

- (3) an adult child;
- (4) a parent;
- (5) an adult brother or sister; or
- (6) a grandparent.

C. If none of the individuals eligible to act as surrogate under Subsection B of this section is reasonably available, an adult who has exhibited special care and concern for the patient, who is familiar with the patient's personal values and who is reasonably available may act as surrogate.

D. A surrogate shall communicate his assumption of authority as promptly as practicable to the patient, to members of the patient's family specified in Subsection B of this section who can be readily contacted and to the supervising health-care provider.

E. If more than one member of a class assumes authority to act as surrogate and they do not agree on a health-care decision and the supervising health-care provider is so informed, the supervising health-care provider shall comply with the decision of a majority of the members of that class who have communicated their views to the provider. If the class is evenly divided concerning the health-care decision and the supervising health-care provider is so informed, that class and all individuals having lower priority are disqualified from making the decision.

F. A surrogate shall make a health-care decision in accordance with the patient's individual instructions, if any, and other wishes to the extent known to the surrogate. Otherwise, the surrogate shall make the decision in accordance with the surrogate's determination of the patient's best interest. In determining the patient's best interest, the surrogate shall consider the patient's personal values to the extent known to the surrogate.

G. A health-care decision made by a surrogate for a patient shall not be made solely on the basis of the patient's pre-existing physical or medical condition or pre-existing or projected disability.

H. A health-care decision made by a surrogate for a patient is effective without judicial approval.

I. A patient, at any time, may disqualify any person, including a member of the patient's family, from acting as the patient's surrogate by a signed writing or by personally informing a health-care provider of the disqualification. A health-care provider who is informed by the patient of a disqualification shall promptly communicate the fact of disqualification to the supervising health-care provider and to any health-care institution at which the patient is receiving care.

J. Unless related to the patient by blood, marriage or adoption, a surrogate may not be an owner, operator or employee of a health-care institution at which the patient is receiving care.

K. A supervising health-care provider may require an individual claiming the right to act as surrogate for a patient to provide a written declaration under penalty of perjury stating facts and circumstances reasonably sufficient to establish the claimed authority.

History: Laws 1995, ch. 182, § 5; 1997, ch. 168, § 4.

ANNOTATIONS

The 1997 amendment, effective July 1, 1997, added "and to the supervising health-care provider" at the end of Subsection D; added Subsection G; and made stylistic changes.

Conditions precedent for surrogate decisions. — Before a surrogate may make health-care decisions and enter into an agreement to admit a person who lacks capacity to a health-care institution, there must be a showing that the person was admitted based on the conclusions of two physicians that the person lacked capacity, and if there exists an individual with the express power to make health-care decisions on behalf of the person, there must be a showing of that individual's approval or unavailability before the surrogate may make health-care decisions. *Corum v. Roswell Senior Living, LLC*, 2010-NMCA-105, 149 N.M. 287, 248 P.3d 329, cert. denied, 2010-NMCERT-010, 149 N.M. 64, 243 P.3d 1146.

Conditions precedent for surrogate decisions. — Where the decedent was admitted into defendant's nursing home by the decedent's spouse; the decedent lacked capacity to enter into an admission agreement; the decedent's spouse signed an admission agreement that contained an arbitration clause; the decedent's spouse had no written authority designating the spouse as an agent with power of attorney, guardian, or surrogate; at the time the decedent's spouse signed the admission agreement, the decedent's child had durable financial and medical power of attorney over the decedent; the administrator of the nursing home attempted to telephone the decedent's child, but was unsuccessful; and there was no indication that two physicians had determined that the decedent lacked capacity at the time the decedent's spouse signed the admission agreement, the decedent's spouse did not have power to enter into the arbitration agreement. *Corum v. 24-7A-6. Decisions by guardian.

A. A guardian shall comply with the protected person's individual instructions made while the protected person had capacity and shall not disregard the protected person's preferences contained in an advance health-care directive unless the appointing court expressly so authorizes after notice to the agent, if any, and the protected person. The

court may disregard such preferences if it finds by clear and convincing evidence that the preferences do not accurately reflect the free choice of the protected person at the time of making the individual instructions or that the protected person revoked the individual instructions while the protected person had capacity pursuant to Subsection B of Section 24-7A-3 NMSA 1978. This provision does not affect the court's ability to grant relief pursuant to a petition as provided in Section 24-7A-14 NMSA 1978.

B. A health-care decision of an agent appointed by a person having capacity takes precedence over that of a guardian, unless the appointing court expressly directs otherwise after notice to the agent and the protected person.

C. Subject to the provisions of Subsections A and B of this section, a health-care decision made by a guardian for the protected person is effective without judicial approval, if the appointing court has expressly authorized the guardian to make health-care decisions for the protected person, in accordance with the provisions of Section 45-5-312 NMSA 1978, after notice to the protected person and any agent.

If the unemancipated minor lacks capacity due to mental illness or developmental disability, one of the qualified health-care professionals shall be a person whose training and expertise aid in the assessment of functional impairment.

E. If the unemancipated minor's primary care practitioner has reason to believe that a parent or guardian of an unemancipated minor, including a non-custodial parent, has not been informed of a decision to withhold or withdraw life-sustaining treatment, the primary care practitioner shall make reasonable efforts to determine if the uninformed parent or guardian has maintained substantial and continuous contact with the unemancipated minor and, if so, shall make reasonable efforts to notify that parent or guardian before implementing a decision.

An adult or emancipated minor, while having capacity, may execute a power of attorney for mental health treatment that may authorize the agent to make any mental health treatment decision the principal could have made while having capacity. The power of attorney for mental health treatment shall be in writing signed by the principal and witnessed pursuant to Subsections I and J of this section. The power of attorney for mental health treatment shall remain in effect notwithstanding the principal's later incapacity under the Mental Health Care Treatment Decisions Act or Article 5 of the Uniform Probate Code [45-5-101 NMSA 1978]. The power of attorney for mental health treatment may include individual instructions. Unless related to the principal by blood, marriage or adoption, an agent may not be an attending qualified health care professional or an employee of the qualified health care professional or an owner,

operator or employee of a mental health treatment facility at which the principal is receiving care.

C. Unless otherwise specified in a power of attorney for mental health treatment, the authority of an agent becomes effective only upon certification that the principal lacks capacity and ceases to be effective upon a determination that the principal has recovered capacity.

D. Unless otherwise specified in a written advance directive for mental health treatment, written certification that an individual lacks or has recovered capacity or that another condition exists that affects an individual instruction or the authority of an agent shall be made according to the provisions of the Mental Health Care Treatment Decisions Act.

E. An agent shall make a mental health treatment decision in accordance with the principal's individual instructions, if any, and other wishes to the extent known to the agent. Otherwise, the agent shall make the decision in accordance with the agent's determination of the principal's best interest. In determining the principal's best interest, the agent shall consider the principal's personal values to the extent known to the agent.

F. A mental health treatment decision made by an agent for a principal is effective without judicial approval.

G. A written advance directive for mental health treatment may include the individual's nomination of a choice of guardian of the individual.

H. The fact that an individual has executed an advance directive for mental health treatment shall not constitute an indication of mental illness.

I. A written advance directive for mental health treatment is valid only if it is signed by the principal and a witness who is at least eighteen years of age and who attests that the principal:

- (1) is known to the witness;
- (2) signed the advance directive for mental health treatment in the witness' presence;
- (3) appears to have capacity; and
- (4) is not acting under duress, fraud or undue influence.

J. For purposes of the advance directive for mental health treatment, the witness shall not be:

- (1) an agent of the principal;

- (2) related to the principal by blood or marriage;
- (3) entitled to any part of the principal's estate or have a claim against the principal's estate;
- (4) the attending qualified health care professional; or

24-7B-5. Capacity.

A. The Mental Health Care Treatment Decisions Act does not affect the right of an individual to make mental health treatment decisions while having the capacity to do so.

B. An individual is presumed to have capacity to make a mental health treatment decision, to give an advance directive for mental health treatment or to revoke an advance directive for mental health treatment.

C. An individual shall not be determined to lack capacity solely on the basis that the individual chooses not to accept the treatment recommended by a health care provider.

D. An individual, at any time, may challenge a determination that the individual lacks capacity by a signed writing or by personally informing a health care provider of the challenge. A health care provider who is informed by the individual of a challenge shall promptly communicate the fact of the challenge to the supervising health care provider and to any mental health treatment facility at which the individual is receiving care. Such a challenge shall prevail unless the agent or the treating mental health care provider obtains an order in district court finding the principal does not have the capacity to make mental health treatment decisions.

E. A determination of lack of capacity under the Mental Health Care Treatment Decisions Act shall not be evidence of incapacity under the provisions of Article 5 of the Uniform Probate Code [45-5-101 NMSA 1978].

F. A determination of incapacity shall only be made by two persons, a qualified health care professional and a mental health treatment provider. If after the examination

the principal is determined to lack capacity and is in need of mental health treatment, a written certification, substantially in the form provided in Subsection G of this section, of the principal's condition shall be made a part of the principal's medical record.

G. The following certification of the examination of a principal determining whether the principal is in need of mental health treatment and whether the principal does or does not lack capacity may be used by examiners:

24-7B-6. Revocation of advance directive for mental health treatment.

A. An individual, while having capacity, may revoke the designation of an agent either by a signed writing or by personally informing the supervising health care provider. If the individual cannot sign, a written revocation shall be signed for the individual and be witnessed by two witnesses pursuant to Subsections I and J of Section 4 [24-7B-4 NMSA 1978] of the Mental Health Care Treatment Decisions Act, each of whom has signed at the direction of the individual and in the presence of the individual and each other.

B. An individual, while having capacity, may revoke all or part of an advance directive for mental health treatment, other than the designation of an agent, at any time and in any manner that communicates an intent to revoke.

C. A mental health treatment provider, agent or guardian who is informed of a revocation shall promptly communicate the fact of the revocation to the supervising health care provider and to any mental health treatment facility at which the patient is receiving care.

D. The filing of a petition for or a decree of annulment, divorce, dissolution of marriage or legal separation revokes a previous designation of a spouse as agent, unless otherwise specified in the decree or in a power of attorney for mental health treatment. A designation revoked solely by this subsection is revived by the individual's remarriage to the former spouse, by a nullification of the divorce, annulment or legal separation or by the dismissal or withdrawal, with the individual's consent, of a petition seeking annulment, divorce, dissolution of marriage or legal separation.

E. An advance directive for mental health treatment that conflicts with an earlier advance directive for mental health treatment revokes the earlier directive to the extent of the conflict.

F. Unless otherwise specified in the power of attorney for mental health treatment, an advance health-care directive pursuant to the Uniform Health-Care Decisions Act [Chapter 24, Article 7A NMSA 1978] and an advance directive for mental health treatment shall be treated separately. A revocation of a power of attorney for mental health treatment shall not affect the validity of a power of attorney.

24-7B-7. Optional form for advance directive for mental health treatment.

A. The form provided in Subsection E of this section may be used to create an individual instruction regarding mental health treatment. An individual may complete or modify all or any part of the form. The Mental Health Care Treatment Decisions Act governs the effect of this or any other writing used to create an advance directive for mental health treatment.

B. A principal may designate a capable person eighteen years of age or older to act as an agent to make mental health treatment decisions. An alternative agent may also be designated to act as an agent if the original agent is unable or unwilling to act at any time. An appointment of an agent may be accomplished by using the form provided by Subsection E of this section.

C. An agent who has accepted the appointment in writing shall have authority to make decisions, in consultation with the primary health care professional, about mental health treatment on behalf of the principal only when the principal is certified to lack capacity and to require mental health treatment as provided by the Mental Health Care Treatment Decisions Act. These decisions shall be consistent with any wishes or instructions the principal has expressed in the instruction. If the wishes or instructions of the principal are not expressed, the agent shall act in what the agent believes to be the best interest of the principal. The agent may consent to evaluation for admission to inpatient mental health treatment on behalf of the principal if so authorized in the advance directive for mental health treatment.

D. An agent may renounce the agent's authority by giving notice to the principal. If a principal lacks capacity, the agent may renounce the agent's authority by giving notice to the named alternative agent, if any, or, if none, to the attending qualified health care professional or health care provider. The primary health care professional or health care provider shall note the withdrawal of the last named agent as part of the principal's medical record.

E. An advance directive for mental health treatment may be executed by using the following optional form, completed or modified to the extent desired by the individual, and the form may be notarized:

"ADVANCE DIRECTIVE FOR MENTAL HEALTH TREATMENT

I, _____, being a person with capacity, willfully and voluntarily make known my wishes about mental health treatment, by my instructions to others through my advance directive for mental health treatment, or by my appointment of an agent, or both. If a guardian or an agent is appointed to make mental health decisions for me, I intend this document to take precedence over other means of ascertaining my wishes and interests.

The fact that I may have left blanks in this directive does not affect its validity in any way. I intend that all completed sections be followed. I intend this directive to take precedence over any other mental health directives I have previously executed, to the

extent that they are inconsistent with this document, or unless I expressly state otherwise in either document.

I understand that I may revoke this directive in whole or in part if I am a person with capacity. I understand that I cannot revoke this directive if one qualified health care professional and one mental health treatment provider find that I am an incapacitated person, unless I successfully challenge the determination of incapacity.

A. A guardian shall comply with the protected person's individual instructions made while the protected person had capacity and may not disregard the protected person's preferences contained in an advance directive for mental health treatment unless the appointing court expressly so authorizes after notice to the agent, if any, and the protected person. The court may disregard such preferences if it finds by clear and convincing evidence that the preferences do not accurately reflect the free choice of the protected person at the time of making the individual instructions or that the protected person revoked the individual instructions while the protected person had capacity pursuant to Subsection B of Section 24-7A-3 NMSA 1978.

B. A mental health treatment decision of an agent appointed by an individual having capacity takes precedence over that of a guardian, unless the appointing court expressly directs otherwise after notice to the agent and the protected person.

Cardiac Arrest Response

24-10C-1. Short title.

Sections 1 through 7 [24-10C-1 through 24-10C-7 NMSA 1978] of this act may be cited as the "Cardiac Arrest Response Act".

History: Laws 1999, ch. 94, § 1.

ANNOTATIONS

Effective dates. — Laws 1999, ch. 94, § 9, made Laws 1999, ch. 94, § 1 effective July 1, 1999.

24-10C-2. Findings and purpose.

A. The legislature finds that:

(1) each year more than three hundred fifty thousand Americans die from out-of-hospital sudden cardiac arrest;

(2) the American heart association estimates that more than twenty thousand deaths could be prevented each year if early defibrillation were more widely available. In cardiac arrest the first several minutes are the most crucial time in which performing defibrillation can significantly improve chances for survival;

(3) the reality is that even in the best emergency medical services systems, emergency medical technicians or first responders may not always be able to arrive during that critical window of time; and

(4) virtually all communities in New Mexico have invested in 911 emergency response systems, emergency medical personnel and ambulance vehicles. However, many of them do not have enough defibrillators in their community [communities].

B. It is the purpose of the Cardiac Arrest Response Act to encourage greater acquisition, deployment and use of automated external defibrillators in communities across the state.

History: Laws 1999, ch. 94, § 2.

Private owner's liability to trespassing children for injury sustained by sledding, tobogganing, skiing, skating or otherwise sliding on his land, 19 A.L.R.3d 184.

24-15-2. Purpose of act.

A. In order to safeguard life, health, property and the welfare of this state, it is the policy of New Mexico to protect its citizens and visitors from unnecessary hazards in the operation of ski lifts and passenger aerial tramways and to require liability insurance to be carried by operators of ski lifts and tramways. The primary responsibility for the safety of operation, maintenance, repair and inspection of ski lifts and tramways rests with the operators of such devices. The primary responsibility for the safety of the individual skier while engaging in the sport of skiing rests with the skier himself. The state, through the Ski Safety Act, recognizes these responsibilities and duties on the part of the ski area operator and the skier.

B. It is recognized that there are inherent risks in the sport of skiing, which should be understood by each skier and which are essentially impossible to eliminate by the ski area operator. It is the purpose of the Ski Safety Act to define those areas of responsibility and affirmative acts for which ski area operators shall be liable for loss, damage or injury and those risks which the skier or passenger expressly assumes and for which there can be no recovery.

History: 1953 Comp., § 12-16-2, enacted by Laws 1969, ch. 218, § 2; recompiled as 1953 Comp., § 12-28-2, by Laws 1972, ch. 51, § 9; 1979, ch. 279, § 2; 1997, ch. 211, § 1.

D. to maintain one or more trail boards at prominent locations at each ski area displaying that area's network of ski trails and slopes with each trail and slope rated in accordance with the symbols and containing a key to the symbols;

E. to designate by trail board or otherwise at the top of or entrance to the subject trail or slope which trails or slopes are open or closed;

F. to place or cause to be placed, whenever snow-maintenance vehicles or snow-making operations are being undertaken upon any trail or slope while such trail or slope is open to the public, a conspicuous notice to that effect at or near the top or entrance of such trail or slope;

G. to provide ski patrol personnel trained in first aid, which training meets at least the requirements of the national ski patrol outdoor emergency care course, and also trained in winter rescue and toboggan handling to serve the anticipated number of injured skiers and to provide personnel trained for the evacuation of passengers from stalled aerial ski lifts. A first aid room or building shall be provided with adequate first aid supplies, and properly equipped rescue toboggans shall be made available at all reasonable times at the top of ski slopes and trails to transport injured skiers from the ski slopes and trails to the first aid room;

H. to post notice of the requirements of the Ski Safety Act concerning the use of ski retention devices;

I. to warn of or correct particular hazards or dangers known to the operator where feasible to do so; and

J. to warn of snowmobiles or all-terrain vehicles (ATV's) operated on the ski slopes or trails with at least one lighted headlamp, one lighted red tail lamp, a brake system and a fluorescent flag that is at least forty square inches and is mounted at least six feet above the bottom of the tracks or tires.

History: Laws 1969, ch. 218, § 7; 1953 Comp., § 12-16-7; recompiled as 1953 Comp., § 12-28-7 by Laws 1972, ch. 51, § 9; 1979, ch. 279, § 4; 1997, ch. 211, § 5.

ANNOTATIONS

The 1997 amendment, effective June 20, 1997, rewrote Subsection C, inserted "at the top of or entrance to the subject trail or slope" in Subsection E, inserted "or entrance" near the end of Subsection F, substituted "meets at least the requirements of the national ski patrol outdoor emergency care course" for "meets the requirements of the American Red Cross advanced first aid course" near the beginning of Subsection G, added Subsection J, and made minor stylistic changes in Subsections H and I.

Duty to provide warning to skiers of the degree of difficulty of ski slopes or the existence of unusual obstacles or hazards located in skiing areas, imposed under Subsections C and I, may assume additional significance as the difficulty of the skiing area becomes more pronounced, or the degree of danger posed by the risk of collision with an unprotected ski tower located in the designated skiing area increases. *Lopez v. Ski Apache Resort*, 1992-NMCA-047, 114 N.M. 202, 836 P.2d 648, cert. denied, 113 N.M. 815, 833 P.2d 1181.

Duty to warn. — A ski resort did not breach its duty to warn under this section when it installed a single strand diversionary rope and blocked off an otherwise skiable area since the evidence was that the rope had been in place for at least 12 years and over one million skiers had managed to ski past it without injury. *Kidd v. Taos Ski Valley, Inc.*, 88 F.3d 848 (10th Cir. 1996).

Conspicuous warnings not required. — The Ski Safety Act does not require the trail warnings of unusual obstacles or hazards to be conspicuous. *Barba v. Taos Ski Valley, Inc.*, 145 F.3d 1345 (10th Cir. 1998).

Duties for ski operators. — This section, not 24-15-2 NMSA 1978, sets out the specific duties for ski operators in a skiing area. *Barba v. Taos Ski Valley, Inc.*, 145 F.3d 1345 (10th Cir. 1998).

Warning adequate. — Where the uncontroverted evidence was that Taos did not "know" that the picnic table near ski trail was a hazard because it had been at that same location for more than twenty years and no one had collided with it, the trail map board marking the location of the picnic table on the ski run and the sign warning of unmarked obstacles were adequate under the standards of the National Ski Areas Association, and, therefore, under the Ski Safety Act. *Barba v. Taos Ski Valley, Inc.*, 1998 Colo. J. C.A.R. 2324, (10th Cir. 1998), decision without published opinion, 145 F.3d 1345 (10th Cir. 1998).

"Warn or correct" hazards. — Where skier was injured by colliding with picnic table while skiing and argued that rather than warn of the picnic table, the operator should have corrected the hazard, the plain language of the Ski Safety Act specifically states that the operator must "warn or correct" hazards. *Barba v. Taos Ski Valley, Inc.*, 1998 Colo. J. C.A.R. 2324, (10th Cir. 1998), decision without published opinion, 145 F.3d 1345 (10th Cir. 1998).

Doctrine of comparative negligence is applicable to claims brought under the act where both the skier and the ski area operator are alleged to have breached statutory duties. *Lopez v. Ski Apache Resort*, 1992-NMCA-047, 114 N.M. 202, 836 P.2d 648, cert. denied, 113 N.M. 815, 833 P.2d 1181.

General duty to novice skier. — The scope of the duty imposed on ski operations in Subsection I of this section was not broad enough to encompass the duty to provide a general warning to a novice skier that, because of the skier's limited abilities, portions of a beginner slope may have been dangerous. *Philippi v. Sipapu, Inc.*, 961 F.2d 1492 (10th Cir. 1992).

24-15-8. Duties of ski area operators with respect to ski lifts.

Every ski area operator shall have the duty to operate, repair and maintain all ski lifts in safe condition. The ski area operator, prior to December 1 of each year, shall certify to the state corporation commission [public regulation commission] the policy number and name of the company providing liability insurance for the ski area and the date of the ski lift inspections and the name of the person making such inspections.

24-15-9. Duties of passengers.

Every passenger shall have the duty to conduct himself carefully and not to:

- A. board or embark upon or disembark from a ski lift except at an area designated for such purpose;
- B. drop, throw or expel any object from a ski lift;
- C. do any act which shall interfere with the running or operation of a ski lift;
- D. use any ski lift unless the passenger has the ability to use it safely without any instruction on its use by the ski area operator or requests and receives instruction before boarding the ski lift;
- E. willfully or negligently engage in any type of conduct which contributes to or causes injury to any person;
- F. embark on a ski lift without the authority of the ski area operator;
- G. use any ski lift without engaging such safety or restraining devices as may be provided; or
- H. wear skis without properly securing ski retention devices; or
- I. use a ski lift while intoxicated or under the influence of any controlled substance.

24-15-10. Duties of the skiers.

A. It is recognized that skiing as a recreational sport is inherently hazardous to skiers, and it is the duty of each skier to conduct himself carefully.

B. A person who takes part in the sport of skiing accepts as a matter of law the dangers inherent in that sport insofar as they are obvious and necessary. Each skier expressly assumes the risk of and legal responsibility for any injury to person or property which results from participation in the sport of skiing, in the skiing area, including any injury caused by the following: variations in terrain; surface or subsurface snow or ice conditions; bare spots; rocks, trees or other forms of forest growth or debris; lift towers and components thereof, pole lines and snow-making equipment which are plainly visible or are plainly marked in accordance with the provisions of Section 24-15-7 NMSA 1978; except for any injuries to persons or property resulting from any breach of duty imposed upon ski area operators under the provisions of Sections 24-15-7 and 24-15-8 NMSA 1978. Therefore, each skier shall have the sole individual responsibility for

knowing the range of his own ability to negotiate any slope or trail, and it shall be the duty of each skier to ski within the limits of the skier's own ability, to maintain reasonable control of speed and course at all times while skiing, to heed all posted warnings, to ski only on a skiing area designated by the ski area operator and to refrain from acting in a manner which may cause or contribute to the injury of anyone.

C. Responsibility for collisions by any skier while actually skiing, with any person or object, shall be solely that of each individual involved in the collision, except where an employee, agent or officer of the ski area operator is personally involved in a collision while in the course and scope of his employment or where a collision resulted from any breach of duty imposed upon a ski area operator under the provisions of Sections 24-15-7 or 24-15-8 NMSA 1978. Each skier has the duty to stay clear of and avoid collisions with snow-maintenance equipment, all-terrain vehicles and snowmobiles marked in compliance with the provisions of Subsections A and J of Section 24-15-7 NMSA 1978, all other vehicles, lift towers, signs and any other structures, amenities or equipment on the ski slopes and trails or in the skiing area.

D. No person shall:

(1) place any object in the skiing area or on the uphill track of any ski lift which may cause a passenger or skier to fall;

(2) cross the track of any T-bar lift, J-bar lift, platter lift or similar device or a fiber rope tow, except at a designated location;

(3) when injured while skiing or using a ski lift or, while skiing, when involved in a collision with any skier or object in which an injury results, leave the ski area before giving his name and current address to the ski area operator, or representative or employee of the ski area operator, and the location where the injury or collision occurred and the circumstances thereof; provided, however, in the event a skier fails to give the notice required by this paragraph, a court, in determining whether or not such failure constitutes a violation of the Ski Safety Act, may consider the reasonableness or feasibility of giving such notice; or

(4) use a ski lift, skiing area, slopes or trails while intoxicated or under the influence of any controlled substance.

E. No skier shall fail to wear retention straps or other ski retention devices to help prevent runaway skis.

F. Any skier upon being injured shall indicate, to the ski patrol personnel offering first aid treatment or emergency removal to a first aid room, his acceptance or rejection of such services as provided by the ski area operator. If such service is not refused or if the skier is unable to indicate his acceptance or rejection of such service, the acceptance of the service is presumed to have been accepted by the skier. Such

acceptance shall not constitute a waiver of any action for negligent provision of the service by the ski patrol personnel.

History: 1978 Comp., § 24-15-10, enacted by Laws 1979, ch. 279, § 7; 1997, ch. 211, § 6.

ANNOTATIONS

The 1997 amendment, effective June 20, 1997, deleted the former fourth sentence of Subsection B relating to responsibilities for collisions by skiers, added Subsection C and redesignated the remaining subsections accordingly, and inserted "skiing area, slopes or trails" in Paragraph D(4).

Failure of a skier to give notice of her alleged injury to the ski lift operator was not a proper ground for summary judgment for the operator, where there was no evidence that any alleged failure of the skier to comply with the provisions of this section was causally related to the loss or damage claimed by the skier. *Wood v. Angel Fire Ski Corp.*, 1989-NMCA-021, 108 N.M. 453, 774 P.2d 447.

Doctrine of comparative negligence. — The doctrine of comparative negligence is applicable to claims brought under the Act where both the skier and the ski area operator are alleged to have breached statutory duties. *Lopez v. Ski Apache Resort*, 1992-NMCA-047, 114 N.M. 202, 836 P.2d 648, cert. denied, 113 N.M. 815, 833 P.2d 1181.

Any ski area operator shall be liable for loss or damages caused by the failure to follow the duties set forth in Sections 24-15-7 and 24-15-8 NMSA 1978 where the violation of duty is causally related to the loss or damage suffered, and shall continue to be subject to liability in accordance with common-law principles of vicarious liability for the willful or negligent actions of its principals, agents or employees which cause injury to a passenger, skier or other person. The ski area operator shall not be liable to any passenger or skier acting in violation of his duties as set forth in Sections 24-15-9 and 24-15-10 NMSA 1978 where the violation of duty is causally related to the loss or damage suffered.

ANNOTATIONS

Failure to stop ski lift. — Genuine issue of material fact, precluding summary judgment, existed concerning whether, despite any alleged negligence attributable to a skier, the ski lift operator negligently failed to stop the ski lift once he became aware that the skier had just disembarked from the ski lift, was unable to move, and was in a position of peril. *Wood v. A. Unless a ski area operator is in violation of the Ski Safety Act, with respect to the skiing area and ski lifts, and the violation is a proximate cause of the injury complained of, no action shall lie against such ski area operator by any skier or passenger or any representative of a skier or passenger. This prohibition shall not prevent the bringing of an action against a ski area operator for damages arising from injuries caused by negligent operation, maintenance or repair of the ski lift.

Banning smoking entirely in schools. — Although the Clean Indoor Air Act (now Dee Johnson Clean Indoor Air Act) allows the use of tobacco products by adults in smoking-permitted areas of public buildings, including school buildings, owned or leased by the state or any of its political subdivisions, the state board of education or local school boards can choose to ban smoking by both adults and minors on public school campuses. 1994 Op. The legislature finds and declares that the smoking of tobacco, or any other weed or plant, is a positive danger to health and a health hazard to those who are present in enclosed places and that smoking in such areas should be confined to designated smoking areas. The legislature further declares its intention to protect the public health from such hazards in public places and places of employment without imposing exorbitant costs on persons in management and control of the places subject to the [Dee Johnson] Clean Indoor Air Act. It is not the intent of the legislature to preempt the field of regulation of smoking in public from the enactment of ordinances by local governing bodies which are not inconsistent with the [Dee Johnson] Clean Indoor Air Act.

As used in the Dee Johnson Clean Indoor Air Act:

A cigar bar that fails to generate at least ten

percent of its total annual sales from the sale of cigars in the calendar year after December 31, 2006, not including sales from vending machines, shall not be defined as a cigar bar and shall not thereafter be known as such regardless of sales figures. ARTICLE 25

New Mexico Telehealth Act

24-25-1. Short title.

Chapter 24, Article 25 NMSA 1978 may be cited as the "New Mexico Telehealth Act".

History: Laws 2004, ch. 48, § 1; 2007, ch. 203, § 1.

ANNOTATIONS

The 2007 amendment, effective June 15, 2007, changed the statutory reference to the act.

24-25-2. Findings and purpose.

A. The legislature finds that:

(1) lack of primary care, specialty providers and transportation continue to be significant barriers to access to health services in medically underserved rural areas;

(2) there are parts of this state where it is difficult to attract and retain health professionals, as well as to support local health facilities in providing a continuum of health care;

(3) many health care providers in medically underserved areas are isolated from mentors and colleagues and from the information resources necessary to support them personally and professionally;

(4) using information technology to deliver medical services and information from one location to another is part of a multifaceted approach to address the problems of provider distribution and the development of health systems in medically underserved areas by improving communication capabilities and providing convenient access to up-to-date information, consultations and other forms of support;

(5) the use of telecommunications to deliver health services has the potential to reduce costs, improve quality, change the conditions of practice and improve access to health care in rural, medically underserved areas; and

(6) telehealth will assist in maintaining or improving the physical and economic health of medically underserved communities by keeping the source of general health, behavioral health and oral health care in the local area, strengthening the health infrastructure and preserving health-care-related jobs.

B. The purpose of the New Mexico Telehealth Act is to provide a framework for health care providers to follow in providing telehealth services to New Mexico citizens in a manner that provides efficient and effective access to quality health services. Telehealth services include consultations, direct patient care and education for health care professionals, support personnel, students, families, patients and other consumers of health care services.
