(3) adjudicating disputes and enforcing the provisions of the Public Employee Bargaining Act and rules adopted pursuant to that act.

At the conclusion of the hearing, the examiner shall prepare a written report, including findings and recommendations, all of which shall be submitted to the board or local board for its decision.

D. A rule proposed to be adopted by the board or local board that affects a person or governmental entity outside of the board or local board and its staff shall not be adopted, amended or repealed without public hearing and comment on the proposed action before the board or local board. The public hearing shall be held after notice of the subject matter of the rule, the action proposed to be taken, the time and place of the hearing, the manner in which interested persons may present their views and the method by which copies of the proposed rule, proposed amendment or repeal of an existing rule may be obtained. All meetings of the board shall be held in Santa Fe. All meetings of local boards shall be held in the county of residence of the local public employer. Notice shall be published once at least thirty days prior to the hearing date in a newspaper of general circulation in the state or, in the case of a local board hearing, in a newspaper of general circulation in the county, and notice shall be mailed at least thirty days prior to the hearing date to all persons who have made a written request for advance notice of hearings.

E. All adopted rules shall be filed in accordance with applicable state statutes.

F. A verbatim record made by electronic or other suitable means shall be made of every rulemaking and adjudicatory hearing. The record shall not be transcribed unless required for judicial review or unless ordered by the board or local board.

Section 13. APPROPRIATE BARGAINING UNITS.--

A. The board or local board shall, upon receipt of a petition for a representation election filed by a labor organization, designate the appropriate bargaining units for collective bargaining. Appropriate bargaining units shall be established on the basis of occupational groups or clear and identifiable communities of interest in employment terms and conditions and related personnel matters among the public employees involved. Occupational groups shall generally be identified as blue-collar, secretarial clerical, technical, professional, paraprofessional, police, fire and corrections. The parties, by mutual agreement, may further consolidate occupational groups. Essential factors in determining appropriate bargaining units shall include the principles of efficient administration of government, the history of collective bargaining and the assurance to public employees of the fullest freedom in exercising the rights guaranteed by the Public Employee Bargaining Act.

B. Within thirty days of a disagreement arising between a public employer and a labor organization concerning the composition of an appropriate bargaining unit, the board or local board shall hold a hearing concerning the composition of the bargaining unit before designating an appropriate bargaining unit.

C. The board or local board shall not include in an appropriate bargaining unit supervisors, managers or confidential employees.

Section 14. ELECTIONS.--

A. Whenever, in accordance with rules prescribed by the board or local board, a petition is filed by a labor organization containing the signatures of at least thirty percent of the public employees in an appropriate bargaining unit, the board or local board shall conduct a secret ballot representation election to determine whether and by which labor organization the public employees in the appropriate bargaining unit shall be represented. The ballot shall contain the name of any labor organization submitting a petition containing signatures of at least thirty percent of the public employees in the appropriate bargaining unit. The ballot shall also contain a provision allowing public employees to indicate whether they do not desire to be represented by a labor organization. An election shall only be valid if forty percent of the eligible employees in the bargaining unit vote in the election.

B. Once a labor organization has filed a valid petition with the board or local board calling for a representation election, other labor organizations may seek to be placed on the ballot. Such an organization shall file a petition containing the signatures of not less than thirty percent of the public employees in the appropriate bargaining unit no later than ten days after the board or the local board and the public

employer post a written notice that the petition in Subsection A of this section has been filed by a labor organization.

C. As an alternative to the provisions of Subsection A of this section, a public employer and a labor organization with a reasonable basis for claiming to represent a majority of the employees in an appropriate bargaining unit may establish an alternative appropriate procedure for determining majority status. The procedure may include a labor organization's submission of authorization cards from a majority of the employees in an appropriate bargaining unit. The board or local board shall not certify an appropriate bargaining unit if the public employer objects to the certification without an election.

D. If a labor organization receives a majority of votes cast, it shall be certified as the exclusive representative of all public employees in the appropriate bargaining unit. Within fifteen days of an election in which no labor organization receives a majority of the votes cast, a runoff election between the two choices receiving the largest number of votes cast shall be conducted. The board or local board shall certify the results of the election, and, when a labor organization receives a majority of the votes cast, the board or local board shall certify the labor organization as the exclusive representative of all public employees in the appropriate bargaining unit.

E. An election shall not be conducted if an election or runoff election has been conducted in the twelve-month period immediately preceding the proposed representation election. An election shall not be held during the term of an existing collective bargaining agreement, except as provided in Section 16 of the Public Employee Bargaining Act.

Section 15. EXCLUSIVE REPRESENTATION.--

A. A labor organization that has been certified by the board or local board as representing the public employees in the appropriate bargaining unit shall be the exclusive representative of all public employees in the appropriate bargaining unit. The exclusive representative shall act for all public employees in the appropriate bargaining unit and negotiate a collective bargaining agreement covering all public employees in the appropriate bargaining unit. The exclusive representative shall represent the interests of all public employees in the appropriate bargaining unit without discrimination or regard to membership in the labor organization.

B. This section does not prevent a public employee, acting individually, from presenting a grievance without the intervention of the exclusive representative. At a hearing on a grievance brought by a public employee individually, the exclusive representative shall be afforded the opportunity to be present and make its views known. An adjustment made shall not be inconsistent with or in violation of the collective bargaining agreement then in effect between the public employer and the exclusive representative.

Section 16. DECERTIFICATION OF EXCLUSIVE REPRESENTATIVE.-

-

A. A member of a labor organization or the labor organization itself may initiate decertification of a labor organization as the exclusive representative if thirty percent of the public employees in the appropriate bargaining unit make a written request to the board or local board for a decertification election. Decertification elections shall be held in a manner prescribed by rule of the board. An election shall only be valid if forty percent of the eligible employees in the bargaining unit vote in the election.

B. When there is a collective bargaining agreement in effect, a request for a decertification election shall be made to the board or local board no earlier than ninety days and no later than sixty days before the expiration of the collective bargaining agreement; provided, however, a request for an election may be filed at any time after the expiration of the third year of a collective bargaining agreement with a term of more than three years.

C. When, within the time period prescribed in Subsection B of this section, a competing labor organization files a petition containing signatures of at least thirty percent of the public employees in the appropriate bargaining unit, a representation election rather than a decertification election shall be conducted.

D. When an exclusive representative has been certified but no collective bargaining agreement is in effect, the board or local board shall not accept a request for a decertification election earlier than twelve months subsequent to a labor organization's certification as the exclusive representative.

Section 17. SCOPE OF BARGAINING.--

A. Except for retirement programs provided pursuant to the Public Employees Retirement Act or the Educational Retirement Act, public employers and exclusive representatives:

(1) shall bargain in good faith on wages, hours and all other terms and conditions of employment and other issues agreed to by the parties. However, neither the public employer nor the exclusive representative shall be required to agree to a proposal or to make a concession; and

(2) shall enter into written collective bargaining agreements covering employment relations.

B. The obligation to bargain collectively imposed by the Public Employee Bargaining Act shall not be construed as authorizing a public employer and an exclusive representative to enter into an agreement that is in conflict with the provisions of any other statute of this state. In the event of conflict between the provisions of any other

statute of this state and an agreement entered into by the public employer and the exclusive representative in collective bargaining, the statutes of this state shall prevail.

C. Payroll deduction of the exclusive representative's membership dues shall be a mandatory subject of bargaining if either party chooses to negotiate the issue. The amount of dues shall be certified in writing by an official of the labor organization and shall not include special assessments, penalties or fines of any type. The public employer shall honor payroll deductions until the authorization is revoked in writing by the public employee in accordance with the negotiated agreement and for so long as the labor organization is certified as the exclusive representative. During the time that a board certification is in effect for a particular appropriate bargaining unit, the public employer shall not deduct dues for any other labor organization.

D. The scope of bargaining for representatives of public schools as well as educational employees in state agencies shall include, as a mandatory subject of bargaining, the impact of professional and instructional decisions made by the employer.

E. An impasse resolution or an agreement provision by the state and an exclusive representative that requires the expenditure of funds shall be contingent upon the specific appropriation of funds by the legislature and the availability of funds. An impasse resolution or an agreement provision by a public employer other than the state or the public schools and an exclusive representative that requires the expenditure of funds shall be contingent upon the specific appropriation of funds by the appropriate governing body and the availability of funds. An agreement provision by a local school board and an exclusive representative that requires the expenditure of funds shall be contingent upon ratification by the appropriate governing body. An arbitration decision shall not require the reappropriation of funds.

F. An agreement shall include a grievance procedure to be used for the settlement of disputes pertaining to employment terms and conditions and related personnel matters. The grievance procedure shall provide for a final and binding determination. The final determination shall constitute an arbitration award within the meaning of the Uniform Arbitration Act; such award shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act. The costs of an arbitration proceeding conducted pursuant to this subsection shall be shared equally by the parties.

G. The following meetings shall be closed:

(1) meetings for the discussion of bargaining strategy preliminary to collective bargaining negotiations between the public employer and the exclusive representative of the public employees of the public employer;

(2) collective bargaining sessions; and

(3) consultations and impasse resolution procedures at which the public employer and the exclusive representative of the appropriate bargaining unit are present.

Section 18. IMPASSE RESOLUTION.--

A. The following negotiations and impasse procedures shall be followed by the state and exclusive representatives for state employees:

(1) a request to the state for the commencement of initial negotiations shall be filed in writing by the exclusive representative no later than June 1 of the year in which negotiations are to take place. Negotiations shall begin no later than July 1 of that year;

(2) in subsequent years, negotiations agreed to by the parties shall begin no later than August 1 following the submission of written notice to the state by the exclusive representative no later than July 1 of the year in which negotiations are to take place;

(3) if an impasse occurs during negotiations between the parties, and if an agreement is not reached by the parties by October 1, either party may request mediation services from the board. A mediator from the federal mediation and conciliation service shall be assigned by the board to assist in negotiations unless the parties agree to another mediator;

(4) the mediator shall provide services to the parties until the parties reach agreement or the mediator believes that mediation services are no longer helpful or until November 1, whichever occurs first; and

(5) if the impasse continues after November 1, either party may request a list of seven arbitrators from the federal mediation and conciliation service. One arbitrator shall be chosen by the parties by alternately striking names from such list. Who strikes first shall be determined by coin toss. The arbitrator shall render a final, binding, written decision resolving unresolved issues pursuant to Subsection E of Section 17 of the Public Employee Bargaining Act and the Uniform Arbitration Act no later than thirty days after the arbitrator has been notified of his or her selection by the parties. The arbitrator's decision shall be limited to a selection of one of the two parties' complete, last, best offer. The costs of an arbitrator and the arbitrator's related costs conducted pursuant to this subsection shall be shared equally by the parties. Each party shall be responsible for bearing the cost of presenting its case. The decision shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act.

B. The following impasse procedures shall be followed by all public employers and exclusive representatives, except the state and the state's exclusive representatives:

A mediator with the federal mediation and conciliation service shall be assigned by the board or local board to assist negotiations unless the parties agree to another mediator; and

(2) if the impasse continues after a thirty-day mediation period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. One arbitrator shall be chosen by the parties by alternately striking names from such list. Who strikes first shall be determined by coin toss. The arbitrator shall render a final, binding, written decision resolving unresolved issues pursuant to Subsection E of Section 17 of the Public Employee Bargaining Act and the Uniform Arbitration Act no later than thirty days after the arbitrator has been notified of his or her selection by the parties. The arbitrator's decision shall be limited to a selection of one of the two parties' complete, last, best offer. The costs of an arbitrator and the arbitrator's related costs conducted pursuant to this subsection shall be shared equally by the parties. Each party shall be responsible for bearing the cost of presenting its case. The decision shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act.

C. A public employer other than the state may enter into a written agreement with the exclusive representative setting forth an alternative impasse resolution procedure.

D. In the event that an impasse continues after the expiration of a contract, the existing contract will continue in full force and effect until it is replaced by a subsequent written agreement. However, this shall not require the public employer to increase any employees' levels, steps or grades of compensation contained in the existing contract.

Section 19. PUBLIC EMPLOYERS--PROHIBITED PRACTICES.--A public employer or his representative shall not:

A. A public employee or labor organization shall not engage in a strike. A labor organization shall not cause, instigate, encourage or support a public employee strike. A public employer shall not cause, instigate or engage in a public employee lockout.

B. A public employer may apply to the district court for injunctive relief to end a strike, and an exclusive representative of public employees affected by a lockout may apply to the district court for injunctive relief to end a lockout.

C. The board or local board, upon a clear and convincing showing of proof at a hearing that a labor organization directly caused or instigated a public employee strike, may impose appropriate penalties on that labor organization, up to and including decertification of the labor organization with respect to any of its bargaining units which struck as a result of such causation or instigation.

Section 22. - (1) arbitrary, capricious or an abuse of discretion;
- (2) not supported by substantial evidence on the record considered as a whole; or
- (3) otherwise not in accordance with law.

B. A person or party, including a labor organization affected by a final rule, order or decision of the board or local board, may appeal to the district court for further relief. All such appeals shall be based upon the record made at the board or local board hearing. All such appeals to the district court shall be taken within thirty days of the date of the final rule, order or decision of the board or local board. Actions taken by the board or local board shall be affirmed unless the court concludes that the action is:

- (1) arbitrary, capricious or an abuse of discretion;
- (2) not supported by substantial evidence on the record considered as a whole; or
- (3) otherwise not in accordance with the law.

Section 24. EXISTING COLLECTIVE BARGAINING UNITS.--

A. Bargaining units established prior to July 1, 1999 shall continue to be recognized as appropriate bargaining units for the purposes of the Public Employee Bargaining Act. Bargaining units established between July 1, 1999 and the effective date of that act shall continue in effect only if the unit is covered by a collective bargaining agreement on the date of this act.

B. A labor organization that was recognized by a public employer as the exclusive representative of an appropriate bargaining unit on June 30, 1999 shall be recognized as the exclusive representative of the unit on the effective date of the Public Employee Bargaining Act; provided, however, that the public employer shall not enter into a new collective bargaining agreement pursuant to this subsection unless the labor organization demonstrates majority support to the public employer pursuant to Section 14 of the Public Employee Bargaining Act. A labor organization which attempts and fails to show majority support shall no longer be recognized as the exclusive bargaining representative of that unit.

Section 25. EXISTING COLLECTIVE BARGAINING AGREEMENTS.--
Nothing in the Public Employee Bargaining Act shall be construed to annul or modify a collective bargaining agreement entered into between a public employer and an exclusive representative prior to the effective date of the Public Employee Bargaining Act. Nor shall anything in the Public Employee Bargaining Act be construed to annul or modify the status of an existing or recognized exclusive representative.

Section 26. EXISTING ORDINANCES PROVIDING FOR PUBLIC EMPLOYEE BARGAINING.--

A. A public employer other than the state that prior to October 1, 1991 adopted by ordinance, resolution or charter amendment a system of provisions and procedures permitting employees to form, join or assist a labor organization for the purpose of bargaining collectively through exclusive representatives may continue to operate under those provisions and procedures. Any substantial change after January 1, 2003 to any ordinance, resolution or charter amendment shall subject the public employer to full compliance with the provisions of Subsection B of Section 26 of the Public Employee Bargaining Act.

B. A public employer other than the state that subsequent to October 1, 1991 adopts by ordinance, resolution or charter amendment a system of provisions and procedures permitting employees to form, join or assist a labor organization for the purpose of bargaining collectively through exclusive representatives freely chosen by its employees may operate under those provisions and procedures rather than those set forth in the Public Employee Bargaining Act; provided that the employer shall comply with the provisions of Sections 8 through 12 and Subsection D of Section 17 of that act

and provided the following provisions and procedures are included in each ordinance, resolution or charter amendment:

E. For the purpose of making initial appointments to the board in 2003, the governor shall designate one member to serve a one-year term, one member to serve a two-year term and one member to serve a three-year term. Thereafter, all members shall be appointed for three-year terms.

Section 9. BOARD--POWERS AND DUTIES.--

A. The board shall promulgate rules necessary to accomplish and perform its functions and duties as established in the Public Employee Bargaining Act, including the establishment of procedures for:

G. A rule promulgated by the board or a local board shall not require, directly or indirectly, as a condition of continuous employment, a public employee covered by the Public Employee Bargaining Act to pay money to a labor organization that is certified as an exclusive representative. The issue of fair share shall be left a permissive subject of bargaining by the public employer and the exclusive representative of each bargaining unit.

Section 10. LOCAL BOARD--CREATED.--

A. With the approval of the board, a public employer other than the state may, by ordinance, resolution or charter amendment, create a local board similar to the public employee labor relations board. Once created and approved, the local board shall assume the duties and responsibilities of the public employee labor relations board. A local board shall follow all procedures and provisions of the Public Employee Bargaining Act unless otherwise approved by the board.

B. The local board shall be composed of three members appointed by the public employer. One member shall be appointed on the recommendation of individuals representing labor, one member shall be appointed on the recommendation of individuals representing management and one member shall be appointed on the recommendation of the first two appointees.

C. Local board members shall serve one-year terms. Local board members may serve an unlimited number of terms. Vacancies shall be filled in the same

manner as the original appointment, and such appointments shall only be made for the remainder of the unexpired term.

E. Each local board member shall be paid per diem and mileage in accordance with the provisions of the Per Diem and Mileage Act.

Section 11. LOCAL BOARD--POWERS AND DUTIES.--

A. The local board shall promulgate rules necessary to accomplish and perform its functions and duties as established in the Public Employee Bargaining Act, including the establishment of procedures for:

The local board may prescribe the form of subpoena, but it shall adhere insofar as practicable to the form used in civil actions in the district court. The local board may administer oaths and affirmations, examine witnesses and receive evidence.

D. The local board shall decide all issues by majority vote and shall issue its decisions in the form of written orders and opinions.

E. The local board has the power to enforce provisions of the Public Employee Bargaining Act or a local collective bargaining ordinance, resolution or charter amendment through the imposition of appropriate administrative remedies.

Section 12. HEARING PROCEDURES.--

A. The board or local board may hold hearings for the purposes of:

(1) information gathering and inquiry;

(2) adopting rules; and

(3) adjudicating disputes and enforcing the provisions of the Public Employee Bargaining Act and rules adopted pursuant to that act.

B. The board or local board shall adopt rules setting forth procedures to be followed during hearings of the board or local board. The procedures adopted for conducting adjudicatory hearings shall meet all minimal due process requirements of the state and federal constitutions.

C. The board or local board may appoint a hearing examiner to conduct any adjudicatory hearing authorized by the board or local board. At the conclusion of the hearing, the examiner shall prepare a written report, including findings and recommendations, all of which shall be submitted to the board or local board for its decision.

D. A rule proposed to be adopted by the board or local board that affects a person or governmental entity outside of the board or local board and its staff shall not be adopted, amended or repealed without public hearing and comment on the proposed action before the board or local board. The public hearing shall be held after notice of the subject matter of the rule, the action proposed to be taken, the time and place of the hearing, the manner in which interested persons may present their views and the method by which copies of the proposed rule, proposed amendment or repeal of an existing rule may be obtained. All meetings of the board shall be held in Santa Fe. All meetings of local boards shall be held in the county of residence of the local public employer. Notice shall be published once at least thirty days prior to the hearing date in a newspaper of general circulation in the state or, in the case of a local board hearing, in a newspaper of general circulation in the county, and notice shall be mailed at least thirty days prior to the hearing date to all persons who have made a written request for advance notice of hearings.

E. All adopted rules shall be filed in accordance with applicable state statutes.

F. A verbatim record made by electronic or other suitable means shall be made of every rulemaking and adjudicatory hearing. The record shall not be transcribed unless required for judicial review or unless ordered by the board or local board.

Section 13. APPROPRIATE BARGAINING UNITS.--

A. The board or local board shall, upon receipt of a petition for a representation election filed by a labor organization, designate the appropriate bargaining units for collective bargaining. Appropriate bargaining units shall be established on the basis of occupational groups or clear and identifiable communities of interest in employment terms and conditions and related personnel matters among the public employees involved. Occupational groups shall generally be identified as blue-collar, secretarial clerical, technical, professional, paraprofessional, police, fire and corrections. The parties, by mutual agreement, may further consolidate occupational groups. Essential factors in determining appropriate bargaining units shall include the principles of efficient administration of government, the history of collective bargaining and the assurance to public employees of the fullest freedom in exercising the rights guaranteed by the Public Employee Bargaining Act.

B. Within thirty days of a disagreement arising between a public employer and a labor organization concerning the composition of an appropriate bargaining unit, the board or local board shall hold a hearing concerning the composition of the bargaining unit before designating an appropriate bargaining unit.

C. The board or local board shall not include in an appropriate bargaining unit supervisors, managers or confidential employees.

Section 14. ELECTIONS.--

A. Whenever, in accordance with rules prescribed by the board or local board, a petition is filed by a labor organization containing the signatures of at least thirty percent of the public employees in an appropriate bargaining unit, the board or local board shall conduct a secret ballot representation election to determine whether and by which labor organization the public employees in the appropriate bargaining unit shall be represented. The ballot shall contain the name of any labor organization submitting a petition containing signatures of at least thirty percent of the public employees in the appropriate bargaining unit. The ballot shall also contain a provision allowing public employees to indicate whether they do not desire to be represented by a labor organization. An election shall only be valid if forty percent of the eligible employees in the bargaining unit vote in the election.

B. Once a labor organization has filed a valid petition with the board or local board calling for a representation election, other labor organizations may seek to be placed on the ballot. Such an organization shall file a petition containing the signatures of not less than thirty percent of the public employees in the appropriate bargaining unit no later than ten days after the board or the local board and the public

employer post a written notice that the petition in Subsection A of this section has been filed by a labor organization.

C. As an alternative to the provisions of Subsection A of this section, a public employer and a labor organization with a reasonable basis for claiming to represent a majority of the employees in an appropriate bargaining unit may establish an alternative appropriate procedure for determining majority status. The procedure may include a labor organization's submission of authorization cards from a majority of the employees in an appropriate bargaining unit. The board or local board shall not certify an appropriate bargaining unit if the public employer objects to the certification without an election.

D. If a labor organization receives a majority of votes cast, it shall be certified as the exclusive representative of all public employees in the appropriate bargaining unit. Within fifteen days of an election in which no labor organization receives a majority of the votes cast, a runoff election between the two choices receiving the largest number of votes cast shall be conducted. The board or local board shall certify the results of the election, and, when a labor organization receives a majority of the votes cast, the board or local board shall certify the labor organization as the exclusive representative of all public employees in the appropriate bargaining unit.

E. An election shall not be conducted if an election or runoff election has been conducted in the twelve-month period immediately preceding the proposed representation election. An election shall not be held during the term of an existing collective bargaining agreement, except as provided in Section 16 of the Public Employee Bargaining Act.

Section 15. EXCLUSIVE REPRESENTATION.--

A. A labor organization that has been certified by the board or local board as representing the public employees in the appropriate bargaining unit shall be the exclusive representative of all public employees in the appropriate bargaining unit. The exclusive representative shall act for all public employees in the appropriate bargaining unit and negotiate a collective bargaining agreement covering all public employees in the appropriate bargaining unit. The exclusive representative shall represent the interests of all public employees in the appropriate bargaining unit without discrimination or regard to membership in the labor organization.

B. This section does not prevent a public employee, acting individually, from presenting a grievance without the intervention of the exclusive representative. At a hearing on a grievance brought by a public employee individually, the exclusive representative shall be afforded the opportunity to be present and make its views known. An adjustment made shall not be inconsistent with or in violation of the collective bargaining agreement then in effect between the public employer and the exclusive representative.

Section 16. DECERTIFICATION OF EXCLUSIVE

REPRESENTATIVE.--

A. A member of a labor organization or the labor organization itself may initiate decertification of a labor organization as the exclusive representative if thirty percent of the public employees in the appropriate bargaining unit make a written request to the board or local board for a decertification election. Decertification elections shall be held in a manner prescribed by rule of the board. An election shall only be valid if forty percent of the eligible employees in the bargaining unit vote in the election.

B. When there is a collective bargaining agreement in effect, a request for a decertification election shall be made to the board or local board no earlier than ninety days and no later than sixty days before the expiration of the collective bargaining agreement; provided, however, a request for an election may be filed at any time after the expiration of the third year of a collective bargaining agreement with a term of more than three years.

C. When, within the time period prescribed in Subsection B of this section, a competing labor organization files a petition containing signatures of at least thirty percent of the public employees in the appropriate bargaining unit, a representation election rather than a decertification election shall be conducted.

D. When an exclusive representative has been certified but no collective bargaining agreement is in effect, the board or local board shall not accept a request for a decertification election earlier than twelve months subsequent to a labor organization's certification as the exclusive representative.

Section 17. SCOPE OF BARGAINING.--

A. Except for retirement programs provided pursuant to the Public Employees Retirement Act or the Educational Retirement Act, public employers and exclusive representatives:

(1) shall bargain in good faith on wages, hours and all other terms and conditions of employment and other issues agreed to by the parties. However, neither the public employer nor the exclusive representative shall be required to agree to a proposal or to make a concession; and

(2) shall enter into written collective bargaining agreements covering employment relations.

B. The obligation to bargain collectively imposed by the Public Employee Bargaining Act shall not be construed as authorizing a public employer and an exclusive representative to enter into an agreement that is in conflict with the provisions of any other statute of this state. In the event of conflict between the provisions of any other

statute of this state and an agreement entered into by the public employer and the exclusive representative in collective bargaining, the statutes of this state shall prevail.

C. Payroll deduction of the exclusive representative's membership dues shall be a mandatory subject of bargaining if either party chooses to negotiate the issue. The amount of dues shall be certified in writing by an official of the labor organization and shall not include special assessments, penalties or fines of any type. The public employer shall honor payroll deductions until the authorization is revoked in writing by the public employee in accordance with the negotiated agreement and for so long as the labor organization is certified as the exclusive representative. During the time that a board certification is in effect for a particular appropriate bargaining unit, the public employer shall not deduct dues for any other labor organization.

D. The scope of bargaining for representatives of public schools as well as educational employees in state agencies shall include, as a mandatory subject of bargaining, the impact of professional and instructional decisions made by the employer.

E. An impasse resolution or an agreement provision by the state and an exclusive representative that requires the expenditure of funds shall be contingent upon the specific appropriation of funds by the legislature and the availability of funds. An impasse resolution or an agreement provision by a public employer other than the state or the public schools and an exclusive representative that requires the expenditure of funds shall be contingent upon the specific appropriation of funds by the appropriate governing body and the availability of funds. An agreement provision by a local school board and an exclusive representative that requires the expenditure of funds shall be contingent upon ratification by the appropriate governing body. An arbitration decision shall not require the reappropriation of funds.

F. An agreement shall include a grievance procedure to be used for the settlement of disputes pertaining to employment terms and conditions and related personnel matters. The grievance procedure shall provide for a final and binding determination. The final determination shall constitute an arbitration award within the meaning of the Uniform Arbitration Act; such award shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act. The costs of an arbitration proceeding conducted pursuant to this subsection shall be shared equally by the parties.

G. The following meetings shall be closed:

(1) meetings for the discussion of bargaining strategy preliminary to collective bargaining negotiations between the public employer and the exclusive representative of the public employees of the public employer;

(2) collective bargaining sessions; and

(3) consultations and impasse resolution procedures at which the public employer and the exclusive representative of the appropriate bargaining unit are present.

Section 18. IMPASSE RESOLUTION.--

A. The following negotiations and impasse procedures shall be followed by the state and exclusive representatives for state employees:

(1) a request to the state for the commencement of initial negotiations shall be filed in writing by the exclusive representative no later than June 1 of the year in which negotiations are to take place. Negotiations shall begin no later than July 1 of that year;

(2) in subsequent years, negotiations agreed to by the parties shall begin no later than August 1 following the submission of written notice to the state by the exclusive representative no later than July 1 of the year in which negotiations are to take place;

(3) if an impasse occurs during negotiations between the parties, and if an agreement is not reached by the parties by October 1, either party may request mediation services from the board. A mediator from the federal mediation and conciliation service shall be assigned by the board to assist in negotiations unless the parties agree to another mediator;

(4) the mediator shall provide services to the parties until the parties reach agreement or the mediator believes that mediation services are no longer helpful or until November 1, whichever occurs first; and

(5) if the impasse continues after November 1, either party may request a list of seven arbitrators from the federal mediation and conciliation service. One arbitrator shall be chosen by the parties by alternately striking names from such list. Who strikes first shall be determined by coin toss. The arbitrator shall render a final, binding, written decision resolving unresolved issues pursuant to Subsection E of Section 17 of the Public Employee Bargaining Act and the Uniform Arbitration Act no later than thirty days after the arbitrator has been notified of his or her selection by the parties. The arbitrator's decision shall be limited to a selection of one of the two parties' complete, last, best offer. The costs of an arbitrator and the arbitrator's related costs conducted pursuant to this subsection shall be shared equally by the parties. Each party shall be responsible for bearing the cost of presenting its case. The decision shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act.

B. The following impasse procedures shall be followed by all public employers and exclusive representatives, except the state and the state's exclusive representatives:

(1) if an impasse occurs, either party may request from the board or local board that a mediator be assigned to the negotiations unless the parties can agree on a mediator. A mediator with the federal mediation and conciliation service shall be assigned by the board or local board to assist negotiations unless the parties agree to another mediator; and

(2) if the impasse continues after a thirty-day mediation period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. One arbitrator shall be chosen by the parties by alternately striking names from such list. Who strikes first shall be determined by coin toss. The arbitrator shall render a final, binding, written decision resolving unresolved issues pursuant to Subsection E of Section 17 of the Public Employee Bargaining Act and the Uniform Arbitration Act no later than thirty days after the arbitrator has been notified of his or her selection by the parties. The arbitrator's decision shall be limited to a selection of one of the two parties' complete, last, best offer. The costs of an arbitrator and the arbitrator's related costs conducted pursuant to this subsection shall be shared equally by the parties. Each party shall be responsible for bearing the cost of presenting its case. The decision shall be subject to judicial review pursuant to the standard set forth in the Uniform Arbitration Act.

C. A public employer other than the state may enter into a written agreement with the exclusive representative setting forth an alternative impasse resolution procedure.

D. In the event that an impasse continues after the expiration of a contract, the existing contract will continue in full force and effect until it is replaced by a subsequent written agreement. However, this shall not require the public employer to increase any employees' levels, steps or grades of compensation contained in the existing contract.

Section 19. PUBLIC EMPLOYERS--PROHIBITED PRACTICES.--A public employer or his representative shall not:

A. discriminate against a public employee with regard to terms and conditions of employment because of the employee's membership in a labor organization;

- (3) otherwise not in accordance with law.

B. A person or party, including a labor organization affected by a final rule, order or decision of the board or local board, may appeal to the district court for further relief. All such appeals to the district court shall be taken within thirty days of the date of the final rule, order or decision of the board or local board. Actions taken by the board or local board shall be affirmed unless the court concludes that the action is:

- (1) arbitrary, capricious or an abuse of discretion;
- (2) not supported by substantial evidence on the record considered as a whole; or
- (3) otherwise not in accordance with law.

Section 24. EXISTING COLLECTIVE BARGAINING UNITS.--

A. Bargaining units established prior to July 1, 1999 shall continue to be recognized as appropriate bargaining units for the purposes of the Public Employee Bargaining Act. Section 26. EXISTING ORDINANCES PROVIDING FOR PUBLIC EMPLOYEE BARGAINING.--

A. A public employer other than the state that prior to October 1, 1991 adopted by ordinance, resolution or charter amendment a system of provisions and procedures permitting employees to form, join or assist a labor organization for the purpose of bargaining collectively through exclusive representatives may continue to operate under those provisions and procedures. B. A public employer other than the state that subsequent to October 1, 1991 adopts by ordinance, resolution or charter amendment a system of provisions and procedures permitting employees to form, join or assist a labor organization for the purpose of bargaining collectively through exclusive representatives freely chosen by its employees may operate under those provisions and procedures rather than those set forth in the Public Employee Bargaining Act; provided that the employer shall comply with the provisions of Sections 8 through 12 and Subsection D of Section 17 of that act and provided the following provisions and procedures are included in each ordinance, resolution or charter amendment:

The standards shall include narrative standards and as appropriate, the designated uses of the waters and the water quality criteria necessary to protect such uses. The standards shall at a minimum protect the public health or welfare, enhance the quality of water and serve the purposes of the Water Quality Act. In making standards, the commission shall give weight it deems appropriate to all facts and circumstances, including the use and value of the water for water supplies, propagation of fish and wildlife, recreational purposes and agricultural, industrial and other purposes;

D. shall adopt, promulgate and publish regulations to prevent or abate water pollution in the state or in any specific geographic area, aquifer or watershed of the state or in any part thereof, or for any class of waters, and to govern the disposal of septage and sludge and the use of sludge for various beneficial purposes. The regulations governing the disposal of septage and sludge may include the use of tracking and permitting systems or other reasonable means necessary to assure that septage and sludge are designated for disposal in, and arrive at, disposal facilities, other than facilities on the premises where the septage and sludge is generated, for which a permit or other authorization has been issued pursuant to the federal act or the Water Quality Act. Regulations shall not specify the method to be used to prevent or abate water pollution but may specify a standard of performance for new sources that reflects the greatest reduction in the concentration of water contaminants that the commission determines to be achievable through application of the best available demonstrated control technology, processes, operating methods or other alternatives, including where practicable a standard permitting no discharge of pollutants. In making regulations, the commission shall give weight it deems appropriate to all relevant facts and circumstances, including:

(1) character and degree of injury to or interference with health, welfare, environment and property;

(2) the public interest, including the social and economic value of the sources of water contaminants;

The commission shall also hear and decide disputes between constituent agencies as to jurisdiction concerning any matters within the purpose of the Water Quality Act. In assigning responsibilities to constituent agencies, the commission shall give priority to the primary interests of the constituent agencies. The department of environment shall provide technical services, including certification of permits pursuant to the federal act, and shall maintain a repository of the scientific data required by this act;

The commission shall adopt regulations specifying the procedure under which variances may be sought, which regulations shall provide for the holding of a public hearing before any variance may be granted;

(6) a schedule of construction permit fees sufficient to cover the reasonable costs of:

(a) reviewing and acting upon any application for such permit; and

(b) implementing and enforcing the terms and conditions of the permit, excluding any court costs or other costs associated with an enforcement action;

(7) a schedule of emission fees consistent with the provisions of Section 502(b)(3) of the 1990 amendments to the federal act;

Before the applicant is notified that the permit application has been determined to be complete, the department or local agency shall give the applicant a reasonable estimate of costs of an accelerated permit application review process;

(10) specification of the maximum length of time for which a permit shall be valid; provided that for an operating permit such period may not exceed five years; and

(11) for an operating permit only:

(a) provisions consistent with Sections 502(b) and 505(b) of the federal act providing: 1) notice to and review and comment by the United States environmental protection agency; and 2) that if the department or local agency receives notice of objection from the United States environmental protection agency before the operating permit is issued, the department or the local agency shall not issue the permit unless it is revised and issued under Section 505(c) of the federal act;

(1) a construction permit if it appears that the construction or modification:

(a) will not meet applicable standards, rules or requirements of the Air Quality Control Act or the federal act;

(b) will cause or contribute to air contaminant levels in excess of a national or state standard or, within the boundaries of a local authority, applicable local ambient air quality standards; or

(c) will violate any other provision of the Air Quality Control Act or the federal act; and

(2) an operating permit if the source will not meet the applicable standards, rules or requirements pursuant to the Air Quality Control Act or the federal act.

E. This section does not authorize the department or the local agency to require the use of machinery, devices or equipment from a particular manufacturer if the federal standards of performance, state regulations and permit conditions may be met by machinery, devices or equipment otherwise available.

F. The issuance of a permit does not relieve any person from the responsibility of complying with the provisions of the Air Quality Control Act and any applicable regulations of the environmental improvement board or the local board. Any conditions placed upon a permit by the department or the local agency shall be enforceable to the same extent as a regulation of its board.

G. A person who participated in a permitting action before the department or the local agency shall be notified by the department or the local agency of the action taken and the reasons for the action. Notification of the applicant shall be by certified mail.

B. The state treasurer shall invest the funds as other state funds are invested, and all income derived from the fund shall be credited directly to the fund. Remaining balances at the end of a fiscal year shall remain in the election fund and not revert to the general fund.

C. Money received from the following sources shall be deposited directly into the fund:

(2) any recurring balance of unspent fund money distributed to a certified candidate who does not remain a candidate through the primary or general election period for which the money was distributed;

(3) money that remains unspent or unencumbered by a certified candidate following the date of the primary election;

(4) money that remains unspent or unencumbered by a certified candidate following the date of the general election;

Section 11. A new section of the Election Code is enacted to read:

"DETERMINATION OF FUND AMOUNT.--

A. By January 1, 2007, and every two years thereafter, the secretary shall prepare and provide to the legislature a report documenting, evaluating and making recommendations relating to the administration, implementation and enforcement of the Voter Action Act.

B. In the report, the secretary shall set out the revenues received to date, the expected costs to the fund for the next election cycle and the amount of the annual appropriation from the legislature that will be required to meet this need."

Section 12. A new section of the Election Code is enacted to read:

"TIMING OF FUND DISTRIBUTION.--

A. Beginning with the election cycle that ends with the general election in 2006, the secretary shall distribute money from the fund to certified candidates.

B. For a primary election certified candidate, the secretary shall distribute the amount due to that certified candidate for that covered office within one week of certification.

C. For a candidate certified for the general election, the secretary shall distribute the amount due to that certified candidate for that covered office within one week after the primary election or, for a minor party or independent candidate, within one week after certification of the candidate."

Section 13. A new section of the Election Code is enacted to read:

"AMOUNT OF FUND DISTRIBUTION.--

A. By April 1, 2005, the secretary shall determine the amount of money to be distributed to each certified candidate for the election cycle ending with the general election in 2006, based on the type of election and the provisions of Subsections B through E of this section.

B. For contested primary elections, the amount of money to be distributed is equal to the average amount of campaign expenditures made by all candidates receiving ten percent or greater of votes cast in all contested primary election races for the immediately preceding four primary elections for public regulation commissioner.

C. For uncontested primary elections, the amount of money to be distributed is equal to fifty percent of the average amount of campaign expenditures made by all candidates during all uncontested primary election races, or for contested races if the amount is lower, for the immediately preceding four primary elections for public regulation commissioner.

D. For contested general elections, the amount of money to be distributed is equal to the average amount of campaign expenditures made by all candidates receiving thirty percent or greater of votes cast in all contested general election races for the immediately preceding four general elections for public regulation commissioner.

E. For uncontested general elections, the amount of money to be distributed is equal to fifty percent of the average amount of campaign expenditures made by all candidates receiving thirty percent or greater of votes cast in all uncontested general election races for the immediately preceding four general elections for public regulation commissioner. If a general election race that is initially uncontested later becomes contested because of the qualification of an independent or minor party candidate to appear on the ballot for that race, an additional amount of money will be distributed to the certified candidate to make that candidate's total distribution amount equal to the amount distributed pursuant to Subsection D of this section.

F. Once the certification for candidates for the primary election has been completed, the secretary shall calculate the total amount of money to be distributed in the primary election cycle, based on the number of certified candidates and the allocations specified in this section. The secretary shall increase the total amount by twenty percent to provide funds for additional matching funds in the primary election. The secretary shall also prepare an estimate of the total amount of money that might be distributed in the general election cycle. This estimate shall be increased by twenty percent to provide funds for additional matching funds in the general election. If the total amount to be distributed in the primary election cycle, plus the added twenty percent and the estimated total amount to be distributed in the general election cycle, plus the added twenty percent, all taken together, exceed the amount expected to be available in the fund, the secretary shall allocate the amount available between the primary and general election cycles. This allocation shall be based on the ratio of the two total amounts.

G. If the allocation specified in Subsection F of this section is greater than the total amount available for distribution, then the amounts to be distributed to individual candidates, specified in Subsections B through E of this section, shall each be reduced by the same percentage as the reduction by which the total amount needed has been reduced relative to the total amount available.

H. If the immediately preceding four election cycles do not contain sufficient data for the secretary to determine the amount to be distributed for an office, the secretary shall use data from the most recent applicable elections for that office. If no applicable elections for that office contain sufficient data, the secretary shall set an amount based on data from elections for comparable offices.

I. At least every two years after January 1, 2007, the secretary shall evaluate and modify as necessary the dollar values originally determined by Subsections B through E or H of this section and shall consider and account for inflation in the evaluations."

Section 14. A new section of the Election Code is enacted to read:

"MATCHING FUNDS.--When a noncertified candidate has one or more opponents who are certified candidates and his campaign finance report or group of reports shows that the sum of the noncertified candidate's expenditures and obligations made, or funds raised or borrowed, whichever is greater, alone or in conjunction with expenditures made independently of the candidate to influence the election on behalf of the candidate, exceeds the amount distributed to the certified candidate, the secretary shall issue immediately to any opposing certified candidate an additional amount equivalent to the excess amount reported by the non-participating opposing candidate. Total matching funds to a certified candidate in an election are limited to twice the amount originally distributed to that candidate pursuant to Section 13 of the Voter Action Act."

Section 15. A new section of the Election Code is enacted to read:

"ADMINISTRATION--SECRETARY OF STATE--DUTIES.--

A. The secretary shall adopt rules to ensure effective administration of the Voter Action Act.

B. The rules shall include procedures for:

(1) qualifications, certification and disbursement of revenues and return of unspent fund revenues;

(2) obtaining qualifying contributions;

(3) certification of candidates;

(4) collection of revenues; and

(5) return of fund disbursements and other money to the fund."

Section 16. A new section of the Election Code is enacted to read:

"APPEALS.--The procedure for challenging a certification decision by the secretary is as follows:

A. a person aggrieved by a certification decision or a decision regarding the distribution of matching funds may appeal to the secretary within three days of the decision. The appeal shall be in writing and shall set forth the reasons for appeal;

B. within five days after an appeal is properly made, and after due notice is given to the parties in dispute, the secretary shall hold a hearing whereby:

(1) the appellant has the burden of providing evidence to demonstrate that the secretary's decision was improper; and

(2) the secretary shall rule on the appeal within three days after the completion of the hearing;

C. the parties in dispute may appeal the decision of the secretary by commencing an action in district court; and

D. certified candidates whose certification is revoked on appeal shall return to the secretary any unspent money distributed from the fund. If the secretary or court finds that an appeal was made frivolously or to result in delay or hardship, the secretary or court may sanction the moving party by requiring the party to pay costs of the administrative hearing, the court hearing and the opposing parties."

Section 17. A new section of the Election Code is enacted to read:

"PENALTIES.--

A. In addition to other penalties that may be applicable, a person who violates a provision of the Voter Action Act is subject to a civil penalty of up to ten thousand dollars (\$10,000) per violation. In addition to a fine, a certified candidate found in violation of that act may be required to return to the fund all amounts distributed to the candidate from the fund. If the secretary makes a determination that a violation of that act has occurred, the secretary shall impose a fine or transmit the finding to the attorney general for prosecution. In determining whether a certified candidate is in violation of the expenditure limits of that act, the secretary may consider as a mitigating factor any circumstances out of the candidate's control.

B. A person who willfully or knowingly violates the provisions of the Voter Action Act or rules of the secretary or knowingly makes a false statement in a report required by that act is guilty of a fourth degree felony and, if he is a certified candidate, shall return to the fund all money distributed to that candidate."

The authority shall be composed of seven members. The lieutenant governor, state treasurer and attorney general shall be ex-officio members of the authority with voting privileges. The governor, with the advice and consent of the senate, shall appoint the other four members of the authority, who shall be residents of the state and shall not hold other public office. The instrument containing the consent shall be acknowledged and, if executed on behalf of a corporation or association, shall be accompanied by a certified copy of the resolution of the proper officers or managing board authorizing the executing officer to execute the instrument. Service of process or pleadings shall be served in duplicate upon the commission; one shall be filed in the office of the commission and the other immediately forwarded by registered mail to the main office of the applicant against which the process or pleadings are directed.

C. Each applicant for a real estate salesperson's license shall be a legal resident of the United States, have reached the age of majority, have passed the real estate examination approved by the commission and furnish the commission a certificate that he has completed successfully sixty classroom hours of instruction in basic real estate courses approved by the commission.

Corporations, partnerships or associations may hold a broker's license issued in the name of the corporation, partnership or association, provided at least one member of the partnership or association or one officer or employee of a corporation who actively engages in the real estate business first secures a broker's license. The license shall be issued in the name of the corporation, partnership or association, naming the partner,

associate, officer or employee as qualifying broker for the corporation, partnership or association."

Section 5. Section 61-29-11 NMSA 1978 (being Laws 1959, Chapter 226, Section 10, as amended) is amended to read:

"61-29-11. ISSUANCE, RENEWAL AND SURRENDER OF
LICENSES.--

A. The commission shall issue to each qualified applicant a license in the form and size prescribed by the commission.

B. The license shall show the name and address of the licensee. A real estate salesperson's license shall show the name of the broker by whom he is engaged. The license of the real estate salesperson shall be delivered or mailed to the broker by whom the real estate salesperson is engaged and shall be kept in the custody and control of that broker.

C. Every license shall be renewed every three years on or before the last day of the month following the licensee's month of birth. Upon written request for renewal by the licensee, the commission shall certify renewal of a license if there is no reason or condition that might warrant the refusal of the renewal of a license. The licensee shall provide proof of compliance with continuing education requirements and pay the renewal fee. If a licensee has not made application for renewal of license, furnished proof of compliance with continuing education requirements and paid the renewal fee by the license renewal date, the license shall expire. The commission may require a person whose license has expired to apply for a license as if he had not been previously licensed under Chapter 61, Article 29 NMSA 1978 and further require that he be reexamined. The commission shall require a person whose license has expired to pay when he applies for a license, in addition to any other fee, a late fee. If during a period of one year from the date the license expires the person or his spouse is either absent from this state on active duty military service or the person is suffering from an illness or injury of such severity that the person is physically or mentally incapable of making application for a license, payment of the late fee and reexamination shall not be required by the commission if, within three months of the person's permanent return to this state or sufficient recovery from illness or injury to allow the person to make an application, the person makes application to the commission for a license. A copy of that person's or his spouse's military orders or a certificate from the applicant's physician shall accompany the application. A person excused by reason of active duty military service, illness or injury as provided for in this subsection may make application for a license without imposition of the late fee. All fees collected pursuant to this subsection shall be disposed of in accordance with the provisions of Section 61-29-8 NMSA 1978. The revocation of a broker's license automatically suspends every real estate salesperson's license granted to any person by virtue of association with the broker whose license has been revoked, pending a change of broker. Upon the naming

of a new broker, the suspended license shall be reactivated without charge if granted during the three-year renewal cycle.

D. Each resident licensed broker shall maintain within this state a fixed office that conforms with local regulations. Every office operated by a licensed broker shall have a licensed broker in charge who is a natural person. The license of the broker and each real estate salesperson associated with that broker shall be prominently displayed in the office. The address of the office shall be designated in the broker's license, and no license issued shall authorize the licensee to transact real estate business at any other address. In case of removal from the designated address, the licensee shall make application to the commission before the removal or within ten days thereafter, designating the new location of his office and paying the required fee, whereupon the commission shall issue a license for the new location if the new location complies with the terms of Chapter 61, Article 29 NMSA 1978. A licensed broker shall maintain a sign on his office of such size and content as the commission prescribes. In making application for a license or for a change of address, the licensee shall verify that his office conforms with local regulations.

E. When a real estate salesperson is discharged or terminates his association or employment with the broker with whom he is associated, it is the duty of that broker to deliver or mail to the commission that real estate salesperson's license within forty-eight hours. The commission shall hold the license on inactive status. It is unlawful for a real estate salesperson to perform any of the acts authorized by Chapter 61, Article 29 NMSA 1978 either directly or indirectly under authority of an inactive license after his association has been terminated and his license as salesperson has been returned to the commission as provided in that article until the appropriate fee has been paid and the license has been reissued by the commission."

Section 6. Section 61-29-22 NMSA 1978 (being Laws 1980, Chapter 82, Section 3, as amended) is amended to read:

"61-29-22. ADDITIONAL FEES.--

A. The commission shall collect an annual fee not in excess of ten dollars (\$10.00) from each real estate licensee prior to the issuance of the next license.

B. The commission shall collect from each successful applicant for an original real estate license, in addition to his original license fee, a fee not in excess of ten dollars (\$10.00).

C. The additional fees provided by this section shall be credited to the real estate recovery fund. The amount of the real estate recovery fund shall be maintained at two hundred fifty thousand dollars (\$250,000). If the real estate recovery fund falls below this amount, the commission shall have authority to adjust the annual amount of additional fees to be charged licensees or to draw on the real estate commission fund in order to maintain the fund level as required in this section. If on July 1 of any year, the

balance in the fund exceeds four hundred thousand dollars (\$400,000), the amount over four hundred thousand dollars (\$400,000) shall be transferred to the real estate commission fund to be used for the purposes of carrying out the provisions of Chapter 61, Article 29 NMSA 1978."

RELATING TO CRIMINAL PROCEDURE; ESTABLISHING PROCEDURES FOR POST-CONVICTION CONSIDERATION OF DNA EVIDENCE; ENACTING A NEW SECTION OF THE CRIMINAL PROCEDURE ACT; REPEALING A SECTION OF THE NMSA 1978; PROVIDING FOR A DELAYED REPEAL.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. A new section of the Criminal Procedure Act is enacted to read:

"PROCEDURES FOR POST-CONVICTION CONSIDERATION OF DNA EVIDENCE--REQUIREMENTS.--

A. A person convicted of a felony, who claims that DNA evidence will establish his innocence, may petition the district court of the judicial district in which he was convicted to order the disclosure, preservation, production and testing of evidence that can be subjected to DNA testing. A copy of the petition shall be served on the district attorney for the judicial district in which the district court is located.

B. As a condition to the district court's acceptance of his petition, the petitioner shall:

(1) submit to DNA testing ordered by the district court; and

(2) authorize the district attorney's use of the DNA test results to investigate all aspects of the case that the petitioner is seeking to reopen.

C. The petitioner shall show, by a preponderance of the evidence, that:

(1) he was convicted of a felony;

(2) evidence exists that can be subjected to DNA testing;

(3) the evidence to be subjected to DNA testing:

(a) has not previously been subjected to DNA testing;

(b) has not previously been subjected to the type of DNA testing that is now being requested; or

(c) was previously subjected to DNA testing, but was tested incorrectly or interpreted incorrectly;

(4) the DNA testing he is requesting will be likely to produce admissible evidence; and

(5) identity was an issue in his case or that if the DNA testing he is requesting had been performed prior to his conviction and the results had been exculpatory, there is a reasonable probability that the petitioner would not have pled guilty or been found guilty.

D. If the petitioner satisfies the requirements set forth in Subsection C of this section, the district court shall appoint counsel for the petitioner, unless the petitioner waives counsel or retains his own counsel.

E. After reviewing a petition, the district court may dismiss the petition, order a response by the district attorney or issue an order for DNA testing.

F. The district court shall order all evidence secured that is related to the petitioner's case and that could be subjected to DNA testing. The evidence shall be preserved during the pendency of the proceeding. The district court may impose appropriate sanctions, including dismissal of the petitioner's conviction or criminal contempt, if the court determines that evidence was intentionally destroyed after issuance of the court's order to secure evidence.

G. The district court shall order DNA testing if the petitioner satisfies the requirements set forth in Subsections B and C of this section.

H. If the results of the DNA testing are exculpatory, the district court may set aside the petitioner's judgment and sentence, may dismiss the charges against the petitioner with prejudice, may grant the petitioner a new trial or may order other appropriate relief.

I. The cost of DNA testing ordered pursuant to this section shall be borne by the state or the petitioner, as the district court may order in the interest of justice. Provided, that a petitioner shall not be denied DNA testing because of his inability to pay for the cost of DNA testing. Testing under this provision shall only be performed by a laboratory that meets the minimum standards of the national DNA index system.

J. The provisions of this section shall not be interpreted to limit:

(1) other circumstances under which a person may obtain DNA testing; or

(2) post-conviction relief a petitioner may seek pursuant to other provisions of law.

K. The petitioner shall have the right to appeal a district court's denial of the requested DNA testing, a district court's final order on a petition or a district court's decision regarding relief for the petitioner. The state shall have the right to appeal any final order issued by the district court. An appeal shall be filed by a party within thirty days to the court of appeals.

L. The state shall preserve all evidence that is secured in relation to an investigation or prosecution of a crime and that could be subjected to DNA testing, for not less than the period of time that a person remains subject to incarceration or supervision in connection with the investigation or prosecution.

M. The state may dispose of evidence before the expiration of the time period set forth in Subsection K of this section if:

(1) no other law, regulation or court order requires that the evidence be preserved;

(2) the evidence must be returned to its rightful owner;

(3) preservation of the evidence is impractical due to the size, bulk or physical characteristics of the evidence; and

(4) the state takes reasonable measures to remove and preserve portions of the evidence sufficient to permit future DNA testing.

N. As used in this section, "DNA" means deoxyribonucleic acid."

Section 2. REPEAL.--Section 31-1A-1 NMSA 1978 (being Laws 2001, Chapter 29, Section 1) is repealed.

"66-5-9. APPLICATION FOR LICENSE, TEMPORARY LICENSE, PROVISIONAL LICENSE OR INSTRUCTION PERMIT.--

A. An application for an instruction permit, provisional license or driver's license shall be made upon a form furnished by the department. An application shall be accompanied by the proper fee. For permits, provisional licenses or driver's licenses other than those issued pursuant to the New Mexico Commercial Driver's License Act, submission of a complete application with payment of the fee entitles the applicant to not more than three attempts to pass the examination within a period of six months from the date of application.

B. An application shall contain the full name, social security number or individual tax identification number, date of birth, sex and New Mexico residence address of the applicant and briefly describe the applicant and indicate whether the applicant has previously been licensed as a driver and, if so, when and by what state or country and whether any such license has ever been suspended or revoked or whether an application has ever been refused and, if so, the date of and reason for the suspension, revocation or refusal. For foreign nationals applying for driver's licenses the secretary shall accept the individual taxpayer identification number as a substitute for a social security number regardless of immigration status. The secretary is authorized to establish by regulation other documents that may be accepted as a substitute for a social security number or an individual tax identification number.

C. An applicant shall indicate whether he has been convicted of driving while under the influence of intoxicating liquor or drugs in this state or in any other jurisdiction. Failure to disclose any such conviction prevents the issuance of a driver's license, provisional license, temporary license or instruction permit for a period of one year if the failure to disclose is discovered by the department prior to issuance. If the nondisclosure is discovered by the department subsequent to issuance, the department shall revoke the driver's license, provisional license, temporary license or instruction permit for a period of one year. Intentional and willful failure to disclose, as required in this subsection, is a misdemeanor.

(3) complied with restrictions on that license;

(4) not been convicted of a traffic violation committed during the ninety days prior to applying for a driver's license;

(5) not been cited for a traffic violation that is pending at the time of his application; and

(6) not been adjudicated for an offense involving the use of alcohol or drugs during the twelve-month period immediately preceding the date of the application for the driver's license and that there are no pending adjudications alleging an offense involving the use of alcohol or drugs at the time of his application.

E. An applicant eighteen years of age and over, but less than twenty-five years of age, who is making an application to be granted his first New Mexico driver's license shall submit evidence with his application that he has successfully completed a bureau-approved DWI prevention and education program.

F. An applicant twenty-five years of age and over who has been convicted of driving under the influence of intoxicating liquor or drugs, and who is making an application to be granted his first New Mexico driver's license, shall submit evidence with his application that he has successfully completed a bureau-approved DWI prevention and education program.

G. Whenever application is received from a person previously licensed in another jurisdiction, the department may request a copy of the driver's record from the other jurisdiction. When received, the driver's record may become a part of the driver's record in this state with the same effect as though entered on the driver's record in this state in the original instance.

H. Whenever the department receives a request for a driver's record from another licensing jurisdiction, the record shall be forwarded without charge.

Average annual salary shall be determined in accordance with rules promulgated by the board but shall always be based on actual salaries earned by the member where the actual salaries can be ascertained by the board. The employer's contributions for service credit shall not be paid by the employer. The purchase of service credit provided in this section shall be carried out by the member within three years after the date of the member's employment following service; or

Payment pursuant to Paragraph (4) of Subsection A of this section may be made in installments, at the discretion of the board, over a period not to exceed one year and, if the sum paid does not equal the amount required for any full year of allowed service credit, the member shall acquire allowed service credit for that period of time that is proportionate to the payment made. Half credit may be allowed without contribution for not more than ten years of the educational service described by Subparagraph (a) of Paragraph (4) of Subsection A of this section if that service was prior to June 13, 1953 and if the member was employed in New Mexico prior to June 13, 1953 in a position covered by the Educational Retirement Act or a law repealed by that act. No allowed service credit shall be purchased pursuant to Paragraph (4) of Subsection A of this section unless the member is currently employed by a local administrative unit.

C. No member shall be certified to have acquired allowed service credit:

(1) under any single paragraph or the combination of only Paragraphs (1) and (4) or only Paragraphs (2) and (3) of Subsection A of this section in excess of five years; or

D. The provisions of this section are made applicable to the services described prior to as well as after the effective date of the Educational Retirement Act."

Section 11. Section 22-11-36 NMSA 1978 (being Laws 1967, Chapter 16, Section 159) is amended to read:

"22-11-36. DISABILITY BENEFIT--CONTINUED ELIGIBILITY--

RE-EXAMINATIONS.--

A. Unless designated by the medical authority as being permanently disabled, to continue to receive disability benefits, a member shall, on the anniversary date in each year of his being placed on a disability status, present himself to the medical authority for a medical

re-examination. The medical authority shall certify to the director after each medical examination whether there is a substantial betterment of the member's disability. In the event a substantial betterment of the disability is reported, the board shall determine whether the member is totally disabled for employment and unable to obtain and retain other gainful employment commensurate with his background, education and experience. If the board determines that the member is no longer disabled, the payment of the disability benefits shall cease.

B. Payment of disability benefits to a member shall be suspended if a certificate of medical re-examination by the medical authority is not filed with the director within thirty days after the date upon which the member should have been re-examined where the failure to file the certificate was due to the unexcused failure or the refusal of the member to report for the medical re-examination. Payment of disability benefits shall be resumed only after the member has complied with the requirements of the Educational Retirement Act. A member shall have no right or claim for benefits withheld during a period of suspension.

C. The board may, in its discretion, require further or more frequent medical examinations of members having a disability status.

D. A member receiving disability benefits who is unable to report for a medical re-examination because of his physical condition or because he resides outside the state shall notify the director of this fact not later than fifteen days in advance of the date for the medical re-examination. The board shall designate a medical doctor in the vicinity of the residence of the member to make the medical

re-examination and to report the findings to the board.

E. Upon a determination by the board, a member's status may be changed from permanently disabled to temporarily disabled or no longer disabled."

Section 12. Section 22-11-42 NMSA 1978 (being Laws 1967, Chapter 16, Section 165, as amended) is amended to read:

"22-11-42. NONASSIGNABILITY--DIVISION OF FUNDS AS COMMUNITY PROPERTY--CHILD SUPPORT OBLIGATIONS.--

A. Except as specifically provided in the Educational Retirement Act and the provisions of Subsections B and C of this section, contributions or benefits mentioned in the Educational Retirement Act shall not be assignable either in law or in equity or be subject to execution, levy, attachment, garnishment, guarantee fund or similar assessment or any other legal process.

B. A court of competent jurisdiction, solely for the purposes of effecting a division of community property, may provide by appropriate order for a determination and division of a community interest in the pensions or other benefits provided for in the

Educational Retirement Act. In so doing, the court shall fix the manner in which the warrants shall be issued, may order direct payments by the board to a person with a community interest in the pensions or benefits and may restrain the refund of member or participant contributions. The court shall not alter the manner in which the amount of pensions or other benefits is calculated by the board or a carrier or contractor for the alternative retirement plan, nor shall the court cause any increase in the actuarial present value of the pensions or other benefits to be paid by the board or a carrier or contractor for the alternative retirement plan. A payment, ordered by a court pursuant to this subsection, shall only be made when the member or participant terminates employment and requests a refund or when the member or participant retires or is otherwise entitled to receive benefits pursuant to the Educational Retirement Act. In no case shall a court order pursuant to this subsection result in more money being paid from the fund or from an alternative retirement plan, whether in a lump sum or in monthly benefits, than would otherwise be payable.

C. A court of competent jurisdiction, solely for the purposes of enforcing current or delinquent child support obligations, may provide by appropriate order for withholding amounts due in satisfaction of current or delinquent child support obligations from the pensions or other benefits provided for in the Educational Retirement Act and for payment of such amounts to third parties. The court shall not alter the manner in which the amount of pensions or other benefits is calculated by the board or a carrier or contractor for the alternative retirement plan. The court shall not cause any increase in the actuarial present value of the pensions or other benefits to be paid by the board or a carrier or contractor for the alternative retirement plan. Payments made pursuant to such orders shall only be made when the member or participant terminates employment and requests a refund of contributions or when the member or participant retires; in no case shall more money be paid out, either in a lump sum or in monthly benefits, of the fund or alternative retirement plan in enforcement of current or delinquent child support obligations than would otherwise be payable. In no case shall a court order pursuant to this subsection result in more money being paid from the fund or from an alternative retirement plan, whether in a lump sum or in monthly benefits, than would otherwise be payable."

RELATING TO PUBLIC SCHOOL FINANCES; PROVIDING FOR THE TIMELY PAYMENT OF SCHOOL DISTRICT GENERAL OBLIGATIONS THROUGH THE USE OF THE STATE EQUALIZATION GUARANTEE DISTRIBUTION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. A new section of the Public School Code is enacted to read:

"TIMELY PAYMENT OF SCHOOL DISTRICT OBLIGATIONS.--

A. Whenever a paying agent has not received payment of principal or interest on school district general obligation bonds on the business day immediately prior to the date on which the payment is due, the paying agent shall so notify the state treasurer, the department of finance and administration, the department of education and the school district by telephone, facsimile or other similar communication, followed by written verification, of the payment status. The state treasurer shall immediately contact the school district and determine whether the school district will make the payment by the date on which it is due.

B. If the school district indicates that it will not make the payment by the date on which it is due, the state treasurer shall forward the amount in immediately available funds necessary to make the payment due on the bonds to the paying agent and shall withhold an equal amount from the next succeeding payment of the state equalization guarantee distribution. If the amount of the next succeeding payment is

insufficient to pay the amount due, the state treasurer shall withhold amounts from each succeeding payment of the state equalization guarantee distribution, including payments to be made in succeeding fiscal years but not more than twelve consecutive months of payments, until the total payment of principal and interest due has been withheld.

C. The amounts forwarded to the paying agent by the state treasurer shall be applied by the paying agent solely to the payment of the principal or interest due on the general obligation bonds of the school district. The state treasurer shall notify the department of education, the chief financial officer of the school district, the department of finance and administration, the legislative finance committee and the legislative education study committee of amounts withheld and payments made pursuant to this section.

D. Upon the issuance of general obligation bonds by a school district, the school district shall file with the state treasurer a copy of the resolution that authorizes the issuance of the bonds, a copy of the official statement or other offering document for the bonds, the agreement, if any, with the paying agent for the bonds and the name, address and telephone number of the paying agent; provided, however, that the failure of a school district to file the information shall not affect the obligation of the state treasurer to withhold the state equalization guarantee distribution pursuant to this section.

E. The state hereby covenants with the purchasers and holders of general obligation bonds issued by school districts that it will not repeal, revoke or rescind the provisions of this section or modify or amend the same so as to limit or impair the rights and remedies granted by this section; provided that nothing in this subsection shall be deemed or construed to require the state to continue the payment of a state equalization guarantee distribution to any school district or to limit or prohibit the state from repealing, amending or modifying any law relating to the amount of state equalization guarantee distributions to school districts or the manner of payment or the timing thereof. Nothing in this section shall be deemed or construed to create a debt of the state with respect to the bonds within the meaning of any state constitutional provision or to create any liability except to the extent provided in this section.

F. Whenever the state treasurer is required by this section to make a payment of principal or interest on bonds on behalf of a school district, the department of education shall initiate an audit of the school district to determine the reason for the nonpayment and to assist the school district, if necessary, in developing and implementing measures to ensure that future payments will be made when due.

G. Whenever the state treasurer makes a payment of principal and interest on bonds or other obligations of a school district and withholds amounts from the state equalization guarantee distribution pursuant to this section because of the failure to collect property taxes, the school district may transfer delinquent property

taxes later collected out of the school district's bond redemption fund and into its general fund.

H. This section applies to general obligation bonds issued by a school district on or after July 1, 2003."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. Section 51-1-4 NMSA 1978 (being Laws 1969, Chapter 213, Section 1, as amended by Laws 2000, Chapter 3, Section 1 and also by Laws 2000, Chapter 7, Section 1) is amended to read:

"51-1-4. MONETARY COMPUTATION OF BENEFITS--PAYMENT GENERALLY.--

A. All benefits provided herein are payable from the unemployment compensation fund. All benefits shall be paid in accordance with rules prescribed by the secretary through employment offices or other agencies as the secretary approves by general rule.

B. Effective July 1, 2003, weekly benefits shall be as follows:

(1) an individual's "weekly benefit amount" is an amount equal to fifty-two and one-half percent of the average weekly wage for insured work paid to the individual in that quarter of the individual's base period in which total wages were highest. No benefit as so computed may be less than ten percent or more than fifty-two

and one-half percent of the state's average weekly wage for all insured work. The state's average weekly wage shall be computed from all wages reported to the department from employing units in accordance with rules of the secretary for the period ending June 30 of each calendar year divided by the total number of covered employees divided by fifty-two, effective for the benefit years commencing on or after the first Sunday of the following calendar year. An individual is not eligible to receive benefits unless the individual has wages in at least two quarters of that individual's base period. For the purposes of this subsection, "total wages" means all remuneration for insured work, including commissions and bonuses and the cash value of all remuneration in a medium other than cash;

(2) an eligible individual who is unemployed in any week during which the individual is in a continued claims status shall be paid, with respect to the week, a benefit in an amount equal to the individual's weekly benefit amount, less that part of the wages, if any, or earnings from self-employment, payable to the individual with respect to such week that is in excess of one-fifth of the individual's weekly benefit amount. For purposes of this subsection only, "wages" includes all remuneration for services actually performed in a week for which benefits are claimed, vacation pay for a period for which the individual has a definite return-to-work date, wages in lieu of notice and back pay for loss of employment but does not include payments through a court for time spent in jury service;

(3) notwithstanding any other provision of this section, an eligible individual who, pursuant to a plan financed in whole or in part by a base-period employer of the individual, is receiving a governmental or other pension, retirement pay, annuity or any other similar periodic payment that is based on the previous work of the individual and who is unemployed with respect to any week ending subsequent to April 9, 1981 shall be paid with respect to the week, in accordance with rules prescribed by the secretary, compensation equal to the individual's weekly benefit amount reduced, but not below zero, by the prorated amount of the pension, retirement pay, annuity or other similar periodic payment that exceeds the percentage contributed to the plan by the eligible individual. The maximum benefit amount payable to the eligible individual shall be an amount not more than twenty-six times his reduced weekly benefit amount. If payments referred to in this section are being received by an individual under the federal Social Security Act, the division shall take into account the individual's contribution and make no reduction in the weekly benefit amount;

(4) in the case of a lump-sum payment of a pension, retirement or retired pay, annuity or other similar payment by a base-period employer that is based on the previous work of the individual, the payment shall be allocated, in accordance with rules prescribed by the secretary, and shall reduce the amount of unemployment compensation paid, but not below zero, in accordance with Paragraph (3) of this subsection; and

(5) the retroactive payment of a pension, retirement or retired pay, annuity or any other similar periodic payment as provided in Paragraphs (3) and (4) of

this subsection attributable to weeks during which an individual has claimed or has been paid unemployment compensation shall be allocated to those weeks and shall reduce the amount of unemployment compensation for those weeks, but not below zero, by an amount equal to the prorated amount of the pension. Any overpayment of unemployment compensation benefits resulting from the application of the provisions of this paragraph shall be recovered from the claimant in accordance with the provisions of Section 51-1-38 NMSA 1978.

C. Effective January 1, 2004, an individual otherwise eligible for benefits shall be paid for each week of unemployment, in addition to the amount payable under Subsection B of this section, the sum of fifteen dollars (\$15.00) for each unemancipated child, up to a maximum of four and subject to the maximum stated in Subsection D of this section, of the individual who is in fact dependent upon and wholly or mainly supported by the individual and is:

(1) under the age of eighteen;

(2) under the age of eighteen and in the individual's custody pending the adjudication of a petition filed by the individual for the adoption of the child in a court of competent jurisdiction; or

(3) under the age of eighteen and for whom the individual is under a decree or order from a court of competent jurisdiction required to contribute to the child's support and for whom no other person is receiving allowances under the Unemployment Compensation Law if the child is domiciled within the United States or its territories or possessions, the payment to be withheld and paid pursuant to Section 51-1-37.1 NMSA 1978.

D. Effective January 1, 2004, dependency benefits shall not exceed fifty percent of the individual's weekly benefit rate. The amount of dependency benefits determined as of the beginning of an individual's benefit year shall not be reduced for the duration of the benefit year, but this provision does not prevent the transfer of dependents' benefits from one spouse to another in accordance with this subsection. If both the husband and wife receive benefits with respect to a week of unemployment, only one of them is entitled to a dependency allowance with respect to a child. The division shall prescribe standards as to who may receive a dependency allowance when both the husband and wife are eligible to receive unemployment compensation benefits. Dependency benefits shall not be paid unless the individual submits documentation satisfactory to the division establishing the existence of the claimed dependent. If the provisions of this subsection are satisfied, an otherwise eligible individual who has been appointed guardian of a dependent child by a court of competent jurisdiction shall be paid dependency benefits.

E. An otherwise eligible individual is entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of twenty-six times the individual's weekly benefit amount, plus any dependency benefit amount pursuant to

Subsections C and D of this section, or sixty percent of the individual's wages for insured work paid during the individual's base period.

F. A benefit as determined in Subsection B or C of this section, if not a multiple of one dollar (\$1.00), shall be rounded to the next lower multiple of one dollar (\$1.00).

G. The secretary may prescribe rules to provide for the payment of benefits that are due and payable to the legal representative, dependents, relatives or next of kin of claimants since deceased. These rules need not conform with the laws governing successions, and the payment shall be deemed a valid payment to the same extent as if made under a formal administration of the succession of the claimant.

H. The division, on its own initiative, may reconsider a monetary determination whenever it is determined that an error in computation or identity has occurred or that wages of the claimant pertinent to such determination but not considered have been newly discovered or that the benefits have been allowed or denied on the basis of misrepresentation of fact, but no redetermination shall be made after one year from the date of the original monetary determination. Notice of a redetermination shall be given to all interested parties and shall be subject to an appeal in the same manner as the original determination. In the event that an appeal involving an original monetary determination is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from redetermination."

Section 2. Section 51-1-5 NMSA 1978 (being Laws 1969, Chapter 213, Section 2, as amended by Laws 2000, Chapter 3, Section 2 and also by Laws 2000, Chapter 7, Section 2) is amended to read:

"51-1-5. BENEFIT ELIGIBILITY CONDITIONS.--

A. An unemployed individual shall be eligible to receive benefits with respect to any week only if the individual:

(1) has made a claim for benefits with respect to such week in accordance with such rules as the secretary may prescribe;

(2) has registered for work at, and thereafter continued to report at, an employment office in accordance with such rules as the secretary may prescribe, except that the secretary may, by rule, waive or alter either or both of the requirements of this paragraph as to individuals attached to regular jobs and as to such other types of cases or situations with respect to which the secretary finds that compliance with such requirements would be oppressive or would be inconsistent with the purposes of the Unemployment Compensation Law. No such rule shall conflict with Subsection A of Section 51-1-4 NMSA 1978;

(3) is able to work and is available for work and is actively seeking permanent full-time work or part-time work in accordance with Subsection I of Section 51-1-42 NMSA 1978 and in accordance with the terms, conditions and hours common in the occupation or business in which the individual is seeking work, except that the secretary may, by rule, waive this requirement for individuals who are on temporary layoff status from their regular employment with an assurance from their employers that the layoff shall not exceed four weeks or who have an express offer in writing of substantially full-time work that will begin within a period not exceeding four weeks;

(4) has been unemployed for a waiting period of one week. A week shall not be counted as a week of unemployment for the purposes of this paragraph:

(a) unless it occurs within the benefit year that includes the week with respect to which the individual claims payment of benefits;

(b) if benefits have been paid with respect thereto; and

(c) unless the individual was eligible for benefits with respect thereto as provided in this section and Section 51-1-7 NMSA 1978, except for the requirements of this subsection and of Subsection D of Section 51-1-7 NMSA 1978;

(5) has been paid wages in at least two quarters of the individual's base period;

(6) has reported to an office of the division in accordance with the rules of the secretary for the purpose of an examination and review of the individual's availability for and search for work, for employment counseling, referral and placement and for participation in a job finding or employability training and development program. An individual shall not be denied benefits under this section for any week that the individual is participating in a job finding or employability training and development program; and

(7) participates in reemployment services, such as job search assistance services, if the division determines that the individual is likely to exhaust regular benefits and need reemployment services pursuant to a profiling system established by the division, unless the division determines that:

(a) the individual has completed such services; or

(b) there is justifiable cause for the individual's failure to participate in the services.

B. A benefit year as provided in Section 51-1-4 NMSA 1978 and Subsection P of Section 51-1-42 NMSA 1978 may be established; provided an individual may not receive benefits in a benefit year unless, subsequent to the beginning of the immediately preceding benefit year during which the individual received benefits,

the individual performed service in "employment", as defined in Subsection F of Section 51-1-42 NMSA 1978, and earned remuneration for such service in an amount equal to at least five times the individual's weekly benefit amount.

C. Benefits based on service in employment defined in Paragraph (8) of Subsection F of Section 51-1-42 and Section 51-1-43 NMSA 1978 are to be paid in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other services subject to the Unemployment Compensation Law; except that:

(1) benefits based on services performed in an instructional, research or principal administrative capacity for an educational institution shall not be paid for any week of unemployment commencing during the period between two successive academic years or terms or, when an agreement provides for a similar period between two regular but not successive terms, during such period or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if the individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that the individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) benefits based on services performed for an educational institution other than in an instructional, research or principal administrative capacity shall not be paid for any week of unemployment commencing during a period between two successive academic years or terms if the services are performed in the first of such academic years or terms and there is a reasonable assurance that the individual will perform services for any educational institution in the second of such academic years or terms. If compensation is denied to an individual under this paragraph and the individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a claim and certified for benefits in accordance with the rules of the division and for which benefits were denied solely by reason of this paragraph;

(3) benefits shall be denied to any individual for any week that commences during an established and customary vacation period or holiday recess if the individual performs any services described in Paragraphs (1) and (2) of this subsection in the period immediately before such period of vacation or holiday recess and there is a reasonable assurance that the individual will perform any such services in the period immediately following such vacation period or holiday recess;

(4) benefits shall not be payable on the basis of services specified in Paragraphs (1) and (2) of this subsection during the periods specified in Paragraphs (1), (2) and (3) of this subsection to any individual who performed such services in or to or on behalf of an educational institution while in the employ of a state or local

governmental educational service agency or other governmental entity or nonprofit organization; and

(5) for the purpose of this subsection, to the extent permitted by federal law, "reasonable assurance" means a reasonable expectation of employment in a similar capacity in the second of such academic years or terms based upon a consideration of all relevant factors, including the historical pattern of reemployment in such capacity, a reasonable anticipation that such employment will be available and a reasonable notice or understanding that the individual will be eligible for and offered employment in a similar capacity.

D. Paragraphs (1), (2), (3), (4) and (5) of Subsection C of this section shall apply to services performed for all educational institutions, public or private, for profit or nonprofit, which are operated in this state or subject to an agreement for coverage under the Unemployment Compensation Law of this state, unless otherwise exempt by law.

E. Notwithstanding any other provisions of this section or Section 51-1-7 NMSA 1978, no otherwise eligible individual is to be denied benefits for any week because the individual is in training or attending school on a full-time basis with the approval of the division nor is the individual to be denied benefits by reason of application of provisions in Paragraph (3) of Subsection A of this section or Paragraph (3) of Subsection A of Section 51-1-7 NMSA 1978 with respect to any week in which the individual is in training or attending school on a full-time basis with the approval of the division. The secretary shall provide, by rule, standards for approved training and the conditions for approving training for claimants, including any training approved or authorized for approval pursuant to Section 236(a)(1) and (2) of the Trade Act of 1974, as amended, or required to be approved as a condition for certification of the state's Unemployment Compensation Law by the United States secretary of labor.

F. Notwithstanding any other provisions of this section, benefits shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for the purposes of performing the services or was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act; provided that:

(1) any information required of individuals applying for benefits to determine their eligibility for benefits under this subsection shall be uniformly required from all applicants for benefits; and

(2) an individual shall not be denied benefits because of the individual's alien status except upon a preponderance of the evidence.

G. Notwithstanding any other provision of this section, benefits shall not be paid to any individual on the basis of any services substantially all of which consist of participating in sports or athletic events or training or preparing to so participate for any week that commences during the period between two successive sport seasons, or similar periods, if the individual performed the services in the first of such seasons, or similar periods, and there is a reasonable assurance that the individual will perform the services in the latter of such seasons or similar periods.

H. As used in this subsection, "seasonal ski employee" means an employee who has not worked for a ski area operator for more than six consecutive months of the previous twelve months or nine of the previous twelve months. An employee of a ski area operator who has worked for a ski area operator for six consecutive months of the previous twelve months or nine of the previous twelve months shall not be considered a seasonal ski employee. The following benefit eligibility conditions apply to a seasonal ski employee:

(1) except as provided in Paragraphs (2) and (3) of this subsection, a seasonal ski employee employed by a ski area operator on a regular seasonal basis shall be ineligible for a week of unemployment benefits that commences during a period between two successive ski seasons unless the individual establishes to the satisfaction of the secretary that the individual is available for and is making an active search for permanent full-time work;

(2) a seasonal ski employee who has been employed by a ski area operator during two successive ski seasons shall be presumed to be unavailable for permanent new work during a period after the second successive ski season that the individual was employed as a seasonal ski employee; and

(3) the presumption described in Paragraph (2) of this subsection shall not arise as to any seasonal ski employee who has been employed by the same ski area operator during two successive ski seasons and has resided continuously for at least twelve successive months and continues to reside in the county in which the ski area facility is located.

I. Notwithstanding any other provision of this section, an otherwise eligible individual shall not be denied benefits for any week by reason of the application of Paragraph (3) of Subsection A of this section because the individual is before any court of the United States or any state pursuant to a lawfully issued summons to appear for jury duty."

Section 3. Section 51-1-7 NMSA 1978 (being Laws 1936 (S.S.), Chapter 1, Section 5, as amended) is amended to read:

"51-1-7. DISQUALIFICATION FOR BENEFITS.--

A. An individual shall be disqualified for, and shall not be eligible to receive, benefits:

(1) if it is determined by the division that the individual left employment voluntarily without good cause in connection with the employment; provided, however, that a person shall not be denied benefits under this paragraph:

(a) solely on the basis of pregnancy or the termination of pregnancy; or

(b) effective July 1, 2003, because of domestic abuse evidenced by medical documentation, legal documentation or a sworn statement from the claimant;

(2) if it is determined by the division that the individual has been discharged for misconduct connected with the individual's employment; or

(3) if it is determined by the division that the individual has failed without good cause either to apply for available, suitable work when so directed or referred by the division or to accept suitable work when offered.

B. In determining whether or not any work is suitable for an individual pursuant to Paragraph (3) of Subsection A of this section, the division shall consider the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness, prior training, approved training or full-time school attendance, experience, prior earnings, length of unemployment and prospects for securing local work in the individual's customary occupation and the distance of available work from the individual's residence. Notwithstanding any other provisions of the Unemployment Compensation Law, no work shall be deemed suitable and benefits shall not be denied under the Unemployment Compensation Law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) if the position offered is vacant due directly to a strike, lockout or other labor dispute;

(2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) if, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organizations.

C. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which the division finds that the individual's unemployment is due to a labor dispute at the factory, establishment or

other premises at which the individual is or was last employed; provided that this subsection shall not apply if it is shown to the satisfaction of the division that:

(1) the individual is not participating in or directly interested in the labor dispute; and

(2) the individual does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises at which the labor dispute occurs, any of whom are participating in or directly interested in the dispute; provided that if in any case separate branches of work that are commonly conducted in separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises.

D. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which, or a part of which, the individual has received or is seeking, through any agency other than the division, unemployment benefits under an unemployment compensation law of another state or of the United States; provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

E. A disqualification pursuant to Paragraph (1) or (2) of Subsection A of this section shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit otherwise payable. A disqualification pursuant to Paragraph (3) of Subsection A of this section shall include the week the failure occurred and shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit amount otherwise payable; provided that no more than one such disqualification shall be imposed upon an individual for failure to apply for or accept the same position, or a similar position, with the same employer, except upon a determination by the division of disqualification pursuant to Subsection C of this section.

F. As used in this section:

(1) "domestic abuse" means that term as defined in Section 40-13-2 NMSA 1978; and

(2) "employment" means employment by the individual's last employer as defined by rules of the secretary."

Section 4. Section 51-1-11 NMSA 1978 (being Laws 1961, Chapter 139, Section 3, as amended by Laws 2000, Chapter 3, Section 3 and by Laws 2000, Chapter 7, Section 3) is amended to read:

"51-1-11. FUTURE RATES BASED ON BENEFIT EXPERIENCE.--

A. The division shall maintain a separate account for each contributing employer and shall credit the contributing employer's account with all contributions paid by that employer under the Unemployment Compensation Law. Nothing in the Unemployment Compensation Law shall be construed to grant an employer or individuals in the employer's service prior claims or rights to the amounts paid by the employer into the fund.

B. Benefits paid to an individual shall be charged against the accounts of the individual's base-period employers on a pro rata basis according to the proportion of the individual's total base-period wages received from each employer, except that no benefits paid to a claimant as extended benefits under the provisions of Section 51-1-48 NMSA 1978 shall be charged to the account of any base-period employer who is not on a reimbursable basis and who is not a governmental entity and, except as the secretary shall by rule prescribe otherwise, in the case of benefits paid to an individual who:

(1) left the employ of a base-period employer who is not on a reimbursable basis voluntarily without good cause in connection with the individual's employment;

(2) was discharged from the employment of a base-period employer who is not on a reimbursable basis for misconduct connected with the individual's employment;

(3) is employed part time by a base-period employer who is not on a reimbursable basis and who continues to furnish the individual the same part-time work while the individual is separated from full-time work for a nondisqualifying reason;
or

(4) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis while attending approved training under the provisions of Subsection E of Section 51-1-5 NMSA 1978.

C. The division shall not charge a contributing or reimbursing base-period employer's account with any portion of benefit amounts that the division can bill to or recover from the federal government as either regular or extended benefits.

D. The division shall not charge a contributing base-period employer's account with any portion of benefits paid to an individual for dependent allowance or because the individual to whom benefits are paid:

(1) separated from employment due to domestic abuse; or

(2) is enrolled in approved training or is attending school on a full-time basis.

E. All contributions to the fund shall be pooled and available to pay benefits to any individual entitled thereto, irrespective of the source of such contributions. The standard rate of contributions payable by each employer shall be five and four-tenths percent.

F. An employer's rate shall not be varied from the standard rate for any calendar year unless, as of the computation date for that year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months, except that:

(1) the provisions of this subsection shall not apply to governmental entities;

(2) effective January 1, 2004, any employing unit that becomes an employer subject to the payment of contributions under the Unemployment Compensation Law or has been an employer subject to the payment of contributions at a standard rate of two percent through December 31, 2003 shall be subject to the payment of contributions at the reduced rate of two percent until, as of the computation date of a particular year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months;

(3) any individual, type of organization or employing unit that acquires all or part of the trade or business of another employing unit, pursuant to Paragraphs (2) and (3) of Subsection E of Section 51-1-42 NMSA 1978, that has a reduced rate of contribution shall be entitled to the transfer of the reduced rate to the extent permitted under Subsection H of this section; and

(4) an employer that, at the time of establishing an account, is in business in another state or states and that is not currently doing business in New Mexico may elect, pursuant to Paragraph (5) of this subsection, to receive a beginning contribution rate of two percent or a contribution rate based on the current contribution rate schedule in Paragraph (4) of Subsection I of this section, whichever is lower, if:

(a) the employer has been in operation in the other state or states for at least three years immediately preceding the date of becoming a liable employer in New Mexico, throughout which an individual in the employer's employ could have received benefits if eligible; and

(b) the employer provides the authenticated account history as defined by rule of the secretary from information accumulated from operations in the other state or all the other states to compute a current New Mexico rate;

(5) the election authorized in Paragraph (4) of this subsection shall be made in writing within thirty days after receiving notice of New Mexico liability and, if not made timely, a two percent rate will be assigned; if the election is made timely, the employer's account will receive the lesser of the computed rate determined by the condition of the account for the computation date immediately preceding the New Mexico liable date, or the reduced rate of two percent; rates for subsequent years will be determined by the condition of the account for the computation date.

G. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. An employer's rate for any calendar year shall be determined on the basis of the employer's record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to the employer's account in accordance with department rule. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer shall not be refunded in whole or in part.

H. In the case of a transfer of an employing enterprise, the experience history of the transferred enterprise as provided in Subsection G of this section shall be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable rules of the secretary:

(1) Definitions:

(a) "employing enterprise" is a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any individual or any type of organization that acquires an employing enterprise and continues to operate such business entity; and

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise.

(2) For the purpose of this section, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing

enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the rules of the secretary within four years of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) in the case of the transfer of an employing enterprise, the successor employer must notify the division of the acquisition on or before the due date of the successor employer's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, shall effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition, and the successor shall pay a penalty of fifty dollars (\$50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. A party to a merger, consolidation or other form of reorganization described in this paragraph shall not be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization.

(3) The applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of the contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records that, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or the secretary's delegate. A partial experience history transfer will be made only if:

(a) the successor notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) the successor files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) the successor files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages paid to and the contributions paid for each employee for the three and one-half year period preceding the computation date as defined in Subparagraph (d) of Paragraph (3) of Subsection I of this section through the date of transfer or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A shall be supported by the predecessor's permanent employment records, which shall be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and, upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll.

I. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided in Paragraphs (1) through (4) of this subsection.

(1) The total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection E of this section shall be fixed by the excess of the employer's total contributions over total benefit charges computed as a percentage of the employer's average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching the employer's reserve as shown in the reserve column with the corresponding rate in the rate column of the applicable rate schedule of the table provided in Paragraph (4) of this subsection.

(2) Each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be:

(a) the corresponding rate in schedule 0 of the table provided in Paragraph (4) of this subsection if the fund equals at least three and seven-tenths percent of the total payrolls;

(b) the corresponding rate in schedule 1 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and seven-tenths percent and not less than three and four-tenths percent of the total payrolls;

(c) the corresponding rate in schedule 2 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and four-tenths percent and not less than two and seven-tenths percent of the total payrolls;

(d) the corresponding rate in schedule 3 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two and seven-tenths percent and not less than two percent of the total payrolls;

(e) the corresponding rate in schedule 4 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two percent and not less than one and one-half percent of the total payrolls;

(f) the corresponding rate in schedule 5 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than one and one-half percent and not less than one percent of the total payrolls; or

(g) the corresponding rate in schedule 6 of the table provided in Paragraph (4) of this subsection if the fund has dropped less than one percent of the total payrolls.

(3) As used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during the individual's base period on the basis of which the individual's benefit rights were determined;

(c) "base-period employers" means the employers of an individual during the individual's base period; and

(d) "computation date" for each calendar year means the close of business on June 30 of the preceding calendar year.

J. The division shall promptly notify each employer of the employer's rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all of the employer's contributions paid on the employer's behalf and credited to the employer's account for all past years and total benefits charged to the employer's account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such notice, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing, in any proceeding involving the employer's rate of contributions or contribution liability, to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The division shall provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to the employer's account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the determination to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for

review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing in any proceeding involving the employer's contribution liability to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

L. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

M. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have been issued and contributions paid pursuant to the notification. Upon issuance by the division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection I of this section.

N. Any interest required to be paid on advances to this state's unemployment compensation fund under Title 12 of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title 12 of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

Section 5. Section 51-1-19 NMSA 1978 (being Laws 1936 (S.S.), Chapter 1, Section 9, as amended) is amended to read:

"51-1-19. UNEMPLOYMENT COMPENSATION FUND.--

A. There is hereby established as a special fund, separate and apart from all public money, or funds of this state, an "unemployment compensation fund", which shall be administered by the department exclusively for the purposes of this section. The fund shall consist of:

(1) all contributions collected and payments in lieu of contributions collected or due pursuant to the Unemployment Compensation Law;

(2) interest earned upon any money in the fund;

(3) any property or securities acquired through the use of money belonging to the fund;

(4) all earnings of such property or securities;

(5) all money received from the federal unemployment account in the unemployment trust fund in accordance with Title 12 of the Social Security Act, as amended;

(6) all money credited to this state's account in the unemployment trust fund pursuant to Section 903 of the Social Security Act, as amended;

(7) all money received or due from the federal government as reimbursements pursuant to Section 204 of the Federal-State Extended Unemployment Compensation Act of 1970; and

(8) all money received for the fund from any other source. All money in the fund shall be mingled and undivided.

B. The state treasurer shall be the treasurer and custodian of the fund and shall administer such fund in accordance with the directions of the department and shall issue his checks upon it in accordance with such regulations as the secretary may prescribe. He shall maintain, within the fund, three separate accounts:

(1) a clearing account;

(2) an unemployment trust fund account; and

(3) a benefit account.

C. All money payable to the fund upon receipt thereof by the department shall be forwarded to the treasurer, who shall immediately deposit it in the clearing account. Refunds payable pursuant to Sections 51-1-36 and 51-1-42 NMSA 1978 shall be paid from the clearing account or the benefit account upon checks issued by the

treasurer under the direction of the department. After clearance thereof, all money in the clearing account, except as herein otherwise provided, shall be immediately deposited with the secretary of the treasury of the United States to the credit of the account of this state in the unemployment trust fund, established and maintained pursuant to Section 904 of the act of congress known as the Social Security Act, as amended (42 U.S.C. Section 1104), any provisions of law in this state relating to the deposits, administration, release or disbursements of money in the possession or custody of this state to the contrary notwithstanding. The benefit account shall consist of all money requisitioned from this state's account in the unemployment trust fund. Except as herein otherwise provided, money in the clearing and benefit accounts may be deposited by the treasurer, under the direction of the secretary, in any bank or public depository in which general funds of the state may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. Money in the clearing and benefit accounts shall not be commingled with other state funds but shall be maintained in separate accounts on the books of the depository.

D. All of the money not deposited in the treasury of the United States shall be subject to the general laws applicable to the deposit of public money in the state; and collateral pledged for this purpose shall be kept separate and distinct from any collateral pledged to secure other funds of this state.

E. The state treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the unemployment compensation fund provided for under this section. The liability on the official bond of the state treasurer shall be effective immediately upon the enactment of this provision, and such liability shall exist in addition to the liability of any separate bond existent on the effective date of this provision or that may be given in the future. All sums recovered for losses sustained by the fund shall be deposited therein.

F. All money in the clearing account established under this section is hereby appropriated for the purpose of making refunds pursuant to Sections 51-1-36 and 51-1-42 NMSA 1978, and all money in the clearing account not needed for the purpose of making the refunds shall be immediately paid to the secretary of the treasury of the United States to the credit of the account of this state in the unemployment trust fund, and the money in the unemployment trust fund is hereby appropriated for the purposes of this section.

G. Money shall be requisitioned from this state's account in the unemployment trust fund solely for the payment of benefits and for the payment of refunds pursuant to Sections 51-1-36 and 51-1-42 NMSA 1978 in accordance with regulations prescribed by the secretary, except that money credited to this state's account pursuant to Section 903 of the Social Security Act, as amended, shall be used exclusively as provided in Subsection H of this section. The secretary shall, from time to time, requisition from the unemployment trust fund such amounts not exceeding the amounts standing to this state's account therein, as he deems necessary for the payment of such benefits and refunds for a reasonable future period. Upon receipt

thereof, the treasurer shall deposit such money in the benefit account and shall issue his checks for the payment of benefits solely from such benefit account. Expenditures of such money in the benefit account and refunds from the benefit account or the clearing account shall not be subject to any provisions of law requiring specific appropriations or other formal release by state officers of money in their custody. All money shall be withdrawn from the fund only upon a warrant issued by the department or its duly authorized agent upon the treasurer, and the treasurer upon receipt of such warrants shall issue his check against the fund in accordance with the warrant of the secretary. Any balance of money requisitioned from the unemployment trust fund that remains unclaimed or unpaid in the benefit account after the expiration of the period for which such sums were requisitioned shall either be deducted from estimates for, and may be utilized for, the payment of benefits and refunds during succeeding periods, or in the discretion of the secretary, shall be redeposited with the secretary of the treasury of the United States, to the credit of this state's account in the unemployment trust fund, as provided in Subsection C of this section. All money in the benefit account provided for hereinabove is hereby appropriated for the payment of benefits and refunds as provided herein.

H. Money credited to the account of this state in the unemployment trust fund by the secretary of the treasury of the United States pursuant to Section 903 of the Social Security Act may be requisitioned from this state's account or used only for:

(1) the payment of benefits pursuant to Subsection G of this section; and

(2) the payment of expenses incurred for the administration of the Unemployment Compensation Law and the federal Wagner-Peyser Act; provided that any money requisitioned and used for the payment of expenses incurred for the administration of the Unemployment Compensation Law and the federal Wagner-Peyser Act must be authorized by the enactment of a specific appropriation by the legislature that:

(a) specifies the purpose for which such money is appropriated and the amounts appropriated therefor;

(b) limits the period within which such money may be obligated to a period ending not more than two years after the date of the enactment of the appropriation law, except for amounts distributed to the state of New Mexico on March 13, 2002 pursuant to Section 209 of the federal Temporary Extended Unemployment Compensation Act of 2002;

(c) limits the amount that may be obligated to an amount which does not exceed the amount by which 1) the aggregate of the amounts credited to the account of this state pursuant to Section 903 of the Social Security Act exceeds 2) the aggregate of the amounts used by the state pursuant to this subsection and charged against the amounts transferred to the account of this state; and

(d) notwithstanding the provisions of Paragraph (1) of this subsection, money credited with respect to federal fiscal years 1999, 2000 and 2001 shall be used only for the administration of the Unemployment Compensation Law.

I. Amounts credited to this state's account in the unemployment trust fund under Section 903 of the Social Security Act that are obligated for administration shall be charged against transferred amounts at the exact time the obligation is entered into. The appropriation, obligation and expenditure or other disposition of money appropriated under Subsection H of this section shall be accounted for in accordance with standards established by the United States secretary of labor.

J. Money appropriated under Subsection H of this section for payment of expenses of administration shall be requisitioned as needed for payment of the obligations incurred under such appropriations and, upon requisition, shall be deposited in the unemployment compensation administration fund but, until expended, shall remain a part of the unemployment compensation fund for use only in accordance with the conditions specified in Subsection H of this section, notwithstanding any provision of Section 51-1-34 NMSA 1978. Any money so deposited that will not be expended shall be returned promptly to the account of the state in the unemployment trust fund.

K. The provisions of Subsections A through J of this section to the extent that they relate to the unemployment trust fund, shall be operative only so long as such unemployment trust fund continues to exist and so long as the secretary of the treasury of the United States continues to maintain for this state a separate book account of all funds deposited therein by the state for benefit purposes, together with this state's proportionate share of the earnings of such unemployment trust fund from which no other state is permitted to make withdrawals. If and when such unemployment trust fund ceases to exist, or such separate book account is no longer maintained, all money, properties or securities therein belonging to the unemployment compensation fund of this state shall be transferred to the treasurer of the unemployment compensation fund, who shall hold, invest, transfer, sell, deposit and release such money, properties or securities in a manner approved by the secretary, in accordance with the provisions of this section; provided that such money shall be invested in the following readily marketable classes of securities; bonds or other interest-bearing obligations of the United States and of the state; and provided further that such investment shall at all times be so made that all the assets of the fund shall always be readily convertible into cash when needed for the payment of benefits. The treasurer shall dispose of securities or other properties belonging to the unemployment compensation fund only under the direction of the secretary."

"51-1-48. DEFINITIONS--EXTENDED BENEFITS.--

A. As used in this section, unless the context clearly requires otherwise, "extended benefit period" means a period that:

(1) begins with the third week after a week for which there is a state "on" indicator;

(2) ends with either of the following weeks, whichever occurs later:

(a) the third week after the first week for which there is a state "off" indicator; or

(b) the thirteenth consecutive week of such period; and

(3) does not begin by reason of a state "on" indicator before the fourteenth week following the end of a prior extended benefit period that was in effect with respect to this state.

B. There is a "state 'on' indicator" for this state for a week if the rate of insured unemployment not seasonally adjusted under this section for the period consisting of that week and the immediately preceding twelve weeks:

(1) equaled or exceeded one hundred twenty percent of the average of the rates for the corresponding thirteen-week period ending in each of the preceding two calendar years; and

(2) equaled or exceeded five percent; or

(3) equaled or exceeded six percent, regardless of the rate of insured unemployment in the two previous years; or

(4) with respect to benefits for weeks of unemployment beginning after July 1, 2003:

(a) the average rate of total unemployment, seasonally adjusted, as determined by the United States secretary of labor, for the period consisting of the most recent three months for which data for all states are published before the close of such week equals or exceeds six and one-half percent; and

(b) the average rate of total unemployment in this state, seasonally adjusted, as determined by the United States secretary of labor, for the three-month period referred to in Subparagraph (a) of this paragraph, equals or exceeds one hundred ten percent of such average for either or both of the corresponding three-month periods ending in the two preceding calendar years.

C. There is a "state 'off' indicator" for this state for a week only if, for the period consisting of that week and the immediately preceding twelve weeks, none of the options specified in Subsection B of this section result in a "state 'on' indicator".

D. Except as provided in Subsection E of this section, the total extended benefit amount payable to an eligible individual with respect to the applicable benefit year shall be the least of the following amounts:

(1) fifty percent of the total amount of regular benefits that were payable to the individual pursuant to this section in the individual's applicable benefit year;

(2) thirteen times the individual's average weekly benefit amount that was payable to the individual pursuant to this section for a week of total unemployment in the applicable benefit year; or

(3) thirty-nine times the individual's average weekly benefit amount that was payable to the individual pursuant to this section for a week of total unemployment in the applicable benefit year, reduced by the total amount of regular benefits that were paid, or deemed paid, to the individual pursuant to this section with respect to the benefit year; provided that the amount determined pursuant to this paragraph shall be reduced by the total amount of additional benefits paid, or deemed paid, to the individual under the provisions of this section for weeks of unemployment in the individual's benefit year that began prior to the effective date of the extended benefit period that is current in the week for which the individual first claims extended benefits; and provided further, if the benefit year of the individual ends within an extended benefit period, the remaining balance of the extended benefits that the individual would, but for this paragraph, be entitled to receive in that extended benefit period, with respect to weeks of unemployment beginning after the end of the benefit year, shall be reduced,

but not below zero, by the product of the number of weeks for which the individual received any amounts as readjustment allowances within that benefit year multiplied by the individual weekly benefit amount for extended benefits.

E. Effective with respect to weeks beginning in a high-unemployment period, the total extended benefit amount payable to an eligible individual with respect to the applicable benefit year shall be the least of the following amounts:

(1) eighty percent of the total amount of regular benefits that were payable to the individual pursuant to this section in the individual's applicable benefit year;

(2) twenty times the individual's average weekly benefit amount that was payable to the individual pursuant to this section for a week of total unemployment in the applicable benefit year; or

(3) forty-six times the individual's average weekly benefit amount that was payable to the individual pursuant to this section for a week of total unemployment in the applicable benefit year reduced by the total amount of regular benefits that were paid, or deemed paid, to the individual pursuant to this section with respect to the benefit year; provided that the amount determined pursuant to this paragraph shall be reduced by the total amount of additional benefits paid, or deemed paid, to the individual under the provisions of this section for weeks of unemployment in the individual's benefit year that began prior to the effective date of the extended benefit period that is current in the week for which the individual first claims extended benefits; and provided further, if the benefit year of an individual ends within an extended benefit period, the remaining balance of the extended benefits that the individual would, but for this paragraph, be entitled to receive in that extended benefit period, with respect to weeks of unemployment beginning after the end of the benefit year, shall be reduced, but not below zero, by the product of the number of weeks for which the individual received any amounts as readjustment allowances within that benefit year multiplied by the individual weekly benefit amount for extended benefits.

F. For purposes of Subsection E of this section, "high-unemployment period" means a period during which an extended benefit period would be in effect if Paragraph (4) of Subsection B of this section were applied by substituting "eight percent" for "six and one-half percent".

G. A benefit paid to an individual pursuant to this section shall be charged pursuant to Subsection B of Section 51-1-11 NMSA 1978.

H. As used in this section:

(1) "rate of insured unemployment" means the percentage derived by dividing:

(a) the average weekly number of individuals filing claims for regular benefits in this state for weeks of unemployment with respect to the most recent thirteen-consecutive-week period, as determined by the secretary on the basis of his reports to the United States secretary of labor; by

(b) the average monthly employment covered under the Unemployment Compensation Law for the first four of the most recent six completed calendar quarters ending before the end of such thirteen-week period;

(2) "regular benefits" means benefits payable to an individual under the Unemployment Compensation Law or under any other state law, including benefits payable to federal civilian employees and to ex-servicemen pursuant to 5 U.S.C., Chapter 85, other than extended benefits;

(3) "extended benefits" means benefits, including benefits payable to federal civilian employees and to ex-servicemen pursuant to 5 U.S.C., Chapter 85, payable to an individual under the provisions of this section for weeks of unemployment in the individual's eligibility period;

(4) "eligibility period" of an individual means the period consisting of the weeks in the individual's benefit year that begin in an extended benefit period and, if the individual's benefit year ends within such extended benefit period, any weeks thereafter that begin in such period;

(5) "exhaustee" means an individual who, with respect to any week of unemployment in the individual's eligibility period:

(a) has received, prior to such week, all of the regular benefits that were available to the individual under the Unemployment Compensation Law or any other state law, including dependent's allowance and benefits payable to federal civilian employees and ex-servicemen under 5 U.S.C., Chapter 85, in the individual's current benefit year that includes such week; provided that, for the purposes of this subparagraph, an individual shall be deemed to have received all of the regular benefits that were available to the individual, although, as a result of a pending appeal with respect to wages that were not considered in the original monetary determination in the individual's benefit year, the individual may subsequently be determined to be entitled to added regular benefits; or

(b) if the individual's benefit year has expired prior to such week, has no, or insufficient, wages on the basis of which the individual could establish a new benefit year that would include such week; and

(c) has no right to unemployment benefits or allowances, as the case may be, under the Railroad Unemployment Insurance Act, the Trade Expansion Act of 1962, the Trade Act of 1974, the Automotive Products Trade Act of 1965 and such other federal laws as are specified in regulations issued by the United

States secretary of labor; and has not received and is not seeking unemployment benefits under the unemployment compensation law of Canada, but if the individual is seeking such benefits and the appropriate agency finally determines that the individual is not entitled to benefits under such law, the individual is considered an exhaustee; and

(6) "state law" means the unemployment insurance law of any state, approved by the United States secretary of labor under Section 3304 of the Internal Revenue Code of 1986."

Section 8. Section 51-1-4 NMSA 1978 (being Laws 1969, Chapter 213, Section 1, as amended, and as further amended by Section 1 of this act) is repealed and a new Section 51-1-4 NMSA 1978 is enacted to read:

**"51-1-4. MONETARY COMPUTATION OF BENEFITS--PAYMENT
GENERALLY.--**

A. All benefits provided herein are payable from the unemployment compensation fund. All benefits shall be paid in accordance with rules prescribed by the secretary through employment offices or other agencies as the secretary approves by general rule.

B. Weekly benefits shall be as follows:

(1) an individual's "weekly benefit amount" is an amount equal to one twenty-sixth of the total wages for insured work paid to the individual in that quarter of the individual's base period in which total wages were highest. No benefit as so computed may be less than ten percent or more than fifty-two and one-half percent of the state's average weekly wage for all insured work. The state's average weekly wage shall be computed from all wages reported to the department from employing units in accordance with rules of the secretary for the period ending June 30 of each calendar year divided by the total number of covered employees divided by fifty-two, effective for the benefit years commencing on or after the first Sunday of the following calendar year. An individual is not eligible to receive benefits unless the individual has wages in at least two quarters of that individual's base period. For the purposes of this subsection, "total wages" means all remuneration for insured work, including commissions and bonuses and the cash value of all remuneration in a medium other than cash;

(2) an eligible individual who is unemployed in any week during which the individual is in a continued claims status shall be paid, with respect to the week, a benefit in an amount equal to the individual's weekly benefit amount, less that part of the wages, if any, or earnings from self-employment, payable to the individual with respect to such week that is in excess of one-fifth of the individual's weekly benefit amount. For purposes of this subsection only, "wages" includes all remuneration for services actually performed in a week for which benefits are claimed, vacation pay for a period for which the individual has a definite return-to-work date, wages in lieu of notice

and back pay for loss of employment but does not include payments through a court for time spent in jury service;

(3) notwithstanding any other provision of this section, an eligible individual who, pursuant to a plan financed in whole or in part by a base-period employer of the individual, is receiving a governmental or other pension, retirement pay, annuity or any other similar periodic payment that is based on the previous work of the individual and who is unemployed with respect to any week ending subsequent to April 9, 1981 shall be paid with respect to the week, in accordance with rules prescribed by the secretary, compensation equal to the individual's weekly benefit amount reduced, but not below zero, by the prorated amount of the pension, retirement pay, annuity or other similar periodic payment that exceeds the percentage contributed to the plan by the eligible individual. The maximum benefit amount payable to the eligible individual shall be an amount not more than twenty-six times his reduced weekly benefit amount. If payments referred to in this section are being received by an individual under the federal Social Security Act, the division shall take into account the individual's contribution and make no reduction in the weekly benefit amount;

(4) in the case of a lump-sum payment of a pension, retirement or retired pay, annuity or other similar payment by a base-period employer that is based on the previous work of the individual, the payment shall be allocated, in accordance with rules prescribed by the secretary, and shall reduce the amount of unemployment compensation paid, but not below zero, in accordance with Paragraph (3) of this subsection; and

(5) the retroactive payment of a pension, retirement or retired pay, annuity or any other similar periodic payment as provided in Paragraphs (3) and (4) of this subsection attributable to weeks during which an individual has claimed or has been paid unemployment compensation shall be allocated to those weeks and shall reduce the amount of unemployment compensation for those weeks, but not below zero, by an amount equal to the prorated amount of the pension. Any overpayment of unemployment compensation benefits resulting from the application of the provisions of this paragraph shall be recovered from the claimant in accordance with the provisions of Section 51-1-38 NMSA 1978.

C. An otherwise eligible individual is entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of twenty-six times the individual's weekly benefit amount or sixty percent of the individual's wages for insured work paid during the individual's base period.

D. A benefit as determined in Subsection B or C of this section, if not a multiple of one dollar (\$1.00), shall be rounded to the next lower multiple of one dollar (\$1.00).

E. The secretary may prescribe rules to provide for the payment of benefits that are due and payable to the legal representative, dependents, relatives or

next of kin of claimants since deceased. These rules need not conform with the laws governing successions, and the payment shall be deemed a valid payment to the same extent as if made under a formal administration of the succession of the claimant.

F. The division, on its own initiative, may reconsider a monetary determination whenever it is determined that an error in computation or identity has occurred or that wages of the claimant pertinent to such determination but not considered have been newly discovered or that the benefits have been allowed or denied on the basis of misrepresentation of fact, but no redetermination shall be made after one year from the date of the original monetary determination. Notice of a redetermination shall be given to all interested parties and shall be subject to an appeal in the same manner as the original determination. In the event that an appeal involving an original monetary determination is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from redetermination."

Section 9. Section 51-1-5 NMSA 1978 (being Laws 1969, Chapter 213, Section 2, as amended, and as further amended by Section 2 of this act) is repealed and a new Section 51-1-5 NMSA 1978 is enacted to read:

"51-1-5. BENEFIT ELIGIBILITY CONDITIONS.--

A. An unemployed individual shall be eligible to receive benefits with respect to any week only if the individual:

(1) has made a claim for benefits with respect to such week in accordance with such rules as the secretary may prescribe;

(2) has registered for work at, and thereafter continued to report at, an employment office in accordance with such rules as the secretary may prescribe, except that the secretary may, by rule, waive or alter either or both of the requirements of this paragraph as to individuals attached to regular jobs and as to such other types of cases or situations with respect to which the secretary finds that compliance with such requirements would be oppressive or would be inconsistent with the purposes of the Unemployment Compensation Law. No such rule shall conflict with Subsection A of Section 51-1-4 NMSA 1978;

(3) is able to work and is available for work and is actively seeking permanent and substantially full-time work in accordance with the terms, conditions and hours common in the occupation or business in which the individual is seeking work, except that the secretary may, by rule, waive this requirement for individuals who are on temporary layoff status from their regular employment with an assurance from their employers that the layoff shall not exceed four weeks or who have an express offer in writing of substantially full-time work that will begin within a period not exceeding four weeks;

(4) has been unemployed for a waiting period of one week. A week shall not be counted as a week of unemployment for the purposes of this paragraph:

(a) unless it occurs within the benefit year that includes the week with respect to which the individual claims payment of benefits;

(b) if benefits have been paid with respect thereto; and

(c) unless the individual was eligible for benefits with respect thereto as provided in this section and Section 51-1-7 NMSA 1978, except for the requirements of this subsection and of Subsection D of Section 51-1-7 NMSA 1978;

(5) has been paid wages in at least two quarters of the individual's base period;

(6) has reported to an office of the division in accordance with the rules of the secretary for the purpose of an examination and review of the individual's availability for and search for work, for employment counseling, referral and placement and for participation in a job finding or employability training and development program. An individual shall not be denied benefits under this section for any week that the individual is participating in a job finding or employability training and development program; and

(7) participates in reemployment services, such as job search assistance services, if the division determines that the individual is likely to exhaust regular benefits and need reemployment services pursuant to a profiling system established by the division, unless the division determines that:

(a) the individual has completed such services; or

(b) there is justifiable cause for the individual's failure to participate in the services.

B. A benefit year as provided in Section 51-1-4 NMSA 1978 and Subsection P of Section 51-1-42 NMSA 1978 may be established; provided an individual may not receive benefits in a benefit year unless, subsequent to the beginning of the immediately preceding benefit year during which the individual received benefits, the individual performed service in "employment", as defined in Subsection F of Section 51-1-42 NMSA 1978, and earned remuneration for such service in an amount equal to at least five times the individual's weekly benefit amount.

C. Benefits based on service in employment defined in Paragraph (8) of Subsection F of Section 51-1-42 and Section 51-1-43 NMSA 1978 are to be paid in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other services subject to the Unemployment Compensation Law; except that:

(1) benefits based on services performed in an instructional, research or principal administrative capacity for an educational institution shall not be paid for any week of unemployment commencing during the period between two successive academic years or terms or, when an agreement provides for a similar period between two regular but not successive terms, during such period or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if the individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that the individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) benefits based on services performed for an educational institution other than in an instructional, research or principal administrative capacity shall not be paid for any week of unemployment commencing during a period between two successive academic years or terms if the services are performed in the first of such academic years or terms and there is a reasonable assurance that the individual will perform services for any educational institution in the second of such academic years or terms. If compensation is denied to an individual under this paragraph and the individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a claim and certified for benefits in accordance with the rules of the division and for which benefits were denied solely by reason of this paragraph;

(3) benefits shall be denied to any individual for any week that commences during an established and customary vacation period or holiday recess if the individual performs any services described in Paragraphs (1) and (2) of this subsection in the period immediately before such period of vacation or holiday recess and there is a reasonable assurance that the individual will perform any such services in the period immediately following such vacation period or holiday recess;

(4) benefits shall not be payable on the basis of services specified in Paragraphs (1) and (2) of this subsection during the periods specified in Paragraphs (1), (2) and (3) of this subsection to any individual who performed such services in or to or on behalf of an educational institution while in the employ of a state or local governmental educational service agency or other governmental entity or nonprofit organization; and

(5) for the purpose of this subsection, to the extent permitted by federal law, "reasonable assurance" means a reasonable expectation of employment in a similar capacity in the second of such academic years or terms based upon a consideration of all relevant factors, including the historical pattern of reemployment in such capacity, a reasonable anticipation that such employment will be available and a reasonable notice or understanding that the individual will be eligible for and offered employment in a similar capacity.

D. Paragraphs (1), (2), (3), (4) and (5) of Subsection C of this section shall apply to services performed for all educational institutions, public or private, for profit or nonprofit, which are operated in this state or subject to an agreement for coverage under the Unemployment Compensation Law of this state, unless otherwise exempt by law.

E. Notwithstanding any other provisions of this section or Section 51-1-7 NMSA 1978, no otherwise eligible individual is to be denied benefits for any week because the individual is in training with the approval of the division nor is the individual to be denied benefits by reason of application of provisions in Paragraph (3) of Subsection A of this section or Subsection C of Section 51-1-7 NMSA 1978 with respect to any week in which the individual is in training with the approval of the division. The secretary shall provide, by rule, standards for approved training and the conditions for approving training for claimants, including any training approved or authorized for approval pursuant to Section 236(a)(1) and (2) of the Trade Act of 1974, as amended, or required to be approved as a condition for certification of the state's Unemployment Compensation Law by the United States secretary of labor.

F. Notwithstanding any other provisions of this section, benefits shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for the purposes of performing the services or was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act; provided that:

(1) any information required of individuals applying for benefits to determine their eligibility for benefits under this subsection shall be uniformly required from all applicants for benefits; and

(2) an individual shall not be denied benefits because of the individual's alien status except upon a preponderance of the evidence.

G. Notwithstanding any other provision of this section, benefits shall not be paid to any individual on the basis of any services substantially all of which consist of participating in sports or athletic events or training or preparing to so participate for any week that commences during the period between two successive sport seasons, or similar periods, if the individual performed the services in the first of such seasons, or similar periods, and there is a reasonable assurance that the individual will perform the services in the latter of such seasons or similar periods.

H. Students who are enrolled in a full-time course schedule in an educational or training institution or program, other than those persons in an approved vocational training program in accordance with Subsection E of this section, shall not be

eligible for unemployment benefits except as provided by regulations promulgated by the secretary.

I. As used in this subsection, "seasonal ski employee" means an employee who has not worked for a ski area operator for more than six consecutive months of the previous twelve months or nine of the previous twelve months. An employee of a ski area operator who has worked for a ski area operator for six consecutive months of the previous twelve months or nine of the previous twelve months shall not be considered a seasonal ski employee. The following benefit eligibility conditions apply to a seasonal ski employee:

(1) except as provided in Paragraphs (2) and (3) of this subsection, a seasonal ski employee employed by a ski area operator on a regular seasonal basis shall be ineligible for a week of unemployment benefits that commences during a period between two successive ski seasons unless the individual establishes to the satisfaction of the secretary that the individual is available for and is making an active search for permanent full-time work;

(2) a seasonal ski employee who has been employed by a ski area operator during two successive ski seasons shall be presumed to be unavailable for permanent new work during a period after the second successive ski season that the individual was employed as a seasonal ski employee; and

(3) the presumption described in Paragraph (2) of this subsection shall not arise as to any seasonal ski employee who has been employed by the same ski area operator during two successive ski seasons and has resided continuously for at least twelve successive months and continues to reside in the county in which the ski area facility is located.

J. Notwithstanding any other provision of this section, an otherwise eligible individual shall not be denied benefits for any week by reason of the application of Paragraph (3) of Subsection A of this section because the individual is before any court of the United States or any state pursuant to a lawfully issued summons to appear for jury duty."

Section 10. Section 51-1-7 NMSA 1978 (being Laws 1936 (S.S.), Chapter 1, Section 5, as amended, and as further amended by Section 3 of this act) is repealed and a new Section 51-1-7 NMSA 1978 is enacted to read:

"51-1-7. DISQUALIFICATION FOR BENEFITS.--

A. An individual shall be disqualified for, and shall not be eligible to receive, benefits:

(1) if it is determined by the division that the individual left employment voluntarily without good cause in connection with the employment; provided, however, that a person shall not be denied benefits under this paragraph solely on the basis of pregnancy or the termination of pregnancy;

(2) if it is determined by the division that the individual has been discharged for misconduct connected with the individual's employment; or

(3) if it is determined by the division that the individual has failed without good cause either to apply for available, suitable work when so directed or referred by the division or to accept suitable work when offered.

B. In determining whether or not any work is suitable for an individual pursuant to Paragraph (3) of Subsection A of this section, the division shall consider the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness, prior training, experience, prior earnings, length of unemployment and prospects for securing local work in the individual's customary occupation and the distance of available work from the individual's residence. Notwithstanding any other provisions of the Unemployment Compensation Law, no work shall be deemed suitable and benefits shall not be denied under the Unemployment Compensation Law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) if the position offered is vacant due directly to a strike, lockout or other labor dispute;

(2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) if, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organizations.

C. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which the division finds that the individual's unemployment is due to a labor dispute at the factory, establishment or other premises at which the individual is or was last employed; provided that this subsection shall not apply if it is shown to the satisfaction of the division that:

(1) the individual is not participating in or directly interested in the labor dispute; and

(2) the individual does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises at which the labor dispute occurs, any of whom are

participating in or directly interested in the dispute; provided that if in any case separate branches of work that are commonly conducted in separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises.

D. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which, or a part of which, the individual has received or is seeking, through any agency other than the division, unemployment benefits under an unemployment compensation law of another state or of the United States; provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

E. A disqualification pursuant to Paragraph (1) or (2) of Subsection A of this section shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit otherwise payable. A disqualification pursuant to Paragraph (3) of Subsection A of this section shall include the week the failure occurred and shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit amount otherwise payable; provided that no more than one such disqualification shall be imposed upon an individual for failure to apply for or accept the same position, or a similar position, with the same employer, except upon a determination by the division of disqualification pursuant to Subsection C of this section.

F. As used in this section, "employment" means employment by the individual's last employer as defined by rules of the secretary."

Section 11. Section 51-1-11 NMSA 1978 (being Laws 1961, Chapter 139, Section 3, as amended, and as further amended by Section 4 of this act) is repealed and a new Section 51-1-11 NMSA 1978 is enacted to read:

"51-1-11. FUTURE RATES BASED ON BENEFIT EXPERIENCE.--

A. The division shall maintain a separate account for each contributing employer and shall credit the contributing employer's account with all contributions paid by that employer under the Unemployment Compensation Law. Nothing in the Unemployment Compensation Law shall be construed to grant an employer or individuals in the employer's service prior claims or rights to the amounts paid by the employer into the fund.

B. Benefits paid to an individual shall be charged against the accounts of the individual's base-period employers on a pro rata basis according to the proportion of the individual's total base-period wages received from each employer, except that no benefits paid to a claimant as extended benefits under the provisions of Section 51-1-48 NMSA 1978 shall be charged to the account of any base-period employer who is not on a reimbursable basis and who is not a governmental entity and, except as the secretary shall by rule prescribe otherwise, in the case of benefits paid to an individual who:

(1) left the employ of a base-period employer who is not on a reimbursable basis voluntarily without good cause in connection with the individual's employment;

(2) was discharged from the employment of a base-period employer who is not on a reimbursable basis for misconduct connected with the individual's employment;

(3) is employed part time by a base-period employer who is not on a reimbursable basis and who continues to furnish the individual the same part-time work while the individual is separated from full-time work for a nondisqualifying reason; or

(4) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis while attending approved training under the provisions of Subsection E of Section 51-1-5 NMSA 1978.

C. The division shall not charge a contributing or reimbursing base-period employer's account with any portion of benefit amounts that the division can bill to or recover from the federal government as either regular or extended benefits.

D. All contributions to the fund shall be pooled and available to pay benefits to any individual entitled thereto, irrespective of the source of such contributions. The standard rate of contributions payable by each employer shall be five and four-tenths percent.

E. An employer's rate shall not be varied from the standard rate for any calendar year unless, as of the computation date for that year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months, except that:

(1) the provisions of this subsection shall not apply to governmental entities;

(2) subsequent to December 31, 1984, any employing unit that becomes an employer subject to the payment of contributions under the Unemployment Compensation Law or has been an employer subject to the payment of contributions at a standard rate of two and seven-tenths percent through December 31, 1984 shall be

subject to the payment of contributions at the reduced rate of two and seven-tenths percent until, as of the computation date of a particular year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months; and

(3) any individual, type of organization or employing unit that acquires all or part of the trade or business of another employing unit, pursuant to Paragraphs (2) and (3) of Subsection E of Section 51-1-42 NMSA 1978, that has a reduced rate of contribution shall be entitled to the transfer of the reduced rate to the extent permitted under Subsection G of this section.

F. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. An employer's rate for any calendar year shall be determined on the basis of the employer's record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to the employer's account in accordance with department rule. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer shall not be refunded in whole or in part.

G. In the case of a transfer of an employing enterprise, the experience history of the transferred enterprise as provided in Subsection F of this section shall be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable rules of the secretary:

(1) Definitions:

(a) "employing enterprise" is a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any individual or any type of organization that acquires an employing enterprise and continues to operate such business entity; and

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise.

(2) For the purpose of this section, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the rules of the secretary within four years of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) in the case of the transfer of an employing enterprise, the successor employer must notify the division of the acquisition on or before the due date of the successor employer's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, shall effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition, and the successor shall pay a penalty of fifty dollars (\$50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. A party to a merger, consolidation or other form of reorganization described in this paragraph shall not be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization.

(3) The applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of the contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records that, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or the secretary's delegate. A partial experience history transfer will be made only if:

(a) the successor notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) the successor files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) the successor files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages paid to and the contributions paid for each employee for the three and one-half year period preceding the computation date as defined in Subparagraph (d) of Paragraph (3) of Subsection H of this section through the date of transfer or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A shall be supported by the predecessor's permanent employment records, which shall be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and, upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll.

H. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided in Paragraphs (1) through (4) of this subsection.

(1) The total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection E of this section shall be fixed by the excess of the employer's total contributions over total benefit charges computed as a percentage of the employer's average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching the employer's reserve as shown in the reserve column with the corresponding rate in the rate column of the applicable rate schedule of the table provided in Paragraph (4) of this subsection.

(2) Each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be:

(a) the corresponding rate in schedule 1 of the table provided in Paragraph (4) of this subsection if the fund equals at least three and four-tenths percent of the total payrolls;

(b) the corresponding rate in schedule 2 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and four-tenths percent and not less than two and seven-tenths percent of the total payrolls;

(c) the corresponding rate in schedule 3 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two and seven-tenths percent and not less than two percent of the total payrolls;

(d) the corresponding rate in schedule 4 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two percent and not less than one and one-half percent of the total payrolls;

(e) the corresponding rate in schedule 5 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than one and one-half percent and not less than one percent of the total payrolls; or

(f) the corresponding rate in schedule 6 of the table provided in Paragraph (4) of this subsection if the fund has dropped less than one percent of the total payrolls.

(3) As used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during the individual's base period on the basis of which the individual's benefit rights were determined;

(c) "base-period employers" means the employers of an individual during the individual's base period; and

(d) "computation date" for each calendar year means the close of business on June 30 of the preceding calendar year.

I. The division shall promptly notify each employer of the employer's rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all of the employer's contributions paid on the employer's behalf and credited to the employer's account for all past years and total benefits charged to the employer's account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such notice, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing, in any proceeding involving the employer's rate of contributions or contribution liability, to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

J. The division shall provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to the employer's account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the

determination to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing in any proceeding involving the employer's contribution liability to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

L. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have been issued and contributions paid pursuant to the notification. Upon issuance by the division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection I of this section.

M. Any interest required to be paid on advances to this state's unemployment compensation fund under Title 12 of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title 12 of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

Section 12. Section 51-1-42 NMSA 1978 (being Laws 1936 (S.S.), Chapter 1, Section 19, as amended, and as further amended by Section 5 of this act) is repealed and a new Section 51-1-42 NMSA 1978 is enacted to read:

AN ACT

RELATING TO JUVENILE JUSTICE; ENACTING THE INTERSTATE COMPACT FOR JUVENILES; REPEALING SECTIONS OF THE NMSA 1978.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

The Interstate Compact for Juveniles is enacted into law and entered into on behalf of New Mexico with any and all other states legally joining therein in a form substantially as follows:

THE INTERSTATE COMPACT FOR JUVENILES

ARTICLE I - Purpose

A. The compacting states to this interstate compact recognize that each state is responsible for the proper supervision or return of juveniles, delinquents and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in doing so have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that congress, by enacting the Crime Control Act, 4 U.S.C. Section 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

B. It is the purpose of this compact, through means of joint and cooperative action among the compacting states, to:

(1) ensure that the adjudicated juveniles and status offenders subject to this compact are provided adequate supervision and services in the receiving state as ordered by the adjudicating judge or parole authority in the sending state;

(2) ensure that the public safety interests of the citizens, including the victims of juvenile offenders, in both the sending and receiving states are adequately protected;

(3) return juveniles who have run away, absconded or escaped from supervision or control or have been accused of an offense to the state requesting their return;

(4) make contracts for the cooperative institutionalization in public facilities in member states for delinquent youth needing special services;

(5) provide for the effective tracking and supervision of juveniles;

(6) equitably allocate the costs, benefits and obligations of the compacting states;

(7) establish procedures to manage the movement between states of juvenile offenders released to the community under the jurisdiction of courts, juvenile departments or any other criminal or juvenile justice agency that has jurisdiction over juvenile offenders;

(8) ensure immediate notice to jurisdictions where defined offenders are authorized to travel or to relocate across state lines;

(9) establish procedures to resolve pending charges against juvenile offenders prior to transfer or release to the community under the terms of this compact;

(10) establish a system of uniform data collection on information pertaining to juveniles subject to this compact that allows access by authorized juvenile justice and criminal justice officials, and regular reporting of compact activities to heads of state executive, judicial and legislative branches and juvenile and criminal justice administrators;

(11) monitor compliance with rules governing interstate movement of juveniles and initiate interventions to address and correct noncompliance;

(12) coordinate training and education regarding the regulation of interstate movement of juveniles for officials involved in that activity; and

(13) coordinate the implementation and operation of the compact with the Interstate Compact on the Placement of Children, the Interstate Compact for Adult Offender Supervision and other compacts affecting juveniles, particularly in those cases where concurrent or overlapping supervision issues arise.

C. It is the policy of the compacting states that the activities conducted by the interstate commission created herein are the formation of public policies and therefore are public business. Furthermore, the compacting states shall cooperate and observe their individual and collective duties and responsibilities for the prompt return and acceptance of juveniles subject to the provisions of this compact.

D. The provisions of this compact shall be reasonably and liberally construed to accomplish the purposes and policies of the compact.

J. For every meeting closed pursuant to the provisions of Subsection I of this article, the interstate commission's legal counsel shall publicly certify that, in the legal counsel's opinion, the meeting may be closed to the public and shall reference each relevant provision set forth in Subsection I of this article. The interstate commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of each of the views expressed on an item and the record of a roll call vote. All documents considered in connection with an action shall be identified in the minutes.

K. C. The interstate commission, through its executive committee, shall appoint or retain an executive director, upon terms and conditions and for compensation as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission, shall not be a member and shall hire and supervise other staff as may be authorized by the interstate commission.

D. The commission's executive director and employees shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to any actual or alleged act, error or omission that occurred within the scope of interstate commission employment, or that the person had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities; provided that the person shall not be protected from suit or liability for any damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of the person.

E. The liability of any commissioner, or the employee or agent of a commissioner, acting within the scope of the person's employment or duties for acts, errors or omissions occurring within the person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees and agents. Nothing in this subsection shall be construed to protect the person from suit or liability for any damage, loss, injury or liability caused by the intentional or willful and wanton misconduct of the person.

F. The interstate commission shall defend the executive director or the employees or representatives of the interstate commission and, subject to the approval of the attorney general of the state represented by a commissioner of a compacting state, shall defend the commissioner or the commissioner's representatives or employees in a civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities; provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of the person.

G. ARTICLE VI - Rulemaking Functions of the Interstate Commission

A. The interstate commission shall promulgate and publish rules in order to effectively and efficiently achieve the purposes of the compact.

B. Rulemaking shall occur pursuant to the criteria set forth in this article and the bylaws and rules adopted pursuant thereto. Rulemaking shall substantially conform to the principles of the "Model State Administrative Procedures Act", 1981 Act, Uniform Laws Annotated, Vol. 15, p.1 (2000), or other administrative procedures act, as the interstate commission deems appropriate, consistent with due process requirements under the United States constitution as now or hereafter interpreted by the United States supreme court. All rules and amendments shall become binding as of the date specified, as published with the final version of the rule as approved by the interstate commission.

C. When promulgating a rule, the interstate commission shall, at a minimum:

(1) publish the proposed rule's entire text stating the reasons for that proposed rule;

(2) allow and invite persons to submit written data, facts, opinions and arguments, which information shall be added to the record and be made publicly available;

(3) provide an opportunity for an informal hearing if petitioned by ten or more persons; and

(4) promulgate a final rule and its effective date, if appropriate, based on input from state or local officials or interested parties.

D. Allow, not later than sixty days after a rule is promulgated, an interested person to file a petition in the United States district court for the District of Columbia or in the federal district court where the interstate commission's principal office is located for judicial review of the rule. If the court finds that the interstate commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subsection, evidence is substantial if it would be considered substantial evidence under the Model State Administrative Procedures Act.

E. If a majority of the legislatures of the compacting states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause the rule to have no further force and effect in any compacting state.

F. The existing rules governing the operation of the interstate compact on juveniles superseded by this act shall be null and void twelve months after the first meeting of the interstate commission created hereunder.

G. Upon determination by the interstate commission that a state of emergency exists, it may promulgate an emergency rule that shall become effective immediately upon adoption, provided that the usual rule making procedures provided hereunder shall be retroactively applied to the rule as soon as reasonably possible, but no later than ninety days after the effective date of the emergency rule.

ARTICLE VII - Oversight, Enforcement and Dispute Resolution by The Interstate Commission

A. The interstate commission shall oversee the administration and operations of the interstate movement of juveniles subject to this compact in the compacting states and shall monitor activities being administered in noncompacting states that may significantly affect compacting states.

B. The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall be received by all the judges, public officers, commissions and departments of the state government as evidence of the authorized statute and administrative rules. All courts shall take judicial notice of the compact and the rules. In a judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact that may affect the powers, responsibilities or actions of the

interstate commission, it shall be entitled to receive all service of process in the proceeding and shall have standing to intervene in the proceeding for all purposes.

C. The compacting states shall report to the interstate commission on all issues and activities necessary for the administration of the compact as well as issues and activities pertaining to compliance with the provisions of the compact and its bylaws and rules.

D. The interstate commission shall attempt, upon the request of a compacting state, to resolve any disputes or other issues that are subject to the compact and that may arise among compacting states and between compacting and noncompacting states. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes between the compacting states.

E. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact using any or all means set forth in Article XI of this compact.

ARTICLE VIII - Finance

A. The interstate commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

B. The interstate commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the interstate commission and its staff, which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, taking into consideration the population of each compacting state and the volume of interstate movement of juveniles in each compacting state and shall promulgate a rule binding upon all compacting states that governs the assessment.

C. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

D. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

ARTICLE IX - The State Council

Each member state shall create a "state council for interstate juvenile supervision". While each state may determine the membership of its own state council, its membership must include at least one representative from the legislative, judicial and executive branches of government, victims groups and the compact administrator, deputy compact administrator or designee. Each compacting state retains the right to determine the qualifications of the compact administrator or deputy compact administrator. Each state council will advise and may exercise oversight and advocacy concerning that state's participation in interstate commission activities and other duties as may be determined by that state, including development of policy concerning operations and procedures of the compact within that state.

ARTICLE X - Compacting States, Effective Date and Amendment

A. Any state is eligible to become a compacting state. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than thirty-five of the states. The initial effective date shall be the later of July 1, 2004 or upon enactment into law by the thirty-fifth jurisdiction. Thereafter, it shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state. The governors of noncompacting states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states and territories of the United States.

B. The interstate commission may propose amendments to the compact for enactment by the compacting states. An amendment shall not become effective and binding upon the interstate commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

ARTICLE XI - Withdrawal, Default, Termination and Judicial Enforcement

A. Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided that a compacting state may withdraw from the compact by specifically repealing the statute that enacted the compact into law. The effective date of withdrawal is the effective date of the repeal. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other compacting states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof. The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal. Reinstatement following withdrawal of a compacting state shall occur upon the withdrawing state reenacting the compact or upon a later date as determined by the interstate commission.

B. If the interstate commission determines that a compacting state has at any time defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or duly promulgated rules, the interstate commission may impose any or all of the following penalties:

(1) remedial training and technical assistance as directed by the interstate commission;

(2) alternative dispute resolution;

(3) fines, fees and costs in amounts as are deemed to be reasonable as fixed by the interstate commission; and

(4) suspension or termination of membership in the compact, which shall be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted and the interstate commission has therefore determined that the offending state is in default. Immediate notice of suspension shall be given by the interstate commission to the governor, the chief justice or the chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature and the state council.

C. The grounds for default include failure of a compacting state to perform obligations or responsibilities imposed upon it by this compact, the bylaws or duly promulgated rules and any other grounds designated in commission bylaws and rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission and of the default pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the interstate commission, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination.

D. Within sixty days of the effective date of termination of a defaulting state, the interstate commission shall notify the governor, the chief justice or chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature and the state council of the termination.

E. The defaulting state is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including any obligations that extend beyond the effective date of termination.

F. The interstate commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

G. Reinstatement following termination of a compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

H. The interstate commission may, by majority vote of the members, initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its offices, to enforce compliance with the provisions of the compact, its duly promulgated rules and bylaws, against any compacting state in default. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of the litigation, including reasonable attorneys fees.

I. The compact dissolves effective upon the date of the withdrawal or default of the compacting state, which reduces membership in the compact to one compacting state. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XII - Severability and Construction

A. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

ARTICLE XIII - Binding Effect of Compact and Other Laws

A. Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact. All compacting states' laws other than state constitutions and other interstate compacts conflicting with this compact are superseded to the extent of the conflict.

B. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the compacting states.

C. All agreements between the interstate commission and the compacting states are binding in accordance with their terms.

D. Upon the request of a party to a conflict over meaning or interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding the meaning or interpretation.

E. In the event a provision of this compact exceeds the constitutional limits imposed on the legislature of a compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by the provision upon the interstate commission shall be ineffective and the obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency to which the obligations, duties, powers or jurisdiction are delegated by law in effect at the time this compact becomes effective.

A. eight one hundredths or more; or

B. four one hundredths or more if the person charged is driving a commercial motor vehicle."

Section 12. Section 66-8-110 NMSA 1978 (being Laws 1978, Chapter 35, Section 518, as amended) is amended to read:

"66-8-110. USE OF TESTS IN CRIMINAL ACTIONS OR CIVIL ACTIONS--

A. The results of a test performed pursuant to the Implied Consent Act may be introduced into evidence in any civil action or criminal action arising out of the acts alleged to have been committed by the person tested for driving a motor vehicle while under the influence of intoxicating liquor or drugs.

B. When the blood or breath of the person tested contains:

(1) an alcohol concentration of less than four one hundredths, it shall be presumed that the person was not under the influence of intoxicating liquor;

(2) an alcohol concentration of at least four one hundredths but less than eight one hundredths:

(a) no presumption shall be made that the person either was or was not under the influence of intoxicating liquor, unless the person is driving a commercial motor vehicle; and

(b) the amount of alcohol in the person's blood may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor; or

(3) an alcohol concentration of four one hundredths or more and the person is driving a commercial vehicle, it shall be presumed that the person is under the influence of intoxicating liquor.

C. The arresting officer shall charge the person tested with a violation of Section 66-8-102 NMSA 1978 when the blood or breath of the person contains an alcohol concentration of:

(1) eight one hundredths or more; or

(2) four one hundredths or more if the person is driving a commercial motor vehicle.

D. When a person is less than twenty-one years of age and the blood or breath of the person contains an alcohol concentration of two one hundredths or more, the person's driving privileges shall be revoked pursuant to the provisions of the Implied Consent Act.

E. The determination of alcohol concentration shall be based on the grams of alcohol in one hundred milliliters of blood or the grams of alcohol in two hundred ten liters of breath.

F. The presumptions in Subsection B of this section do not limit the introduction of other competent evidence concerning whether the person was under the influence of intoxicating liquor.

G. If a person is convicted of driving a motor vehicle while under the influence of intoxicating liquor, the trial judge shall be required to inquire into the past driving record of the person before sentence is entered in the matter."

Section 13. Section 66-8-111 NMSA 1978 (being Laws 1978, Chapter 35, Section 519, as amended) is amended to read:

"66-8-111. REFUSAL TO SUBMIT TO CHEMICAL TESTS--TESTING--
GROUNDS FOR REVOCATION OF LICENSE OR PRIVILEGE TO DRIVE.--

A. If a person under arrest for violation of an offense enumerated in the Motor Vehicle Code refuses upon request of a law enforcement officer to submit to chemical tests designated by the law enforcement agency as provided in Section 66-8-107 NMSA 1978, none shall be administered except when a municipal judge, magistrate or district judge issues a search warrant authorizing chemical tests as provided in Section 66-8-107 NMSA 1978 upon his finding in a law enforcement officer's written affidavit that there is probable cause to believe that the person has driven a motor vehicle while under the influence of alcohol or a controlled substance, thereby causing the death or great bodily injury of another person, or there is probable cause to believe that the person has committed a felony while under the influence of alcohol or a controlled substance and that chemical tests as provided in Section 66-8-107 NMSA 1978 will produce material evidence in a felony prosecution.

B. The department, upon receipt of a statement signed under penalty of perjury from a law enforcement officer stating the officer's reasonable grounds to believe the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor or drugs and that, upon his request, the person refused to submit to a chemical test after being advised that failure to submit could

result in revocation of his privilege to drive, shall revoke the person's New Mexico driver's license or any nonresident operating privilege for a period of one year or until all conditions for license reinstatement are met, whichever is later.

C. The department, upon receipt of a statement signed under penalty of perjury from a law enforcement officer stating the officer's reasonable grounds to believe the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor and that the person submitted to chemical testing pursuant to Section 66-8-107 NMSA 1978 and the test results indicated an alcohol concentration in the person's blood or breath of eight one hundredths or more if the person is twenty-one years of age or older, four one hundredths or more if the person is driving a commercial motor vehicle or two one hundredths or more if the person is less than twenty-one years of age, shall revoke the person's license or permit to drive or his nonresident operating privilege for a period of:

(1) ninety days or until all conditions for license reinstatement are met, whichever is later, if the person is twenty-one years of age or older;

(2) six months or until all conditions for license reinstatement are met, whichever is later, if the person is less than twenty-one years of age and has not previously had his license revoked pursuant to the provisions of this section, notwithstanding any provision of the Children's Code; or

(3) one year or until all conditions for license reinstatement are met, whichever is later, if the person has previously had his license revoked pursuant to the provisions of this section, notwithstanding the provisions of Paragraph (1) or (2) of this subsection or any provision of the Children's Code.

D. The determination of alcohol concentration shall be based on the grams of alcohol in one hundred milliliters of blood or the grams of alcohol in two hundred ten liters of breath.

E. If the person subject to the revocation provisions of this section is a resident or will become a resident within one year and is without a license to operate a motor vehicle in this state, the department shall deny the issuance of a license to him for the appropriate period of time as provided in Subsections B and C of this section.

F. A statement signed by a law enforcement officer, pursuant to the provisions of Subsection B or C of this section, shall be sworn to by the officer or shall contain a declaration substantially to the effect: "I hereby declare under penalty of perjury that the information given in this statement is true and correct to the best of my knowledge." A law enforcement officer who signs a statement, knowing that the statement is untrue in any material issue or matter, is guilty of perjury as provided in Section 66-5-38 NMSA 1978."

Section 14. Section 66-8-111.1 NMSA 1978 (being Laws 1984, Chapter 72, Section 7, as amended) is amended to read:

"66-8-111.1. LAW ENFORCEMENT OFFICER AGENT FOR DEPARTMENT-- WRITTEN NOTICE OF REVOCATION AND RIGHT TO HEARING.--On behalf of the department, a law enforcement officer requesting a chemical test or directing the administration of a chemical test pursuant to Section 66-8-107 NMSA 1978 shall serve immediate written notice of revocation and of right to a hearing on a person who refuses to permit chemical testing or on a person who submits to a chemical test the results of which indicate an alcohol concentration in the person's blood or breath of eight one hundredths or more if the person is twenty-one years of age or older, four one hundredths or more if the person is driving a commercial motor vehicle or two one hundredths or more if the person is less than twenty-one years of age. Upon serving notice of revocation, the law enforcement officer shall take the license or permit of the driver, if any, and issue a temporary license valid for twenty days or, if the driver requests a hearing pursuant to Section 66-8-112 NMSA 1978, valid until the date the department issues the order following that hearing; provided that a temporary license shall not be issued to a driver without a valid license or permit. The law enforcement officer shall send the person's driver's license to the department along with the signed statement required pursuant to Section 66-8-111 NMSA 1978."

Section 15. Section 66-8-112 NMSA 1978 (being Laws 1978, Chapter 35, Section 520, as amended) is amended to read:

"66-8-112. REVOCATION OF LICENSE OR PRIVILEGE TO DRIVE--NOTICE-- EFFECTIVE DATE--HEARING--HEARING COSTS--REVIEW.--

A. The effective date of revocation pursuant to Section 66-8-111 NMSA 1978 is twenty days after notice of revocation or, if the person whose driver's license or privilege to drive is being revoked or denied requests a hearing pursuant to this section, the date that the department issues the order following that hearing. The date of notice of revocation is:

(1) the date the law enforcement officer serves written notice of revocation and of right to a hearing pursuant to Section 66-8-111.1 NMSA 1978; or

(2) in the event the results of a chemical test cannot be obtained immediately, the date notice of revocation is served by mail by the department. This notice of revocation and of right to a hearing shall be sent by certified mail and shall be deemed to have been served on the date borne by the return receipt showing delivery, refusal of the addressee to accept delivery or attempted delivery of the notice at the address obtained by the arresting law enforcement officer or on file with the department.

B. Within ten days after receipt of notice of revocation pursuant to Subsection A of this section, a person whose license or privilege to drive is revoked or denied or the person's agent may request a hearing. The hearing request shall be made

in writing and shall be accompanied by a payment of twenty-five dollars (\$25.00) or a sworn statement of indigency on a form provided by the department. A standard for indigency shall be established pursuant to regulations adopted by the department. Failure to request a hearing within ten days shall result in forfeiture of the person's right to a hearing. Any person less than eighteen years of age who fails to request a hearing within ten days shall have notice of revocation sent to his parent, guardian or custodian by the department. A date for the hearing shall be set by the department, if practical, within thirty days after receipt of notice of revocation. The hearing shall be held in the county in which the offense for which the person was arrested took place.

C. The department may postpone or continue any hearing on its own motion or upon application from the person and for good cause shown for a period not to exceed ninety days from the date of notice of revocation and provided that the department extends the validity of the temporary license for the period of the postponement or continuation.

D. At the hearing, the department or its agent may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers.

E. The hearing shall be limited to the issues:

(1) whether the law enforcement officer had reasonable grounds to believe that the person had been driving a motor vehicle within this state while under the influence of intoxicating liquor or drugs;

(2) whether the person was arrested;

(3) whether this hearing is held no later than ninety days after notice of revocation; and either

(4) whether:

(a) the person refused to submit to a test upon request of the law enforcement officer; and

(b) the law enforcement officer advised that the failure to submit to a test could result in revocation of the person's privilege to drive; or

(5) whether:

(a) the chemical test was administered pursuant to the provisions of the Implied Consent Act; and

(b) the test results indicated an alcohol concentration in the person's blood or breath of eight one hundredths or more if the person is twenty-one

years of age or older, four one hundredths or more if the person is driving a commercial motor vehicle or two one hundredths or more in the person's blood or breath if the person is less than twenty-one years of age.

F. The department shall enter an order sustaining the revocation or denial of the person's license or privilege to drive if the department finds that:

(1) the law enforcement officer had reasonable grounds to believe the driver was driving a motor vehicle while under the influence of intoxicating liquor or drugs;

(2) the person was arrested;

(3) this hearing is held no later than ninety days after notice of revocation; and

(4) either:

(a) the person refused to submit to the test upon request of the law enforcement officer after the law enforcement officer advised him that his failure to submit to the test could result in the revocation of his privilege to drive; or

(b) that a chemical test was administered pursuant to the provisions of the Implied Consent Act and the test results indicated an alcohol concentration in the person's blood or breath of eight one hundredths or more if the person is twenty-one years of age or older, four one hundredths or more if the person is driving a commercial motor vehicle or two one hundredths or more if the person is less than twenty-one years of age.

G. If one or more of the elements set forth in Paragraphs (1) through (4) of Subsection F of this section are not found by the department, the person's license shall not be revoked.

H. A person adversely affected by an order of the department may seek review within thirty days in the district court in the county in which the offense for which the person was arrested took place. The district court, upon thirty days' written notice to the department, shall hear the case. On review, it is for the court to determine only whether reasonable grounds exist for revocation or denial of the person's license or privilege to drive based on the record of the administrative proceeding.

I. Any person less than eighteen years of age shall have results of his hearing forwarded by the department to his parent, guardian or custodian."

Section 3. GENERAL PROVISIONS.--

A. Amounts set out under column headings are expressed in thousands of dollars.

B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" are intergovernmental transfers and do not represent a portion of total state government appropriations. All information designated as "Total" or "Subtotal" is provided for information and amounts are not appropriations.

C. Amounts set out in Section 4 of the General Appropriation Act of 2003, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2004 for the objects expressed.

D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2003 shall revert to the general fund by October 1, 2003, unless otherwise indicated in the General Appropriation Act of 2003 or otherwise provided by law.

E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2004 shall revert to the general fund by October 1, 2004, unless otherwise indicated in the General Appropriation Act of 2003 or otherwise provided by law.

F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.

G. Except as otherwise specifically stated in the General Appropriation Act of 2003, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2004. If any other act of the first session of the forty-sixth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2003 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.

~~[H. In August, October, December and May of fiscal year 2004, the department of finance and administration, in consultation with the staff of the legislative finance committee and other agencies, shall prepare and present revenue estimates to the legislative finance committee. If these revenue estimates indicate that revenues and transfers to the general fund excluding transfers to the general fund operating reserve, the appropriation contingency fund or the state support reserve fund, as of the end of fiscal year 2004, are not expected to meet appropriations from the general fund, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.] [LINE-ITEM VETO]~~

I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from unforeseen federal funds, from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds, or payments into revolving funds which exceeds specifically appropriated amounts may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated. In approving a budget increase from unforeseen federal funds, the director of the state budget division shall advise the legislative finance committee as to the source of the federal funds and the source and amount of any matching funds required.

~~[J. For fiscal year 2004, the number of permanent and term full-time equivalent positions specified for each agency shows the maximum number of~~

~~employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2003 or another act of the first session of the forty-sixth legislature provides for additional employees.] [LINE-ITEM VETO]~~

L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2003 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline; provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.

M. When approving operating budgets based on appropriations in the General Appropriation Act of 2003, the state budget division is specifically authorized to approve only those budgets that are in accordance with generally accepted accounting principles for the purpose of properly classifying other financing sources and uses, including interfund, intrafund and interagency transfers.

Section 4. FISCAL YEAR 2004 APPROPRIATIONS. -- [Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in this section shall file a report with the state budget division and the legislative finance committee analyzing the agency's performance relative to the performance measures and targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2004 for the remaining measures. The state budget division, in consultation with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels. The quarterly and year-end reports for the period ending June 30, 2004, shall be filed with the state budget division and the legislative finance committee on or before September 1, 2004.]

~~Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2004. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2004 and to propose targets when submitting budget requests for fiscal year 2005.] [LINE-ITEM VETO]~~

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. A new section of the Tax Administration Act is enacted to read:

"DISTRIBUTION TO LEGISLATIVE RETIREMENT FUND.--

A. A distribution pursuant to Section 7-1-6.1

NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year.

B. In December 2003 and in each December thereafter, the public employees retirement association, with the assistance of the legislative council service, shall determine the amount of those retirement benefits for the succeeding calendar year. That average amount shall be the amount distributed pursuant to Subsection A of this section as of the end of each month of the twelve consecutive months beginning with the December in which the determination was made."

Section 2. Section 7-2A-9.1 NMSA 1978 (being Laws 1986, Chapter 5, Section 1, as amended) is amended to read:

"7-2A-9.1. ESTIMATED TAX DUE--PAYMENT OF ESTIMATED TAX--
PENALTY--EXEMPTION.--

A. Every taxpayer shall pay estimated corporate income tax to the state of New Mexico during its taxable year if its tax after applicable credits for such taxable year can reasonably be expected to be five thousand dollars (\$5,000) or more. A taxpayer to which this section applies shall calculate estimated tax by one of the following methods:

(1) estimating the amount of tax due, net of any credits, for the current taxable year, provided that the estimated amount is at least eighty percent of the amount determined to be due for the taxable year;

(2) using as the estimate an amount equal to one hundred percent of the tax due for the previous taxable year, if the previous taxable year was a full twelve-month year and if the amount due for that previous taxable year was at least five thousand dollars (\$5,000); or

(3) using as the estimate an amount equal to one hundred ten percent of the tax due for the taxable year immediately preceding the previous taxable year, if the taxable year immediately preceding the previous taxable year was a full twelve-month year, the amount due for the taxable year immediately preceding the previous taxable year was at least five thousand dollars (\$5,000) and the return for the previous taxable year has not been filed and the extended due date for filing that return has not occurred at the time the first installment is due for the taxable year.

B. If Subsection A of this section applies, the amount of estimated tax shall be paid in installments as follows: twenty-five percent of the estimated tax is due on or before the fifteenth day of the fourth month of the taxable year, another twenty-five percent is due on or before the fifteenth day of the sixth month of the taxable year, another twenty-five percent is due on or before the fifteenth day of the ninth month of the taxable year and the final twenty-five percent is due on or before the fifteenth day of the twelfth month of the taxable year. Application of this subsection to a taxable year that is a fractional part of a year shall be determined by regulation of the secretary.

C. Every taxpayer to which Subsection A of this section applies that fails to pay the estimated tax when due or that makes estimated tax payments during the taxable year that are less than the lesser of eighty percent of the income tax imposed on the taxpayer under the Corporate Income and Franchise Tax Act or the amount required by Paragraph (2) or (3) of Subsection A of this section shall be subject to the interest and penalty provisions of Sections 7-1-67 and 7-1-69 NMSA 1978 on the underpayment.

D. For purposes of this section, the amount of underpayment shall be the excess of the amount of the installment that would be required to be paid if the estimated tax were equal to eighty percent of the tax shown on the return for the taxable year or the amount required by Paragraph (2) or (3) of Subsection A of this section or, if no return was filed, eighty percent of the tax for the taxable year for which the estimated tax is due less the amount, if any, of the installment paid on or before the last date prescribed for payment.

E. For purposes of this section, the period of underpayment shall run from the date the installment was required to be paid to whichever of the following dates is earlier:

(1) the fifteenth day of the third month following the end of the taxable year; or

(2) with respect to any portion of the underpayment, the date on which such portion is paid. For the purposes of this paragraph, a payment of estimated tax on any installment date shall be applied as a payment of any previous underpayment only to the extent such payment exceeds the amount of the installment determined under Subsection D of this section due on such installment date.

F. For the purposes of this section, the amount of tax deducted and withheld with respect to a taxpayer by a remitter under the Oil and Gas Proceeds Withholding Tax Act shall be deemed a payment of estimated tax. An equal amount of the amount of withheld tax shall be deemed paid on each due date for the applicable taxable year unless the taxpayer establishes the dates on which all amounts were actually withheld, in which case the amounts withheld shall be deemed payments of estimated tax on the dates on which the amounts were actually withheld."

Section 3. Section 7-3-12 NMSA 1978 (being Laws 1999, Chapter 14, Section 3, as amended) is amended to read:

In the case of an owner that is an individual or entity not taxed as a corporation for federal income tax purposes for the taxable year, the rate shall not exceed the rate for composite returns. In the case of an owner that is a corporation or other entity taxed as a corporation for the taxable year, the rate shall not exceed the maximum rate for corporate income tax.

E. The provisions of Subsection D of this section shall not apply with regard to:

- (1) the share of net income of a nonresident owner that has executed an agreement in accordance with regulations or instructions of the department that the owner will report and pay tax, if required, on its own return pursuant to the Income Tax Act or the Corporate Income and Franchise Tax Act; or

B. The department, upon receipt of a statement signed under penalty of perjury from a law enforcement officer stating the officer's reasonable grounds to believe the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor or drugs and that, upon his request, the person refused to submit to a chemical test after being advised that failure to submit could result in revocation of his privilege to drive, shall revoke the person's New Mexico driver's license or any nonresident operating privilege for a period of one year or until all conditions for license reinstatement are met, whichever is later.

C. The department, upon receipt of a statement signed under penalty of perjury from a law enforcement officer stating the officer's reasonable grounds to believe the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor and that the person submitted to chemical testing pursuant to Section 66-8-107 NMSA 1978 and the test results indicated an alcohol concentration in the person's blood or breath of eight one hundredths or more if the person is twenty-one years of age or older, four one hundredths or more if the person is driving a commercial motor vehicle or two one hundredths or more if the person is less than twenty-one years of age, shall revoke the person's license or permit to drive or his nonresident operating privilege for a period of:

(2) the person was arrested;

(3) this hearing is held no later than ninety days after notice of revocation; and

B. Property taxes, penalties and interest collected shall be receipted and accounted for in accordance with law and regulations of the department of finance and administration.

C. Any payments received by the treasurer or the department as payments for property taxes, penalties or interest shall be first applied to the oldest

outstanding unpaid property taxes, penalties or interest accrued in prior property tax years on the property identified and described in the property tax bill for which payment is tendered or, if the payment cannot be identified with a particular year's property tax bill, then the payment shall be applied first to the oldest liability for property taxes, penalties and interest shown in the treasurer's records under the name of the paying taxpayer. In applying the foregoing requirements for applications of payments and in the adoption of any regulations to implement those provisions, the following additional rules shall apply:

(1) applications of payments to a prior year's delinquent taxes, penalties and interest shall not be made for more than ten years prior to the year of payment unless the treasurer's records show that the property for which taxes are delinquent has been deeded to the state of New Mexico and that property has not been sold by the state pursuant to applicable law;

(4) the failure of a receiving authority to apply a payment as required under this subsection or the failure to issue a required receipt to the taxpayer of the status of his account shall not relieve the taxpayer of liability for taxes, penalties or interest he would otherwise be required to pay nor does action or inaction by the receiving authority act to estop the collecting authority from taking any action to collect or enforce the payment of taxes, penalties and interest legally due."

Section 3. Section 7-38-48 NMSA 1978 (being Laws 1973, Chapter 258, Section 88, as amended) is amended to read:

A. Except as provided in Subsection B of this section, taxes on real property are a lien against the real property from January 1 of the tax year for which the taxes are imposed. The lien runs in favor of the state and secures the payment of taxes on the real property and any penalty and interest that become due. The lien continues until the taxes and any penalty and interest are paid. The lien created by this section is a first lien and paramount to any other interest in the property, perfected or unperfected. The annual taxing process provided for in the Property Tax Code shall continue as to any particular property regardless of prior tax delinquencies or of pending protests, actions for refunds or other tax controversies involving the property, including a sale for delinquent taxes.

B. No lien is created pursuant to Subsection A of this section if:

(1) the tax otherwise creating the lien is not due for the current tax year or the immediately preceding property tax year;

"7-38-65. COLLECTION OF DELINQUENT TAXES ON REAL PROPERTY-- SALE OF REAL PROPERTY.--

A. If a lien exists by the operation of

Section 7-38-48 NMSA 1978, the department may collect delinquent taxes on real property by selling the real property on which the taxes have become delinquent. The sale of real property for delinquent taxes shall be in accordance with the provisions of the Property Tax Code. Real property may be sold for delinquent taxes at any time after the expiration of three years from the first date shown on the tax delinquency list on

which the taxes became delinquent. Real property shall be offered for sale for delinquent taxes either within four years after the first date shown on the tax delinquency list on which the taxes became delinquent or, if the department is barred by operation of law or by order of a court of competent jurisdiction from offering the property for sale for delinquent taxes within four years after the first date shown on the tax delinquency list on which the taxes became delinquent, within one year from the time the department determines that it is no longer barred from selling the property, unless:

(1) all delinquent taxes, penalties, interest and costs due are paid by 5:00 p.m. of the day prior to the date of the sale; or

(2) an installment agreement for payment of all delinquent taxes, penalties, interests and costs due is entered into with the department by 5:00 p.m. of the day prior to the date of the sale pursuant to Section 7-38-68 NMSA 1978.

B. Failure to offer property for sale within the time prescribed by Subsection A of this section shall not impair the validity or effect of any sale which does take place.

C. The time requirements of this section are subject to the provisions of Section 7-38-83 NMSA 1978."

Section 5. Section 7-38-76 NMSA 1978 (being Laws 1973, Chapter 258, Section 116, as amended) is amended to read:

"7-38-76. PROPERTY SUBJECT TO PROPERTY TAXATION BUT OMITTED FROM PROPERTY TAX SCHEDULES IN PRIOR YEARS.--

Property tax bills shall be prepared and mailed by the county treasurers within thirty days of the date the omitted property is listed on the property tax schedule, and all taxes on omitted property shall be due the date the property tax bill is mailed.

B. Except for taxes due in the current tax year and the immediately preceding tax year, the current owner of the real estate is not liable for a property tax bill mailed pursuant to Subsection A of this section if:

(1) the omitted property is improvements that were placed on the real estate; and

(2) the current owner was not the owner at the time the improvements were omitted and had no actual notice that the improvements were omitted.

C. Nothing in this section relieves the owner of the property at the time the improvements were omitted from being personally liable for the taxes due pursuant to Section 7-38-47 NMSA 1978.

D. The department shall promulgate regulations for the procedures to be followed and the records to be maintained in the administration and collection of taxes on omitted property. BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. Section 4-62-1 NMSA 1978 (being Laws 1992, Chapter 95, Section 1, as amended by Laws 2001, Chapter 172, Section 3 and also by Laws 2001, Chapter 328, Section 2) is amended to read:

A. In addition to any other law authorizing a county to issue revenue bonds, a county may issue revenue bonds pursuant to Chapter 4, Article 62 NMSA 1978 for the purposes specified in this section. The term "pledged revenues", as used in Chapter 4, Article 62 NMSA 1978, means the revenues, net income or net revenues authorized to be pledged to the payment of particular revenue bonds as specifically provided in Subsections B through M of this section.

B. Gross receipts tax revenue bonds may be issued for one or more of the following purposes:

(1) constructing, purchasing, furnishing, equipping, rehabilitating, making additions to or making improvements to one or more public buildings or purchasing or improving ground relating thereto, including but not necessarily limited to acquiring and improving parking lots, or any combination of the foregoing;

A county may pledge irrevocably any or all of the revenue from the first one-eighth of one percent increment and the third one-eighth of one percent increment of the county gross receipts tax and any increment of the county infrastructure gross receipts tax and county capital outlay gross receipts tax for payment of principal and interest due in connection with, and other expenses related to, gross receipts tax revenue bonds for any of the purposes authorized in this section or specific purposes or for any area of county government services. If the revenue from the first one-eighth of one percent increment or the third one-eighth of one percent increment of the county gross receipts tax or any increment of the county infrastructure gross receipts tax or county capital outlay gross receipts tax is pledged for payment of principal and interest as authorized by this subsection, the pledge shall require the revenues received from that increment of the county gross receipts tax or any increment of the county infrastructure gross receipts tax or county capital outlay gross receipts tax to be deposited into a special bond fund for payment of the principal, interest and expenses. At the end of each fiscal year, money remaining in the special bond fund after the annual obligations for the bonds are fully met may be transferred to any other fund of the county.

Revenues in excess of the annual principal and interest due on gross receipts tax revenue bonds secured by a pledge of gross receipts tax revenue may be accumulated in a debt service reserve account. The governing body of the county may appoint a commercial bank trust department to act as trustee of the proceeds of the tax and to administer the payment of principal of and interest on the bonds.

C. Fire protection revenue bonds may be issued

The revenues of a fire district project shall not be pledged to the bonds issued for a fire district project that clearly is unrelated in its purpose; but nothing in this section prevents the pledge to such bonds of revenues received from existing, future or disconnected facilities and equipment that are related to and that may constitute a part of the particular fire district project. BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. Section 32A-4-29 NMSA 1978 (being Laws 1993, Chapter 77, Section 123, as amended) is amended to read:

"32A-4-29. TERMINATION PROCEDURE.--

A. A motion to terminate parental rights may be filed at any stage of the abuse or neglect proceeding. The proceeding may be initiated by any of the following:

(1) the department;

(2) a licensed child placement agency; or

(3) any other person having a legitimate interest in the matter, including the child's guardian ad litem, a petitioner for adoption, a foster parent or a relative of the child.

B. The motion for termination of parental rights shall be signed, verified by the moving party and filed with the court. The motion shall set forth:

(1) the date, place of birth and marital status of the child, if known;

(2) the grounds for termination and the facts and circumstances supporting the grounds for termination;

(3) the names and addresses of the persons or authorized agency or agency officer to whom custody might be transferred;

(4) whether the child resides or has resided with a foster parent who desires to adopt this child;

(5) whether the motion is in contemplation of adoption;

(6) the relationship or legitimate interest of the moving party to the child; and

(7) whether the child is subject to the federal Indian Child Welfare Act of 1978 and, if so:

(a) the tribal affiliations of the child's parents;

(b) the specific actions taken by the moving party to notify the parents' tribes and the results of the contacts, including the names, addresses, titles and telephone numbers of the persons contacted. Copies of any correspondence with the tribes shall be attached as exhibits to the petition; and

(c) what specific efforts were made to comply with the placement preferences set forth in the federal Indian Child Welfare Act of 1978 or the placement preferences of the appropriate Indian tribes.

C. A parent who has not previously been a party to the proceeding shall be named in the motion and shall become a party to the proceeding unless the court determines that the parent has not established a protected liberty interest in his relationship with the child.

D. Notice of the filing of the motion, accompanied by a copy of the motion, shall be served by the moving party on all other parties, the foster parent, preadoptive parent or relative providing care for the child with whom the child is residing, foster parents with whom the child has resided for six months within the previous twelve months, the custodian of the child, any person appointed to represent any party and any other person the court orders. Service shall be in accordance with the Rules of Civil Procedure for the District Courts for the service of motions in a civil action in this state, except that foster parents and attorneys of record in this proceeding shall be served by certified mail. The notice shall state specifically that the person served shall file a written response to the motion within twenty days if the person intends to contest the termination. In any case involving a child subject to the federal Indian Child Welfare Act of 1978, notice shall also be sent by certified mail to the tribes of the child's parents and upon any "Indian custodian" as that term is defined in 25 U.S.C. Section 1903(6). Further notice shall not be required on a parent who has been provided notice previously pursuant to Section 32A-4-17 NMSA 1978 and who failed to make an appearance.

E. If the identity or whereabouts of a person entitled to service are unknown, the moving party shall file a motion for an order granting service by publication supported by the affidavit of the moving party or his agent or attorney detailing the efforts made to locate the person entitled to service. Upon being satisfied that reasonable efforts to locate the person entitled to service have been made and that information as to the identity or whereabouts of the person is still insufficient to effect service in accordance with the Rules of Civil Procedure for the District Courts, the court shall order service by publication pursuant to the Rules of Civil Procedure for the District Courts.

F. After a motion for the termination of parental rights is filed, the parent shall be advised of the right to counsel unless the parent is already represented by counsel. Counsel shall be appointed, upon request, for any parent who is unable to obtain counsel due to financial reasons or, if in the court's discretion, the interests of justice require appointment of counsel.

G. The court shall assure that a guardian ad litem represents the child in all proceedings for the termination of parental rights.

H. When a motion to terminate parental rights is filed, the moving party shall request a hearing on the motion. The hearing date shall be at least thirty days, but no more than sixty days, after service is effected upon the parties entitled to service under this section.

I. In any action for the termination of parental rights brought by a party other than the department and involving a child in the custody of the department, the department may:

(1) litigate a motion for the termination of parental rights that was initially filed by another party; or

(2) move that the motion for the termination of parental rights be found premature and denied.

J. When a motion to terminate parental rights is filed, the department shall perform concurrent planning.

K. When a child has been in foster care for not less than fifteen of the previous twenty-two months, the department shall file a motion to terminate parental rights, unless:

(1) a parent has made substantial progress toward eliminating the problem that caused the child's placement in foster care; it is likely that the child will be able to safely return to the parent's home within three months; and the child's return to the parent's home will be in the child's best interests;

(2) the child has a close and positive relationship with a parent and a permanent plan that does not include termination of parental rights will provide the most secure and appropriate placement for the child;

(3) the child is thirteen years of age or older, is firmly opposed to termination of parental rights and is likely to disrupt an attempt to place him with an adoptive family;

(4) a parent is terminally ill, but in remission, and does not want his parental rights to be terminated; provided that the parent has designated a guardian for his child;

(5) the child is not capable of functioning if placed in a family setting. In such a case, the court shall reevaluate the status of the child every ninety days unless there is a final court determination that the child cannot be placed in a family setting;

(6) grounds do not exist for termination of parental rights;

(7) the child is an unaccompanied, refugee minor and the situation regarding the child involves international legal issues or compelling foreign policy issues; or

(8) adoption is not an appropriate plan for the child.

L. For purposes of this section, a child shall be considered to have entered foster care on the earlier of:

(1) the date of the first judicial finding that the child has been abused or neglected; or

(2) the date that is sixty days after the date on which the child was removed from the home.

M. The grounds for any attempted termination

shall be proved by clear and convincing evidence. In any proceeding involving a child subject to the federal Indian Child Welfare Act of 1978, the grounds for any attempted termination shall be proved beyond a reasonable doubt and shall meet the requirements set forth in 25 U.S.C. Section 1912(f).

N. When the court terminates parental rights, it shall appoint a custodian for the child and fix responsibility for the child's support.

O. In any termination proceeding involving a child subject to the federal Indian Child Welfare Act of 1978, the court shall in any termination order make specific findings that the requirements of that act have been met.

P. A judgment of the court terminating parental rights divests the parent of all legal rights and privileges and dispenses with both the necessity for the consent to or receipt of notice of any subsequent adoption proceeding concerning the child. A judgment of the court terminating parental rights shall not affect the child's rights of inheritance from and through the child's biological parents."

The attorney general shall not include or retain in the directory a nonparticipating manufacturer or brand family if:

The tobacco product manufacturer shall have ten business days from the date of the attorney general's notice of the preliminary determination to the registered agent for service of process in the state to establish, to the attorney general's satisfaction, compliance with Section 6-4-13 NMSA 1978 and the Tobacco Escrow Fund Act.

A. A nonparticipating manufacturer not registered to do business in the state shall, as a condition precedent to having its name or its brand families listed and retained in the directory, appoint and continually engage without interruption a registered agent in this state for service of process on whom all process and any action or proceeding arising out of the enforcement of the Tobacco Escrow Fund Act or Section 6-4-13 NMSA 1978 may be served. Section 8. REPORTING OF INFORMATION--ESCROW INSTALLMENTS.--

E. The attorney general may promulgate rules requiring a nonparticipating manufacturer to make escrow fund deposits annually and may require information sufficient to determine the adequacy of the amount of the annual deposit.

F. The attorney general or the department may seek an injunction to compel compliance with this section. In any action brought pursuant to this subsection, the state shall be entitled to recover the costs of investigation, costs of the action and reasonable attorney fees.

Section 9. PENALTIES AND OTHER REMEDIES.--

If a health facility is found to be operating without a license, in order to protect human health or safety, the secretary may issue a cease-and-desist order. The health facility may request a hearing that shall be held in the manner provided in this section. The department may also proceed pursuant to the Health Facility Receivership Act.

B. The department is authorized to make inspections and investigations and to prescribe rules it deems necessary or desirable to promote the health, safety and welfare of persons using health facilities.

C. Except as provided in Subsection F of this section, upon receipt of an application for a license to operate a health facility, the department shall promptly inspect the health facility to determine if it is in compliance with all rules of the department. Applications for hospital licenses shall include evidence that the bylaws or rules of the hospital apply equally to osteopathic and medical physicians. The department shall consolidate the applications and inspections for a hospital that also operates as a hospital-based primary care clinic.

D. Upon inspection of a health facility, if the department finds a violation of its rules, the department may deny the application for a license, whether initial or renewal, or it may issue a temporary license. A temporary license shall not be issued for a period exceeding one hundred twenty days, nor shall more than two consecutive temporary licenses be issued.

E. A one-year nontransferable license shall be issued to any health facility complying with all rules of the department. The license shall be renewable for successive one-year periods, upon filing of a renewal application, if the department is satisfied that the health facility is in compliance with all rules of the department or, if not in compliance with a rule, has been granted a waiver or variance of that rule by the department pursuant to procedures, conditions and guidelines adopted by rule of the department. Licenses shall be posted in a conspicuous place on the licensed premises, except that child-care centers that receive no state or federal funds may apply for and receive from the department a waiver from the requirement that a license be posted or kept on the licensed premises.

F. A health facility that has been inspected and licensed by the department and that has received certification for participation in federal reimbursement programs and that has been fully accredited by the joint commission on accreditation of health care organizations or the American osteopathic association shall be granted a license renewal based on that accreditation. Health facilities receiving less than full accreditation by the joint commission on the accreditation of health care organizations or by the American osteopathic association may be granted a license renewal based on that accreditation. License renewals shall be issued upon application submitted by the health facility upon forms prescribed by the department. This subsection does not limit in any way the department's various duties and responsibilities under other provisions of the Public Health Act or under any other subsection of this section, including any of the department's responsibilities for the health and safety of the public.

G. The department may charge a reasonable fee not to exceed three dollars (\$3.00) per bed for an inpatient health facility or one hundred dollars (\$100) for any other health facility for each license application, whether initial or renewal, of an annual license or the second consecutive issuance of a temporary license. Fees

collected shall not be refundable. All fees collected pursuant to licensure applications shall be deposited with the state treasurer for credit to the general fund.

H. The department may revoke or suspend the license of a health facility or may impose on a health facility an intermediate sanction and a civil monetary penalty provided in Section 24-1-5.2 NMSA 1978 after notice and an opportunity for a hearing before a hearing officer designated by the department to hear the matter and, except for child-care centers and facilities, may proceed pursuant to the Health Facility Receivership Act upon a determination that the health facility is not in compliance with any rule of the department. If immediate action is required to protect human health and safety, the secretary may suspend a license or impose an intermediate sanction pending a hearing, provided the hearing is held within five working days of the suspension or imposition of the sanction, unless waived by the licensee, and, except for child-care centers and facilities, may proceed ex parte pursuant to the Health Facility Receivership Act.

I. The department shall schedule a hearing pursuant to Subsection H of this section if the department receives a request for a hearing from a licensee:

(1) within ten working days after receipt by the licensee of notice of suspension, revocation, imposition of an intermediate sanction or civil monetary penalty or denial of an initial or renewal application;

(2) within four working days after receipt by the licensee of an emergency suspension order or emergency intermediate sanction imposition and notice of hearing if the licensee wishes to waive the early hearing scheduled and request a hearing at a later date; or

(3) within five working days after receipt of a cease-and-desist order.

The department shall also provide timely notice to the licensee of the date, time and place of the hearing, identity of the hearing officer, subject matter of the hearing and alleged violations.

J. A hearing held pursuant to provisions of this section shall be conducted in accordance with adjudicatory hearing rules and procedures adopted by rule of the department. The licensee has the right to be represented by counsel, to present all relevant evidence by means of witnesses and books, papers, documents, records, files and other evidence and to examine all opposing witnesses who appear on any matter relevant to the issues. The hearing officer has the power to administer oaths on request of any party and issue subpoenas and subpoenas duces tecum prior to or after the commencement of the hearing to compel discovery and the attendance of witnesses and the production of relevant books, papers, documents, records, files and other evidence. Documents or records pertaining to abuse, neglect or exploitation of a resident, client or patient of a health facility or other documents, records or files in the

custody of the human services department or the office of the state long-term care ombudsman at the state agency on aging that are relevant to the alleged violations are discoverable and admissible as evidence in any hearing.

K. Any party may appeal the final decision of the department pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

L. A complaint about a health facility received by the department pursuant to this section shall be promptly investigated and appropriate action shall be taken if substantiated. The department shall develop a health facilities protocol in conjunction with the human services department, the protective services division of the children, youth and families department, the office of the state long-term care ombudsman and other appropriate agencies to ensure the health, safety and rights of individuals in health facilities. The health facilities' protocol shall require:

(1) cross-reference among agencies pursuant to this subsection of an allegation of abuse, neglect or exploitation;

(2) an investigation, within the strict priority time frames established by each protocol member's rules, of an allegation or referral of abuse, neglect or exploitation after the department has made a good cause determination that abuse, neglect or exploitation occurred;

(3) an agency to share its investigative information and findings with other agencies, unless otherwise prohibited by law; and

(4) require the receiving agency to accept the information provided pursuant to Paragraph (3) of this subsection as potential evidence to initiate and conduct investigations.

M. A complaint received by the department pursuant to this section shall not be disclosed publicly in a manner as to identify any individuals or health facilities if upon investigation the complaint is unsubstantiated.

N. Notwithstanding any other provision of this section, when there are reasonable grounds to believe that a child is in imminent danger of abuse or neglect while in the care of a child-care facility, whether or not licensed, or upon the receipt of a report pursuant to Section 32A-4-3 NMSA 1978, the department shall consult with the owner or operator of the child-care facility. Upon a finding of probable cause, the department shall give the owner or operator notice of its intent to suspend operation of the child-care facility and provide an opportunity for a hearing to be held within three working days, unless waived by the owner or operator. Within seven working days from the day of notice, the secretary shall make a decision, and, if it is determined that any child is in imminent danger of abuse or neglect in the child-care facility, the secretary may suspend operation of the child-care facility for a period not in excess of fifteen days. Prior to the date of the hearing, the department shall make a reasonable effort to

notify the parents of children in the child-care facility of the notice and opportunity for hearing given to the owner or operator.

O. Nothing contained in this section or in the Public Health Act shall authorize either the secretary or the department to make any inspection or investigation or to prescribe any rules concerning group homes as defined in Section 9-8-13 NMSA 1978 except as are reasonably necessary or desirable to promote the health and safety of persons using group homes."

Section 4-411. MODIFICATION OR TERMINATION OF NONCHARITABLE IRREVOCABLE TRUST BY CONSENT.--

A. A noncharitable irrevocable trust may be modified or terminated upon consent of the settlor and all beneficiaries, even if the modification or termination is inconsistent with a material purpose of the trust. A settlor's power to consent to a trust's termination may be exercised by an agent under a power of attorney only to the extent expressly authorized by the power of attorney or the terms of the trust; by the settlor's conservator with the approval of the court supervising the conservatorship if an agent is not so authorized; or by the settlor's guardian with the approval of the court supervising the guardianship if an agent is not so authorized and a conservator has not been appointed.

B. A noncharitable irrevocable trust may be terminated upon consent of all of the beneficiaries if the court concludes that continuance of the trust is not necessary to achieve any material purpose of the trust. A noncharitable irrevocable trust may be modified upon consent of all of the beneficiaries if the court concludes that modification is not inconsistent with a material purpose of the trust.

C. A spendthrift provision in the terms of the trust is not presumed to constitute a material purpose of the trust.

D. Upon termination of a trust under Subsection A or B of this section, the trustee shall distribute the trust property as agreed by the beneficiaries.

E. If not all of the beneficiaries consent to a proposed modification or termination of the trust under Subsection A or B of this section, the modification or termination may be approved by the court if the court is satisfied that:

(1) if all of the beneficiaries had consented, the trust could have been modified or terminated under this section; and

(2) the interests of a beneficiary who does not consent will be adequately protected.

Section 4-412. MODIFICATION OR TERMINATION BECAUSE OF UNANTICIPATED CIRCUMSTANCES OR INABILITY TO ADMINISTER TRUST EFFECTIVELY.--

A. The court may modify the administrative or dispositive terms of a trust or terminate the trust if, because of circumstances not anticipated by the settlor, modification or termination will further the purposes of the trust. To the extent practicable, the modification must be made in accordance with the settlor's probable intention.

B. The court may modify the administrative terms of a trust if continuation of the trust on its existing terms would be impracticable or wasteful or impair the trust's administration.

C. Upon termination of a trust under this section, the trustee shall distribute the trust property in a manner consistent with the purposes of the trust.

Section 4-413. CY PRES.--

A. Except as otherwise provided in Subsection B of this section, if a particular charitable purpose becomes unlawful, impracticable, impossible to achieve or wasteful:

(1) the trust does not fail, in whole or in part;

(2) the trust property does not revert to the settlor or the settlor's successors in interest; and

(3) the court may apply cy pres to modify or terminate the trust by directing that the trust property be applied or distributed, in whole or in part, in a manner consistent with the settlor's charitable purposes.

B. A provision in the terms of a charitable trust that would result in distribution of the trust property to a noncharitable beneficiary prevails over the power of the court under Subsection A of this section to apply cy pres to modify or terminate the trust only if, when the provision takes effect:

(1) the trust property is to revert to the settlor and the settlor is still living; or

(2) fewer than twenty-one years have elapsed since the date of the trust's creation.

C. The attorney general as parens patriae is a necessary party to any cy pres proceeding in the Uniform Trust Code.

Section 4-414. TERMINATION OF UNECONOMIC TRUST.--

A. After notice to the qualified beneficiaries, the trustee of a trust consisting of trust property having a total value less than fifty thousand dollars (\$50,000) may terminate the trust if the trustee concludes that the value of the trust property is insufficient to justify the cost of administration.

B. The court may modify or terminate a trust or remove the trustee and appoint a different trustee if it determines that the value of the trust property is insufficient to justify the cost of administration.

C. Upon termination of a trust under this section, the trustee shall distribute the trust property in a manner consistent with the purposes of the trust.

D. This section does not apply to an easement for conservation or preservation.

Section 4-415. REFORMATION TO CORRECT MISTAKES.--The court may reform the terms of a trust, even if unambiguous, to conform the terms to the settlor's intention if it is proved by clear and convincing evidence that both the settlor's intent and the terms of the trust were affected by a mistake of fact or law, whether in expression or inducement.

Section 4-416. MODIFICATION TO ACHIEVE SETTLOR'S TAX OBJECTIVES.--To achieve the settlor's tax objectives, the court

may modify the terms of a trust in a manner that is not contrary to the settlor's probable intention. The court may provide that the modification has retroactive effect.

Section 4-417. COMBINATION AND DIVISION OF TRUSTS.--After notice to the qualified beneficiaries, a trustee may combine two or more trusts into a single trust or divide a trust into two or more separate trusts, if the result does not impair rights of any beneficiary or adversely affect achievement of the purposes of the trust.

ARTICLE 5

CREDITOR'S CLAIMS--SPENDTHRIFT AND DISCRETIONARY TRUSTS

Section 5-501. RIGHTS OF BENEFICIARY'S CREDITOR OR ASSIGNEE.--To the extent a beneficiary's interest is not protected by a spendthrift provision, the court may authorize a creditor or assignee of the beneficiary to reach the beneficiary's interest by attachment of present or future distributions to or for the benefit of the beneficiary or other means. The court may limit the award to such relief as is appropriate under the circumstances.

Section 5-502. SPENDTHRIFT PROVISION.--

A. A spendthrift provision is valid only if it restrains both voluntary and involuntary transfer of a beneficiary's interest.

B. A term of a trust providing that the interest of a beneficiary is held subject to a "spendthrift trust", or words of similar import, is sufficient to restrain both voluntary and involuntary transfer of the beneficiary's interest.

C. A beneficiary may not transfer an interest in a trust in violation of a valid spendthrift provision and, except as otherwise provided in this article, a creditor or assignee of the beneficiary may not reach the interest or a distribution by the trustee before its receipt by the beneficiary.

Section 5-503. EXCEPTIONS TO SPENDTHRIFT PROVISION.--

A. As used in this section, "child" includes any person for whom an order or judgment for child support has been entered in this or another state.

B. Even if a trust contains a spendthrift provision, a beneficiary's child, spouse or former spouse who has a judgment or court order against the beneficiary for

support or maintenance, or a judgment creditor who has provided services for the protection of a beneficiary's interest in the trust, may obtain from a court an order attaching present or future distributions to or for the benefit of the beneficiary.

C. A spendthrift provision is unenforceable against a claim of this state or the United States to the extent a statute of this state or federal law so provides.

Section 5-504. DISCRETIONARY TRUSTS--EFFECT OF

STANDARD.--

A. As used in this section, "child" includes any person for whom an order or judgment for child support has been entered in this or another state.

B. Except as otherwise provided in Subsection C of this section, whether or not a trust contains a spendthrift provision, a creditor of a beneficiary may not compel a distribution that is subject to the trustee's discretion, even if:

(1) the discretion is expressed in the form of a standard of distribution; or

(2) the trustee has abused the discretion.

C. To the extent a trustee has not complied with a standard of distribution or has abused a discretion:

(1) a distribution may be ordered by the court to satisfy a judgment or court order against the beneficiary for support or maintenance of the beneficiary's child, spouse or former spouse; and

(2) the court shall direct the trustee to pay to the child, spouse or former spouse such amount as is equitable under the circumstances but not more than the amount the trustee would have been required to distribute to or for the benefit of the beneficiary had the trustee complied with the standard or not abused the discretion.

D. This section does not limit the right of a beneficiary to maintain a judicial proceeding against a trustee for an abuse of discretion or failure to comply with a standard for distribution.

Section 5-505. CREDITOR'S CLAIM AGAINST SETTLOR.--

A. Whether or not the terms of a trust contain a spendthrift provision, the following rules apply:

(1) during the lifetime of the settlor, the property of a revocable trust is subject to claims of the settlor's creditors;

(2) with respect to an irrevocable trust, a creditor or assignee of the settlor may reach the maximum amount that can be distributed to or for the settlor's benefit. If a trust has more than one settlor, the amount the creditor or assignee of a particular settlor may reach may not exceed the settlor's interest in the portion of the trust attributable to that settlor's contribution; and

(3) after the death of a settlor, and subject to the settlor's right to direct the source from which liabilities will be paid, the property of a trust that was revocable at the settlor's death is subject to claims of the settlor's creditors, costs of administration of the settlor's estate, the expenses of the settlor's funeral and disposal of remains and statutory allowances to a surviving spouse and children to the extent the settlor's probate estate is inadequate to satisfy those claims, costs, expenses and allowances.

B. For purposes of this section:

(1) during the period the power may be exercised, the holder of a power of withdrawal is treated in the same manner as the settlor of a revocable trust to the extent of the property subject to the power; and

(2) upon the lapse, release or waiver of the power, the holder is treated as the settlor of the trust only to the extent the value of the property affected by the lapse, release or waiver exceeds the greater of the amount specified in Section 2041(b)(2), 2514(e) or 2503(b) of the Internal Revenue Code of 1986, as amended.

Section 5-506. OVERDUE DISTRIBUTION.--Whether or not a trust contains a spendthrift provision, a creditor or assignee of a beneficiary may reach a mandatory distribution of income or principal, including a distribution upon termination of the trust, if the trustee has not made the distribution to the beneficiary within a reasonable time after the designated distribution date.

Section 5-507. PERSONAL OBLIGATIONS OF TRUSTEE.--Trust property is not subject to personal obligations of the trustee, even if the trustee becomes insolvent or bankrupt.

ARTICLE 6 REVOCABLE TRUSTS

Section 6-601. CAPACITY OF SETTLOR OF REVOCABLE TRUST.--The capacity required to create, amend, revoke or add property to a revocable trust, or to direct the actions of the trustee of a revocable trust, is the same as that required to make a will.

Section 6-602. REVOCATION OR AMENDMENT OF REVOCABLE TRUST.--

A. Unless the terms of a trust expressly provide that the trust is irrevocable, the settlor may revoke or amend the trust. This subsection does not apply to a trust created under an instrument executed before the effective date of the Uniform Trust Code.

B. If a revocable trust is created or funded by more than one settlor:

(1) to the extent the trust consists of community property, the trust may be revoked by either spouse acting alone but may be amended only by joint action of both spouses; and

(2) to the extent the trust consists of property other than community property, each settlor may revoke or amend the trust with regard to the portion of the trust property attributable to that settlor's contribution.

C. The settlor may revoke or amend a revocable trust:

(1) by substantial compliance with a method provided in the terms of the trust; or

(2) if the terms of the trust do not provide a method or the method provided in the terms is not expressly made exclusive, by:

(a) a later will or codicil that expressly refers to the trust or specifically devises property that would otherwise have passed according to the terms of the trust; or

(b) any other method manifesting clear and convincing evidence of the settlor's intent.

D. Upon revocation of a revocable trust, the trustee shall deliver the trust property as the settlor directs.

E. A settlor's powers with respect to revocation, amendment or distribution of trust property may be exercised by an agent under a power of attorney only to the extent expressly authorized by the terms of the trust or the power.

F. A conservator of the settlor or, if no conservator has been appointed, a guardian of the settlor may exercise a settlor's powers with respect to revocation, amendment or distribution of trust property only with the approval of the court supervising the conservatorship or guardianship.

G. A trustee who does not know that a trust has been revoked or amended is not liable to the settlor or settlor's successors in interest for distributions made and other actions taken on the assumption that the trust had not been amended or revoked.

Section 6-603. SETTLOR'S POWERS--POWERS OF WITHDRAWAL.-

-

A. While a trust is revocable and the settlor has capacity to revoke the trust, rights of the beneficiaries are subject to the control of, and the duties of the trustee are owed exclusively to, the settlor.

B. If a revocable trust has more than one settlor, the duties of the trustee are owed to all of the settlors having capacity to revoke the trust.

C. During the period the power may be exercised, the holder of a power of withdrawal has the rights of a settlor of a revocable trust under this section to the extent of the property subject to the power.

ARTICLE 7 OFFICE OF TRUSTEE

Section 7-701. ACCEPTING OR DECLINING TRUSTEESHIP.--

A. Except as otherwise provided in Subsection C of this section, a person designated as trustee accepts the trusteeship:

(1) by substantially complying with a method of acceptance provided in the terms of the trust; or

(2) if the terms of the trust do not provide a method or the method provided in the terms is not expressly made exclusive, by accepting delivery of the trust property, exercising powers or performing duties as trustee or otherwise indicating acceptance of the trusteeship.

B. A person designated as trustee who has not yet accepted the trusteeship may reject the trusteeship. A designated trustee who does not accept the trusteeship within a reasonable time after knowing of the designation is deemed to have rejected the trusteeship.

C. A person designated as trustee, without accepting the trusteeship, may:

(1) act to preserve the trust property if, within a reasonable time after acting, the person sends a rejection of the trusteeship to the settlor or, if the settlor is dead or lacks capacity, to a qualified beneficiary; and

(2) inspect or investigate trust property to determine potential liability under environmental law or other law or for any other purpose.

Section 7-702. TRUSTEE'S BOND.--

A. A trustee shall give bond to secure performance of the trustee's duties only if the court finds that a bond is needed to protect the interests of the beneficiaries or is required by the terms of the trust and the court has not dispensed with the requirement.

B. The court may specify the amount of a bond, its liabilities and whether sureties are necessary. The court may modify or terminate a bond at any time.

Section 7-703. CO-TRUSTEES.--

A. Co-trustees who are unable to reach a unanimous decision may act by majority decision.

B. If a vacancy occurs in a co-trusteeship, the remaining co-trustees may act for the trust.

C. A co-trustee must participate in the performance of a trustee's function unless the co-trustee is unavailable to perform the function because of absence, illness, disqualification under other law or other temporary incapacity, or the co-trustee has properly delegated the performance of the function to another trustee.

D. If a co-trustee is unavailable to perform duties because of absence, illness, disqualification under other law or other temporary incapacity, and prompt action is necessary to achieve the purposes of the trust or to avoid injury to the trust property, the remaining co-trustee or a majority of the remaining co-trustees may act for the trust.

E. A trustee may not delegate to a co-trustee the performance of a function the settlor reasonably expected the trustees to perform jointly. Unless a delegation was irrevocable, a trustee may revoke a delegation previously made.

F. Except as otherwise provided in Subsection G of this section, a trustee who does not join in an action of another trustee is not liable for the action.

G. Each trustee shall exercise reasonable care to:

(1) prevent a co-trustee from committing a serious breach of trust;
and

(2) compel a co-trustee to redress a serious breach of trust.

H. A dissenting trustee who joins in an action at the direction of the majority of the trustees and who notified any co-trustee of the dissent at or before the time of the action is not liable for the action unless the action is a serious breach of trust.

Section 7-704. VACANCY IN TRUSTEESHIP--APPOINTMENT OF SUCCESSOR.--

A. A vacancy in a trusteeship occurs if:

- (1) a person designated as trustee rejects the trusteeship;
- (2) a person designated as trustee cannot be identified or does not exist;
- (3) a trustee resigns;
- (4) a trustee is disqualified or removed;
- (5) a trustee dies; or
- (6) a guardian or conservator is appointed for an individual serving as trustee.

B. If one or more co-trustees remain in office, a vacancy in a trusteeship need not be filled. A vacancy in a trusteeship must be filled if the trust has no remaining trustee.

C. A vacancy in a trusteeship of a noncharitable trust that is required to be filled must be filled in the following order of priority:

- (1) by a person designated in the terms of the trust to act as successor trustee;
- (2) by a person appointed by unanimous agreement of the qualified beneficiaries; or
- (3) by a person appointed by the court.

D. A vacancy in a trusteeship of a charitable trust that is required to be filled must be filled in the following order of priority:

- (1) by a person designated in the terms of the trust to act as successor trustee;

(2) by a person selected by the charitable organizations expressly designated to receive distributions under the terms of the trust if the attorney general concurs in the selection; or

(3) by a person appointed by the court.

E. Whether or not a vacancy in a trusteeship exists or is required to be filled, the court may appoint an additional trustee or special fiduciary whenever the court considers the appointment necessary for the administration of the trust.

Section 7-705. RESIGNATION OF TRUSTEE.--

A. A trustee may resign:

(1) upon at least thirty days' notice to the qualified beneficiaries and all co-trustees; or

(2) with the approval of the court.

B. In approving a resignation, the court may issue orders and impose conditions reasonably necessary for the protection of the trust property.

C. Any liability of a resigning trustee or of any sureties on the trustee's bond for acts or omissions of the trustee is not discharged or affected by the trustee's resignation.

Section 7-706. REMOVAL OF TRUSTEE.--

A. The settlor, a co-trustee or a beneficiary may request the court to remove a trustee or a trustee may be removed by the court on its own initiative.

B. The court may remove a trustee if:

(1) the trustee has committed a serious breach of trust;

(2) lack of cooperation among co-trustees substantially impairs the administration of the trust;

(3) because of unfitness, unwillingness or persistent failure of the trustee to administer the trust effectively, the court determines that removal of the trustee best serves the interests of the beneficiaries; or

(4) there has been a substantial change of circumstances or removal is requested by all of the qualified beneficiaries, the court finds that removal of the trustee best serves the interests of all of the beneficiaries and is not inconsistent

with a material purpose of the trust, and a suitable co-trustee or successor trustee is available.

C. Pending a final decision on a request to remove a trustee, or in lieu of or in addition to removing a trustee, the court may order such appropriate relief as may be necessary to protect the trust property or the interests of the beneficiaries.

Section 7-707. DELIVERY OF PROPERTY BY FORMER TRUSTEE.--

A. Unless a co-trustee remains in office or the court otherwise orders, and until the trust property is delivered to a successor trustee or other person entitled to it, a trustee who has resigned or been removed has the duties of a trustee and the powers necessary to protect the trust property.

B. A trustee who has resigned or been removed shall proceed expeditiously to deliver the trust property within the trustee's possession to the co-trustee, successor trustee or other person entitled to it.

Section 7-708. COMPENSATION OF TRUSTEE.--

A. If the terms of a trust do not specify the trustee's compensation, a trustee is entitled to compensation that is reasonable under the circumstances.

B. If the terms of a trust specify the trustee's compensation, the trustee is entitled to be compensated as specified, but the court may allow more or less compensation if:

(1) the duties of the trustee are substantially different from those contemplated when the trust was created; or

(2) the compensation specified by the terms of the trust would be unreasonably low or high.

Section 7-709. REIMBURSEMENT OF EXPENSES.--

A. A trustee is entitled to be reimbursed out of the trust property, with interest as appropriate, for:

(1) expenses that were properly incurred in the administration of the trust; and

(2) to the extent necessary to prevent unjust enrichment of the trust, expenses that were not properly incurred in the administration of the trust.

B. An advance by the trustee of money for the protection of the trust gives rise to a lien against trust property to secure reimbursement with reasonable interest.

**ARTICLE 8
DUTIES AND POWERS OF TRUSTEE**

Section 8-801. DUTY TO ADMINISTER TRUST.--Upon acceptance of a trusteeship, the trustee shall administer the trust in good faith, in accordance with its terms and purposes and the interests of the beneficiaries and in accordance with the Uniform Trust Code.

Section 8-802. DUTY OF LOYALTY.--

A. A trustee shall administer the trust solely in the interests of the beneficiaries.

B. Subject to the rights of persons dealing with or assisting the trustee as provided in Section 10-1011 of the Uniform Trust Code, a sale, encumbrance or other transaction involving the investment or management of trust property entered into by the trustee for the trustee's own personal account or which is otherwise affected by a conflict between the trustee's fiduciary and personal interests is voidable by a beneficiary affected by the transaction unless:

(1) the transaction was authorized by the terms of the trust;

(2) the transaction was approved by the court;

(3) the beneficiary consented to the trustee's conduct, ratified the transaction or released the trustee in compliance with Section 10-1008 of the Uniform Trust Code; or

(4) the transaction involved a contract entered into or claim acquired by the trustee before the person became or contemplated becoming trustee.

C. A sale, encumbrance or other transaction involving the investment or management of trust property is presumed to be affected by a conflict between personal and fiduciary interests if it is entered into by the trustee with:

(1) the trustee's spouse;

(2) the trustee's descendants, siblings, parents or the spouse of any of them;

(3) an agent or attorney of the trustee; or

(4) a corporation or other person or enterprise in which the trustee, or a person that owns a significant interest in the trustee, has an interest that might affect the trustee's best judgment.

D. A transaction between a trustee and a beneficiary that does not concern trust property but that occurs during the existence of the trust or while the trustee retains significant influence over the beneficiary and from which the trustee obtains an advantage is voidable by the beneficiary unless the trustee establishes that the transaction was fair to the beneficiary.

E. A transaction not concerning trust property in which the trustee engages in the trustee's individual capacity involves a conflict between personal and fiduciary interests if the transaction concerns an opportunity properly belonging to the trust.

F. An investment by a trustee in securities of an investment company or investment trust to which the trustee, or its affiliate, provides services in a capacity other than as trustee is not presumed to be affected by a conflict between personal and fiduciary interests if the investment complies with the Uniform Prudent Investor Act. The trustee may be compensated by the investment company or investment trust for providing those services out of fees charged to the trust if the trustee at least annually notifies the persons entitled under Section 8-813 of the Uniform Trust Code to receive a copy of the trustee's annual report of the rate and method by which the compensation was determined.

G. In voting shares of stock or in exercising powers of control over similar interests in other forms of enterprise, the trustee shall act in the best interests of the beneficiaries. If the trust is the sole owner of a corporation or other form of enterprise, the trustee shall elect or appoint directors or other managers who will manage the corporation or enterprise in the best interests of the beneficiaries.

H. This section does not preclude the following transactions, if fair to the beneficiaries:

(1) an agreement between a trustee and a beneficiary relating to the appointment or compensation of the trustee;

(2) payment of reasonable compensation to the trustee;

(3) a transaction between a trust and another trust, decedent's estate or conservatorship of which the trustee is a fiduciary or in which a beneficiary has an interest;

(4) a deposit of trust money in a regulated financial-service institution operated by the trustee; or

(5) an advance by the trustee of money for the protection of the trust.

I. The court may appoint a special fiduciary to make a decision with respect to any proposed transaction that might violate this section if entered into by the trustee.

Section 8-803. IMPARTIALITY.--If a trust has two or more beneficiaries, the trustee shall act impartially in investing, managing and distributing the trust property, giving due regard to the beneficiaries' respective interests.

Section 8-804. PRUDENT ADMINISTRATION.--A trustee shall administer the trust as a prudent person would, by considering the purposes, terms, distributional requirements and other circumstances of the trust. In satisfying this standard, the trustee shall exercise reasonable care, skill and caution.

Section 8-805. COSTS OF ADMINISTRATION.--In administering a trust, the trustee may incur only costs that are reasonable in relation to the trust property, the purposes of the trust and the skills of the trustee.

Section 8-806. TRUSTEE'S SKILLS.--A trustee who has special skills or expertise, or is named trustee in reliance upon the trustee's representation that the trustee has special skills or expertise, shall use those special skills or expertise.

Section 8-807. DELEGATION BY TRUSTEE.--

A. A trustee may delegate duties and powers that a prudent trustee of comparable skills could properly delegate under the circumstances. The trustee shall exercise reasonable care, skill and caution in:

- (1) selecting an agent;
- (2) establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- (3) periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

B. In performing a delegated function, an agent owes a duty to the trust to exercise reasonable care to comply with the terms of the delegation.

C. A trustee who complies with Subsection A of this section is not liable to the beneficiaries or to the trust for an action of the agent to whom the function was delegated.

D. By accepting a delegation of powers or duties from the trustee of a trust that is subject to the law of this state, an agent submits to the jurisdiction of the courts of this state.

Section 8-808. POWERS TO DIRECT.--

A. While a trust is revocable, the trustee may follow a direction of the settlor that is contrary to the terms of the trust.

B. If the terms of a trust confer upon a person other than the settlor of a revocable trust power to direct certain actions of the trustee, the trustee shall act in accordance with an exercise of the power unless the attempted exercise is manifestly contrary to the terms of the trust or the trustee knows the attempted exercise would constitute a serious breach of a fiduciary duty that the person holding the power owes to the beneficiaries of the trust.

C. The terms of a trust may confer upon a trustee or other person a power to direct the modification or termination of the trust.

D. A person, other than a beneficiary, who holds a power to direct is presumptively a fiduciary who, as such, is required to act in good faith with regard to the purposes of the trust and the interests of the beneficiaries. The holder of a power to direct is liable for any loss that results from breach of a fiduciary duty.

Section 8-809. CONTROL AND PROTECTION OF TRUST PROPERTY.--A trustee shall take reasonable steps to take control of and protect the trust property.

Section 8-810. RECORDKEEPING AND IDENTIFICATION OF TRUST PROPERTY.--

A. A trustee shall keep adequate records of the administration of the trust.

B. A trustee shall keep trust property separate from the trustee's own property.

C. Except as otherwise provided in Subsection D of this section, a trustee shall cause the trust property to be designated so that the interest of the trust, to the extent feasible, appears in records maintained by a party other than a trustee or beneficiary.

D. If the trustee maintains records clearly indicating the respective interests, a trustee may invest as a whole the property of two or more separate trusts.

Section 8-811. ENFORCEMENT AND DEFENSE OF CLAIMS.--A trustee shall take reasonable steps to enforce claims of the trust and to defend claims against the trust.

Section 8-812. COLLECTING TRUST PROPERTY.--A trustee shall take reasonable steps to compel a former trustee or other person to deliver trust property to the trustee and to redress a breach of trust known to the trustee to have been committed by a former trustee.

Section 8-813. DUTY TO INFORM AND REPORT.--

A. A trustee shall keep the qualified beneficiaries of the trust reasonably informed about the administration of the trust and of the material facts necessary for them to protect their interests. Unless unreasonable under the circumstances, a trustee shall promptly respond to a beneficiary's request for information related to the administration of the trust.

B. A trustee:

(1) upon request of a beneficiary, shall promptly furnish to the beneficiary a copy of the trust instrument;

(2) within sixty days after accepting a trusteeship, shall notify the qualified beneficiaries of the acceptance and of the trustee's name, address and telephone number;

(3) within sixty days after the date the trustee acquires knowledge of the creation of an irrevocable trust, or the date the trustee acquires knowledge that a formerly revocable trust has become irrevocable, whether by the death of the settlor or otherwise, shall notify the qualified beneficiaries of the trust's existence, of the identity of the settlor or settlors, of the right to request a copy of the trust instrument and of the right to a trustee's report as provided in Subsection C of this section; and

(4) shall notify the qualified beneficiaries in advance of any change in the method or rate of the trustee's compensation.

C. A trustee shall send to the distributees or permissible distributees of trust income or principal, and to other qualified or nonqualified beneficiaries who request it, at least annually and at the termination of the trust, a report of the trust property, liabilities, receipts and disbursements, including the source and amount of the trustee's compensation, a listing of the trust assets and, if feasible, their respective market values. Upon a vacancy in a trusteeship, unless a co-trustee remains in office, a report

must be sent to the qualified beneficiaries by the former trustee. A personal representative, conservator or guardian may send the qualified beneficiaries a report on behalf of a deceased or incapacitated trustee.

D. A beneficiary may waive the right to a trustee's report or other information otherwise required to be furnished under this section. A beneficiary, with respect to future reports and other information, may withdraw a waiver previously given.

Section 8-814. DISCRETIONARY POWERS--TAX SAVINGS.--

A. Notwithstanding the breadth of discretion granted to a trustee in the terms of the trust, including the use of such terms as "absolute", "sole" or "uncontrolled", the trustee shall exercise a discretionary power in good faith and in accordance with the terms and purposes of the trust and the interests of the beneficiaries.

B. Subject to Subsection D of this section, and unless the terms of the trust expressly indicate that a rule in this subsection does not apply:

(1) a person other than a settlor who is a beneficiary and trustee of a trust that confers on the trustee a power to make discretionary distributions to or for the trustee's personal benefit may exercise the power only in accordance with an ascertainable standard relating to the trustee's individual health, education, support or maintenance within the meaning of Section 2041(b)(1)(A) or 2514(c)(1) of the Internal Revenue Code of 1986, as amended; and

(2) a trustee may not exercise a power to make discretionary distributions to satisfy a legal obligation of support that the trustee personally owes another person.

C. A power whose exercise is limited or prohibited by Subsection B of this section may be exercised by a majority of the remaining trustees whose exercise of the power is not so limited or prohibited. If the power of all trustees is so limited or prohibited, the court may appoint a special fiduciary with authority to exercise the power.

D. Subsection B of this section does not apply to:

(1) a power held by the settlor's spouse who is the trustee of a trust for which a marital deduction, as defined in Section 2056(b)(5) or 2523(b)(5) of the Internal Revenue Code of 1986, as amended, was previously allowed;

(2) any trust during any period that the trust may be revoked or amended by its settlor; or

(3) a trust if contributions to the trust qualify for the annual exclusion under Section 2503(c) of the Internal Revenue Code of 1986, as amended.

Section 8-815. GENERAL POWERS OF TRUSTEE.--

A. A trustee, without authorization by the court, may exercise:

(1) powers conferred by the terms of the trust; or

(2) except as limited by the terms of the trust:

(a) all powers over the trust property that an unmarried competent owner has over individually owned property;

(b) any other powers appropriate to achieve the proper investment, management and distribution of the trust property; and

(c) any other powers conferred by the Uniform Trust Code.

B. The exercise of a power is subject to the fiduciary duties prescribed by this article.

**ARTICLE 9
is reserved.**

**ARTICLE 10
LIABILITY OF TRUSTEES AND RIGHTS OF PERSONS
DEALING WITH TRUSTEES**

Section 10-1001. BREACH OF TRUST.--A violation by a trustee of a duty the trustee owes to a beneficiary is a breach of trust.

Section 10-1002. DAMAGES FOR BREACH OF TRUST.--If more than one trustee is liable to the beneficiaries for a breach of trust, a trustee is entitled to contribution from the other trustee or trustees. A trustee is not entitled to contribution if the trustee was substantially more at fault than another trustee or if the trustee committed the breach of trust in bad faith or with reckless indifference to the purposes of the trust or the interests of the beneficiaries. A trustee who received a benefit from the breach of trust is not entitled to contribution from another trustee to the extent of the benefit received.

Section 10-1003. DAMAGES IN ABSENCE OF BREACH.--

A. A trustee is accountable to an affected beneficiary for any profit made by the trustee arising from the administration of the trust, even absent a breach of trust.

B. Absent a breach of trust, a trustee is not liable to a beneficiary for a loss or depreciation in the value of trust property or for not having made a profit.

Section 10-1004. ATTORNEY FEES AND COSTS.--In a judicial proceeding involving the administration of a trust, the court, as justice and equity may require, may award costs and expenses, including reasonable attorney fees, to any party, to be paid by

another party or from the trust that is the subject of the controversy.

Section 10-1005. RELIANCE ON TRUST INSTRUMENT.--A trustee who acts in reasonable reliance on the terms of the trust as expressed in the trust instrument is not liable to a beneficiary for a breach of trust to the extent the breach resulted from the reliance.

Section 10-1006. EVENT AFFECTING ADMINISTRATION OR DISTRIBUTION.--If the happening of an event, including marriage, divorce, performance of educational requirements or death, affects the administration or distribution of a trust, a trustee who has exercised reasonable care to ascertain the happening of the event is not liable for a loss resulting from the trustee's lack of knowledge.

Section 10-1007. EXCULPATION OF TRUSTEE.--

A. A term of a trust relieving a trustee of liability for breach of trust is unenforceable to the extent that it:

(1) relieves the trustee of liability for breach of trust committed in bad faith or with reckless indifference to the purposes of the trust or the interests of the beneficiaries; or

(2) was inserted as the result of an abuse by the trustee of a fiduciary or confidential relationship to the settlor.

B. An exculpatory term drafted or caused to be drafted by the trustee is invalid as an abuse of a fiduciary or confidential relationship unless the trustee proves that the exculpatory term is fair under the circumstances and that its existence and contents were adequately communicated to the settlor.

Section 10-1008. BENEFICIARY'S CONSENT, RELEASE OR RATIFICATION.--A trustee is not liable to a beneficiary for breach of trust if the beneficiary consented to the conduct constituting the breach, released the trustee from liability for the breach or ratified the transaction constituting the breach, unless:

A. the consent, release or ratification of the beneficiary was induced by improper conduct of the trustee; or

B. at the time of the consent, release or ratification, the beneficiary did not know of the beneficiary's rights or of the material facts relating to the breach.

Section 10-1009. LIMITATION ON PERSONAL LIABILITY OF TRUSTEE.--

A. Except as otherwise provided in the contract, a trustee is not personally liable on a contract properly entered into in the trustee's fiduciary capacity in the course of administering the trust if the trustee in the contract disclosed the fiduciary capacity.

B. A trustee is personally liable for torts committed in the course of administering a trust, or for obligations arising from ownership or control of trust property, including liability for violation of environmental law, only if the trustee is personally at fault.

C. A claim based on a contract entered into by a trustee in the trustee's fiduciary capacity, on an obligation arising from ownership or control of trust property, or on a tort committed in the course of administering a trust, may be asserted in a judicial proceeding against the trustee in the trustee's fiduciary capacity, whether or not the trustee is personally liable for the claim.

Section 10-1010. is reserved.

Section 10-1011. PROTECTION OF PERSON DEALING WITH TRUSTEE.--

A. A person other than a beneficiary who in good faith assists a trustee, or who in good faith and for value deals with a trustee, without knowledge that the trustee is exceeding or improperly exercising the trustee's powers is protected from liability as if the trustee properly exercised the power.

B. A person other than a beneficiary who in good faith deals with a trustee is not required to inquire into the extent of the trustee's powers or the propriety of their exercise.

C. A person who in good faith delivers assets to a trustee need not ensure their proper application.

D. A person other than a beneficiary who in good faith assists a former trustee, or who in good faith and for value deals with a former trustee, without knowledge that the trusteeship has terminated, is protected from liability as if the former trustee were still a trustee.

E. Comparable protective provisions of other laws relating to commercial transactions or transfer of securities by fiduciaries prevail over the protection provided by this section.

Section 10-1012. CERTIFICATION OF TRUST.--

A. Instead of furnishing a copy of the trust instrument to a person other than a beneficiary, the trustee may furnish to the person a certification of trust containing the following information:

- (1) that the trust exists and the date the trust instrument was executed;
- (2) the identity of the settlor;
- (3) the identity and address of the currently acting trustee;
- (4) the powers of the trustee;
- (5) the revocability or irrevocability of the trust and the identity of any person holding a power to revoke the trust;
- (6) the authority of co-trustees to sign or otherwise authenticate and whether all or less than all are required in order to exercise powers of the trustee;
- (7) the trust's taxpayer identification number;
- (8) the manner of taking title to trust property; and
- (9) if an action is to be undertaken through an agent, that delegation of the action to an agent is not prohibited by the trust instrument.

B. A certification of trust may be signed or otherwise authenticated by any trustee. The recipient of a certification of trust that will be used to affect title to real property may require the certification to be acknowledged by a trustee so as to allow it to be recorded.

C. A certification of trust must state that the trust has not been revoked, modified or amended in any manner that would cause the representations contained in the certification of trust to be incorrect.

D. A certification of trust need not contain the dispositive terms of a trust.

E. A recipient of a certification of trust may require the trustee to furnish copies of those excerpts from the original trust instrument and later amendments that

designate the trustee and confer upon the trustee the power to act in the pending transaction.

F. A person who acts in reliance upon a certification of trust without knowledge that the representations contained therein are incorrect is not liable to any person for so acting and may assume without inquiry the existence of the facts contained in the certification. Knowledge of the terms of the trust may not be inferred solely from the fact that a copy of all or part of the trust instrument is held by the person relying upon the certification.

G. A person who in good faith enters into a transaction in reliance upon a certification of trust may enforce the transaction against the trust property as if the representations contained in the certification were correct.

H. A person making a demand for the trust instrument in addition to a certification of trust or excerpts is liable for damages if the court determines that the person did not act in good faith in demanding the trust instrument.

I. This section does not limit the right of a person to obtain a copy of the trust instrument in a judicial proceeding concerning the trust.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. A new section of the Public School Code is enacted to read:

"KINDERGARTEN PLUS--PILOT PROJECT--ELIGIBILITY--APPLICATION--REPORTING AND EVACUATION--CREATING A FUND.--

A. The "kindergarten plus" pilot project is created as a three-year study that extends the kindergarten year by four months for participating students and measures the effect of additional time on literacy, numeracy and social skills development. The purpose of kindergarten plus is to demonstrate that increased time in kindergarten narrows the achievement gap between disadvantaged students and other students and increases cognitive skills and leads to higher test scores for all participants.

B. The pilot project shall be administered by the department of education and shall provide the funding for approved full-day kindergarten programs to be extended by forty instructional days, beginning approximately two months earlier and ending approximately two months later than other classes. For the first year, the pilot project shall begin July 1 and run two hundred twenty instructional days; in the second and third years, kindergarten plus may begin or end at any time that provides for the same number of instructional days.

C. Kindergarten plus shall be conducted in the Albuquerque, Gallup-McKinley, Gadsden and Las Cruces school districts. Full-day kindergarten programs in high-poverty public schools in those school districts are eligible to apply for kindergarten plus. For the purposes of kindergarten plus, "high-poverty school" means a public school in which eighty-five percent or more of the students are eligible for free or reduced lunch. If enough eligible high-poverty schools in those school districts do not qualify for the pilot project for the amount of funding available, the department of education may extend eligibility to high-poverty schools in other school districts.

D. The department of education shall determine application requirements and procedures and criteria for evaluating applications. An applicant must demonstrate that its kindergarten plus program will meet all state board standards and employ only qualified teachers and other staff. The department shall provide additional professional development for kindergarten plus teachers in how young children learn to read. Teachers shall be paid at the same rate and under the same terms for kindergarten plus as teachers are paid for regular full-day kindergarten programs.

E. Students participating in kindergarten plus shall be evaluated at the beginning of kindergarten plus and their progress in literacy, numeracy and cognitive and social skills shall be measured through standardized assessments in kindergarten and in first grade. The department of education shall provide additional professional development for kindergarten plus teachers in how young children learn to read.

F. The department of education shall establish reporting and evaluation requirements for participating schools, including student and program assessments. The department shall provide interim and final reports annually to the legislature and the governor on the efficacy of the pilot project.

G. In addition to legislative appropriations for the pilot project, the department of education shall seek public and private grants and donations. Grants and donations shall be deposited in the "kindergarten plus fund" created in the state treasury. Income from investment of the fund shall be deposited in the fund. The department shall administer the fund and money in the fund is appropriated to the department to carry out the purposes of the pilot project. Money shall be expended in accordance with the terms of the grants and donations. Unless otherwise specified by the terms of a grant or donation, money in the fund at the end of the pilot project shall revert to the general fund. A. Any police officer with the motor transportation division or New Mexico state police division of the department of public safety, having reason to believe that the weight of a vehicle and load is unlawful, may require the driver to stop and submit to weighing of the vehicle and load by means of either portable or stationary scales and may require the vehicle to be driven to the nearest scales approved by the department of public safety if the scales are within five miles.

B. When a police officer with the motor transportation division or New Mexico state police division of the department of the public safety or a transportation inspector, upon weighing a vehicle or combination, determines that the gross vehicle weight or combination gross vehicle weight exceeds the maximum authorized by

Sections 66-7-409 and 66-7-410 NMSA 1978, the officer or inspector shall require the driver or owner of the vehicle or combination to unload that portion of the load necessary to decrease the gross vehicle weight or combination gross vehicle weight to the authorized maximum.

C. Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to weighing or who fails or refuses, when directed by a duly authorized police officer with the motor transportation division or New Mexico state police division of the department of public safety or a transportation inspector, upon a weighing of the vehicle, to unload the vehicle and otherwise comply with the provisions of this section is guilty of a misdemeanor.

D. Any shipper or any other person loading the vehicle who intentionally overloads a vehicle which he has reason to believe will travel in that condition upon a public highway is guilty of a misdemeanor and shall be fined in accordance with Subsection E of this section.

E. In all cases of violations of weight limitations, the penalties shall be assessed and imposed in accordance with the following schedule:

"66-7-412. SPECIAL FARM PERMITS.--The motor transportation division of the department of public safety shall have the authority to issue special permits at all ports of entry where registration stations or places where inspection and registration services are maintained by the motor transportation division to all implements of husbandry using the highways, including farm tractors, and to the instrumentalities or vehicles that may be carrying the implements of husbandry, including farm tractors, when the securing of these permits is required by law."

Section 4. Section 66-7-413 NMSA 1978 (being Laws 1978, Chapter 35, Section 484, as amended) is amended to read:

"66-7-413. PERMITS FOR EXCESSIVE SIZE AND WEIGHT--SPECIAL NOTIFICATION REQUIRED ON MOVEMENT OF MANUFACTURED HOMES.--

A. The department of public safety and local highway authorities may, in their discretion, upon application in writing and good cause being shown, issue a special permit in writing authorizing the applicant to operate or move a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 on any highway under the jurisdiction of the state transportation commission or local authorities. Except for the movement of manufactured homes, a permit may be granted, in cases of emergency, for the transportation of loads on a certain unit or combination of equipment for a specified period of time not to exceed one year, and the permit shall contain the route to be traversed, the type of load to be transported and any other restrictions or conditions deemed necessary by the body granting the permit. In every other case, the permit shall be issued for a single trip and may designate the route to be traversed and contain any other restrictions or conditions deemed necessary by the body granting the permit. Every permit shall be carried in the vehicle to which it refers and shall be opened for inspection to any peace officer. It is a misdemeanor for any person to violate any of the conditions or terms of the special permit.

B. The department of public safety shall charge and collect, when the movement consists of any load of a width of twenty feet or greater for a distance of five miles or more, the sum of three hundred dollars (\$300) a day or fraction thereof to defray the cost of state or local police escort. The permit issued and the fee charged shall be based upon the entire movement at one time requiring police escort and not upon the number of vehicles involved.

C. The department of public safety shall promulgate regulations in accordance with the State Rules Act pertaining to safety practices, liability insurance and equipment for escort vehicles provided by the motor carrier himself and for escort vehicles provided by a private business in this state.

(1) If a motor carrier provides his own escort vehicles and personnel, the department of public safety shall not charge an escort fee but shall provide the motor carrier escort personnel with a copy of applicable regulations and

shall inspect the escort vehicles for the safety equipment required by the regulations. If the escort vehicles and personnel meet the requirements set forth in the regulations and if the motor carrier holds a valid certificate of public convenience and necessity or permit, as applicable, issued pursuant to Chapter 65, Article 2 NMSA 1978, the department of public safety shall issue the special permit.

(2) If the escort service is a private business, the business shall have applied to the public regulation commission for and been issued a permit or certificate to operate as a contract or common motor carrier pursuant to Chapter 65, Article 2 NMSA 1978. The public regulation commission shall supply copies of applicable regulations to the business by mail and shall supply additional copies upon request. If the escort vehicles and personnel meet the requirements set forth in the regulations and if the escort service holds a certificate, the special permit shall be issued and the department of public safety shall not charge an escort fee.

(3) The movement of vehicles upon the highways of this state requiring a special permit and required to use an escort of the type noted in Paragraphs (1) and (2) of this subsection is subject to department of public safety authority and inspection at all times.

(4) The state highway and transportation department shall conduct engineering investigations and engineering inspections to determine which four-lane highways are safe for the operation or movement of manufactured homes without an escort. After making that determination, the state highway and transportation department shall hold public hearings in the area of the state affected by the determination, after which it may adopt regulations designating those four-lane highways as being safe for the operation or movement of manufactured homes without an escort. If any portion of such a four-lane highway lies within the boundaries of a municipality, the state highway and transportation department, after obtaining the approval of the municipal governing body, shall include such portions in its regulations.

D. Except for the movement of manufactured homes, special permits may be issued for a single vehicle or combination of vehicles by the department of public safety for a period not to exceed one year for a fee of sixty dollars (\$60.00). The permits may allow excessive height, length and width for a vehicle or combination of vehicles or load thereon and may include a provision for excessive weight if the operation is to be within the vicinity of a municipality.

E. Special permits for a single trip for a vehicle or combination of vehicles or load thereon of excessive weight, width, length and height may be issued by the department of public safety for a single vehicle for a fee of fifteen dollars (\$15.00).

F. If the vehicle for which a permit is issued under this section is a manufactured home, the department of public safety or local highway authority issuing the permit shall furnish the following information to the property tax division of the taxation and revenue department, which shall then forward the information:

(1) to the county assessor of any county from which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to if within the same county, the name of the owner of the manufactured home and the identification and registration numbers of the manufactured home;

(2) to the county assessor of any county in this state to which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to, the name of the owner of the manufactured home and the registration and identification numbers of the manufactured home; and

(3) to the owner of a manufactured home having a destination in this state, notification that the information required in Paragraphs (1) and (2) of this subsection is being given to the respective county assessors and that manufactured homes are subject to property taxation.

G. Except as provided in Subsection H of this section, if the movement of a manufactured home originates in this state, no permit shall be issued under Subsection F of this section until the owner of the manufactured home or his authorized agent obtains and presents to the department of public safety proof that a certificate has been issued by the county assessor or treasurer of the county in which the manufactured home movement originates showing that either:

(1) all property taxes due or to become due on the manufactured home for the current tax year or any past tax years have been paid, except for manufactured homes located on an Indian reservation; or

(2) no liability for property taxes on the manufactured home exists for the current tax year or any past tax years, except for manufactured homes located on an Indian reservation.

H. The movement of a manufactured home from the lot or business location of a manufactured home dealer to its destination designated by an owner-purchaser is not subject to the requirements of Subsection G of this section if the manufactured home movement originates from the lot or business location of the dealer and the manufactured home was part of his inventory prior to the sale to the owner-purchaser; however, the movement of a manufactured home by a dealer or his authorized agent as a result of a sale or trade-in from a nondealer-owner is subject to the requirements of Subsection G of this section whether the destination is the business location of a dealer or some other destination.

I. No permit shall be issued under this section for movement of a manufactured home whose width exceeds eighteen feet with no more than a six-inch roof overhang on the left side or twelve inches on the right side in addition to the eighteen-foot width of the manufactured home. Manufactured homes exceeding the

limitations of this section shall only be moved on dollies placed on the front and the rear of the structure.

J. The secretary of public safety may by regulation provide for movers of manufactured homes to self-issue permits for certain sizes of manufactured homes over specific routes; however, in no case may the cost of each permit be less than fifteen dollars (\$15.00).

K. The secretary of public safety may provide by regulation for dealers of implements of husbandry to self-issue permits for the movement of certain sizes of implements of husbandry from the lot or business location of the dealer over specific routes with specific escort requirements, if necessary, to a destination designated by an owner-purchaser or for purposes of a working demonstration on the property of a proposed owner-purchaser. The department of public safety shall charge a fee for each self-issued permit not to exceed fifteen dollars (\$15.00).

L. Any private motor carrier requesting an oversize or overweight permit shall provide proof of insurance in at least the following amounts:

(1) bodily injury liability, providing:

(a) fifty thousand dollars (\$50,000) for each person; and

(b) one hundred thousand dollars (\$100,000) for each accident; and

(2) property damage liability, providing twenty-five thousand dollars (\$25,000) for each accident.

M. Any common motor carrier requesting an oversize permit shall produce a copy of a form "e" or other acceptable evidence that the common motor carrier maintains the insurance minimums prescribed by the public regulation commission.

N. The department of public safety may provide by regulation the time periods during which a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 may be operated or moved by a motor carrier on a highway under the jurisdiction of the state transportation commission or local authorities."

Section 5. Section 66-7-413.2 NMSA 1978 (being Laws 1989, Chapter 291, Section 1) is amended to read:

"66-7-413.2. ENGINEERING INVESTIGATIONS FOR VEHICLES IN EXCESS OF ONE HUNDRED SEVENTY THOUSAND POUNDS.--

A. All vehicles with a gross vehicle weight in excess of one hundred seventy thousand pounds shall require a special permit as provided for in Section 66-7-413 NMSA 1978 and no such permit shall be issued unless:

(1) an engineering investigation and review have been conducted to:

(a) establish whether the move could be made without visible or documented damages to the portion of road or bridges upon which the move is to be made;

(b) establish whether the move could be made without visible or documented damages to any private facilities along the road upon which the move is to be made; and

(c) estimate the cost for any necessary modifications the move may cause; and

(2) when required, the applicant has submitted to the motor transportation division of the department of public safety and the local highway authorities all pertinent information requested of the applicant by the motor transportation division of the department of public safety. If the submitted data is not acceptable to the state highway and transportation department, the applicant will be advised by the motor transportation division of the department of public safety that engineering investigations will be conducted by the state highway and transportation department and the cost incurred by the state highway and transportation department will be paid by the applicant as an added cost to his permit fee.

B. The motor transportation division of the department of public safety shall adopt the necessary rules and regulations for the development of data for an investigation to determine whether to issue any special permit pursuant to Section 66-7-413 NMSA 1978.

C. The applicant or the applicant's employer shall pay the costs for any modifications to the road, bridges or private facilities along the road that the motor transportation division of the department of public safety has determined are necessary for the issuance of the special permit and the costs for any damages to the road or bridges that are the result of the move and the fault of the mover and not the motor transportation division of the department of public safety.

D. Any person who violates the provisions of Subsection A of this section shall be guilty of a misdemeanor and punished by a fine of not more than one thousand dollars (\$1,000) or imprisonment for a definite term not to exceed six months, or both.

E. Nothing contained in this section shall limit in any manner the authority of the state, a county, a municipality or a political subdivision thereof to collect damages for any unlawful use of highways as provided by law.

SEPARATION OF GRADE CROSSING--DETERMINATION--COST.-- Whenever a state, county, municipal or other street or highway, including a highway that may be designated as a part of the federal aid highway system, which may be constructed or reconstructed in such manner that it crosses or intersects any railroad, the state transportation commission, or other governing body, may, if in its opinion it is practicable and reasonably necessary for the protection of the traveling public, separate the grades at such crossing and, if unable to agree with the railroad as to the grade

separation and the method of accomplishing the separation, may apply to the district court of the county in which the separation is located by verified petition praying for the separation of grades at the crossing and shall accompany the petition with plans and specifications of the proposed grade separation. The procedure on the petition shall be the same as in ordinary civil action. If the court determines in such proceeding that the grade separation is practicable and reasonably necessary for the protection of the traveling public over the highway, it shall order the grade separation to be made, either in accordance with the plans and specifications filed with the petition or in accordance with such modification of the plans and specifications as the court determines to be proper, and upon condition that the then existing grade crossing shall be closed to all forms of street or highway traffic upon the completion of the grade separation. The orders of court in such proceedings shall be enforced in the same manner as decrees in equity. When any separation of grades is made either by agreement or by court order, the railroad company shall pay not to exceed ten percent of the cost between the grade separation limits, provided that the then existing grade crossing shall be closed to all forms of street or highway traffic upon the completion of the grade separation and provided that where funds are made available for such purposes under the provisions of the act of congress known as 23 USCA 101 et seq., as amended and supplemented, the participation of the railroad company in the cost of construction and maintenance of any grade separation structure and the approaches thereto shall be in conformity with and subject to the provisions of that act. In cases where two or more railroads are located in such proximity to each other as to be involved in any single separation of grades, the portion of the cost of the grade separation shall be apportioned between the railroads either by agreement or in such manner as may be just by order of court in such proceeding. Whenever the plans and specifications for a grade separation, as finally fixed by agreement or order of court, provide for raising or lowering the grade of the railroad tracks, the cost shall be included in the cost of the grade separation."

(2) the alteration of a speed limit is approved by the state transportation commission; and

(3) the county posts speed limit signs that conform to the specifications as set forth in the manual adopted by the state transportation commission before enforcing the speed limit.

B. Whenever the state transportation commission or local authorities within their respective jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the commission or the local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or to be in compliance with law; provided that local authorities in municipalities of more than one hundred thousand population may prohibit vehicles that by virtue of weight or design are slow moving on local arterials during peak hours of traffic."

The state transportation commission upon request from a local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it finds that the structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under the Motor Vehicle Code, the commission shall determine and declare the maximum speed of vehicles that the structure can withstand and shall cause or permit suitable signs stating the maximum speed to be erected and maintained at a minimum distance of three hundred feet before each end of the structure.

D. "66-7-413. PERMITS FOR EXCESSIVE SIZE AND WEIGHT--SPECIAL NOTIFICATION REQUIRED ON MOVEMENT OF MANUFACTURED HOMES.--

A. The department and local highway authorities may, in their discretion, upon application in writing and good cause being shown, issue a special permit in writing authorizing the applicant to operate or move a vehicle or load of a size or weight

exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 on any highway under the jurisdiction of the state transportation commission or local authorities. Except for the movement of manufactured homes, a permit may be granted, in cases of emergency, for the transportation of loads on a certain unit or combination of equipment for a specified period of time not to exceed one year, and the permit shall contain the route to be traversed, the type of load to be transported and any other restrictions or conditions deemed necessary by the body granting the permit. In every other case, the permit shall be issued for a single trip and may designate the route to be traversed and contain any other restrictions or conditions deemed necessary by the body granting the permit. Every permit shall be carried in the vehicle to which it refers and shall be opened for inspection to any peace officer. It is a misdemeanor for any person to violate any of the conditions or terms of the special permit.

B. The department shall charge and collect, when the movement consists of any load of a width of twenty feet or greater for a distance of five miles or more, the sum of three hundred dollars (\$300) a day or fraction thereof to defray the cost of state or local police escort. The permit issued and the fee charged shall be based upon the entire movement at one time requiring police escort and not upon the number of vehicles involved.

C. The department shall promulgate regulations in accordance with the State Rules Act pertaining to safety practices, liability insurance and equipment for escort vehicles provided by the motor carrier himself and for escort vehicles provided by a private business in this state.

(1) If a motor carrier provides his own escort vehicles and personnel, the department shall not charge an escort fee but shall provide the motor carrier escort personnel with a copy of applicable regulations and shall inspect the escort vehicles for the safety equipment required by the regulations. If the escort vehicles and personnel meet the requirements set forth in the regulations and if the motor carrier holds a valid certificate of public convenience and necessity or permit, as applicable, issued pursuant to Chapter 65, Article 2 NMSA 1978, the department shall issue the special permit.

(2) If the escort service is a private business, the business shall have applied to the public regulation commission for and been issued a permit or certificate to operate as a contract or common motor carrier pursuant to Chapter 65, Article 2 NMSA 1978. The public regulation commission shall supply copies of applicable regulations to the business by mail and shall supply additional copies upon request. If the escort vehicles and personnel meet the requirements set forth in the regulations and if the escort service holds a certificate, the special permit shall be issued and the department shall not charge an escort fee.

(3) The movement of vehicles upon the highways of this state requiring a special permit and required to use an escort of the type noted in Paragraphs

(1) and (2) of this subsection is subject to department authority and inspection at all times.

(4) The department of transportation shall conduct engineering investigations and engineering inspections to determine which four-lane highways are safe for the operation or movement of manufactured homes without an escort. After making that determination, the department of transportation shall hold public hearings in the area of the state affected by the determination, after which it may adopt regulations designating those four-lane highways as being safe for the operation or movement of manufactured homes without an escort. If any portion of such a four-lane highway lies within the boundaries of a municipality, the department of transportation, after obtaining the approval of the municipal governing body, shall include such portions in its regulations.

D. Except for the movement of manufactured homes, special permits may be issued for a single vehicle or combination of vehicles by the department for a period not to exceed one year for a fee of sixty dollars (\$60.00). The permits may allow excessive height, length and width for a vehicle or combination of vehicles or load thereon and may include a provision for excessive weight if the operation is to be within the vicinity of a municipality.

E. Special permits for a single trip for a vehicle or combination of vehicles or load thereon of excessive weight, width, length and height may be issued for a single vehicle for a fee of fifteen dollars (\$15.00).

F. If the vehicle for which a permit is issued under this section is a manufactured home, the department or local highway authority issuing the permit shall furnish the following information to the property tax division of the department, which shall then forward the information:

(1) to the county assessor of any county from which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to if within the same county, the name of the owner of the manufactured home and the identification and registration numbers of the manufactured home;

(2) to the county assessor of any county in this state to which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to, the name of the owner of the manufactured home and the registration and identification numbers of the manufactured home; and

(3) to the owner of a manufactured home having a destination in this state, notification that the information required in Paragraphs (1) and (2) of this subsection is being given to the respective county assessors and that manufactured homes are subject to property taxation.

G. Except as provided in Subsection H of this section, if the movement of a manufactured home originates in this state, no permit shall be issued under Subsection F of this section until the owner of the manufactured home or his authorized agent obtains and presents to the department proof that a certificate has been issued by the county assessor or treasurer of the county in which the manufactured home movement originates showing that either:

(1) all property taxes due or to become due on the manufactured home for the current tax year or any past tax years have been paid, except for manufactured homes located on an Indian reservation; or

(2) no liability for property taxes on the manufactured home exists for the current tax year or any past tax years, except for manufactured homes located on an Indian reservation.

H. The movement of a manufactured home from the lot or business location of a manufactured home dealer to its destination designated by an owner-purchaser is not subject to the requirements of Subsection G of this section if the manufactured home movement originates from the lot or business location of the dealer and the manufactured home was part of his inventory prior to the sale to the owner-purchaser; however, the movement of a manufactured home by a dealer or his authorized agent as a result of a sale or trade-in from a nondealer-owner is subject to the requirements of Subsection G of this section whether the destination is the business location of a dealer or some other destination.

I. No permit shall be issued under this section for movement of a manufactured home whose width exceeds eighteen feet with no more than a six-inch roof overhang on the left side or twelve inches on the right side in addition to the eighteen-foot width of the manufactured home. Manufactured homes exceeding the limitations of this section shall only be moved on dollies placed on the front and the rear of the structure.

J. The secretary may by regulation provide for movers of manufactured homes to self-issue permits for certain sizes of manufactured homes over specific routes; however, in no case may the cost of each permit be less than fifteen dollars (\$15.00).

K. The secretary may provide by regulation for dealers of implements of husbandry to self-issue permits for the movement of certain sizes of implements of husbandry from the lot or business location of the dealer over specific routes with specific escort requirements, if necessary, to a destination designated by an owner-purchaser or for purposes of a working demonstration on the property of a proposed owner-purchaser. The department shall charge a fee for each self-issued permit not to exceed fifteen dollars (\$15.00).

L. Any private motor carrier requesting an oversize or overweight permit shall provide proof of insurance in at least the following amounts:

(1) bodily injury liability, providing:

(a) fifty thousand dollars (\$50,000) for each person; and

(b) one hundred thousand dollars (\$100,000) for each accident; and

(2) property damage liability, providing twenty-five thousand dollars (\$25,000) for each accident.

M. Any common motor carrier requesting an oversize permit shall produce a copy of a form "e" or other acceptable evidence that the common motor carrier maintains the insurance minimums prescribed by the public regulation commission."

A. Local authorities, with respect to streets under their jurisdiction, may also, by ordinance or resolution, prohibit the operation of trucks or other commercial vehicles or may impose limitations as to the size or weight thereof, on designated streets in areas that are primarily residential, which prohibitions and limitations shall be designated by appropriate signs placed on such street.

B. The local authority enacting an ordinance or resolution shall erect or cause to be erected and maintained signs designating the provisions of the ordinance or resolution at each end of that portion of any street affected, and the ordinance or resolution shall not be effective unless and until such signs are erected and maintained and notice thereof given in writing to the nearest officer or employee of the motor transportation division of the department of public safety authorized to issue special permits.

C. The state transportation commission shall likewise have authority, as granted to local authorities in Subsections A and B of this section, to determine by resolution and to impose restrictions as to the size and weight of vehicles operated upon any highways under the jurisdiction of the commission, and such restrictions shall be effective on and after the passage of a resolution and when signs giving notice thereof are erected upon the highway or portion of any highway affected by such resolution. The commission shall deliver a copy of all restrictions adopted by it to the motor transportation division of the department of public safety."

Proceeds of the bonds may be used to pay expenses incurred in the preparation, issuance and sale of the bonds and, together with the earnings on the proceeds of the bonds, may be used to pay rebate, penalty, interest and other obligations relating to the bonds and the proceeds of the bonds under the Internal Revenue Code of 1986, as amended.

I. The bonds may be sold at a public or negotiated sale at, above or below par or through the New Mexico finance authority. A negotiated sale shall be made with one or more investment bankers whose services are obtained through a competitive proposal process. For any sale, the state transportation commission or the New Mexico finance authority shall also procure the services of any financial advisor or bond counsel through a competitive proposal process. If sold at public sale, a notice of the time and place of sale shall be published in a newspaper of general circulation in the state, and in any other newspaper determined in the resolution authorizing the issuance of the bonds, once each week for two consecutive weeks prior to the date of sale. L. Any law authorizing the imposition or distribution of taxes or fees paid into the state road fund or the highway infrastructure fund or that affects those taxes and fees shall not be amended or repealed or otherwise directly or indirectly modified so as to impair outstanding bonds secured by a pledge of revenues from those taxes and fees paid into the state road fund or the highway infrastructure fund, unless the bonds have been discharged in full or provisions have been made for a full discharge. In addition, while any bonds issued by the state transportation commission pursuant to the provisions of this section remain outstanding, the powers or duties of the commission shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holder of such bonds.

M. In contracting for state highway projects to be paid in whole or in part with proceeds of bonds authorized by this section, the department shall require that any sand, gravel, caliche or similar material needed for the project shall, if practicable, be mined from state lands. Each contract shall provide that the contractor notify the commissioner of public lands of the need for the material and that, through lease or purchase, the material shall be mined from state lands if:

(1) the material needed is available from state lands in the vicinity of the project;

(2) the commissioner determines that the lease or purchase is in the best interest of the state land trust beneficiaries; and

(3) the cost to the contractor for the material, including the costs of transportation, is competitive with other available material from non-state lands.

N. Bonds issued pursuant to this section shall be paid solely from federal funds not otherwise obligated and taxes and fees deposited into the state road fund and, as applicable, the highway infrastructure fund, and shall not constitute a general obligation of the state."

An existing agreement between a municipality or county and the state transportation commission may be amended or revised by mutual consent of the parties to the agreement. The commission shall recommend construction standards for footpaths, bicycle lanes and bridle paths and shall provide a uniform system of signs that shall apply to all such paths or lanes under the jurisdiction of the commission and all counties and municipalities. "74-4A-1. RADIOACTIVE MATERIAL TRANSPORT--CONDITIONS.--

A. The environmental improvement board shall have exclusive authority to promulgate regulations prescribing the conditions for transport of radioactive material on

the highways. Such conditions shall include the conditions of transport that the environmental improvement board finds necessary to protect the health, safety and welfare of the citizens of the state. Except as specifically preempted by federal law, the state transportation commission shall have the exclusive authority within New Mexico to designate highway routes for the transport of radioactive material. Any rule or regulation adopted by the environmental improvement board that designates highway routes for the transport of radioactive material and that was in effect prior to March 1, 1991 is deemed null and void. The state transportation commission shall incorporate into the record and consider in the initial designation of routes for the transport of radioactive material the evidentiary record from the environmental improvement board public hearings held for the purpose of receiving public comment regarding the designation of routes for the transport of radioactive material.

B. For the purposes of this section, "radioactive material" means a material or combination of materials that spontaneously emits ionizing radiation. Materials in which the estimated specific activity is not greater than 0.002 microcuries per gram of material, and in which the radioactivity is essentially uniformly distributed, are not considered to be radioactive materials. (1) materials associated with the operation and decommissioning of nuclear reactors and the supporting fuel cycle;

(2) industrial radioisotope sources;

(3) radioactive materials used in nuclear medicine;

C. The department of environment shall have the authority to impose fines not to exceed one thousand dollars (\$1,000) as set by regulation of the environmental improvement board for a violation of the board's regulations pertaining to the transport of radioactive materials.

D. Nothing in this section shall be construed to alter the obligation of the state under the April 3, 1974 agreement between the state and the atomic energy commission for the discontinuance of certain commission regulatory authority and responsibility."

Section 96. Section 76-7-15 NMSA 1978 (being Laws 1959, Chapter 243, Section 15) is amended to read:

"76-7-15. NOTICE TO LAND OCCUPIERS OF CONTROL MEASURES--
INSPECTION OF PROPERTY--FAILURE TO COMPLY WITH ORDER.--

A. The chairman of the board of county commissioners governing the noxious weed control district shall give written notice to each land occupier within the district informing him of the control measures that are in effect on his land and all other necessary information to enable the land occupier to carry out the measures.

B. It is the duty of each land occupier to comply with the control measures prescribed by the governing body and the responsibility of the appropriate county officials to comply with the control measures determined by the governing body in order to effectuate noxious weed control measures on rights of way of all public roads and other public lands within the district.

C. The governing body of the district, if it deems advisable, may appoint an inspector to serve as an officer of the governing body. The inspector shall have the right to enter upon any land within the district to determine whether control measures are necessary and to determine whether control measures prescribed by the governing body are being carried out.

D. If it is found that a land owner or occupier is not complying with the governing body's directions, the governing body shall give him written notice ordering him to comply within a stated time. If he fails to comply with the order, the governing body may file a suit for a mandatory injunction in the district court of the county in which the land is situated to compel him to comply with the order. Any land owner or occupier against whom an injunction is issued shall, upon a finding of the court that the land owner or occupier unreasonably refused to comply with the governing body's order and that the control measures are appropriate, be liable for all costs of the suit and for a reasonable attorney fee to be fixed by the court. The court shall upon a proper determination issue an injunction ordering compliance with the governing body's directions.

E. Any adjoining land owner to a county or state road situated within the noxious weed control district may petition the governing body of the district to spray or take weed control measures of noxious weed growing upon adjoining rights of way. Upon determination by the governing body that the control measures requested are necessary, the governing body shall order appropriate action to be taken to control noxious weeds. If the lands or rights of way are under the control of the department of transportation, the governing body shall first make formal application to the state transportation commission requesting the department of transportation to perform the necessary control measures. If the department of transportation fails or refuses to take appropriate action, the governing body of the district shall perform the necessary work with district facilities. In the event sufficient funds are not available to finance the control

measures by the district, upon the rights of way, the adjoining land owner or occupier shall be authorized by the governing body to take appropriate action, and he shall be reimbursed from funds of the district as soon as sufficient funds become available. The governing body shall petition the department of transportation for reimbursement of necessary and actual expenses of the noxious weed control measures taken upon the state highway rights of way or lands."

A. Except as provided in Subsection C of this section, the state superintendent shall distribute to any school district that has imposed a tax under the Public School Capital Improvements Act an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax, at the rate certified by the department of finance and administration in accordance with Section 22-25-7 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the school district's first forty days' total program units by the dollar amount specified in Subsection B of this section and further multiplying the product obtained by the tax rate approved by the qualified electors in the most recent election on the question of imposing a tax under the Public School Capital Improvements Act. The distribution shall be made each year that the tax is imposed in accordance with Section 22-25-7 NMSA 1978; provided that no state distribution from the public school capital improvements

C. For fiscal year 2004 and thereafter, notwithstanding the amount calculated to be distributed pursuant to Subsections A and B of this section, a school district, the voters of which have approved a tax pursuant to Section 22-25-3 NMSA 1978, shall not receive a distribution less than an amount equal to five dollars (\$5.00) multiplied by the school district's first forty days' total program units and further multiplying the product obtained by the approved tax rate.

D. In making distributions pursuant to this section, the state superintendent shall include such reporting requirements and conditions as are required by rule of the public school capital outlay council. The council shall adopt such requirements and conditions as are necessary to ensure that the distributions are expended in the most prudent manner possible and are consistent with the original purpose as specified in the authorizing resolution.
