Legal stop ripening into illegal arrest. — Although initial stop of commercial truck was legal under New Mexico's inspection statutes, the stop ripened into an unlawful de facto arrest when, without probable cause, officer required the driver to wait an hour; the illegality of the arrest vitiated driver's subsequent consent to the search of his truck, and rendered stolen motorcycles which were found inadmissible under the exclusionary rule. *State v. Jutte*, 1998-NMCA-150, 126 N.M. 244, 968 P.2d 334, cert. denied, 126 N.M. 533, 972 P.2d 352.

Invalid stopping of vehicles. — Motor transportation division officer's stop of a rental truck was not made at a port of entry and was invalid, where the officer had not set out any signs or other indication to vehicle drivers that they would be required to stop, had stopped vehicles randomly and at his own discretion, and had chosen his own schedule of where to patrol, as opposed to his supervisor making the decision. *State v. Clark*, 1991-NMCA-082, 112 N.M. 500, 816 P.2d 1122.

Similarly, no invalid delegation is involved in making an exemption on foreign motor vehicles, provided similar exemption is accorded to vehicles by the enacting state in which the foreign-owned vehicles are registered, such exemption to be contingent upon the making of an agreement for such reciprocal exemption between the local secretary of state and the proper officer of the other state . . ." 1961 Op. 65-2A-7.1. Findings.

The legislature finds that:

A. the federal Older Americans Act of 1965 was enacted in part to allow older Americans to continue "meaningful activity within the widest range of civic, cultural, education and training and recreational opportunities";

B. federal funding through Title III B of the Older Americans Act of 1965 supplements, but does not supplant, funding for transportation services for older Americans; and

C. the Older Americans Act of 1965 specifically authorizes the solicitation of voluntary contributions for services supplemented by Title III B funding as long as the solicitation is not coercive.

ANNOTATIONS

The 2023 amendment, effective July 1, 2024, removed references to the public regulation commission due to the transfer of certain powers and duties to the department of transportation; and changed each occurrence of "commission" to "department" throughout the section.

The 2013 amendment, effective July 1, 2013, clarified and simplified procedures for issuance of certificates for passenger service; in the title, deleted "intrastate common motor carrier of persons" and added "passenger service"; in Subsection A, deleted the former first sentence which required a carrier of persons to obtain a certificate for intrastate transportation and added the first sentence, and added Paragraphs (1) through (4); in Subsection B, after "this section", added "and in Section 65-2A-13 NMSA 1978", and after "person to provide", deleted "compensated intrastate transportation as a common motor carrier of persons" and added "passenger service"; in Paragraph (1) of Subsection B, deleted "person" and added "applicant", and after "fit", deleted "willing"; in Paragraph (2) of Subsection B, deleted "person" and added "applicant"; in Paragraph (3) of Subsection B, at the beginning of the sentence, added "for an application for ambulance service"; added Paragraph (4) of Subsection B; in Subsection C, after "certificate", deleted "to an intrastate common motor carrier of persons" and added "for passenger service" and after "consider", added the remainder of the sentence; in Subsection D, at the beginning of the sentence, added "Before granting a certificate for ambulance service, the commission shall also consider" and after "existing", deleted "motor carriers; provided that the commission shall not find diversion of revenue or traffic from an existing motor carrier to be, in and of itself, sufficient grounds for denying the certificate" and added "ambulance service in the territory"; in Subsection E, after "commission", deleted "to an intrastate common motor carrier of persons" and added "for provision of passenger service", after "passenger service shall", added "contain one or more endorsements, each of which shall", in Paragraph (1), at the beginning of the sentence, added "nature of", in Paragraph (2), after "territory", added "authorized", in Paragraph (3), after "terms", deleted "conditions and limitations" and added "of service", after "terms of service as the", deleted "public convenience and necessity" and added "commission", after "commission may", added "allow or", after "require", deleted "and, if necessary", and deleted former Subparagraphs (a) and (b) which authorized the

commission to specify in a certificate the terminals between service and the routes and schedules of service, and added "for the particular certificate"; and added Subsection F.

Sufficient evidence to support finding that applicant is fit and able to provide transportation services. — Where new taxicab company applied to the New Mexico public regulation commission (PRC) for a certificate to provide general taxicab services within Bernalillo county, and where the applicant taxicab company had undertaken a course of action to get each regulatory requirement met, had utilized legal services to compensate for the language barrier, had met all requirements for certification and was compliant with state law and compliant with the statutory fitness requirements, there was substantial evidence to support the PRC's determination of the applicant taxicab company's fitness to operate. *Albuquerque Cab Co. v. N.M. Pub. Regulation Comm'n*, 2017-NMSC-028.

Failure to show financial fitness to provide service. — Where the applicant for a permanent certificate of authority to provide ambulance services significantly overstated its assets, submitted a balance sheet that overstated the applicant's cash on hand by almost \$30,000, neglected to mention two lawsuits for non-payment of significant amounts against it, failed to list its hundreds of thousands of dollars in tax delinquencies, and failed to pay federal and state taxes in the past and accrued significant liabilities, the public regulation commission's holding that the applicant satisfied the financial requirement for issuance of a certificate and that the applicant was fit, willing and able to provide services was arbitrary and capricious and an abuse of discretion. *Bernalillo Co. Health Care Corp. v. N.M. Pub. Regulation Comm'n*, 2014-NMSC-008.

Failure to comply with laws and regulations. — Where the applicant for a permanent certificate of authority to provide ambulance services failed to pay its gross receipts tax; violated public regulation commission regulations by providing false statements regarding its balance sheets, failing to have a consultant pharmacist, billing at rates other than its tariff rate for scheduled transports, and operating without appropriate authority from the commission; and made false representations on its website that offered special services the applicant was not qualified to provide, the commission's ruling that the applicant had complied with state and federal regulations was arbitrary and capricious. *Bernalillo Co. Health Care Corp. v. N.M. Pub. Regulation Comm'n*, 2014-NMSC-008.

A public hearing is required upon the filing of a protest. — Where a cab company filed an application for a certificate of authority to provide taxi services in an area in which appellants were doing business; appellants filed a protest and motion to intervene; a public regulation commission regulation required that before intervention could be allowed, appellants were required to provide the commission with facts and details that supported their protest; a hearing officer appointed by the commission denied appellants' motion to intervene without a hearing and allowed commission staff to process the application as an uncontested matter; and the commission granted the applicant a certificate of authority without ever holding a public hearing, the

commission's regulation imposed a greater burden on interested parties who seek to protest at a public hearing than the burden established by the Motor Carrier Act and the commission acted outside its grant of statutory authority by treating the matter as an uncontested matter because a public hearing must be held upon the filing of a protest, it does not turn on the grant of a party's status as an intervenor. *Albuquerque Cab Co. v. N.M. Pub. Regulation Comm'n*, 2014-NMSC-004.

B. Before granting a certificate for household goods service to an applicant, the department shall consider any objections that were filed within the notice period.

- (2) any reasonable terms of service that the department may allow or require for the particular certificate.

A. The department may without notice grant temporary authority to an applicant for a certificate or for amendment, lease or transfer of all or part of a certificate for a period not to exceed the duration of the application process, if it finds that:

(1) the notice period for such application has not yet expired, the application is one directly involving public safety, a governmental program or a specific public event, there is an urgent and immediate public need for such service and the public may be harmed by waiting for the notice period to expire;

(2) the applicant for temporary authority has a complete application for a certificate or for amendment, lease or transfer of all or part of a certificate pending before the department;

D. The rules, orders and decisions of the public regulation commission related to motor carrier regulation and enforcement, railroad safety enforcement and ambulance standards shall remain in effect until repealed or amended.

The 2017 amendment, effective July 1, 2017, removed "commuter services" from the list of entities that are required to obtain a warrant from the public regulation commission authorizing the entity to offer and provide a warranted service as a motor carrier; in Subsection A, after "service as a", deleted "commuter service".

The 2013 amendment, effective July 1, 2013, clarified and simplified procedures for granting warrants; deleted former Subsection A, which required a commuter service, charter service, towing service or carrier of property to obtain a warrant; in Subsection A, after "provide", deleted "compensated intrastate transportation" and added "warranted service"; deleted former Subsection C, which provided for protests to applications for warrants; added Subsection B; and in Subsection D, after "twelve consecutive months", added the remainder of the sentence.

65-2A-13. Protests, objections and hearings.

A. Any interested person or any member of the public may provide information to the department or express an objection to any application for a certificate, or for amendment, lease or transfer of a certificate, during the notice period for the application by filing a written objection in regard to the application. The department shall consider any objections filed in regard to determining whether to hold a hearing on the application. The department is not required to hold a hearing pursuant to any objection but may, in its discretion or on its own motion for any reason, hold a hearing on any application for a certificate or for an amendment, lease or transfer of a certificate.

B. The department shall hold a hearing on an application whenever a protest is filed within the notice period or the traffic safety bureau of the department files a request for a hearing relative to an application within the notice period. The department shall allow a protesting carrier to proceed as an intervenor in the application proceeding.

C. In any hearing held on an application:

(1) the applicant has the burden of proving that the applicant meets the requirements of the Motor Carrier Act and the rules of the department for the application at issue, the burden of demonstrating with reasonable specificity the nature and scope of its proposed transportation service, the burden of proving any particular factual matters that the department or the traffic safety bureau of the department may identify and require, the burden of proving any additional allegations and matters of public interest that it may raise and, if the application pertains to ambulance service, the burden of proving that the ambulance service that currently exists in the territory sought in the application is inadequate and that the proposed service is directly responsive to a public need and demand for the service proposed;

(2) a protesting carrier has the burden of proving all matters of fact pertaining to its full-service operation within its certificated full-service territory, the burden of proving the potential impairment or adverse impact on its existing full-service operation by the transportation service proposed by the applicant and the burden of proving all other allegations and matters of public interest that it may raise. The protesting carrier's proof should include, without limitation, a demonstration with reasonable specificity of the nature of the existing full service being provided, the volume of passengers transported, economic analysis related to expenses and revenues of the full-service operation and the anticipated economic, business or functional effect of the proposed service on the existing provision of, or rates for, full-service transportation within the full-service territory;

(3) the department may allow other interested persons to intervene, either generally or on the basis of specific facts or issues. A permissive intervenor has the burden of proof for its position on all factual matters and legal issues that it alleges and on which it is permitted to intervene; and

(4) all parties to a hearing may base their demonstration and proof on business data, experienced persons and mathematical calculations. Expert testimony shall not be required of any party but may be provided at the option of a party.

D. The department shall not grant an application:

(1) for a certificate for ambulance service, or for amendment, lease or transfer of such a certificate, if it finds after hearing that the existing ambulance service is provided on a reasonably continuous and adequate basis in the territory in which the new service is sought or that the holder of the certificate or lessee providing the existing ambulance service in such territory is willing and able to provide, and does subsequently provide, reasonably continuous and adequate service within such territory, as specified by department order;

(2) for a new certificate for general taxicab service within the full-service territory of a protesting municipal taxicab service carrier; or

(3) for a certificate for any passenger service other than those identified in Paragraphs (1) and (2) of this subsection, or for amendment, lease or transfer of such a certificate, within a protesting full-service carrier's full-service territory, if it finds after hearing that the grant of the application presents a reasonable potential to impair, diminish or otherwise adversely affect the existing provision of full-service passenger service to the public in the full-service territory or if the application is otherwise contrary to the public interest in the full-service territory. In considering the potential effect on provision of transportation services to the public in regard to such an application, the department shall consider all evidence presented pertaining to such potential effect, including evidence of the effect that diversion of revenue or traffic may have on the provision of full-service passenger service to the community. Diversion of revenue or traffic from an existing motor carrier shall not, however, be sufficient grounds for

denying the application without a showing that the diversion presents a reasonable potential to affect the provision of full-service passenger service to the community.

History: Laws 2003, ch. 359, § 13; 2013, ch. 73, § 12; 2013, ch. 77, § 12; 2023, ch. 100, § 40.

ANNOTATIONS

The 2023 amendment, effective July 1, 2024, removed references to the public regulation commission due to the transfer of certain powers and duties to the department of transportation; changed each occurrence of "commission" to "department" throughout the section; in Subsections B and C, changed "transportation division" to "traffic safety bureau"; and in Subsection D, Paragraph D(3), after "Paragraphs (1) and (2) of this subsection", deleted "or for a permit for passenger service other than for an ambulance service pursuant to a public charge contract".

Temporary provisions. — Laws 2023, ch. 100, § 80, effective July 1, 2024, provided:

- A. On July 1, 2024, all staff positions, functions, personnel, appropriations, money, records, equipment, supplies, other property and contractual obligations of the public regulation commission related to motor carrier regulation and enforcement, railroad safety enforcement and ambulance standards are transferred to the department of transportation.
- B. Beginning July 1, 2024, all references in law, rules, orders and other official acts to the public regulation commission or the transportation division of the public regulation commission related to motor carrier regulation and enforcement, railroad safety enforcement and ambulance standards shall be deemed references to the department of transportation.
- C. Beginning July 1, 2024, all contractual obligations of the public regulation commission related to motor carrier regulation and enforcement, railroad safety enforcement and ambulance standards are binding on the department of transportation.
- D. The rules, orders and decisions of the public regulation commission related to motor carrier regulation and enforcement, railroad safety enforcement and ambulance standards shall remain in effect until repealed or amended.

The 2013 amendment, effective July 1, 2013, clarified and simplified procedures for protests; in the title, deleted "of application for a certificate or permit or for a change in a certificate of permit" and added "objections and hearings"; deleted former Subsection A, which prohibited a contract carrier from protesting a certificate; deleted former Subsection B, which prohibited a common or contract carrier from protesting a permit; deleted former Subsection C, which prohibited a common carrier from protesting a certificate unless the carrier had the authority and was willing and able to provide the

service, the carrier had provided the service during the past twelve months, and the commission granted leave to intervene; and added Subsections A through D.

Protesting municipal taxicab company's burden of proof. — Section 65-2A-13(D)(2) NMSA 1978 does not automatically protect municipal taxicab companies from new entrants, because 65-2A-13(C)(2) NMSA 1978 requires protesting municipal taxicab companies to first demonstrate that they are providing a full-service taxicab operation within their certified territories. *Albuquerque Cab Co. v. N.M. Pub. Regulation Comm'n*, 2017-NMSC-028.

Protesting municipal taxicab companies failed to meet burden of proving their full-service operations. — Where new taxicab company applied to the New Mexico public regulation commission (PRC) for a certificate to provide general taxicab services within Bernalillo county, the PRC did not err in approving the taxicab company's application, because the protesting municipal taxicab companies were not protected from new entrants by 65-2A-13(D)(2) NMSA 1978, because both protesting companies were on notice that to receive the protection provided by 65-2A-13(D)(2) NMSA 1978, they must prove their full-service operation and each failed to do so below, and the protesting companies failed to present evidence that allowing the applicant taxicab company to operate would cause actual impairment of either of their businesses or the passenger service within their territories as required by 65-2A-13(D)(3) NMSA 1978. *Albuquerque Cab Co. v. N.M. Pub. Regulation Comm'n*, 2017-NMSC-028.

65-2A-14. Changes in certificates.

A. A change in a certificate shall not be valid or effective without the approval of the department.

B. The department may, for good cause and after notice and public hearing requirements are met, authorize the following changes in all or part of a certificate at the request of the holder if the department finds:

(1) that the applicant for amendment, lease or transfer of a certificate for passenger service meets the requirements pursuant to Section 65-2A-8 NMSA 1978 for a certificate for such passenger service;

(2) that the applicant for amendment, lease or a transfer of a certificate for household goods service meets the requirements pursuant to Section 65-2A-9 NMSA 1978 for a certificate for such household goods service; and

(3) in addition, that:

(a) for transfer or lease of all or part of a certificate, the transferor-applicant has rendered reasonably continuous and adequate service in the territory to be transferred or leased prior to the application for lease or transfer; and

(b) for transfer of all or a part of a certificate, accrued taxes, rents, wages of employees and other indebtedness pertaining to all or part of a certificate proposed to be transferred have been paid by the transferor-applicant or assumed by the transferee-applicant.

C. The department may, without notice or a public hearing, authorize the following changes in all or part of a certificate at the request of the holder:

- (1) voluntary cancellation of the certificate;
- (2) voluntary suspension of the certificate for a period not to exceed twelve consecutive months;
- (3) change in the form of legal entity or name of the holder of the certificate;
- (4) reinstatement of the certificate following voluntary suspension of a period not exceeding twelve consecutive months;
- (5) change in control of a holder of the certificate through issuance or transfer of stock or other legal interest in a holder that is a corporation, partnership, trust or other legal business entity; and
- (6) matters pertaining to transfers by operation of law.

Transportation motor carriers may bring a competitive injury claim under the Unfair Practices Act. — Where taxi company brought a diversity action against defendant, a ride-share service, on the theory that the ride-share service should have, but did not, comply with the New Mexico Motor Carrier Act (MCA), §§ Chapter 65, Article 2A NMSA 1978, when it first entered the city market, and where defendant moved to dismiss, arguing that New Mexico law bars plaintiff from pursuing a cause of action for competitive injury damages under the Unfair Practices Act (UPA), §§ 57-12-1 through 57-12-26 NMSA 1978, the district court denied defendant's motion to dismiss, because the UPA generally precludes companies from asserting a cause of action against their competitors, but the legislature carved out an exception to the UPA's general prohibition of competitive injury lawsuits. The plain language of § 65-2A-33(J) of the MCA demonstrates that the legislature intended to allow an authorized transportation service carrier to sue a transportation services carrier who operates without authorization. *Albuquerque Cab Co., Inc. v. Lyft, Inc.*, 460 F. Supp.3d 1215 (D. N.M. 2020).

C. Whenever a duty is prescribed for a driver or a prohibition is imposed upon the driver pursuant to the provisions of the Motor Carrier Safety Act, it shall be the duty of the motor carrier to require observance of such prescription or prohibition. If the motor carrier is also the driver, the motor carrier shall likewise be bound.

Legal stop ripening into illegal arrest. — Although initial stop of commercial truck was legal under New Mexico's inspection statutes, the stop ripened into an unlawful de facto arrest when, without probable cause, officer required the driver to wait an hour; the illegality of the arrest vitiated driver's subsequent consent to the search of his truck, and rendered the stolen motorcycles which were found inadmissible under the exclusionary rule. *State v. Invalid stopping of vehicles. — Motor transportation division officer's stop of a rental truck was not made at a port of entry and was invalid, where the officer had not set out any signs or other indication to vehicle drivers that they would be required to stop, had stopped vehicles randomly and at his own discretion, and had chosen his own schedule of where to patrol, as opposed to his supervisor making the decision. *State v. 65-5-1.1. Joint ports of entry; intent; bilateral agreements.

A. It is the intent of the legislature to promote economic development and to streamline the collection of revenues and the regulation of the trucking industry by authorizing the secretary to enter into bilateral agreements for the location, erecting, staffing and operation of ports of entry jointly with contiguous jurisdictions. Because of the many cost efficiencies that can be achieved, the legislature intends that the secretary explore the possibility of entering into bilateral agreements for the joint operation of ports of entry with all neighboring states. The legislature recognizes that officials of the state of Arizona have offered to negotiate an arrangement by which two joint Arizona-New Mexico ports would be established, the first in New Mexico near Gallup and the second on interstate 10 in Arizona; the legislature intends that the secretary and the secretary of highway and transportation use the authority granted in this section to explore this opportunity to serve the public interest. The legislature recognizes that expenditures by the state highway and transportation department will be necessary to contribute New Mexico's share of the total cost for the construction of such facilities and finds that such expenditures are appropriate and in the public interest.

B. The secretary may negotiate and enter into bilateral agreements with designated representatives of contiguous states to provide for the staffing and operation of jointly occupied ports of entry located within the boundaries of this state or an adjoining state. An agreement may allow employees of either state to collect fees, taxes, interest and penalties imposed by the rules, regulations or laws of either state for the operation of vehicles on the highways of either state and for the issuance of required permits. The secretary or the secretary's delegate may appoint employees of the adjoining state as peace officers of the department for the enforcement of tax, weight, size and load,
