(1) the New Mexico national guard has a proud tradition of military service with thousands of New Mexicans having answered the call of the nation and served in the national guard;

B. The purpose of creating and funding the service members' life insurance reimbursement fund is to provide a benefit to members of the New Mexico national guard in exchange for and in recognition of their assumption of extended periods of active duty in combat areas, in addition to their increased contributions to the safety and welfare of the citizens of the state of New Mexico.

AN ACT

RELATING TO UNEMPLOYMENT COMPENSATION; AMENDING PROVISIONS OF THE UNEMPLOYMENT COMPENSATION LAW TO INCREASE AND EXTEND BENEFITS, DECREASE EMPLOYERS' CONTRIBUTIONS AND ELIMINATE CERTAIN RESTRICTIONS ON ELIGIBILITY FOR BENEFITS; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 3 Section 1 Laws 2005

Section 1. Section 51-1-4 NMSA 1978 (being Laws 2003, Chapter 47, Section 8) is amended to read:

"51-1-4. MONETARY COMPUTATION OF BENEFITS--PAYMENT GENERALLY.--

A. All benefits provided herein are payable from the unemployment compensation fund. All benefits shall be paid in accordance with rules prescribed by the secretary through employment offices or other agencies as the secretary approves by general rule.

B. Weekly benefits shall be as follows:

(1) an individual's "weekly benefit amount" is an amount equal to fifty-two and one-half percent of the average weekly wage for insured work paid to the individual in that quarter of the individual's base period in which total wages were highest. No benefit as so computed may be less than ten percent or more than fifty-two and one-half percent of the state's average weekly wage for all insured work. The state's average weekly wage shall be computed from all wages reported to the department from employing units in accordance with rules of the secretary for the period ending June 30 of each calendar year divided by the total number of covered employees divided by fifty-two, effective for the benefit years commencing on or after the first Sunday of the following calendar year. An individual is not eligible to receive benefits unless the individual has wages in at least two quarters of that individual's base period. For the purposes of this subsection, "total wages" means all remuneration for insured work, including commissions and bonuses and the cash value of all remuneration in a medium other than cash;

(2) an eligible individual who is unemployed in any week during which the individual is in a continued claims status shall be paid, with respect to the week, a benefit in an amount equal to the individual's weekly benefit amount, less that part of the wages, if any, or earnings from self-employment, payable to the individual with respect to such week that is in excess of one-fifth of the individual's weekly benefit amount. For purposes of this subsection only, "wages" includes all remuneration for services actually performed in a week for which benefits are claimed, vacation pay for a period for which the individual has a definite return-to-work date, wages in lieu of notice and back pay for loss of employment but does not include payments through a court for time spent in jury service;

(3) notwithstanding any other provision of this section, an eligible individual who, pursuant to a plan financed in whole or in part by a base-period employer of the individual, is receiving a governmental or other pension, retirement pay, annuity or any other similar periodic payment that is based on the previous work of the individual and who is unemployed with respect to any week ending subsequent to April 9, 1981 shall be paid with respect to the week, in accordance with rules prescribed by the secretary, compensation equal to the individual's weekly benefit amount reduced, but not below zero, by the prorated amount of the pension, retirement pay, annuity or other similar periodic payment that exceeds the percentage contributed to the plan by the eligible individual. The maximum benefit amount payable to the eligible individual shall be an amount not more than twenty-six times the individual's reduced weekly benefit amount. If payments referred to in this section are being received by an

individual under the federal Social Security Act, the division shall take into account the individual's contribution and make no reduction in the weekly benefit amount;

(4) in the case of a lump-sum payment of a pension, retirement or retired pay, annuity or other similar payment by a base-period employer that is based on the previous work of the individual, the payment shall be allocated, in accordance with rules prescribed by the secretary, and shall reduce the amount of unemployment compensation paid, but not below zero, in accordance with Paragraph (3) of this subsection; and

(5) the retroactive payment of a pension, retirement or retired pay, annuity or any other similar periodic payment as provided in Paragraphs (3) and (4) of this subsection attributable to weeks during which an individual has claimed or has been paid unemployment compensation shall be allocated to those weeks and shall reduce the amount of unemployment compensation for those weeks, but not below zero, by an amount equal to the prorated amount of the pension. Any overpayment of unemployment compensation benefits resulting from the application of the provisions of this paragraph shall be recovered from the claimant in accordance with the provisions of Section 51-1-38 NMSA 1978.

C. An individual otherwise eligible for benefits shall be paid for each week of unemployment, in addition to the amount payable under Subsection B of this section, the sum of fifteen dollars (\$15.00) for each unemancipated child, up to a maximum of four and subject to the maximum stated in Subsection D of this section, of the individual who is in fact dependent upon and wholly or mainly supported by the individual and is:

(1) under the age of eighteen;

(2) under the age of eighteen and in the individual's custody pending the adjudication of a petition filed by the individual for the adoption of the child in a court of competent jurisdiction; or

(3) under the age of eighteen and for whom the individual is under a decree or order from a court of competent jurisdiction required to contribute to the child's support and for whom no other person is receiving allowances under the Unemployment Compensation Law if the child is domiciled within the United States or its territories or possessions, the payment to be withheld and paid pursuant to Section 51-1-37.1 NMSA 1978.

D. Dependency benefits shall not exceed fifty percent of the individual's weekly benefit rate. The amount of dependency benefits determined as of the beginning of an individual's benefit year shall not be reduced for the duration of the benefit year, but this provision does not prevent the transfer of dependents' benefits from one spouse to another in accordance with this subsection. If both the husband and wife receive benefits with respect to a week of unemployment, only one of them is entitled to a dependency allowance with respect to a child. The division shall prescribe standards as

to who may receive a dependency allowance when both the husband and wife are eligible to receive unemployment compensation benefits. Dependency benefits shall not be paid unless the individual submits documentation satisfactory to the division establishing the existence of the claimed dependent. If the provisions of this subsection are satisfied, an otherwise eligible individual who has been appointed guardian of a dependent child by a court of competent jurisdiction shall be paid dependency benefits.

E. An otherwise eligible individual is entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of twenty-six times the individual's weekly benefit amount, plus any dependency benefit amount pursuant to Subsections C and D of this section, or sixty percent of the individual's wages for insured work paid during the individual's base period.

F. A benefit as determined in Subsection B or C of this section, if not a multiple of one dollar (\$1.00), shall be rounded to the next lower multiple of one dollar (\$1.00).

G. The secretary may prescribe rules to provide for the payment of benefits that are due and payable to the legal representative, dependents, relatives or next of kin of claimants since deceased. These rules need not conform with the laws governing successions, and the payment shall be deemed a valid payment to the same extent as if made under a formal administration of the succession of the claimant.

H. The division, on its own initiative, may reconsider a monetary determination whenever it is determined that an error in computation or identity has occurred or that wages of the claimant pertinent to such determination but not considered have been newly discovered or that the benefits have been allowed or denied on the basis of misrepresentation of fact, but no redetermination shall be made after one year from the date of the original monetary determination. Notice of a redetermination shall be given to all interested parties and shall be subject to an appeal in the same manner as the original determination. In the event that an appeal involving an original monetary determination is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from redetermination."

Chapter 3 Section 2 Laws 2005

Section 2. Section 51-1-5 NMSA 1978 (being Laws 2003, Chapter 47, Section 9) is amended to read:

"51-1-5. BENEFIT ELIGIBILITY CONDITIONS.--

A. An unemployed individual shall be eligible to receive benefits with respect to any week only if the individual:

(1) has made a claim for benefits with respect to such week in accordance with such rules as the secretary may prescribe;

(2) has registered for work at, and thereafter continued to report at, an employment office in accordance with such rules as the secretary may prescribe, except that the secretary may, by rule, waive or alter either or both of the requirements of this paragraph as to individuals attached to regular jobs and as to such other types of cases or situations with respect to which the secretary finds that compliance with such requirements would be oppressive or would be inconsistent with the purposes of the Unemployment Compensation Law. No such rule shall conflict with Subsection A of Section 51-1-4 NMSA 1978;

(3) is able to work and is available for work and is actively seeking permanent full-time work or part-time work in accordance with Subsection I of Section 51-1-42 NMSA 1978 and in accordance with the terms, conditions and hours common in the occupation or business in which the individual is seeking work, except that the secretary may, by rule, waive this requirement for individuals who are on temporary layoff status from their regular employment with an assurance from their employers that the layoff shall not exceed four weeks or who have an express offer in writing of substantially full-time work that will begin within a period not exceeding four weeks;

(4) has been unemployed for a waiting period of one week. A week shall not be counted as a week of unemployment for the purposes of this paragraph:

(a) unless it occurs within the benefit year that includes the week with respect to which the individual claims payment of benefits;

(b) if benefits have been paid with respect thereto; and

(c) unless the individual was eligible for benefits with respect thereto as provided in this section and Section 51-1-7 NMSA 1978, except for the requirements of this subsection and of Subsection D of Section 51-1-7 NMSA 1978;

(5) has been paid wages in at least two quarters of the individual's base period;

(6) has reported to an office of the division in accordance with the rules of the secretary for the purpose of an examination and review of the individual's availability for and search for work, for employment counseling, referral and placement and for participation in a job finding or employability training and development program. An individual shall not be denied benefits under this section for any week that the individual is participating in a job finding or employability training and development program; and

(7) participates in reemployment services, such as job search assistance services, if the division determines that the individual is likely to exhaust regular benefits and need reemployment services pursuant to a profiling system established by the division, unless the division determines that:

(a) the individual has completed such services; or

(b) there is justifiable cause for the individual's failure to participate in the services.

B. A benefit year as provided in Section 51-1-4 NMSA 1978 and Subsection P of Section 51-1-42 NMSA 1978 may be established; provided an individual may not receive benefits in a benefit year unless, subsequent to the beginning of the immediately preceding benefit year during which the individual received benefits, the individual performed service in "employment", as defined in Subsection F of Section 51-1-42 NMSA 1978, and earned remuneration for such service in an amount equal to at least five times the individual's weekly benefit amount.

C. Benefits based on service in employment defined in Paragraph (8) of Subsection F of Section 51-1-42 and Section 51-1-43 NMSA 1978 are to be paid in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other services subject to the Unemployment Compensation Law; except that:

(1) benefits based on services performed in an instructional, research or principal administrative capacity for an educational institution shall not be paid for any week of unemployment commencing during the period between two successive academic years or terms or, when an agreement provides for a similar period between two regular but not successive terms, during such period or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if the individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that the individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) benefits based on services performed for an educational institution other than in an instructional, research or principal administrative capacity shall not be paid for any week of unemployment commencing during a period between two successive academic years or terms if the services are performed in the first of such academic years or terms and there is a reasonable assurance that the individual will perform services for any educational institution in the second of such academic years or terms. If compensation is denied to an individual under this paragraph and the individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a claim and certified for benefits in accordance with the rules of the division and for which benefits were denied solely by reason of this paragraph;

(3) benefits shall be denied to any individual for any week that commences during an established and customary vacation period or holiday recess if the individual performs any services described in Paragraphs (1) and (2) of this

subsection in the period immediately before such period of vacation or holiday recess and there is a reasonable assurance that the individual will perform any such services in the period immediately following such vacation period or holiday recess;

(4) benefits shall not be payable on the basis of services specified in Paragraphs (1) and (2) of this subsection during the periods specified in Paragraphs (1), (2) and (3) of this subsection to any individual who performed such services in or to or on behalf of an educational institution while in the employ of a state or local governmental educational service agency or other governmental entity or nonprofit organization; and

(5) for the purpose of this subsection, to the extent permitted by federal law, "reasonable assurance" means a reasonable expectation of employment in a similar capacity in the second of such academic years or terms based upon a consideration of all relevant factors, including the historical pattern of reemployment in such capacity, a reasonable anticipation that such employment will be available and a reasonable notice or understanding that the individual will be eligible for and offered employment in a similar capacity.

D. Paragraphs (1), (2), (3), (4) and (5) of Subsection C of this section shall apply to services performed for all educational institutions, public or private, for profit or nonprofit, which are operated in this state or subject to an agreement for coverage under the Unemployment Compensation Law of this state, unless otherwise exempt by law.

E. Notwithstanding any other provisions of this section or Section 51-1-7 NMSA 1978, no otherwise eligible individual is to be denied benefits for any week because the individual is in training or attending school on a full-time basis with the approval of the division nor is the individual to be denied benefits by reason of application of provisions in Paragraph (3) of Subsection A of this section or Paragraph (3) of Subsection A of Section 51-1-7 NMSA 1978 with respect to any week in which the individual is in training or attending school on a full-time basis with the approval of the division. The secretary shall provide, by rule, standards for approved training and the conditions for approving training for claimants, including any training approved or authorized for approval pursuant to Section 236(a)(1) and (2) of the Trade Act of 1974, as amended, or required to be approved as a condition for certification of the state's Unemployment Compensation Law by the United States secretary of labor.

F. Notwithstanding any other provisions of this section, benefits shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for the purposes of performing the services or was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act; provided that:

(1) any information required of individuals applying for benefits to determine their eligibility for benefits under this subsection shall be uniformly required from all applicants for benefits; and

(2) an individual shall not be denied benefits because of the individual's alien status except upon a preponderance of the evidence.

G. Notwithstanding any other provision of this section, benefits shall not be paid to any individual on the basis of any services substantially all of which consist of participating in sports or athletic events or training or preparing to so participate for any week that commences during the period between two successive sport seasons, or similar periods, if the individual performed the services in the first of such seasons, or similar periods, and there is a reasonable assurance that the individual will perform the services in the latter of such seasons or similar periods.

H. As used in this subsection, "seasonal ski employee" means an employee who has not worked for a ski area operator for more than six consecutive months of the previous twelve months or nine of the previous twelve months. An employee of a ski area operator who has worked for a ski area operator for six consecutive months of the previous twelve months or nine of the previous twelve months shall not be considered a seasonal ski employee. The following benefit eligibility conditions apply to a seasonal ski employee:

(1) except as provided in Paragraphs (2) and (3) of this subsection, a seasonal ski employee employed by a ski area operator on a regular seasonal basis shall be ineligible for a week of unemployment benefits that commences during a period between two successive ski seasons unless the individual establishes to the satisfaction of the secretary that the individual is available for and is making an active search for permanent full-time work;

(2) a seasonal ski employee who has been employed by a ski area operator during two successive ski seasons shall be presumed to be unavailable for permanent new work during a period after the second successive ski season that the individual was employed as a seasonal ski employee; and

(3) the presumption described in Paragraph (2) of this subsection shall not arise as to any seasonal ski employee who has been employed by the same ski area operator during two successive ski seasons and has resided continuously for at least twelve successive months and continues to reside in the county in which the ski area facility is located.

I. Notwithstanding any other provision of this section, an otherwise eligible individual shall not be denied benefits for any week by reason of the application of Paragraph (3) of Subsection A of this section because the individual is before any court of the United States or any state pursuant to a lawfully issued summons to appear for jury duty."

Chapter 3 Section 3 Laws 2005

Section 3. Section 51-1-7 NMSA 1978 (being Laws 2003, Chapter 47, Section 10) is amended to read:

"51-1-7. DISQUALIFICATION FOR BENEFITS.--

A. An individual shall be disqualified for and shall not be eligible to receive benefits:

(1) if it is determined by the division that the individual left employment voluntarily without good cause in connection with the employment. No individual shall receive benefits until the division has contacted the former employer and determined whether the individual left the employment voluntarily; provided, however, that a person shall not be denied benefits under this paragraph:

(a) solely on the basis of pregnancy or the termination of pregnancy; or

(b) because of domestic abuse evidenced by medical documentation, legal documentation or a sworn statement from the claimant;

(2) if it is determined by the division that the individual has been discharged for misconduct connected with the individual's employment; or

(3) if it is determined by the division that the individual has failed without good cause either to apply for available, suitable work when so directed or referred by the division or to accept suitable work when offered.

B. In determining whether or not any work is suitable for an individual pursuant to Paragraph (3) of Subsection A of this section, the division shall consider the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness, prior training, approved training or full-time school attendance, experience, prior earnings, length of unemployment and prospects for securing local work in the individual's customary occupation and the distance of available work from the individual's residence. Notwithstanding any other provisions of the Unemployment Compensation Law, no work shall be deemed suitable and benefits shall not be denied under the Unemployment Compensation Law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) if the position offered is vacant due directly to a strike, lockout or other labor dispute;

(2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) if, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organizations.

C. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which the division finds that the individual's unemployment is due to a labor dispute at the factory, establishment or other premises at which the individual is or was last employed; provided that this subsection shall not apply if it is shown to the satisfaction of the division that:

(1) the individual is not participating in or directly interested in the labor dispute; and

(2) the individual does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises at which the labor dispute occurs, any of whom are participating in or directly interested in the dispute; provided that if in any case separate branches of work that are commonly conducted in separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises.

D. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which, or a part of which, the individual has received or is seeking, through any agency other than the division, unemployment benefits under an unemployment compensation law of another state or of the United States; provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

E. A disqualification pursuant to Paragraph (1) or (2) of Subsection A of this section shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit otherwise payable. A disqualification pursuant to Paragraph (3) of Subsection A of this section shall include the week the failure occurred and shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit amount otherwise payable; provided that no more than one such disqualification shall be imposed upon an individual for failure to apply for or accept the same position, or a similar position, with the same employer, except upon a determination by the division of disqualification pursuant to Subsection C of this section.

F. As used in this section:

(1) "domestic abuse" means that term as defined in Section 40-13-2 NMSA 1978; and

(2) "employment" means employment by the individual's last employer as defined by rules of the secretary."

Chapter 3 Section 4 Laws 2005

Section 4. Section 51-1-11 NMSA 1978 (being Laws 2003, Chapter 47, Section 11) is amended to read:

"51-1-11. FUTURE RATES BASED ON BENEFIT EXPERIENCE.--

A. The division shall maintain a separate account for each contributing employer and shall credit the contributing employer's account with all contributions paid by that employer under the Unemployment Compensation Law. Nothing in the Unemployment Compensation Law shall be construed to grant an employer or individuals in the employer's service prior claims or rights to the amounts paid by the employer into the fund.

B. Benefits paid to an individual shall be charged against the accounts of the individual's base-period employers on a pro rata basis according to the proportion of the individual's total base-period wages received from each employer, except that no benefits paid to a claimant as extended benefits under the provisions of Section 51-1-48 NMSA 1978 shall be charged to the account of any base-period employer who is not on a reimbursable basis and who is not a governmental entity and, except as the secretary shall by rule prescribe otherwise, in the case of benefits paid to an individual who:

(1) left the employ of a base-period employer who is not on a reimbursable basis voluntarily without good cause in connection with the individual's employment;

(2) was discharged from the employment of a base-period employer who is not on a reimbursable basis for misconduct connected with the individual's employment;

(3) is employed part time by a base-period employer who is not on a reimbursable basis and who continues to furnish the individual the same part-time work while the individual is separated from full-time work for a nondisqualifying reason; or

(4) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis while attending approved training or school on a full-time basis under the provisions of Subsection E of Section 51-1-5 NMSA 1978.

C. The division shall not charge a contributing or reimbursing base-period employer's account with any portion of benefit amounts that the division can bill to or recover from the federal government as either regular or extended benefits.

D. The division shall not charge a contributing base-period employer's account with any portion of benefits paid to an individual for dependent allowance or because the individual to whom benefits are paid:

(1) separated from employment due to domestic abuse; or

(2) is enrolled in approved training or is attending school on a full-time basis.

E. All contributions to the fund shall be pooled and available to pay benefits to any individual entitled thereto, irrespective of the source of such contributions. The standard rate of contributions payable by each employer shall be five and four-tenths percent.

F. An employer's rate shall not be varied from the standard rate for any calendar year unless, as of the computation date for that year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months, except that:

(1) the provisions of this subsection shall not apply to governmental entities;

(2) beginning January 1, 2005, any employing unit that becomes an employer subject to the payment of contributions under the Unemployment Compensation Law or has been an employer subject to the payment of contributions at a standard rate of two percent through December 31, 2004, shall be subject to the payment of contributions at the reduced rate of two percent until, as of the computation date of a particular year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months;

(3) any individual, type of organization or employing unit that acquires all or part of the trade or business of another employing unit, pursuant to Paragraphs (2) and (3) of Subsection E of Section 51-1-42 NMSA 1978, that has a reduced rate of contribution shall be entitled to the transfer of the reduced rate to the extent permitted under Subsection H of this section;

(4) an employer that, at the time of establishing an account, is in business in another state or states and that is not currently doing business in New Mexico may elect, pursuant to Paragraph (5) of this subsection, to receive a beginning contribution rate of two percent or a contribution rate based on the current contribution rate schedule in Paragraph (4) of Subsection I of this section, whichever is lower, if:

(a) the employer has been in operation in the other state or states for at least three years immediately preceding the date of becoming a liable employer in New Mexico, throughout which an individual in the employer's employ could have received benefits if eligible; and

(b) the employer provides the authenticated account history as defined by rule of the secretary from information accumulated from operations in the other state or all the other states to compute a current New Mexico rate; and

(5) the election authorized in Paragraph (4) of this subsection shall be made in writing within thirty days after receiving notice of New Mexico liability and, if not made timely, a two percent rate will be assigned; if the election is made timely, the employer's account will receive the lesser of the computed rate determined by the condition of the account for the computation date immediately preceding the New Mexico liable date, or the reduced rate of two percent; rates for subsequent years will be determined by the condition of the account for the computation date.

G. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. An employer's rate for any calendar year shall be determined on the basis of the employer's record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to the employer's account in accordance with department rule. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer shall not be refunded in whole or in part.

H. In the case of a transfer of an employing enterprise, the experience history of the transferred enterprise as provided in Subsection G of this section shall be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable rules of the secretary:

(1) Definitions:

(a) "employing enterprise" is a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any individual or any type of organization that acquires an employing enterprise and continues to operate such business entity; and

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise.

(2) For the purpose of this section, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the rules of the secretary within four years of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) in the case of the transfer of an employing enterprise, the successor employer must notify the division of the acquisition on or before the due date of the successor employer's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, shall effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition, and the successor shall pay a penalty of fifty dollars (\$50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. A party to a merger, consolidation or other form of reorganization described in this paragraph shall not be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization.

(3) The applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of the

contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records that, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or the secretary's delegate. A partial experience history transfer will be made only if:

(a) the successor notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) the successor files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) the successor files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages paid to and the contributions paid for each employee for the three and one-half year period preceding the computation date as defined in Subparagraph (d) of Paragraph (3) of Subsection I of this section through the date of transfer or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A shall be supported by the predecessor's permanent employment records, which shall be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and, upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll.

I. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided in Paragraphs (1) through (4) of this subsection.

(1) The total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection F of this section shall be fixed by the excess of the employer's total contributions over total benefit charges computed as a percentage of the employer's average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching the employer's reserve as shown in the reserve column with the corresponding rate in the rate column of the applicable rate schedule of the table provided in Paragraph (4) of this subsection.

(2) Each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be:

(a) the corresponding rate in Schedule 0 of the table provided in Paragraph (4) of this subsection if the fund equals at least three and seven-tenths percent of the total payrolls;

(b) the corresponding rate in Schedule 1 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and seven-tenths percent and not less than three and four-tenths percent of the total payrolls;

(c) the corresponding rate in Schedule 2 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and four-tenths percent but not less than two and seven-tenths percent of the total payrolls;

(d) the corresponding rate in Schedule 3 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two and seven-tenths percent and not less than two percent of the total payrolls;

(e) the corresponding rate in Schedule 4 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two percent and not less than one and one-half percent of the total payrolls;

(f) the corresponding rate in Schedule 5 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than one and one-half percent and not less than one percent of the total payrolls; or

(g) the corresponding rate in Schedule 6 of the table provided in Paragraph (4) of this subsection if the fund has dropped less than one percent of the total payrolls.

(3) As used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during the individual's base period on the basis of which the individual's benefit rights were determined;

(c) "base-period employers" means the employers of an individual during the individual's base period; and

(d) "computation date" for each calendar year means the close of business on June 30 of the preceding calendar year.

J. The division shall promptly notify each employer of the employer's rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all of the employer's contributions paid on the employer's behalf and credited to the employer's account for all past years and total benefits charged to the employer's account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such notice, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing, in any proceeding involving the employer's rate of contributions or contribution liability, to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last

known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The division shall provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to the employer's account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the determination to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing in any proceeding involving the employer's contribution liability to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

L. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

M. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have been issued and contributions paid pursuant to the notification. Upon issuance by the

division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection J of this section.

N. Any interest required to be paid on advances to this state's unemployment compensation fund under Title 12 of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title 12 of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

Chapter 3 Section 5 Laws 2005

Section 5. Section 51-1-42 NMSA 1978 (being Laws 2003, Chapter 47, Section 12) is amended to read:

"51-1-4. MONETARY COMPUTATION OF BENEFITS--PAYMENT GENERALLY.--

A. All benefits provided herein are payable from the unemployment compensation fund. All benefits shall be paid in accordance with rules prescribed by the secretary through employment offices or other agencies as the secretary approves by general rule.

B. Weekly benefits shall be as follows:

(1) an individual's "weekly benefit amount" is an amount equal to one twenty-sixth of the total wages for insured work paid to the individual in that quarter of the individual's base period in which total wages were highest. No benefit as so computed may be less than ten percent or more than fifty-two and one-half percent of the state's average weekly wage for all insured work. The state's average weekly wage shall be computed from all wages reported to the department from employing units in accordance with rules of the secretary for the period ending June 30 of each calendar year divided by the total number of covered employees divided by fifty-two, effective for the benefit years commencing on or after the first Sunday of the following calendar year. An individual is not eligible to receive benefits unless the individual has wages in at least two quarters of that individual's base period. For the purposes of this subsection, "total wages" means all remuneration for insured work, including commissions and bonuses and the cash value of all remuneration in a medium other than cash;

(2) an eligible individual who is unemployed in any week during which the individual is in a continued claims status shall be paid, with respect to the week, a benefit in an amount equal to the individual's weekly benefit amount, less that part of the wages, if any, or earnings from self-employment, payable to the individual with respect to such week that is in excess of one-fifth of the individual's weekly benefit amount. For purposes of this subsection only, "wages" includes all remuneration for services actually performed in a week for which benefits are claimed, vacation pay for a period for which the individual has a definite return-to-work date, wages in lieu of notice and back pay for loss of employment but does not include payments through a court for time spent in jury service;

(3) notwithstanding any other provision of this section, an eligible individual who, pursuant to a plan financed in whole or in part by a base-period employer of the individual, is receiving a governmental or other pension, retirement pay, annuity or any other similar periodic payment that is based on the previous work of the individual and who is unemployed with respect to any week ending subsequent to April 9, 1981 shall be paid with respect to the week, in accordance with rules prescribed by the secretary, compensation equal to the individual's weekly benefit amount reduced, but not below zero, by the prorated amount of the pension, retirement pay, annuity or other similar periodic payment that exceeds the percentage contributed to the plan by the eligible individual. The maximum benefit amount payable to the eligible individual shall be an amount not more than twenty-six times his reduced weekly benefit amount. If payments referred to in this section are being received by an individual under the federal Social Security Act, the division shall take into account the individual's contribution and make no reduction in the weekly benefit amount;

(4) in the case of a lump-sum payment of a pension, retirement or retired pay, annuity or other similar payment by a base-period employer that is based on the previous work of the individual, the payment shall be allocated, in accordance with rules prescribed by the secretary, and shall reduce the amount of unemployment compensation paid, but not below zero, in accordance with Paragraph (3) of this subsection; and

(5) the retroactive payment of a pension, retirement or retired pay, annuity or any other similar periodic payment as provided in Paragraphs (3) and (4) of this subsection attributable to weeks during which an individual has claimed or has been paid unemployment compensation shall be allocated to those weeks and shall reduce the amount of unemployment compensation for those weeks, but not below zero, by an amount equal to the prorated amount of the pension. Any overpayment of unemployment compensation benefits resulting from the application of the provisions of this paragraph shall be recovered from the claimant in accordance with the provisions of Section 51-1-38 NMSA 1978.

C. An otherwise eligible individual is entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of twenty-six times the individual's weekly benefit amount or sixty percent of the individual's wages for insured work paid during the individual's base period.

D. A benefit as determined in Subsection B or C of this section, if not a multiple of one dollar (\$1.00), shall be rounded to the next lower multiple of one dollar (\$1.00).

E. The secretary may prescribe rules to provide for the payment of benefits that are due and payable to the legal representative, dependents, relatives or next of kin of claimants since deceased. These rules need not conform with the laws governing successions, and the payment shall be deemed a valid payment to the same extent as if made under a formal administration of the succession of the claimant.

F. The division, on its own initiative, may reconsider a monetary determination whenever it is determined that an error in computation or identity has occurred or that wages of the claimant pertinent to such determination but not considered have been newly discovered or that the benefits have been allowed or denied on the basis of misrepresentation of fact, but no redetermination shall be made after one year from the date of the original monetary determination. Notice of a redetermination shall be given to all interested parties and shall be subject to an appeal in the same manner as the original determination. In the event that an appeal involving an original monetary determination is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from redetermination."

(4) has been unemployed for a waiting period of one week. A week shall not be counted as a week of unemployment for the purposes of this paragraph:

(a) unless it occurs within the benefit year that includes the week with respect to which the individual claims payment of benefits;

(b) if benefits have been paid with respect thereto; and

(c) unless the individual was eligible for benefits with respect thereto as provided in this section and Section 51-1-7 NMSA 1978, except for the requirements of this subsection and of Subsection D of Section 51-1-7 NMSA 1978;

(5) has been paid wages in at least two quarters of the individual's base period;

(6) has reported to an office of the division in accordance with the rules of the secretary for the purpose of an examination and review of the individual's availability for and search for work, for employment counseling, referral and placement and for participation in a job finding or employability training and development program. An individual shall not be denied benefits under this section for any week that the individual is participating in a job finding or employability training and development program; and

(7) participates in reemployment services, such as job search assistance services, if the division determines that the individual is likely to exhaust

regular benefits and need reemployment services pursuant to a profiling system established by the division, unless the division determines that:

(a) the individual has completed such services; or

(b) there is justifiable cause for the individual's failure to participate in the services.

B. A benefit year as provided in Section 51-1-4 NMSA 1978 and Subsection P of Section 51-1-42 NMSA 1978 may be established; provided an individual may not receive benefits in a benefit year unless, subsequent to the beginning of the immediately preceding benefit year during which the individual received benefits, the individual performed service in "employment", as defined in Subsection F of Section 51-1-42 NMSA 1978, and earned remuneration for such service in an amount equal to at least five times the individual's weekly benefit amount.

C. Benefits based on service in employment defined in Paragraph (8) of Subsection F of Section 51-1-42 and Section 51-1-43 NMSA 1978 are to be paid in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other services subject to the Unemployment Compensation Law; except that:

(1) benefits based on services performed in an instructional, research or principal administrative capacity for an educational institution shall not be paid for any week of unemployment commencing during the period between two successive academic years or terms or, when an agreement provides for a similar period between two regular but not successive terms, during such period or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if the individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that the individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) benefits based on services performed for an educational institution other than in an instructional, research or principal administrative capacity shall not be paid for any week of unemployment commencing during a period between two successive academic years or terms if the services are performed in the first of such academic years or terms and there is a reasonable assurance that the individual will perform services for any educational institution in the second of such academic years or terms. If compensation is denied to an individual under this paragraph and the individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a claim and certified for benefits in accordance with the rules of the division and for which benefits were denied solely by reason of this paragraph;

(3) benefits shall be denied to any individual for any week that commences during an established and customary vacation period or holiday recess if the individual performs any services described in Paragraphs (1) and (2) of this subsection in the period immediately before such period of vacation or holiday recess and there is a reasonable assurance that the individual will perform any such services in the period immediately following such vacation period or holiday recess;

(4) benefits shall not be payable on the basis of services specified in Paragraphs (1) and (2) of this subsection during the periods specified in Paragraphs (1), (2) and (3) of this subsection to any individual who performed such services in or to or on behalf of an educational institution while in the employ of a state or local governmental educational service agency or other governmental entity or nonprofit organization; and

(5) for the purpose of this subsection, to the extent permitted by federal law, "reasonable assurance" means a reasonable expectation of employment in a similar capacity in the second of such academic years or terms based upon a consideration of all relevant factors, including the historical pattern of reemployment in such capacity, a reasonable anticipation that such employment will be available and a reasonable notice or understanding that the individual will be eligible for and offered employment in a similar capacity.

D. Paragraphs (1), (2), (3), (4) and (5) of Subsection C of this section shall apply to services performed for all educational institutions, public or private, for profit or nonprofit, which are operated in this state or subject to an agreement for coverage under the Unemployment Compensation Law of this state, unless otherwise exempt by law.

E. Notwithstanding any other provisions of this section or Section 51-1-7 NMSA 1978, no otherwise eligible individual is to be denied benefits for any week because the individual is in training with the approval of the division nor is the individual to be denied benefits by reason of application of provisions in Paragraph (3) of Subsection A of this section or Subsection C of Section 51-1-7 NMSA 1978 with respect to any week in which the individual is in training with the approval of the division. The secretary shall provide, by rule, standards for approved training and the conditions for approving training for claimants, including any training approved or authorized for approval pursuant to Section 236(a)(1) and (2) of the Trade Act of 1974, as amended, or required to be approved as a condition for certification of the state's Unemployment Compensation Law by the United States secretary of labor.

F. Notwithstanding any other provisions of this section, benefits shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for the purposes of performing the services or was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United

States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act; provided that:

(1) any information required of individuals applying for benefits to determine their eligibility for benefits under this subsection shall be uniformly required from all applicants for benefits; and

(2) an individual shall not be denied benefits because of the individual's alien status except upon a preponderance of the evidence.

G. Notwithstanding any other provision of this section, benefits shall not be paid to any individual on the basis of any services substantially all of which consist of participating in sports or athletic events or training or preparing to so participate for any week that commences during the period between two successive sport seasons, or similar periods, if the individual performed the services in the first of such seasons, or similar periods, and there is a reasonable assurance that the individual will perform the services in the latter of such seasons or similar periods.

H. Students who are enrolled in a full-time course schedule in an educational or training institution or program, other than those persons in an approved vocational training program in accordance with Subsection E of this section, shall not be eligible for unemployment benefits except as provided by regulations promulgated by the secretary.

I. As used in this subsection, "seasonal ski employee" means an employee who has not worked for a ski area operator for more than six consecutive months of the previous twelve months or nine of the previous twelve months. An employee of a ski area operator who has worked for a ski area operator for six consecutive months of the previous twelve months or nine of the previous twelve months shall not be considered a seasonal ski employee. The following benefit eligibility conditions apply to a seasonal ski employee:

(1) except as provided in Paragraphs (2) and (3) of this subsection, a seasonal ski employee employed by a ski area operator on a regular seasonal basis shall be ineligible for a week of unemployment benefits that commences during a period between two successive ski seasons unless the individual establishes to the satisfaction of the secretary that the individual is available for and is making an active search for permanent full-time work;

(2) a seasonal ski employee who has been employed by a ski area operator during two successive ski seasons shall be presumed to be unavailable for permanent new work during a period after the second successive ski season that the individual was employed as a seasonal ski employee; and

(3) the presumption described in Paragraph (2) of this subsection shall not arise as to any seasonal ski employee who has been employed by the same

ski area operator during two successive ski seasons and has resided continuously for at least twelve successive months and continues to reside in the county in which the ski area facility is located.

J. Notwithstanding any other provision of this section, an otherwise eligible individual shall not be denied benefits for any week by reason of the application of Paragraph (3) of Subsection A of this section because the individual is before any court of the United States or any state pursuant to a lawfully issued summons to appear for jury duty."

Chapter 3 Section 8 Laws 2005

Section 8. Section 51-1-7 NMSA 1978 (being Laws 2003, Chapter 47, Section 10, as amended by Section 3 of this act) is repealed and a new Section 51-1-7 NMSA 1978 is enacted to read:

"51-1-7. DISQUALIFICATION FOR BENEFITS.--

A. An individual shall be disqualified for, and shall not be eligible to receive, benefits:

(1) if it is determined by the division that the individual left employment voluntarily without good cause in connection with the employment; provided, however, that a person shall not be denied benefits under this paragraph solely on the basis of pregnancy or the termination of pregnancy;

(2) if it is determined by the division that the individual has been discharged for misconduct connected with the individual's employment; or

(3) if it is determined by the division that the individual has failed without good cause either to apply for available, suitable work when so directed or referred by the division or to accept suitable work when offered.

B. In determining whether or not any work is suitable for an individual pursuant to Paragraph (3) of Subsection A of this section, the division shall consider the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness, prior training, experience, prior earnings, length of unemployment and prospects for securing local work in the individual's customary occupation and the distance of available work from the individual's residence. Notwithstanding any other provisions of the Unemployment Compensation Law, no work shall be deemed suitable and benefits shall not be denied under the Unemployment Compensation Law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) if the position offered is vacant due directly to a strike, lockout or other labor dispute;

(2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) if, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organizations.

C. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which the division finds that the individual's unemployment is due to a labor dispute at the factory, establishment or other premises at which the individual is or was last employed; provided that this subsection shall not apply if it is shown to the satisfaction of the division that:

(1) the individual is not participating in or directly interested in the labor dispute; and

(2) the individual does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises at which the labor dispute occurs, any of whom are participating in or directly interested in the dispute; provided that if in any case separate branches of work that are commonly conducted in separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises.

D. An individual shall be disqualified for, and shall not be eligible to receive, benefits for any week with respect to which, or a part of which, the individual has received or is seeking, through any agency other than the division, unemployment benefits under an unemployment compensation law of another state or of the United States; provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

E. A disqualification pursuant to Paragraph (1) or (2) of Subsection A of this section shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit otherwise payable. A disqualification pursuant to Paragraph (3) of Subsection A of this section shall include the week the failure occurred and shall continue for the duration of the individual's unemployment and until the individual has earned wages in bona fide employment other than self-employment, as provided by rule of the secretary, in an amount equivalent to five times the individual's weekly benefit amount otherwise payable; provided that no more than one such disqualification shall be imposed upon an individual for failure to apply for or accept the same position, or a

similar position, with the same employer, except upon a determination by the division of disqualification pursuant to Subsection C of this section.

F. As used in this section, "employment" means employment by the individual's last employer as defined by rules of the secretary."

Chapter 3 Section 9 Laws 2005

Section 9. Section 51-1-11 NMSA 1978 (being Laws 2003, Chapter 47, Section 11, as amended by Section 4 of this act) is repealed and a new Section 51-1-11 NMSA 1978 is enacted to read:

"51-1-11. FUTURE RATES BASED ON BENEFIT EXPERIENCE.--

A. The division shall maintain a separate account for each contributing employer and shall credit the contributing employer's account with all contributions paid by that employer under the Unemployment Compensation Law. Nothing in the Unemployment Compensation Law shall be construed to grant an employer or individuals in the employer's service prior claims or rights to the amounts paid by the employer into the fund.

B. Benefits paid to an individual shall be charged against the accounts of the individual's base-period employers on a pro rata basis according to the proportion of the individual's total base-period wages received from each employer, except that no benefits paid to a claimant as extended benefits under the provisions of Section 51-1-48 NMSA 1978 shall be charged to the account of any base-period employer who is not on a reimbursable basis and who is not a governmental entity and, except as the secretary shall by rule prescribe otherwise, in the case of benefits paid to an individual who:

(1) left the employ of a base-period employer who is not on a reimbursable basis voluntarily without good cause in connection with the individual's employment;

(2) was discharged from the employment of a base-period employer who is not on a reimbursable basis for misconduct connected with the individual's employment;

(3) is employed part time by a base-period employer who is not on a reimbursable basis and who continues to furnish the individual the same part-time work while the individual is separated from full-time work for a nondisqualifying reason; or

(4) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis while attending approved training under the provisions of Subsection E of Section 51-1-5 NMSA 1978.

C. The division shall not charge a contributing or reimbursing base-period employer's account with any portion of benefit amounts that the division can bill to or recover from the federal government as either regular or extended benefits.

D. All contributions to the fund shall be pooled and available to pay benefits to any individual entitled thereto, irrespective of the source of such contributions. The standard rate of contributions payable by each employer shall be five and four-tenths percent.

E. An employer's rate shall not be varied from the standard rate for any calendar year unless, as of the computation date for that year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months, except that:

(1) the provisions of this subsection shall not apply to governmental entities;

(2) subsequent to December 31, 1984, any employing unit that becomes an employer subject to the payment of contributions under the Unemployment Compensation Law or has been an employer subject to the payment of contributions at a standard rate of two and seven-tenths percent through December 31, 1984 shall be subject to the payment of contributions at the reduced rate of two and seven-tenths percent until, as of the computation date of a particular year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months; and

(3) any individual, type of organization or employing unit that acquires all or part of the trade or business of another employing unit, pursuant to Paragraphs (2) and (3) of Subsection E of Section 51-1-42 NMSA 1978, that has a reduced rate of contribution shall be entitled to the transfer of the reduced rate to the extent permitted under Subsection G of this section.

F. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. An employer's rate for any calendar year shall be determined on the basis of the employer's record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to the employer's account in accordance with department rule. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer shall not be refunded in whole or in part.

G. In the case of a transfer of an employing enterprise, the experience history of the transferred enterprise as provided in Subsection F of this section shall be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable rules of the secretary:

(1) Definitions:

(a) "employing enterprise" is a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any individual or any type of organization that acquires an employing enterprise and continues to operate such business entity; and

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise.

(2) For the purpose of this section, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the rules of the secretary within four years of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) in the case of the transfer of an employing enterprise, the successor employer must notify the division of the acquisition on or before the due date of the successor employer's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, shall effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition, and the successor shall pay a penalty of fifty dollars (\$50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. A party to a merger, consolidation or other form of reorganization described in this paragraph shall not be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization.

(3) The applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of the contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records that, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or the secretary's delegate. A partial experience history transfer will be made only if:

(a) the successor notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) the successor files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) the successor files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages paid to and the contributions paid for each employee for the three and one-half year period preceding the computation date as defined in Subparagraph (d) of Paragraph (3) of Subsection H of this section through the date of transfer or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A shall be supported by the predecessor's permanent employment records, which shall be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and, upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll.

H. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided in Paragraphs (1) through (4) of this subsection.

(1) The total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection E of this section shall be fixed by the excess of the employer's total contributions over total benefit charges computed as a percentage of the employer's average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching the employer's reserve as shown in the reserve column with the corresponding rate in the rate column of the applicable rate schedule of the table provided in Paragraph (4) of this subsection.

(2) Each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be:

(a) the corresponding rate in Schedule 1 of the table provided in Paragraph (4) of this subsection if the fund equals at least three and four-tenths percent of the total payrolls;

(b) the corresponding rate in Schedule 2 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than three and four-tenths percent and not less than two and seven-tenths percent of the total payrolls;

(c) the corresponding rate in Schedule 3 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two and seven-tenths percent and not less than two percent of the total payrolls;

(d) the corresponding rate in Schedule 4 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than two percent and not less than one and one-half percent of the total payrolls;

(e) the corresponding rate in Schedule 5 of the table provided in Paragraph (4) of this subsection if the fund has dropped to less than one and one-half percent and not less than one percent of the total payrolls; or

(f) the corresponding rate in Schedule 6 of the table provided in Paragraph (4) of this subsection if the fund has dropped less than one percent of the total payrolls.

(3) As used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during the individual's base period on the basis of which the individual's benefit rights were determined;

(c) "base-period employers" means the employers of an individual during the individual's base period; and

(d) "computation date" for each calendar year means the close of business on June 30 of the preceding calendar year.

I. The division shall promptly notify each employer of the employer's rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all of the employer's contributions paid on the employer's behalf and credited to the employer's account for all past years and total benefits charged to the employer's account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within thirty days after the

delivery of such notice, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing, in any proceeding involving the employer's rate of contributions or contribution liability, to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

J. The division shall provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to the employer's account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the determination to the employer's last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for review and redetermination, setting forth the employer's reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with rules prescribed by the secretary, but an employer shall not have standing in any proceeding involving the employer's contribution liability to contest the chargeability to the employer's account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for the employer and only in the event that the employer was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on the employer's application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to the employer's last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may

be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

L. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have been issued and contributions paid pursuant to the notification. Upon issuance by the division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection I of this section.

M. Any interest required to be paid on advances to this state's unemployment compensation fund under Title 12 of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title 12 of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

Chapter 3 Section 10 Laws 2005

Section 10. Section 51-1-42 NMSA 1978 (being Laws 2003, Chapter 47, Section 12, as amended by Section 5 of this act) is repealed and a new Section 51-1-42 NMSA 1978 is enacted to read:

"51-1-42. DEFINITIONS.--As used in the Unemployment Compensation Law:

A. "base period" means the first four of the last five completed calendar quarters immediately preceding the first day of an individual's benefit year;

B. "benefits" means the cash unemployment compensation payments payable to an eligible individual pursuant to Section 51-1-4 NMSA 1978 with respect to the individual's weeks of unemployment;

C. "contributions" means the money payments required by Section 51-1-9 NMSA 1978 to be made into the fund by an employer on account of having individuals performing services for the employer;

D. A. All nontaxable transaction certificates of the appropriate series executed by buyers or lessees should be in the possession of the seller or lessor for nontaxable transactions at the time the return is due for receipts from the transactions. If the seller or lessor is not in possession of the required nontaxable transaction certificates within sixty days from the date that the notice requiring possession of these nontaxable transaction certificates is given the seller or lessor by the department, deductions claimed by the seller or lessor that require delivery of these nontaxable transaction certificates shall be disallowed. The nontaxable transaction certificates shall contain the information and be in a form prescribed by the department. The department by regulation may deem to be nontaxable transaction certificates documents issued by other states or the multistate tax commission to taxpayers not required to be registered in New Mexico. Only buyers or lessees who have a registration number or have applied for a registration number and have not been refused one under Subsection C of Section 7-1-12 NMSA 1978 shall execute nontaxable transaction certificates issued by the department. If the seller or lessor has been given an identification number for tax purposes by the department, the seller or lessor shall disclose that identification number to the buyer or lessee prior to or upon acceptance of a nontaxable transaction certificate. When the seller or lessor accepts a nontaxable transaction certificate within the required time and in good faith that the buyer or lessee will employ the property or service transferred in a nontaxable manner, the properly executed nontaxable transaction certificate shall be conclusive evidence, and the only material evidence, that the proceeds from the transaction are deductible from the seller's or lessor's gross receipts.

B. Properly executed documents required to support the deductions provided in Sections 7-9-57, 7-9-58 and 7-9-74 NMSA 1978 should be in the possession of the seller at the time the return is due for receipts from the transactions. When the seller accepts these documents within the required time and in good faith that the buyer will employ the property or service transferred in a nontaxable manner, the properly executed documents shall be conclusive evidence, and the only material evidence, that the proceeds from the transaction are deductible from the seller's gross receipts.

C. Notice, as used in this section, is sufficient if the notice is mailed or served as provided in Subsection A of Section 7-1-9 NMSA 1978. Notice by the department under this section shall not be given prior to the commencement of an audit of the seller required to be in possession of the documents.

D. To exercise the privilege of executing appropriate nontaxable transaction certificates, a buyer or lessee shall apply to the department for permission to execute nontaxable transaction certificates, except with respect to documents issued by other states or the multistate tax commission that the department has deemed to be nontaxable transaction certificates. If a person is shown on the department's records to be a delinquent taxpayer or to have a non-filed period, the department may refuse to approve the application of the person until the person has filed returns for all non-filed periods and is no longer shown to be a delinquent taxpayer, and the taxpayer may protest that refusal pursuant to Section 7-1-24 NMSA 1978. "66-5-8. PROVISIONAL LICENSES--INSTRUCTION PERMITS--DRIVER EDUCATION STUDENTS--TEMPORARY LICENSES.--

A. A person fifteen years and six months of age or older who has completed a driver education course that includes a DWI prevention and education program approved by the bureau or offered by a public school, who has had an instruction permit for at least six months, and who has successfully completed a practice driving component may apply to the division for a provisional license. Successful completion of a practice driving component shall include not less than fifty hours of actual driving by the applicant, including not less than ten hours of night driving. An applicant for a provisional license who cannot drive at night due to low nighttime vision may be exempted from the night driving requirement of this subsection; provided that the applicant submits to the division an ophthalmologic or optometric report from a licensed ophthalmologist or optometrist who attests to the applicant's visual condition and its effect on the applicant's driving ability. The applicant's parent or guardian shall certify that the applicant has completed the practice driving component.

B. When operating a motor vehicle, a provisional licensee may be accompanied by not more than one passenger under the age of twenty-one who is not a member of the licensee's immediate family. A provisional license entitles the licensee, while having the license in his immediate possession, to operate a motor vehicle upon the public highways between the hours of 5:00 a.m. and midnight unless the provisional licensee is eligible for a license restricting driving to daylight hours. A provisional licensee may drive at any hour unless otherwise restricted as provided in this subsection if:

C. A provisional license shall not be issued to a person convicted of a traffic violation in the ninety days prior to applying for a provisional license. A provisional license shall be in such form as to be readily distinguishable from an unrestricted

driver's license and shall contain an indication that the licensee may drive without supervision.

D. A person fifteen years of age or older who is enrolled in and attending or has completed a driver education course that includes a DWI prevention and education program approved by the bureau or offered by a public school may apply to the division for an instruction permit. The division, in its discretion after the applicant has successfully passed all parts of the examination other than the driving test, may issue to the applicant an instruction permit. This permit entitles the applicant, while having the permit in his immediate possession, to drive a motor vehicle upon the public highways for a period of six months when accompanied by a licensed driver twenty-one years of age or older who has been licensed for at least three years in this state or in another state and who is occupying a seat beside the driver except in the event the permittee is operating a motorcycle.

E. A person fifteen years of age or older who is a student enrolled in and attending a driver education course that is approved by the bureau or offered by a public school and that includes both a DWI education and prevention component and practice driving component may drive a motor vehicle on the highways of this state even though he has not reached the legal age to be eligible for a driver's license or a provisional license. In completing the practice driving component, a person may only operate a motor vehicle on a public highway if:

(1) an approved instructor is occupying a seat beside the person; or

(2) a licensed driver twenty-one years of age or older who has been licensed for at least three years in this state or another state is occupying a seat beside the person.

F. The division in its discretion may issue a temporary driver's permit to an applicant for a driver's license permitting him to operate a motor vehicle while the division is completing its investigation and determination of all facts relative to the applicant's right to receive a driver's license. The permit shall be in his immediate possession while operating a motor vehicle, and it shall be invalid when the applicant's license has been issued or for good cause has been refused.

G. A holder of an instruction permit for a motorcycle shall not carry any other passenger while operating a motorcycle."

Section 2. Section 66-5-19 NMSA 1978 (being Laws 1978, Chapter 35, Section 241) is amended to read:

"66-5-19. RESTRICTED LICENSES.--

The division, upon issuing a driver's license, or a provisional license has authority, whenever good cause appears, to impose restrictions, including the shortening of the licensure period suitable to the licensee's driving ability with respect to the type of or special mechanical control devices required on a motor vehicle that the licensee may operate or such other restrictions applicable to the licensee as the division may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee. At age seventy-five and thereafter, the applicant shall renew the applicant's license on a yearly basis at no cost to the applicant.

B. The division may either issue a special restricted license or may set forth such restrictions upon the usual license form.

C. The division may issue a restricted license or a restricted provisional license for driving during daylight hours only to some visually handicapped persons who fail the usual eyesight test. The health standards advisory board created pursuant to the provisions of Section 66-5-6 NMSA 1978 shall evaluate the extent of the visual handicap and its effect on the driving ability of the applicant and, based on its recommendations, the director may issue a restricted license under the following conditions:

D. The division may, upon receiving satisfactory evidence of any violation of the restrictions of the license, suspend the license, but the licensee is entitled to a hearing as upon a suspension under Sections 66-5-1 through 66-5-47 NMSA 1978.

E. It is a misdemeanor for any person to operate a motor vehicle in any manner in violation of the restrictions imposed in a restricted license issued to the person."

All information designated as "Total" or "Subtotal" is provided for information and amounts are not appropriations.

C. Amounts set out in Section 4 of the General Appropriation Act of 2005, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2006 for the objects expressed.

D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2005 shall revert to the general fund by October 1, 2005, unless otherwise indicated in the General Appropriation Act of 2005 or otherwise provided by law.

E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2006 shall revert to the general fund by October 1, 2006, unless otherwise indicated in the General Appropriation Act of 2005 or otherwise provided by law.

F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.

G. Except as otherwise specifically stated in the General Appropriation Act of 2005, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2006. If any other act of the first session of the forty-seventh legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2005 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.

H. The department of finance and administration will regularly consult with the legislative finance committee staff to compare fiscal year 2006 revenue collections with the revenue estimate. If the analyses indicate that revenues and transfers to the general fund are not expected to meet appropriations, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.

I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds or payments into revolving funds exceeds specifically appropriated amounts may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated.

~~J. Pursuant to Section 6-4-2 NMSA 1978, federal funds received during fiscal year 2006 and not specifically appropriated shall be subject to future appropriation by the legislature provided, however, that an agency may request a budget increase during fiscal year 2006 from the state budget division if the agency submits documentation to the state budget division and to the legislative finance committee showing that all of the following five requirements have been met:~~

~~(1) the requested budget increase is for federal funds the amount of which could not have been reasonably anticipated or known during the first session of the forty-seventh legislature and, therefore, could not have been requested by the agency or appropriated by the legislature;~~

~~(2) the federal law authorizing the disbursement of the federal funds to the state requires the funds to be expended for specific programs or specific governmental functions without leaving a policy choice to the state of how the funds are to be expended;~~

~~(3) the state has no discretion as to the programs or governmental functions for which the federal funds will be expended;~~

~~(4) the executive branch has had no input into the selection of the programs or governmental functions for which the federal funds are required to be expended; and~~

~~(5) due to the emergency nature of the purpose of the federal funds or the likelihood that the federal funds will be unavailable in the future, the funds need to be budgeted and expended before the second session of the forty-seventh legislature.] [LINE-ITEM VETO]~~

~~[K. For fiscal year 2006, the number of permanent and term full-time equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2005 or another act of the first session of the forty-seventh legislature provides for additional employees.] [LINE-ITEM VETO]~~

L. Except for gasoline credit cards used solely for operation of official vehicles, telephone credit cards used solely for official business and procurement cards used as authorized by Section 6-5-9.1 NMSA 1978, none of the appropriations contained in the General Appropriation Act of 2005 may be expended for payment of agency-issued credit card invoices.

M. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2005 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.

N. For the purpose of administering the General Appropriation Act of 2005, the state of New Mexico shall follow the modified accrual basis of accounting for governmental funds in accordance with the manual of model accounting practices issued by the department of finance and administration.

O. When approving budgets based on appropriations in the General Appropriation Act of 2005, the state budget division is specifically authorized to approve budgets in accordance with generally accepted accounting principles and the authority to extend the availability period of an appropriation through the use of an encumbrance shall follow the modified accrual basis of accounting for governmental funds in accordance with the manual of model accounting practices issued by the department of finance and administration.

P. Notwithstanding the requirement in the General Appropriation Act of 2004 to follow the modified accrual basis of accounting for governmental funds, in the transition period of converting to the modified accrual basis, upon the review of the legislative finance committee, the department of finance and administration may extend the period for expending an appropriation made in the General Appropriation Act of 2004 beyond June 30, 2005 by approving a budget for all or a portion of the unexpended amount of that appropriation in fiscal year 2006 if the secretary of finance and administration finds that:

(1) there are likely to be unpaid costs and expenses covered by binding written obligations to third parties as of June 30, 2005; or

(2) the purpose of the appropriation will not be satisfied by the goods and services delivered as of June 30, 2005; there is no money appropriated for fiscal year 2006 to complete the purpose of the appropriation; and the state will suffer a pecuniary loss if the purpose of the appropriation is not satisfied.

~~[Q. The appropriations contained in Section 4 of the General Appropriation Act of 2005 in the contractual services category are contingent upon the attorney general reviewing contracts over two hundred thousand dollars (\$200,000).] [LINE-ITEM VETO]~~

(1) State equalization guarantee distribution:

Appropriations: 1,967,762.3 1,300.0 1,969,062.3

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of the public education department. The secretary of the public education department shall establish a preliminary unit value to establish budgets for the 2005-2006 school year and then, upon verification of the number of units statewide for fiscal year 2006 but no later than January 31, 2006, the secretary of the public education department may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution includes fifty-one million eight hundred thousand dollars (\$51,800,000) to implement the forty thousand dollar (\$40,000) minimum salary for level two and level three-A teachers. To allocate to each school district and charter school the amount needed to provide the required minimum salary for all eligible level two and level three-A teachers, the secretary of the public education department shall establish a unit value for fiscal year 2006 without including the fifty-one million eight hundred thousand dollars (\$51,800,000) in the calculation. After verifying the amount needed by each school district and charter school, the secretary of the public education department shall use the fifty-one million eight hundred thousand dollars (\$51,800,000) to adjust program cost to allocate the verified amount to each school district and charter school.

The secretary of the public education department, in collaboration with the department of finance and administration office of educational accountability, shall ensure all level two and level three-A teachers receiving salary increases under the three-tiered minimum salary have been evaluated under the tiered licensure evaluation system and have the professional competencies of level two and level three-A teachers. The secretary of the public education department shall withhold from the public school district distribution funding for minimum salaries for any teacher that has not been evaluated. ~~[The secretary of the public education department shall report the findings to the legislative education study committee and legislative finance committee by July 1, 2005.] [LINE-~~

Section 13. Section 61-29-11 NMSA 1978 (being Laws 1959, Chapter 226, Section 10, as amended) is amended to read:

"61-29-11. ISSUANCE, RENEWAL AND SURRENDER OF LICENSES.--

A. The commission shall issue to each qualified applicant a license in the form and size prescribed by the commission.

B. The license shall show the name and address of the licensee. An associate broker's license shall show the name of the qualifying broker by whom the associate broker is engaged. The commission shall deliver or mail the license of the associate broker to the qualifying broker by whom the associate broker is engaged, and the qualifying broker shall display the license at the brokerage from which the associate broker will be conducting real estate business on behalf of the brokerage. The license of the associate broker shall remain in the custody and control of the qualifying broker as long as the associate broker is engaged by that qualifying broker.

C. Every license shall be renewed every three years on or before the last day of the month following the licensee's month of birth. Upon written request for renewal by the licensee, the commission shall certify renewal of a license if there is no reason or condition that might warrant the refusal of the renewal of a license. The licensee shall provide proof of compliance with continuing education requirements and pay the renewal fee. If a licensee has not made application for renewal of license, furnished proof of compliance with continuing education requirements and paid the renewal fee by the license renewal date, the license shall expire. The commission may require a person whose license has expired to apply for a license as if the person had not been previously licensed under Chapter 61, Article 29 NMSA 1978 and further require that the person be reexamined. The commission shall require a person whose license has expired to pay when the person applies for a license, in addition to any other fee, a late fee. If during a period of one year from the date the license expires the person or the person's spouse is either absent from this state on active duty military

service or the person is suffering from an illness or injury of such severity that the person is physically or mentally incapable of making application for a license, payment of the late fee and reexamination shall not be required by the commission if, within three months of the person's permanent return to this state or sufficient recovery from illness or injury to allow the person to make an application, the person makes application to the commission for a license. A copy of that person's or that person's spouse's military orders or a certificate from the applicant's physician shall accompany the application. A person excused by reason of active duty military service, illness or injury as provided for in this subsection may make application for a license without imposition of the late fee. All fees collected pursuant to this subsection shall be disposed of in accordance with the provisions of Section 61-29-8 NMSA 1978. The revocation of a qualifying broker's license automatically suspends every associate broker's license granted to any person by virtue of association with the qualifying broker whose license has been revoked, pending a change of qualifying broker. Upon the naming of a new qualifying broker, the suspended license shall be reactivated without charge if granted during the three-year renewal cycle.

D. A qualifying broker shall conduct brokerage business under the trade name and from the brokerage address registered with the commission. Every brokerage shall have a qualifying broker in charge. The license of the qualifying broker and each associate broker associated with that qualifying broker shall be prominently displayed in each brokerage office. The address of the office shall be designated in the qualifying broker's license, and a license issued shall not authorize the licensee to transact real estate business at any other address. In case of removal from the designated address, the licensee shall make application to the commission before the removal or within ten days thereafter, designating the new location of the licensee's office and paying the required fee, whereupon the commission shall issue a license for the new location if the new location complies with the terms of Chapter 61, Article 29 NMSA 1978. A qualifying broker shall maintain a sign at the brokerage office of such size and content as the commission prescribes.

E. When an associate broker is discharged or terminates association or employment with the qualifying broker with whom the associate broker is associated, the qualifying broker shall deliver or mail the associate broker's license to the commission within forty-eight hours. The commission shall hold the license on inactive status. It is unlawful for an associate broker to perform any of the acts authorized by Chapter 61, Article 29 NMSA 1978 either directly or indirectly under authority of an inactive license after the associate broker's association with a qualifying broker has been terminated and the associate broker's license has been returned to the commission until the appropriate fee has been paid and the license has been reissued and reactivated by the commission."

Chapter 35 Section 14 Laws 2005

Section 14. Section 61-29-12 NMSA 1978 (being Laws 1959, Chapter 226, Section 11, as amended) is amended to read:

"61-29-12. REFUSAL, SUSPENSION OR REVOCATION OF LICENSE FOR CAUSES ENUMERATED.--

A. The commission may refuse to issue a license or may suspend, revoke, limit or condition a license if the applicant or licensee has by false or fraudulent representations obtained a license or, in performing or attempting to perform any of the actions specified in Chapter 61, Article 29 NMSA 1978, an applicant or licensee has:

(1) made a substantial misrepresentation;

(2) pursued a continued and flagrant course of misrepresentation; made false promises through agents, salespersons, advertising or otherwise; or used any trade name or insignia of membership in any real estate organization of which the licensee is not a member;

(3) paid or received a rebate, profit, compensation or commission to or from any unlicensed person, except the licensee's principal or other party to the transaction, and then only with that principal's written consent;

(4) represented or attempted to represent a qualifying broker other than a qualifying broker with whom the licensee is associated without the express knowledge and consent of that qualifying broker;

(5) failed, within a reasonable time, to account for or to remit any money coming into the licensee's possession that belongs to others, commingled funds of others with the licensee's own or failed to keep funds of others in an escrow or trustee account or failed to furnish legible copies of all listing and sales contracts to all parties executing them;

(6) been convicted in any court of competent jurisdiction of a felony or any offense involving moral turpitude;

(7) employed or compensated directly or indirectly a person for performing any of the acts regulated by Chapter 61, Article 29 NMSA 1978 who is not a licensed qualifying broker or an associate broker; provided, however, that a qualifying broker may pay a commission to a qualifying broker of another state; provided further that the nonresident broker shall not conduct in this state any of the negotiations for which a fee, compensation or commission is paid except in cooperation with a licensed qualifying broker of this state;

(8) failed, if a qualifying broker, to place as soon after receipt as is practicably possible, after securing signatures of all parties to the transaction, any deposit money or other money received by the qualifying broker in a real estate transaction in a custodial, trust or escrow account, maintained by the qualifying broker in a bank or savings and loan institution or title company authorized to do business in this state, in which the funds shall be kept until the transaction is consummated or

otherwise terminated, at which time a full accounting of the funds shall be made by the qualifying broker. Records relative to the deposit, maintenance and withdrawal of the funds shall contain information as may be prescribed by the rules of the commission. Nothing in this paragraph prohibits a qualifying broker from depositing nontrust funds in an amount not to exceed the required minimum balance in each trust account so as to meet the minimum balance requirements of the bank necessary to maintain the account and avoid charges. The minimum balance deposit shall not be considered commingling and shall not be subject to levy, attachment or garnishment. This paragraph does not prohibit a qualifying broker from depositing any deposit money or other money received by the qualifying broker in a real estate transaction with another cooperating broker who shall in turn comply with this paragraph;

(9) failed, if an associate broker, to place as soon after receipt as is practicably possible in the custody of the associate broker's qualifying broker, after securing signatures of all parties to the transaction, any deposit money or other money entrusted to the associate broker by any person dealing with the associate broker as the representative of the qualifying broker;

(10) violated a provision of Chapter 61, Article 29 NMSA 1978 or a rule promulgated by the commission;

(11) committed an act, whether of the same or different character from that specified in this subsection, that is related to dealings as a qualifying broker or an associate broker and that constitutes or demonstrates bad faith, incompetency, untrustworthiness, impropriety, fraud, dishonesty, negligence or any unlawful act; or

(12) been the subject of disciplinary action as a licensee while licensed to practice real estate in another jurisdiction, territory or possession of the United States or another country.

B. An unlawful act or violation of Chapter 61, Article 29 NMSA 1978 by an associate broker, employee, partner or associate of a qualifying broker shall not be cause for the revocation of a license of the qualifying broker unless it appears to the satisfaction of the commission that the qualifying broker had guilty knowledge of the unlawful act or violation."

Chapter 35 Section 15 Laws 2005

Section 15. A new section of Chapter 61, Article 29 NMSA 1978 is enacted to read:

"NONRESIDENT LICENSEES--CONSENT TO SERVICE.--A nonresident associate broker or qualifying broker shall file with the commission an irrevocable consent that lawsuits and actions may be commenced against the nonresident associate broker or qualifying broker in the proper court of any county of this state in which a cause of action may arise or in which the plaintiff may reside, by service on the

commission of any process or pleadings authorized by the laws of this state, the consent stipulating and agreeing that such service of process or pleadings on the commission is as valid and binding as if personal service had been made upon the nonresident licensee in New Mexico. The instrument containing the consent shall be acknowledged and, if executed on behalf of a corporation or association, shall be accompanied by a certified copy of the resolution of the proper officers or managing board authorizing the executing officer to execute the instrument. Service of process or pleadings shall be served in duplicate upon the commission; one shall be filed in the office of the commission and the other immediately forwarded by certified mail to the main office of the nonresident licensee against whom the process or pleadings are directed."

In any event, suit against a member of the public as distinguished from any person licensed under Chapter 61, Article 29 NMSA 1978 shall be maintained only in the name of the qualifying broker."

A. When any aggrieved person claims a pecuniary loss caused by a state-licensed qualifying broker or associate broker based upon fraud, knowing or willful misrepresentation or wrongful conversion of funds entrusted to the qualifying broker or associate broker, which loss arose out of any transaction for which a qualifying broker's or an associate broker's license is required and arose out of or during the course of a transaction involving the sale, lease, exchange or other disposition of real estate, where the cause of action arose on or after July 1, 1980, that person may, within one year after obtaining a final judgment based upon fraud, knowing or willful misrepresentation or wrongful conversion of funds entrusted to the qualifying broker or associate broker and the termination of all proceedings, including appeals in connection with the judgment, file a verified petition with the commission for payment from the real estate recovery fund for the actual damages included in the judgment and unpaid, but not more than ten thousand dollars (\$10,000) per judgment regardless of the number of persons aggrieved or parcels of real estate involved in the transaction. The aggregate amount recoverable by all claimants for losses caused by any one licensee shall not exceed thirty thousand dollars (\$30,000).

B. A copy of the petition shall be served upon the commission in the manner provided by law for service of a civil summons.

C. The commission shall conduct a hearing on the petition after service of the petition upon the commission. At the hearing, the petitioner shall be required to show that the petitioner:

(2) has complied with all the requirements of the Real Estate Recovery Fund Act;

If execution is levied against the property of the judgment debtor, the petitioner shall show that the amount realized on the sale was insufficient to satisfy the judgment and shall set forth the amount realized from the sale and the balance remaining due on the judgment after application of the amount realized;

(5) has made reasonable searches and inquiries to ascertain whether the judgment debtor is possessed of real or personal property or other assets liable to be sold or applied in satisfaction of the judgment, including partnership assets, licensee's estate or any bond or insurance, and that the petitioner has exercised

reasonable diligence to secure payment of the judgment from the assets of the judgment debtor; and

(6) has a judgment that is not:

(a) covered by any bond, insurance, surety agreement or indemnity agreement;

(b) a loss incurred by a partner, joint venturer, employer, employee or associate of the licensee whose conduct is alleged to have caused the loss; or a corporate officer or director of a corporation in which the judgment debtor is also an officer, director or employee; or

LAWS 2005, CHAPTER 53

AN ACT

RELATING TO PUBLIC HEALTH; IMPOSING LICENSURE FEES AND INTERMEDIATE SANCTIONS ON HEALTH FACILITIES; AMENDING SECTIONS OF THE PUBLIC HEALTH ACT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 53 Section 1 Laws 2005

Section 1. Section 24-1-5 NMSA 1978 (being Laws 1973, Chapter 359, Section 5, as amended) is amended to read:

"24-1-5. LICENSURE OF HEALTH FACILITIES--HEARINGS--APPEALS.--

A. A health facility shall not be operated without a license issued by the department. If a health facility is found to be operating without a license, in order to

protect human health or safety, the secretary may issue a cease-and-desist order. The health facility may request a hearing that shall be held in the manner provided in this section. The department may also proceed pursuant to the Health Facility Receivership Act.

B. The department is authorized to make inspections and investigations and to prescribe rules it deems necessary or desirable to promote the health, safety and welfare of persons using health facilities.

C. Except as provided in Subsection F of this section, upon receipt of an application for a license to operate a health facility, the department shall promptly inspect the health facility to determine if it is in compliance with all rules of the department. Applications for hospital licenses shall include evidence that the bylaws or rules of the hospital apply equally to osteopathic and medical physicians. The department shall consolidate the applications and inspections for a hospital that also operates as a hospital-based primary care clinic.

D. Upon inspection of a health facility, if the department finds a violation of its rules, the department may deny the application for a license, whether initial or renewal, or it may issue a temporary license. A temporary license shall not be issued for a period exceeding one hundred twenty days, nor shall more than two consecutive temporary licenses be issued.

E. A one-year nontransferable license shall be issued to any health facility complying with all rules of the department. The license shall be renewable for successive one-year periods, upon filing of a renewal application, if the department is satisfied that the health facility is in compliance with all rules of the department or, if not in compliance with a rule, has been granted a waiver or variance of that rule by the department pursuant to procedures, conditions and guidelines adopted by rule of the department. Licenses shall be posted in a conspicuous place on the licensed premises, except that child care centers that receive no state or federal funds may apply for and receive from the department a waiver from the requirement that a license be posted or kept on the licensed premises.

F. A health facility that has been inspected and licensed by the department and that has received certification for participation in federal reimbursement programs and that has been fully accredited by the joint commission on accreditation of health care organizations or the American osteopathic association shall be granted a license renewal based on that accreditation. Health facilities receiving less than full accreditation by the joint commission on the accreditation of health care organizations or by the American osteopathic association may be granted a license renewal based on that accreditation. License renewals shall be issued upon application submitted by the health facility upon forms prescribed by the department. This subsection does not limit in any way the department's various duties and responsibilities under other provisions of the Public Health Act or under any other subsection of this section, including any of the department's responsibilities for the health and safety of the public.

G. The department may charge a reasonable fee not to exceed twelve dollars (\$12.00) per bed for an inpatient health facility or three hundred dollars (\$300) for any other health facility for each license application, whether initial or renewal, of an annual license or the second consecutive issuance of a temporary license. Fees collected shall not be refundable. All fees collected pursuant to licensure applications shall be deposited with the state treasurer for credit in a designated department recurring account for use in health facility licensure and certification operations.

H. The department may revoke or suspend the license of a health facility or may impose on a health facility an intermediate sanction and a civil monetary penalty provided in Section 24-1-5.2 NMSA 1978 after notice and an opportunity for a hearing before a hearing officer designated by the department to hear the matter and, except for child care centers and facilities, may proceed pursuant to the Health Facility Receivership Act upon a determination that the health facility is not in compliance with any rule of the department. If immediate action is required to protect human health and safety, the secretary may suspend a license or impose an intermediate sanction pending a hearing, provided the hearing is held within five working days of the suspension or imposition of the sanction, unless waived by the licensee, and, except for child care centers and facilities, may proceed ex parte pursuant to the Health Facility Receivership Act.

I. The department shall schedule a hearing pursuant to Subsection H of this section if the department receives a request for a hearing from a licensee:

(2) within four working days after receipt by the licensee of an emergency suspension order or emergency intermediate sanction imposition and notice of hearing if the licensee wishes to waive the early hearing scheduled and request a hearing at a later date; or

(3) within five working days after receipt of a cease-and-desist order.

The department shall also provide timely notice to the licensee of the date, time and place of the hearing, identity of the hearing officer, subject matter of the hearing and alleged violations.

J. A hearing held pursuant to provisions of this section shall be conducted in accordance with adjudicatory hearing rules and procedures adopted by rule of the department. The licensee has the right to be represented by counsel, to present all relevant evidence by means of witnesses and books, papers, documents, records, files and other evidence and to examine all opposing witnesses who appear on any matter relevant to the issues. of any party and issue subpoenas and subpoenas duces tecum prior to or after the commencement of the hearing to compel discovery and the attendance of witnesses and the production of relevant books, papers, documents, records, files and other evidence. Documents or records pertaining to abuse, neglect or exploitation of a resident, client or patient of a health facility or other documents, records or files in the custody of the human services department or the office of the state long-term care ombudsman at the aging and long-term services department that are relevant to the alleged violations are discoverable and admissible as evidence in any hearing.

K. Any party may appeal the final decision of the department pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

L. A complaint about a health facility received by the department pursuant to this section shall be promptly investigated and appropriate action shall be taken if substantiated. The department shall develop a health facilities protocol in conjunction with the human services department, the protective services division of the children, youth and families department, the office of the state long-term care ombudsman and other appropriate agencies to ensure the health, safety and rights of individuals in health facilities. The health facilities protocol shall require:

(1) cross-reference among agencies pursuant to this subsection of an allegation of abuse, neglect or exploitation;

(3) an agency to share its investigative information and findings with other agencies, unless otherwise prohibited by law; and

(4) require the receiving agency to accept the information provided pursuant to Paragraph (3) of this subsection as potential evidence to initiate and conduct investigations.

M. A complaint received by the department pursuant to this section shall not be disclosed publicly in a manner as to identify any individuals or health facilities if upon investigation the complaint is unsubstantiated.

N. Notwithstanding any other provision of this section, when there are reasonable grounds to believe that a child is in imminent danger of abuse or neglect while in the care of a child care facility, whether or not licensed, or upon the receipt of a report pursuant to Section 32A-4-3 NMSA 1978, the department shall consult with the owner or operator of the child care facility. Upon a finding of probable cause, the department shall give the owner or operator notice of its intent to suspend operation of the child care facility and provide an opportunity for a hearing to be held within three

working days, unless waived by the owner or operator. Within seven working days from the day of notice, the secretary shall make a decision, and, if it is determined that any child is in imminent danger of abuse or neglect in the child care facility, the secretary may suspend operation of the child care facility for a period not in excess of fifteen days. Prior to the date of the hearing, the department shall make a reasonable effort to notify the parents of children in the child care facility of the notice and opportunity for hearing given to the owner or operator.

O. Nothing contained in this section or in the Public Health Act shall authorize either the secretary or the department to make any inspection or investigation or to prescribe any rules concerning group homes as defined in Section 9-8-13 NMSA 1978 except as are reasonably necessary or desirable to promote the health and safety of persons using group homes."

the most technically efficient manner possible, using standard network sharing protocol from authorized agencies or their respective communication contractors.

C. Upon notification of an AMBER alert by the requester, a representative of a cellular service company or paging service company may cause a text message to be sent to its customers that use a text messaging service, alerting them that an AMBER alert has been declared and containing such other information about the child and the abductor that may reasonably lead to the expedient and successful end to the abduction."

HOUSE BILL 828, AS AMENDED

Approved April 5, 2005

LAWS 2005, CHAPTER 143

AN ACT

RELATING TO PROBATE; ENACTING THE UNIFORM ESTATE TAX APPORTIONMENT ACT; AMENDING, REPEALING AND ENACTING SECTIONS OF THE UNIFORM PROBATE CODE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 143 Section 1 Laws 2005

Section 1. Section 45-3-102 NMSA 1978 (being Laws 1975, Chapter 257, Section 3-102, as amended) is amended to read:

"45-3-102. NECESSITY OF ORDER OF PROBATE FOR WILL.--Except as provided in Sections 45-3-1201, 45-3-1205 and 45-3-1301 NMSA 1978, to be effective to prove the transfer of any property or to nominate a personal representative, a will must be declared to be valid by an order of informal probate by the probate court or an adjudication of probate by the district court."

Chapter 143 Section 2 Laws 2005

Section 2. Section 45-6-101 NMSA 1978 (being Laws 1992, Chapter 66, Section 17) is amended to read:

"45-6-101. NONPROBATE TRANSFERS ON DEATH.--A provision for a nonprobate transfer on death in an insurance policy, contract of employment, bond, mortgage, promissory note, certificated or uncertificated security, account agreement, custodial agreement, deposit agreement, compensation plan, pension plan, individual retirement plan, employee benefit plan, trust, conveyance, deed of gift, marital property agreement or other written instrument of a similar nature is nontestamentary. This section includes a written provision that:

A. money or other benefits due to, controlled by or owned by a decedent before death must be paid after the decedent's death to a person whom the decedent designates either in the instrument or in a separate writing, including a will, executed either before or at the same time as the instrument, or later;

B. money due or to become due under the instrument ceases to be payable in the event of death of the promisee or the promisor before payment or demand; or

C. any property controlled by or owned by the decedent before death that is the subject of the instrument passes to a person the decedent designates either in the instrument or in a separate writing, including a will, executed either before or at the same time as the instrument, or later."

Chapter 143 Section 3 Laws 2005

Section 3. A new section of the Uniform Probate Code, Section 45-6-102 NMSA 1978, is enacted to read:

"45-6-102. LIABILITY OF NONPROBATE TRANSFEREES FOR CREDITOR CLAIMS AND STATUTORY ALLOWANCES.--

A. In this section, "nonprobate transfer" means a valid transfer effective at death, other than a transfer of a survivorship interest in a joint tenancy of real estate, by a transferor whose last domicile was in this state to the extent that the transferor immediately before death had power, acting alone, to prevent the transfer by revocation or withdrawal and instead to use the property for the benefit of the transferor or apply it to discharge claims against the transferor's probate estate.

B. Except as otherwise provided by statute, a transferee of a nonprobate transfer is subject to liability to any probate estate of the decedent for allowed claims against the decedent's probate estate and statutory allowances to the decedent's spouse and children to the extent the estate is insufficient to satisfy those claims and allowances. The liability of a nonprobate transferee may not exceed the value of nonprobate transfers received or controlled by that transferee.

C. Nonprobate transferees are liable for the insufficiency described in Subsection B of this section in the following order of priority:

(1) a transferee designated in the decedent's will or any other governing instrument, as provided in the instrument;

(2) the trustee of a trust serving as the principal nonprobate instrument in the decedent's estate plan as shown by its designation as devisee of the decedent's residuary estate or by other facts or circumstances, to the extent of the value of the nonprobate transfer received or controlled; and

(3) other nonprobate transferees, in proportion to the values received.

D. Unless otherwise provided by the trust instrument, interests of beneficiaries in all trusts incurring liabilities under this section abate as necessary to satisfy the liability, as if all of the trust instruments were a single will and the interests were devised under it.

E. A provision made in one instrument may direct the apportionment of the liability among the nonprobate transferees taking under that or any other governing instrument. If a provision in one instrument conflicts with a provision in another, the later one prevails.

F. Upon due notice to a nonprobate transferee, the liability imposed by this section is enforceable in proceedings in this state, whether or not the transferee is located in this state.

G. A proceeding under this section may not be commenced unless the personal representative of the decedent's estate has received a written demand for the proceeding from the surviving spouse or a child, to the extent that statutory allowances are affected, or a creditor. If the personal representative declines or fails to commence a proceeding after demand, a person making demand may commence the proceeding in the name of the decedent's estate, at the expense of the person making the demand and not of the estate. A personal representative who declines in good faith to commence a requested proceeding incurs no personal liability for declining.

H. A proceeding under this section must be commenced within one year after the decedent's death, but a proceeding on behalf of a creditor whose claim was allowed after proceedings challenging disallowance of the claim may be commenced within sixty days after final allowance of the claim.

I. Unless a written notice asserting that a decedent's probate estate is nonexistent or insufficient to pay allowed claims and statutory allowances has been received from the decedent's personal representative, the following rules apply:

(1) payment or delivery of assets by a financial institution, registrar or other obligor to a nonprobate transferee in accordance with the terms of the governing instrument controlling the transfer releases the obligor from all claims for amounts paid or assets delivered; and

(2) a trustee receiving or controlling a nonprobate transfer is released from liability under this section with respect to any assets distributed to the trust's beneficiaries. Each beneficiary to the extent of the distribution received becomes liable for the amount of the trustee's liability attributable to assets received by the beneficiary."

Chapter 143 Section 4 Laws 2005

Section 4. Section 45-6-309 NMSA 1978 (being Laws 1992, Chapter 66, Section 45) is amended to read:

"45-6-309. NONTESTAMENTARY TRANSFER ON DEATH.--A transfer on death resulting from a registration in beneficiary form is effective by reason of the contract regarding the registration between the owner and the registering entity and Sections 45-6-301 through 45-6-311 NMSA 1978 and is not testamentary."

Chapter 143 Section 5 Laws 2005

Section 5. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"SHORT TITLE.--Sections 5 through 17 of this act may be cited as the "Uniform Estate Tax Apportionment Act"."

Chapter 143 Section 6 Laws 2005

Section 6. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"DEFINITIONS.--As used in the Uniform Estate Tax Apportionment Act:

A. "apportionable estate" means the value of the gross estate as finally determined for purposes of the estate tax to be apportioned reduced by:

(1) any claim or expense allowable as a deduction for purposes of the tax;

(2) the value of any interest in property that, for purposes of the tax, qualifies for a marital or charitable deduction or otherwise is deductible or is exempt; and

(3) any amount added to the decedent's gross estate because of a gift tax on transfers made before death;

B. "estate tax" means a federal, state or foreign tax imposed because of the death of an individual and interest and penalties associated with the tax. The term does not include an inheritance tax, income tax or generation-skipping transfer tax other than a generation-skipping transfer tax incurred on a direct skip taking effect at death;

C. "gross estate" means, with respect to an estate tax, all interests in property subject to the tax;

D. "person" means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, public corporation, government, governmental subdivision, agency or instrumentality, or any other legal or commercial entity;

E. "ratable" means apportioned or allocated pro rata according to the relative values of interests to which the term is to be applied. "Ratably" has a corresponding meaning;

F. "time-limited interest" means an interest in property which terminates on a lapse of time or on the occurrence or nonoccurrence of an event or which is subject to the exercise of discretion that could transfer a beneficial interest to another person. The term does not include a cotenancy unless the cotenancy itself is a time-limited interest; and

G. "value" means, with respect to an interest in property, fair market value as finally determined for purposes of the estate tax that is to be apportioned, reduced by any outstanding debt secured by the interest without reduction for taxes paid or required to be paid or for any special valuation adjustment."

Chapter 143 Section 7 Laws 2005

Section 7. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"APPORTIONMENT BY WILL OR OTHER DISPOSITIVE INSTRUMENT.--

A. Except as otherwise provided in Subsection C of this section, the following rules apply:

(1) to the extent that a provision of a decedent's will expressly and unambiguously directs the apportionment of an estate tax, the tax must be apportioned accordingly;

(2) any portion of an estate tax not apportioned pursuant to Paragraph (1) of this subsection must be apportioned in accordance with any provision of a revocable trust of which the decedent was the settlor that expressly and unambiguously directs the apportionment of an estate tax. If conflicting apportionment provisions appear in two or more revocable trust instruments, the provision in the most recently dated instrument prevails. For purposes of this paragraph:

(a) a trust is revocable if it was revocable immediately after the trust instrument was executed, even if the trust subsequently becomes irrevocable; and

(b) the date of an amendment to a revocable trust instrument is the date of the amended instrument only if the amendment contains an apportionment provision; and

(3) if any portion of an estate tax is not apportioned pursuant to Paragraph (1) or (2) of this subsection, and a provision in any other dispositive instrument expressly and unambiguously directs that any interest in the property disposed of by the instrument is or is not to be applied to the payment of the estate tax attributable to the interest disposed of by the instrument, the provision controls the apportionment of the tax to that interest.

B. Subject to Subsection C of this section, and unless the decedent expressly and unambiguously directs the contrary, the following rules apply:

(1) if an apportionment provision directs that a person receiving an interest in property under an instrument is to be exonerated from the responsibility to pay an estate tax that would otherwise be apportioned to the interest:

(a) the tax attributable to the exonerated interest must be apportioned among the other persons receiving interests passing under the instrument; or

(b) if the values of the other interests are less than the tax attributable to the exonerated interest, the deficiency must be apportioned ratably among the other persons receiving interests in the apportionable estate that are not exonerated from apportionment of the tax;

(2) if an apportionment provision directs that an estate tax is to be apportioned to an interest in property a portion of which qualifies for a marital or charitable deduction, the estate tax must first be apportioned ratably among the holders of the portion that does not qualify for a marital or charitable deduction and then apportioned ratably among the holders of the deductible portion to the extent that the value of the nondeductible portion is insufficient;

(3) except as otherwise provided in Paragraph (4) of this subsection, if an apportionment provision directs that an estate tax be apportioned to property in which one or more time-limited interests exist, other than interests in specified property under Section 11 of this act, the tax must be apportioned to the principal of that property, regardless of the deductibility of some of the interests in that property; and

(4) if an apportionment provision directs that an estate tax is to be apportioned to the holders of interests in property in which one or more time-limited interests exist and a charity has an interest that otherwise qualifies for an estate tax charitable deduction, the tax must first be apportioned, to the extent feasible, to interests in property that have not been distributed to the persons entitled to receive the interests.

C. A provision that apportions an estate tax is ineffective to the extent that it increases the tax apportioned to a person having an interest in the gross estate over which the decedent had no power to transfer immediately before the decedent executed the instrument in which the apportionment direction was made. For purposes of this subsection, a testamentary power of appointment is a power to transfer the property that is subject to the power."

Chapter 143 Section 8 Laws 2005

Section 8. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"STATUTORY APPORTIONMENT OF ESTATE TAXES.--To the extent that apportionment of an estate tax is not controlled by an instrument described in Section 7 of this act and except as otherwise provided in Sections 10 and 11 of this act, the following rules apply:

A. subject to Subsections B, C and D of this section, the estate tax is apportioned ratably to each person that has an interest in the apportionable estate;

B. a generation-skipping transfer tax incurred on a direct skip taking effect at death is charged to the person to which the interest in property is transferred;

C. if property is included in the decedent's gross estate because of Section 2044 of the federal Internal Revenue Code of 1986 or any similar estate tax provision, the difference between the total estate tax for which the decedent's estate is liable and the amount of estate tax for which the decedent's estate would have been liable if the property had not been included in the decedent's gross estate is apportioned ratably among the holders of interests in the property. The balance of the tax, if any, is apportioned ratably to each other person having an interest in the apportionable estate; and

D. except as otherwise provided in Paragraph (4) of Subsection B of Section 7 of this act and except as to property to which Section 11 of this act applies, an estate tax apportioned to persons holding interests in property subject to a time-limited interest must be apportioned, without further apportionment, to the principal of that property."

Chapter 143 Section 9 Laws 2005

Section 9. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"CREDITS AND DEFERRALS.--Except as otherwise provided in Sections 10 and 11 of this act, the following rules apply to credits and deferrals of estate taxes:

A. a credit resulting from the payment of gift taxes or from estate taxes paid on property previously taxed inures ratably to the benefit of all persons to which the estate tax is apportioned;

B. a credit for state or foreign estate taxes inures ratably to the benefit of all persons to which the estate tax is apportioned, except that the amount of a credit for a state or foreign tax paid by a beneficiary of the property on which the state or foreign tax was imposed, directly or by a charge against the property, inures to the benefit of the beneficiary; and

C. if payment of a portion of an estate tax is deferred because of the inclusion in the gross estate of a particular interest in property, the benefit of the deferral inures ratably to the persons to which the estate tax attributable to the interest is apportioned. The burden of any interest charges incurred on a deferral of taxes and the benefit of any tax deduction associated with the accrual or payment of the interest charge is allocated ratably among the persons receiving an interest in the property."

Chapter 143 Section 10 Laws 2005

Section 10. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"INSULATED PROPERTY--ADVANCEMENT OF TAX.--

A. In this section:

(1) "advanced fraction" means a fraction that has as its numerator the amount of the advanced tax and as its denominator the value of the interests in insulated property to which that tax is attributable;

(2) "advanced tax" means the aggregate amount of estate tax attributable to interests in insulated property that is required to be advanced by uninsulated holders under Subsection C of this section;

(3) "insulated property" means property subject to a time-limited interest that is included in the apportionable estate but is unavailable for payment of an estate tax because of impossibility or impracticability;

(4) "uninsulated holder" means a person who has an interest in uninsulated property; and

(5) "uninsulated property" means property included in the apportionable estate other than insulated property.

B. If an estate tax is to be advanced pursuant to Subsection C of this section by persons holding interests in uninsulated property subject to a time-limited interest other than property to which Section 11 of this act applies, the tax must be advanced, without further apportionment, from the principal of the uninsulated property.

C. Subject to Subsections B and D of Section 13 of this act, an estate tax attributable to interests in insulated property must be advanced ratably by uninsulated holders. If the value of an interest in uninsulated property is less than the amount of estate taxes otherwise required to be advanced by the holder of that interest, the deficiency must be advanced ratably by the persons holding interests in properties that are excluded from the apportionable estate under Paragraph (2) of Subsection A of Section 6 of this act as if those interests were in uninsulated property.

D. A court having jurisdiction to determine the apportionment of an estate tax may require a beneficiary of an interest in insulated property to pay all or part of the estate tax otherwise apportioned to the interest if the court finds that it would be substantially more equitable for that beneficiary to bear the tax liability personally than for that part of the tax to be advanced by uninsulated holders.

E. When a distribution of insulated property is made, each uninsulated holder may recover from the distributee a ratable portion of the advanced fraction of the property distributed. To the extent that undistributed insulated property ceases to be insulated, each uninsulated holder may recover from the property a ratable portion of the advanced fraction of the total undistributed property.

F. Upon a distribution of insulated property for which, pursuant to Subsection D of this section, the distributee becomes obligated to make a payment to uninsulated holders, a court may award an uninsulated holder a recordable lien on the distributee's property to secure the distributee's obligation to that uninsulated holder."

Chapter 143 Section 11 Laws 2005

Section 11. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"APPORTIONMENT AND RECAPTURE OF SPECIAL ELECTIVE BENEFITS.--

A. In this section:

(1) "special elective benefit" means a reduction in an estate tax obtained by an election for:

(a) a reduced valuation of specified property that is included in the gross estate;

(b) a deduction from the gross estate, other than a marital or charitable deduction, allowed for specified property; or

(c) an exclusion from the gross estate of specified property; and

(2) "specified property" means property for which an election has been made for a special elective benefit.

B. If an election is made for one or more special elective benefits, an initial apportionment of a hypothetical estate tax must be computed as if no election for any of those benefits had been made. The aggregate reduction in estate tax resulting from all elections made must be allocated among holders of interests in the specified property in the proportion that the amount of deduction, reduced valuation or exclusion attributable to each holder's interest bears to the aggregate amount of deductions, reduced valuations and exclusions obtained by the decedent's estate from the elections. If the estate tax initially apportioned to the holder of an interest in specified property is reduced to zero, any excess amount of reduction reduces ratably the estate tax apportioned to other persons that receive interests in the apportionable estate.

C. An additional estate tax imposed to recapture all or part of a special elective benefit must be charged to the persons that are liable for the additional tax under the law providing for the recapture."

Chapter 143 Section 12 Laws 2005

Section 12. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"SECURING PAYMENT OF ESTATE TAX FROM PROPERTY IN POSSESSION OF FIDUCIARY.--

A. A fiduciary may defer a distribution of property until the fiduciary is satisfied that adequate provision for payment of the estate tax has been made.

B. A fiduciary may withhold from a distributee an amount equal to the amount of estate tax apportioned to an interest of the distributee.

C. As a condition to a distribution, a fiduciary may require the distributee to provide a bond or other security for the portion of the estate tax apportioned to the distributee."

Chapter 143 Section 13 Laws 2005

Section 13. A new section of the Uniform Probate Code, Part 9A, is enacted to read:

"COLLECTION OF ESTATE TAX BY FIDUCIARY.--

A. A fiduciary responsible for payment of an estate tax may collect from any person the tax apportioned to and the tax required to be advanced by the person.

B. Except as otherwise provided in Section 10 of this act, any estate tax due from a person that cannot be collected from the person may be collected by the fiduciary from other persons in the following order of priority:

(1) any person having an interest in the apportionable estate that is not exonerated from the tax;

(2) any other person having an interest in the apportionable estate;
and

(3) any person having an interest in the gross estate.

C. A domiciliary fiduciary may recover from an ancillary personal representative the estate tax apportioned to the property controlled by the ancillary personal representative.

D. The total tax collected from a person pursuant to the Uniform Estate Tax Apportionment Act may not exceed the value of the person's interest."

(d) A person "notifies" or "gives" a notice or notification to another person by taking such steps as may be reasonably required to inform the other person in ordinary course, whether or not the other person actually comes to know of it.

(e) Subject to Subsection (f) of this section, a person "receives" a notice or notification when:

(1) it comes to that person's attention; or

(2) it is duly delivered in a form reasonable under the circumstances at the place of business through which the contract was made or at another location held out by that person as the place for receipt of such communications.

(f) Notice, knowledge or a notice or notification received by an organization is effective for a particular transaction from the time it is brought to the attention of the individual conducting that transaction and, in any event, from the time it would have been brought to the individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless the communication is part of the individual's regular duties or the individual has reason to know of the transaction and that the transaction would be materially affected by the information."

Chapter 144 Section 11 Laws 2005

Section 11. Section 55-1-203 NMSA 1978 (being Laws 1961, Chapter 96, Section 1-203) is repealed and a new Section 55-1-203 NMSA 1978 is enacted to read:

"55-1-203. LEASE DISTINGUISHED FROM SECURITY INTEREST.--

(a) Whether a transaction in the form of a lease creates a lease or security interest is determined by the facts of each case.

(b) A transaction in the form of a lease creates a security interest if the consideration that the lessee is to pay the lessor for the right to possession and use of the goods is an obligation for the term of the lease and is not subject to termination by the lessee, and:

(1) the original term of the lease is equal to or greater than the remaining economic life of the goods;

(2) the lessee is bound to renew the lease for the remaining economic life of the goods or is bound to become the owner of the goods;

(3) the lessee has an option to renew the lease for the remaining economic life of the goods for no additional consideration or for nominal additional consideration upon compliance with the lease agreement; or

(4) the lessee has an option to become the owner of the goods for no additional consideration or for nominal additional consideration upon compliance with the lease agreement.

(c) A transaction in the form of a lease does not create a security interest merely because:

(1) the present value of the consideration the lessee is obligated to pay the lessor for the right to possession and use of the goods is substantially equal to or is greater than the fair market value of the goods at the time the lease is entered into;

(2) the lessee assumes risk of loss of the goods;

(3) the lessee agrees to pay, with respect to the goods, taxes, insurance, filing, recording or registration fees, or service or maintenance costs;

(4) the lessee has an option to renew the lease or to become the owner of the goods;

(5) the lessee has an option to renew the lease for a fixed rent that is equal to or greater than the reasonably predictable fair market rent for the use of the goods for the term of the renewal at the time the option is to be performed; or

(6) the lessee has an option to become the owner of the goods for a fixed price that is equal to or greater than the reasonably predictable fair market value of the goods at the time the option is to be performed.

(d) Additional consideration is nominal if it is less than the lessee's reasonably predictable cost of performing under the lease agreement if the option is not exercised. Additional consideration is not nominal if:

(1) when the option to renew the lease is granted to the lessee, the rent is stated to be the fair market rent for the use of the goods for the term of the renewal determined at the time the option is to be performed; or

(2) when the option to become the owner of the goods is granted to the lessee, the price is stated to be the fair market value of the goods determined at the time the option is to be performed.

(e) The "remaining economic life of the goods" and "reasonably predictable" fair market rent, fair market value or cost of performing under the lease agreement must be determined with reference to the facts and circumstances at the time the transaction is entered into."

"55-1-204. VALUE.--Except as otherwise provided in Chapter 55, Articles 3, 4 and 5, a person gives value for rights if the person acquires them:

(1) in return for a binding commitment to extend credit or for the extension of immediately available credit, whether or not drawn upon and whether or not a charge-back is provided for in the event of difficulties in collection;

(2) as security for, or in total or partial satisfaction of, a preexisting claim;

(3) by accepting delivery under a preexisting contract for purchase; or

(4) in return for any consideration sufficient to support a simple contract."

Chapter 144 Section 13 Laws 2005

"55-1-205. REASONABLE TIME--SEASONABLENESS.--

(a) Whether a time for taking an action required by the Uniform Commercial Code is reasonable depends on the nature, purpose and circumstances of the action.

(b) An action is taken seasonably if it is taken at or within the time agreed or, if no time is agreed, at or within a reasonable time."

Chapter 144 Section 14 Laws 2005

"55-1-206. PRESUMPTIONS.--Whenever the Uniform Commercial Code creates a "presumption" with respect to a fact, or provides that a fact is "presumed", the trier of fact must find the existence of the fact unless and until evidence is introduced that supports a finding of its nonexistence."

PART 3

TERRITORIAL APPLICABILITY AND GENERAL RULES

Chapter 144 Section 15 Laws 2005

Section 15. A new section of the Uniform Commercial Code, Section 55-1-301 NMSA 1978, is enacted to read:

"55-1-301. TERRITORIAL APPLICABILITY; PARTIES' POWER TO CHOOSE APPLICABLE LAW.--

A. Except as otherwise provided in this section, when a transaction bears a reasonable relation to this state and also to another state or nation the parties may agree that the law either of this state or of such other state or nation shall govern their rights and duties.

B. In the absence of an agreement effective under Subsection A of this section, and except as provided in Subsection C of this section, the Uniform Commercial Code applies to transactions bearing an appropriate relation to this state.

C. If one of the following provisions of the Uniform Commercial Code specifies the applicable law, that provision governs and a contrary agreement is effective only to the extent permitted by the law so specified:

- (1) Section 55-2-402 NMSA 1978;
- (2) Sections 55-2A-105 and 55-2A-106 NMSA 1978;
- (3) Section 55-4-102 NMSA 1978;
- (4) Section 55-4A-507 NMSA 1978;
- (5) Section 55-5-116 NMSA 1978;
- (6) Section 55-8-110 NMSA 1978; and
- (7) Sections 55-9-301 through 55-9-307 NMSA 1978."

Chapter 144 Section 16 Laws 2005

Section 16. A new section of the Uniform Commercial Code, Section 55-1-302 NMSA 1978, is enacted to read:

"55-1-302. VARIATION BY AGREEMENT.--

(a) Except as otherwise provided in Subsection (b) of this section or elsewhere in the Uniform Commercial Code, the effect of provisions of the Uniform Commercial Code may be varied by agreement.

(b) The obligations of good faith, diligence, reasonableness and care prescribed by the Uniform Commercial Code may not be disclaimed by agreement. The

parties, by agreement, may determine the standards by which the performance of those obligations is to be measured if those standards are not manifestly unreasonable. Whenever the Uniform Commercial Code requires an action to be taken within a reasonable time, a time that is not manifestly unreasonable may be fixed by agreement.

(c) The presence in certain provisions of the Uniform Commercial Code of the phrase "unless otherwise agreed", or words of similar import, does not imply that the effect of other provisions may not be varied by agreement under this section."

Chapter 144 Section 17 Laws 2005

Section 17. A new section of the Uniform Commercial Code, Section 55-1-303 NMSA 1978, is enacted to read:

"55-1-303. COURSE OF PERFORMANCE, COURSE OF DEALING AND USAGE OF TRADE.--

(a) A "course of performance" is a sequence of conduct between the parties to a particular transaction that exists if:

(1) the agreement of the parties with respect to the transaction involves repeated occasions for performance by a party; and

(2) the other party, with knowledge of the nature of the performance and opportunity for objection to it, accepts the performance or acquiesces in it without objection.

(b) A "course of dealing" is a sequence of conduct concerning previous transactions between the parties to a particular transaction that is fairly to be regarded as establishing a common basis of understanding for interpreting their expressions and other conduct.

(c) A "usage of trade" is any practice or method of dealing having such regularity of observance in a place, vocation or trade as to justify an expectation that it will be observed with respect to the transaction in question. The existence and scope of such a usage must be proved as facts. If it is established that such a usage is embodied in a trade code or similar record, the interpretation of the record is a question of law.

(d) A course of performance or course of dealing between the parties or usage of trade in the vocation or trade in which they are engaged or of which they are or should be aware is relevant in ascertaining the meaning of the parties' agreement, may give particular meaning to specific terms of the agreement and may supplement or qualify the terms of the agreement. A usage of trade applicable in the place in which part of the performance under the agreement is to occur may be so utilized as to that part of the performance.

(e) Except as otherwise provided in Subsection (f) of this section, the express terms of an agreement and any applicable course of performance, course of dealing or usage of trade must be construed whenever reasonable as consistent with each other. If such a construction is unreasonable:

(1) express terms prevail over course of performance, course of dealing, and usage of trade;

(2) course of performance prevails over course of dealing and usage of trade; and

(3) course of dealing prevails over usage of trade.

(f) Subject to Section 55-2-209 NMSA 1978, a course of performance is relevant to show a waiver or modification of any term inconsistent with the course of performance.

(g) Evidence of a relevant usage of trade offered by one party is not admissible unless that party has given the other party notice that the court finds sufficient to prevent unfair surprise to the other party."

"55-2-104. DEFINITIONS--"MERCHANT"--"BETWEEN MERCHANTS"--
"FINANCING AGENCY".--

(1) "Merchant" means a person who deals in goods of the kind or otherwise by his occupation holds himself out as having knowledge or skill peculiar to the practices or goods involved in the transaction or to whom such knowledge or skill may be attributed by his employment of an agent or broker or other intermediary who by his occupation holds himself out as having such knowledge or skill.

(2) "Financing agency" means a bank, finance company or other person who in the ordinary course of business makes advances against goods or documents of title or who by arrangement with either the seller or the buyer intervenes in ordinary course to make or collect payment due or claimed under the contract for sale, as by purchasing or paying the seller's draft or making advances against it or by merely taking it for collection whether or not documents of title accompany or are associated with the draft. "Financing agency" includes also a bank or other person who similarly intervenes between persons who are in the position of seller and buyer in respect to the goods (Section 55-2-707 NMSA 1978).

(3) "Between merchants" means in any transaction with respect to which both parties are chargeable with the knowledge or skill of merchants."

Chapter 144 Section 27 Laws 2005

Section 27. Section 55-2-202 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-202) is amended to read:

"55-2-202. FINAL WRITTEN EXPRESSION--PAROL OR EXTRINSIC EVIDENCE.--Terms with respect to which the confirmatory memoranda of the parties agree or that are otherwise set forth in a writing intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented:

(a) by course of performance, course of dealing or usage of trade (Section 55-1-303 NMSA 1978); and

(b) by evidence of consistent additional terms unless the court finds the writing to have been intended also as a complete and exclusive statement of the terms of the agreement."

Chapter 144 Section 28 Laws 2005

Section 28. Section 55-2-310 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-310) is amended to read:

"55-2-310. OPEN TIME FOR PAYMENT OR RUNNING OF CREDIT--AUTHORITY TO SHIP UNDER RESERVATION.--Unless otherwise agreed:

(a) payment is due at the time and place at which the buyer is to receive the goods even though the place of shipment is the place of delivery; and

(b) if the seller is authorized to send the goods, the seller may ship them under reservation, and may tender the documents of title, but the buyer may inspect the goods after their arrival before payment is due unless such inspection is inconsistent with the terms of the contract (Section 55-2-513 NMSA 1978); and

(c) if delivery is authorized and made by way of documents of title otherwise than by Subsection (b) of this section then payment is due regardless of where the goods are to be received: (i) at the time and place at which the buyer is to receive delivery of the tangible documents or (ii) at the time the buyer is to receive delivery of the electronic documents and at the seller's place of business or, if none, the seller's residence; and

(d) where the seller is required or authorized to ship the goods on credit the credit period runs from the time of shipment but post-dating the invoice or delaying its dispatch will correspondingly delay the starting of the credit period."

Chapter 144 Section 29 Laws 2005

Section 29. Section 55-2-323 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-323) is amended to read:

"55-2-323. FORM OF BILL OF LADING REQUIRED ON OVERSEAS SHIPMENT--"OVERSEAS".--

(1) Where the contract contemplates overseas shipment and contains a term C.I.F. or C.&F. or F.O.B. vessel, the seller unless otherwise agreed must obtain a negotiable bill of lading stating that the goods have been loaded on board or, in the case of a term C.I.F. or C.&F., received for shipment.

(2) Where in a case within Subsection (1) of this section a tangible bill of lading has been issued in a set of parts, unless otherwise agreed if the documents are not to be sent from abroad the buyer may demand tender of the full set; otherwise only one part of the bill of lading need be tendered. Even if the agreement expressly requires a full set:

(a) due tender of a single part is acceptable within the provisions of this article on cure of improper delivery (Subsection (1) of Section 55-2-508 NMSA 1978); and

(b) even though the full set is demanded, if the documents are sent from abroad the person tendering an incomplete set may nevertheless require payment upon furnishing an indemnity that the buyer in good faith deems adequate.

(3) A shipment by water or by air or a contract contemplating such shipment is "overseas" insofar as, by usage of trade or agreement, it is subject to the commercial, financing or shipping practices characteristic of international deep water commerce."

Chapter 144 Section 30 Laws 2005

Section 30. Section 55-2-401 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-401) is amended to read:

"55-2-401. PASSING OF TITLE--RESERVATION FOR SECURITY--LIMITED APPLICATION OF THIS SECTION.--Each provision of this article with regard to the rights, obligations and remedies of the seller, the buyer, purchasers or other third parties applies irrespective of title to the goods except where the provision refers to such title. Insofar as situations are not covered by the other provisions of this article and matters concerning title become material, the following rules apply:

(1) title to goods cannot pass under a contract for sale prior to their identification to the contract (Section 55-2-501 NMSA 1978), and unless otherwise explicitly agreed, the buyer acquires by their identification a special property as limited by the Uniform Commercial Code. Any retention or reservation by the seller of the title

(property) in goods shipped or delivered to the buyer is limited in effect to a reservation of a security interest. Subject to these provisions and to the provisions of Chapter 55, Article 9 NMSA 1978, title to goods passes from the seller to the buyer in any manner and on any conditions explicitly agreed on by the parties;

(2) unless otherwise explicitly agreed, title passes to the buyer at the time and place at which the seller completes his performance with reference to the physical delivery of the goods, despite any reservation of a security interest and even though a document of title is to be delivered at a different time or place and in particular and despite any reservation of a security interest by the bill of lading:

(a) if the contract requires or authorizes the seller to send the goods to the buyer but does not require the seller to deliver them at destination, title passes to the buyer at the time and place of shipment; but

(b) if the contract requires delivery at destination, title passes on tender there;

(3) unless otherwise explicitly agreed where delivery is to be made without moving the goods:

(a) if the seller is to deliver a tangible document of title, title passes at the time when and the place where the seller delivers such documents and if the seller is to deliver an electronic document of title, title passes when the seller delivers the document; or

(b) if the goods are at the time of contracting already identified and no documents are to be delivered, title passes at the time and place of contracting; and

(4) a rejection or other refusal by the buyer to receive or retain the goods, whether or not justified, or a justified revocation of acceptance reverts title to the goods in the seller. Such reversion occurs by operation of law and is not a "sale".

Chapter 144 Section 31 Laws 2005

Section 31. Section 55-2-503 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-503) is amended to read:

"55-2-503. MANNER OF SELLER'S TENDER OF DELIVERY.--

(1) Tender of delivery requires that the seller put and hold conforming goods at the buyer's disposition and give the buyer any notification reasonably necessary to enable the buyer to take delivery. The manner, time and place for tender are determined by the agreement and this article, and in particular:

(a) tender must be at a reasonable hour, and if it is of goods they must be kept available for the period reasonably necessary to enable the buyer to take possession; but

(b) unless otherwise agreed the buyer must furnish facilities reasonably suited to the receipt of the goods.

(2) Where the case is within Section 55-2-504 NMSA 1978 respecting shipment tender requires that the seller comply with its provisions.

(3) Where the seller is required to deliver at a particular destination tender requires that the seller comply with Subsection (1) of this section and also in any appropriate case tender documents as described in Subsections (4) and (5) of this section.

(4) Where goods are in the possession of the bailee and are to be delivered without being moved:

(a) tender requires that the seller either tender a negotiable document of title covering such goods or procure acknowledgement of the bailee of the buyer's right to possession of the goods; but

(b) tender to the buyer of a nonnegotiable document of title or of a record directing the bailee to deliver is sufficient tender unless the buyer seasonably objects, and except as otherwise provided in Chapter 55, Article 9 NMSA 1978, receipt by the bailee of notification of the buyer's rights fixes those rights as against the bailee and all third persons; but risk of loss of the goods and of any failure by the bailee to honor the nonnegotiable document of title or to obey the direction remains on the seller until the buyer has had a reasonable time to present the document or direction, and a refusal by the bailee to honor the document or to obey the direction defeats the tender.

(5) Where the contract requires the seller to deliver documents:

(a) the seller must tender all such documents in correct form, except as provided in this article with respect to bills of lading in a set (Subsection (2) of Section 55-2-323 NMSA 1978); and

(b) tender through customary banking channels is sufficient and dishonor of a draft accompanying or associated with the documents constitutes nonacceptance or rejection."

Chapter 144 Section 32 Laws 2005

Section 32. Section 55-2-505 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-505) is amended to read:

"55-2-505. SELLER'S SHIPMENT UNDER RESERVATION.--

(1) Where the seller has identified goods to the contract by or before shipment:

(a) his procurement of a negotiable bill of lading to his own order or otherwise reserves in him a security interest in the goods. His procurement of the bill to the order of a financing agency or of the buyer indicates in addition only the seller's expectation of transferring that interest to the person named; and

(b) a nonnegotiable bill of lading to himself or his nominee reserves possession of the goods as security but except in a case of conditional delivery (Subsection (2) of Section 55-2-507 NMSA 1978) a nonnegotiable bill of lading naming the buyer as consignee reserves no security interest even though the seller retains possession or control of the bill of lading.

(2) When shipment by the seller with reservation of a security interest is in violation of the contract for sale, it constitutes an improper contract for transportation within the preceding section but impairs neither the rights given to the buyer by shipment and identification of the goods to the contract nor the seller's powers as a holder of a negotiable document of title."

Chapter 144 Section 33 Laws 2005

Section 33. Section 55-2-506 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-506) is amended to read:

"55-2-506. RIGHTS OF FINANCING AGENCY.--

(1) A financing agency by paying or purchasing for value a draft that relates to a shipment of goods acquires to the extent of the payment or purchase and in addition to its own rights under the draft and any document of title securing it any rights of the shipper in the goods, including the right to stop delivery and the shipper's right to have the draft honored by the buyer.

(2) The right to reimbursement of a financing agency that has in good faith honored or purchased the draft under commitment to or authority from the buyer is not impaired by subsequent discovery of defects with reference to any relevant document that was apparently regular."

Chapter 144 Section 34 Laws 2005

Section 34. Section 55-2-509 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-509) is amended to read:

"55-2-509. RISK OF LOSS IN THE ABSENCE OF BREACH.--

(1) Where the contract requires or authorizes the seller to ship the goods by carrier:

(a) if it does not require the seller to deliver them at a particular destination, the risk of loss passes to the buyer when the goods are duly delivered to the carrier even though the shipment is under reservation (Section 55-2-505 NMSA 1978); but

(b) if it does require the seller to deliver them at a particular destination and the goods are there duly tendered while in the possession of the carrier, the risk of loss passes to the buyer when the goods are there duly so tendered as to enable the buyer to take delivery.

(2) Where the goods are held by a bailee to be delivered without being moved, the risk of loss passes to the buyer:

(a) on the buyer's receipt of possession or control of a negotiable document of title covering the goods; or

(b) on acknowledgement by the bailee of the buyer's right to possession of the goods; or

(c) after the buyer's receipt of possession or control of a nonnegotiable document of title or other direction to deliver in a record, as provided in Paragraph (b) of Subsection (4) of Section 55-2-503 NMSA 1978.

(3) In any case not within Subsection (1) or (2) of this section, the risk of loss passes to the buyer on the buyer's receipt of the goods if the seller is a merchant; otherwise the risk passes to the buyer on tender of delivery.

(4) The provisions of this section are subject to contrary agreement of the parties and to the provisions of this article on sale on approval (Section 55-2-327 NMSA 1978) and on effect of breach on risk of loss (Section 55-2-510 NMSA 1978)."

Chapter 144 Section 35 Laws 2005

Section 35. Section 55-2-605 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-605) is amended to read:

"55-2-605. WAIVER OF BUYER'S OBJECTIONS BY FAILURE TO PARTICULARIZE.--

(1) The buyer's failure to state in connection with rejection a particular defect that is ascertainable by reasonable inspection precludes the buyer from relying on the unstated defect to justify rejection or to establish breach:

(a) where the seller could have cured it if stated seasonably; or

(b) between merchants when the seller has after rejection made a request in writing for a full and final written statement of all defects on which the buyer proposes to rely.

(2) Payment against documents made without reservation of rights precludes recovery of the payment for defects apparent in the documents."

Chapter 144 Section 36 Laws 2005

Section 36. Section 55-2-705 NMSA 1978 (being Laws 1961, Chapter 96, Section 2-705) is amended to read:

"55-2-705. SELLER'S STOPPAGE OF DELIVERY IN TRANSIT OR OTHERWISE.--

(1) The seller may stop delivery of goods in the possession of a carrier or other bailee when the seller discovers the buyer to be insolvent (Section 55-2-702 NMSA 1978) and may stop delivery of carload, truckload, planeload or larger shipments of express or freight when the buyer repudiates or fails to make a payment due before delivery or if for any other reason the seller has a right to withhold or reclaim the goods.

(2) As against such buyer, the seller may stop delivery until:

(a) receipt of the goods by the buyer; or

(b) acknowledgment to the buyer by any bailee of the goods except a carrier that the bailee holds the goods for the buyer; or

(c) such acknowledgment to the buyer by a carrier by reshipment or as a warehouse; or

(d) negotiation to the buyer of any negotiable document of title covering the goods.

(3) (a) To stop delivery the seller must so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.

(b) After such notification the bailee must hold and deliver the goods according to the directions of the seller but the seller is liable to the bailee for any ensuing charges or damages.

(c) If a negotiable document of title has been issued for goods the bailee is not obliged to obey a notification to stop until surrender of possession or control of the document.

(d) A carrier who has issued a nonnegotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor."

Chapter 144 Section 37 Laws 2005

Section 37. Section 55-2A-103 NMSA 1978 (being Laws 1992, Chapter 114, Section 10, as amended) is amended to read:

(D) if the lease is not a consumer lease, the lessor, before the lessee signs the lease contract, informs the lessee in writing (a) of the identity of the person supplying the goods to the lessor, unless the lessee has selected that person and directed the lessor to acquire the goods or the right to possession and use of the goods from that person; (b) that the lessee is entitled under this article to the promises and warranties, including those of any third party, provided to the lessor by the person supplying the goods in connection with or as part of the contract by which the lessor acquired the goods or the right to possession and use of the goods; and (c) that the lessee may communicate with the person supplying the goods to the lessor and receive an accurate and complete statement of those promises and warranties, including any disclaimers and limitations of them or of remedies;

(j) "lease" means a transfer of the right to possession and use of goods for a term in return for consideration, but a sale, including a sale on approval or a

sale or return, or retention or creation of a security interest is not a lease; unless the context clearly indicates otherwise, the term includes a sublease;

(k) "lease agreement" means the bargain, with respect to the lease, of the lessor and the lessee in fact as found in their language or by implication from other circumstances, including course of dealing or usage or trade or course of performance as provided in this article; unless the context clearly indicates otherwise, the term includes a sublease agreement;

(t) "merchant lessee" means a lessee that is a merchant with respect to goods of the kind subject to the lease;

(u) "present value" means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain. The discount is determined by the interest rate specified by the parties if the rate was not manifestly unreasonable at the time the transaction was entered into; otherwise, the discount is determined by a commercially reasonable rate that takes into account the facts and circumstances of each case at the time the transaction was entered into;

(v) "purchase" includes taking by sale, lease, mortgage, security interest, pledge, gift or any other voluntary transaction creating an interest in goods;

(3) If the lessor or the lessee is in default under the lease contract, the party seeking enforcement may reduce the party's claim to judgment, or otherwise enforce the lease contract by self-help or any available judicial procedure or nonjudicial procedure, including administrative proceeding, arbitration or the like, in accordance with this article.

Chapter 144 Section 39 Laws 2005

Section 39. Section 55-2A-514 NMSA 1978 (being Laws 1992, Chapter 114, Section 69) is amended to read:

"55-2A-514. WAIVER OF LESSEE'S OBJECTIONS.--

(1) In rejecting goods, a lessee's failure to state a particular defect that is ascertainable by reasonable inspection precludes the lessee from relying on the defect to justify rejection or to establish default:

(a) if, stated seasonably, the lessor or the supplier could have cured it (Section 55-2A-513 NMSA 1978); or

(b) between merchants if the lessor or the supplier after rejection has made a request in writing for a full and final written statement of all defects on which the lessee proposes to rely.

(2) A lessee's failure to reserve rights when paying rent or other consideration against documents precludes recovery of the payment for defects apparent in the documents."

Chapter 144 Section 40 Laws 2005

Section 40. Section 55-2A-518 NMSA 1978 (being Laws 1992, Chapter 114, Section 73) is amended to read:

"55-2A-518. COVER--SUBSTITUTE GOODS.--

(1) After a default by a lessor under the lease contract of the type described in Subsection (1) of Section 55-2A-508 NMSA 1978, or, if agreed, after other default by the lessor, the lessee may cover by making any purchase or lease or contract to purchase or lease goods in substitution for those due from the lessor.

(2) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 55-2A-504 NMSA 1978) or otherwise determined pursuant to agreement of the parties (Section 55-1-302 NMSA 1978 and Section 55-2A-503 NMSA 1978), if a lessee's cover is by a lease agreement substantially similar to the original lease agreement and the new lease agreement is made in good faith and in a commercially reasonable manner, the lessee may recover from the lessor as damages: (i) the present value, as of the date of the commencement of the term of the new lease agreement, of the rent under the new lease agreement applicable to that period of the new lease term that is comparable to the then remaining term of the original lease agreement minus the present value as of the same date of the total rent for the then remaining lease term of the original lease agreement; and (ii) any incidental or consequential damages, less expenses saved in consequence of the lessor's default.

(3) If a lessee's cover is by lease agreement that for any reason does not qualify for treatment under Subsection (2) of this section, or is by purchase or otherwise, the lessee may recover from the lessor as if the lessee had elected not to cover and Section 55-2A-519 NMSA 1978 governs."

Chapter 144 Section 41 Laws 2005

Section 41. Section 55-2A-519 NMSA 1978 (being Laws 1992, Chapter 114, Section 74) is amended to read:

"55-2A-519. LESSEE'S DAMAGES FOR NON-DELIVERY, REPUDIATION, DEFAULT AND BREACH OF WARRANTY IN REGARD TO ACCEPTED GOODS.--

(1) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 55-2A-504 NMSA 1978) or otherwise determined pursuant to agreement of the parties (Sections 55-1-302 and 55-2A-503 NMSA 1978), if a lessee elects not to cover or a lessee elects to cover and the cover is by lease agreement that for any reason does not qualify for treatment under Subsection (2) of Section 55-2A-518 NMSA 1978, or is by purchase or otherwise, the measure of damages for non-delivery or repudiation by the lessor or for rejection or revocation of acceptance by the lessee is the present value, as of the date of the default, of the then market rent minus the present value as of the same date of the original rent, computed for the remaining lease term of the original lease agreement, together with incidental and consequential damages, less expenses saved in consequence of the lessor's default.

(2) Market rent is to be determined as of the place for tender or, in cases of rejection after arrival or revocation of acceptance, as of the place of arrival.

(3) Except as otherwise agreed, if the lessee has accepted goods and given notification (Subsection (3) of Section 55-2A-516 NMSA 1978), the measure of damages for nonconforming tender or delivery or other default by a lessor is the loss resulting in the ordinary course of events from the lessor's default as determined in any manner that is reasonable together with incidental and consequential damages, less expenses saved in consequence of the lessor's default.

(4) Except as otherwise agreed, the measure of damages for breach of warranty is the present value at the time and place of acceptance of the difference between the value of the use of the goods accepted and the value if they had been as warranted for the lease term, unless special circumstances show proximate damages of a different amount, together with incidental and consequential damages, less expenses saved in consequence of the lessor's default or breach of warranty."

Chapter 144 Section 42 Laws 2005

Section 42. Section 55-2A-526 NMSA 1978 (being Laws 1992, Chapter 114, Section 81) is amended to read:

"55-2A-526. LESSOR'S STOPPAGE OF DELIVERY IN TRANSIT OR OTHERWISE.--

(1) A lessor may stop delivery of goods in the possession of a carrier or other bailee if the lessor discovers the lessee to be insolvent and may stop delivery of carload, truckload, planeload or larger shipments of express or freight if the lessee repudiates or fails to make a payment due before delivery, whether for rent, security or otherwise under the lease contract, or for any other reason the lessor has a right to withhold or take possession of the goods.

(2) In pursuing its remedies under Subsection (1) of this section, the lessor may stop delivery until:

(a) receipt of the goods by the lessee;

(b) acknowledgment to the lessee by any bailee of the goods, except a carrier, that the bailee holds the goods for the lessee; or

(c) such an acknowledgment to the lessee by a carrier via reshipment or as a warehouse.

(3) To stop delivery, a lessor shall so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.

(4) After notification, the bailee shall hold and deliver the goods according to the directions of the lessor, but the lessor is liable to the bailee for any ensuing charges or damages.

(5) A carrier who has issued a nonnegotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor."

Chapter 144 Section 43 Laws 2005

Section 43. Section 55-2A-527 NMSA 1978 (being Laws 1992, Chapter 114, Section 82) is amended to read:

"55-2A-527. LESSOR'S RIGHTS TO DISPOSE OF GOODS.--

(1) After a default by a lessee under the lease contract of the type described in Subsection (1) or Paragraph (a) of Subsection (3) of Section 55-2A-523 NMSA 1978 or after the lessor refuses to deliver or takes possession of goods (Section 55-2A-525 or 55-2A-526 NMSA 1978), or, if agreed, after other default by a lessee, the lessor may dispose of the goods concerned or the undelivered balance thereof by lease, sale or otherwise.

(2) Except as otherwise provided with respect to damages liquidated in the lease agreement (Section 55-2A-504 NMSA 1978) or otherwise determined pursuant to agreement of the parties (Sections 55-1-302 and 55-2A-503 NMSA 1978), if the disposition is by lease agreement substantially similar to the original lease agreement and the new lease agreement is made in good faith and in a commercially reasonable manner, the lessor may recover from the lessee as damages: (i) accrued and unpaid rent as of the date of the commencement of the term of the new lease agreement; (ii) the present value, as of the same date, of the total rent for the then remaining lease term of the original lease agreement minus the present value, as of the same date, of the rent under the new lease agreement applicable to that period of the new lease term which is comparable to the then remaining term of the original lease agreement; and (iii) any incidental damages allowed under Section 55-2A-530 NMSA 1978, less expenses saved in consequence of the lessee's default.

(3) If the lessor's disposition is by lease agreement that for any reason does not qualify for treatment under Subsection (2) of this section, or is by sale or otherwise, the lessor may recover from the lessee as if the lessor had elected not to dispose of the goods and Section 55-2A-528 NMSA 1978 governs.

(4) A subsequent buyer or lessee who buys or leases from the lessor in good faith for value as a result of a disposition under this section takes the goods free of the original lease contract and any rights of the original lessee even though the lessor fails to comply with one or more of the requirements of this article.

(5) The lessor is not accountable to the lessee for any profit made on any disposition. A lessee who has rightfully rejected or justifiably revoked acceptance shall account to the lessor for any excess over the amount of the lessee's security interest (Subsection (5) of Section 55-2A-508 NMSA 1978)."

Chapter 144 Section 44 Laws 2005

Section 44. Section 55-2A-528 NMSA 1978 (being Laws 1992, Chapter 114, Section 83) is amended to read:

"55-2A-528. LESSOR'S DAMAGES FOR NONACCEPTANCE, FAILURE TO PAY, REPUDIATION OR OTHER DEFAULT.--

(1) Except as otherwise provided with respect to damages liquidated in the lease agreement (NMSA 1978) or otherwise determined pursuant to agreement of the parties (Sections 55-1-302 and 55-2A-503 NMSA 1978), if a lessor elects to retain the goods or a lessor elects to dispose of the goods and the disposition is by lease agreement that for any reason does not qualify for treatment under Subsection (2) of Section 55-2A-527 NMSA 1978, or is by sale or otherwise, the lessor may recover from the lessee as damages for a default of the type described in Subsection (1) or Paragraph (a) of Subsection (3) of Section 55-2A-523 NMSA 1978, or, if agreed, for other default of the lessee: (i) accrued and unpaid rent as of the date of default if the lessee has never taken possession of the goods, or, if the lessee has taken possession of the goods, as of the date the lessor repossesses the goods or an earlier date on which the lessee makes a tender of the goods to the lessor; (ii) the present value as of the date determined under clause (i) of the total rent for the then remaining lease term of the original lease agreement minus the present value as of the same date of the market rent at the place where the goods are located computed for the same lease term; and (iii) any incidental damages allowed under Section 55-2A-530 NMSA 1978, less expenses saved in consequence of the lessee's default.

(2) If the measure of damages provided in Subsection (1) of this section is inadequate to put a lessor in as good a position as performance would have, the measure of damages is the present value of the profit, including reasonable overhead, the lessor would have made from full performance by the lessee, together with any

incidental damages allowed under Section 55-2A-530 NMSA 1978, due allowance for costs reasonably incurred and due credit for payments or proceeds of disposition."

(a) A collecting bank has a security interest in an item and any accompanying documents or the proceeds of either:

(1) in the case of an item deposited in an account, to the extent to which credit given for the item has been withdrawn or applied;

(2) in the case of an item for which it has given credit available for withdrawal as of right, to the extent of the credit given, whether or not the credit is drawn upon or there is a right of charge-back; or

Chapter 144 Section 49 Laws 2005

Section 49. Section 55-4A-106 NMSA 1978 (being Laws 1992, Chapter 114, Section 202) is amended to read:

"55-4A-106. TIME PAYMENT ORDER IS RECEIVED.--

(a) The time of receipt of a payment order or communication canceling or amending a payment order is determined by the rules applicable to receipt of a notice stated in Section 55-1-202 NMSA 1978. A receiving bank may fix a cut-off time or times on a funds-transfer business day for the receipt and processing of payment orders and communications canceling or amending payment orders. Different cut-off times may apply to payment orders, cancellations or amendments. A cut-off time may apply to senders generally or different cut-off times may apply to different senders or categories of payment orders. If a payment order or communication canceling or amending a payment order is received after the close of a funds-transfer business day or after the appropriate cut-off time on a funds-transfer business day, the receiving bank may treat the payment order or communication as received at the opening of the next funds-transfer business day.

(b) If this article refers to an execution date or payment date or states a day on which a receiving bank is required to take action, and the date or day does not fall on a funds-transfer business day, the next day that is a funds-transfer business day is treated as the date or day stated, unless the contrary is stated in this article."

Chapter 144 Section 50 Laws 2005

Section 50. Section 55-4A-204 NMSA 1978 (being Laws 1992, Chapter 114, Section 208) is amended to read:

"55-4A-204. REFUND OF PAYMENT AND DUTY OF CUSTOMER TO REPORT WITH RESPECT TO UNAUTHORIZED PAYMENT ORDER.--

(a) If a receiving bank accepts a payment order issued in the name of its customer as sender that is: (i) not authorized and not effective as the order of the customer under Section 55-4A-202 NMSA 1978; or (ii) not enforceable, in whole or in part, against the customer under Section 55-4A-203 NMSA 1978, the bank shall refund any payment of the payment order received from the customer to the extent the bank is not entitled to enforce payment and shall pay interest on the refundable amount calculated from the date the bank received payment to the date of the refund. However, the customer is not entitled to interest from the bank on the amount to be refunded if the customer fails to exercise ordinary care to determine that the order was not authorized

by the customer and to notify the bank of the relevant facts within a reasonable time not exceeding ninety days after the date the customer received notification from the bank that the order was accepted or that the customer's account was debited with respect to the order. The bank is not entitled to any recovery from the customer on account of a failure by the customer to give notification as stated in this section.

(b) Reasonable time under Subsection (a) of this section may be fixed by agreement as stated in Subsection (b) of Section 55-1-302 NMSA 1978, but the obligation of a receiving bank to refund payment as stated in Subsection (a) of this section may not otherwise be varied by agreement."

Chapter 144 Section 51 Laws 2005

Section 51. Section 55-5-103 NMSA 1978 (being Laws 1997, Chapter 75, Section 5) is amended to read:

"55-5-103. SCOPE.--

(a) This article applies to letters of credit and to certain rights and obligations arising out of transactions involving letters of credit.

(b) The statement of a rule in this article does not by itself require, imply or negate application of the same or a different rule to a situation not provided for, or to a person not specified, in this article.

(c) With the exception of this subsection, Subsections (a) and (d) of this section, Paragraphs (9) and (10) of Subsection (a) of Section 55-5-102 NMSA 1978, Subsection (d) of Section 55-5-106 NMSA 1978 and Subsection (d) of Section 55-5-114 NMSA 1978, and except to the extent prohibited in Section 55-1-302 NMSA 1978 and Subsection (d) of Section 55-5-117 NMSA 1978, the effect of this article may be varied by agreement or by a provision stated or incorporated by reference in an undertaking. A term in an agreement or undertaking generally excusing liability or generally limiting remedies for failure to perform obligations is not sufficient to vary obligations prescribed by this article.

(d) Rights and obligations of an issuer to a beneficiary or a nominated person under a letter of credit are independent of the existence, performance or nonperformance of a contract or arrangement out of which the letter of credit arises or which underlies it, including contracts or arrangements between the issuer and the applicant and between the applicant and the beneficiary."

"55-7-103. RELATION OF ARTICLE TO TREATY OR STATUTE.--

(b) Chapter 55, Article 7 NMSA 1978 does not modify or repeal any law prescribing the form or content of a document of title or the services or facilities to be afforded by a bailee, or otherwise regulating a bailee's business in respects not specifically treated in this article. However, violation of such a law does not affect the status of a document of title that otherwise is within the definition of a document of title.

(c) This Uniform Commercial Code modifies, limits and supersedes the federal Electronic Signatures in Global and National Commerce Act (15 U.S.C. Section 7001, et. seq.) but does not modify, limit or supersede Section 101(c) of that act (15

(b) A document of title other than one described in Subsection (a) of this section is nonnegotiable. A bill of lading that states that the goods are consigned to a named person is not made negotiable by a provision that the goods are to be delivered only against an order in a record signed by the same or another named person.

(c) A document of title is nonnegotiable if, at the time it is issued, the document has a conspicuous legend, however expressed, that it is nonnegotiable."

Chapter 144 Section 55 Laws 2005

Section 55. Section 55-7-105 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-105) is repealed and a new Section 55-7-105 NMSA 1978 is enacted to read:

"55-7-105. REISSUANCE IN ALTERNATIVE MEDIUM.--

(a) Upon request of a person entitled under an electronic document of title, the issuer of the electronic document may issue a tangible document of title as a substitute for the electronic document if:

(1) the person entitled under the electronic document surrenders control of the document to the issuer; and

(2) the tangible document when issued contains a statement that it is issued in substitution for the electronic document.

(b) Upon issuance of a tangible document of title in substitution for an electronic document of title in accordance with Subsection (a) of this section:

(1) the electronic document ceases to have any effect or validity;
and

(2) the person that procured issuance of the tangible document warrants to all subsequent persons entitled under the tangible document that the warrantor was a person entitled under the electronic document when the warrantor surrendered control of the electronic document to the issuer.

(c) Upon request of a person entitled under a tangible document of title, the issuer of the tangible document may issue an electronic document of title as a substitute for the tangible document if:

(1) the person entitled under the tangible document surrenders possession of the document to the issuer; and

(2) the electronic document when issued contains a statement that it is issued in substitution for the tangible document.

(d) Upon issuance of an electronic document of title in substitution for a tangible document of title in accordance with Subsection (c) of this section:

(1) the tangible document ceases to have any effect or validity; and

(2) the person that procured issuance of the electronic document warrants to all subsequent persons entitled under the electronic document that the warrantor was a person entitled under the tangible document when the warrantor surrendered possession of the tangible document to the issuer."

Chapter 144 Section 56 Laws 2005

Section 56. A new Section 55-7-106 NMSA 1978 is enacted to read:

"55-7-106. CONTROL OF ELECTRONIC DOCUMENT OF TITLE.--

(a) A person has control of an electronic document of title if a system employed for evidencing the transfer of interests in the electronic document reliably establishes that person as the person to which the electronic document was issued or transferred.

(b) A system satisfies Subsection (a) of this section, and a person is deemed to have control of an electronic document of title, if the document is created, stored and assigned in such a manner that:

(1) a single authoritative copy of the document exists that is unique, identifiable and, except as otherwise provided in Paragraphs (4), (5) and (6) of this subsection, unalterable;

(2) the authoritative copy identifies the person asserting control as:

(A) the person to which the document was issued; or

(B) if the authoritative copy indicates that the document has been transferred, the person to which the document was most recently transferred;

(3) the authoritative copy is communicated to and maintained by the person asserting control or its designated custodian;

(4) copies or amendments that add or change an identified assignee of the authoritative copy can be made only with the consent of the person asserting control;

(5) each copy of the authoritative copy and any copy of a copy is readily identifiable as a copy that is not the authoritative copy; and

(6) any amendment of the authoritative copy is readily identifiable as authorized or unauthorized."

PART 2

WAREHOUSE RECEIPTS: SPECIAL PROVISIONS

Chapter 144 Section 57 Laws 2005

Section 57. Section 55-7-201 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-201) is repealed and a new Section 55-7-201 NMSA 1978 is enacted to read:

"55-7-201. PERSON THAT MAY ISSUE A WAREHOUSE RECEIPT--STORAGE UNDER BOND.--

(a) A warehouse receipt may be issued by any warehouse.

(b) If goods, including distilled spirits and agricultural commodities, are stored under a statute requiring a bond against withdrawal or a license for the issuance of receipts in the nature of warehouse receipts, a receipt issued for the goods is deemed to be a warehouse receipt even if issued by a person that is the owner of the goods and is not a warehouse."

Chapter 144 Section 58 Laws 2005

Section 58. Section 55-7-202 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-202) is repealed and a new Section 55-7-202 NMSA 1978 is enacted to read:

"55-7-202. FORM OF WAREHOUSE RECEIPT--EFFECT OF OMISSION.--

(a) A warehouse receipt need not be in any particular form.

(b) Unless a warehouse receipt provides for each of the following, the warehouse is liable for damages caused to a person injured by its omission:

(1) a statement of the location of the warehouse facility where the goods are stored;

(2) the date of issue of the receipt;

(3) the unique identification code of the receipt;

(4) a statement whether the goods received will be delivered to the bearer, to a named person or to a named person or its order;

(5) the rate of storage and handling charges, unless goods are stored under a field warehousing arrangement, in which case a statement of that fact is sufficient on a nonnegotiable receipt;

(6) a description of the goods or the packages containing them;

(7) the signature of the warehouse or its agent;

(8) if the receipt is issued for goods that the warehouse owns, either solely, jointly or in common with others, a statement of the fact of that ownership; and

(9) a statement of the amount of advances made and of liabilities incurred for which the warehouse claims a lien or security interest, unless the precise amount of advances made or liabilities incurred, at the time of the issue of the receipt, is unknown to the warehouse or to its agent that issued the receipt, in which case a statement of the fact that advances have been made or liabilities incurred and the purpose of the advances or liabilities is sufficient.

(c) A warehouse may insert in its receipt any terms that are not contrary to the Uniform Commercial Code and do not impair its obligation of delivery under Section 55-7-403 NMSA 1978 or its duty of care under Section 55-7-204 NMSA 1978. Any contrary provision is ineffective."

Chapter 144 Section 59 Laws 2005

Section 59. Section 55-7-203 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-203) is repealed and a new Section 55-7-203 NMSA 1978 is enacted to read:

"55-7-203. LIABILITY FOR NONRECEIPT OR MISDESCRIPTION.--A party to or purchaser for value in good faith of a document of title, other than a bill of lading, that

relies upon the description of the goods in the document may recover from the issuer damages caused by the nonreceipt or misdescription of the goods, except to the extent that:

(1) the document conspicuously indicates that the issuer does not know whether all or part of the goods in fact were received or conform to the description, such as a case in which the description is in terms of marks or labels or kind, quantity or condition or the receipt or description is qualified by "contents, condition, and quality unknown", "said to contain" or words of similar import, if the indication is true; or

(2) the party or purchaser otherwise has notice of the nonreceipt or misdescription."

Chapter 144 Section 60 Laws 2005

Section 60. Section 55-7-204 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-204) is repealed and a new Section 55-7-204 NMSA 1978 is enacted to read:

"55-7-204. DUTY OF CARE--CONTRACTUAL LIMITATION OF WAREHOUSE'S LIABILITY.--

(a) A warehouse is liable for damages for loss of or injury to the goods caused by its failure to exercise care with regard to the goods that a reasonably careful person would exercise under similar circumstances. Unless otherwise agreed, the warehouse is not liable for damages that could not have been avoided by the exercise of that care.

(b) Damages may be limited by a term in the warehouse receipt or storage agreement limiting the amount of liability in case of loss or damage beyond which the warehouse is not liable. Such a limitation is not effective with respect to the warehouse's liability for conversion to its own use. On request of the bailor in a record at the time of signing the storage agreement or within a reasonable time after receipt of the warehouse receipt, the warehouse's liability may be increased on part or all of the goods covered by the storage agreement or the warehouse receipt. In this event, increased rates may be charged based on an increased valuation of the goods.

(c) Reasonable provisions as to the time and manner of presenting claims and commencing actions based on the bailment may be included in the warehouse receipt or storage agreement."

Chapter 144 Section 61 Laws 2005

Section 61. Section 55-7-205 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-205) is repealed and a new Section 55-7-205 NMSA 1978 is enacted to read:

"55-7-205. TITLE UNDER WAREHOUSE RECEIPT DEFEATED IN CERTAIN CASES.--A buyer in ordinary course of business of fungible goods sold and delivered by a warehouse that is also in the business of buying and selling such goods takes the goods free of any claim under a warehouse receipt even if the receipt is negotiable and has been duly negotiated."

Chapter 144 Section 62 Laws 2005

Section 62. Section 55-7-206 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-206) is repealed and a new Section 55-7-206 NMSA 1978 is enacted to read:

"55-7-206. TERMINATION OF STORAGE AT WAREHOUSE'S OPTION.--

(a) A warehouse, by giving notice to the person on whose account the goods are held and any other person known to claim an interest in the goods, may require payment of any charges and removal of the goods from the warehouse at the termination of the period of storage fixed by the document of title or, if a period is not fixed, within a stated period not less than thirty days after the warehouse gives notice. If the goods are not removed before the date specified in the notice, the warehouse may sell them pursuant to Section 55-7-210 NMSA 1978.

(b) If a warehouse in good faith believes that goods are about to deteriorate or decline in value to less than the amount of its lien within the time provided in Subsection (a) of this section and Section 55-7-210 NMSA 1978, the warehouse may specify in the notice given under Subsection (a) of this section any reasonable shorter time for removal of the goods and, if the goods are not removed, may sell them at public sale held not less than one week after a single advertisement or posting.

(c) If, as a result of a quality or condition of the goods of which the warehouse did not have notice at the time of deposit, the goods are a hazard to other property, the warehouse facilities or other persons, the warehouse may sell the goods at public or private sale without advertisement or posting on reasonable notification to all persons known to claim an interest in the goods. If the warehouse, after a reasonable effort, is unable to sell the goods, it may dispose of them in any lawful manner and does not incur liability by reason of that disposition.

(d) A warehouse shall deliver the goods to any person entitled to them under Chapter 55, Article 7 NMSA 1978 upon due demand made at any time before sale or other disposition under this section.

(e) A warehouse may satisfy its lien from the proceeds of any sale or disposition under this section but shall hold the balance for delivery on the demand of any person to which the warehouse would have been bound to deliver the goods."

Chapter 144 Section 63 Laws 2005

Section 63. Section 55-7-207 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-207) is repealed and a new Section 55-7-207 NMSA 1978 is enacted to read:

"55-7-207. GOODS MUST BE KEPT SEPARATE--FUNGIBLE GOODS.--

(a) Unless the warehouse receipt provides otherwise, a warehouse shall keep separate the goods covered by each receipt so as to permit at all times identification and delivery of those goods. However, different lots of fungible goods may be commingled.

(b) If different lots of fungible goods are commingled, the goods are owned in common by the persons entitled thereto and the warehouse is severally liable to each owner for that owner's share. If, because of overissue, a mass of fungible goods is insufficient to meet all the receipts the warehouse has issued against it, the persons entitled include all holders to which overissued receipts have been duly negotiated."

Chapter 144 Section 64 Laws 2005

Section 64. Section 55-7-208 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-208) is repealed and a new Section 55-7-208 NMSA 1978 is enacted to read:

"55-7-208. ALTERED WAREHOUSE RECEIPTS.--If a blank in a negotiable tangible warehouse receipt has been filled in without authority, a good-faith purchaser for value and without notice of the lack of authority may treat the insertion as authorized. Any other unauthorized alteration leaves any tangible or electronic warehouse receipt enforceable against the issuer according to its original tenor."

Chapter 144 Section 65 Laws 2005

Section 65. Section 55-7-209 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-209) is repealed and a new Section 55-7-209 NMSA 1978 is enacted to read:

"55-7-209. LIEN OF WAREHOUSE.--

(a) A warehouse has a lien against the bailor on the goods covered by a warehouse receipt or storage agreement or on the proceeds thereof in its possession for charges for storage or transportation, including demurrage and terminal charges, insurance, labor or other charges, present or future, in relation to the goods, and for expenses necessary for preservation of the goods or reasonably incurred in their sale pursuant to law. If the person on whose account the goods are held is liable for similar charges or expenses in relation to other goods whenever deposited and it is stated in the warehouse receipt or storage agreement that a lien is claimed for charges and expenses in relation to other goods, the warehouse also has a lien against the goods covered by the warehouse receipt or storage agreement or on the proceeds thereof in its possession for those charges and expenses, whether or not the other goods have been delivered by the warehouse. However, as against a person to which a negotiable

warehouse receipt is duly negotiated, a warehouse's lien is limited to charges in an amount or at a rate specified in the warehouse receipt or, if no charges are so specified, to a reasonable charge for storage of the specific goods covered by the receipt subsequent to the date of the receipt.

(b) A warehouse may also reserve a security interest against the bailor for the maximum amount specified on the receipt for charges other than those specified in Subsection (a) of this section, such as for money advanced and interest. The security interest is governed by Chapter 55, Article 9 NMSA 1978.

(c) A warehouse's lien for charges and expenses under Subsection (a) of this section or a security interest under Subsection (b) of this section is also effective against any person that so entrusted the bailor with possession of the goods that a pledge of them by the bailor to a good-faith purchaser for value would have been valid. However, the lien or security interest is not effective against a person that before issuance of a document of title had a legal interest or a perfected security interest in the goods and that did not:

(1) deliver or entrust the goods or any document of title covering the goods to the bailor or the bailor's nominee with:

(A) actual or apparent authority to ship, store or sell;

(B) power to obtain delivery under Section 55-7-403 NMSA 1978; or

(C) power of disposition under Section 55-2-403, Subsection (2) of Section 55-2A-304, Subsection (2) of Section 55-2A-305, Section 55-9-320 or Subsection (c) of Section 55-9-321 NMSA 1978, or other statute or rule of law; or

(2) acquiesce in the procurement by the bailor or its nominee of any document.

(d) A warehouse's lien on household goods for charges and expenses in relation to the goods under Subsection (a) of this section is also effective against all persons if the depositor was the legal possessor of the goods at the time of deposit. In this subsection, "household goods" means furniture, furnishings or personal effects used by the depositor in a dwelling.

(e) A warehouse loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver."

Chapter 144 Section 66 Laws 2005

Section 66. Section 55-7-210 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-210, as amended) is repealed and a new Section 55-7-210 NMSA 1978 is enacted to read:

"55-7-210. ENFORCEMENT OF WAREHOUSE'S LIEN.--

(a) Except as otherwise provided in Subsection (b) of this section, a warehouse's lien may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a method different from that selected by the warehouse is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The warehouse sells in a commercially reasonable manner if the warehouse sells the goods in the usual manner in any recognized market therefor, sells at the price current in that market at the time of the sale or otherwise sells in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.

(b) A warehouse may enforce its lien on goods, other than goods stored by a merchant in the course of its business, only if the following requirements are satisfied:

(1) all persons known to claim an interest in the goods must be notified;

(2) the notification must include an itemized statement of the claim, a description of the goods subject to the lien, a demand for payment within a specified time not less than ten days after receipt of the notification and a conspicuous statement that, unless the claim is paid within that time, the goods will be advertised for sale and sold by auction at a specified time and place;

(3) the sale must conform to the terms of the notification;

(4) the sale must be held at the nearest suitable place to where the goods are held or stored; and

(5) after the expiration of the time given in the notification, an advertisement of the sale must be published once a week for two weeks consecutively in a newspaper of general circulation where the sale is to be held. The advertisement must include a description of the goods, the name of the person on whose account the goods are being held and the time and place of the sale. The sale must take place at least fifteen days after the first publication. If there is no newspaper of general

circulation where the sale is to be held, the advertisement must be posted at least ten days before the sale in not fewer than six conspicuous places in the neighborhood of the proposed sale.

(c) Before any sale pursuant to this section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this section. In that event, the goods may not be sold but must be retained by the warehouse subject to the terms of the receipt and Chapter 55, Article 7 NMSA 1978.

(d) A warehouse may buy at any public sale held pursuant to this section.

(e) A purchaser in good faith of goods sold to enforce a warehouse's lien takes the goods free of any rights of persons against which the lien was valid, despite the warehouse's noncompliance with this section.

(f) A warehouse may satisfy its lien from the proceeds of any sale pursuant to this section but shall hold the balance, if any, for delivery on demand to any person to which the warehouse would have been bound to deliver the goods.

(g) The rights provided by this section are in addition to all other rights allowed by law to a creditor against a debtor.

(h) If a lien is on goods stored by a merchant in the course of its business, the lien may be enforced in accordance with Subsection (a) or (b) of this section.

(i) A warehouse is liable for damages caused by failure to comply with the requirements for sale under this section and, in case of willful violation, is liable for conversion."

PART 3

BILLS OF LADING: SPECIAL PROVISIONS

Chapter 144 Section 67 Laws 2005

Section 67. Section 55-7-301 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-301) is repealed and a new Section 55-7-301 NMSA 1978 is enacted to read:

"55-7-301. LIABILITY FOR NONRECEIPT OR MISDESCRIPTION--"SAID TO CONTAIN"--"SHIPPER'S WEIGHT, LOAD AND COUNT"--IMPROPER HANDLING.--

(a) A consignee of a nonnegotiable bill of lading that has given value in good faith, or a holder to which a negotiable bill has been duly negotiated, relying upon the description of the goods in the bill or upon the date shown in the bill, may recover from the issuer damages caused by the misdating of the bill or the nonreceipt or

misdescription of the goods, except to the extent that the bill indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description, such as in a case in which the description is in terms of marks or labels or kind, quantity or condition or the receipt or description is qualified by "contents or condition of contents of packages unknown", "said to contain", "shipper's weight, load and count" or words of similar import, if that indication is true.

(b) If goods are loaded by the issuer of a bill of lading:

(1) the issuer shall count the packages of goods if shipped in packages and shall ascertain the kind and quantity if shipped in bulk; and

(2) words such as "shipper's weight, load and count" or words of similar import indicating that the description was made by the shipper are ineffective except as to goods concealed in packages.

(c) If bulk goods are loaded by a shipper that makes available to the issuer of a bill of lading adequate facilities for weighing those goods, the issuer shall ascertain the kind and quantity within a reasonable time after receiving the shipper's request in a record to do so. In that case, "shipper's weight" or words of similar import are ineffective.

(d) The issuer of a bill of lading, by including in the bill the words "shipper's weight, load and count", or words of similar import, may indicate that the goods were loaded by the shipper, and, if that statement is true, the issuer is not liable for damages caused by the improper loading. However, omission of such words does not imply liability for damages caused by improper loading.

(e) A shipper guarantees to an issuer the accuracy at the time of shipment of the description, marks, labels, number, kind, quantity, condition and weight, as furnished by the shipper, and the shipper shall indemnify the issuer against damage caused by inaccuracies in those particulars. This right of indemnity does not limit the issuer's responsibility or liability under the contract of carriage to any person other than the shipper."

Chapter 144 Section 68 Laws 2005

Section 68. Section 55-7-302 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-302) is repealed and a new Section 55-7-302 NMSA 1978 is enacted to read:

"55-7-302. THROUGH BILLS OF LADING AND SIMILAR DOCUMENTS OF TITLE.--

(a) The issuer of a through bill of lading, or other document of title embodying an undertaking to be performed in part by a person acting as its agent or by a performing carrier, is liable to any person entitled to recover on the bill or other

document for any breach by the other person or the performing carrier of its obligation under the bill or other document. However, to the extent that the bill or other document covers an undertaking to be performed overseas or in territory not contiguous to the continental United States or an undertaking including matters other than transportation, this liability for breach by the other person or the performing carrier may be varied by agreement of the parties.

(b) If goods covered by a through bill of lading or other document of title embodying an undertaking to be performed in part by a person other than the issuer are received by that person, the person is subject, with respect to its own performance while the goods are in its possession, to the obligation of the issuer. The person's obligation is discharged by delivery of the goods to another person pursuant to the bill or other document and does not include liability for breach by any other person or by the issuer.

(c) The issuer of a through bill of lading or other document of title described in Subsection (a) of this section is entitled to recover from the performing carrier, or other person in possession of the goods when the breach of the obligation under the bill or other document occurred:

(1) the amount it may be required to pay to any person entitled to recover on the bill or other document for the breach, as may be evidenced by any receipt, judgment or transcript of judgment; and

(2) the amount of any expense reasonably incurred by the issuer in defending any action commenced by any person entitled to recover on the bill or other document for the breach."

Chapter 144 Section 69 Laws 2005

Section 69. Section 55-7-303 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-303) is repealed and a new Section 55-7-303 NMSA 1978 is enacted to read:

"55-7-303. DIVERSION--RECONSIGNMENT--CHANGE OF INSTRUCTIONS.--

(a) Unless the bill of lading otherwise provides, a carrier may deliver the goods to a person or destination other than that stated in the bill or may otherwise dispose of the goods, without liability for misdelivery, on instructions from:

(1) the holder of a negotiable bill;

(2) the consignor on a nonnegotiable bill, even if the consignee has given contrary instructions;

(3) the consignee on a nonnegotiable bill in the absence of contrary instructions from the consignor, if the goods have arrived at the billed destination or if the consignee is in possession of the tangible bill or in control of the electronic bill; or

(4) the consignee on a nonnegotiable bill, if the consignee is entitled as against the consignor to dispose of the goods.

(b) Unless instructions described in Subsection (a) of this section are included in a negotiable bill of lading, a person to which the bill is duly negotiated may hold the bailee according to the original terms."

Chapter 144 Section 70 Laws 2005

Section 70. Section 55-7-304 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-304) is repealed and a new Section 55-7-304 NMSA 1978 is enacted to read:

"55-7-304. TANGIBLE BILLS OF LADING IN A SET.--

(a) Except as customary in international transportation, a tangible bill of lading may not be issued in a set of parts. The issuer is liable for damages caused by violation of this subsection.

(b) If a tangible bill of lading is lawfully issued in a set of parts, each of which contains an identification code and is expressed to be valid only if the goods have not been delivered against any other part, the whole of the parts constitutes one bill.

(c) If a tangible negotiable bill of lading is lawfully issued in a set of parts and different parts are negotiated to different persons, the title of the holder to which the first due negotiation is made prevails as to both the document of title and the goods even if any later holder may have received the goods from the carrier in good faith and discharged the carrier's obligation by surrendering its part.

(d) A person that negotiates or transfers a single part of a tangible bill of lading issued in a set is liable to holders of that part as if it were the whole set.

(e) The bailee shall deliver in accordance with Part 4 of this article against the first presented part of a tangible bill of lading lawfully issued in a set. Delivery in this manner discharges the bailee's obligation on the whole bill."

Chapter 144 Section 71 Laws 2005

Section 71. Section 55-7-305 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-305) is repealed and a new Section 55-7-305 NMSA 1978 is enacted to read:

"55-7-305. DESTINATION BILLS.--

(a) Instead of issuing a bill of lading to the consignor at the place of shipment, a carrier, at the request of the consignor, may procure the bill to be issued at destination or at any other place designated in the request.

(b) Upon request of any person entitled as against a carrier to control the goods while in transit and on surrender of possession or control of any outstanding bill of lading or other receipt covering the goods, the issuer, subject to Section 55-7-105 NMSA 1978, may procure a substitute bill to be issued at any place designated in the request."

Chapter 144 Section 72 Laws 2005

Section 72. Section 55-7-306 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-306) is repealed and a new Section 55-7-306 NMSA 1978 is enacted to read:

"55-7-306. ALTERED BILLS OF LADING.--An unauthorized alteration or filling in of a blank in a bill of lading leaves the bill enforceable according to its original tenor."

Chapter 144 Section 73 Laws 2005

Section 73. Section 55-7-307 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-307) is repealed and a new Section 55-7-307 NMSA 1978 is enacted to read:

"55-7-307. LIEN OF CARRIER.--

(a) A carrier has a lien on the goods covered by a bill of lading or on the proceeds thereof in its possession for charges after the date of the carrier's receipt of the goods for storage or transportation, including demurrage and terminal charges, and for expenses necessary for preservation of the goods incident to their transportation or reasonably incurred in their sale pursuant to law. However, against a purchaser for value of a negotiable bill of lading, a carrier's lien is limited to charges stated in the bill or the applicable tariffs or, if no charges are stated, a reasonable charge.

(b) A lien for charges and expenses under Subsection (a) of this section on goods that the carrier was required by law to receive for transportation is effective against the consignor or any person entitled to the goods unless the carrier had notice that the consignor lacked authority to subject the goods to those charges and expenses. Any other lien under Subsection (a) of this section is effective against the consignor and any person that permitted the bailor to have control or possession of the goods unless the carrier had notice that the bailor lacked authority.

(c) A carrier loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver."

Chapter 144 Section 74 Laws 2005

Section 74. Section 55-7-308 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-308) is repealed and a new Section 55-7-308 NMSA 1978 is enacted to read:

"55-7-308. ENFORCEMENT OF CARRIER'S LIEN.--

(a) A carrier's lien on goods may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a method different from that selected by the carrier is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The carrier sells goods in a commercially reasonable manner if the carrier sells the goods in the usual manner in any recognized market therefor, sells at the price current in that market at the time of the sale or otherwise sells in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.

(b) Before any sale pursuant to this section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this section. In that event, the goods may not be sold but must be retained by the carrier, subject to the terms of the bill of lading and this article.

(c) A carrier may buy at any public sale pursuant to this section.

(d) A purchaser in good faith of goods sold to enforce a carrier's lien takes the goods free of any rights of persons against which the lien was valid, despite the carrier's noncompliance with this section.

(e) A carrier may satisfy its lien from the proceeds of any sale pursuant to this section but shall hold the balance, if any, for delivery on demand to any person to which the carrier would have been bound to deliver the goods.

(f) The rights provided by this section are in addition to all other rights allowed by law to a creditor against a debtor.

(g) A carrier's lien may be enforced pursuant to either Subsection (a) of this section or the procedure set forth in Subsection (b) of Section 55-7-210 NMSA 1978.

(h) A carrier is liable for damages caused by failure to comply with the requirements for sale under this section and, in case of willful violation, is liable for conversion."

Chapter 144 Section 75 Laws 2005

Section 75. Section 55-7-309 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-309) is repealed and a new Section 55-7-309 NMSA 1978 is enacted to read:

"55-7-309. DUTY OF CARE--CONTRACTUAL LIMITATION OF CARRIER'S LIABILITY.--

(a) A carrier that issues a bill of lading, whether negotiable or nonnegotiable, shall exercise the degree of care in relation to the goods that a reasonably careful person would exercise under similar circumstances. This subsection does not affect any statute, regulation or rule of law that imposes liability upon a common carrier for damages not caused by its negligence.

(b) Damages may be limited by a term in the bill of lading or in a transportation agreement that the carrier's liability may not exceed a value stated in the bill or transportation agreement if the carrier's rates are dependent upon value and the consignor is afforded an opportunity to declare a higher value and the consignor is advised of the opportunity. However, such a limitation is not effective with respect to the carrier's liability for conversion to its own use.

(c) Reasonable provisions as to the time and manner of presenting claims and commencing actions based on the shipment may be included in a bill of lading or a transportation agreement."

PART 4

WAREHOUSE RECEIPTS AND BILLS OF LADING: GENERAL OBLIGATIONS

Chapter 144 Section 76 Laws 2005

Section 76. Section 55-7-401 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-401) is repealed and a new Section 55-7-401 NMSA 1978 is enacted to read:

"55-7-401. IRREGULARITIES IN ISSUE OF RECEIPT OR BILL OR CONDUCT OF ISSUER.--The obligations imposed by Chapter 55, Article 7 NMSA 1978 on an issuer apply to a document of title even if:

(1) the document does not comply with the requirements of Chapter 55, Article 7 NMSA 1978 or of any other statute, rule or regulation regarding its issuance, form or content;

(2) the issuer violated laws regulating the conduct of its business;

(3) the goods covered by the document were owned by the bailee when the document was issued; or

(4) the person issuing the document is not a warehouse, but the document purports to be a warehouse receipt."

Chapter 144 Section 77 Laws 2005

Section 77. Section 55-7-402 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-402) is repealed and a new Section 55-7-402 NMSA 1978 is enacted to read:

"55-7-402. DUPLICATE DOCUMENT OF TITLE; OVERISSUE.--A duplicate or any other document of title purporting to cover goods already represented by an outstanding document of the same issuer does not confer any right in the goods, except as provided in the case of tangible bills of lading in a set of parts; overissue of documents for fungible goods; substitutes for lost, stolen or destroyed documents; or substitute documents issued pursuant to Section 55-7-105 NMSA 1978. The issuer is liable for damages caused by its overissue or failure to identify a duplicate document by a conspicuous notation."

Section 78. Section 55-7-403 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-403) is repealed and a new Section 55-7-403 NMSA 1978 is enacted to read:

"55-7-403. OBLIGATION OF BAILEE TO DELIVER--EXCUSE.--

(a) A bailee shall deliver the goods to a person entitled under a document of title if the person complies with Subsections (b) and (c) of this section, unless and to the extent that the bailee establishes any of the following:

(1) delivery of the goods to a person whose receipt was rightful as against the claimant;

(2) damage to or delay, loss or destruction of the goods for which the bailee is not liable;

(3) previous sale or other disposition of the goods in lawful enforcement of a lien or on a warehouse's lawful termination of storage;

(4) the exercise by a seller of its right to stop delivery pursuant to Section 55-2-705 NMSA 1978 or by a lessor of its right to stop delivery pursuant to Section 55-2A-526 NMSA 1978;

(5) a diversion, reconsignment or other disposition pursuant to Section 55-7-303 NMSA 1978;

(6) release, satisfaction or any other personal defense against the claimant; or

(7) any other lawful excuse.

(b) A person claiming goods covered by a document of title shall satisfy the bailee's lien if the bailee so requests or if the bailee is prohibited by law from delivering the goods until the charges are paid.

(c) Unless a person claiming the goods is a person against which the document of title does not confer a right under Subsection (a) of Section 55-7-503 NMSA 1978:

(1) the person claiming under a document shall surrender possession or control of any outstanding negotiable document covering the goods for cancellation or indication of partial deliveries; and

(2) the bailee shall cancel the document or conspicuously indicate in the document the partial delivery or the bailee is liable to any person to which the document is duly negotiated."

Chapter 144 Section 79 Laws 2005

Section 79. Section 55-7-404 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-404) is repealed and a new Section 55-7-404 NMSA 1978 is enacted to read:

"55-7-404. NO LIABILITY FOR GOOD-FAITH DELIVERY PURSUANT TO DOCUMENT OF TITLE.--A bailee that in good faith has received goods and delivered or otherwise disposed of the goods according to the terms of a document of title or pursuant to Chapter 55, Article 7 NMSA 1978 is not liable for the goods even if:

(1) the person from which the bailee received the goods did not have authority to procure the document or to dispose of the goods; or

(2) the person to which the bailee delivered the goods did not have authority to receive the goods."

PART 5

WAREHOUSE RECEIPTS AND BILLS OF LADING:

NEGOTIATION AND TRANSFER

Chapter 144 Section 80 Laws 2005

Section 80. Section 55-7-501 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-501) is repealed and a new Section 55-7-501 NMSA 1978 is enacted to read:

"55-7-501. FORM OF NEGOTIATION AND REQUIREMENTS OF DUE NEGOTIATION.--

(a) The following rules apply to a negotiable tangible document of title:

(1) if the document's original terms run to the order of a named person, the document is negotiated by the named person's indorsement and delivery. After the named person's indorsement in blank or to bearer, any person may negotiate the document by delivery alone;

(2) if the document's original terms run to bearer, it is negotiated by delivery alone;

(3) if the document's original terms run to the order of a named person and it is delivered to the named person, the effect is the same as if the document had been negotiated;

(4) negotiation of the document after it has been indorsed to a named person requires indorsement by the named person and delivery; and

(5) a document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith, without notice of any defense against or claim to it on the part of any person, and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves receiving the document in settlement or payment of a monetary obligation.

(b) The following rules apply to a negotiable electronic document of title:

(1) if the document's original terms run to the order of a named person or to bearer, the document is negotiated by delivery of the document to another person. Indorsement by the named person is not required to negotiate the document;

(2) if the document's original terms run to the order of a named person and the named person has control of the document, the effect is the same as if the document had been negotiated; and

(3) a document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith, without notice of any defense against or claim to it on the part of any person, and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves taking delivery of the document in settlement or payment of a monetary obligation;

(c) Indorsement of a nonnegotiable document of title neither makes it negotiable nor adds to the transferee's rights.

(d) The naming in a negotiable bill of lading of a person to be notified of the arrival of the goods does not limit the negotiability of the bill or constitute notice to a purchaser of the bill of any interest of that person in the goods."

Chapter 144 Section 81 Laws 2005

Section 81. Section 55-7-502 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-502) is repealed and a new Section 55-7-502 NMSA 1978 is enacted to read:

"55-7-502. RIGHTS ACQUIRED BY DUE NEGOTIATION.--

(a) Subject to Sections 55-7-205 and 55-7-503 NMSA 1978, a holder to which a negotiable document of title has been duly negotiated acquires thereby:

(1) title to the document;

(2) title to the goods;

(3) all rights accruing under the law of agency or estoppel, including rights to goods delivered to the bailee after the document was issued; and

(4) the direct obligation of the issuer to hold or deliver the goods according to the terms of the document free of any defense or claim by the issuer except those arising under the terms of the document or under Chapter 55, Article 7 NMSA 1978, but in the case of a delivery order, the bailee's obligation accrues only upon the bailee's acceptance of the delivery order and the obligation acquired by the holder is that the issuer and any indorser will procure the acceptance of the bailee.

(b) Subject to Section 55-7-503 NMSA 1978, title and rights acquired by due negotiation are not defeated by any stoppage of the goods represented by the document of title or by surrender of the goods by the bailee and are not impaired even if:

(1) the due negotiation or any prior due negotiation constituted a breach of duty;

(2) any person has been deprived of possession of a negotiable tangible document or control of a negotiable electronic document by misrepresentation, fraud, accident, mistake, duress, loss, theft or conversion; or

(3) a previous sale or other transfer of the goods or document has been made to a third person."

Chapter 144 Section 82 Laws 2005

Section 82. Section 55-7-503 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-503, as amended) is repealed and a new Section 55-7-503 NMSA 1978 is enacted to read:

"55-7-503. DOCUMENT OF TITLE TO GOODS DEFEATED IN CERTAIN CASES.--

(a) A document of title confers no right in goods against a person that before issuance of the document had a legal interest or a perfected security interest in the goods and that did not:

(1) deliver or entrust the goods or any document of title covering the goods to the bailor or the bailor's nominee with:

(A) actual or apparent authority to ship, store or sell;

(B) power to obtain delivery under Section 55-7-403 NMSA 1978; or

(C) power of disposition under Section 55-2-403, Subsection (2) of Section 55-2A-304, Subsection (2) of Section 55-2A-305, Section 55-9-320 or Subsection (c) of Section 55-9-321 NMSA 1978 or other statute or rule of law; or

(2) acquiesce in the procurement by the bailor or its nominee of any document.

(b) Title to goods based upon an unaccepted delivery order is subject to the rights of any person to which a negotiable warehouse receipt or bill of lading covering the goods has been duly negotiated. That title may be defeated under Section 55-7-504 NMSA 1978 to the same extent as the rights of the issuer or a transferee from the issuer.

(c) Title to goods based upon a bill of lading issued to a freight forwarder is subject to the rights of any person to which a bill issued by the freight forwarder is duly negotiated. However, delivery by the carrier in accordance with Part 4 of this article pursuant to its own bill of lading discharges the carrier's obligation to deliver."

Chapter 144 Section 830 Laws 2005

Section 83. Section 55-7-504 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-504) is repealed and a new Section 55-7-504 NMSA 1978 is enacted to read:

"55-7-504. RIGHTS ACQUIRED IN ABSENCE OF DUE NEGOTIATION--
EFFECT OF DIVERSION; STOPPAGE OF DELIVERY.--

(a) A transferee of a document of title, whether negotiable or nonnegotiable, to which the document has been delivered but not duly negotiated, acquires the title and rights that its transferor had or had actual authority to convey.

(b) In the case of a transfer of a nonnegotiable document of title, until but not after the bailee receives notice of the transfer, the rights of the transferee may be defeated:

(1) by those creditors of the transferor that could treat the transfer as void under Section 55-2-402 or 55-2A-308 NMSA 1978;

(2) by a buyer from the transferor in ordinary course of business if the bailee has delivered the goods to the buyer or received notification of the buyer's rights;

(3) by a lessee from the transferor in ordinary course of business if the bailee has delivered the goods to the lessee or received notification of the lessee's rights; or

(4) as against the bailee, by good-faith dealings of the bailee with the transferor.

(c) A diversion or other change of shipping instructions by the consignor in a nonnegotiable bill of lading that causes the bailee not to deliver the goods to the consignee defeats the consignee's title to the goods if the goods have been delivered to a buyer in ordinary course of business or a lessee in ordinary course of business and, in any event, defeats the consignee's rights against the bailee.

(d) Delivery of the goods pursuant to a nonnegotiable document of title may be stopped by a seller under Section 55-2-705 NMSA 1978 or a lessor under Section 55-2A-526 NMSA 1978, subject to the requirements of due notification in those sections. A bailee that honors the seller's or lessor's instructions is entitled to be indemnified by the seller or lessor against any resulting loss or expense."

Chapter 144 Section 84 Laws 2005

Section 84. Section 55-7-505 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-505) is repealed and a new Section 55-7-505 NMSA 1978 is enacted to read:

"55-7-505. INDORSER NOT GUARANTOR FOR OTHER PARTIES.--The indorsement of a tangible document of title issued by a bailee does not make the indorser liable for any default by the bailee or previous indorsers."

Chapter 144 Section 85 Laws 2005

Section 85. Section 55-7-506 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-506) is repealed and a new Section 55-7-506 NMSA 1978 is enacted to read:

"55-7-506. DELIVERY WITHOUT INDORSEMENT--RIGHT TO COMPEL INDORSEMENT.--The transferee of a negotiable tangible document of title has a

specifically enforceable right to have its transferor supply any necessary indorsement, but the transfer becomes a negotiation only as of the time the indorsement is supplied."

Chapter 144 Section 86 Laws 2005

Section 86. Section 55-7-507 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-507) is repealed and a new Section 55-7-507 NMSA 1978 is enacted to read:

"55-7-507. WARRANTIES ON NEGOTIATION OR DELIVERY OF DOCUMENT OF TITLE.--If a person negotiates or delivers a document of title for value, otherwise than as a mere intermediary under Section 55-7-508 NMSA 1978, unless otherwise agreed, the transferor, in addition to any warranty made in selling or leasing the goods, warrants to its immediate purchaser only that:

(1) the document is genuine;

(2) the transferor does not have knowledge of any fact that would impair the document's validity or worth; and

(3) the negotiation or delivery is rightful and fully effective with respect to the title to the document and the goods it represents."

Chapter 144 Section 87 Laws 2005

Section 87. Section 55-7-508 NMSA 1978 (being Laws 1961, Chapter 96, Section 7-508) is repealed and a new Section 55-7-508 NMSA 1978 is enacted to read:

"55-7-508. WARRANTIES OF COLLECTING BANK AS TO DOCUMENTS OF TITLE.--A collecting bank or other intermediary known to be entrusted with documents of title on behalf of another or with collection of a draft or other claim against delivery of documents warrants by the delivery of the documents only its own good faith and authority even if the collecting bank or other intermediary has purchased or made advances against the claim or draft to be collected."

Chapter 144 Section 88 Laws 2005

(a) If a document of title is lost, stolen or destroyed, a court may order delivery of the goods or issuance of a substitute document and the bailee may without liability to any person comply with the order. If the document was negotiable, a court may not order delivery of the goods or issuance of a substitute document without the claimant's posting security unless it finds that any person that may suffer loss as a result of nonsurrender of possession or control of the document is adequately protected against the loss. If the document was nonnegotiable, the court may require security. The court may also order payment of the bailee's reasonable costs and attorney fees in any action under this subsection.

(b) A bailee that, without a court order, delivers goods to a person claiming under a missing negotiable document of title is liable to any person injured thereby. If the delivery is not in good faith, the bailee is liable for conversion. Delivery in good faith is not conversion if the claimant posts security with the bailee in an amount at least double the value of the goods at the time of posting to indemnify any person injured by the delivery that files a notice of claim within one year after the delivery."

The bailee may not be compelled to deliver the goods pursuant to process until possession or control of the document is surrendered to the bailee or to the court. (c) The effectiveness of a filed financing statement lapses on the expiration of the period of its effectiveness unless before the lapse a continuation statement is filed pursuant to Subsection (d) of this section. Upon lapse, a financing statement ceases to be effective and any security interest or agricultural lien that was perfected by the financing statement becomes unperfected unless the security interest is perfected otherwise. If the security interest or agricultural lien becomes unperfected upon lapse, it is deemed never to have been perfected as against a purchaser of the collateral for value.

(d) A continuation statement may be filed only within six months before the expiration of the five-year period specified in Subsection (a) of this section or the thirty-year period specified in Subsection (b) of this section, whichever is applicable.

(e) Except as otherwise provided in Section 55-9-510 NMSA 1978, upon timely filing of a continuation statement, the effectiveness of the initial financing statement continues for a period of five years commencing on the day on which the financing statement would have become ineffective in the absence of the filing. Upon the expiration of the five-year period, the financing statement lapses in the same manner as provided in Subsection (c) of this section, unless, before the lapse, another continuation statement is filed pursuant to Subsection (d) of this section. Succeeding continuation statements may be filed in the same manner to continue the effectiveness of the initial financing statement.

(f) If a debtor is a transmitting utility and a filed financing statement so indicates, the financing statement is effective until a termination statement is filed. The filing officer may require proof of the debtor's authority to operate as a transmitting utility as a condition of filing the financing statement or an amendment.

(g) A record of a mortgage that is effective as a financing statement filed as a fixture filing under Subsection (c) of Section 55-9-502 NMSA 1978 remains effective as a financing statement filed as a fixture filing until the mortgage is released or satisfied of record or its effectiveness otherwise terminates as to the real property."

(b) Except as otherwise provided in Subsection (d) of this section, the fee for filing and indexing an initial financing statement of the following kind is the amount specified in Subsection (a) of this section plus:

(1) one hundred dollars (\$100) if the financing statement states that a debtor is a transmitting utility; and

(2) one hundred dollars (\$100) if the financing statement indicates that it is filed in connection with a manufactured-home transaction.

(c) The number of names required to be indexed does not affect the amount of the fee set forth in Subsections (a) and (b) of this section.

(d) This section does not require a fee with respect to a record of a mortgage that is effective as a financing statement filed as a fixture filing or as a financing statement covering as-extracted collateral or timber to be cut under Subsection (c) of Section 55-9-502 NMSA 1978. However, the recording fees that otherwise would be applicable to the record of the mortgage apply.

AN ACT

RELATING TO WORKERS' COMPENSATION; PROVIDING FOR AN INDEPENDENT MEDICAL EXAM; PROVIDING FOR PERIODIC EXAMINATIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 150 Section 1 Laws 2005

Section 1. Section 52-1-51 NMSA 1978 (being Laws 1929, Chapter 113, Section 19, as amended) is amended to read:

"52-1-51. PHYSICAL EXAMINATIONS OF WORKER--INDEPENDENT MEDICAL EXAMINATION--UNSANITARY OR INJURIOUS PRACTICES BY WORKER--TESTIMONY OF HEALTH CARE PROVIDERS.--

A. In the event of a dispute between the parties concerning the reasonableness or necessity of medical or surgical treatment, the date upon which maximum medical improvement was reached, the correct impairment rating for the worker, the cause of an injury or any other medical issue, if the parties cannot agree upon the use of a specific independent medical examiner, either party may petition a

workers' compensation judge for permission to have the worker undergo an independent medical examination. If a workers' compensation judge believes that an independent medical examination will assist the judge with the proper determination of any issue in the case, including the cause of the injury, the workers' compensation judge may order an independent medical examination upon the judge's own motion. The independent medical examination shall be performed immediately, pursuant to procedures adopted by the director, by a health care provider other than the designated health care provider, unless the employer and the worker otherwise agree.

B. In deciding who may conduct the independent medical examination, the workers' compensation judge shall not designate the health care provider initially chosen by the petitioner. The workers' compensation judge shall designate a health care provider on the approved list of persons authorized by the committee appointed by the advisory council on workers' compensation to create that list. The decision of the workers' compensation judge shall be final. The employer shall pay for any independent medical examination.

C. Only a health care provider who has treated the worker pursuant to Section 52-I-49 NMSA 1978 or the health care provider providing the independent medical examination pursuant to this section may offer testimony at any workers' compensation hearing concerning the particular injury in question.

D. If, pursuant to Subsection C of Section 52-I-49 NMSA 1978, either party selects a new health care provider, the other party shall be entitled to periodic examinations of the worker by the health care provider the worker previously selected. Examinations may not be required more frequently than at six-month intervals; except that upon application to the workers' compensation judge having jurisdiction of the claim and after reasonable cause therefor, examinations within six-month intervals may be ordered. In considering such applications, the workers' compensation judge shall exercise care to prevent harassment of the claimant.

E. If an independent medical examination or an examination pursuant to Subsection D of this section is requested, the worker shall travel to the place at which the examination shall be conducted. Within thirty days after the examination, the worker shall be compensated by the employer for all necessary and reasonable expenses incidental to submitting to the examination, including the cost of travel, meals, lodging, loss of pay or other like direct expense, but the amount to be compensated for meals and lodging shall not exceed that allowed for nonsalaried public officers under the Per Diem and Mileage Act.

F. No attorney shall be present at any examination authorized under this section.

G. Both the employer and the worker shall be given a copy of the report of the examination of the worker made by the independent health care provider pursuant to this section.

H. If a worker fails or refuses to submit to examination in accordance with this section, the worker shall forfeit all workers' compensation benefits that would accrue or become due to the worker except for that failure or refusal to submit to examination during the period that the worker persists in such failure and refusal unless the worker is by reason of disability unable to appear for examination.

I. If any worker persists in any unsanitary or injurious practice that tends to imperil, retard or impair the worker's recovery or increase the worker's disability or refuses to submit to such medical or surgical treatment as is reasonably essential to promote the worker's recovery, the workers' compensation judge may in the judge's discretion reduce or suspend the workers' compensation benefits."

(1) outdoor recreation shall be recognized as the dominant or primary resources management objective;

(2) physical development shall promote the outdoor recreation objective through the use of proper design, materials and construction to enhance and promote the use and enjoyment of the recreational resources in the area;

(3) within economical limits, state parks or state recreational facilities shall be landscaped and developed to achieve an environment that is aesthetically pleasing, ecologically functional and complementary to the native environment;

(4) use periods for parks or recreational facilities shall be extended by providing a variety of facilities that will attract visitors during all seasons of the year; and

(5) all significant historic structures contained in state parks or state recreational areas shall be, within economical limits, reconstructed, restored or stabilized to provide for continued user benefit.

E. Factors to be taken into consideration when lands are considered for acquisition or development as state parks or state recreational areas are:

(1) the character of the land resources, such as soil, vegetation, topography and water, that affects the suitability of the lands for development as parks or recreational areas;

(2) facilities development to meet the average and slightly higher than average demands rather than the peak demands of summer and the holiday weekends;

(3) development priority based upon demonstrated use and demand, balance and distribution of existing facilities and the availability of lands suitable for development; and

(4) resources protection shall also be considered a priority if the resources need urgent attention, but the priority shall be determined by the relative value of the resources involved.

F. The cost of lands to be proposed for acquisition or development as state parks or state recreational areas should be reasonable, with consideration given to the recreational value of the land on which the state park or state recreational area is to be located. No property shall be purchased that involves commitments, privileges or conditions to any private interest, except that property may be purchased that has restrictions limiting its use to that of a state park or state recreational area.

G. All lands considered for acquisition or development as new state parks or state recreational areas shall undergo a feasibility study prior to acquisition or development. Feasibility studies shall include:

I. The designation of sites as suitable for state parks or recreational areas, the designation of certain lands for acquisition or development, the consideration of lands for acquisition or studying the feasibility of acquisition or development of lands

shall not create a right of action on the part of any person to force action by the state parks division of the energy, minerals and natural resources department or the state.

J. Any acquisition of land or any interest in land for a new state park or recreational area shall be approved by the legislature prior to the execution of a written agreement binding the state to expenditure of funds for acquisition or development of state parks or recreational areas. Lands that are adjacent or contiguous to existing state parks or recreational areas or are necessary for successful park or recreational area protection and development and will become part of the park or recreational area may be acquired without legislative approval if the state parks division consults with local government entities on the acquisition and if the state board of finance approves the acquisition and funds for the acquisition are available to the state parks division of the energy, minerals and natural resources department or the land is donated to the division.

K. C. A notice calling for bids for the purchase of the bonds shall be published once at least one week prior to the date of the sale in a newspaper having local circulation. The notice shall specify a place and designate a day and hour subsequent to the date of the publication when bids shall be received and publicly opened for the purchase of the bonds. If all bids are rejected, the governing body may readvertise the bonds for sale in the same manner as for the original advertisement or sell the bonds at private sale to the state of New Mexico or the United States. If there are two or more equal bids and the bids are the best bids received, the governing body shall determine which bid shall be accepted.

D. Except as provided in this section, bonds to be issued by a municipal corporation for various purposes may be sold and issued as a single combined issue
