General Provisions

67-2-1. [Public highways; definition.]

All roads and highways, except private roads, established in pursuance of any law of New Mexico, and roads dedicated to public use, that have not been vacated or abandoned, and such other roads as are recognized and maintained by the corporate authorities of any county in New Mexico, are hereby declared to be public highways.

History: Laws 1905, ch. 124, § 1; Code 1915, § 2626; C.S. 1929, § 64-101; 1941 Comp., § 58-101; 1953 Comp., § 55-1-1.

ANNOTATIONS

Cross references. — For post roads and mail roads declared public roads, see 67-2-3 NMSA 1978.

Prior acts in conflict to be repealed. — This act (Laws 1905, ch. 124) is comprehensive in its scope and repeals all prior acts in conflict therewith. *State Highway Comm'n v. Sargent*, 1915-NMSC-065, 20 N.M. 577, 151 P. 232.

Subdivision Act, ch. 47, art. 6 NMSA 1978, deals with the subject of subdivision roads and county road maintenance in a much more detailed way than this section and 67-2-2 NMSA 1978; therefore, the Subdivision Act controls over the more general statutes. *McGarry v. Scott*, 2003-NMSC-016, 134 N.M. 32, 72 P.3d 608.

Dedication and acceptance may be established by use alone. — In New Mexico a highway may be established by dedication and acceptance which may be established by use along and 10-year statute of limitations is not applicable in fixing the time of user necessary to constitute an acceptance. *Lovelace v. Hightower*, 1946-NMSC-013, 50 N.M. 50, 168 P.2d 864.

Recognition of "public roads" created by prescription. — This section states that two classes of roads are public roads, but this does not prohibit other sorts of roads from being found to be "public roads" as this state has in fact recognized the principle that public roads may be created by prescription. *Dutton v. Slayton*, 1979-NMSC-031, 92 N.M. 668, 593 P.2d 1071.

Error in categorizing road as public. — Since record showed that road in question had belonged to plaintiffs for over 45 years, that road had been categorized as a county road without apparent authority, that objections had been made by plaintiffs to blading operations by county machinery, and that other uses were with permission of the plaintiffs, such use was insufficient to satisfy this section as having been recognized and maintained by the corporate authorities of the county and trial court erred in categorizing the road as public. *Norero v. Board of Cnty. Comm'rs*, 1971-NMSC-019, 82 N.M. 300, 481 P.2d 88.

Mandamus dismissed where no acceptance or maintenance. — Mandamus to compel board of county commissioners to remove obstructions from land purportedly part of public highway is to be dismissed in absence of proof of acceptance of dedication or at least of partial maintenance with public funds. *State ex rel. Shelton v. Board of Comm'rs*, 1945-NMSC-027, 49 N.M. 218, 161 P.2d 212.

Special benefit not to condemn purpose. — The fact that a public highway will be of especial benefit to one citizen does not condemn its purpose. *Gallegos v. Conroy*, 1934-NMSC-007, 38 N.M. 154, 29 P.2d 334.

Ban on passing not applicable where private road. — Where roadway is shown not to be a public road, then the statutory ban on passing other vehicles within 100 feet of an intersection of two roads does not apply. *Moore v. Armstrong*, 1960-NMSC-098, 67 N.M. 350, 355 P.2d 284.

Long-continued use of a road by the public is sufficient to constitute it a public highway. 1925-26 Op. Att'y Gen. No. 25-3844.

Scope of public highways. — Roads declared to be public highways are not confined to roads established by the laws of the territory or state, but extend to all roads dedicated to the public use for a long period of years and which have not been abandoned. 1919-20 Op. Att'y Gen. No. 19-2345.

Fort Sumner-Las Vegas road, which was opened, recognized and maintained by Guadalupe county and the United States, is a public road, and obstructions placed thereon should be removed. 1917-18 Op. Att'y Gen. No. 17-2018.

67-2-2. [Maintenance and repair by counties.]

All public highways, except such as are owned and operated by private corporations, and highways within the corporate limits of any incorporated city or town, shall be maintained and kept in repair by the respective counties in which they are located.

Subdivision Act, ch. 47, art. 6 NMSA 1978, deals with the subject of subdivision roads and county road maintenance in a much more detailed way than this section and 67-2-2 NMSA 1978; therefore, the Subdivision Act controls over the more general statutes. *McGarry v. Scott*, 2003-NMSC-016, 134 N.M. 32, 72 P.3d 608.

Damage for public use. — Where design, construction or maintenance of public highway caused damage to private property, this constituted damage for a public use for which adequate compensation was guaranteed to the owner under N.M. Const., art. II, § 20, and for which the county was subject to suit under former 42-1-23 NMSA 1978. *Wheeler v. Board of Cnty. Comm'rs*, 1964-NMSC-081, 74 N.M. 165, 391 P.2d 664.

Duty to maintain and keep public highways in repair is that of the respective counties in which the highways are located, except for highways and streets in municipalities and state highways. *Sanchez v. Public meeting to educate residents as to roads to be repaired. — While the board of county commissioners need not hold a hearing when it closes a county road or highway for repair and maintenance, former 67-4-9 NMSA 1978 required a public meeting that educates county residents about roads on which the county will work in the following year. 1988 Op. Where as the congress of the United States has declared all post roads over which the mails of the United States are carried to be public roads. It is likewise declared by this section that all such roads are public roads; provided, however, that discontinuance of mail service, and nonuser [nonuse] by the public for three years shall constitute abandonment and vacation of such roads for such roads for such public purpose.

67-2-4. Definitions.

As used in Chapter 67 NMSA 1978:

A. "state highway" shall include any highway declared to be a state highway by an act of the legislature or designated as such by the state highway engineer;

B. "department" means the department of transportation; and

C. "secretary" means the secretary of transportation.

History: Laws 1929, ch. 77, § 1; C.S. 1929, § 64-1901; 1941 Comp., § 58-104; 1953 Comp., § 55-1-4; Laws 1977, ch. 251, § 2; 1987, ch. 268, § 34; 2003, ch. 142, § 25.

ANNOTATIONS

The 2003 amendment, effective July 1, 2003, deleted Subsection B, defining "state highway engineer" or "chief highway administrator", and redesignated the remaining subsections accordingly; and deleted "highway and" preceding "transportation" in Subsection C.

The 1987 amendment, effective July 1, 1987, in Subsection B, substituted "or the 'chief highway administrator' means the secretary" for "means the 'chief highway administrator'"; added Subsections C and D; and updated the statutory reference.

The 1977 amendment rewrote this section which formerly defined state highway.

Consent of county commissioners unnecessary. — The commission can acquire a right of way or lay out and establish a state highway in a county without the consent of the county commissioners. *Gallegos v. Conroy*, 1934-NMSC-007, 38 N.M. 154, 29 P.2d 334.

When underpass not to be designated state highway. — The commission is not authorized by this section, 67-3-15, 67-3-16 or 67-3-41 NMSA 1978 to designate as a state highway, an underpass not connected with or intended to be a part of a state highway. *Springer Transfer Co. v. City of Albuquerque*, 1940-NMSC-039, 44 N.M. 407, 103 P.2d 129.

On abandonment of portion of public highway, the adjoining landowner is revested with the fee without any limitation. 1945-46 Op. Att'y Gen. No. 45-4644.

39A C.J.S. Highways § 1.

67-2-5. [Rights-of-way vest in state after use as highway for a year.]

When any state highway in the state of New Mexico, is continuously used by, or open for use to the public, as such, for a period of one year from and after the time this act [67-2-4, 67-2-5 NMSA 1978] goes into effect, or for a period of one year at any time thereafter, and the same has not been so used or occupied under any lease, contract or agreement recognizing the ownership of the right-of-way thereof in any person, firm or corporation, other than the state, such right-of-way shall be and become the property of and fee thereto shall vest in the state of New Mexico for such highway purposes, and the title thereto shall not thereafter be divested by adverse possession or in any other

manner except with the consent of the state of New Mexico, so long as such right-of-way is so used for highway purposes.

History: Laws 1929, ch. 77, § 2; C.S. 1929, § 64-1902; 1941 Comp., § 58-105; 1953 Comp., § 55-1-5.

ANNOTATIONS

Standing to appeal annexation proceeding. — The state's interest in highway property granted by this section satisfied the requirement for standing of the department to appeal an annexation proceeding under 3-7-17C NMSA 1978. *State ex rel. State Highway & Transp. Dep't v. City of Sunland Park*, 1999-NMCA-143, 128 N.M. 371, 993 P.2d 85.

On abandonment of portion of public highway, the adjoining landowner is revested with the fee without any limitation. 1945-46 Op. Att'y Gen. No. 45-4644.

Title to be conditional fee for public purposes only. — A public highway, even though acquired only by virtue of the one-year limitation statute, should be used only for public purposes. The state is only authorized to take private property for such purposes and even though the statute purports to place the fee thereof in the state of New Mexico, such title would appear to be a conditional fee for public purposes only. 1953-54 Op. Att'y Gen. No. 54-5884.

Erection of telephone line on public right-of-way. — If a telephone line is strictly a private one, then neither the county nor the state could consent to its erection on a public right-of-way. If, however, it is also devoted to a public use and the county authorized its erection, the commission might grant it a permit. 1953-54 Op. Att'y Gen. No. 54-5884.

67-2-6. Abandonment, vacation and reverter of public roads, streets and highways.

Property or property rights acquired by purchase or condemnation by the state or any commission, department, bureau, agency or political subdivision of the state for public road, street or highway purposes shall not revert until such property or property rights are vacated or abandoned by formal written declaration of vacation or abandonment which has been duly declared by the state or any commission, department, institution, bureau, agency or political subdivision of the state in whom the property or property right has vested. The right to abandon and vacate shall exist

regardless of whether the public road, street or highway was created by the legislature or otherwise.

History: 1953 Comp., § 55-1-6, enacted by Laws 1959, ch. 192, § 1; 1975, ch. 192, § 1.

ANNOTATIONS

Conveyance of abandoned highway to underlying property owner. — Where the state transportation commission vacated and abandoned and conveyed a portion of SR 582 to the Pueblo of San Juan which ran through the lands of the pueblo within a right-of-way easement that was obtained from the pueblo, the conveyance was an incidental action to complete the reversionary process of vacation and abandonment of the road and the commission did not act in excess of its delegated authority. *Piedra, Inc. v. N.M. Transp. Comm'n*, 2008-NMCA-089, 144 N.M. 382, 188 P.3d 106, cert. denied, 2008-NMCERT-005, 144 N.M. 331, 187 P.3d 677.

Conveyance of abandoned highway to county. — Where the state transportation commission deleted a portion of SR 582 from the state highway system and conveyed it to Rio Arriba county pursuant to an exchange agreement with the county that defined each party's responsibilities for improving and maintaining public roads in the county, the commission did not act in excess of its delegated authority. *Piedra, Inc. v. N.M. Transp. Comm'n*, 2008-NMCA-089, 144 N.M. 382, 188 P.3d 106, cert. denied, 2008-NMCERT-005, 144 N.M. 331, 187 P.3d 677.

County commissioners proper body to vacate or abandon roads. — Sections 67-2-4, 67-2-6 and 67-2-7 NMSA 1978 all relate to the vacation or abandonment of public highways, streets or roads by formal declaration, determination or order of the state or the appropriate commission, department, institution, bureau or political subdivision thereof. Being in *pari materia*, these statutes should be construed so as to give effect to every provision. They evince an intent on the part of the legislature to provide a formal procedure for the abandonment or vacation of public roads, streets and highways, and the district courts are not vested with this power. The county commission is the proper body to abandon or vacate roads in suit to quiet title. *Chavez v. County of Valencia*, 1974-NMSC-035, 86 N.M. 205, 521 P.2d 1154.

Subject-matter jurisdiction not conferred by consent. — Although the county entered an appearance in the quiet title suit and participated in the proceedings therein conducted by the district court, this did not confer jurisdiction or power in the district court over the subject matter of the suit, insofar as the subject matter of the suit was concerned with the quieting of title in the roads as subject-matter jurisdiction cannot be conferred by consent of the parties. *Chavez v. County of Valencia*, 1974-NMSC-035, 86 N.M. 205, 521 P.2d 1154.

"Duly declared". — While this section simply requires a "duly declared" written abandonment, the section is silent regarding what constitutes a "duly declared" abandonment. *State ex rel. Madrid v. UU Bar Ranch Ltd. P'ship*, 2005-NMCA-079, 137

N.M. 719, 114 P.3d 399, cert. denied, 2005-NMCERT-006, 137 N.M. 766, 115 P.3d 229.

Board of finance approval. — State board of finance approval is required if abandoned public road is valued at more than \$2,500. State ex rel. Madrid v. UU Bar Ranch Ltd. P'ship, 2005-NMCA-079, 137 N.M. 719, 114 P.3d 399, cert. denied, 2005-NMCERT-006, 137 N.M. 766, 115 P.3d 229.

67-2-7. Petition for determination of abandonment or vacation.

Any owner of lands abutting any highway, street or road, his heirs or assigns may petition the state or any commission, department, bureau, agency or political subdivision thereof, who believes a section of any public road, street or highway is not [no] longer needed for public purposes, [and] may petition the state or any commission, department, bureau, agency or political subdivision thereof for a formal determination of abandonment or vacation.

History: 1953 Comp., § 55-1-7, enacted by Laws 1959, ch. 192, § 2.

ANNOTATIONS

Bracketed material. — The bracketed material in this section was inserted by the compiler for purposes of clarity; it was not enacted by the legislature and is not a part of the law.

County commissioners proper body to vacate or abandon roads. — Sections 67-2-4, 67-2-6 and 67-2-7 NMSA 1978 all relate to the vacation or abandonment of public highways, streets or roads by formal declaration, determination or order of the state or the appropriate commission, department, institution, bureau or political subdivision thereof. Being in pari materia, these statutes should be construed so as to give effect to every provision. They evince an intent on the part of the legislature to provide a formal procedure for the abandonment or vacation of public roads, streets and highways, and the district courts are not vested with this power. (b) submit its plans to the local zoning and land use authority for comment. The local authority shall communicate its recommendations and comments in writing to the department and private entity within thirty days of receiving the plans. The department, commission and private entity shall take no action on the project in reliance on those plans until they have received the local authority's recommendations and comments or until the thirty-day comment period has expired, whichever comes first; provided that the local authority's approval is not required under this section, and this section does not delegate to the local authority power that it does not otherwise have; and

The 2003 amendment, effective July 1, 2003, substituted "state transportation commission" for "state highway commission" in the section heading and in Subsections A and B; and deleted "of highway and transportation" following "secretary" in Subsection B.

Temporary provisions. — Laws 2003, ch. 142, § 97, effective July 1, 2003, provides that all references in law to the state highway commission shall be deemed to be references to the state transportation commission. All references in law to the state highway and transportation department shall be deemed to be references to the department of transportation. All references in law to the secretary of highway and transportation shall be deemed to be references to the secretary of transportation.

The 1989 amendment, effective March 28, 1989, in Subsection A substituted the present language for the former first sentence, which read: "The commission shall have charge of all matters pertaining to the expenditure of the state road fund in the construction, improvement and maintenance of public roads and bridges in the state and shall do all things necessary and expedient in the exercise of such supervision" and deleted the former second and third sentences, relating to employment of personnel; in Subsection B rewrote the first sentence and added the second sentence; and in Subsection C substituted "secretary of highway and transportation" for "chief highway administrator" and made minor stylistic changes.

The 1981 amendment added the catchline, designated the formerly undesignated two paragraphs as Subsections A and B, added Subsection C and, in Subsection B, substituted "employees" for "employes" twice in the first sentence and in the second sentence and "The" for "Said" in the third sentence and deleted "and" preceding "compel" and following "effect;" in the third sentence. Laws 1981, ch. 359, contains no effective date provision but was enacted at the session which adjourned on March 21, 1981. See N.M. Const., art. IV, § 23.

Repeals. — Laws 1989, ch. 63, § 1 repeals 67-3-28.1 NMSA 1978, as enacted by Laws 1983, ch. 305, § 6, relating to equitable division of funds between highway construction districts, effective June 16, 1989. For provisions of former section, see 1988 Cumulative Supplement.

67-3-28.2. Local governments road fund created; uses.

A. There is created in the state treasury the "local governments road fund" to be administered by the department. All income received from investment of the fund shall be credited to the fund. No money in the fund shall be used by the department to administer any program, and except as provided in Subsection E of this section, no entity receiving a distribution pursuant to a program requiring matching funds shall use another distribution made pursuant to this section to meet the match required.

B. No more than five hundred thousand dollars (\$500,000) annually from the local governments road fund shall be used by the department to purchase at fair market value, for municipalities and counties that can demonstrate financial hardship as determined by the department, automotive, major road and miscellaneous equipment that would otherwise be sold at auction by the department as unusable for department purposes. The department shall adopt rules setting the procedure to carry out the purposes of this subsection.

C. Except for the amounts in Subsections B and E of this section, money in the local governments road fund shall be distributed in the following amounts for the specified purposes:

(1) forty-two percent for the cooperative agreements program, to be used solely for the cooperative agreements entered into pursuant to Section 67-3-28 NMSA 1978 and in accordance with the match authorized pursuant to Section 67-3-32 NMSA 1978; provided, however, that distribution amounts made pursuant to this paragraph in each year shall be based on the following allocations:

- (a) thirty-three percent for agreements entered into with counties;
- (b) forty-nine percent for agreements entered into with municipalities;
- (c) fourteen percent for agreements entered into with school districts; and
- (d) four percent for agreements entered into with other entities;

(2) sixteen percent for the municipal arterial program, to be used solely for the necessary project development, construction, reconstruction, improvement, maintenance, repair and right-of-way and material acquisition of and for those streets that are principal extensions of rural state highways and of other streets not on the state highway system but that qualify under the designated criteria established by the department. In entering into agreements with municipalities to provide funds for any project qualifying for the municipal arterial program, the department shall give preference to municipalities that contribute an amount equal to at least twenty-five percent of the project cost, including a contribution made through funding received pursuant to Subsection E of this section;

(3) sixteen percent for school bus routes, to be used solely for cooperative agreements entered into pursuant to Section 67-3-28 NMSA 1978 and in accordance with the match authorized pursuant to Section 67-3-32 NMSA 1978 for acquiring rights of way and constructing, maintaining, repairing, improving and paving school bus routes and public school parking lots; and

(4) twenty-six percent for the county arterial program, to be used for project development, construction, reconstruction, improvement, maintenance, repair and right-of-way and material acquisition of and for county roads for which individual counties

have prioritized road projects. Prior to entering into any agreements for projects with the counties for the following fiscal year, in June of each year the department shall determine and certify the amount to which each county is entitled pursuant to the following schedule:

Road Mileage Category Based
on

Number of Miles Maintained

By a County:	Entitlement to County:
400 miles or under	\$250 for each mile
401 to 800 miles	\$100,000 plus \$200 for each mile over 400 miles
801 to 1,200 miles	\$180,000 plus \$150 for each mile over 800 miles
1,201 to 1,600 miles	\$240,000 plus \$100 for each mile over 1,200 miles
Over 1,600 miles	\$300,000 plus \$50 for each mile over 1,600 miles.

If in any year there is an insufficient amount in the fund of the county arterial program to certify the total amount to which all counties are entitled, the department shall decrease the entitlement amount due to each county in the same proportion as the insufficiency is to the total entitlements to all counties. Distribution of an entitlement amount and an agreement entered into with a county for any of the purposes for which the money may be spent requires an amount from the county equal to at least twenty-five percent of the entitlement. The county contribution may be made through funds received pursuant to Subsection E of this section. Any uncommitted or unencumbered balance remaining in the county arterial program fund at the end of a fiscal year shall be transferred to the cooperative agreements program specified in Paragraph (1) of this subsection for additional funding of that program in the next fiscal year.

D. The department may transfer funds from the state road fund to the local governments road fund to facilitate cash flow for the funding of these local governments road projects. The administrator of the local governments road fund shall reimburse the state road fund in a timely manner for any such transfers.

E. The department may distribute up to one million dollars (\$1,000,000) per calendar year of the money in the local governments road fund to municipalities and counties that can demonstrate financial hardship, for use as all or a portion of the municipality's or county's matching fund requirements pursuant to this section. In order to qualify for matching funds under this subsection, a county or municipality shall provide the department with a financial hardship qualification certificate issued by the department of finance and administration.

42 Stat. 212, appeared as 23 U.S.C. § 1 et seq., before being repealed in 1958.

The provision in the third sentence of this section making funds available to equal those apportioned to the state "during each of the five years for which federal funds are appropriated" apparently refers to the Act of Congress of July 11, 1916, § 3, 39 Stat. 355, referred to in the first sentence appropriating funds from 1917 to 1921. Since then, however, various acts of congress have appropriated funds for such purposes for each year.

B. Except as provided in Subsections C and D of this section, the total aggregate outstanding principal amount of bonds issued from time to time pursuant to this section, secured by or payable from federal funds not otherwise obligated that are paid into the state road fund and the proceeds from the collection of taxes and fees required by law to be paid into the state road fund, shall not, without additional authorization of the state

legislature, exceed one hundred fifty million dollars (\$150,000,000) at any given time, subject to the following provisions:

C. Upon specific authorization and appropriation by the legislature, and subject to the limitations of Subsection D of this section, an additional amount of bonds may be issued pursuant to this section for state highway projects, to be secured by or payable from taxes or fees required by law to be paid into the state road fund and federal funds not otherwise obligated that are paid into the state road fund, and, as applicable, taxes or fees required by law to be paid into the highway infrastructure fund, as follows:

(1) an aggregate outstanding principal amount of bonds, not to exceed six hundred twenty-four million dollars (\$624,000,000), for major highway infrastructure projects for which the department has, prior to January 1, 1998, submitted or initiated the process of submitting a plan to the federal highway administration for innovative financing pursuant to 23 USCA Sections 122 and 307;

E. The state transportation commission may issue bonds to refund other bonds issued pursuant to this section by exchange or current or advance refunding.

F. Each series of bonds shall have a maturity of no more than twenty-five years from the date of issuance. G. The bonds shall be executed with the manual or facsimile signature of the chairman of the state transportation commission, countersigned by the state treasurer and attested to by the secretary of the state transportation commission, with the seal of the state transportation commission imprinted or otherwise affixed to the bonds.

H. L. Any law authorizing the imposition or distribution of taxes or fees paid into the state road fund or the highway infrastructure fund or that affects those taxes and fees shall not be amended or repealed or otherwise directly or indirectly modified so as to impair outstanding bonds secured by a pledge of revenues from those taxes and fees paid into the state road fund or the highway infrastructure fund, unless the bonds have been discharged in full or provisions have been made for a full discharge. In addition, while any bonds issued by the state transportation commission pursuant to the provisions of this section remain outstanding, the powers or duties of the commission shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holder of such bonds.

M. In contracting for state highway projects to be paid in whole or in part with proceeds of bonds authorized by this section, the department shall require that any sand, gravel, caliche or similar material needed for the project shall, if practicable, be mined from state lands. Each contract shall provide that the contractor notify the commissioner of public lands of the need for the material and that, through lease or purchase, the material shall be mined from state lands if:

N. Bonds issued pursuant to this section shall be paid solely from federal funds not otherwise obligated and taxes and fees deposited into the state road fund and, as applicable, the highway infrastructure fund, and shall not constitute a general obligation of the state.

67-3-60. Bypasses and relocation projects; expenditure of highway funds; purpose.

The purpose of Sections 67-3-60 and 67-3-61 NMSA 1978 is to foster and insure the correlation of state highway construction programs closely affecting smaller

municipalities and unincorporated communities with the future economic growth, livelihood, development, safety and general welfare of the communities by limiting the use of public funds for the construction of highway bypasses or relocation projects diverting traffic and commerce from existing state highway routes through the communities in accordance with the provisions of all existing agreements between a municipality or county and the state transportation commission relating to obtaining the consent of the municipality or county pursuant to the provisions of Section 67-3-61 NMSA 1978.

ANNOTATIONS

The 2003 amendment, effective July 1, 2003, deleted "of Act" at the end of the section heading; substituted "Sections 67-3-60 and 67-3-61 NMSA 1978" for "this act"; substituted "state transportation commission" for "state highway commission"; and substituted "Section 67-3-61 NMSA 1978" for "Laws 1963, Chapter 114, Section 1 and Laws 1965, Chapter 188, Section 1" at the end of the section.

Effect of repeal of by-pass laws on agreements. — Since the commission and various municipal and county governing bodies have executed written agreements relative to highway construction and by-passes, such agreements are valid and binding upon the commission and the state highway department (now department of transportation) even if the by-pass laws (67-3-60 and 67-3-61 NMSA 1978) are repealed. 1966 Op. Att'y Gen. No. 66-13.

67-3-61. Limitation of expenditures of highway funds for construction of highway bypasses.

No expenditure or contract for the expenditure of state public funds for purposes of construction of highway bypasses or highway relocation projects diverting public motor vehicle travel from a previously existing highway route shall be made that violates the provisions of an existing agreement between a municipality or county and the state transportation commission relating to obtaining the consent of the municipality or county pursuant to the provisions of this section. An existing agreement between a municipality or county and the state transportation commission may be amended or revised by mutual consent of the parties to the agreement. Once authority is given by the governing authority and the state transportation commission has affirmatively acted in reliance upon the expressed approval, public funds may be expended and contracts executed despite subsequent withdrawal of approval by the governing authority.

Effect of repeal of by-pass laws on agreements. — Since the commission and various municipal and county governing bodies have executed written agreements relative to highway construction and by-passes, such agreements are valid and binding upon the commission and the state highway department (now department of transportation) even if the by-pass laws (67-3-60 and 67-3-61 NMSA 1978) are repealed. 1966 Op. 67-3-62. Provisions for pedestrian, bicycle and equestrian traffic required.

A. No expenditure or contract for the expenditure of state public funds for purposes of constructing highways along new alignments or for purposes of substantially widening highways along the existing alignments shall be made or entered into by the state highway department unless the design and construction of such highways makes provision for pedestrian, bicycle and equestrian traffic along and across such highway, except when the state highway department, after notice and a public hearing, determines, pursuant to its published regulations as provided in Section 67-3-63 NMSA 1978, that:

(1) such provisions for pedestrian, bicycle and equestrian traffic would be contrary to the public safety; or

(2) the cost of such provision would be disproportionate to the need or probable usage.

B. Notice of public hearings shall be required only when:

(1) project plans require acquisition of additional right-of-way for purposes of constructing the project along a new alignment;

(2) the project plans require a substantial widening of the travel lanes for highway reconstruction along an existing alignment; or

(3) the highway department is petitioned by authorized officials of affected pedestrian, bicycle or equestrian associations. If such petition is filed, public hearing shall be held.

For purposes of Paragraphs (1) and (2) of this subsection, the requirement for notice and public hearing may be satisfied by publishing two notices of opportunity for a public hearing and holding a public hearing if written request for such a hearing is received within the time specified in the published notice.

ANNOTATIONS

The 1979 amendment substituted "of constructing highways" for "of construction or reconstruction of highways" and "state highway department" for "state highway commission" in two places and inserted "along new alignments or for purposes of substantially widening highways along the existing alignments" following "constructing highways" in the introductory paragraph in Subsection A and rewrote Subsection B.

A. The state transportation commission is authorized to expend as necessary matching state road funds and federal aid highway funds administered by the department for the construction and maintenance of footpaths, bridle paths or bicycle lanes along and across state, county and municipal roads, streets or highways.

B. In administering Sections 67-3-62 and 67-3-63 NMSA 1978, the state transportation commission shall promulgate regulations setting forth guidelines by which the state transportation commission shall determine whether the establishment of any proposed bicycle lanes, footpaths or bridle paths is contrary to public safety or the cost

thereof is disproportionate to the need or probable usage within the meaning of Section 67-3-62 NMSA 1978. The commission shall recommend construction standards for footpaths, bicycle lanes and bridle paths and shall provide a uniform system of signs that shall apply to all such paths or lanes under the jurisdiction of the commission and all counties and municipalities. The commission may restrict the use of footpaths, bicycle lanes or bridle paths under its jurisdiction to pedestrian, equestrian or nonmotorized vehicle use.

C. As used in this section, "bicycle lane" means a publicly owned and maintained paved path, way or trail designated and signed as a bicycle route, and "bridle path" includes equestrian trails or ways.

D. In the event that any of the provisions of this section or of Section 67-3-62 NMSA 1978 conflict with provisions of federal law or regulations relating to highway construction funds and such conflict jeopardizes the receipt of funds by the state, then the conflicting provisions of the specified sections of state law shall be suspended and not effective.

The particular sections referring to federal aid were 55-3-19 and 55-3-20, 1953 Comp., the former presently compiled as 67-4-17 NMSA 1978, the latter being repealed by Laws 1974, ch. 92, § 34.

67-4-19. [Municipal "street paving and improvement fund"; purposes for which used.]

All moneys received by treasurers of cities, towns and villages under this act [67-4-18, 67-4-19 NMSA 1978] shall be held and expended as "street paving and improvements funds," and for no other purposes, providing that all funds received hereunder shall be expended for street maintenance and improvement of streets in such cities, towns and villages which are extensions of the public roads and highways through or into such cities, towns and villages and that paving shall not be considered as improvements for the purposes of this act.

And provided further that such funds may be expended upon roads within the county outside of the limits of and leading into such cities, towns and villages.

History: Laws 1919, ch. 90, § 2; C.S. 1929, § 64-803; 1941 Comp., § 58-322; 1953 Comp., § 55-3-23.

67-4-20. Local county roads; assessment for maintenance; lien.

A. Any board of county commissioners may adopt a resolution determining that any streets totally within a subdivided area approved by the county commission, outside the corporate limits of any municipality, and which the board determines to have such a prospective population density as to require extraordinary street maintenance shall be maintained in part at the expense of the owner of any property which abuts upon the streets. The resolution shall only be adopted after a public hearing, notice of which has been advertised in a newspaper of general circulation within the county for two consecutive weeks, the first such advertisement being at least ten days prior to the date of hearing. In the resolution, the board of county commissioners shall determine:

- (1) the expense of maintaining the streets;
- (2) the proportion of the expense to be borne by the property which abuts the streets;
- (3) the charge to be assessed against each lineal foot of frontage of the abutting property which shall not exceed one-half of the average cost per lineal foot of county road maintenance for the prior fiscal year nor be less than one dollar (\$1.00) for each assessment billing; and

- (4) the assessment, on an equitable basis, of each parcel or tract within the subdivided area according to its proportionate share of the expense of maintaining the streets. As used in this paragraph, "equitable basis" includes an assessment based on a front-foot, improved or unimproved property, zone or area basis or an assessed valuation basis where each tract or parcel bears the same percentage of total costs as the percentage that the tract's or parcel's assessed value bears to the total assessed value of the property included in the improvement district.

B. The assessment for the expense of maintaining the streets shall be billed and collected by the county treasurer at the same time as the property taxes and shall become delinquent thirty days after the date of billing. All delinquent assessments shall be a lien against the tract or parcel of property abutting the street, and the lien shall be enforced as provided in Section 67-4-21 NMSA 1978.

C. As used in this section, the term "streets" shall include both improved and unimproved streets, roads, thoroughfares, curbs, divider strips and median strips or any combination of the foregoing.

ANNOTATIONS

The 2001 amendment, effective June 15, 2001, in Paragraph A(4), substituted "on an equitable basis, of each parcel or tract within the subdivided area" for "according to its frontage, of each tract, lot or parcel of abutting property", and added the current last

sentence; and in Subsection B, substituted "67-4-21 NMSA 1978" for "55-3-25 NMSA 1953".

- (3) a description of the property against which the lien is established;
- (4) the amount of the lien; and
- (5) if the lien is for more than one assessment, the dates for which the lien is established.

B. All assessment liens may be included in the same notice of lien and it shall not be necessary to file separate liens against the separate properties. The lien shall be attested in the name of the county treasurer under the seal of the county.

C. The principal amount of any lien imposed for a street maintenance assessment shall bear interest at the same rate as delinquent property taxes and shall be collected at the same time as the property taxes.

67-4-22. Effect of filing notice of lien.

After the filing of the notice of the lien in the office of the county clerk, the county shall have a lien upon the property described in the notice of lien. The filing of the notice of the lien shall be notice to all the world of the existence of the lien and of the contents of the notice of lien.

67-4-23. Manner of releasing lien.

The county treasurer may release a lien against any specific property by:

A. entering and signing a receipt of payment upon the notice of lien filed in the office of the county clerk; or

B. issuing a separate receipt which recites that payment of the lien, with any accrued interest and penalty, has been made.

67-4-24. County lien; foreclosure; joinder of defendants; complaint; several judgment; lien recitals as prima facie evidence; attorney fee.

A. The county may, in a single suit, foreclose the liens against all of the persons named in a notice of liens or against the property if the owners are unknown. The complaint filed by the county shall:

- (1) expressly state the name and address of each defendant, if known;
- (2) describe the property against which the lien is established; and
- (3) set forth the amount of the lien and the date from which any interest has accrued.

B. The judgment or decree rendered in said cause shall be several against the named defendants and against the several properties for the amounts decreed to be due by each. Liens shall be foreclosed in the same manner that mortgages or other liens against real estate are foreclosed, with like rights of redemption. At the trial foreclosing the lien, the recitals of the liens or the notices of lien shall be received in evidence as prima facie true. In any foreclosure of a lien for street maintenance assessments under this act [67-4-20 to 67-4-24 NMSA 1978], a reasonable attorney's fee shall be taxed by the court as part of the costs.

ARTICLE 5

Vacation, Alteration and Establishment of County Roads and Bridges

67-5-1. [County bridges, township and section lines are parts of public highways; width.]

County bridges are parts of public highways and must not be less than sixteen feet in width; when practicable the county commissioners shall declare all township and section lines, public highways of not less than forty feet in width, and where there is no improvement, no compensation shall be paid for such highways.

History: Laws 1891, ch. 89, § 2; C.L. 1897, § 1829; Code 1915, § 2653; C.S. 1929, § 64-702; 1941 Comp., § 58-401; 1953 Comp., § 55-4-1.

ANNOTATIONS

Compiler's notes. — The 1915 Code compilers omitted the first sentence of this section which read: "The right of way of county and territorial roads hereafter established must be not less than forty feet wide nor more than eighty feet, but any road already established may be made wider." Its omission may be accounted for by the provisions of 67-5-2 NMSA 1978.

Section insufficient to accept federal right of way grant. — This section, if intended as acceptance of federal grant of right of way for construction of highways over public lands, was insufficient for such purpose. *Frank A. Hubbell Co. v. Gutierrez*, 1933-NMSC-046, 37 N.M. 309, 22 P.2d 225.

Compensation necessary where private lands declared public highways. — Section lines cannot be declared public highways without compensation where lands are privately owned. *Frank A. Hubbell Co. v. Gutierrez*, 1933-NMSC-046, 37 N.M. 309, 22 P.2d 225.

Constitutionality of provision authorizing taking without compensation. — Statutory provision, if intended to authorize boards of county commissioners to take private lands along section lines for highway without compensation, would be unconstitutional. *Frank A. Hubbell Co. v. Gutierrez*, 1933-NMSC-046, 37 N.M. 309, 22 P.2d 225.

Procedure for establishment of section line highways. — Highways on section lines must be established under regular statutory proceedings the same as any other highway. *Frank A. Hubbell Co. v. Gutierrez*, 1933-NMSC-046, 37 N.M. 309, 22 P.2d 225.

Compensation for private property taken. — Although this section authorizes county commissioners to declare township and section lines public highways, they must provide compensation for any private property taken and comply with the ordinary statutory procedures for establishing county roads. 1988 Op. Att'y Gen. No. 88-59.

Section not self-executing. — Although this section authorizes the county commissioners to establish public highways on section lines, this is not self-executing, and private property cannot be taken for such highways without just compensation. 1912-13 Op. Att'y Gen. No. 13-990, 1912-13 Op. Att'y Gen. No. 13-1012; 1914 Op. Att'y Gen. No. 14-1199.

Section does not preserve section lines for road purposes, and if there has been a permissive use only of a section line, the owner of the land may fence it up or put gates on it. 1912-13 Op. Att'y Gen. No. 13-1052.

No obligation to keep section line as road. — Unless a road was established on a section line before any right was acquired by the owner on one side to land on the other side, there is no obligation to keep it up as a road and it may be enclosed. 1919-20 Op. Att'y Gen. No. 20-2572.

67-5-2. [Width of public highways.]

All public highways laid out in this state shall be sixty feet in width unless otherwise ordered by the board of county commissioners.

ANNOTATIONS

Road established by use, not by statutory authority. — This section does not apply to a road that was a public thoroughfare long before it was officially established as a state road. State of N.M. ex. rel King v. UU Bar Ranch Ltd. P'ship Ltd., 2009-NMSC-010, 145 N.M. 769, 205 P.3d 816, *aff'g in part*, 2005-NMCA-079, 137 N.M. 719, 114 P.3d 399.

Highway established via prescriptive use. — The width requirement of this section should not be applied where the highway was established by means of prescriptive use. *State ex rel. Baxter v. Egolf*, 1988-NMCA-047, 107 N.M. 315, 757 P.2d 371.

Roads established by use are not "laid out" as required by this section. The applicability of this section is dependent upon the laying out of a road by a governmental entity authorized to do so. *Quintana v. Knowles*, 1993-NMCA-022, 115 N.M. 360, 851 P.2d 482, cert. denied, 115 N.M. 359, 851 P.2d 481.

Width of roads. — This section being later than 67-5-1 NMSA 1978 would probably authorize the county commissioners to decide width of roads regardless of the 40-foot provision in 67-5-1 NMSA 1978. 1929-30 Op. Att'y Gen. 140.

67-5-3. Repealed.

ANNOTATIONS

Repeals. — Laws 1991, ch. 249, § 1 repeals 67-5-3 NMSA 1978, as enacted by Laws 1891, ch. 89, § 3, relating to method of changing or discontinuing county or public road, effective June 14, 1991. For provisions of former section, see Original Pamphlet.

67-5-4. [Discontinuance; procedure; viewers; county-line roads.]

Whenever, in the opinion of the board of county commissioners of any county, any road or part of road then established and maintained as a public highway is not needed, or the repairs of the same are burdensome and in excess of the benefits therefrom, they may at a regular meeting appoint a board of commissioners of three freeholders of the county as viewers, to view such road or part of road, and make report thereof to the board of county commissioners at their next regular meeting, setting forth fully their finding, and if they recommend a discontinuance of such road or part of road, then the board of county commissioners may order the same vacated: provided, that if such road runs on the county line between two counties, the county commissioners of both the counties interested shall appoint viewers and the concurrence of the county commissioners of both counties shall be necessary to vacate it.

ANNOTATIONS

Legislative intent. — Sections 67-5-4, 67-2-6 and 67-2-7 NMSA 1978 all relate to the vacation or abandonment of public highways, streets or roads by formal declaration, determination or order of the state or the appropriate commission, department,

institution, bureau or political subdivision thereof, being in pari materia, these statutes should be construed, if reasonably possible, so as to give effect to every provision of each, and these statutes evince an intent on the part of the legislature to provide a formal procedure for the abandonment or vacation of public roads, streets and highways; hence the district courts are not vested with this power. *Chavez v. County of Valencia*, 1974-NMSC-035, 86 N.M. 205, 521 P.2d 1154.

Right to object to closing by nonabutting property owner. — One whose property does not abut on a closed section of a street or road ordinarily has no right to complain of the closing or vacation of such road, provided he still has reasonable access to the general street or road system. *Mandell v. Board of Comm'rs*, 1940-NMSC-003, 44 N.M. 109, 99 P.2d 108.

Proof of special damages by nonabutting owner. — Proof of some special or peculiar damage to a claimant, though not an abutting owner, may support damages resulting from closing of road or street, but the damage suffered must be substantially different in kind, and not merely in degree, from that suffered by the public in general. *Mandell v. Board of Comm'rs*, 1940-NMSC-003, 44 N.M. 109, 99 P.2d 108.

Complaint seeking vacation proceedings review dismissed. — Dismissal of complaint seeking review of proceedings by board of county commissioners in vacating a highway within county but outside of a city, and seeking injunctive relief as an interference with plaintiffs' private easement of way, required to be appraised for correctness upon a determination of whether plaintiffs had an easement of right-of-way, or at least one superior to the statutory right of the county to vacate the section of street or road in question. *Mandell v. Board of Comm'rs*, 1940-NMSC-003, 44 N.M. 109, 99 P.2d 108.

Statutory requirements for viewers' report. — Statute does not require viewers' report to contain more than a finding that the road or street sought to be vacated is not needed, and the recommendation that it be closed. *Mandell v. Board of Comm'rs*, 1940-NMSC-003, 44 N.M. 109, 99 P.2d 108.

Jurisdiction over subject matter. — Although the county entered an appearance in the quiet title suit and participated in the proceedings therein conducted by the district court, this did not confer jurisdiction or power in the district court over the subject matter of the suit, insofar as the subject matter of the suit was concerned with the quieting of title in the roads, as subject-matter jurisdiction cannot be conferred by consent of the parties. *Chavez v. County of Valencia*, 1974-NMSC-035, 86 N.M. 205, 521 P.2d 1154.

Effect of section. — This section is authority for the board of county commissioners of Bernalillo county vacating and closing a portion of a public road located in a platted area outside of the Albuquerque city limits. 1957-58 Op. Att'y Gen. No. 58-87.

General rule is to the effect that where the absolute and unqualified fee is in the municipality or other public agency, it divests the original owner of its entire interest so

that upon discontinuance of the way as such the title does not revert to the grantor or abutting owner but remains in the municipality or other agency unaffected by the vacation. 1957-58 Op. Att'y Gen. No. 58-87.

The board of county commissioners may alter, widen or change any established road or lay out any new road in their respective counties, when petitioned by ten freeholders residing within two miles of the road sought to be altered, widened, changed or laid out. ANNOTATIONS

Petition for proposed road. — A petition is not bad because it sets forth a detailed and specific description of the route of the proposed road, when it should set forth the termini only. *Michelet v. Board of Comm'rs*, 1915-NMSC-078, 21 N.M. 95, 152 P. 1140.

Provisions for acquiring land not repealed. — Laws 1912, ch. 54 (now repealed) granting to the county road boards general powers over public roads did not repeal this statute (Laws 1905, ch. 124), empowering boards of county commissioners to acquire by purchase or condemnation, land for use as a public road. *State ex rel. The board of county commissioners, in their respective counties, may establish township and section lines as rights-of-way of not less than thirty feet in width for the purpose of constructing gas lines or drainage ditches when petitioned by ten freeholders residing within five miles of any proposed right-of-way; provided that each petition shall apply to rights-of-way not exceeding two (2) miles in length.

The petitioners shall deposit with the county clerk of the county in which any road is sought to be altered, widened, changed or laid out and established, a sufficient sum of money, which shall be fixed by the board of county commissioners, to defray the expense of viewing the proposed road, which sum shall be paid into the county road fund in case the prayer of the petitioner is refused, but if the board of county commissioners alter, widen, change or lay out such road, then such sum shall be returned to the person or persons depositing the same. 67-5-8. [Proposed county-line roads; petitions; viewers; opening and maintaining.]

If any proposed highway be on the county line between two counties, the board of county commissioners of each county interested shall be petitioned, and each of such boards shall appoint three viewers, qualified as in other cases, who, or a majority of whom, shall meet at a time and place named by the board of county commissioners first

interested and proceed to view and mark out the road, and report to the board of county commissioners of both counties, as in other cases, and the concurrence of the county commissioners of both such counties shall be necessary to establish it. And, if any such road be established, each of such counties shall open and maintain a definite part thereof, which the board of county commissioners of such counties shall apportion by mutual agreement between the two counties, and if the board of county commissioners cannot agree upon their apportionment, they may refer the matter to three disinterested freeholders as arbitrators, whose duty it shall be to apportion the same and report thereon to the boards of county commissioners of both counties.

It shall be the duty of the board of county commissioners of any county in the state at their next meeting, after a petition as required in Section 67-5-5 NMSA 1978 is received, to appoint a board of commissioners of three freeholders of the county to view and mark out the road prayed for in the petition, and to fix a time for such view and to cause notices to be posted in three of the most public places, along the new proposed road, at least five days previous to the day fixed for the view thereof, giving parties in interest notice that at the time fixed by the board of county commissioners the viewers so appointed will meet at the point designated in the petition as the starting point of such road, to attend to their duties as viewers.

67-5-12. Laying out road; assessment for damages; survey.

The viewers shall meet at the time and place specified in the warrant and commence at the place designated in the petition as the starting point of the road sought to be altered, widened, changed or laid out and established. The viewers shall proceed to view and mark out the road by setting stakes, blazing trees, turning a furrow or other appropriate monuments to the terminus named in the petition by the most practicable and convenient route that they in their judgment can find. They shall assess the benefits and damages accruing to all persons by reason of the alteration, widening, changing or laying out of the road and award to any person damages in excess of the benefits accruing to the person a sum equal to such excess. If the viewers or a majority of them are of the opinion that the road should be altered, widened, changed or laid out and established, they shall cause a survey and plat of the road to be made by a licensed professional surveyor or other competent person giving the courses and distances and specifying the land over which the road extends.

ANNOTATIONS

The 2011 amendment, effective December 31, 2012, required that a licensed professional surveyor survey roads that are to be altered, widened, changed or laid out.

In fixing definite line of highway, the viewers, under the provisions of this section, may lay out the same by the most practical and convenient route that they in their judgment can find. This discretion is not taken away or limited by the fact that the petition describes a definite and particular line, nor does such description render the petition void. *Michelet v. 67-8-15. Declaration of policy.

A. The construction of modern highways is necessary to promote public safety, facilitate the movement of present-day motor traffic, both interstate and intrastate in character, and to promote the national defense, and in the construction of such highways it is also in the public interest to provide for the orderly and economical relocation of utilities when made necessary by such highway improvements, including extensions thereof within urban areas, without occasioning utility service interruptions or unnecessary hazards to the health, safety and welfare of the traveling or utility consuming public.

B. Utilities have been authorized by statute for many years to locate their facilities within the boundaries of public roads and streets in this state; because utilities are subject to extensive regulation by state agencies and they are affected with the public interest in that, among other things:

(1) the business and activities of utilities involve the rendition of essential public services to large numbers of the general public, and no cessation of utility service is permitted without authority of law;

(2) the financing of utilities involves the investment of large sums of money, including capital obtained from many members of the general public;

(3) the development and extension of utilities directly affects the development, growth and expansion of the general welfare, business and industry of this state; and

(4) all persons in this state are actual or potential consumers of one or more utility services, and all consumers will be affected by the cost of relocation of their utilities as necessary to accommodate highway improvements.

Public highways are intended principally for public travel and transportation; but they are also intended for proper utility uses in serving the public, as authorized pursuant to the laws of this state, and such utility uses are for the benefit of the public served. Without making use of public ways utility lines could not reach or economically service the adjacent public, particularly in urban areas.

C. Federal-aid highways of the interstate system and other modern highway improvements serve the need of nonlocal and long distance traffic.

D. The burden of such utility relocations is a burden on the public in this state, whether initially borne by the state or the utility or in part by both, and it is, therefore, in the public interest that such burden be minimized to the extent that same can be done consistently with the principal purpose of such highways for vehicular movement of persons and property; therefore, it is the intent of the legislature to insure that the state's police power in requiring relocation of utilities shall be exercised in a reasonable manner.

E. Utility relocations necessitated by construction of public highways or improvements thereto are a public governmental function, properly a part of such construction and to the extent in this act [67-8-15 to 67-8-21 NMSA 1978] provided such relocations shall be made at state expense; however, although made in obedience to the commission's orders in exercise of the police power under this act, relocations hereunder for which compensation is not provided by this act or otherwise by law are declared to be *damnum absque injuria* and no claim therefor shall be enforceable against the state. Utility relocations to which this act is applicable shall be made only in pursuance hereof.

F. The statements in this Section 1 [this section] are legislative determinations and declarations of public policy, and this act shall be liberally construed in conformity with its declarations and purposes to promote the public interest.

Apportionment, not donation. — In the passage of Laws 1959, ch. 310 (67-8-15 to 67-8-21 NMSA 1978), the legislature considered that the construction of interstate highways, through a community, is for the primary benefit of interstate travelers and public transportation facilities making use of such thoroughfares, rather than the citizens

of the community itself. The legislature was attempting to aid the citizens of the state of New Mexico, through apportionment of costs of relocation, as distinguished from making any type of donation from the funds of the state. C. "commission" means the state transportation commission;

D. "public highway" means any state highway or other public way in this state, including extensions thereof within urban areas, constructed in whole or in part with state aid and shall include any incorporated or related physical facilities for the handling of traffic and the right of way;

E. "relocation" means any horizontal or vertical movement of utility facilities intact and any protective measures taken or, where found by the commission to be necessary, the construction of new or additional facilities, with or without contemporaneous removal and salvage of old facilities, in this state including in any case adjustment or protection of connecting off-highway utility lines to the extent necessary;

F. "federal-aid highways" means all roads constructed in whole or in part with federal aid and includes the "interstate system", the "primary system" and the "secondary system" in this state as designated by the commission; and

History: 1953 Comp., § 55-7-24, enacted by Laws 1959, ch. 310, § 2; 2003, ch. 142, § 80.

ANNOTATIONS

The 2003 amendment, effective July 1, 2003, substituted "Sections 67-8-15 through 67-9-21 NMSA 1978" for "this act" in the introductory paragraph; and substituted "state transportation commission" for "state highway commission" in Subsection C.

67-8-17. Relocation of utility facilities authorized.

A. The commission may, after notice and hearing, by order provide for the relocation of utility facilities within a public highway (including, if required, the entire removal therefrom of certain facilities except as necessary to serve abutting premises or as necessary to cross the highway) and may require any utility to make or suffer any such specified relocation, upon a finding that the action provided for is necessitated by highway improvement determined upon by the commission as a matter of policy relating to the design, construction, location and maintenance of public highways; and the commission shall direct and control the reasonable manner and time of effecting any such relocation so as to promote the public interest in the highway improvement without undue cost or risk and without impairment of utility service, whether the commission undertakes the relocation on behalf of the state or requires the utility to perform such relocation. If undertaken by the commission, it may contract such relocation work.

B. The obligation of the utility shall be to make or suffer relocation as so required by the commission, and to do so cooperatively and in the reasonable manner and time as may be prescribed by the commission, and to advance and pay all costs incurred in effecting relocation which the state is not authorized to pay hereunder or otherwise by law. It shall not be grounds for delay in relocation that a dispute exists over the cost of relocation or the method of paying or sharing same.

C. The commission is authorized to enter into an agreement with a utility with respect to any relocation, the time and manner of its accomplishment and the payment and sharing of the cost incurred in effecting relocation, all upon such reasonable terms and conditions as the commission shall approve as necessary or appropriate in the interest of a public highway program in this state; and in such event no notice, hearing or other proceedings under this act [67-8-15 to 67-8-21 NMSA 1978] shall be required.

History: 1953 Comp., § 55-7-25, enacted by Laws 1959, ch. 310, § 3.

ANNOTATIONS

Constitutionality of present provisions. — Laws 1959, ch. 310 (67-8-15 to 67-8-21 NMSA 1978), requiring in certain cases the state to pay the nonbetterment costs of utility relocation made necessary by highway improvements, is not a release of an obligation to the state and does not violate N.M. Const., art. IX, § 14, prohibiting state aid to private enterprise. State ex rel. City of Albuquerque v. Lavender, 1961-NMSC-096, 69 N.M. 220, 365 P.2d 652.

Present and former provisions distinguished. — Under Laws 1959, ch. 310 (67-8-15 to 67-8-21 NMSA 1978), as distinguished from Laws 1959, ch. 237, § 1 (former 55-7-18, 1953 Comp.), (1) the legislature has authorized the commission itself to expend public funds for the relocation of utility facilities; (2) the utility, as to relocations, is under the absolute control of the commission and is merely acting as a contractor for the state; and (3) the legislature has expressly prohibited reimbursement for relocation in cases where there is a specific obligation on the part of the utility to relocate. State ex rel. City of Albuquerque v. Lavender, 1961-NMSC-096, 69 N.M. 220, 365 P.2d 652.

Scope of relocation provisions. — The provisions of Laws 1959, ch. 310 (67-8-15 to 67-8-21 NMSA 1978) apply only to cases involving the construction of interstate and defense system highways, rather than on all federal-aid highways. These particular highways are designed primarily for the nation as a whole, not merely for a community or for the state of New Mexico. State ex rel. City of Albuquerque v. Lavender, 1961-NMSC-096, 69 N.M. 220, 365 P.2d 652.

67-8-18. State pays certain relocation costs.

A. In the following types of utility relocation ordered by the commission pursuant to Section 3 A [67-8-17A NMSA 1978] it shall either, as it elects, undertake the relocation work on behalf of the state, paying the cost of relocation, or reimburse the utility for the cost of relocation:

- (1) relocations necessitated by improvements of public highways in the interstate system, including extensions thereof within urban areas; and
- (2) relocations by complete removal and construction of facilities off the public highway.

The commission is authorized upon notice and opportunity for hearing to find and determine in relocations hereunder the cost of relocation, and the same shall, to the extent authorized herein, be borne by the state as other highway construction costs.

The commission is authorized to make rules and regulations with respect to the advancement and/or payment from time to time of funds by utilities to insure that the state shall never advance nor pay any costs which it is not authorized by law to pay, including rules and regulation [regulations] with respect to the proper determination of cost of relocation payable or reimbursable by the state, to aid the commission in carrying out the intention of this act [67-8-15 to 67-8-21 NMSA 1978]; and this provisions [provision] shall be cumulative of other authority possessed by the commission to promulgate rules and regulations.

B. Exceptions:

(1) the cost of relocation from which a utility would be otherwise relieved pursuant to Subparagraph A (1) above shall nevertheless be borne in full by the utility in any of the following cases, without reimbursement from the state:

(a) in case of a privately owned utility which is obligated, or to the extent it is obligated by valid, written contract with the state to make such relocation when called for by the state without cost to the latter;

(b) in case the utility line was initially installed, or for the distance to which it was installed, under a valid statute or regulation applicable thereto and providing that relocation should be effected by the owner thereof at the latter's expense;

(c) in case of relocation of a utility facility not municipally owned for which local municipal or county government authorization, if required by law, had not been granted;

(d) in case the utility shall after effectiveness of this act agree for a valid consideration to effect the relocation at its expense under the terms of such agreement; or

(e) in case of any required relocation with respect to which the commission shall determine that the utility failed without just cause to make or suffer such relocation in the reasonable manner and time as prescribed by the commission.

C. The commission shall make no reimbursement payment to a utility to which it is otherwise entitled pursuant to Subsection A above unless and until the commission is satisfied that relocation has been fully completed in accordance with the commission's requirements; and the commission shall in no event make reimbursement of any cost otherwise due under Subsection A above which it finds, after notice and hearing, to have been unnecessarily, negligently or improvidently incurred by the utility.

D. To insure that the state shall never pay any cost of relocation necessitated by improvement in the interstate system for which it cannot receive proportionate reimbursement under the 1956 Federal Aid Highway Act, as amended, if upon final determination by the United States bureau of public roads of the cost of relocation of a utility relocation necessitated by the construction or improvement of a public highway in the interstate system, the bureau of public roads shall finally determine the cost of relocation to be not reimbursable to the state from federal funds or to be less than the amount reimbursed to the utility by the commission, the utility so reimbursed shall repay to the commission the difference between the amount so reimbursed to the utility and the cost of relocation finally determined by the bureau of public roads.

County courthouse and hospital lands. — The county must be compensated where commission takes county hospital and courthouse land and uses it for highway purposes. State ex rel. State Highway Comm'n v. Board of Cnty. Comm'rs, 1963-NMSC-074, 72 N.M. 86, 380 P.2d 830.

Access by highway abutters. — Abutters have a right of access to the public roads system, but it does not necessarily follow that they have a right of direct access to the main-traveled portions thereof. Circuitry of travel, as long as it is not unreasonable, and any loss in land value by reason of the diversion of express traffic, are noncompensable. State ex rel. State Highway Comm'n v. Danfelter, 1963-NMSC-138, 72 N.M. 361, 384 P.2d 241, cert. denied, 375 U.S. 969, 84 S. Ct. 487, 11 L. Ed. 2d 416 (1964).

Effect of filing condemnation of access suit. — The filing of the suit which had for one of its purposes the condemnation of access was in effect an admission by plaintiff that the taking was not by way of the police power and it was not error for the trial court to insist that the case be tried on the same theory and not to permit an amendment raising a theory of regulation of ingress. Court proceedings necessary to acquire property or property rights for purposes of this act [67-11-1 to 67-11-10 NMSA 1978] shall take precedence over all other causes not involving the public interest in all courts, to the end that the provision of controlled-access facilities may be expedited.

The state transportation commission is authorized to exercise jurisdiction over service roads and streets in the same manner as is authorized over controlled-access facilities under the terms of Chapter 67, Article 11 NMSA 1978. ANNOTATIONS

The 2003 amendment, effective July 1, 2003, substituted "state transportation commission" for "state highway commission" in Subsections C and J.

67-12-3. Public policy.

In order to promote public safety, health, welfare, convenience and enjoyment of public travel, to protect the public investment in public highways and to preserve and enhance the scenic beauty of lands bordering public highways, it is the public policy of this state to regulate the erection and maintenance of outdoor advertising and the establishment, operation and maintenance of junkyards in areas adjacent to the interstate and primary systems in accordance with the Highway Beautification Act [67-12-1 NMSA 1978]. The legislature finds that regulation of outdoor advertising and junkyards is for a highway purpose.

History: 1953 Comp., § 55-11-3, enacted by Laws 1966, ch. 65, § 3.

ANNOTATIONS

Act meets constitutionality test. — The Highway Beautification Act meets the three-pronged test used to determine whether a time, place and manner restriction is valid: the act's restrictions on plaintiffs' exercise of their freedom of speech is justified without reference to the content of the regulated speech, its restrictions on plaintiffs' freedom of

speech serve a significant governmental interest and the act leaves open ample alternative channels for communication of the information. *Stuckey's Stores, Inc. v. O'Cheskey*, 1979-NMSC-060, 93 N.M. 312, 600 P.2d 258, appeal dismissed, 446 U.S. 930, 100 S. Ct. 2145, 64 L. Ed. 2d 783 (1980).

67-12-4. Outdoor advertising prohibited; exceptions.

A. Outdoor advertising shall not be erected or maintained except:

(1) directional and other official signs and notices authorized or required by law, including, but not limited to, signs and notices pertaining to houses of worship, natural wonders and scenic and historic attractions;

(2) signs, displays and devices advertising the sale or lease of property upon which they are located;

(3) signs, displays and devices advertising activities conducted on the property upon which they are located, provided that the bisection of a parcel of land by a highway right-of-way acquisition shall not in itself be construed as converting the property into more than one parcel;

(4) signs, displays and devices located in areas which are zoned as industrial or commercial under authority of law;

(5) signs, displays and devices located within six hundred sixty feet of the nearest edge of the right of way, in unzoned industrial or commercial areas as defined by regulations promulgated by the commission, provided that no area shall be considered to be an unzoned commercial or industrial area unless and until a regulation defining the area as unzoned commercial or industrial is promulgated by the commission; and

(6) signs lawfully in existence on October 22, 1965, determined by the commission, subject to any necessary federal approval, to be landmark signs of historic or artistic significance worthy of preservation including signs on farm structures or natural surfaces.

B. All outdoor advertising shall conform with standards and specifications, shall bear permits and have paid therefor permit fees, as required by the Highway Beautification Act [67-12-1 NMSA 1978] and regulations promulgated pursuant thereto or authorized thereby, except that permits shall not be required or fees paid for outdoor advertising included in Paragraphs (1), (2) and (3) of Subsection A of this section.

C. Notwithstanding this section, any outdoor advertising that was lawfully in existence on the effective date of the Highway Beautification Act and has continued to so exist may remain in place until the outdoor advertising is acquired by the commission or condemnation in relation thereto is commenced by the commission, whichever first

occurs, but only if and so long as all provisions of Subsection B of this section are complied with.

History: 1953 Comp., § 55-11-4, enacted by Laws 1966, ch. 65, § 4; 1967, ch. 140, § 1; 1971, ch. 108, § 2; 1975, ch. 174, § 1; 1975, ch. 193, § 2; 2003, ch. 142, § 87.

ANNOTATIONS

The 2003 amendment, effective July 1, 2003, deleted "state highway" preceding "commission" in Paragraph A(6).

Regulation deemed proper exercise of police power. — The regulation of outdoor advertising along interstate and primary highways is a reasonable and proper exercise of the police power. *Stuckey's Stores, Inc. v. O'Cheskey*, 1979-NMSC-060, 93 N.M. 312, 600 P.2d 258, appeal dismissed, 446 U.S. 930, 100 S. Ct. 2145, 64 L. Ed. 2d 783 (1980).

Act does not abridge freedom of speech. — The New Mexico Highway Beautification Act, does not abridge freedom of speech in violation of the United States and New Mexico constitutions. *Stuckey's Stores, Inc. v. O'Cheskey*, 1979-NMSC-060, 93 N.M. 312, 600 P.2d 258, appeal dismissed, 446 U.S. 930, 100 S. Ct. 2145, 64 L. Ed. 2d 783 (1980).

Highway Beautification Act meets three-pronged test used to determine whether a time, place and manner restriction is valid: the act's restrictions on plaintiffs' exercise of their freedom of speech is justified without reference to the content of the regulated speech, its restrictions on plaintiffs' freedom of speech serve a significant governmental interest and the act leaves open ample alternative channels for communication of the information. *Stuckey's Stores, Inc. v. Evidence of great business loss needed to rebut presumption. — Where the plaintiffs introduced no evidence that any of their stores, which availed themselves of on-premise or unzoned commercial or industrial area signs after other off-premise signs had been removed, had suffered a great loss of business, they failed to rebut the presumption that the Highway Beautification Act provides adequate means for plaintiffs to exercise their freedom of speech. *Stuckey's Stores, Inc. v. O'Cheskey*, 1979-NMSC-060, 93 N.M. 312, 600 P.2d 258, appeal dismissed, 446 U.S. 930, 100 S. Ct. 2145, 64 L. Ed. 2d 783 (1980).

Outdoor advertising devices erected in violation of act. — Outdoor advertising devices erected after the effective date of the Highway Beautification Act and prior to the 1971 amendments which do not qualify under Subsection A(1) through (4) of this section were erected in violation of the act. *Stuckey's Stores, Inc. v. O'Cheskey*, 1979-NMSC-060, 93 N.M. 312, 600 P.2d 258, appeal dismissed, 446 U.S. 930, 100 S. Ct. 2145, 64 L. Ed. 2d 783 (1980).

Signs are public nuisances when they fail to qualify under this section and when they fail to comply with the Highway Beautification Act's permit provisions. *Stuckey's Stores, Inc. v. 67-12-5. Outdoor advertising; regulations; permits.

A. The commission may promulgate regulations concerning:

(1) the definition of unzoned industrial or commercial areas adjacent to the interstate and primary systems;

(2) the removal of outdoor advertising so required or authorized under the Highway Beautification Act [67-12-1 NMSA 1978];

(3) permits for the erection and maintenance of outdoor advertising; and

(4) standards and specifications pertaining to outdoor advertising, including, but not limited to, construction, maintenance, spacing, lighting, size and location.

B. Regulations promulgated by the commission under this section shall be consistent with the public policy of this state as declared in the Highway Beautification Act and national standards promulgated pursuant to Title 23, United States Code.

C. The commission shall establish and collect uniform fees for the issuance of permits for outdoor advertising. The fees shall not be more than the actual cost to the commission of enforcement and administration of this act, or five dollars (\$5.00) per year, whichever is greater, for each sign, display and device. All fees so collected shall be paid to the state treasurer for credit to the state road fund.

D. Any permit fee payable for the years 1966 through 1971 inclusive shall be deemed timely paid if, but only if, the fee is received by the commission prior to July 1, 1971. For the year 1972 and every year thereafter, the permit fee shall be deemed timely paid if, said fee is received by the commission on or before the first day of the year for which said fee is being paid. Failure of timely payment of the permit fee for any outdoor advertising except those included in Subsections A (1), A (2) and A (3) of Section 67-12-4 NMSA 1978 shall render the outdoor advertising subject to removal by the commission without any compensation whatsoever and at the expense of the owner of the outdoor advertising.

67-12-6. Outdoor advertising; acquisition; compensation; removal.

A. The commission may acquire by agreement or condemnation all outdoor advertising and property rights pertaining thereto. The commission may so remove the outdoor advertising if at the time of the acquisition:

- (1) the outdoor advertising bears the requisite permit, if any;

(2) the owner of the outdoor advertising has timely paid all permit fees, past and present, if any, required in connection with the erection and maintenance thereof;

(3) the outdoor advertising conforms with standards, specifications and requirements contained in regulations promulgated by the commission; and

(4) the outdoor advertising was lawfully in existence on the effective date of the Highway Beautification Act and has continued to so exist, or was lawfully erected subsequent to the effective date. For the purpose of this paragraph, any outdoor advertising in existence on or after November 6, 1978, that was erected prior to November 18, 1971 under any permit or conditional permit issued by the state highway department shall be considered to be lawfully erected. For all purposes the effective date of the New Mexico Highway Beautification Act shall be March 15, 1971.

The condemnation shall be exercised by eminent domain in the manner provided by law, and each interested party shall have the right to a separate trial as to the respective interests involved.

B. Whenever outdoor advertising and property rights pertaining thereto are acquired by the commission pursuant to Subsection A of this section:

(1) the owner of the outdoor advertising shall be paid just compensation by the commission equal to the fair market value of the outdoor advertising which is to be deemed a trade fixture; and

(2) the owner of the land upon which the outdoor advertising is located shall be paid just compensation equal to the value of his right to have the outdoor advertising erected and maintained on the land.

C. The right to compensation as provided in Subsection B of this section shall not be affected solely by the failure of any outdoor advertising to conform to standards, specifications and requirements contained in regulations promulgated by the commission relating to any subject other than permits or permit fees unless the commission has given notice by certified mail to the owner of the land upon which the outdoor advertising is located, and to the owner of the outdoor advertising if his name appears thereon, advising of the failure to conform and ordering that the outdoor advertising be made to so conform or be removed within thirty days from the date of such notice. If the failure to conform is corrected within the thirty days, then the failure to conform shall be deemed cured for all purposes; if, however, the defect is not corrected within the thirty days, the commission may thereafter remove the outdoor advertising at the expense of the owner of the outdoor advertising without any compensation whatsoever. This subsection specifically does not apply in any manner to permit fees, and no notice whatsoever shall be required in connection with the permit fees.

D. Compensation shall not include any element of damages which is not subject to federal aid participation under the federal Highway Beautification Act of 1965, as has been or may be hereafter amended or superseded, or otherwise.

E. In any case where outdoor advertising has been removed under the Highway Beautification Act [67-12-1 NMSA 1978], and the removal is compensable under that act, but the commission has not paid just compensation or instituted condemnation proceedings therefor, the owner of the outdoor advertising, or the owner of the land upon which it is located, or both, may bring actions against the commission as provided in Section 42-1-23 NMSA 1978, for recovery of such compensation.

F. All outdoor advertising other than that meeting all the requirements of Subsection A of this section is declared to be a public nuisance and in contravention of law. Therefore and otherwise, the commission may remove or cause the removal of all outdoor advertising other than that meeting all the requirements of Subsection A of this section which removal shall be without any compensation whatsoever and at the expense of the owner of the outdoor advertising.

G. Removal of outdoor advertising by or at the request of the commission, its agents or employees in compliance with the Highway Beautification Act does not subject such removal or the persons performing it to criminal prosecution or give rise to any liability to any person or entity for the injury, loss or destruction of any property which occurs in connection with the removal.

67-12-9. Junkyards; license required.

A. No person shall establish, operate or maintain a junkyard, without first obtaining a junkyard license from the commission. The commission shall establish and collect uniform fees for the issuance of junkyard licenses. The fee shall not be more than the actual cost to the commission of enforcement and administration of the Highway Beautification Act [67-12-1 NMSA 1978], or ten dollars (\$10.00) per year per junkyard, whichever is greater. The fees shall be paid to the state treasurer for credit to the state road fund.

B. No junkyard license shall be issued for the establishment, operation or maintenance of a junkyard except for junkyards:

(1) screened by natural objects, plantings, fences or other appropriate means so as not to be visible from the main-traveled way of the interstate or primary systems, or otherwise removed from sight, all in conformity with regulations relating thereto promulgated by the commission, if any; or

(2) located within areas zoned for industrial use under authority of law; or

(3) located within unzoned industrial areas as determined by actual land uses and defined by regulations promulgated by the commission; provided that no area shall be deemed to be an unzoned industrial area unless and until the commission has promulgated regulations defining same.

C. Nothing herein to the contrary withstanding, no junkyard lawfully in existence on the effective date of the Highway Beautification Act, which has continued to so exist and has had timely paid therefor all license fees required by the Highway Beautification Act shall be denied a junkyard license, if proper application is made and the requisite fee tendered therefor, until such junkyard has been screened or otherwise removed from sight by the commission at its expense.

D. Any fee for a junkyard license payable for the years 1966 through 1971 inclusive, shall be deemed timely paid if, but only if, the fee is received by the commission prior to July 1, 1971. For the year 1972 and every year thereafter, the license fee shall be deemed timely paid if, but only if, said fee is received by the commission on or before the first day of the year for which said fee is being paid. Failure of timely payment of said fee shall render the junkyard subject to removal, disposal and abatement by the commission without any compensation whatsoever, and at the cost of the owner thereof.

History: 1953 Comp., § 55-11-8, enacted by Laws 1966, ch. 65, § 8; 1971, ch. 108, § 5.

67-12-10. Junkyards; screening; acquisition; removal; compensation.

A. The commission may screen, at its expense, any junkyard located within one thousand feet of the nearest edge of the right-of-way of the interstate and primary systems and visible from the main-traveled way thereof, if the commission considers such screening feasible and the junkyard:

(1) was lawfully in existence on the effective date of the Highway Beautification Act [67-12-1 NMSA 1978], and has continued to so exist, or the junkyard lawfully came §1 into existence subsequent thereto under circumstances whereby screening or removal from sight were not required by law; and

(2) has had timely paid therefor all license fees, past and present, required in connection with the establishment, operation and maintenance thereof.

B. If the commission does not consider such screening economical or feasible due to the topography of the land or otherwise, it may require the relocation, removal or disposal of the junkyard or junk thereon located by negotiation or condemnation, if the junkyard meets the requirements of Paragraphs (1) and (2) of Subsection A.

C. Whenever relocation, removal or disposal is required by the commission pursuant to Subsection B:

(1) the owner of the junkyard shall be paid just compensation therefor by the commission, which shall include, but not be limited to, acquisition costs, leasehold value and moving costs; and

(2) the owner of the land upon which the junkyard is located shall be paid just compensation equal to the value of his right to have the junkyard established, operated and maintained on the land.

D. Compensation shall not include any element of damages which is not subject to federal aid participation by virtue of the federal Highway Beautification Act of 1965, as has been or may hereafter be amended or superseded, or otherwise.

E. In any case where a junkyard has been removed, relocated or disposed of, pursuant to the Highway Beautification Act, and such removal is compensable under it, but the commission has not paid just compensation or instituted condemnation proceedings therefor, the owner of the junkyard or the owner of the land upon which it is located, or both, may bring action against the commission as provided in Section 42-1-23 NMSA 1978, for recovery of such compensation.

F. The commission may remove, relocate or dispose of, or cause the removal, relocation or disposal of all junkyards other than those described in Subsections A and B hereof, without any compensation whatsoever and at the expense of the owner of the junkyard.

G. Removal, relocation or disposal of junkyards by or at the request of the commission, its agents or employees in compliance with the Highway Beautification Act does not subject such removal or the persons performing same to criminal prosecution or give rise to any liability to any person or entity for the injury, loss or destruction of any property which occurs in connection with the said removal.

H. When the commission determines that it is in the best interest of the state, it may acquire such land or interest in land as is necessary to provide adequate screening for junkyards.
