## **Chapter 24 Section 2 Laws 2023**

SECTION 2. Section 31-21-10 NMSA 1978 (being Laws 1980, Chapter 28, Section 1, as amended) is amended to read:

"31-21-10. PAROLE AUTHORITY AND PROCEDURE.--

A. Except as provided in Section 31-21-10.2 NMSA 1978, an inmate of an institution who was sentenced to life imprisonment becomes eligible for a parole hearing after the inmate has served thirty years of the sentence. Before ordering the parole of an inmate sentenced to life imprisonment, the board shall:

- (1) interview the inmate at the institution where the inmate is committed;
- (2) consider all pertinent information concerning the inmate, including:
  - (a) the circumstances of the offense;
  - (b) mitigating and aggravating circumstances;
  - (c) whether a deadly weapon was used in the commission of the offense;
  - (d) whether the inmate is a habitual offender;
  - (e) the reports filed under Section 31-21-9 NMSA 1978; and
  - (f) the reports of such physical and mental examinations as have been made while in an institution;

(3) make a finding that a parole is in the best interest of society and the inmate; and

(4) make a finding that the inmate is able and willing to fulfill the obligations of a law-abiding citizen.

If parole is denied, the inmate sentenced to life imprisonment shall again become entitled to a parole hearing at two-year intervals. The board may, on its own motion, reopen any case in which a hearing has already been granted and parole denied.

B. Unless the board finds that it is in the best interest of society and the parolee to reduce the period of parole, a person who was sentenced to life imprisonment shall be required to undergo a minimum period of parole of five years. During the period of parole, the person shall be under the guidance and supervision of the board.

C. An inmate of an institution who was sentenced to life imprisonment without possibility of release or parole is not eligible for parole and shall remain incarcerated for the entirety of the inmate's natural life.

D. Except for certain sex offenders as provided in Section 31-21-10.1 NMSA 1978, an inmate who was convicted of a first, second or third degree felony and who has served the sentence of imprisonment imposed by the court in an institution designated by the corrections department shall be required to undergo a two-year period of parole. An inmate who was convicted of a fourth degree felony and who has served the sentence of imprisonment imposed by the court in an institution designated by the corrections department shall be required to undergo a one-year period of parole. During the period of parole, the person shall be under the guidance and supervision of the board.

E. Every person while on parole shall remain in the legal custody of the institution from which the person was released, but shall be subject to the orders of the board. The board shall furnish to each inmate as a prerequisite to release under its supervision a written statement of the conditions of parole that shall be accepted and agreed to by the inmate as evidenced by the inmate's signature affixed to a duplicate copy to be retained in the files of the board. The board shall also require as a prerequisite to release the submission and approval of a parole plan. If an inmate refuses to affix the inmate's signature to the written statement of the conditions of parole or does not have an approved parole plan, the inmate shall not be released and shall remain in the custody of the institution in which the inmate has served the inmate's sentence, excepting parole, until such time as the period of parole the inmate was required to serve, less meritorious deductions, if any, expires, at which time the inmate shall be released from that institution without parole, or until such time that the inmate evidences acceptance and agreement to the conditions of parole as required or receives approval for the inmate's parole plan or both. Time served from the date that an inmate refuses to accept and agree to the conditions of parole or fails to receive

approval for the inmate's parole plan shall reduce the period, if any, to be served under parole at a later date. If the district court has ordered that the inmate make restitution to a victim as provided in Section 31-17-1 NMSA 1978, the board shall include restitution as a condition of parole. The board shall also personally apprise the inmate of the conditions of parole and the inmate's duties relating to those conditions of parole.

F. When a person on parole has performed the obligations of the person's release for the period of parole provided in this section, the board shall make a final order of discharge and issue the person a certificate of discharge.

G. Pursuant to the provisions of Section 31-18-15 NMSA 1978, the board shall require the inmate as a condition of parole:

(1) to pay the actual costs of parole services to the adult probation and parole division of the corrections department for deposit to the corrections department intensive supervision fund not exceeding one thousand eight hundred dollars (\$1,800) annually to be paid in monthly installments of not less than twenty-five dollars (\$25.00) and not more than one hundred fifty dollars (\$150), as set by the appropriate district supervisor of the adult probation and parole division, based upon the financial circumstances of the inmate. The inmate's payment of the supervised parole costs shall not be waived unless the board holds an evidentiary hearing and finds that the inmate is unable to pay the costs. If the board waives the inmate's payment of the supervised parole costs and the inmate's financial circumstances subsequently change so that the inmate is able to pay the costs, the appropriate district supervisor of the adult probation and parole division shall advise the board and the board shall hold an evidentiary hearing to determine whether the waiver should be rescinded; and

(2) to reimburse a law enforcement agency or local crime stopper program for the amount of any reward paid by the agency or program for information leading to the inmate's arrest, prosecution or conviction.

H. The provisions of this section shall apply to all inmates except geriatric, permanently incapacitated and terminally ill inmates eligible for the medical and geriatric parole program as provided by the Parole Board Act."

## **Chapter 24 Section 3 Laws 2023**

"31-21-10.2. PAROLE FOR CHILDREN SENTENCED AS ADULTS.--

A. Unless subject to earlier eligibility for parole pursuant to another provision of law, a serious youthful offender sentenced pursuant to Section 31-18-15.3 NMSA 1978 or a youthful offender sentenced as an adult pursuant to Section 32A-2-20 NMSA

1978 shall be eligible for parole and entitled to a parole hearing after the offender has served:

(1) twenty-five years of the sentence if the sentence is for two or more convictions of first degree murder pursuant to Section 30-2-1 NMSA 1978;

(2) twenty years of the sentence if the sentence is for one conviction of either first degree willful and deliberate murder pursuant to Paragraph (1) of Subsection A of Section 30-2-1 NMSA 1978 or first degree depraved-mind murder pursuant to Paragraph (3) of Subsection A of Section 30-2-1 NMSA 1978; or

(3) fifteen years of the sentence if the sentence is for a conviction pursuant to any other qualifying provision of law.

Parole eligibility and a parole hearing shall occur whether the offender is serving concurrent or consecutive sentences for multiple convictions arising from the same case. If the offender is serving sentences for convictions arising from multiple cases, the time counted toward parole eligibility for a particular case does not begin to accrue until that sentence for the case is being served.

B. If parole is denied, the offender shall be eligible for parole and entitled to a parole hearing every five years thereafter, unless the offender is subject to earlier eligibility for parole pursuant to any other provision of law.

C. During a parole eligibility hearing involving an offender subject to a parole hearing pursuant to this section, the board shall take into consideration, in addition to other factors the board is required by law to consider:

(1) where available, a statement by a victim or a relative of a victim of the offense for which the offender is imprisoned;

(2) the offender's age at the time of committing the offense;

(3) the nature of the offense and the history and characteristics of the offender;

(4) whether the offender has substantially complied with the rules of the institution to which the offender has been confined, including whether the offender has completed an educational, vocational or other program, where available, while confined;

(5) whether the offender has demonstrated maturity, rehabilitation and a fitness to reenter society;

(6) physical, mental or psychiatric reports or examinations of the offender conducted by licensed health care professionals;

(7) the offender's family and community circumstances at the time of committing the offense, including the offender's history of abuse, trauma or involvement in the child welfare system;

(8) the extent of the offender's role in the offense and whether an adult or peer was involved in the offense;

(9) the diminished culpability of juveniles as compared to that of adults and the hallmark features of youth, including immaturity, impetuosity and failure to appreciate risks and consequences; and

(10) other information that the board deems relevant to its decision.

D. An offender eligible for parole pursuant to this section shall be entitled to representation by counsel at all parole eligibility hearings.

E. An offender eligible for or granted parole pursuant to this section shall be subject to those provisions of the Probation and Parole Act not in conflict with this section.

F. The board shall annually conduct a review of all offenders currently serving an adult sentence for an offense committed as a child to ensure that parole eligibility hearings required pursuant to this section are timely conducted."

## **Chapter 24 Section 4 Laws 2023**

SECTION 4. Section 32A-2-20 NMSA 1978 (being Laws 1993, Chapter 77, Section 49, as amended) is amended to read:

"32A-2-20. DISPOSITION OF A YOUTHFUL OFFENDER.--

A. The court has the discretion to invoke either an adult sentence or juvenile sanctions on a youthful offender. The children's court attorney shall file a notice of intent to invoke an adult sentence within ten working days of the filing of the petition; provided that the court may extend the time for filing of the notice of intent to invoke an adult sentence, for good cause shown, prior to the adjudicatory hearing. A preliminary hearing by the court or a hearing before a grand jury shall be held, within ten days after the filing of the intent to invoke an adult sentence, to determine whether probable cause exists to support the allegations contained in the petition.

B. If the children's court attorney has filed a notice of intent to invoke an adult sentence and the child is adjudicated as a youthful offender, the court shall make the following findings in order to invoke an adult sentence:

(1) the child is not amenable to treatment or rehabilitation as a child in available facilities; and

(2) the child is not eligible for commitment to an institution for children with developmental disabilities or mental disorders.

C. In making the findings set forth in Subsection B of this section, the judge shall consider the following factors:

- (1) the seriousness of the alleged offense;
- (2) whether the alleged offense was committed in an aggressive, violent, premeditated or willful manner;
- (3) whether a firearm was used to commit the alleged offense;
- (4) whether the alleged offense was against persons or against property, greater weight being given to offenses against persons, especially if personal injury resulted;
- (5) the maturity of the child as determined by consideration of the child's home, environmental situation, social and emotional health, pattern of living, brain development, trauma history and disability;
- (6) the record and previous history of the child;
- (7) the prospects for adequate protection of the public and the likelihood of reasonable rehabilitation of the child by the use of procedures, services and facilities currently available; and
- (8) any other relevant factor, provided that factor is stated on the record.

D. If a child has previously been sentenced as an adult pursuant to the provisions of this section, there shall be a rebuttable presumption that the child is not amenable to treatment or rehabilitation as a child in available facilities.

E. If the court invokes an adult sentence, the court may sentence the child to less than, but shall not exceed, the mandatory adult sentence. A youthful offender given an adult sentence shall be treated as an adult offender and shall be transferred to the legal custody of an agency responsible for incarceration of persons sentenced to adult sentences. This transfer terminates the jurisdiction of the court over the child with respect to the delinquent acts alleged in the petition. A child given an adult sentence shall not be sentenced to life imprisonment without the possibility of release or parole.

F. If a juvenile disposition is appropriate, the court shall follow the provisions set forth in Section 32A-2-19 NMSA 1978. A youthful offender may be subject to extended commitment in the care of the department until the age of twenty-one, pursuant to the provisions of Section 32A-2-23 NMSA 1978.

G. A child fourteen years of age or older, charged with first degree murder, but not convicted of first degree murder and found to have committed a youthful offender offense as set forth in Subsection J of Section 32A-2-3 NMSA 1978, is subject to the dispositions set forth in this section.

H. A child fourteen years of age or older charged with first degree murder, but found to have committed a delinquent act that is neither first degree murder nor a youthful offender offense as set forth in Subsection J of Section 32A-2-3 NMSA 1978, shall be adjudicated as a delinquent subject to the dispositions set forth in Section 32A-2-19 NMSA 1978."

## **Chapter 24 Section 5 Laws 2023**

AN ACT

RELATING TO TELECOMMUNICATIONS; AMENDING THE RURAL TELECOMMUNICATIONS ACT OF NEW MEXICO; PROVIDING FOR THE USE OF THE STATE RURAL UNIVERSAL SERVICE FUND FOR CONSUMER BROADBAND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

## **Chapter 37 Section 1 Laws 2023**

SECTION 1. Section 63-9H-6 NMSA 1978 (being Laws 1999, Chapter 295, Section 6, as amended by Laws 2021, Chapter 118, Section 2 and by Laws 2021, Chapter 120, Section 9) is amended to read:

### **"63-9H-6. STATE RURAL UNIVERSAL SERVICE FUND--ESTABLISHMENT.--**

A. The commission shall implement and maintain a "state rural universal service fund" to maintain and support universal service that is provided by eligible telecommunications carriers, including commercial mobile radio services carriers, as are determined by the commission. As used in this section, "universal service" means basic local exchange service, comparable retail alternative services at affordable rates, service pursuant to a low-income telephone assistance plan and broadband internet access service to unserved and underserved areas as determined by the commission.

B. The fund shall be financed by a surcharge on intrastate retail public telecommunications services to be determined by the commission, excluding services provided pursuant to a low-income telephone assistance plan billed to end-user customers by a telecommunications carrier, and excluding all amounts from surcharges, gross receipts taxes, excise taxes, franchise fees and similar charges. For the purpose of funding the fund, the commission has the authority to apply the surcharge on intrastate retail public telecommunications services provided by telecommunications carriers, including commercial mobile radio services and voice over internet protocol services, at a competitively and technologically neutral rate or rates to be determined by the commission. The commission may establish the surcharge as a percentage of intrastate retail public telecommunications services revenue or as a fixed amount applicable to each communication connection. For purposes of this section, a "communication connection" means a voice-enabled telephone access line, wireless voice connection, unique voice over internet protocol service connection or other uniquely identifiable functional equivalent as determined by the commission. Such surcharges shall be competitively and technologically neutral. Money deposited in the fund is not public money, and the administration of the fund is not subject to the provisions of law regulating public funds. The commission shall not apply this surcharge to a private telecommunications network; to the state, a county, a municipality or other governmental entity; to a public school district; to a public institution of higher education; to an Indian nation, tribe or pueblo; or to Native American customers who reside on tribal or pueblo land.

C. The fund shall be competitively and technologically neutral, equitable and nondiscriminatory in its collection and distribution of funds, portable between eligible telecommunications carriers and additionally shall provide a specific, predictable and sufficient support mechanism as determined by the commission that ensures universal service in the state.

D. The commission shall:

(1) establish eligibility criteria for participation in the fund consistent with federal law that ensure the availability of universal service at affordable rates. The eligibility criteria shall not restrict or limit an eligible telecommunications carrier from receiving federal universal service support;

(2) provide for the collection of the surcharge on a competitively neutral basis and for the administration and disbursement of money from the fund;

(3) determine those services and areas requiring support from the fund;

(4) provide for the separate administration and disbursement of federal universal service funds consistent with federal law; and

(5) establish affordability benchmark rates for local residential and business services that shall be utilized in determining the level of support from the fund. The process for determining subsequent adjustments to the benchmark shall be established through a rulemaking.

E. All incumbent telecommunications carriers and competitive carriers already designated as eligible telecommunications carriers for the fund shall be eligible for participation in the fund. All other carriers that choose to become eligible to receive support from the fund may petition the commission to be designated as an eligible telecommunications carrier for the fund. The commission may grant eligible carrier status to a competitive carrier in a rural area upon a finding that granting the application is in the public interest. In making a public interest finding, the commission may consider at least the following items:

(1) the impact of designation of an additional eligible carrier on the size of the fund;

(2) the unique advantages and disadvantages of the competitor's service offering; and

(3) any commitments made regarding the quality of telephone service.

F. The commission shall adopt rules, including a provision for variances, for the implementation and administration of the fund in accordance with the provisions of this section. The rules shall enumerate the appropriate uses of fund support and any

restrictions on the use of fund support by eligible telecommunications carriers. The rules shall require that an eligible telecommunications carrier receiving support from the fund pursuant to Subsection K, L, M or N of this section must expend no less than sixty percent of the support it receives to deploy and maintain broadband internet access services in rural areas of the state. The rules also shall provide for annual reporting by eligible telecommunications carriers verifying that the reporting carrier continues to meet the requirements for designation as an eligible telecommunications carrier for purposes of the fund and is in compliance with the commission's rules, including the provisions regarding use of support from the fund.

G. The commission shall, upon implementation of the fund, select a neutral third-party administrator to collect, administer and disburse money from the fund under the supervision and control of the commission pursuant to established criteria and rules promulgated by the commission. The administrator may be reasonably compensated for the specified services from the surcharge proceeds to be received by the fund pursuant to Subsection B of this section. For purposes of this subsection, the commission shall not be a neutral third-party administrator.

H. The fund established by the commission shall ensure the availability of universal service as determined by the commission at affordable rates in rural areas of the state; provided, however, that nothing in this section shall be construed as granting any authority to the commission to impose the surcharge on or otherwise regulate broadband internet access services.

I. The commission shall ensure that intrastate switched access charges are equal to interstate switched access charges established by the federal communications commission as of January 1, 2006. Nothing in this section shall preclude the commission from considering further adjustments to intrastate switched access charges based on changes to interstate switched access charges.

J. To ensure that providers of intrastate retail communications service contribute to the fund and to further ensure that the surcharge determined pursuant to Subsection B of this section to be paid by the end-user customer will be held to a minimum, the commission shall adopt rules, or take other appropriate action, to require all such providers to participate in a plan to ensure accurate reporting.

K. The commission shall authorize payments from the fund to incumbent local exchange carriers, in combination with revenue-neutral rate rebalancing up to the affordability benchmark rates. Beginning in 2018, the commission shall make access reduction support payments in the amount made from the fund in base year 2014, adjusted each year thereafter by:

(1) the annual percentage change in the number of access lines served by the incumbent local exchange carriers receiving such support for the prior calendar year, as compared to base year 2014; and

(2) changes in the affordability benchmark rates that have occurred since 2014.

L. Notwithstanding the provisions of Subsection K of this section, the annual amount of access reduction support payments for an eligible incumbent local exchange carrier in 2024, 2025 and 2026 shall be equal to the annual access reduction support payments for that eligible incumbent local exchange carrier for the year 2023. Access reduction support payments shall be terminated after December 31, 2026.

M. The commission shall determine the methodology to be used to authorize payments to all other carriers that apply for and receive eligible carrier status; provided that:

(1) an eligible incumbent telecommunications carrier that is not eligible for funding pursuant to rate rebalancing in Subsection K of this section and that has been previously authorized pursuant to Subsection N of this section for need-based support may apply for ongoing fund support;

(2) the commission shall award an applicant ongoing fund support at no less than the average access line amount of funding support for comparable carriers; provided that an eligible telecommunications carrier receiving fund support pursuant to this subsection shall not offer basic local exchange residential and business services at rate levels lower than the rates for such services charged by any of the comparable carriers used for the determination of the level of support;

(3) the commission shall act upon a request for ongoing fund support within one hundred twenty days of the filing of the request; and

(4) nothing in this section shall limit the commission's authority to adopt rules pursuant to Subsection F of this section regarding appropriate uses of fund support and any restrictions on the use of the fund support by eligible telecommunications carriers.

N. The commission may also authorize payments from the fund to incumbent rural telecommunications carriers or to telecommunications carriers providing comparable retail alternative services that have been designated as eligible telecommunications carriers serving in rural areas of the state upon a finding, based on factors that may include a carrier's regulated revenues, expenses or investment, by the commission that such payments are needed to ensure the widespread availability and affordability of universal service. The commission shall decide cases filed pursuant to this subsection with reasonable promptness, with or without a hearing, but no later than six months following the filing of an application seeking payments from the fund, unless the commission finds that a longer time will be required, in which case the commission may extend the period for an additional three months.

O. The commission shall adopt rules that establish and implement a broadband program to provide funding to eligible telecommunications carriers for the construction and maintenance of broadband infrastructure. Each year, an amount equal to thirty million dollars (\$30,000,000) less the amounts expended pursuant to Subsections K, L, M and N of this section shall be dedicated to the broadband program.

P. Rules adopted pursuant to Subsection O of this section shall require that the commission:

- (1) consider applications for funding on a technology-neutral basis;
- (2) submit applications for funding to the connect New Mexico council for prioritization and alignment with the statewide broadband plan to ensure digital equity and digital inclusion; and
- (3) require that the awards of support be consistent with federal universal service support programs.

Q. The total obligations of the fund determined by the commission pursuant to this section, plus administrative expenses and a prudent fund balance, shall not exceed a cap of thirty million dollars (\$30,000,000) per year. The commission shall evaluate the amount of the cap in an appropriate proceeding to be completed by June 30, 2019 and consider whether, based on the then-current status of the fund, the cap should be modified, maintained or eliminated.

R. By October 1 of each year, the commission shall make a report to the legislature regarding the status of the fund, including:

- (1) relevant data relating to implementation of the broadband program and the progress toward digital equity and digital inclusion in rural areas of the state;
- (2) recommendations for changes to the structure, size and purposes of the fund and whether the cap on the fund provided for in Subsection Q of this section should be modified, maintained or eliminated; and
- (3) the service areas that received funding awards from the broadband program and the amounts of those awards.

S. The 2025 annual report made pursuant to Subsection R of this section shall include an assessment of the state rural universal service fund that addresses:

- (1) whether to repurpose the access reduction support funds into the commission's broadband support program;
- (2) a methodology for determining broadband support levels that is consistent with the requirements of Subsection C of this section and accounts, at a

minimum, for broadband costs, potential revenues from deployed infrastructure and existing federal support mechanisms;

(3) the appropriate size of the fund;

(4) criteria for awarding funding;

(5) the impact of proposed changes on per-connection assessments;  
and

(6) whether all sellers of prepaid telecommunications services should be required to collect state rural universal service fund assessments at the point of sale, similar to the methodology for collecting 911 emergency surcharges pursuant to Section 63-9D-5 NMSA 1978."

The notice of requested mailed ballot shall inform the voter of the address to which the ballot was mailed along with the phone number of the county clerk's office and the internet address of the voter web portal provided by the secretary of state. A completed official mailing envelope received after that time shall not be qualified or opened but shall be preserved by the county clerk for the applicable retention period provided in Section 1-12-69 NMSA 1978. The county clerk shall report the number of late ballots from voters, uniformed-service voters and overseas voters and report the number from each category to date on the final mailed ballot report and as part of the county canvass report. If additional late ballots are received, the county clerk shall update the number of late ballots from each category to the secretary of state.

B. On the day a returned mailed ballot is received by the county clerk, the county clerk shall mark the date of receipt on the outside of the official mailing envelope. Within one business day of receiving a returned official mailing envelope, the county clerk shall remove the privacy flap to verify that the voter signed the official mailing envelope and to confirm that the last four digits of the social security number provided by the voter match the information available to the county clerk; provided that no county clerk or deputy county clerk shall perform the verification process pursuant to this subsection unless the county clerk or deputy county clerk would also meet the requirements to be a challenger, watcher or election observer pursuant to Paragraphs (1) through (4) of Subsection C of Section 1-2-22 NMSA 1978.

C. If the voter's signature is present and the last four digits of the voter's social security number match, the county clerk shall note in the absentee ballot register that the information required to be provided by the voter under the privacy flap has been verified and shall safely keep the official mailing envelope unopened in a locked and number-sealed ballot box until it is delivered to the absent voter election board.

D. If either the voter's signature is missing or the last four digits of the voter's social security number are not provided or do not match, the county clerk shall make the appropriate notation in the absentee ballot register and shall safely keep the official mailing envelope unopened in a secured ballot box designated for those official mailing envelopes received that are missing the voter's signature or the last four digits of the voter's social security number or where the last four digits of the social security number do not match the information available to the county clerk. The county clerk shall immediately send the voter a notice to cure containing information regarding how the voter may provide documentation to cure the missing or incorrect information.

E. If, pursuant to Subsection F of Section 1-6-4 NMSA 1978, the voter was notified of the need to comply with federal identification requirements when returning the requested ballot and failed to comply, the county clerk shall preserve the inner envelope with the official mailing envelope and write "Rejected" on the front of the official mailing envelope, and the county clerk shall update the ballot register accordingly and immediately send the voter a notice to cure containing information regarding how the

voter may provide the missing or incorrect information. The county clerk shall place the official mailing envelope with the attached inner envelope in a container provided for rejected ballots; provided that if the county clerk was required to open the inner envelope to determine that the required documentary identification was not included, the untallied ballot shall be returned to the inner envelope and preserved along with the official mailing envelope in a container for this purpose.

F. The voter may provide the missing or corrected information at any time up to the conclusion of the appeal process for rejected ballots. If a voter provides the missing or corrected information:

(4) after approval of the county canvass report, the voter may appeal in accordance with appeal procedures for provisional ballots established by rule of the secretary of state pursuant to Section 1-12-25.2 NMSA 1978.

G. In a statewide election, if the unopened official mailing envelope is received by the county clerk from an election board before the absent voter election board has adjourned, the unopened official mailing envelope shall be transmitted to the absent voter election board to be tallied immediately. If the unopened official mailing envelope is received by the county clerk from an election board after the absent voter election board has adjourned, the unopened official mailing envelope shall be transmitted to an election board convened to assist in preparation of the county canvass report to be tallied and included in the canvass report of that county for the appropriate precinct."

"1-6-14. HANDLING MAILED BALLOTS.--

A. An absent voter election board may convene as provided in this section to process the official mailing envelopes that have been returned. Before opening an official mailing envelope, the presiding judge and the election judges shall determine that the county clerk has verified the required information on the reverse side of the official mailing envelope.

B. No sooner than the Monday before the election and before the absent voter election board adjourns, the board shall review each uncured returned official mailing envelope that the county clerk determined was missing a signature or the last four digits of the voter's social security number or for which the social security number did not match the information available to the county clerk and determine if the official mailing envelope should be qualified or rejected. An official mailing envelope rejected by the absent voter election board may be qualified if the reason for the rejection is cured at any time before the approval of the county canvass report or prior to the conclusion of an appeal by the voter.

C. Subject to the limitations in Subsection A of Section 1-2-25 NMSA 1978, a lawfully appointed challenger may view the official mailing envelope and may challenge the ballot of any mailed ballot voter for the following reasons:

- (1) the official mailing envelope has been opened by someone other than the voter prior to being received by the absent voter election board;
- (2) the official mailing envelope does not contain a signature;
- (3) the official mailing envelope does not contain the required voter identification; or

(4) the person offering to vote is not a voter as provided in the Election Code.

D. If a challenge is upheld by unanimous vote of the presiding judge and the election judges, the official mailing envelope shall not be opened but shall be placed in a container provided for challenged ballots. If the reason for the challenge is satisfied by the voter before the conclusion of the county canvass or as part of an appeal, the official mailing envelope shall be opened and the vote counted.

E. If the form on the reverse of the official mailing envelope has been completed by the voter with the voter's correct information, as verified by the county clerk, and the ballot has not been successfully challenged, the judges or election clerks shall make the appropriate notation in the ballot register.

F. For any election in which fewer than ten thousand mailed ballots were sent to the voters of a county, only between 8:00 a.m. and 10:00 p.m. on the five days preceding the election, and beginning at 7:00 a.m. on election day, under the personal supervision of the presiding election judge, shall the election judges open the official mailing envelope and the official inner envelope and insert the enclosed ballot into an electronic voting machine to be registered and retained until votes are counted by generating the report of the ballot results beginning no sooner than 9:00 a.m. on election day.

G. For any election in which ten thousand or more mailed ballots were sent to the voters of a county, only during the regular business hours of the office of the county clerk during the two weeks preceding the election, between 8:00 a.m. and 10:00 p.m. on the four days preceding the election and beginning at 7:00 a.m. on election day, under the personal supervision of the presiding election judge, shall the election judges open the official mailing envelope and the official inner envelope and insert the enclosed ballot into an electronic voting machine to be registered and retained until votes are counted by generating the report of the ballot results beginning no sooner than 9:00 a.m. on election day.

H. It is unlawful for a person to disclose the results of a count and tally or the registration on a voting machine of mailed ballots prior to the later of the closing of the polls or the deadline for receiving mailed ballots pursuant to Section 1-6-10 NMSA 1978.

I. Mailed ballots shall be counted and tallied, where possible, on an electronic voting machine as provided in the Election Code.

J. If a mailed ballot is rejected for any reason and not cured by the Friday following election day, it shall be handled by the county clerk in the same manner as a disqualified provisional paper ballot in accordance with the Election Code.

On election night, the absent voter election board shall recess upon the earlier of completion of its work or 11:00 p.m. An absent voter election board that recesses at 11:00 p.m. shall continue its work only between the hours of 9:30 a.m. and 9:30 p.m. on each subsequent day until the board has completed its work. If the absent voter election board does not complete its work by 11:00 p.m. on election night, the county clerk shall notify the county sheriff's office that a deputy is required to be present to secure the room or facility where uncounted ballots are locked overnight. If the sheriff indicates that a sheriff's deputy is unavailable, the county clerk shall notify the secretary of state, who shall request state police to assign a state police officer or other certified law enforcement officer to secure the ballots. The county clerk shall provide as much notice as is practicable in order to secure law enforcement personnel to secure the uncounted ballots overnight. Beginning at 11:00 p.m. on election night, a sheriff's deputy, state police officer or other certified law enforcement officer is required for overnight watch any time the absent voter election board is not present until the return of the absent voter election board. B. The request shall not reveal the name or address of the voter-participant. In place of a voter-participant's name and address, the administrator shall provide the appropriate county clerk the random identifier and verification code associated with the voter-participant for that election. The request made pursuant to this section is a record related to voting subject to the disclosure and retention procedures of Section 1-12-69 NMSA 1978.

C. No later than thirty-two days before the election, the appropriate county clerk shall transmit to the administrator the ballot for each voter-participant registered to vote in that county.

When completing the affidavit, the voter-participant shall use the random identifier in place of the voter-participant's name and the verification code in place of the voter-participant's signature. Upon receipt of the sworn affidavit, if the ballot register does not show that a ballot from the voter-participant has been received in that election, the county clerk shall void the ballot that was previously issued and issue to the voter-participant a replacement ballot and ballot materials, which shall include the voter-participant's random identifier, but the county clerk shall not provide to the voter-participant the verification code when issuing a replacement ballot pursuant to this subsection."

B. When a voted ballot is received from a voter-participant, the appropriate county clerk or election board shall compare the random identifier provided by the voter-participant under the privacy flap to the list of random identifiers provided by the administrator for that election. If the random identifier appears in both places, the appropriate county clerk shall verify that the verification code assigned to that random

identifier for that election matches the verification code provided by the voter-participant under the privacy flap in lieu of the voter's signature. If the verification code is on the list provided by the administrator for use in that election and matches the random identifier assigned by the administrator to identify the voter-participant, the ballot shall be qualified and processed in the same manner as mailed absentee ballots or mailed ballots received and qualified in that election.

C. If either the random identifier or the verification code is missing, or if the random identifier and verification code under the privacy flap do not match, the ballot shall not be qualified and shall be disposed of in the same manner as mailed absentee ballots or mailed ballots received in that election and not qualified.

B. Following the retention period, paper ballots marked by voters and records requisite to voting retained and preserved in the county may be destroyed at a time and in a manner as determined by the county clerk; provided that the county clerk shall use one of the destruction methods approved by the state records administrator for destruction of public records. Any interested person shall be permitted to be present

Paper ballots marked by voters, their digitized equivalents and records requisite to voting are exempt from third-party inspection except as otherwise provided in the Election Code until the later of sixty days following adjournment of the state or county canvassing board for that election or sixty days following any recount, contest or other judicial inquiry for any election, precinct or polling place that is the subject of the recount, contest or judicial inquiry. Thereafter, during the retention period and prior to destruction of the ballots or records, a third-party inspection not otherwise provided for in the Election Code shall be conducted for good cause shown and upon order of the district court. When a third-party inspection is ordered, a county clerk, the clerk's agent, the state records administrator or the state records administrator's agent shall be present during the inspection to ensure that all ballots and records are properly catalogued and returned in proper order. An inspection of paper ballots marked by voters, their digitized equivalents or records requisite to voting shall be conducted in such a manner as to secure the secrecy of the ballot."

## **Chapter 39 Section 72 Laws 2023**

SECTION 72. Section 1-14-13.2 NMSA 1978 (being Laws 2009, Chapter 233, Section 1, as amended) is amended to read:

"1-14-13.2. POST-ELECTION DUTIES--VOTING SYSTEM CHECK.--

A. At least ninety days prior to each statewide election or as soon as practicable prior to an election to fill a vacancy in the office of United States representative, the secretary of state shall contract with an auditor qualified by the state auditor to audit state agencies to oversee a check on the accuracy of precinct electronic vote tabulators, alternate voting location electronic vote tabulators and absent voter precinct electronic vote tabulators. The voting system check shall be conducted for all federal offices, for governor, for contests in the regular local election and for the

statewide elective office, other than the office of the governor, for which the winning candidate won by the smallest percentage margin of all candidates for statewide office in New Mexico. The voting system check is waived for any office for which an automatic recount is conducted.

B. For each selected office, the auditor shall publicly select a random sample of precincts from a pool of all precincts in the state no later than twelve days after the election. The random sample shall be chosen in a process that will ensure, with at least ninety percent probability for the selected offices, that faulty tabulators would be detected if they would change the outcome of the election for a selected office. The auditor shall select precincts starting with the statewide office with the largest winning margin and ending with the precincts for the statewide office with the smallest winning margin and then, in the same manner, select precincts from each congressional district. The size of the random sample for each office shall be determined as provided in Table 1 of this subsection. When a precinct is selected for one office, it shall be used in lieu of selecting a different precinct when selecting precincts for another office in the same congressional district, or for any statewide office. If the winning margin in none of the offices for which a voting system check is required is less than fifteen percent, a voting system check for that general election shall not be required.

C. After selecting the random sample of precincts pursuant to Subsection B of this section or as required for a regular local election, the auditor shall also randomly select one precinct from each county where a precinct was not selected in the random sample.

D. The auditor shall notify the appropriate county clerks of the precincts that are to be included in the voting system check upon their selection. The auditor shall

direct the appropriate county clerks to open the locked ballot boxes and remove ballots from the selected precincts and:

(1) in a primary or general election, the auditor shall direct the appropriate county clerks to compare the original machine count precinct vote totals for candidates for offices subject to the voting system check from the selected precincts for each office with the respective vote totals of a hand recount of the paper ballots from those precincts;

(2) in a regular local election, the size of the random sample shall be the largest number of precincts that were used for the random sample in the previous general election. The auditor shall direct the appropriate county clerks to compare the original machine count precinct vote totals for the three contests with the closest margin between the two candidates receiving the greatest number of votes affecting the final outcome for an office from each of the selected precincts with the respective vote totals of a hand recount of the paper ballots from those precincts; provided that if there are fewer than three contested contests in a precinct, the auditor shall randomly select one or more contests so that three contests are included in the sample from that precinct; and

(3) in an election called to fill a vacancy in United States representative, the auditor shall direct the appropriate county clerks to compare the original machine count precinct vote totals for candidates for United States representative from the selected precincts with the respective vote totals of a hand recount of the paper ballots from those precincts.

E. The county clerks shall report their results to the auditor within fourteen days of the notice to conduct the voting system check unless a county clerk is aware of a recount in any office that includes one or more precincts in the county, in which case the county clerk shall report the results of the post-election audit to the auditor within fourteen days following the conclusion of the recount.

F. Based on the results of the voting system check and any other auditing results, the auditor shall determine the error rate in the sample for each office. If the winning margin decreases and the error rate based on the difference between the vote totals of hand recounts of the paper ballots and the original precinct vote totals exceeds ninety percent of the winning margin for an office, another sample equal in size to the original sample shall be selected and the original precinct vote totals compared to the vote totals of hand recounts. The error rate based on the first and second sample shall be reported, and if it exceeds ninety percent of the winning margin for the office, the state canvassing board shall order that a full hand recount of the ballots for that office be conducted.

G. The auditor shall report the results of the voting system check to the secretary of state upon completion of the voting system check and release the results to the public.

H. Persons designated as county canvass observers may observe the hand recount described in Subsection D of this section. Observers shall comply with the procedures governing county canvass observers as provided in Section 1-2-31 NMSA 1978.

I. If a recount for an office selected for a voting system check is conducted pursuant to the provisions of Chapter 1, Article 14 NMSA 1978, the vote totals from the hand count of ballots for that office in precincts selected for the voting system check may be used in lieu of recounting the same ballots for the recount.

J. All costs of a voting system check or required hand recount shall be paid in the same manner as automatic recounts.

K. The secretary of state may issue rules to implement voting system checks."

A. Whenever any candidate believes that any error or fraud has been committed by any precinct board in counting or tallying the ballots, in the verification of the votes cast on the voting machines or in the certifying of the results of any election whereby the results of the election in the precinct have not been correctly determined, declared or certified, the candidate, within six days after completion of the canvass by the proper canvassing board, may have a recount of the ballots, or a recheck of the votes shown on the voting machines, that were cast in the precinct.

B. All applications for recount or recheck shall be filed with the secretary of state."

A. An applicant for a recount shall deposit with the proper canvassing board or, in the case of an office for which the state canvassing board issues a certificate of nomination or election, with the secretary of state sufficient cash, or a sufficient surety bond, to cover the cost of a recount for each precinct for which a recount is demanded. An applicant for a recheck shall deposit with the proper canvassing board or, in the case

B. The deposit or surety bond shall be security for the payment of the costs and expenses of the recount or recheck in case the results of the recount or recheck are not sufficient to change the results of the election.

C. If it appears that error or fraud sufficient to change the winner of the election has been committed, the costs and expenses of the recount or recheck shall be paid by the state upon warrant issued by the secretary of finance and administration supported by a voucher of the secretary of state, or shall be paid by the county upon warrant of the county clerk from the general fund of the county, as the case may be.

D. If no error or fraud appears to be sufficient to change the winner, the costs and expenses for the recount or recheck shall be paid by the applicant. "31-21-17.1. MEDICAL OR GERIATRIC PAROLE--PROCEDURES--DUTIES OF THE CORRECTIONS DEPARTMENT--DUTIES OF THE BOARD.--

A. The corrections department shall promulgate rules and implement a medical and geriatric parole program, including the application form for medical or geriatric parole.

B. An inmate who is geriatric, permanently incapacitated or terminally ill may seek parole consideration upon written application to the board or consent to submission of an application by and through a family member, attorney or corrections department care provider. When an inmate is physically or mentally incapable of knowingly and voluntarily consenting to submission of an application due to mental or physical infirmity, a family member, attorney, corrections department care provider or other individual with a power of attorney may submit the application on the inmate's behalf.

C. The corrections department shall identify geriatric, permanently incapacitated and terminally ill inmates, notify those inmates of the opportunity to apply for medical or geriatric parole and recommend the release of those inmates who are eligible for medical or geriatric parole.

D. A classification officer shall provide an inmate over the age of fifty-five with a copy of the medical and geriatric parole policy and any other applicable forms at least once a year. An inmate arriving at a long-term care or geriatric unit managed by the corrections department or placed by the corrections department into long-term care or a facility not managed by the department shall be provided with a copy of the medical and geriatric parole policy, written in the inmate's preferred language, during orientation. A

copy of the medical and geriatric parole policy shall be placed and maintained in the law library at each institution of the corrections department.

E. An application for medical or geriatric parole shall be submitted to the inmate's classification officer. A classification officer who receives an application shall review the application, make a recommendation, attach any relevant documentation and forward the application package to the appropriate authority as defined by corrections department rule.

F. The corrections department shall determine whether to recommend an inmate for medical or geriatric parole and make any recommendations to the board no later than thirty days after receipt of the application by the classification officer. All applications received by the department shall be processed and forwarded to the board. The recommendation shall include the inmate's age, medical history and prognosis and, if applicable, institutional behavior, adjustment and any evidence suggesting rehabilitation during incarceration. When the department recommends an inmate for medical or geriatric parole, the director shall submit a statement to the board that the inmate's release is not incompatible with the welfare of society. In the event that the department is unable to make a determination of recommendation for medical or geriatric parole within thirty days, the department shall document in writing any justification for the delay.

G. When considering an inmate for medical or geriatric parole, the director may request that reasonable medical and mental health examinations be conducted; provided that the examinations do not cause delay in the processing time of applications required by this section.

H. When determining an inmate's eligibility for medical or geriatric parole, the director shall consider the totality of the circumstances, including:

- (1) the inmate's age;
- (2) the severity of the inmate's illness, disease or infirmity;
- (3) a comprehensive health evaluation of the inmate;
- (4) the inmate's institutional behavior, including evidence indicating rehabilitation;

I. Upon receipt of an application and recommendation and supporting documentation from the corrections department for medical or geriatric parole, the

board shall review the documentation, schedule a hearing and issue a decision within fifteen days. In the event that a hearing cannot be scheduled and a decision issued within fifteen days, the board shall document in writing any justification for the delay. If an inmate is denied medical or geriatric parole, the board shall notify the inmate and provide service of the copy of the written decision. A copy of the decision shall be sent to the secretary of corrections and the warden of the facility in which the inmate resides.

J. The board shall release an inmate on medical or geriatric parole upon recommendation from the director unless the board finds by clear and convincing evidence that the inmate's release is incompatible with the welfare of society and states in writing its reason for the finding. The board may consider the totality of the circumstances, including an inmate's criminal history, but shall not deny medical or geriatric parole solely because of the nature of the charge resulting in the inmate's conviction or the inmate's criminal history.

K. A rebuttable presumption that an inmate does not constitute a danger to the inmate's self or to society and is therefore eligible for medical or geriatric parole is established if the inmate:

(1) is fifty-five years of age or older and suffers from a debilitating or chronic infirmity, illness or disease related to aging;

(2) by reason of an existing medical condition, is permanently and irreversibly physically incapacitated; or

(3) has an incurable condition caused by illness or disease that would, within reasonable medical judgment, produce death within six months.

L. Pursuant to Section 39-3-1.1 NMSA 1978, an inmate whose decision is denied by the board pursuant to the provisions of this section may appeal the board's decision in the district court in the jurisdiction where the sentence was imposed. When an inmate is physically or mentally incapable of knowingly and voluntarily consenting to submission of an appeal because of a mental or physical infirmity, a family member, attorney, corrections department health care provider or other individual with a power of attorney may submit an appeal on the inmate's behalf. The notice of appeal shall include a statement of any applicable appellate issues. No later than forty-eight hours after the filing of the notice of appeal with the board, the board shall file the record on appeal with the district court, including any applicable appellee response. The district court shall rule on the appeal no later than seventy-two hours after the record on appeal is filed.

M. An inmate who has not served the inmate's minimum sentence may be considered eligible for parole under the medical and geriatric parole program. Medical and geriatric parole shall be in addition to any other parole for which a geriatric, permanently incapacitated or terminally ill inmate may be eligible.

N. The parole term of a geriatric, permanently incapacitated or terminally ill inmate on medical or geriatric parole shall be for the remainder of the inmate's basic sentence and parole without diminution of sentence for good behavior.

O. In the event that the inmate is a terminally ill inmate, the corrections department shall determine whether to recommend an inmate for medical or geriatric parole within fifteen days of the receipt of the inmate's application by the classification officer, and the board shall issue a decision within seven days. In the event that the department is unable to determine whether to recommend an inmate for medical or geriatric parole within fifteen days pursuant to this subsection, the department or the board shall document any justification for the delay in writing.

P. An inmate who has been denied parole pursuant to the provisions of this section may reapply if additional information is received or if the inmate's condition so warrants.

Q. An inmate convicted of first degree murder shall not be considered eligible for medical or geriatric parole."

"63-9A-5. REGULATION BY COMMISSION.--

A. Except as otherwise provided in the New Mexico Telecommunications Act, each public telecommunications service is declared to be affected with the public interest and, as such, subject to the provisions of that act, including the regulation thereof as provided in that act.

B. Except in cases regarding the fixing of rates pursuant to Section 63-7-1.1 NMSA 1978, the commission has exclusive jurisdiction to regulate incumbent local exchange carriers that serve fifty thousand or more access lines within the state to the extent authorized by the New Mexico Telecommunications Act; provided that:

(1) the commission's jurisdiction includes the regulation of wholesale rates, including access charges and interconnection agreements consistent with federal law and its enforcement and determinations of participation in low-income telephone service assistance programs pursuant to the Low Income Telephone Service Assistance Act; and

(2) incumbent local exchange carriers regulated pursuant to this section shall be regulated in the same manner as incumbent rural telecommunications carriers are regulated pursuant to the Rural Telecommunications Act of New Mexico.

C. Any rules adopted by the commission for the regulation of incumbent local exchange carriers pursuant to the New Mexico Telecommunications Act shall preserve and not alter:

(1) the rights and obligations of any entity, including the commission, established pursuant to federal law, including 47 U.S.C. Sections 251 and 252, or established pursuant to any state law, rule, procedure, regulation or order related to interconnection, intercarrier compensation, intercarrier complaints, wholesale rights and obligations or any wholesale rate or schedule that is filed with and maintained by the commission;

(2) the rights and obligations of any competitive telecommunications service provider holding a certificate of public convenience and necessity, or the rights and obligations of any competitive carrier to obtain such a certificate;

(3) the authority of the commission to resolve consumer complaints regarding basic local exchange service; provided, however, that the commission's authority to resolve such complaints shall be limited to resolving issues of consumer protection and shall not include the authority to determine or fix rates, provider of last resort obligations or service quality standards except as expressly set forth in the New Mexico Telecommunications Act;

(4) the authority of the commission to establish reasonable quality of service standards; provided, however, that the enforcement of such standards shall be limited to the commission's fining authority set forth in Section 63-7-23 NMSA 1978 and the authority to seek an injunction set forth in Section 63-9-19 NMSA 1978;

## **Chapter 92 Section 3 Laws 2023**

SECTION 3. Section 63-9A-8 NMSA 1978 (being Laws 1985, Chapter 242, Section 8, as amended) is amended to read:

"63-9A-8. REGULATION OF RATES AND CHARGES--EFFECTIVE COMPETITION.--

A. In accordance with the policy established in the New Mexico Telecommunications Act, the commission shall, by its own motion or upon petition by any interested party, determine if a wire center serving area is subject to effective competition. When the commission has made a determination that a wire center serving area is subject to effective competition, the commission shall, consistent with the purposes of the New Mexico Telecommunications Act, eliminate rules, regulations and other requirements applicable to the provision of telecommunications services within that wire center serving area. The commission's action shall include the detariffing of service and may include the establishment of minimum rates that will cover the costs for the service. Such action shall be consistent with the maintenance of the availability of access to local exchange service and message telecommunications service at affordable rates comparable in both urban and rural markets as established by the commission, except that volume discounts or other discounts based on reasonable business purposes shall be permitted. The commission shall also modify the same or similar retail regulatory requirements for those providers of comparable public telecommunications services in the same relevant markets so that there shall be parity of retail regulatory standards and requirements for all such providers; provided, however, that this subsection shall not be construed to permit the adoption of any new regulatory requirements or standards for providers of comparable telecommunications services.

B. Effective competition pursuant to the New Mexico Telecommunications Act shall exist in a wire center serving area when voice services are available to business customers from two or more alternate providers not affiliated with the incumbent local exchange carrier in the wire center serving area and are available to residential

customers from two or more alternate providers not affiliated with the incumbent local exchange carrier in the wire center serving area, regardless of:

- (1) the technology used to provide the voice services;
- (2) whether the voice services are regulated or unregulated; or
- (3) whether the voice services are provided by alternate providers that receive state or federal funding assistance.

C. In addition to establishment of effective competition pursuant to Subsection B of this section and upon notice to the commission, when an alternate provider other than the incumbent local exchange carrier has been awarded funding to provide broadband service within a wire center serving area pursuant to a state or federal broadband assistance or deployment program, effective competition for all regulated telecommunications services in that wire center serving area shall exist.

D. No provider of public telecommunications service may use current revenues earned or expenses incurred in conjunction with any noncompetitive service to subsidize competitive public telecommunications services. In order to avoid cross-subsidization of competitive services by noncompetitive telecommunications services, prices or rates charged for a competitive telecommunications service shall cover the cost for the provision of the service consistent with the provisions of Subsection G of Section 63-9A-8.1 NMSA 1978. In any proceeding held pursuant to this section, the party claiming that the price for a competitive telecommunications service does not cover the cost shall bear the burden of proving that the prices charged for competitive telecommunications services do not cover cost; provided, however, that the commission may require the telecommunications company against whom the complaint is filed to submit a cost study for the service that is the subject of the complaint as part of its examination and determination of the complaint.

E. The commission may, upon its own motion or on the petition of an interested party and after notice to all interested parties and customers and a hearing, reclassify any service previously determined to be a competitive telecommunications service if after a hearing the commission finds that a service is not subject to effective competition.

F. If a wire center serving area is deregulated pursuant to a determination of effective competition, for those wire center serving areas where that service is deregulated, the petitioning telecommunications company shall no longer be eligible to claim an exemption from the application of the Unfair Practices Act or the Antitrust Act."

## **Chapter 92 Section 4 Laws 2023**

SECTION 4. Section 63-9A-21 NMSA 1978 (being Laws 2017, Chapter 71, Section 7) is amended to read:

"63-9A-21. COMMISSION REVIEW OF IMPACTS.--

A. The commission shall review the impact of provisions of the New Mexico Telecommunications Act on residential and business consumers in urban and rural areas of the state every three years, the first review to be completed by July 31, 2019, and shall report its findings to the legislature. The review shall:

(1) investigate the impact on rates, service quality, incumbent local exchange carrier employment, investment in telecommunications infrastructure and the availability and deployment of high speed data services;

(2) report on the wire center serving areas that have been deemed to have effective competition and any wire centers no longer subject to carrier of last resort obligations; and

(3) specify the steps the commission has taken to implement parity of regulation among all incumbent local exchange carriers consistent with the provisions of the New Mexico Telecommunications Act.

B. For any wire center serving an area deregulated pursuant to the provisions of Section 63-9A-8 NMSA 1978, if the commission finds that reregulation of basic local exchange service is necessary to protect the public interest following a hearing and findings of fact and conclusions of law, after July 31, 2023, the commission shall regulate basic local exchange service pursuant to the New Mexico Telecommunications Act."

RELATING TO MOTOR VEHICLES; REGULATING LANE TRAVEL FOR TRUCK TRACTORS; PROVIDING PENALTIES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

### **Chapter 96 Section 1 Laws 2023**

"66-7-376. MULTIPLE LANE ROADWAYS--REQUIRED LANE TRAVEL FOR TRUCK TRACTORS--TWO-WAY LEFT-TURN LANES.--

A. Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following requirements, in addition to all consistent requirements within the Motor Vehicle Code, shall apply:

(1) a truck tractor shall be driven as nearly as practicable entirely within a single lane;

(2) a truck tractor shall not be moved from the lane until the driver has first ascertained that the movement can be made with safety and then given a signal, not less than the last one hundred feet traveled by the truck tractor, of the driver's intention to change lanes;

(3) upon a roadway that is divided into three lanes, a truck tractor shall not be driven in the center lane except:

(a) when overtaking and passing another vehicle where the roadway is clearly visible and the center lane is clear of traffic within a safe distance;

(b) in preparation for a left turn; or

(c) where the center lane is at the time allocated exclusively to traffic moving in the direction the truck tractor is proceeding and is signposted to give notice of the allocation;

(4) a truck tractor shall not be driven in the left lane of a roadway except when overtaking and passing another vehicle; provided, however, that this paragraph shall not prohibit driving in the left lane when traffic conditions, flow or road configuration, such as the potential of merging traffic, require the use of the left lane to maintain safe traffic conditions; and provided further that this paragraph shall not prohibit driving in the left lane of a roadway within the city limits of a municipality or upon a county road as long as such roadway is not part of the national system of interstate and defense highways; and

(5) official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

B. A two-way left-turn lane is a lane near the center of the highway set aside for use by vehicles making left turns in both directions from or into the roadway. A vehicle shall not be driven in a designated two-way left-turn lane except when preparing for or making a left turn from or into a roadway. Vehicles turning left from the roadway shall not be driven in the two-way left-turn lane for more than two hundred feet while preparing for and making the turn. A vehicle turning left onto the roadway may utilize the two-way left-turn lane as a staging area by stopping and waiting for traffic proceeding in the same direction to clear before merging into the adjacent lanes of travel. A left turn shall not be made from any other lane where a two-way left-turn lane has been designated; provided, however, that this section shall not prohibit driving across a two-way left-turn lane when moving from a service drive onto such marked roadway."

classrooms shall rest in the authority. The council shall authorize the lending of the portable classrooms to school districts upon request and upon finding that sufficient need exists. Expenses of maintenance of the portable classrooms while in the custody of the authority shall be paid from the fund; expenses of maintenance and insurance of the portable classrooms while in the custody of a school district shall be the responsibility of the school district. The council may authorize the permanent disposition of the portable classrooms by the authority with prior approval of the state board of finance.

D. Applications for assistance from the fund shall be made by school districts to the council in accordance with requirements of the council. Except as provided in Subsection K of this section, the council shall require as a condition of application that a school district have a current five-year facilities plan that shall include a current preventive maintenance plan to which the school adheres for each public school in the school district.

E. The council shall review all requests for assistance from the fund and shall allocate funds only for those capital outlay projects that meet the criteria of the Public School Capital Outlay Act.

F. Money in the fund shall be disbursed by warrant of the department of finance and administration on vouchers signed by the secretary of finance and administration following certification by the council that an application has been approved or an expenditure has been ordered by a court pursuant to Section 22-24-5.4 NMSA 1978. At the discretion of the council, money for a project shall be distributed as follows:

(1) up to ten percent of the portion of the project cost funded with distributions from the fund or five percent of the total project cost, whichever is greater, may be paid to the school district before work commences with the balance of the grant award made on a cost-reimbursement basis; or

(2) the council may authorize payments directly to the contractor.

G. Balances in the fund may be annually appropriated for the core administrative functions of the authority pursuant to the Public School Capital Outlay Act, and, in addition, balances in the fund may be expended by the authority, upon approval of the council, for project management expenses; provided that:

(1) the total annual expenditures from the fund for the core administrative functions pursuant to this subsection shall not exceed five percent of the average annual grant assistance authorized from the fund during the five previous fiscal years; and

(2) any unexpended or unencumbered balance remaining at the end of a fiscal year from the expenditures authorized in this subsection shall revert to the fund.

H. The fund may be expended by the council for building system repair, renovation or replacement initiatives with projects to be identified by the council pursuant to Section 22-24-4.6 NMSA 1978; provided that money allocated pursuant to this subsection shall be expended within three years of the allocation.

I. The fund may be expended annually by the council for grants to school districts for the purpose of making lease payments for facilities, including facilities leased by charter schools. The grants shall be made upon application by the school districts and pursuant to rules adopted by the council; provided that an application on behalf of a charter school shall be made by the school district, but, if the school district fails to make an application on behalf of a charter school, the charter school may submit its own application. (1) the amount of a grant to a school district or charter school shall not exceed:

(a) the actual annual lease payments owed for leasing a facility;  
or

(b) seven hundred dollars (\$700) multiplied by the MEM using the leased facilities; provided that in fiscal year 2009 and in each subsequent fiscal year, this amount shall be adjusted by the percentage change between the penultimate calendar year and the immediately preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor;

(2) a grant received for the lease payments of a charter school may be used by that charter school as a state match necessary to obtain federal grants pursuant to the federal Every Student Succeeds Act;

(5) if the lease payments are made pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the

lease payments made, neither a grant nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facilities nor does it create a legal obligation for the state to make subsequent grants pursuant to the provisions of this subsection; and

Such a contract may provide for initial estimated payments from the fund prior to the expenditures if the contract also provides for additional payments from the fund if the actual expenditures exceed the initial payments and for repayments back to the fund if the initial payments exceed the actual expenditures. Money distributed from the fund to the state fire marshal or the construction industries division pursuant to this subsection shall be used to supplement, rather than supplant, appropriations to those entities.

K. Pursuant to guidelines established by the council, allocations from the fund may be made to assist school districts in developing and updating five-year facilities plans required by the Public School Capital Outlay Act; provided that:

(1) no allocation shall be made unless the council determines that the school district is willing and able to pay the portion of the total cost of developing or updating the plan that is not funded with the allocation from the fund. Except as provided in Paragraph (2) of this subsection, the portion of the total cost to be paid with the allocation from the fund shall be determined pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978; or

(2) the allocation from the fund may be used to pay the total cost of developing or updating the plan if:

(a) the school district has fewer than an average of six hundred full-time-equivalent students on the second and third reporting dates of the prior school year; or

(b) the school district meets all of the following requirements: 1) the school district has fewer than an average of one thousand full-time-equivalent students on the second and third reporting dates of the prior school year; 2) the school district has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) the state share of the total cost, if calculated pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978, would be less than fifty percent; and 4) for all educational purposes, the school district has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds.

L. Upon application by a school district, allocations from the fund may be made by the council for the purpose of demolishing abandoned school district facilities; provided that:

(1) the costs of continuing to insure an abandoned facility outweigh any potential benefit when and if a new facility is needed by the school district;

(2) there is no practical use for the abandoned facility without the expenditure of substantial renovation costs; and

(3) the council may enter into an agreement with the school district to fully fund the demolition of the abandoned school district facility if Paragraphs (1) and (2) of this subsection are satisfied.

M. Up to ten million dollars (\$10,000,000) of the fund may be expended each year for an education technology infrastructure deficiency corrections initiative pursuant to Section 22-24-4.5 NMSA 1978; provided that funding allocated pursuant to this section shall be expended within three years of its allocation.

N. The fund may be expended in each of fiscal years 2020 through 2024 for a pre-kindergarten classroom facilities initiative project in accordance with Section 22-24-12 NMSA 1978.

O. The council may fund pre-kindergarten classrooms with a qualifying, awarded standards-based project; provided that pre-kindergarten classroom space shall not be included in the project prioritization calculation adopted by the council pursuant

to Section 22-24-5 NMSA 1978. The council shall develop pre-kindergarten classroom standards to use when funding pre-kindergarten space."

## **Chapter 98 Section 3 Laws 2023**

SECTION 3. Section 22-24-5 NMSA 1978 (being Laws 1975, Chapter 235, Section 5, as amended) is amended to read:

"22-24-5. PUBLIC SCHOOL CAPITAL OUTLAY PROJECTS--APPLICATION--GRANT ASSISTANCE.--

A. Applications for grant assistance, approval of applications, prioritization of projects and grant awards shall be conducted pursuant to the provisions of this section.

B. Except as provided in Sections 22-24-4.3, 22-24-5.4 and 22-24-5.6 NMSA 1978, the following provisions govern grant assistance from the fund for a public school capital outlay project not wholly funded pursuant to Section 22-24-4.1 NMSA 1978:

(1) all school districts are eligible to apply for funding from the fund, regardless of percentage of indebtedness;

(2) priorities for funding shall be determined by using the statewide adequacy standards developed pursuant to Subsection C of this section; provided that:

(a) the council shall apply the standards to charter schools to the same extent that they are applied to other public schools;

(b) the council may award grants annually to school districts for the purpose of repairing, renovating or replacing public school building systems in existing buildings as identified in Section 22-24-4.6 NMSA 1978;

(c) the council shall adopt and apply adequacy standards appropriate to the unique needs of the constitutional special schools; and

(d) in an emergency in which the health or safety of students or school personnel is at immediate risk or in which there is a threat of significant property damage, the council may award grant assistance for a project using criteria other than the statewide adequacy standards;

(3) the council shall establish criteria to be used in public school capital outlay projects that receive grant assistance pursuant to the Public School Capital Outlay Act. In establishing the criteria, the council shall consider:

(a) the feasibility of using design, build and finance arrangements for public school capital outlay projects;

(b) the potential use of more durable construction materials that may reduce long-term operating costs;

(c) concepts that promote efficient but flexible utilization of space; and

(d) any other financing or construction concept that may maximize the dollar effect of the state grant assistance;

(4) no more than ten percent of the combined total of grants in a funding cycle shall be used for retrofitting existing facilities for technology infrastructure;

(5) no later than May 1 of each calendar year, the phase two formula value shall be calculated for each school district in accordance with the following procedure:

(a) the sum of the final prior five years net taxable value for a school district multiplied by nine ten-thousandths for that school district is calculated for each school district;

(b) the maximum allowable gross square foot per student multiplied by the replacement cost per square foot divided by forty-five is calculated for each school district;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph divided by the value calculated pursuant to Subparagraph (b) of this paragraph is calculated for each school district;

(d) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value equal to or greater than one, the phase two formula value shall be zero for the subject school district;

(e) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value of ninety-hundredths or more but less than one, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph; and

(f) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value less than ninety-hundredths, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph plus the school district population density factor;

(6) the state share of a project approved by the council shall be funded within available resources pursuant to the provisions of this paragraph. Except as provided in Section 22-24-5.7 NMSA 1978 and except as adjusted pursuant to Paragraph (8), (9) or (10) of this subsection, the amount to be distributed from the fund

for an approved project shall equal the total project cost multiplied by the following percentage, except that in no case shall the state share be less than six percent:

(a) for fiscal year 2024 through fiscal year 2026, the percentage shall be the phase two formula value plus a percentage equal to one-third of the difference between one and the phase two formula value; provided that, for school districts with fewer than 200 MEM, the percentage shall be the phase two formula value plus a percentage equal to one-half of the difference between one and the phase two formula; and

(b) for fiscal year 2027 and thereafter, the percentage shall be the phase two formula value;

(7) as used in this subsection:

(a) "governmental entity" includes an Indian nation, tribe or pueblo;

(b) "phase two formula value" for a state-chartered charter school means the phase two formula value calculated pursuant to Paragraph (5) of this subsection for the school district in which the state-chartered charter school is physically located;

(c) "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located; and

(d) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project;

(8) the amount calculated pursuant to Paragraph (6) of this subsection may be increased by an additional five percent if the council finds that the subject school district has been exemplary in implementing and maintaining a preventive maintenance program. The council shall adopt such rules as are necessary to implement the provisions of this paragraph;

(9) the council may adjust the amount of local share otherwise required if it determines that a school district has made a good-faith effort to use all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all

rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(b) the school district: 1) has fewer than an average of eight hundred full-time-equivalent students on the second and third reporting dates of the prior school year; 2) has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) has a share of the total project cost, as calculated pursuant to provisions of this section, that would be greater than fifty percent; and 4) for all educational purposes, has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(c) the school district: 1) has an enrollment growth rate over the previous school year of at least two and one-half percent; 2) pursuant to its five-year facilities plan, will be building a new school within the next two years; and 3) for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(10) the local match for the constitutional special schools shall be set at fifty percent for projects that qualify under the educational adequacy category and one hundred percent for projects that qualify in the support spaces category; provided that the council may adjust or waive the amount of any direct appropriation offset to or local share required for the constitutional special schools if an applicant constitutional special school has insufficient or no local resources available; and

(11) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (6), (8) or (9) of this subsection, is not funded with grant assistance from the fund;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school have a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay oversight task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities, the need for career-technical education facilities or classrooms and the need for education technology infrastructure. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. The acquisition of a facility by a school district or charter school pursuant to a financing agreement that provides for lease payments with an option to purchase for a price that is reduced according to lease payments made may be considered a public school capital outlay project and eligible for grant assistance under this section pursuant to the following criteria:

(1) no grant shall be awarded unless the council determines that, at the time of exercising the option to purchase the facility by the school district or charter school, the facility will equal or exceed the statewide adequacy standards and the building standards for public school facilities;

(2) no grant shall be awarded unless the school district and the need for the facility meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act;

(3) the total project cost shall equal the total payments that would be due under the agreement if the school district or charter school would eventually acquire title to the facility;

(4) the portion of the total project cost to be paid from the fund may be awarded as one grant, but disbursements from the fund shall be made from time to time as lease payments become due;

(5) the portion of the total project cost to be paid by the school district or charter school may be paid from time to time as lease payments become due; and

(6) neither a grant award nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facility.

E. In order to encourage private capital investment in the construction of public school facilities, the purchase of a privately owned school facility that is, at the time of application, in use by a school district may be considered a public school capital outlay project and eligible for grant assistance pursuant to this section if the council finds that:

(1) at the time of the initial use by the school district, the facility to be purchased equaled or exceeded the statewide adequacy standards and the building standards for public school facilities;

(2) at the time of application, attendance at the facility to be purchased is at seventy-five percent or greater of design capacity and the attendance at other schools in the school district that the students at the facility would otherwise attend is at eighty-five percent or greater of design capacity; and

(3) the school district and the capital outlay project meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act; provided that, when determining the deviation from the statewide adequacy standards for the purposes of evaluating and prioritizing the project, the students using the facility shall be deemed to be attending other schools in the school district.

F. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using other funds available to the district to exceed the statewide adequacy standards.

G. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

H. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

I. Upon the recommendation of the authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

J No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature.

K. For any school district that received a standards- or systems-based award from the council in fiscal year 2023, the state share for any future phase of the project for which funding has not yet been awarded shall be the amount calculated pursuant to Subsection B of this section for fiscal year 2024, regardless of the state share at the time of the initial award.

L. As used in this section:

(1) "MEM" means membership; and

(2) "membership" means the total enrollment of qualified students on the current roll of a class or school on a specified day. The current roll is established by the addition of original entries and reentries minus withdrawals. Withdrawals of students, in addition to students formally withdrawn from the public school, include students absent from the public school for as many as ten consecutive school days; provided that withdrawals do not include students in need of early intervention and habitual truants the school district is required to intervene with and keep in an educational setting."

## **Chapter 98 Section 4 Laws 2023**

SECTION 4. Section 22-24-5.4 NMSA 1978 (being Laws 2004, Chapter 125, Section 10, as amended) is amended to read:

"22-24-5.4. RECALCITRANT SCHOOL DISTRICTS--COURT ACTION TO ENFORCE CONSTITUTIONAL COMPLIANCE--IMPOSITION OF PROPERTY TAX.--

A. The council may bring an action against a school district pursuant to the provisions of this section if, based upon information submitted to the council by the authority, the council determines that:

(1) the physical condition of a public school facility in the school district is so inadequate that the facility or the education received by students attending the facility is below the minimum required by the constitution of New Mexico;

(2) the school district is not taking the necessary steps to bring the facility up to the constitutionally required minimum; and

(3) either:

(a) the school district has not applied for the grant assistance necessary to bring the facility up to minimum constitutional standards; or

(b) the school district is unwilling to meet all of the requirements for the approval of an application for grant assistance pursuant to Paragraph (11) of Subsection B of Section 22-24-5 NMSA 1978.

B. An action brought pursuant to this section shall be brought by the council in the name of the state against the school district in the district court for Santa Fe county.

C. After a hearing and consideration of the evidence, if the court finds that the council's determination pursuant to Subsection A of this section was correct, the court shall:

(1) order the council to expend sufficient resources necessary to bring the facility up to the minimum level required by the constitution of New Mexico;

(2) order the school district to comply with Paragraph (11) of Subsection B of Section 22-24-5 NMSA 1978 and to take all other actions necessary to facilitate the completion of the project ordered pursuant to Paragraph (1) of this subsection; and

(3) enter a judgment against the school district for court costs and attorney fees and the necessary amount to satisfy the school district share, as determined by the formula prescribed by Subsection B of Section 22-24-5 NMSA 1978, for the project ordered pursuant to Paragraph (1) of this subsection.

D. The amount of a judgment entered against a school district pursuant to Paragraph (3) of Subsection C of this section is a public debt of the school district. If the court finds that the debt cannot be satisfied with available school district funds, other than funds needed for the operation of the public schools and other existing obligations, the court shall order the imposition of a property tax on all taxable property allocated to the school district at a rate sufficient to pay the judgment, with accrued interest, within a reasonable time as determined by the court. After paying court costs and attorney fees, amounts received pursuant to this subsection shall be deposited by the council into the fund."

"22-24-6.1. PROCEDURES FOR A STATE-CHARTERED CHARTER SCHOOL.-  
-All of the provisions of the Public School Capital Outlay Act apply to an application by a state-chartered charter school for grant assistance for a capital project except the portion of the cost of the project to be paid from the fund shall be calculated pursuant to Subsection B of Section 22-24-5 NMSA 1978 using data from the school district in which the state-chartered charter school is located."

## **Chapter 98 Section 6 Laws 2023**

After a public hearing, and to the extent that money is available in the fund for that purpose, the council may make pre-kindergarten classroom facilities initiative grants to school districts that the council determines are willing and able to pay for the portion of the total cost not funded with grant assistance from the fund according to those applicants' rankings.

D. The state share of the cost of an approved pre-kindergarten classroom facilities initiative project shall be calculated according to the methodology outlined in Subsection B of Section 22-24-5 NMSA 1978; provided that, for fiscal years 2024 through 2026, the state share of an approved pre-kindergarten classroom facilities initiative project shall be the phase two formula value plus a percentage equal to one-half of the difference between one and the phase two formula value.

E. A school district that receives a grant in accordance with this section shall expend the money within three years after the grant allocation, or the money shall revert to the fund."

### "22-25-9. STATE DISTRIBUTION TO SCHOOL DISTRICT IMPOSING TAX UNDER CERTAIN CIRCUMSTANCES.--

A. Except as provided in Subsection E of this section, for each year that a capital improvements tax is imposed by a school district, the secretary shall distribute from the public school capital improvements fund to the school district an amount equal to the greater of:

(1) the difference between:

(a) the product of: 1) the school district's program units; 2) multiplied by the tax rate imposed by the school district; and 3) multiplied further by the sum calculated pursuant to Subsection B of this section; and

(b) the school district's estimated tax revenue; or

(2) the product of:

(a) five dollars (\$5.00) for fiscal year 2023; and in each subsequent fiscal year, the amount for the previous fiscal year adjusted by the percentage increase between the next preceding calendar year and the preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor;

(b) multiplied by the school district's program units; and

(c) multiplied further by the tax rate imposed by the school district.

B. The amount in Item 3) of Subparagraph (a) of Paragraph (1) of Subsection A of this section shall be equal to the sum of:

(1) for fiscal year 2023, eighty-nine dollars twenty-five cents (\$89.25); and in each subsequent fiscal year, the amount for the previous fiscal year adjusted by the percentage increase between the next preceding calendar year and the preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor; plus

(2) an additional amount certified to the secretary by the public school capital outlay council. No later than June 1 of each year, the council shall determine the amount needed in the next fiscal year for public school capital outlay projects pursuant

to the Public School Capital Outlay Act and the amount of revenue, from all sources, available for the projects. If, in the sole discretion of the council, the amount available exceeds the amount needed, the council may certify an additional amount pursuant to this paragraph; provided that the sum of the amount calculated pursuant to this paragraph plus the amount in Paragraph (1) of this subsection shall not result in a total statewide distribution that, in the opinion of the council, exceeds one-half of the total revenue estimated to be received from taxes imposed pursuant to the Public School Capital Improvements Act.

C. If a distribution is made to a school district pursuant to Subsection A of this section, the secretary shall make an additional distribution from the public school capital improvements fund to the school district in an amount equal to the product of:

- (1) fifty-three dollars (\$53.00);
- (2) multiplied by the sum of the school district's program units;
- (3) multiplied further by the greater of six percent or the percentage calculated pursuant to Paragraph (5) of Subsection B of Section 22-24-5 NMSA 1978; and
- (4) multiplied further by the tax rate imposed by the school district.

D. In expending distributions made pursuant to this section, school districts and charter schools shall give priority to maintenance projects, including payments under contracts with regional education cooperatives for maintenance support services. In addition, distributions made pursuant to this section may be expended by school districts and charter schools as follows, but no distribution from the public school capital improvements fund may be used for capital improvements to any administration building of a school district:

- (1) for the school district portion of the total project cost for roof repair or replacement required by Section 22-24-4.3 NMSA 1978; or
- (2) for the school district portion of payments made under a financing agreement entered into by a school district or a charter school for the leasing of a building or other real property with an option to purchase for a price that is reduced according to the payments made, if the school district has received a grant for the state share of the payments pursuant to Subsection D of Section 22-24-5 NMSA 1978.

E. In the event that sufficient funds are not available in the public school capital improvements fund to make the distributions pursuant to this section, the dollar per program unit figure shall be reduced as necessary.

F. A portion of each distribution made by the state pursuant to this section shall be further distributed by the school district to each locally chartered or state-

chartered charter school located within the school district. The amount to be distributed to each charter school shall be in the same proportion as the average full-time-equivalent enrollment of the charter school on the second and third reporting dates of the prior school year is to the total such enrollment in the school district; provided that, in determining the school district's total enrollment, charter school students located within the school district shall be included; and provided further that no distribution shall be made to an approved charter school that had not commenced classroom instruction in the prior school year. Each year, the department shall certify to the school district the amount to be distributed to each charter school. Distributions received by a charter school pursuant to this subsection shall be expended pursuant to the provisions of the Public School Capital Improvements Act; except that if capital improvements for the charter school were not identified in a resolution approved by the electors, the charter school may expend the distribution for any capital improvements, including those specified in Subsection D of this section.

G. In making distributions pursuant to this section, the secretary shall include such reporting requirements and conditions as are required by rule of the public school capital outlay council. The council shall adopt such requirements and conditions as are necessary to ensure that the distributions are expended in the most prudent manner possible and are consistent with the original purpose as specified in the authorizing resolution. Copies of reports or other information received by the secretary in response to the requirements and conditions shall be forwarded to the council.

H. As used in this section:

(1) "capital improvements tax" means the tax authorized pursuant to the Public School Capital Improvements Act;

### "65-2A-13. PROTESTS, OBJECTIONS AND HEARINGS.--

A. Any interested person or any member of the public may provide information to the department or express an objection to any application for a certificate, or for amendment, lease or transfer of a certificate, during the notice period for the application by filing a written objection in regard to the application. The department shall consider any objections filed in regard to determining whether to hold a hearing on the application. B. The department shall hold a hearing on an application whenever a protest is filed within the notice period or the traffic safety bureau of the department files a request for a hearing relative to an application within the notice period. The department shall allow a protesting carrier to proceed as an intervenor in the application proceeding.

C. In any hearing held on an application:

(1) the applicant has the burden of proving that the applicant meets the requirements of the Motor Carrier Act and the rules of the department for the application at issue, the burden of demonstrating with reasonable specificity the nature and scope of its proposed transportation service, the burden of proving any particular factual matters that the department or the traffic safety bureau of the department may identify and require, the burden of proving any additional allegations and matters of public interest that it may raise and, if the application pertains to ambulance service, the burden of proving that the ambulance service that currently exists in the territory sought in the application is inadequate and that the proposed service is directly responsive to a public need and demand for the service proposed;

(2) a protesting carrier has the burden of proving all matters of fact pertaining to its full-service operation within its certificated full-service territory, the burden of proving the potential impairment or adverse impact on its existing full-service operation by the transportation service proposed by the applicant and the burden of proving all other allegations and matters of public interest that it may raise. The protesting carrier's proof should include, without limitation, a demonstration with reasonable specificity of the nature of the existing full service being provided, the volume of passengers transported, economic analysis related to expenses and revenues of the full-service operation and the anticipated economic, business or functional effect of the proposed service on the existing provision of, or rates for, full-service transportation within the full-service territory;

(3) the department may allow other interested persons to intervene, either generally or on the basis of specific facts or issues. A permissive intervenor has the burden of proof for its position on all factual matters and legal issues that it alleges and on which it is permitted to intervene; and

(4) all parties to a hearing may base their demonstration and proof on business data, experienced persons and mathematical calculations. Expert testimony shall not be required of any party but may be provided at the option of a party.

D. The department shall not grant an application:

(1) for a certificate for ambulance service, or for amendment, lease or transfer of such a certificate, if it finds after hearing that the existing ambulance service is provided on a reasonably continuous and adequate basis in the territory in which the new service is sought or that the holder of the certificate or lessee providing the existing ambulance service in such territory is willing and able to provide, and does subsequently provide, reasonably continuous and adequate service within such territory, as specified by department order;

(2) for a new certificate for general taxicab service within the full-service territory of a protesting municipal taxicab service carrier; or

(3) for a certificate for any passenger service other than those identified in Paragraphs (1) and (2) of this subsection, or for amendment, lease or transfer of such a certificate, within a protesting full-service carrier's full-service territory, if it finds after hearing that the grant of the application presents a reasonable potential to impair, diminish or otherwise adversely affect the existing provision of full-service passenger service to the public in the full-service territory or if the application is otherwise contrary to the public interest in the full-service territory. In considering the potential effect on provision of transportation services to the public in regard to such an application, the department shall consider all evidence presented pertaining to such potential effect, including evidence of the effect that diversion of revenue or traffic may have on the provision of full-service passenger service to the community. Diversion of revenue or traffic from an existing motor carrier shall not, however, be sufficient grounds for denying the application without a showing that the diversion presents a reasonable potential to affect the provision of full-service passenger service to the community."

## **Chapter 100 Section 41 Laws 2023**

SECTION 41. Section 65-2A-14 NMSA 1978 (being Laws 2003, Chapter 359, Section 14, as amended by Laws 2013, Chapter 73, Section 13 and by Laws 2013, Chapter 77, Section 13) is amended to read:

B. The department is authorized to follow rules and collect fee assessments set by the federal secretary of transportation from foreign and domestic motor carriers, motor private carriers, leasing companies, brokers and freight forwarders and do all things necessary to enable New Mexico to participate in the federal unified carrier registration system pursuant to the federal Unified Carrier Registration Act of 2005, including the collection of an equal amount of revenue as was collected by the department in the last registration year under Section 4005 of the federal Intermodal Surface Transportation Efficiency Act of 1991 and the collection of an equal amount of revenue annually from all other sources allowed under the federal Unified Carrier Registration Act of 2005 in the last year that such collections were not prohibited by federal law.

C. The department is the state agency in New Mexico responsible for operation of the federal Unified Carrier Registration Act of 2005, including participating in the development, implementation and administration of the unified carrier registration agreement. The department is authorized to follow rules governing the unified carrier registration agreement issued under the unified carrier registration plan by its board of directors.

The department shall adopt reasonable minimum liability insurance requirements for the use of passenger motor vehicles with capacities less than those regulated by the federal motor carrier safety administration and in doing so shall consider the number of passengers being transported and the nature of the transportation services provided by the motor carriers using vehicles of those capacities.
- D. The department may authorize a motor carrier to carry its own insurance in lieu of filing a policy of insurance, certificate showing the issuance of a policy of insurance or a surety bond. In approving an application to be self-insured, the department shall consider:

The department may prescribe additional requirements related to safety, including driver safety training programs, vehicle preventive maintenance programs, inquiries regarding the safety of the motor vehicles and drivers employed by a motor carrier, and the appropriateness of the motor vehicles and equipment for the transportation services to be provided by the motor carrier.

C. The New Mexico state police division of the department of public safety may immediately order, without notice or a public hearing, a motor vehicle to be taken out of service for violation of a federal or state law or rule relating to safety if the violation would endanger the public health or safety.

D. The department shall implement rules requiring carriers to obtain criminal background reports for all employed or contract drivers of certificated service carriers and for all other persons employed by certificated household goods service carriers who enter private dwellings in the course of household goods service."

## **Chapter 100 Section 46 Laws 2023**

SECTION 46. Section 65-2A-20 NMSA 1978 (being Laws 2003, Chapter 359, Section 20, as amended by Laws 2013, Chapter 73, Section 18 and by Laws 2013, Chapter 77, Section 18) is amended to read:

"65-2A-20. TARIFFS.--

A. A tariffed service carrier shall not commence operations or perform a new service under its operating authority without having an approved tariff on file with the department.

B. A tariffed service carrier shall file with the department proposed tariffs showing the rates for transportation and all related activities and containing a description of the type and nature of the service, territory and all terms of service for transportation and related services. The rates shall be stated in terms of United States currency. Tariffs for individual carriers shall also include the carrier's legal name, all business trade names used by the carrier, contact information, information for service of process, the territory authorized for each transportation service listed in the tariff and any terms of service contained in the operating authorities for that particular carrier. Each tariffed service carrier operating pursuant to a statewide tariff shall file with the department a tariff statement referencing the statewide tariff being used and include the carrier's legal name, all business trade names used by the carrier, contact information, information for service of process, the territory authorized for that carrier and any terms of service contained in the operating authority for that particular carrier.

C. A tariffed service carrier shall not charge, or permit its agents, employees or contract drivers to charge, a different or additional rate, or to use different or additional practices or terms of service, for transportation or for a service rendered to or for the user of the service other than the rates and terms of service specified in approved tariffs in effect at the time, except:

(1) for ambulance and household goods service carriers, in accordance with rates and terms of service established by federal or state law for federal or state governmental programs or operations; and

(2) for tariffed passenger service carriers other than ambulance service carriers, in accordance with the rates and terms of service established by governmental programs or operations in which they voluntarily participate.

D. A tariffed service carrier shall not pay or refund, directly or indirectly to any person, a portion of the rate specified in its approved tariff, offer to a person privileges or facilities, perform a service or remit anything of value, except:

(1) in accordance with tariffs approved by the department;

(2) for ambulance and household goods service carriers, in accordance with rates and terms of service established by federal and state law for federal and state governmental entities, programs or operations;

(3) for tariffed passenger service carriers other than ambulance service carriers, in accordance with the rates and terms of service established by governmental programs or operations in which they voluntarily participate; or

(4) in settling or resolving a claim by a customer.

E. The department shall post on its internet website electronic copies of all currently approved individual and statewide tariffs, and all tariff statements filed by carriers using statewide tariffs, in a manner to facilitate public access, review and comparison of rates and terms of service. A certificated passenger service carrier other than an ambulance service carrier shall post its tariff rates in each vehicle used in the provision of its transportation service.

F. A tariffed service carrier shall file an application with the department for any change in the tariff, accompanied by the proposed tariff, at least twenty days prior to implementation of the amended rates and terms of service contained in the tariff. Except as provided in this section, an amended tariff shall be approved and become effective twenty days after filing of the application for a change in the tariff. The department shall post notice of each application for a change in a tariff along with a copy of the proposed tariff on the department website.

G. No changes in terms of service disapproved by the traffic safety bureau of the department as inconsistent with the Motor Carrier Act, rule of the department, the individual operating authority of the carrier or otherwise in violation of law shall become effective or be part of the approved tariff. The following terms of service contained in a tariff shall not be considered inconsistent with, or predatory or discriminatory in nature under the Motor Carrier Act or department rule:

(1) a carrier may decline or terminate service under circumstances that reasonably appear to present a physical danger to the driver, to another employee of the carrier or to passengers or, for carriers other than ambulance service carriers, a danger to the condition of the motor vehicle or cargo;

(2) a carrier is not responsible for cancellations or delays due to weather or road conditions when reasonably required for safety or when due to road construction, road closures, law enforcement stops or similar matters beyond the control of the carrier;

(3) a passenger service carrier may require that all firearms carried by any passenger other than an authorized law enforcement officer be unloaded and placed in a locked area of the vehicle during transport, along with all ammunition and any other weapons; or

(4) a passenger service carrier other than an ambulance service carrier may decline or terminate service when the passenger cannot give an adequate

description of, or direction to, the destination or cannot transfer into or out of the motor vehicle without requiring physical assistance from the driver.

H. An application for amendment of tariff rates that increases any tariff rate to a level greater than that previously approved by the department for a full-service carrier or a towing service providing nonconsensual tows shall not become effective until approved by the department as reasonable under Section 65-2A-21 NMSA 1978. The department shall hold a hearing appropriate to the type of transportation service provided by the carrier for any such application, if requested by the applicant or by the traffic safety bureau of the department, or if ordered in the discretion of the department. The department may provide for reasonable periodic rate increases for full-service carriers or towing services providing nonconsensual tows pursuant to a rate escalator or adjustment clause for any or all rates of a carrier on such basis as the department finds reasonable.

I. A person may make a complaint in writing to the department that a rate or term of service contained in a tariff, or a rate otherwise charged or practice otherwise effected, is inconsistent with or in violation of the Motor Carrier Act, department rule or the operating authority or current tariff of the motor carrier. The department may suspend the operation of a rate, term of service or practice for a period not to exceed sixty days to investigate its reasonableness. If the department finds that a rate charged by a tariffed carrier, or a term of service or practice effected by a tariffed carrier, is unauthorized, predatory or discriminatory, the department shall prescribe the rate or the maximum or minimum rate to be observed or the terms of service to be made effective."

## **Chapter 100 Section 47 Laws 2023**

SECTION 47. Section 65-2A-21 NMSA 1978 (being Laws 2003, Chapter 359, Section 21, as amended by Laws 2013, Chapter 73, Section 19 and by Laws 2013, Chapter 77, Section 19) is amended to read:

"65-2A-21. RATES.--

A. Tariffed service carriers shall observe nonpredatory and nondiscriminatory rates and terms of service for the transportation services they provide. A predatory or discriminatory charge for service is unlawful.

B. Reduced rates for minor children accompanied by an adult, for students traveling between their homes and their schools and for persons sixty-five years of age or older shall not be considered discriminatory. A motor carrier shall not furnish free transportation to persons except to bona fide owners, officers, employees or other business personnel of the motor carrier and their dependents.

C. Towing services performing nonconsensual tows may charge rates lower than the rates in their approved tariff to members of not-for-profit motor clubs after those rates have been filed with the department.

D. A household goods service carrier shall establish and observe nonpredatory and nondiscriminatory rates and practices relating to the manner and method of presenting, marking, packing and delivering household goods for transportation and other matters relating to the transportation of household goods.

E. In proceedings to determine the reasonableness of rates, the department shall authorize revenue levels that are adequate under honest, economical and efficient management to cover total operating expenses, including the operation of leased motor vehicles, and depreciation, plus a reasonable profit. The rules adopted by the department to implement this section shall allow a carrier to achieve revenue levels that will provide a flow of net income, plus depreciation, adequate to support prudent capital outlays, ensure the repayment of a reasonable level of debt, permit the raising of needed equity capital and attract and retain capital in amounts adequate to provide a sound motor carrier transportation system in the state."

### **Chapter 100 Section 48 Laws 2023**

SECTION 48. Section 65-2A-22 NMSA 1978 (being Laws 2003, Chapter 359, Section 22, as amended by Laws 2013, Chapter 73, Section 20 and by Laws 2013, Chapter 77, Section 20) is amended to read:

"65-2A-22. TIME SCHEDULES.--

A. A scheduled shuttle service carrier shall file a proposed time schedule with its tariff and shall file any change in its schedule through an amended tariff.

B. Failure by a scheduled shuttle service carrier to operate the service on each day pursuant to department rule as scheduled in its tariff shall result in an appropriate penalty as the department, in its discretion, shall determine.

C. A time schedule shall not be designed to require the operation of a motor vehicle between given terminals or terminal areas at a rate of speed greater than the maximum speed allowed."

### **Chapter 100 Section 49 Laws 2023**

SECTION 49. Section 65-2A-23 NMSA 1978 (being Laws 2003, Chapter 359, Section 23, as amended by Laws 2013, Chapter 73, Section 21 and by Laws 2013, Chapter 77, Section 21) is amended to read:

"65-2A-23. MOTOR CARRIER ORGANIZATIONS.--

A. A tariffed service carrier may enter into discussions with another tariffed service carrier to establish a motor carrier organization. The organization shall obtain authorization from the department before its members enter into any discussions concerning the rates contained in a statewide tariff. The department may authorize the

creation of a motor carrier organization to discuss and promote industry matters, other than the rates of individual carriers, if the organization:

(1) allows any intrastate motor carrier authorized to provide the same type of service to become a member of the organization and allows a member carrier to discuss matters before the organization and to vote upon any proposal;

(2) does not interfere with a member carrier's right to establish its own tariff and does not change or cancel an independently established tariff;

(3) does not file an objection, protest or complaint with the department against a tariff item independently published by or for the account of a member carrier;

(4) does not permit its employees or an employee committee to file or act upon a proposal effecting a change in a tariff item published by or for the account of a member carrier; and

(5) proposes matters concerning statewide tariffs for approval by the department.

B. A member carrier of the organization shall file with the department information as the department may by rule prescribe.

C. A motor carrier organization approved by the department pursuant to this section shall be subject to accounting, recordkeeping, reporting and inspection requirements as the department may by rule prescribe.

D. The department may, upon complaint or upon its own initiative, investigate and determine whether a motor carrier organization previously authorized by it is not in conformity with the requirements of this section or with the terms and conditions upon which the motor carrier organization was granted authorization. The department may modify or terminate its authorization of a motor carrier organization found to be noncompliant with the requirements of this rule.

E. The antitrust laws of the state shall not apply to discussions concerning general industry matters, terms of service or any matters concerning a statewide tariff, including the rates contained in a statewide tariff, by member carriers of a motor carrier organization authorized by the department."

## **Chapter 100 Section 50 Laws 2023**

SECTION 50. Section 65-2A-24 NMSA 1978 (being Laws 2003, Chapter 359, Section 24, as amended by Laws 2013, Chapter 73, Section 22 and by Laws 2013, Chapter 77, Section 22) is amended to read:

"65-2A-24. MOTOR VEHICLE LEASES--DRIVER CONTRACTS.--

A. An intrastate motor carrier shall not lease a motor vehicle or operate a leased motor vehicle in the course of its transportation service except as provided by department rule. The department may approve a motor vehicle lease without notice or a public hearing.

B. A motor carrier may use employed or contract drivers or taxicab association member drivers in the provision of a transportation service. Regardless of the provisions of any written or oral agreement between a motor carrier and a contract driver or taxicab association member driver, motor carriers providing transportation services that use contract drivers or taxicab association member drivers remain fully responsible to the department for complying with all provisions of the Motor Carrier Act and department rules applicable to transportation service carriers.

C. Motor carriers providing intrastate transportation services that use contract drivers or taxicab association member drivers shall maintain, at their principal places of business within the state, a current written agreement with each such driver. No agreement with any contract driver or taxicab association member driver shall contain any provision contrary to a provision of the Motor Carrier Act or a rule of the department. Each written agreement shall contain a clause that requires the contract driver or taxicab association member driver to adhere to all provisions of the Motor Carrier Act and to all department rules applicable to transportation service carriers."

## **Chapter 100 Section 51 Laws 2023**

SECTION 51. Section 65-2A-25 NMSA 1978 (being Laws 2003, Chapter 359, Section 25, as amended by Laws 2013, Chapter 73, Section 23 and by Laws 2013, Chapter 77, Section 23) is amended to read:

"65-2A-25. HOUSEHOLD GOODS OPERATIONS.--

A. The department shall establish a statewide tariff for household goods services, containing terms of service and maximum rates that household goods service carriers may charge the public.

B. A certificated household goods service carrier shall be responsible for acts or omissions of its agents that relate to the performance of household goods transportation services, including accessorial or terminal services, that are within the actual or apparent authority of the agent derived from or ratified by the certificated household goods service carrier.

C. A certificated household goods service carrier shall use reasonable care in selecting and retaining household goods agents who are sufficiently knowledgeable, fit, willing and able to provide adequate household goods transportation services, including accessorial and terminal services, and to fulfill the obligations imposed upon them by the Motor Carrier Act and by the certificated household goods service carrier.

D. If the department has reason to believe from a complaint or investigation that a household goods agent has violated Subsection G or H of Section 65-2A-33 NMSA 1978, or is consistently unfit, unwilling or unable to provide adequate household goods transportation services, including accessorial and terminal services, the department may issue to that household goods agent notice of the complaint, specific charges and the time and place for a hearing on the complaint. The hearing shall be held no later than sixty days after service of the complaint to the household goods agent. The household goods agent has the right to appear at the hearing and rebut the charges contained in the complaint.

E. If the household goods agent does not appear at the complaint hearing, or if the department finds that the household goods agent has violated Subsection G or H of Section 65-2A-33 NMSA 1978, or is consistently unfit, unwilling or unable to provide adequate household goods transportation services, including accessorial and terminal services, the department shall issue an order to compel compliance by the household goods agent. Thereafter, the department may issue an order to limit or prohibit the household goods agent from any involvement in the provision of household goods transportation services if, after notice and an opportunity to be heard, it finds that the household goods agent has failed to comply with the order within a reasonable time after the date of its issuance, but in no event less than thirty days after its issuance. A household goods agent may file a petition with the department seeking reconsideration of an order entered by the department pursuant to this section.

F. The department shall adopt rules for the following elements of household goods transportation services:

- (1) methods of determining shipping charges;
- (2) cost estimates, for which charges shall be subject to the antitrust laws of this state;
- (3) inventory;
- (4) weighing;
- (5) receipts and bills of lading;
- (6) liability based on value established between the motor carrier and the shipper;
- (7) equipment stationing by, and joint transportation between, household goods service carriers;
- (8) household goods agents; and
- (9) service standards.

G. In adopting reasonable rules for intrastate household goods service carriers, the department shall balance the interests of shippers and carriers and consider and observe industry standards.

H. The antitrust laws shall not apply to discussions or agreements between a household goods service carrier and its authorized agents, whether or not an agent is also a household goods service carrier when related solely to:

(1) rates for the transportation of household goods under the authority of the principal carrier;

(2) accessorial, terminal, storage or other charges for transportation services incidental to the transportation of household goods transported under the authority of the principal carrier;

(3) allowances relating to transportation of household goods under the authority of the principal carrier; or

(4) ownership of a household goods service carrier by an agent or membership on the board of directors of any household goods service carrier by an agent."

## **Chapter 100 Section 52 Laws 2023**

SECTION 52. Section 65-2A-26 NMSA 1978 (being Laws 2003, Chapter 359, Section 26, as amended by Laws 2013, Chapter 73, Section 24 and by Laws 2013, Chapter 77, Section 24) is amended to read:

"65-2A-26. HOUSEHOLD GOODS VOLUNTARY DISPUTE SETTLEMENT PROGRAM.--

A. The department shall establish a program to settle disputes, at the voluntary option of the shipper, between shippers and all household goods service carriers concerning the transportation of household goods, which shall be a fair and expeditious method for settling disputes and complies with each of the following requirements and rules the department may prescribe:

(1) the program is designed to prevent a household goods service carrier from having any special advantage in a case in which the shipper resides or does business at a place distant from the motor carrier's place of business;

(2) the program provides adequate notice of its availability, including a concise, understandable and accurate summary of the program and disclosure of the legal effects of using the program. The notice shall be given to the shipper before the shipper tenders the household goods to the motor carrier for transportation;

(3) upon request of a shipper, the motor carrier shall promptly provide forms and other information necessary to initiate an action to resolve a dispute under the program;

(4) a person authorized pursuant to the program to settle disputes shall be independent of the parties to the dispute and shall be capable, as determined by rules prescribed by the department, to resolve disputes fairly and expeditiously. The program shall ensure that a person chosen to settle a dispute is authorized and able to obtain from the shipper or motor carrier any material and relevant information necessary to carry out a fair and expeditious decision-making process;

(5) the person settling the dispute may charge the shipper a fee of not more than twenty-five dollars (\$25.00) for instituting a proceeding under the program if the program is binding solely on the carrier, but shall not charge the shipper a fee otherwise. The person settling the dispute shall refund the fee to the shipper in a case in which the dispute is settled in favor of the shipper, unless the person settling the dispute determines that the refund is inappropriate;

(6) the program shall not require the shipper to agree to use the dispute settlement program prior to the time that a dispute arises;

(7) the program may provide for an oral presentation of a dispute concerning transportation of household goods by a party to the dispute or a party's representative, but an oral presentation shall not be made unless the parties to the dispute expressly agree to the presentation and the date, time and location of the presentation; and

(8) a person settling a dispute under the program shall, as expeditiously as possible, but no later than sixty days after receipt of written notification of the dispute, render a decision based on the information gathered; except that, in a case in which a party to the dispute fails to timely provide information that the person settling the dispute may reasonably require, the person settling the dispute may extend the sixty-day period for a reasonable period of time. A decision resolving a dispute may include remedies appropriate under the circumstances, including repair, replacement, refund or reimbursement for expenses and compensation for damages.

B. The department may investigate at any time the functioning of the program approved under this section and may, after notice and an opportunity to be heard, take appropriate action against any household goods service carrier for failure to meet the requirements of this section and rules as the department may prescribe.

C. In a court action to resolve a dispute between a shipper and a household goods service carrier, concerning the transportation of household goods by the carrier, the shipper shall be awarded reasonable attorney fees if:

(1) the shipper submits a claim to the carrier within one hundred twenty days after the date the shipment is delivered or the date delivery is scheduled, whichever is later;

(2) the shipper prevails in the court action; and

(3) a decision resolving the dispute was not rendered under the dispute settlement program within sixty days or an extension of the sixty-day period; or

(4) the court proceeding is to enforce a decision rendered under the dispute settlement program and is instituted after the period for performance under the decision has elapsed.

D. In a court action to resolve a dispute between a shipper and a household goods service carrier concerning the transportation of household goods by the carrier, the carrier shall be awarded reasonable attorney fees by the court only if the shipper brought the action in bad faith:

(1) after resolution of the dispute under the dispute settlement program;  
or

(2) after institution of a proceeding by the shipper to resolve the dispute under the dispute settlement program and before:

(a) the expiration of the sixty-day period or extension of the sixty-day period for resolution of the dispute; and

(b) a decision resolving the dispute is rendered under the program."

## **Chapter 100 Section 53 Laws 2023**

SECTION 53. Section 65-2A-27 NMSA 1978 (being Laws 2003, Chapter 359, Section 27, as amended by Laws 2013, Chapter 73, Section 25 and by Laws 2013, Chapter 77, Section 25) is amended to read:

### **"65-2A-27. INVOLUNTARY SUSPENSION, REVOCATION OR AMENDMENT OF OPERATING AUTHORITIES--REINSTATEMENT.--**

A. The department shall immediately suspend, without notice or a public hearing, the operating authority of a motor carrier for failure to continuously maintain the forms and amounts of financial responsibility prescribed by department rule.

B. The department may immediately suspend, without notice or a public hearing, the operating authority of a motor carrier for violation of a safety requirement of the Motor Carrier Act, the department's rules or the rules of the New Mexico state police

division of the department of public safety, if the violation endangers the public health or safety.

C. The department may, upon complaint or the department's own initiative and after notice and a public hearing, if required, order involuntary suspension, revocation or amendment, in whole or in part, of an operating authority for failure to:

- (1) comply with a provision of the Motor Carrier Act;
- (2) comply with a lawful order or rule of the department;
- (3) comply with a term of service of an operating authority or tariff; or
- (4) render reasonably continuous and adequate service under a certificate.

D. The department may approve an application for reinstatement of an operating authority following involuntary suspension if it finds, after notice and public hearing requirements are met, that:

- (1) the reasons for the involuntary suspension no longer pertain; and
- (2) the holder of the operating authority is fit, and a certificate holder is able, to provide the authorized transportation services, and the holder will comply with the Motor Carrier Act and the rules of the department."

## **Chapter 100 Section 54 Laws 2023**

SECTION 54. Section 65-2A-28 NMSA 1978 (being Laws 2003, Chapter 359, Section 28, as amended by Laws 2013, Chapter 73, Section 26 and by Laws 2013, Chapter 77, Section 26) is amended to read:

"65-2A-28. DESIGNATION OF AN AGENT FOR SERVICE OF PROCESS.--

A. An applicant for an operating authority shall file with the department an appointment in writing of a resident agent for service of process. The appointment shall specify the address of the agent and shall stipulate that service upon the appointed agent of process of the department or of a court shall have the same force and effect as if service had been made personally upon the motor carrier within this state. The appointment shall continue in force until the motor carrier files an appointment of a substitute agent or until liability against the motor carrier growing out of its operations in the state has terminated. A copy of the appointment, duly certified by the department, shall be accepted as sufficient evidence of appointment of an agent in a court of the state.

B. If the holder of an operating authority from the department operates without appointing a resident agent for service of process, or the department has unsuccessfully attempted to serve process upon the designated resident agent, the holder shall be deemed to have appointed the secretary of state as its resident agent for service of process in an action or proceeding against the motor carrier growing out of an accident, collision or transaction in which the motor carrier may be involved by operating in this state.

C. If the secretary of state is served with process directed to the holder of an operating authority from the department, the secretary of state shall forward the process by certified mail to the motor carrier at the address shown on its last change of address report, annual report or application with respect to its operating authority, whichever is most recent. The secretary of state shall file a certificate of service with the department, which shall be accepted as prima facie proof of service.

D. The secretary of state shall assess to the motor carrier the fee prescribed in Section 65-2A-36 NMSA 1978 for a process from a court served upon the secretary of state but shall not charge a fee for service of department process.

E. The principal motor carrier of a household goods agent shall be deemed to be the agent for service of process of the household goods agent unless the household goods agent notifies the department in writing of the substitution of another agent for service of process."

## **Chapter 100 Section 55 Laws 2023**

SECTION 55. Section 65-2A-29 NMSA 1978 (being Laws 2003, Chapter 359, Section 29, as amended by Laws 2013, Chapter 73, Section 27 and by Laws 2013, Chapter 77, Section 27) is amended to read:

The report shall be in the form, contain specific information, including financial information, and be due on a date as the department may by rule require. Financial data filed by motor carriers in annual reports shall not be made available for inspection by the public.

C. The department or its employees or duly authorized agents shall, at all times, have access to:

(1) land, buildings, improvements to real property and equipment of motor carriers used in connection with their operations; and

(2) records kept by motor carriers.

D. The department may, by order, require a motor carrier subject to the Motor Carrier Act, or its officers or agents, to produce within this state at such reasonable time and place as it may designate, original or certified copies of records regardless of where they are kept by the motor carrier when their production is pertinent to a matter before the department, in order that the department may examine them. No trade secret or business confidentiality immunity or privilege may be asserted by the motor carrier in response to such an order or request; provided that nothing in this provision shall prevent a carrier from moving for, or the department from entering, an appropriate protective order to preserve the carrier's trade secrets or business confidentiality from further disclosure, nor shall this provision or any production required under this provision waive or diminish the carrier's trade secret or business confidentiality immunity or privilege as to persons other than the department.

E. The New Mexico state police division of the department of public safety shall furnish to the department all information needed or required by the department to carry out its responsibilities when the information is obtainable only through field enforcement.

F. All applications, protests, objections, amendments to filings, operating authorities, tariffs, pleadings or any other documents filed in docketed proceedings not subject to confidentiality orders are public records and shall, as soon as practical, be made electronically available to the public."

Witnesses subpoenaed by parties other than the department shall be paid the same compensation by the party issuing the subpoena.

B. A person shall not be excused from testifying or producing documentary evidence before the department or a court in obedience to a subpoena of the department issued pursuant to the Motor Carrier Act on the ground that the testimony or documentary evidence required of the person may tend to incriminate the person or subject the person to a penalty. A person shall not be prosecuted or subjected to a penalty for a transaction or matter about which the person may be required to testify or produce documentary evidence; provided that a person testifying shall not be exempt from prosecution and punishment for perjury committed in testifying. A person shall not be required to testify or produce documentary evidence in response to an inquiry not pertinent to a question lawfully before the department or court for determination.

C. Upon request of the department, a district court may issue a writ of attachment to a person who fails to comply with a subpoena issued by the department compelling the person to comply with the subpoena. An employee of the department, a duly authorized law enforcement officer or a person over the age of eighteen who is not a party to the proceeding may serve process and shall return a copy of the process served, with an endorsement of service, to the department. The endorsed process shall be entered into the record of the proceeding and shall be prima facie evidence that the process was duly served.

F. The department may in writing authorize an employee or other person to investigate and take testimony regarding a matter pending before the department."

A. The department of transportation and local highway authorities may, in their discretion, upon application in writing and good cause being shown, issue a special permit in writing authorizing the applicant to operate or move a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 on a highway under the jurisdiction of the state transportation commission or local authorities. Except for the movement of manufactured homes, a permit may be granted, in cases of emergency, for the transportation of loads on a certain unit or combination of equipment for a specified period of time not to exceed one year, and the permit shall contain the route to be traversed, the type of load to be transported and any other restrictions or conditions deemed necessary by the body granting the permit. In every other case, the permit shall be issued for a single trip and may designate the route to be traversed and contain any other restrictions or conditions deemed necessary by the body granting the permit. Every permit shall be carried in the vehicle to which it refers and shall be opened for inspection to any peace officer. It is a misdemeanor for a person to violate a condition or term of the special permit.

B. The department of transportation shall promulgate rules in accordance with the State Rules Act pertaining to safety practices, liability insurance and equipment for escort vehicles provided by the motor carrier and for escort vehicles provided by a private business in this state; provided that:

(1) the department of public safety or the department of transportation shall provide the escort personnel with a copy of applicable rules and shall inspect the

escort vehicles for the safety equipment required by the rules. If the escort vehicles and personnel meet the requirements set forth in the rules, the department of public safety shall issue the special permit;

(2) the movement of vehicles upon the highways of this state requiring a special permit and required to use an escort of the type noted in Paragraph (1) of this subsection is subject to the authority of the department of transportation and the department of public safety and to inspection at all times; and

(3) the department of transportation shall conduct engineering investigations and engineering inspections to determine which four-lane highways are safe for the operation or movement of manufactured homes without an escort. After making that determination, the department of transportation shall hold public hearings in the area of the state affected by the determination, after which it may adopt rules designating those four-lane highways as being safe for the operation or movement of manufactured homes without an escort. If a portion of such a four-lane highway lies within the boundaries of a municipality, the department of transportation, after obtaining the approval of the municipal governing body, shall include such portions in its rules.

C. Except for the movement of manufactured homes, special permits may be issued for a single vehicle or combination of vehicles by the department of transportation for a period not to exceed one year for a fee of two hundred fifty dollars (\$250). The special permits may allow excessive height, length and width for a vehicle or combination of vehicles or load thereon and may include a provision for excessive weight if the weight of the vehicle or combination of vehicles is not greater than one hundred forty thousand pounds. Utility service vehicles, operating with special permits pursuant to this subsection, shall be exempt from prohibitions or restrictions relating to hours or days of operation or restrictions on movement because of poor weather conditions.

D. Special permits for a single trip for a vehicle or combination of vehicles or load thereon of excessive weight, width, length and height may be issued by the department of transportation for a single vehicle for a fee of twenty-five dollars (\$25.00) plus the product of two and one-half cents (\$.025) for each two thousand pounds in excess of eighty-six thousand four hundred pounds or major fraction thereof multiplied by the number of miles to be traveled by the vehicle or combination of vehicles on the highways of this state.

E. If a vehicle for which a permit is issued pursuant to this section is a manufactured home, the department of transportation or local highway authority issuing the permit shall furnish the following information to the property tax division of the taxation and revenue department, which shall forward the information:

(1) to the county assessor of a county from which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to if within the same county, the name of the owner of the

manufactured home and the identification and registration numbers of the manufactured home;

(3) to the owner of a manufactured home having a destination in this state, notification that the information required in Paragraphs (1) and (2) of this subsection is being given to the respective county assessors and that manufactured homes are subject to property taxation.

F. Except as provided in Subsection G of this section, if the movement of a manufactured home originates in this state, a permit shall not be issued pursuant to Subsection E of this section until the owner of the manufactured home or the authorized agent of the owner obtains and presents to the department of transportation proof that a certificate has been issued by the county assessor or treasurer of the county in which the manufactured home movement originates showing that either:

(1) all property taxes due or to become due on the manufactured home for the current tax year or any past tax years have been paid, except for manufactured homes located on an Indian reservation; or

(2) liability for property taxes on the manufactured home does not exist for the current tax year or a past tax year, except for manufactured homes located on an Indian reservation.

G. The movement of a manufactured home from the lot or business location of a manufactured home dealer to its destination designated by an owner-purchaser is not subject to the requirements of Subsection F of this section if the manufactured home movement originates from the lot or business location of the dealer and the manufactured home was part of the dealer's inventory prior to the sale to the owner-purchaser; however, the movement of a manufactured home by a dealer or the dealer's authorized agent as a result of a sale or trade-in from a nondealer-owner is subject to the requirements of Subsection F of this section whether the destination is the business location of a dealer or some other destination.

H. A permit shall not be issued pursuant to this section for movement of a manufactured home whose width exceeds eighteen feet with no more than a six-inch roof overhang on the left side or twelve inches on the right side in addition to the eighteen-foot width of the manufactured home. Manufactured homes exceeding the limitations of this section shall only be moved on dollies placed on the front and the rear of the structure.

J. The secretary of transportation may provide by rule for dealers of implements of husbandry to self-issue permits for the movement of certain sizes of implements of husbandry from the lot or business location of the dealer over specific routes with specific escort requirements, if necessary, to a destination designated by an owner-purchaser or for purposes of a working demonstration on the property of a proposed owner-purchaser. The department of transportation shall charge a fee for each self-issued permit not to exceed fifteen dollars (\$15.00).

K. A private motor carrier requesting an oversize or overweight permit shall provide proof of insurance in at least the following amounts:

(1) bodily injury liability, providing:

(a) fifty thousand dollars (\$50,000) for each person; and

(b) one hundred thousand dollars (\$100,000) for each accident;

L. A motor carrier requesting an oversize permit shall produce a copy of a warrant or a single state registration receipt as evidence that the motor carrier maintains the insurance minimums prescribed by the department of transportation.

M. The department of transportation may provide by rule the time periods during which a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 may be operated or moved by a motor carrier on a highway under the jurisdiction of the state transportation commission or local authorities.

#### WRIT OF GARNISHMENT

THE STATE OF NEW MEXICO to the above-named garnishee:

You are ordered to appear before the magistrate court located at \_\_\_\_\_ within twenty days from the service of this writ upon you to answer under oath the following questions, as of the date of service and as of the date of your answer:

1. What, if anything, are you indebted to the defendant in this action and on what account?

2. What, if any, personal property of the defendant is in your possession or under your control?

3. What other persons, if any, within your knowledge are indebted to the defendant or have personal property of the defendant in their possession?

Service of this writ upon you has the effect of attaching all nonexempt personal property, money, rights, credits, bonds, bills, notes, drafts and other choses in action of the defendant in your possession or under your control at the time of service and that may come into your possession or under your control or be owing by you between the time of service and the time of making your answer.

This writ was issued in (advance) (aid of execution) of judgment against the defendant. If this writ was issued in advance of judgment, it does not attach any wages or salary due from you to the defendant. If this writ was issued in aid of execution of judgment, it attaches wages or salary due from you to the defendant in excess of the greater of the following portions of the defendant's disposable earnings:

A. seventy-five percent of the defendant's disposable earnings for any pay period; or

B. an amount each week equal to forty times the highest applicable minimum hourly wage rate at the place the wages were earned. A table giving equivalent exemptions for pay periods of other than one week may be obtained from the director of the financial institutions division of the regulation and licensing department. "Disposable earnings" means that part of the defendant's wage or salary remaining after deducting the amounts that are required by law to be withheld. "Highest applicable minimum hourly wage rate" means the highest federal, state or local minimum hourly wage rate for an eight-hour day or a forty-hour week. It is immaterial whether you are exempt under federal, state or local law from paying the highest applicable minimum hourly wage rate.

## FINANCIAL INSTITUTION WRITS

If you are a financial institution, the defendant who is an individual or sole proprietor has an exemption totaling two thousand four hundred dollars (\$2,400) in depository and investment accounts. This writ attaches only to money in excess of two thousand four hundred dollars (\$2,400). You may rely on the representations of the person executing this writ as to whether the exemption amount has already been satisfied with other accounts held by other financial institutions. This provision shall not prevent the individual or sole proprietor from claiming that additional money in depository or investment accounts is exempt under any other available exemption provided by law.

Any wages you owe the employee in excess of two thousand four hundred dollars (\$2,400) or that you may come to owe the employee in excess of that amount must be kept by you until further order of this court. This means that you shall not pay the non-exempt amounts to the plaintiff until further order from this court requiring payment.

It is unlawful to pay or deliver to the defendant any item attached by this writ. If you fail to appear and answer as directed, or if you unlawfully dispose of any item

attached by this writ, judgment may be rendered against you for the full amount of the plaintiff's claim against the defendant in this action.

Dated \_\_\_\_\_, 20 \_\_\_\_\_  
Magistrate".

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

## **Chapter 106 Section 1 Laws 2023**

SECTION 1. Section 40-4-11.1 NMSA 1978 (being Laws 1988, Chapter 87, Section 2, as amended) is amended to read:

"40-4-11.1. CHILD SUPPORT--GUIDELINES.--

A. In any action to establish or modify child support, the child support guidelines as set forth in this section and the child support schedule promulgated by the department shall be applied to determine the child support due and shall be a rebuttable presumption for the amount of such child support. Every decree or judgment or stipulation of child support that deviates from the guideline amount shall contain a statement of the reasons for the deviation.

B. The purposes of the child support guidelines are to:

(1) establish as state policy an adequate standard of support for children, subject to the ability of parents to pay;

(2) make awards more equitable by ensuring more consistent treatment of persons in similar circumstances; and

(3) improve the efficiency of the court process by promoting settlements and giving courts and the parties guidance in establishing levels of awards.

C. For purposes of the guidelines specified in this section:

(1) "income" means actual gross income of a parent if employed to full capacity or potential income if unemployed or underemployed. The gross income of a parent means only the income and earnings of that parent and not the income of subsequent spouses, notwithstanding the community nature of both incomes after remarriage; and

(2) "gross income" includes income from any source and includes but is not limited to income from salaries, wages, tips, commissions, bonuses, dividends, severance pay, pensions, interest, trust income, annuities, capital gains, social security benefits, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits, significant in-kind benefits that reduce personal living expenses, prizes and alimony or maintenance received, provided:

(a) "gross income" shall not include benefits received from: 1) means-tested public assistance programs, including but not limited to temporary assistance for needy families, supplemental security income and general assistance; 2) the earnings or public assistance benefits of a child who is the subject of a child support award; or 3) child support received by a parent for the support of other children;

(b) for income from self-employment, rent, royalties, proprietorship of a business or joint ownership of a partnership or closely held corporation, "gross income" means gross receipts minus ordinary and necessary expenses required to produce such income, but ordinary and necessary expenses do not include expenses determined by the court to be inappropriate for purposes of calculating child support;

(c) "gross income" shall not include the amount of alimony payments actually paid in compliance with a court order;

(d) "gross income" shall not include the amount of child support actually paid by a parent in compliance with a court order for the support of prior children; and

(e) "gross income" shall not include a reasonable amount for a parent's obligation to support prior children who are in that parent's custody. A duty to support subsequent children is not ordinarily a basis for reducing support owed to children of the parties but may be a defense to a child support increase for the children of the parties. In raising such a defense, a party may use Table A as set forth in Subsection M of this section to calculate the support for the subsequent children.

D. If a court finds that a parent has willfully failed to obtain or maintain appropriate employment or is willfully underemployed, the court may impute to that parent an income equal to that parent's earning and employment potential.

- (1) The following criteria shall be used:
  - (a) availability of employment opportunities for the parent;
  - (b) the parent's employment history;
  - (c) the parent's income history;
  - (d) the parent's job skills;
  - (e) the parent's education;
  - (f) the parent's age and health;
  - (g) the parent's history of convictions and incarceration; and

(h) the parent's ability to obtain or maintain employment due to providing care for a child of the parties who is under the age of six or is disabled.

(2) Minimum wage may be imputed if a parent has no recent employment or earnings history and that parent has the capacity to earn minimum wage. The minimum wage to be imputed to that parent is the prevailing minimum wage in the locality where that parent resides.

E. Income may not be imputed to a parent if the parent is incarcerated for a period of one hundred eighty days or longer. Incarceration is not considered a voluntary unemployment.

F. As used in this section:

(1) "department" means the human services department;

(2) "children of the parties" means the natural or adopted child or children of the parties to the action before the court but shall not include the natural or adopted child or children of only one of the parties;

(3) "basic visitation" means a custody arrangement whereby one parent has physical custody and the other parent has visitation with the children of the parties less than thirty-five percent of the time. Such arrangements can exist where the parties share responsibilities pursuant to Section 40-4-9.1 NMSA 1978;

(4) "shared responsibility" means a custody arrangement whereby each parent provides a suitable home for the children of the parties, when the children of the parties spend at least thirty-five percent of the year in each home and the parents significantly share the duties, responsibilities and expenses of parenting; and

(5) "schedule" means the child support schedule promulgated by the department.

G. The basic child support obligation shall be calculated based on the combined income of both parents and shall be paid by them proportionately pursuant to Subsection L of this section.

H. Physical custody adjustments shall be made as follows:

(1) for basic visitation situations, the basic child support obligation shall be calculated using the basic child support schedule promulgated by the department, Worksheet A and instructions contained in Subsection M of this section. The court may provide for a partial abatement of child support for visitations of one month or longer; and

(2) for shared responsibility arrangements, the basic child support obligation shall be calculated using the basic child support schedule promulgated by the department, Worksheet B and instructions contained in Subsection M of this section.

I. In shared responsibility situations, each parent retains the percentage of the basic support obligation equal to the number of twenty-four-hour days of responsibility spent by each child with each respective parent divided by three hundred sixty-five.

J. The cost of providing medical and dental insurance for the children of the parties and the net reasonable child-care costs incurred on behalf of these children due to employment or job search of either parent shall be paid by each parent in proportion to that parent's income, in addition to the basic obligation.

K. The child support may also include the payment of the following expenses not covered by the basic child support obligation:

(1) any extraordinary medical, dental and counseling expenses incurred on behalf of the children of the parties. Such extraordinary expenses are uninsured expenses in excess of one hundred dollars (\$100) per child per year;

(2) any extraordinary educational expenses for children of the parties;  
and

(3) transportation and communication expenses necessary for long distance visitation or time sharing.

L. Whenever application of the child support guidelines set forth in this section requires a person to pay to another person more than forty percent of the paying person's gross income for a single child support obligation for current support, there shall be a presumption of a substantial hardship, justifying a deviation from the guidelines.

M. The department shall:

(1) establish the basic child support schedule by rule, using the recommendations of the child support guidelines review commission as the initial proposed rules; and

(2) update and adjust the basic child support schedule when such a change is necessary to ensure that the child support schedule complies with the child support guidelines set forth in this section. The basic child support schedule shall be promulgated pursuant to the State Rules Act and shall be published and available to the public through the New Mexico Administrative Code, the New Mexico supreme court's website and the department's website. When the department is developing or updating the child support schedule, it shall consider:

- (a) all of the earnings and income of the noncustodial and custodial parent;
- (b) the basic subsistence needs of a noncustodial parent who may have a limited ability to pay by incorporating a mechanism that adjusts the basic support obligation for low-income parents;
- (c) economic data on the costs of raising children;
- (d) state and local labor market data; and
- (e) regional and national trends in child support schedule adjustments.

#### INSTRUCTIONS FOR WORKSHEET A

Line 1. Gross monthly income:

Includes all income, except temporary assistance for needy families, food stamps and supplemental security income. If a parent pays child support by court order to other children, subtract from gross income. Use current income if steady. If income varies a lot from month to month, use an average of the last twelve months, if available, or last year's income tax return. Add both parents' gross incomes and put total under the combined column.

Line 2. Percentage of Combined Income:

Divide each parent's income by combined income to get that parent's percentage of combined income.

Lines 3 and 4. Basic Support:

Fill in number of children on worksheet (Line 3). Round combined income to nearest fifty dollars (\$50.00). Look at the basic child support schedule. In the far left-hand column of the basic child support schedule, find the rounded combined income figure. Read across to the column with the correct number of children. Enter that amount on Line 4.

Line 5. Children's Health and Dental Insurance Premium:

Enter the cost paid by a parent for covering these children with medical and dental insurance under that parent's column on Line 5. Add costs paid by each parent and enter under the combined column on Line 5.

Line 6. Work-Related Child Care:

Enter the cost paid by each parent for work-related child care. If the cost varies (for example, between school year and summer), take the total yearly cost and divide by twelve. Enter each parent's figure in that parent's column on Line 6. Add the cost for both parents and enter in the combined column on Line 6.

Line 7. Additional Expenses:

Enter the amounts paid by each parent for additional expenses provided by Subsection J of this section on Line 7. Add the cost for both parents and enter in the combined column on Line 7.

Line 8. Total Support:

Total the basic support amount from Line 4 in the combined column with the combined column on Lines 5, 6 and 7 and enter the totals in the combined column on Line 8.

Line 9. Each Parent's Obligation:

Multiply the total child support amount on Line 8 by each parent's percentage share on Line 2, and enter each parent's dollar share under that parent's column on Line 9.

Line 10. Total Support:

Enter the total amount shown for each parent on Line 8 beside the "minus" marks on Line 10.

Line 11. Each Parent's Net Obligation:

For each parent, subtract the amount on Line 10 from the amount on Line 9. Enter the difference for each parent in that parent's column on Line 11. The amount in the box "other parent" is what that parent pays to the custodial parent each month. Do not subtract the amount on the custodial parent's Line 11 from the amount in the other parent's box. The custodial parent is presumed to use the amount in that parent's column on Line 11 for the children.

SHARED RESPONSIBILITY  
INSTRUCTIONS FOR WORKSHEET B

Part 1 - Basic Support:

Line 1. Gross Monthly Income:

Includes all income, except temporary assistance for needy families, food stamps and supplemental security income. See text for allowed deductions from income. Use current income if steady. If income varies a lot from month to month, use an average of the last twelve months, if available, or last year's income tax return. Add both parents' gross incomes and put total under the combined column.

Line 2. Percentage of Combined Income:

Divide each parent's income by combined income to get that parent's percentage of combined income.

Lines 3 and 4. Basic Support:

Fill in the number of children on the worksheet (Line 3). Round combined income to nearest fifty dollars (\$50.00). Look at the basic child support schedule. In the far left-hand column of that schedule, find the rounded combined income figure. Read across to the column with the correct number of children. Enter that amount on Line 4.

Line 5. Shared Responsibility Basic Obligation:

Multiply the basic obligation on Line 4 by 1.5.

Line 6. Each Parent's Share:

Multiply the support amount on Line 5 by each parent's percentage share on Line 2, and enter each parent's dollar share under that parent's column on Line 6.

Line 7. Each Parent's Time of Care for Children:

Enter the number of twenty-four-hour days of responsibility that each parent has each child in a year according to the parenting plan.

Line 8. Percentage of Twenty-Four-Hour Days With Each Parent:

Divide each parent's number of twenty-four-hour days (Line 7) by three hundred sixty-five to obtain a percentage.

Line 9. Amount Retained:

Under shared responsibility arrangements, each parent retains the percentage of the basic support obligation equal to the number of twenty-four-hour days of responsibility spent by each child with each respective parent divided by three hundred sixty-five. Multiply each parent's share of basic support (Line 6) by the percentage in that parent's Line 8 and enter the result on that parent's Line 9. This is the amount that each parent retains to pay the children's expenses during that parent's periods of responsibility.

Line 10. Each Parent's Basic Obligation:

Subtract the amount retained by each parent for direct expenses (Line 9) from that parent's share (Line 6) and enter the difference on that parent's Line 10.

Line 11. Amount Transferred for Basic Support:

In shared responsibility situations, both parents are entitled not only to retain money for direct expenses but also to receive contributions from the other parent toward those expenses. Therefore, subtract the smaller amount on Line 10 from the larger amount on Line 10 to arrive at a net amount transferred for basic support.

Part 2 - Additional Payments:

Line 12. Children's Health and Dental Insurance Premium: Enter the cost paid by a parent for covering these children with medical and dental insurance under that parent's column on Line 12. Add costs paid by each parent and enter under the combined column on Line 12.

Line 13. Work-Related Child Care:

Enter the cost paid by each parent for work-related child care. If the cost varies (for example, between school year and summer), take the total yearly cost and divide by twelve. Enter each parent's figure in that parent's column on Line 13. Add the cost for both parents and enter in the combined column on Line 13.

Line 14. Additional Expenses:

Enter the cost paid by each parent for additional expenses provided by Subsection J of this section on Line 14.

Line 15. Total Additional Payments:

For each parent, total the amount paid by that parent for insurance, child care and additional expenses (Lines 12, 13 and 14). Enter the total in that parent's column on Line 15 and the total of both parents' expenses under the combined column on Line 15.

Line 16. Each Parent's Obligation:

Multiply the total additional payments (combined column on Line 15) by each parent's percentage share of income on Line 2, and enter each parent's dollar share of the additional payments on that parent's Line 16.

Line 17. Amount Transferred:

Subtract each parent's obligation for additional expenses (that parent's Line 16) from the total additional payments made by that parent (that parent's Line 15). The parent with a "minus" figure pays the other parent the amount on Line 17.

Part 3 - Net Amount Transferred:

Line 18. Combine Lines 11 and 17:

Combine the amount owed by one parent to the other for basic support (Line 11) and the amount owed by one parent to the other for additional payments (Line 17). If the same parent owes for both obligations, add Lines 11 and 17, and enter the total on Line 18. If one parent owes for basic support and the other owes for additional payments, subtract the smaller amount from the larger and enter on Line 18. Fill in the blanks by stating which parent pays and which parent receives the net amount transferred."

SECTION 2. Section 40-4-11.2 NMSA 1978 (being Laws 1989, Chapter 36, Section 1, as amended) is amended to read:

"40-4-11.2. GROUNDS FOR DEVIATION FROM CHILD SUPPORT GUIDELINES.--Any deviation from the child support guidelines set forth in Section 40-4-11.1 NMSA 1978 and the basic child support schedule promulgated by the human services department shall be supported by a written finding in the decree, judgment or order of child support that application of the guidelines and basic child support schedule would be unjust or inappropriate. A finding that rebuts the child support guidelines and basic child support schedule shall state the amount of support that would have been required under the guidelines and basic child support schedule and the justification of why the order varies from the guidelines and the basic child support schedule. Circumstances creating a substantial hardship in the obligor, obligee or subject children

may justify a deviation upward or downward from the amount that would otherwise be payable under the guidelines and basic child support schedule."

(2) the availability of health care coverage through an employment-related or other group health and dental care coverage plan; and

(3) the availability of health care coverage through a public entity when either parent meets eligibility requirements.

B. When a medical support obligor is ordered to provide health care coverage, the medical support obligor shall properly name each minor child on behalf of whom medical support is owed as an eligible dependent enrolled in health care coverage.

C. The court may consider the impact of the cost of health care coverage on the payment of the base child support amounts in determining whether the coverage shall be ordered; provided that:

(1) the health care coverage for the minor child shall be available to the parent responsible for providing medical support at a reasonable cost;

(2) cash medical support or the cost of health care coverage for the minor child is considered reasonable in cost if the cost to the parent responsible for providing medical support does not exceed five percent of the parent's gross income; and

If more than one health care coverage plan and dental care coverage plan is offered by the employer, union or carrier, the minor child shall be enrolled in the plan in which the medical support obligor is enrolled. If the medical support obligor is not enrolled in a plan, the child shall be enrolled in a plan that meets the minimum coverage criteria required pursuant to the Mandatory Medical Support Act. If the medical support obligor is not enrolled in a plan, the premiums charged for the child or children of the medical support obligor shall be those charged for the enrollment of the medical support obligor only.

B. In any instance in which the medical support obligor is required by a court order to provide health care coverage for each minor child and the medical support obligor is eligible for health care coverage through an employment-related or other group health care coverage plan, the employer, union or carrier shall do the following:

(1) permit the medical support obligor to enroll for health care coverage each minor child who is otherwise eligible for coverage without regard to any enrollment season restrictions;

(2) enroll each minor child for health care coverage if the medical support obligor fails to enroll each minor child upon application by the medical support obligee or the department;

(3) not disenroll or eliminate coverage of any minor child so enrolled unless:

(a) the employer is provided with satisfactory written evidence that the court order is no longer in effect;

(b) the minor child is or will be enrolled in comparable health care coverage that meets the health care coverage criteria required pursuant to the Mandatory Medical Support Act and that will take effect not later than the effective date of the disenrollment;

(c) the medical support obligor has terminated employment; or

(d) the employer has eliminated health care coverage for all of its employees; and

(4) withhold from the medical support obligor's compensation the medical support obligor's share, if any, of premiums for health care coverage and to pay the share of premiums to the carrier, unless otherwise provided in law or regulation.

C. In those instances in which the medical support obligor fails or refuses to execute any document necessary to enroll a minor child in a health care coverage plan ordered by the court, the required information and authorization may be provided by the department or the custodial parent or guardian of the minor child.

D. Information and authorization provided by the department or the custodial parent or guardian of a minor child shall be valid for the purpose of meeting enrollment requirements of the health care coverage plan and shall not affect the obligation of the employer or union and the carrier to enroll the minor child in the health care coverage plan for which other eligibility, enrollment, underwriting terms and other requirements are met. In instances in which a minor child is covered through the medical support obligor, the carrier shall provide all information to the medical support obligee that may be helpful or necessary for the minor child to obtain benefits.

E. A minor child that a medical support obligor is required to cover as an eligible dependent pursuant to the Mandatory Medical Support Act shall be considered for health care coverage purposes as a dependent of the medical support obligor until the child is emancipated or until further order of the court.

F. In instances in which a minor child is provided health care coverage through a medical support obligor, unless prohibited by federal law, the carrier is prohibited from denying health care coverage of the minor child on the grounds that:

- (1) the minor child was born out of wedlock;
- (2) the minor child is not claimed as a dependent on the medical support obligor's federal income tax return; or
- (3) the minor child does not reside with the medical support obligor or reside in the carrier's service area.

G. H. In instances in which a minor child is provided health care coverage through a medical support obligor who is a noncustodial parent, the carrier shall permit the custodial parent or health care provider, with the approval of the custodial parent, to submit claims for covered services without the approval of the medical support obligor. The carrier shall make payments on submitted claims directly to the custodial parent or the health care provider.

I. In instances in which a minor child is covered through a public entity, the medical support obligor is required to maintain the recertification of the health care coverage as long as the medical support obligor meets eligibility requirements.

J. If the medical support obligor is terminated, the employer shall notify the department of the termination."

## **Chapter 107 Section 4 Laws 2023**

B. A medical support obligor who receives payment from a third party for the costs of medical or dental services provided to a minor child and who fails to use the payment to reimburse the department is liable to the department to the extent of the

The department is authorized to intercept the obligor's tax refund, if the medical support obligor is a noncustodial parent, or use other means of enforcement available to the department to recoup amounts paid. Claims for current or past due child support take priority over any claims made pursuant to this subsection. Failure to maintain health care coverage as ordered constitutes a showing of increased need and provides a basis for modification of the medical support obligor's child support order.

C. A medical support obligor is required to provide the department with the following information concerning health care coverage:

- (1) medical support obligor's name and tax identification number;
- (2) type of coverage (single or family);
- (3) name, address and identifying number of health care coverage;
- (4) name and tax identification number of other individuals who are provided health care coverage by the medical support obligor;
- (5) effective period of coverage; and
- (6) name, address and the tax identification number of the employer."

## **Chapter 107 Section 5 Laws 2023**

SECTION 5. Section 40-4C-13 NMSA 1978 (being Laws 1990, Chapter 78, Section 13, as amended) is amended to read:

"40-4C-13. DEPARTMENT--DUTIES.--The department shall pursue the establishment and enforcement of an order for health care coverage of a minor child upon application of a custodial or noncustodial parent to the department and payment by the custodial or noncustodial parent of fees required by the department."

B. A journal may be created on a tangible medium or in an electronic format. A notarial officer performing notarial acts pursuant to Subsection E of this section shall maintain only one journal at a time to chronicle all notarial acts, whether those notarial acts are performed regarding tangible or electronic records; provided that a notarial officer may keep a journal in a tangible medium for tangible records and an electronic journal for electronic records. E. On compliance with this section, the secretary of state shall issue a commission as a notary public to an applicant for a term of four years.

G. At least thirty days before expiration of each notarial officer's commission, the secretary of state shall mail a notice of expiration to the notarial officer's mailing address of record. A notarial officer may be reappointed upon making an application in the same manner as required for an original application."

### "14-14A-24. PROHIBITED ACTS.--

A. A commission as a notary public or status as an automatic notarial officer does not by itself authorize an individual to:

- (1) assist persons in drafting legal records, give legal advice or otherwise practice law;
- (2) act as an immigration consultant or an expert on immigration matters;
- (3) represent a person in a judicial or administrative proceeding relating to immigration to the United States, United States citizenship or related matters; or

D. A notarial officer who is not licensed to practice law shall not advertise or represent that the notarial officer may assist persons in drafting legal records, give legal advice or otherwise practice law. If a notarial officer who is not an attorney licensed to practice law in any manner advertises or represents that the notary public offers notarial services, whether orally or in a record, including broadcast media, print media and the internet, the notarial officer shall include the following statement or an alternate statement authorized or required by the secretary of state, in the advertisement or representation, prominently and in each language used in the advertisement or representation: "I am not an attorney licensed to practice law in this state. I am not allowed to draft legal records, give advice on legal matters, including immigration, or charge a fee for those activities." If the form of advertisement or representation is not broadcast media, print media or the internet and does not permit inclusion of the statement required by this subsection because of size, the statement shall be displayed prominently or provided at the place of performance of the notarial act before the notarial act is performed.

E. Except as otherwise allowed by law, a notarial officer shall not withhold access to or possession of an original record provided by a person that seeks performance of a notarial act by the notarial officer.

F. A notarial officer shall not:

- (1) perform a notarial act on a blank or incomplete record;
- (2) certify or authenticate a photograph;
- (3) perform a notarial act with intent to deceive or defraud; or
- (4) use the title of notary public, notarial officer or official stamp to endorse, promote, denounce or oppose any product, service, contest, candidate or other offering.

G. A notarial officer shall not:

- (1) make or deliver a certificate of notarial act containing statements that the notarial officer knows to be false; or

I. An individual who performs a purported notarial act with knowledge that the individual's commission as a notary public has expired or that the individual is otherwise disqualified from being a notarial officer is guilty of a misdemeanor for each purported notarial act and upon conviction shall be sentenced pursuant to the provisions of Section 31-19-1 NMSA 1978."

"14-14A-25. VALIDITY OF NOTARIAL ACTS.--Except as otherwise provided in Subsection B of Section 14-14A-3 NMSA 1978, the failure of a notarial officer to perform a duty or meet a requirement specified in the Revised Uniform Law on Notarial Acts does not invalidate a notarial act performed by the notarial officer. The validity of a notarial act under the Revised Uniform Law on Notarial Acts does not prevent an aggrieved person from seeking to invalidate the record or transaction that is the subject of the notarial act or from seeking other remedies based on law of this state other than the Revised Uniform Law on Notarial Acts or law of the United States. This section does not validate a purported notarial act performed by an individual who does not have the authority to perform notarial acts."

## **Chapter 112 Section 3 Laws 2023**

SECTION 3. Section 3-60A-20 NMSA 1978 (being Laws 1979, Chapter 391, Section 20, as amended) is amended to read:

"3-60A-20. ALTERNATIVE FUNDING METHOD.--A local government may elect by resolution to use the procedures set forth in the Tax Increment Law for funding

metropolitan redevelopment projects. Such procedures may be used in addition to or in conjunction with other methods provided by law for funding such projects."

## **Chapter 112 Section 4 Laws 2023**

SECTION 4. Section 3-60A-21 NMSA 1978 (being Laws 1979, Chapter 391, Section 21, as amended) is amended to read:

"3-60A-21. PROPERTY AND GROSS RECEIPTS TAX INCREMENTS--  
PROCEDURES.--

A. The procedures to be used in determining a property tax increment are:

(1) the local government shall, after approval of a metropolitan redevelopment plan, notify the county assessor of the taxable parcels of property within the metropolitan redevelopment area;

(2) upon receipt of the notification, the county assessor shall identify the parcels of property within the metropolitan redevelopment area within their respective jurisdictions and certify to the county treasurer the net taxable value of the property at the time of notification as the base value for the distribution of property tax revenues authorized by the Property Tax Code. If because of acquisition by the local government the property becomes tax exempt, the county assessor shall note that fact on their respective records and so notify the county treasurer, but the county assessor and the county treasurer shall preserve a record of the net taxable value at the time of inclusion of the property within the metropolitan redevelopment area as the base value for the purpose of distribution of property tax revenues when the parcel again becomes taxable. The county assessor is not required by this section to preserve the new taxable value at the time of inclusion of the property within the metropolitan redevelopment area as the base value for the purposes of valuation of the property;

(3) if because of acquisition by the local government the property becomes tax exempt, when the parcel again becomes taxable, the local government shall notify the county assessor of the parcels of property that because of their rehabilitation or other improvement are to be revalued for property tax purposes. A new taxable value of this property shall then be determined by the county assessor. If no acquisition by the local government occurs, improvement or rehabilitation of property subject to valuation by the assessor shall be reported to the assessor as required by the Property Tax Code, and the new taxable value shall be determined as of January 1 of the tax year following the year in which the improvement or rehabilitation is completed; and

(4) current tax rates shall then be applied to the new taxable value of property included in the metropolitan redevelopment area. The amount by which the revenue received exceeds that which would have been received by application of the same rates to the base value before inclusion in the metropolitan redevelopment area

shall be multiplied by the percentage of the increment dedicated by the local government pursuant to Section 3-60A-23 NMSA 1978, credited to the local government and deposited in the metropolitan redevelopment fund. This transfer shall take place only after the county treasurer has been notified to apply the procedures pursuant to this subsection to property included in a metropolitan redevelopment area. Unless the entire metropolitan redevelopment area is specifically included by the local government for purposes of tax increment financing, the payment by the county treasurer to the local government shall be limited to those properties specifically included. The remaining revenue shall be distributed to participating units of government as authorized by the Property Tax Code.

B. The procedures to be used in determining a gross receipts tax increment are:

(1) after approval of a metropolitan redevelopment area, a dedication is made pursuant to Section 3-60A-23 NMSA 1978 and at least one hundred twenty days before the effective date of the dedication, the local government shall notify the taxation and revenue department of the geographical area within the metropolitan redevelopment area and the percentages of a gross receipts tax increment;

(2) within ninety days of receipt of the notification, the taxation and revenue department shall certify to the local government the base year gross receipts tax revenue amounts, which shall be calculated as:

(a) the amount of the local government's local option gross receipts tax revenue attributable to the gross receipts of persons engaging in business in the metropolitan redevelopment area in the previous fiscal year, less any local option gross receipts tax revenue attributable to construction activities located within the metropolitan redevelopment area; and

(b) the amount of state gross receipts tax revenue attributable to the gross receipts of persons engaging in business in the metropolitan redevelopment area in the previous fiscal year, less any state gross receipts tax revenue attributable to construction activities located within the metropolitan redevelopment area and, if the local government is a municipality, any amount distributed to the municipality pursuant to Section 7-1-6.4 NMSA 1978 attributable to the gross receipts of persons engaging in business in the metropolitan redevelopment area; and

(3) within six months of the end of each fiscal year following the base year:

(a) the taxation and revenue department shall compare the amounts of gross receipts tax revenues of the base year with the amounts of gross receipts tax revenues of that following fiscal year, using the same calculation methods as provided in Paragraph (2) of this subsection, except the amounts of gross receipts

tax revenues of the following fiscal year shall include revenue attributable to construction activities located within the metropolitan redevelopment area; and

(b) if there is an increase between the gross receipts tax revenue of the base year and the gross receipts tax revenue of that following fiscal year, the sum of: 1) the product of the total rate of the local government's local option gross receipts tax multiplied by the increased amount of the local government's local option gross receipts tax revenue, further multiplied by the percentage of the gross receipts tax increment dedicated by the local government pursuant to Section 3-60A-23 NMSA 1978; plus 2) the product of the state gross receipts tax rate multiplied by the increased amount of the state gross receipts tax revenue, further multiplied by the percentage of the gross receipts tax increment dedicated by the state board of finance pursuant to Section 3-60A-23 NMSA 1978.

C. The procedures specified in this section shall be followed annually for a maximum period of twenty years following the date of notification provided by this section.

D. As used in this section:

(1) "local option gross receipts tax revenue" means revenue transferred to the local government pursuant to Section 7-1-6.12 or 7-1-6.13 NMSA 1978, as appropriate; and

(2) "state gross receipts tax revenue" means revenue received from the gross receipts tax imposed pursuant to Section 7-9-4 NMSA 1978."

## **Chapter 112 Section 5 Laws 2023**

SECTION 5. Section 3-60A-23 NMSA 1978 (being Laws 1979, Chapter 391, Section 23, as amended) is amended to read:

"3-60A-23. APPROVAL OF ALTERNATIVE FUNDING METHOD.--

A. A metropolitan redevelopment plan, as originally approved or as later modified, may contain a provision that a portion of a property tax increment or gross receipts tax increment may be dedicated for the purpose of funding a metropolitan redevelopment project for a period of up to twenty years.

B. A local government may dedicate up to seventy-five percent of a property tax increment or gross receipts tax increment and the state board of finance, subject to the provisions of Subsection C of this section, may dedicate up to seventy-five percent of a gross receipts tax increment, each as determined pursuant to Section 3-60A-21 NMSA 1978, with the agreement of the municipality, county or state board of finance, evidenced by a resolution adopted by a majority vote of those entities. A resolution to

dedicate a property tax increment or gross receipts tax increment shall become effective only on January 1 or July 1 of the calendar year.

C. The state board of finance shall condition a dedication of a gross receipts tax increment attributable to the state gross receipts tax on the approval required pursuant to Section 6 of this 2023 act and that the initial bonds issuance secured by such an increment shall be issued no later than four years after the state board of finance has adopted the resolution making the dedication. A resolution of the state board of finance shall find that:

(1) the state board of finance has reviewed the request for the use of the state gross receipts tax increment; and

(2) based upon review by the state board of finance of the applicable metropolitan redevelopment plan, the dedication by the state board of finance of the gross receipts tax increment within the metropolitan redevelopment area for use in meeting the required goals of the metropolitan redevelopment plan is reasonable and in the best interest of the state.

D. The governing body of the jurisdiction in which a metropolitan redevelopment area has been established shall timely notify the assessor of the county in which the area has been established, the taxation and revenue department and the local government division of the department of finance and administration when:

(1) a metropolitan redevelopment plan has been approved that contains a provision for the allocation and percentage of property tax increments and gross receipts tax increments;

(2) any outstanding bonds of the area have been paid off; and

(3) the purposes of the area have otherwise been achieved."

## **Chapter 112 Section 6 Laws 2023**

SECTION 6. A new section of the Metropolitan Redevelopment Code is enacted to read:

"APPROVAL REQUIRED FOR ISSUANCE OF BONDS AGAINST A STATE GROSS RECEIPTS TAX INCREMENT.--

A. In addition to all other requirements of the Metropolitan Redevelopment Code, prior to issuing bonds that are issued in whole or in part against a gross receipts tax increment attributable to the state gross receipts tax within a metropolitan redevelopment area and before a distribution attributable to the state gross receipts tax is made pursuant to Section 11 of this 2023 act, the New Mexico finance authority shall review the proposed issuance of the bonds and determine that the proceeds of the

bonds will be used for a metropolitan redevelopment project in accordance with the area's metropolitan redevelopment plan and present the proposed issuance of the bonds to the legislature for approval.

B. The issuance of the bonds and the maximum amount of bonds to be issued shall be specifically authorized by law."

## **Chapter 112 Section 7 Laws 2023**

SECTION 7. Section 3-60A-23.1 NMSA 1978 (being Laws 2000, Chapter 103, Section 4, as amended) is amended to read:

### "3-60A-23.1. TAX INCREMENT BONDS.--

A. For the purpose of financing metropolitan redevelopment projects, in whole or in part, a local government may issue tax increment bonds or tax increment bond anticipation notes that are payable from and secured by revenue from a gross receipts tax increment allocated to the metropolitan redevelopment fund pursuant to Sections 3-60A-21 and 3-60A-23 NMSA 1978. The principal of, premium, if any, and interest on the bonds or notes shall be payable from and secured by a pledge of such revenues, and the local government shall irrevocably pledge all or part of the revenues to the payment of the bonds or notes. The revenues deposited in the metropolitan redevelopment fund or the designated part thereof may thereafter be used only for the payment of the principal of, premium, if any, and interest on the bonds or notes, and a holder of the bonds or notes shall have a first lien against the revenues deposited in the metropolitan redevelopment fund or the designated part thereof for the payment of principal of, premium, if any, and interest on the bonds or notes. To increase the security and marketability of the tax increment bonds or notes, the local government may:

(1) create a lien for the benefit of the bondholders on any public improvements or public works used solely by the metropolitan redevelopment project or portion of a project financed by the bonds or notes, or on the revenues of such improvements or works;

(2) provide that the proceeds from the sale of real and personal property acquired with the proceeds from the sale of bonds or notes issued pursuant to the Tax Increment Law shall be deposited in the metropolitan redevelopment fund and used for the purposes of repayment of principal of, premium, if any, and interest on the bonds or notes; and

(3) make covenants and do any and all acts not inconsistent with law as may be necessary, convenient or desirable in order to additionally secure the bonds or notes or make the bonds or notes more marketable in the exercise of the discretion of the local government.

B. Bonds and notes issued pursuant to this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, shall not be general obligations of the local government, shall be collectible only from the proper pledged revenues and shall not be subject to the provisions of any other law or charter relating to the authorization, issuance or sale of tax increment bonds or tax increment bond anticipation notes. Bonds and notes issued pursuant to the Tax Increment Law are declared to be issued for an essential public and governmental purpose and, together with interest thereon, shall be exempted from all taxes by the state.

C. The bonds or notes shall be authorized by an ordinance of the local government; shall be in a denomination or denominations, bear a date and mature, in the case of bonds, at a time not exceeding twenty years from their date, and in the case of notes, not exceeding five years from the date of the original note; bear interest at a rate or have appreciated principal value not exceeding the maximum net effective interest rate permitted by the Public Securities Act; and be in a form, carry registration privileges, be executed in a manner, be payable at a place within or without the state, be payable at intervals or at maturity and be subject to terms of redemption as the authorizing ordinance or supplemental resolution of the local government may provide.

D. The bonds or notes may be sold in one or more series at, below or above par, at public or private sale, in a manner and for a price as the local government, in its discretion, shall determine; provided that the price at which the bonds or notes are sold shall not result in a net effective interest rate that exceeds the maximum permitted by the Public Securities Act. As an incidental expense of a metropolitan redevelopment project or the portion financed with the bonds or notes, the local government in its discretion may employ financial and legal consultants with regard to the financing of the project.

E. In case any of the public officials of the local government whose signatures appear on any bonds or notes issued pursuant to the Tax Increment Law cease to be public officials before the delivery of the bonds or notes, the signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if the officials had remained in office until delivery. Any provision of law to the contrary notwithstanding, any bonds or notes issued pursuant to the Tax Increment Law shall be fully negotiable.

F. In any suit, action or proceeding involving the validity or enforceability of any bond or note issued pursuant to the Tax Increment Law or the security therefor, any bond or note reciting in substance that it has been issued by the local government in connection with a metropolitan redevelopment project shall be conclusively deemed to have been issued for that purpose and the project shall be conclusively deemed to have been planned, located and carried out in accordance with the provisions of the Metropolitan Redevelopment Code.

G. The proceedings under which tax increment bonds or tax increment bond anticipation notes are authorized to be issued and any mortgage, deed of trust, trust indenture or other lien or security device on real and personal property given to secure the same may contain provisions customarily contained in instruments securing bonds and notes and constituting a covenant with the bondholders.

H. A local government may issue bonds or notes pursuant to this section with the proceeds from the bonds or notes to be used as other money is authorized to be used in the Metropolitan Redevelopment Code.

I. Subject to the provisions of Section 6 of this 2023 act, the local government shall have the power to issue renewal notes, to issue bonds to pay notes and, whenever it deems refunding expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and to issue bonds partly to refund bonds then outstanding and partly for other purposes in connection with financing metropolitan redevelopment projects, in whole or in part. Refunding bonds issued pursuant to the Tax Increment Law to refund outstanding tax increment bonds shall be payable from a gross receipts tax increment, out of which the bonds to be refunded thereby are payable or from other lawfully available revenues.

J. The proceeds from the sale of any bonds or notes shall be applied only for the purpose for which the bonds or notes were issued, and if, for any reason, any portion of the proceeds are not needed for the purpose for which the bonds or notes were issued, the unneeded portion of the proceeds shall be applied to the payment of the principal of or the interest on the bonds or notes.

K. The cost of financing a metropolitan redevelopment project shall be deemed to include the actual cost of acquiring a site and the cost of the construction of any part of a project, including architects' and engineers' fees, the purchase price of any part of a project that may be acquired by purchase and all expenses in connection with the authorization, sale and issuance of the bonds or notes to finance the acquisition and any related costs incurred by the local government.

L. No action shall be brought questioning the legality of any contract, mortgage, deed of trust, trust indenture or other lien or security device, proceeding or bonds or notes executed in connection with any project authorized by the Metropolitan Redevelopment Code on and after thirty days from the effective date of the ordinance authorizing the issuance of such bonds or notes."

In any judicial proceeding wherein a witness with a developmental or intellectual disability may or will testify, the court on its own motion or on motion of the proponent of the witness with a developmental or intellectual disability, and after hearing, may order the use of one of the alternative procedures for determining competency to testify or for taking the testimony of the witness with a developmental or intellectual disability described below, provided that the court finds at the time of the order, by a preponderance of the evidence in the case, that the witness with a developmental or intellectual disability is likely, as a result of submitting to usual procedures for determining competency or as a result of testifying in open court:

(1) to suffer unreasonable and unnecessary mental or emotional harm;  
or

(2) to suffer a temporary loss of or regression in cognitive or behavioral functioning or communicative abilities such that the witness's ability to testify will be significantly impaired.

C. If the court orders the use of an alternative procedure pursuant to this section, the court shall make and enter specific findings on the record describing the reasons for such order.

D. A court that makes findings in accordance with Subsection B of this section may order any of the following suitable alternative procedures for determining the competency to testify or for taking the testimony of the witness with a developmental or intellectual disability:

(1) taking the testimony of the witness with a developmental or intellectual disability while permitting a person familiar to the witness such as a family member, clinician, counselor, social worker or friend to sit near or next to the witness;

or

(5) the procedure set forth in Paragraph (1) in combination with Paragraph (2), (3) or (4) of this subsection.

E. Testimony taken by a videotape pursuant to an order issued as provided in Subsection B of this section shall be taken in the presence of the judge, counsel for all parties and such other persons as the court may allow. Counsel shall be given the opportunity to examine, confront or cross-examine the witness with a developmental or intellectual disability to the same extent as would be permitted if ordinary procedures had been followed, subject to such protection of the witness as the judge deems necessary.

F. An order issued pursuant to provisions of Subsection B of this section that the testimony of the witness with a developmental or intellectual disability be videotaped out of the presence of the jury shall provide that the videotape be shown in court to the jury in the presence of the judge, the parties and the parties' counsel. At such courtroom showing, the audio portion of the video shall be entered into the record as would any oral testimony and shall be treated in all respects as oral testimony to the jury.

G. The videotape or giving of testimony taken by an alternative procedure pursuant to an order issued as provided in Subsection B of this section shall be admissible as substantive evidence to the same extent as and in lieu of live testimony by the witness in any proceeding for which the order is issued or in any related proceeding against the same party when consistent with the interests of justice; provided that such an order is entered or re-entered based on current findings at the time when, or within a reasonable time before, the videotape or testimony is offered into evidence, and provided, in the case of a related criminal proceeding, that the requirements of Subsection E of this section were satisfied when the videotape was recorded or the alternative procedure was used.

H. Whenever, pursuant to an order issued as provided in Subsection B of this section, testimony is recorded on videotape, the court shall ensure that:

- (1) the recording equipment is capable of making an accurate recording and is operated by a competent operator;
- (2) the recording is in color and is taken in well-lit conditions;
- (3) the presence of the presiding judge, the attorneys, the defendant or parties, if in the room, and all other persons present is stated on the recording;

- (5) every voice on the recording is audible and identifiable;
- (6) the recording is accurate, undistorted in picture or sound quality and has not been altered except as ordered by the court; and
- (7) each party is afforded the opportunity to view the recording before it is shown in the courtroom.

I. The fact that the witness with a developmental or intellectual disability has been found in a court proceeding to be incompetent to make informed decisions of a personal, medical or financial nature or is under a guardianship or conservatorship shall not preclude the witness from testifying if found competent to testify and, further, shall not preclude a determination of competency to testify.

J. The use of alternative procedures shall not be denied because they may take significantly more time than conventional procedures.

K. Expert opinion shall be admissible at any hearing held pursuant to this section, including hearings to determine the competency of a witness with a developmental or intellectual disability to testify.

L. Nothing in this section shall be deemed to prohibit the court from using other appropriate means, consistent with this section and other laws and with the defendant's rights, to protect a witness with a developmental or intellectual disability from trauma during a court proceeding."

### ARTICLE 3. APPLICABILITY

A. Except as otherwise provided in Section B of this article, this compact shall apply to:

(1) the interstate placement of a child subject to ongoing court jurisdiction in the sending state, due to allegations or findings that the child has been abused, neglected or deprived as defined by the laws of the sending state; provided however, that the placement of such a child into a residential facility shall only require notice of residential placement to the receiving state prior to placement;

(2) the interstate placement of a child adjudicated delinquent or unmanageable based on the laws of the sending state and subject to ongoing court jurisdiction of the sending state if:

(a) the child is being placed in a residential facility in another member state and is not covered under another compact; or

(b) the child is being placed in another member state and the determination of safety and suitability of the placement and services required is not provided through another compact; and

(3) the interstate placement of any child by a public child placing agency or private child placing agency as defined in this compact as a preliminary step to a possible adoption.

B. The provisions of this compact shall not apply to:

(1) the interstate placement of a child in a custody proceeding in which a public child placing agency is not a party; provided that the placement is not intended to effectuate an adoption;

(2) the interstate placement of a child with a non-relative in a receiving state by a parent with the legal authority to make such a placement; provided, however, that the placement is not intended to effectuate an adoption;

(3) the interstate placement of a child by one relative with the lawful authority to make such a placement directly with a relative in a receiving state;

(4) the placement of a child, not subject to Section A of this article into a residential facility by the child's parent;

(5) the placement of a child with a noncustodial parent; provided that:

(a) the noncustodial parent proves to the satisfaction of a court in the sending state a substantial relationship with the child;

(b) the court in the sending state makes a written finding that placement with the noncustodial parent is in the best interests of the child; and

(c) the court in the sending state dismisses its jurisdiction in interstate placements in which the public child placing agency is a party to the proceeding;

(6) a child entering the United States from a foreign country for the purpose of adoption or leaving the United States to go to a foreign country for the purpose of adoption in that country;

(7) cases in which a United States citizen child living overseas with the child's family, at least one of whom is in the United States armed services and who is stationed overseas, is removed and placed in a state; and

(8) the sending of a child by a public child placing agency or a private child placing agency for a visit as defined by the rules of the interstate commission.

C. For purposes of determining the applicability of this compact to the placement of a child with a family in the armed services, the public child placing agency or private child placing agency may choose the state of the service member's permanent duty station or the service member's declared legal residence.

D. Nothing in this compact shall be construed to prohibit the concurrent application of the provisions of this compact with other applicable interstate compacts,

including the Interstate Compact for Juveniles and the Interstate Compact on Adoption and Medical Assistance. The interstate commission may in cooperation with other interstate compact commissions having responsibility for the interstate movement, placement or transfer of children, promulgate like rules to ensure the coordination of services, timely placement of children and the reduction of unnecessary or duplicative administrative or procedural requirements.

#### ARTICLE 4. JURISDICTION

A. Except as provided in Section H of Article 4 and Paragraphs (2) and (3) of Section B of Article 5 concerning private and independent adoptions, and in interstate placements in which the public child placing agency is not a party to a custody proceeding, the sending state shall retain jurisdiction over a child with respect to all matters of custody and disposition of the child that it would have had if the child had remained in the sending state. Such jurisdiction shall also include the power to order the return of the child to the sending state.

B. When an issue of child protection or custody is brought before a court in the receiving state, the court shall confer with the court of the sending state to determine the most appropriate forum for adjudication.

C. In cases that are before courts and subject to this compact, the taking of testimony for hearings before any judicial officer may occur in person or by telephone, audio-video conference or such other means as approved by the rules of the interstate commission; and judicial officers may communicate with other judicial officers and persons involved in the interstate process as may be permitted by their canons of judicial conduct and any rules promulgated by the interstate commission.

D. In accordance with its own laws, the court in the sending state shall have authority to terminate its jurisdiction if:

(1) the child is reunified with the parent in the receiving state who is the subject of allegations or findings of abuse or neglect, only with the concurrence of the public child placing agency in the receiving state;

(2) the child is adopted;

(3) the child reaches the age of majority under the laws of the sending state;

(4) the child achieves legal independence pursuant to the laws of the sending state;

(5) a guardianship is created by a court in the receiving state with the concurrence of the court in the sending state;

(6) an Indian tribe has petitioned for and received jurisdiction from the court in the sending state; or

(7) the public child placing agency of the sending state requests termination and has obtained the concurrence of the public child placing agency in the receiving state.

E. When a sending state court terminates its jurisdiction, the receiving state child placing agency shall be notified.

F. Nothing in this article shall defeat a claim of jurisdiction by a receiving state court sufficient to deal with an act of truancy, delinquency, crime or behavior involving a child as defined by the laws of the receiving state committed by the child in the receiving state which would be a violation of its laws.

G. Nothing in this article shall limit the receiving state's ability to take emergency jurisdiction for the protection of the child.

H. The substantive laws of the state in which an adoption will be finalized shall solely govern all issues relating to the adoption of the child and the court in which the adoption proceeding is filed shall have subject matter jurisdiction regarding all substantive issues relating to the adoption, except:

(1) when the child is a ward of another court that established jurisdiction over the child prior to the placement;

(2) when the child is in the legal custody of a public agency in the sending state; or

(3) when a court in the sending state has otherwise appropriately assumed jurisdiction over the child, prior to the submission of the request for approval of placement.

I. A final decree of adoption shall not be entered in any jurisdiction until the placement is authorized as an "approved placement" by the public child placing agency in the receiving state.

## ARTICLE 5. PLACEMENT EVALUATION

A. Prior to sending, bringing or causing a child to be sent or brought into a receiving state, the public child placing agency shall provide a written request for assessment to the receiving state.

B. For placements by a private child placing agency, a child may be sent or brought, or caused to be sent or brought, into a receiving state, upon receipt and immediate review of the required content in a request for approval of a placement in

both the sending and receiving state public child placing agency. The required content to accompany a request for approval shall include all of the following:

(1) a request for approval identifying the child, the birth parent(s), the prospective adoptive parent(s) and the supervising agency, signed by the person requesting approval;

(2) the appropriate consents or relinquishments signed by the birth parents in accordance with the laws of the sending state, or where permitted by the laws of the state where the adoption will be finalized;

(3) certification by a licensed attorney or authorized agent of a private adoption agency that the consent or relinquishment is in compliance with the applicable laws of the sending state, or where permitted by the laws of the state where finalization of the adoption will occur;

(4) a home study; and

(5) an acknowledgment of legal risk signed by the prospective adoptive parents.

C. The sending state and the receiving state may request additional information or documents prior to finalization of an approved placement, but they may not delay travel by the prospective adoptive parents with the child if the required content for approval has been submitted, received and reviewed by the public child placing agency in both the sending state and the receiving state.

D. Approval from the public child placing agency in the receiving state for a provisional or approved placement is required as provided for in the rules of the interstate commission.

E. The procedures for making and the request for an assessment shall contain all information and be in a form as provided for in the rules of the interstate commission.

F. Upon receipt of a request from the public child placing agency of the sending state, the receiving state shall initiate an assessment of the proposed placement to determine its safety and suitability. If the proposed placement is a placement with a relative, the public child placing agency of the sending state may request a determination for a provisional placement.

G. The public child placing agency in the receiving state may request from the public child placing agency or the private child placing agency in the sending state, and shall be entitled to receive, supporting or additional information necessary to complete the assessment or approve the placement.

H. The public child placing agency in the receiving state shall approve a provisional placement and complete or arrange for the completion of the assessment within the time frames established by the rules of the interstate commission.

I. For a placement by a private child placing agency, the sending state shall not impose any additional requirements to complete the home study that are not required by the receiving state, unless the adoption is finalized in the sending state.

J. The interstate commission may develop uniform standards for the assessment of the safety and suitability of interstate placements.

#### ARTICLE 6. PLACEMENT AUTHORITY

A. Except as otherwise provided in this compact, no child subject to this compact shall be placed into a receiving state until approval for such placement is obtained.

B. If the public child placing agency in the receiving state does not approve the proposed placement, then the child shall not be placed. The receiving state shall provide written documentation of any such determination in accordance with the rules promulgated by the interstate commission. Such determination is not subject to judicial review in the sending state.

C. If the proposed placement is not approved, any interested party shall have standing to seek an administrative review of the receiving state's determination;

(1) the administrative review and any further judicial review associated with the determination shall be conducted in the receiving state pursuant to its applicable administrative procedures act; and

(2) if a determination not to approve the placement of the child in the receiving state is overturned upon review, the placement shall be deemed approved; provided, however, that all administrative or judicial remedies have been exhausted or the time for such remedies has passed.

#### ARTICLE 7. PLACING AGENCY RESPONSIBILITY

A. For the interstate placement of a child made by a public child placing agency or state court:

(1) the public child placing agency in the sending state shall have financial responsibility for:

(a) the ongoing support and maintenance for the child during the period of the placement, unless otherwise provided for in the receiving state; and

(b) as determined by the public child placing agency in the sending state, services for the child beyond the public services for which the child is eligible in the receiving state;

(2) the receiving state shall only have financial responsibility for:

(a) any assessment conducted by the receiving state; and

(b) supervision conducted by the receiving state at the level necessary to support the placement as agreed upon by the public child placing agencies of the receiving and sending state; and

(3) nothing in this provision shall prohibit public child placing agencies in the sending state from entering into agreements with licensed agencies or persons in the receiving state to conduct assessments and provide supervision.

B. For the placement of a child by a private child placing agency preliminary to a possible adoption, the private child placing agency shall be:

(1) legally responsible for the child during the period of placement as provided for in the law of the sending state until the finalization of the adoption; and

(2) financially responsible for the child absent a contractual agreement to the contrary.

C. The public child placing agency in the receiving state shall provide timely assessments, as provided for in the rules of the interstate commission.

D. The public child placing agency in the receiving state shall provide, or arrange for the provision of, supervision and services for the child, including timely reports, during the period of the placement.

E. Nothing in this compact shall be construed as to limit the authority of the public child placing agency in the receiving state from contracting with a licensed agency or person in the receiving state for an assessment or the provision of supervision or services for the child or otherwise authorizing the provision of supervision or services by a licensed agency during the period of placement.

F. Each member state shall provide for coordination among its branches of government concerning the state's participation in, and compliance with,

the compact and interstate commission activities through the creation of an advisory council or use of an existing body or board.

G. Each member state shall establish a central state compact office that shall be responsible for state compliance with the compact and the rules of the interstate commission.

H. The public child placing agency in the sending state shall oversee compliance with the provisions of the federal Indian Child Welfare Act (25 U.S.C. Section 1901, et seq.) for placements subject to the provisions of this compact, prior to placement.

I. With the consent of the interstate commission, states may enter into limited agreements that facilitate the timely assessment and provision of services and supervision of placements under this compact.

#### ARTICLE 8. INTERSTATE COMMISSION FOR THE PLACEMENT OF CHILDREN

The member states hereby establish, by way of this compact, a commission known as the "interstate commission for the placement of children". The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

#### ARTICLE 10. ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

##### A. Bylaws:

(1) within twelve months after the first interstate commission meeting, the interstate commission shall adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of this compact; and

(2) the interstate commission's bylaws and rules shall establish conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

##### B. Meetings:

(1) the interstate commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings;

(2) public notice shall be given by the interstate commission of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in this compact. The interstate commission and its committees may close a meeting, or portion thereof, where it determines by a two-thirds' vote that an open meeting would be likely to:

(a) relate solely to the interstate commission's internal personnel practices and procedures;

(b) disclose matters specifically exempted from disclosure by federal law;

(c) disclose financial or commercial information that is privileged, proprietary or confidential in nature;

(d) involve accusing a person of a crime or formally censuring a person;

(f) disclose investigative records compiled for law enforcement purposes; or

(g) specifically relate to the interstate commission's participation in a civil action or other legal proceeding;

(3) for a meeting, or portion of a meeting, closed pursuant to this provision, the interstate commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemption provision. The interstate commission shall keep minutes that shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission or by court order; and

(4) the bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or other electronic communication.

#### C. Officers and Staff:

(1) the interstate commission may, through its executive committee, appoint or retain a staff director for such period, upon such terms and

(a) the liability of the interstate commission's staff director and employees or interstate commission representatives, acting within the scope of the person's employment or duties for acts, errors or omissions occurring within the person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subparagraph shall be construed to protect such person from suit or liability for damage, loss, injury or liability caused by a criminal act or the intentional or willful and wanton misconduct of such person;

(b) the interstate commission shall defend the staff director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state, shall defend the commissioner of a member state in a civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities; provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of the person; and

(c) to the extent not covered by the state involved, member state or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against such persons arising out of an actual or alleged act, error or omission that occurred within the scope of interstate

commission employment, duties or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities; provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

#### ARTICLE 11. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. The interstate commission shall promulgate and publish rules in order to effectively and efficiently achieve the purposes of this compact.

All rules and amendments shall become binding as of the date specified, as published with the final version of the rule as approved by the interstate commission.

(1) publish the proposed rule's entire text stating the reason(s) for that proposed rule;

(2) allow and invite any and all persons to submit written data, facts, opinions and arguments, which information shall be added to the record, and be made publicly available; and

(3) promulgate a final rule and its effective date, if appropriate, based on input from state or local officials or interested parties.

D. Rules promulgated by the interstate commission shall have the force and effect of administrative rules and shall be binding in the compacting states to the extent and in the manner provided for in this compact.

E. Not later than sixty days after a rule is promulgated, an interested person may file a petition in the United States district court for the District of Columbia or in the federal district court where the interstate commission's principal office is located for judicial review of such rule. If the court finds that the interstate commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside.

F. If a majority of the legislatures of the member states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause that such rule shall have no further force and effect in any member state.

G. The existing rules governing the operation of the Revised Interstate Compact on the Placement of Children superseded by this act shall be null and void no less than twelve, but no more than twenty-four months after the first meeting of the interstate commission created hereunder, as determined by the members during the first meeting.

I. Upon determination by a majority of the members of the interstate commission that an emergency exists:

- (1) the interstate commission may promulgate an emergency rule only if it is required to:

(a) protect the children covered by this compact from an imminent threat to their health, safety and well-being;

(b) prevent loss of federal or state funds; or

(c) meet a deadline for the promulgation of an administrative rule required by federal law;

(2) the executive, legislative and judicial branches of state government in each member state shall enforce this compact and the rules of the interstate commission and shall take all actions necessary and appropriate to effectuate this compact's purposes and intent. This compact and its rules shall be binding in the compacting states to the extent and in the manner provided for in this compact;

(3) all courts shall take judicial notice of this compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact; and

(4) the interstate commission shall be entitled to receive service of process in any action in which the validity of a compact provision or rule is the issue for which a judicial determination has been sought and shall have standing to intervene in any proceedings. Failure to provide service of process to the interstate commission shall render any judgment, order or other determination, however so captioned or classified, void as to the interstate commission, this compact, its bylaws or rules of the interstate commission.

(a) provide remedial training and specific technical assistance;

(b) provide written notice to the defaulting state and other member states, of the nature of the default and the means of curing the default. The interstate commission shall specify the conditions by which the defaulting state must cure its default;

(c) by majority vote of the members, initiate against a defaulting member state legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal office, to enforce compliance with the provisions of this compact, its bylaws or rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees; or

(d) avail itself of any other remedies available under state law or the regulation of official or professional conduct.

### ARTICLE 13. FINANCING OF THE COMMISSION

A. The interstate commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

B. The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff, which must be in a total amount sufficient to cover the interstate commission's annual budget as approved by its members each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

C. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate

commission pledge the credit of any of the member states, except by and with the authority of the member states.

D. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

#### ARTICLE 14. MEMBER STATES, EFFECTIVE DATE AND AMENDMENT

A. Any state is eligible to become a member state.

B. This compact shall become effective and binding upon legislative enactment of the compact into law by no less than thirty-five states. The effective date shall be the later of July 1, 2007 or upon enactment of the compact into law by the thirty-fifth state. Thereafter, it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The executive heads of the state human services administration with ultimate responsibility for the child welfare program of non-member states or their designees shall be invited to participate in the activities of the interstate commission on a non-voting basis prior to adoption of this compact by all states.

C. The interstate commission may propose amendments to this compact for enactment by the member states. No amendment shall become effective and binding on the member states unless and until it is enacted into law by unanimous consent of the member states.

#### ARTICLE 15. WITHDRAWAL AND DISSOLUTION

A. Withdrawal:

(1) once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact specifically repealing the statute that enacted the compact into law;

(2) withdrawal from this compact shall be by the enactment of a statute repealing the same. The effective date of withdrawal shall be the effective date of the repeal of the statute;

(3) the withdrawing state shall immediately notify the president of the interstate commission in writing upon the introduction of legislation repealing this

compact in the withdrawing state. The interstate commission shall then notify the other member states of the withdrawing state's intent to withdraw;

(4) the withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal; and

- (c) a sale, lease or license of property other than goods."

## **Chapter 142 Section 7 Laws 2023**

SECTION 7. Section 55-2-201 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-201) is amended to read:

"55-2-201. FORMAL REQUIREMENTS--STATUTE OF FRAUDS.--

(1) Except as otherwise provided in this section, a contract for the sale of goods for the price of five hundred dollars (\$500) or more is not enforceable by way of action or defense unless there is a record sufficient to indicate that a contract for sale has been made between the parties and signed by the party against whom enforcement is sought or by the party's authorized agent or broker. A record is not insufficient because it omits or incorrectly states a term agreed upon, but the contract is not enforceable under this subsection beyond the quantity of goods shown in the record.

(2) Between merchants if within a reasonable time a record in confirmation of the contract and sufficient against the sender is received and the party receiving it has reason to know its contents, it satisfies the requirements of Subsection (1) of this section against the party unless in a record notice of objection to its contents is given within ten days after it is received.

(3) A contract that does not satisfy the requirements of Subsection (1) of this section but that is valid in other respects is enforceable:

(a) if the goods are to be specially manufactured for the buyer and are not suitable for sale to others in the ordinary course of the seller's business and the seller, before notice of repudiation is received and under circumstances that reasonably indicate that the goods are for the buyer, has made either a substantial beginning of their manufacture or commitments for their procurement; or

(b) if the party against whom enforcement is sought admits in the party's pleading, testimony or otherwise in court that a contract for sale was made, but the contract is not enforceable under this provision beyond the quantity of goods admitted; or

(c) with respect to goods for which payment has been made and accepted or that have been received and accepted (Section 55-2-606 NMSA 1978)."

## **Chapter 142 Section 8 Laws 2023**

SECTION 8. Section 55-2-202 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-202, as amended) is amended to read:

"55-2-202. FINAL WRITTEN EXPRESSION--PAROL OR EXTRINSIC EVIDENCE.--Terms with respect to which the confirmatory memoranda of the parties agree or that are otherwise set forth in a record intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented:

(a) by course of performance, course of dealing or usage of trade (Section 55-1-303 NMSA 1978); and

(b) by evidence of consistent additional terms unless the court finds the record to have been intended also as a complete and exclusive statement of the terms of the agreement."

## **Chapter 142 Section 9 Laws 2023**

SECTION 9. Section 55-2-203 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-203) is amended to read:

"55-2-203. SEALS INOPERATIVE.--The affixing of a seal to a record evidencing a contract for sale or an offer to buy or sell goods does not constitute the record a sealed instrument, and the law with respect to sealed instruments does not apply to such a contract or offer."

### **Chapter 142 Section 10 Laws 2023**

SECTION 10. Section 55-2-205 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-205) is amended to read:

"55-2-205. FIRM OFFERS.--An offer by a merchant to buy or sell goods in a signed record that by its terms gives assurance that it will be held open is not revocable, for lack of consideration, during the time stated or if no time is stated for a reasonable time, but in no event may such period of irrevocability exceed three months; but any such term of assurance on a form supplied by the offeree must be separately signed by the offeror."

### **Chapter 142 Section 11 Laws 2023**

SECTION 11. Section 55-2-209 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-209) is amended to read:

"55-2-209. MODIFICATION, RESCISSION AND WAIVER.--

(1) An agreement modifying a contract within this article needs no consideration to be binding.

(2) A signed agreement that excludes modification or rescission except by a signed writing or other signed record cannot be otherwise modified or rescinded, but except as between merchants such a requirement on a form supplied by the merchant must be separately signed by the other party.

(3) The requirements of the statute of frauds section of this article (Section 55-2-201 NMSA 1978) must be satisfied if the contract as modified is within its provisions.

(4) Although an attempt at modification or rescission does not satisfy the requirements of Subsection (2) or (3) of this section, it can operate as a waiver.

(5) A party who has made a waiver affecting an executory portion of the contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver."

## **Chapter 142 Section 12 Laws 2023**

SECTION 12. Section 55-2A-102 NMSA 1978 (being Laws 1992, Chapter 114, Section 9) is amended to read:

"55-2A-102. SCOPE.--

(1) This article applies to any transaction, regardless of form, that creates a lease and, in the case of a hybrid lease, it applies to the extent provided in Subsection (2) of this section.

(2) In a hybrid lease:

(a) if the lease-of-goods aspects do not predominate:

(i) only the provisions of this article that relate primarily to the lease-of-goods aspects of the transaction apply, and the provisions that relate primarily to the transaction as a whole do not apply;

(ii) Section 55-2A-209 NMSA 1978 applies if the lease is a finance lease; and

(iii) Section 55-2A-407 NMSA 1978 applies to the promises of the lessee in a finance lease to the extent that the promises are consideration for the right to possession and use of the leased goods; and

(b) if the lease-of-goods aspects predominate, this article applies to the transaction, but does not preclude application in appropriate circumstances of other law to aspects of the lease that do not relate to the lease of goods."

## **Chapter 142 Section 13 Laws 2023**

SECTION 13. Section 55-2A-103 NMSA 1978 (being Laws 1992, Chapter 114, Section 10, as amended) is amended to read:

"55-2A-103. DEFINITIONS AND INDEX OF DEFINITIONS.--

(1) In this article unless the context otherwise requires:

(a) "buyer in ordinary course of business" means a person who, in good faith and without knowledge that the sale to that person is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods, buys in ordinary course from a person in the business of selling goods of that kind, but does not include a pawnbroker. "Buying" may be for cash or by exchange of other property or on secured or unsecured credit and includes acquiring goods or documents

(b) "cancellation" occurs when either party puts an end to the lease contract for default by the other party;

(c) "commercial unit" means such a unit of goods as by commercial usage is a single whole for purposes of lease and division of which materially impairs its character or value on the market or in use. A commercial unit may be a single article, as a machine, or a set of articles, as a suite of furniture or a line of machinery, or a quantity, as a gross or carload, or any other unit treated in use or in the relevant market as a single whole;

(d) "conforming" goods or performance under a lease contract means goods or performance that are in accordance with the obligations under the lease contract;
