B. "commission" means the public regulation commission;

C. "cost-effective" means that the energy efficiency or load management program meets the utility cost test;

D. "customer" means a utility customer at a single, contiguous field, location or facility, regardless of the number of meters at that field, location or facility;

E. "distribution cooperative utility" means a utility with distribution facilities organized as a rural electric cooperative pursuant to Laws 1937, Chapter 100 or the Rural Electric Cooperative Act or similarly organized in other states;

G. "large customer" means a customer with electricity consumption greater than seven thousand megawatt-hours per year or natural gas use greater than three hundred sixty thousand decatherms per year;

H. "load management" means measures or programs that target equipment or devices to result in decreased peak electricity demand or shift demand from peak to off-peak periods;

"utility cost test" means a standard that is met if the monetary costs that are borne by the public utility and that are incurred to develop, acquire and operate energy efficiency or load management resources on a life-cycle basis are less than the avoided monetary costs associated with developing, acquiring and operating the associated supply-side resources."

Chapter 202 Section 2 Laws 2019

SECTION 2. Section 62-17-5 NMSA 1978 (being Laws 2005, Chapter 341, Section 5, as amended by Laws 2013, Chapter 124, Section 2 and by Laws 2013, Chapter 220, Section 2) is amended to read:

"62-17-5. COMMISSION APPROVAL--ENERGY EFFICIENCY AND LOAD MANAGEMENT PROGRAMS--DISINCENTIVES.--

A. Pursuant to the findings and purpose of the Efficient Use of Energy Act, the commission shall consider public utility acquisition of cost-effective energy efficiency and load management resources to be in the public interest.

B. The commission shall direct public utilities to evaluate and implement cost-effective programs that reduce energy demand and consumption.

C. Before the commission approves an energy efficiency and load management program for a public utility, it shall find that the portfolio of programs is cost-effective and designed to provide every affected customer class with the opportunity to participate and benefit economically. The commission shall determine the cost-effectiveness of energy efficiency and load management measures using the utility cost test. In

determining life-cycle costs and benefits of energy efficiency programs, the commission shall not adjust for taxes when selecting a discount rate. In determining life-cycle costs and benefits for energy efficiency and load management programs directed to low-income customers, the commission shall either quantify or assign a reasonable value to:

- (1) reductions in working capital;
- (2) reduced collection costs;
- (3) lower bad-debt expense;
- (4) improved customer service effectiveness; and
- (5) other appropriate factors as utility system economic benefits.

D. The commission shall act expeditiously on public utility requests for approval of energy efficiency or load management programs.

E. Public utilities shall obtain commission approval of energy efficiency and load management programs before they are implemented. Public utilities proposing new energy efficiency and load management programs shall, before seeking commission approval, solicit nonbinding recommendations on the design, implementation and use of third-party energy service contractors through competitive bidding on the programs from commission staff, the attorney general, the energy, minerals and natural resources department and other interested parties. The commission may for good cause require public utilities to solicit competitive bids for energy efficiency and load management resources.

F. The commission shall:

(1) upon petition or its own motion, identify and remove regulatory disincentives or barriers for public utility expenditures on energy efficiency and load management measures in a manner that balances the public interest, consumers' interests and investors' interests;

(2) upon petition by a public utility, remove regulatory disincentives through the adoption of a rate adjustment mechanism that ensures that the revenue per customer approved by the commission in a general rate case proceeding is recovered by the public utility without regard to the quantity of electricity actually sold by the public utility subsequent to the date the rate took effect. Regulatory disincentives removed through a rate adjustment mechanism shall be separately calculated for the rate class or classes to which the mechanism applies and collected or refunded by the utility

through a separately identified tariff rider that shall not be used to collect commission-approved energy efficiency and load management program costs and incentives;

(3) provide public utilities an opportunity to earn a profit on cost-effective energy efficiency and load management resource development that, with satisfactory program performance, is financially more attractive to the utility than supply-side utility resources; and

(4) not reduce a utility's return on equity based on approval of a disincentive removal mechanism or profit incentives pursuant to the Efficient Use of Energy Act.

G. Public utilities providing electricity and natural gas service to New Mexico customers shall, subject to commission approval, acquire the cost-effective and achievable energy efficiency and load management resources available in their service territories. This requirement, however, for public utilities providing electricity service, shall not be less than savings of five percent of 2020 total retail kilowatt-hour sales to New Mexico customer classes that have the opportunity to participate in calendar year 2025 as a result of energy efficiency and load management programs implemented in years 2021 through 2025. No later than June 30, 2025, the commission shall adopt, through rulemaking, energy savings targets for electric utilities for years 2026 through 2030 based on cost-effective and achievable energy savings and provide utility incentives based on savings achieved.

H. A public utility that determines it cannot achieve the minimum requirements established in Subsection G of this section shall report to the commission on why it cannot meet those requirements and shall propose alternative requirements based on acquiring cost-effective and achievable energy efficiency and load management resources. If the commission determines, after hearing, that the minimum requirements of Subsection G of this section exceed the achievable amount of energy efficiency and load management available to the public utility or that the program costs of energy efficiency and load management to achieve the minimum requirements of Subsection G of this section exceed the program costs funding established in Subsection A of Section 62-17-6 NMSA 1978, the commission shall establish lower minimum energy savings requirements for the utility based on the maximum amount of energy efficiency and load management that it determines can be achieved."

Chapter 202 Section 3 Laws 2019

SECTION 3. Section 62-17-6 NMSA 1978 (being Laws 2005, Chapter 341, Section 6, as amended by Laws 2013, Chapter 124, Section 3 and by Laws 2013, Chapter 220, Section 3) is amended to read:

"62-17-6. COST RECOVERY.--

A. A public utility that undertakes cost-effective energy efficiency and load management programs shall have the option of recovering its prudent and reasonable costs along with commission-approved incentives for demand-side resources and load management programs implemented after the effective date of the Efficient Use of Energy Act through an approved tariff rider or in base rates, or by a combination of the two. Program costs and incentives may be deferred for future recovery through creation of a regulatory asset. Funding for program costs shall be as follows:

(1) for investor-owned electric utilities, no less than three percent and no more than five percent of customer bills, excluding gross receipts taxes and franchise and right-of-way access fees, or seventy-five thousand dollars (\$75,000) per customer per calendar year, whichever is less, for customer classes with the opportunity to participate; and

(2) for gas utilities, no more than five percent of total annual revenues or seventy-five thousand dollars (\$75,000) per customer per calendar year.

B. Provided that the public utility's total portfolio of programs remains cost-effective, no less than five percent of the amount received by the public utility for program costs shall be specifically directed to energy-efficiency programs for low-income customers.

C. Unless otherwise ordered by the commission, a tariff rider approved by the commission shall:

(1) require language on customer bills explaining program benefits; and

(2) be applied on a monthly basis.

D. A tariff rider proposed by a public utility to fund approved energy efficiency and load management programs shall go into effect thirty days after filing, unless suspended by the commission for a period not to exceed one hundred eighty days. If the tariff rider is not approved or suspended within thirty days after filing, it shall be deemed approved as a matter of law. If the commission has not acted to approve or disapprove the tariff rider by the end of an ordered suspension period, it shall be deemed approved as a matter of law. The commission shall approve utility reconciliations of the tariff rider annually."

The authority may issue and sell revenue bonds authorized by this subsection when the chair of the board of county commissioners of Grant county certifies the need for issuance of the bonds. The net proceeds from the sale of the bonds are appropriated to the local government division of the department of finance and administration for the purposes described in this subsection.

B. After the bonds have been issued pursuant to Subsection A of this section, the New Mexico finance authority may issue and sell revenue bonds in compliance with the New Mexico Finance Authority Act for a term not exceeding twenty years in an amount not exceeding one million five hundred thousand dollars (\$1,500,000) for the purpose of designing, constructing, equipping and furnishing additions and improvements to a regional cancer treatment center at the Nor-Lea general hospital in Lea county. The authority may issue and sell revenue bonds authorized by this

subsection when the chair of the board of trustees of the Nor-Lea special hospital district certifies the need for issuance of the bonds. Provided that, if the authority determines that excess balances exist in the rural county cancer treatment fund above the amount needed to service outstanding bonds, then, in lieu of issuing all or a portion of the bonds, the excess balances may be used for the cancer treatment center funded pursuant to this subsection, but the total of excess balances and bond proceeds shall not exceed one million five hundred thousand dollars (\$1,500,000). The net proceeds from the sale of the bonds and any excess balances are appropriated to the local government division of the department of finance and administration for the purposes described in this subsection.

C. E. The authority may issue and sell revenue bonds authorized by Subsection C of this section when the boards of trustees of the Gila regional medical center and the Nor-Lea special hospital district certify the need for the issuance of the bonds. If the

authority determines that there are balances in the rural county cancer treatment fund in excess of the amount needed to service outstanding bonds, the authority may use those balances in lieu of issuing all or a portion of the bonds authorized in Subsection C of this section, but the total of funding from bonds and balances shall not exceed three million dollars (\$3,000,000). The net proceeds from the sale of bonds and any excess balances are appropriated to the local government division of the department of finance and administration for the purposes described in Subsection B of this section.

H. The cigarette tax proceeds distributed to the authority pursuant to Subsection E of Section 7-1-6.11 NMSA 1978 shall be deposited each month in a separate fund or account of the authority.

I. Upon payment of all principal, interest and other expenses or obligations related to the bonds, the authority shall certify to the secretary of taxation and revenue that all obligations for the bonds issued pursuant to this section have been fully discharged and shall direct the secretary of taxation and revenue to cease distributing cigarette tax proceeds to the authority pursuant to Subsection E of Section 7-1-6.11 NMSA 1978 and to distribute those cigarette tax proceeds to the general fund.

J. Any law authorizing the imposition, collection or distribution of the cigarette tax or that affects the cigarette tax shall not be amended, repealed or otherwise directly or indirectly modified so as to impair or reduce debt service coverage for any outstanding revenue bonds that may be secured by a pledge of those cigarette tax revenues, unless the revenue bonds have been discharged in full or provisions have been made for a full discharge.

K. The authority may additionally secure the revenue bonds issued pursuant to this section by a pledge of money in the public project revolving fund with a lien priority on the money in the public project revolving fund as determined by the authority.

No later than the second Tuesday of January of the year in which an application will be filed, the organizers of a proposed charter school shall provide written notification to the commission and the school district in which the charter school is proposed to be located of their intent to establish a charter school. Failure to notify may result in an application not being accepted.

C. A charter school applicant shall apply to either a local school board or the commission for a charter. If an application is submitted to a chartering authority, the chartering authority shall process the application. Applications for initial charters shall be submitted by June 1 to be eligible for consideration for the following fiscal year; provided that the June 1 deadline may be waived upon agreement of the applicant and the chartering authority.

D. An application shall include the total number of grades the charter school proposes to provide, either immediately or phased. A charter school may decrease the

number of grades it eventually offers, but it shall not increase the number of grades or the total number of students proposed to be served in each grade.

I. A state-chartered charter school shall not be approved for operation unless its governing body has qualified to be a board of finance.

J. The chartering authority shall receive and review all applications for charter schools submitted to it. The chartering authority shall not charge application fees.

K. The chartering authority may designate a subcommittee of no fewer than three members to hold the public hearing, and, if so, the hearing shall be transcribed for later review by other members of the chartering authority. Community input may include written or oral comments in favor of or in opposition to the application from the applicant, the local community and, for state-chartered charter schools, the local school

- (5) the application is otherwise contrary to the best interests of the charter school's projected students, the local community or the school district in whose geographic boundaries the charter school applies to operate.

N. If the chartering authority denies a charter school application or approves the application with conditions, it shall state its reasons for the denial or conditions in writing within fourteen days of the meeting. Separate schools established to provide special programs, including but not limited to vocational and alternative education, shall not be classified as public schools for purposes of generating size adjustment program units. The number of additional program units to which a school district or charter school is entitled under this subsection is the sum of elementary-junior high units and senior high units computed in the following manner:

_____ x 1.0 x MEM = Units

200

where MEM is equal to the membership of an approved elementary or junior high school, including early childhood education full-time-equivalent membership but excluding membership in class C and class D programs and excluding full-time-equivalent membership in three- and four-year-old developmentally disabled programs;

Senior High Units

200 - MEM

_____ x 2.0 x MEM = Units

200

or,

Senior High Units

400 - MEM

_____ x 1.6 x MEM = Units

400

whichever calculation for senior high units is higher, where MEM is equal to the membership of an approved senior high school excluding membership in class C and class D programs.

B. An approved public school with a MEM of fewer than four hundred, including early childhood education full-time-equivalent MEM but excluding MEM in class C and class D programs and excluding full-time-equivalent MEM in three- and four-year-old developmentally disabled programs, geographically located in a school district with two thousand MEM or more is eligible for additional program units computed in the following manner:

(1) for fiscal year 2020, eighty percent of the sum of elementary-junior high units and senior high units as prescribed in Subsection A of this section;

(5) for fiscal year 2024 and subsequent fiscal years, no elementary-junior high units and senior high units as prescribed in Subsection A of this section.

C. A school district with total MEM of fewer than four thousand, including early childhood education full-time-equivalent MEM, is eligible for additional program units. The number of additional program units to which a school district is entitled under this subsection is the number of district units computed in the following manner:

E. A school district with a rural population rate greater than forty percent or a charter school initially chartered before July 1, 2018 and geographically located in a school district with a rural population rate greater than forty percent is eligible for additional program units. The number of additional program units to which a school district or charter school is entitled pursuant to this subsection is determined by multiplying the full-time-equivalent MEM by the rural population rate and the cost differential factor of 0.03 for fiscal year 2020, 0.06 for fiscal year 2021, 0.09 for fiscal year 2022, 0.12 for fiscal year 2023 and 0.15 for fiscal year 2024 and subsequent fiscal years."

For purposes of this section, "at-risk student" means a student who meets the criteria to be included in the calculation of the three-year average total rate in Subsection B of this section. The number of additional units to which a school district is entitled under this section is computed in the following manner:

$$\text{At-Risk Index} \times \text{MEM} = \text{Units}$$

where MEM is equal to the total district membership, including early childhood education, full-time-equivalent membership and special education membership and where the at-risk index is calculated in the following manner:

$$\text{Three-Year Average Total Rate} \times 0.25 = \text{At-Risk Index.}$$

The department shall then add the three-year average rates. The number obtained from this calculation is the three-year average total rate.

C. The department shall recalculate the at-risk index for each school district every year.

D. For purposes of this section, "services" means research-based or evidence-based social, emotional or academic interventions, such as:

If an application is submitted to a chartering authority, the chartering authority shall process the application. Applications for initial charters shall be submitted by June 1 to be eligible for consideration for the following fiscal year; provided that the June 1 deadline may be waived upon agreement of the applicant and the chartering authority.

D. An application shall include the total number of grades the charter school proposes to provide, either immediately or phased. I. A state-chartered charter school shall not be approved for operation unless its governing body has qualified to be a board of finance.

J. The chartering authority shall receive and review all applications for charter schools submitted to it. The chartering authority shall not charge application fees.

K. The chartering authority may designate a subcommittee of no fewer than three members to hold the public hearing, and, if so, the hearing shall be transcribed for later review by other members of the chartering authority. Community input may include

(5) the application is otherwise contrary to the best interests of the charter school's projected students, the local community or the school district in whose geographic boundaries the charter school applies to operate.

N. If the chartering authority denies a charter school application or approves the application with conditions, it shall state its reasons for the denial or conditions in writing within fourteen days of the meeting. If the chartering authority grants a charter, the approved charter shall be provided to the applicant together with any imposed conditions.

O. A charter school that has received a notice from the chartering authority denying approval of the charter shall have a right to a hearing by the secretary as provided in Section 22-8B-7 NMSA 1978."

An order may be made under this section whether or not any person is prosecuted for or convicted of a crime enumerated in Section 31-22-8 NMSA 1978; provided an arrest has been made or the act or omission constituting a crime has been reported to the police in a reasonable time or the act or omission constituting a crime has been reported to a licensed medical, mental health or counseling provider, or tribal health provider. The commission may negotiate a reasonable settlement regarding repayment of the reparation award if special circumstances exist.

E. If it appears that a final award of reparation will be made by the commission, a preliminary award may be authorized by the director of the commission or the commission's designee when the commission chair concurs. C. Imposition and collection of the improvement district property tax authorized in this section shall be made at the same time and in the same manner as impositions and collections of property taxes for use by municipalities and counties are made.

D. E. The form and terms of the bonds, including a final maturity of thirty years and provisions for their payment and redemption, shall be as determined by the governing body. J. The governing body may issue bonds to be denominated refunding bonds, for the purpose of refunding any of the general obligation bonded indebtedness of the improvement district. Whenever the governing body deems it expedient to issue refunding bonds, it shall adopt an ordinance setting out the facts making the issuance of the refunding bonds necessary or advisable, the determination of the necessity or advisability by the governing body and the amount of refunding bonds that the governing body deems necessary and advisable to issue. (2) if the election is a bond election, the amount of bonds to be authorized for the district, the maximum rate of interest to be paid on the bonds and the maximum term of the bonds, not exceeding thirty years;

(3) if the election is a property tax levy election pursuant to Section 5-11-19 NMSA 1978, the maximum tax rate per one thousand dollars (\$1,000) of assessed valuation to be imposed, the purposes for which the revenues raised will be used and the existing maximum tax rate, if any;

(6) that the imposition of property taxes or special levies will result in a lien for the payment thereof on property within the district.

B. The district board or, in the case of a formation election, the governing body, shall determine the date of the election by passing a resolution to place the ballot question on a regular local election or general election ballot or by adopting a proclamation calling for a special election.

C. Except as otherwise provided by this section, the election shall comply with the Local Election Act. The ballot material provided to each qualified elector shall include:

(1) for a formation election, an impartial description of the district improvements contemplated and a brief description of arguments for and against the formation of the district, if any;

(3) for a formation election, the ballot, which shall pose the question to be voted upon as "district, yes" and "district, no"; for a bond election, "bonds, yes" and "bonds, no"; for a property tax election, if no tax is in place, "property tax, yes" and "property tax, no"; and for an election to change an existing maximum or eliminate an existing tax, "tax change, yes" and "tax change, no", specifying the type of tax to which the proposed change pertains.

D. At least a three-fourths' majority of the votes cast by qualified electors at the election shall be required for formation, issuing the bonds, imposing the tax or special levy or changing the tax or special levy. Failure of a required majority to vote in favor of the matter submitted shall not prejudice the submission of the same or similar matters at a later election.

E. If a person listed on the assessment roll is no longer the owner of land in the district and the name of the successor owner becomes known to the governing body or the district board, as applicable, and is verified by recorded deed or other similar evidence of transfer of ownership, the successor owner is deemed to be the owner for the purposes of the Public Improvement District Act.

F. Notwithstanding any other provision of the Public Improvement District Act, if a petition for formation is signed by owners of all of the land in the district described in the petition and is approved by the municipality or county, the municipality or county may waive any or all requirements of posting, publication, mailing, notice, hearing and owner determination. On receipt of such a petition, and after approval by an election of qualified electors, if any, the municipality or county shall declare the district formed without being required to comply with the provisions of the Public Improvement District Act for posting, publication, mailing, notice, hearing or owner determination.

G. If no person is registered to vote within the district or proposed district areas within seventy days immediately preceding any scheduled election date, the election required to be held pursuant to the Public Improvement District Act shall be canceled. Under such circumstances, when the question is on the formation of the district, the results of the formation determination of the owners shall prevail, unless the formation determination was waived by the governing body pursuant to Subsection F of this section. To the extent allowable by the constitution of New Mexico, when the question is on any other allowable action otherwise requiring a vote of the qualified electors, the owners or the owners of the proposed district areas shall make a determination, the result of which shall prevail."

A. At any time after the filing of the petition for the organization of a district and before the day fixed for the hearing on it, the owner of any taxable property within the proposed district may file a petition with the court stating reasons why the property should not be included in the district and requesting that the property be excluded from it. The petition shall be verified and shall describe the property sought to be excluded. The court shall hear the petition and all objections to it at the time of the hearing on the petition for organization and shall determine whether the property should be excluded or included in the district.

B. In determining whether or not the petition for the creation of a water and sanitation district shall be granted, the district court shall consult and request an opinion from:

(1) the state engineer to determine whether the proposed district has adequate water rights to implement the proposed improvements; and

(2) the environmental improvement division of the department of environment to determine, as to the technological feasibility of the proposed improvements, whether the water proposed to be supplied is of an acceptable quality to conform with the state regulations and whether the liquid and solid waste disposal proposals can conform with state regulations.

C. The court may deny the petition or may order the petition to be modified if the court, after hearing on the petition, finds that:

D. Upon the hearing, if it appears that a petition for the organization of a district has been properly signed and presented and that the allegations of the petition are true, the court shall order that the question of the organization of the district be submitted to the qualified electors of the district as set forth in the petition, as the boundaries were modified by the court in determining that only property to be benefited by the proposed improvements should be included within the boundaries of the district, at an election to be held for that purpose and conducted pursuant to the provisions of the Local Election Act. The election shall be held in the district not less than ninety days after the order is entered in accordance with the Local Election Act; provided that the date does not conflict with the provisions of Section 1-24-1 NMSA 1978.

E. At the election, the qualified electors of the district shall vote for or against the organization of the district. If a majority of the votes cast at the election are in favor of the organization, the district court shall declare the district organized and give it a corporate name by which in all proceedings it shall thereafter be known. Thereupon the district shall be a governmental subdivision of the state, except a district created

pursuant to a petition signed by the chair of the board of county commissioners of a county, which district shall be a subdivision of the county. Every district shall be a body corporate with all the powers of a public or quasi-municipal corporation."

The authority may issue revenue anticipation notes with maturities and terms to be approved by the board of directors of the authority. The authority may pledge irrevocably net revenues from the operation of the utility system for payment of the principal, premiums and interest on the bonds. The utility system revenue bonds:

J. The authority's board of directors may adopt a resolution declaring the necessity for the issuance of utility system revenue bonds or other obligations and may authorize the issuance of utility system revenue bonds or other obligations by an affirmative vote of a majority of all members of the authority's board of directors. Utility revenue bonds and the resolution authorizing their issuance shall be subject to voter

approval with oversight from the department of finance and administration and the New Mexico finance authority. The bonds authorized by the authority and their income shall be exempt from taxation by the state and its political subdivisions.

K. Except for the purpose of refunding previous utility system revenue bond issues, the authority shall not sell utility system revenue bonds payable from pledged revenues after the expiration of three years from the date of the resolution authorizing their issuance. Any period of time during which a utility system revenue bond is in litigation shall not count toward the determination of the expiration date of that issue.

L. The authority shall be governed by a board of directors. The board of directors shall be elected by districts from a minimum of five and a maximum of seven electoral districts. Each director shall reside within and be a qualified elector of the electoral district of the authority from which that member is elected. The boundaries and the number of electoral districts shall be established by the initial board within two years of the creation of the authority. The board may in its governance document provide for redistricting upon any change in the authority's boundary and following each decennial census. The elected board of directors shall serve staggered terms to be established in the governance document developed by the board.

M. All elections of the authority shall be conducted pursuant to the provisions of the Local Election Act and voted upon by the qualified electors registered to vote within the boundaries of the authority. Board members shall be elected at the regular local election. Vacancies on the board shall be filled by the remaining board members and a person appointed to fill a vacancy shall serve until the next regular local election. O. A lien for multiple charges or assessments on a property owner may be included in the same notice of lien, and it shall not be necessary to file separate liens against the separate properties. The lien shall be attested in the name of the authority. The principal amount of any lien imposed for a charge or assessment shall bear interest at the rate of twelve percent per year from the date of filing the notice of lien unless otherwise provided by law.

P. After the filing of the notice of lien in the office of the county clerk, the authority shall have a lien upon the property described in the notice of lien. The filing of the notice of lien shall be notice to all the world of the existence of the lien and of the contents of the notice of lien. No such lien shall affect the title or rights to or in any real estate, of any purchaser, mortgagee in good faith or judgment lien creditor, without knowledge of the existence of such lien, unless the notice of lien is filed in accordance with this section in the office of the county clerk of the county in which the real estate is situated. All authority liens shall be first and prior liens on the property subject only to the lien of federal, state and county taxes. The authority may release a lien against any specific property by:

(1) entering and signing a receipt of payment upon the notice of lien filed in the office of the county clerk; or

(2) issuing a separate receipt that recites that payment of the lien with any accrued interest and penalty has been made.

Q. The authority may, in a single suit, foreclose the liens against all persons named in the notice of liens or against the property if the owners are unknown. The complaint filed shall:

(1) expressly name each defendant, if known;

(2) describe the property against which the lien is established; and

(3) set forth the amount of the lien.

R. The judgment or decree rendered in said cause shall be several against the named defendants and against the several properties for the amounts decreed to be due by each. A lien against real estate may be foreclosed in the same manner that

mortgages or other liens against real estate are foreclosed with like rights of redemption. In the foreclosure of any lien created by the authority, reasonable attorney fees may be ordered by the court as part of the costs in favor of the prevailing party.

S. The authority shall prepare and sign a notice of foreclosure, which shall also bear the signature and mailing address of an attorney representing the authority. The proceeds of the sale of the property by the authority pursuant to a foreclosure sale on a lien shall be applied as follows:

(1) first, to the payment of costs in giving notice of the sale and of conducting the sale;

(2) second, to the indebtedness claimed under a lien on the property for federal, state, county, municipal or ad valorem taxes;

(3) third, to the indebtedness claimed under the lien of the authority;

(4) fourth, to all other special assessments having a lien on the property;
and

(5) fifth, after all such costs, liens, assessments and taxes are paid, to the former owner, mortgage holder or parties having an interest in the tract or parcel, upon such persons providing satisfactory proof to the court of such interest and upon approval of the court.

T. As used in this section, "public water works authority" means a utility organized as a political subdivision of the state for the purposes of constructing infrastructure and furnishing water and wastewater services for domestic, commercial or industrial uses, road improvements for the protection of the authority's infrastructure and renewable energy projects; and entering into agreements with other entities for the provision of other services, including water conservation and reclamation, source water protection, drainage, flood control, solid waste, planning and zoning."

"45-2-608. EXERCISE OF POWER OF APPOINTMENT.--In the absence of a requirement that a power of appointment be exercised by a reference or by an express or specific reference to the power, a general residuary clause in a will or a will making general disposition of all of the testator's property expresses an intention to exercise a power of appointment held by the testator only if:

B. the powerholder's manner of attempted exercise does not impair a material purpose of the donor in imposing the requirement."

Chapter 221 Section 3 Laws 2019

SECTION 3. Section 45-2-802 NMSA 1978 (being Laws 1993, Chapter 174, Section 61, as amended) is amended to read:

"45-2-802. EFFECT OF DIVORCE, ANNULMENT AND DECREE OF SEPARATION.--

A. An individual who is divorced from the decedent or whose marriage to the decedent has been annulled is not a surviving spouse unless, by virtue of a subsequent

marriage, the individual is married to the decedent at the time of death. A decree of separation that does not terminate the status of spouse is not a divorce for purposes of this section.

B. For purposes of Chapter 45, Article 2, Parts 1 through 4 and Section 45-3-203 NMSA 1978, a surviving spouse does not include:

(1) an individual who obtains or consents to a final decree or judgment of divorce from the decedent or an annulment of their marriage, which decree or judgment is not recognized as valid in this state, unless subsequently they participate in a marriage ceremony purporting to marry each to the other or live together as spouses;

(2) an individual who, following an invalid decree or judgment of divorce or annulment obtained by the decedent, participates in a marriage ceremony with a third individual; or

(3) an individual who was a party to a valid proceeding concluded by an order purporting to terminate all marital property rights, including a property division judgment entered pursuant to the provisions of Section 40-4-20 NMSA 1978."

SECTION 4. Section 45-2-804 NMSA 1978 (being Laws 1993, Chapter 174, Section 63, as amended) is amended to read:

"45-2-804. REVOCATION OF PROBATE AND NONPROBATE TRANSFERS BY DIVORCE--NO REVOCATION BY OTHER CHANGES OF CIRCUMSTANCES.--

A. As used in this section:

(1) "disposition or appointment of property" includes a transfer of an item of property or other benefit to a beneficiary designated in a revocable trust or other governing instrument;

(2) "divorce or annulment" means a divorce, annulment or dissolution or declaration of invalidity of a marriage that would exclude the spouse as a surviving spouse within the meaning of Section 45-2-802 NMSA 1978 or the commencement of a valid proceeding concluded either before or after an individual's death by an order purporting to terminate all marital property rights, including a property division judgment entered pursuant to the provisions of Section 40-4-20 NMSA 1978. A decree of separation that does not terminate the status of spouse is not a divorce for purposes of this section;

(3) "divorced individual" includes an individual whose marriage has been annulled;

(4) "governing instrument" means a governing instrument executed by the divorced individual before the divorce or annulment of the divorced individual's marriage to the former spouse;

(5) "relative of the divorced individual's former spouse" means an individual who is related to the divorced individual's former spouse by blood, adoption or affinity and who, after the divorce or annulment, is not related to the divorced individual by blood, adoption or affinity; and

(6) "revocable", with respect to a disposition, appointment, provision or nomination, means one under which the divorced individual, at the time of the divorce or annulment, was alone empowered by law or under the governing instrument to cancel the designation in favor of the former spouse or former spouse's relative whether or not the divorced individual was then empowered to designate the divorced individual's own self in place of the former spouse or in place of the former spouse's relative and whether or not the divorced individual then had the capacity to exercise the power.

B. Except as provided by the express terms of a governing instrument, a court order or a contract relating to the division of the marital estate made between the divorced individuals before or after the marriage, divorce or annulment, the divorce or annulment of a marriage:

(1) revokes any revocable:

(a) disposition or appointment of property made by a divorced individual to the former spouse in a governing instrument and any disposition or appointment created by law or in a governing instrument to a relative of the divorced individual's former spouse;

(b) provision in a governing instrument conferring a general or nongeneral power of appointment on the divorced individual's former spouse or on a relative of the divorced individual's former spouse; and

(c) nomination in a governing instrument, nominating a divorced individual's former spouse or a relative of the divorced individual's former spouse to serve in any fiduciary or representative capacity, including a personal representative, executor, trustee, conservator, agent or guardian; and

(2) severs the interests of the former spouses in property held by them at the time of the divorce or annulment as joint tenants with the right of survivorship, transforming the interests of the former spouses into equal tenancies in common.

C. A severance pursuant to the provisions of Paragraph (2) of Subsection B of this section does not affect any third-party interest in property acquired for value and in good faith reliance on an apparent title by survivorship in the survivor of the former spouses unless a writing declaring the severance has been noted, registered, filed or recorded in records appropriate to the kind and location of the property that are relied upon in the ordinary course of transactions involving such property as evidence of ownership.

D. Provisions of a governing instrument are given effect as if the former spouse and relatives of the former spouse disclaimed all provisions revoked by this section or, in the case of a revoked nomination in a fiduciary or representative capacity, as if the former spouse and relatives of the former spouse died immediately before the divorce or annulment.

E. Provisions revoked solely by this section are revived by the divorced individual's remarriage to the former spouse or by a nullification of the divorce or annulment.

F. No change of circumstances other than as described in this section and in Section 45-2-803 NMSA 1978 effects a revocation.

G. A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by a divorce, annulment or remarriage or for having taken any other action in good faith reliance on the validity of the governing instrument before the payor or other third party received written notice of the divorce, annulment or remarriage. A payor or other third party is liable for a payment made or other action taken after the payor or other third party received written notice of a claimed forfeiture or revocation pursuant to the provisions of this section.

Written notice of the divorce, annulment or remarriage pursuant to the provisions of this section shall be mailed to the payor's or other third party's main office or home by registered or certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of the written notice of the divorce, annulment or remarriage, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate or, if no proceedings have been commenced, to or with the court having jurisdiction of

probate proceedings relating to decedents' estates located in the county of the decedent's residence. The court shall hold the funds or item of property and, upon its determination pursuant to the provisions of this section, shall order disbursement or transfer in accordance with the determination. Payments, transfers or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

H. A person who purchases property from a former spouse, relative of a former spouse or any other person for value and without notice or who receives from a former spouse, relative of a former spouse or any other person a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated pursuant to the provisions of this section to return the payment, item of property or benefit nor is liable pursuant to the provisions of this section for the amount of the payment or the value of the item of property or benefit. But a former spouse, relative of a former spouse or other person who, not for value, received a payment, item of property or any other benefit to which that person is not entitled pursuant to the provisions of this section is obligated to return the payment, item of property or benefit or is personally liable for the amount of the payment or the value of the item of property or benefit to the person who is entitled to it pursuant to the provisions of this section.

I. If this section or any part of this section is preempted by federal law with respect to a payment, an item of property or any other benefit covered by this section, a former spouse, relative of the former spouse or any other person who, not for value, received a payment, item of property or any other benefit to which that person is not entitled pursuant to the provisions of this section is obligated to return that payment, item of property or benefit or is personally liable for the amount of the payment or the value of the item of property or benefit to the person who would have been entitled to it were this section or part of this section not preempted."

Chapter 221 Section 5 Laws 2019

SECTION 5. Section 45-7-507 NMSA 1978 (being Laws 1992, Chapter 66, Section 54) is amended to read:

"45-7-507. MULTIPLE BENEFICIARIES--SEPARATE CUSTODIAL TRUSTS--SURVIVORSHIP.--

A. Beneficial interests in a custodial trust created for multiple beneficiaries are deemed to be separate custodial trusts of equal undivided interests for each beneficiary. Except in a transfer or declaration for use and benefit of spouses, for whom a right of survivorship is presumed, a right of survivorship does not exist unless the instrument creating the custodial trust specifically provides for a right of survivorship.

(2) those aspects of personal care that the alleged incapacitated person could manage with the supervision or assistance of support services and benefits; and

(3) those aspects of personal care that the alleged incapacitated person is unable to manage without the supervision of a guardian.

Unless otherwise ordered by the court, the appointment of the visitor terminates and the visitor is discharged from the visitor's duties upon entry of an order appointing a guardian and acceptance of the appointment by the guardian.

G. A person alleged to be incapacitated shall be present at the hearing on the issues raised by the petition and any response to the petition unless the court determines by evidence that it is not in the alleged incapacitated person's best interest to be present because of a threat to the health or safety of the alleged incapacitated person or others as determined by the court. At a hearing conducted pursuant to this section, the person alleged to be incapacitated may:

(1) present evidence and subpoena witnesses and documents;

(2) examine witnesses, including a court-appointed guardian ad litem, qualified health care professional and visitor; and

(3) otherwise participate in the hearing.

H. The court upon request or its own motion may conduct hearings at the location of the alleged incapacitated person who is unable to be present in court.

I. The rules of evidence shall apply and no hearsay evidence that is not otherwise admissible in a court shall be admitted into evidence except as otherwise provided in this article. There is a legal presumption of capacity, and the burden of proof shall be on the petitioner to prove the allegations set forth in the petition. Such proof shall be established by clear and convincing evidence.

J. The existence of a proceeding for or the existence of a guardianship for an adult is a matter of public record unless the court seals the record after:

(1) the alleged incapacitated person or individual subject to guardianship requests that the record be sealed; and

(2) either:

(a) the petition for guardianship is dismissed; or

(b) the guardianship is terminated.

K. An alleged incapacitated person or the protected person subject to a proceeding for a guardianship, whether or not a guardian is appointed, an attorney designated by the alleged incapacitated person or the protected person and a person entitled to notice are entitled to access court records of the proceeding and resulting guardianship. A person not otherwise entitled to access court records under this subsection for good cause may petition the court for access to court records of the guardianship. The court shall grant access if access is in the best interest of the alleged incapacitated person or the protected person or furthers the public interest and does not endanger the welfare or financial interests of the alleged incapacitated person or the protected person.

L. A report pursuant to Subsections E and F of this section or a written report filed pursuant to Section 45-5-303.1 or 45-5-314 NMSA 1978 is confidential and shall be sealed on filing, but is available to:

(1) the court;

(2) the alleged incapacitated person who is the subject of the report or evaluation, without limitation as to use;

(3) the petitioner, visitor, guardian ad litem and an attorney of record for purposes of the proceeding;

(4) unless the court orders otherwise, an agent appointed under a power of attorney for health care or power of attorney for finances in which the alleged incapacitated person is the principal; and

(5) any other person if it is in the public interest, as determined by the court, or for a purpose the court orders for good cause.

M. Notwithstanding the provisions of Subsection J of this section, a disclosure of information shall not include diagnostic information, treatment information or other medical or psychological information.

N. The issue of whether a guardian shall be appointed for the alleged incapacitated person shall be determined by the court at an open hearing unless, for good cause, the court determines otherwise.

O. Upon request of the petitioner or alleged incapacitated person, the court shall schedule a jury trial."

Chapter 228 Section 3 Laws 2019

SECTION 3. Section 45-5-303.1 NMSA 1978 (being Laws 1989, Chapter 252, Section 6, as amended) is amended to read:

"45-5-303.1. DUTIES OF GUARDIAN AD LITEM.--

A. The guardian ad litem shall:

(1) interview in person the alleged incapacitated person prior to the hearing;

(2) present the alleged incapacitated person's declared position to the court;

(3) interview the qualified health care professional, the visitor and the proposed guardian;

(4) review both the medical report submitted by the qualified health care professional and the report by the visitor;

(5) obtain independent medical or psychological assessments, or both, if necessary; and

(6) file a written report with the court prior to the hearing on the petition for appointment.

B. Unless otherwise ordered by the court, the duties of the guardian ad litem terminate and the guardian ad litem is discharged from duties upon entry of the order appointing the guardian and acceptance of the appointment by the guardian."

Chapter 228 Section 4 Laws 2019

SECTION 4. Section 45-5-307 NMSA 1978 (being Laws 1975, Chapter 257, Section 5-307, as amended) is amended to read:

"45-5-307. DEATH, SUBSTITUTION, REVIEW AND TERMINATION OF GUARDIANSHIP.--

A. On the petition of the incapacitated person or any person interested in the incapacitated person's welfare and upon notice and hearing, the court may remove a guardian and appoint a successor if it is in the best interest of the incapacitated person.

B. Upon death, removal or resignation of a guardian, the court may appoint another guardian or make any other order that may be appropriate. If a successor guardian is appointed, the successor guardian succeeds to the title and powers of the successor guardian's predecessor.

C. The incapacitated person or any person interested in the incapacitated person's welfare may petition for an order that the incapacitated person is no longer incapacitated and for removal or resignation of the guardian. A request for this order may be made by informal letter to the court or judge. Any person who knowingly interferes with transmission of this kind of request to the court may be adjudged guilty of contempt of court.

D. Unless waived by the court upon the filing of a petition to terminate a guardianship for reasons other than the death of the incapacitated person, the court shall follow the same procedures to safeguard the rights of the incapacitated person as those that apply to a petition for appointment of a guardian as set forth in Section 45-5-303 NMSA 1978.

E. In a proceeding that increases the guardian's authority or reduces the autonomy of the protected person, the court shall follow the same procedures to safeguard the rights of the incapacitated person as those that apply to a petition for appointment of a guardian, as set forth in Section 45-5-303 NMSA 1978.

F. Following receipt of a request for review, the court shall hold a status hearing, which may be informal, to determine the appropriate order to be entered. If the court finds the incapacitated person is capable of more autonomy than at the time of the original order, the court may enter an order removing the guardian, terminating the guardianship or reducing the powers previously granted to the guardian. The court has the option to follow all or part of the procedures that apply for the appointment of a guardian as set forth in Section 45-5-303 NMSA 1978.

G. At any time following the appointment of a guardian, but not later than ten years after the initial appointment of a guardian for a protected person and every ten years thereafter, the court shall:

(1) hold a status hearing, after notice to the guardian, the protected person and appropriate interested persons, to review the status of the protected person's capacity and the continued need for a guardian; or

(2) appoint a court investigator to assess the protected person's capacity. The court investigator shall prepare a detailed report to the court regarding the status of the protected person's capacity and the continued need for a guardian. Any report shall be made available to the guardian, the protected person and interested persons identified by the court.

H. If the court is unable to contact either the guardian or the protected person and neither appears for the status hearing held pursuant to Paragraph (1) of Subsection G of this section, the court shall appoint a guardian ad litem to investigate and report to the court as to the status of the protected person and the guardian. Any report shall be made available to the guardian, the protected person and appropriate interested persons, if known to the court.

I. Following the status hearing or the court's report from the court investigator or guardian ad litem on the status of the protected person and the guardian as provided in Subsection H of this section, the court may enter an appropriate order; provided that, in entering an order that increases the guardian's authority or reduces the autonomy of the protected person, the court shall follow the same procedures to safeguard the rights of the incapacitated person as those that apply to a petition for appointment of a guardian, as set forth in Section 45-5-303 NMSA 1978."

Chapter 228 Section 5 Laws 2019

SECTION 5. Section 45-5-311 NMSA 1978 (being Laws 1975, Chapter 257, Section 5-311, as amended) is amended to read:

"45-5-311. WHO MAY BE APPOINTED GUARDIAN--PRIORITIES--QUALIFICATIONS.--

A. Any person deemed to be qualified by the court may be appointed guardian of an incapacitated person, except that no individual who operates or is an employee of a boarding home, residential care home, nursing home, group home or other similar facility in which the incapacitated person resides may serve as guardian for the incapacitated person, except an employee may serve in such capacity when related by affinity or consanguinity.

B. Persons who are not disqualified have priority for appointment as guardian in the following order:

(1) a guardian or other like fiduciary appointed by the appropriate court of any other jurisdiction;

(2) a person, as far as known or as can be reasonably ascertained, previously nominated or designated in a writing signed by the incapacitated person prior to incapacity that has not been revoked by the incapacitated person or terminated by a court. This includes writings executed under the Uniform Health-Care Decisions Act, the Mental Health Care Treatment Decisions Act, the Uniform Power of Attorney Act, the Uniform Probate Code and the Uniform Trust Code;

(3) the spouse of the incapacitated person;

(4) an adult child of the incapacitated person;

(5) a parent of the incapacitated person, including a person nominated by will or other writing signed by a deceased parent;

(6) any relative of the incapacitated person with whom the incapacitated person has resided for more than six months prior to the filing of the petition;

(7) a person nominated by the person who is caring for the incapacitated person or paying benefits to the incapacitated person; and

(8) any other person.

C. With respect to persons having equal priority, the court shall select the person it considers best qualified to serve as guardian. The court, acting in the best interest of the incapacitated person and for good cause shown, may pass over a person having priority and appoint a person having a lower priority under this section and shall take into consideration:

(1) the preference of the incapacitated person, giving weight to preferences expressed in writing by the person while having capacity;

(2) the geographic location of the proposed guardian;

(3) the relationship of the proposed guardian to the incapacitated person;

(4) the ability of the proposed guardian to carry out the powers and duties of the guardianship; and

(5) potential financial conflicts of interest between the incapacitated person and proposed guardian.

D. A professional guardian shall not serve or be appointed as a guardian of the incapacitated person unless the professional guardian is certified and is in good standing with a national or state organization recognized by the supreme court that provides professional certification for guardians."

Chapter 228 Section 6 Laws 2019

SECTION 6. Section 45-5-312 NMSA 1978 (being Laws 1975, Chapter 257, Section 5-312, as amended) is amended to read:

"45-5-312. GENERAL POWERS AND DUTIES OF THE LIMITED GUARDIAN AND GUARDIAN.--

A. If the court enters judgment pursuant to Subsection C of Section 45-5-304 NMSA 1978, it shall appoint a limited guardian if it determines that the protected person is able to manage some but not all aspects of personal care. The court shall specify those powers that the limited guardian shall have and may further restrict each power so as to permit the protected person to care for the protected person's own self commensurate with the protected person's ability to do so. A person for whom a limited guardian has been appointed retains all legal and civil rights except those that have been specifically granted to the limited guardian by the court. The limited guardian shall exercise supervisory powers over the protected person in a manner that is the least restrictive form of intervention consistent with the order of the court.

B. A guardian is not legally obligated to provide from the guardian's own funds for the protected person and is not liable to third persons for acts of the protected person solely by reason of the guardianship. In particular and without qualifying the foregoing, a guardian or the guardian's replacement has the following powers and duties, except as modified by order of the court:

(1) to the extent that it is consistent with the terms of any order by a court of competent jurisdiction relating to detention or commitment of the protected person, a guardian is entitled to custody of the protected person and may establish the protected person's place of abode within or without New Mexico;

(2) if entitled to custody of the protected person, a guardian shall make provision for the care, comfort and maintenance of the protected person and, whenever appropriate, arrange for training and education. The guardian shall take reasonable care of the protected person's clothing, furniture, vehicles and other personal effects

and commence conservatorship proceedings if other property of the protected person is in need of protection;

(3) if no agent is entitled to make health care decisions for the protected person under the provisions of the Uniform Health-Care Decisions Act, then the guardian shall make health care decisions for the protected person in accordance with the provisions of that act. In exercising health care powers, a guardian may consent or withhold consent that may be necessary to enable the protected person to receive or refuse medical or other professional care, counsel, treatment or service. That decision shall be made in accordance with the values of the protected person, if known, or the best interests of the protected person if the values are not known;

(4) if no conservator for the estate of the protected person has been appointed, if the court has determined that a conservatorship is not appropriate and if a guardian appointed by the court has been granted authority to make financial decisions on behalf of the protected person in the order of appointment and in the letters of guardianship pursuant to Subsection C of Section 45-5-308 NMSA 1978, the guardian has the following powers and duties, including the power:

(a) to institute proceedings to compel any person under a duty to support the protected person or to pay sums for the welfare of the protected person to perform that duty;

(b) to receive money and tangible property deliverable to the protected person and apply the money and property for support, care and education of the protected person, but the guardian shall not use funds from the protected person's estate for room and board that the guardian or the guardian's spouse, parent or child has furnished the protected person, unless a charge for the service is approved by order of the court made upon notice to at least one of the next of kin of the protected person, if notice is possible;

(c) to serve as advocate and decision maker for the protected person in any disputes with persons or organizations, including financial institutions, regarding the protected person's finances;

(d) to obtain information regarding the protected person's assets and income from persons or organizations handling the protected person's finances;

(e) to file an initial inventory of all property belonging to the protected person within ninety days after appointment; and

(f) to exercise care to conserve any excess for the protected person's needs and include in the guardian's ninety-day and annual reports a description of decisions made regarding the protected person's finances and property; and

(5) the guardian shall exercise the guardian's supervisory powers over the protected person in a manner that is least restrictive of the protected person's personal freedom and consistent with the need for supervision.

C. A guardian of a protected person for whom a conservator also has been appointed shall control the care and custody of the protected person and is entitled to receive reasonable sums for services and for room and board furnished to the protected person. The guardian may request the conservator to expend the protected person's estate by payment to third persons or institutions for the protected person's care and maintenance.

D. Unless authorized by the court by specific order, a guardian for an adult shall not revoke or amend a power of attorney for health care or power of attorney for finances signed by the adult. If a power of attorney for health care is in effect, unless there is a court order to the contrary, a health care decision of an agent takes precedence over that of the guardian, and the guardian shall cooperate with the agent to the extent feasible. If a power of attorney for finances is in effect, unless there is a court order to the contrary, a decision by the agent that the agent is authorized to make under the power of attorney for finances takes precedence over that of the guardian, and the guardian shall cooperate with the agent to the extent feasible.

E. A guardian for an adult shall not initiate the commitment of the adult to a mental health treatment facility except in accordance with the state's procedure for involuntary civil commitment.

F. A guardian for a protected person shall not restrict the ability of the protected person to communicate, visit or interact with others, including receiving visitors and making or receiving telephone calls, personal mail or electronic communications, including through social media or participating in social activities, unless:

(1) authorized by the court by specific order;

(2) a less restrictive alternative is in effect that limits contact between the protected person and a person; or

(3) the guardian has good cause to believe restriction is necessary because interaction with a specified person poses a risk of significant physical, psychological or financial harm to the protected person and the restriction is:

(a) for a period of not more than seven business days if the person has a family or preexisting social relationship with the protected person; or

(b) for a period of not more than sixty days if the person does not have a family or preexisting social relationship with the protected person."

Chapter 228 Section 7 Laws 2019

SECTION 7. Section 45-5-314 NMSA 1978 (being Laws 1989, Chapter 252, Section 14, as amended) is amended to read:

"45-5-314. ANNUAL REPORT--AUDITS.--

A. The guardian of an incapacitated person shall file an initial report with the appointing court within ninety days of the guardian's appointment. Thereafter, the guardian shall file an annual report within thirty days of the anniversary date of the guardian's appointment. A copy of the report shall also be submitted to the district judge who appointed the guardian or the judge's successor, to the incapacitated person and to the incapacitated person's conservator, if any. The court shall review this report. The report shall include information concerning the progress and condition of the incapacitated person, including the incapacitated person's health, medical and dental care, residence, education, employment and habitation; a report on the manner in which the guardian carried out the guardian's powers and fulfilled the guardian's duties; and the guardian's opinion regarding the continued need for guardianship. If the guardian has been provided power pursuant to Paragraph (4) of Subsection B of Section 45-5-312 NMSA 1978, the report shall contain information on financial decisions made by the guardian. Only reports that substantially comply with forms approved by the supreme court shall be accepted by the court as fulfilling the requirements of this section.

B. Any guardian may rely on a qualified health care professional's current written report to provide descriptions of the physical and mental conditions required in the report provided for in Subsection A of this section.

C. The guardian may be fined twenty-five dollars (\$25.00) per day for an overdue interim or annual report. The fine shall be paid to the current school fund.

D. The court shall not waive the requirement of an annual report under any circumstance but may grant an extension of time not to exceed sixty days. The court may require the filing of more than one report annually.

E. A guardian of a protected person shall fully comply with the requirements of any audit of an account, inventory, report or property of a protected person."

Chapter 228 Section 8 Laws 2019

SECTION 8. Section 45-5-404.1 NMSA 1978 (being Laws 1989, Chapter 252, Section 18, as amended) is amended to read:

"45-5-404.1. DUTIES OF GUARDIAN AD LITEM.--

A. The guardian ad litem shall:

- (1) interview the person to be protected in person prior to the hearing;
- (2) present the position of the person to be protected to the court;
- (3) interview the qualified health care professional, the visitor, the proposed conservator and any other person who may have relevant information concerning the person to be protected;
- (4) review both the medical report submitted by the qualified health care professional and the report by the visitor;
- (5) obtain independent medical or psychological assessments, or both, if necessary; and
- (6) file a written report with the court prior to the hearing on the petition for appointment.

B. Unless otherwise ordered by the court, the duties of the guardian ad litem terminate and the guardian ad litem is discharged from the guardian ad litem's duties upon entry of the order appointing the conservator and acceptance of the appointment by the conservator."

Chapter 228 Section 9 Laws 2019

SECTION 9. Section 45-5-407 NMSA 1978 (being Laws 1975, Chapter 257, Section 5-407, as amended) is amended to read:

"45-5-407. PROCEDURE FOR COURT APPOINTMENT OF A CONSERVATOR.--

A. Upon receipt of a petition for appointment of a conservator or other protective order because of minority, the court shall set a date for hearing on the matters alleged in the petition. If at any time in the proceeding the court finds the minor is or may be inadequately represented, it may appoint an attorney to represent the minor, giving consideration to the choice of the minor if the minor is fourteen years of age or older. An attorney appointed by the court to represent a minor shall represent and protect the interests of the minor.

B. Upon receipt of a petition for appointment of a conservator for reasons other than minority, the court shall set a date for hearing. Unless the person to be protected is already represented by an attorney of the person's own choice, the court shall appoint an attorney to represent the person to be protected in the proceeding. The court-appointed attorney shall have the duties of a guardian ad litem as set forth in Section 45-5-404.1 NMSA 1978.

C. If the petition is for the appointment of a conservator for an incapacitated person, the person to be protected shall be examined by a qualified health care professional appointed by the court who shall submit a report in writing to the court. The report shall:

(1) describe the nature and degree of the person's incapacity, if any, and the level of the intellectual, developmental and social functioning of the person to be protected; and

(2) contain observations, with supporting data, regarding the ability of the person to be protected to manage the person's estate or financial affairs.

D. The court shall also appoint a visitor who shall interview the person seeking appointment as conservator and the person to be protected. The visitor shall also visit the present place of residence of the person to be protected. The visitor shall evaluate the needs of the person to be protected and shall submit a written report to the court. The report shall include a recommendation regarding the appropriateness of the appointment of the proposed conservator. The report shall also include recommendations regarding:

(1) those aspects of the person's financial affairs that the person to be protected can manage without supervision or assistance;

(2) those aspects of the person's financial affairs that the person to be protected could manage with the supervision or assistance of support services and benefits; and

(3) those aspects of the person's financial affairs that the person to be protected is unable to manage even with the supervision or assistance of support services and benefits.

Unless otherwise ordered by the court, the appointment of the visitor terminates and the visitor is discharged from duties upon entry of an order appointing a conservator and acceptance of the appointment by the conservator.

E. The person to be protected shall be present at the hearing on the issues raised by the petition and any response to the petition, unless the court determines it is not in the best interest of the person for whom a conservator is sought to be present because of a threat to the health or safety of the person for whom a conservator is sought or others as determined by the court. The court upon request or its own motion may conduct hearings at the location of the person to be protected if the person is unable to be present in court. At a hearing conducted pursuant to this section, the person to be protected may:

(1) present evidence and subpoena witnesses and documents;

(2) examine witnesses, including a court-appointed guardian ad litem, qualified health care professional and visitor; and

(3) otherwise participate in the hearing.

F. The person to be protected shall not be permitted by the court to consent to the appointment of a conservator.

G. The court, at the hearing on the petition for appointment of conservator, shall:

(1) inquire into the nature and extent of the functional limitations of the person to be protected; and

(2) ascertain the person's capacity to manage the person's financial affairs.

H. If it is determined that the person to be protected possesses the capacity to manage the person's estate or financial affairs, or both, the court shall dismiss the petition.

I. Alternatively, the court may appoint a full conservator, as requested in the petition, or a limited conservator and confer specific powers of conservatorship after finding in the record based on clear and convincing evidence that:

(1) the person to be protected is totally incapacitated or is incapacitated only in specific areas as alleged in the petition;

(2) the conservatorship is necessary as a means of effectively managing the estate or financial affairs, or both, of the person to be protected;

(3) there are not available alternative resources that enable the effective management of the estate and financial affairs of the person to be protected;

(4) the conservatorship is appropriate as the least restrictive form of intervention consistent with the preservation of the property of the person to be protected; and

(5) the proposed conservator is both qualified and suitable and is willing to serve.

J. After hearing, upon finding that a basis for the appointment of a conservator has been established, the court shall make an appointment of a conservator. The court shall appoint a limited conservator if it determines that the incapacitated person is able to manage some but not all aspects of the incapacitated person's estate and financial affairs. The court shall specify those powers that the limited conservator shall have and may further restrict each power so as to permit the incapacitated person to care for the incapacitated person's estate and financial affairs commensurate with the incapacitated person's ability to do so.

K. A person for whom a conservator has been appointed retains all legal and civil rights except those that have been specifically granted to the conservator by the court. The conservator shall exercise supervisory powers over the estate and financial affairs of the incapacitated person in a manner that is the least restrictive form of intervention consistent with the order of the court.

L. The rules of evidence shall apply and no hearsay evidence that is not otherwise admissible in a court shall be admitted into evidence except as otherwise provided in the Uniform Probate Code.

M. The existence of a proceeding for or the existence of conservatorship is a matter of public record unless the court seals the record after:

(1) the alleged incapacitated person, the protected person subject to conservatorship or the parent or a guardian of a minor subject to conservatorship requests that the record be sealed; and

(2) either:

(a) the petition for conservatorship is dismissed; or

(b) the conservatorship is terminated.

N. An alleged incapacitated person or protected person subject to a proceeding for a conservatorship, whether or not a conservator is appointed, an attorney designated by the alleged incapacitated person or protected person and a person entitled to notice may access court records of the proceeding and resulting conservatorship. A person not otherwise entitled to access to court records under this section for good cause may petition the court for access to court records of the conservatorship. The court shall grant access if access is in the best interest of the alleged incapacitated person or protected person subject to conservatorship or furthers the public interest and does not endanger the welfare or financial interests of the alleged incapacitated person or individual.

O. A report pursuant to Subsections C and D of this section or a written report filed pursuant to Section 45-5-404.1 or 45-5-409 NMSA 1978 is confidential and shall be sealed on filing, but is available to:

(1) the court;

(2) the alleged incapacitated person or protected person who is the subject of the report, without limitation as to use;

(3) the petitioner, guardian ad litem, visitor and an attorney of record, for purposes of the proceeding;

(4) unless the court directs otherwise, an agent appointed under a power of attorney for finances in which the alleged incapacitated person is identified as the principal; and

(5) any other person if it is in the public interest, as determined by the court, or for a purpose the court orders for good cause.

P. Notwithstanding the provisions of Subsection M of this section, any disclosure of information shall not include any diagnostic information, treatment information or other medical or psychological information.

Q. The issue of whether a conservator shall be appointed for the alleged incapacitated person shall be determined by the court at an open hearing unless, for good cause, the court determines otherwise.

R. Upon request of the petitioner or person to be protected, the court shall schedule a jury trial.

S. Upon entry of an order appointing a conservator, a copy of the order shall be furnished to the person for whom the conservator was appointed and that person's counsel. The order shall contain the name and address of the conservator as well as notice to the person for whom the conservator was appointed of that person's right to appeal the appointment and of that person's right to seek alteration or termination of the conservatorship at any time."

Chapter 228 Section 10 Laws 2019

SECTION 10. Section 45-5-409 NMSA 1978 (being Laws 1989, Chapter 252, Section 22, as amended) is amended to read:

"45-5-409. ANNUAL REPORT AND ACCOUNT--AUDITS.--

A. Every conservator shall file an annual report and account with the appointing court within thirty days of the anniversary date of the conservator's appointment, upon the conservator's resignation or removal or upon termination of the conservatorship. A copy of the annual report and account shall also be mailed to the district judge who appointed the conservator or the conservator's successor, to the incapacitated person and to the incapacitated person's guardian, if any. The report shall include information concerning the progress and condition of the person under conservatorship, a report on the manner in which the conservator carried out the conservator's powers and fulfilled the conservator's duties and the conservator's opinion regarding the continued need for conservatorship. Only reports that substantially comply with forms approved by the supreme court shall be accepted by the court as fulfilling the requirements of this section.

B. Any conservator may rely on a qualified health care professional's current written report to provide descriptions of the physical and mental conditions required in the report provided for in Subsection A of this section.

C. The court shall not waive the requirement of an annual report and account under any circumstance, but may grant an extension of time. The court may require the filing of more than one report and account annually.

D. The conservator may be fined twenty-five dollars (\$25.00) per day for an overdue interim or annual report and account. The fine shall be paid to the current school fund.

E. In connection with an account, the court may require a conservator to submit to a physical check of the property in the conservator's control, to be made in any manner the court may order.

F. In any case in which property consists in whole or in part of benefits paid by the United States department of veterans affairs to the conservator or the conservator's predecessor for the benefit of the protected person, the department office that has jurisdiction over the area is entitled to a copy of any report and account filed under Chapter 45, Article 5 NMSA 1978.

G. A conservator shall fully comply with the requirements of any audit of an account, inventory, report or property of a protected person."

Chapter 228 Section 11 Laws 2019

SECTION 11. Section 45-5-410 NMSA 1978 (being Laws 1975, Chapter 257, Section 5-410, as amended) is amended to read:

"45-5-410. WHO MAY BE APPOINTED CONSERVATOR--PRIORITIES.--

(1) a conservator, guardian of property or other like fiduciary appointed or recognized by the appropriate court of any other jurisdiction in which the incapacitated person resides;

(2) a person, as far as known or as can be reasonably ascertained, previously nominated or designated in a writing signed by the incapacitated person prior to incapacity that has not been revoked by the incapacitated person or terminated by a court. This includes writings executed under the Uniform Health-Care Decisions Act, the Mental Health Care Treatment Decisions Act, the Uniform Power of Attorney Act, the Uniform Probate Code and the Uniform Trust Code;

- (3) the spouse of the incapacitated person;
- (4) an adult child of the incapacitated person;
- (5) a parent of the incapacitated person or a person nominated by the will of a deceased parent;
- (6) any relative of the incapacitated person with whom the incapacitated person has resided for more than six months prior to the filing of the petition;
- (7) a person nominated by the person who is caring for the incapacitated person or paying benefits to the incapacitated person; and
- (8) any other person.

B. A person under the priorities of Paragraph (1), (2), (3), (4), (5) or (6) of Subsection A of this section may nominate in writing a person to serve in the person's stead. With respect to persons having equal priority, the court shall select the one who is best qualified of those willing to serve.

C. The court, for good cause, may pass over a person having priority and appoint a person having lesser priority under this section and shall take into consideration:

- (1) the preference of the incapacitated person;
- (2) the geographic location of the proposed conservator;
- (3) the relationship of the proposed conservator to the incapacitated person;

"45-5-415. DEATH, SUBSTITUTION, REVIEW AND TERMINATION OF CONSERVATORSHIP.--

A. On the petition of the incapacitated person or a person interested in the incapacitated person's welfare, the court may remove a conservator for good cause, upon notice and hearing. A temporary conservator may be appointed pursuant to Section 45-5-408 NMSA 1978 pending a final hearing.

B. Upon death, resignation or removal of a conservator, the court may appoint another conservator or make any other order that may be appropriate. If a successor conservator is appointed, the successor conservator succeeds to the title and powers of the predecessor.

C. The incapacitated person or a person interested in the incapacitated person's welfare may petition for an order that the incapacitated person is no longer in need of a conservator and for removal or resignation of the conservator. A request for this order may be made by informal letter to the court or judge. Any person who knowingly interferes with transmission of this kind of request to the court may be adjudged guilty of contempt of court.

D. Unless waived by the court upon the filing of a petition to terminate a conservatorship for reasons other than termination of minority or the death of the person under conservatorship, the court shall follow the same procedures as set forth in Section 45-5-407 NMSA 1978.

E. In a proceeding that increases the conservator's authority or reduces the autonomy of the incapacitated person, the court shall follow the same procedures to safeguard the rights of the incapacitated person as those that apply to a petition for appointment of a conservator, as set forth in Section 45-5-407 NMSA 1978.

F. Following receipt of a request for review, the court shall hold a status hearing, which may be informal, to determine the appropriate order to be entered. If the court finds the incapacitated person is capable of more autonomy than at the time of the original order, the court may enter an order removing the conservator, terminating the conservatorship or reducing the powers previously granted to the conservator. The court has the option to follow all or part of the procedures that apply for the appointment of a conservator, as set forth in Section 45-5-407 NMSA 1978.

G. At any time following the appointment of a conservator, but not later than ten years after the initial appointment of a conservator for an incapacitated person and every ten years thereafter, the court shall:

(1) hold a status hearing, after notice to the conservator, the incapacitated person and appropriate interested persons, to review the status of the incapacitated person's capacity and the continued need for a conservator; or

(2) appoint a court investigator to assess the incapacitated person's capacity. The court investigator shall prepare a detailed report to the court regarding the status of the incapacitated person's capacity and the continued need for a conservator. Any report shall be made available to the conservator, the incapacitated person and interested persons identified by the court.

H. If the court is unable to contact either the conservator or the incapacitated person and neither appears for the status hearing held pursuant to Paragraph (1) of Subsection G of this section, the court shall appoint a guardian ad litem to investigate and report to the court as to the status of the incapacitated person and the conservator. Any report shall be made available to the conservator, the incapacitated person and appropriate interested persons, if known to the court.

I. Following the status hearing or the court's report from the court investigator or guardian ad litem on the status of the incapacitated person and the conservator as provided in Subsection H of this section, the court may enter an appropriate order; provided that, in entering an order that increases the conservator's authority or reduces the autonomy of the incapacitated person, the court shall follow the same procedures to safeguard the rights of the incapacitated person as those that apply to a petition for appointment of a conservator, as set forth in Section 45-5-407 NMSA 1978."

B. The conservator is individually liable for obligations arising from ownership or control of property of the estate or for torts committed in the course of administration of the estate only if the conservator is personally at fault.

C. Claims based on contracts entered into by a conservator in the conservator's fiduciary capacity on obligations arising from ownership or control of the estate or on torts committed in the course of administration of the estate may be asserted against the estate by proceeding against the conservator in the conservator's fiduciary capacity, whether or not the conservator is individually liable for those claims.

D. Any question of liability between the estate and the conservator individually may be determined in a proceeding for accounting, surcharge or indemnification or other appropriate proceeding or action.

B. Subject to Subsection C of this section, after receiving a grievance filed pursuant to Subsection A of this section, the court:

(1) shall review the grievance and, if necessary to determine the appropriate response, court records related to the guardianship or conservatorship;

Chapter 233 Section 1 Laws 2019

SECTION 1. Section 7-9G-1 NMSA 1978 (being Laws 2004, Chapter 15, Section 1, as amended) is amended to read:

"7-9G-1. HIGH-WAGE JOBS TAX CREDIT--QUALIFYING HIGH-WAGE JOBS.--

A. A taxpayer that is an eligible employer may apply for, and the department may allow, a tax credit for each new high-wage job. The credit provided in this section may be referred to as the "high-wage jobs tax credit".

B. The purpose of the high-wage jobs tax credit is to provide an incentive for urban and rural businesses to create and fill new high-wage jobs in New Mexico.

C. The high-wage jobs tax credit may be claimed and allowed in an amount equal to eight and one-half percent of the wages distributed to an eligible employee in a new high-wage job but shall not exceed twelve thousand seven hundred fifty dollars (\$12,750) per job per qualifying period. The high-wage jobs tax credit may be claimed by an eligible employer for each new high-wage job performed for the year in which the new high-wage job is created and for consecutive qualifying periods.

D. To receive a high-wage jobs tax credit, a taxpayer shall file an application for approval of the credit with the department once per calendar year on forms and in the manner prescribed by the department. The annual application shall contain the certification required by Subsection K of this section and shall contain all qualifying periods that closed during the calendar year for which the application is made. Any qualifying period that did not close in the calendar year for which the application is made shall be denied by the department. The application for a calendar year shall be filed no later than December 31 of the following calendar year. If a taxpayer fails to file the annual application within the time limits provided in this section, the application shall be denied by the department. The department shall make a determination on the application within one hundred eighty days of the date on which the application was filed.

E. A new high-wage job shall not be eligible for a credit pursuant to this section for the initial qualifying period unless the eligible employer's total number of employees with threshold jobs on the last day of the initial qualifying period at the location at which the job is performed or based is at least one more than the number of threshold jobs on the day prior to the date the new high-wage job was created. A new high-wage job shall not be eligible for a credit pursuant to this section for a consecutive qualifying period unless the total number of threshold jobs at a location at which the job is performed or based on the last day of that qualifying period is greater than or equal to the number of threshold jobs at that same location on the last day of the initial qualifying period for the new high-wage job.

F. If a consecutive qualifying period for a new high-wage job does not meet the wage, occupancy and residency requirements, then the qualifying period is ineligible.

G. Except as provided in Subsection H of this section, a new high-wage job shall not be eligible for a credit pursuant to this section if:

(1) the new high-wage job is created due to a business merger or acquisition or other change in business organization;

The new employer that results from a business merger or acquisition or other change in business organization may only claim the high-wage jobs tax credit for the balance of the consecutive qualifying periods for which the new high-wage job is otherwise eligible.

I. A new high-wage job shall not be eligible for a credit pursuant to this section if the job is created due to an eligible employer entering into a contract or becoming a subcontractor to a contract with a governmental entity that replaces one or more entities performing functionally equivalent services for the governmental entity unless the job is a new high-wage job that was not being performed by an employee of the replaced entity.

J. A new high-wage job shall not be eligible for a credit pursuant to this section if the eligible employer has more than one business location in New Mexico from which it conducts business and the requirements of Subsection E of this section are satisfied solely by moving the job from one business location of the eligible employer in New Mexico to another business location of the eligible employer in New Mexico.

K. With respect to each annual application for a high-wage jobs tax credit, the employer shall certify and include:

(1) the amount of wages paid to each eligible employee in a new high-wage job during the qualifying period;

(2) the number of weeks each position was occupied during the qualifying period;

(5) the total number of employees employed by the employer at the job location on the day prior to the qualifying period and on the last day of the qualifying period;

(7) for an eligible employer that has more than one business location in New Mexico from which it conducts business, the total number of threshold jobs performed or based at each business location of the eligible employer in New Mexico on the day prior to the qualifying period and on the last day of the qualifying period;

(8) whether the eligible employer is receiving or is eligible to receive development training program assistance pursuant to Section 21-19-7 NMSA 1978;

(9) whether the eligible employer has ceased business operations at any of its business locations in New Mexico; and

(10) whether the application is precluded by Subsection O of this section.

L. Any person who willfully submits a false, incorrect or fraudulent certification required pursuant to Subsection K of this section shall be subject to all applicable penalties under the Tax Administration Act, except that the amount on which the penalty is based shall be the total amount of credit requested on the application for approval.

M. Except as provided in Subsection N of this section, an approved high-wage jobs tax credit shall be claimed against the taxpayer's modified combined tax liability and shall be filed with the return due immediately following the date of the credit approval. If the credit exceeds the taxpayer's modified combined tax liability, the excess shall be refunded to the taxpayer.

N. If the taxpayer ceases business operations in New Mexico while an application for credit approval is pending or after an application for credit has been approved for any qualifying period for a new high-wage job, the department shall not grant an additional high-wage jobs tax credit to that taxpayer except as provided in Subsection O of this section and shall extinguish any amount of credit approved for that taxpayer that has not already been claimed against the taxpayer's modified combined tax liability.

O. A taxpayer that has received a high-wage jobs tax credit shall not submit a new application for the credit for a minimum of two calendar years from the closing date

of the last qualifying period for which the taxpayer received the credit if the taxpayer lost eligibility to claim the credit from a previous application pursuant to Subsection N of this section.

An applicant for initial licensure shall be fingerprinted and shall provide two fingerprint cards or the equivalent electronic fingerprints to the department or superintendent to obtain the applicant's federal bureau of investigation record. Convictions of felonies or misdemeanors contained in the federal bureau of investigation record shall be used in accordance with the Criminal Offender Employment Act. Other information contained in the federal bureau of investigation record, if supported by independent evidence, may form the basis for the denial, suspension or revocation of a license for just cause. Records and related information shall be privileged and shall not be disclosed to a person not directly involved in the licensure or employment decisions affecting the specific applicant. The applicant for initial licensure shall pay for the cost of obtaining the federal bureau of investigation record.

C. Governing authorities shall develop policies and procedures to require background checks on an applicant who has been offered employment or who applies to be a volunteer or works for the public school as a contractor or a contractor's employee and who may have unsupervised access to students on school premises.

D. An applicant who has been offered employment or a school volunteer, contractor or contractor's employee shall provide two fingerprint cards or the equivalent electronic fingerprints to the superintendent to obtain the applicant's, school volunteer's, contractor's or contractor's employee's federal bureau of investigation record. The public school shall pay for an applicant's background check. A school volunteer, contractor or contractor's employee may be required to pay for the cost of obtaining a background check.

E. employee who has been offered employment, a volunteer position or a contract and will have unsupervised access to students on school premises.

G. A superintendent shall report to the department any known conviction of a felony or misdemeanor involving moral turpitude of a licensed school employee that results in any type of action against the licensed school employee.

H. A superintendent or the superintendent's designated representative shall investigate all allegations of ethical misconduct about any school employee who resigns, is being discharged or terminated or otherwise leaves employment after an allegation has been made. If the investigation results in a finding of ethical misconduct by a licensed school employee, the superintendent shall report the identity of the licensed school employee and attendant circumstances of the ethical misconduct on a standardized form to the department and the licensed school employee within thirty days following the separation from employment or immediately if knowledge of the ethical misconduct is sexual harassment or sexual abuse of an adult or child. Copies of that form shall not be maintained in the school employee's personnel file. The superintendent shall also report allegations of sexual assault or sexual abuse involving any school employee, volunteer, contractor or a contractor's employee to the appropriate law enforcement agency. No agreement between a departing school employee and the governing authority or superintendent shall diminish or eliminate the responsibility of investigating and reporting the alleged ethical misconduct to the department or, if legally mandated, to law enforcement, and any such agreement to the contrary is void.

I. Unless the department has commenced its own investigation of a licensed school employee prior to receipt of the form, the department shall serve the licensed school employee with a notice of investigation and a notice of contemplated action pursuant to the Uniform Licensing Act within sixty days of receipt of the form. If a notice of contemplated action is not served on the licensed school employee within ninety days of receipt of the form, the form, together with any documents related to the alleged ethical misconduct, shall be expunged from the licensed school employee's records.

of negligent or intentional reporting of inaccurate information or the disclosure of any information to an unauthorized person."

(2) contracts for the remainder of a school year are permitted to staff programs when the availability of funds for the programs is not known until after the beginning of the school year;

(3) contracts for less than one school year are permitted to staff summer school programs and to staff federally funded programs in which the federally approved programs are specified to be conducted for less than one school year;

E. Except as provided in Section 22-10A-22 NMSA 1978, a licensed school employee employed by contract pursuant to this section has no legitimate objective expectancy of reemployment, and no contract entered into pursuant to this section shall be construed as an implied promise of continued employment pursuant to a subsequent contract."

A notice of reemployment shall be an offer of employment for the ensuing school year. A notice of termination shall be a notice of intention not to reemploy for the ensuing school year. Failure of the superintendent to serve a written notice of reemployment or termination on a licensed school employee shall be construed to mean that notice of reemployment has been served upon the licensed school employee for the ensuing school year according to the terms of the existing employment contract but subject to any additional compensation allowed other licensed school employees of like qualifications and experience. Nothing in this section shall be construed to mean that failure of a superintendent to serve a written notice of reemployment or termination shall automatically extend a licensed school employee's employment contract for a period in excess of one school year."

(2) the last day of the school year when no written notice of reemployment or termination is served upon the licensed school employee on or before fifteen working days prior to the last day of the school year.

B. Delivery of the written acceptance of reemployment by a licensed school employee creates a binding employment contract between the licensed school employee and the superintendent until the parties enter into a formal written employment contract. Written employment contracts between the superintendent and licensed school employees shall be executed by the parties not later than ten days before the first day of a school year."

If the licensed school employee does not exercise that right to hearing, the superintendent shall discharge the licensed school employee.

B. A licensed school employee who receives a notice of intent to recommend discharge pursuant to Subsection A of this section may exercise the licensed school employee's right to a hearing before the governing authority by giving the superintendent written notice of that election within ten working days of the licensed school employee's receipt of the notice of intent to recommend discharge.

C. The governing authority shall hold a discharge hearing no less than twenty and no more than forty working days after the superintendent receives the written election from the licensed school employee and shall give the licensed school employee at least ten days written notice of the date, time and place of the discharge hearing.

D. Each party, the superintendent and the licensed school employee, may each be accompanied by a person of the party's choice.

"22-10A-28. DISCHARGE APPEALS--LICENSED SCHOOL EMPLOYEES--INDEPENDENT ARBITRATOR--QUALIFICATIONS--PROCEDURE--BINDING DECISION.--

A. A licensed school employee aggrieved by a decision of the governing authority to discharge the licensed school employee after a discharge hearing held pursuant to Section 22-10A-27 NMSA 1978 may appeal the decision to an independent arbitrator. A written notice of appeal shall be submitted to the governing authority within ten working days from the receipt of the copy of the written decision of the governing authority.

B. The governing authority may delegate responsibility for the arbitration to the superintendent. The superintendent as delegate of the governing authority and the licensed school employee shall meet within ten calendar days from the receipt of the notice of appeal and select an independent arbitrator to conduct the appeal, or, in the event the parties fail to agree on an independent arbitrator, they shall request the presiding judge in the judicial district in which the public school is located to select the independent arbitrator. The presiding judge shall select the independent arbitrator within five working days from the date of the parties' request.

C. A qualified independent arbitrator shall be appointed who is versed in employment practices and school procedures. No person shall be appointed to serve as the independent arbitrator who has any direct or indirect financial interest in the outcome of the proceeding, has any relationship to any party in the proceeding, is employed by the superintendent or is a member of or employed by any professional organization of which the licensed school employee is a member.

D. Appeals from the decision of the governing authority shall be decided after a de novo hearing before the independent arbitrator. The superintendent, as delegate of the governing authority, shall have the burden of proving by a preponderance of the evidence that, at the time of the notice of intent to recommend discharge, the superintendent had just cause to discharge the licensed school employee. The superintendent shall present evidence first, with the licensed school employee presenting evidence thereafter.

E. The hearing shall be held within thirty working days from the selection of the independent arbitrator. The independent arbitrator shall give written notice of the date, time and place of the hearing, and such notice shall be sent to the licensed school employee and the governing authority.

F. Each party has the right to be represented by counsel at the hearing before the independent arbitrator.

G. Discovery shall be limited to depositions and requests for production of documents on a time schedule to be established by the independent arbitrator.

H. The independent arbitrator may issue subpoenas for the attendance of witnesses and for the production of books, records, documents and other evidence and shall have the power to administer oaths. Subpoenas so issued shall be served and enforced in the manner provided by law for the service and enforcement of subpoenas in a civil action or in the manner provided by the American arbitration association's voluntary labor arbitration rules if that entity is used by the parties.

I. The rules of civil procedure shall not apply to the hearing, but it shall be conducted so that both contentions and responses are amply and fairly presented. To this end, the independent arbitrator shall permit either party to call and examine witnesses, cross-examine witnesses and introduce exhibits. The technical rules of evidence shall not apply, but, in ruling on the admissibility of evidence, the independent arbitrator may require reasonable substantiation of statements or records tendered, the accuracy or truth of which is in reasonable doubt.

J. An official record shall be made of the hearing. Either party may order a transcript of the record at the party's own expense.

K. The independent arbitrator shall render a written decision affirming or reversing the action of the governing authority. The decision shall contain findings of fact and conclusions of law. The parties shall receive the written decision of the independent arbitrator within thirty working days from the conclusion of the hearing.

L. Unless a party can demonstrate prejudice arising from a departure from the procedures established in this section and in Section 22-10A-27 NMSA 1978, such departure shall be presumed to be harmless error.

M. The decision of the independent arbitrator shall be final and binding on both parties and shall be nonappealable except where the decision was procured by corruption, fraud, deception or collusion, in which case it may be appealed to the court of appeals by filing a notice of appeal as provided by the New Mexico rules of appellate procedure.

N. Each party shall bear its own costs and expenses. The independent arbitrator's fees and other expenses incurred in the conduct of the arbitration shall be assigned at the discretion of the independent arbitrator."

B. The higher education department, upon the receipt of the notice provided for in Subsection A of this section, shall furnish all necessary information with reference to the valuation, present outstanding bonded indebtedness, present outstanding lease-purchase arrangements and limitations as to tax rates and debt contracting power and other information useful to the board in the consideration of a proposed lease-purchase arrangement. C. At a regular or special meeting called for the purpose of considering a lease-purchase arrangement, a board shall:

- (2) determine the estimated cost of the equipment needed;
- (3) review a summary of the terms of the proposed lease-purchase arrangement;
- (4) identify the source of funds for the payment of debt;

(5) if all or part of the funds needed require or anticipate the imposition of an ad valorem tax, determine the estimated rate of the ad valorem tax and what, if any, the percentage increase in ad valorem taxes for all taxable property in the college district would be;

(6) set a date for a meeting to consider a resolution granting final approval to the lease-purchase arrangement; and

(7) direct that notice of the meeting provided for in Paragraph (6) of this subsection be published once each week for the two weeks immediately preceding the meeting in a newspaper having general circulation in the college district and that the notice include the information required in Paragraphs (1) through (5) of this subsection.

SECTION 3. A new section of the College District Tax Act is enacted to read:

"COLLEGE DISTRICT LEASE-PURCHASE ARRANGEMENTS--TAX LEVY--
TERMS OF LEASE-PURCHASE ARRANGEMENTS--REFUNDING OR
REFINANCING.--

A. The officials charged by law with the duty of levying ad valorem taxes for the payment of bonds and interest shall, in the manner provided by law, make an annual levy sufficient to meet the payments due on lease-purchase arrangements. Annual payments due on lease-purchase arrangements may be combined with other college district general obligation debt when determining the annual debt service tax levy pursuant to Section 7-37-8 NMSA 1978 and the College District Tax Act. This annual debt service tax levy shall not exceed five dollars (\$5.00) per one thousand dollars (\$1,000) of taxable value; provided, however, that this limitation may be exceeded in any year in which the valuation of property in the college district declines to a level lower than the valuation of property in the year in which the applicable debt was issued. Nothing in the College District Tax Act shall be so construed as to prevent a college district from applying any other legally available funds, including funds that may be in its general fund or investment income actually received from investments, to the payments due on or any prepayment premium payable in connection with such lease-purchase arrangements as the same become due, and, upon such payments, the levy or levies provided for in this section may, to that extent, be reduced.

B. Lease-purchase arrangements may:

(1) have interest, appreciated principal value, or any part thereof, payable at intervals or at maturity as may be determined by the board;

(2) be subject to prior redemption or prepayment at the option of the board at such time or times and upon such terms and conditions with or without the payment of such premium or premiums as may be determined by the board;

(3) have a final payment date or mature at any time or times not exceeding five years after the date of issuance;

(4) be payable at one time or in installments or may be in such other form as may be determined by the board;

(5) be priced at, above or below par and at a price that results in a net effective interest rate that does not exceed the maximum permitted by the Public Securities Act; and

(6) be sold or issued at public sale, negotiated sale or private sale to the New Mexico finance authority.

C. The board shall not adopt a resolution for or approve a lease-purchase arrangement that exceeds five years or creates a total general obligation indebtedness in the college district which, when combined with other outstanding college district

general obligation debt, exceeds three percent of the assessed valuation of the taxable property within the college district as shown in the preceding general assessment.

D. College districts are authorized to enter into lease-purchase arrangements for the purpose of refunding or refinancing any lease-purchase arrangements then outstanding, including the payment of any prepayment of redemption premiums thereon and any interest accrued or to accrue to the date of purchase, prepayment, redemption or maturity of the outstanding lease-purchase arrangements. Until the proceeds of the lease-purchase arrangements issued for the purpose of refunding or refinancing outstanding lease-purchase arrangements are applied to the purchase, prepayment, redemption or retirement of the outstanding lease-purchase arrangements, the proceeds may be placed in escrow and invested and reinvested. The interest, income and profits, if any, earned or realized on any such investment may, in the discretion of the board, also be applied to the payment of the outstanding lease-purchase arrangements to be refunded or refinanced by purchase, prepayment, redemption or retirement, as the case may be. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, if any, earned or realized on the investments thereof may be returned to the board to be used for payment of the refunding or refinancing lease-purchase arrangement. All such refunding or refinancing lease-purchase arrangements shall be entered into under, secured and subject to the provisions of the College District Tax Act in the same manner and to the same extent as any other lease-purchase arrangements entered into pursuant to that act."

Chapter 252 Section 4 Laws 2019

A. The state does hereby pledge to and agree with the holders of any lease-purchase arrangement entered into pursuant to the College District Tax Act that the state will not limit or alter the rights hereby vested in college districts to fulfill the terms of any lease-purchase arrangement or in any way impair the rights and remedies of the holders of lease-purchase arrangements until the payments due thereon, and all costs and expenses in connection with any action or proceedings by or on behalf of those holders, are fully met and discharged. College districts are authorized to include this pledge and agreement of the state in any lease-purchase arrangement.

B. Lease-purchase arrangements entered into pursuant to the College District Tax Act shall be legal investments in which all insurance companies, banks and savings and loan associations organized under the laws of the state, public officers and public bodies and all administrators, guardians, executors, trustees and other fiduciaries may properly and legally invest funds.

C. The state covenants with the purchasers and all subsequent holders and transferees of lease-purchase arrangements entered into by boards, in consideration of the acceptance of and payment for the lease-purchase arrangements entered into pursuant to the College District Tax Act, that lease-purchase arrangements and the income from the lease-purchase arrangements shall at all times be free from taxation by the state, except for estate or gift taxes and taxes on transfers.

D. The College District Tax Act shall be deemed to provide an additional and alternative method for acquiring educational technology equipment and shall be regarded as supplemental and additional to powers conferred by other laws and shall not be regarded as a derogation of any powers now existing. The College District Tax Act shall be deemed to provide complete authority for acquiring educational technology equipment and entering into lease-purchase arrangements. No other approval of any state agency or officer, except as provided in that act, shall be required with respect to any lease-purchase arrangements, and the board acting pursuant to provisions of that act need not comply with the requirements of any other law applicable to the issuance of debt by college districts; provided, however, that a board may submit to a vote of qualified electors of the college district the question of creating debt by entering into a lease-purchase arrangement; and provided further that the board shall abide by the vote of the majority of those persons voting on the question."

H. A formerly restrained party who has surrendered or had firearms taken by a law enforcement officer or law enforcement agency pursuant to this section who does not wish the firearm returned or who is no longer eligible to possess a firearm may sell or transfer the firearm to a federal firearms licensee. For the purposes of this subsection, "dispose" means to destroy a firearm or sell or transfer the firearm to a federal firearms licensee.

J. The provisions of this section shall not be interpreted to require a federal firearms licensee to purchase or accept possession of a firearm from a restrained party.

"59A-18-13.1. ADJUSTED COMMUNITY RATING.--

A. Every insurer, fraternal benefit society, multiple employer welfare arrangement, health maintenance organization or nonprofit health care plan that provides primary health insurance or health care coverage insuring or covering major medical expenses shall, in determining the initial year's premium charged for an individual, use only the rating factors of age, geographic area of the place of employment and smoking practices, except that for individual policies the rating factor of the individual's place of residence may be used instead of the geographic area of the individual's place of employment.

B. Separately for an insurer's individual and group policies, no person's rate shall exceed the rate of any other person with similar family composition by more than two hundred fifty percent of the lower rate, except that the rates for children under nineteen years of age or children nineteen to twenty-five years of age who are full-time students may have rates that are lower than the bottom rates in the two hundred fifty percent band. The rating factor restrictions shall not prohibit an insurer, multiple employer welfare arrangement, fraternal benefit society, health maintenance organization or nonprofit health care plan from offering rates that differ depending upon family composition. For the purposes of this subsection, "family composition" refers only to whether coverage covers an individual or a family.

C. The provisions of this section do not preclude an insurer, multiple employer welfare arrangement, fraternal benefit society, health maintenance organization or nonprofit health care plan from using health status or occupational or industry classification in establishing the amount a large group health benefits plan may be charged for coverage.

D. As used in Subsection C of this section, "health status" does not include genetic information.

E. The superintendent shall adopt regulations to implement the provisions of this section."

B. the right to a continuation of coverage or conversion pursuant to this section shall not exist with respect to any member or employee of the group insured or any covered family member in the event the coverage terminates for nonpayment of premium, nonrenewal of the policy or the expiration of the term for which the policy is issued. Continued and converted coverages shall contain renewal provisions that are not less

favorable to the insured than those contained in the policy from which the conversion is made, except that the person who exercises the right of conversion is entitled only to have included a right to coverage under a medicare supplement insurance policy, as defined by the rules and regulations adopted by the superintendent, after the attainment of the age of eligibility for medicare or any other similar federal or state health insurance program;

D. at the time of inception of coverage, the insurer shall furnish to each covered family member who is eighteen years of age or over and to each employee or member of the group insured a statement setting forth in summary form the continuation of coverage and conversion provisions of the policy;

E. the insurer shall notify in writing each employee or member, upon that employee's or member's termination of employment or membership with the group insured, of the continuation and conversion provisions of the policy. The employer may give the written notice specified herein. The employer should notify the insurer of the employee's or member's change of status and last known address. I. any probationary or waiting period set forth in the converted or separate policy is deemed to commence on the effective date of the applicant's coverage under the original policy."

Chapter 259 Section 3 Laws 2019

SECTION 3. Section 59A-18-16.2 NMSA 1978 (being Laws 2011, Chapter 144, Section 12) is amended to read:

"59A-18-16.2. HEALTH INSURANCE OR HEALTH PLAN FORM AND RATE FILINGS--SUPERINTENDENT--RULEMAKING--COMPLIANCE WITH FEDERAL LAW.--

A. A small group health plan and a health insurance issuer or multiple employer welfare arrangement offering a small group or individual health insurance plan that provides benefits other than excepted benefits shall:

(1) provide the essential health benefits defined by the superintendent under Subsection B of this section;

(2) limit cost sharing for such coverage in accordance with Subsection D of this section; and

(3) provide coverage without cost sharing for preventive benefits in accordance with Subsection E of this section.

B. The superintendent shall define by rule the essential health benefits package to include at least the following general categories and the items and services covered within the categories:

(1) ambulatory patient services;

(2) emergency services;

(3) hospitalization;

(4) maternity and newborn care;

(5) mental health and substance use disorder services, including behavioral health treatment;

(6) prescription drugs;

(7) rehabilitative and habilitative services and devices;

(8) laboratory services;

and (9) preventive and wellness services and chronic disease management;

(10) pediatric services, including oral and vision care.

C. In defining the essential health benefits pursuant to Subsection B of this section, the superintendent shall:

(1) ensure that such essential health benefits reflect an appropriate balance among the categories described in that subsection, so that benefits are not unduly weighted toward any category;

(2) not make coverage decisions, determine reimbursement rates, establish incentive programs or design benefits in ways that discriminate against individuals because of their age, disability or expected length of life;

(3) take into account the health care needs of diverse segments of the population, including women, children, persons with disabilities and other groups;

(4) ensure that health benefits established as essential not be subject to denial to individuals against their wishes on the basis of the individual's age or expected length of life or of the individual's present or predicted disability, degree of medical dependency or quality of life;

(5) provide that if a plan is offered through the New Mexico health insurance exchange, another health insurance plan offered through the New Mexico health insurance exchange shall not fail to be treated as a qualified health plan solely because the plan does not offer coverage of benefits offered through the standalone plan that are otherwise required; and

(6) periodically update the essential health benefits under Subsection B of this section to address any gaps in access to coverage or changes in the evidence base identified by the superintendent.

D. A group health plan and a health insurance issuer offering a group or individual health insurance plan shall not establish a restricted lifetime or annual limit on the dollar value of benefits for any participant or beneficiary with respect to benefits that are essential health benefits, as determined by the superintendent. The provisions of this subsection shall not be construed to prevent a group health plan or health insurance plan from placing annual or lifetime per-beneficiary limits on specific covered benefits that are not essential health benefits, to the extent that these limits are otherwise permitted under federal or state law.

E. The superintendent shall adopt and promulgate rules specifying the maximum cost-sharing amounts for which an insured may be held liable for payment of covered benefits under any health insurance plan that provides benefits other than excepted benefits, including deductibles, coinsurance, copayments or similar charge, and any other expenditure required of an insured individual with respect to essential health benefits covered under the plan, but not including premiums, balance billing amounts for non-network providers or spending for non-covered services.

G. A group health plan and a health insurance issuer offering a group or individual health insurance plan that provides benefits other than excepted benefits shall provide coverage for and shall not impose any cost-sharing requirements for:

(1) items or services that have in effect a rating of "A" or "B" in the current recommendations of the United States preventive services task force;

(4) with respect to women, additional preventive care and screenings to those described in Paragraph (1) of this subsection, as provided for in comprehensive guidelines supported by the health resources and services administration of the United States department of health and human services.

H. The provisions of Subsection G of this section shall not be construed to prohibit a health insurance plan or health insurance issuer from providing coverage for services in addition to those recommended by the United States preventive services task force or to deny coverage for services that are not described in this section. The superintendent shall establish by rule a minimum interval between the date on which a recommendation described in Paragraphs (1) and (2) of Subsection G of this section or a guideline under Paragraph (3) of Subsection G of this section is issued and the plan year with respect to which the requirement described in Subsection G of this section is effective with respect to the service described in such recommendation or guideline;

provided that the interval shall not be less than one year from the date the federal recommendation or guideline is published.

I. If a health insurance plan is offered as a qualified health plan through the New Mexico health insurance exchange, the insurer offering the qualified health plan shall also offer that plan through the health insurance exchange as a plan that restricts enrollment to individuals who, as of the beginning of a plan year, have not attained the age of twenty-one years.

J. The superintendent shall adopt rules:

(1) to define terms used regarding forms, rates, reviews and blocks of business that an insurer or health care plan submits in filing matters;

(2) to govern any additional filing requirements the superintendent deems appropriate;

(3) to provide notice of hearings and the grounds on which the hearings have been requested;

(4) to meet criteria for review in accordance with federal law; and

(5) that the superintendent deems appropriate to carry out the provisions of Chapter 59A, Article 18 NMSA 1978.

K. Except as provided by state or federal rule or law, nothing in this section shall be construed to prohibit a health insurance carrier from appropriately using reasonable health care cost management techniques.

L. As used in this section, "excepted benefits" means benefits furnished pursuant to the following:

(1) coverage-only accident or disability income insurance;

(2) coverage issued as a supplement to liability insurance;

(3) liability insurance;

(4) workers' compensation or similar insurance;

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 268 Section 1 Laws 2019

SECTION 1. Section 61-11-18.2 NMSA 1978 (being Laws 2007, Chapter 15, Section 1) is amended to read:

"61-11-18.2. AUDIT OF PHARMACY RECORDS.--

A. An audit of the records of a pharmacy by an entity shall be conducted in accordance with the following criteria:

(1) the entity conducting the initial on-site audit shall give the pharmacy notice at least two weeks prior to conducting the initial on-site audit for each audit cycle;

(2) an audit that involves clinical or professional judgment shall be conducted by or in consultation with a pharmacist;

(3) a clerical or recordkeeping error, regarding a required document or record, shall not necessarily constitute fraud, and that error:

(a) shall not be the basis for recoupment unless the error results in overpayment to the pharmacy, and any amount to be charged back or recouped due to overpayment shall not exceed the amount the pharmacy was overpaid; and

(b) shall not be subject to criminal penalties without proof of intent to commit fraud;

(4) a pharmacy may use the records of a hospital, physician or other authorized practitioner of the healing arts for drugs or medicinal supplies written or transmitted by any means of communication for purposes of validating the pharmacy record with respect to orders or refills of a dangerous drug or controlled substance;

(5) a finding of an overpayment or underpayment shall be based on the actual overpayment or underpayment of a specific individual claim;

(6) each pharmacy shall be audited under the same standards and parameters as other similarly situated pharmacies audited by the entity;

(7) a pharmacy shall be allowed at least twenty-one business days, with reasonable extensions allowed, following receipt of the preliminary audit report in which to produce documentation to address any discrepancy found during an audit;

(8) the period covered by an audit shall not exceed two years from the date the claim was submitted to or adjudicated by an entity, unless it conflicts with state or federal law;

(9) an audit shall not be initiated or scheduled during the first five calendar days of a month;

(10) the preliminary audit report shall be delivered to the pharmacy within one hundred twenty days, with reasonable extensions allowed, after conclusion of the audit, and the final report shall be delivered to the pharmacy within six months after receipt of the preliminary audit report or final appeal, as provided for in Subsection B of this section, whichever is later;

(12) the auditing entity conducting a pharmacy audit shall not compensate an employee or contractor with which an auditing entity contracts to conduct a pharmacy audit based on the amount claimed or the actual amount recouped from the pharmacy being audited;

(13) an entity shall not charge a fee for conducting an on-site or a desk audit unless there is a finding of actual fraud;

(14) as a result of an audit finding, a pharmacist or pharmacy may resubmit a claim within twenty-one business days to correct clerical or recordkeeping errors in lieu of recoupment of a claim where no actual financial harm to the patient has occurred; provided that the prescription was dispensed according to prescription documentation requirements pursuant to the Pharmacy Act;

(15) the requirements for a valid prescription or a pharmacy benefits manager's required operational standards for pharmacies shall not be more stringent than federal or state requirements;

(16) with notice to the prescriber, a pharmacy or pharmacist may satisfy state and federal requirements for a valid prescription by affixing or writing additional information on the front or back of a prescription or if the required information is electronically recorded on a patient's profile and is readily retrievable;

(17) the days' supply for unit-of-use items, such as topicals, drops, vials and inhalants, shall not be limited beyond manufacturer recommendations;

(18) if the only commercially available package size exceeds an entity's maximum days' supply, the dispensing of such package size must be accepted by the entity and shall not be the basis for recoupment;

(19) if the only commercially available package size exceeds an entity's maximum days' supply and the entity accepts the refill of such prescription, the entity shall not recoup such claim as an early refill; and

(20) the failure of a pharmacy to collect a copayment shall not be the basis for recoupment if the pharmacy provides documentation of billing of the claim and a reasonable attempt to collect the copayment.

B. Recoupment of any disputed funds shall occur after final internal disposition of the audit, including the appeals process set forth in Subsection C of this section. Should the identified discrepancy for an individual audit exceed twenty-five thousand dollars (\$25,000), future payments to the pharmacy may be withheld pending finalization of the audit.

C. Each entity conducting an audit shall establish an appeals process under which a pharmacy may appeal an unfavorable preliminary audit report to the entity. If, following the appeal, the entity finds that an unfavorable audit report or any portion of the audit is unsubstantiated, the entity shall dismiss the audit report or the unsubstantiated portion of the report of the audit without the necessity of any further proceedings.

D. This section does not apply to any investigative audit that involves probable or potential fraud, waste, abuse or willful misrepresentation.

E. In a wholesale invoice audit conducted by an entity:

(1) an entity shall not audit the claims of another entity;

(2) the following shall not form the basis for recoupment:

(a) the national drug code for the dispensed drug is in a quantity that is a sub-unit or multiple of the purchased drug as reflected on a supporting wholesale invoice;

(c) the drug dispensed by the pharmacy on an audited pharmacy claim is identical to the strength and dosage form of the drug purchased;

~~(2) that the municipality or county has ninety days from the date notice is made to enter into a mutually agreeable repayment agreement with the department;~~

~~(3) that if the municipality or county takes no action within the ninety-day period, the department will recover the amount from the next six distributions or transfers following the expiration of the ninety days; and~~

~~(4) that the municipality or county may inspect, pursuant to Section 7-1-8.9 NMSA 1978, an application for a claim for refund that gave rise to the recoverable amount, exclusive of any amended returns that may be attached to the application.~~

~~E. No earlier than ninety days from the date notice pursuant to Subsection D of this section is given, the department shall begin recovering the recoverable amount from a municipality or county as follows:~~

~~(1) the department may collect the recoverable amount by:~~

~~(2) if, pursuant to Subsection B of this section, the secretary determines that the recoverable amount is more than fifty percent of the average distribution or transfer of net receipts for that municipality or county, the secretary:~~

~~(a) shall recover only up to fifty percent of the average distribution or transfer of net receipts for that municipality or county; and~~

~~(b) may, in the secretary's discretion, waive recovery of any portion of the recoverable amount, subject to approval by the state board of finance; and~~

~~(3) if, after application of a refund claim, audit adjustment, correction of a mistake by the department or other adjustment of a prior period, but prior to any recovery of the department pursuant to this section, the total net receipts of a municipality or county for the twelve-month period beginning with the current month are reduced or are projected to be reduced to less than fifty percent of the average distribution or transfer of net receipts, the secretary may waive recovery of any portion of the recoverable amount, subject to approval by the state board of finance.~~

~~F. No later than ninety days from the date notice pursuant to Subsection D of this section is given, the department shall provide the municipality or county adequate opportunity to review an application for a claim for refund that gave rise to the~~

~~recoverable amount, exclusive of any amended returns that may be attached to the application, pursuant to Section 7-1-8.9 NMSA 1978.~~

~~G.—On or before September 1 of each year beginning in 2016, the secretary shall report to the state board of finance and the legislative finance committee the total recoverable amount waived pursuant to Subparagraph (b) of Paragraph (2) and Paragraph (3) of Subsection E of this section for each municipality and county in the prior fiscal year.~~

A decrease to or redirection of a distribution or transfer pursuant to this subsection that arose:~~

~~(1) prior to an adjustment of a distribution or transfer of net receipts creating a recoverable amount owed to the department takes precedence over any collection of any recoverable amount pursuant to Paragraph (2) of Subsection B of this section, which may be made only from the net amount of the distribution or transfer remaining after application of the decrease or redirection pursuant to this subsection; and~~

~~(2) after an adjustment of a distribution or transfer of net receipts creating a recoverable amount owed to the department shall be subordinate to any collection of any recoverable amount pursuant to Paragraph (2) of Subsection B of this section.~~

~~I.—Upon the direction of the secretary of finance and administration pursuant to Section 9-6-5.2 NMSA 1978, the secretary shall temporarily withhold the balance of a distribution to a municipality or county, net of any decrease or redirected amount pursuant to Subsection H of this section and any recoverable amount pursuant to Paragraph (2) of Subsection B of this section, that has failed to submit an audit report required by the Audit Act or a financial report required by Subsection F of Section 6-6-2 NMSA 1978. B. Utility revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing or otherwise improving a municipal utility or for any combination of the foregoing purposes. The municipality may pledge irrevocably any or all of the net

revenues from the operation of the municipal utility or of any one or more of other such municipal utilities for payment of the interest on and principal of the revenue bonds.

C. Joint utility revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing or otherwise improving joint water facilities, sewer facilities, gas facilities or electric facilities or for any combination of the foregoing purposes. The municipality may pledge irrevocably any or all of the net revenues from the operation of these municipal utilities for the payment of the interest on and principal of the bonds.

D. Gross receipts tax revenue bonds may be issued for any municipal purpose. A municipality may pledge irrevocably any or all of the gross receipts tax revenue received by the municipality pursuant to Section 7-1-6.4 or 7-1-6.12 NMSA 1978 to the payment of the interest on and principal of the gross receipts tax revenue bonds or for any area of municipal government services. A law that imposes or authorizes the imposition of a tax authorized by the Municipal Local Option Gross Receipts Taxes Act or that affects the tax, or a law supplemental thereto or otherwise appertaining thereto, shall not be repealed or amended or otherwise directly or indirectly modified in such a manner as to impair adversely any outstanding revenue bonds that may be secured by a pledge of such tax unless the outstanding revenue bonds have been discharged in full or provision has been fully made therefor. Revenues in excess of the annual principal and interest due on gross receipts tax revenue bonds secured by a pledge of gross receipts tax revenue may be accumulated in a debt service reserve account. The governing body of the municipality may appoint a commercial bank trust department to act as trustee of the gross receipts tax revenue and to administer the payment of principal of and interest on the bonds.

The municipality may pledge irrevocably any or all of the net revenues from the operation of the revenue-producing project for which the particular project revenue bonds are issued to the payment of the interest on and principal of the project revenue bonds. The net revenues of any revenue-producing project may not be pledged to the project revenue

bonds issued for a revenue-producing project that clearly is unrelated in nature; but nothing in this subsection shall prevent the pledge to such project revenue bonds of any revenues received from existing, future or disconnected facilities and equipment that are related to and that may constitute a part of the particular revenue-producing project. A general determination by the governing body that any facilities or equipment is reasonably related to and constitutes a part of a specified revenue-producing project shall be conclusive if set forth in the proceedings authorizing the project revenue bonds.

G. Fire district revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping and rehabilitating any fire district project, including, where applicable, purchasing, otherwise acquiring or improving the ground therefor, or for any combination of the foregoing purposes. Revenues in excess of the annual principal and interest due on gross receipts tax revenue bonds secured by a pledge of gross receipts tax revenue may be accumulated in a debt service reserve account. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

SECTION 1. Pursuant to the provisions of Section 19-2-2 NMSA 1978, concurrent legislative jurisdiction is granted to the United States over lands and waters owned, managed, leased or administered by the United States within the authorized boundaries in effect on January 1 of the year in which this resolution is considered of the following units of the national park system in New Mexico:

- A. Petroglyph national monument; and

SECTION 2. As used in this resolution, "concurrent legislative jurisdiction" means the vesting in the state and the United States of all the rights accorded a sovereign with the broad qualification that such authority is held concurrently over matters, including criminal laws and police powers, and that it is the parallel right of both the state and the federal government to legislate with respect to such land and persons present or residing on it.
