(b) If a proceeding is brought under the Uniform Interstate Family Support Act and two or more child-support orders have been issued by tribunals of this state or another state with regard to the same obligor and same child, a tribunal of this state having personal jurisdiction over both the obligor and individual obligee shall apply the following rules and by order shall determine which order controls:

(1) if only one of the tribunals would have continuing, exclusive jurisdiction under the Uniform Interstate Family Support Act, the order of that tribunal controls and shall be so recognized;

(2) if more than one of the tribunals would have continuing, exclusive jurisdiction under the Uniform Interstate Family Support Act, an order issued by a tribunal in the current home state of the child controls, but if an order has not been issued in the current home state of the child, the order most recently issued controls; and

(3) if none of the tribunals would have continuing, exclusive jurisdiction under the Uniform Interstate Family Support Act, the tribunal of this state shall issue a child-support order, which controls.

(c) If two or more child-support orders have been issued for the same obligor and same child upon request of a party who is an individual or support enforcement agency, a tribunal of this state having personal jurisdiction over both the obligor and the obligee who is an individual shall determine which order controls under Subsection (b) of this section. The request may be filed with a registration for enforcement or registration for modification pursuant to Sections 40-6A-601 through 40-6A-615 NMSA 1978, or may be filed as a separate proceeding.

(g) Within thirty days after issuance of an order determining which is the controlling order, the party obtaining the order shall file a certified copy of it in each tribunal that issued or registered an earlier order of child support. A party or support enforcement agency obtaining the order that fails to file a certified copy is subject to appropriate sanctions by a tribunal in which the issue of failure to file arises. The failure to file does not affect the validity or enforceability of the controlling order.

(5) except as otherwise provided in Section 40-6A-312 NMSA 1978, the name and address of the obligee and, if applicable, the person to whom support payments are to be remitted.

(b) On receipt of a request for registration, the registering tribunal shall cause the order to be filed as a foreign judgment, together with one copy of the documents and information, regardless of their form.

(c) A petition or comparable pleading seeking a remedy that must be affirmatively sought under other law of this state may be filed at the same time as the request for registration or later. The pleading shall specify the grounds for the remedy sought.

(d) If two or more orders are in effect, the person requesting registration shall:

(1) furnish to the tribunal a copy of every support order asserted to be in effect in addition to the documents specified in this section;

(2) specify the order alleged to be the controlling order, if any; and

(3) specify the amount of consolidated arrears, if any.

(2) the computation and payment of arrearages and accrual of interest on the arrearages under the support order; and

(3) the existence and satisfaction of other obligations under the support order.

(b) In a proceeding for arrears under a registered support order, the statute of limitation of this state or of the issuing state, whichever is longer, applies.

(c) A responding tribunal of this state shall apply the procedures and remedies of this state to enforce current support and collect arrears and interest due on a support order of another state registered in this state.

(d) After a tribunal of this or another state determines which is the controlling order and issues an order consolidating arrears, if any, a tribunal of this state shall prospectively apply the law of the state issuing the controlling order, including its law on interest on arrears, on current and future support, and on consolidated arrears."

Chapter 166 Section 38 Laws 2005

"40-6A-605. NOTICE OF REGISTRATION OF ORDER.--

(b) A notice shall inform the nonregistering party:

(1) that a registered order is enforceable as of the date of registration in the same manner as an order issued by a tribunal of this state;

(2) that a hearing to contest the validity or enforcement of the registered order must be requested within twenty days after notice;

(3) that failure to contest the validity or enforcement of the registered order in a timely manner will result in confirmation of the order and enforcement of the order and the alleged arrearage and precludes further contest of that order with respect to any matter that could have been asserted; and

(4) of the amount of any alleged arrearage.

(c) If the registering party asserts that two or more orders are in effect, a notice shall also:

(1) identify the two or more orders and the order alleged by the registering person to be the controlling order and the consolidated arrears, if any;

(2) notify the nonregistering party of the right to a determination of which is the controlling order;

(3) state that the procedures provided in Subsection (b) of this section apply to the determination of which is the controlling order; and

(4) state that failure to contest the validity or enforcement of the order alleged to be the controlling order in a timely manner may result in confirmation that the order is the controlling order.

(d) Upon registration of an income-withholding order for enforcement, the registering tribunal shall notify the obligor's employer."

"40-6A-607. CONTEST OF REGISTRATION OR ENFORCEMENT.--

(a) A party contesting the validity or enforcement of a registered order or seeking to vacate the registration has the burden of proving one or more of the following defenses:

- (1) the issuing tribunal lacked personal jurisdiction over the contesting party;
- (2) the order was obtained by fraud;
- (3) the order has been vacated, suspended or modified by a later order;
- (4) the issuing tribunal has stayed the order pending appeal;
- (5) there is a defense under the law of this state to the remedy sought;
- (6) full or partial payment has been made;
- (7) the statute of limitation under Section 40-6A-604 NMSA 1978 precludes enforcement of some or all of the alleged arrearage; or
- (8) the alleged controlling order is not the controlling order.

(b) If a party presents evidence establishing a full or partial defense under Subsection (a) of this section, a tribunal may stay enforcement of the registered order, continue the proceeding to permit production of additional relevant evidence and issue other appropriate orders. An uncontested portion of the registered order may be enforced by all remedies available under the law of this state.

(c) If the contesting party does not establish a defense under Subsection (a) of this section to the validity or enforcement of the order, the registering tribunal shall issue an order confirming the order."

Chapter 166 Section 40 Laws 2005

Section 40. Section 40-6A-610 NMSA 1978 (being Laws 1994, Chapter 107, Section 610) is amended to read:

"40-6A-610. EFFECT OF REGISTRATION FOR MODIFICATION.--

A tribunal of this state may enforce a child support order of another state registered for purposes of modification, in the same manner as if the order had been issued by a tribunal of this state, but the registered order may be modified only if the requirements of Sections 40-6A-611, 40-6A-613 and

40-6A-615 NMSA 1978 have been met."

Chapter 166 Section 41 Laws 2005

Section 41. Section 40-6A-611 NMSA 1978 (being Laws 1994, Chapter 107, Section 611, as amended) is amended to read:

"40-6A-611. MODIFICATION OF CHILD-SUPPORT ORDER OF ANOTHER STATE.--

(a) If Section 40-6A-613 NMSA 1978 does not apply, except as otherwise provided in Section 40-6A-615 NMSA 1978, upon petition a tribunal of this state may modify a

child-support order issued in another state that is registered in this state if, after notice and hearing, the tribunal finds that:

(1) the following requirements are met:

(i) neither the child, nor the obligee who is an individual nor the obligor resides in the issuing state;

(ii) a petitioner who is a nonresident of this state seeks modification; and

(iii) the respondent is subject to the personal jurisdiction of the tribunal of this state; or

(2) this state is the state of residence of the child or a party who is an individual is subject to the personal jurisdiction of the tribunal of this state and all of the parties who are individuals have filed consents in a record in the issuing tribunal for a tribunal of this state to modify the support order and assume continuing, exclusive jurisdiction.

(b) Modification of a registered child-support order is subject to the same requirements, procedures and defenses that apply to the modification of an order issued by a tribunal of this state, and the order may be enforced and satisfied in the same manner.

(c) Except as otherwise provided in Section 40-6A-615 NMSA 1978, a tribunal of this state may not modify any aspect of a child-support order that may not be modified under the law of the issuing state, including the duration of the obligation of support. If two or more tribunals have issued child-support orders for the same obligor and same child, the order that controls and shall be so recognized under Section 40-6A-207 NMSA 1978 establishes the aspects of the support order which are nonmodifiable.

(d) In a proceeding to modify a child-support order, the law of the state that is determined to have issued the initial controlling order governs the duration of the obligation of support. The obligor's fulfillment of the duty of support established by that order precludes imposition of further obligation of support by a tribunal of this state.

(e) On issuance of an order by a tribunal of this state modifying a child-support order issued in another state, the tribunal of this state becomes the tribunal having continuing, exclusive jurisdiction."

Chapter 166 Section 42 Laws 2005

Section 42. Section 40-6A-612 NMSA 1978 (being Laws 1994, Chapter 107, Section 612) is amended to read:

"40-6A-612. RECOGNITION OF ORDER MODIFIED IN ANOTHER STATE.--If a child-support order issued by a tribunal of this state is modified by a tribunal of another state which assumed jurisdiction pursuant to the Uniform Interstate Family Support Act, a tribunal of this state:

(1) may enforce its order that was modified only as to arrears and interest accruing before the modification;

(2) may provide appropriate relief for violations of its order which occurred before the effective date of the modification; and

(3) shall recognize the modifying order of the other state, upon registration, for the purpose of enforcement."

Chapter 166 Section 43 Laws 2005

Section 43. A new section of the Uniform Interstate Family Support Act, Section 40-6A-615 NMSA 1978, is enacted to read:

"40-6A-615. JURISDICTION TO MODIFY CHILD-SUPPORT ORDER OF FOREIGN COUNTRY OR POLITICAL SUBDIVISION.--

(a) If a foreign country or political subdivision that is a state will not or may not modify its order pursuant to its laws, a tribunal of this state may assume jurisdiction to modify the child-support order and bind all individuals subject to the personal

jurisdiction of the tribunal whether or not the consent to modification of a child-support order otherwise required of the individual pursuant to Section 40-6A-611 NMSA 1978 has been given or whether the individual seeking modification is a resident of this state or of the foreign country or political subdivision.

(b) An order issued pursuant to this section is the controlling order."

Chapter 166 Section 44 Laws 2005

Section 44. Section 40-6A-701 NMSA 1978 (being Laws 1994, Chapter 107, Section 701) is amended to read:

"40-6A-701. PROCEEDING TO DETERMINE PARENTAGE.--A court of this state authorized to determine parentage of a child may serve as a responding tribunal in a proceeding to determine parentage brought under the Uniform Interstate Family Support Act or a law substantially similar to that act."

Chapter 166 Section 45 Laws 2005

Section 45. Section 40-6A-801 NMSA 1978 (being Laws 1994, Chapter 107, Section 801) is amended to read:

"40-6A-801. GROUNDS FOR RENDITION.--

(a) For purposes of this article, "governor" includes an individual performing the functions of governor or the executive authority of a state covered by the Uniform Interstate Family Support Act.

(b) The governor of this state may:

(1) demand that the governor of another state surrender an individual found in the other state who is charged criminally in this state with having failed to provide for the support of an obligee; or

(2) on the demand of the governor of another state, surrender an individual found in this state who is charged criminally in the other state with having failed to provide for the support of an obligee.

(c) A provision for extradition of individuals not inconsistent with the Uniform Interstate Family Support Act applies to the demand even if the individual whose surrender is demanded was not in the demanding state when the crime was allegedly committed and has not fled therefrom."

Chapter 166 Section 46 Laws 2005

Section 46. Section 40-6A-802 NMSA 1978 (being Laws 1994, Chapter 107, Section 802) is amended to read:

"40-6A-802. CONDITIONS OF RENDITION.--

(a) Before making demand that the governor of another state surrender an individual charged criminally in this state with having failed to provide for the support of an obligee, the governor of this state may require a prosecutor of this state to demonstrate that at least sixty days previously the obligee had initiated proceedings for support pursuant to the Uniform Interstate Family Support Act or that the proceeding would be of no avail.

(b) If, under the Uniform Interstate Family Support Act or a law substantially similar to that act, the governor of another state makes a demand that the governor of this state surrender an individual charged criminally in that state with having failed to provide for the support of a child or other individual to whom a duty of support is owed, the governor may require a prosecutor to investigate the demand and report whether a proceeding for support has been initiated or would be effective. If it appears that a proceeding would be effective but has not been initiated, the governor may delay honoring the demand for a reasonable time to permit the initiation of a proceeding.

(c) If a proceeding for support has been initiated and the individual whose rendition is demanded prevails, the governor may decline to honor the demand. If the petitioner prevails and the individual whose rendition is demanded is subject to a support order, the governor may decline to honor the demand if the individual is complying with the support order."

"73-21-4. DEFINITIONS.--As used in the Water and Sanitation District Act:

A. "sewage disposal" includes all constructions for collection, transportation, pumping, treatment and final disposition of sewage;

B. "district" means a water and sanitation district that is established pursuant to that act and that is either entirely within or partly within and partly without one or more counties, provided those parts or parcels of the district lying in two or more counties are contiguous with one another, and further provided, a district created pursuant to a petition signed by the board of county commissioners of a county shall be entirely within that county;

C. "board" means the board of directors of a district;

D. "taxpaying elector of a district", "qualified elector" or "elector" means a person, registered to vote in any precinct in the state, who:

(1) is a resident of the district;

(2) is a nonresident of the district who pays, or will be liable for paying, rates, tolls or charges set by the board; or

(3) is a nonresident of the district who either has paid or incurred a general tax liability on real property within the district in the twelve months immediately preceding a designated time or event or who is purchasing real property within the district under a real estate contract where a property tax has been paid or incurred on the real property in the twelve months immediately preceding a designated time or event; and

E. "publication" means once a week for three consecutive weeks in at least one newspaper of general circulation in the county in which all or the major portion of the district is located. It is not necessary that publication be made on the same day of the week in each of the three weeks, but not less than fourteen days, excluding the day of first publication, shall intervene between the first publication and the last publication, and publication shall be complete on the date of the last publication."

Chapter 167 Section 4 Laws 2005

Section 4. Section 73-21-9 NMSA 1978 (being Laws 1943, Chapter 80, Section 8, as amended) is amended to read:

"73-21-9. HEARING ON PETITIONS--ELECTION FOR ORGANIZATION AND OFFICERS.--

A. On the day fixed for the hearing or at an adjournment of it, the court shall ascertain from the tax rolls of the county in which the district is located or into which it extends, from the last official registry list and from any other evidence that may be adduced, the total number of taxpaying electors of the proposed district.

B. If the court finds that no petition has been signed and presented in conformity with the Water and Sanitation District Act, or that the material facts are not as set forth in the petition filed, it shall dismiss the proceedings and adjudge the costs against the signers of the petition or, if applicable, the board of county commissioners of a county, in the proportion as it deems just and equitable. No appeal or suit of error shall lie from an order dismissing the proceedings; but nothing in that act shall prevent the filing of a subsequent petition for similar improvements or for a similar district, and the right to renew the proceeding is expressly granted and authorized.

C. At any time after the filing of the petition for the organization of a district and before the day fixed for the hearing on it, the owner of any taxable property within the proposed district may file a petition with the court stating reasons why the property should not be included in the district and requesting that the property be excluded from it. The petition shall be verified and shall describe the property sought to be excluded. The court shall hear the petition and all objections to it at the time of the hearing on the petition for organization and shall determine whether the property should be excluded or included in the district.

D. In determining whether or not the petition for the creation of a water and sanitation district shall be granted, the district court shall consult and request an opinion from:

(1) the state engineer to determine whether the proposed district has adequate water rights to implement the proposed improvements; and

(2) the environmental improvement division of the department of environment to determine, as to the technological feasibility of the proposed improvements, whether the water proposed to be supplied is of an acceptable quality to conform with the state regulations and whether the liquid and solid waste disposal proposals can conform with state regulations.

E. The court may deny the petition or may order the petition to be modified, if the court, after hearing on the petition, finds that:

(1) the proposed water and sewage improvements cannot conform with the state regulations;

(2) the water and sewage improvements cannot be implemented within a reasonable time taking into consideration applications for state and federal grants;

(3) there is lacking an actual or impending need for the water and sewage improvements proposed; or

(4) the boundaries of the proposed district contain land that has no actual or impending need for the water and sewage improvements or cannot be reasonably expected to utilize the water and sewage improvements, unless the land is otherwise required to be included in the proposed district by rule or regulation of a federal agency.

F. Upon the hearing, if it appears that a petition for the organization of a district has been properly signed and presented and that the allegations of the petition are true, the court shall order that the question of the organization of the district be submitted to the taxpaying electors of the district as set forth in the petition, as the boundaries were modified by the court in determining that only property to be benefited by the proposed improvements should be included within the boundaries of the district, at an election to be held for that purpose, and the order shall designate one or more polling places within the district, and for each polling place so designated, shall appoint three taxpaying electors of the district as judges of the election and two taxpaying electors of the district as clerks of the election. The clerk of the court having jurisdiction shall give published notice of the time and place of an election to be held in the district not less than twenty days after the first publication of the notice.

G. The election shall be held and conducted as nearly as possible in the same manner as general elections in this state. No special registration for the election is required, but for the purpose of determining qualifications of electors, the judges may use official records, and, in addition, they may require the execution of an affidavit concerning the qualifications of any elector.

H. At the election, the taxpaying electors of the district shall vote for or against the organization of the district, and if in favor thereof, shall vote for three taxpaying electors of the district who shall constitute the board of directors of the district, one to act until the first biennial election, one until two years and one until four years after the election, except that at the election in a county where the petition for the district was signed by the chairman of the board of county commissioners, the taxpaying electors of the district shall vote only for or against the organization of the district.

I. The judges of election shall certify the returns of the election to the district court having jurisdiction. If a majority of the votes cast at the election are in favor of the organization, the district court shall declare the district organized and give it a

corporate name by which, in all proceedings, it shall thereafter be known, and designate the first board of directors elected, except that a district created pursuant to a petition signed by the chairman of the board of county commissioners of a county shall appoint the first board of directors as provided in Section 73-21-15.1 NMSA 1978. Thereupon the district shall be a governmental subdivision of the state, except a district created pursuant to a petition signed by the chairman of the board of county commissioners of a county, which district shall be a subdivision of the county. Every district shall be a body corporate with all the powers of a public or quasi-municipal corporation.

J. If an order is entered establishing the district, the order is final and no appeal or writ of error shall lie therefrom, and the entry of the order shall finally and conclusively establish the regular organization of the district against all persons except the state, in an action in the nature of a writ of quo warranto, commenced by the attorney general within thirty days after the decree declaring the district organized. The organization of the district shall not be directly or collaterally questioned in any suit, action or proceeding except as expressly authorized in the Water and Sanitation District Act."

Chapter 167 Section 5 Laws 2005

Section 5. Section 73-21-15.1 NMSA 1978 (being Laws 1985, Chapter 155, Section 8) is amended to read:

"73-21-15.1. BOARD--DISTRICT CREATED BY A BOARD OF COUNTY COMMISSIONERS.--Notwithstanding any other provision of the Water and Sanitation District Act relating to election of the board, all members of the first board of any district created pursuant to a petition signed by the chairman of the board of county commissioners of a county shall be appointed by the board of county commissioners. The board shall consist of five directors who are taxpaying electors of the district appointed for staggered terms so that the terms of two directors expire in one year and the terms of three directors expire in two years. Thereafter, all directors shall be elected to two-year terms pursuant to the provisions of the Water and Sanitation District Act. Any director appointed by any board of county commissioners shall be eligible for election, provided that no member of a board shall serve more than two consecutive terms."

Chapter 167 Section 6 Laws 2005

Section 6. Section 73-21-55 NMSA 1978 (being Laws 1985, Chapter 166, Section 3, as amended) is amended to read:

"73-21-55. DISTRICTS NOT SUBJECT TO UTILITY LAWS--OPTION TO SUBMIT TO REGULATION.--

A. No district organized under the provisions of the Water and Sanitation District Act is subject to the jurisdiction of the public regulation commission or the terms

and provisions of the Public Utility Act, except as provided in Subsections B and C of this section.

B. Any district organized under the provisions of the Water and Sanitation District Act may elect by resolution adopted by its board of directors to become subject to the jurisdiction of the public regulation commission and to the terms and provisions of the Public Utility Act; provided, however, that in no event shall Sections 62-9-1 through 62-9-7 NMSA 1978 apply to any district making such an election.

C. If the board of directors has not elected to become subject to the jurisdiction of the public regulation commission as provided for in Subsection B of this section, it shall nevertheless file with the commission any rates, tolls and charges proposed by the board, which shall be subject to approval by the commission if twenty-five of the taxpaying electors of the district or five percent of the taxpaying electors of the district, whichever is less, file a petition protesting the rates, tolls or charges with the commission within thirty days after the board proposes the rates. Upon the filing of such a petition, the commission shall hold a hearing pursuant to rules that it shall promulgate to implement this subsection."

"22-8-25. STATE EQUALIZATION GUARANTEE DISTRIBUTION--
DEFINITIONS--DETERMINATION OF AMOUNT.--

A. The state equalization guarantee distribution is that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined in this section, is at least equal to the school district's program cost.

B. "Local revenue", as used in this section, means seventy-five percent of receipts to the school district derived from that amount produced by a school district property tax applied at the rate of fifty cents (\$.50) to each one thousand dollars (\$1,000) of net taxable value of property allocated to the school district and to the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act. The school district shall budget and expend twenty percent of the total revenue receipts for capital outlay.

C. "Federal revenue", as used in this section, means receipts to the school district, excluding amounts that, if taken into account in the computation of the state equalization guarantee distribution, result, under federal law or regulations, in a reduction in or elimination of federal school funding otherwise receivable by the school district, derived from the following:

(1) seventy-five percent of the school district's share of forest reserve funds distributed in accordance with Section 22-8-33 NMSA 1978. The school district shall budget and expend twenty percent of the total forest reserve receipts for capital outlay; and

(2) seventy-five percent of grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Title 20 of the United States Code, commonly known as "PL 874 funds" or "impact aid". The

school district shall budget and expend twenty percent of the grant receipts for capital outlay.

D. To determine the amount of the state equalization guarantee distribution, the secretary of public education shall:

(1) calculate the number of program units to which each school district is entitled using an average of the MEM on the fortieth, eightieth and one hundred twentieth days of the prior year; or

(2) calculate the number of program units to which a school district operating under an approved year-round school calendar is entitled using an average of the MEM on appropriate dates established by the state board; or

(3) calculate the number of program units to which a school district with a MEM of two hundred or less is entitled by using an average of the MEM on the fortieth, eightieth and one hundred twentieth days of the prior year or the fortieth day of the current year, whichever is greater; and

(4) using the results of the calculations in Paragraph (1), (2) or (3) of this subsection and the instructional staff training and experience index from the October report of the prior school year, establish a total program cost of the school district;

(5) calculate the local and federal revenues as defined in this section;

(6) deduct the sum of the calculations made in Paragraph (5) of this subsection from the program cost established in Paragraph (4) of this subsection;

(7) deduct the total amount of guaranteed energy savings contract payments that the secretary of public education determines will be made to the school district from the public school utility conservation fund during the fiscal year for which the state equalization guarantee distribution is being computed; and

(8) deduct ninety percent of the amount certified for the school district by the department pursuant to the Energy Efficiency and Renewable Energy Bonding Act.

E. Reduction of a school district's state equalization guarantee distribution shall cease when the school district's cumulative reductions equal its proportional share of the cumulative debt service payments necessary to service the bonds issued pursuant to the Energy Efficiency and Renewable Energy Bonding Act.

F. The amount of the state equalization guarantee distribution to which a school district is entitled is the balance remaining after the deductions made in Paragraphs (6), (7) and (8) of Subsection D of this section.

G. The state equalization guarantee distribution shall be distributed prior to June 30 of each fiscal year. The calculation shall be based on the local and federal revenues specified in this section received from June 1 of the previous fiscal year through May 31 of the fiscal year for which the state equalization guarantee distribution is being computed. In the event that a school district has received more state equalization guarantee funds than its entitlement, a refund shall be made by the school district to the state general fund."

"32A-2-7. COMPLAINTS--REFERRAL--PRELIMINARY INQUIRY--NOTICE--TIME WAIVER.--

A. Complaints alleging delinquency shall be referred to probation services, which shall conduct a preliminary inquiry to determine the best interests of the child and of the public with regard to any action to be taken.

B. During the preliminary inquiry on a delinquency complaint, the matter may be referred to another appropriate agency and conferences may be conducted for the purpose of effecting adjustments or agreements that will obviate the necessity for filing a petition. At the commencement of the preliminary inquiry, the parties shall be advised of their basic rights pursuant to Section 32A-2-14 NMSA 1978, and no party may be compelled to appear at any conference, to produce any papers or to visit any place. The child shall be informed of the child's right to remain silent. The preliminary inquiry shall be completed within the time limits set forth in the Children's Court Rules.

C. Prior to a preliminary inquiry being conducted with a child who is detained, the child's parent, guardian or custodian or the child's attorney shall be given reasonable notice by the juvenile probation and parole officer and an opportunity to be present at the preliminary inquiry. If a child is not detained, the preliminary inquiry shall be conducted within thirty days of receipt of the referral from law enforcement. The thirty-day time period may be extended upon a determination by the department that an extension is necessary to conduct a thorough preliminary inquiry and that the extension is not prejudicial to the best interests of the child.

D. When a child is in detention or custody and the children's court attorney does not file a petition within the time limits authorized by the Children's Court Rules, the child shall be released immediately. If a child is not detained and a determination is made to file a petition, the petition shall be filed within sixty days of completion of the preliminary inquiry, unless a motion is granted to extend the time limit for good cause shown. If a child is not in custody or detention, a petition shall not be dismissed for failure to comply with the time limit set forth in this subsection unless there is a showing of prejudice to the child.

E. After completion of the preliminary inquiry on a delinquency complaint involving a misdemeanor, probation services may notify the children's court attorney and recommend an appropriate disposition for the case. If the child has been referred for three or more prior misdemeanors within two years of the instant offense, probation services shall notify the children's court attorney and recommend an appropriate disposition for the case.

F. Probation services shall notify the children's court attorney of the receipt of any complaint involving an act that constitutes a felony under the applicable criminal law. Probation services shall also recommend a disposition to the children's court attorney.

G. The child, through counsel, and the children's court attorney may agree, without judicial approval, to a waiver of time limitations imposed after a petition is filed. A time waiver defers adjudication of the charges. The children's court attorney may place restrictions on a child's behavior as a condition of a time waiver. If the child completes the agreed upon conditions and no new charges are filed against the child, the pending petition shall be dismissed. If the children's court attorney files a new petition against the child, the children's court attorney may proceed on both the original petition and the new charges. The department shall become a party if probation services are requested as a condition of the time waiver."

When an alleged delinquent child is delivered to a place of detention as provided in Section 32A-2-12 NMSA 1978, only a department employee or a trained county detention professional designated by the department may place the child in detention, in accordance with the criteria for detention set forth in Section 32A-2-11 NMSA 1978. If the criteria for detention of an alleged delinquent child are not met, the child shall be released from custody.

C. A child under the age of eleven shall not be held in detention. If a child under the age of eleven poses a substantial risk of harm to himself or others, a peace officer may detain and transport that child for emergency mental health evaluation and care in accordance with Section 32A-6-11 NMSA 1978.

D. If a child is taken into custody and is not released to the child's parent, guardian or custodian, the person taking the child into custody shall give written notice thereof as soon as possible, and in no case later than twenty-four hours, to the child's parent, guardian or custodian and to the court, together with a statement of the reason for taking the child into custody.

(2) any other suitable place, other than a facility for the long-term care and rehabilitation of delinquent children to which children adjudicated as delinquent children may be confined pursuant to Section 32A-2-19 NMSA 1978, designated by the court and that meets the standards for detention facilities pursuant to the Children's Code and federal law.

C. A child adjudicated as a youthful offender who is violent toward staff or other residents in a detention facility may be transferred and detained, pending a court hearing, in a county jail. In the event that a child is detained in a jail, the director of the jail shall presume that the child is vulnerable to victimization by inmates within the adult population because of his age, and shall take measures to provide protection to the child. However, provision of protective measures shall not result in diminishing a child's civil rights to less than those existing for an incarcerated adult.

D. A child who has previously been incarcerated as an adult or a person eighteen years of age or older shall not be detained in a juvenile detention facility or a facility for the long-term care and rehabilitation of delinquent children, but may be detained in a county jail. In the event that a child is detained in a jail, the director of the jail shall presume that the child is vulnerable to victimization by inmates within the adult population because of his age, and shall take measures to provide protection to the child. However, provision of protective measures shall not result in diminishing a child's civil rights to less than those existing for an incarcerated adult.

E. A child alleged to be a serious youthful offender may be detained pending a court hearing in any of the following places, prior to arraignment in metropolitan, magistrate or district court:

(1) a detention facility, licensed by the department, for children alleged to be delinquent children;

(2) any other suitable place, other than a facility for the long-term care and rehabilitation of delinquent children to which children adjudicated as delinquent children may be confined pursuant to Section 32A-2-19 NMSA 1978, designated by the court which meets the standards for detention facilities pursuant to the Children's Code and federal law; or

(3) a county jail, if a facility in Paragraph (1) or (2) of this subsection is not appropriate. In the event that a child is detained in a jail, the director of the jail shall presume that the child is vulnerable to victimization by inmates within the adult population because of his age and shall take measures to provide protection to the child. However, provision of protective measures shall not result in diminishing a child's civil rights to less than those existing for an incarcerated adult.

F. When a person who is eighteen years of age or older is taken into custody and transported to an adult facility on a juvenile warrant or an adult warrant or other adult charges and an outstanding juvenile warrant exists, notice shall be given to the children's court attorney and the juvenile probation and parole office in the jurisdiction where the juvenile warrant was issued within one day of the person being taken into custody. The juvenile probation and parole office shall give notice that the person has been taken into custody to the children's court judge and the attorney who represented the person in the juvenile proceeding."

Chapter 189 Section 15 Laws 2005

Section 15. Section 32A-2-17 NMSA 1978 (being Laws 1993, Chapter 77, Section 46, as amended) is amended to read:

"32A-2-17. PREDISPOSITION STUDIES--REPORTS AND EXAMINATIONS.--

A. After a petition has been filed and either a finding with respect to the allegations of the petition has been made or a notice of intent to admit the allegations of the petition has been filed, the court may direct that a predisposition study and report to the court be made in writing by the department or an appropriate agency designated by the court concerning the child, the family of the child, the environment of the child and any other matters relevant to the need for treatment or to appropriate disposition of the case. The following predisposition reports shall be provided to the parties and the court five days before actual disposition or sentencing:

(1) the adult probation and parole division of the corrections department shall prepare a predisposition report for a serious youthful offender;

(2) the department shall prepare a predisposition report for a serious youthful offender who is convicted of an offense other than first degree murder;

(3) the department shall prepare a predisposition report for a youthful offender concerning the youthful offender's amenability to treatment and if:

(a) the court determines that a juvenile disposition is appropriate, the department shall prepare a subsequent predisposition report; or

(b) the court makes the findings necessary to impose an adult sentence pursuant to Section 32A-2-20 NMSA 1978, the adult probation and parole division of the corrections department shall prepare a subsequent predisposition report; and

(4) the department shall prepare a predisposition report for a delinquent offender, upon the court's request.

B. Where there are indications that the child may have a mental disorder or developmental disability, the court, on motion by the children's court attorney or that of counsel for the child, may order the child to be examined at a suitable place by a physician, a licensed psychologist or a licensed independent social worker prior to a hearing on the merits of the petition. An examination made prior to the hearing or as a part of the predisposition study and report shall be conducted on an outpatient basis, unless the court finds that placement in a hospital or other appropriate facility is necessary.

C. The court, after a hearing, may order examination by a physician, a licensed psychologist or a licensed independent social worker of a parent or custodian whose ability to care for or supervise a child is an issue before the court.

D. The court may order that a child adjudicated as a delinquent child be transferred to the facility designated by the secretary of the department for a period of not more than fifteen days within a three hundred sixty-five day time period for purposes

of diagnosis, with direction that the court be given a report indicating what disposition appears most suitable when the interests of the child and the public are considered.

E. Once the child is committed, the department shall determine when the child is released. The release shall be any time after commitment, but not more than fifteen days after commitment. Upon petition by the department to the court, the judge may extend the commitment for an additional fifteen days upon good cause shown."

Chapter 189 Section 16 Laws 2005

Section 16. Section 32A-2-19 NMSA 1978 (being Laws 1993, Chapter 77, Section 48, as amended by Laws 2003, Chapter 225, Section 10 and by Laws 2003, Chapter 239, Section 5) is amended to read:

"32A-2-19. DISPOSITION OF AN ADJUDICATED DELINQUENT OFFENDER.--

A. At the conclusion of the dispositional hearing, the court may make and include in the dispositional judgment its findings on the following:

(1) the interaction and interrelationship of the child with the child's parents, siblings and any other person who may significantly affect the child's best interests;

(2) the child's adjustment to his home, school and community;

(3) the mental and physical health of all individuals involved;

(4) the wishes of the child as to his custodian;

(5) the wishes of the child's parents as to the child's custody;

(6) whether there exists a relative of the child or other individual who, after study by the department, is found to be qualified to receive and care for the child;

(7) the availability of services recommended in the predisposition report; and

(8) the ability of the parents to care for the child in the home.

B. If a child is found to be delinquent, the court may impose a fine not to exceed the fine that could be imposed if the child were an adult and may enter its judgment making any of the following dispositions for the supervision, care and rehabilitation of the child:

(1) transfer legal custody to the department, an agency responsible for the care and rehabilitation of delinquent children, which shall receive the child at a facility designated by the secretary of the department as a juvenile reception facility. The department shall thereafter determine the appropriate placement, supervision and rehabilitation program for the child. The judge may include recommendations for placement of the child. Commitments are subject to limitations and modifications set forth in Section 32A-2-23 NMSA 1978. The types of commitments include:

(a) a short-term commitment of one year in a facility for the care and rehabilitation of adjudicated delinquent children. No more than nine months shall be served at the facility and no less than ninety days shall be served on parole, unless: 1) a petition to extend the commitment has been filed prior to the commencement of parole; 2) the commitment has been extended pursuant to Section 32A-2-23 NMSA 1978; or 3) parole is revoked pursuant to Section 32A-2-25 NMSA 1978;

(b) a long-term commitment for no more than two years in a facility for the care and rehabilitation of adjudicated delinquent children. No more than twenty-one months shall be served at the facility and no less than ninety days shall be served on parole, unless: 1) parole is revoked pursuant to Section 32A-2-25 NMSA 1978; or 2) the commitment is extended pursuant to Section 32A-2-23 NMSA 1978;

(c) if the child is a delinquent offender who committed one of the criminal offenses set forth in Subsection I of Section 32A-2-3 NMSA 1978, a commitment to age twenty-one, unless sooner discharged; or

(d) if the child is a youthful offender, a commitment to age twenty-one, unless sooner discharged;

(2) place the child on probation under those conditions and limitations as the court may prescribe;

(3) place the child in a local detention facility that has been certified in accordance with the provisions of Section 32A-2-4 NMSA 1978 for a period not to exceed fifteen days within a three hundred sixty-five day time period; or if a child is found to be delinquent solely on the basis of Paragraph (3) of Subsection A of Section 32A-2-3 NMSA 1978, the court shall only enter a judgment placing the child on probation or ordering restitution or imposing a fine not to exceed the fine that could be imposed if the child were an adult or any combination of these dispositions; or

(4) if a child is found to be delinquent solely on the basis of Paragraph (2), (3) or (4) of Subsection A of Section 32A-2-3 NMSA 1978, the court may make any disposition provided by this section and may enter its judgment placing the child on probation and, as a condition of probation, transfer custody of the child to the department for a period not to exceed six months without further order of the court; provided that this transfer shall not be made unless the court first determines that the

department is able to provide or contract for adequate and appropriate treatment for the child and that the treatment is likely to be beneficial.

C. When the child is an Indian child, the Indian child's cultural needs shall be considered in the dispositional judgment and reasonable access to cultural practices and traditional treatment shall be provided.

D. A child found to be delinquent shall not be committed or transferred to a penal institution or other facility used for the execution of sentences of persons convicted of crimes.

E. Whenever the court vests legal custody in an agency, institution or department, it shall transmit with the dispositional judgment copies of the clinical reports, predisposition study and report and other information it has pertinent to the care and treatment of the child.

F. Prior to any child being placed in the custody of the department, the department shall be provided with reasonable oral or written notification and an opportunity to be heard.

G. In addition to any other disposition pursuant to Subsection B of this section, the court may make an abuse or neglect report for investigation and proceedings as provided for in the Abuse and Neglect Act. The report may be made to a local law enforcement agency, the department or a tribal law enforcement or social service agency for an Indian child residing in Indian country.

H. In addition to any other disposition pursuant to this section or any other penalty provided by law, if a child fifteen years of age or older is adjudicated delinquent on the basis of Paragraph (2), (3) or (4) of Subsection A of Section 32A-2-3 NMSA 1978, the child's driving privileges may be denied or the child's driver's license may be revoked for a period of ninety days. For a second or a subsequent adjudication, the child's driving privileges may be denied or the child's driver's license revoked for a period of one year. Within twenty-four hours of the dispositional judgment, the court may send to the motor vehicle division of the taxation and revenue department the order adjudicating delinquency. Upon receipt of an order from the court adjudicating delinquency, the director of the motor vehicle division of the taxation and revenue department may revoke or deny the delinquent's driver's license or driving privileges. Nothing in this section may prohibit the delinquent from applying for a limited driving privilege pursuant to Section 66-5-35 NMSA 1978 or an ignition interlock license pursuant to the Ignition Interlock Licensing Act, and nothing in this section precludes the delinquent's participation in an appropriate educational, counseling or rehabilitation program.

I. In addition to any other disposition pursuant to this section or any other penalty provided by law, when a child is adjudicated delinquent on the basis of Paragraph (6) of Subsection A of Section 32A-2-3 NMSA 1978, the child shall perform

the mandatory community service set forth in Section 30-15-1.1 NMSA 1978. When a child fails to completely perform the mandatory community service, the name and address of the child's parent or legal guardian shall be published in a newspaper of general circulation, accompanied by a notice that he is the parent or legal guardian of a child adjudicated delinquent for committing graffiti."

Chapter 189 Section 17 Laws 2005

Section 17. Section 32A-2-20 NMSA 1978 (being Laws 1993, Chapter 77, Section 49, as amended) is amended to read:

"32A-2-20. DISPOSITION OF A YOUTHFUL OFFENDER.--

A. The court has the discretion to invoke either an adult sentence or juvenile sanctions on a youthful offender. The children's court attorney shall file a notice of intent to invoke an adult sentence within ten working days of the filing of the petition, provided that the court may extend the time for filing of the notice of intent to invoke an adult sentence, for good cause shown, prior to the adjudicatory hearing. A preliminary hearing by the court or a hearing before a grand jury shall be held, within ten days after the filing of the intent to invoke an adult sentence, to determine whether probable cause exists to support the allegations contained in the petition.

B. If the children's court attorney has filed a notice of intent to invoke an adult sentence and the child is adjudicated as a youthful offender, the court shall make the following findings in order to invoke an adult sentence:

(1) the child is not amenable to treatment or rehabilitation as a child in available facilities; and

(2) the child is not eligible for commitment to an institution for children with developmental disabilities or mental disorders.

C. In making the findings set forth in Subsection B of this section, the judge shall consider the following factors:

(1) the seriousness of the alleged offense;

(2) whether the alleged offense was committed in an aggressive, violent, premeditated or willful manner;

(3) whether a firearm was used to commit the alleged offense;

(4) whether the alleged offense was against persons or against property, greater weight being given to offenses against persons, especially if personal injury resulted;

(5) the sophistication and maturity of the child as determined by consideration of the child's home, environmental situation, emotional attitude and pattern of living;

(6) the record and previous history of the child;

(7) the prospects for adequate protection of the public and the likelihood of reasonable rehabilitation of the child by the use of procedures, services and facilities currently available; and

(8) any other relevant factor, provided that factor is stated on the record.

D. If a child has previously been sentenced as an adult pursuant to the provisions of this section, there shall be a rebuttable presumption that the child is not amenable to treatment or rehabilitation as a child in available facilities.

E. If the court invokes an adult sentence, the court may sentence the child to less than, but shall not exceed, the mandatory adult sentence. A youthful offender given an adult sentence shall be treated as an adult offender and shall be transferred to the legal custody of an agency responsible for incarceration of persons sentenced to adult sentences. This transfer terminates the jurisdiction of the court over the child with respect to the delinquent acts alleged in the petition.

F. If a juvenile disposition is appropriate, the court shall follow the provisions set forth in Section 32A-2-19 NMSA 1978. A youthful offender may be subject to extended commitment in the care of the department until the age of twenty-one, pursuant to the provisions of Section 32A-2-23 NMSA 1978.

G. A child fourteen years of age or older, charged with first degree murder, but not convicted of first degree murder and found to have committed a youthful offender offense as set forth in Subsection I of Section 32A-2-3 NMSA 1978, is subject to the dispositions set forth in this section.

H. A child fourteen years of age or older charged with first degree murder, but found to have committed a delinquent act that is neither first degree murder nor a youthful offender offense as set forth in Subsection I of Section 32A-2-3 NMSA 1978, shall be adjudicated as a delinquent subject to the dispositions set forth in Section 32A-2-19 NMSA 1978."

Chapter 189 Section 18 Laws 2005

Section 18. Section 32A-2-21 NMSA 1978 (being Laws 1993, Chapter 77, Section 50, as amended) is amended to read:

"32A-2-21. DISPOSITION OF A CHILD WITH A MENTAL DISORDER OR DEVELOPMENTAL DISABILITY IN A DELINQUENCY PROCEEDING.--

A. If in a hearing at any stage of a proceeding on a delinquency petition the evidence indicates that the child has or may have a mental disorder or developmental disability, the court may:

(1) order the child detained if appropriate under the criteria established pursuant to the provisions of the Delinquency Act; and

(2) initiate proceedings for the involuntary placement of the child as a minor with a mental disorder or developmental disability pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act.

B. If the child is placed for residential treatment or habilitation pursuant to the Children's Mental Health and Developmental Disabilities Act, the department shall retain legal custody during the period of involuntary placement or until further order of the court.

C. If a child is committed to a psychiatric hospital for treatment or habilitation and in the event that the department should be required to pay more than four hundred dollars (\$400) per day because of the individualized treatment plan, the annual costs over four hundred dollars (\$400) per child per day will be reported annually by the department to the legislative finance committee.

D. The child may remain in the residential treatment or habilitation facility pending the disposition of the delinquency petition.

E. When a child in departmental custody needs involuntary placement for residential mental health or developmental disability services as a result of a mental disorder or developmental disability, the department shall request the children's court attorney to petition for that child's placement pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act.

F. A child subject to the provisions of the Delinquency Act who receives treatment in a residential treatment or habilitation program shall enjoy all the substantive and procedural rights set forth in the Children's Mental Health and Developmental Disabilities Act.

G. A child's competency to stand trial or participate in his own defense may be raised by a party at any time during a proceeding. If the child has been accused of an act that would be considered a misdemeanor if the child were an adult and the child is found to be incompetent to stand trial, the court shall dismiss the petition with prejudice and may recommend that the children's court attorney initiate proceedings pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act. In all other cases, the court shall stay the proceedings until the child is

competent to stand trial; provided that a petition shall not be stayed for more than one year. The court may order treatment to enable the child to attain competency to stand trial and may amend the conditions of release pursuant to Sections 32A-2-11 and 32A-2-13 NMSA 1978. The child's competency to stand trial shall be reviewed every ninety days for up to one year. The court shall dismiss the petition without prejudice if, at any time during the year, the court finds that a child cannot be treated to competency or if, after one year, the court determines that a child is incompetent to stand trial or participate in his own defense. Upon dismissal, the court may recommend that the children's court attorney initiate proceedings pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act.

H. Involuntary residential treatment shall only occur pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act."

Chapter 189 Section 19 Laws 2005

Section 19. Section 32A-2-22 NMSA 1978 (being Laws 1993, Chapter 77, Section 51, as amended) is amended to read:

"32A-2-22. CONTINUANCE UNDER SUPERVISION WITHOUT JUDGMENT--
CONSENT DECREE--DISPOSITION.--

A. At any time after the filing of a delinquency petition and before the entry of a judgment, the court may, on motion of the children's court attorney or that of counsel for the child, suspend the proceedings and continue the child under supervision in the child's own home under terms and conditions negotiated with probation services and agreed to by all the parties affected. The court's order continuing the child under supervision under this section shall be known as a "consent decree". An admission of some or all of the allegations stated in the delinquency petition shall not be required for a consent decree order.

B. If the child objects to a consent decree, the court shall proceed to findings, adjudication and disposition of the case. If the child does not object but an objection is made by the children's court attorney after consultation with probation services, the court shall, after considering the objections and the reasons given, proceed to determine whether it is appropriate to enter a consent decree and may, in its discretion, enter the consent decree.

C. A consent decree shall remain in force for six months unless the child is discharged sooner by probation services. Prior to the expiration of the six-month period and upon the application of probation services or any other agency supervising the child under a consent decree, the court may extend the decree for an additional six months in the absence of objection to extension by the child. If the child objects to the extension, the court shall hold a hearing and make a determination on the issue of extension.

D. If either prior to discharge by probation services or expiration of the consent decree the child allegedly fails to fulfill the terms of the decree, the children's court attorney may file a petition to revoke the consent decree. Proceedings on the petition shall be conducted in the same manner as proceedings on petitions to revoke probation. If the child is found to have violated the terms of the consent decree, the court may:

(1) extend the period of the consent decree; or

(2) make any other disposition that would have been appropriate in the original proceeding.

E. A child who is discharged by probation services or who completes a period under supervision without reinstatement of the original delinquency petition shall not again be proceeded against in any court for the same offense alleged in the petition or an offense based upon the same conduct and the original petition shall be dismissed with prejudice. Nothing in this subsection precludes a civil suit against the child for damages arising from the child's conduct.

F. A judge who pursuant to this section elicits or examines information or material about a child that would be inadmissible in a hearing on the allegations of the petition shall not, over the objection of the child, participate in any subsequent proceedings on the delinquency if:

(1) a consent decree is denied and the allegations in the petition remain to be decided in a hearing where the child denies the allegations; or

(2) a consent decree is granted but the delinquency petition is subsequently reinstated.

G. If a consent decree has been entered pursuant to the filing of a delinquency petition based on Paragraph (2), (3) or (4) of Subsection A of Section 32A-2-3 NMSA 1978 for a child who is fifteen years of age or older, a condition of the consent decree agreement may be the denial of the child's driving privileges or the revocation of the child's driver's license for a period of ninety days. For the second or subsequent adjudication, the child's driving privileges may be denied or the child's driver's license revoked for a period of one year. Within twenty-four hours of the entry by the court of a decree consenting to the revocation or denial of the child's driver's license or driving privileges, the court shall send the decree to the motor vehicle division of the taxation and revenue department. Upon receipt of the decree from the court consenting to the denial or revocation of the child's driving privileges or driver's license, the director of the motor vehicle division of the taxation and revenue department shall revoke or deny the delinquent child's driver's license or driving privileges. Nothing in this section shall prohibit the delinquent child from applying for a limited driving privilege pursuant to Section 66-5-35 NMSA 1978 or an ignition interlock license pursuant to the Ignition

Interlock Licensing Act, and nothing in this section precludes the delinquent child's participation in an appropriate educational, counseling or rehabilitation program."

Chapter 189 Section 20 Laws 2005

Section 20. Section 32A-2-23 NMSA 1978 (being Laws 1993, Chapter 77, Section 52, as amended) is amended to read:

"32A-2-23. LIMITATIONS ON DISPOSITIONAL JUDGMENTS--
MODIFICATION--TERMINATION OR EXTENSION OF COURT ORDERS.--

A. A judgment transferring legal custody of an adjudicated delinquent child to an agency responsible for the care and rehabilitation of delinquent children divests the court of jurisdiction at the time of transfer of custody, unless the transfer of legal custody is for a commitment not exceeding fifteen days pursuant to the provisions of Section 32A-2-19 NMSA 1978, in which case the court retains jurisdiction, and:

(1) the juvenile parole board pursuant to the Juvenile Parole Board Act has the exclusive power to parole or release the child, subject to the provisions of Section 32A-7-8 NMSA 1978;

(2) the supervision of a child after release under Paragraph (1) of this subsection shall be conducted by the department; and

(3) the period of time a child absconds from parole or probation supervision shall toll all time limits for the requirement of filing a petition to revoke probation or parole and shall toll the computation of the period of probation or parole supervision pursuant to the provisions of the Delinquency Act.

B. A judgment of probation or protective supervision shall remain in force for an indeterminate period not to exceed the term of commitment from the date entered.

C. A child shall be released by an agency and probation or supervision shall be terminated by juvenile probation and parole services or the agency providing supervision when it appears that the purpose of the order has been achieved before the expiration of the period of the judgment. A release or termination and the reasons therefor shall be reported promptly to the court in writing by the releasing authority.

D. Prior to the expiration of a short-term commitment of one year, as provided for in Section 32A-2-19 NMSA 1978, the court may extend the judgment for up to one six-month period if the court finds that the extension is necessary to safeguard the welfare of the child or the public safety. If a short-term commitment is extended, the mandatory ninety-day parole, as required by Section 32A-2-19 NMSA 1978, shall be included in the extension. Notice and hearing are required for any extension of a juvenile's commitment.

E. Prior to the expiration of a long-term commitment, as provided for in Section 32A-2-19 NMSA 1978, the court may extend the judgment for additional periods of one year until the child reaches the age of twenty-one if the court finds that the extension is necessary to safeguard the welfare of the child or the public safety. If a long-term commitment is extended, the mandatory ninety-day parole, as required by Section 32A-2-19 NMSA 1978, shall be included in the extension. Notice and hearing are required for any extension of a juvenile's commitment.

F. Prior to the expiration of a judgment of probation, the court may extend the judgment for an additional period of one year until the child reaches the age of twenty-one if the court finds that the extension is necessary to protect the community or to safeguard the welfare of the child.

G. The court may dismiss a motion if it finds after preliminary investigation that the motion is without substance. If the court is of the opinion that the matter should be reviewed, it may, upon notice to all necessary parties, proceed to a hearing in the manner provided for hearings on petitions alleging delinquency. The court may terminate a judgment if it finds that the child is no longer in need of care, supervision or rehabilitation or it may enter a judgment extending or modifying the original judgment if it finds that action necessary to safeguard the child or the public interest.

H. A child may make a motion to modify a children's court or adult disposition within thirty days of the judge's decision. If the court is of the opinion that the matter should be reviewed, it may, upon notice to all necessary parties, proceed to a hearing in the manner provided for hearings on petitions alleging delinquency."

Chapter 189 Section 21 Laws 2005

Section 21. Section 32A-2-25 NMSA 1978 (being Laws 1993, Chapter 77, Section 54) is amended to read:

"32A-2-25. PAROLE REVOCATION--PROCEDURES.--

A. A child on parole from an agency that has legal custody who violates a term of parole may be proceeded against in a parole revocation proceeding conducted by the department or the supervising agency or by a hearing officer contracted by the department who is neutral to the child and the agency in accordance with procedures established by the department in cooperation with the juvenile parole board. A juvenile probation and parole officer may detain a child on parole status who is alleged to have violated a term or condition of parole until the completion and review of a preliminary parole revocation hearing. A child may waive the right to a preliminary parole revocation hearing after consultation with the child's attorney, parent, guardian or custodian.

B. If a retake warrant is issued by the department upon the completion of the preliminary parole revocation hearing, the juvenile institution to which the warrant is issued shall promptly transport the child to that institution at the expense of the

department. If a child absconds from parole supervision and is apprehended in another state after the issuance of a retake warrant by the department, the juvenile justice division of the department shall cause the return of the child to this state at the expense of the department."

Chapter 189 Section 22 Laws 2005

Section 22. Section 32A-2-27 NMSA 1978 (being Laws 1993, Chapter 77, Section 56) is amended to read:

A. Any person may recover damages not to exceed four thousand dollars (\$4,000) in a civil action in a court or tribunal of competent jurisdiction from the parent or guardian having custody and control of a child when the child has maliciously or willfully injured a person or damaged, destroyed or deprived use of property, real or personal, belonging to the person bringing the action.

B. Recovery of damages under this section is limited to the actual damages proved in the action, not to exceed four thousand dollars (\$4,000) taxable court costs and, in the discretion of the court, reasonable attorney fees to be fixed by the court or tribunal.

C. Nothing contained in this section limits the discretion of the court to issue an order requiring damages or restitution to be paid by the child when the child has been found to be within the provisions of the Delinquency Act.

D. Nothing contained in this section shall be construed so as to impute liability to any foster parent."

Chapter 189 Section 23 Laws 2005

B. The court shall use a fee schedule adopted by the public defender department when appointing attorneys to represent children in proceedings on petitions alleging delinquency.

C. The court shall order reimbursement from the parents or guardians of a child who has received or desires to receive legal representation or another benefit under the Public Defender Act after a determination is made that the child was not indigent according to the standard for indigency of children adopted by the public defender department.

D. Any amounts recovered pursuant to this section shall be paid to the state treasurer for credit to the general fund."

F. The court shall assure that the child's guardian ad litem zealously represents the child's best interest and that the child's attorney zealously represents the child.

G. A person afforded rights under the Children's Code shall be advised of those rights at that person's first appearance before the court on a petition under the Children's Code."

Chapter 189 Section 44 Laws 2005

Section 44. Section 32A-4-14 NMSA 1978 (being Laws 1993, Chapter 77, Section 108) is amended to read:

"32A-4-14. CHANGE IN PLACEMENT.--

A. When the child's placement is changed, including a return to the child's home, written notice shall be sent to the child's guardian ad litem, all parties, the child's CASA, the child's foster parents and the court ten days prior to the placement change, unless an emergency situation requires moving the child prior to sending notice.

B. When the child's guardian ad litem requests a court hearing to contest the proposed change, the department shall not change the child's placement pending the results of the court hearing, unless an emergency requires changing the child's placement prior to the hearing.

C. When a child's placement is changed without prior notice as provided for in Subsection A of this section, written notice shall be sent to the child's guardian ad litem, all parties, the child's CASA, the child's foster parents and the court within three days after the placement change.

D. Written notice is not required for removal of a child from temporary emergency care, emergency foster care or respite care. The department shall provide oral notification of the removal to the child's guardian ad litem.

E. Notice need not be given to the parties, other than the child, or to the court when placement is changed at the request of the child's foster parents or substitute care provider. Notice shall be given to the child's guardian ad litem or attorney."

Chapter 189 Section 45 Laws 2005

Section 45. Section 32A-4-18 NMSA 1978 (being Laws 1993, Chapter 77, Section 112, as amended) is amended to read:

"32A-4-18. CUSTODY HEARINGS--TIME LIMITATIONS--NOTICE--PROBABLE CAUSE.--

A. When a child alleged to be neglected or abused has been placed in the legal custody of the department or the department has petitioned the court for temporary custody, a custody hearing shall be held within ten days from the date the petition is filed to determine if the child should remain in or be placed in the department's custody pending adjudication. Upon written request of the respondent, the hearing may be held earlier, but in no event shall the hearing be held sooner than two days after the date the petition was filed.

B. The parent, guardian or custodian of the child alleged to be abused or neglected shall be given reasonable notice of the time and place of the custody hearing.

C. At the custody hearing, the court shall return legal custody of the child to his parent, guardian or custodian unless probable cause exists to believe that:

(1) the child is suffering from an illness or injury, and the parent, guardian or custodian is not providing adequate care for the child;

(2) the child is in immediate danger from his surroundings, and removal from those surroundings is necessary for the child's safety or well-being;

(3) the child will be subject to injury by others if not placed in the custody of the department;

(4) there has been an abandonment of the child by his parent, guardian or custodian; or

(5) the parent, guardian or custodian is not able or willing to provide adequate supervision and care for the child.

D. At the conclusion of the custody hearing, if the court determines that probable cause exists pursuant to Subsection C of this section, the court may:

(1) return legal custody of the child to his parent, guardian or custodian upon such conditions as will reasonably ensure the safety and well-being of the child, including protective supervision by the department; or

(2) award legal custody of the child to the department.

Reasonable efforts shall be made to preserve and reunify the family, with the paramount concern being the child's health and safety.

E. At the conclusion of the custody hearing, the court may order the respondent or the child alleged to be neglected or abused, or both, to undergo appropriate diagnostic examinations or evaluations. Copies of any diagnostic or evaluation reports ordered by the court shall be provided to the parties at least five days before the adjudicatory hearing is scheduled. The reports shall not be sent to the court.

F. The Rules of Evidence shall not apply to custody hearings."

Chapter 189 Section 46 Laws 2005

Section 46. Section 32A-4-20 NMSA 1978 (being Laws 1993, Chapter 77, Section 114, as amended) is amended to read:

"32A-4-20. CONDUCT OF HEARINGS--FINDINGS--DISMISSAL--
DISPOSITIONAL MATTERS--PENALTY.--

A. The proceedings shall be recorded by stenographic notes or by electronic, mechanical or other appropriate means.

B. All abuse and neglect hearings shall be closed to the general public.

C. Only the parties, their counsel, witnesses and other persons approved by the court may be present at a closed hearing. The foster parent, preadoptive parent or relative providing care for the child shall be given notice and an opportunity to be heard at the dispositional phase. Those other persons the court finds to have a proper interest in the case or in the work of the court may be admitted by the court to closed hearings on the condition that they refrain from divulging any information that would identify the child or family involved in the proceedings.

D. Accredited representatives of the news media shall be allowed to be present at closed hearings, subject to the condition that they refrain from divulging information that would identify any child involved in the proceedings or the parent, guardian or custodian of that child and subject to enabling regulations as the court finds necessary for the maintenance of order and decorum and for the furtherance of the purposes of the Children's Code.

E. If the court finds that it is in the best interest of a child under fourteen years of age, the child may be excluded from a hearing under the Abuse and Neglect Act. A child fourteen years of age or older may be excluded from a hearing only if the court makes a finding that there is a compelling reason to exclude the child and states the factual basis for the finding.

F. Those persons or parties granted admission to a closed hearing who intentionally divulge information in violation of this section are guilty of a petty misdemeanor.

G. The court shall determine if the allegations of the petition are admitted or denied. If the allegations are denied, the court shall proceed to hear evidence on the petition. The court, after hearing all of the evidence bearing on the allegations of neglect or abuse, shall make and record its findings on whether the child is a neglected child, an abused child or both. If the petition alleges that the parent, guardian or custodian has subjected the child to aggravated circumstances, then the court shall also make and record its findings on whether the aggravated circumstances have been proven.

H. If the court finds on the basis of a valid admission of the allegations of the petition or on the basis of clear and convincing evidence, competent, material and relevant in nature, that the child is neglected or abused, the court may proceed immediately or at a postponed hearing to make disposition of the case. If the court does

not find that the child is neglected or abused, the court shall dismiss the petition and may refer the family to the department for appropriate services.

I. In that part of the hearings held under the Children's Code on dispositional issues, all relevant and material evidence helpful in determining the questions presented, including oral and written reports, may be received by the court and may be relied upon to the extent of its probative value even though not competent had it been offered during the part of the hearings on adjudicatory issues.

J. On the court's motion or that of a party, the court may continue the hearing on the petition for a period not to exceed thirty days to receive reports and other evidence in connection with disposition. The court shall continue the hearing pending the receipt of the predisposition study and report if that document has not been prepared and received. During any continuances under this subsection, the court shall make an appropriate order for legal custody."

Chapter 189 Section 47 Laws 2005

Section 47. Section 32A-4-22 NMSA 1978 (being Laws 1993, Chapter 77, Section 116, as amended) is amended to read:

"32A-4-22. DISPOSITION OF ADJUDICATED ABUSED OR NEGLECTED CHILD.--

A. If not held in conjunction with the adjudicatory hearing, the dispositional hearing shall be commenced within thirty days after the conclusion of the adjudicatory hearing. At the conclusion of the dispositional hearing, the court shall make and include in the dispositional judgment its findings on the following:

- (1) the interaction and interrelationship of the child with his parent, siblings and any other person who may significantly affect the child's best interest;
- (2) the child's adjustment to his home, school and community;
- (3) the mental and physical health of all individuals involved;
- (4) the wishes of the child as to the child's placement;
- (5) the wishes of the child's parent, guardian or custodian as to the child's custody;
- (6) whether there exists a relative of the child or other individual who, after study by the department, is found to be qualified to receive and care for the child;

(7) the availability of services recommended in the treatment plan prepared as a part of the predisposition study in accordance with the provisions of Section 32A-4-21 NMSA 1978;

(8) the ability of the parent to care for the child in the home so that no harm will result to the child;

(9) whether reasonable efforts were used by the department to prevent removal of the child from the home prior to placement in substitute care and whether reasonable efforts were used to attempt reunification of the child with the natural parent; and

(10) if the child is an Indian child, whether the placement preferences set forth in the federal Indian Child Welfare Act of 1978 or the placement preferences of the child's Indian tribe have been followed and whether the Indian child's treatment plan provides for maintaining the Indian child's cultural ties. When placement preferences have not been followed, good cause for noncompliance shall be clearly stated and supported.

B. If a child is found to be neglected or abused, the court may enter its judgment making any of the following dispositions to protect the welfare of the child:

(1) permit the child to remain with his parent, guardian or custodian, subject to those conditions and limitations the court may prescribe;

(2) place the child under protective supervision of the department;
or

(3) transfer legal custody of the child to any of the following:

(a) the noncustodial parent, if it is found to be in the child's best interest;

(b) an agency responsible for the care of neglected or abused children; or

(c) a child-placement agency willing and able to assume responsibility for the education, care and maintenance of the child and licensed or otherwise authorized by law to receive and provide care for the child.

C. If a child is found to be neglected or abused, in its dispositional judgment the court shall also order the department to implement and the child's parent, guardian or custodian to cooperate with any treatment plan approved by the court. Reasonable efforts shall be made to preserve and reunify the family, with the paramount concern being the child's health and safety. The court may determine that reasonable efforts are not required to be made when the court finds that:

(1) the efforts would be futile; or

(2) the parent, guardian or custodian has subjected the child to aggravated circumstances.

D. Any parent, guardian or custodian of a child who is placed in the legal custody of the department or other person pursuant to Subsection B of this section shall have reasonable rights of visitation with the child as determined by the court, unless the court finds that the best interests of the child preclude any visitation.

E. The court may order reasonable visitation between a child placed in the custody of the department and the child's siblings or any other person who may significantly affect the child's best interest, if the court finds the visitation to be in the child's best interest.

F. Unless a child found to be neglected or abused is also found to be delinquent, the child shall not be confined in an institution established for the long-term care and rehabilitation of delinquent children.

G. When the court vests legal custody in an agency, institution or department, the court shall transmit with the dispositional judgment copies of the clinical reports, the predisposition study and report and any other information it has pertinent to the care and treatment of the child.

H. Prior to a child being placed in the custody or protective supervision of the department, the department shall be provided with reasonable oral or written notification and an opportunity to be heard. At any hearing held pursuant to this subsection, the department may appear as a party.

I. When a child is placed in the custody of the department, the department shall investigate whether the child is eligible for enrollment as a member of an Indian tribe and, if so, the department shall pursue the enrollment on the child's behalf.

J. When the court determines pursuant to Subsection C of this section that no reasonable efforts at reunification are required, the court shall conduct, within thirty days, a permanency hearing as described in Section 32A-4-25.1 NMSA 1978. Reasonable efforts shall be made to implement and finalize the permanency plan in a timely manner."

Chapter 189 Section 48 Laws 2005

Section 48. Section 32A-4-23 NMSA 1978 (being Laws 1993, Chapter 77, Section 117, as amended) is amended to read:

"32A-4-23. DISPOSITION OF A CHILD WITH A MENTAL DISORDER OR A DEVELOPMENTAL DISABILITY IN A PROCEEDING UNDER THE ABUSE AND NEGLECT ACT.--

A. If in a hearing, at any stage of a proceeding on a neglect or abuse petition, the evidence indicates that a child has a mental disorder or a developmental disability, the court shall adjudicate the issue of neglect or abuse under the provisions of the Children's Code.

B. When a child in department custody needs involuntary placement for residential mental health or developmental disability services as a result of a mental disorder or developmental disability, the department shall petition for that child's placement pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act.

C. Any child in department custody who is placed for residential treatment or habilitation pursuant to the provisions of the Children's Mental Health and Developmental Disabilities Act shall remain in the legal custody of the department while in residential treatment or habilitation or until further order of the court.

D. A court hearing for consideration of an involuntary placement of a child for residential treatment or habilitation, when the child is subject to the provisions of the Abuse and Neglect Act, may be heard by the court as part of the abuse or neglect proceedings or may be heard in a separate proceeding. All parties to the abuse or neglect proceedings shall be provided with notice of the involuntary placement hearing.

E. A guardian ad litem appointed pursuant to the Abuse and Neglect Act shall serve as a guardian ad litem for a child for the purposes of the Children's Mental Health and Developmental Disabilities Act. When a child is fourteen years of age or older, the child shall be represented by an attorney unless, after consultation between the child and the child's attorney, the child elects to be represented by counsel appointed in the proceedings under the Children's Mental Health and Developmental Disabilities Act.

F. When a child is subject to the provisions of the Abuse and Neglect Act and is receiving residential treatment or habilitation services, any documentation required pursuant to the Children's Mental Health and Developmental Disabilities Act shall be filed with the court as part of the abuse or neglect proceeding. A review of the child's placement in a residential treatment or habilitation program shall occur in the same manner and within the same time requirements as provided in the Children's Mental Health and Developmental Disabilities Act.

G. The clerk of the court shall maintain a separate section within an abuse or neglect file for documents pertaining to actions taken under the Children's Mental Health and Developmental Disabilities Act.

H. A child subject to the provisions of the Abuse and Neglect Act who receives treatment in a residential treatment or habilitation program shall enjoy all the substantive and procedural rights set forth in the Children's Mental Health and Developmental Disabilities Act."

Chapter 189 Section 49 Laws 2005

Section 49. Section 32A-4-25 NMSA 1978 (being Laws 1993, Chapter 77, Section 119, as amended) is amended to read:

"32A-4-25. PERIODIC REVIEW OF DISPOSITIONAL JUDGMENTS.--

A. The initial judicial review shall be held within sixty days of the disposition. At the initial review, the parties shall demonstrate to the court efforts made to implement the treatment plan approved by the court in its dispositional order. The court shall determine the extent to which the treatment plan has been implemented and make supplemental orders as necessary to ensure compliance with the treatment plan and the safety of the child. Prior to the initial judicial review, the department shall submit a copy of the adjudicatory order, the dispositional order and notice of the initial judicial review to the local substitute care review board for that judicial district created under the Citizen Substitute Care Review Act. A representative of the local substitute care review board shall be permitted to attend and comment to the court.

B. Subsequent periodic reviews of dispositional orders shall be held within six months of the conclusion of the permanency hearing or, if a motion has been filed for termination of parental rights or permanent guardianship, within six months of the decision on that motion and every six months thereafter. Prior to the review, the department shall submit a progress report to the local substitute care review board for that judicial district created under the Citizen Substitute Care Review Act. Prior to any judicial review by the court pursuant to this section, the local substitute care review board may review the dispositional order or the continuation of the order and the department's progress report and report its findings and recommendations to the court. The review may be carried out by either of the following:

(1) a judicial review hearing conducted by the court; or

(2) a judicial review hearing conducted by a special master appointed by the court; provided, however, that the court approve any findings made by the special master.

C. The children's court attorney shall give notice to all parties, the child's guardian ad litem, the child's CASA, a contractor administering the local substitute care review board and the child's foster parent or substitute care provider of the time, place and purpose of any judicial review hearing held pursuant to Subsection A or B of this section.

D. At any judicial review hearing held pursuant to Subsection B of this section, the department, the child's guardian ad litem and all parties given notice pursuant to Subsection C of this section shall have the opportunity to present evidence and to cross-examine witnesses. At the hearing, the department shall show that it has made reasonable effort to implement any treatment plan approved by the court in its dispositional order and shall present a treatment plan consistent with the purposes of the Children's Code for any period of extension of the dispositional order. The respondent shall demonstrate to the court that efforts to comply with the treatment plan approved by the court in its dispositional order and efforts to maintain contact with the child were diligent and made in good faith. The court shall determine the extent of compliance with the treatment plan and whether progress is being made toward establishing a stable and permanent placement for the child.

E. The Rules of Evidence shall not apply to hearings held pursuant to this section. The court may admit testimony by any person given notice of the hearing who has information about the status of the child or the status of the treatment plan.

F. At the conclusion of any hearing held pursuant to this section, the court shall make findings of fact and conclusions of law.

G. When the child is an Indian child, the court shall determine during review of a dispositional order whether the placement preferences set forth in the federal Indian Child Welfare Act of 1978 or the placement preferences of the child's Indian tribe were followed and whether the child's treatment plan provides for maintaining the child's cultural ties. When placement preferences have not been followed, good cause for noncompliance shall be clearly stated and supported.

H. Based on its findings at a judicial review hearing held pursuant to Subsection B of this section, the court shall order one of the following dispositions:

(1) dismiss the action and return the child to his parent without supervision if the court finds that conditions in the home that led to abuse have been corrected and it is now safe for the return of the abused child;

(2) permit the child to remain with his parent, guardian or custodian subject to those conditions and limitations the court may prescribe, including protective supervision of the child by the department;

(3) return the child to his parent and place the child under the protective supervision of the department;

(4) transfer or continue legal custody of the child to:

(a) the noncustodial parent, if that is found to be in the child's best interests;

(b) a relative or other individual who, after study by the department or other agency designated by the court, is found by the court to be qualified to receive and care for the child and is appointed as a permanent guardian of the child; or

(c) the department, subject to the provisions of Paragraph (6) of this subsection;

(5) continue the child in the legal custody of the department with or without any required parental involvement in a treatment plan. Reasonable efforts shall be made to preserve and reunify the family, with the paramount concern being the child's health and safety unless the court finds that such efforts are not required. The court may determine that reasonable efforts are not required to be made when the court finds that:

(a) the efforts would be futile; or

(b) the parent, guardian or custodian has subjected the child to aggravated circumstances;

(6) make additional orders regarding the treatment plan or placement of the child to protect the child's best interests if the court determines the department has failed in implementing any material provision of the treatment plan or abused its discretion in the placement or proposed placement of the child; or

(7) if during a judicial review the court finds that the child's parent, guardian or custodian has not complied with the court-ordered treatment plan, the court may order:

(a) the child's parent, guardian or custodian to show cause why he should not be held in contempt of court; or

(b) a hearing on the merits of terminating parental rights.

I. Dispositional orders entered pursuant to this section shall remain in force for a period of six months, except for orders that provide for transfer of the child to the child's noncustodial parent or to a permanent guardian.

J. The report of the local substitute care review board submitted to the court pursuant to Subsection B of this section shall become a part of the child's permanent court record.

K. When the court determines, pursuant to Paragraph (5) of Subsection H of this section, that no reasonable efforts at reunification are required, the court shall conduct, within thirty days, a permanency hearing as described in Section 32A-4-25.1 NMSA 1978. Reasonable efforts shall be made to place the child in a timely manner in

accordance with the permanency plan and to complete whatever steps are necessary to finalize the permanent placement of the child."

Chapter 189 Section 50 Laws 2005

Section 50. Section 32A-4-25.1 NMSA 1978 (being Laws 1997, Chapter 34, Section 8) is amended to read:

"32A-4-25.1. PERMANENCY HEARINGS--PERMANENCY REVIEW HEARINGS.--

A. A permanency hearing shall be commenced within six months of the initial judicial review of a child's dispositional order or within twelve months of a child entering foster care pursuant to Subsection E of this section, whichever occurs first. Prior to the initial permanency hearing, all parties to the hearing shall attend a mandatory meeting and attempt to settle issues attendant to the permanency hearing and develop a proposed treatment plan that serves the child's best interest. Prior to the initial permanency hearing, the department shall submit a progress report regarding the child to the local substitute care review board for that judicial district. The local substitute care review board may review the child's dispositional order, any continuation of that order and the department's progress report and report its findings and recommendations to the court.

B. At the permanency hearing, all parties shall have the opportunity to present evidence and to cross-examine witnesses. At the conclusion of the permanency hearing, the court shall order one of the following permanency plans for the child:

(1) reunification;

(2) placement for adoption after the parents' rights have been relinquished or terminated or after a motion has been filed to terminate parental rights;

(3) placement with a person who will be the child's permanent guardian;

(4) placement in the legal custody of the department with the child placed in the home of a fit and willing relative; or

(5) placement in the legal custody of the department under a planned permanent living arrangement, provided that there is substantial evidence that none of the above plans is appropriate for the child.

C. If the court adopts a permanency plan of reunification, the court shall adopt a plan for transitioning the child home and schedule a permanency review hearing within three months. If the child is reunified, the subsequent hearing may be vacated.

D. At the permanency review hearing, all parties and the child's guardian ad litem or attorney shall have the opportunity to present evidence and cross-examine witnesses. Based on the evidence, the court shall:

(1) change the plan from reunification to one of the alternative plans provided in Subsection B of this section;

(2) dismiss the case and return custody of the child to his parent, guardian or custodian; or

(3) return the child to the custody of his parent, guardian or custodian, subject to any conditions or limitations as the court may prescribe, including protective supervision of the child by the department and continuation of the treatment plan for not more than six months, after which the case shall be dismissed. The department may seek removal of a child from the home by obtaining an order in the pending case or by seeking emergency removal under Section 32A-4-6 NMSA 1978 during the period of protective supervision if the child's best interest requires such action. When a child is removed in this situation, a permanency hearing shall be scheduled within thirty days of the child coming back into the department's legal custody.

E. The court shall hold a permanency hearing and adopt a permanency plan for a child within twelve months of the child entering foster care. For purposes of this section, a child shall be considered to have entered foster care on the earlier of:

(1) the date of the first judicial finding that the child has been abused or neglected; or

(2) sixty days after the date on which the child was removed from the home.

F. The court shall hold permanency hearings every twelve months when a child is in the legal custody of the department.

G. The children's court attorney shall give notice to all parties, the child's guardian ad litem, the child's CASA, a contractor administering the local substitute care review board and the child's foster parent or substitute care provider of the time, place and purpose of any permanency hearing or permanency review hearing held pursuant to this section.

H. The rules of evidence shall not apply to permanency hearings. The court may admit testimony by any person given notice of the permanency hearing who has information about the status of the child or the status of the treatment plan. All testimony shall be subject to

cross-examination."

Chapter 189 Section 51 Laws 2005

Section 51. Section 32A-4-28 NMSA 1978 (being Laws 1993, Chapter 77, Section 122, as amended) is amended to read:

"32A-4-28. TERMINATION OF PARENTAL RIGHTS--ADOPTION DECREE.--

A. In proceedings to terminate parental rights, the court shall give primary consideration to the physical, mental and emotional welfare and needs of the child, including the likelihood of the child being adopted if parental rights are terminated.

B. The court shall terminate parental rights with respect to a child when:

(1) there has been an abandonment of the child by his parents;

(2) the child has been a neglected or abused child as defined in the Abuse and Neglect Act and the court finds that the conditions and causes of the neglect and abuse are unlikely to change in the foreseeable future despite reasonable efforts by the department or other appropriate agency to assist the parent in adjusting the conditions that render the parent unable to properly care for the child. The court may find in some cases that efforts by the department or another agency are unnecessary, when:

(a) there is a clear showing that the efforts would be futile; or

(b) the parent has subjected the child to aggravated circumstances; or

(3) the child has been placed in the care of others, including care by other relatives, either by a court order or otherwise and the following conditions exist:

(a) the child has lived in the home of others for an extended period of time;

(b) the parent-child relationship has disintegrated;

(c) a psychological parent-child relationship has developed between the substitute family and the child;

(d) if the court deems the child of sufficient capacity to express a preference, the child no longer prefers to live with the natural parent;

(e) the substitute family desires to adopt the child; and

(f) a presumption of abandonment created by the conditions described in Subparagraphs (a) through (e) of this paragraph has not been rebutted.

C. A finding by the court that all of the conditions set forth in Subparagraphs (a) through (f) of Paragraph (3) of Subsection B of this section exist shall create a rebuttable presumption of abandonment.

D. The department shall not file a motion, and shall not join a motion filed by another party, to terminate parental rights when the sole factual basis for the motion is that a child's parent is incarcerated.

E. The termination of parental rights involving a child subject to the federal Indian Child Welfare Act of 1978 shall comply with the requirements of that act.

F. If the court finds that parental rights should be terminated; that the requirements for the adoption of a child have been satisfied; that the prospective adoptive parent is a party to the action; and that good cause exists to waive the filing of a separate petition for adoption, the court may proceed to grant adoption of the child, absent an appeal of the termination of parental rights. The court shall not waive any time requirements set forth in the Adoption Act unless the termination of parental rights occurred pursuant to the provisions of Paragraph (3) of Subsection B of this section. The court may enter a decree of adoption only after finding that the party seeking to adopt the child has satisfied all of the requirements set forth in the Adoption Act. Unless otherwise stipulated by all parties, an adoption decree shall take effect sixty days after the termination of parental rights, to allow the department sufficient time to provide counseling for the child and otherwise prepare the child for the adoption. The adoption decree shall conform to the requirements of the Adoption Act and shall have the same force and effect as other adoption decrees entered pursuant to that act. The court clerk shall assign an adoption case number to the adoption decree."

Chapter 189 Section 52 Laws 2005

Section 52. Section 32A-4-29 NMSA 1978 (being Laws 1993, Chapter 77, Section 123, as amended) is amended to read:

"32A-4-29. TERMINATION PROCEDURE.--

A. A motion to terminate parental rights may be filed at any stage of the abuse or neglect proceeding by a party to the proceeding.

B. The motion for termination of parental rights shall set forth:

- (1) the date, place of birth and marital status of the child, if known;
- (2) the grounds for termination and the facts and circumstances supporting the grounds for termination;
- (3) the names and addresses of the persons or authorized agency or agency officer to whom legal custody might be transferred;

(4) whether the child resides or has resided with a foster parent who desires to adopt this child;

(5) whether the motion is in contemplation of adoption;

(6) the relationship or legitimate interest of the moving party to the child; and

(7) whether the child is subject to the federal Indian Child Welfare Act of 1978 and, if so:

(a) the tribal affiliations of the child's parents;

(b) the specific actions taken by the moving party to notify the parents' tribes and the results of the contacts, including the names, addresses, titles and telephone numbers of the persons contacted. Copies of any correspondence with the tribes shall be attached as exhibits to the petition; and

(c) what specific efforts were made to comply with the placement preferences set forth in the federal Indian Child Welfare Act of 1978 or the placement preferences of the appropriate Indian tribes.

C. Notice of the filing of the motion, accompanied by a copy of the motion, shall be served by the moving party on all other parties, the foster parent, preadoptive parent or relative providing care for the child with whom the child is residing, foster parents with whom the child has resided for six months within the previous twelve months, the custodian of the child, any person appointed to represent any party and any other person the court orders. Service shall be in accordance with the Children's Court Rules for the service of motions, except that foster parents and attorneys of record in this proceeding shall be served by certified mail. The notice shall state specifically that the person served shall file a written response to the motion within twenty days if the person intends to contest the termination. In any case involving a child subject to the federal Indian Child Welfare Act of 1978, notice shall also be sent by certified mail to the tribes of the child's parents and upon any "Indian custodian" as that term is defined in 25 U.S.C. Section 1903(6). Further notice shall not be required on a parent who has been provided notice previously pursuant to Section 32A-4-17 NMSA 1978 and who failed to make an appearance.

D. When a motion to terminate parental rights is filed, the moving party shall request a hearing on the motion. The hearing date shall be at least thirty days, but no more than sixty days, after service is effected upon the parties entitled to service under this section.

E. In any action for the termination of parental rights brought by a party other than the department and involving a child in the legal custody of the department, the department may:

(1) litigate a motion for the termination of parental rights that was initially filed by another party; or

(2) move that the motion for the termination of parental rights be found premature and denied.

F. When a motion to terminate parental rights is filed, the department shall perform concurrent planning.

G. When a child has been in foster care for not less than fifteen of the previous twenty-two months, the department shall file a motion to terminate parental rights, unless:

(1) a parent has made substantial progress toward eliminating the problem that caused the child's placement in foster care; it is likely that the child will be able to safely return to the parent's home within three months; and the child's return to the parent's home will be in the child's best interests;

(2) the child has a close and positive relationship with a parent and a permanent plan that does not include termination of parental rights will provide the most secure and appropriate placement for the child;

(3) the child is fourteen years of age or older, is firmly opposed to termination of parental rights and is likely to disrupt an attempt to place him with an adoptive family;

(4) a parent is terminally ill, but in remission, and does not want his parental rights to be terminated; provided that the parent has designated a guardian for his child;

(5) the child is not capable of functioning if placed in a family setting. In such a case, the court shall reevaluate the status of the child every ninety days unless there is a final court determination that the child cannot be placed in a family setting;

(6) grounds do not exist for termination of parental rights;

(7) the child is an unaccompanied, refugee minor and the situation regarding the child involves international legal issues or compelling foreign policy issues; or

(8) adoption is not an appropriate plan for the child.

H. For purposes of this section, a child shall be considered to have entered foster care on the earlier of:

(1) the date of the first judicial finding that the child has been abused or neglected; or

I. The grounds for any attempted termination shall be proved by clear and convincing evidence. In any proceeding involving a child subject to the federal Indian Child Welfare Act of 1978, the grounds for any attempted termination shall be proved beyond a reasonable doubt and shall meet the requirements set forth in 25 U.S.C. Section 1912(f).

J. When the court terminates parental rights, it shall appoint a custodian for the child and fix responsibility for the child's support.

K. In any termination proceeding involving a child subject to the federal Indian Child Welfare Act of 1978, the court shall in any termination order make specific findings that the requirements of that act have been met.

L. A judgment of the court terminating parental rights divests the parent of all legal rights and privileges and dispenses with both the necessity for the consent to or receipt of notice of any subsequent adoption proceeding concerning the child. A judgment of the court terminating parental rights shall not affect the child's rights of inheritance from and through the child's biological parents."

Chapter 189 Section 53 Laws 2005

Section 53. Section 32A-4-30 NMSA 1978 (being Laws 1993, Chapter 77, Section 124) is amended to read:

"32A-4-30. ATTORNEY FEES.--The court may order the department to pay attorney fees for the child's guardian ad litem or attorney if:

A. the child is in the legal custody of the department;

B. the child's guardian ad litem or the child, through the child's attorney:

(1) requests in writing that the department move for the termination of parental rights;

(2) gives the department written notice that if the department does not move for termination of parental rights, the guardian ad litem or the child, through the child's attorney, intends to move for the termination of parental rights and seek an award of attorney fees;

(3) successfully moves for the termination of parental rights; and

(4) applies to the court for an award of attorney fees; and

C. the department refuses to litigate the motion for the termination of parental rights or fails to act in a timely manner."

Chapter 189 Section 54 Laws 2005

Section 54. Section 32A-4-31 NMSA 1978 (being Laws 1993, Chapter 77, Section 125) is amended to read:

"32A-4-31. PERMANENT GUARDIANSHIP OF A CHILD.--

A. In proceedings for permanent guardianship, the court shall give primary consideration to the physical, mental and emotional welfare and needs of the child. Permanent guardianship vests in the guardian all rights and responsibilities of a parent, other than those rights and responsibilities of the natural or adoptive parent, if any, set forth in the decree of permanent guardianship.

B. Any adult, including a relative or foster parent, may be considered as a permanent guardian, provided that the department grants consent to the guardianship if the child is in the legal custody of the department. An agency or institution may not be a permanent guardian. The court shall appoint a person nominated by the child, if the minor is fourteen years of age or older, unless the court finds the appointment contrary to the best interests of the child.

C. The court may establish a permanent guardianship between a child and the guardian when the prospective guardianship is in the child's best interest and when:

(1) the child has been adjudicated as an abused or neglected child;

(2) the department has made reasonable efforts to reunite the parent and child and further efforts by the department would be unproductive;

(3) reunification of the parent and child is not in the child's best interests because the parent continues to be unwilling or unable to properly care for the child; and

(4) the likelihood of the child being adopted is remote or it is established that termination of parental rights is not in the child's best interest."

Chapter 189 Section 55 Laws 2005

Section 55. Section 32A-4-32 NMSA 1978 (being Laws 1993, Chapter 77, Section 126, as amended) is amended to read:

"32A-4-32. PERMANENT GUARDIANSHIP--PROCEDURE.--

A. A motion for permanent guardianship may be filed by any party.

B. A motion for permanent guardianship shall set forth:

(1) the date, place of birth and marital status of the child, if known;

(2) the facts and circumstances supporting the grounds for permanent guardianship;

(3) the name and address of the prospective guardian and a statement that the person agrees to accept the duties and responsibilities of guardianship;

(4) the basis for the court's jurisdiction;

(5) the relationship of the child to the petitioner and the prospective guardian; and

(6) whether the child is subject to the federal Indian Child Welfare Act of 1978 and, if so:

(a) the tribal affiliations of the child's parents;

(b) the specific actions taken by the petitioner to notify the parents' tribe and the results of the contacts, including the names, addresses, titles and telephone numbers of the persons contacted. Copies of any correspondence with the tribes shall be attached as exhibits to the petition; and

(c) what specific efforts were made to comply with the placement preferences set forth in the federal Indian Child Welfare Act of 1978 or the placement preferences of the appropriate Indian tribes.

C. If the motion is not filed by the prospective guardian, the motion shall be verified by the prospective guardian.

D. Notice of the filing of the motion, accompanied by a copy of the motion, shall be served by the moving party on any parent who has not previously been made a party to the proceeding, the parents of the child, foster parents with whom the child is residing, the foster parent, preadoptive parent or relative providing care for the child with whom the child has resided for six months, the child's custodian, the department, any person appointed to represent any party, including the child's guardian ad litem, and any other person the court orders provided with notice. Service shall be in accordance with the Children's Court Rules for the service of motions. In a case involving a child subject to the federal Indian Child Welfare Act of 1978, notice shall also be sent by certified mail

to the Indian tribes of the child's parents and to any "Indian custodian" as that term is defined in

25 U.S.C. Section 1903(6). Further notice shall not be required to a parent who has been provided notice previously pursuant to Section 32A-4-17 NMSA 1978 and who failed to make an appearance.

E. The grounds for permanent guardianship shall be proved by clear and convincing evidence. The grounds for permanent guardianship shall be proved beyond a reasonable doubt and meet the requirements of 25 U.S.C. Section 1912(f) in any proceeding involving a child subject to the federal Indian Child Welfare Act of 1978.

F. A judgment of the court vesting permanent guardianship with an individual divests the biological or adoptive parent of legal custody or guardianship of the child, but is not a termination of the parent's rights. A child's inheritance rights from and through the child's biological or adoptive parents are not affected by this proceeding.

G. Upon a finding that grounds exist for a permanent guardianship, the court may incorporate into the final order provisions for visitation with the natural parents, siblings or other relatives of the child and any other provision necessary to rehabilitate the child or provide for the child's continuing safety and well-being.

H. The court shall retain jurisdiction to enforce its judgment of permanent guardianship.

I. Any party may make a motion for revocation of the order granting guardianship when there is a significant change of circumstances, including:

(1) the child's parent is able and willing to properly care for the child; or

(2) the child's guardian is unable to properly care for the child.

J. The court shall appoint a guardian ad litem for the child in all proceedings for the revocation of permanent guardianship.

K. The court may revoke the order granting guardianship when a significant change of circumstances has been proven by clear and convincing evidence and it is in the child's best interests to revoke the order granting guardianship."

(4) the presumed father of the adoptee;

(5) the adoptee's acknowledged father;

(6) the department or the agency to whom the adoptee has been relinquished that has placed the adoptee for adoption or the department or the agency that has custody of the adoptee; provided, however, that the court may grant the adoption without the consent of the department or the agency if the court finds the

adoption is in the best interests of the adoptee and that the withholding of consent by the department or the agency is unreasonable; and

(7) the guardian of the adoptee's parent when, pursuant to provisions of the Uniform Probate Code, that guardian has express authority to consent to adoption.

B. In any adoption involving an Indian child, consent to adoption by the petitioner or relinquishment of parental rights shall be obtained from an "Indian custodian", as required pursuant to the provisions of the federal Indian Child Welfare Act of 1978.

C. A consent or relinquishment executed by a parent who is a minor shall not be subject to avoidance or revocation solely by reason of the parent's minority."

Chapter 189 Section 64 Laws 2005

Section 64. Section 32A-5-21 NMSA 1978 (being Laws 1993, Chapter 77, Section 148) is amended to read:

"32A-5-21. FORM OF CONSENT OR RELINQUISHMENT.--

A. Except when consent or relinquishment is implied, a consent or relinquishment by a parent shall be in writing, signed by the parent consenting or relinquishing and shall state the following:

(1) the date, place and time of execution;

(2) the date and place of birth of the adoptee and any names by which the adoptee has been known;

(3) if a consent to adoption is being executed, the identity of the petitioner, if known, or when the adoption is an independent adoption and the identity of the petitioner is unknown, how the petitioner was selected by the consenting parent;

(4) if a relinquishment of parental rights is being executed, the name and address of the agency or the department;

(5) that the person executing the consent or relinquishment has been counseled, as provided in Section 32A-5-22 NMSA 1978, by a certified counselor of the person's choice and with this knowledge the person is voluntarily and unequivocally consenting to the adoption of the named adoptee;

(6) that the consenting party has been advised of the legal consequences of the relinquishment or consent either by independent legal counsel or a judge;

(7) if the adoption is closed, that all parties understand that the court will not enforce any contact, regardless of any informal agreements that have been made between the parties;

(8) that the consent to or relinquishment for adoption cannot be withdrawn;

(9) that the person executing the consent or relinquishment has received or been offered a copy of the consent or relinquishment;

(10) that a counseling narrative has been prepared pursuant to department regulations and is attached to the consent or relinquishment;

(11) that the person who performed the counseling meets the requirements set forth in the Adoption Act; and

(12) that the person executing the consent or relinquishment waives further notice of the adoption proceedings.

B. The consent of an adoptee, if fourteen years of age or older, shall be in writing, signed by the adoptee, consenting to the adoption and shall state the following:

(1) the date, place and time of execution;

(2) the date and place of birth of the adoptee and any names by which the adoptee has been known;

(3) the name of the petitioner;

(4) that the adoptee has been counseled regarding the consent pursuant to department regulation;

(8) that a counseling narrative has been prepared pursuant to department regulation and is attached to the consent; and

(9) that the person who performed the counseling meets the requirements set forth in the Adoption Act.

C. In cases when the consent or relinquishment is in English and English is not the first language of the consenting or relinquishing person, the person taking the consent or relinquishment shall certify in writing that the document has been read and explained to the person whose consent or relinquishment is being taken in that person's first language, by whom the document was so read and explained and that the meaning and implications of the document are fully understood by the person giving the consent or relinquishment.

D. Unconditional consents or relinquishments are preferred and therefore, conditional consents or relinquishments shall be for good cause and approved by the court. However, if the condition is for a specific petitioner or the condition requires the other parent to consent before the decree of adoption is entered, the condition shall be deemed for good cause. In any event, all conditions permitted under this subsection shall be met within one hundred eighty days of the execution of the conditional consent or relinquishment or the conclusion of any litigation concerning the petition for adoption. The court may grant an extension of this time for good cause.

E. Agency or department consents required pursuant to the provisions of Section 32A-5-17 NMSA 1978 shall state the following:

- (1) the date, place and time of execution;
- (2) the date and place of birth of the adoptee and any names by which the adoptee has been known;
- (3) the name of the petitioner; and
- (4) the consent of the agency or department.

F. A consent or relinquishment taken by an individual appointed to take consents or relinquishments by an agency shall be notarized, except that a consent or relinquishment signed in the presence of a judge need not be notarized. A hearing before the court for the purpose of taking a consent or relinquishment shall be heard by the court within seven days of request for setting.

G. No consent to adoption or relinquishment of parental rights shall be valid if executed within forty-eight hours after the adoptee's birth. Consent to adoption or relinquishment of parental rights involving an Indian child shall comply with the more stringent requirements of the federal Indian Child Welfare Act of 1978.

H. The requirements of a consent to adoption or relinquishment of parental rights involving an Indian child and the rights of a parent of an Indian child to withdraw the consent or relinquishment shall be governed by the relevant provisions of the federal Indian Child Welfare Act of 1978.

I. A consent to or relinquishment for adoption shall not be withdrawn prior to the entry of a decree of adoption unless the court finds, after notice and opportunity to be heard is afforded to the petitioner, to the person seeking the withdrawal and to the agency placing a child for adoption, that the consent or relinquishment was obtained by fraud. In no event shall a consent or relinquishment be withdrawn after the entry of a decree of adoption."

Chapter 189 Section 65 Laws 2005

Section 65. Section 32A-5-23 NMSA 1978 (being Laws 1993, Chapter 77, Section 150, as amended) is amended to read:

"32A-5-23. PERSONS WHO MAY TAKE CONSENTS OR RELINQUISHMENTS.--

A. A consent to adoption or relinquishment of parental rights shall be signed before and approved on the record by a judge who has jurisdiction over adoption proceedings, within or without this state, and who is in the jurisdiction in which the child is present or in which the parent resides at the time it is signed.

B. No parent may relinquish parental rights to the department or an agency without the department's or the agency's consent.

C. The consent or relinquishment shall be filed with the court in which the petition for adoption has been filed before adjudication of the petition."

Chapter 189 Section 66 Laws 2005

Section 66. Section 32A-5-24 NMSA 1978 (being Laws 1993, Chapter 77, Section 151) is amended to read:

"32A-5-24. RELINQUISHMENTS TO THE DEPARTMENT.--

A. When a parent elects to relinquish parental rights to the department, a petition to accept the relinquishment shall be filed, unless an abuse or neglect proceeding is pending. If an abuse or neglect proceeding is pending, the relinquishment shall be heard in the context of that proceeding.

B. In all hearings regarding relinquishment of parental rights to the department, the child shall be represented by a guardian ad litem.

C. If a proposed relinquishment of parental rights is not in contemplation of adoption, the court shall not allow the relinquishment of parental rights unless it finds that good cause exists, that the department has made reasonable efforts to preserve the family and that relinquishment of parental rights is in the child's best interest. Whenever a parent relinquishes his parental rights pursuant to this subsection, the

parent shall remain financially responsible for the child. The court may order the parent to pay the reasonable costs of support and maintenance of the child. The court may use the child support guidelines set forth in Section 40-4-11.1 NMSA 1978 to calculate a reasonable payment.

D. When a parent relinquishes the parent's rights under this section, the parent shall be notified that no contact will be enforced by the court, regardless of any informal agreement, unless the parties have agreed to an open adoption pursuant to Section 32A-5-35 NMSA 1978. The consent for relinquishment shall be in writing and shall state that the parties understand that any informal agreement allowing contact will not be enforced by the courts."

Chapter 189 Section 67 Laws 2005

Section 67. Section 32A-5-34 NMSA 1978 (being Laws 1993, Chapter 77, Section 161, as amended) is amended to read:

"32A-5-34. FEES AND CHARGES--DAMAGES.--

A. Prior to the final hearing on the petition, the petitioner shall file a full accounting of all disbursements of anything of value made or agreed to be made by or on behalf of the petitioner in connection with the adoption. The accounting report shall be signed under penalty of perjury. The accounting report shall be itemized in detail and shall show the services reasonably relating to the adoption or to the placement of the child for adoption that were received by the parents of the child, by the child or by or on behalf of the petitioner. The report shall also include the dates of each payment and the names and addresses of each attorney, physician, hospital, licensed adoption agency or other person or organization who received any funds or any other thing of value from the petitioner in connection with the adoption or the placement of the child with him or who participated in any way in the handling of the funds, either directly or indirectly.

B. A prospective adoptive parent, or another person acting on behalf of a prospective adoptive parent, shall make payments for services relating to the adoption or to the placement of the adoptee for adoption for allowed expenses only to third party vendors, as reasonably practical. These payments shall consist of reasonable and actual fees or charges for:

- (1) the services of an agency in connection with an adoption;
- (2) medical, hospital, nursing, pharmaceutical, traveling or other similar expenses incurred by a mother or the adoptee in connection with the birth or any illness of an adoptee;
- (3) reasonable counseling services relating to the adoption;

(4) living expenses of a mother and her dependent children, including the adoptee, for a reasonable time before the birth or placement of the adoptee and for no more than six weeks after the birth or placement of the adoptee;

(5) expenses incurred for the purposes of full disclosure;

(6) legal services, court costs and traveling or other administrative expenses connected with an adoption, including any legal service performed for a parent who consents to the adoption of a child or relinquishes the child to an agency;

(7) preparation of a pre-placement study and of a post-placement report during the pendency of the adoption proceeding; or

(8) any other service or expense the court finds is reasonably necessary for services relating to the adoption or to the placement of the adoptee for adoption.

C. Any person who makes payments that are not permitted pursuant to the provisions of this section is in violation of the Adoption Act and subject to the penalties set forth in Section 32A-5-42 NMSA 1978.

D. Any person who threatens or coerces a parent to complete the relinquishment of parental rights or to complete the consent to an adoption, by demanding repayment of expenses or by any other threat or coercion, shall be liable to the parent for compensatory and punitive damages.

E. The accounting required in Subsection A of this section is not applicable to stepparent adoptions or to adoptions under the provisions of the Abuse and Neglect Act, unless ordered by the court.

F. Nothing in this section shall be construed to permit payment to a woman for conceiving and carrying a child."

Chapter 189 Section 68 Laws 2005

Section 68. Section 32A-5-35 NMSA 1978 (being Laws 1993, Chapter 77, Section 162, as amended) is amended to read:

"32A-5-35. OPEN ADOPTIONS.--

A. The parents of the adoptee and the petitioner may agree to contact between the parents and the petitioner or contact between the adoptee and one or more of the parents or contact between the adoptee and relatives of the parents. An agreement shall, absent a finding to the contrary, be presumed to be in the best interests of the child and shall be included in the decree of adoption. The contact may include exchange of identifying or nonidentifying information or visitation between the

parents or the parents' relatives and the petitioner or visitation between the parents or the parents' relatives and the adoptee. An agreement entered into pursuant to this section shall be considered an open adoption.

B. The court may appoint a guardian ad litem for the adoptee. The court shall adopt a presumption in favor of appointing a guardian ad litem for the adoptee when visitation between the biological family and the adoptee is included in an agreement; however, this requirement may be waived by the court for good cause shown. When an adoptive placement is made voluntarily through an agency or pursuant to Section 32A-5-13 NMSA 1978, the court may, in its discretion, appoint a guardian ad litem. If the child is fourteen years of age or older, the court may appoint an attorney for the child. In all adoptions other than those in which the child is placed by the department, the court may assess the parties for the cost of services rendered by the guardian ad litem or the child's attorney. The duties of the guardian ad litem or child's attorney end upon the filing of the decree, unless otherwise ordered by the court.

C. In determining whether the agreement is in the adoptee's best interests, the court shall consider the adoptee's wishes, but the wishes of the adoptee shall not control the court's findings as to the best interests of the adoptee.

D. Every agreement entered into pursuant to provisions of this section shall contain a clause stating that the parties agree to the continuing jurisdiction of the court and to the agreement and understand and intend that any disagreement or litigation regarding the terms of the agreement shall not affect the validity of the relinquishment of parental rights, the adoption or the custody of the adoptee.

E. The court shall retain jurisdiction after the decree of adoption is entered, if the decree contains an agreement for contact, for the purpose of hearing motions brought to enforce or modify an agreement entered into pursuant to the provisions of this section. The court shall not grant a request to modify the agreement unless the moving party establishes that there has been a change of circumstances and the agreement is no longer in the adoptee's best interests."

Chapter 189 Section 69 Laws 2005

Section 69. Section 32A-5-37 NMSA 1978 (being Laws 1993, Chapter 77, Section 164) is amended to read:

"32A-5-37. STATUS OF ADOPTEE AND PETITIONER UPON ENTRY OF DECREE OF ADOPTION.--

A. Once adopted, an adoptee shall take a name designated by the petitioner, except in stepparent adoptions. In stepparent adoptions, the adoptee shall take the new name designated by the petitioner in the petition so long as the petitioner's spouse and the child, if over the age of fourteen years, consent to the new name. The name change need not be requested in the petition.

B. After adoption, the adoptee and the petitioner shall sustain the legal relation of parent and child as if the adoptee were the biological child of the petitioner and the petitioner were the biological parent of the child. The adoptee shall have all rights and be subject to all of the duties of that relation, including the right of inheritance from and through the petitioner, and the petitioner shall have all rights and be subject to all duties of that relation, including right of inheritance from and through the adoptee."

Chapter 189 Section 70 Laws 2005

Section 70. Section 32A-5-38 NMSA 1978 (being Laws 1993, Chapter 77, Section 165) is amended to read:

"32A-5-38. BIRTH CERTIFICATES.--

A. Within thirty days after an adoption decree becomes final, the petitioner shall prepare an application for a birth certificate in the new name of the adoptee, showing the petitioner as the adoptee's parent, and shall provide the application to the clerk of the court. The petitioner shall forward the application:

(1) for a person born in the United States, to the appropriate vital statistics office of the place, if known, where the adoptee was born; or

(2) for all other persons, to the state registrar of vital statistics. In the case of the adoption of a person born outside the United States, if requested by the petitioner, the court shall make findings, based on evidence from the petitioner and other reliable state or federal sources, on the date and place of birth of the adoptee. These findings shall be certified by the court and included with the application for a birth certificate.

B. The state registrar of vital statistics shall prepare a birth record in the new name of the adoptee in accordance with the vital statistics laws, but subject to the requirements of the Adoption Act as to the confidentiality of adoption records."

Chapter 189 Section 71 Laws 2005

"32A-5-39. RECOGNITION OF FOREIGN DECREES.--

A. Every decree or order of adoption terminating the parent-child relationship or establishing the relationship of parent and child by adoption entered by a court or other entity in another country acting pursuant to that country's law or pursuant to any convention or treaty or intercountry adoption that the United States has ratified shall be recognized in this state, so that the rights and obligations of the parties as to

matters within the jurisdiction of this state shall be determined as though the decree or order of adoption were issued by the courts of this state.

B. A convention adoption in a foreign country that is certified by the United States secretary of state shall be recognized as a final adoption in this state."

Chapter 189 Section 72 Laws 2005

Section 72. Section 32A-5-40 NMSA 1978 (being Laws 1993, Chapter 77, Section 167, as amended) is amended to read:

"32A-5-40. POST-DECREE OF ADOPTION ACCESS TO RECORDS.--

A. After the decree of adoption has been entered, all court files containing records of judicial proceedings conducted pursuant to the provisions of the Adoption Act and records submitted to the court in the proceedings shall be kept in separate locked files withheld from public inspection. Upon application to the clerk of the court, the records shall be open to inspection by a former parent if the adoptee is eighteen years of age or older, by an adoptee if the adoptee is eighteen years of age or older at the time application is made for inspection, by the adoptive parent if the adoptee is under eighteen years of age at the time application is made for inspection, by the attorney of any party, by any agency that has exercised guardianship over or legal custody of a child who was the adoptee in the particular proceeding, by the department or by an adoptee's sibling; provided that the identity of the former parents and of the adoptee shall be kept confidential unless the former parents and the adoptee have consented to the release of identity. In the absence of consent to release identity, the inspection shall be limited to the following nonidentifying information:

(1) the health and medical histories of the adoptee's biological parents;

(2) the health and medical history of the adoptee;

(3) the adoptee's general family background, including ancestral information, without name references or geographical designations;

(4) physical descriptions; and

(5) the length of time the adoptee was in the care and custody of persons other than the petitioner.

B. After the entry of the decree of adoption, at any time, a former parent may file with the court, with the placing agency or with the department:

(1) a consent or refusal or an amended consent or refusal to be contacted;

(2) a release of the former parent's identity to the adoptee if the adoptee is eighteen years of age or older or to the adoptive parent if the adoptee is under eighteen years of age; or

(3) information regarding the former parent's location or changes in background information.

C. Any changes to post-adoption access to records referred to in Subsection B of this section shall be filed with the court, the placing agency and the department.

D. The consent or refusal referred to in Subsection B of this section shall be honored by the court, the placing agency or the department unless for good cause the court orders to the contrary.

E. At any time, an adoptee who is eighteen years of age or older may file with the court, a placing agency or the department:

(1) information regarding the adoptee's location; or

(2) a consent or refusal regarding opening of the adoptee's adoption file to the adoptee's former parents.

F. If mutual authorizations for release of identifying information by the parties are not available, an adoptee who is eighteen years of age or older, the biological parents if the adoptee is eighteen years of age or older or the adoptive parents if the adoptee is under the age of eighteen years may file a motion with the court to obtain the release of identifying information for good cause shown. When hearing the motion, the court shall give primary consideration to the best interests of the adoptee, but shall also give due consideration to the interests of the members of the adoptee's former and adoptive families. In determining whether good cause exists for the release of identifying information, the court shall consider:

(1) the reason the information is sought;

(2) any procedure available for satisfying the petitioner's request without disclosing the name or identity of another individual, including appointment of a confidential intermediary to contact the individual and request specific information;

(3) whether the individual about whom identifying information is sought is alive;

(4) the preference, to the extent known, of the adoptee, the adoptive parents, the former parents and other members of the adoptee's former and adoptive families and the likely effect of disclosure on those individuals;

(5) the age, maturity and expressed needs of the adoptee;

(6) the report or recommendation of any individual appointed by the court to assess the request for identifying information; and

(7) any other factor relevant to an assessment of whether the benefit to the adoptee of releasing the information sought will be greater than the benefit to any other individual of not releasing the information.

G. An adoptee shall have the right, for the purpose of enrolling in the adoptee's tribe of origin, to access information kept by the department. Information needed by an adoptee to enroll in his tribe of origin may be requested from the department by the following persons:

(1) the adoptee, after he reaches eighteen years of age;

(2) when the adoptee is a child, his adoptive parent or guardian; or

(3) an adoptee's descendant or, if the adoptee's descendant is a child, an adult representative for the descendant.

H. When the department receives a request for information regarding an adoptee's tribe of origin, the department shall examine its records to determine if the adoptee is of Indian descent. If the department establishes that an adoptee is of Indian descent, the department shall:

(1) provide the requester with the tribal affiliation of the adoptee's biological parents;

(2) submit to the tribe information necessary to establish tribal enrollment for the adoptee and to protect any rights flowing from the adoptee's tribal relationship; and

(3) provide notice to the requester of the department's submission of information to the adoptee's tribe."

B. Subsidy payments may include payments to vendors for medical and surgical expenses and payments to the adoptive parents or permanent guardians for maintenance and other costs incidental to the adoption, care, training and education of the child. The payments in any category of assistance shall not exceed the cost of providing the assistance in foster care. Payments shall not be made under this section after the child reaches eighteen years of age, except for a child who is enrolled in the medically fragile waiver program, in which case the payments may extend until the child is twenty-one years of age.

C. A written agreement between the adoptive family or permanent guardians and the department shall precede the decree of adoption or permanent guardianship. The agreement shall incorporate the terms and conditions of the subsidy plan based on the individual needs of the child within the permanent family. In cases of subsidies that continue for more than one year, there shall be an annual redetermination of the need for a subsidy. The department shall develop an appeal procedure whereby a permanent family may contest a division determination to deny, reduce or terminate a subsidy."

Chapter 211 Section 1 Laws 2005

Section 1. Section 7-38-67 NMSA 1978 (being Laws 1973, Chapter 258, Section 107, as amended by Laws 2001, Chapter 253, Section 3 and by Laws 2001, Chapter 254, Section 3) is amended to read:

"7-38-67. REAL PROPERTY SALE REQUIREMENTS.--

A. Real property shall not be sold for delinquent taxes before the expiration of three years from the first date shown on the tax delinquency list on which the taxes on the real property became delinquent.

B. Notice of the sale shall be published in a local newspaper within the county where the real property is located or, if there is no local county or municipal newspaper, then a newspaper published in a county contiguous to or near the county in which the real property is located, at least once a week for the three weeks immediately preceding the week of the sale. The notice shall state the time and place of the sale and shall include a description of the real property sufficient to permit its identification and location by potential purchasers.

C. Real property shall be sold at public auction either by the department or an auctioneer hired by the department. The auction shall be held in the county where the real property is located at a time and place designated by the department.

F. Payment shall be made in full by the close of the public auction before an offer may be deemed accepted by the department.

G. Real property not offered for sale may be offered for sale at a later sale, but the requirements of this section and Section 7-38-66 NMSA 1978 shall be met in connection with each sale.

The board of trustees of a community land grant-merced governed pursuant to the provisions of Chapter 49, Article 1 NMSA 1978 or by statutes specific to the named land grant-merced shall be allowed to match the highest bid at a public auction, which shall entitle the board of trustees to purchase the property for the amount bid if:

HOUSE BILL 332, AS AMENDED

Approved April 6, 2005

LAWS 2005, CHAPTER 212

AN ACT

RELATING TO TAXATION; AUTHORIZING A COUNTY AND MUNICIPAL LOCAL OPTION QUALITY OF LIFE GROSS RECEIPTS TAX.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 212 Section 1 Laws 2005

Section 1. A new section of the County Local Option Gross Receipts Taxes Act is enacted to read:

"QUALITY OF LIFE GROSS RECEIPTS TAX--AUTHORITY TO IMPOSE--ORDINANCE REQUIREMENTS--USE OF REVENUE--ELECTION.--

A. Prior to January 1, 2016, the majority of the members of the governing body of a county may enact an ordinance imposing an excise tax at a rate not to exceed one-fourth percent of the gross receipts of a person engaging in business in the county area for the privilege of engaging in business. The tax may be imposed in one or more increments of one-sixteenth percent not to exceed an aggregate rate of one-fourth percent. The tax shall be imposed for a period of not more than ten years from the effective date of the ordinance imposing the tax. Having enacted an ordinance imposing the tax prior to January 1, 2016 pursuant to the provisions of this section, the governing body may enact subsequent ordinances for succeeding periods of not more than ten years; provided that each ordinance meets the requirements of this section and of the County Local Option Gross Receipts Taxes Act. The tax imposed pursuant to the provisions of this section may be referred to as the "quality of life gross receipts tax".

B. The governing body, at the time of enacting an ordinance imposing the quality of life gross receipts tax, shall dedicate the revenue to cultural programs and activities provided by a local government and to cultural programs, events and activities provided by contract or operating agreement with nonprofit or publicly owned cultural organizations and institutions.

C. The governing body of a class A county with a population of more than two hundred fifty thousand according to the most recent federal decennial census, when dedicating revenue pursuant to Subsection B of this section, shall specify that:

(1) the revenue may not be used for capital expenditures, endowments or fundraising;

(2) at least one percent but not more than three percent of the revenue shall be used for public education on the use of the revenue;

(3) at least three percent but not more than five percent of the revenue shall be dedicated to administration of the revenue; and

(4) at least one percent but not more than three percent of the revenue shall be used for implementation of the goals of the cultural plan for the county and the largest municipality located within the exterior boundaries of the county.

D. An ordinance imposing any increment of the quality of life gross receipts tax shall not go into effect until after an election is held and a majority of the voters in the county voting in the election vote in favor of imposing the tax. The governing body shall adopt a resolution calling for an election within ninety days of the date the ordinance is adopted on the question of imposing the tax. The question may be submitted to the voters as a separate question at a general election or at a special election called for that purpose by the governing body. A special election shall be called, conducted and canvassed in substantially the same manner as provided by law for general elections. In any election held, the ballot shall clearly state the purpose to which the revenue will be dedicated pursuant to this section. If a majority of the voters voting on the question approves the ordinance imposing the quality of life gross receipts tax, the ordinance shall become effective in accordance with the provisions of the County Local Option Gross Receipts Taxes Act. If the question of imposing the quality of life gross receipts tax fails, the governing body shall not again propose the imposition of the tax for a period of one year from the date of the election.

E. The quality of life gross receipts tax revenue shall be used to meet the following goals: promoting and preserving cultural diversity; enhancing the quality of cultural programs and activities; fostering greater access to cultural opportunities; promoting culture in order to further economic development within the county; and supporting programs, events and organizations with direct, identifiable and measurable public benefit to residents of the county. It is the objective of the quality of life gross receipts tax that the revenue from the tax be used to expand and sustain existing programs and to develop new programs, events and activities, rather than to replace other funding sources for existing programs, events and activities.

F. The governing body of a county that imposes the quality of life gross receipts tax shall, within sixty days of the election approving the imposition of the tax, appoint a county cultural advisory board consisting of between nine and fifteen members. Persons appointed to the board shall be residents of the county who are knowledgeable about the activities eligible for quality of life tax funding. At least one member of the board shall be appointed by the governing body of the most populous municipality within the county. The members of the board shall be appointed for fixed terms and shall not be removed during their terms except for malfeasance. The terms of the initial board members shall be staggered so that one-third of the members are appointed for one-year terms, one-third are appointed for two-year terms and one-third are appointed for three-year terms. Subsequent appointments to the board shall be for three-year terms. If a vacancy on the board occurs, the governing body shall appoint a replacement member for the remainder of the unexpired term. A board member shall not serve for more than two consecutive terms.

G. The county cultural advisory board shall have the responsibility of overseeing the distribution of the quality of life gross receipts tax revenue for the goals listed in Subsection E of this section. The board shall:

(1) biennially submit recommendations to the governing body for expenditures of revenue from the quality of life gross receipts tax that are allocated pursuant to this section through contracts for services with appropriate organizations and institutions;

(2) establish and publicize the necessary qualifications for organizations and institutions to receive quality of life gross receipts tax funding; and

(3) develop guidelines and procedures for applying for funding through a request for proposals process and the criteria by which contracts will be awarded. The evaluation process shall include a public review component.

H. The cultural advisory board shall establish reporting requirements for recipients of the quality of life gross receipts tax revenue. The board shall provide to the governing body an annual evaluation of the use of revenue from the quality of life gross receipts tax to ensure that it is meeting the goals listed in Subsection E of this section.

I. If the quality of life gross receipts tax is enacted in a class A county with a population of more than two hundred fifty thousand according to the most recent federal decennial census, the net revenue from the tax remaining after distributions pursuant to Subsection C of this section shall be distributed as follows subject to the recommendations of the county cultural advisory board pursuant to Subsection G of this section:

(1) for the purpose of enhancing cultural programs and activities, sixty-five percent to a municipality for cultural programs and activities within the exterior boundaries of the county and five percent to the county for cultural programs and activities within the unincorporated areas of the county; provided that:

(a) the funds are distributed according to a plan that takes into consideration progress indicators that include current budgets, fiscal responsibility and attendance;

(b) educational institutions serving kindergarten through twelfth grade are not eligible for distributions pursuant to this paragraph; and

(c) a portion of the funds may be expended by the municipality pursuant to an operating agreement with an organization that operates a facility owned by the municipality;

(2) for the purpose of providing cultural programs and services to the residents of the county, sixteen percent may be distributed through contracts for

services with private nonprofit organizations with an annual operating budget of more than one hundred thousand dollars (\$100,000) and two percent may be distributed through contracts for services with private nonprofit organizations with an annual operating budget of one hundred thousand dollars (\$100,000) or less. To be eligible for a distribution pursuant to this paragraph, an organization shall have:

(a) been granted for the prior three consecutive years exemption from the federal income tax by the United States commissioner of the internal revenue as an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986;

(b) as its primary purpose cultural programs; and

(c) its principal office located within the exterior boundaries of the county; and

(3) for the purpose of providing cultural programs to residents of the county, twelve percent to:

(a) organizations that have a strong cultural program but do not have culture as their primary purpose; or

(b) foundations that are affiliated with state or federally owned institutions and that do not otherwise qualify for funding pursuant to this section but that offer cultural programs to the general public.

J. Every four years, the cultural advisory board shall review and revise as necessary:

(1) the guidelines and procedures for applying for funding;

(2) the criteria by which applications for funding will be evaluated;
and

(3) the percentages specified in Paragraph (1) of Subsection I of this section for distribution of net revenue to municipally owned or county-owned institutions.

K. As used in this section:

(1) "county area" means that portion of a county located outside the boundaries of any municipality, except that for H class counties and class A counties with a population in excess of two hundred fifty thousand, according to the most recent federal decennial census, "county area" means the entire county; and

(2) "cultural organizations and institutions" means organizations and institutions that have as a primary purpose the advancement or preservation of zoology, museums, library sciences, art, music, theater, dance, literature or the humanities."

Chapter 225 Section 2 Laws 2005

LEGISLATIVE FINDINGS.--The legislature finds that a simplified sales tax and use tax system that treats transactions in a competitively neutral manner will strengthen and preserve sales taxes and use taxes as vital revenue sources for this state and its local governments and will help preserve the fiscal sovereignty of this state. The legislature also finds that such a system will substantially reduce the administrative burdens of collection for sellers. While states have the sovereign right to set their own tax policies, states should cooperatively develop a streamlined sales tax and use tax system that is simplified, uniform and fair.

C. The secretary of taxation and revenue or the secretary's designee is authorized to represent this state before member states.

Chapter 225 Section 5 Laws 2005

Section 5. RELATIONSHIP TO STATE LAW.--A provision of the agreement does not invalidate or amend any provision of state law. Implementation of a condition of the agreement shall be adopted by the legislature.

Chapter 225 Section 6 Laws 2005

Section 6. AGREEMENT REQUIREMENTS.--The secretary of taxation and revenue shall not enter into the agreement unless the agreement:

A. sets restrictions to achieve more uniform state tax rates by limiting:

(1) the number of member state tax rates;

(2) the application of maximums on the amount of member state taxes due on transactions; and

(3) the application of thresholds on the application of member state taxes;

F. provides for reduction of the burden of complying with local sales taxes and use taxes by:

- (1) restricting variances between the member state and local tax bases;
- (2) requiring each member state to administer the sales tax and use tax levied by a local jurisdiction within the member state so that a seller collecting and remitting the taxes will not be required to register or file a return with, remit funds to or be subject to an independent audit from a local taxing jurisdiction;
- (3) restricting change in each local sales tax rate and use tax rate and setting an effective date for a change in the boundaries of a local taxing jurisdiction; and

B. A person shall not:

(1) have a cause of action or a defense pursuant to the agreement;
and

(2) challenge an action or inaction of a department, agency, political subdivision or instrumentality of this state on the grounds that the action or inaction is not consistent with the agreement.

C. A law of this state or the application of the law is valid despite the inconsistency of the law or its application with the agreement.

Chapter 225 Section 9 Laws 2005

Section 9. LIABILITY.--

A. A certified service provider is liable for sales taxes and use taxes due from each member state on each sales transaction that it processes for the seller, except as otherwise provided by this section. A seller that contracts with the certified service provider is not liable to this state for sales tax or use tax due on a transaction processed by the certified service provider unless the seller misrepresents the type of item it sells or commits fraud. Section 1. Section 7-37-5 NMSA 1978 (being Laws 1973, Chapter 258, Section 38, as amended) is amended to read:

"7-37-5. VETERAN EXEMPTION.--

A. Up to four thousand dollars (\$4,000) of the taxable value of property, including the community or joint property of husband and wife, subject to the tax is exempt from the imposition of the tax if the property is owned by a veteran or the veteran's unmarried surviving spouse if the veteran or surviving spouse is a New Mexico resident or if the property is held in a grantor trust established under Sections 671 through 677 of the Internal Revenue Code of 1986, as those sections may be amended or renumbered, by a veteran or the veteran's unmarried surviving spouse if the veteran or surviving spouse is a New Mexico resident. The exemption shall be deducted from the taxable value of the property to determine the net taxable value of

the property. The exemption allowed shall be in the following amounts for the specified tax years:

(1) for tax year 2004, the exemption shall be three thousand dollars (\$3,000);

(2) for tax year 2005, the exemption shall be three thousand five hundred dollars (\$3,500); and

(3) for tax year 2006 and each subsequent tax year, the exemption shall be four thousand dollars (\$4,000).

B. The veteran exemption shall be applied only if claimed and allowed in accordance with Section 7-38-17 NMSA 1978 and regulations of the department. For taxpayers who became eligible for a veteran exemption due to the approval of the amendment to Article 8, Section 5 of the constitution of New Mexico in November 2004, a county assessor shall, at the time of determining the net taxable value of the taxpayer's property for the 2005 property tax year, in addition to complying with the provisions of Section 7-38-17 NMSA 1978, determine the net taxable value of the taxpayer's property that would result from the application of the veteran exemption for the 2004 property tax year had the deadline for applying for the veteran exemption in 2004 occurred after the amendment was certified. The veteran exemption for 2004 shall not be credited against the 2005 property value of a taxpayer until the taxpayer has paid in full the taxpayer's property tax liability for the 2004 property tax year.

C. As used in this section, "veteran" means an individual who:

(1) has been honorably discharged from membership in the armed forces of the United States; and

(2) except as provided in this section, served in the armed forces of the United States on active duty continuously for ninety days.

D. For the purposes of Subsection C of this section, a person who would otherwise be entitled to status as a veteran except for failure to have served in the armed forces continuously for ninety days is considered to have met that qualification if the person served for less than ninety days and the reason for not having served for ninety days was a discharge brought about by service-connected disablement.

E. For the purposes of Subsection C of this section, a person has been "honorably discharged" unless the person received either a dishonorable discharge or a discharge for misconduct.

F. For the purposes of this section, a person whose civilian service has been recognized as service in the armed forces of the United States under federal law and who has been issued a discharge certificate by a branch of the armed forces of the

United States shall be considered to have served in the armed forces of the United States."

Section 2. Section 7-38-17 NMSA 1978 (being Laws 1973, Chapter 258, Section 57, as amended) is amended to read:

"7-38-17. CLAIMING EXEMPTIONS--REQUIREMENTS--PENALTIES.--

A. Subject to the requirements of Subsection E of this section, head-of-family exemptions, veteran exemptions or disabled veteran exemptions claimed and allowed in a tax year need not be claimed for subsequent tax years if there is no change in eligibility for the exemption nor any change in ownership of the property against which the exemption was claimed. Head-of-family and veteran exemptions allowable under this subsection shall be applied automatically by county assessors in the subsequent tax years.

B. Other exemptions of real property specified under Section 7-36-7 NMSA 1978 for nongovernmental entities shall be claimed in order to be allowed. Once such exemptions are claimed and allowed for a tax year, they need not be claimed for subsequent tax years if there is no change in eligibility. Exemptions allowable under this subsection shall be applied automatically by county assessors in subsequent tax years.

C. Except as set forth in Subsection H of this section, an exemption required to be claimed under this section shall be applied for no later than thirty days after the mailing of the county assessor's notices of valuation pursuant to Section 7-38-20 NMSA 1978 in order for it to be allowed for that tax year.

D. A person who has had an exemption applied to a tax year and subsequently becomes ineligible for the exemption because of a change in the person's status or a change in the ownership of the property against which the exemption was applied shall notify the county assessor of the loss of eligibility for the exemption by the last day of February of the tax year immediately following the year in which loss of eligibility occurs.

E. Exemptions may be claimed by filing proof of eligibility for the exemption with the county assessor. The proof shall be in a form prescribed by regulation of the department. Procedures for determining eligibility of claimants for any exemption shall be prescribed by regulation of the department, and these regulations shall include provisions for requiring the veterans' services department to issue certificates of eligibility for veteran exemptions in a form and with the information required by the department. The regulations shall also include verification procedures to assure that veteran exemptions in excess of the amount authorized under Section 7-37-5 NMSA 1978 are not allowed as a result of multiple claiming in more than one county or claiming against more than one property in a single tax year.

F. The department shall consult and cooperate with the veterans' services department in the development, adoption and promulgation of regulations under Subsection E of this section. The veterans' services department shall comply with the promulgated regulations. The veterans' services department shall collect a fee of five dollars (\$5.00) for the issuance of a duplicate certificate of eligibility to a veteran.

G. A person who violates the provisions of this section by intentionally claiming and receiving the benefit of an exemption to which the person is not entitled or who fails to comply with the provisions of Subsection D of this section is guilty of a misdemeanor and shall be punished by a fine of not more than one thousand dollars (\$1,000). A county assessor or the assessor's employee who knowingly permits a claimant for an exemption to receive the benefit of an exemption to which the claimant is not entitled is guilty of a misdemeanor and shall be punished by a fine of not more than one thousand dollars (\$1,000) and shall also be automatically removed from office or dismissed from employment upon conviction under this subsection.

H. A veteran or the veteran's unmarried surviving spouse who became eligible to receive a property tax exemption due to the expansion of the class of eligible veterans resulting from approval by the electorate in November 2004 of an amendment to Article 8, Section 5 of the constitution of New Mexico shall apply at the time the veteran or the veteran's unmarried surviving spouse applies for the 2005 veteran exemption, to the county assessor of the county in which the property of the veteran or the veteran's unmarried surviving spouse is located to have the veteran exemptions for the 2004 and 2005 property tax years applied to the 2005 taxable value of the property. The same form of documentation required for a veteran's property exemption for property tax year 2005 is required to be presented to the county assessor for property tax year 2004."

Chapter 230 Section 3 Laws 2005

Section 3. TEMPORARY PROVISION--ADDITIONAL INSTRUCTIONS TO ASSESSORS AND TREASURERS--SPECIAL REQUIREMENTS FOR 2004 VETERAN EXEMPTION--NEWLY ELIGIBLE VETERANS.--

A. A county assessor shall include with the notice of valuation distributed to property owners for the 2005 property tax year, a notice to taxpayers informing them that:

(1) a taxpayer who is a veteran or the unmarried surviving spouse of a veteran who was not previously eligible for a veteran property tax exemption may be eligible for that exemption due to the change in Article 8, Section 5 of the constitution of New Mexico adopted in November 2004; and

(2) a taxpayer who is eligible for the veteran tax exemption for the 2005 property tax year may also be eligible for the veteran tax exemption for the 2004 property tax year.

B. The taxpayer shall obtain certification from the veterans' services department verifying that the veteran upon whose service the exemption is claimed is eligible for a tax exemption pursuant to Article 8, Section 5 of the constitution of New Mexico for the 2005 property tax year to present to the county assessor. The veterans' services department shall certify the date on which the veteran became honorably discharged from the armed forces of the United States.

C. The county assessor shall determine from the date of discharge from the armed forces of the United States certified by the veterans' services department if the veteran would have been eligible to receive a tax exemption for the 2004 property tax year based on the veteran's date of discharge from the armed forces of the United States and the dates on which the taxpayer took title to the property. A veteran would be eligible if the veteran were discharged on a date prior to the thirtieth day following the date on which the county assessor mailed the notice of valuation in 2004 and had title to the property to which the veteran tax exemption is applied at that time.

D. If a taxpayer, who became eligible for the veteran exemption due to the approval of the amendment to Article 8, Section 5 of the constitution of New Mexico, qualifies for the 2004 and 2005 veteran exemptions and has paid in full the taxpayer's property tax liability for the 2004 property tax year, for the 2005 property tax year only the county assessor shall combine the total of the veteran exemptions for those two property tax years and deduct the combined total from the taxable value of the taxpayer's property to obtain the net taxable value for the 2005 property tax year.

Chapter 230 Section 4 Laws 2005

Section 4. APPLICABILITY.--The provisions of Section 3 of this act apply only to the veteran exemptions claimed in a timely manner in the 2005 property tax year.

LAWS 2005, CHAPTER 231

AN ACT

RELATING TO TAXATION; CLARIFYING PROVISIONS OF THE PROPERTY TAX CODE RELATING TO AGRICULTURAL LANDS; IMPOSING PROPERTY TAX ON CAPTIVE DEER AND ELK; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 231 Section 1 Laws 2005

Section 1. Section 7-36-20 NMSA 1978 (being Laws 1973, Chapter 258, Section 21, as amended) is amended to read:

"7-36-20. SPECIAL METHOD OF VALUATION--LAND USED PRIMARILY FOR AGRICULTURAL PURPOSES.--

A. The value of land used primarily for agricultural purposes shall be determined on the basis of the land's capacity to produce agricultural products. Evidence of bona fide primary agricultural use of land for the tax year preceding the year for which determination is made of eligibility for the land to be valued under this section creates a presumption that the land is used primarily for agricultural purposes during the tax year in which the determination is made. If the land was valued under this section in one or more of the three tax years preceding the year in which the determination is made and the use of the land has not changed since the most recent valuation under this section, a presumption is created that the land continues to be entitled to that valuation.

B. For the purpose of this section, "agricultural use" means the use of land for the production of plants, crops, trees, forest products, orchard crops, livestock, poultry, captive deer or elk, or fish. The term also includes the use of land that meets the requirements for payment or other compensation pursuant to a soil conservation program under an agreement with an agency of the federal government.

C. The department shall adopt rules for determining whether land is used primarily for agricultural purposes. The rules shall provide that the use of land for the lawful taking of game shall not be considered in determining whether land is used primarily for agricultural purposes.

D. The department shall adopt rules for determining the value of land used primarily for agricultural purposes. The rules shall:

(1) specify procedures to use in determining the capacity of land to produce agricultural products and the derivation of value of the land based upon its production capacity;

(2) establish carrying capacity as the measurement of the production capacity of land used for grazing purposes, develop a system of determining carrying capacity through the use of an animal unit concept and establish carrying capacities for the land in the state classified as grazing land;

(3) provide that land the bona fide and primary use of which is the production of captive deer or elk shall be valued as grazing land, and that captive deer shall be valued and taxed as sheep and captive elk shall be valued and taxed as cattle;

(4) provide for the consideration of determinations of any other governmental agency concerning the capacity of the same or similar lands to produce agricultural products;

(5) assure that land determined under the rules to have the same or similar production capacity shall be valued uniformly throughout the state; and

(6) provide for the periodic review by the department of determined production capacities and capitalization rates used for determining annually the value of land used primarily for agricultural purposes.

E. All improvements, other than those specified in Section 7-36-15 NMSA 1978, on land used primarily for agricultural purposes shall be valued separately for property taxation purposes and the value of these improvements shall be added to the value of the land determined under this section.

F. The owner of the land must make application to the county assessor in a tax year in which the valuation method of this section is first claimed to be applicable to the land or in a tax year immediately subsequent to a tax year in which the land was not valued under this section. Application shall be made under oath, shall be in a form and contain the information required by department rules and must be made no later than the last day of February of the tax year. Once land is valued under this section, application need not be made in subsequent tax years as long as there is no change in the use of the land.

G. The owner of land valued under this section shall report to the county assessor whenever the use of the land changes so that it is no longer being used primarily for agricultural purposes. This report shall be made on a form prescribed by department rules and shall be made by the last day of February of the tax year immediately following the year in which the change in the use of the land occurs.

H. Any person who is required to make a report under the provisions of Subsection G of this section and who fails to do so is personally liable for a civil penalty in an amount equal to the greater of twenty-five dollars (\$25.00) or twenty-five percent of the difference between the property taxes ultimately determined to be due and the property taxes originally paid for the tax years for which the person failed to make the required report."

Chapter 231 Section 2 Laws 2005

Section 2. SAVING CLAUSE.--Nothing in this 2005 act shall affect the authority of the state game commission or the director of the department of game and fish.

AN ACT

RELATING TO BUSINESS; ENACTING THE SMALL BUSINESS REGULATORY RELIEF ACT; REQUIRING PERIODIC REVIEW; CREATING AN ADVISORY COMMISSION; PROVIDING POWERS AND DUTIES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 244 Section 1 Laws 2005

Section 1. SHORT TITLE.--This act may be cited as the "Small Business Regulatory Relief Act".

Chapter 244 Section 2 Laws 2005

Section 2. LEGISLATIVE FINDINGS.--The legislature finds that:

A. a vibrant and growing small business sector is critical to creating jobs in a dynamic economy;

B. small businesses bear a disproportionate share of regulatory costs and burdens;

C. fundamental changes that are needed in the regulatory culture of state agencies to make them more responsive to small business can be made without compromising the statutory missions of the agencies;

D. when adopting rules to protect the health, safety and economic welfare of the state, agencies should seek to achieve statutory goals as effectively and efficiently as possible without imposing unnecessary burdens on small businesses;

E. uniform regulatory reporting requirements can impose unnecessary and disproportionately burdensome demands, including legal, accounting and consulting costs, upon small businesses with limited resources;

F. the failure to recognize differences in the scale and resources of regulated businesses can adversely affect competition in the marketplace, discourage innovation and restrict improvements in productivity;

G. unnecessary rules create entry barriers in many industries and discourage potential entrepreneurs from introducing beneficial products and processes;

H. the practice of treating all regulated businesses as equivalent may lead to inefficient use of agency resources, enforcement problems and, in some cases, to actions inconsistent with stated legislative intent of health, safety, environmental, economic welfare and other legislation;

I. alternative regulatory approaches that do not conflict with applicable statutes may be available to minimize the significant economic impact of rules on small businesses; and

J. the process by which state rules are developed and adopted should be reformed to require agencies to solicit the ideas and comments of small businesses, to examine the effect of proposed and existing rules on such businesses and to review the continued need for existing rules.

Chapter 244 Section 3 Laws 2005

Section 3. DEFINITIONS.--As used in the Small Business Regulatory Relief Act:

A. "agency" means every department, agency, board, commission, committee or institution of the executive branch of state government;

D. "rule" means any rule, regulation, order, standard or statement of policy, including amendments to or repeals of any of those, issued or promulgated by an agency and purporting to affect one or more agencies besides the agency issuing the rule or to affect persons not members or employees of the issuing agency. An order or decision or other document issued or promulgated in connection with the disposition of any case or agency decision upon a particular matter as applied to a specific set of facts shall not be deemed a rule nor shall it constitute specific adoption of a rule by the agency. "Rule" does not include rules relating to the management, confinement, discipline or release of inmates of any penal or charitable institution, the New Mexico boys' school, the girls' welfare home or a public hospital; or rules made relating to the management of any particular educational institution, whether elementary or otherwise; or rules made relating to admissions, discipline, supervision, expulsion or graduation of students from an educational institution; and

E. "small business" means a business entity, including its affiliates, that is independently owned and operated and employs fifty or fewer full-time employees.

Chapter 244 Section 4 Laws 2005

Section 4. RULES AFFECTING SMALL BUSINESS.--

A. Prior to the adoption of a proposed rule that may have an adverse effect on small business, an agency shall provide a copy of the proposed rule to the

commission at the same time as persons who have requested advance notice of rulemaking.

B. Prior to the adoption of a proposed rule that the agency deems to have an adverse effect on small business, the agency shall consider regulatory methods that accomplish the objectives of the applicable law while minimizing the adverse effects on small business.

Chapter 244 Section 5 Laws 2005

Section 5. SMALL BUSINESS REGULATORY ADVISORY COMMISSION CREATED--MEMBERSHIP--POWERS AND DUTIES.--

A. The "small business regulatory advisory commission" is created. The commission shall consist of nine members who are current or former small business owners, five appointed by the governor and two each appointed by the speaker of the house of representatives and the president pro tempore of the senate. Each member shall be from a different geographic region of the state. Members shall serve two-year terms. A member shall not serve more than three consecutive terms. Members shall name the chairperson of the commission. The commission shall meet at the call of the chairperson. A majority of the members constitutes a quorum for the conduct of business. Members are entitled to per diem and mileage as provided in the Per Diem and Mileage Act and shall receive no other compensation, perquisite or allowance.

B. The commission is administratively attached to the economic development department, and staff for the commission shall be provided by the department.

C. The commission may:

(1) provide state agencies with input regarding proposed rules that may adversely affect small business;

(2) consider requests from small business owners to review rules adopted by an agency;

(3) review rules promulgated by an agency to determine whether a rule places an unnecessary burden on small business and make recommendations to the agency to mitigate the adverse effects; and

(4) provide an annual evaluation report to the governor and the legislature, including recommendations and evaluations of agencies regarding regulatory fairness for small businesses.

D. The commission does not have authority to:

(1) interfere with, modify, prevent or delay an agency or administrative enforcement action;

(2) intervene in legal actions; or

(3) subpoena witnesses to testify or to produce documents, but it may request witnesses to voluntarily testify or produce documents.

Chapter 244 Section 6 Laws 2005

Section 6. PERIODIC REVIEW OF RULES.--

A. By July 1, 2010, each agency shall have reviewed all of its rules that existed on the effective date of the Small Business Regulatory Relief Act to determine whether the rules should be continued without change or should be amended or repealed to minimize the economic impact of the rules on small businesses, subject to compliance with the stated objectives of the laws pursuant to which the rules were adopted.

B. Rules adopted and promulgated after the effective date of the Small Business Regulatory Relief Act shall be reviewed every five years to ensure that they continue to minimize economic impacts on small businesses while implementing the state objectives of the laws pursuant to which the rules were adopted.

C. In reviewing its rules to minimize economic impacts on small businesses, an agency shall consider the following factors:

(1) continued need for the rule;

(2) the nature of complaints or comments received from the public concerning the rule;

(3) the complexity of the rule;

(4) the extent to which the rule overlaps, duplicates or conflicts with other federal, state and local government rules; and

(5) the length of time since the rule has been evaluated or the degree to which technology, economic conditions or other factors have changed in the topical area affected by the rule.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 253 Section 1 Laws 2005

Section 1. Section 13-4-11 NMSA 1978 (being Laws 1965, Chapter 35, Section 1, as amended) is amended to read:

"13-4-11. MINIMUM WAGES ON PUBLIC WORKS--WEEKLY PAYMENT--POSTING WAGE SCALE--WITHHOLDING FUNDS.--

A. Every contract or project in excess of sixty thousand dollars (\$60,000) that the state or any political subdivision thereof is a party to for construction, alteration, demolition or repair or any combination of these, including painting and decorating, of public buildings, public works or public roads of the state and that requires or involves the employment of mechanics, laborers or both shall contain a provision stating the minimum wages to be paid to various classes of laborers and mechanics, which shall be based upon the wages that will be determined by the director of the labor and industrial division of the labor department to be prevailing for the corresponding classes of laborers and mechanics employed on contract work of a similar nature in the state or locality, and every contract or project shall contain a stipulation that the contractor, subcontractor, employer or a person acting as a contractor shall pay all mechanics and laborers employed on the site of the project, unconditionally and not less often than once a week and without subsequent unlawful deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates not less than those stated in the minimum wage rates issued for the project.

B. For the purpose of making wage determinations, the director of the labor and industrial division of the labor department shall conduct a continuing program for the obtaining and compiling of wage-rate information and shall encourage the voluntary submission of wage-rate data by contractors, contractors' associations, labor organizations, interested persons and public officers. Before making a determination of wage rates for any project, the director shall give due regard to the information thus obtained. Whenever the director deems that the data at hand are insufficient to make a wage determination, the director may have a field survey conducted for the purpose of obtaining sufficient information upon which to make determination of wage rates. Any

interested person shall have the right to submit to the director written data, views and arguments why the wage determination should be changed.

C. The scale of wages to be paid shall be posted by the contractor or person acting as a contractor in a prominent and easily accessible place at the site of the work; and it is further provided that there may be withheld from the contractor, subcontractor, employer or a person acting as a contractor so much of accrued payments as may be considered necessary by the contracting officer of the state or political subdivision to pay to laborers and mechanics employed on the project the difference between the rates of wages required by the director of the labor and industrial division of the labor department to be paid to laborers and mechanics on the work and the rates of wages received by such laborers and mechanics and not refunded to the contractor, subcontractor, employer or a person acting as a contractor or their agents.

D. Notwithstanding any other provision of law applicable to public works contracts or agreements, the director of the labor and industrial division of the labor department may, with cause:

(1) issue investigative or hearing subpoenas for the production of documents or witnesses pertaining to public works prevailing wage projects; and

(2) attach and prohibit the release of any assurance of payment required under Section 13-4-18 NMSA 1978 for a reasonable period of time beyond the time limits specified in that section until the director satisfactorily resolves any probable cause to believe a violation of the Public Works Minimum Wage Act or its implementing rules has taken place.

E. The director of the labor and industrial division of the labor department shall issue rules necessary to administer and accomplish the purposes of the Public Works Minimum Wage Act."

The director shall, after notice to the affected persons, distribute a list to all departments of the state giving the names of persons or firms the director has found to have willfully violated the Public Works Minimum Wage Act. No contract or project shall be awarded to the persons or firms appearing on this list or to any firm, corporation, partnership or association in which the persons or firms have an interest until three years have elapsed from the date of publication of the list containing the names of the persons or firms. A person to be included on the list to be distributed may appeal the finding of the director as provided in the Public Works Minimum Wage Act.

B. If the accrued payments withheld under the terms of the contract, as mentioned in Subsection A of this section, are insufficient to reimburse all the laborers and mechanics with respect to whom there has been a failure to pay the wages required pursuant to the Public Works Minimum Wage Act, the laborers and mechanics shall have the right of action or intervention or both against the contractor or person acting as a contractor and his sureties, conferred by law upon such persons furnishing labor and materials, and, in such proceeding, it shall be no defense that the laborers and mechanics accepted or agreed to less than the required rate of wages or voluntarily made refunds. The director of the labor and industrial division of the labor department shall refer such matters to the district attorney in the appropriate county, and it is the duty and responsibility of the district attorney to bring civil suit for wages due and liquidated damages provided for in Subsection C of this section.

C. In the event of any violation of the Public Works Minimum Wage Act or implementing rules, the contractor, subcontractor, employer or a person acting as a contractor responsible for the violation shall be liable to any affected employee for the employee's unpaid wages. In addition, the contractor, subcontractor, employer or a person acting as a contractor shall be liable to any affected employee for liquidated damages beginning with the first day of covered employment in the sum of one hundred dollars (\$100.00) for each calendar day on which a contractor, subcontractor, employer or person acting as a contractor has willfully required or permitted an individual laborer

or mechanic to work in violation of the provisions of the Public Works Minimum Wage Act.

Chapter 255 Section 1 Laws 2005

Section 1. Section 51-1-7 NMSA 1978 (being Laws 2003, Chapter 47, Section 10, as amended by Laws 2005, Chapter 3, Section 3) is amended to read:

"51-1-7. DISQUALIFICATION FOR BENEFITS.--

A. An individual shall be disqualified for and shall not be eligible to receive benefits:

(1) if it is determined by the division that the individual left employment voluntarily without good cause in connection with the employment. No individual shall receive benefits until the division has contacted the former employer and determined whether the individual left the employment voluntarily; provided, however, that a person shall not be denied benefits under this paragraph:

(a) solely on the basis of pregnancy or the termination of pregnancy;

(b) because of domestic abuse evidenced by medical documentation, legal documentation or a sworn statement from the claimant; or

(c) if the person voluntarily left work to relocate because of a spouse, who is in the military service of the United States or the New Mexico national guard, receiving permanent change of station orders, activation orders or unit deployment orders;

(2) if it is determined by the division that the individual has been discharged for misconduct connected with the individual's employment; or

(3) if it is determined by the division that the individual has failed without good cause either to apply for available, suitable work when so directed or referred by the division or to accept suitable work when offered.

B. In determining whether or not any work is suitable for an individual pursuant to Paragraph (3) of Subsection A of this section, the division shall consider the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness, prior training, approved training or full-time school attendance, experience, prior earnings, length of unemployment and prospects for securing local work in the individual's customary occupation and the distance of available work from the individual's residence. Notwithstanding any other provisions of the Unemployment Compensation Law, no work shall be deemed suitable and benefits shall not be denied under the Unemployment Compensation Law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) if the position offered is vacant due directly to a strike, lockout or other labor dispute;

(2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) if, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organizations.

C. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which the division finds that the individual's unemployment is due to a labor dispute at the factory, establishment or other premises at which the individual is or was last employed; provided that this subsection shall not apply if it is shown to the satisfaction of the division that:

(1) the individual is not participating in or directly interested in the labor dispute; and

(2) the individual does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises at which the labor dispute occurs, any of whom are participating in or directly interested in the dispute; provided that if in any case separate branches of work that are commonly conducted in separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises.

D. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which, or a part of which, the individual

has received or is seeking, through any agency other than the division, unemployment benefits under an unemployment compensation law of another state or of the United States; provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

E. A disqualification pursuant to Paragraph (1) or (2) of Subsection A of this section shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit otherwise payable. A disqualification pursuant to Paragraph (3) of Subsection A of this section shall include the week the failure occurred and shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit amount otherwise payable; provided that no more than one such disqualification shall be imposed upon an individual for failure to apply for or accept the same position, or a similar position, with the same employer, except upon a determination by the division of disqualification pursuant to Subsection C of this section.

(a) the employer has been in operation in the other state or states for at least three years immediately preceding the date of becoming a liable employer in New Mexico, throughout which an individual in the employer's employ could have received benefits if eligible; and

(b) the employer provides the authenticated account history as defined by rule of the secretary from information accumulated from operations in the other state or all the other states to compute a current New Mexico rate; and

(5) the election authorized in Paragraph (4) of this subsection shall be made in writing within thirty days after receiving notice of New Mexico liability and, if not made timely, a two percent rate will be assigned; if the election is made timely, the employer's account will receive the lesser of the computed rate determined by the condition of the account for the computation date immediately preceding the New Mexico liable date, or the reduced rate of two percent; rates for subsequent years will be determined by the condition of the account for the computation date.

G. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. An employer's rate for any calendar year shall be determined on the basis of the employer's record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to the employer's account in accordance with department rule. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer shall not be refunded in whole or in part.

H. In the case of a transfer of an employing enterprise, notwithstanding any other provision of law, the experience history of the transferred enterprise as provided in Subsection G of this section shall be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable rules of the secretary:

(1) as used in this subsection:

(a) "employing enterprise" means a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters. An "employing enterprise" includes the employer's workforce;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any person that acquires an employing enterprise and continues to operate such business entity;

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise;

(e) "common ownership" means that two or more businesses are substantially owned, managed or controlled by the same person or persons;

(f) "knowingly" means having actual knowledge of or acting with deliberate ignorance of or reckless disregard for the prohibition involved; and

(g) "violates or attempts to violate" includes an intent to evade, a misrepresentation or a willful nondisclosure;

(2) except as otherwise provided in this subsection, for the purpose of this subsection, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the rules of the secretary during the calendar year of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) the successor shall notify the division of the acquisition on or before the due date of the successor's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, shall effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition, and the successor shall pay a penalty of fifty dollars (\$50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. A party to a merger, consolidation or other form of reorganization described in this subparagraph shall not be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization;

(3) the applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of the contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records that, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or the secretary's delegate. A partial experience history transfer will be made only if the successor:

(a) notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages

paid to and the contributions paid for each employee for the three and one-half year period preceding the computation date as defined in Subparagraph (d) of Paragraph (3) of Subsection I of this section through the date of transfer or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A shall be supported by the predecessor's permanent employment records, which shall be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and, upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll;

(4) if, at the time of a transfer of an employing enterprise in whole or in part, both the predecessor and the successor are under common ownership, then the experience history attributable to the transferred business shall also be transferred to and combined with the experience history attributable to the successor employer. The rates of both employers shall be recalculated and made effective immediately upon the date of the transfer;

(5) whenever a person, who is not currently an employer, acquires the trade or business of an employing enterprise, the experience history of the acquired business shall not be transferred to the successor if the secretary or the secretary's designee finds that the successor acquired the business solely or primarily for the purpose of obtaining a lower rate of contributions. Instead, the successor shall be assigned the applicable new employer rate pursuant to this section. In determining whether the business was acquired solely or primarily for the purpose of obtaining a lower rate of contribution, the secretary or the secretary's designee shall consider:

- (a) the cost of acquiring the business;
- (b) whether the person continued the business enterprise of the acquired business;
- (c) how long such business enterprise was continued; and
- (d) whether a substantial number of new employees were hired for performance of duties unrelated to those that the business activity conducted prior to acquisition;

(6) if, following a transfer of experience history pursuant to this subsection, the department determines that a substantial purpose of the transfer of the employing enterprise was to obtain a reduced liability for contributions, then the experience rating accounts of the employers involved shall be combined into a single account and a single rate assigned to the combined account;

(7) the secretary shall adopt such rules as are necessary to interpret and carry out the provisions of this subsection, including rules that:

(a) describe how experience history is to be transferred; and

(b) establish procedures to identify the type of transfer or acquisition of an employing enterprise; and

(8) a person who knowingly violates or attempts to violate a rule adopted pursuant to Paragraph (7) of this subsection, who transfers or acquires, or attempts to transfer or acquire, an employing enterprise for the sole or primary purpose of obtaining a reduced liability for contributions or who knowingly advises another person to violate a rule adopted pursuant to Paragraph (7) of this subsection or to transfer or acquire an employing enterprise for the sole or primary purpose of obtaining a reduced liability for contributions is guilty of a misdemeanor and shall be punished by a fine of not less than one thousand five hundred dollars (\$1,500) or more than three thousand dollars (\$3,000) or, if an individual, by imprisonment for a definite term not to exceed ninety days or both. In addition, such a person shall be subject to the following civil penalty imposed by the secretary:

(a) if the person is an employer, the person shall be assigned the highest contribution rate established by the provisions of this section for the calendar year in which the violation occurs and the three subsequent calendar years; provided that, if the difference between the increased penalty rate and the rate otherwise applicable would be less than two percent of the employer's payroll, the contribution rate shall be increased by two percent of the employer's payroll for the calendar year in which the violation occurs and the three subsequent calendar years; or

(b) if the person is not an employer, the secretary may impose a civil penalty not to exceed three thousand dollars (\$3,000).

I. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided in Paragraphs (1) through (4) of this subsection:

(1) the total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection F of this section shall be fixed by the excess of the employer's total contributions over total benefit charges computed as a percentage of the employer's average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching the employer's reserve as shown in the reserve column with the corresponding rate in the rate column of the applicable rate schedule of the table provided in Paragraph (4) of this subsection;

(2) except as otherwise provided, each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be the corresponding rate in:

(a) Schedule 0 of the table provided in Paragraph (4) of this subsection if the fund equals at least three and seven-tenths percent of the total payrolls;

(b) Schedule 1 of the table provided in Paragraph (4) of this subsection if the fund equals less than three and seven-tenths percent and not less than three and four-tenths percent of the total payrolls;

(c) Schedule 2 of the table provided in Paragraph (4) of this subsection if the fund equals less than three and four-tenths percent but not less than two and seven-tenths percent of the total payrolls;

(d) Schedule 3 of the table provided in Paragraph (4) of this subsection if the fund equals less than two and seven-tenths percent and not less than two percent of the total payrolls;

(e) Schedule 4 of the table provided in Paragraph (4) of this subsection if the fund equals less than two percent and not less than one and one-half percent of the total payrolls;

(f) Schedule 5 of the table provided in Paragraph (4) of this subsection if the fund equals less than one and one-half percent and not less than one percent of the total payrolls; or

(g) Schedule 6 of the table provided in Paragraph (4) of this subsection if the fund equals one percent of the total payrolls;

(3) as used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during the individual's base period on the basis of which the individual's benefit rights were determined;

J. The division shall promptly notify each employer of the employer's rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all of the employer's contributions paid on the employer's behalf and credited to the employer's account for all past years and total benefits charged to the employer's account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such notice, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing, in any proceeding involving the employer's rate of contributions or contribution liability, to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of

the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The division shall provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to the employer's account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the determination to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing in any proceeding involving the employer's contribution liability to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

L. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

M. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have

been issued and contributions paid pursuant to the notification. Upon issuance by the division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection J of this section.

N. Any interest required to be paid on advances to this state's unemployment compensation fund under Title 12 of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title 12 of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

"66-7-413. PERMITS FOR EXCESSIVE SIZE AND WEIGHT--SPECIAL NOTIFICATION REQUIRED ON MOVEMENT OF MANUFACTURED HOMES.--

A. The department of public safety and local highway authorities may, in their discretion, upon application in writing and good cause being shown, issue a special permit in writing authorizing the applicant to operate or move a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 on a highway under the jurisdiction of the state transportation commission or local authorities. Except for the movement of manufactured homes, a permit may be granted, in cases of emergency, for the transportation of loads on a certain unit or combination of equipment for a specified period of time not to exceed one year, and the permit shall contain the route to be traversed, the type of load to be transported and any other restrictions or conditions deemed necessary by the body granting the permit. In every other case, the permit shall be issued for a single trip and may designate the route to be traversed and contain any other restrictions or conditions deemed necessary by the body granting the permit. Every permit shall be carried in the vehicle to which it refers and shall be opened for inspection to any peace officer. It is a misdemeanor for a person to violate a condition or term of the special permit.

B. The department of public safety shall charge and collect, when the movement consists of a load of a width of twenty feet or greater for a distance of five miles or more, the sum of three hundred dollars (\$300) a day or fraction thereof to defray the cost of state or local police escort. The permit issued and the fee charged shall be based upon the entire movement at one time requiring police escort and not upon the number of vehicles involved.

C. The department of public safety shall promulgate rules in accordance with the State Rules Act pertaining to safety practices, liability insurance and equipment for escort vehicles provided by the motor carrier and for escort vehicles provided by a private business in this state.

(1) The department of public safety shall provide the escort personnel with a copy of applicable rules and shall inspect the escort vehicles for the

safety equipment required by the rules. If the escort vehicles and personnel meet the requirements set forth in the rules, the department of public safety shall issue the special permit.

(2) The movement of vehicles upon the highways of this state requiring a special permit and required to use an escort of the type noted in Paragraph (1) of this subsection is subject to department of public safety authority and inspection at all times.

(3) The department of transportation shall conduct engineering investigations and engineering inspections to determine which four-lane highways are safe for the operation or movement of manufactured homes without an escort. After making that determination, the department of transportation shall hold public hearings in the area of the state affected by the determination, after which it may adopt rules designating those four-lane highways as being safe for the operation or movement of manufactured homes without an escort. If a portion of such a four-lane highway lies within the boundaries of a municipality, the department of transportation, after obtaining the approval of the municipal governing body, shall include such portions in its rules.

D. Except for the movement of manufactured homes, special permits may be issued for a single vehicle or combination of vehicles by the department of public safety for a period not to exceed one year for a fee of two hundred fifty dollars (\$250). The special permits may allow excessive height, length and width for a vehicle or combination of vehicles or load thereon and may include a provision for excessive weight if the weight of the vehicle or combination of vehicles is not greater than one hundred forty thousand pounds. Utility service vehicles, operating with special permits pursuant to this subsection, shall be exempt from prohibitions or restrictions relating to hours or days of operation or restrictions on movement because of poor weather conditions.

E. Special permits for a single trip for a vehicle or combination of vehicles or load thereon of excessive weight, width, length and height may be issued by the department of public safety for a single vehicle for a fee of twenty-five dollars (\$25.00) plus the product of two and one-half cents (\$.025) for each two thousand pounds in excess of eighty-six thousand four hundred pounds or major fraction thereof multiplied by the number of miles to be traveled by the vehicle or combination of vehicles on the highways of this state.

F. If a vehicle for which a permit is issued pursuant to this section is a manufactured home, the department of public safety or local highway authority issuing the permit shall furnish the following information to the property tax division of the taxation and revenue department, which shall forward the information:

(1) to the county assessor of a county from which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to if within the same county, the name of the owner of the

manufactured home and the identification and registration numbers of the manufactured home;

(2) to the county assessor of any county in this state to which a manufactured home is being moved, the date the permit was issued, the location being moved from, the location being moved to, the name of the owner of the manufactured home and the registration and identification numbers of the manufactured home; and

(3) to the owner of a manufactured home having a destination in this state, notification that the information required in Paragraphs (1) and (2) of this subsection is being given to the respective county assessors and that manufactured homes are subject to property taxation.

G. Except as provided in Subsection H of this section, if the movement of a manufactured home originates in this state, a permit shall not be issued pursuant to Subsection F of this section until the owner of the manufactured home or the authorized agent of the owner obtains and presents to the department of public safety proof that a certificate has been issued by the county assessor or treasurer of the county in which the manufactured home movement originates showing that either:

(1) all property taxes due or to become due on the manufactured home for the current tax year or any past tax years have been paid, except for manufactured homes located on an Indian reservation; or

(2) liability for property taxes on the manufactured home does not exist for the current tax year or a past tax year, except for manufactured homes located on an Indian reservation.

H. The movement of a manufactured home from the lot or business location of a manufactured home dealer to its destination designated by an owner-purchaser is not subject to the requirements of Subsection G of this section if the manufactured home movement originates from the lot or business location of the dealer and the manufactured home was part of the dealer's inventory prior to the sale to the owner-purchaser; however, the movement of a manufactured home by a dealer or the dealer's authorized agent as a result of a sale or trade-in from a nondealer-owner is subject to the requirements of Subsection G of this section whether the destination is the business location of a dealer or some other destination.

I. A permit shall not be issued pursuant to this section for movement of a manufactured home whose width exceeds eighteen feet with no more than a six-inch roof overhang on the left side or twelve inches on the right side in addition to the eighteen-foot width of the manufactured home. Manufactured homes exceeding the limitations of this section shall only be moved on dollies placed on the front and the rear of the structure.

J. The secretary of public safety may by rule provide for movers of manufactured homes to self-issue permits for certain sizes of manufactured homes over specific routes. The cost of a permit shall not be less than twenty-five dollars (\$25.00).

K. The secretary of public safety may provide by rule for dealers of implements of husbandry to self-issue permits for the movement of certain sizes of implements of husbandry from the lot or business location of the dealer over specific routes with specific escort requirements, if necessary, to a destination designated by an owner-purchaser or for purposes of a working demonstration on the property of a proposed owner-purchaser. The department of public safety shall charge a fee for each self-issued permit not to exceed fifteen dollars (\$15.00).

L. A private motor carrier requesting an oversize or overweight permit shall provide proof of insurance in at least the following amounts:

(1) bodily injury liability, providing:

(a) fifty thousand dollars (\$50,000) for each person; and

(b) one hundred thousand dollars (\$100,000) for each accident; and

(2) property damage liability, providing twenty-five thousand dollars (\$25,000) for each accident.

M. A motor carrier requesting an oversize permit shall produce a copy of a warrant or a single state registration receipt as evidence that the motor carrier maintains the insurance minimums prescribed by the public regulation commission.

N. The department of public safety may provide by rule the time periods during which a vehicle or load of a size or weight exceeding the maximum specified in Sections 66-7-401 through 66-7-416 NMSA 1978 may be operated or moved by a motor carrier on a highway under the jurisdiction of the state transportation commission or local authorities.

O. Revenue from fees for special permits authorizing vehicles and loads of excessive size or weight to operate or move upon a highway under the jurisdiction of the state transportation commission or local authorities shall be collected for the department of transportation and transferred to the state road fund."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 262 Section 1 Laws 2005

Section 1. A new Section 6-21-6.8 NMSA 1978 is enacted to read:

"6-21-6.8. LOCAL TRANSPORTATION INFRASTRUCTURE FUND--
CREATION--PURPOSE--ADMINISTRATION.--

A. The "local transportation infrastructure fund" is created within the authority. For the purposes of this section, "fund" means the local transportation infrastructure fund. The fund shall be administered by the authority as a separate account, but may consist of subaccounts if the authority deems them necessary to carry out the purposes of the fund. The authority shall adopt rules in accordance with the New Mexico Finance Authority Act necessary to administer the fund.

B. The following shall be deposited directly into the fund:

(1) beginning July 1, 2005, one-half of the annual administrative fee received by the authority for issuing state transportation bonds pursuant to Sections 67-3-59.3 and 67-3-59.4 NMSA 1978;

(2) money from the payment of principal and interest on loans and payments of principal and interest on securities held by the authority for local transportation projects;

(3) money appropriated by the legislature to implement the provisions of this section; and

(4) other public or private money appropriated, dedicated or allocated to the fund for the purpose of financing local transportation projects.

C. For the purposes of this section, "local transportation projects" means local transportation projects of qualified entities submitted to the authority by the secretary of transportation as provided in Subsection F of this section. The authority may provide grants or other funding support to qualified entities' local transportation projects pursuant to this section without the specific authorization by law for each project otherwise required by the New Mexico Finance Authority Act.

D. Money in the fund is appropriated to the authority to pay the reasonable and necessary costs of originating and servicing loans, grants or securities funded by the fund and to make loans or grants and to purchase or sell securities to assist qualified entities in financing local transportation projects in accordance with the New Mexico Finance Authority Act.

E. The authority may make grants from the fund to qualified entities for local transportation projects when:

(1) a grant is not more than twenty-five percent of the total project cost; and

(2) a qualified entity demonstrates that it has available or a binding commitment from another person to make available for a project the portion of the total project cost not provided by the grant. The qualified entity may enter into a loan agreement or an agreement to sell the qualified entity's securities with the authority, or the qualified entity may use another source of money available for the project, to provide the costs not covered by the grant.

F. Each May, the secretary of transportation, using the department of transportation's metropolitan planning organization and regional planning organization planning process, shall submit a prioritized list of local transportation projects to the authority that the metropolitan planning organizations and regional planning organizations have determined are appropriate for grants or other funding support pursuant to this section. The authority shall act on local transportation projects in the priority presented by the secretary of transportation; provided that the authority, based on the availability of money in the fund, may determine that a qualified entity shall receive a grant or other funding support for a project out of the order of priority it would otherwise have had or that no grant or other funding support be provided for the project. The rules of the authority for administration of the fund may set a maximum amount of grant or other funding support for a local transportation project.

G. Money in the local transportation infrastructure fund not needed for immediate disbursement, including money held in reserve, may be deposited with the state treasurer for short-term investment pursuant to Section 6-10-10.1 NMSA 1978 or may be invested in direct and general obligations of or obligations fully and unconditionally guaranteed by the United States, obligations issued by agencies of the United States, obligations of this state or any political subdivision of the state, interest-bearing time deposits, commercial paper issued by corporations organized and operating in the United States and rated "prime" quality by a national rating service, other investments permitted by Section 6-10-10 NMSA 1978 or as otherwise provided by the trust indenture or bond resolution, if money is pledged for or secures payment of bonds issued by the authority.

H. The authority shall establish fiscal controls and accounting procedures that are sufficient to assure proper accounting for local transportation infrastructure fund payments, disbursements and balances."

Chapter 262 Section 2 Laws 2005

Section 2. A new Section 6-21-6.9 NMSA 1978 is enacted to read:

"6-21-6.9. LOCAL TRANSPORTATION PROJECT REVENUE BONDS--
ISSUANCE.--

A. The authority may issue and sell local transportation project revenue bonds in compliance with the New Mexico Finance Authority Act in an amount outstanding at any one time of not more than twenty million dollars (\$20,000,000)

payable from the local transportation infrastructure fund. The bonds may be issued at times and on terms established by the authority.

B. The net proceeds from the sale of local transportation project revenue bonds are appropriated to the local transportation infrastructure fund for local transportation projects described in Section 6-21-6.8 NMSA 1978.

C. As security for the payment of the principal, interest or premium, if any, on local transportation project revenue bonds issued by the authority, the authority is authorized to pledge, transfer and assign:

(1) any obligation that is payable to the authority for deposit into the local transportation infrastructure fund;

(2) money in the local transportation infrastructure fund or a subaccount of that fund; and

(3) one-half of the annual administrative fee received by the authority for issuing state transportation bonds pursuant to Sections 67-3-59.3 and 67-3-59.4 NMSA 1978.

D. All local transportation project revenue bonds issued by the authority shall be obligations of the authority payable solely from the revenues, income and money of the authority deposited into the local transportation infrastructure fund. The bonds shall not create an obligation, debt or liability of the state and no breach of any pledge, obligation or agreement of the authority shall impose a pecuniary liability or charge upon the general credit or taxing power of the state or any political subdivision of the state.

E. Any law authorizing or affecting the imposition or distribution of the annual administrative fee received by the authority for issuing state transportation revenue bonds pursuant to Sections 67-3-59.3 and 67-3-59.4 NMSA 1978 or that affects the annual administrative fee shall not be amended, repealed or otherwise directly or indirectly modified so as to impair or reduce debt service coverage for any outstanding local transportation project revenue bonds that may be secured by a pledge of those annual administrative fee revenues, unless the local transportation project revenue bonds have been discharged in full or provisions have been made for a full discharge.

F. The authority may purchase local transportation project revenue bonds with money in the public project revolving fund pursuant to the provisions of Section 6-21-6 NMSA 1978."

-
OVERSEAS VOTER.--

The form shall allow the applicant to receive an absentee ballot for all elections within an election cycle.

B. Application by a voter for an absentee ballot shall be made only on a form prescribed by the secretary of state in accordance with federal law. The form shall identify the applicant and contain information to establish his qualification for issuance of an absentee ballot under the Absent Voter Act; provided that on the application form for a general election ballot there shall be no box, space or place provided for designation of the voter's political party affiliation.

C. Each application for an absentee ballot shall be subscribed by the applicant and shall require the applicant's printed name, year of birth and unique identifier to be supplied by the applicant, which shall constitute the required form of identification, except for new registrants that have registered by mail and at that time did not provide acceptable identification.

D. An application for an absentee ballot by a federal qualified elector or an overseas voter shall be accepted at any time preceding the general election."

Chapter 270 Section 43 Laws 2005

Section 43. Section 1-6-5 NMSA 1978 (being Laws 1969, Chapter 240, Section 131, as amended by Laws 2003, Chapter 355, Section 4 and by Laws 2003, Chapter 356, Section 19 and also by Laws 2003, Chapter 357, Section 2) is amended to read:

"1-6-5. PROCESSING APPLICATION--ISSUANCE OF BALLOT.--

A. The county clerk shall mark each completed absentee ballot application with the date and time of receipt in the clerk's office and enter the required information in the absentee ballot register. The county clerk shall then determine if the applicant is a voter, an absent uniformed services voter or an overseas voter.

B. If the applicant does not have a valid certificate of registration on file in the county and is not a federal qualified elector or if the applicant states that the applicant is a federal qualified elector but the application indicates the applicant is not a federal qualified elector, an absentee ballot shall not be issued and the county clerk shall mark the application "rejected" and file the application in a separate file from those accepted.

C. The county clerk shall notify in writing each applicant of the fact of acceptance or rejection of the application and, if rejected, shall explain why the application was rejected.

D. If the applicant has on file with the county a valid certificate of registration that indicates that the applicant is a voter who is a new registrant and who registered by mail without submitting the required voter identification, the county clerk shall notify the voter that the voter must submit with the absentee ballot the required physical form of identification. The county clerk shall note on the absentee ballot

register and signature roster that the applicant's absentee ballot must be returned with the required identification.

E. If the county clerk finds that the applicant is a voter other than a federal qualified elector or overseas voter, the county clerk shall mark the application "accepted" and, beginning twenty-eight days before the election, deliver an absentee ballot to the voter in the county clerk's office or mail to the applicant an absentee ballot and the required envelopes for use in returning the ballot. If the county clerk finds that the applicant is a federal qualified elector or overseas voter, the county clerk shall mark the application "accepted" and beginning forty-five days before the election, mail to the applicant an absentee ballot and the required envelopes for use in returning the ballot. Acceptance of an application of a federal qualified elector constitutes registration for the election in which the ballot is to be cast. Acceptance of an application from an overseas voter who is not an absent uniformed services voter constitutes a request for changing information on the certificate of registration of any such voter. An absent voter shall not be permitted to change party affiliation during those periods when change of party affiliation is prohibited by the Election Code. Upon delivery of an absentee ballot to a voter in the county clerk's office or mailing of an absentee ballot to an applicant who is a voter, an appropriate designation shall be made on the signature line of the signature roster next to the name of the voter who has been provided or mailed an absentee ballot.

F. If an application for an absentee ballot is delivered in person to the county clerk and is accepted, the county clerk shall provide the voter an absentee ballot and it shall be marked by the applicant in a voting booth of a type prescribed by the secretary of state, sealed in the proper envelopes and otherwise properly executed and returned to the county clerk or his authorized representative before the voter leaves the office of the county clerk. The act of marking the absentee ballot in the office of the county clerk shall be a convenience to the voter in the delivery of the absentee ballot and does not make the office of the county clerk a polling place subject to the requirements of a polling place in the Election Code other than is provided in this subsection. It is unlawful to solicit votes, display or otherwise make accessible any posters, signs or other forms of campaign literature whatsoever in the clerk's office or alternate voting location. Absentee ballots may be marked in person at the county clerk's office during the regular hours and days of business beginning on the twenty-eighth day preceding the election and from 10:00 a.m. to 6:00 p.m. on the Saturday immediately prior to the date of the election. In marking the absentee ballot, the voter, pursuant to the provisions of Section 1-12-15 NMSA 1978, may be assisted by one person of the voter's choice.

G. Absentee ballots shall be airmailed or, if so requested, electronically transmitted to applicants temporarily domiciled inside or outside the continental limits of the United States not later than on the Friday immediately prior to the date of the election.

H. An absentee ballot shall not be delivered or mailed by the county clerk to any person other than the applicant for such ballot.

I. The secretary of state and each county clerk shall make reasonable efforts to publicize and inform voters of the times and locations for absentee voting; provided, however, that notice is provided at least ten days before early voting begins.

J. The secretary of state shall establish procedures for the submittal, when required by federal law, of required voter identification with mailed-in absentee ballots."

B. The commission shall establish a complaint procedure for transfer students who fail to receive credit for courses contained in a transfer module taken at another institution. The commission may set standards for determining bona fide complaints, including a requirement that students follow institutions' internal procedures for resolving complaints prior to submitting them to the commission. The commission shall investigate all articulation complaints and render decisions as to the appropriateness of the actions of the participants.

C. Prior to December 31 of each year, the commission shall summarize all articulation complaints filed with the commission and the decisions of the commission with regard to those complaints. Section 8. Section 22-24-5 NMSA 1978 (being Laws 1975, Chapter 235, Section 5, as amended) is amended to read:

"22-24-5. PUBLIC SCHOOL CAPITAL OUTLAY PROJECTS-- APPLICATION-- GRANT ASSISTANCE.--

A. Applications for grant assistance, the approval of applications, the prioritization of projects and grant awards shall be conducted pursuant to the provisions of this section; provided, however, that the order of priority in the two years beginning July 1, 2004 shall first reflect those specific projects that were partially funded by the council in September 2003 but are not as yet completed, excluding any expansion of the scope of those projects and contingent upon maintenance of the required local support. In that transition period, such projects shall be funded regardless of any deviation from the statewide adequacy standards; provided that the amount of the award received shall not exceed the amount necessary to meet the statewide adequacy standards, including projected enrollment growth.

B. Except as provided in Subsection A of this section and in Sections 22-24-4.3 and 22-24-5.4 NMSA 1978, the following provisions govern grant assistance from the fund for a public school capital outlay project not wholly funded pursuant to Section 22-24-4.1 NMSA 1978:

(1) all school districts are eligible to apply for funding from the fund, regardless of percentage of indebtedness;

(2) priorities for funding shall be determined by using the statewide adequacy standards developed pursuant to Subsection C of this section; provided that:

(a) the council shall apply the standards to charter schools to the same extent that they are applied to other public schools; and

(b) in an emergency in which the health or safety of students or school personnel is at immediate risk or in which there is a threat of significant property damage, the council may award grant assistance for a project using criteria other than the statewide adequacy standards;

(3) the council shall establish criteria to be used in public school capital outlay projects that receive grant assistance pursuant to the Public School Capital Outlay Act. In establishing the criteria, the council shall consider:

(a) the feasibility of using design, build and finance arrangements for public school capital outlay projects;

(b) the potential use of more durable construction materials that may reduce long-term operating costs; and

(c) any other financing or construction concept that may maximize the dollar effect of the state grant assistance;

(4) no more than ten percent of the combined total of grants in a funding cycle shall be used for retrofitting existing facilities for technology infrastructure;

(5) except as provided in Paragraph (6) or (8) of this subsection, the state share of a project approved and ranked by the council shall be funded within available resources pursuant to the provisions of this paragraph. No later than May 1 of each calendar year, a value shall be calculated for each school district in accordance with the following procedure:

(a) the final prior year net taxable value for a school district divided by the MEM for that school district is calculated for each school district;

(b) the final prior year net taxable value for the whole state divided by the MEM for the state is calculated;

(c) excluding any school district for which the result calculated pursuant to Subparagraph (a) of this paragraph is more than twice the result calculated pursuant to Subparagraph (b) of this paragraph, the results calculated pursuant to Subparagraph (a) of this paragraph are listed from highest to lowest;

(d) the lowest value listed pursuant to Subparagraph (c) of this paragraph is subtracted from the highest value listed pursuant to that subparagraph;

(e) the value calculated pursuant to Subparagraph (a) of this paragraph for the subject school district is subtracted from the highest value listed in Subparagraph (c) of this paragraph;

(f) the result calculated pursuant to Subparagraph (e) of this paragraph is divided by the result calculated pursuant to Subparagraph (d) of this paragraph;

(g) the sum of the property tax mill levies for the prior tax year imposed by each school district on residential property pursuant to Chapter 22, Article 18 NMSA 1978, the Public School Capital Improvements Act, the Public School Buildings Act, the Education Technology Equipment Act and Paragraph (2) of Subsection B of Section 7-37-7 NMSA 1978 is calculated for each school district;

(h) the lowest value calculated pursuant to Subparagraph (g) of this paragraph is subtracted from the highest value calculated pursuant to that subparagraph;

(i) the lowest value calculated pursuant to Subparagraph (g) of this paragraph is subtracted from the value calculated pursuant to that subparagraph for the subject school district;

(j) the value calculated pursuant to Subparagraph (i) of this paragraph is divided by the value calculated pursuant to Subparagraph (h) of this paragraph;

(k) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is less than five-tenths, then, except as provided in Subparagraph (n) or (o) of this paragraph, the value for that school district equals the value calculated pursuant to Subparagraph (f) of this paragraph;

(l) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is five-tenths or greater, then that value is multiplied by five-hundredths;

(m) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is five-tenths or greater, then the value calculated pursuant to Subparagraph (l) of this paragraph is added to the value calculated pursuant to Subparagraph (f) of this paragraph. Except as provided in Subparagraph (n) or (o) of this paragraph, the sum equals the value for that school district;

(n) in those instances in which the calculation pursuant to Subparagraph (k) or (m) of this paragraph yields a value less than one-tenth, one-tenth shall be used as the value for the subject school district;

(o) in those instances in which the calculation pursuant to Subparagraph (k) or (m) of this paragraph yields a value greater than one, one shall be used as the value for the subject school district;

(p) except as reduced pursuant to Paragraph (6) of this subsection, the amount to be distributed from the fund for an approved project: 1) in calendar year 2005, shall equal the total project cost multiplied by a fraction the numerator of which is the value calculated for the subject school district in 2005 plus the value calculated for that district in 2004 and the denominator of which is two; and 2) in calendar year 2006 and each subsequent calendar year, shall equal the total project cost multiplied by a fraction the numerator of which is the value calculated for the subject school district in the current year plus the value calculated for that school district in each of the two preceding years and the denominator of which is three; and

(q) as used in this paragraph: 1) "MEM" means the average full-time-equivalent enrollment of students attending public school in a school district on the fortieth, eightieth and one hundred twentieth days of the prior school year; and 2) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project;

(6) the amount calculated pursuant to Subparagraph (p) of Paragraph (5) of this subsection shall be reduced by the following procedure:

(a) the total of all legislative appropriations made after January 1, 2003 for nonoperating purposes either directly to the subject school district or to another governmental entity for the purpose of passing the money through directly to the subject school district, and not rejected by the subject school district, but excluding educational technology appropriations made prior to January 1, 2005 and reauthorizations of appropriations previously made to the subject school district, is calculated; provided that an appropriation made in a fiscal year shall be deemed to be accepted by a school district unless, prior to June 1 of that fiscal year, the school district notifies the department of finance and administration and the public education department that the district is rejecting the appropriation; provided further that the total shall be increased by an amount, certified to the council by the department, equal to the educational technology appropriations made to the subject school district on or after January 1, 2003 and prior to January 1, 2005 and not previously used to offset distributions pursuant to the Technology for Education Act;

(b) the applicable fraction used for the subject school district and the current calendar year for the calculation in Subparagraph (p) of Paragraph (5) of this subsection is subtracted from one;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph for the subject school district is multiplied by the amount calculated pursuant to Subparagraph (b) of this paragraph for that school district;

(d) the total amount of reductions for the subject school district previously made pursuant to Subparagraph (e) of this paragraph for other

approved public school capital outlay projects is subtracted from the amount calculated pursuant to Subparagraph (c) of this paragraph; and

(e) the amount calculated pursuant to Subparagraph (p) of Paragraph (5) of this subsection shall be reduced by the amount calculated pursuant to Subparagraph (d) of this paragraph;

(7) as used in Paragraphs (5) and (6) of this subsection, "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located;

(8) the council may adjust the amount of local share otherwise required if it determines that a school district has used all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(b) the school district: 1) has fewer than an average of eight hundred full-time-equivalent students on the fortieth, eightieth and one hundred twentieth days of the prior school year; 2) has at least seventy percent of its students eligible for free or reduced fee lunch; 3) has a share of the total project cost, as calculated pursuant to provisions of this section, that would be greater than fifty percent; and 4) for all educational purposes, has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(c) the school district has: 1) an enrollment growth rate over the previous school year of at least two and one-half percent; 2) pursuant to its five-year facilities plan, will be building a new school within the next two years; and 3) for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; and

(9) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's

five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (5), (6) or (8) of this subsection, is not funded with grant assistance from the fund; provided that school district funds used for a project that was initiated after September 1, 2002 when the statewide adequacy standards were adopted, but before September 1, 2004 when the standards were first used as the basis for determining the state and school district share of a project, may be applied to the school district portion required for that project;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school has a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities and the need for technological infrastructure. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School

Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using local funds to exceed the statewide adequacy standards.

E. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

F. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

G. Upon the recommendation of the public school facilities authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

H. No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature."

"22-25-9. STATE DISTRIBUTION TO SCHOOL DISTRICT IMPOSING TAX UNDER CERTAIN CIRCUMSTANCES.--

A. Except as provided in Subsection C or G of this section, the secretary shall distribute to any school district that has imposed a tax under the Public School Capital Improvements Act an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax, at the rate certified by the department of finance and administration in accordance with Section 22-25-7 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the school district's first forty days' total program units by the amount specified in Subsection B of this section and further multiplying the product obtained by the tax rate approved by the qualified electors in the most recent election on the question of imposing a tax under the Public School Capital Improvements Act. The distribution shall be made each year that the tax is imposed in accordance with Section 22-25-7 NMSA 1978; provided that no state

distribution from the public school capital improvements fund may be used for capital improvements to any administration building of a school district. In the event that sufficient funds are not available in the public school capital improvements fund to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

B. In calculating the state distribution pursuant to Subsection A of this section, the following amounts shall be used:

(1) the amount calculated pursuant to Subsection D of this subsection per program unit; and

(2) for fiscal year 2006 and thereafter, an additional amount certified to the secretary by the public school capital outlay council. No later than June 1, 2005 and each June 1 thereafter, the council shall determine the amount needed in the next fiscal year for public school capital outlay projects pursuant to the Public School Capital Outlay Act and the amount of revenue, from all sources, available for the projects. If, in the sole discretion of the council, the amount available exceeds the amount needed, the council may certify an additional amount pursuant to this paragraph; provided that the sum of the amount calculated pursuant to this paragraph plus the amount in Paragraph (1) of this subsection shall not result in a total statewide distribution that, in the opinion of the council, exceeds one-half of the total revenue estimated to be received from taxes imposed pursuant to the Public School Capital Improvements Act.

C. For fiscal year 2004 and thereafter, notwithstanding the amount calculated to be distributed pursuant to Subsections A and B of this section, except as provided in Subsection G of this section, a school district, the voters of which have approved a tax pursuant to Section 22-25-3 NMSA 1978, shall not receive a distribution less than the amount calculated pursuant to Subsection E of this section, multiplied by the school district's first forty days' total program units and further multiplying the product obtained by the approved tax rate.

D. For purposes of calculating the distribution pursuant to Subsection B of this section, the amount used in Paragraph (1) of that subsection shall equal fifty dollars (\$50.00) through fiscal year 2005, sixty dollars (\$60.00) in fiscal year 2006 and in each subsequent fiscal year shall equal the amount for the previous fiscal year adjusted by the percentage increase between the next preceding calendar year and the preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor.

E. For purposes of calculating the minimum distribution pursuant to Subsection C of this section, the amount used in that subsection shall equal five dollars (\$5.00) through fiscal year 2005 and in each subsequent fiscal year shall equal the amount for the previous fiscal year adjusted by the percentage increase between the next preceding calendar year and the preceding calendar year of the consumer price

index for the United States, all items, as published by the United States department of labor.

F. In expending distributions made pursuant to this section, school districts shall give priority to maintenance projects. In addition, distributions made pursuant to this section may be expended by school districts for the school district portion of the total project cost for roof repair or replacement required by Section 22-24-4.3 NMSA 1978.

G. If a serious deficiency in a roof of a public school facility has been corrected pursuant to Section 22-24-4.4 NMSA 1978 and the school district has refused to pay its share of the cost as determined by that section, until the public school capital outlay fund is reimbursed in full for the share attributed to the district, the distribution calculated pursuant to this section shall not be made to the school district but shall be made to the public school capital outlay fund.

H. In making distributions pursuant to this section, the secretary shall include such reporting requirements and conditions as are required by rule of the public school capital outlay council. The council shall adopt such requirements and conditions as are necessary to ensure that the distributions are expended in the most prudent manner possible and are consistent with the original purpose as specified in the authorizing resolution. Copies of reports or other information received by the secretary in response to the requirements and conditions shall be forwarded to the council."

Chapter 275 Section 3 Laws 2005

Section 3. DEFINITIONS.--As used in the Personal Insurance Credit Information Act:

A. "adverse action" means a denial or cancellation of, an increase in a charge for or a reduction or other adverse or unfavorable change in the terms of coverage or amount of, insurance, existing or applied for, in connection with the underwriting, rating or renewal of personal insurance, which adverse action occurs when an insurer offers insurance at less favorable terms than it would have offered a consumer if the consumer's credit information had been more favorable;

B. "affiliate" means a company that directly or indirectly controls, is controlled by or is under the common ownership or control of another company;

C. "company placement" means the assignment of a consumer to a particular insurer within a group of affiliates;

D. "consumer" means an individual applicant or insured whose credit information is relied upon or used to calculate an insurance score for underwriting, rating or renewing a personal insurance coverage;

E. "consumer reporting agency" means a person or entity that, for monetary fees, dues or on a cooperative nonprofit basis, regularly engages in whole or in part in the practice of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties;

F. "credit information" means a written, oral or other communication of information prepared by a consumer reporting agency or provided by the consumer on an application for or renewal of credit, bearing on a consumer's credit worthiness, credit standing or credit capacity, that is used or expected to be used or collected in whole or in part for the purpose of underwriting, rating or renewing a personal insurance coverage;

G. "insurance score" means a number or rating that is derived from an algorithm, computer application, model or other process that is based in whole or in part on credit information and is used for underwriting, rating or renewing personal insurance coverage;

Chapter 275 Section 4 Laws 2005

Section 4. USE OF CREDIT INFORMATION--LIMITS ON USE.--An insurer or group of affiliated insurers authorized to do business in New Mexico that uses credit information to underwrite, rate or renew personal insurance coverage shall not:

A. use an insurance score that is calculated using income, gender, address, race, color, national origin, religion or marital status of the consumer as a factor;

B. deny, cancel or fail to renew coverage, or base a consumer's company placement, tier placement or rates, on the basis of credit information or an insurance score without consideration of other underwriting factors permitted by state law;

C. consider an absence of credit information or an inability to calculate an insurance score in underwriting, rating or renewing personal insurance coverage unless the insurer:

(1) classifies the consumer as having average or better than average credit information for that insurer or group of affiliated insurers; or

(2) excludes the use of credit information as a factor in rating or underwriting personal insurance coverage;

D. take adverse action against a consumer based upon credit information, or upon an insurance score calculated from credit information, submitted more than ninety days before the date of notice of the adverse action;

E. use credit information upon renewal unless the insurer obtains current credit information and recalculates the insurance score at least every thirty-six months. Upon the request of a consumer, an insurer that uses credit information upon renewal shall obtain current credit information and recalculate an insurance score. An insurer shall not be required to obtain current credit information or recalculate an insurance score more frequently than every twelve months except for the correction of an error as described in Section 6 of the Personal Insurance Credit Information Act. The Personal Insurance Credit Information Act does not require an insurer to obtain current credit information or recalculate an insurance score if:

(1) an improved insurance score would not cause the consumer to be placed in a more favorably priced company or tier of the insurer; or

(2) the insurer does not rely upon credit information or an insurance score to underwrite, rate or renew the consumer's personal insurance coverage;

F. use an insurance score in whole or in part to deny, restrict or alter the fees charged for a premium payment plan; or

G. use credit inquiries as a factor in any insurance scoring methodology or to underwrite, rate or renew personal insurance coverage.

Chapter 275 Section 5 Laws 2005

Section 5. EXCEPTION PROCEDURES.--

A. As used in this section, "extraordinary life circumstance" means:

- (1) an acute or chronic medical condition, illness, injury or disease;
- (2) divorce;
- (3) death of a spouse, child or parent;
- (4) involuntary loss of employment for more than three consecutive months;
- (5) identity theft;
- (6) total or other loss that makes a home uninhabitable; or
- (7) other circumstances prescribed by the superintendent in a rule.

B. Insurers that use credit information to calculate an insurance score or to underwrite, rate or renew personal insurance coverage shall, upon written request from a consumer, provide a reasonable exception to the insurer's rates, rating classifications, company placement, tier placement or underwriting policies, procedures or guidelines when that consumer's credit information has been adversely impacted by an extraordinary life circumstance that has occurred within three years of the date of application for or renewal of personal insurance coverage.

C. Insurers shall file their extraordinary life circumstances exception policies and procedures and amendments to the policies and procedures with the superintendent. Filings shall include the following:

- (1) a list of extraordinary life circumstances;
- (2) procedures describing how a consumer may apply for the extraordinary life circumstances exception;
- (3) a description of the required substantiating information;
- (4) general guidelines for when an extraordinary life circumstances exception will be granted;

(5) a description of how a consumer's treatment in underwriting or rating would be modified by the granting of an extraordinary life circumstances exception;

(6) time frames for considering the extraordinary life circumstances exception request; and

(7) any other information prescribed by the superintendent in a rule.

D. An insurer's extraordinary life circumstances exception policies and procedures shall be effective for use upon filing with the superintendent.

E. The superintendent may disapprove an insurer's extraordinary life circumstances exception policies or procedures at any time upon providing the insurer with a sixty-day written notice setting forth the reasons for the disapproval. Disapproval shall be based upon a determination that the extraordinary life circumstances exception policies and procedures as contained in the filing are inadequate pursuant to this section, and the notice of disapproval shall specify the respects in which they are inadequate. An insurer affected by a disapproval may request a hearing before the superintendent pursuant to Section 59A-4-15 NMSA 1978, and the request for a hearing stays the effectiveness of the disapproval. No disapproval shall affect an action or determination made by an insurer concerning an application or policy of insurance made prior to the date of a notice of final determination of the disapproval.

F. An insurer may require the consumer to provide reasonable, independently verifiable written documentation of the event and the direct effect of the event on the consumer's credit before granting an exception.

G. An insurer that grants an extraordinary life circumstances exception shall maintain that exception for an amount of time that is reasonable for the particular circumstance. Once that reasonable amount of time is exhausted, the insurer is not required to grant another exception for the same specific extraordinary life circumstance.

H. An insurer is not out of compliance with a law or rule relating to underwriting, rating or rate filing as a result of granting an exception under this section.

Chapter 275 Section 6 Laws 2005

Section 6. ERROR CORRECTION.--If it is determined by a consumer reporting agency that a consumer's credit information is inaccurate or incomplete and the insurer is notified of this determination by the consumer reporting agency or the consumer, the insurer or its group of affiliated insurers shall re-underwrite and re-rate the consumer's personal insurance coverage within thirty days of receiving the notice, refund any overpaid premium and, if necessary, make a related adjustment, including company placement, consistent with its filed underwriting and rating guidelines.

Chapter 275 Section 7 Laws 2005

Section 7. INITIAL NOTIFICATION OF USE OF CREDIT INFORMATION.--

A. If an insurer uses credit information to calculate an insurance score to underwrite, rate or renew personal insurance coverage, the insurer shall disclose to the consumer at least once, either at the time of application or upon the first renewal subsequent to December 31, 2005, in writing or in the same medium as the application or renewal, that it uses that information.

B. An insurer may use the following disclosure language to comply with the requirements of this section: "In connection with your application for insurance coverage, we may review and use information contained in your credit report to help determine your premium or your eligibility for coverage."

Chapter 275 Section 8 Laws 2005

Section 8. ADVERSE ACTION NOTIFICATION.--

A. If an insurer takes an adverse action based upon credit information, the insurer shall notify the consumer in writing, or in the same medium as the application or renewal, of the nature of the adverse action, the reasons for the adverse action and the insurer's extraordinary life circumstances exception policies and procedures as provided by Section 5 of the Personal Insurance Credit Information Act.

B. The notification shall identify, in clear and simple language and in descending order of importance, the four most important factors that prevented the consumer from receiving a more favorable insurance score. The factors shall be identified with sufficient specificity that a consumer can identify the factors on a standard credit report.

C. In addition to the information described in Subsections A and B of this section, the notification shall include any other language prescribed by rule issued by the superintendent.

Chapter 275 Section 9 Laws 2005

Section 9. INSURANCE SCORING FILINGS.--

A. Insurers and groups of affiliated insurers that use credit information or insurance scores to underwrite, rate or renew personal insurance coverage shall, prior to implementation or amendment, file with the superintendent their scoring models and all scoring ingredients and processes, including all criteria, matrices, weightings and score ranges, as well as all resulting rating factors and rating elements, and all resulting guidelines for accepting coverage, for company placement and for tier placement. A filing shall provide examples, either through electronic spreadsheets, formulas, tables or

detailed written documentation, of how scores and underwriting and rating results can be obtained. The filing shall be provided on an affiliated group basis whenever an insurer is an affiliate of an insurance group.

B. A filing that includes credit information or insurance scoring shall include loss experience justifying the design and use of the model.

C. If an insurer files a scoring model that has already been filed with the superintendent by a rate service organization licensed by the superintendent pursuant to Section 59A-17-19 NMSA 1978, the insurer may reference the rate service organization's filing of the model. In such circumstances, if the insurer deviates in any way from the referenced model filed by the rate service organization, the insurer must explain in detail the nature of such deviations.

D. Scoring models, processes and guidelines shall become effective and may be used on the date of filing with the superintendent.

E. The superintendent may issue an order to disapprove a filing at any time upon providing the insurer with a sixty-day written notice of the disapproval. Any such disapproval shall be based upon a determination that the filing under this section is either inadequate pursuant to Subsection A of this section, will result in rates that do not comply with the applicable requirements of the Insurance Rate Regulation Law or will result in uses not compliant with Section 4 of the Personal Insurance Credit Information Act. The notice of disapproval shall specify the bases for the disapproval and the date on which the filing shall be deemed no longer effective. An insurer affected by such a disapproval may request a hearing before the superintendent pursuant to Section 59A-4-15 NMSA 1978, and the request for hearing stays the effectiveness of the disapproval. No disapproval shall affect an action or determination made by an insurer concerning applications or policies of insurance made prior to the date of notice of final determination of the disapproval.

F. Filings made pursuant to this section shall be considered confidential trade secrets under the Uniform Trade Secrets Act.

Chapter 275 Section 10 Laws 2005

Section 10. RULEMAKING AUTHORITY.--The superintendent may adopt rules the superintendent deems necessary to implement and ensure full compliance with the provisions of the Personal Insurance Credit Information Act.

Chapter 275 Section 11 Laws 2005

Section 11. SEVERABILITY.--If any part or application of the Personal Insurance Credit Information Act is held invalid, the remainder or its application to other situations or persons shall not be affected.

Chapter 275 Section 12 Laws 2005

Section 12. APPLICABILITY.--The provisions of the Personal Insurance Credit Information Act apply to personal insurance policies written to be effective or renewed on or after January 1, 2006.

Chapter 275 Section 13 Laws 2005

Section 13. EFFECTIVE DATE.--The effective date of the provisions of this act is January 1, 2006.

HOUSE BILL 440, AS AMENDED

Approved April 7, 2005

LAWS 2005, CHAPTER 282

AN ACT

RELATING TO CRIME VICTIM RESTITUTION; ESTABLISHING RESTITUTION AS A PERMISSIBLE LIEN.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 282 Section 1 Laws 2005

Section 1. Section 31-17-1 NMSA 1978 (being Laws 1977, Chapter 217, Section 2, as amended) is amended to read:

"31-17-1. VICTIM RESTITUTION.--

A. It is the policy of this state that restitution be made by each violator of the Criminal Code to the victims of his criminal activities to the extent that the defendant is reasonably able to do so. This section shall be interpreted and administered to effectuate this policy. As used in this section, unless the context otherwise requires:

(1) "victim" means any person who has suffered actual damages as a result of the defendant's criminal activities;

(2) "actual damages" means all damages which a victim could recover against the defendant in a civil action arising out of the same facts or event, except punitive damages and damages for pain, suffering, mental anguish and loss of consortium. Without limitation, "actual damages" includes damages for wrongful death;

(3) "criminal activities" includes any crime for which there is a plea of guilty or verdict of guilty, upon which a judgment may be rendered and any other crime committed after July 1, 1977 which is admitted or not contested by the defendant; and

(4) "restitution" means full or partial payment of actual damages to a victim.

B. If the trial court exercises either of the sentencing options under Section 31-20-6 NMSA 1978, the court shall require as a condition of probation or parole that the defendant, in cooperation with the probation or parole officer assigned to the defendant, promptly prepare a plan of restitution, including a specific amount of restitution to each victim and a schedule of restitution payments. If the defendant is currently unable to make any restitution but there is a reasonable possibility that the defendant may be able to do so at some time during his probation or parole period, the plan of restitution shall also state the conditions under which or the event after which the defendant will make restitution. If the defendant believes that he will not be able to make any restitution, he shall so state and shall specify the reasons. If the defendant believes that no person suffered actual damages as a result of the defendant's criminal activities, he shall so state.

C. The defendant's plan of restitution and the recommendations of his probation or parole officer shall be submitted promptly to the court. The court shall promptly enter an order approving, disapproving or modifying the plan, taking into account the factors enumerated in Subsection D of this section. Compliance with the plan of restitution as approved or modified by the court shall be a condition of the defendant's probation or parole. Restitution payments shall be made to the clerk of the court unless otherwise directed by the court. The court thereafter may modify the plan at any time upon the defendant's request or upon the court's own motion. If the plan as approved or modified does not require full payment of actual damages to all victims or if the court determines that the defendant is not able and will not be able to make any restitution at any time during his probation or parole period or that no person suffered actual damages as a result of the defendant's criminal activities, the court shall file a specific written statement of its reasons for and the facts supporting its action or determination.

D. An order requiring an offender to pay restitution, validly entered pursuant to this section, constitutes a judgment and lien against all property of a defendant for the amount the defendant is obligated to pay under the order and may be recorded in any office for the filing of liens against real or personal property, or for garnishment. A judgment of restitution may be enforced by the state, a victim entitled under the order to receive restitution, a deceased victim's estate or any other beneficiary of the judgment in the same manner as a civil judgment. An order of restitution is enforceable, if valid, pursuant to this section, the Victims of Crime Act or Article 2, Section 24 of the constitution of New Mexico. Nothing in this section shall be construed to limit the ability of a victim to pursue full civil legal remedies.

E. The probation or parole officer, when assisting the defendant in preparing the plan of restitution, and the court, before approving, disapproving or modifying the plan of restitution, shall consider the physical and mental health and condition of the defendant; the defendant's age, education, employment circumstances, potential for employment and vocational training, family circumstances and financial condition; the number of victims; the actual damages of each victim; what plan of restitution will most effectively aid the rehabilitation of the defendant; and such other factors as shall be appropriate. The probation or parole officer shall attempt to determine the name and address of each victim and the amount of pecuniary damages of each victim.

F. The clerk of the court shall mail to each known victim a copy of the court's order approving or modifying the plan of restitution, including the court's statement, if any, pursuant to the provisions of Subsection C of this section.

G. At any time during the probation or parole period, the defendant or the victim may request and the court shall grant a hearing on any matter related to the plan of restitution.

H. "22-8-25. STATE EQUALIZATION GUARANTEE DISTRIBUTION--

DEFINITIONS--DETERMINATION OF AMOUNT.--

A. The state equalization guarantee distribution is that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined in this section, is at least equal to the school district's program cost.

B. "Local revenue", as used in this section, means seventy-five percent of receipts to the school district derived from that amount produced by a school district

property tax applied at the rate of fifty cents (\$.50) to each one thousand dollars (\$1,000) of net taxable value of property allocated to the school district and to the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act.

C. "Federal revenue", as used in this section, means receipts to the school district, excluding amounts that, if taken into account in the computation of the state equalization guarantee distribution, result, under federal law or regulations, in a reduction in or elimination of federal school funding otherwise receivable by the school district, derived from the following:

(1) seventy-five percent of the school district's share of forest reserve funds distributed in accordance with Section 22-8-33 NMSA 1978; and

(2) seventy-five percent of grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Title 20 of the United States Code, commonly known as "PL 874 funds" or "impact aid".

D. To determine the amount of the state equalization guarantee distribution, the department shall:

(1) calculate the number of program units to which each school district is entitled using an average of the MEM on the eightieth and one hundred twentieth days of the prior year; or

(2) calculate the number of program units to which a school district operating under an approved year-round school calendar is entitled using an average of the MEM on appropriate dates established by the department; or

(3) calculate the number of program units to which a school district with a MEM of two hundred or less is entitled by using an average of the MEM on the eightieth and one hundred twentieth days of the prior year or the fortieth day of the current year, whichever is greater; and

(4) using the results of the calculations in Paragraph (1), (2) or (3) of this subsection and the instructional staff training and experience index from the October report of the prior school year, establish a total program cost of the school district;

(5) calculate the local and federal revenues as defined in this section;

(6) deduct the sum of the calculations made in Paragraph (5) of this subsection from the program cost established in Paragraph (4) of this subsection;

(7) deduct the total amount of guaranteed energy savings contract payments that the department determines will be made to the school district from the public school utility conservation fund during the fiscal year for which the state equalization guarantee distribution is being computed; and

(8) deduct ninety percent of the amount certified for the school district by the department pursuant to the Energy Efficiency and Renewable Energy Bonding Act, if that act becomes law pursuant to House Bill 32 or similar legislation of the first session of the forty-seventh legislature.

E. Reduction of a school district's state equalization guarantee distribution shall cease when the school district's cumulative reductions equal its proportional share of the cumulative debt service payments necessary to service the bonds issued pursuant to the Energy Efficiency and Renewable Energy Bonding Act, if that act becomes law pursuant to House Bill 32 or similar legislation of the first session of the forty-seventh legislature.

F. The amount of the state equalization guarantee distribution to which a school district is entitled is the balance remaining after the deductions made in Paragraphs (6) through (8) of Subsection D of this section.

G. The state equalization guarantee distribution shall be distributed prior to June 30 of each fiscal year. The calculation shall be based on the local and federal revenues specified in this section received from June 1 of the previous fiscal year through May 31 of the fiscal year for which the state equalization guarantee distribution is being computed. In the event that a school district has received more state equalization guarantee funds than its entitlement, a refund shall be made by the school district to the state general fund."

A. Except as provided in Subsection B of this section, a person is eligible for a pool policy only if on the effective date of coverage or renewal of coverage the person is a New Mexico resident, and:

(1) is not eligible as an insured or covered dependent for any health plan that provides coverage for comprehensive major medical or comprehensive physician and hospital services;

(2) is currently paying a rate for a health plan that is higher than one hundred twenty-five percent of the pool's standard rate;

(3) has been rejected for coverage for comprehensive major medical or comprehensive physician and hospital services;

(4) is only eligible for a health plan with a rider, waiver or restrictive provision for that particular individual based on a specific condition;

(5) has a medical condition that is listed on the pool's pre-qualifying conditions;

(6) has as of the date the individual seeks coverage from the pool an aggregate of eighteen or more months of creditable coverage, the most recent of

which was under a group health plan, governmental plan or church plan as defined in Subsections P, N and D, respectively, of Section 59A-23E-2 NMSA 1978, except, for the purposes of aggregating creditable coverage, a period of creditable coverage shall not be counted with respect to enrollment of an individual for coverage under the pool if, after that period and before the enrollment date, there was a sixty-three-day or longer period during all of which the individual was not covered under any creditable coverage; or

(7) is entitled to continuation coverage pursuant to Section 59A-23E-19 NMSA 1978.

B. Notwithstanding the provisions of Subsection A of this section:

(1) a person's eligibility for a policy issued under the Health Insurance Alliance Act shall not preclude a person from remaining on or purchasing a pool policy; provided that a self-employed person who qualifies for an approved health plan under the Health Insurance Alliance Act by using a dependent as the second employee may choose a pool policy in lieu of the health plan under that act; and

(2) if a pool policyholder becomes eligible for any group health plan, the policyholder's pool coverage shall not be involuntarily terminated until any preexisting condition period imposed on the policyholder by the plan has been exhausted.

C. Coverage under a pool policy is in excess of and shall not duplicate coverage under any other form of health insurance.

D. A policyholder's newborn child or newly adopted child is automatically eligible for thirty-one consecutive calendar days of coverage for an additional premium.

E. Except for a person eligible as provided in Paragraph (6) of Subsection A of this section, a pool policy may contain provisions under which coverage is excluded during a six-month period following the effective date of coverage as to a given individual for preexisting conditions.

F. The preexisting condition exclusions described in Subsection E of this section shall be waived to the extent to which similar exclusions have been satisfied under any prior health insurance coverage that was involuntarily terminated, if the application for pool coverage is made not later than thirty-one days following the involuntary termination. In that case, coverage in the pool shall be effective from the date on which the prior coverage was terminated. This subsection does not prohibit preexisting conditions coverage in a pool policy that is more favorable to the insured than that specified in this subsection.

G. An individual is not eligible for coverage by the pool if:

(1) except as provided in Subsection I of this section, the individual is, at the time of application, eligible for medicare or medicaid that would provide coverage for amounts in excess of limited policies such as dread disease, cancer policies or hospital indemnity policies;

(2) the individual has voluntarily terminated coverage by the pool within the past twelve months and did not have other continuous coverage during that time, except that this paragraph shall not apply to an applicant who is a federally defined eligible individual;

(3) the individual is an inmate of a public institution or is eligible for public programs for which medical care is provided;

(4) the individual is eligible for coverage under a group health plan;

(5) the individual has health insurance coverage as defined in Subsection R of Section 59A-23E-2 NMSA 1978;

(6) the most recent coverages within the coverage period described in Paragraph (6) of Subsection A of this section were terminated as a result of nonpayment of premium or fraud; or

(7) the individual has been offered the option of continuation coverage under a federal COBRA continuation provision as defined in Subsection F of Section 59A-23E-2 NMSA 1978 or under a similar state program and he has elected the coverage and did not exhaust the continuation coverage under the provision or program, provided, however, that an unemployed former employee who has not exhausted COBRA coverage shall be eligible.

H. Any person whose health insurance coverage from a qualified state health policy with similar coverage is terminated because of nonresidency in another state may apply for coverage under the pool. If the coverage is applied for within thirty-one days after that termination and if premiums are paid for the entire coverage period, the effective date of the coverage shall be the date of termination of the previous coverage.

I. The board may issue a pool policy for individuals who:

(1) are enrolled in both Part A and Part B of medicare because of a disability; and

(2) except for the eligibility for medicare, would otherwise be eligible for coverage pursuant to the criteria of this section."

A. Following the close of each fiscal year, the pool administrator shall determine the net premium, being premiums less administrative expense allowances, the pool expenses and claim expense losses for the year, taking into account investment income and other appropriate gains and losses. The assessment for each insurer shall be determined by multiplying the total cost of pool operation by a fraction the numerator of which equals that insurer's premium and subscriber contract charges or their equivalent for health insurance written in the state during the preceding calendar year and the denominator of which equals the total of all premiums and subscriber contract charges written in the state; provided that premium income shall include receipts of medicaid managed care premiums but shall not include any payments by the secretary of health and human services pursuant to a contract issued under Section 1876 of the Social Security Act, as amended. D. The board may abate or defer, in whole or in part, the assessment of a member of the pool if, in the opinion of the board, payment of the assessment would endanger the ability of the member to fulfill its contractual obligation. "59A-54-12. ELIGIBILITY--POLICY PROVISIONS.--

A. Except as provided in Subsection B of this section, a person is eligible for a pool policy only if on the effective date of coverage or renewal of coverage the person is a New Mexico resident, and:

(1) is not eligible as an insured or covered dependent for any health plan that provides coverage for comprehensive major medical or comprehensive physician and hospital services;

(2) is currently paying a rate for a health plan that is higher than one hundred twenty-five percent of the pool's standard rate;

(3) has been rejected for coverage for comprehensive major medical or comprehensive physician and hospital services;

(4) is only eligible for a health plan with a rider, waiver or restrictive provision for that particular individual based on a specific condition;

(5) has a medical condition that is listed on the pool's pre-qualifying conditions;

(6) has as of the date the individual seeks coverage from the pool an aggregate of eighteen or more months of creditable coverage, the most recent of which was under a group health plan, governmental plan or church plan as defined in Subsections P, N and D, respectively, of Section 59A-23E-2 NMSA 1978, except, for the purposes of aggregating creditable coverage, a period of creditable coverage shall not be counted with respect to enrollment of an individual for coverage under the pool if, after that period and before the enrollment date, there was a sixty-three-day or longer period during all of which the individual was not covered under any creditable coverage;
or

(7) is entitled to continuation coverage pursuant to Section 59A-23E-19 NMSA 1978.

B. Notwithstanding the provisions of Subsection A of this section:

(1) a person's eligibility for a policy issued under the Health Insurance Alliance Act shall not preclude a person from remaining on or purchasing a pool policy; provided that a self-employed person who qualifies for an approved health plan under the Health Insurance Alliance Act by using a dependent as the second employee may choose a pool policy in lieu of the health plan under that act; and

(2) if a pool policyholder becomes eligible for any group health plan, the policyholder's pool coverage shall not be involuntarily terminated until any preexisting condition period imposed on the policyholder by the plan has been exhausted.

C. Coverage under a pool policy is in excess of and shall not duplicate coverage under any other form of health insurance.

D. A policyholder's newborn child or newly adopted child is automatically eligible for thirty-one consecutive calendar days of coverage for an additional premium.

E. Except for a person eligible as provided in Paragraph (6) of Subsection A of this section, a pool policy may contain provisions under which coverage is excluded during a six-month period following the effective date of coverage as to a given individual for preexisting conditions.

F. The preexisting condition exclusions described in Subsection E of this section shall be waived to the extent to which similar exclusions have been satisfied under any prior health insurance coverage that was involuntarily terminated, if the application for pool coverage is made not later than thirty-one days following the involuntary termination. In that case, coverage in the pool shall be effective from the date on which the prior coverage was terminated. This subsection does not prohibit preexisting conditions coverage in a pool policy that is more favorable to the insured than that specified in this subsection.

G. An individual is not eligible for coverage by the pool if:

(1) except as provided in Subsection I of this section, the individual is, at the time of application, eligible for medicare or medicaid that would provide coverage for amounts in excess of limited policies such as dread disease, cancer policies or hospital indemnity policies;

(2) the individual has voluntarily terminated coverage by the pool within the past twelve months and did not have other continuous coverage during that

time, except that this paragraph shall not apply to an applicant who is a federally defined eligible individual;

(3) the individual is an inmate of a public institution or is eligible for public programs for which medical care is provided;

(4) the individual is eligible for coverage under a group health plan;

(5) the individual has health insurance coverage as defined in Subsection R of Section 59A-23E-2 NMSA 1978;

(6) the most recent coverages within the coverage period described in Paragraph (6) of Subsection A of this section were terminated as a result of nonpayment of premium or fraud; or

(7) the individual has been offered the option of continuation coverage under a federal COBRA continuation provision as defined in Subsection F of Section 59A-23E-2 NMSA 1978 or under a similar state program and he has elected the coverage and did not exhaust the continuation coverage under the provision or program, provided, however, that an unemployed former employee who has not exhausted COBRA coverage shall be eligible.

H. Any person whose health insurance coverage from a qualified state health policy with similar coverage is terminated because of nonresidency in another state may apply for coverage under the pool. If the coverage is applied for within thirty-one days after that termination and if premiums are paid for the entire coverage period, the effective date of the coverage shall be the date of termination of the previous coverage.

I. The board may issue a pool policy for individuals who:

(1) are enrolled in both Part A and Part B of medicare because of a disability; and

(2) except for the eligibility for medicare, would otherwise be eligible for coverage pursuant to the criteria of this section."

Approved April 7, 2005

LAWS 2005, CHAPTER 311

AN ACT

RELATING TO HUMAN RIGHTS; EXTENDING THE TIME LIMIT FOR FILING APPEALS AND GRIEVANCES UNDER THE HUMAN RIGHTS ACT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 311 Section 1 Laws 2005

Section 1. Section 28-1-10 NMSA 1978 (being Laws 1969, Chapter 196, Section 9, as amended) is amended to read:

"28-1-10. GRIEVANCE PROCEDURE.--

A. A person claiming to be aggrieved by an unlawful discriminatory practice and a member of the commission who has reason to believe that discrimination has occurred may file with the human rights division of the labor department a written complaint that shall state the name and address of the person alleged to have engaged in the discriminatory practice, all information relating to the discriminatory practice and any other information that may be required by the commission. All complaints shall be filed with the division within three hundred days after the alleged act was committed.

B. The director shall advise the respondent that a complaint has been filed against the respondent and shall furnish the respondent with a copy of the complaint. The director shall promptly investigate the alleged act. If the director determines that the complaint lacks probable cause, the director shall dismiss the complaint and notify the complainant and respondent of the dismissal. The complaint shall be dismissed subject to appeal as in the case of other orders of the commission.

C. If the director determines that probable cause exists for the complaint, the director shall attempt to achieve a satisfactory adjustment of the complaint through persuasion and conciliation. The director and staff shall neither disclose what has transpired during the attempted conciliation nor divulge information obtained during any hearing before the commission or a commissioner prior to final action relating to the complaint. An officer or employee of the labor department who makes public in any manner information in violation of this subsection is guilty of a misdemeanor and upon conviction shall be fined not more than one thousand dollars (\$1,000) or imprisoned not more than one year.

D. A person who has filed a complaint with the human rights division may request and shall receive an order of nondetermination from the director without delay after the division's receipt of the complaint and in jointly filed cases, after the federal complaint has been closed. The order of nondetermination may be appealed pursuant to the provisions of Section 28-1-13 NMSA 1978.

E. In the case of a complaint filed by or on behalf of a person who has an urgent medical condition and has notified the director in writing of the test results, the director shall make the determination whether probable cause exists for the complaint and shall attempt any conciliation efforts within ninety days of the filing of the written complaint or notification, whichever occurs last.

F. If conciliation fails or if, in the opinion of the director, informal conference cannot result in conciliation and the complainant has not requested a waiver of right to hearing pursuant to the provisions of Subsection J of this section, the commission shall issue a written complaint in its own name against the respondent, except that in the case of a complaint filed by or on behalf of a person who has an urgent medical condition, who has notified the director in writing of the test results and who so elects, the director shall issue an order of nondetermination, which may be appealed pursuant to the provisions of Section 28-1-13 NMSA 1978. The complaint shall set forth the alleged discriminatory practice, the secretary's regulation or the section of the Human Rights Act alleged to have been violated and the relief requested. The complaint shall require the respondent to answer the allegations of the complaint at a hearing before the commission or hearing officer and shall specify the date, time and place of the hearing. The hearing date shall not be more than fifteen or less than ten days after service of the complaint. The complaint shall be served on the respondent personally or by registered mail, return receipt requested. The hearing shall be held in the county where the respondent is doing business or the alleged discriminatory practice occurred.

G. Within one year of the filing of a complaint by a person aggrieved, the commission or its director shall:

- (1) dismiss the complaint for lack of probable cause;
- (2) achieve satisfactory adjustment of the complaint as evidenced by order of the commission; or
- (3) file a formal complaint on behalf of the commission.

H. Upon the commission's petition, the district court of the county where the respondent is doing business or the alleged discriminatory practice occurred may grant injunctive relief pending hearing by the commission or pending judicial review of an order of the commission so as to preserve the status quo or to ensure that the commission's order as issued will be effective. The commission shall not be required to post a bond.

I. For purposes of this section, "urgent medical condition" means any medical condition as defined by an appropriate medical authority through documentation or by direct witness of a clearly visible disablement that poses a serious threat to the life of the person with the medical condition.

J. The complainant may seek a trial de novo in the district court in lieu of a hearing before the commission, provided the complainant requests from the director, in writing, a waiver of complainant's right to hearing within sixty days of service of written notice of a probable cause determination by the director. The director shall approve the waiver request and shall serve notice of the waiver upon the complainant and respondent. The complainant may request a trial de novo pursuant to Section 28-1-13 NMSA 1978 within ninety days from the date of service of the waiver. Issuance of the notice shall be deemed a final order of the commission for the purpose of appeal pursuant to Section 28-1-13 NMSA 1978."

Chapter 311 Section 2 Laws 2005

Section 2. Section 28-1-13 NMSA 1978 (being Laws 1969, Chapter 196, Section 12, as amended) is amended to read:

"28-1-13. APPEAL.--

A. A person aggrieved by an order of the commission may obtain a trial de novo in the district court of the county where the discriminatory practice occurred or where the respondent does business by filing a notice of appeal within ninety days from the date of service of the commission's order. A copy of the notice of appeal shall be served personally or by certified mail, return receipt requested, at their last known address on all parties who appeared before the commission and shall also be served at the division office in Santa Fe. An order of the commission shall not be superseded or

stayed during the appeal unless the district court so directs after notice to the commission and a hearing.

B. If testimony at the hearing was transcribed, the division shall, upon receipt of the notice of appeal, file so much of the transcript of the record as the parties requesting the transcript designate as necessary for the appeal with the district court.

C. Upon appeal, either party may request a jury. The jurisdiction of the district court is exclusive and its judgment is final, subject to further appeal to the court of appeals.

D. In any action or proceeding under this section, if the complainant prevails, the court in its discretion may allow actual damages and reasonable attorney fees and the state shall be liable the same as a private person."

Section 2. Section 6-21C-2.1 NMSA 1978 (being Laws 2004, Chapter 123, Section 1) is amended to read:

"6-21C-2.1. FINDINGS AND PURPOSE.--

A. The legislature finds that the expense of leasing office space for state occupancy has grown to the point that the state would be better served if more state-owned facilities were acquired. The legislature further finds that the state's overall occupancy costs could be reduced even after taking into account the payments necessary on bonds issued to acquire additional facilities and that, therefore, it is economically advantageous for the state to own additional office space and related facilities. Further, in anticipation of the state's future office space needs, the legislature finds it prudent to establish an office acquisition program.

B. The legislature also finds that, in extreme circumstances, it is advantageous for the state to fund certain critical facilities to avoid the need for leasing or paying emergency rents.

C. The purpose of the State Building Bonding Act is to acquire additional state office buildings and related facilities, or critical facilities located within the master planning jurisdiction of the capitol buildings planning commission, by issuing bonds paid for with distributions of gross receipts tax revenue that reflect a portion of the savings that will result from the conversion to more state-owned facilities."

commission when the acquisition has been reviewed by the capitol buildings planning commission and has been authorized by legislative act and the director of the property control division of the general services department has certified the need for the issuance of the bonds.

B. The net proceeds from the building bonds are appropriated to the property control division of the general services department for the purpose of acquiring state office buildings and related facilities and other critical state facilities within the master planning jurisdiction of the capitol buildings planning commission, the acquisition of which shall be consistent with the State Building Bonding Act and the authorizing legislation."

In the event a vehicle is designed, constructed, converted or rebuilt for the transportation of property, the application shall include a statement of its rated capacity as established by the manufacturer of the chassis or the complete vehicle;

(3) a statement of the applicant's title and of all liens or encumbrances upon the vehicle and the names and addresses of all persons having any interest therein and the nature of every such interest and the name and address of the person to whom the certificate of title shall be delivered by the division;

(b) no liability for property taxes on the house trailer exists for the current year or any past tax years; and

(5) further information as may reasonably be required by the division to enable it to determine whether the vehicle is lawfully entitled to registration and the owner entitled to a certificate of title.

The insurance company shall also notify the insured or owner of the insured's or owner's responsibility to comply with this section. B. An owner of a nonrepairable vehicle shall sell or otherwise convey that vehicle only to a licensed wrecker of vehicles or a person licensed by a jurisdiction outside of this state to process vehicles by dismantling, wrecking, shredding, crushing or selling motor vehicle parts or scrap material or otherwise disposing of motor vehicles.

C. A nonrepairable vehicle shall not be repaired, reconstructed or restored for operation on the roads or highways of this state.

For the purpose of this paragraph, "total loss insurance settlement" means the transfer of ownership of a motor vehicle by a person to an insurance company as a result of a settlement in which the motor vehicle is determined to be salvage or nonrepairable."

Chapter 324 Section 9 Laws 2005

This subsection shall not be construed as limiting the use of temporary permits issued to dealers pursuant to Section 66-3-6 NMSA 1978.

When a vehicle is no longer included in a dealer's inventory, and is not sold or leased to an unrelated entity, the dealer must title the vehicle and pay the motor vehicle excise tax that would have been due when the vehicle was first registered by the dealer.

D. In lieu of the use of special dealer plates pursuant to this section, a dealer or auto recycler may register and title a vehicle included in a dealer's inventory in the name of the dealer or auto recycler upon payment of the registration fee applicable to that vehicle, but without payment of the motor vehicle excise tax, provided the vehicle is subsequently sold or leased in the ordinary course of business in a transaction subject to the motor vehicle excise tax or the leased vehicle gross receipts tax."

Chapter 329 Section 2 Laws 2005

Section 2. Section 46-3A-104 NMSA 1978 (being Laws 2001, Chapter 113, Section 104) is amended to read:

"46-3A-104. TRUSTEE'S POWER TO ADJUST.--

(a) A trustee may adjust between principal and income to the extent the trustee considers necessary if the trustee invests and manages trust assets as a prudent investor, the terms of the trust describe the amount that may or must be distributed to a beneficiary by referring to the trust's income, and the trustee determines, after applying the rules in Subsection (a) of Section 46-3A-103 NMSA 1978, that the trustee is unable to comply with Subsection (b) of Section 46-3A-103 NMSA 1978.

(b) In deciding whether and to what extent to exercise the power conferred by Subsection (a) of this section, a trustee shall consider all factors relevant to the trust and its beneficiaries, including the following factors to the extent they are relevant:

(1) the nature, purpose and expected duration of the trust;

(2) the intent of the settlor;

(3) the identity and circumstances of the beneficiaries;

(4) the needs for liquidity, regularity of income, and preservation and appreciation of capital;

(5) the assets held in the trust; the extent to which they consist of financial assets, interests in closely held enterprises, tangible and intangible personal

property or real property; the extent to which an asset is used by a beneficiary; and whether an asset was purchased by the trustee or received from the settlor;

(6) the net amount allocated to income under the other sections of the Uniform Principal and Income Act and the increase or decrease in the value of the principal assets, which the trustee may estimate as to assets for which market values are not readily available;

(7) whether and to what extent the terms of the trust give the trustee the power to invade principal or accumulate income or prohibit the trustee from invading principal or accumulating income, and the extent to which the trustee has exercised a power from time to time to invade principal or accumulate income;

(8) the actual and anticipated effect of economic conditions on principal and income and effects of inflation and deflation; and

(9) the anticipated tax consequences of an adjustment.

(c) A trustee may not make an adjustment:

(1) that diminishes the income interest in a trust that requires all of the income to be paid at least annually to a surviving spouse and for which an estate tax or gift tax marital deduction would be allowed, in whole or in part, if the trustee did not have the power to make the adjustment;

(2) that reduces the actuarial value of the income interest in a trust to which a person transfers property with the intent to qualify for a gift tax exclusion;

(3) that changes the amount payable to a beneficiary as a fixed annuity or a fixed fraction of the value of the trust assets;

(4) from any amount that is permanently set aside for charitable purposes under a will or the terms of a trust unless both income and principal are so set aside;

(5) if possessing or exercising the power to make an adjustment causes an individual to be treated as the owner of all or part of the trust for income tax purposes, and the individual would not be treated as the owner if the trustee did not possess the power to make an adjustment;

(6) if possessing or exercising the power to make an adjustment causes all or part of the trust assets to be included for estate tax purposes in the estate of an individual who has the power to remove a trustee or appoint a trustee, or both, and the assets would not be included in the estate of the individual if the trustee did not possess the power to make an adjustment;

(7) if the trustee is a beneficiary of the trust;

(8) if the trustee is not a beneficiary, but the adjustment would benefit the trustee directly or indirectly; or

(9) if the trust is a total return trust.

(d) If Paragraph (5), (6), (7) or (8) of Subsection (c) of this section applies to a trustee and there is more than one trustee, a co-trustee to whom the provision does not apply may make the adjustment unless the exercise of the power by the remaining trustee or trustees is not permitted by the terms of the trust.

(e) A trustee may release the entire power conferred by Subsection (a) of this section or may release only the power to adjust from income to principal or the power to adjust from principal to income if the trustee is uncertain about whether possessing or exercising the power will cause a result described in Paragraphs (1) through (6) or Paragraph (8) of Subsection (c) of this section or if the trustee determines that possessing or exercising the power will or may deprive the trust of a tax benefit or impose a tax burden not described in Subsection (c) of this section. The release may be permanent or for a specified period, including a period measured by the life of an individual.

(f) Terms of a trust that limit the power of a trustee to make an adjustment between principal and income do not affect the application of this section unless it is clear from the terms of the trust that the terms are intended to deny the trustee the power of adjustment conferred by Subsection (a) of this section."

Chapter 329 Section 3 Laws 2005

Section 3. A new section of the Uniform Principal and Income Act, Section 46-3A-105 NMSA 1978, is enacted to read:

"46-3A-105. CONVERSION TO TOTAL RETURN TRUST.--

A. Unless expressly prohibited by the governing instrument, a trustee may release the power to adjust as provided in Section 46-3A-104 NMSA 1978 or convert a trust to a total return trust as provided in this section if all of the following apply:

(1) the trust describes the amount that may or must be distributed to a beneficiary by referring to the trust's income and the trustee determines that conversion to a total return trust will enable the trustee to better carry out the purposes of the trust;

(2) the trustee provides a written notice of the trustee's decision to convert the trust to a total return trust specifying a prospective effective date for the conversion that may not be sooner than sixty days after the notice is provided to the

qualified beneficiaries, determined as of the date the notice is provided and assuming nonexercise of all powers of appointment;

(3) there are one or more legally competent beneficiaries as provided in Paragraph (1) of Subsection K of Section 46-3A-102 NMSA 1978 and one or more legally competent remainder beneficiaries described in either Paragraph (1) or (2) of Subsection K of Section 46-3A-102 NMSA 1978, determined as of the date the notice is provided; and

(4) no beneficiary has objected in writing to the conversion to a total return trust and noticed the objection to the trustee within sixty days after the notice was provided.

B. Conversion to a total return trust or reconversion to an income trust may be made by agreement between the trustee and all qualified beneficiaries of the trust. The trustee and all qualified beneficiaries may also agree to modify the distribution percentage, except that the trustee and the qualified beneficiaries may not agree to a distribution percentage less than three percent or greater than five percent.

C. The trustee may elect to petition the court to order conversion to a total return trust, including the reason that conversion under Subsection A of this section is unavailable because:

(1) a beneficiary timely objects to the conversion to a total return trust;

(2) there are no legally competent beneficiaries described in Paragraph (1) of Subsection K of Section 46-3A-102 NMSA 1978; or

(3) there are no legally competent beneficiaries described in Paragraph (1) or (2) of Subsection K of Section 46-3A-102 NMSA 1978.

If the trustee declines or fails to act within six months after receiving a written request from a beneficiary to do so, the beneficiary may petition the court to order the conversion or adjustment.

E. The trustee may petition the court prospectively to reconvert from a total return trust or to adjust the distribution percentage if the trustee determines that the reconversion or adjustment will enable the trustee to better carry out the purposes of the trust. A beneficiary may request the trustee to petition the court prospectively to reconvert from a total return trust or adjust the distribution percentage. If the trustee declines or fails to act within six months after receiving a written request from a beneficiary to do so, the beneficiary may petition the court to order the reconversion or adjustment.

F. In a judicial proceeding instituted under this section, the trustee may present information concerning:

(1) the trustee's support for, or opposition to, a conversion to a total return trust, a reconversion from a total return trust or an adjustment of the distribution percentage of a total return trust, including whether the trustee believes conversion, reconversion or adjustment of the distribution percentage would enable the trustee to better carry out the purposes of the trust; and

(2) any other matter relevant to the proposed conversion, reconversion or adjustment of the distribution percentage.

G. A trustee's actions undertaken in accordance with this section shall not be determined improper or inconsistent with the trustee's duty of impartiality unless the court finds from all the evidence that the trustee acted in bad faith.

H. The court may order conversion to a total return trust, reconversion prospectively from a total return trust or adjustment of the distribution percentage of a total return trust if the court determines that the conversion, reconversion or adjustment of the distribution percentage will enable the trustee to better carry out the purposes of the trust.

I. If a conversion to a total return trust is made pursuant to a court order, the trustee may reconvert the trust to an income trust only:

(1) pursuant to a subsequent court order; or

(2) by filing with the court an agreement made pursuant to Subsection B of this section to reconvert to an income trust.

J. Upon a reconversion, the power to adjust, as described in Section 46-3A-104 NMSA 1978 and as it existed before the conversion, shall be revived.

K. An action may be taken under this section no more frequently than every three years, unless the court for good cause orders otherwise."

D. The distribution percentage for any trust converted to a total return trust by a trustee in accordance with Subsection A of Section 46-3A-105 NMSA 1978 shall be four percent, unless a different percentage has been determined in an agreement made pursuant to Subsection B of Section

46-3A-105 NMSA 1978 or ordered by the court pursuant to Subsection C of Section 46-3A-105 NMSA 1978.

E. The trustee shall pay to a beneficiary in the case of an underpayment within a reasonable time, and shall recover from a beneficiary in the case of an overpayment, either by repayment by the beneficiary or by withholding from future distributions to the beneficiary:

(1) an amount equal to the difference between the amount properly payable and the amount actually paid; and

(2) interest compounded annually at a rate per annum equal to the distribution percentage in the year or years during which the underpayment or overpayment occurs; provided that accrual of interest may not commence until the beginning of the trust year following the year in which the underpayment or overpayment occurs.

F. As used in Sections 46-3A-105 through 46-3A-113 NMSA 1978:

(1) "income" as the term appears in the governing instrument means the distribution amount;

(2) the manner of prorating the distribution amount for a short year in which a beneficiary's interest commences or ceases, or, if the trust is a total return trust for only part of the year, the trustee may elect to treat the trust year as two separate years, the first of which ends at the close of the day on which the conversion or reconversion occurs, and the second of which ends at the close of the trust year;

(3) whether distributions are made in cash or in-kind;

(4) the manner of adjusting valuations and calculations of the distribution amount to account for other payments from, or contributions to, the trust;

B. For purposes of this section, any asset excluded pursuant to Subparagraph (c) of Paragraph (7) of Subsection A of this section shall be referred to as an "excluded asset" and the trustee shall distribute any net income received from the excluded asset as provided for in the governing instrument, subject to the following principles:

(1) the trustee shall treat each asset for which there is no readily available market value as an excluded asset unless the trustee determines that there are compelling reasons not to do so and the trustee considers all relevant factors, including the best interests of the beneficiaries;

(2) if tangible personal property or real property is possessed or occupied by a beneficiary, the trustee may not limit or restrict any right of the beneficiary to use the property in accordance with the governing instrument regardless of whether the trustee treats the property as an excluded asset;

(3) assets for which there is a readily available market value include cash and cash equivalents; stocks, bonds and other securities and instruments for which there is an established market on a stock exchange, in an over-the-counter market or otherwise; and any other property that can reasonably be expected to be sold within one week of the decision to sell without extraordinary efforts by the seller;

RELATING TO TELECOMMUNICATIONS; AMENDING SECTIONS OF THE RURAL TELECOMMUNICATIONS ACT OF NEW MEXICO TO PROVIDE FOR THE STATE RURAL UNIVERSAL SERVICE FUND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 335 Section 1 Laws 2005

Section 1. Section 63-9H-6 NMSA 1978 (being Laws 1999, Chapter 295, Section 6) is amended to read:

"63-9H-6. STATE RURAL UNIVERSAL SERVICE FUND--ESTABLISHMENT.--

A. No later than January 1, 2000, the commission shall implement a "state rural universal service fund" to maintain and support at affordable rates those public telecommunications services as are determined by the commission. All of the balances in the existing New Mexico universal service fund as of July 1, 1999 shall be transferred into the state rural universal service fund.

B. The fund shall be financed by a surcharge on intrastate retail public telecommunications services to be determined by the commission, excluding services provided pursuant to a low-income telephone assistance plan billed to end-user customers by a telecommunications carrier, and excluding all amounts from surcharges, gross receipts taxes, excise taxes, franchise fees and similar charges. For the purpose

of funding the fund, the commission has the authority to apply the surcharge on intrastate retail public telecommunications services provided by telecommunications carriers and to comparable retail alternative services provided by telecommunications carriers, including commercial mobile radio services, at a competitively and technologically neutral rate or rates to be determined by the commission. In prescribing competitively and technologically neutral surcharge rates, the commission may make distinctions between services subject to a surcharge, but it shall require all carriers subject to the surcharge to apply uniform surcharge rates for the same or comparable services. Money deposited in the fund is not public money, and the administration of the fund is not subject to the provisions of law regulating public funds. The commission shall not apply this surcharge to a private telecommunications network; to the state, a county, a municipality or other governmental entity; to a public school district; to a public institution of higher education; or to an Indian nation, tribe or pueblo.

C. The fund shall be competitively and technologically neutral, equitable and nondiscriminatory in its collection and distribution of funds, portable between eligible telecommunications carriers and additionally shall provide a specific, predictable and sufficient support mechanism as determined by the commission that reduces intrastate switched access charges to interstate switched access charge levels in a revenue-neutral manner and ensures universal service in the state.

D. The commission shall:

(1) establish eligibility criteria for participation in the fund consistent with federal law that ensure the availability of service at affordable rates. The eligibility criteria shall not restrict or limit an eligible telecommunications carrier from receiving federal universal service support;

(2) provide for the collection of the surcharge on a competitively neutral basis and for the administration and disbursement of money from the fund;

(3) determine those services requiring support from the fund;

(4) provide for the separate administration and disbursement of federal universal service funds consistent with federal law; and

(5) establish affordability benchmark rates for local residential and business services that shall be utilized in determining the level of support from the fund. The process for determining subsequent adjustments to the benchmark shall be established through a rulemaking.

E. All incumbent telecommunications carriers and competitive carriers already designated as eligible telecommunications carriers for the fund shall be eligible for participation in the fund. All other carriers that choose to become eligible to receive support from the fund may petition the commission to be designated as an eligible telecommunications carrier for the fund. The commission may grant eligible carrier

status to a competitive carrier in a rural area upon a finding that granting the application is in the public interest. In making a public interest finding, the commission shall consider at least the following items:

- (1) whether granting eligible carrier status to multiple carriers in a designated area is likely to result in more customer choice;
- (2) the impact of designation of an additional eligible carrier on the size of the fund;
- (3) the unique advantages and disadvantages of the competitor's service offering;
- (4) any commitments made regarding the quality of telephone service; and
- (5) the competitive carrier's willingness and ability to offer service throughout the designated service areas within a reasonable time frame.

F. The commission shall adopt rules, including a provision for variances, for the implementation and administration of the fund in accordance with the provisions of this section no later than November 1, 2005.

G. The commission shall, upon implementation of the fund, select a neutral third party administrator to collect, administer and disburse money from the fund under the supervision and control of the commission pursuant to established criteria and rules promulgated by the commission. The administrator may be reasonably compensated for the specified services from the surcharge proceeds to be received by the fund pursuant to Subsection B of this section. For purposes of this subsection, the commission shall not be a neutral third party administrator.

H. The fund established by the commission shall ensure the availability of local telecommunications service as determined by the commission at affordable rates in rural high cost areas of the state.

I. Beginning April 1, 2006, the commission shall commence the phase-in of reductions in intrastate switched access charges. By May 1, 2008, the commission shall ensure that intrastate switched access charges are equal to interstate switched access charges established by the federal communications commission as of January 1, 2006. Nothing in this section shall preclude the commission from considering further adjustments to intrastate switched access charges based on changes to interstate switched access charges after May 1, 2008.

J. To ensure that providers of intrastate retail communications service contribute to the fund and to further ensure that the surcharge to be paid by the end-user customer will be held to a minimum, no later than November 1, 2005, the

commission shall adopt rules, or take other appropriate action, to require all such providers to participate in a plan to ensure accurate reporting.

K. The commission shall authorize payments from the fund to incumbent local exchange carriers in combination with revenue-neutral rate rebalancing up to the affordability benchmark rates, in an amount equal to the reduction in revenues that occurs as a result of reduced intrastate switched access charges. The commission shall determine the methodology to be used to authorize payments to all other carriers that apply for and receive eligible carrier status. Any reductions in charges for access services resulting from compliance with this section shall be passed on for the benefit of consumers in New Mexico.

L. In a rate proceeding filed pursuant to Subsection F of Section 63-9H-7 NMSA 1978, the commission may also authorize payments from the fund to incumbent rural telecommunications carriers serving in high-cost areas of the state that have reduced access charges upon a finding by the commission that such payments are needed to ensure the widespread availability and affordability of residential local exchange service.

M. By December 1, 2008, the fund administrator shall make a report to the commission and the legislature. The report shall include the effects of access reductions. The report shall also make recommendations for any changes to the structure, size or purposes of the fund."

Chapter 335 Section 2 Laws 2005

Section 2. Section 63-9H-7 NMSA 1978 (being Laws 1999, Chapter 295, Section 7) is amended to read:

"63-9H-7. REGULATION OF RETAIL RATES OF INCUMBENT RURAL TELECOMMUNICATIONS CARRIER.--

A. Rates for retail rural public telecommunications services provided by an incumbent rural telecommunications carrier shall be subject to regulation by the commission only in the manner and to the extent authorized by this section.

B. An incumbent rural telecommunications carrier shall file tariffs for all retail public telecommunications services, other than residential local exchange service, which shall be effective after ten days' notice to the commission and publication in a local newspaper in the incumbent service area. An incumbent rural telecommunications carrier shall remain subject to complaint by an interested party subject to Section 63-9H-10 NMSA 1978.

C. Rates for residential local exchange service may be increased by an incumbent rural telecommunications carrier only after sixty days' notice to all affected subscribers. The notice of increase shall include:

- (1) the reasons for the rate increase;
- (2) a description of the affected service;
- (3) an explanation of the right of the subscriber to petition the commission for a public hearing on the rate increase;
- (4) a list of local exchange areas that are affected by the proposed rate increase; and
- (5) the dates, times and places for the public informational meetings required by this section.

D. An incumbent rural telecommunications carrier may increase its rates for residential local exchange service in the manner otherwise provided in this section as necessary to recover a reasonable allocation of costs incurred due to requirements imposed by any federal or state law or rule. An incumbent rural telecommunications carrier that proposes to increase its rates for residential local exchange service shall hold at least one public informational meeting in each public regulation commissioner's district as established by the Public Regulation Commission Apportionment Act in which there is a local exchange area affected by the rate change.

E. Residential local exchange service rates increased by an incumbent rural telecommunications carrier pursuant to Subsection D of this section shall be reviewed by the commission only upon written protest signed by two and one-half percent of all affected subscribers or upon the commission staff's own motion for good cause. The protest shall specifically set forth the particular rate or charge as to which review is requested, the reasons for the requested review and the relief that the persons protesting desire. If a proper protest is presented to the commission within sixty days from the date notice of the rate change was sent to affected subscribers of an incumbent rural telecommunications carrier, the commission may accept and file the complaint and, upon proper notice, may suspend the rates at issue during the pendency of the proceedings and reinstate the rates previously in effect and shall hold and complete a hearing thereon within ninety days after filing to determine if the rates as proposed are fair, just and reasonable. The commission may, within sixty days after close of the hearing, enter an order adjusting the rates at issue, except that the commission shall not set any rate below the intrastate cost of providing the service, which shall include the cost methodology and rate of return authorized by the federal communications commission. In the order, the commission may order a refund of amounts collected in excess of the rates and charges as approved at the hearing, which may be paid as a credit against billings for future services. If the complaint is denied, the commission shall enter an order denying the complaint within sixty days after the close of the hearing, and the rates shall be deemed approved. For purposes of this section, cost shall also include a reasonable amount of joint and common costs incurred by the telecommunications carrier in its operations and may include other accounting adjustments authorized by the commission.

F. An incumbent rural telecommunications carrier that serves less than five percent of the state's aggregate statewide subscriber lines may at any time elect to file an application with the commission requesting the commission to prescribe fair, just and reasonable rates for the carrier based on the carrier's revenue, expenses and investment in accordance with traditional rate-making principles.

G. Rates for local exchange, vertical and long distance service to retail end-user customers may be reduced to a level equal to, but not below, the intrastate cost, which shall include the cost methodology and rate of return authorized by the federal communications commission. If an incumbent rural telecommunications carrier loses its exemption pursuant to Section 251 of the federal act, the rate for a service, excluding basic service, must cover the cost of the service, including the imputed rate of wholesale service elements as may be required by the commission. The cost of long distance service must also include any interexchange access rates charged to another telecommunications carrier for the service.

H. An incumbent rural telecommunications carrier operating pursuant to this section shall have the ability to offer or discontinue offering special incentives, discounts, packaged offerings, temporary rate waivers or other promotions, or to offer individual contracts."

Section 4. Section 62-8-7.1 NMSA 1978 (being Laws 1985, Chapter 221, Section 3, as amended) is amended to read:

"62-8-7.1. HEARING PROCEDURES FOR CHANGE OF RATES OF SMALL WATER AND SEWER UTILITIES.--

A. Whenever there is filed with the commission any schedule proposing any new rates pursuant to Section 62-8-7 NMSA 1978 by any public utility as defined in Paragraph (3) or (5) of Subsection G of Section 62-3-3 NMSA 1978 with equal to or fewer than an aggregate of one thousand five hundred service connections in any utility operating district or division in New Mexico averaged over the previous three consecutive years, the rates shall become effective as proposed by the utility without a hearing; provided that the utility shall be required to give written notice of the proposed rates to the ratepayers receiving service from the utility at least sixty days prior to filing the proposed rate change with the commission; and provided further that the commission shall enter upon a hearing concerning the reasonableness of any proposed rates filed by such a utility pursuant to Subsections C and D of Section 62-8-7 NMSA 1978 when a rate increase would have the effect of increasing the rates fifty percent or more in a twelve-month period or upon the filing with the commission of a protest seeking review of the proposed rates signed by ten percent or more of the ratepayers or twenty-five ratepayers, whichever is more, receiving service from such a utility if the commission determines there is just cause for reviewing the proposed rates. For purposes of this section, a "service connection" means a metered hookup to the utility's water system or a sewer tap to the utility's wastewater system, and each person who receives a separate bill equals one ratepayer and each person who receives multiple bills equals one ratepayer. The petition shall be signed by the person in whose name service is carried. The petition shall be filed no later than twenty days after the filing with the commission of the schedule proposing the new rates. In all other respects, Section 62-8-7 NMSA 1978 shall apply to such water utilities. If a utility provides both water and sewer service, the service connection revenues attributable to the provision of water

service only shall determine whether the procedures specified in this subsection shall apply to a schedule proposing new rates for water service, and the service connection revenues attributable to the provision of sewer service shall determine whether the procedures specified in this subsection shall apply to a schedule proposing new rates for sewer service. Nothing in this subsection shall prevent a utility from filing for a rate change pursuant to any other rule or procedure of the commission.

B. Whenever there is filed with the commission a schedule proposing new rates pursuant to Section 62-8-7 NMSA 1978 by a public utility as defined in Paragraph (3) or (5) of Subsection G of Section 62-3-3 NMSA 1978, with more than an aggregate of one thousand five hundred service connections and fewer than an aggregate of five thousand service connections in any utility operating district or division in New Mexico averaged over the previous three consecutive years, the rates shall become effective as proposed by the public utility without a hearing; provided that the public utility shall be required to give written notice of the proposed rates to the ratepayers receiving service from the public utility at least sixty days prior to filing the proposed rate change with the commission; and provided further that the commission shall enter upon a hearing concerning the reasonableness of proposed rates filed by such a public utility pursuant to Subsections C and D of Section 62-8-7 NMSA 1978 when a rate increase would have the effect of increasing rates more than eight percent in a twelve-month period, or upon the commission staff's motion or upon the filing with the commission of a protest seeking review of the proposed rates signed by ten percent or more of the ratepayers receiving service from the public utility, if the commission determines there is just cause for reviewing the proposed rates. The petition shall be signed by the person in whose name service is carried. The petition shall be filed no later than twenty days after the filing with the commission of the schedule proposing the new rates. In all other respects, Section 62-8-7 NMSA 1978 shall apply to such water utilities. If a public utility provides both water and sewer service, the service connection revenues attributable to the provision of water service only shall determine whether the procedure specified in this subsection shall apply to a schedule proposing new rates for water service, and the service connection revenues attributable to the provision of sewer service shall determine whether the procedures specified in this subsection shall apply to a schedule proposing new rates for sewer service. Nothing in this subsection shall prevent a public utility from filing for a rate change pursuant to any other rule or procedure of the commission.

C. Notwithstanding the provisions of Subsections A and B of this section, a public utility as defined in Paragraph (3) or (5) of Subsection G of Section 62-3-3 NMSA 1978, with fewer than an aggregate of five thousand service connections in any utility operating district or division in New Mexico averaged over the previous three consecutive years, that is currently in good standing with all applicable requirements of the commission, may adjust its charges for commodity and service by up to two percent in any calendar year without a hearing; provided that the public utility shall not have changed its rates in the prior twelve-month period; and provided further that the public utility shall be required to give written notice of the proposed rate adjustments to the ratepayers receiving service from the public utility prior to its effective date. The

increased rates shall not become effective until at least thirty days after notice and filing with the commission. If a public utility provides both water and sewer service, the service connection revenues attributable to the provision of water service only shall determine whether the procedure specified in this subsection shall apply to any schedule proposing any new rate or rates for water service, and the service connection revenues attributable to the provision of sewer service shall determine whether the procedures specified in this subsection shall apply to any schedule proposing any new rate or rates for sewer service. Nothing in this subsection shall prevent a public utility from filing for a rate change pursuant to any other rule or procedure of the commission."

Chapter 339 Section 5 Laws 2005

Section 5. Section 62-8-8 NMSA 1978 (being Laws 1967, Chapter 96, Section 6, as amended) is amended to read:

"62-8-8. INSPECTION AND SUPERVISION FEE.--Each utility doing business in this state and subject to the control and jurisdiction of the commission with respect to its rates or service regulations shall pay annually to the state a fee for the inspection and supervision of such business in an amount equal to five hundred six thousandths percent of its gross receipts from business transacted in New Mexico for the preceding calendar year. That sum shall be payable on or before the first day of April in each year. An inspection and supervision fee shall be paid by utilities in addition to all property, franchise, license, intangible and other taxes, fees and charges provided by law. No similar inspection and supervision fee shall be measured by the amount of the gross receipts of such utility for the calendar year next preceding the date fixed in this section for the payment of the fee. In the case of utilities engaged in interstate business, the inspection and supervision fee shall be measured by the gross receipts of those utilities from intrastate business only for that preceding calendar year and not in any respect upon receipts derived wholly or in part from interstate business. No inspection and supervision fee shall be charged on the gross receipts from the sale of gas, water or electricity to a utility regulated by the commission for resale to the public."

Chapter 339 Section 6 Laws 2005

Section 6. Section 62-9-3 NMSA 1978 (being Laws 1971, Chapter 248, Section 1, as amended) is amended to read:

"62-9-3. LOCATION CONTROL--LIMITATIONS.--

A. The legislature finds that it is in the public interest to consider any adverse effect upon the environment and upon the quality of life of the people of the state that may occur due to plants, facilities and transmission lines needed to supply present and future electrical services. It is recognized that such plants, facilities and transmission lines will be needed to meet growing demands for electric services and cannot be built without in some way affecting the physical environment where these plants, facilities and transmission lines are located. The legislature therefore declares

that it is the purpose of this section to provide for the supervision and control by the commission of the location within this state of new plants, facilities and transmission lines for the generation and transmission of electricity for sale to the public.

B. A person, including any municipality, shall not begin the construction of any plant designed for or capable of operation at a capacity of three hundred thousand kilowatts or more for the generation of electricity for sale to the public within or without this state, whether or not owned or operated by a person that is a public utility subject to regulation by the commission, or of transmission lines in connection with such a plant, on a location within this state unless the location has been approved by the commission. For the purposes of this section, "transmission line" means any electric transmission line and associated facilities designed for or capable of operations at a nominal voltage of two hundred thirty kilovolts or more, to be constructed in connection with and to transmit electricity from a new plant for which approval is required.

C. Application for approval shall contain all information required by the commission to make its determination, be made in writing setting forth the facts involved and be filed with the commission. The commission shall, after a public hearing and upon notice as the commission may prescribe, act upon the application. The commission may condition its approval upon a demonstration by the applicant that it has received all necessary air and water quality permits.

D. Approval shall not be required for construction in progress on the effective date of this section or for additions to or modifications of an existing plant or transmission line.

E. The commission shall approve the application for the location of the generating plant unless the commission finds that the operations of the facilities for which approval is sought will not be in compliance with all applicable air and water pollution control standards and regulations existing or will unduly impair system reliability. The commission shall not require compliance with performance standards other than those established by the agency of this state having jurisdiction over a particular pollution source.

F. The commission shall approve the application for the location of the transmission lines unless the commission finds that the location will unduly impair important environmental values or the operation of the proposed transmission lines will unduly impair power system reliability.

G. An application shall not be approved pursuant to this section if it violates an existing state, county or municipal land use statutory or administrative regulation unless the commission finds that the regulation is unreasonably restrictive and compliance with the regulation is not in the interest of the public convenience and necessity, in which event and to the extent found by the commission the regulation shall be inapplicable and void as to the siting. When it becomes apparent to the commission that an issue exists with respect to whether a regulation is unreasonably restrictive and

compliance with the regulation is not in the interest of public convenience and necessity, it shall promptly serve notice of that fact by certified mail upon the agency, board or commission having jurisdiction for land use of the area affected and shall make the agency, board or commission a party to the proceedings upon its request and shall give it an opportunity to respond to the issue. The judgment of the commission shall be conclusive on all questions of siting, land use, aesthetics and any other state or local requirements affecting the siting.

H. Nothing in this section shall be deemed to confer upon the commission power or jurisdiction to regulate or supervise any person, including a municipality, that is not otherwise a public utility regulated and supervised by the commission, with respect to its rates and service and with respect to its securities, nor shall any other provision of the Public Utility Act be applicable with respect to such a person, including a municipality.

I. The commission shall issue its order granting or denying the application within six months from the date the application is filed with the commission. Failure to issue its order within six months is deemed to be approval of the application; provided, however, that the commission may extend the time for granting approval for a transmission line that is subject to this section for an additional ten months upon finding that the additional time is necessary to determine if the proposed location of the line will unduly impair important environmental values."

Chapter 339 Section 7 Laws 2005

Section 7. Section 63-7-20 NMSA 1978 (being Laws 1951, Chapter 194, Section 1, as amended) is amended to read:

"63-7-20. UTILITY AND CARRIER INSPECTION--FEE.--

A. Each utility and carrier doing business in this state which is subject to the control and jurisdiction of the commission by virtue of the provisions of Article 11 of the constitution of New Mexico with respect to its rates and service shall pay annually to the commission a fee in performance of its duties as now provided by law. The fee for carriers shall not exceed two hundred fifty-six thousandths percent of its gross receipts from business transacted in New Mexico for the preceding calendar year. The fee for utilities shall not exceed five hundred eleven thousandths percent of its gross receipts from business transacted in New Mexico for the preceding calendar year. This sum shall be payable annually on or before April 1 in each year. No similar fee shall be imposed upon the utility or carrier. In the case of utilities or carriers engaged in interstate business, the fees shall be measured by the gross receipts of the utilities or carriers from intrastate business only for the preceding calendar year and not in any respect upon receipts derived wholly or in part from interstate business. As used in this section, "utility" includes telephone companies and transmission companies but does not include public utilities subject to the Public Utility Act.

B. When a fee is not paid on the date it is due, interest shall be paid to the state on the amount due. The interest on the amount due shall start to accrue on the day following the due date and shall continue to accrue until the total amount due is paid. The rate of interest on a late fee payment shall be fifteen percent per year, computed at the rate of one and one-fourth percent per month.

C. In addition to any interest due on a late fee payment, a penalty shall be paid to the state for failure to pay the fee when it is due. The penalty imposed shall be two percent of the amount of the fee due.

D. The attorney general, in the name of the state, shall bring suit to collect fees, interest and penalties that remain unpaid."

LAWS 2005, CHAPTER 340

AN ACT

RELATING TO PUBLIC UTILITIES; PROVIDING FOR SIMULTANEOUS DETERMINATION OF RATEMAKING PRINCIPLES AND PUBLIC CONVENIENCE AND NECESSITY; AUTHORIZING UTILITIES TO FILE APPLICATIONS OF PUBLIC CONVENIENCE AND NECESSITY BEFORE FILING APPLICATIONS FOR LOCATION APPROVAL; ESTABLISHING FACTORS TO BE CONSIDERED WHEN APPROVING APPLICATIONS FOR LOCATION APPROVAL; PROVIDING DEADLINES FOR APPROVAL OF APPLICATIONS; ALLOWING APPROVAL OF APPLICATIONS WITHOUT A FORMAL HEARING; PRESCRIBING USE OF RATEMAKING PRINCIPLES AND TREATMENTS IN ALL PROCEEDINGS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 340 Section 1 Laws 2005

Section 1. Section 62-9-1 NMSA 1978 (being Laws 1941, Chapter 84, Section 46, as amended) is amended to read:

"62-9-1. NEW CONSTRUCTION--RATEMAKING PRINCIPLES.--

A. No public utility shall begin the construction or operation of any public utility plant or system or of any extension of any plant or system without first obtaining from the commission a certificate that public convenience and necessity require or will require such construction or operation. This section does not require a public utility to secure a certificate for an extension within any municipality or district within which it lawfully commenced operations before June 13, 1941 or for an extension within or to territory already served by it, necessary in the ordinary course of its business, or for an extension into territory contiguous to that already occupied by it and that is not receiving similar service from another utility. If any public utility or mutual domestic water consumer association in constructing or extending its line, plant or system unreasonably interferes or is about to unreasonably interfere with the service or system of any other public utility or mutual domestic water consumer association rendering the same type of service, the commission, on complaint of the public utility or mutual domestic water consumer association claiming to be injuriously affected, may, upon and pursuant to the applicable procedure provided in Chapter 62, Article 10 NMSA 1978, and after giving due regard to public convenience and necessity, including reasonable service agreements between the utilities, make an order and prescribe just and reasonable terms and conditions in harmony with the Public Utility Act to provide for the construction, development and extension, without unnecessary duplication and economic waste.

B. If a certificate of public convenience and necessity is required pursuant to this section for the construction or extension of a generating plant or transmission lines and associated facilities, a public utility may include in the application for the certificate a request that the commission determine the ratemaking principles and treatment that will be applicable for the facilities that are the subject of the application for the certificate. If such a request is made, the commission shall, in the order granting the certificate, set forth the ratemaking principles and treatment that will be applicable to the public utility's stake in the certified facilities in all ratemaking proceedings on and after such time as the facilities are placed in service. The commission shall use the ratemaking principles and treatment specified in the order in all proceedings in which the cost of the public utility's stake in the certified facilities is considered. If the commission later decertifies the facilities, the commission shall apply the ratemaking principles and treatment specified in the original certification order to the costs associated with the facilities that were incurred by the public utility prior to decertification.

C. The commission may approve the application for the certificate without a formal hearing if no protest is filed within sixty days of the date that notice is given, pursuant to commission order, that the application has been filed. The commission shall issue its order granting or denying the application within nine months from the date the application is filed with the commission. Failure to issue its order within nine months is deemed to be approval and final disposition of the application; provided, however, that

the commission may extend the time for granting approval for an additional six months for good cause shown.

D. As used in this section, "mutual domestic water consumer association" means an association created and organized pursuant to the provisions of:

(1) Laws 1947, Chapter 206; Laws 1949, Chapter 79; or Laws 1951, Chapter 52; or

(2) the Sanitary Projects Act."

Chapter 340 Section 2 Laws 2005

Section 2. Section 62-9-3 NMSA 1978 (being Laws 1971, Chapter 248, Section 1, as amended) is amended to read:

"62-9-3. LOCATION CONTROL--LIMITATIONS.--

A. The legislature finds that it is in the public interest to consider any adverse effect upon the environment and upon the quality of life of the people of the state that may occur due to plants, facilities and transmission lines needed to supply present and future electrical services. It is recognized that such plants, lines and facilities will be needed to meet growing demands for electric services and cannot be built without in some way affecting the physical environment where these plants, facilities and transmission lines are located. The legislature therefore declares that it is the purpose of this section to provide for the supervision and control by the commission of the location within this state of new plants, facilities and transmission lines for the generation and transmission of electricity for sale to the public.

B. No person, including any municipality, shall begin the construction of any plant designed for or capable of operation at a capacity of three hundred thousand kilowatts or more for the generation of electricity for sale to the public within or without this state, whether or not owned or operated by a person that is a public utility subject to regulation by the commission, or of transmission lines in connection with such a plant, on a location within this state unless the location has been approved by the commission. For the purposes of this section, "transmission line" means any electric transmission line and associated facilities designed for or capable of operations at a nominal voltage of two hundred thirty kilovolts or more, to be constructed in connection with and to transmit electricity from a new plant for which approval is required.

C. Application for approval shall contain all information required by the commission to make its determination, be made in writing setting forth the facts involved and be filed with the commission. The commission shall, after a public hearing and upon notice as the commission may prescribe, act upon the application. The commission may condition its approval upon a demonstration by the applicant that it has received all necessary air and water quality permits. A public utility regulated by the commission

may submit an application pursuant to Section 62-9-1 NMSA 1978 for a certificate of public convenience and necessity prior to filing an application for location approval pursuant to this section in order to determine the need for the generating plant or transmission line prior to determination of the appropriate location.

D. No approval shall be required for additions to or modifications of an existing plant or transmission line.

E. The commission shall approve the application for the location of the generating plant unless the commission finds that the operations of the facilities for which approval is sought will not be in compliance with all applicable air and water pollution control standards and regulations existing. The commission shall not require compliance with performance standards other than those established by the agency of this state having jurisdiction over a particular pollution source.

F. The commission shall approve the application for the location of the transmission lines unless the commission finds that the location will unduly impair important environmental values.

G. No application shall be approved pursuant to this section that violates an existing state, county or municipal land use statutory or administrative regulation unless the commission finds that the regulation is unreasonably restrictive and compliance with the regulation is not in the interest of the public convenience and necessity, in which event and to the extent found by the commission the regulation shall be inapplicable and void as to the siting. When it becomes apparent to the commission that an issue exists with respect to whether a regulation is unreasonably restrictive and compliance with the regulation is not in the interest of public convenience and necessity, it shall promptly serve notice of that fact by certified mail upon the agency, board or commission having jurisdiction for land use of the area affected and shall make the agency, board or commission a party to the proceedings upon its request and shall give it an opportunity to respond to the issue. The judgment of the commission shall be conclusive on all questions of siting, land use, aesthetics and any other state or local requirements affecting the siting.

H. A public utility subject to the jurisdiction of the commission may elect to file an application pursuant to this section with the commission for location approval of an electric transmission line or associated facilities designed for or capable of operation at a nominal voltage of one hundred fifteen kilovolts or more but less than two hundred thirty kilovolts if:

(1) the public utility files an application for construction, extension, rebuilding or improvement of the electric transmission line or associated equipment under any applicable county or municipal land use statute, ordinance or administrative regulation; and

(2) the agency, board or commission of the county or municipality disapproves the application. For purposes of this subsection, "disapprove" means the failure of the county or municipal agency, board or commission to issue a final order approving the application within two hundred forty days of the public utility's filing of a complete application with the agency, board or commission. An application shall be deemed complete if within fifteen working days of the public utility's filing of the application, or a supplement or amendment thereto, the agency, board or commission fails to send written notice to the public utility enumerating the specific requirements under the applicable county or municipal land use statute, ordinance or administrative regulation that the application fails to satisfy.

I. Upon consideration of the application and the standards set forth in Subsection G of this section, the commission may authorize construction, extension, rebuilding or improvement of the transmission line or facilities notwithstanding the prior disapproval of the county or municipal agency, board or commission. The judgment of the commission shall be conclusive on all questions of siting, land use, aesthetics and any other state or local requirements affecting the siting.

J. Nothing in this section shall be deemed to confer upon the commission power or jurisdiction to regulate or supervise any person, including a municipality, that is not otherwise a public utility regulated and supervised by the commission, with respect to its rates and service and with respect to its securities, nor shall any other provision of the Public Utility Act be applicable with respect to such a person, including a municipality.

K. The commission may approve an application filed pursuant to this section without a formal hearing if no protest is filed within sixty days of the date that notice is given that the application has been filed. The commission shall issue its order granting or denying the application within six months from the date the application is filed with the commission; provided, however, that:

(1) if a public utility simultaneously files an application for approval of location of a transmission line pursuant to this section and an application for a certificate of public convenience and necessity pursuant to Subsection B of Section 62-9-1 NMSA 1978, the commission shall issue its order granting or denying the applications within nine months from the date the applications are filed with the commission; provided, however, that the commission may extend the time for granting approval an additional six months for good cause shown;

(2) if a public utility files an application for approval of location of a transmission line pursuant to this section after its application for a certificate of public convenience and necessity has been approved pursuant to Subsection B of Section 62-9-1 NMSA 1978, the commission shall issue its order granting or denying the application for approval of location of a transmission line within ninety days from the date the application is filed with the commission; and

(3) if a public utility files an application for approval of location of a transmission line pursuant to this section while its application for a certificate of public convenience and necessity is pending pursuant to Subsection B of Section 62-9-1 NMSA 1978, and the application for a certificate is subsequently approved, the commission shall issue its order granting or denying the application for approval of location of a transmission line within ninety days from the date the application for certificate of public convenience and necessity is approved.

L. Failure to issue its order approving or denying an application filed pursuant to this section within the time periods set forth in Subsection J of this section is deemed to be approval of the application; provided, however, that the commission may extend the time for granting approval for a transmission line that is subject to this section for an additional nine months upon finding that the additional time is necessary to determine if the proposed location of the line will unduly impair important environmental values.

M. In determining if the proposed location of the transmission line will unduly impair important environmental values, the commission may consider the following factors;

(1) existing plans of the state, local government and private entities for other developments at or in the vicinity of the proposed location;

(2) fish, wildlife and plant life;

(3) noise emission levels and interference with communication signals;

(4) the proposed availability of the location to the public for recreational purposes, consistent with safety considerations and regulations;

(5) existing scenic areas, historic, cultural or religious sites and structures or archaeological sites at or in the vicinity of the proposed location; and

(6) additional factors that require consideration under applicable federal and state laws pertaining to the location."

LAWS 2005, CHAPTER 341

AN ACT

RELATING TO PUBLIC UTILITIES; ENACTING THE EFFICIENT USE OF ENERGY ACT; PROVIDING FOR EXPENDITURES FOR ENERGY EFFICIENCY AND LOAD MANAGEMENT BY PUBLIC UTILITIES; AMENDING THE PUBLIC UTILITY ACT; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 341 Section 1 Laws 2005

Section 1. SHORT TITLE.--Sections 1 through 11 of this act may be cited as the "Efficient Use of Energy Act".

Chapter 341 Section 2 Laws 2005

Section 2. FINDINGS.--The legislature finds that:

A. energy efficiency and load management are cost-effective resources that are an essential component of the balanced resource portfolio that public utilities must achieve to provide affordable and reliable energy to public utility consumers;

B. energy efficiency and load management in New Mexico are resources that are currently underutilized;

C. public and municipal utility investment in energy efficiency and load management presents opportunities to increase New Mexico's energy security, protect New Mexico energy consumers from price increases, preserve the state's natural resources and pursue an improved environment in New Mexico;

D. investment in energy efficiency and load management by public utilities subject to public regulation commission oversight in accordance with the Efficient Use of Energy Act can bring significant economic benefits to New Mexico;

E. it serves the public interest to support public utility investments in cost-effective energy efficiency and load management by removing any regulatory disincentives that may exist and allowing recovery of costs for reasonable and prudently incurred expenses of energy efficiency and load management programs;

F. investments in energy efficiency and implementation of utility energy efficiency programs for economically disadvantaged New Mexicans, in conjunction with

low-income weatherization programs managed by the state of New Mexico, will reduce the burden of utility costs on

low-income customers;

G. public utility investments in cost-effective energy efficiency and load management can provide significant reductions in greenhouse gas emissions, regulated air emissions, water consumption and natural resource depletion, and can avoid or delay the need for more expensive generation, transmission and distribution infrastructure;

H. New Mexico should participate in regional efforts to reduce energy consumption by twenty percent by 2020 through programs to reduce energy consumption;

I. public utility resource planning to meet New Mexico's energy service needs should be identified and evaluated on an ongoing basis in accordance with the principles of integrated resource planning; and

J. it is necessary and appropriate to allow distribution cooperative utilities to participate in the implementation of energy efficiency programs in ways that differ from rules applicable to public utilities that are not customer owned.

Chapter 341 Section 3 Laws 2005

Section 3. POLICY.--It is the policy of the Efficient Use of Energy Act that public utilities, distribution cooperative utilities and municipal utilities include cost-effective energy efficiency and load management investments in their energy resource portfolios and that any regulatory disincentives that may exist to public utility investments in cost-effective energy efficiency and load management are eliminated.

Chapter 341 Section 4 Laws 2005

Section 4. DEFINITIONS.--As used in the Efficient Use of Energy Act:

A. "commission" means the public regulation commission;

B. "cost-effective" means that the program being evaluated satisfies the total resource cost test;

C. "distribution cooperative utility" means a utility with distribution facilities organized as a rural electric cooperative pursuant to Laws 1937, Chapter 100 or the Rural Electric Cooperative Act or similarly organized in other states;

D. "energy efficiency" means measures, including energy conservation measures, or programs that target consumer behavior, equipment or devices to result in

a decrease in consumption of electricity and natural gas without reducing the amount or quality of energy services;

E. "large customer" means a utility customer at a single, contiguous field, location or facility, regardless of the number of meters at that field, location or facility, with electricity consumption greater than seven thousand megawatt-hours per year or natural gas use greater than three hundred sixty thousand decatherms per year;

F. "load management" means measures or programs that target equipment or devices to result in decrease peak electricity demand or shift demand from peak to off-peak periods;

G. "public utility" means a public utility that is not also a distribution cooperative utility; and

H. "total resource cost test" means a standard that is met if, for an investment in energy efficiency or load management, on a life-cycle basis the avoided supply-side monetary costs are greater than the monetary costs of the demand-side programs borne by both the utility and the participants.

Chapter 341 Section 5 Laws 2005

Section 5. COMMISSION--ENERGY EFFICIENCY AND LOAD MANAGEMENT PROGRAMS.--

A. Pursuant to the findings and purpose of the Efficient Use of Energy Act, the commission shall consider public utility investments in cost-effective energy efficiency and load management to be an acceptable use of ratepayer money.

B. The commission shall direct public utilities to evaluate and implement cost-effective programs that reduce energy demand and consumption.

C. Before the commission approves an energy efficiency and load management program for a public utility, it must find that the portfolio of programs is cost-effective and designed to provide every affected customer class with the opportunity to participate and benefit economically. The commission shall determine the cost-effectiveness of energy efficiency and load management measures using the total resource cost test.

D. The commission shall act expeditiously on public utility requests for approval of energy efficiency or load management programs.

E. Public utilities shall obtain commission approval of energy efficiency and load management programs before they are implemented. Public utilities proposing new energy efficiency and load management programs shall, before seeking commission approval, solicit non-binding recommendations on the design and

implementation of the programs from commission staff, the attorney general, the energy, minerals and natural resources department and other interested parties.

F. The commission shall identify any disincentives or barriers that may exist for public utility expenditures on energy efficiency and load management and, if found, ensure that they are eliminated in order that public utilities are financially neutral in their preference for acquiring demand or supply-side utility resources.

Chapter 341 Section 6 Laws 2005

Section 6. COST RECOVERY.--

A. A public utility that undertakes cost-effective energy efficiency and load management programs shall recover the costs of all the programs implemented after the effective date of the Efficient Use of Energy Act through an approved tariff rider. Program costs may be deferred for future recovery through creation of a regulatory asset, provided that the deferred recovery does not cause the tariff rider to exceed the limits imposed by this section. The tariff rider for any utility customer shall not exceed the lower of one and one-half percent of that customer's bill or seventy-five thousand dollars (\$75,000) per year except that, upon application by a public utility with the advice and consent of the entity designated by law to represent residential and commercial utility customers, the commission may approve a tariff rider in excess of one and one-half percent for customers other than large customers and may approve a tariff rider in excess of the lower of one and one-half percent or seventy-five thousand dollars (\$75,000) per year for a large customer that consents to such a rider. The commission shall approve such applications upon finding that the proposed energy efficiency and load management programs are cost-effective and that the cost recovery proposal is just and reasonable.

B. The tariff rider shall provide for the recovery, on a monthly basis or otherwise, of all reasonable costs of approved energy efficiency and load management programs.

C. A tariff rider proposed by a public utility to fund approved energy efficiency and load management programs shall go into effect thirty days after filing, unless suspended by the commission for a period not to exceed one hundred eighty days. If the tariff rider is not approved or suspended within thirty days after filing, it shall be deemed approved as a matter of law. If the commission has not acted to approve or disapprove the tariff rider by the end of an ordered suspension period, it shall be deemed approved as a matter of law. The commission shall approve utility reconciliations of the tariff rider annually based upon recovery of the reasonable costs of the utility's programs.

D. The commission shall ensure that there are no cross-subsidies between a public utility's energy efficiency and load management activities and the

public utility's supply-side activities and shall ensure that the existence of a tariff rider does not permit a public utility to earn an excessive rate of return.

Chapter 341 Section 7 Laws 2005

Section 7. ALTERNATIVE ENERGY EFFICIENCY PROVIDER.--With a public utility's consent, the commission may allow for an alternative entity to provide ratepayer-funded energy efficiency and load management to customers of that public utility.

Chapter 341 Section 8 Laws 2005

Section 8. MEASUREMENT AND VERIFICATION.--The public utility shall submit to the commission an annual report, prepared by an independent program evaluator, that provides information relating to the actions taken by the public utility to comply with the standards of the Efficient Use of Energy Act. The reports shall include documentation of program expenditures, measurement and verification of savings resulting from programs, evaluation of the cost-effectiveness of expenditures, evaluation of the cost-effectiveness of self-direct programs and any other information the commission may require pursuant to its rulemaking authority. The commission may direct a utility to modify or terminate a particular energy efficiency or load management program if, after an adequate period for implementation of the program, the commission determines the program is not sufficiently meeting its goals and purposes. Termination of a program or programs shall be accomplished in a manner that allows the utility to fully recover its reasonable and prudent program costs.

Chapter 341 Section 9 Laws 2005

Section 9. SELF-DIRECTED PROGRAMS FOR CUSTOMERS--EXEMPTIONS.-

A. A large customer shall receive approval for a credit for and equal to the expenditures that customer has made at its facilities on and after January 1, 2005 toward cost-effective energy efficiency and load management. To receive approval, the large customer must demonstrate to the reasonable satisfaction of the utility or self-direct program administrator that its expenditures are cost-effective. Once approved, the credit may be used to offset up to seventy percent of the tariff rider authorized by the Efficient Use of Energy Act until the credit is exhausted. Eligible expenditures shall have a simple payback period of more than one year but less than seven years. Projects that have received rebates, financial support or other substantial program support from a utility are not eligible for a credit.

B. A large customer shall receive approval for an exemption to paying seventy percent of the tariff rider if the customer demonstrates to the reasonable satisfaction of the utility or self-direct program administrator that it has exhausted all cost-effective energy efficiency measures at its facility. As used in this section, "cost-

effective" means all measures with a simple payback period of more than one year but less than seven years.

C. Large customers shall seek and receive approval for credits and exemptions under this provision from the utility or a commission-approved self-direct program administrator. Approvals or disapprovals by the utility or administrator shall be subject to commission review. Any credit not fully utilized in the year it is received shall carry over to subsequent years. Implementation of credits shall be designed to minimize utility administrative costs.

D. Except as otherwise provided in this section, projects, expenditures and exemptions under this section shall be evaluated by an independent program evaluator using the same measurement and verification standards applying to utility programs, subject to appropriate protections for confidentiality, by the utility or a commission-approved self-direct program administrator and reported in the annual report to the commission pursuant to the Efficient Use of Energy Act.

Chapter 341 Section 10 Laws 2005

Section 10. INTEGRATED RESOURCE PLANNING.--Pursuant to the commission's rulemaking authority, public utilities supplying electric or natural gas service to customers shall periodically file an integrated resource plan with the commission. Utility integrated resource plans shall evaluate renewable energy, energy efficiency, load management, distributed generation and conventional supply-side resources on a consistent and comparable basis and take into consideration risk and uncertainty of fuel supply, price volatility and costs of anticipated environmental regulations in order to identify the most cost-effective portfolio of resources to supply the energy needs of customers. The preparation of resource plans shall incorporate a public advisory process. Nothing in this section shall prohibit public utilities from implementing cost-effective energy efficiency and load management programs and the commission from approving public utility expenditures on energy efficiency programs and load management programs prior to the commission establishing rules and guidelines for integrated resource planning. The commission may exempt public utilities with fewer than five thousand customers and distribution-only public utilities from the requirements of this section. The commission shall take into account a public utility's resource planning requirements in other states and shall authorize utilities that operate in multiple states to implement plans that coordinate the applicable state resource planning requirements. The requirements of this section shall take effect one year following the commission's adoption of rules implementing the provisions of this section.

Chapter 341 Section 11 Laws 2005

Section 11. DISTRIBUTION COOPERATIVE UTILITIES.--

A. Distribution cooperative utilities shall periodically examine the potential to assist their customers in reducing energy consumption or peak electricity demand in

a cost-effective manner.
